Margaret Hodge: Special educational needs co-ordinators (SENCOs) play a vital role, in conjunction with head teachers and governing bodies, in co-ordinating schools' work on identifying, assessing and meeting the needs of children with special educational needs.

The Office for Standards in Education considers the effectiveness of schools in meeting the needs of all learners and this takes account of the contribution made by SENCOs. Ofsted is currently carrying out a thematic study of the implementation of the inclusion framework introduced through the Special Educational Needs and Disability Act 2001 and the Special Educational Needs Code of Practice 2001. The code of practice introduced changes to the school based elements of SEN provision, including measures designed to help reduce paper work for SENCOs.

Mrs. Brooke: To ask the Secretary of State for Education and Skills what steps he is taking to ensure that teachers have appropriate training to identify and to respond to the special needs of children in school settings. [172342]

Margaret Hodge: New standards for Qualified Teacher Status (QTS) came into effect in September 2002 and new induction standards came into force a year later. Both place a greater emphasis on special educational needs (SEN). The Department's guidance on induction also reflects the duties of head teachers and schools under the Disability Discrimination Act 1995.

In order to be awarded QTS, trainee teachers must demonstrate that they understand their responsibilities under the statutory SEN Code of Practice, know how to seek advice from specialists on less common types of SEN, can differentiate their teaching to meet the needs of pupils, including those with SEN, and can identify and support pupils who experience behavioural, emotional and social difficulties.

The standards for the Induction Support Programme for those awarded QTS require that newly qualified teachers can demonstrate that they can plan effectively to meet the needs of pupils in their classes with SEN, with or without a statement, and, in consultation with the SEN co-ordinator, contribute to the preparation and implementation of individual education plans or the equivalent.

Once qualified, teachers are expected to identify their developmental needs through performance management arrangements, and to address identified needs, including improving their teaching skills in the area of SEN, by undertaking appropriate professional development.

Our recently published SEN Strategy, "Removing Barriers to Achievement", recognises the importance of training. We are committed to working closely with the Teacher Training Agency, higher education institutions and other interested parties to ensure that effective arrangements are in place.

Teenage Pregnancy

Mr. Hopkins: To ask the Secretary of State for Education and Skills what measures are being taken to reduce levels of teenage pregnancy in the UK. [172574]

Mr. Stephen Twigg *[holding answer 13 May 2004]:* The Government have set a target to reduce under 18 conceptions by 50 per cent. by 2010. To achieve this, each local authority has developed a local 10 year strategy, with reduction targets of between 40 and 60 per cent. Based on the best available international research, local strategies adopt a multifaceted approach, which includes a range of measures: to help young people resist peer pressure to have early sex; to improve the quality of sex and relationship education and access to effective contraceptive services; and to involve parents and the wider community. Research published in February 2003 by the Health Development Agency further endorses this approach.

Mr. Hopkins: To ask the Secretary of State for Education and Skills if he will make a statement on the effect of the Teenage Pregnancy Strategy on the number of teenage pregnancies in the UK. [172576]

Mr. Stephen Twigg *[holding answer 13 May 2004]:* Provisional data for 2002 published on 26 February by the Office for National Statistics, shows that the conception rate among under 18-year-olds in England has fallen by 9.4 per cent. since 1998 (baseline year for Teenage Pregnancy Strategy).

Under-five Testing

Mr. Simmonds: To ask the Secretary of State for Education and Skills if he will make a statement on the Government's policy on testing for under fives. [172629]

Margaret Hodge: We do not test under fives. We do ask for a written summary of a child's progress and learning needs at the end of the Foundation Stage, based on teacher observation. Assessment is an integral part of teaching and learning. The Foundation Stage Profile summary ensures that every child is assessed on a consistent basis. The information helps teachers and parents to support each child's development and progress; at local and national level it ensures that support is targeted appropriately to improve classroom practice.

TRANSPORT

Civil Contingencies

Patrick Mercer: To ask the Secretary of State for Transport what measures are in place to cope with the immediate *(a)* physical and *(b)* economic effects of a floating bomb. [170059]

Mr. Jamieson: The Government regulates a comprehensive maritime security regime under the Aviation and Maritime Security Act 1990. From 1 July 2004 this will be augmented by the introduction of the International Maritime Organisation's "International Ship and Port Facility Security (ISPS) Code". We have in addition measures that would enable us to respond proportionately to a range of scenarios.

The response to mitigate the economic effects would depend on the size and location of a particular incident.

Early Retirement

Bob Spink: To ask the Secretary of State for Transport how many staff in his Department took early retirement, and at what total cost, in the last financial year. [171867]

Mr. McNulty: In the financial year 2003–04, 11 officials of the Department for Transport took early retirement, i.e. before they reached the age of 60, at a cost of £1.45 million.

Electric Cars

Mr. Sheerman: To ask the Secretary of State for Transport what action his Department is taking to promote the use of electric cars. [173824]

Mr. Jamieson: The Department promotes the use of electric cars in a number of ways. The PowerShift programme provides grants towards the purchase of electric vehicles and the New Vehicle Technology Fund is currently supporting the demonstration of several electric vehicles. The Government also provides fiscal incentives. Electric vehicles are subject to zero vehicle excise duty, an enhanced capital allowance rate of 100 per cent. in the first year and lower personal benefit in kind tax liability. PowerShift approved electric vehicles are also exempt from the London Congestion Charge.

Mr. Sheerman: To ask the Secretary of State for Transport how many electric cars have been in use in each of the last 10 years. [173905]

Mr. Jamieson: The following number of electric cars were licensed at the end of each of the last 10 years.

	Number
1994	93
1995	74
1996	94
1997	116
1998	151
1999	195
2000	221
2001	272
2002	326
2003	372

DVLA vehicle database.

Light Rail

Mr. Damian Green: To ask the Secretary of State for Transport (1) what steps his Department is taking to encourage the building of light rail systems; and if he will make a statement; [171956]

(2) what assessment he has made of whether the target for 25 light rail systems set out in the 10-Year Transport Plan will be met. [171957]

Mr. McNulty: The Department recognises that light rail can bring significant benefits in some places, but has always been concerned with what works best locally and represents value for money, this may or not be light rail; it is not in the business of promoting one mode over another. The 10-Year Plan for Transport stated that up to 25 new light rail lines might be affordable with the 10-Year Plan provision subject to passing the Department's value for money criteria.

MOTs

John Thurso: To ask the Secretary of State for Transport when he expects the MOT computerisation system to be fully operational. [172136]

Mr. Jamieson: The computerised MOT service is due to go live on 29 November 2004. It will take approximately six months for Siemens Business Services to install computer terminals into all MOT testing stations and train station staff. Consequently, it will be June 2005 before all MOT testing is expected to be conducted using the new service. It will be a further year before there will be an electronic test record of every vehicle subject to test for re-licensing purposes.

John McDonnell: To ask the Secretary of State for Transport how the monies raised from MOT garages as a result of increased MOT certificate fees have been used. [173891]

Mr. Jamieson: All monies raised from MOT certificate fees have been credited to the MOT Scheme account. The funds have been used to finance MOT administration and enforcement activities and the costs incurred on the MOT Computerisation Project.

Any surpluses on the MOT schemes are identified in our Annual Report and Accounts and it is the intention to balance the scheme on a year-by-year basis.

Nettleton Bottom/Brockworth

Mr. Laurence Robertson: To ask the Secretary of State for Transport (1) what discussions he has had with the Highways Agency about the possibility of building a tunnel from Nettleton Bottom to the Brockworth Bypass, Gloucestershire; what advice he received from that body on this option; and if he will make a statement; [173791]

(2) what instructions he gave to the Highways Agency with regard to further investigations regarding improving the A417 between Nettleton Bottom and the Brockworth Bypass, Gloucestershire; and if he will make a statement; [173792]

(3) what assessment he has made of the environmental impact of *(a)* building a tunnel and *(b)* the current favoured option of the Highways Agency to improve the A417 between Nettleton Bottom and the Brockworth Bypass, Gloucestershire; and if he will make a statement; [173793]

(4) what estimate he has made of the cost of building a tunnel from Nettleton Bottom to the Brockworth Bypass, Gloucestershire; and if he will make a statement. [173794]

Mr. Jamieson: The interim findings of an environmental study, undertaken by the Highways Agency, to look at options for improving the length of A417 from Cowley to Brockworth were published in a pamphlet in March 2003. The tunnel option was discarded as a result of its high cost (at around £200 million), environmental impact and the implications for road safety. In the light of this the Highways Agency was asked to continue work on various surface options. This work is continuing in liaison with the statutory environmental bodies and other stakeholders. I expect to receive further advice on these options later this year. I will then consider the way forward and make an announcement.

Radioactive Materials

Norman Baker: To ask the Secretary of State for Transport whether radioactive materials may be legally transported *(a)* on passenger ferries and *(b)* through the Channel Tunnel. [173476]

Mr. Jamieson: The information requested is as follows:

(a) Yes. The transport of radioactive material on passenger ferries is permissible subject to the safety requirements and restrictions of the International Maritime Dangerous Goods Code, Amendment 31–02, as required by The Merchant Shipping (Dangerous Goods and Marine Pollutants) Regulations 1997 (SI 1997 No 2367); Merchant Shipping Notice No. M 1772(M), "The Carriage of Dangerous Goods and Marine Pollutants in Packaged Form—Amendment 31–02 to the International Maritime Dangerous Goods (IMDG) Code" and, where applicable, The Merchant Shipping (Carriage of Packaged Irradiated Nuclear Fuel etc.) (INF Code) Regulations 2000 (SI 2000 No 3216).

(b) Yes. Transport through the Channel Tunnel of limited amounts of radioactive material complying with RID[1]/ADR[2] is permissible only as authorised through Eurotunnel Freight by prior agreement between the manufacturer/producer and Eurotunnel. Radioactive

material other than that in/as Excepted Packages is further restricted to new manufactured goods in their original packaging.

[1] Convention concerning International Carriage by Rail (COTIF) Appendix B. Uniform Rules concerning the Contract for International Carriage of Goods by Rail (CIM) Annex 1 Regulations concerning the International Carriage of Dangerous Goods by Rail (RID) 2001 Edition.

[2] European Agreement concerning the International Carriage of Dangerous Goods by Road (ADR) 2001 Edition.

Road Schemes

Mr. Flook: To ask the Secretary of State for Transport if he will list the occasions on which his Department has asked regional assemblies to choose between alternative road schemes, broken down by region; and on what date assembly meetings were held to consider such alternatives. [173483]

Mr. Jamieson: The choice between alternative road scheme options is made by Ministers, not regional assemblies. However, through the regional planning process, the programme of multi-modal and road based studies, and the Highways Agency's consultation processes, we have obtained the views of regional assemblies on all trunk road and motorway schemes considered for entry to the Targeted Programme of Improvements, including, where relevant, their views on the choice between alternative scheme options. Given the number of schemes that have been subject to these processes since the establishment of the Targeted Programme of Improvements, it is not practicable to list all of the occasions on which the views of the regional assemblies have been sought or the dates of assembly meetings at which scheme proposals and alternative scheme options have been considered.

Port Security

Patrick Mercer: To ask the Secretary of State for Transport who is responsible for vetting the histories of applicants to become *(a)* port facility security officers and *(b)* airport security officers; and what the vetting process is. [169960]

Mr. Jamieson: Both port facility security officers and airport security officers are required to undergo appropriate vetting procedures. This is carried out by the vetting section of my Department's Transport Security Directorate (TRANSEC) in conjunction with other Government Agencies.

No Government clearance will be issued until we are satisfied the person in question does not pose a security threat. The vetting process includes stringent reference checks over a number of years, and a verification process to ensure no inexplicable gaps.

Patrick Mercer: To ask the Secretary of State for Transport (1) how much time it takes to train *(a)* port facility security officers and *(b)* airport security officers. [169961];

(2) whether the level of training given to port facility security officers will have to be reviewed for the UK to be compliant with the International Ship and Port Facility Code to be implemented by the UK on 1 July. [170066]

Mr. Jamieson: My Department's Transport Security Directorate (TRANSEC) is responsible for developing the required training standards and course criteria for Port and Airport Security Officers.

In order to comply with the International Ship and Port Facility Security Code (ISPS) Code, all Port Facility Security Officers (PFSOs) must have completed a TRANSEC approved PFSO course.

Under the UK National Aviation Security Programme all staff carrying out listed security activities at UK airports have to receive mandatory training modules applicable to their duties.

TRANSEC carries out regular audits of training providers to ensure high standards and compliance with legal requirements.

Ship Searches

Patrick Mercer: To ask the Secretary of State for Transport what percentage of cargo ships over 500 tonnes that docked in Britain in 2003 were boarded and searched by border security personnel. [170065]

Mr. Jamieson: Ships calling at UK ports may be boarded for a variety of reasons and such operations are conducted by different Government bodies and agencies; including the Police, Immigration, Customs and Excise, the Maritime and Coastguard Agency (MCA), and my own Department's Transport Security Directorate (TRANSEC) inspectors. This information is not collated centrally.

Trinity House Lighthouse Service

Mr. Gerrard: To ask the Secretary of State for Transport if he will place in the Library a copy of the report of the Business Process Review of Trinity House Lighthouse Service. [167359]

Mr. Jamieson: It is not within the remit of this Department to place a copy of the Report of the Review in the Library of the House, however, it has now been issued to staff and the Trade Unions who have accepted the Report's findings.

Under the provisions of the Merchant Shipping Act 1995, the Secretary of State is required to sanction expenditure by the General Lighthouse Authorities and any proposal to establish new aids to navigation. He has no powers of direction over GLA internal operational matters. The Business Process Review was an internal exercise commissioned by Trinity House Lighthouse Service (THLS) to examine their business processes and update these to take account of best practice and future needs of the lighthouse service.

In terms of granting access to official information, THLS as a non-departmental public body falls under the jurisdiction of the Parliamentary Commissioner for Administration. It therefore has its own commitment under the Code of Practice on Access to Government Information to extend access to official information and to respond to reasonable requests for information except where disclosure would not be in the public interest in accordance with statutory requirements and the exemptions set out in Part II of the Code. There is no commitment to provide access to documents as distinct

from information. Nor does the Code require Government Departments to acquire information that they do not possess.

Vehicle Activated Signs

Mr. Damian Green: To ask the Secretary of State for Transport how many vehicle activated signs are in operation in England. [171895]

Mr. Jamieson: This information is not held centrally. Local highway authorities are solely responsible for the installation of any traffic signs and all traffic calming measures including vehicle activated signs. The Highways Agency uses vehicle activated signs in special situations where standard signing has failed to resolve a speed related accident problem.

Mr. Damian Green: To ask the Secretary of State for Transport if he will estimate the *(a)* installation cost and *(b)* annual maintenance and running costs of vehicle activated signs. [171896]

Mr. Jamieson: This information is not held centrally. Local highway authorities are solely responsible for the purchase, installation and maintenance of any traffic calming measure, including vehicle activated signs. Variable Message Signs on motorways have an annual maintenance and running cost of £5,550 per sign per year.

Vehicle and Operator Services Agency

John McDonnell: To ask the Secretary of State for Transport what the Traffic Area Network's financial position was at the point of merger with the former Vehicle Inspectorate; and whether balances were transferred to the Vehicle and Operator Services Agency. [173888]

Mr. Jamieson: The financial position of the Traffic Area Network at the point of merger was contained within the Trading Fund Order which brought the Vehicle and Operator Services Agency into being—the Vehicle and Operator Services Agency Trading Order 2003 (SI 2003 No. 942). The balances transferred into the newly-formed VOSA, based on estimated valuations at that time, were as follows:

	£ million
Net Assets	58.2
Net Liabilities	42.6

John McDonnell: To ask the Secretary of State for Transport how much has been spent on the SchlumbergerSema contract in the Vehicle and Operator Services Agency, broken down by main expenditure category. [173892]

Mr. Jamieson: The SchlumbergerSema IT Business has been purchased by Atos Origin. The original contract came into effect on 1 January 2003. The expenditure for the financial year 2002–03 was £3.4 million and the estimated expenditure for the financial year 2003–04 is £14.2 million.

The detailed analysis of this cost is commercial in confidence.

John McDonnell: To ask the Secretary of State for Transport what impact on *(a)* services and *(b)* procedures of the Vehicle and Operator Services Agency the award of the contract to SchlumbergerSema has had. [173893]

Mr. Jamieson: The strategic partnership contract between Atos Origin (formerly SchlumbergerSema) and VOSA commenced in January 2003.

The 10-year relationship involves design, build and implementation of a series of integrated business solutions that will have a significant impact on VOSA's business and the quality of services it provides to its customers.

Early stages include enhancements to project and programme management and significant enhancement to the quality of the IT platform. This will allow development of better, more timely data for VOSA examiners and enable the introduction of new EU initiatives such as Digital Tachographs. This will in turn improve the targeting of likely offenders allowing law-abiding Operators to go about their business with less interference.

Future plans include developments of a commercial customer portal bringing together current DVO e-services for commercial customer along with a range of new 'e' enabled services, including e-test bookings and e-payments.

CABINET OFFICE

Contingency Planning

Patrick Mercer: To ask the Minister for the Cabinet Office whether he has created a working group to consider how to issue advice to individual households within the UK. [170054]

Mr. Alexander: A number of working groups have been established to develop the regulations and guidance which will accompany the Civil Contingencies Bill. These working groups are convened by the Cabinet Office, and include members from across the civil protection community. One of these working groups is considering those parts of the legislation covering awareness, warning and informing the public. Full details of these working groups were outlined in the Civil Contingencies Bill update letter to key stakeholders on 2 April 2004, a copy of which has been placed in the Library. A copy of the letter is also available at www.ukresilience.info

Patrick Mercer: To ask the Minister for the Cabinet Office what plans he has to issue advice to households in the UK detailing how to plan for and cope with a terrorist attack. [170127]

Mr. Alexander: As part of a deliberate strategy by my right hon. Friend the Home Secretary, an increasing amount of information and advice has been and will continue to be made available to the public about what to do in an emergency, including a terrorist attack.

Public safety is our first priority in all decisions about public information or warnings. If a warning is necessary to protect public safety in the face of a specific

and credible threat, we will issue one without hesitation, as well as giving out any further information that will help the public respond effectively.

The Government and the emergency services will provide immediate information and advice in the event of a discernible threat or a specific incident.

There is a wide range of advice and information on the terrorism section of the Home Office website at www.homeoffice.gov.uk/terrorism, at www.ukresilience.gov.uk and on the MI5 website at www.mi5.gov.uk

Government continue to review the best way to keep the public informed and consider alternatives as part of our wider package of information to the public accordingly.

CONSTITUTIONAL AFFAIRS

Immigration Appeals

Mr. Malins: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many caseworkers in the London office of the Legal Services Commission will deal with applications by publicly-funded providers of immigration services for extensions to the number of hours permitted for advice and appeal preparation; and what their *(a)* legal qualifications and *(b)* experience of immigration work are. [172150]

Mr. Lammy: There are 22 caseworkers in the London Office of the Legal Services Commission dealing with these applications. Seven of the caseworkers have been working on Legal Help, Controlled Legal Representation and certificated immigration and asylum work for over nine months, and three for over three years.

The London team has six solicitors, each of whom has a minimum of three years' immigration experience and acts as a coach and mentor for the more junior members of staff. The team can draw on support from a further three immigration solicitors, all with a minimum of three years' experience of immigration in private practice, and a team of eight consultants, all of whom are currently working in private practice.

The head of the London team has 19 years' experience in civil litigation and 15 years' experience in relation to immigration and asylum work specifically.

Public Defenders

Mr. Drew: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the implementation of the Public Defender System. [172992]

Mr. Lammy: In order to assess better the performance of the Public Defender Service (PDS) the Legal Services Commission (LSC), with the agreement of Ministers, increased the number of PDS offices from six to eight in 2003. Ministers will make a decision on the future of the PDS in the light of the research at the end of 2005. There are no current plans to open further offices but the Government and the LSC have always said that the PDS provides a flexible option to deliver criminal defence services where existing provision is low, or of poor quality.

Criminal Defence Service

Mr. George Howarth: To ask the Parliamentary Secretary, Department for Constitutional Affairs what action is being taken by the Legal Services Commission to ensure that the Criminal Defence Service works effectively with other parts of the criminal justice system in order to meet the needs of the community as a whole. [172320]

Mr. Lammy: The Legal Services Commission is heavily engaged with other agencies to improve the performance of the Criminal Justice System as a whole. The Commission is represented on key standing co-ordination and management groups, such as the National Criminal Justice Board and the Criminal Justice Council. It is playing an integral part in key reform initiatives, such as the Effective Trial Management Programme. In addition, it has a wide range of direct contacts with other agencies aimed at improving particular aspects of the system.

Mr. George Howarth: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the Legal Services Commission is doing to improve the quality of defence services in terms of delays caused in the administration of justice. [172321]

Mr. Lammy: The Legal Services Commission is working with other agencies within the Effective Trial Management Programme to reduce delays in court proceedings and in the number of ineffective trials.

Criminal Justice System

David Taylor: To ask the Parliamentary Secretary, Department for Constitutional Affairs what discussions his Department has had with the *(a)* Home Office and *(b)* Department for Transport on reform of the criminal justice system. [172787]

Mr. Leslie: My Department and the Home Office are in continuous dialogue on reform of the criminal justice system. We also hold discussions with the Department of Transport when necessary.

Personal Injury Litigation

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many personal injury cases were commenced *(a)* in the High Court and *(b)* in the county court in each of the last 10 years; and in relation to *(b)* how many were (i) in the fast track and (ii) in the multi-track since their introduction; and if he will make a statement on trends in the volume of personal injury litigation. [173564]

Mr. Lammy: Figures on personal injury claims commenced in the High Court are set out in the table. Reliable figures on the number of claims to the county court and on how many were dealt with in the fast track and the multi-track are not available, and could be obtained only at disproportionate cost.

	Claims issued
1994	1,474
1995	1,224
1996	1,543
1997	1,464
1998	1,754
1999	1,187
2000	1,024
2001	1,019
2002	827
2003	570

Solicitors

Mr. Donaldson: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to introduce regulations in Northern Ireland to make provision for solicitors to offer their services on a no-win-no-fee basis. [173423]

Mr. Leslie: The Access to Justice (Northern Ireland) Order 2003 provides for the introduction of conditional fee agreements, commonly called no-win-no-fee agreements, and litigation funding agreements. The Northern Ireland Legal Services Commission is currently considering the full implementation of the Access to Justice (Northern Ireland) Order, including the introduction of conditional fee agreements and litigation funding agreements. Decisions on this issue will be taken in the context of the Commission's recommendations on implementation of the Order.

DEPUTY PRIME MINISTER

Planning

Bob Spink: To ask the Deputy Prime Minister what restrictions are placed on local councillors in respect of *(a)* receiving representations from residents in respect of planning applications when they are (i) a member of the planning committee and (ii) any other councillor and *(b)* the ability of these councillors then to speak in debate on such representations. [173082]

Keith Hill: There are no restrictions in land use planning legislation on councillors or members of planning committees receiving representations from residents on planning applications. However, where any councillor has a personal 'and' prejudicial interest in any issue to be discussed by a local authority (whether or not in a planning committee), he or she should consider whether the provisions in the relevant authority's Code of Conduct affect their ability to speak in debate on such representations and require them to withdraw from that committee. In making their decision, they may wish to take the advice of their authorities' monitoring officers or the Standards Board for England. In the case of planning committees, they may also wish to consider the Local Government Association's Guidance Note to local planning authorities on preparing Codes of Conduct for councillors and officers specifically involved in planning matters, "Probity in Planning (Update): the role of councillors and officers". This Guidance Note recognises the importance of expressing local concerns in the planning system, while not calling into question the impartiality and integrity of councillors, and ensuring that planning applications are seen to be processed and determined in an open and fair manner.

Brighton and Hove Council

Norman Baker: To ask the Deputy Prime Minister what meetings have taken place, and on what date, between representatives of Brighton and Hove council and *(a)* Ministers and *(b)* officials in the last two years. [173143]

Keith Hill: My right hon. Friend the Member for Greenwich and Woolwich (Mr. Raynsford) met representatives of Brighton and Hove council on 14 January 2003 and 16 February 2004.

Cllr Ken Bodfish is a member of the Central Local Partnership on the Future of Europe which is chaired by my hon. Friend the Member for Corby (Phil Hope). The Partnership has met four times in the last two years. My hon. Friend the Member for Corby also went to a New Statesman Round Table event on eGovernment attended by Cllr Bodfish on 11 May 2004.

The information requested about officials' meetings is not held centrally and could only provided only at disproportionate cost. However Government Office South East officials regularly meet with local authorities to discuss a range of issues for which the Government Office has responsibility.

Departmental Procurement

Michael Fabricant: To ask the Deputy Prime Minister what percentage of the *(a)* crockery, *(b)* cutlery and *(c)* glassware procured by his Department over the last five years is of British manufacture. [170795]

Yvette Cooper: The information requested is not held centrally and could be provided only at disproportionate cost.

The Office of the Deputy Prime Minister was established in May 2002, since this time we have procured replacement crockery through the Office of Government Commerce's pre-tendered, EU compliant contracts.

European Charter on Regional Self-Government

Adam Price: To ask the Deputy Prime Minister what amendments the Government has tabled since 1998 to the Draft European Charter on Regional Self-Government. [172286]

Mr. Raynsford: In 1997 the Congress of Local and Regional Authorities of Europe recommended that member states of the Council of Europe adopt a European Charter on Regional Self Government and proposed a draft text for states to consider. Within the Council of Europe, member states' governments are continuing to consider the appropriateness of a charter or other legal instrument on regional self government. Within these discussions the United Kingdom, along with a number of other states, continues to oppose the adoption of a Charter, believing that, given the diversity of States' regional arrangements, a binding charter would be inappropriate.

Housing

Mr. Edward Davey: To ask the Deputy Prime Minister how many *(a)* affordable housing units and *(b)* housing units have been built in (i) England and (ii) each English region in each year since 1980. [172878]

Keith Hill: The national and regional figures that are available are published in Housing Statistics 2003 (Tables 2.2 and 2.5c). These tables each include a breakdown for those new dwellings built by local authorities and registered social landlords for social renting. A copy of this publication is available in the Library of the House.

Mr. Edward Davey: To ask the Deputy Prime Minister how many affordable homes were empty for *(a)* less than 12 months and *(b)* more than 12 months in (i) England and (ii) each English region in each year since 1980. [172880]

Keith Hill: No data is available for empty affordable homes. However, a table with data on empty local authority dwellings from 1983 and empty registered social landlord (RSL) dwellings from 1990 has been made available in the Library of the House.

Bob Spink: To ask the Deputy Prime Minister if he will list the local authorities in Essex which *(a)* retain control of housing stocks and *(b)* have made representations to him about large scale voluntary transfer of their housing stocks. [173085]

Keith Hill: In Essex those local authorities which retain direct control of their housing stock are: Basildon, Braintree, Brentwood, Castle Point, Epping Forest, Harlow, Rochford, Tenering, Thurrock and Uttlesford.

Both Maldon and Chelmsford have transferred their stock to registered social landlords under the Large Scale Voluntary Transfer programme (LSVT). To date no other authorities in Essex have formally applied for LSVT.

Colchester has established an Arms Length Management Organisation (ALMO) for its stock. The housing stock in Colchester is still owned by the local authority but is managed by the ALMO.

Norman Baker: To ask the Deputy Prime Minister if he will take steps to discourage migration within the UK from areas of sufficient housing supply to those where it is in deficit. [173112]

Keith Hill: It is not the policy of the Office of the Deputy Prime Minister to discourage, or prevent, movement within the UK. To do so would be to undermine the flexibility of our labour market and, with it, economic growth. Statistical returns do not suggest that large scale migration is taking place between English regions.

Constraining growth in the more successful regions would not necessarily benefit the less successful ones, but the Office of the Deputy Prime Minister is committed to improving the performance of all the regions and to reducing the disparities in growth between them through targets in our Regional Economic Performance Public Service Agreement.

The Office of the Deputy Prime Minister is also working to regenerate those areas worst hit by population loss through our market renewal pathfinders. The programme aims to tackle the low demand and abandonment in these areas and create a balanced and sustainable housing market for the future.

Mr. Drew: To ask the Deputy Prime Minister if he will publish the provisional findings of 2002–03 data from the English House Condition Survey; how many *(a)* council and *(b)* registered social landlord properties that were classified in the survey as non-decent; and what the total cost of the repair backlog on these properties is. [173413]

Keith Hill: There are no provisional figures for 2002 from the continuous English House Condition Survey (EHCS).

The continuous survey was designed to provide estimates combining data from two years which could then be rolled forward annually.

The first results from the continuous EHCS, updating the published 2001 baseline and based on the 2002–03 and 2003–04 financial years, will be available before the end of 2004.

Mr. Drew: To ask the Deputy Prime Minister when he will announce a target for the provision of additional social housing to address long-term need. [173414]

Keith Hill: The Government have accepted that there is a case for increased investment in social housing and will begin to address this in the 2004 Spending Review. There are currently no plans to announce a long-term target for the overall provision of additional social housing.

Mr. Drew: To ask the Deputy Prime Minister whether the Government expect to meet its target of 100,000 affordable homes by 2004; and what the state of progress was on 1 April. [173415]

Keith Hill: The Office of the Deputy Prime Minister is on course to achieve our target to provide 100,000 new or improved homes for low cost renting or owning in the three years to 1 April 2004. Provisional figures indicate that 103,000 homes have been provided.

Mr. Drew: To ask the Deputy Prime Minister (1) whether the Government are on track to achieve their target of elimination of non-decent stock by 2010; and what proportion of stock remained non-decent on 1 April; [173416]

(2) whether the Government achieved their target of cutting the number of non-decent local authority homes by a third by April; and how many local authority homes were classed non-decent on 1 April; [173417]

(3) whether the Government achieved their target of cutting the number of non-decent housing association homes by a third by April; and how many housing association homes were classed as non-decent on 1 April. [173418]

Keith Hill: The target of eliminating non-decent social sector stock in 2010 is challenging but the Office of the Deputy Prime Minister is making good progress, reducing the number of non-decents by 1 million since

1997. The increase in resources to £3.6 billion per year by 2005–06 together with the package announced on 5 May put us on track.

The milestone of one third reduction applies to the whole social sector not the sectors individually. Our estimates of the position at 1 April 2004, based on local authority and housing association outturn up to March 2003 and their plans to March 2004 shows a 26 per cent. reduction across both sectors. We expect to meet the one third reduction during 2004. From the same data source we estimate the proportion of non-decent homes remaining at 1 April 2004 is 28 per cent.

For the local authority sector the estimated reduction by 1 April 2004 is 32 per cent. with 810,000 non-decents remaining. For housing association it is 6 per cent. with 360,000 non-decents remaining. These figures take into account the impact of the transfer of stock from local authorities to housing associations.

Mr. Gordon Marsden: To ask the Deputy Prime Minister how the change in the level of council funding for housing has affected the residents of Blackpool, South since 1997. [173072]

Keith Hill: Since 1997 allocations of capital funding to local authorities for housing purposes have risen consistently by about 15 per cent. per annum on average. This includes the Major Repairs Allowance introduced in 2001–02 specifically for the improvement of local authority stock, alongside the Decent Homes standard which sets out minimum standards to be met by 2010. Blackpool's allocations in the period 1997 to 2003–04 have risen by 109 per cent. In addition to this welcome increase there is support through the Community Housing Task Force and Government Office for the North West to help the local authority and its tenants to choose the best strategy for long-term improvement.

Housing Renewal Programme

Mr. Austin Mitchell: To ask the Deputy Prime Minister what funds and on what basis are paid to Pathfinder housing renewal programmes; how this changes the finance available for *(a)* registered social landlords and *(b)* finance councils; and what the effects are of such changes in each region. [173559]

Keith Hill: A Market Renewal Fund has been created which will provide an additional £500 million across the nine pathfinder areas over the three year period 2003–04 to 2005–06.

Funding will be performance related throughout and agreed in negotiation with each pathfinder on the basis of their strategic schemes. The schemes are subject to Independent Scrutiny by the Audit Commission.

Funding will be used for the additional housing action needed to address the most acute areas of low demand. Projects will include demolitions, new building and refurbishment and will be chosen or commissioned by the pathfinder on the basis that they support the strategic objectives for their area. This may include projects delivered by RSLs, LAs and other delivery partners.

The Market Renewal Fund is in addition to other finance available to registered social landlords and local authorities from existing funding streams.

The effect of this funding is to support the additional costs of tackling the most acute areas of low demand. These areas could not be tackled at the scale and pace necessary within the constraints of existing funding streams.

Local Authority Statutory Officers

Mr. Nigel Jones: To ask the Deputy Prime Minister (1) whether a local authority has the power to suspend one of the authority's statutory officers before the appointment of a designated independent person under The Local Authorities (Standing Orders) (England) Regulations 2001, if the authority has received an independent report from an external consultant of the serious effect of bullying and harassment by the statutory officer on the physical and mental well-being of other officers of the authority; [173348]

(2) whether a local authority has the power to suspend one of the authority's statutory officers before the appointment of a designated independent person under The Local Authorities (Standing Orders) (England) Regulations 2001, if the authority has received more than one allegation of bullying and harassment by the statutory officer; and if he will make a statement. [173349]

Mr. Raynsford: Arrangements for councils to handle allegations of misconduct by their head of paid service, monitoring officer or chief finance officer are set out in the Local Authorities (Standing Orders) (England) Regulations 2001. The Regulations provide that the authority may suspend the officer for up to two months in order to allow investigation of the allegation. This period may begin before the appointment under the Regulations of an independent person to investigate the allegation and who, once appointed, may extend the period of suspension. Apart from this, no disciplinary action may be taken by an authority in respect of the officer concerned other than in accordance with a recommendation of a report made by the independent person. It is for the authority to decide whether it appears to them that an allegation requires investigation and to ensure that the decisions it makes are within the powers available to it.

Productivity

Bob Spink: To ask the Deputy Prime Minister what action he is taking to *(a)* increase the productivity and *(b)* cut the costs of his Department and its agencies and non-departmental public bodies. [171883]

Yvette Cooper: I refer the hon. Member to the answer given by my hon. Friend the Financial Secretary to the Treasury, the hon. Member for Bolton, West (Ruth Kelly) on 10 May 2004, *Official Report*, columns 148–49W.

Regional Assemblies

Mr. Jenkin: To ask the Deputy Prime Minister if he will publish the texts of his speeches, and those of his colleagues, made as part of the regional hearings on elected regional assemblies. [169260]

Mr. Raynsford: Formal speeches used at the regional hearings can be found on the Office of the Deputy Prime Minister's website: www.odpm.gov.uk.

However, at some hearings Ministers did not use a scripted speech; therefore speeches are not available in all cases.

Regional Government

Mr. Jenkin: To ask the Deputy Prime Minister what the location was of the regional hearings on elected regional assemblies held in Halifax and Sheffield; and how many *(a)* members of the public and *(b)* invitees attended. [172757]

Mr. Raynsford: The Sheffield hearing was held in the Pennine Theatre at Sheffield Hallam University. It is estimated that there were 135 members of the public who attended, including 67 invitees.

The Halifax hearing was held at the Viaduct theatre at Dean Clough. It is estimated that there were 210 members of the public who attended, including 84 invitees.

Social Housing

Mr. Austin Mitchell: To ask the Deputy Prime Minister what his estimate is of the average monthly rent and charges falling on the average property in *(a)* housing associations and *(b)* council housing in Yorkshire and Humberside. [173560]

Keith Hill: The latest available rental figures for social housing within Yorkshire and The Humber are as follows:-

£ per month

	Housing Associations	*Council Housing*
Reference period	end-March 2003	2003–04
Average Net Rent (excluding service charges)	210.90	184.47
Average Gross Rent (including service charges)	227.72	n/a

Note:
Reliable information on average service charges for council housing is not available at the present time.

Sources:
(a) Housing Corporation, Regulatory and Statistical Return, 2003.
(b) Local authorities, second advance subsidy claim forms.

WORK AND PENSIONS

Adviser Discretion Fund

Sir Archy Kirkwood: To ask the Secretary of State for Work and Pensions what plans he has to *(a)* increase the Adviser Discretion Fund levels for lone parents and *(b)* allow for multiple Adviser Discretion Fund awards to those with multiple barriers to finding employment. [170041]

Jane Kennedy: We have no plans to increase the Adviser Discretion Fund levels for lone parents as we believe that the current levels are sufficient. The maximum amount from the ADF that a lone parent can access in a 12 month period is £300. However, the average amount awarded by the fund is £91. These levels are kept under review.

In exceptional circumstances where lone parents need assistance totalling more than £300, the award of a higher amount from the ADF may be authorised.

There is no limit to the number of elements in an award, provided these total less than £300.

Personal Advisers can already make more than one award to a lone parent from the Adviser Discretion Fund. Each time a lone parent requests assistance from the ADF their Personal Adviser will check that they are eligible for help and that using the fund is removing a barrier to employment.

Paul Holmes: To ask the Secretary of State for Work and Pensions what the average payment from the Adviser's Discretionary Fund was in each of the last five years; how many people have been given payments from the fund in each of the last five years; and if he will make a statement. [171589]

Jane Kennedy: The information is in the table.

Adviser Discretion Fund[1]

	Number of awards	*Average value of award*
July 2001 to March 2002	104,388	60
April 2002 to March 2003	138,370	76
April 2003 to March 2004[2]	345,189	97

[1] The Adviser Discretion Fund was introduced in July 2001.
[2] Latest available figures.

Department for Work and Pensions Provision and Adviser Division.

Benefit Claimants (Over-50s)

Paul Holmes: To ask the Secretary of State for Work and Pensions how many and what proportion of incapacity benefit claimants between the age of 50 and state pension age are in each decile of overall income distribution; and if he will make a statement. [172536]

Maria Eagle: The information is in the tables. It is presented both before housing costs (BHC) and after housing costs (AHC) have been taken into account.

The number of incapacity benefit claimants between the age of 50 and state pension age in each decile of the equivalised income distribution

Decile	*BHC*	*AHC*
1	130,000	120,000
2	130,000	150,000
3	130,000	110,000
4	110,000	130,000
5	120,000	100,000
6	100,000	90,000
7	70,000	70,000
8	40,000	50,000
9 and 10	50,000	60,000

The proportion of incapacity benefit claimants between the age of 50 and state pension age in each decile of the equivalised income distribution

Percentage

Decile	*BHC*	*AHC*
1	15	13
2	15	17
3	15	12
4	13	15
5	13	12
6	11	10
7	8	8
8	4	6
9 and 10	6	6

Notes:
1. Figures are for the financial year 2002–03, the latest date for which data are available.
2. Estimates are for Great Britain.
3. Estimates relate to the status of individuals at the time they were interviewed for the FRS.
4. The estimates are based on sample counts, which have been adjusted for non-response using multipurpose grossing factors that control for tenure, council tax band and a number of other variables. Estimates are subject to sampling error, and to remaining variability in non-response which is not corrected by the grossing regime.
5. The income measure used is weekly net (disposable) equivalised household income
(that is to say income that is adjusted to reflect the composition of the household).
6. The Households Below Average Income series presents analysis of income of two bases: Before Housing Costs (BHC) and After Housing Costs (AHC). This is principally to take into account variations in housing costs that themselves do not correspond to comparable variations in the quality of housing.
7. Proportions are presented to the nearest per cent, and numbers to the nearest 10,000. Rounding numbers in this way means that compared to other rounding conventions, the distribution is smoother at this level of rounding for the small subset of the population.
8. Deciles nine and 10 have been combined as individually, these deciles contained too few households to provide robust estimates.

Family Resources Survey (FRS).

Benefit Fraud

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will place in the Library a breakdown by local authority of the *(a)* financial rewards received under the Security Against Fraud and Error Scheme, *(b)* benefit expenditure and *(c)* financial rewards received under the Security Against Fraud and Error Scheme as a percentage benefit expenditure for the most recent year available. [172980]

Mr. Pond *[holding answer 13 May 2004]:* The information has been placed in the Library.

Child Support

Mr. Goodman: To ask the Secretary of State for Work and Pensions whether those in receipt of incapacity benefit are registered by ethnic background; and if he will make a statement. [172856]

Maria Eagle: Those in receipt of incapacity benefit are not registered by ethnic background. However, Jobcentre Plus has started to collect information, on a voluntary basis, in areas where customers are required to have a work-focused interview in connection with claims for working-age benefits. This will be extended to other areas as Jobcentre Plus offices, and the necessary information management systems, are rolled out nationally over the next few years.

Departmental Expenditure (Entertainment)

Mr. Laws: To ask the Secretary of State for Work and Pensions what his latest estimate is of the amount spent by his Department on official entertainment in each year from 1996–97 to 2004–05. [169001]

Jane Kennedy: All expenditure on official hospitality is made in accordance with published departmental guidance on financial procedures and propriety, based on the principles set out in Government Accounting. It is typically incurred by the various DWP Businesses to mark the launch of significant initiatives—for example: the introduction of New Deal 50+; the national introduction of New Deal for Partners; launching call centres for jobseekers; implementation of Employment Zones; and launch of ONE pilots in conjunction with local authorities and the private and voluntary sectors.

The information is not available in the format requested. It is not possible to provide expenditure information back to 1996–97 for the Department for Work and Pensions, which has existed only since 1 April 2001. The figures for 2001–02 onwards, therefore, are the only expenditure figures relating to the Department for Work and Pensions. Figures for 2004–05 will not be available until the spring of 2005.

In order to provide figures which are reasonably comparable, information for the earlier years has been provided by combining expenditure on "official hospitality" by the former Department of Social Security (DSS), and on "official entertainment" by the former Employment Service (ES) which, together with relatively small numbers of staff from the Employment Policy Divisions of the former Department for Education and Employment (DFEE), combined to form the new Department for Work and Pensions. However, the expenditure incurred by the Employment Policy Divisions of DFEE is not separately identifiable.

Estimated expenditure[1] on official hospitality on this basis is as follows:

[1] Figures rounded to the nearest £000.

	£	
1996–97	147,000	DSS + ES
1997–98	46,000	DSS + ES
1998–99	86,000	DSS + ES
1999–2000	327,000	DSS + ES
2000–01	127,000	DSS + ES
2001–02	155,000	DWP
2002–03	250,000	DWP
2003–04[1]	400,000	DWP

[1] Expenditure figures for 2003–04 are provisional and may be subject to adjustment.

Disability Benefits

Paul Holmes: To ask the Secretary of State for Work and Pensions what proportion of women were claiming disability benefits in each year since 1997, broken down by *(a)* benefit and *(b)* age; how long the average claim was in each case; and if he will make a statement. [171588]

Maria Eagle: The information, which is available for all years other than for industrial injuries disablement benefit in 2003, has been placed in the Library.

Health and Safety Inspectors

John McDonnell: To ask the Secretary of State for Work and Pensions how many Health and Safety Executive health and safety inspectors were working in the field at *(a)* 1 June 2000 and *(b)* 1 March 2004. [167498]

Jane Kennedy: We do not have precise figures for the dates requested due to the way HSE collects data on this subject.

Inspectors in the field	*Total*
1 April 2000	1,306
1 April 2004	1,501

Notes:
1. The figures for 1 April 2000 are actual. Those for 1 April 2004 are estimated or subject to confirmation.
2. As far as possible inspector staff undertaking more generalised HQ functions have been eliminated from these figures.
3. All figures are for full-time equivalent staff.
4. Inspectors at senior grades, or working in other parts of HSE are not included.

Mr. Stunell: To ask the Secretary of State for Work and Pensions how many inspectors were employed by the Health and Safety Executive *(a)* in the Factory Inspectorate, *(b)* in the Nuclear Inspectorate and *(c)* on other duties in each of the last 10 years, broken down by grade; and if he will make a statement. [170669]

Jane Kennedy: The following table contains the information on the number of inspectors employed by the Health and Safety Executive (HSE) on 1 April for the years 1995 to 2004.

The information requested for the period between 1995–96 and 2003–04 is not maintained within HSE in the format requested by this question, i.e. by grade. This information is only held from the period 2000–01 and is not linked to discipline, and can only be extracted at a disproportionate cost to HSE. The Health and Safety Executive's policy is to retain personnel data for six years in line with the requirements of Treasury. However, we have been able to extract the figures from our Annual Reports and from available archived data within the Directorates in question.

The available information is in the table.

Number of inspectors employed by HSE

As at 1 April	*FOD*	*NSD*	*Other*	*Total*
1995	—	—	—	[1]1,478
1996	—	—	—	[1]1,466
1997	[2]780	153	509	1,442
1998	783	147	507	1,437
1999	853	144	500	1,497
2000	[3]898	156	453	1,507
2001	[4]954	152	428	1,534
2002	[5]955	156	514	1,625
2003	962	167	522	1,651
2004	[6]901	167	537	1,605

[1] Analysis by Directorate for the years 1995–96 and 1996–97 is not readily available within the timescale for this parliamentary question.
[2] During 1996–97 there were transfers of posts between Safety Policy Directorate, Chemical and Hazardous Installations Divisions, Field Operations Directorate, Nuclear Safety Directorate and Offshore Safety Division following the Review of Senior Management.
[3] Reorganisation of HSE 1 April 2000
[4] Field Operations Directorate and HM Railway Inspectorate brigaded May 2000.
[5] Field Operations Directorate and HM Railway Inspectorate de-brigaded April 2002.
[6] During 2003–04 there were transfers of posts between Field Operations Directorate, Hazardous Installations Division and Technology Division due to re-organisation.

Incapacity Benefit

David Taylor: To ask the Secretary of State for Work and Pensions what plans there are to review the success of work focused interviews for partners of incapacity benefit recipients in finding them employment. [170195]

Jane Kennedy: Work Focused Interviews for Partners (WFIP) were implemented on 12 April 2004. They will be fully evaluated along with the enhanced New Deal for Partners (NDP). WFIP and NDP are separate but complementary policy initiatives aimed at broadly the same client group (partners of those receiving jobseeker's allowance, incapacity benefit, income support, severe disablement allowance or carer's allowance). The evaluation will look at the effect of WFIP and NDP on individuals and households.

It will provide us with information to improve the delivery of these initiatives, where necessary, and also to inform future policy decisions—including partners of incapacity benefit recipients.

The first phase of the evaluation findings is expected to be published in summer 2005.

David Taylor: To ask the Secretary of State for Work and Pensions how many people have found *(a)* full-time and *(b)* part-time work as a result of attendance at work focused interviews for partners of incapacity benefit recipients since the scheme was introduced. [170196]

Jane Kennedy: Work Focused Interviews for Partners (WFIP) were introduced in Jobcentre Plus areas on 12 April 2004. It is too soon to provide information about job placings.

The Work Focused Interview provides an important platform for us to talk to partners about opportunities to work and about sources of help and advice. We expect most job outcomes will be achieved as a result of participation in New Deal for Partners, following the Work Focused Interview.

Paul Holmes: To ask the Secretary of State for Work and Pensions how many incapacity benefits claimants there are in *(a)* each region and *(b)* each of the 30 areas with the poorest labour market position; and if he will make a statement. [172533]

Maria Eagle: The information has been placed in the Library.

New Deal (Lone Parents)

Mr. Borrow: To ask the Secretary of State for Work and Pensions how many lone parents in South Ribble have gained work through the New Deal programme. [172140]

Jane Kennedy: 320 lone parents in South Ribble have gained work through the New Deal for Lone Parents since the start of the programme in October 1998. Figures for lone parents who have gained work through other New Deal Programmes are not available.

Pensioner Benefits

Mr. Jenkins: To ask the Secretary of State for Work and Pensions (1) what the total Government expenditure on pensioner benefits *(a)* in pounds, *(b)* in real terms and *(c)* as a percentage of gross domestic product was in each year since 1992; [172490]

(2) what the predicted total Government expenditure on pensioner benefits *(a)* in pounds, *(b)* in real terms and *(c)* as a percentage of gross domestic product is over the next three years. [172491]

Malcolm Wicks: The information is in the table.

Expenditure on pensioner benefits 1992–93 to 2006–07

		Cash terms (£ million)	Real terms (£ million, 2004–05 prices)	Percentage of Gross Domestic Product
1992–93	Outturn	35,387	47,810	5.8
1993–94	Outturn	37,811	49,731	5.8
1994–95	Outturn	38,723	50,189	5.6
1995–96	Outturn	39,919	50,276	5.5
1996–97	Outturn	41,829	50,923	5.4
1997–98	Outturn	43,426	51,560	5.3
1998–99	Outturn	45,165	52,122	5.2
1999–2000	Outturn	47,934	54,120	5.2
2000–01	Outturn	50,580	56,377	5.2
2001–02	Outturn	54,493	59,192	5.4
2002–03	Outturn	57,404	60,367	5.4
2003–04	Estimated outturn	60,347	61,739	5.4
2004–05	Forecast	64,728	64,728	5.5
2005–06	Forecast	67,735	66,070	5.4
2006–07	Forecast	71,352	67,735	5.5

Notes:

1. Figures include basic State Pension (contributory and non-contributory), severe disablement allowance, widow's-bereavement benefits and invalidity-incapacity benefit paid to pensioners, additional State Pension (State Second Pension-SERPS), Graduated retirement benefit, Christmas bonus, winter fuel payment, 80 plus payment, one-off 70 plus payment (for 2004–05), free TV licences for over 75s, pensions compensation board, income support for people over 60-minimum income guarantee-pension credit, housing benefit and council tax benefit.
2. Forecast figures for 2003–04 to 2005–06 are consistent with Budget 2004 medium-term forecasts; forecast figures for 2006–07 are consistent with Budget 2004 long-term projections.

Source:

(Benefit expenditure Tables consistent with the Budget 2004, and long term projections for 2006–07.

Pensioner Incomes

Mr. Willetts: To ask the Secretary of State for Work and Pensions what the *(a)* median and *(b)* average income of pensioners was in each year since 1997. [171580]

Malcolm Wicks: The following table gives the median and mean average weekly incomes of pensioners between 1996–97 and 2002–03. Information is given in 2002–03 prices and rounded to the nearest pound.

The mean and median income of pensioners since 1996–97

	1996–97	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	Growth 1996–97 to 2002–03 (Percentage)
Pensioner units								
Median net BHC income	156	159	161	169	173	183	189	21
Mean net BHC income	199	202	208	216	225	233	237	19
Pensioner couples								
Median net BHC income	226	227	231	237	248	253	262	16
Mean net BHC income	287	289	294	301	316	329	327	14
Single pensioners								
Median net BHC income	125	126	128	135	140	148	153	23
Mean net BHC income	145	147	153	160	167	170	177	22

Pensioner units, pensioner couples and single pensioners have seen significant real terms growth in both mean and median net weekly incomes (before housing costs) between 1996–97 and 2002–03. Annual estimates are based on survey data and are subject to sampling error—strong conclusions should not therefore be drawn about year-on-year changes in pensioner incomes.

Pensions (Compensation)

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the estimated cost is of compensating, on the same formula that the Pension Protection Fund will use, all those pensioners who will have lost all or part of their occupational pension prior to the commencement of the Pension Protection Fund. [173486]

Malcolm Wicks: We do not have the information available to answer this question. This would require detailed information on individual schemes including breakdowns of membership distribution and annual accrual rates.

We are currently working with trustees to gather data about defined benefit schemes that are winding up under funded. Using this data we will establish firm estimates of the extent of the problem.

Poverty

Miss McIntosh: To ask the Secretary of State for Work and Pensions if he will make a statement on the level of persistent poverty. [169971]

Mr. Pond: Indicators of persistent low income for children, working age adults and older people are included in the fifth annual Opportunity for all report (Cm 5956), which is available in the Library.

We are determined to tackle poverty, from childhood through to old age. The nature of measuring persistent low income means that it will take longer for the impact of tax credits, increases in employment and pension credit for example to be reflected in the data. The progress we have made, for instance, in reducing the number of children with low incomes in a given year have yet to show up in these figures. However, there are now over half a million fewer children in low-income households (below 60 per cent. median income) than in 1997.

Trade Mark Schemes

Brian Cotter: To ask the Secretary of State for Work and Pensions what assessment he has made of whether trade mark schemes can help to reduce the cost of employers' liability compulsory insurance. [172468]

Jane Kennedy: The Department is aware of a range of trade mark schemes that are designed to help to reduce the cost of employers' liability compulsory insurance. These include the Association of British Insurers' (ABI's) initiative 'Making the Market Work'. I refer the hon. Member to the answer given to him on 23 March 2004, *Official Report*, column 740W.

The National Federation of Roofing Contractors (NFRC) has set up with the Electrical Contractors' Insurance Company their own insurance via a captive cell fund exclusively for NFRC members to offer insurance roughly 10 per cent. below current market rates and with longer notice periods and more certainty of gaining cover.

As with the evaluation of the 'Making the Market Work' initiative by the ABI, if the NFRC undertakes an evaluation of the scheme the Government will take a close interest in the outcome.

Weekly Benefit Savings Scheme

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will place in the Library a breakdown by local authority of *(a)* savings achieved under the Weekly Benefit Savings scheme, *(b)* benefit expenditure and *(c)* weekly benefit savings as a percentage of benefit expenditure for (i) 2000–01 and (ii) 2001–02. [172979]

Mr. Pond *[holding answer 13 May 2004]:* The information has been placed in the Library.

For local authorities, the Weekly Benefit Saving (WBS) scheme was replaced by the Security Against Fraud and Error (SAFE) scheme on 1 April 2002. The WBS scheme was specifically for fraud and was a measurement of prevention whereas the SAFE scheme is for fraud and claimant error and rewards detection.

TREASURY

Ammonium Nitrate

Patrick Mercer: To ask the Chancellor of the Exchequer how many tonnes of ammonium nitrate fertiliser were discovered by Customs and Excise being imported into the United Kingdom in each year since 2000. [172748]

John Healey: The number of tonnes of ammonium nitrate fertilizer imported into the UK between 2000 and 2002 is shown in the following table. There were no import control restrictions in place between 2000 and 2003. However, regulations were introduced on 1 May 2003 requiring ammonium nitrate fertilizer with high nitrogen content to have satisfied a Detonation Resistance Test (DRT). Import figures for 2003 are not yet available.

Imports into the UK of ammonium nitrate fertilizer

	Tonnes
2000	1,242,471.9
2001	1,143,713.6
2002	813,923.3

Overseas Trade Statistics, HM Customs and Excise

Carers

Mr. Gordon Marsden: To ask the Chancellor of the Exchequer what estimate his Department has made of the number of carers in the United Kingdom, broken down by the number of hours of care provided per week. [172752]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Gordon Marsden, dated 17 May 2004:

As National Statistician I have been asked to reply to your recent question concerning the estimate of the number of carers in the United Kingdom, broken down by the number of hours of care provided per week. (172752)

Figures from the "Census 2001 Key Statistics for local authorities in England and Wales" indicate that there were 5,884,450 people in the United Kingdom providing unpaid care.

The information below has been extracted from the CD supplement to the "Census 2001 Key Statistics for local authorities in England and Wales", which is available in the House of Commons Library. The table shows the distribution of these carers according to the number of hours of care provided per week.

Number of people providing unpaid care in the United Kingdom

United Kingdom		*Provision of unpaid care*		*All Carers*
Area	*All Carers*	*Provides care: 1 to 19 hours*	*Provides care: 20 to 49 hours*	*Provides care: 50 or more hours*
United Kingdom	5,884,450	3,971,829	661,952	1,250,669

Table KS08 Census 2001 Key Statistics for local authorities in England and Wales

Child Tax Credits

Mr. Wareing: To ask the Chancellor of the Exchequer how many families in Liverpool, West Derby have received child tax credits. [173671]

Dawn Primarolo: I refer my hon. Friend to my answer to my hon. Friend the Member for Burton (Mrs. Dean) on 15 March 2004, *Official Report*, column 98W.

Council Tax

Mr. Edward Davey: To ask the Chancellor of the Exchequer what the average council tax was as a percentage of gross income for *(a)* pensioner and *(b)* non-pensioner households in all quintile groups in each financial year since 1997–98. [172877]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Edward Davey, dated 17 May 2004:

The National Statistician has been asked to reply to your recent question asking what the average council tax was as a percentage of gross income for *(a)* pensioner and *(b)* non-pensioner households in all quintile groups in each financial year since 1997–98.1 am replying in his absence. (172877)

Estimates have been produced from the Office for National Statistics' analysis "The effects of taxes and benefits on household income" published on the National Statistics website on 6 May 2004 at http://www.statistics.gov.uk/taxesbenefits. The analysis includes measures of income inequality for the United Kingdom as a whole based on data from the Expenditure and Food Survey.

The current analysis presents data for the category 'Council tax and Northern Ireland rates', as opposed to the category 'Local taxes' used in previous analyses. This is because, from this year, charges made by water authorities for water, environmental and sewerage services have been excluded. This treatment conforms to the National Accounts classification and definition of taxes where water rates and related charges are considered a charge for services rather than a tax. They have therefore been excluded from the calculation of disposable income. This reply is based on the new methodology.

Pensioner households have been defined as those where the Household Reference Person is retired or unoccupied and aged 65 or more and male, or 60 years of age or more and female, and economically inactive. All other households are defined as non-pensioner households. The Household Reference Person is identified during the interview and is defined as the member of the household who:

a. owns the household accommodation, or

b. is legally responsible for the rent of the accommodation, or

c. has the household accommodation as an emolument or perquisite, or

d. has the household accommodation by virtue of some relationship to the owner who is not a member of the household.

If there are joint householders, the Household Reference Person will be the householder with the highest income, If the income is the same, then the eldest householder is taken.

The following table shows the estimated gross and net council tax for pensioner households, non-pensioner households and all households in Great Britain for each income quintile where households are ranked by equivalised disposable income. The net council tax figures are gross council tax less benefits and discounts. The table also shows the equivalised disposable income quintile point boundaries, which have been calculated separately for each group of households.

Council tax as a percentage of gross income for pensioner[1] and non-pensioner households

Great Britain[2]	Households	Quintile groups of all households ranked by equivalised disposable income: Bottom	2nd	3rd	4th	Top	All households
Quintile points[3] (equivalised disposable income, per year)							
1997–98	Pensioner	7,701	9,503	11,707	15,393		
	Non-pensioner	9,177	13,623	18,449	25,508		
	All households	8,564	11,936	16,442	23,588		
1998–99	Pensioner	8,031	9,765	12,298	16,742		
	Non-pensioner	9,509	14,328	19,400	26,804		
	All households	8,832	12,582	17,281	24,384		
1999–00	Pensioner	8,475	10,316	13,008	17,213		
	Non-pensioner	9,909	15,215	20,401	28,596		
	All households	9,193	13,221	18,324	26,295		
2000–01	Pensioner	8,492	10,621	13,259	17,951		
	Non-pensioner	10,807	15,832	21,349	29,712		
	All households	9,821	13,893	19,134	27,296		
2001–02	Pensioner	9,459	11,742	14,244	18,703		
	Non-pensioner	11,647	17,133	22,784	31,396		
	All households	10,647	14,943	20,231	28,840		
2002–03	Pensioner	10,096	12,524	15,285	20,203		
	Non-pensioner	11,910	17,591	23,526	32,707		
	All households	11,242	15,541	20,977	29,745		
Gross council tax as a percentage of gross income							
1997–98	Pensioner	8.5	6.4	5.2	3.9	2.8	4.4
	Non-pensioner	5.4	3.1	2.3	1.8	1.3	2.1
	All households	6.3	4.1	2.8	2.1	1.4	2.4
1998–99	Pensioner	8.8	6.5	5.4	4.2	2.8	4.5
	Non-pensioner	5.5	3.2	2.4	1.9	1.3	2.1
	All households	6.5	4.3	2.9	2.2	1.4	2.4
1999–00	Pensioner	9.9	7.2	5.6	4.3	2.9	4.8
	Non-pensioner	6.2	3.4	2.5	2.0	1.3	2.2
	All households	7.3	4.5	3.0	2.3	1.4	2.6
2000–01	Pensioner	10.4	7.1	5.6	4.6	2.9	4.9
	Non-pensioner	5.6	3.2	2.5	2.0	1.4	2.2
	All households	7.0	4.3	2.9	2.2	1.5	2.6
2001–02	Pensioner	9.8	7.0	5.9	4.6	3.0	5.0
	Non-pensioner	6.0	3.3	2.5	2.0	1.3	2.2
	All households	7.2	4.4	3.1	2.3	1.4	2.6
2002–03	Pensioner	9.8	7.0	5.7	4.6	3.1	5.0
	Non-pensioner	6.0	3.5	2.7	2.1	1.4	2.4
	All households	7.1	4.6	3.2	2.4	1.6	2.7
Net council tax[4] as a percentage of gross income							
1997–98	Pensioner	5.2	4.0	3.8	3.0	2.6	3.3
	Non-pensioner	2.6	2.5	2.2	1.8	1.3	1.8
	All households	3.3	2.9	2.5	2.0	1.4	2.0
1998–99	Pensioner	6.3	4.4	3.8	3.3	2.5	3.5
	Non-pensioner	3.0	2.6	2.3	1.9	1.3	1.9
	All households	3.9	3.1	2.6	2.1	1.4	2.1
1999–00	Pensioner	6.9	4.8	4.1	3.4	2.7	3.7
	Non-pensioner	3.2	2.9	2.4	2.0	1.3	2.0
	All households	4.2	3.4	2.7	2.2	1.4	2.2
2000–01	Pensioner	7.1	4.9	4.3	3.7	2.7	3.9
	Non-pensioner	3.1	2.8	2.4	2.0	1.4	2.0
	All households	4.2	3.3	2.7	2.2	1.5	2.2
2001–02	Pensioner	7.0	5.0	4.2	3.8	2.8	4.0
	Non-pensioner	3.7	2.9	2.4	2.0	1.3	2.0
	All households	4.7	3.3	2.8	2.3	1.4	2.2
2002–03	Pensioner	7.1	4.6	3.9	3.6	3.0	3.9
	Non-pensioner	3.7	3.0	2.6	2.1	1.4	2.1
	All households	4.6	3.4	2.9	2.4	1.6	2.4

[1] Household reference person is economically inactive and over minimum state pension age.

[2] Council tax is not paid in Northern Ireland.

[3] Equivalised disposable income at the boundary point between two quintile groups.

[4] Net council taxes after deducting benefits and discounts.

Office for National Statistics, based on the analysis "The effects of taxes and benefits on household income", published on the National Statistics website.

Departmental Annual Report

Norman Lamb: To ask the Chancellor of the Exchequer how much the production of his Department's latest annual report cost; how many copies were printed; how many copies of it were sold at its cover price; to whom copies of the report have been provided free of charge; and how many copies were provided free of charge. [171143]

Ruth Kelly: Publication of HM Treasury's Departmental Report (Cm 6222) was handled by the Stationery Office Ltd. (TSO). Printing and other production costs were paid for by TSO as the publisher and the document was designed in-house by members of the Treasury's publishing unit. TSO have printed 740 copies of the report with 200 copies purchased by the Treasury for internal purposes, 203 copies supplied to Parliament and, to date, an additional 131 copies have been sold by TSO.

Financial Services Authority

Dr. Cable: To ask the Chancellor of the Exchequer how many regulatory impact assessments have been *(a)* conducted and *(b)* published by the Financial Services Authority in each of the last five years; and what percentage of new regulatory measures this represents. [172903]

Ruth Kelly: The matters raised in this question are the responsibility of the Financial Services Authority (FSA), whose day-to-day operations are independent from government control and influence. The following figures have been provided by the FSA. They are for the number of cost-benefit analyses (CBAs) conducted and published by the FSA over the past five years. The proportion of new measures these represent is given in brackets. In 2003, 42 (93 per cent.); 2002, 41 (93 per cent.); 2001, 27 (71 per cent.); 2000, 29 (71); and in 1999, 8 (42 per cent.).

Fuel Tax

Mr. Burns: To ask the Chancellor of the Exchequer if he will abandon the implementation of fuel tax increases in September; and if he will make a statement. [173060]

John Healey: I refer the hon. Gentleman to the Chancellor of the Exchequer's Budget Statement of 17 March 2004, *Official Report*, column 329.

Gershon Review

Mr. Rosindell: To ask the Chancellor of the Exchequer what discussions he has had with Sir Peter Gershon regarding the total savings in public sector employment within the Department for Trade and Industry as a result of his efficiency review. [173375]

Mr. Boateng: Treasury Ministers meet frequently with Department for Trade and Industry Ministers who are working closely with Sir Peter Gershon to identify efficiencies within the Department. These will release further resources for frontline public services.

Gold Reserves

Bob Spink: To ask the Chancellor of the Exchequer what the value of the gold held in UK reserves was at the afternoon fix on 11 May. [173350]

Ruth Kelly: At the afternoon fix on 11 May 2004 the value of the gold held in the UK reserves was approximately $3,775 million.

Housing

Mr. Edward Davey: To ask the Chancellor of the Exchequer what estimate he has made of the average build cost of a new home in the *(a)* social housing sector and *(b)* private housing sector in the last year for which figures are available. [172875]

Keith Hill: I have been asked to reply.

The average cost of a new build dwelling for social rent in England, in 2003/04, is £116,000. The Office of the Deputy Prime Minister does not keep comparable information for the private sector.

Income Tax

Mr. Wareing: To ask the Chancellor of the Exchequer how many senior citizens in Liverpool, West Derby constituency qualified for the 10 pence rate of income tax in each year since its introduction. [173674]

Dawn Primarolo: A reliable answer cannot be given. This is because the sample size of pensioners living in the Liverpool West Derby constituency is relatively small compared to other constituencies in the Survey of Personal Incomes.

Inheritance Tax

Norman Baker: To ask the Chancellor of the Exchequer how much he estimates was lost to the public purse as a result of the exemption from inheritance tax of the estate of the late Queen Mother. [171538]

Mr. Gordon Brown *[holding answer 10 May 2004]:* Further to my answer of 13 May 2002, *Official Report*, column 437W, the amounts involved in the estate of any taxpayer are subject to the Inland Revenue's normal rules of confidentiality.

International Aid

Lynne Jones: To ask the Chancellor of the Exchequer if he will make a statement on the effects of providing resources for the world's poorest countries *(a)* through the International Finance Facility and *(b)* through direct aid. [173059]

John Healey: Since this Government came to power, UK official development assistance has increased by 97 per cent. in real terms, and our aid ratio as a proportion of national income is set to reach 0.4 per cent. in 2005–06. But it has been estimated that the achievement of the Millennium Development Goals will require an extra US$50 billion more in aid every year until 2015. That is why the UK has proposed the IFF to deliver the funds that are needed now, when they will have the most impact on reducing poverty. The IFF would raise the significant additional resources necessary to make progress on meeting the Millennium Development Goals.

The IFF would not be a new disbursement agency but a facility designed to deliver additional funds for development that would then be delivered through existing mechanisms, both through bilateral assistance and multilateral organisations.

Job Vacancies

Mr. Wareing: To ask the Chancellor of the Exchequer how many job vacancies there were in Liverpool, West Derby constituency in *(a)* 1989, *(b)* 1997 and *(c)* 2003. [173673]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Wareing dated 17 May 2004:

As National Statistician, I have been alked to reply to your Parliamentary Question about job vacancies in Liverpool, West Derby. (173673)

According to Jobcentre Plus administrative records the numbers of unfilled vacancies in the Liverpool travel-to-work area on average for the year 1989 was 2,967 and in 1997 it was 4,330. These figures represent only a proportion of all the vacancies available, as not all vacancies are notified to Jobcentres.

Figures are not available for Liverpool, West Derby alone because the vacancies are allocated to local Jobcentres, not according to constituency boundaries, and because of the practice of notifying some vacancies centrally with one Jobcentre taking vacancies for others in the same district.

Jobcentre vacancy statistics were withdrawn from National Statistics in September 2001 as a result of distortions to the data, which occurred following the introduction of new administrative procedures by Jobcentre Plus. Comparable figures for vacancies in 2003 are therefore unavailable.

Results from the ONS Vacancy Survey were released as National Statistics from July 2003, but are not available for local areas.

Mr. Benton: To ask the Chancellor of the Exchequer (1) how many new jobs have been created in Bootle since 1997; [173146]

(2) what the *(a)* change and *(b)* percentage change was in full-time permanent jobs in Bootle from 1997 to 31 December 2003. [173147]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Benton dated 17 May 2004:

The National Statistician has been asked to reply to your Parliamentary Questions about full-time jobs and jobs created in Bootle. I am replying in his absence. (173146, 173147)

While statistics of jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes in numbers of jobs from year to year.

The attached table shows the information requested, relating to all jobs and full-time jobs in Bootle for 1997 and 2002, which is the latest year for which figures are available.

Information is not available about whether the jobs were permanent.

Number of full-time employees and total number of employees[1] in Bootle Parliamentary Constituency: 1997 and 2002

Percentage

	Full-Time	*Total*
Number of employees		
1997	22,200	29,666
2002	28,196	39,017
Change from 1997 to 2002		
Absolute	5,996	9,351
Percentage	27.0	31.5

[1] Employee jobs only, not self-employed jobs

Source:
1997; Annual Employment Survey, rescaled 2002; Annual Business Inquiry (ABI)

Public Sector Employment

John Mann: To ask the Chancellor of the Exchequer what estimate he has made of the impact of job growth in the private sector over the past seven years upon employment figures in the public service. [171242]

Mr. Boateng: As a result of the macroeconomic stability and labour market reforms delivered by this Government, employment in the public and private sectors has grown by 1.9 million since 1997, of which over 70 per cent. was in the private sector, and the total number of people in work in the UK is now the highest since records began. While jobs have risen and fallen in a number of areas, jobs in construction are up by 335,000; jobs in finance and business services up by 856,000; transport and communications up by 170,000; and distribution and hotels up by 424,000.

Teenage Pregnancies

Mr. Burns: To ask the Chancellor of the Exchequer how many girls aged 18 years and under, broken down by age, have *(a)* become pregnant and *(b)* had an abortion in each of the last three years. [172866]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Simon Burns, dated 17 May 2004:

As National Statistician I have been asked to reply to your recent question asking how many girls aged 18 years and under, broken down by age, have *(a)* become pregnant, and *(b)* had an abortion, in each of the last 3 years. (172866)

Numbers of conceptions are estimated from registrations of births and notifications of abortions. Miscarriages before the 24th week of gestation are not included.

Numbers of conceptions, and those leading to an abortion, at ages 18 years and under are given in the attached table, broken down by age.

Number of conceptions to women aged 18 years and under, by outcome and age of woman (single years) at conception—England and Wales, 1999 to 2002

	Total conceptions	*Number terminated by abortion*
Under 14		
1999[1]	406	232
2000[1]	397	236
2001[2]	398	219
2002[3]	359	—

Number of conceptions to women aged 18 years and under, by outcome and age of woman (single years) at conception—England and Wales, 1999 to 2002

	Total conceptions	Number terminated by abortion
Age 14		
1999[1]	1,866	1,081
2000[1]	1,890	1,100
2001[2]	1,883	1,154
2002[3]	1,652	—
Age 15		
1999[1]	5,673	2,870
2000[1]	5,827	3,048
2001[2]	5,610	3,025
2002[3]	5,111	—
Age 16		
1999[1]	13,334	5,845
2000[1]	13,153	5,854
2001[2]	13,103	5,993
2002[3]	12,376	—
Age 17		
1999[1]	20,749	8,063
2000[1]	20,081	8,020
2001[2]	19,972	8,323
2002[3]	19,117	—
Age 18		
1999[1]	26,627	9,637
2000[1]	26,180	9,651
2001[2]	25,731	9,666
2002[3]	24,239	—

[1] *Source:*
Table 12.2, Birth Statistics, Series FM1, No. 30, Office for National Statistics.

[2] Provisional figures.

[3] Provisional estimates are based on incomplete abortion data, therefore the number terminated by abortion is not provided.

Tonnage Tax

Mr. Wareing: To ask the Chancellor of the Exchequer if he will make a statement on the progress of the review of the tonnage tax. [173675]

Dawn Primarolo: The tonnage tax review is currently considering a number of representations from professional advisors, industry bodies, companies and Unions. These cover diverse areas of the regime, including the range of vessels covered by the regime, the training link, and numerous technical points. The impact of the regime on British shipping is being assessed. Certainly there has been a very positive effect on the registration of ships under the UK flag.

In particular, the review is also addressing the impact of revisions to the EU State Aid guidelines for maritime transport that were issued in January 2004. Discussions, primarily on the changes that will be necessary as a result of the changes to the guidelines continue between officials at the Inland Revenue and Department for Transport with industry bodies.

I expect that a number of proposals for revision of the scheme will be put forward in due course, but at this stage it is not possible to give a firm date by which the review will be completed.

PRIME MINISTER

Government Buildings

Norman Baker: To ask the Prime Minister pursuant to the answer of 28 April, *Official Report*, column 1087W, on Government buildings (party use), for what reasons he has not identified the amount of income received. [173484]

The Prime Minister: As I made clear in my earlier answer, the costs of such events are met directly by the Labour Party.

Honours List

Mr. Andrew Turner: To ask the Prime Minister if he will place in the Library a consolidated list of recipients of honours since 1997. [173174]

The Prime Minister: Details of all honours are published in the *London Gazette*, copies of which are available in the Library of the House.

Iraq

Glenda Jackson: To ask the Prime Minister if he will call upon the Coalition Provisional Authority urgently to review the present policy on Iraqi prisons and prisoners. [172315]

The Prime Minister: The Iraqi Corrections Service and the Coalition Provisional Authority are currently working on a comprehensive set of policies and procedures for the entire Iraqi Corrections Service. These will be approved by the CPA Senior Adviser for Prisons and the Director of the Iraqi Corrections Service headed by an Iraqi national. The office of the UK Special Representative for Iraq stays in close touch with CPA prisons advisers, and policy and progress is kept under regular review.

The CPA has a senior adviser for prisons and there are currently 60 CPA trainers and advisers working with the Iraqis. There are currently three senior UK prison advisers working in the UK area of operations.

The UK will be sending additional UK prison officers to assist the Iraqis in administering prisons and to monitor progress in the current UK area of operations following the transition of sovereignty on 30 June.

Glenda Jackson: To ask the Prime Minister if he will place in the Library details of the policy agreed by the Coalition Provisional Authority on the *(a)* administration of Iraqi prisons and *(b)* the oversight and maintenance of prisoners and their welfare. [172316]

The Prime Minister: In June 2003, Coalition Provisional Authority (CPA) Orders 7 and 10 and "Implementing Memorandum number 2 (Management of Detention and Prison Facilities)" set in place detailed guidance for the administration and maintenance of Iraqi prisons and prisoners which are already publicly available on the CPA website. Copies have been placed in the Library of the House.

All Iraqi corrections officers and Coalition Provisional Authority (CPA) advisers are required to follow a code of conduct that requires the humane treatment of prisoners. Coalition soldiers involved in

looking after the administration and maintenance of Iraqi prisons and prisoners are governed by the Geneva Convention.

Glenda Jackson: To ask the Prime Minister who, within the Coalition Provisional Authority, has responsibility for prisons policy in Iraq, in relation to *(a)* administration of personnel and *(b)* the welfare of prisoners. [172317]

The Prime Minister: The Senior Adviser for Prisons and his staff have primary responsibility within the Coalition Provisional Authority for prison policies in Iraq. They work closely with the Iraqi Ministry of Justice and the Iraqi Corrections Service on administration of personnel and welfare of prisoners. The Ministry of Human Rights already have access to criminal detainees whenever they wish.

Glenda Jackson: To ask the Prime Minister (1) when he received a copy of the International Committee of the Red Cross report of February 2004 into allegations of abuse by Coalition forces of Iraqi detainees; [173200]

(2) on what date he was first informed of the existence of the Report by the International Committee of the Red Cross on the treatment by the Coalition forces of prisoners of war and other persons protected by the Geneva Conventions in Iraq during arrest, internment and interrogation, dated February 2004; and on what date he read it; [173341]

(3) when the International Committee of the Red Cross Report on the treatment by coalition forces of prisoners of war in Iraq was received in Number 10 Downing Street; and what action was taken. [173425]

The Prime Minister: I refer the hon. Member to the answers I gave to the right hon. Member for Folkestone and Hythe (Mr. Howard) at Prime Ministers Questions on 12 May 2004, *Official Report*, columns 347 to 349.

Mr. Lansley: To ask the Prime Minister whether he has undertaken a *(a)* comparison and *(b)* reconciliation with the results of the Iraq Survey Team of information supplied by Iraq in response to UNSC Resolution 1441. [173837]

The Prime Minister: The work of the Iraq Survey Group is continuing and a final report has yet to be produced.

Mr. Soames: To ask the Prime Minister on what date the International Committee of the Red Cross report on the treatment by Coalition forces of prisoners of war and other persons protected by the Geneva conventions during arrest, internment and interrogation in Iraq was received by his Office. [173902]

The Prime Minister: I refer the hon. Member to the answers I gave to the right hon. Member for Folkestone and Hythe (Mr. Howard) at Prime Ministers Questions on 12 May, *Official Report*, columns 347 to 349.

Glenda Jackson: To ask the Prime Minister whether he has read the Amnesty International report, Iraq—Killings of Civilians in Basra and al-Amaia, published on 11 May; and what response he has made to it. [174332]

The Prime Minister: As I said at Prime Minister's Questions on 12 May, Official Report, column 348, Amnesty International has passed eight cases to us, seven of which are already known to us. The one that is not known to us is being investigated.

Nuclear Non-proliferation

Llew Smith: To ask the Prime Minister what matters regarding nuclear non-proliferation were discussed with Chinese Premier Wen Jiabao on 10 May. [173859]

The Prime Minister: I discussed a wide range of issues with the Chinese Premier Wen Jiabao during his recent visit to the UK, including nuclear non-proliferation. I refer my hon. Friend to the joint statement released by the United Kingdom and China on 10 May 2004, which is available on the No. 10 website.

Special Advisers

Mr. Tyrie: To ask the Prime Minister how many complaints have been made by civil servants to the Civil Service Commissioners regarding the conduct of *(a)* special advisers and *(b)* unpaid advisers in each year since 1996–97. [174190]

The Prime Minister: Information relating to complaints made by civil servants to the Civil Service Commissioners is set out in the Civil Service Commissioners' annual report.

Copies of the reports since 1996–97 are available in the Library of the House and can also be found on the Civil Service Commissioners website. The report for 2003–04 will be published shortly.

HOME DEPARTMENT

Asylum and Immigration

David Davis: To ask the Secretary of State for the Home Department which air and sea ports in the United Kingdom have previously had routine staffing by the Immigration Service but currently do not; when such staffing ceased; what checks are made on persons arriving at such ports; and how many illegal immigrants were refused entry at such ports in each year from 1996 to 2003. [169249]

Mr. Browne: Port staffing levels in the United Kingdom are determined by a number of Factors:

Current and projected numbers of passenger arrivals;

For seaports the number of freight vehicles that will require searching;

An assessment of the casework generated from the arriving passenger traffic;

Projected numbers of asylum seekers that will require interview on arrival.

It is only at ports where passenger services have ceased that immigration coverage has been withdrawn. At smaller ports resources are deployed to meet arriving traffic and in addition powers under the Immigration & Asylum Act 1999 are used flexibly to clear passengers where appropriate. Passengers subject to control will be examined to ascertain whether they qualify for entry to the UK. This examination will include checks against the Immigration Service database.

A breakdown of persons refused entry and removed by port is not currently published and would be available only at disproportionate cost.

Mr. Cousins: To ask the Secretary of State for the Home Department whether the discretionary amnesty to asylum seekers with children will be extended to asylum seekers from EU accession countries who are in the UK on 1 May. [168695]

Mr. Browne: Applicants from EU accession countries who come within the terms of this exercise will continue to qualify for indefinite leave to remain after 1 May. We have no plans to extend the exercise to cover all asylum seekers from these countries.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what new measures his Department plans to improve the initial asylum decision-making process. [170523]

Mr. Browne: We have put a strategy in place to deliver further improvements in the quality of initial asylum decisions. It is comprehensive and builds on mechanisms already in place as well as including additional measures recently identified to help drive up decision quality.

In broad terms our aim is to:

invest in recruitment, learning and development so that caseworkers are even better equipped to take high quality decisions;

enhance our quality assurance systems by better targeting of checks on problem areas;

improve country information, instructions and processes so that caseworkers always have the right tools to support high quality decision-making;

increase the contribution by external organisations to the delivery and accreditation of our quality mechanisms.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what new measures his Department plans to improve the asylum removal system, to ensure that a failed claim leads to a swift removal. [170524]

Mr. Browne: I refer my hon. Friend to the answer given by my right hon. Friend, the Member for Stretford and Urmston (Beverley Hughes) on 17 March 2004, *Official Report*, column 338W.

Mr. Malins: To ask the Secretary of State for the Home Department pursuant to his answer of 6 January 2004, *Official Report*, column 242W, on overseas posts (performance targets), for what reason there are no targets set by his Department for the processing of entry clearance appeals once they are received by the Appeals Processing Centre; how many appeals papers are deemed to require further action from the overseas post; and what plans the Government have for setting such targets. [157004]

Mr. Browne: The Immigration Appellate Authority's capacity to receive no more than 7,100 appeals per month, when taken together with the priority given to asylum, has influenced the speed at which entry clearance and other non-asylum appeals can be processed through the Appeals Processing Centre (APC). As a result, specific timescale targets have not yet been set for APC's entry clearance team. Targets will be set during the next financial year. Up to 20 per cent. of entry clearance appeals received by APC per month require further contact with posts overseas.

Mr. Wiggin: To ask the Secretary of State for the Home Department how many *(a)* immigrants and *(b)* asylum seekers were living in each county in England and Wales in each year since 1997. [168014]

Mr. Browne: The information is not available in the form requested. Data on how many immigrants live in each county in England and Wales is not available and could only be produced at a disproportionate cost.

Information on the number of asylum seekers supported by The National Asylum Support Services is published quarterly. The next publication covering the first quarter of 2004 (January to March) will be available on 25 May on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html. Data for earlier quarters is published in earlier editions of the publication and is also available on the Home Office Research Development and Statistics Directorate website.

Mr. Kilfoyle: To ask the Secretary of State for the Home Department how many refused asylum seekers have been repatriated. [166983]

Mr. Browne: We have taken repatriation here to mean removal. The number of persons who had claimed asylum at some stage and have been removed from the United Kingdom in each year between 1993 and 2003 is given in the table.

Information on the number of asylum applicants removed from the United Kingdom is published quarterly on the Home Office website: www.homeoffice.gov.uk/rds/immigration1.html.

Removals and voluntary[1] departures of asylum applicants 1993 to 2003[2]

	Principal applicants	*Dependants*	*Total*
1993	1,820	n/a	n/a
1994	2,220	n/a	n/a
1995	3,170	n/a	n/a
1996	4,820	n/a	n/a
1997	7,165	n/a	n/a
1998	6,990	n/a	n/a
1999	7,665	n/a	n/a
2000	8,980	n/a	n/a
2001	9,285	1,495	10,780
2002[3]	10,740	3,170	13,910
2003[3]	2003	4,550	17,040

n/a = not available.

[1] Includes persons departing "voluntarily" after enforcement action had been initiated against them, persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration, and removals on safe third country grounds.

[2] Data on dependants of asylum seekers removed have only been collected since April 2001.

[3] Provisional figures.

Harry Cohen: To ask the Secretary of State for the Home Department (1) what steps were taken to inform hon. Members of changes to support provision for asylum seekers from EU accession countries after 1 May; [167326]

(2) what provision will be available to support asylum seekers from EU accession countries whose applications are outstanding after 1 May. [167328]

Mr. Browne: From 1 May 2004 nationals of the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia, Slovenia, Cyprus and Malta, will no longer be eligible for National Asylum Support Service (NASS) support or for support from a local authority under the Asylum Support (Interim Provisions) Regulations 1999. This is because of the effect of paragraph 5 schedule 3 of the Nationality, Immigration and Asylum Act 2002. Schedule 3 also prohibits local authorities from providing support to European Economic Area (EEA) nationals under other provisions including section 2 of the Local Government Act 2000, section 21 of the National Assistance Act 1948 and section 17 of the Children Act 1989. However, schedule 3 does not prevent the exercise of a power or the performance of a duty if, and to the extent that, its exercise or performance is necessary for the purpose of avoiding a breach of a person's convention rights or a person's rights under the Community Treaties.

Unaccompanied asylum seeking children from these accession countries will continue to be eligible for support under the existing mechanisms and provisions until their 18th birthday.

Asylum seekers from the accession states will, from 1 May 2004, have the same rights to travel as other nationals of EU and EEA member states. Asylum seekers from the eight eastern European accession countries, namely the Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia and Slovenia ("the A8 countries"), will generally be able to take up employment in the UK, providing they register under the Worker Registration Scheme, which will become operational from 1 May 2004. Once they have secured employment and registered under the scheme asylum seekers from the A8 countries may become eligible for family tax credit and child benefit. If they are on low incomes they can also access housing benefit and council tax benefit.

Part time workers may also be eligible for income based Job Seekers Allowance or Income Support, provided they meet the usual conditions for those benefits.

Maltese and Cypriot nationals will have the same rights as existing EEA nationals. If they are seeking work they have the right to reside and look for work for six months. If they satisfy the Habitual Residence Test they will be eligible to apply for income related benefits and for social housing and homelessness assistance. Maltese and Cypriot nationals who are not economically active will only have a right to reside if they are self sufficient and are not placing an unreasonable burden on UK social assistance funds.

Our position is clear, as EU citizens these people are able to work and cannot be maintained at public expense. They gain from being a part of the EU but must become self supporting or return home.

NASS wrote to people in early April to explain their options and then visited many of them at home giving a further opportunity to explain why they would not be able to make alternative arrangements. If people cannot take up one of the options for good reason they need to contact us to explain why.

Since 5 April 180 people have in fact made representations to us, and around 10 per cent. of those have been granted transitional support. Each is dealt with on a case-by-case basis.

The Immigration and Nationality Directorate has also been working with local authorities, their associations and voluntary sector organisations to keep them informed of the position.

No specific steps have been taken to inform hon. Members of the provision available to these accession state nationals.

Mr. Clappison: To ask the Secretary of State for the Home Department how many asylum seekers have been given leave to remain in the UK as a result of the exercise announced by him in October 2003; how many dependants have also benefited from this exercise; how many failed asylum seekers who have exhausted their appeal rights have benefited; and how many cases have been refused. [168914]

Mr. Browne: An announcement detailing the results of the exercise including the available statistical information will be made when the exercise is completed. We would not wish to release figures until all those potentially qualifying applicants have had an opportunity to respond to our queries.

We have made good progress in considering the cases originally identified. The bulk of cases has been processed with the majority, where the applicants have responded to our queries, having been decided. We are reliant on the applicants we contact replying to our queries promptly. Those not doing so are being reminded.

Mr. Gerrard: To ask the Secretary of State for the Home Department pursuant to the answer of 2 March 2004, *Official Report*, column 898W, on asylum and immigration, if he will break down the numbers of asylum seekers refused support under section 55 of the Nationality, Immigration and Asylum Act 2002 by country of origin. [169411]

Mr. Browne: The information requested is unavailable and could be produced only at a disproportionate cost.

Information on the number of asylum seekers supported by the National Asylum Support Services is published quarterly. The next publication covering the first quarter of 2004 (January to March) will be available on 25 May on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

Mr. McNamara: To ask the Secretary of State for the Home Department what factors influenced his decision to exclude Northern Ireland as a destination for asylum seeker dispersal; and what plans he has to review his policy. [170112]

Mr. Browne: The National Asylum Support Service (NASS) undertook research to identify the most suitable areas for the dispersal of asylum seekers. The aim was to establish cluster areas where there was already an ethnic minority community or where it was believed the

area was capable of sustaining a new community. Other factors taken into consideration included the availability of support services able to assist newly arrived asylum seekers. It was always acknowledged that not all areas would be suitable for dispersal and, with regard to Northern Ireland, the research identified both a low population of ethnic minorities and a lack of available support services. While the area was not designated as a dispersal area it was agreed that those making their application for asylum in Northern Ireland could remain there if they requested it. Others making their application elsewhere can opt to live with family and friends in Northern Ireland and receive subsistence only support from NASS.

Most of the contracts NASS has with private and public sector providers are due to expire next year and NASS is now looking at where and how to procure accommodation.

Mr. Dawson: To ask the Secretary of State for the Home Department if he will make a statement on the compatibility of Clause 8 of the Asylum and Immigration (Treatment of Claimants) Bill with the *(a)* Human Rights Act 1998, *(b)* Children Act 1989 and *(c)* Children Bill. [169394]

Mr. Browne *[holding answer 29 April 2004]:* Clause 8 does not prevent the exercise of a power or the performance of a duty where this is necessary to avoid a breach of a person's Convention Rights.

The Government do not believe clause 8 is incompatible with the Children Act or the Children Bill. Provisions to safeguard and promote children's welfare must take account of the fact that failed asylum seeking families do not have the right to remain in the UK.

Mr. Malins: To ask the Secretary of State for the Home Department with reference to the announcement on 30 January of the new agreement on returning Indian immigration offenders, if he will set out the mechanism that will apply to such return; and how many Indian nationals have been returned under this agreement. [170037]

Mr. Browne: The agreement reached with the Indians—the first such agreement they have signed—will accelerate the redocumentation of Indian immigration offenders which the UK seeks to return to India. The Indians have agreed to a more streamlined system of referral and consideration which will be a significant improvement on previous arrangements whereby documents could take up to 18 months to obtain. They have also agreed improved arrangements to deal with immigration offenders who are clearly Indian citizens, but who refuse to co-operate with the documentation process and who refuse to sign a visa application form.

Following the signing of the agreement the Indian Government have had to put in place revised administrative arrangements. This has taken some time, but the new arrangements were in place with effect from 21 April. Consequently there has, so far, been no opportunity to deliver returns under the new arrangements. It is intended to begin referring cases under the new arrangements immediately.

Mr. Malins: To ask the Secretary of State for the Home Department with reference to the concession announced by the Home Secretary on 24 October 2003 to allow families who have been in the United Kingdom for three or more years to stay, how many families he expects to be affected; how many persons in total will be affected; how many of those families have been contacted by the Immigration and Nationality Department (IND) to date and given leave to remain; whether he expects IND will have contacted all the relevant families and completed the bulk of the cases by July; what the timescale is for contacting and processing remaining families; and when he expects to allow immigration practitioners to send in a list of cases they believe are covered by the family concession for confirmation that they will receive a questionnaire. [170089]

Mr. Browne: An announcement detailing the results of the exercise including the available statistical information will be made when the exercise is completed and all those potentially qualifying applicants have had an opportunity to respond to our queries.

Good progress has been made in considering the cases originally identified. The bulk of these cases have been processed with the majority, where the applicants have responded to our queries, having been decided. We rely on the applicants we contact replying to our queries promptly and those not doing so are being reminded. We expect the bulk of the cases eligible for ILR to have been processed by July when we will consider how best to sweep up those who believe they are eligible but have not yet been contacted.

Mr. Malins: To ask the Secretary of State for the Home Department how many weeks' training Immigration and Nationality Directorate caseworkers receive; how many other organisations are involved in such training; and what the starting salary of caseworkers is. [170111]

Mr. Browne: Training, consisting of classroom based and formal coaching, will normally last up to six weeks. The amount will depend on the type of casework; the specific roles of the caseworker; and the individual's previous experience.

After formal training and coaching, caseworkers will continue to receive support from their managers and from senior caseworkers.

The United Kingdom High Commission for Refugees and Social Services have been involved in training design and quality assurance. Casework training is being reviewed, including the use of other organisations in training delivery.

The national starting salary for caseworkers in the main caseworking grade (Executive Officer) is £16,606 (£17,294 plus £1,300 London Location Allowance in Croydon).

David Davis: To ask the Secretary of State for the Home Department (1) pursuant to his statement of 30 March 2004, *Official Report*, column 1439, on immigration entry clearance standards, which Home Office official met the UK consul in Romania; what was discussed at the meeting; whether minutes were taken of the meeting; what actions were taken as a result of the meeting; and if he will make a statement; [166548]

(2) pursuant to the statement of the Minister for Immigration and Nationality of 30 March 2004, *Official Report*, column 1476, if he will place in the Library a

copy of the report of the meeting between a senior Immigration and Nationality Directorate official and the British embassy in Bucharest. [166547]

Mr. Browne: A senior Home Office official in the Immigration and Nationality Directorate was in Bucharest on 1 and 2 March for talks with the Romanian Government on our on-going co-operation on illegal immigration.

As part of the visit he held briefing meetings in the embassy. The UK Consul in Romania was present at these.

The visit produced proposals on a number of aspects of immigration to the UK. These are being taken forward and, where relevant, have been fed into the Sutton enquiry. The report on the visit is internal advice to Ministers, which is not for publication.

David Davis: To ask the Secretary of State for the Home Department which air and seaports do not have routine staffing by the Immigration Service. [169248]

Mr. Browne: All the major ports in the United Kingdom (including seaports, hover ports, airports and Waterloo) have a permanent Immigration Service presence. In 1992, following the withdrawal of routine Customs and Excise attendance from ports where they had traditionally operated an immigration control on behalf of the Immigration Service, then Ministers introduced a new policy for immigration coverage of small ports and airports. This policy was later developed with the introduction of new powers in the Immigration and Asylum Act 1999 enabling a more flexible approach to the operation of the immigration control. Under the Act carriers are obliged to notify the UK Immigration Service in advance of all passengers subject to control. The passengers will then be cleared by the Immigration Service either by attending the port or remotely; the decision being based on all the available intelligence.

David Davis: To ask the Secretary of State for the Home Department if he will publish *(a)* the most recent annual figures of the number of persons refused permission to travel to the United Kingdom by British immigration officers operating from French departure points, broken down by (i) month and (ii) departure points and *(b)* the most recent estimates of his Department of the annual number of persons prevented from travelling to the United Kingdom by foreign immigration officers at departure points at which British immigration officers are present in an advisory capacity. [169250]

Mr. Browne: A breakdown of persons refused and removed by port is not currently published and would be available only at disproportionate cost.

Locally collated management information indicates that during 2003 more than 9,000 passengers have been prevented from travelling from France to the UK as a result of a range of measures including: enhanced juxtaposed controls, deployment of new detection technology and close co-operation with our EU counterparts, carriers and port operators.

The Airline Liaison Officer (ALO) network as well as working closely with airlines to provide training and advice has meant that more than 6,000 people travelling to the UK have been denied boarding by airlines after reference to an ALO during 2003.

In addition airlines advise the Immigration Service that other passengers are also denied boarding at ALO locations as an indirect result of the training and guidance provided to carriers by ALOs.

David Davis: To ask the Secretary of State for the Home Department what routine measures are practised by United Kingdom authorities to detect attempted illegal entrants to the United Kingdom other than those in force at embarkation and arrival points. [169251]

Mr. Browne: The Government have recognised for some time that preventing the arrival in the UK of those who would not qualify to enter or remain must be a key element of its immigration control strategy.

The increasing involvement of organised crime in illegal immigration led to the creation in 2000 of Reflex, the multi-agency forum which brings together key law enforcement players including the Immigration Service, as well as relevant Government Departments and the Security Services, under the chair of the National Crime Squad.

Reflex has successfully brought focus to the issue and has also provided funding and structures to tackle the problem both in the UK and overseas.

UK funding for two successful infrastructure-building projects in the Western Balkans was provided by Reflex, as was funding for other projects in Romania and Turkey aimed at upstream disruption of illegal migration.

As part of a longer-term strategy, the National Criminal Intelligence Service (NCIS) manages an expanding network of Immigration Liaison Officers (currently 12) in key overseas posts who work closely with local law enforcement agencies to combat illegal migratory flows.

We have also had in place for some time a network of Airline Liaison Officers (currently 25) working closely with airline staff at key locations worldwide, who offer advice to carriers on the admissibility of passengers seeking to travel to the UK.

We are working closely with UK Visas to put in place visa fraud officers at a number of our missions overseas to enhance further the quality of visa issues.

I should also point out that the introduction of juxtaposed immigration controls in France, and the deployment of New Detection Technology (x-ray machines and scanners) in France and Belgium have been very successful in identifying and stopping unqualified passengers from travelling on to the UK. Further development of this strategy is in hand.

Mrs. Brooke: To ask the Secretary of State for the Home Department what plans he has to ensure that enforcement of immigration controls in *(a)* Cherbourg and *(b)* Dorset operates to the same standard seven days per week. [170600]

Mr. Browne *[holding answer 5 May 2004]:* The UK Immigration Service does not presently operate in Cherbourg. A pilot project was recently operated at Cherbourg whereby Immigration officers acted in an advisory capacity to the ferry operators to reduce the number of illegal entrants and inadmissible passengers at the point of departure. There are current proposals under way to deploy new detection technology to Cherbourg in partnership with the port authority.

In Dorset the UK Immigration Service operates full immigration border controls at Poole seven day a week. UK Immigration Officers attend the control and check all arriving passengers and will continue to do so.

Mrs. Brooke: To ask the Secretary of State for the Home Department how many illegal immigrants were removed from lorries in Cherbourg bound for Poole in 2003. [170602]

Mr. Browne *[holding answer 5 May 2004]:* The Home Office does not collate statistics of how many illegal immigrants were removed from lorries in Cherbourg bound for Poole in 2003. The Immigration Service tracks incidents of illegal clandestine entry into the United Kingdom and reviews the pressures at ports of departure in co-operation with the French authorities. Assessments, through the Cross-Channel Commission, have resulted in proposals to deploy new technology in partnership with the port authority in accordance with the convention on new technology signed by the two governments on 24 November 2003.

Mrs. Brooke: To ask the Secretary of State for the Home Department what level of staffing of UK immigration officers in Cherbourg was provided in 2003. [170604]

Mr. Browne *[holding answer 5 May 2004]:* The exercise involved one Immigration Officer travelling daily to Cherbourg to provide advice and support to the carrier in respect of travel status of passengers prior to boarding in Cherbourg. The officer then returned with the inbound ferry to control passengers seeking leave to enter the United Kingdom during the crossing.

Afghan Refugees

Joan Ruddock: To ask the Secretary of State for the Home Department what his policy is on the return of refugee women and children to Afghanistan from the UK. [170305]

Mr. Browne: The Government's preferred option for repatriating Afghan asylum applicants whose asylum claims have been rejected and appeal rights exhausted is assisted voluntary return, in line with the Tripartite Memorandum of Understanding on Voluntary Return between the UK, the United Nations High Commissioner for Refugees (UNHCR) and the Afghan Transitional Administration. When the Memorandum of Understanding was signed we agreed that we would not return family groups to Afghanistan before the summer of 2003. Although this general policy bar on enforcing the removal of families no longer applies, we are still not enforcing the departure of vulnerable groups, such as families with young children, or female heads of household.

Animal Experiments

Mr. Hancock: To ask the Secretary of State for the Home Department pursuant to his Answer of 23 February 2004, *Official Report*, columns 228–29W, on Centre for the 3Rs, whether he has now received the final report of the Inter-Departmental Group for the 3Rs; and if he will make a statement on how he intends to proceed with the Select Committee's recommendation. [169587]

Caroline Flint: I have recently received the Inter-Departmental Group's final report on the recommendation of the House of Lords Select Committee on Animals in Scientific Procedures that a centre for research into the 3Rs—the replacement of animal use, reduction of the number of animals used and the refinement of the procedures involved to minimise suffering—should be set up and have discussed its findings with Ministerial colleagues. We expect to announce our conclusions in the next few weeks.

Asylum Detainees (Children)

John Thurso: To ask the Secretary of State for the Home Department how many children are being held in detention solely under Immigration Act powers; and how many of these have been held for more than 28 days, broken down by removal centre. [169243]

Mr. Browne: Management information indicates that on the 26 January 2004 35 children were detained solely under Immigration Act powers. Three quarters of those had been in detention for 14 days or less and the remainder had been detained for less than four months. These individuals were all detained as part of families whose detention as a group was considered necessary.

Information on the number of people detained solely under Immigration Act powers as at 27 March 2004 will be published on the Home Office website on 25 May: www.homeoffice.gov.uk/rds/immigration1.html.

John Thurso: To ask the Secretary of State for the Home Department how many children have been held in detention solely under Immigration Act powers since his announcement that children will not be detained for more than 28 days without ministerial consent; and how many of these have been held for more than 28 days, broken down by removal centre. [169244]

Mr. Browne: Information on the total number of children detained under Immigration Act powers since the announcement in October 2003 that children will not be detained for more than 28 days without ministerial consent is not available.

Management information indicates that on the 26 January 2004 35 children were detained solely under Immigration Act powers. Three quarters of those had been in detention for 14 days or less and the remainder had been detained for less than four months. This includes children and infants who were detained as part of family group for very short periods pending removal.

Information on the number of people detained solely under Immigration Act powers as at 27 March 2004 will be published on the Home Office website on 25 May: www.homeoffice.gov.uk/rds/immigration1.html.

Cannabis

Mr. Luff: To ask the Secretary of State for the Home Department what plans he has to re-examine the law on the *(a)* sale and *(b)* cultivation of cannabis seeds. [170146]

Caroline Flint *[holding answer 5 May 2004]:* None. The seeds are not controlled under the Misuse of Drugs Act 1971 as they do not contain tetrahydrocannabinol (THC), the main psychoactive ingredient in cannabis.

The cultivation of cannabis seeds, other than for purposes licensed by the Home Office, will remain illegal.

Clandestine Entrants

Sir John Stanley: To ask the Secretary of State for the Home Department how many clandestine entrants into the United Kingdom have been detected *(a)* on entry and *(b)* in the country in each month since December 2001. [171253]

Mr. Browne: Illegal entry action is initiated against those people who are detected having entered or attempting to enter the country clandestinely or by means of deception, either verbal or documentary.

The available figures include those people who were identified as having entered the country clandestinely, they are not separately identifiable as such information would only be available by examination of individual case-files at disproportionate cost. A monthly breakdown of this figure is not available.

48,050 people had illegal entry action initiated against them in 2002.

Information on the number of people against whom illegal entry action was initiated in 2003 will be published later this year in the Home Office Statistical Bulletin "Control of Immigration: Statistics United Kingdom 2002" which can be found on the Home Office website: http://www.homeoffice.gov.uk/rds/immigration1.html.

Correspondence

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter from the right hon. Member for Manchester, Gorton dated 18 March, with regard to Miss Z. Patel. [170700]

Mr. Blunkett: I replied to my right hon. Friend on 29 April 2004.

Crime Statistics

Chris Ruane: To ask the Secretary of State for the Home Department, what the percentage change in *(a)* domestic burglary, *(b)* juvenile anti-social behaviour, *(c)* arrests for violent crime, *(d)* incidents of violent crime, *(e)* road traffic collision involving fatality or serious injury, *(f)* domestic burglary per 1,000 households, *(g)* robberies per 1,000 population and *(h)* vehicle crimes per 1,000 population was between 2001–02 and 2002–03 for (i) division of the North Wales police and (ii) each local authority in North Wales. [154295]

Ms Blears: The available statistics recorded by North Wales Police, are given as follows. Those figures derived from recorded crime statistics will have been affected by North Wales police adopting the principles of the National Crime Recording Standard in October 2001.

Percentage changes between 2001–02 and 2002–03:

Domestic burglary[1] increased by 34 per cent.

Juvenile anti-social behaviour[2] remained level. Two Anti-Social Behaviour Orders (ASBOs) were issued in both 2001–02 and 2002–03.

Arrests for violent crime[3] increased by 28 per cent.

Violent crime[1,4] increased by 53 per cent.

Details on road traffic collisions involving fatality or serious injury, are not collected by the Home Office.

Domestic burglaries per 1,000 households[1] increased by 31 per cent.

Robberies per 1,000 population[1] increased by 15 per cent.

Vehicle crimes per 1,000 population[1] increased by 5 per cent.

[1] The National Crime Recording Standard (NCRS) had the effect of increasing the number of crimes recorded by the police. Therefore, following the introduction of the Standard, numbers of recorded crimes, and figures derived from them, are not directly comparable with previous years.

[2] Figure based on number of Anti-Social Behaviour Orders, as reported to the Home Office, issued to juveniles (persons aged 10–17 years), within North Wales.

[3] Figure based on numbers of notifiable arrests made by North Wales Police.

[4] Violent crime comprises the offences of Violence against the person, Sexual offences and Robbery.

Crime statistics are recorded at Crime and Disorder Reduction Partnership (CDRP) level. CDRPs were set up under the Crime and Disorder Act 1998 and are broadly local authority areas. They include representatives from police, health, probation and other local agencies and provide strategies for reducing crime in the area. The available figures are given in the table.

Percentage change between 2001–02 and 2002–03, by CDRPs in North Wales

CDRP	*Domestic burglary*	*Violent crime*
Conwy	-3	74
Denbighshire	45	78
Flintshire	37	29
Gwynedd	47	41
Isle of Anglesey	104	55
Wrexham	42	53

See footnote 1 above.

The number of ASBOs[1] which were issued to juveniles, by local authority area, for 2001–02 and 2002–03:

Local authority area	*2001–02*	*2002–03*
Conwy	0	1
Wrexham	2	1

[1] ASBOs are issued by the courts but can be applied for, among other authorities, the police.

Figures on arrests are not collected by local authority area.

More generally, the British Crime Survey (BCS), which asks members of the public about their experiences of crime, gives a more complete estimate of crime in England and Wales since it covers both unreported and unrecorded crime. It also gives a more

reliable indication of trends in crime as BCS estimates are unaffected by changes in levels of reporting, or in police recording. Between 2001–02 and 2002–03 there was a decrease of 2 per cent. in crime as measured by the BCS.

Mr. Hendrick: To ask the Secretary of State for the Home Department what public funds were spent on tackling drugs misuse in Preston in *(a)* 1997–98 and *(b)* 2003–04. [169696]

Caroline Flint: Breakdown of financial allocation to local constituencies is not available to the Home Office. Funding is allocated to Drug Action Team (DAT) areas, in this case Lancashire DAT.

In 1997–98 (pre-dating National Drugs Strategy) funding available to Lancashire DAT area totalled £670,000.

In 2003–04 the total drugs allocation for Lancashire was £6,015,000. In order to ensure consistency figures supplied are based on funding streams associated with the National Drug Strategy and are readily verifiable. These funding streams are specifically targeted at tackling the harm caused to individuals, families and communities by the misuse of drugs. Other mainstream funding is made available at a local level, this varies and both in amount and origin as a result it is not possible to provide robust financial information.

2003–04

	Amount (£)
Partnership Capacity	118,000
Treatment Pooled Budget	3,980,000
Through Care After Care Pump Priming	35,000
Building Safer Communities[1]	1,147,000
Young People	735,000
Total	6,015,000

[1] Contains non-drug elements.

Mr. Neil Turner: To ask the Secretary of State for the Home Department what powers preventing racial harassment have been introduced since 1997; and how many times these powers have been used in Wigan. [169336]

Fiona Mactaggart: The Crime and Disorder Act 1998 created new and separate offences where the offences of causing fear and violence or of causing harassment, alarm or distress under the Public Order Act 1986, or the offences of harassment or putting in fear of violence under the Protection from Harassment Act 1997 were racially aggravated.

Figures for the number of prosecutions in Wigan for this type of offence are not centrally available. Over the period 1999–2000 to 2001–02 Greater Manchester police recorded a total of 2,075 harassment offences.

Prior to 1997 the Race Relations Act (RRA) 1976 already prohibited discrimination on racial grounds. The RRA did not specifically refer to harassment, but it was clear from case law that racial harassment was a type of detriment capable of amounting to the kind of less favourable treatment prohibited by the Act.

As part of its fulfilment of its obligations under the EC Race Directive the UK amended the Race Relations Act 1976 (by virtue of the Race Relations Act 1976 (Amendment) Regulations 2003) so as to make it unlawful to harass a person, on grounds of race or ethnic or national origins, in the areas of activity covered by the 1976 Act.

Mr. Neil Turner: To ask the Secretary of State for the Home Department what public funds were spent on tackling drug misuse in Wigan in *(a)* 1997–98 and *(b)* 2003–04. [169338]

Caroline Flint: The period 1997–98 pre-dates National Drug Strategy, during this time the local council and primary care trust allocated funding for tackling drug misuse. Accounting procedures mean that the 1997 figures are no longer available and that 1998 figures are not accessible by the DAT.

In 2003–04 the total drugs allocation was £2,187,607. In order to ensure consistency figures supplied are based on funding streams associated with the National Drug Strategy and are readily verifiable. These funding streams are specifically targeted at tackling the harm caused to individuals, families and communities by the misuse of drugs. Other mainstream funding is made available at a local level, this varies and both in amount and origin as a result it is not possible to provide robust financial information.

2003–04

	£
Partnership Capacity	72,429
Treatment Pooled Budget	1,455,000
Through Care After Care Pump Priming	35,000
Building Safer Communities[1]	410,404
Young people	214,774
Total	2,187,607

[1] Contains non-drug elements.

Criminal Justice Act

Vera Baird: To ask the Secretary of State for the Home Department when part 10 of the Criminal Justice Act 2003 will be brought into force. [169161]

Mr. Blunkett: We are working towards implementation of the retrial provisions contained in part 10 of the Criminal Justice Act 2003 and will bring this part of the Act into force as soon as practicable.

Vera Baird: To ask the Secretary of State for the Home Department when section 114 of the Criminal Justice Act 2003 will be brought into force. [169162]

Paul Goggins: No final decision has yet been made but the current aim is to bring the hearsay provisions in the Criminal Justice Act 2003 into force as soon as possible.

Custodial Sentences (Wolverhampton)

Rob Marris: To ask the Secretary of State for the Home Department how many of those convicted in 2003 by courts in Wolverhampton for offences of failing to have valid *(a)* vehicle excise discs, *(b)* vehicle insurance and *(c)* MOT certificates received custodial sentences. [168400]

Caroline Flint: None: these offences are not imprisonable.

Departmental Communications

John McDonnell: To ask the Secretary of State for the Home Department how much his Department spent on *(a)* internal communications and *(b)* advertising internal initiatives in each of the last five years. [163577]

Fiona Mactaggart: The information is as follows:

(a) The Home Office is a large organisation with inter-related aims so it is important that the 73,000 staff throughout the department and its agencies understand how the work that they do fits together to deliver the departmental outcomes. The department achieves this through the production of a range of services and publications. Examples are Home Office Today—a daily on-line news service for staff, and Inside Track the corporate staff magazine. In addition each agency keeps its own staff informed of internal activities through agency publications. Together the Department and its agencies spent the following sums on internal communications staffing and products:

	£
2001–02	3,670,000
2002–03	4,080,000
2003–04	4,180,000

Note:
Figures for previous years can be provided only at disproportionate cost.

(b) The figures in *(a)* above include the cost of advertising internal initiatives to Home Office staff and cannot be separately identified.

Documentation (Arrivals)

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what plans he has to ensure that inadequately documented passengers arriving in the UK are intercepted. [170521]

Mr. Browne: Measures to intercept passengers with inadequate documents on their arrival in the UK include risk-assessing all incoming flights, conducting intelligence-led document checks, observing passengers as they disembark from aircraft and planned special exercises sometimes involving other agencies and at certain locations using CCTV.

At the main arrivals control, passengers are interviewed and their documents examined to detect impostors and to identify forged or counterfeit passports or passengers without the requisite entry clearance.

In addition we have strategies in place to prevent passengers with inadequate documents arriving in the UK. These include the use of pre-entry controls in France (Juxtaposed controls), new detection technology screening equipment to detect clandestine entrants and Airline Liaison Officers (ALOs) who offer advice to airlines on the validity of travel documents held by passengers.

The Government are currently legislating to make disposing of travel documents without reasonable excuse a criminal offence. In addition a pilot is planned for airlines to scan travel documents at points abroad and supply copies to the UK Immigration Service. This will deter those who might otherwise destroy their documents en route.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether surveillance techniques have been extended to airports other than Heathrow, to ensure that inadequately documented passengers are intercepted. [170522]

Mr. Browne: Surveillance techniques to ensure that inadequately documented passengers are identified and intercepted are already in use at major airports other than Heathrow. The UK Immigration Service has the ability to employ CCTV and/or overt surveillance in order to identify and intercept such passengers.

Smaller airports where these methods are not routinely employed are subject to regular risk assessment, monitoring and special exercises with Customs and other agencies. Resources are deployed to identify and intercept inadequately documented passengers on an intelligence led basis.

Drink Driving

Mr. Maude: To ask the Secretary of State for the Home Department how many persons were sentenced in England and Wales for driving with excess alcohol, excluding those causing death or serious injury, in each of the last 10 years; how many of those received a custodial sentence; and what the average custodial sentence length was. [169087]

Paul Goggins: The available information is contained in the table and relates to persons sentenced for offences of driving etc after consuming alcohol or taking drugs.

It is not possible in the statistics collected centrally to exclude those offences where serious injury is caused, but the figures exclude persons sentenced for the specific offence of 'causing death by careless driving whilst under the influence of drink or drugs'.

Number of persons[1] sentenced at all courts for offences relating to driving etc after consuming alcohol or taking drugs, those sentenced to custody and the average custodial sentence length, England and Wales 1993—2002 Driving etc after consuming alcohol or taking drugs

	Driving etc after consuming alcohol or taking drugs
1993	
Total sentenced	80,926
Custodial sentence	2,575
Average sentence length (months)	3.1
1994	
Total sentenced	78,038
Custodial sentence	3,243
Average sentence length (months)	3.2
1995	
Total sentenced	81,474
Custodial sentence	3,443
Average sentence length (months)	3.1
1996	
Total sentenced	85,010
Custodial sentence	3,529
Average sentence length (months)	3.1

Number of persons[1] sentenced at all courts for offences relating to driving etc after consuming alcohol or taking drugs, those sentenced to custody and the average custodial sentence length. England and Wales 1993—2002 Driving etc after consuming alcohol or taking drugs

	Driving etc after consuming alcohol or taking drugs
1997	
Total sentenced	89.271
Custodial sentence	4,065
Average sentence length (months)	3.0
1998	
Total sentenced	83.092
Custodial sentence	3.754
Average sentence length (months)	3.0
1999	
Total sentenced	79.524
Custodial sentence	3.653
Average sentence length (months)	3.0
2000	
Total sentenced	76.779
Custodial sentence	3.465
Average sentence length (months)	3.1
2001	
Total sentenced	76.113
Custodial sentence	3.475
Average sentence length (months)	3.0
2002	
Total sentenced	81.444
Custodial sentence	3,290
Average sentence length (months)	3.2

Statistics on court proceedings for 2003 will be published in the autumn.

Drugs

Mr. Clapham: To ask the Secretary of State for the Home Department what collaborative endeavours there are with other Governments to stifle the synthetic supply of drugs. [168727]

Caroline Flint: The United Kingdom Government have signed and ratified the United Nations 1971 Convention on Psychotropic Substances, which establishes an international control system for such substances, including a number of synthetic drugs. It has also signed and ratified the United Nations 1988 Convention against the Illicit Traffic in Narcotic Drugs and Psychotropic Substances, which provides comprehensive measures against drug trafficking and the diversion of precursor chemicals of synthetic drugs.

UK law enforcement agencies have well-established bi-lateral links with their opposite numbers overseas, and share both strategic and tactical intelligence on synthetic drugs and their precursor chemicals on a regular basis.

They also participate in a range of multi-lateral, operationally focused intelligence work, including, for example:

participation in and follow-up to Europol initiatives on amphetamine profiling, illicit laboratory comparison, and pill logo comparison;

training, through the European Union PHARE Project to aid the EU accession states in combating the illicit trade in precursor chemicals and synthetic drugs;

leading a European Joint Unit on Precursors which co-ordinates EU member state activity in relation to illicit precursor chemicals trade;

acting as joint chair to a major UN initiative to stifle the supply of precursor chemicals used in the production of amphetamine type stimulants.

Employment Agencies

Matthew Taylor: To ask the Secretary of State for the Home Department if he will list the employment agencies which his Department has used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163822]

Fiona Mactaggart: The requirements for temporary staff are at Directorate level in the Core Home Office and the relevant supplier then used in each financial year are in the table.

EU Accession States

Harry Cohen: To ask the Secretary of State for the Home Department what arrangements he is making to release, without prejudice to any outstanding application to be allowed to remain in the country, documents held by the UK authorities which are required by individuals from EU accession countries to facilitate their search for work in this country; what the timescale is for the release of such documents; whether such individuals will be able to register on the Workers Registration Scheme while they are seeking work; whether they can utilise the services of Jobcentres; what implications the arrangements for those from new EU member states seeking work in the UK have for *(a)* their right to remain in the UK and *(b)* National Asylum Support Service or local authority support, with particular reference to their accommodation and its cost; and if he will make a statement. [170049]

Mr. Browne: Documents held by the Immigration and Nationality Directorate will be returned to EU accession state nationals as soon as is practicable.

Individuals from the eight Accession States will only be able to register under the Worker Registration Scheme when they are in employment. They should apply to register as soon as they start work and within one month at the latest. They will be able to utilise Jobcentres to enable them to find employment.

Nationals of Cyprus and Malta will have a right of residence in the UK for up to six months on the basis that they are job seekers. Nationals of the remaining eight accession states will be able to remain in the UK while they seek work, provided that they are self-sufficient.

Nationals of the European Economic Area are not eligible for support from the National Asylum Support Service (NASS) or from local authorities under the Asylum Support (Interim Provisions) Regulations 2000. Those who were supported by NASS or their local authority can find work and register, seek support from friends or relatives or leave the UK. Individuals have had advance warning of the fact that they are no longer eligible for support but if they cannot avail themselves of these options without a violation of their Convention rights, they can approach NASS or their local authority to explain why. NASS will consider such representations from such individuals and will consider offering temporary support until that assessment is concluded. NASS have asked local authorities to consider matters relating to Interim Provisions cases in a similar manner and will consider reimbursing costs of continuing support for the short period of time it will take to make an assessment.

European Communities Association Agreement

Mr. Heathcoat-Amory: To ask the Secretary of State for the Home Department pursuant to the statement by the Minister for Citizenship and Immigration of 8 March 2004, *Official Report*, columns 1245–52W, on the European Communities Association Agreement, if he will issue amended immigration statistics for the relevant period and categories. [161434]

Mr. Browne: Statistics on European Communities Association Agreement (ECAA) are management information collected by The Immigration and Nationality Directorate (IND).

Statistics on the Control of Immigration produced by the Research and Statistics Directorate of the Home Office are part of the National Statistics, and are covered by the National Statistics Code of Practice. This means they are free from political interference and are produced to high professional principles and standards.

There are no plans to issue any corrections to these statistics arising from the statement on the European Communities Association Agreement, as management information on the ECAA are not included in the Control of Immigration Statistics.

David Davis: To ask the Secretary of State for the Home Department whether Ministers in his Department were informed of the letter from John Ramsden to Chris Mace, of 5 November 2002, regarding the operation of the European Communities Association Agreement scheme. [166559]

Mr. Browne: This matter is covered by the investigation which Mr. Ken Sutton is undertaking of the operation of the European Community Association Agreement scheme for Bulgaria and Romania. I do not wish to pre-empt the investigation by commenting on the issues before it is completed.

Female Prisons

Mr. Maude: To ask the Secretary of State for the Home Department what the average female prison population was; and how many female prisons or prison units there were, in each of the last 10 years. [169086]

Paul Goggins: The average female prison population and the number of prisons with female units in each of the last 10 years is given in the table.

Average female prison population and number of England and Wales

	Average female prisons	Prisons with female units
1994	1,810	12
1995	1,979	14
1996	2,262	17
1997	2,675	16
1998	3,105	17
1999	3,247	17
2000	3,350	16
2001	3,741	18
2002	4,298	19
2003	4,425	19

Identity Cards

Mr. Gibb: To ask the Secretary of State for the Home Department what contribution identity cards are intended to make to combating terrorism. [169442]

Mr. Browne: We know that about 35 per cent. of terrorists use false or multiple identities. An identity cards scheme which made it far more difficult to establish multiple identities would help to disrupt terrorist support networks.

As the Home Secretary has always made clear—going back to 2001—an identity card scheme would not guarantee to protect the UK against a terrorist attack. However, the Government have a duty to take all reasonable measures which will contribute to preventing and disrupting terrorist activity.

Mr. Allan: To ask the Secretary of State for the Home Department when he expects to complete the Gateway Review Stage for the National Identity Cards Programme; and if he will publish the outcome of that review. [169814]

Mr. Browne: Legislation on Identity Cards—A Consultation (CM 6178) explains that the Identity Cards Programme will be subject to continuing external review by the Office of Government Commerce Gateway process. A Gateway 0 review of the Programme took place in January 2004 which concluded that it was ready to proceed to the next stage. Subsequent Gateway reviews of the Programme will take place throughout its development and implementation. In line with the usual practice, the reports from these Gateway Reviews are not published.

Mr. Gibb: To ask the Secretary of State for the Home Department on what occasion and how frequently identity cards under the Draft Identity Cards Bill would need to be renewed. [169913]

Mr. Browne: ID cards will have a limited validity, this power is provided for in the draft Identity Cards Bill. At present passports and driving licences are valid for 10 years and the cost estimates for the identity cards scheme are based on fees for cards covering a 10 year period.

However, in advance of it being a requirement to register, there will be no compulsion to renew an identity card. Only when it is a requirement to register will there be a requirement on individuals, whose card will expire in a prescribed period or whose card is not valid, to apply for an ID card within a prescribed period. Different validity periods will apply in different cases, for example the validity of cards issued to foreign nationals will be linked to the length of their entitlement to stay in the country. Validity periods will require the approval of Parliament.

Mr. Gibb: To ask the Secretary of State for the Home Department if he will list the draft regulations under the Draft Identity Cards Bill that will be published in time for pre-legislative scrutiny at the same time as the Bill. [169914]

Mr. Browne: The Legislation on Identity Cards Consultation paper (Cm 6178) makes clear that the draft Identity Cards Bill is an enabling measure and that detailed provisions will be set out later in regulations, relating for example to the level of fees or the application process. Regulations will not, therefore, be published during the consultation period on the draft Bill but will be determined as the identity cards programme proceeds.

Mr. Gibb: To ask the Secretary of State for the Home Department if he will list the Government databases that will be linked to the National Identity Register under proposals in the Draft Identity Cards Bill. [169916]

Mr. Browne: There are no provisions in the draft Identity Cards Bill, which establish a direct link between the National Identity Register and any other Government database.

However, applications for one of the family of identity cards will require checks to be made against other databases, including those of public sector bodies. The data-sharing gateways established for this purpose will be used only when processing applications for cards or related purposes to ensure that the person, who applies to register and to be issued with an identity card, is the person he or she claims to be. Under the draft Bill, Parliament would have to approve each such "gateway" via an affirmative order where no powers already exist for the sharing of data in this way.

Mr. Gibb: To ask the Secretary of State for the Home Department what guidelines he will issue on police use of finger-print information held on the National Identity Register proposed in the draft Identity Card Bill. [170257]

Mr. Browne: Disclosure of information from the National Identity Register without the individual's consent may be made to the police only in the specified circumstances set out in Clause 20(3) of the draft Bill. This is subject to certain rules, including that information will only be disclosed if the Secretary of State is satisfied that it was not reasonably practicable for the police to have obtained the information by another means. For example, if fingerprint information

is recorded on the register, the police would first have to search their own fingerprint records before resorting to the register. I will consider the need for further guidance on this subject nearer to the time of the introduction of the identity cards scheme.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department which bodies will have access to all the data stored on the National Identity Register. [170262]

Mr. Browne: Proposals to permit information held on the National Identity Register to be disclosed without an individual's consent are set out in "Legislation on Identity Cards: A Consultation" (CM6178) published on 26 April.

It is incorrect to say that any body or person will have "access" to the register, rather the legislation will permit the Secretary of Sate to disclose information where a person consents or, where a person does not consent, only for specified purposes to specified persons.

There will be an exception to the general bar on disclosing information without consent, but disclosure will only be allowed to specified persons for specified purposes approved by Parliament and will be subject to an internal authorisation and independent oversight procedure.

There will be a general power to disclose information to the security and intelligence agencies for their statutory purposes under clause 20.

In addition, law enforcement agencies will be able to seek disclosure of information from the National Identity Register for the prevention or investigation of crime under clause 20 (3). For these groups, disclosure of "audit trails" of card usage would be permitted only in cases of serious crime under clause 20 (8). The police in Scotland will have similar powers but will only be permitted to apply for disclosure in relation to matters that are reserved under clause 20 (7)*(b)*.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how individuals will gain access to relevant services if their identity card is lost or stolen. [170263]

Mr. Browne: I refer my hon. Friend to the answer my right hon. Friend the Member for Stretford and Urmston (Beverley Hughes) gave to the hon. Member for Edinburgh, West (John Barrett) on 9 February 2004, *Official Report*, column 1261W. My right hon. Friend said that an identity card, although very helpful to public services as a reliable means of proving identity, would not become mandatory for free public services and benefits until a specific further parliamentary decision on a move to compulsion. Where the identity card is used to access public services we will want to ensure that procedures are in place to help those whose card has been lost or stolen, especially in cases of emergency.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what communication strategy has been developed to ensure engagement with the public on the subject of identity cards. [170264]

Mr. Browne: The communication strategy on identity cards includes the following elements to ensure engagement with the public:

Quantitative and qualitative research was undertaken with the general public during the first consultation period. The findings are set out in "Identity Cards: A summary of Findings from the Consultation Exercise on Entitlement Cards and Identity Fraud" (CM6019). Further quantitative and qualitative research among the general will be undertaken during the current consultation period.

It is important that members of the public are able easily and quickly to obtain information about identity cards from a dedicated UK Government website. Therefore a new website domain has been registered (www.identitycards.gov.uk) and a new website created that contains official publications about identity cards. This will be updated with additional information as the national identity cards scheme progresses. Currently, there is a section about the consultation which invites individuals to comment on the draft legislation through a dedicated e-mail address.

Media handling strategies have been developed to make the best use of press and broadcast opportunities for engaging with the general public about identity cards.

The 'essential information' leaflet which is sent out with all new passports has been updated by the UK Passport Service to confirm that, subject to legislation, the passport will become part of a future family of national identity cards.

A public awareness campaign will be developed to support the roll out of the first identity cards from 2007–08.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what plans he has to pilot data sharing powers in advance of the introduction of identity cards. [170324]

Mr. Browne: "Identity Cards: The Next Steps" (CM 6020) published in November 2003 made it clear that applications for one of the family of identity cards will require checks to be made against other databases, held by the public or private sector, in order to help establish that an application for a card is genuine. This followed recommendations on identity verification included in the Cabinet Office study on Identity Fraud, published in July 2002.

The data-sharing gateways which may be approved by Parliament in clause 11 of the draft Identity Cards Bill will only be used when processing applications for an identity card or for related purposes (for example, issuing a replacement) to ensure that the person who applies to register is the person he or she claims to be. These powers do not confer any general right to share data for wider purposes.

In order to allow for testing of the identity cards scheme in advance of the first cards being issued, these data sharing powers could be piloted but it is not possible to give further detail at this stage as detailed work on implementation of an identity cards scheme is not at the stage where we can be definitive about these timings. Use of the powers on a pilot basis would require Parliament's consent.

Mr. Alan Campbell: To ask the Secretary of State for the Home Department what plans he has to procure *(a)* ID cards and *(b)* ID card technology from firms within the UK. [170408]

Mr. Browne: Government policy requires that all procurement must be transparent and non-discriminatory, and that contracts must be awarded on a value-for-money

basis. Any requirement for services or goods above certain value thresholds, which will include those in support of the identity cards programme, must be advertised across the European Union.

We have been discussing technical options with Intellect, the UK information technology, telecommunications and electronics industry trade body, for the past two years. We hope that UK industry will rise to the challenge and opportunity that the identity cards programme brings.

Mr. Gibb: To ask the Secretary of State for the Home Department what biometric information he intends to store on *(a)* passports and *(b)* driving licences; and what databases will be established to store such information centrally. [170816]

Mr. Browne: The United Kingdom Passport Service is planning to implement the facial recognition image biometric in the British Passport book from 2005. This facial biometric will be stored on the passport database. There are as yet no firm plans for driving licences to include biometric information although the driving licence database already stores digital photographs.

The passport and driving licence may be designated as ID cards under the draft Identity Cards Bill. In which case these documents may include additional biometrics, which would be stored on the new National Identity Register. However, no final decisions have yet been taken on which biometric or biometrics the identity cards scheme will use. The draft Identity Cards Bill allows for fingerprints and other forms of biometric information such as iris images to be recorded.

Mr. Gibb: To ask the Secretary of State for the Home Department whether an individual will have the right to see all the information contained on his or her entry in the National Identity Register under proposals in the draft Identity Cards Bill. [170817]

Mr. Browne: Clause 3 (1) of the draft Identity Cards Bill published on 26 April sets clear limits for the information that could be held on the National Identity Register. Schedule 1 lists the categories of information that may be held on the Register.

Individuals registered on the identity cards scheme would have subject access rights under the Data Protection Act 1998. In addition the Government will investigate whether it would be possible for a cardholder to use his card securely to access his own record to avoid the usual authorisation process and cost involved in applying for subject access. The Government will have to be satisfied that this could be achieved without compromising personal information, for example that another person could not use a stolen card to view another person's record on the National Identity Register.

Clause 14 (4) excludes information held in Schedule 1, paragraph 9 (records relating to disclosure of an entry) from being disclosed unless the Secretary of State deems it appropriate.

Immigration and Nationality Directorate

David Davis: To ask the Secretary of State for the Home Department how many full-time equivalent staff were employed in the Immigration and Nationality Directorate in each year since 1997; and what the total payroll costs were. [170374]

Mr. Browne: The table shows the full-time equivalent of staff employed in the Immigration and Nationality Directorate in each year since 1997 and pay costs for the same period.

	Staffing numbers	*Total pay costs*
1997–98	5,372	136,784,988
1998–99	[1]4,705	134,391,253
1999–2000	[1]5,976	145,498,131
2000–01	7,523	193,600,000
2001–02	9,640	272,484,211
2002–03	11,186	337,121,813
2003–04	13,716	[2]—

[1] Year end figure.
[2] Pay costs for 2003–04 have not yet been finalised.

David Davis: To ask the Secretary of State for the Home Department for what reasons applications under the European Communities Association Agreements are now sent directly to the Immigration and Nationality Directorate rather than via local embassies. [166554]

Mr. Browne: This matter is covered by the investigation which Mr. Ken Sutton is undertaking of the operation of the European Communities Association Agreements (ECAA) scheme for Bulgaria and Romania. I do not wish to pre-empt the investigation by commenting on the issues before it is completed.

Immigration Appeals

Mr. Dismore: To ask the Secretary of State for the Home Department what have been the legal costs, to date, of representing the Government *(a)* before the Special Immigration Appeals Commission in connection with (i) proceedings under the Anti-Terrorism Crime and Security Act 2001 and (ii) in respect of removal of nationality under the Nationality, Immigration and Asylum Act 2002 and *(b)* in any subsequent appeals; and if he will make a statement. [168223]

Mr. Browne: A total of £1,287,414.42 has been spent on representing the Government in proceedings under the Anti-Terrorism, Crime and Security Act 2001 and £35,038.71 in proceedings relating to the deprivation of nationality under the Nationality, Immigration and Asylum Act 2002. These costs include both Counsels' and the Treasury Solicitor's fees.

Mr. Dismore: To ask the Secretary of State for the Home Department what plans he has to review the right of appeal by the Home Secretary against decisions by the Special Immigration Appeals Commission in cases involving national security. [169810]

Mr. Browne *[holding answer 30 April 2004]:* This is a matter which is kept under review. We introduced an amendment to the Asylum and Immigration (Treatment of Claimants etc) Bill during Lords' Committee Stage, which creates a right of appeal on a point of law in respect of bail decisions by the Special Immigration Appeals Commission (SIAC) in cases involving a person detained under the Anti-terrorism, Crime and Security Act 2001. This mirrors the existing right of appeal in

respect of SIAC determinations where a person has appealed against the decision to certify them as a suspected international terrorist.

Mr. Dismore: To ask the Secretary of State for the Home Department what plans he has to amend his powers to remove nationality and indefinite leave to remain to ensure that action can be taken without undue delay caused by the appeal process. [169812]

Mr. Browne *[holding answer 30 April 2004]:* Experience so far does not suggest that it is the appeals process itself which causes delay. I am reviewing the situation to see what lessons we can learn and how we might speed up the holding of appeals. I have no current plans to amend the legislation.

Immigration Minister

David Davis: To ask the Secretary of State for the Home Department when he was first informed of the issues raised in the letter of 4 March 2003 from the hon. Member for Coventry, North-East to the Minister for Immigration and Citizenship. [166560]

Mr. Browne: This matter is covered by the investigation which Mr. Ken Sutton is undertaking of the operation of the European Communities Association Agreements (ECAA) scheme for Bulgaria and Romania. I do not wish to pre-empt the investigation by commenting on the issues before it is completed.

Immigration Summit

Keith Vaz: To ask the Secretary of State for the Home Department if he will list the persons and organisations invited to his Immigration Summit. [169889]

Mr. Browne: I refer my hon. Friend to the answer given by my right hon. Friend the Prime Minister on 29 April 2004, *Official Report*, columns 1224–25W.

Iraqi Asylum Seekers

Harry Cohen: To ask the Secretary of State for the Home Department what representations he has had from *(a)* the United Nations and *(b)* other international organisations over the consequences of returning Iraqi asylum seekers in the UK to Iraq; what his response has been; and if he will make a statement. [169146]

Mr. Browne: We keep in close contact with the United Nations High Commissioner for Refugees (UNHCR) and other relevant organisations. We agree with UNHCR's view that voluntary return is preferable to enforced return, but believe that enforced return to stable areas of Iraq is justifiable.

We are currently facilitating the return of those who wish to go home through the International Organisation for Migration. We have also reached an agreement with the Coalition Provisional Authority to begin enforced returns to Iraq. We are working to finalise the practicalities of the enforced returns programme, which we will implement as soon as the necessary arrangements are in place.

There is clearly a difficult position in those parts of Iraq most affected by insurgencies, but we do not accept this is the case in all areas. Returns will be taken forward on a case by case basis and we will only return to particular areas assessed as sufficiently stable, where we are satisfied that the individual concerned will not be at risk. The situation is kept under constant review and we are still working with the coalition authorities, to return those who are not at risk of persecution and do not need humanitarian protection.

New Workers Registration Scheme

Annabelle Ewing: To ask the Secretary of State for the Home Department (1) who will operate the New Workers Registration Scheme; [161408]

(2) what *(a)* budgetary and *(b)* staffing resources are to be allocated to the New Workers Registration Scheme; [161409]

(3) when the New Workers Registration Scheme will commence operations; [161410]

(4) what target is to be set concerning the average time for the processing of work registration applications; [161411]

(5) whether specific arrangements are to be made for Scotland under the New Workers Registration Scheme. [161412]

Mr. Browne *[holding answer 15 March 2004]:* The Worker Registration Scheme, announced by my right hon. Friend the Home Secretary in his statement to the House on 23 February 2004, *Official Report*, columns 23–25, will be administered by the Home Office through its Work Permits (UK) operation in Sheffield. A dedicated team of 42 staff is being deployed initially to administer the scheme, the resources for which will form part of the WP (UK) budget for 2004–05.

The Worker Registration Scheme has been operational since 1 May and applications have been accepted from this date onwards. Further guidance for applicants, including the application form and guidance, are available on the "Working in the UK" website (www.workingintheuk.gov.uk).

My hon. Friend, the Parliamentary Under-Secretary of State for the Home Department, the Member for Slough (Fiona Mactaggart) indicated to the House on 2 March 2004, *Official Report*, columns 877–80, that the Worker Registration Team will aim to process 80 per cent. of applications within 24 hours of receipt, following payment clearance. Incomplete applications will take longer to process.

Citizens of the new member states (with the exception of Malta and Cyprus) who take up employment in Scotland will need to apply to register with the Home Office when they start a job, in the same way as those taking up employment in the rest of the UK. Employers in Scotland will be required to satisfy themselves that accession country nationals in their employment have received registration under the scheme.

North London Mosque

Mr. Dismore: To ask the Secretary of State for the Home Department what support the Charity Commissioners propose to offer to the trustees of the

North London Mosque to ensure that it operates within the law on its re-opening; and if he will make a statement. [169793]

Fiona Mactaggart: This is a matter for the Charity Commission as the Government Department responsible for the regulation of charities in England and Wales. The Director of Operations of the Charity Commission will write to the hon. Member and a copy of his reply will be placed in the Library.

Offender Management

Ross Cranston: To ask the Secretary of State for the Home Department when the post of *(a)* Head of Human Relations and *(b)* Head of Standards in the National Offender Management Service will be advertised. [168461]

Fiona Mactaggart: The Home Office uses external recruitment when there is a shortage of the necessary skills and knowledge to fill the vacancy. These posts will not be advertised. They are being filled by existing Home Office staff on level transfer and on their existing salaries.

John McDonnell: To ask the Secretary of State for the Home Department how he will ensure that the National Offender Management Service reduces the prison population. [167516]

Paul Goggins: The National Offender Management Service will ensure the more effective management of offenders as well as better targeting and co-ordination of custodial and community sentences. As a result we intend to maintain the prison population at a stable level of around 80,000 by 2009. Without these reforms, the latest estimates indicate that the prison population may otherwise increase to 93,000 by that date.

Open Prisons

Mr. Maude: To ask the Secretary of State for the Home Department what the occupancy rate was for open prisons in each of the last 10 years. [169085]

Paul Goggins: The average population, average certified normal accommodation and occupancy rate of open prisons in each of the last 10 years is given in the table.

Average population of open prisons and average C.N.A. England and Wales, 30 June

	Average population	*Average C.A.N.*	*Occupancy rate (percentage)*
1994	4,205	4,829	87.1
1995	3,948	4,666	84.6
1996	4,408	4,884	90.3
1997	4,765	5,112	93.2
1998	4,650	5,082	91.5
1999	4,155	5,089	81.6
2000	3,969	4,813	82.5
2001	3,910	4,592	85.1
2002	4,431	4,852	91.3
2003	4,812	5,302	90.8

Mr. Maude: To ask the Secretary of State for the Home Department how many and what percentage of prisoners serving *(a)* under 12 months, *(b)* 12 months to under four years and *(c)* four years or over completed part or all of their sentence in an open prison in each of the last 10 years. [169090]

Paul Goggins: Information on the number of prisoners serving *(a)* under 12 months, *(b)* 12 months to under four years and *(c)* four years or over who completed part or all of their sentence in an open prison is not available.

The number of prisoners serving sentences in the relevant bands in an open prison on 30 June in each of the last 10 years is given in the table.

Population under sentence of open prisons—England and Wales

As at 30 June	*Less than 12 months*	*Percentage*	*12 months to less than or equal to four years*	*Percentage*	*4 years and over*	*Percentage*
1994	2,017	48.4	1,261	30.3	887	21.3
1995	1,489	36.2	1,697	413	922	22.4
1996	1,244	28.3	2,150	48.9	1,000	22.8
1997	1,279	26.9	2,388	50.2	1,086	22.8
1998	1,125	24.2	2,263	48.7	1,256	27.0
1999	732	77.7	1,884	45.4	1,530	36.9
2000	635	16.0	1,755	44.3	1,569	39.6
2001	586	15.0	1,730	44.4	1,583	40.6
2002	625	15.0	1,728	41.4	1,823	43.7
2003	624	13.0	1,790	37.3	2,382	49.7

Parliamentary Questions

Mr. Malins: To ask the Secretary of State for the Home Department when he will reply to the questions tabled by the hon. Member for Woking on 10 March 2004, refs *(a)* 161619 and *(b)* 161620. [164270]

Mr. Browne *[holding answer 29 March 2004]:* I refer the hon. Member to the reply given on 28 April 2004, *Official Report*, columns 1097W and 1102W respectively.

Charles Hendry: To ask the Secretary of State for the Home Department when he will provide an answer to the questions reference *(a)* 161078 and *(b)* 161079 on steps to control websites encouraging or promoting suicide. [169012]

Paul Goggins *[holding answer 27 April 2004]:* I refer the hon. Member to the reply given on 26 April 2004, *Official Report*, column 765W.

Parole

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners who had been sentenced to more than 10 years have been recalled during each of the last 48 months; and what the reasons for recall were. [168023]

Paul Goggins: The number of prisoners who had been sentenced to determinate sentences of 10 years or more who have been recalled is given in the table.

Prisoners with sentences of 10 years or more recalled by month of recall and reason for recall

	All	Not known	Further offences	Being out of touch	Hostel—failure to reside	Other

Passport Service

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what arrangements are in place to ensure the trustworthiness of staff operating database systems, with particular reference to the UK Passport Service. [170527]

Mr. Browne: There are a number of mechanisms available to minimise the risk to databases operated by Government Departments and Agencies from staff who might not be trustworthy.

In the case of the UK Passport Service (UKPS), all prospective staff are subject to a number of pre-employment checks to confirm identity and entitlement to take employment. UKPS staff are also subject to security clearance checks in accordance with the Prime Minister's statement on security vetting of 15 December 1994. These checks provide UKPS with an appropriate degree of assurance as to the integrity and trustworthiness of staff. The same arrangements apply to the employees of UKPS' private sector partners.

In addition to pre-employment checks and security clearance for staff, all UKPS systems undergo formal risk assessment and are accredited in line with Government standards and Information Security Standard BS7799. This ensures that UKPS has in place management and technical systems to provide comprehensive auditing and accounting facilities to monitor all access to, and activity on, its databases.

Piracy

Patrick Mercer: To ask the Secretary of State for the Home Department how many arrests were made on charges of piracy in the UK in 2003. [170058]

Ms Blears: Information collected centrally is based on persons arrested for 'notifiable' offences within main offence groups only, and as such it does not separately identify piracy offences in the "Other" offence group within which they fall.

Prison Officers

Tom Cox: To ask the Secretary of State for the Home Department what recent consideration he has given to the awarding of a long-service medal to prison officers employed in prisons in England and Wales; and if he will make a statement. [162647]

Paul Goggins: There are no plans to introduce a Long Service Medal specifically for prison officers employed in prisons in England and Wales. Prison Officers, along with all other staff employed by the Prison Service, receive a 25 Year Long Service Award.

Prisoners

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners who had been sentenced for more than 10 years were *(a)* in Category C conditions and *(b)* in open conditions on (i) 31 March and (ii) 31 March in each of the last five years. [168027]

Paul Goggins: The number of prisoners sentenced to 10 years or more, including life sentence prisoners, that were in *(a)* Category C conditions and *(b)* open conditions on 31 March 2004 and 31 March in each of the previous four years is given in the table. Information for 31 March 1999 is not available and hence data has instead been provided for 30 June 1999.

Prisoners sentenced to 10 years or more

	Category C conditions	*Open conditions*
2004	2,879	747
2003	1,660	668
2002	1,890	641
2001	1,748	574
2000	1,472	565
1999	1,515	511

Mrs. Gillan: To ask the Secretary of State for the Home Department how many people are projected to be given a custodial sentence in each of the next 12 months. [168030]

Paul Goggins: The number of offenders sentenced to custody each month is not one of the totals contained within the prison population projections. Projections of the prison population under various sentencing scenarios, and the details of these scenarios, are published in the monthly Prison Population Brief.

Mr. Maude: To ask the Secretary of State for the Home Department how many and what percentage of prisoners were reconvicted of subsequent offences having served a sentence *(a)* under 12 months, *(b)* 12 months to under four years and *(c)* four years or over in each of the last 10 years. [169091]

Paul Goggins: Figures for the number and percentage of prisoners reconvicted within two years of discharge from prison are given in Prison Statistics, England and Wales, 1997–2002. Table 9.3 shows reconviction rates for samples of discharged prisoners in that year. To make a full comparison of reconviction rates over time it is necessary to control for changes in the characteristics of discharged prisoners, such as age and previous criminal history, which are strongly associated with reconviction rates.

Prisons

Dr. Starkey: To ask the Secretary of State for the Home Department what assessment he has made of the judgment in the case of Mr. David McGee; and what plans he has to amend prison regulations. [170403]

Paul Goggins: The Prison Service is considering the decision of the court in this case and whether any change to the Prison Act might be appropriate.

Private Finance Initiative

Gareth Thomas: To ask the Secretary of State for the Home Department what discussions he has had with the National Assembly for Wales Government about the use of Private Finance Initiative by North Wales police *(a)* for refurbishment and replacement of police stations and *(b)* generally. [170319]

Ms Blears *[holding answer 4 May 2004]:* I met Welsh Assembly Minister Edwina Hart AM last year to discuss funding of Welsh police forces generally. My officials have also had discussions with their counterparts in the Assembly regarding Private Finance Initiative (PFI) schemes and more generally on Welsh police funding.North Wales police currently have one PFI scheme approved for the divisional HQ at St. Asaph, which is under construction. Another scheme put forward by the force is under consideration, jointly by the Welsh Assembly Government and the Home Office.

Welsh PFI schemes need the approval of the Welsh Assembly Government, as they are responsible for providing the annual revenue grant on the service charge.

Gareth Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the use of Private Finance Initiative in relation to capital investment for use of modernising police stations in North Wales. [170320]

Ms Blears *[holding answer 4 May 2004]:* The Government support the use of Private Finance to help deliver modern police facilities in England and Wales. One Private Finance Initiative (PFI) scheme has been approved for the divisional HQ at St. Asaph in North Wales and is under construction. A second scheme put forward by the North Wales Police is currently under consideration.

All Welsh PFI schemes also need approval by the Welsh Assembly Government, which provides revenue grant on the annual service charges for approved schemes.

Gareth Thomas: To ask the Secretary of State for the Home Department how much each police force in England and Wales has spent through Private Finance Initiative *(a)* on refurbishment and replacement of police stations and *(b)* in total. [170322]

Ms Blears *[holding answer 4 May 2004]:* The cost incurred by each police force in England and Wales on refurbishment and replacement of police stations through the Private Finance Initiative (PFI) is not held centrally.

As a guide to the volume of PFI schemes, I list in the following table schemes for which grant support has been approved as at 1 April 2004:

£ million

Police authority	*PFI credits*[1]
Cleveland/Durham	11.000
Cumbria[2]	7.500
Derbyshire[2]	3.774
Derbyshire[2]	23.917
Dorset[2]	24.300
Dyfed-Powys[2]	5.300
Gloucestershire[2]	26.200
Kent[2]	23.600
Norfolk[2]	36.300
Northumbria	1.881
Nottinghamshire	21.460
Thames Valley[2]	10.406
Wiltshire	3.053
North Wales[2]	19.623
Cheshire[2]	45.000
Sussex	39.250
Greater Manchester[2]	63.000
Wiltshire	23.979
Total	389.543

[1] PFI credits represent the capital element within the overall project. They form the basis of annual revenue grant support towards the unitary service charge payable by the police authority to the service operator.

[2] Denotes schemes that include police stations.

Public Sector Workers (Assaults)

Helen Jones: To ask the Secretary of State for the Home Department what recent representations he has received on introducing an offence of assaulting a public sector worker in the course of their duty; and if he will make a statement. [169451]

Paul Goggins: Assaulting a public sector worker in the course of his or her duty is an extremely serious matter. Magistrates courts' guidelines emphasise that assault against "a victim serving the public" should be considered an aggravating factor for sentencing purposes. The Sentencing Guidelines Council will draft a new set of consolidated sentencing guidelines for use in all criminal courts. We anticipate this would similarly include references to whether the victim was at the time of the offence working with the public. We believe this is the right way to deal with such offences.

The most recent representations we have received on introducing an offence of assaulting a public sector worker in the course of their duty was from the British Parking Association, who wanted a specific offence of assaulting a parking attendant.

Road Traffic Offences

Mr. Gibb: To ask the Secretary of State for the Home Department how many people lost their driving licence as a consequence of speeding in each year since 1990. [169445]

Caroline Flint: Available information from 1990 to 2002, which has been taken from the Home Office Court Proceedings Database, is given in the table.

Number of persons disqualified[1] from driving at all courts for speed limit offences[2], England and Wales, 1990 to 2002

	Persons disqualified
1990	14,690
1991	14,858
1992	13,053
1993	9,658
1994	8,899
1995	9,223
1996	9,587
1997	10,061
1998	12,215
1999	12,050
2000	11,283
2001	11,510
2002	9,557

[1] Excludes persons disqualified under s 35 of the Road Traffic Offenders Act 1988 (penalty points system).
[2] Offences under the Road Traffic Regulations Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.

Seasonal Agriculture Workers

Norman Lamb: To ask the Secretary of State for the Home Department if he will make a statement on the suspension of the Seasonal Agricultural Workers Scheme in respect of students from Romania and Bulgaria; and when he expects to review the suspension. [170107]

Mr. Browne *[holding answer 30 April 2004]:* On 30 March 2004, we announced a suspension on the processing of visa applications in Bulgaria and Romania while allegations of abuse of the immigration arrangements were investigated. On 13 April, the suspensions were partially lifted, except for applications under the managed migration entry routes, including the Seasonal Agricultural Workers' Scheme (SAWS).

The investigation into the allegations is being conducted as quickly as possible.

Sustainable Development

Mr. Oaten: To ask the Secretary of State for the Home Department what progress has been made on his Department's Sustainable Development Strategy. [172305]

Fiona Mactaggart: The Department's Sustainable Development Framework Project has been commissioned to develop, implement and manage a series of individual activities across the Home Office Group including the Prison Service. This project has been established to ensure the Department meets the environmental targets set out in the Framework for Sustainable Development on the Government Estate. A review of existing initiatives and policies has been undertaken and a gap analysis produced to enable the development of individual work streams to address sustainable development targets. Progress against these individual work-streams is being made and is monitored and reviewed regularly.

We have also made significant progress towards sustainable development targets on reducing crime and the fear of crime, and increasing voluntary and community activity. The British Crime Survey (BCS) data shows that vehicle thefts fell by 38 per cent. and burglary by 29 per cent. between 1991 and 2002–03. Recorded crime fell by 23 per cent. and burglary in dwellings by 17 per cent. between 1990 and 2002–03 and that the fear of crime is now lower than the levels in the 2001 British Crime Survey. The number of people engaged in community participation has increased by more than 6 per cent. to 1.6 million since 2001.

Sutton Inquiry

Andrew Mackinlay: To ask the Secretary of State for the Home Department (1) if he will ensure that the inquiry and visit to Sofia by Mr. Ken Sutton of his Department into the Managed Migration scheme and related issues will take account of the impact that suspension of the issuing of visas will have on teachers appointed to schools in Essex and Thurrock; and if he will make a statement; [170027]

(2) when he expects to receive the report by Mr. Ken Sutton into the Managed Migration scheme as it operates in Sofia; when teachers appointed to posts in Essex and Thurrock schools can expect consideration of their visa applications; and if he will make a statement. [170028]

Mr. Browne *[holding answer 30 April 2004]:* We hope to receive Ken Sutton's report shortly. The length of the temporary suspension of the arrangements for those, in Sofia, seeking visas for managed migration schemes will be as short as possible. The impact on those wishing to seek entry to the UK legitimately under managed migration routes is a matter of regret. However, we consider that this temporary suspension was the right action in the circumstances and crucial to public confidence in the integrity of our immigration system.

Workplace Crime

John McDonnell: To ask the Secretary of State for the Home Department what plans he has to bring the victims of workplace crimes and their families into the remit of the Victims' Charter. [167497]

Paul Goggins *[holding answer 28 April 2004]:* A review of the Victim's Charter was completed in 2003. The Charter will be replaced by a statutory Code of Practice for victims, which is enabled by, and one of the key measures in, the Domestic Violence, Crime and Victims Bill currently before Parliament. The Code will place obligations on criminal justice agencies to provide specific services, within prescribed time scales, to victims of crime, irrespective of where the crime takes place.

As part of the review, my officials had discussions with the Health and Safety Executive (HSE). HSE is further developing the existing arrangements for liaison with victims, and bereaved families, of work-related incidents so as to mirror, as far as resources and remit allow, the kinds of services the Code will deliver. However, as the Code's primary purpose is to set out the obligations of criminal justice agencies to victims of crime, the HSE, along with other organisations which have interactions with victims in a broader sense, was considered outside of its scope. My officials will remain in close touch with their counterparts in the HSE to ensure that best practice continues to be shared.

HEALTH

Air Gun Injuries

Bob Spink: To ask the Secretary of State for Health how many people were treated for injuries involving air guns in each of the last five years; and if he will make a statement. [172443]

Miss Melanie Johnson: There are no central data on the total number of patients treated each year in the national health service for injuries involving air guns.

Alzheimer's

Mr. Caton: To ask the Secretary of State for Health if he will list the research projects into Alzheimer's disease and related conditions funded by the Government, with the amounts of money provided in each case. [169890]

Miss Melanie Johnson: Details of research projects relating to Alzheimer's disease and related conditions, funded by, or of interest to, the national health service are recorded on the National Research Register (NRR) at www.update-software.com/national. The NRR currently contains details of over 200 on-going projects in this area, as well as a larger number of completed projects. These include projects commissioned by the Department.

In 2002–03, the Medical Research Council (MRC) spent £6.6 million on research relevant to Alzheimer's and related conditions, such as general dementia, AIDS-related dementia, Pick's disease and Huntington's. Details of the research may be found on the MRC website at www.mrc.ac.uk.

The Engineering and Physical Sciences Research Council (EPSRC) also funds research relating to Alzheimer's and related conditions. Details of projects can be found on the EPSRC website at www.epsrc.ac.uk.

Ambulances

Mr. Sheerman: To ask the Secretary of State for Health what guidance his Department has issued to the ambulance service regarding the introduction of the Localizer or White Noise siren systems. [172645]

Ms Rosie Winterton: The Department for Health and the Department for Transport have not issued guidance to the ambulance service regarding the introduction of White Noise siren systems.

Mr. Sheerman: To ask the Secretary of State for Health whose responsibility it is to take decisions on the specifications of ambulance sirens; and whether there is a published list of contact details of the persons responsible. [172646]

Ms Rosie Winterton: The decision of which ambulance siren to use is normally made by the fleet manager or transport manager at each national health service trust, in conjunction with the operations director.

There is no published list of all the personnel responsible for making this decision.

Mr. Sheerman: To ask the Secretary of State for Health at what level the decision on the specifications of ambulance sirens was taken. [172647]

Ms Rosie Winterton: Decisions on the specifications of ambulance sirens are made by the local ambulance trusts.

Anti-psychotic Drugs

Mrs. Helen Clark: To ask the Secretary of State for Health how many adverse reaction reports were received through the Yellow Card reporting system regarding *(a)* anti-psychotic drugs excluding atypicals and *(b)* atypical anti-psychotic drugs in (i) 2000–01, (ii) 2001–02, (iii) 2002–03 and (iv) 2003–04; and how many prescriptions there were for each of these types of drugs in these years. [172419]

Ms Rosie Winterton: The table shows the number of suspected adverse drug reaction (ADR) reports received via the United Kingdom yellow card scheme regarding antipsychotic drugs (atypical and other antipsychotics) each year since 2000 together with the number of prescriptions dispensed in the community in England.

Number of suspected ADR reports UK and number of prescriptions dispensed in the community (England)

	Antipsychotics (excluding atypicals)		*Atypical antipsychotics*	
	ADRs	*Prescriptions*	*ADRs*	*Prescriptions*
2000	110	3,790,273	917	1,149,450
2001	118	2,875,980	1100	1,842,005
2002	100	2,507,203	1322	2,471,345
2003	131	2,251,279	1689	3,083,712

It is important to note that a report of an adverse reaction does not necessarily mean that it was caused by

the drug. Many factors have to be taken into account in assessing causal relationships including temporal association, the possible contribution of concomitant medication and the underlying disease. Other factors such as the time since a drug was first marketed, media interest or regulatory action can also influence the frequency of reporting. This means that reporting rates based on numbers of spontaneous reports and numbers of prescriptions are not true measures of the frequency of reactions or a firm basis for comparisons between drug substances or classes.

Ashford Hospital

Mr. Wilshire: To ask the Secretary of State for Health (1) what costs were incurred by his Department in changing the preferred bidder for the proposed diagnostic treatment centre at Ashford hospital; [171112]

(2) what date it was decided to remove preferred bidder status from Mercury Healthcare for the provision of a diagnostic treatment centre at Ashford (Middlesex) hospital; and on what date this decision was communicated to the company. [171113]

Mr. Hutton: The Department made a payment of approximately £1.1 million to Mercury Healthcare as a contribution towards their bid costs when they were deselected as the preferred bidder for the provision of the independent sector treatment centre 'spine' chain. Capio UK was subsequently appointed as preferred bidder for the chain. This switch has enabled the Department to secure a multi-million pound saving in the price of the contact. This significant saving is shared across the entire chain, including the proposed treatment centre at the Ashford hospital.

The decision to remove the preferred bidder status from Mercury Healthcare was formally endorsed by the chain's board of national health service sponsors at its meeting on 27 January 2004. Following a period of negotiation with Mercury Healthcare, the national implementation team formally communicated this decision on 17 February 2004.

Body Piercing/Tattooing

Lady Hermon: To ask the Secretary of State for Health if he will make a statement on the regulation of body piercing and tattooing establishments. [172030]

Miss Melanie Johnson: Local authorities have powers to regulate body piercing and tattooing businesses by requiring registration and observance of bylaws relating to the hygiene and cleanliness of premises, practitioners and equipment. In London, local authorities have powers under private legislation to require such businesses to be licensed and observe licensing conditions relating to a range of matters including the hygiene and cleanliness of the premises and equipment.

It is an offence for a body piercing or tattooing business to operate without being registered or licensed or to breach bylaws or licensing conditions.

The following statutory provisions are relevant to the regulation of body piercing and tattooing businesses:

Local Government Act 2003

London Local Authorities Act 2000

London Local Authorities Act 1995

London Local Authorities Act 1991

Local Government (Miscellaneous Provisions) Act 1982

Greater London Council (General Powers Act) Act 1981

Local authorities also have general enforcement powers under health and safety at work legislation.

Caesarean Sections

Mr. Caton: To ask the Secretary of State for Health what assessment he has made of the health risks for *(a)* mother and *(b)* baby in delivery by Caesarean section. [172387]

Dr. Ladyman: The National Institute for Clinical Excellence issued clinical guidelines on the use of caesarean section on 29 April. The guideline will be a useful tool to advise clinicians of best evidence on when to perform a caesarean section and when not to perform one. It also emphasises the appropriate care women and their babies need before, during and after the procedure. The guideline will also ensure that when considering a caesarean section, there should be a discussion on the benefits and risk of caesarean section compared with vaginal birth. We support the need for women to be offered evidence-based information and support to enable them to make informed choices about their care during birth.

The National Patient Safety Agency (NPSA) has been established to focus our efforts to improve patient safety in the national health service to promote an open and fair culture and to run a new national reporting and learning system for patient safety incidents including those involving mothers and their babies. The NPSA has begun a programme to roll out this system, launched at NPSA's conference on 25 February 2004, across NHS organisations during 2004.

Mr. Alan Campbell: To ask the Secretary of State for Health how many births were by Caesarean section in each maternity unit within Northumbria NHS Trust in 2003; and how many of these were *(a)* emergency and *(b)* planned procedures. [170421]

Miss Melanie Johnson: Estimated[1] numbers of emergency and planned caesarean deliveries at North Tyneside General Hospital for 2002–03 are shown in the table.

[1] Available data on delivery method from 1,552 records are grossed to known number of deliveries.

Type of delivery	*Number*
Planned caesareans	130
Emergency caesareans	193
Total deliveries by caesarean	323
Total deliveries	1,604

Source:
Hospital Episodes Statistics.

Further information can be found at www.publications.doh.gov.uk/public.sb0410.htm.

Chernobyl

Mr. Martlew: To ask the Secretary of State for Environment, Food and Rural Affairs how many farms in Cumbria are still affected by the radioactive fall out from the 1986 Chernobyl accident. [170662]

Miss Melanie Johnson: I refer my hon. Friend to the response I gave to my hon. Friend the Member for Blaenau Gwent (Llew Smith) on 11 May 2004, *Official Report*, column 208W.

Chest Pain Clinics

Mr. Djanogly: To ask the Secretary of State for Health how many rapid access chest pain clinics there are in the constituency of Huntingdon. [172633]

Dr. Ladyman: There is one rapid access chest pain clinic in the constituency of Huntingdon, at Hinchingbrooke Healthcare National Health Service Trust.

Continence

Dr. Murrison: To ask the Secretary of State for Health (1) what assessment he has made of the number of children with continence problems assessed and managed by *(a)* school nurses, *(b)* general practitioners and *(c)* specialist nurses; [171130]

(2) what assessment he has made of the adequacy of treatment and care received by children with continence conditions. [171132]

Dr. Ladyman: National health service primary care trusts (PCTs) are responsible for assessing and providing continence services. An assessment of service levels and of the numbers of children accessing services provided by school nurses, general practitioners and specialist nurses is not undertaken centrally. Guidance issued in 2000, "Good Practice in Continence Services", advises that each PCT should have specialist continence services in place, which provide an individual assessment of needs. PCTs are also encouraged to use the Modernisation Agency's publication, "Good practice in paediatric continence services—benchmarking in action", when ensuring quality provision.

Dentistry

Mr. Lansley: To ask the Secretary of State for Health (1) why the appropriation aid provision in the Estimates attributable to dental charges is reduced in 2004–05 to £229,550,000 from £491,000,000 in 2003–04; [168945]

(2) why the provision in the Estimates for general dental services in 2004–05 is £245 million less than the provision in 2003–04. [168947]

Ms Rosie Winterton *[holding answer 27 April 2004]:* The Government are committed to rebuilding and restoring national health service dentistry to improve the oral health of the nation. Overall expenditure on dental services, covering both general dental services (CDS) and personal dental services (PDS) and the associated income from dental charges, is expected to rise in 2004–05. However, in drawing up the estimate for this early stage in the year, provision for primary dental services has been split initially between section D (GDS) of the estimate and section A (aggregate provision for strategic health authority and primary care trust budgets and central allocations). This is because an increasing number of dental practices are converting from general dental practice contracts to PDS contracts. PDS contracts are funded from discretionary allocations delegated to PCTs, whereas GDS are funded from a national, non-discretionary budget.

The balance of provision between the two sections of the estimate, and the associated charge income, will be adjusted at a supplementary estimate stage when the level of conversion from the GDS to the PDS over the coming 12 months is known. As a non-discretionary service, provision for the GDS will be adjusted to reflect the volume of dentistry delivered by general dental practitioners.

Mr. Burstow: To ask the Secretary of State for Health how many calls to NHS Direct about access to an NHS dentists there were in each month since November 2001, broken down by *(a)* emergency, *(b)* urgent, *(c)* routine and *(d)* other calls for (i) England and (ii) each strategic health authority. [166118]

Mr. Hutton: Calls to NHS Direct about access to a National Health Service dentist in each month since November 2001 by emergency, urgent, routine and other are shown in the table.

This information is not collated centrally for each strategic health authority.

Number

	Total	*Emergency*	*Urgent*	*Routine*	*Not known*
November 2001	10,922	1,143	2,542	6,546	691
December 2001	10,023	1,456	3,274	4,482	811
January 2002	13,064	1,605	3,078	7,124	1,257
February 2002	10,316	1,073	2,902	5,535	806
March 2002	13,336	1,061	3,849	6,742	1,684
April 2002	15,472	1,666	4,241	8,322	1,243
May 2002	15,693	1,506	4,287	8,361	1,339
June 2002	14,726	1,551	4,598	7,145	1,432
July 2002	16,032	1,539	4,164	8,827	1,502
August 2002	15,797	1,584	4,646	8,303	1,264
September 2002	14,862	1,387	3,886	8,229	1,360
October 2002	15,912	1,409	3,457	9,671	1,375
November 2002	15,770	1,456	3,381	9,505	1,428
December 2002	14,629	1,729	4,308	7,149	1,443
January 2003	17,860	1,614	3,648	10,952	1,646
February 2003	13,576	1,220	3,075	7,968	1,313
March 2003	15,325	1,416	3,407	9,093	1,409
April 2003	15,863	1,399	3,510	9,446	1,508
May 2003	16,257	1,471	3,977	9,307	1,502
June 2003	17,404	1,563	3,823	10,485	1,533
July 2003	19,012	1,581	4,192	10,723	2,516
August 2003	18,016	1,806	4,201	10,471	1,538
September 2003	19,472	1,708	4,117	11,350	2,297
October 2003	19,829	1,529	3,733	10,905	3,662
January 2004	19,702	1,462	3,613	12,726	1,901
February 2004	18,238	1,575	3,653	11,312	1,718

Mr. Hunter: To ask the Secretary of State for Health how many *(a)* dental practices and *(b)* dentists in Hampshire provide NHS treatment; how many hours of NHS dentistry they offer each (i) week and (ii) month; and if he will make a statement on the availability of NHS dental treatment in Hampshire. [168096]

Ms Rosie Winterton: The latest available information for Hampshire shows that there were 288 dental practices and 635 dentists providing national health service dental services in the general dental services or personal dental services.

In the Hampshire and Isle of Wight Strategic Health Authority there were 62 dentists working full or part-time in the Community Dental Service area (a whole time equivalent of 42) and, in the hospital dental service, there were 57 dentists (48 whole-time equivalent). Information on the number of practices is not available.

Information is not available on the number of hours worked as general dental practitioners are independent contractors who are able to vary the amount of NHS dentistry they do and to vary their working week.

We are currently taking forward major reforms of NHS dentistry through proposals in the Health and Social Care (Community Health and Standards) Act 2003. Under these proposals, primary care trusts (PCT) will have a duty to secure the provision of primary dental services. With these new responsibilities will go the £1.3 billion financial resources (2003–04) currently held centrally. The reforms will give a better deal for patients, for dentists and for the NHS.

In the run up to the changes, we have provided new investment totalling £90 million to improve NHS dentistry. £59 million will support access, and strategic health authorities have been advised of their shares and are working with their PCTs to address access issues. £30 million is to support information technology and the balance of £1 million will support organisational development locally.

The PCTs in Hampshire are working closely with their strategic health authority (Hampshire and Isle of Wight) supported by the shadow special health authority (dentistry) to improve local dental access using their share of the access funds: some £1.64 million in 2004–05.

Simon Hughes: To ask the Secretary of State for Health how many dentists have left the NHS, in whole or in part, to work in the private sector in each year since 1997 in *(a)* Greater London and *(b)* each London borough. [168940]

Ms Rosie Winterton: Information on the total number of dentists leaving the general dental service (GDS) or personal dental service (PDS) is given in the table for primary care trust (PCT) areas in London; information is not collected by borough. Information is not available on the reason for leaving.

Dentists can leave the national health service for a variety of reasons. These include retirements, short-term absence, leaving for other employment as well as dentists leaving the NHS dental services to practise wholly privately. Those working in the GDS can increase or reduce their NHS commitment, and this is not reflected in the figures.

Few dentists leave the NHS altogether to practise privately. The Office of Fair Trading report, "The private dentistry market in the UK", stated that only 210 practices are totally private in the United Kingdom out of 11,000 practices in total.

The number of NHS dentists in the Greater London area increased from 3,107 in September 1997 to 3,444 in September 2003.

Table 1: Number of leavers from GDS and PDS

	Year ending 30 September					
Primary Care Trust	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Barking and Dagenham	2	1	3	3	6	1
Barnet	12	13	6	13	10	11
Bexley Care Trust	2	6	6	6	7	5
Brent	7	10	4	7	11	11

Richmond and Twickenham	3	6	9	10	6	6
Southwark	4	10	6	13	6	6
Sutton and Merton	9	8	12	9	17	11
Tower Hamlets	4	6	5	4	7	5
Waltham Forest	7	2	2	5	5	6
Wandsworth	19	10	16	17	19	25
Westminster	13	26	12	24	21	19
Greater London PCTs	234	247	274	287	347	231

Note:
Information is not available on the number of dentists who have partially left the NHS. Dentists in the GDS and PDS are mainly self-employed and are free to vary the amount of NHS work that they do.

Mr. Streeter: To ask the Secretary of State for Health (1) what assessment he has made of the availability of NHS dentists in *(a)* Plympton, *(b)* Plymstock and *(c)* South West Devon; and if he will make a statement; [169397]

(2) what steps he intends to take to increase the number of NHS dentists in South West Devon. [169398]

Ms Rosie Winterton *[holding answer 29 April 2004]:* The number of dental undergraduates is increasing and we are seeking to attract new graduates into national health service dentistry, to bring back returners to practice and to recruit overseas dentists. At a local level, the whole of the South West Peninsula Strategic Health Authority area has been identified as an "Options for Change" field site and dentists are increasingly opting for the new ways of working that personal dental services allows. A total of 18 practices across the South West Peninsula, including two in Plymouth, have now adopted local contracts with their primary care trusts under "Options for Change".

Mr. Challen: To ask the Secretary of State for Health what the trend has been in the number of NHS dentistry patients in each year since 1997 in Morley and Rothwell. [169410]

Miss Melanie Johnson: The information requested for Leeds Health Authority (HA) and South Leeds Primary Care Trust (PCT), which covers Morley and Rothwell, is shown in the tables.

General Dental Service: children and adult registration list sizes and registration rates at 30 September 1977 to 2001—Leeds HA

	Number of registrations			Registration rate (percentage)		
	Adult	Child	Total	Adult	Child	Total
1997	304,406	111,899	416,305	55	66	58
1998	273,722	104,724	378,446	50	64	53
1999	269,879	104,494	374,373	49	64	52
2000	269,905	104,420	374,325	49	65	53
2001	266,807	101,479	368,286	48	63	52

General Dental Service: children and adult registration list sizes and registration rates at 30 September 2002 to 2003[1]—South Leeds PCT

	Number of registrations			Registration rate (percentage)		
	Adult	Child	Total	Adult	Child	Total
2002	56,298	21,626	77,924	51	61	53
2003	55,172	21,067	76,239	50	59	52

[1] Following transfer from HAs to PCTs in 2002, results were published for PCTs rather than HAs.

Notes:

1. Based on the number of registrations at 30 September each year.
2. Registration rates are based on a 15 month registration period. Following the change of registration rate from 24 months to 15 months September 1997 rates are affected.
3. Population data are ONS mid year census estimates.

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 19 April 2004, *Official Report*, column 255W, on dentists, if he will estimate the impact of the recent National Institute for Clinical Excellence draft guidance on the patient charge revenue from dental examinations. [169720]

Ms Rosie Winterton: The National Institute for Clinical Excellence's (NICE) consultation document on dental recall intervals does not constitute its formal guidance: the recommendations are preliminary and may change after the consultation. Dentists will be expected to follow the final advice, which NICE is expected to publish later this year. This may mean that patients with low risk of disease are seen less frequently than now.

We have also set up a working group under the chairmanship of Harry Cayton, the Department's director for patients and the public, to recommend a new patient charge system. This group has now reported and we are considering its recommendations. We hope to publish the report in due course.

Tim Loughton: To ask the Secretary of State for Health how many people failed to attend NHS dentist appointments in *(a)* 2003–04 and *(b)* each of the preceding five years in (i) Worthing and (ii) England. [170630]

Ms Rosie Winterton: No information is available on the number of people failing to attend national health service dental appointments. Details of missed appointments are held only by the dentists and are not collected centrally.

Early Retirement

Bob Spink: To ask the Secretary of State for Health how many staff in his Department took early retirement and at what total cost, in the last financial year. [171864]

Ms Rosie Winterton: 65 staff took early retirement in the Department in the financial year 2003–04 at a cost of £6,311,042, including annual compensation payments until staff reach normal retirement age.

Eating Disorders

Brian Cotter: To ask the Secretary of State for Health which local health authorities provide a specialist eating disorders service; where these services are located; and how many in-patient beds each facility had in each of the last five years. [172470]

Ms Rosie Winterton: The information requested is not centrally available.

Details of services available locally can be obtained from strategic health authorities.

The hon. Member may wish to contact the Eating Disorders Association (Registered Charity No. 801343), which provides information on the services available across the country, at the following address.

Eating Disorders Association
103 Prince of Wales Road
Norwich
NR1 1DW

Direct Line 0870 7703221

Fax 01603 664915

Email media@edauk.com

Brian Cotter: To ask the Secretary of State for Health what funding his Department has made available for the specific treatment of eating disorders in each of the last five years. [172474]

Ms Rosie Winterton: In his 2002 Budget announcement, my right hon. Friend, the Chancellor of the Exchequer, announced the largest sustained increase in funding of any five-year period in the history of the national health service. Over the years 2003–04 to 2007–08, these plans mean that expenditure on the NHS will increase on average by 7.4 per cent., a year over and above inflation. However in keeping with the philosophy of "Shifting the Balance of Power", primary care trusts are free to decide the allocation of resources locally.

Fluoride

Mr. Etherington: To ask the Secretary of State for Health (1) when he expects to *(a)* receive and *(b)* publish the results of the Newcastle university research study on the bioavailability of artificial and natural fluoride in drinking water; [172110]

(2) when he expects to receive the Chief Medical and Chief Dental Officers' report *(a)* on the relevance and priority of the Medical Research Council report on water fluoridation and *(b)* setting out the alternatives available to residents of fluoridated areas who do not wish to drink fluoridated water; and if he will make a statement. [172112]

Miss Melanie Johnson: The report of the research study into the bioavailability of fluoride in naturally and artificially fluoridated drinking water will be placed in the Library when available. The results of the research will enable the Chief Medical and Chief Dental Officer to complete their advice which will cover both research requirements and the conduct of consultations on fluoridating local water supplies. All drinking water contains some fluoride. Strategic health authorities undertaking consultations on proposals to increase the

fluoride content will need to take into account the views of any people who do not wish to drink fluoridated water.

Foreign Health Professionals

Mr. Flook: To ask the Secretary of State for Health how many NHS *(a)* doctors and *(b)* nurses trained abroad in each of the last three years. [172017]

Mr. Hutton: The number of doctors employed in the national health service by country of qualification for each of the last three years is shown in the table.

The Department does not collect information on the number of nurses employed in the NHS who trained abroad. The Nursing and Midwifery Council (NMC) holds information on the number of overseas nurses entering the register each year. This information can be found on the NMC website at www.nmc-uk.org.

Hospital, Public Health Medicine, Community Health Services (HCHS) and General Medical Practitioners—All NHS Doctors by country of primary medical qualification: England, as at 30 September

Number (Headcount)

	2001	*2002*	*2003*
All Doctors	100,289	104,448	109,964
of which:			
Qualified within United Kingdom	69,833	71,284	74,037
Qualified within the rest of the European Economic Area	4,829	5,097	5,379
Qualified Elsewhere	22,095	24,413	26,785
Unknown[1]	3,532	3,654	3,763
HCHS medical and dental staff[2]	68,484	72,168	76,400
Of which:			
Qualified within United Kingdom	43,831	45,017	46,890
Qualified within the rest of the European Economic Area	3,574	3,741	3,932
Qualified Elsewhere	17,547	19,756	21,815
Unknown[1]	3,532	3,654	3,763
General Medical Practitioner[3]	31,805	32,280	33,564
Of which:			
Qualified within United Kingdom	26,002	26,267	27,147
Qualified within the rest of the European Economic Area	1,255	1,356	1,447
Qualified Elsewhere	4,548	4,657	4,970

[1] Information about country of qualification is derived from the General Medical Council. For staff in dental specialties, with a General Dental Council registration, the country of qualification is therefore unknown
[2] Excludes Hospital Medical Hospital Practitioners and Hospital Medical Clinical Assistants, most of whom are GPs working part-time in hospitals
[3] All practitioners include GMS Unrestricted Principals, PMS Contracted GPs, PMS Salaried GPs, Restricted Principals, Assistants, GP Registrars, Salaried Doctors (Para 52 SPA), PMS Other and GP Retainers.

Department of Health General and Personal Medical Services Statistics

Foundation Trusts

Mr. Burstow: To ask the Secretary of State for Health what the cost of the regulator of NHS foundation trusts will be for each of the next three years. [171262]

Mr. Hutton: The provisional amount in parliamentary estimates that has been allocated to the office of the independent regulator for 2004–05 is £5 million. Negotiations on the actual amount of the budget for 2004–05 are nearing completion. The office of the independent regulator is currently classified by the Cabinet Office as an executive non-departmental public body of the Department, and therefore for future financial years the Department will allocate funds based on costed business plans provided by the chairman of the independent regulator each year for inclusion in the departmental vote.

The chairman of the independent regulator is the accounting officer and is responsible for ensuring that the public funds for which he is responsible are properly managed and safeguarded, and are used in line with the regulator's statutory functions and responsibilities. This includes a duty to exercise functions effectively, efficiently and economically.

General Practitioners

Ms. Brooke: To ask the Secretary of State for Health what research his Department has undertaken into the most common reasons for people visiting their general practitioner; what the results were; and if he will make a statement. [168717]

Miss Melanie Johnson: The Department does not commission such research but studies of this kind are made by the Office of Health Economics.

Mr. Burstow: To ask the Secretary of State for Health how many general practitioner premises have been *(a)* replaced and *(b)* modernised in each year since 1997. [171592]

Mr. Hutton: The table shows the number of general practitioner premises replaced and modernised in each year from 2000–01. This information was not collected prior to that date.

GP premises	*Replaced*	*Modernised*
2000–01	163	403
2001–02	174	358
2002–03	132	402
2003–04[1]	105	213
Totals	574	1,376

[1] Up to December 2003.

Health Services

Mr. Benton: To ask the Secretary of State for Health how much public funding has been spent on health in Bootle in each of the last seven years. [171482]

Miss Melanie Johnson: The information is not available in the format requested. Expenditure per weighted head in the Cheshire and Merseyside Strategic Health Authority (SHA) area, which includes the constituency of Bootle, has increased from £596.24 in 1997–98 to £1,103.34 in 2002–03 (the latest year available). This does not represent the total expenditure per head as an element of health expenditure cannot be identified by SHA area.

Mr. Djanogly: To ask the Secretary of State for Health what changes he expects in the number of patients requiring health services in the constituency of Huntingdon over the next 10 years; and if he will make a statement. [172634]

Dr. Ladyman: Following the "Shifting the Balance of Power" initiative, it is for primary care trusts (PCTs) in partnership with health authorities and other local stakeholders to plan and commission local services for their local populations.

I understand that Huntingdonshire district council anticipates an increase in population from 158,000 in 2002 to 163,800 by 2011.

Huntingdonshire PCT is working with its local partners to ensure that services meet the future needs of an increased population.

Mr. Djanogly: To ask the Secretary of State for Health if he will make a statement on the benefits for residents of the constituency of Huntingdon of the Health Development Agency. [172638]

Dr. Ladyman: The Department has not required the Health Development Agency (HDA) to assess its effect separately at constituency level.

Much of the East of England regional work of the HDA, which includes Huntingdon, is focussed on service delivery that supports the whole of the region's public health development, particularly around cancer, coronary heart disease and respiratory diseases, national healthy schools standards and the ageing population.

Simon Hughes: To ask the Secretary of State for Health what proportion of NHS staff working in Greater London hospitals, broken down by national health service trust, receive financial assistance with regard to *(a)* housing and *(b)* transportation. [170508]

Mr. Hutton: The information requested is not held centrally.

Information on the number of healthcare workers who have benefited from Government assistance in purchasing their own homes under the Starter Home Initiative scheme by the end of March 2004 broken down by London national health service trust is collected and is contained in the following table.

Simon Hughes: To ask the Secretary of State for Health (1) how many cases of MRSA have been identified in hospitals within Greater London, broken down by national health service trust, in each year since 1997; [170509]

(2) what percentage of patients within hospitals in Greater London, broken down by national health service trust, are infected with MRSA; [170510]

(3) what percentage of NHS staff within hospitals in Greater London, broken down by national health service trust, are infected with MRSA. [170511]

Miss Melanie Johnson: Information on cases by individual Trust from 1997 is not available. The tables show data available from the mandatory methicillin resistant Staphylococcus aureus (MRSA) blood stream (bacteraemia) infections surveillance system that started in April 2001. Information on National Health Service staff is not available, but MRSA rarely infects healthy people such as healthcare staff.

Reported MRSA bacteraemias and rates by acute NHS Trust (April 2001 Mar 2002)

London region	Total MRSA	MRSA Rate per 1,000 bed days

Mr. Borrow: To ask the Secretary of State for Health how many people in South Ribble are receiving drug treatment. [171657]

Miss Melanie Johnson: In 2000–01, there were a total of 2,874 people receiving drug treatment in the area covered by the drug action team for Lancashire. This is the latest available data. Data broken down by drug action team for 2001–02 and 2002–03 has not yet been finalised and published.

Source:
DH Statistics.

Mr. Borrow: To ask the Secretary of State for Health how many NHS *(a)* doctors and *(b)* nurses there were in South Ribble in each of the last seven years. [171273]

Miss Melanie Johnson: The information requested has been placed in the Library.

Mr. Borrow: To ask the Secretary of State for Health how much public funding has been spent on *(a)* heart disease and *(b)* cancer care in South Ribble in each of the last five years. [171669]

Miss Melanie Johnson: The information requested is not collected centrally. Allocations of funding for particular treatments are matters for local primary care trusts.

Mr. Borrow: To ask the Secretary of State for Health how much public funding has been spent on health in South Ribble in each of the last five years. [171674]

Miss Melanie Johnson: The information is not available in the format requested. Expenditure per weighted head in the Cumbria and Lancashire Strategic Health Authority (SHA) area, which includes the constituency of South Ribble, has increased from £600.03 in 1997–98 to £1,173.57 in 2002–03 (the latest year available). This does not represent the total expenditure per head, as an element of health expenditure cannot be identified by SHA area.

Mr. Flook: To ask the Secretary of State for Health if he will make a statement on the levels of elective admission to Taunton and Somerset NHS Trust in the past three years. [172014]

Ms Rosie Winterton: Data on the levels of elective admission to Taunton and Somerset National Health Service Trust in the past three years is shown in the table.

In year elective admission episodes for Taunton and Somerset NHS Trust

	Number
2000–01	31,329
2001–02	31,385
2002–03	31,907

Notes:

In-year admissions

An in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the data year. Periods of care ongoing at the end of the data year (unfinished admission episodes) are included. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Ungrossed Data

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Mr. Flook: To ask the Secretary of State for Health how many rapid access chest pain clinics there are in Taunton. [172019]

Ms Rosie Winterton: There is one rapid access chest pain clinic in Taunton, based at the Musgrove Park Hospital, part of the Taunton and Somerset national health service trust.

Mr. Pickthall: To ask the Secretary of State for Health how much public funding has been spent on health in West Lancashire in each of the last seven years. [171550]

Miss Melanie Johnson *[holding answer 10 May 2004]*: The information is not available in the format requested. Expenditure per weighted head in the Cumbria and Lancashire Strategic Health Authority (SHA) area, which includes the constituency of West Lancashire, has increased from £600.03 in 1997–98 to £1,173.57 in 2002–03 (the latest year available). This does not represent the total expenditure per head as an element of health expenditure cannot be identified by SHA area.

Mr. Neil Turner: To ask the Secretary of State for Health how many NHS *(a)* doctors and *(b)* nurses there were in Wigan in each of the last seven years; and if he will make a statement. [169345]

Miss Melanie Johnson: The information requested has been placed in the Library.

Mr. Neil Turner: To ask the Secretary of State for Health how many NHS *(a)* therapists and *(b)* scientists were located in Wigan in each of the last seven years. [169346]

Miss Melanie Johnson: The information requested is shown in the table.

NHS hospital and community health services: Qualified scientific, therapeutic and technical staff in each specified organisation as at 30 September each specified year

Tony Cunningham: To ask the Secretary of State for Health (1) if he will make a statement on the numbers of NHS *(a)* doctors and *(b)* nurses in Workington constituency in each of the last seven years; [170706]

(2) what changes there have been to NHS waiting list time in the last seven years for the residents of Workington constituency. [170708]

Miss Melanie Johnson: The information requested has been placed in the Library.

Tony Cunningham: To ask the Secretary of State for Health if he will make a statement on NHS waiting times for heart surgery in Workington constituency. [170710]

Miss Melanie Johnson: The information requested is shown in the table.

Hospices

Mr. Wood: To ask the Secretary of State for Health how much of the £12 million announced on 26 December 2003 for palliative care will be available to hospices. [167052]

Miss Melanie Johnson: The additional £12 million investment over three years announced by my right hon. Friend the Secretary of State on 26 December 2003 follows on from the commitment in the recent Command Paper "Building on the Best".

This additional money is not intended for hospices. It is to be used to ensure that, by widening the pool of generalist staff, in primary care, in care homes and in hospitals, who are trained in meeting the needs of people nearing the end of their lives, patients—regardless of their diagnosis—will have access to high quality palliative care so that they will be able to be cared for and to die in a place of their choice.

Human Fertilisation and Embryology

Mr. Amess: To ask the Secretary of State for Health how many licensed fertility clinics have had their licences *(a)* suspended and *(b)* revoked by the Human Fertilisation and Embryology Authority in each year since 1991. [166910]

Miss Melanie Johnson: The number of licence suspensions and revocations for failure to comply with the provisions of either the Human Fertilisation and Embryology Act 1990, the Human Fertilisation and Embryology Authority's code of practice or the conditions of the establishment's licence, since 1997, are shown in the table.

Licences suspended or revoked by the Human Fertilisation and Embryology Authority since 1997[1]

Year[2]	*Suspension*	*Revocation*
1999	—	1
2003	[3]1	—
2004	1	—

[1] Figures do not include licences voluntarily given up by licensed establishments.

[2] No licences were suspended or revoked in the years 1997, 1998, 2000, 2001 and 2002.

[3] Suspension applied only to specified licensed activities, not the whole licence.

Source:
Human Fertilisation and Embryology Authority.

Information for 1991 to 1996 is held on microfilmed records, by licensed establishment, and could be provided only at disproportionate cost.

Intermediate Care

Sandra Gidley: To ask the Secretary of State for Health what percentage of National Service Framework local implementation teams have reported that an intermediate care co-ordinator is in place; and if he will make a statement. [171021]

Dr. Ladyman: This information is not collected centrally.

Milton Keynes and South Midlands Sub-regional Strategy

Mr. Lidington: To ask the Secretary of State for Health if he will make a statement on proposals for increased funding to growth areas in South-east England, as mentioned in paragraph 97 of the Cross-Government Statement (matters 1, 2, 3, 4) on the Milton Keynes and South Midlands Sub-Regional Strategy. [172171]

Mr. Hutton: The Department has given its backing to providing health service infrastructure to support the development of sustainable growth areas.

As announced to Parliament, on 15 March 2004 the Department has agreed to provide an extra £20 million, per annum, of revenue funding in 2004–05 and 2005–06 to be allocated to primary care trusts (PCTs) and £20 million of capital resources in 2005–06 to be allocated to strategic health authorities.

PCTs within the growth areas were notified of their additional 2004–05 and 2005–06 revenue allocations on 25 March 2004.

The Department has also agreed to give priority to Office of the Deputy Prime Minister growth areas for future local improvement finance trust schemes and to include a growth area adjustment for ODPM growth areas in the next round of PCT allocations.

Morphine Sulphate

Mr. Andrew Turner: To ask the Secretary of State for Health what the target date is for the availability of morphine sulphate by NHS prescription in each primary care trust area; in what areas it is already available; and when guidelines will be published on the prescription of morphine sulphate. [171928]

Ms Rosie Winterton: Morphine sulphate is available on national health service prescription and was prescribed in all primary care trust areas in 2003.

Guidance on the prescribing of morphine sulphate is given in the British National Formulary, a copy of which is supplied to all NHS doctors and pharmacists. Advice on the use of morphine sulphate in specific medical conditions has also been published in the Drug and Therapeutics Bulletins, the MeReC Bulletins and in PRODIGY guidance for primary care, which are widely distributed free of charge to NHS professional staff.

Mumps

Mr. Burstow: To ask the Secretary of State for Health what estimate he has made of the number of teenagers in England who *(a)* are not inoculated against mumps and *(b)* have had only one of the two necessary doses. [167428]

Miss Melanie Johnson: The Department does not have data on the number of teenagers who either received only one dose of the measles, mumps and rubella (MMR) vaccine or no doses. Most older children and adolescents will naturally be immune from mumps infection. Seroprevalance data, this is data where antibody levels are measures in blood samples, suggests that around 20 per cent., may be unprotected against mumps.

National Service Frameworks

Mr. Waterson: To ask the Secretary of State for Health (1) if he will make a statement on progress towards the National Service Framework milestone for

general practitioner practices diagnosing, treating and caring for older people with depression and dementia; [170615]

(2) if he will make a statement on progress towards the National Service Framework milestone for protocols across health and social care systems for the care and management of older people with mental health problems; [170616]

(3) if he will make a statement on progress towards the National Service Framework milestone for strategic and operational plans to include the development of an integrated mental health service for older people. [170629]

Dr. Ladyman: The Department is monitoring progress towards the development of protocol driven, joined-up mental health services for older people. This is a "must do" target in the 2003–06 priorities and planning framework.

All of the milestones relating to standard 7 of the national service framework are the responsibility of strategic health authorities to plan for and monitor progress towards, but we would expect the type of service mentioned to be part of an integrated service.

Mr. Waterson: To ask the Secretary of State for Health if he will make a statement on progress towards the National Service Framework milestone for integrated continence services across health and social care systems. [170620]

Dr. Ladyman: The responsibility for implementing this milestone and monitoring progress is the responsibility of strategic health authorities. Monitoring information on progress with this milestone is not collected centrally.

NHS Beds

Mr. Frank Field: To ask the Secretary of State for Health how many NHS beds were available in Birkenhead in each year since 1997; and if he will make a statement. [167646]

Miss Melanie Johnson: Information on the average daily number of beds in acute wards in each national health service trust and England from 1996–97 to 2002–03 is available from the Department's website at www.performance.doh.gov.uk/hospitalactivity/index.htm.

Mr. Hendrick: To ask the Secretary of State for Health how many NHS beds were available in Preston in each year since 1997; and if he will make a statement. [168104]

Miss Melanie Johnson: Information on beds is collected on a provider basis from national health service organisations and the latest data available is for the year 2002–03. Beds data for 2003–04 will be published later this year.

Information about the relevant trusts has been placed in the Library.

NHS Information Technology

Mr. Norman: To ask the Secretary of State for Health if he will list the end-user groups being consulted in the National Programme for Information Technology in the NHS. [R] [171823]

Mr. Hutton: Consultation has taken place with clinical representative groups, including the professional Royal Colleges, the General Medical Council, the British Medical Council and the NHS Confederation, all of whom have provided valuable input. As well as the national professional bodies and groups, the national programme for information technology (NPfIT) team has engaged closely with expert primary care practitioners, including practising general practitioners, who are there to represent and feedback issues with their professional colleagues.

The national clinical advisory board (NCAB) has ensured that the wide-ranging clinical needs and requirements are reflected in the design of the NPfIT solutions and integrated into the ongoing plans of the programme. Their work covered a variety of care settings, from cancer care to out of hours care. Since the appointment of Aidan Halligan, Deputy Chief Medical Officer, as joint senior responsible owner and director general for NPfIT, plans are in hand to improve and review the formal arrangements for engaging with key stakeholders across the national health service. This will include a frontline support academy and wider patient groups and an announcement will be made later in summer.

The NPfIT has to date hosted around 400 local events, engaging managers, clinicians, allied health professionals and IT staff. Over 21,000 individuals have been involved. A series of national and regional joint events with the NHS Confederation began on 10 May, aimed at speaking directly to the chief executives and board members who need to lead local implementation.

Mr. Norman: To ask the Secretary of State for Health what the dates of *(a)* past and *(b)* planned future meetings of the clinical consultation group to the National Programme for Information Technology in the NHS are. [R] [171824]

Mr. Hutton: Previous meetings of the national clinical advisory board were held on:

2 October 2003.

27 November 2003.

15 January 2004.

16 March 2004.

13 May 2004.

The Department issued a press notice on 30 April 2004 to outline the plans to continue and improve engagement with patient and national health service stakeholders in order to support the implementation of the national programme for information technology (NPfIT). This follows on from the appointment of Aidan Halligan, Deputy Chief Medical Officer, as joint senior responsible owner and director general for NpfIT, who now has responsibility for leading on the preparations and planning for implementation across the NHS.

The first step has been to set up a new frontline support academy for clinicians. The formal arrangements for engaging with key groups are also being reviewed and an announcement will be made later in the summer.

Mr. Norman: To ask the Secretary of State for Health what the estimated cost is of training *(a)* clinical staff and *(b)* non-clinical staff to use the information systems developed by the National Programme for Information Technology in the NHS. [R] [171826]

Mr. Hutton: Training plans are still evolving as is to be expected when approaching a phased programme of implementation and roll out of new applications, systems and services. The training requirements are not solely related to the national programme for information technology in the national health service in England (NPfIT) as general IT skills are now an everyday element for any public service and service based organisation. The European computer driving licence is helping to improve general skills across the NHS. The move to e-learning and development and the NHS University will both create more demand for computer and online skills and provide more channels and solutions to bring training to people.

As we complete the more detailed plans for each geographical cluster and local service provider contract, we can map out the extent of IT support for clinical practice and patient care over the phased implementation of NPfIT. This will generate clearer training requirements and will enable us to consider the most appropriate ways of providing training and development and produce firmer costs.

NHS Staff

Tim Loughton: To ask the Secretary of State for Health how many NHS whole-time equivalent *(a)* doctors and *(b)* nurses there were in East Worthing and Shoreham in each of the last seven years. [169028]

Ms Rosie Winterton: The information is not available for the area requested. However, the number of whole time equivalent doctors and nurses within Surrey and Sussex Strategic Health Authority area, broken down by trust, has been placed in the Library.

Mr. Ben Chapman: To ask the Secretary of State for Health how many NHS *(a)* doctors and *(b)* nurses there were in Wirral, South in each of the last seven years. [172685]

Miss Melanie Johnson: The information requested has been placed in the Library.

Nurse Training

Mr. Todd: To ask the Secretary of State for Health in which years since 1997 applications for nurse training places from suitably qualified applicants have exceeded the number of places available; and if he will make a statement. [171822]

Mr. Hutton: The information requested is not available. Information on the number of applicants to pre-registration nursing and midwifery training commissions and the number of training commissions available each year is shown in the tables.

The national health service recruitment campaign was launched on 1 March to raise the profile of careers in the NHS and encourage new entrants into training and the Government is increasing the number of training places for nurses and midwives. Between 1997–98 and 2002–03, the number of pre-registration nursing and midwifery training commissions has increased by 6,417, or 39 per cent., with a further increase forecast in 2003–04.

Ratio of applicants to pre-registration nursing and midwifery training courses to nursing and midwifery training commissions in England each year

Diploma[1]

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
Applicants	18,732	32,405	34,953	40,908	33,864	29,689
Commissions	16,120	16,586	17,383	18,666	19,704	n/a

n/a = Not available.
[1] Applicant and commissions data are not directly comparable as the NMAS applications cycle runs for longer than the commissioning cycle, 1997–98 applicants data is therefore compared with 1998–99 commissions data and a direct ratio is not applicable

Osteoporosis

Mrs. Dean: To ask the Secretary of State for Health what percentage of primary care trusts have a fully integrated falls and osteoporosis service as set out in the National Service Framework for Older People. [172548]

Dr. Ladyman: I refer my hon. Friend to the response I gave to my hon. Friend the Member for Forest of Dean (Diana Organ), on 11 May 2004, *Official Report*, column 319W.

Parliamentary Questions

Dr. Murrison: To ask the Secretary of State for Health when he expects to reply to the question from the hon. Member for Westbury, reference 159700, tabled on 5 March, concerning Government information on dentist training numbers. [172174]

Ms Rosie Winterton: I refer the hon. Member to the reply that I gave him on 19 April 2004, *Official Report*, column 178W.

Patients Forums

Mr. Burstow: To ask the Secretary of State for Health what steps are being taken by the Commission for Public Patient Involvement to ensure that *(a)* residents and *(b)* patients can find the names of members of local patients' forums. [172522]

Ms Rosie Winterton: Any member of the public can contact their local patients' forum through the forum support organisations (FSO); their details are on the Commission for Patient and Public Involvement in Health website at www.cppih.org.

Names of individual members are made available to the primary care trust and national health service trust that the patients' forum is working with, in accordance with the Data Protection Act 1998 requirements.

Individual members' names are not currently widely available to the public for technical reasons linked to the Data Protection Act. The Commission is, however, working with all forums to enable wide availability of members' names.

Prescriptions

Mr. Clapham: To ask the Secretary of State for Health how many pharmacy and general practitioner prescribing projects are operating; how many people they cover; and what assessment he has made of their *(a)* influence on the numbers of people seeking treatment and *(b)* impact on the level of crime. [168722]

Miss Melanie Johnson: The Department does not centrally collect numbers of general practitioner prescribing projects.

Geraldine Smith: To ask the Secretary of State for Health what assessment he has made of the numbers of patients who fail to get prescriptions dispensed because of the charges. [165410]

Ms Rosie Winterton: The number of prescription items dispensed in the community is recorded centrally but no information is held centrally about the number of items prescribed. We have not, therefore, made any assessment of the number of items which might be prescribed but not dispensed. However, in 2002 only 14 per cent. of prescriptions dispensed in the community attracted a charge.

Prisoners

Vera Baird: To ask the Secretary of State for Health what alternative therapeutic environments are available to treat women who are sent to prison who are mentally ill. [172610]

Dr. Ladyman: Specialist services for people with mental health problems who come into contact with the criminal justice system are provided by multidisciplinary teams working in in-patient settings and in the community. The Department supports a range of police and court diversion and liaison schemes that enable the early diversion of such people to specialist mental health services. The courts have a number of psychiatric disposals available to them, ranging from a hospital order requiring detention in a psychiatric hospital to probation order with a condition requiring an offender to have psychiatric treatment. In addition, women prisoners assessed as needing in-patient treatment for mental disorder may be transferred to hospital.

Prosthetics/Orthodontics

Mr. Oaten: To ask the Secretary of State for Health what action is being taken to train more people in *(a)* prosthetics and *(b)* orthodontics. [172396]

Mr. Hutton: The number of training places in prosthetics and orthodontics has increased from 28 to 30 between 1996–97 and 2002–03 and the workforce review team annually reviews the need for increases in training for all the allied health professions.

Information on the number of consultants and doctors in training in orthodontics is shown in the table. The Department has centrally funded two more training posts in orthodontics in 2004–05, bringing the total training posts in place to 31. The number of dentists electing to train in specialties like orthodontics is related to the number of undergraduates training as dentists relative to the demand for dental care. We have recently completed the first review of the dental workforce since 1987 and will shortly be announcing the results including the implications for the intake of undergraduates to dental schools in England.

Hospital, Public Health Medicine and Community Health Services (HCHS): dental staff within the Orthodontics and Prosthodontics—England[1]

Provigil (Modafinil)

Tim Loughton: To ask the Secretary of State for Health how many prescriptions of provigil (modafinil) have been made for children in each of the last five years. [172586]

Ms Rosie Winterton *[holding answer 11 May 2004]:* In each of the last five years, it is estimated that under 1,000 prescription items of modafinil were dispensed in the community to children.

Rheumatological/Musculoskeletal Conditions

Andy King: To ask the Secretary of State for Health what advice and guidance is provided as part of the expert patients programme to patients with musculoskeletal conditions. [171932]

Miss Melanie Johnson: The expert patients programme (EPP) provides generic, lay-led, group based training for people in the self management of their long term condition. The programme is aimed at a wide range of people from different long term conditions and age groups, geographical location and ethnicity. The EPP is delivered locally by a network of trainers and volunteer tutors with long term conditions.

The EPP is a generic course and teaches five core self-management skills: problem solving; decision making; resource utilisation; developing effective partnerships with healthcare providers and taking action. The programme offers a tool-kit of fundamental techniques that patients can undertake to improve the quality of their life living with a long-term condition.

The course enables patients to develop their communication skills, manage their emotions, manage daily activities, interact with the healthcare system, find health resources, plan for the future, understand exercising and healthy eating, and manage fatigue, sleep, pain, anger and depression.

No specific medical advice is given to people with musculoskeletal conditions, the course aims to develop confidence and self control and does not concentrate on the physiological symptoms of the disease.

Andy King: To ask the Secretary of State for Health how many extended scope physiotherapists are working in the NHS; and what steps are being taken to increase this number. [171934]

Mr. Hutton: Information is not collected separately on the number of extended scope physiotherapists employed in the national health service. As at September 2003, there were 17,922 physiotherapists employed in the NHS, an increase of 3,679 or 26 per cent., since 1997.

The Government have implemented a range of measures to recruit more health care professionals, including physiotherapists. These include improving pay and conditions, encouraging the NHS to become a better, more flexible and diverse employer, increasing training, investing in child care and continuing professional development, attracting back returners and running national and international recruitment campaigns.

School Nurses

Mrs. Brooke: To ask the Secretary of State for Education and Skills what plans he has to increase the number of school nurses. [170370]

Mr. Hutton: Information is not available on the number of school nurses employed in the national health service. The Government collected information on the school nursing workforce in the September 2003 non-medical workforce census but this information was incomplete. Reliable information will be available from the September 2004 workforce census.

School nurses are largely employed by primary care trusts (PCTs), and it is for PCTs and care trusts to continue to assess the level of need for school nurses in the context of wider initiatives which impact on the delivery of health services to school age children. These include a review of the nursing, midwifery and health visiting contribution to vulnerable children and young people by the Chief Nursing Officer, the development of the national service framework for children and the work arising from the green paper on children including the development of a workforce strategy covering a range of staff working with children and young people.

Sexually-transmitted Infections

Mr. Randall: To ask the Secretary of State for Health what the percentage changes were, broken down by *(a)* age and *(b)* sex for rates of (i) conception and (ii) sexually transmitted infections in teenagers for each of the last five years in the North West London Health Authority. [167997]

Mr. Hutton: Conception data, numbers, rates and percentage changes, for the years 1997–2001 (latest data available) for North West London Strategic Health Authority is as shown in the table.

Conceptions (numbers, rates, percentage change)—North West London Strategic Health Authority, 1997 to 2001

	Under 16			*16 to 19*		
	Number	*Rate*[1]	*Percentage change*	*Number*	*Rate*[2]	*Percentage change*
1997	205	7.9	—	2,861	72.1	—
1998	213	7.9	0.0	2,969	79.0	+9.5
1999	222	8.0	+1.3	2,933	78.3	-0.9
2000	237	8.4	+5.0	2,950	81.5	+4.1
2001	238	8.4	0.0	2,854	75.1	-7.9

[1] Rate per 1,000 females aged 13 to 16.

[2] Rate per 1,000 females aged 16 to 19.

The following table shows the percentage change in the rate of sexually transmitted infections (STIs) shown for the four principal infections (gonorrhoea, chlamydia, herpes—first attack—and genital warts—first attack) for the combined age group 13 to 19-years-old by sex in North West London Health Authority for the last six years of complete data (1998–2002).

Too few and sporadic cases of syphilis among teenagers 13 to 19 years were reported from GUM clinics in the North West London Health Authority over the last five years, making calculation of rates unreliable; thus these data are not provided.

Note that these diagnoses represent only persons attending genito urinary medicine (GUM) clinics in the North West London Health Authority and not necessarily residents within that area. Data on diagnoses made outside the GUM setting, such as in general practice, are not held centrally and not, therefore, included in these totals.

Diagnoses, rates (per 100,000 of population) and rates change of selected STIs in teenagers age 13 to 19 years attending GUM Clinics in North West London STHA

	Males			Females

Unified NHS Database

Mr. Gibb: To ask the Secretary of State for Health what plans he has to create a unified database of *(a)* health records and *(b)* users of NHS services; and if he will make a statement. [170334]

Mr. Hutton: The national programme for information technology in the national health service in England has been established to connect delivery of the NHS Plan with the capabilities of modern information technologies to support the delivery of fast, convenient and seamless services designed around the patient.

Fundamental to this is the NHS care records service (NHS CRS) that will enable patient care information and records to be accessed at the point of need anywhere in England.

Over time, the NHS CRS will provide all 50 million NHS patients with an individual electronic care record to summarise key treatment and episodes of care within either the health service or social care. Access to any personally identifiable information about patients will be subject to stringent access controls, confidentiality and security safeguards and will be fully compliant with the requirements of the Data Protection Act.

Unused Medicines

Mr. Burstow: To ask the Secretary of State for Health if he will estimate for each year since 1997 *(a)* the amount of medicines dispensed and never used in (i) England, (ii) each NHS region, (iii) each strategic health authority and *(b)* the cost of these medicines to the NHS; and if he will make a statement. [169704]

Ms Rosie Winterton: This information is not collected centrally.

Waiting Lists

Simon Hughes: To ask the Secretary of State for Health what the average number of patients on *(a)* in-patient and *(b)* day case waiting lists was in each Greater London NHS Trust since 1997; and what the percentage change was in each year. [168936]

Mr. Hutton: The information requested for the national health service trusts within the five London strategic health authorities has been placed in the Library.

Waiting Lists/Times

Mr. Kaufman: To ask the Secretary of State for Health how many and what percentage of suspected cancer patients in Manchester, Gorton saw an NHS consultant within two weeks in each of the last seven years. [167386]

Miss Melanie Johnson: The information requested is shown in the table.

Waiting times for first consultant out-patient appointment for suspected cancer following urgent GP referral

			Seen within 2 weeks	
	Quarter	*NHS Trust*	*Percentage*	*Number*
2000–01	4	Central Manchester Healthcare NHS Trust	90.4	75
2000–01	4	Christie Hospital NHS Trust	95.0	19
2001–02	1	Central Manchester and Manchester Children's University Hospitals NHS Trust	90.0	81
2001–02	1	Christie Hospital NHS Trust	83.3	5
2001–02	2	Central Manchester and Manchester Children's University Hospitals NHS Trust	85.0	68
2001–02	2	Christie Hospital NHS Trust	100.0	8
2001–02	3	Central Manchester and Manchester Children's University Hospitals NHS Trust	93.5	100
2001–02	3	Christie Hospital NHS Trust	100.0	3
2001–02	4	Central Manchester and Manchester Children's University Hospitals NHS Trust	87.9	80
2001–02	4	Christie Hospital NHS Trust	100.0	3
2002–03	1	Central Manchester and Manchester Children's University Hospitals NHS Trust	88.0	95
2002–03	1	Christie Hospital NHS Trust	83.3	5
2002–03	2	Central Manchester and Manchester Children's University Hospitals NHS Trust	98.4	125
2002–03	2	Christie Hospital NHS Trust	100.0	2
2002–03	3	Central Manchester and Manchester Children's University Hospitals NHS Trust	100.0	165
2002–03	3	Christie Hospital NHS Trust	85.7	6
2002–03	4	Central Manchester and Manchester Children's University Hospitals NHS Trust	100.0	135
2002–03	4	Christie Hospital NHS Trust	80.0	4
2003–04	1	Central Manchester and Manchester Children's University Hospitals NHS Trust	100.0	109
2003–04	1	Christie Hospital NHS Trust	75.0	3
2003–04	2	Central Manchester and Manchester Children's University Hospitals NHS Trust	99.2	128
2003–04	2	Christie Hospital NHS Trust	100.0	5
2003–04	3	Central Manchester and Manchester Children's University Hospitals NHS Trust	100.0	151
2003–04	3	Christie Hospital NHS Trust	100.0	3

Department of Health form QMCW.

Mr. Kaufman: To ask the Secretary of State for Health if he will make a statement on NHS waiting times for heart surgery in Manchester, Gorton. [167387]

Miss Melanie Johnson: In February 2004, no one waited more than nine months for a heart operation at Central Manchester and Manchester Children's Hospital National Health Service Trust. The total number of people waiting for a heart operation at Central Manchester and Manchester Children's Hospital NHS Trust was 257.

Mr. Cummings: To ask the Secretary of State for Health what the average waiting time was for non-urgent operations within the *(a)* Sunderland, *(b)* Easington, *(c)* Hartlepool and *(d)* Durham primary care trusts in the last year for which figures are available. [168306]

Miss Melanie Johnson: The information requested is shown in the table.

	Primary care trust	*Finished admissions*	*Time waited mean (days)*
5D9	Hartlepool PCT	9,185	96
5J8	Durham Dales PCT	6,082	89
5KC	Durham and Chester-le-Street PCT	10,371	118
5KD	Easington PCT	8,717	105
5KL	Sunderland Teaching PCT	22,164	95

Notes:

1. A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

2. Time waited statistics from Hospital Episode Statistics (HES) are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.

3. Figures have not been adjusted for shortfalls in data (i.e., the data is ungrossed).

Source:
Hospital Episode Statistics (HES), Department of Health.

Mr. Cummings: To ask the Secretary of State for Health what the waiting times are for hip replacements within the *(a)* Sunderland, *(b)* Easington, *(c)* Hartlepool and *(d)* Durham primary care trusts. [168307]

Miss Melanie Johnson: The information requested is shown in the table.

	PCT—Primary care trust code	Finished admissions	Time waited mean (days)
5D9	Hartlepool PCT	153	145
5J8	Durham Dales PCT	165	237
5KC	Durham and Chester-le-Street PCT	193	247
5KD	Easington PCT	149	233
5KL	Sunderland Teaching PCT	385	293

Notes:

1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Time waited statistics from Hospital Episode Statistics (HES) are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.
3. The main operation is the first recorded operation in the HES data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details, e.g. time waited, but the figures for "all operations count of episodes" give a more complete count of episodes with an operation.
4. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Source:

Hospital Episode Statistics (HES), Department of Health.

Mr. Baron: To ask the Secretary of State for Health (1) what the *(a)* shortest, *(b)* longest and *(c)* medium waiting times were for first diagnostic appointments to consultant (i) neurologists, (ii) geriatricians and (iii) physicians for people suspected of having Parkinson's disease in of the last five years for which figures are available; [172578]

(2) how many patients were in the latter stages of Parkinson's accessed hospice care in each of the last five years for which figures are available. [172579]

Mr. Hutton *[holding answer 11 May 2004]:* The information requested is not collected centrally. However, the Department is driving forward a major programme of work to improve equality of access to all national health service treatment and care services. Maximum waiting times have fallen over the past few years and will continue to do so. By the end of 2005, the maximum waiting time for a first out-patient appointment with a consultant will fall to three months and the maximum wait for inpatient treatment will fall to six months.

The Department is developing a national service framework for long term conditions, which will focus on improving services for people with neurological conditions such as Parkinson's Disease. The Department has also commissioned the National Institute for Clinical Excellence to prepare guidelines for the diagnosis, management and treatment of Parkinson's disease in primary and secondary care. We expect that the guidelines will be published in spring 2006.

Wanless Report

Mr. Maples: To ask the Secretary of State for Health (1) what measures are being taken to ensure that the recommendations of the Derek Wanless Report are being implemented, with particular regard to the prevention of cardiac arrhythmias; [169270]

(2) how he will ensure that the *(a)* measures to improve patient information access and *(b)* the expert patients programme will be applicable to sufferers of cardiac arrhythmias. [169273]

Miss Melanie Johnson: The Wanless Report does not make any specific recommendations with regard to the prevention of cardiac arrhythmias. On 12 March 2004, the Government announced that a new national service framework chapter on arrhythmias and sudden cardiac death would be published within one year.

An expert group will be formed to take this work forward.

Written Answers to Questions

Tuesday 18 May 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal Welfare

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will oppose in the Council of Ministers proposals providing for journey time of longer than eight hours for all animals travelling for slaughter or further fattening; [166931]

(2) if she will make representations for EU regulations on the maximum legally permitted temperature at which animals can be transported to be reduced; and if she will make a statement; [166933]

(3) if she will make representations for EU regulations on the maximum stocking densities for animals in transit to be reduced to allow animals to *(a)* reposition themselves so as not to fall and *(b)* lie down comfortably; and if she will make a statement. [166932]

Mr. Bradshaw: These are all important matters that were considered at the Agriculture and Fisheries Council on 26 April. The talks failed as the Presidency could not secure a qualified majority for its proposals, which in our opinion failed to do enough to improve animal welfare. For this reason the UK was among those member states which could not support the Presidency.

Avian Flu

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions her Department has had with Asian countries in order to ensure that surveillance of the vaccination programme to combat the bird influenza outbreak in chickens is rigorous enough to spot the evolution of new strains of the virus. [165261]

Mr. Bradshaw: We have had no direct contact on this issue. Our key protection against the disease is to control or ban imports. That operates regardless of the strain. We have received reports on the outbreak through the OIE and from EU representatives in south east Asia and have acted immediately to ban imports from wherever the disease has occurred.

Thailand is the only country in the region from which imports of poultry products were permitted prior to the outbreak of avian influenza. Imports of poultry products which could transmit the virus have been stopped and will be allowed to resume only once it is clear that the disease has been eradicated. Thailand has reported that it has not used vaccination in its efforts to eradicate the disease.

Battery Cages

Lynne Jones: To ask the Secretary of State for Environment, Food and Rural Affairs how many inspections have been carried out on battery cage systems in the past 12 months; how many breaches of the law were found; whether there was full compliance with the Welfare of Farmed Animals Regulations (England) 2002 requirement that each hen should be given at least 550 square centimetres space; what action has been taken to address breaches of UK legislation; and if she will make a statement. [173058]

Mr. Bradshaw: From the 1 April 2003–31 March 2004 there were 95 inspections carried out on battery cage systems in England.

There were 19 breaches of welfare law found. Of the 19 breaches, two revealed a failure to comply with the Welfare of Farmed Animals Regulations (England) 2002 requirement that each hen should be given at least 550 square centimetres space.

Action taken to address breaches of UK legislation is as follows:

(a) Advisory letter informing of legislative requirements and outlining corrective action is sent in all cases.

(b) In all cases where failure to comply with legislation is found, a follow up visit is made to ensure no unnecessary pain or unnecessary distress is disclosed. If unnecessary pain or unnecessary distress occurs then further action will be taken.

(c) A Regulation 11 Improvement notice requiring corrective action may be served if an owner appears uncooperative or does not take action to comply with the advisory letter.

(d) Statement from inspector and initiate prosecution procedures where there is failure to comply or unnecessary pain or unnecessary distress occurs.

(e) Further action in addition to the above is dependent pending on additional reports of follow up visits.

(f) No further action may be recommended following a further report e.g. farm depopulated or no longer keeping poultry.

In the two breaches of the Welfare of Farmed Animals Regulations (England) 2002 referred to above concerning space per hen, the farmers were sent an advisory letter. At the follow up visit they were in compliance with the Regulations.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the feasibility of recolonising areas cleared of TB infected badgers from areas in the UK colonised by badgers which are known to be free from TB infection. [158606]

Mr. Bradshaw: No such assessment has been made.

Translocating animals is not a straightforward process. There are significant welfare implications for the animals concerned that need to be fully assessed prior to any animal movements. In addition, there do not appear to be any good reasons to translocate badgers from areas of low TB incidence to areas of high incidence.

Animal Disease Compensation

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her proposals for the Compensation Scheme Review. [173876]

Mr. Bradshaw: The consultation period on proposals for rationalising compensation for notifiable animal diseases ended on 7 January this year.

The results of the consultation have been analysed and a summary of the responses posted on the Defra website.

In light of the responses, officials are considering how best to take the policy forward.

Environmental Protection

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how much Government funding was available in each of the past three years to the Tidy Britain campaign. [168809]

Alun Michael: Government funding was provided to Encams (formerly Tidy Britain Group) as follows:

	Thousand
2001–02	3,762
2002–03	[1]4,597
2003–04	3,574

[1] Defra allocated an additional 1 million to local authorities through ENCAMS for the Local Environmental Quality Pathfinder Programme that forged partnerships between local authorities and the local community. Some of the projects developed reduced fast food litter, railway land litter and schools litter.

EU Directives

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs which European Union directives for which her Department has responsibility were not transposed into UK law before the passing of the transposition deadlines in each of the last five years. [168368]

Alun Michael: While every effort is made to ensure that transposition deadlines are met, it is inevitable that this will not always be the case. Transposition can be complex, and it is important that timely transposition is balanced against other objectives, such as avoiding over implementation and unnecessary regulation. In most cases these directives require transposition by the devolved Administrations as well as at Westminster and in some cases also in Gibraltar.

The Department for Environment, Food and Rural Affairs plays a leading role in the United Kingdom's EU policy on the environment, agriculture, fisheries, animal and plant health. Between 8 June 2001 and 31 December 2003, 42 EU directives were not fully transposed across the whole of the UK by the transposition deadline. Of these, 88 per cent. have now been transposed.

A table listing the directives that have not been transposed into UK law before the transposition deadlines had passed has been placed in the Library of the House.

Farm Income

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list which EU member states *(a)* intend to make single farm payments to fruit growers and *(b)* do not. [166025]

Alun Michael: Under EU legislation governing the Single Payment Scheme, land under permanent crops, including top fruit, is not eligible to use in support of a payment claim in any member state. However, land used to grow soft fruit will be eligible in those member states and regions which adopt the flat rate or 'hybrid' payment models. Our current understanding is that Germany, Denmark, Sweden and Luxembourg, in addition to England, Northern Ireland, are likely to adopt such models. We expect that no payments will be made in respect of land used for fruit production in the remaining member states, nor in Scotland and Wales.

Fast Food Outlets

Harry Cohen: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the *(a)* risk to human health and *(b)* impact on the environment of discarded waste from fast food outlets; what action she requires to be taken to deal with this problem, and by whom; and if she will make a statement. [173240]

Alun Michael: The Government's approach to cutting fast food litter, with the voluntary code we have promoted resulting in a 20 per cent. cut in fast food litter in pilot areas compared with a general worsening by 12 per cent. across the country between 2002 and 2003. The challenge now is for all concerned to put the lessons into practice.

In October 2003 Defra launched a consultation exercise in order to establish a Voluntary Code of Practice for the Fast Food Industry, following 18 months of research with industry representatives. Defra commissioned ENCAMS (formerly Tidy Britain Group) to develop the voluntary code. In February we published the Local Environmental Quality Survey for England 2002–03 (LEQSE) carried out by ENCAMS which showed fast food litter had increased by 12 per cent. over the last year, and that it had become more widespread. However, with practical application of the code's recommendations, a good practice example project led to a 20 per cent. reduction in fast food littering.

The aim of the proposed voluntary code of practice is to reduce fast food litter and waste that becomes litter in the local environment by outlining best practice and recommendations for action to be taken by all fast food retailers working with local authorities and seeking to involve the local public. It will allow all parties to work together in a mutually supportive partnership, to find local solutions to local problems.

In addition the Government are involved in studies regarding the health effects of waste management processes, although these have not been concerned with small scale local issues such as commercial waste from food outlets. These are dealt with effectively by way of local authority Environmental Health Officers.

Fertilisers

Patrick Mercer: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what plans she has to make the regulations for *(a)* the manufacture and *(b)* the supply of ammonium nitrate fertiliser more stringent; [172742]

(2) what measures her Department and its predecessors have taken to control the manufacture, storage and use of ammonium nitrate fertiliser; [172745]

(3) how many tonnes of ammonium nitrate fertiliser was manufactured in the United Kingdom in each year since 2000. [172747]

Alun Michael: The Government have taken a number of measures to control the manufacture, storage and use of AN fertiliser in the general climate of heightened security. We need to balance the risks of potential misuse associated with AN against its clear and proven benefits in supporting food output in this country.

The Government have been working with the fertiliser industry to improve controls in the storage and supply chain of AN. We have endorsed industry guidelines which advise producers and sellers of AN fertiliser to:

sell only to known, bona fide customers, in particular those who have a credit account;

refrain from making cash sales;

ask questions to potential buyers of AN fertiliser to establish their knowledge of agriculture;

in the case of suspicious inquiries, to record and notify the police of the purchaser's name and address (verified by documentary proof such as details from a driving licence) and full details of the inquirer's vehicle, including the registration number.

We are continuing our dialogue with industry and have asked them to produce a code of practice to encourage direct deliveries from manufacturers to farmers to shorten supply chains and ensure better traceability. We have also endorsed industry guidance, produced in collaboration with farmers unions and the police, on 'Security of Fertiliser Storage on Farm'.

To supplement the voluntary measures, Defra has introduced regulations to control the supply of both home produced and imported AN. The regulations require AN fertiliser, with a high nitrogen content, including mixtures, to have satisfied a Detonation Resistance Test and all sellers have to maintain records of sales.

The Health and Safety Executive (HSE) has issued a self-help checklist to all those known to be handling or storing significant quantities of AN. The checklist has been distributed widely. It is aimed at spreading good practice and offering HSE as a source of further advice. Additionally, HSE has lowered the notification threshold under the Notification of Installations Handling Hazardous Substances Regulations 1982 from 500 to 150 tonnes and widened the range of products to be included in the notifications.

The regulations governing the manufacture and supply of AN fertilisers are kept under continuous review and further measures will be taken if necessary.

The following amounts of ammonium nitrate (AN) fertiliser have been manufactured in the United Kingdom since 2000:

	Thousand tonnes
2000	1,263
2001	952
2002	1,181
2003	1,250

The reduction in manufacturing output in 2001 was a consequence of the foot and mouth disease outbreak and an exceptionally wet autumn which, together, led to a fall in demand for AN.

Fishing Industry

Mr. Sanders: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will make a statement on the use of pelagic fishing gear for the fishing of demersal species; [172946]

(2) whether her Department classifies sea bass as a *(a)* pelagic or *(b)* demersal species. [172947]

Mr. Bradshaw: Pelagic fishing gear is normally used for shoaling mid-water swimming species such as mackerel, pilchards and sprats. Other species of fish may also be taken as a bycatch when pelagic gear is used and these may include demersal species.

Sea bass can be taken in both pelagic (that is, fisfied in mid-water) and demersal (fished in contact with the seabed) gears and so could be classed as either pelagic or demersal since its behaviour at different times of the year leads it to swim in mid-water or near the bottom.

Horse Passports

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs how many horse passports had been issued by the issuing authorities by 1 May; how many applications received are awaiting issue; how many she expects to be issued by 30 June; and what percentage of the horse-owning population she expects to comply. [173101]

Alun Michael: As of 1 May, Defra have been notified of a minimum of 179,000 passports issued. This figure will increase as we are waiting for some Passport Issuing Organisations to inform us about how many passports they have issued.

The above figure includes passports returned to Passport Issuing Organisations for updating in order that they meet the new European requirements.

Passport Issuing Organisations based in England have approximately 37,000 outstanding passport applications.

All horse owners will be expected to comply with the regulations.

Correspondence

Mr. Kaufman: To ask the Secretary of State for Environment, Food and Rural Affairs when she will reply to the letter to her from the right hon. Member for Manchester, Gorton dated 15 March 2004 with regard to Jo Hopkin. [168986]

Alun Michael: My right hon. Friend the Secretary of State responded on 14 May.

Mayor of London

Simon Hughes: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list *(a)* the official meetings she has had with the Mayor of London since July 2000 and *(b)* the dates and subject of each meeting. [170569]

Margaret Beckett *[holding answer 4 May 2004]:* No such meetings have taken place.

Meat and Livestock Commission

Mr. Nicholas Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what the conditions are for repayment attached to the loan to the Meat and Livestock Commission in respect of the welfare scheme which operated during the foot and mouth disease outbreak; and whether the loan has been repaid. [172683]

Mr. Bradshaw: The Pig Industry Development Scheme (PIDS) was initiated in March 2001 to establish an industry fund to help provide advice, services, facilities and financial assistance to British pig producers to assist with the prevention of exotic pig diseases such as Classical Swine Fever, and/or to help minimise their impact. Collection of this industry levy was delayed due to the foot and mouth disease outbreak of that year. In April 2001 the then MAFF and the Meat and Livestock Commission concluded a loan agreement to enable early payment of the industry top-up to producers.

Under the terms of the loan agreement, repayment, including interest, was due on 31 July 2003. However problems associated with the unforseen decline in pig slaughterings delayed the collection of the levy from pig producers to repay the loan. By mutual agreement the loan deadline was extended to 31 December 2003 and repayment was made by that date, including the interest to that date.

The PIDS levy on slaughterings was reduced to zero in August 2003; however the scheme is to remain open for the foreseeable future with the facility to increase the levy if required.

New Forest

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs when she plans to announce her decision on the designation of the New Forest as a National Park. [173482]

Alun Michael: I am currently considering the Inspector's report. No announcement can be made until that consideration is complete.

Potato Ring Rot

Mr. Roger Williams: To ask the Secretary of State for Environment, Food and Rural Affairs what the itinerary was for the transport from the country of origin to the final country of destination of the potatoes which brought potato ring-rot into the UK. [174154]

Mr. Bradshaw: As Defra's Final Report into the 2003 Ring Rot Outbreak in the UK makes clear, it has not been possible to trace the origin of infection which resulted in the ring rot outbreak in Wales. However, Appendix VI of the Report (see http://defra.gov.uk/planth/ring/repfinal/app6.pdf) outlines the itinerary for the Provento seed potatoes which were supplied to the Welsh farm, from which the crop was grown which resulted in the outbreak. This Appendix was prepared by the Dutch Plant Protection Service who gave permission for it to be published as part of Defra's Report.

In essence, the Dutch report indicates that the seed potatoes were exported from the Netherlands to Honduras on 26 September 2002. The consignment was refused entry to Honduras because it did not meet their requirements on the absence of soil (not because of a concern with the potatoes) and was returned to the Netherlands on 5 December 2002. Following re-sorting and re-bagging, to remove potatoes which had sprouted, the seed potatoes were split into different lots which were then sent directly to various destinations (Wales, Portugal, Iraq, Honduras and Ukraine) between the period 5 December 2002 and 1 May 2003.

Specialist Fermentation Sector

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs what the size of the specialist fermentation sector of the food industry is in *(a)* the United Kingdom and *(b)* Europe. [170081]

Alun Michael: For beer, UK production in the 2001–02 financial year was 57 million hectolitres compared with 254 million hectolitres in the rest of the EU in 2002. For cider, UK production was 4.9 million hectolitres in 2001–02 compared with 5.1 million hectolitres in the rest of the EU in 2000.

Tobacco

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how much EU funding was given to growing tobacco in the last year for which figures are available; and if she will list the countries which benefited. [173772]

Alun Michael: The main recipients of tobacco subsidies are Greece, Italy, Spain and France. A table showing the tobacco premiums paid in each of the EU member states which benefited is as follows.

EU expenditure on tobacco premiums in 2002

	€ *million*
Greece	369
Italy	330.8
Spain	115.4
France	80.4
Germany	35.1
Portugal	16.3
Belgium	3.9
Austria	0.9
Total	951.8

Source:
EU Commission

Two Tree Island

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs which species of wildlife *(a)* inhabit and *(b)* visit Two Tree Island in the Thames during a typical year. [171871]

Mr. Bradshaw: Two Tree Island is split into two areas, eastern and western. The eastern part of Two Tree Island consists of a small tidal island with the adjoining

saltmarsh (86 acres) and a large area of inter-tidal mudflats (271 acres). It is part of Leigh National Nature Reserve.

The mudflats are noted for their dense, vigorous growth of eel grass species, which, together with a large resource of invertebrates, support nationally and internationally important numbers of dark-bellied Brent geese and waders, such as grey plover and knot. Waders such as curlew, dunlin, and redshank, occur in significant numbers outside the breeding season. The nearby Leigh cockle sheds bring winter flocks of turnstone close inshore and attract some of the rarer gull species.

The saltmarshes are the most important on the north side of the Thames Estuary. They are of considerable botanical interest being noted for the five glasswort species that occur there. Sea aster, with small cord-grass, common cord-grass and glasswort species are found on the lower marshes, while sea purslane dominates the upper marshes. In addition the area also supports other saltmarsh plants such as golden samphire, sea wormwood, common and lax-flowered sea lavenders.

At its western tip a range of birds can be seen such as redshank and heron. The island itself consists mainly of grassland and scrub, with the former rubbish tip supporting a number of interesting alien plants and 'escapes'. A wide variety of birds can be seen at its western tip, including kestrels and short-eared owls during the winter, hunting for field voles. Grass snakes and lizards are seen. Insects of note include the marbled white butterfly, Roesel's bush cricket, the house cricket and the lesser marsh grasshopper.

TRANSPORT

Railway Lines

13. **Norman Baker:** To ask the Secretary of State for Transport how many miles of railway lines have been reopened since 1 May 1997. [173505]

Dr. Howells: Between 1996–97 and 2003–04 the total length of railway open to passenger traffic has increased from 15,034 kilometres to 15,042 kilometres.

Rail Review

14. **Mr. Swayne:** To ask the Secretary of State for Transport if he will make a statement on progress in the Rail Review. [173506]

Mr. McNulty: The review is progressing and as my right hon. Friend the Secretary of State for Transport, said in his statement to the House on 19 January, we will publish proposals in the summer.

Noisy Roads

15. **Tony Baldry:** To ask the Secretary of State for Transport if he will make a statement on measures to address the problem of noisy roads. [173507]

Mr. Jamieson: The Government recognises that traffic noise from main roads can be a nuisance. Our strategy is to set vehicle construction standards that reduce noise at source wherever feasible and desirable on safety grounds. We also encourage the mitigation of noise with insulation, barriers, traffic management measures and low noise surfaces.

Global Warming

16. **Richard Younger-Ross:** To ask the Secretary of State for Transport what assessment he has made of the threat to strategic road and rail routes from global warming. [173508]

Mr. McNulty: The Department is aware that climate change will have a profound impact on both the Department's work and that of the delivery agencies. To this end, assessments have been made by the Department, the Rail Safety and Standards Board and the Highways Agency. The Department's report can be found on our website and copies of this and of the other reports can be found in both libraries of the House.

Transport (Nottingham)

17. **Mr. Allen:** To ask the Secretary of State for Transport what recent discussions he has had with Nottingham city council on transport issues in the city. [173509]

Mr. McNulty: When my right hon. Friend the Secretary of State for Transport visited Nottingham to launch Line One of the Nottingham Express Transit system, he also attended a meeting with the Greater Nottingham Transport Partnership (on which the City and county councils are represented). A number of issues relating to transport in Nottingham were raised.

Offshore Wind Farms

18. **Mr. Heathcoat-Amory:** To ask the Secretary of State for Transport what steps he has taken to ensure that shipping lanes are not impeded by off-shore wind farms. [173510]

Mr. Jamieson: Government have assured the shipping and ports industries that offshore wind farms will not be sited where they present a danger to navigation. No offshore wind farms can be constructed without Government consents. Full consultation with the shipping and ports industries will be undertaken before any consent granted.

Bus Services

Mr. Truswell: To ask the Secretary of State for Transport what the sources are of the statistics published by his Department on *(a)* bus reliability, *(b)* bus punctuality and *(c)* bus patronage; whether independent audits are conducted to verify the source data and the methods used to produce these statistics; and if he will place source information and methodology statements in the Library. [173470]

Mr. McNulty: The statistics published on bus reliability and patronage are based on returns completed by bus operators. There are currently no statistics on bus punctuality. The bus patronage data are collected via a statutory survey under the Statistics of Trade Act 1947. The bus reliability survey is voluntary. When received, the raw data are treated as Restricted-Commercial and are not released to other parties, except with the permission of the operators themselves.

The methods used were examined in the National Statistics Quality Review which was carried out by WS Atkins Ltd. in 2002–03 and published on 6 August 2003. Short descriptions of the methods used for estimating bus reliability and patronage statistics are included in the review, a copy of which is held in the House of Commons Library.

Mr. Damian Green: To ask the Secretary of State for Transport if he will list bus usage in terms of *(a)* number of passengers and *(b)* passenger kilometres in each year since 1997, broken down by region. [174172]

Mr. McNulty: The estimates of local bus usage in terms of passenger journeys for the years 1997–98 to 2002–03 are given in the following table. Estimates of passenger kilometres are only available for London and are given in the final row of the table.

Million passenger journeys

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
North East	262	253	252	243	241	237
North West	507	509	493	489	480	485
Yorks and Humberside	411	386	381	374	369	37
West Midlands	464	447	450	454	447	439
East Midlands	209	212	210	210	210	212
Eastern	163	165	167	170	172	167
London	1,294	1,279	1,307	1,359	1,434	1,542
South East	272	287	289	282	276	268
South West	191	183	182	179	175	175
England	3,773	3,719	3,732	3,760	3,804	3,901
London (million passenger kilometres)	4,350	4,315	4,429	4,709	5,128	5,721

The estimates for passenger journeys are taken from Table 13 of the "Bulletin of Public Transport Statistics Great Britain: 2003 Edition", copies of which are held in the Libraries of the House.

Car Sharing

Mr. Paul Marsden: To ask the Secretary of State for Transport what funding has been made available to local authorities specifically to promote car-sharing, car clubs, education programmes to promote walking and cycling or other soft measures to address transport issues in each year since 1997. [173312]

Mr. McNulty: In general, revenue funding provided to local authorities is not dedicated to specific purposes in this way. We have, however, provided some ring-fenced funding to local authorities through our bursary scheme for the employment of school and workplace travel plan co-ordinators at a cost of £3 million per annum for the three years from April 2001 to March 2004. From April 2004, the bursary scheme has been focussed on school travel plan co-ordinators, and its value has increased to £7.5 million per year (joint with DfES).

Mr. Paul Marsden: To ask the Secretary of State for Transport what assessment the Government have made of car-sharing within schools as a means of reducing congestion associated with the school run. [173315]

Mr. McNulty: The Department has commissioned research to identify the most successful school travel plans in the country and what has made these plans successful. We shall be publishing good practice guidance drawn from this research under the title "Making School Travel Plans Work" later this year. The guidance will include information on car-sharing initiatives where these have contributed to the wider success of school travel plans. We already know of a number of individual car-sharing initiatives that have been effective in reducing the number of cars taking children to school, and that many families make their own informal arrangements for sharing.

Crossrail

Mr. Rosindell: To ask the Secretary of State for Transport if he will make a statement on the Crossrail project; and what the level of Government involvement in the project is. [173512]

Mr. McNulty: My right hon. Friend the Secretary of State for Transport is currently considering Adrian Montague's detailed advice on Crossrail and will publish his findings in due course.

Departmental Annual Report

Norman Lamb: To ask the Secretary of State for Transport how much the production of his Department's latest annual report cost; how many copies were printed; how many copies of it were sold at its cover price; to whom copies of the report have been provided free of charge; and how many copies were provided free of charge. [171079]

Mr. McNulty: The Department's Annual Report was published on 30 April 2004 and is freely available on the DfT website.

1,100 copies of the report were printed. To date, a total of approximately 250 copies have been provided free of charge to the House Libraries, the Transport Select Committee, Department for Transport Ministers and officials, and to other Government Departments. The Stationery Office (TSO) has taken 700 copies for sale. Data on the level of sales is not yet available.

The total cost of the Annual Report was £34,820 excluding VAT.

Driving Standards Agency

Mr. Damian Green: To ask the Secretary of State for Transport under what statutory basis the Chief Executive, Chief Driving Examiner and the directors of the Driving Standards Agency have withheld their salary and performance pay from being disclosed in the Driving Standards Agency's Annual Report. [172084]

Mr. Jamieson: The Driving Standards Agency is a Trading Fund. HM Treasury accounting guidance for Trading Funds allows for non-disclosure of the remuneration of the Chief Executive, the Chief Driving Examiner and the full-time directors in the Agency's Annual Report and Accounts, provided that consent to non-disclosure is noted.

Harassment Contact Officers

Mr. Damian Green: To ask the Secretary of State for Transport how many harassment contact officers were employed by his Department on the last date for which figures are available. [174174]

Mr. McNulty: The Department for Transport has a total of 86 harrassment contact officers.

MOTs

John McDonnell: To ask the Secretary of State for Transport whether MOT garages were charged additional supplements for the MOT certificates they purchased from *(a)* the former Vehicle Inspectorate and *(b)* the Vehicle and Operator Services Agency. [173890]

Mr. Jamieson: No supplements have been added to MOT test certificate charges, levied on MOT testing stations, either by the Vehicle and Operator Services Agency or, before April 2003, by the Vehicle Inspectorate.

Railways

Mrs. May: To ask the Secretary of State for Transport (1) how many train services have been cut, and on which lines, as a result of the Strategic Rail Authority's policy of selective thinning of train services; [170266]

(2) what criteria are used by the Strategic Rail Authority to implement the objective of selective thinning of train services. [170267]

Mr. Darling: The Strategic Rail Authority has no policy of selective thinning of train services. The changes to the May and September 2003 timetables for Virgin Cross Country, Central Trains, South West Trains, Wessex, Arriva Trains Northern and Wales and Borders represent less than 1 per cent. of the daily services. They were made to improve performance and reliability through better capacity utilisation. The main changes were to Virgin Cross Country where they contributed to a 25 per cent. improvement in performance.

John McDonnell: To ask the Secretary of State for Transport if he will announce his findings on the review of the railways while Parliament is in session. [172989]

Mr. McNulty: As my right hon. Friend the Secretary of State for Transport said in his statement to the House on 19 January, the rail review will publish its proposals in the summer.

Mr. Grogan: To ask the Secretary of State for Transport which of the new train operators serving London and the south east showed the greatest improvement in punctuality between the third quarter of 2003–04 and the third quarter of 2002–03; and if he will make a statement. [173918]

Mr. McNulty: The biggest improvement was at West Anglia Great Northern. Its average performance for the year to the end of quarter three 2003–04 was 82.3 per cent. compared with 77.9 per cent. for the year to the end of quarter three 2002–03.

Mrs. May: To ask the Secretary of State for Transport pursuant to his answer of 12 May 2004, *Official Report*, column 410W, on railways, how many of the sites identified have *(a)* been put up for sale, *(b)* been sold and *(c)* are under offer. [174240]

Mr. Darling: Of the 36 sites identified by the Strategic Rail Authority as suitable for disposal, 20 have been put up for sale; of these, four have been sold, 12 are under offer and four are still for sale. This is shown in the following table.

SRA sites released for disposal since end 2002

Map reference	*Location*	*Site description*	*Status*
G-HAS-13–1	Alloa	Site of former crossing at Hilton Road Whinhill	Under offer
LNW-GC-4–2	Aylesbury	Railway club and sports ground Perm Road	Under offer
BI-DB-27–6	Banbury	Fields by Woodford closed line	Under offer
BI-DB-27–8	Banbury	South end of closed line in Woodford Halse	Under offer
LS-ECO-2–1	Bexhill	Former Galley Hill sidings	For sale
BI-FFD-1–1	Brize Norton	Part of former Fairford branch	—
BI-FFD-1–2	Cassington	Part of former Fairford branch	—
W-LNW-ER-45–1	Castlethorpe	Former goods yard	Under offer
BR-XBS-34–34	Challow	Former station yard	—
LNE-CWN-2–1	Colchester Town	Lower Yard, Magdalene Street	—
BI-KEM-19–1	Corby	Land at Cottingham Road	Sold
LNW-TL-38–1	Dunstable	Land at Skimpot Road/Jeans Way	—
LNW-TL-23–2	Elstree	Former goods yard	—
BR-WSP-30–30	Exeter	Former goods yard	—
BR-WSP-26–26	Exeter	Land and building (Red House)	Sold
BR-WSP-29–29	Exeter	Tan Lane former goods yard	—
M-SOG-18–1	Formby	Andrew's Lane	Sold
BR-XFR-3–3	Frome	Former east goods yard	—
G-EG-4–1	Glasgow	Eastfield Depot	Under offer
LS-WCO-10–1	Goring-by-Sea	Land south of railway	—
LS-DCE-1–1	Greenhithe	Land by station	—
Y-ALS-1–1	Haltwhistle	Alston branch	Under offer
BR-FWB-5–5	Hullavington	Former goods yard	—
M-MVE-104/105/106–1	Horwich	Land at site of former railway works	Under offer
Y-LNO-1–7	Hunslet	Land between Ivory Street and Jack lane	For sale

SRA sites released for disposal since end 2002

Map reference	*Location*	*Site description*	*Status*
G-HAS-19-2	Kincardine	Plot of land beneath electricity pylon	Under offer
LNE-EKL-23-1	Kings Lynn	Land at Extons Place	—
BI-FFD-1-3	Lechlade	Part of former Fairford branch	—
M-LPN-40-1	Liverpool, James Street	Moor House	Under offer
G-RWR-1-1	Melrose	Leaderfoot Viaduct	—
M-GOO-2-15	Reddish	Former depot, Wayland Road	For sale
LS-WCO-22-4	Shoreham-by-Sea	Land at Queens Place	Under offer
LS-TH-4-1	Tunbridge Wells	Former goods yard	For sale
BI-SWR-42-1	Walsall	Land off Littleton Street West	Under offer
W-LNW-ER-20-7	Watford	Wiggenhall Road	Sold
LS-BML-5-12	Wivelsfield	Land at Rockery Lane	—

Road Accidents (Tired Drivers)

Mr. Dalyell: To ask the Secretary of State for Transport what his latest assessment is of the number of accidents attributable to sleep and microsleep on roads. [167658]

Mr. Jamieson: Research studies indicate that driver sleepiness accounts for 15–20 per cent. of accidents on motorways and similar roads and for about 10 per cent. of all accidents on the road network in Great Britain.

Tonnage Tax Scheme

John McDonnell: To ask the Secretary of State for Transport how the Department for Transport is monitoring changes in *(a)* training and *(b)* employment positions for seafaring ratings generated by the tonnage tax scheme. [172990]

Mr. Jamieson: As part of its annual application for approval of a core training commitment, each tonnage tax company or group is required to provide a breakdown of the number of deck and engine ratings employed on its ships according to whether they are British, other European Economic Area (EEA), or other, non-EEA, nationality. The company or group is also required to state which of the training and employment recommendations of the Ratings Task Force it expects to implement.

Where a company is meeting part of its training commitment in respect of officers by employing apprentices or ratings to officer conversion trainees, this is reported to us on end of period adjustment reports due three times a year.

John McDonnell: To ask the Secretary of State for Transport what measures he has put in place to ensure that companies do not remove themselves from the 10-year obligation to the UK shipping industry tonnage tax regime by switching registers. [172991]

Mr. Jamieson: None. The act of a tonnage tax company in switching vessels from one register to another does not remove those vessels from the tonnage tax regime or change the obligations of the company under the tax.

Transport Direct

John Thurso: To ask the Secretary of State for Transport how much has been spent by his Department on Transport Direct, broken down by year; and how this has changed since original estimates of the cost of the work were made. [170869]

Dr. Howells: The total spend up to March 2002 was £0.7 million. The spend for 2002–03 was £2.8 million (original estimate £5.0 million), while the spend for 2003–04 was £13.2 million (original estimate £23.0 million).

Vehicle Activated Signs

Mr. Damian Green: To ask the Secretary of State for Transport what assessment his Department has made of reductions in traffic accident rates at vehicle activated sign sites; and if he will make a statement. [171897]

Mr. Jamieson: Vehicle activated signs are used predominately where there are concerns about inappropriate speed. They are not designed to deal with excessive speed. Research into the effectiveness of vehicle activated signs at a range of locations was carried out by TRL Ltd. on behalf of the Department for Transport in 2002. Results of this work concluded that across all sites there was a 31 per cent. reduction in accidents following installation. In addition where vehicle activated signs were used to remind the driver of the speed limit in force, speed reductions of between three and nine mph were achieved. Where installed to warn drivers of a potential hazard, reductions of up to seven mph were achieved. Guidance on the use of vehicle activated signs is available in the Libraries of the House (Ref: Traffic Advisory Leaflet 1/03—Vehicle Activated Signs).

Vehicle and Operator Services Agency

John McDonnell: To ask the Secretary of State for Transport if he will make a statement on the *(a)* financial arrangements and *(b)* resources provided for the merger between the Vehicle Inspectorate and the Traffic Area Network in 2003. [173887]

Mr. Jamieson: As part of a merger between the Vehicle Inspectorate and Traffic Area Network a new Trading Fund named Vehicle and Operator Services Agency was established. All income and expenditure of the merged organisation is accounted for within the new Trading Fund.

Resources for supporting and delivering the merger are funded from within the Trading Fund. This includes project management support, ICT and process integration, Agency name and branding changes and harmonisation of pay.

DEFENCE

Departmental Executive Agencies

Mr. Soames: To ask the Secretary of State for Defence what the *(a)* resource provision and *(b)* outturn for his Department's executive non-departmental public bodies was for financial years (i) 2000–01, (ii) 2001–02 and (iii) 2002–03. [172124]

Mr. Ingram: The executive non-departmental public bodies produced their own sets of accounts for these years, and these are available in the Library of the House. Non-departmental bodies secure funding for their operations from various sources. The Department's contribution to these bodies is generally in the form of grants-in-aid, and this has been disclosed in Note 10 of the Departmental Resource Accounts for the respective years. The bodies would normally draw down their full grant-in-aid provision.

CULTURE, MEDIA AND SPORT

School Outdoor Pursuits

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport what steps her Department is taking to promote adventure holidays and other outdoor pursuits in schools; and if she will make a statement. [171605]

Mr. Caborn: The issue of adventure holidays and outdoor pursuits within schools is a matter for the Department for Education and Skills. I refer the hon. Member to the answer given to him by my hon. Friend the Under-Secretary of State for Education and Skills (Mr. Twigg) on 13 May 2004, *Official Report*, column 540W.

DEPUTY PRIME MINISTER

Correspondence

Mr. Kaufman: To ask the Deputy Prime Minister when he intends to reply to the letter from the right hon. Member for Manchester, Gorton dated 5 April with regard to Ms Catherine Thompson. [172258]

Yvette Cooper: I replied to my right hon. Friend on 17 May 2004.

Mr. Kaufman: To ask the Deputy Prime Minister when he will reply to the letter to him from the right hon. Member for Manchester, Gorton, dated 5 April, with regard to Ms Catherine Thompson. [174148]

Yvette Cooper: I replied to my right hon. Friend on 17 May 2004.

Decent Homes Standard

Mr. Austin Mitchell: To ask the Deputy Prime Minister what his target was for the proportion of houses brought up to the Decent Homes Standard by 1 April; and what proportion was achieved by that date, broken down by housing sector. [173670]

Keith Hill: The milestone for 1 April was

> "to achieve a reduction of one third in the number of non-decent social sector homes over the 2001 baseline."

It will be met if the estimates reported by local authorities through their Business Plan Statistical returns and the regulatory returns from housing associations submitted in July 2004 (stating the number of non-decent homes as at 1 April 2004), show that in aggregate the number of non-decent dwellings has reduced by at least one third reduction since 2001; and the 2004–05 continuous EHCS (reporting in October 2005) confirms there are 1.1 million or fewer non-decent social sector dwellings.

The target was for both sectors combined not each sector separately. Our estimate, based on local authority and registered social landlord (RSL) out-turn data up to the end March 2003 and their plans to March 2004, shows a 26 per cent. reduction across both sectors. Local authorities show a 32 per cent. reduction taking into account the stock they transferred. There was a 6 per cent. reduction in the RSL sector, which takes into account all the non-decent stock they receive through stock transferred from local authorities.

Regional Assemblies

Mr. Jenkin: To ask the Deputy Prime Minister pursuant to the Guidance on the Government use of Public Relations Consultants, Annex B to Guidance on the work of the Government Information Service, paragraph 6, on what grounds he decided that the core components of the Your Say information campaign on elected regional assemblies could not be carried out by the Government's own employees. [174275]

Mr. Raynsford: No public relations consultants have been appointed to work on this campaign. All the relevant PR activity has been undertaken by Government employees.

The marketing and advertising arm of Robson Brown have been contracted to work on other aspects of the campaign, including branding, leaflet design, event management and advertising. This is in line with current guidance and normal practice.

Empty Homes

Mrs. Spelman: To ask the Deputy Prime Minister what the average number of empty homes in the United Kingdom was in each year since 1997, broken down by area. [173697]

Keith Hill: The available information on empty residential dwellings in England by Government Office region is in the table. This data has been provided from a combination of the Office of the Deputy Prime Minister's Housing Investment Programme return and Housing Corporation's Regulatory Statistical Return. The same information from similar sources for other parts of the United Kingdom is not held centrally and could be provided only at disproportionate cost.

Vacant dwelling stock, 1997–2003

	2003	2002	2001	2000	1999	1998	1997
North East	44,000	47,000	46,000	50,000	49,000	44,000	41,000
Yorkshire & Humberside	88,000	94,000	100,000	100,000	100,000	86,000	81,000
East Midlands	59,000	58,000	63,000	68,000	67,000	67,000	67,000
Eastern	63,000	64,000	63,000	70,000	70,000	73,000	81,000
London	101,000	101,000	105,000	105,000	114,000	114,000	122,000
South East	81,000	85,000	86,000	87,000	95,000	96,000	101,000
South West	76,000	71,000	68,000	64,000	67,000	70,000	78,000
West Midlands	73,000	77,000	79,000	80,000	77,000	78,000	73,000
North West	135,000	136,000	141,000	138,000	127,000	126,000	125,000
England	720,000	732,000	751,000	761,000	767,000	753,000	767,000

Sources:
ODPM's Housing Investment Programme return and Housing Corporation's Regulatory Statistical Return.
Figures presented to the nearest thousand

High Hedges

Mr. Paice: To ask the Deputy Prime Minister when he expects local authorities to be able to use the powers provided by the Anti-social Behaviour Act 2003 to deal with high hedges. [173530]

Yvette Cooper: The powers to deal with complaints about high hedges given to local authorities by the Anti-social Behaviour Act 2003 are expected to be fully operational towards the end of 2004. The Office of the Deputy Prime Minister is currently conducting a public consultation in England on how the legislation will work in practice.

Housing

Mrs. Spelman: To ask the Deputy Prime Minister how many homes in the United Kingdom were classed as overcrowded in each year since 1997, broken down by area. [173698]

Keith Hill: The information requested is not held centrally, and could only be provided at disproportionate cost. Only 2 per cent. of households are overcrowded nationally; this means that annual estimates, derived from sample surveys such as the Survey of English Housing or the Family Resources Survey, of such a small target population are subject to considerable sampling error. For this reason reliable annual estimates cannot be produced at regional or sub-regional level.

Although annual estimates cannot be produced at regional and sub-regional level, estimates can be produced for several years combined. The Office of the Deputy Prime Minister has recently produced two research reports into levels of overcrowding for the years 2000–01, 2001–02, 2002–03 combined, which are available on our website and the path to reach them is:

"Home" > "Housing" > "Housing research" > "Housing research reports" > "The impact of overcrowding on health and education".

Clive Efford: To ask the Deputy Prime Minister what steps he is taking to assist teachers in London with housing costs; what the reasons were for changing from 1 April the criteria by which teachers qualify for assistance with housing costs in London; and if he will make a statement. [173461]

Keith Hill: The Key Worker Living (KWL) programme which started on 1 April 2004 is helping teachers in London into home ownership and intermediate rented accommodation. It also offers teachers who are existing home owners help to buy a larger home to meet their household needs. The programme superseded the Starter Home Initiative which came to an end on 31 March.

The assistance available under KWL is:

(a) equity loans of up to £50,000 to buy a home on the open market or a newly-built property provided by a registered social landlord;

(b) equity loans of up to £100,000 for school teachers in London with the potential to become leaders of London's education sector in the future;

(c) shared ownership of newly-built properties where a share of the property is purchased and a reduced rent is paid on the remaining share;

(d) intermediate renting of newly-built properties where the rent is set at a level below market rents.

The Office of the Deputy Prime Minister has not changed the eligibility criteria for the scheme: school teachers in London with seven or more points are eligible for up to £100,000 equity loan assistance; school teachers and Further Education teachers are also eligible for up to £50,000 equity loan assistance. Points are awarded under the scheme for:

being an advanced skills teacher, a Commissioner's teacher, on the fast track teaching programme or past the Threshold;

teaching in a shortage subject or in a challenging school;

having management or leadership responsibilities.

The eligibility criteria and the points system for the KWL programme were devised following discussions with the key worker sponsor Departments including Department for Education and Skills.

A key aim of KWL is to retain more experienced teachers in London. Since the scheme was launched we have received over 1,600 applications in London. As the KWL budget is limited, school teachers in London with four points or more are being prioritised for assistance, and those with less than four points are being placed on the waiting list for assistance.

Officials of the Office of the Deputy Prime Minister are keeping the situation under review and expectations are that some teachers on the waiting list will receive assistance as the scheme progresses.

Colin Burgon: To ask the Deputy Prime Minister when he expects to receive the final business case covering the Pathfinder scheme for Swarcliffe. [173934]

Keith Hill: Leeds City Council is aiming to submit a Final Business Case to the Office of the Deputy Prime Minister for late May or early June 2004.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what the cost was of gap funding for housing transfers in each year since it was introduced; and what the projected costs are for the next financial year. [173666]

Keith Hill: No gap funding has been paid to date. Regional Housing Boards (RHB) provisional allocations for 2004–05 are £1.029 million for the transfer of housing on the Tarling Estate and £1.759 million on the Crossways Estate both in the London Borough of Tower Hamlets. Provisional allocations for 2005–06 are a further £3.564 million for the transfer of housing on the Crossways Estate in the London Borough of Tower Hamlets and £2.0 million for the transfer of the housing stock of North East Lincolnshire Council.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what his estimate is of the annual cost of the extra gap funding he has announced for housing transfers in areas with negative equity; and whether gap funding allocations will be increased for such areas already in the process of transfer. [173667]

Keith Hill: The annual cost of any gap funding will be dependent on those authorities whose decent home delivery option appraisal determines that a negative value transfer is the best value for money option to pursue and who then secure a positive tenant ballot result. Those transfers already on the housing transfer programme have demonstrated they have deliverable transfer schemes and it is not anticipated that they should therefore require gap funding.

Mr. Austin Mitchell: To ask the Deputy Prime Minister how much money has been committed to date for setting up arm's length management organisations for housing transfer; and on what basis this is allocated. [173668]

Keith Hill: Expenditure under the arm's length management organisation (Almo) programme to the end of 2003–04 has been approximately £365 million. Current commitments for 2004–05 and 2005–06 total £952 million, subject in some cases to Almos achieving at least a 2* rating from the Housing Inspectorate. Further allocations are subject to the outcome of the 2004 Spending Review. Expenditure on setting up Almos is a matter for the local authorities concerned. Under the Almo option the local authority remains the owner and landlord of the housing stock : no transfer of ownership occurs. Almo funding for work towards the Government's Decent Homes target is allocated on the basis of local authorities' bids, which are assessed against the criteria set out in the Almo Guidance published in March 2003.

Mr. Austin Mitchell: To ask the Deputy Prime Minister how he has advised tenants who have rejected arm's length management organisations or transfers of housing stock to rethink their decision; what proposals he has for facilitating this; and what sanctions and resources he proposes to bring to bear to facilitate rethinking. [173695]

Keith Hill: Where tenants have rejected transfer and arm's length management organisations prior to local authorities being required to have an option appraisal signed off by Government Offices they will be asked to undertake an option appraisal. Guidance on option appraisal makes it clear that local authorities should engage with their tenants from the very beginning of the option appraisal process. The decision on which option to pursue should therefore incorporate the views of tenants before any ballot is held. Effective tenant engagement is a key criterion of the option appraisal assessment process and appraisals will not be signed off unless this has been achieved.

The Community Housing Task Force (CHTF) is the main resource available to assist councils and their tenants in delivering option appraisals. Tenants may also seek advice from their Independent Tenant Adviser (ITA). Further training and capacity building for tenants to help them with options appraisal is funded by the Office of the Deputy Prime Minister and provided via the Tenant Participation Advisory Service (TPAS), PEP and the National Tenants Resource Centre (NTRC).

If tenants subsequently reject all options that deliver extra resources and the option appraisal process has been effectively undertaken then the wishes of the tenants will be respected and they will not be forced into accepting the options available.

Renewal Areas (Physical Activity)

Mr. Don Foster: To ask the Deputy Prime Minister what research the Neighbourhood Renewal Unit has commissioned into the barriers that stop sport and renewal working together more closely. [173708]

Yvette Cooper: The Neighbourhood Renewal Unit (NRU) has recently received the report from a study on joint working between sport and neighbourhood renewal agencies. The research aims were to identify existing arrangements for joint working, to highlight barriers to further integration, and to provide suggestions for overcoming these in the future.

The report finds that at both the regional and local levels, joint working is generally underdeveloped. Where joint working does occur, projects are rarely focused on the achievement of well-defined outcomes or targeted towards influencing mainstream services. There is incomplete data on sporting participation in deprived areas and amongst specific groups. There are also few explicit targets for raising participation and a lack of incentives for joint working. Nevertheless, there are some noteworthy examples of joint strategic working between local authority health and education Departments and sport—in ways that will impact on deprived areas.

In response to these findings, the NRU has produced a short practitioner guide for local and regional decision-makers and frontline workers in both sports and regeneration organisations. It explains the importance of linking sport and renewal activities, provides practical advice on how to do this, and shows where to find further resources and help.

Road Maintenance Expenditure

Mr. Damian Green: To ask the Deputy Prime Minister whether road maintenance expenditure as set out in figure 5a, page 49 of the Department for Transport Annual Report is met from the Revenue Support Grant administered by his office. [174175]

Mr. Raynsford: Footnote 1 to Figure 5a: Local transport spending by central Government, page 49 of the Department for Transport Annual Report 2004 states "Excludes local transport expenditure on highway maintenance, concessionary fares and other public transport support that is funded by the Revenue Support Grant".

Mr. Damian Green: To ask the Deputy Prime Minister what estimate he has made of the amount spent by local authorities on road maintenance in the last financial year for which figures are available. [174176]

Mr. Raynsford: Local authorities in England reported net current expenditure on highways maintenance in 2002–03 as £1,949 million.

2002–03 Revenue Outturn (R02) form

Sellers Packs

Mr. Drew: To ask the Deputy Prime Minister if he will make a statement on progress on the consultation on the operation of home sellers' packs. [173867]

Keith Hill: Wide-ranging consultation and extensive research by independent contractors have endorsed the benefits of home information packs in helping to make the home buying and selling process easier and more certain. The Office of the Deputy Prime Minister is working closely with industry and consumer stakeholders on the detail of the proposals in order to ensure a smooth introduction of mandatory home information packs from January 2007. Many home buyers and sellers will not have to wait until 2007 to benefit from home information packs. An increasing number of estate agents, surveyors and conveyancers are operating pack schemes on a voluntary basis.

Mr. Drew: To ask the Deputy Prime Minister what discussions he has had on the proposal by chartered surveyors to remove mandatory home condition reports from home sellers packs. [173868]

Keith Hill: None. The Royal Institution of Chartered Surveyors (RICS) supports the Government's proposals for mandatory home information packs, including a home condition report. These reports will provide at the start of the transaction process reliable information about the condition of the property. This information is important to the decisions buyers and sellers need to make and, along with other components of home information pack, will make home buying and selling more transparent and more certain.

Mr. Drew: To ask the Deputy Prime Minister what research he has undertaken on possible legal and insurance claims against surveyors in advance of the introduction of home condition reports. [173869]

Keith Hill: Home Inspectors preparing the home condition report will be required to have appropriate indemnity insurance to protect the home seller, a potential or actual buyer, and mortgage lender. With assistance from the Royal Institution of Chartered Surveyors, the Association of British Insurers and other industry stakeholders, the Office of the Deputy Prime Minister is carrying out research into the insurance requirements. This includes an analysis by insurance specialists Willis Ltd. of historic claims made against surveyors for negligent surveys to determine the average number of successful and unsuccessful claims as well as the average sum paid and the cost of claims administration. We expect to publish an interim report very shortly.

Mr. Drew: To ask the Deputy Prime Minister what charge he estimates will be levied for home condition reports. [173870]

Keith Hill: The home condition report will be a professional and objective report on the condition and energy efficiency of the property, which can be legally relied upon by sellers, buyers and mortgage lenders. It will be for the market to determine the price of home condition reports in practice and the point at which any charge is paid. Based on current prices, it is estimated that the report will cost about £300 on average (plus VAT). This estimate is based on a report on a three bedroom semi-detached house in a provincial town and can be compared with the typical costs of a building survey (£500 plus VAT) and mortgage lenders valuation report (£180).

Mr. Drew: To ask the Deputy Prime Minister what assessment he has made of the likely impact on property prices of the introduction of home sellers' packs. [173871]

Keith Hill: The initial view of the Office of the Deputy Prime Minister is that the introduction of home information packs (HIPs) is unlikely to have a significant effect on property prices. This is supported by evidence from other countries that have introduced similar measures and by a survey carried out by the UK's largest estate agency group which suggested there would be little impact on the number of properties sold if HIPs were introduced. We will continue to keep this assessment under review during our discussions with stakeholders and consumer representatives on the final contents of the HIP.

Social Housing

Mr. Austin Mitchell: To ask the Deputy Prime Minister what his estimate is of the costs of repair and renovation of social housing over the next 10 years under *(a)* council ownership, *(b)* registered social landlord ownership and *(c)* arm's length management organisation ownership. [173561]

Keith Hill: Local authorities and registered social landlords are expected to put in place plans to meet the decent homes target by 2010.

At 2001 there was an estimated backlog of £20 billion of repair and improvement work required for local authority housing. The Office of the Deputy Prime Minister expects local authorities to have tackled the majority of this backlog by 2010.

Local authorities have been asked to complete Option Appraisals by July 2005 in which they will consider, with their tenants and given their particular circumstances, which options will provide best value for money in meeting the decent homes target. They will take into account a variety of relevant factors including the trend in real construction costs and the scope for improved efficiency in carrying out this work.

Lynne Jones: To ask the Deputy Prime Minister what his estimate is of the total number of properties owned by *(a)* registered social landlords and *(b)* each of the 20 largest registered social landlords. [174283]

Keith Hill: Housing association (registered social landlord) stock in England as at 31 March 2003 was estimated at 1,728,000.

The 20 largest housing associations (measured by stock) were as tabled following and together accounted for about 21 per cent. of the total housing association stock.

Name of housing association	*Total stock at 31 March 2003*
North British Housing Ltd	36,567
Home Group Limited	28,558
Anchor Trust	27,313
Sanctuary Housing Association	25,927
London and Quadrant Housing Trust	23,915
The Guinness Trust	20,019
Riverside Housing	19,889
Knowsley Housing Trust	16,480
Peabody Trust	16,432
William Sutton Trust	15,726
Northern Counties Housing Association Limited	15,575
Hyde Housing Association Limited	14,518
Helena Housing Limited	14,214
Orbit Housing Association	14,171
Metropolitan Housing Trust Limited	13,801
Housing 21	12,558
Focus Housing Association Limited	12,365
Pennine Housing 2000 Limited	12,108
Circle Thirty Three Housing Trust Limited	11,949
Broomleigh Housing Association Limited	11,789

HOUSE OF COMMONS COMMISSION

Hon. Members (Facilities)

Mrs. Lawrence: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what the total expenditure on facilities entirely for the use of hon. Members was in each year since 1995. [174150]

Sir Archy Kirkwood: There are few facilities that are used exclusively by hon. Members. The facilities that are exclusively for Members include Members' Offices, the Smoking Room, the Chess Room, the three Lady Members' rooms, the Members' changing room and the Members' cloakroom. We do not have sufficient disaggregated data on the cost of running these facilities to provide the information requested.

House Employees

Mrs. Lawrence: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission how many employees there were as at 1 January, in each year since 1995 in the House *(a)* Works Services Directorate, *(b)* Operations Directorate, *(c)* Personnel Policy Directorate, *(d)* Internal Review Services Directorate, *(e)* Financial Management Directorate, *(f)* Communications Directorate and *(g)* Estates Directorate. [174153]

Sir Archy Kirkwood: The information requested is as follows. The information is not available for 1 January; the reference date used is therefore 31 March. For 1 April 2002 and previous years the breakdown requested is not available, but more general information about the numbers of staff in House departments is available in the House of Commons Commission's Annual Reports for those covering years.

Full time equivalents

Directorate	*Employees at 1 April 2003*	*Employees at 1 April 2004*
Works Services	138	141
Operations (Department of Finance and Administration)	74	75
Personnel Policy	20	20
Internal Review Services	6	7
Financial Management	25	21
Communications	60	69
Estates	22	24

House of Commons (Running Costs)

Mrs. Lawrence: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what the total annual running costs were in each year since 1995 of the House *(a)* Works Services Directorate, *(b)* Operations Directorate, *(c)* Personnel Policy Directorate, *(d)* Internal Review Services Directorate, *(e)* Financial Management Directorate, *(f)* Communications Directorate and *(g)* Estates Directorate. [174152]

Sir Archy Kirkwood: The table shows the annual costs to the House of running the named directorates since 1995–96. These are the administrative costs; they do not include capital expenditure, or the cost of general services provided for the House as a whole, but which are managed within each directorate's budgets. For example, the Estates Directorate pays rent and rent and rates for the whole of Parliament, but this is not included in the figures.

Not all of the directorates have been in existence since 1995–96; costs are provided from the time of their establishment.

All figures in £000

Directorate	*1995–96*	*1996–97*	*1997–98*	*1998–99*	*1999–00*	*2000–01*	*2001–02*	*2002–03*	*2003–04*

Officers of the House

Mrs. Lawrence: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission how many officers other than Clerks there were in the House on 1 January in each year since 1995. [174151]

Sir Archy Kirkwood: The information requested is as follows. The information is not available for 1 January each year; the reference date is therefore 31 March each year.

	Number
1995	110
1996	113.5
1997	118.5
1998	118.5
1999	122.5
2000	127.5
2001	132
2002	[1]142
2003	[1]141
2004	[1]161

[1] Since 2002 the figures have been calculated as full time equivalents. Earlier figures are the numbers of individuals.

HOME DEPARTMENT

Aerosol Paints

Mr. Jenkins: To ask the Secretary of State for the Home Department what action the Department is taking in assisting the police to enforce the ban on sales of aerosol paints to under-16s. [172497]

Ms Blears: We are in discussion with relevant stakeholders as to what further measures might be necessary to ensure the effective enforcement of these provisions.

The Together Action Line—0870 220 2000—is also available to practitioners throughout England and Wales to provide help and support in tackling anti-social behaviour. This includes police officers with queries on the aerosol paint ban. Throughout March we ran a series of Together Academies across the country to help professionals develop best practice in addressing all forms of anti-social behaviour.

These new powers are just one part of measures to tackle graffiti through our Together campaign on anti-social behaviour. For example, 12 pilot local authorities are testing new powers to clean graffiti from street furniture and public transport property. In addition our "name that tag" campaign, encouraging the public to report "taggers" sends a clear message to graffiti vandals that we will deal with the problem.

Animal Rights Activists

Michael Fabricant: To ask the Secretary of State for the Home Department how many animal rights activists have been arrested in the last 36 months, broken down by the type of offence for which they were arrested; how many were convicted; and what sentences were passed on those convicted. [168982]

Caroline Flint: It is not possible from the information collected centrally by the Home Office to identify whether a defendant is an animal rights activist.

However we understand from the police that there were 117 arrests of animal rights activists during the first four months of 2004 compared with 15 arrests during the same period in 2003.

Michael Fabricant: To ask the Secretary of State for the Home Department how many companies and organisations have reported illegal actions against them over the last 24 months by animal rights activists. [172057]

Caroline Flint: It is not possible from the information collected centrally by the Home Office to identify whether a victim of crime works in a company or organisation targeted by animal rights extremists. The Government are working closely with industry, the police and other criminal justice agencies to protect those who work in the pharmaceutical and bioscience industries and their suppliers.

Michael Fabricant: To ask the Secretary of State for the Home Department what plans his Department has to introduce legislation to restrict the activities of animal rights activists; and if he will make a statement. [172061]

Caroline Flint: The police have a range of powers under existing criminal law and public order legislation to deal with the unlawful activities of animal rights extremists. Changes to legislation have been made to strengthen police powers to deal with intimidatory protests and office occupations in the Anti-social Behaviour Act 2003.

We are looking carefully at whether further action is needed to strengthen police powers to deal with the tactics employed by extremist protestors.

Asylum Seekers

John Robertson:: To ask the Secretary of State for the Home Department how his Department keeps track of asylum seekers who are evicted by local authorities from National Asylum Support Service accommodation following refusal of an application for asylum. [171345]

Mr. Browne: The Immigration and Nationality Directorate (IND) maintains databases containing address and other information for asylum seekers. This is also recorded in the individual Home Office file.

Applicants and their representatives are informed of their obligation to notify the Home Office of any subsequent change of address. This may be done either in person, at a designated Reporting Centre (RC), or by post to the Change of Address Team (CoAT), based in Croydon.

The Immigration Service (IS) has eleven designated reporting centres to assist in managing reporting regimes and, in addition, a person may be required to report to a police station. The reporting network will be further expanded by the development of Accommodation Centres and the establishment of additional RCs.

Commission for Racial Equality

Mrs. Mahon: To ask the Secretary of State for the Home Department when the Commission for Racial Equality Office in Leeds will close; and if he will make a statement. [170238]

Fiona Mactaggart: I understand from the Commission for Racial Equality (CRE) that the lease on its Leeds office is due for renewal, but that an in-principle decision not to extend it has been taken in view of the likely expense involved in making the premises compliant with the provisions of the Disability Discrimination Act and in enhancing security measures to protect staff. It is therefore proposed that Leeds-based staff be transferred to the Manchester office in order to create a unified CRE presence in the north of England. The Commission is presently consulting its partners on this proposal.

Crime Statistics

Mr. Love: To ask the Secretary of State for the Home Department if he will publish the crime figures, including figures for *(a)* dangerous crime and *(b)* drug-related offences, in the constituency of Edmonton in (i) 1991–92, (ii) 2001–02 and (iii) 2003. [169303]

Caroline Flint *[holding answer 5 May 2004]:* The constituency of Edmonton is within the Crime and Disorder Reduction Partnership (CDRP) for Enfield. 'Dangerous crime' is taken to mean violent crime. The available information therefore relates to offences of violent crime which is comprised of violence against the person, sexual offences and robbery. With regard to drug-related offences, the available data relates to the recorded offences of trafficking, possession and other drug offences. CDRP data for violent crime is only available from 1998–99, and for drug offences from 2002–03, and is quoted in the table.

Recorded offences in the Enfield Crime and Disorder Reduction Partnership Area

	Violent crime	*Drug offences*
1991	n/a	n/a
2001–02	6,665	n/a
2002–03	6,964	746

Note:
Figures for 2002–03 will have been affected by the introduction of the National Crime Recording Standard on 1 April 2002.

The total number of offences recorded in the Enfield Crime and Disorder Reduction Partnership for 2002–03 is 30,042. Totals for earlier years are not available centrally. Detailed statistics for Enfield for 2002–03 (including quarterly data) are available on the new Home Office website at: www.crimestatistics.org.uk.

Criminal Justice

David Taylor: To ask the Secretary of State for the Home Department whether changes to the *(a)* definition and *(b)* seriousness of due care in motoring offences are included in the existing proposals to reform the criminal justice system. [172789]

Caroline Flint: The Government are reviewing the existing framework of the criminal law concerning bad driving, particularly where death or injury results, in order to ensure that appropriate offences and penalties are put in place. This includes the offence of driving without due care and attention. We hope to publish a consultation paper in the near future detailing the options for change.

Cycling Offences

Bob Russell: To ask the Secretary of State for the Home Department what advice he has given to chief constables concerning enforcement of the legislation relating to the riding of cycles *(a)* on pavements and *(b)* without lights during the hours of darkness. [172157]

Caroline Flint: Chief officers of police are best placed to assess the level, nature and cause of cycling offences locally and decide the response.

Police officers will take action as appropriate against cyclists whom they see breaking road traffic laws in the ways described. Forces also sometimes undertake short intensive campaigns to deal with persistent cycling offenders.

We have, to help the police with enforcement, given Community Support Officers the power to issue £30 fixed penalty notices for cycling inconsiderately or irresponsibly on the pavement.

Dungavel Removal Centre

Annabelle Ewing: To ask the Secretary of State for the Home Department what discussions he has had with Scottish Ministers on the expansion of Dungavel removal centre. [162630]

Mr. Browne *[holding answer 22 March 2004]:* Officials met Andrew Kerr MSP on 13 March 2003. The discussion, which was wide ranging about the feasibility study we intended to make concerning the expansion of Dungavel, was a useful precursor to discussions with the local council.

Drugs

Mr. Ben Chapman: To ask the Secretary of State for the Home Department what public funds were spent on tackling drug misuse in Wirral, South in *(a)* 1997–98 and *(b)* 2003–04. [172689]

Caroline Flint: Breakdown of financial allocation to local constituencies is not available in the form requested as funding is allocated to Drug Action Team (DAT) area (Wirral DAT).

In 1997–98 funding available to the two main local drug treatment providers in the Wirral area totalled £610,452. This was prior to the formation of the National Drugs Strategy, and this figure has been provided from locally held information.

	Fund	*Treatment provider*	*Budget headings*	*Amount (£)*	*Source of information*
Wirral health authority	AID/HIV monies	Wirral West Cheshire partnership trust	Aids/HIV	39,137	PCT records
			Needle and Syringe Exchange	152,411	
			Infection control nurse	12,304	
			Drug Service budget	109,852	
			Total	313,704	
Wirral MBC Social Services Department	Social Services Grant	Arch Initiatives	SS Grant for counselling and support and residential services	296,748	Wirral MBC and Arch Initiatives
			Total	296,748	

In 2003–04 the total drugs allocation was £5,265,567. In order to ensure consistency figures supplied are based on funding streams associated with the National Drug Strategy and are readily verifiable. These funding streams are specifically targeted at tackling the harm caused to individuals, families and communities by the misuse of drugs. Other mainstream funding is made available at a local level, this varies and both in amount and origin as a result it is not possible to provide robust financial information.

2003–04

	£
Partnership Capacity (DAT CAD and DAT DEV and strategic grant)	80,328
Treatment Pooled Budget	4,299,273
Through Care After Care Pump Priming	35,000
Building Safer Communities[1]	362,745
Young people	488,221
Total	5,265,567

[1] Contains non drug elements.

Mrs. Gillan: To ask the Secretary of State for the Home Department what investigations have been carried out by his Department on the reliability of the drugs tests currently available. [161181]

Caroline Flint: Drug testing technology and its reliability is kept under constant review by the Home Office due to its applicability to roadside impairment testing and its relevance in the workplace. The extent and definition of 'reliability' in these different settings is by nature of the criminal law different in each case.

Recently there has been research on the reliability of different methods of drug testing carried out by the Forensic Science Service (FSS) for the specific purpose of testing persons in custody suites to see if they have used drugs. The research used saliva as a point-of-contact using the Cozart RapiScan™ electronic test strip reader, one of few commercially available on-site testing kits for oral fluid (saliva). Overall, the results of this study revealed that saliva based testings are not reliable enough to evidence impairment for the purposes of charge for driving while impaired by alcohol or drugs.

In the workplace, the requirements of the criminal law do not have to be met and it is up to employers to decide what margin of proof is required to consider action against specific employees. Saliva, urine, hair analysis or blood tests may all be sufficiently reliable. The Home Office does provides guidance on the various types of tests available to any companies who seek advice, which suggests that some tests are more reliable than others.

In the July 2004, an independent inquiry report on drugs testing in the workplace will review some of the complex and wide reaching issues surrounding drug testing in the workplace including the reliability of different testing devices. The report will be the first attempt to give a full picture of drug testing in the workplace and will include recommendations to government, employers and other relevant bodies.

David Davis: To ask the Secretary of State for the Home Department on how many occasions the police have issued closure notices on premises they had reason to believe were being used for the production, supply or use of Class A drugs and causing serious nuisance or disturbance under powers contained in section 1 (11) of the Anti-social Behaviour Act 2003. [169784]

Caroline Flint: The power to close premises has been widely welcomed and applauded by both the police who use it and the communities to whom its use has provided immediate relief from the blight of drug supply and use, and associated antisocial behaviour. This power provides a genuinely effective tool to tackle nightmare premises such as 'crack houses'. The power has been used at least 19 times in our Anti Social Behaviour Trailblazer sites alone since January and indications from discussions with the police and courts suggest that the power may have been used over 100 times in England and Wales.

However, the numbers of closure notices issued by the police are not recorded centrally as this data requirement would be an additional burden upon frontline police forces. We wish instead to record the number of closure orders issued by magistrates courts under section 2 of the Anti-social Behaviour Act. As this data becomes available this will allow for us to count how the power is being used nationally.

Green Minister

Mr. Oaten: To ask the Secretary of State for the Home Department what work his Department's Green Minister has undertaken in the last three months in that capacity. [172310]

Fiona Mactaggart: Much of my day-to-day work on community cohesion, race issues, voluntary and community activity and active citizenship directly supports sustainable development. In the last three months, in my capacity as Green Minister, I have also participated in a number of meetings, judged an energy efficiency switch off campaign competition for the department and continued to support the Framework Project established to tackle the environmental targets for the Government Estate, which I launched at a departmental workshop in December last year.

I have also re-launched the Regulatory Impact Assessment within the Department to reflect the greater emphasis on sustainable development.

Identity Cards

Mr. Gibb: To ask the Secretary of State for the Home Department what assessment the Office of Government Commerce has carried out of the identity card programme as referred to at paragraph 1.11 of his consultation document, Legislation on Identity Cards (Cm 6178). [170815]

Mr. Browne: The Office of Government Commerce completed a Gateway 0 Review in January 2004 and assessed the programme as being ready to go forward to its next phase.

Mr. Gibb: To ask the Secretary of State for the Home Department from what date it will no longer be possible to obtain *(a)* a passport and *(b)* a driving licence which is not designated as an identity card under the proposals in the draft Identity Card Bill. [172300]

Mr. Browne: No date has yet been set for when any specific document will be designated as an ID card and therefore from when that document must be issued with, or as part of, an ID card.

Immigration

Mr. Wiggin: To ask the Secretary of State for the Home Department what percentage of applications for immigration were accepted in England and Wales were accepted in each year since 1997. [168457]

Mr. Browne: The latest available statistics relating to decisions on applications for an extension of leave to remain or settlement made in the United Kingdom are given in the following table. Corresponding information for England and Wales is not available.

Detailed statistics on immigration control are published in the Command Paper "Control of Immigration: Statistics United Kingdom 2002" (Cm 6053), which is available in the Library, the Stationery Office and via the Home Office website http://www.homeoffice.gov.uk/rds/hobpubs1.html.

Decisions on applications for an extension of leave to remain[1] in the United Kingdom and settlement[2], by category, excluding EEA nationals, 1997–2002

Interception Warrants

Mr. Jenkins: To ask the Secretary of State for the Home Department how many interception warrants have been issue in each year since 1997. [172495]

Ms Blears: The figures for the number of interception warrants issued since 1997 are published annually in the Annual Reports of the Interception of Communications Commissioner initially appointed under the Interception of Communications Act 1985 and now under the Regulation of Investigatory Powers Act 2000. Copies are available in the House of Commons Library.

NHS Recruitment

Mr. Baron: To ask the Secretary of State for the Home Department (1) what checks are in place in ensure that foreign healthcare workers who have been granted work permits are employed in the provision of healthcare upon entering the United Kingdom; [170666]

(2) what checks are in place in ensure that foreign healthcare workers who have been granted work permits are employed as stated on their application upon entering the United Kingdom. [170667]

Mr. Browne *[holding answer 4 May 2004]:* Sample checks are carried out on a random or intelligence led basis on employers, by post or by visiting their premises, including those in the Healthcare Sector, in order to ensure that work permit holders are employed for the purpose stated on the work permit application. Where it can be shown that is not the case, action is taken to revoke the work permits.

North London Mosque

Mr. Dismore: To ask the Secretary of State for the Home Department what assessment he has made of the public order consequences of the regular Friday meetings held outside the North London Mosque; and if he will make a statement. [169781]

Caroline Flint: The Commissioner of Police for the Metropolis tells me that he understands the concerns of local residents about the disruption caused by the road closure. However, it is necessary for safety reasons to close the road while prayers take place.

Mr. Dismore: To ask the Secretary of State for the Home Department if he will invite the Commissioner of Police for the Metropolis to ensure that the public highway is free from obstructions on Fridays outside the North London Mosque; and if he will make a statement. [169804]

Caroline Flint: This is an operational matter for the Commissioner of Police for the Metropolis. He tells me that it is necessary for safety reasons to close the road outside the North London Mosque on Fridays while prayers take place.

Parliamentary Questions

John McDonnell: To ask the Secretary of State for the Home Department how many Home Office questions were tabled between 6 January and 31 March; and how many remain unanswered. [167523]

Fiona Mactaggart: According to our records the Home Office received 2,769 parliamentary questions (PQ) between the period of 6 January and 31 March, the numbers that remain unanswered is 86 (3 per cent.).

Every effort is made to reply to parliamentary questions within the parliamentary deadlines wherever possible. Consequently the Home Office is currently in the process of introducing a new PQ system, the electronic parliamentary questions system (ePQS) to better monitor and manage the Department's performance.

The ePQS monitoring system has identified the bottlenecks in the PQ process and remedial action is being taken. As is usual with the introduction of any new IT system, performance has shown an initial decline. The benefits of ePQS are now being realised across the Department and performance is improving.

Probation Service

Ross Cranston: To ask the Secretary of State for the Home Department what the reasons were for the change in the gross financial provision of the National Probation Directorate for 2003–04 [168463]

Paul Goggins: The original budget delegation to the National Probation Service, which comprises the central directorate and 42 local probation boards, for 2003–04 was £778 million including £33 million capital. The latest budget provision is £856 million including £38 capital.

The main reasons for the additional funding include: the need to build capacity in preparation for the Criminal Justice Act 2003; and increased funding for electronic monitoring, Drug Treatment and Testing Orders and the development of IT.

Proceeds of Crime Act

Chris Ruane: To ask the Secretary of State for the Home Department what principles govern the allocation of funds received from the Proceeds of Crime Act 2002; and if he will give examples of where and how this money has been spent. [172932]

Caroline Flint *[holding answer 13 May 2004]:* The general principles which govern the allocation of funds received from the confiscation of criminal assets under proceeds of crime legislation, are:

(a) to build asset recovery capacity in front line law enforcement and prosecuting agencies as a contribution to crime reduction;

(b) to incentivise law enforcement agencies to do more asset recovery and;

(c) to recycle a proportion of the proceeds of crime into community based crime reduction projects.

The Recovered Assets Incentive Fund was set up last financial year to incentivise asset recovery by asset recovery agencies including law enforcement and prosecuting authorities. £15.5 million a year for three years has been allocated to the fund. The funds have been fully committed to projects, agreed by the Association of Chief Police Officers and others that will increase the confiscation of criminal assets.

Of £46.5 million that will be available under the fund over three years, up to £12 million a year has been allocated to set up four new multi-agency Regional Asset Recovery Teams (RARTs) to disrupt organised crime groups, confiscate more criminal assets and to tackle money laundering. A successful pilot in the West Midlands has been rolled out to the North West, North East, Wales and London. The teams have been operational since February and comprise staff from the police, National Crime Squad, Her Majesty's Customs and Excise, National Criminal Intelligence Service, Crown Prosecution Service, Assets Recovery Agency and the Inland Revenue.

An additional £7 million a year for three years has been made available separately from the Recovered Assets Incentive Fund for community based crime reduction projects.

Last year £4 million was allocated to the Adventure Capital Fund to regenerate communities across England. £3 million was allocated to regional government offices, of which £1.5 million funded anti-gun crime initiatives and £1.5 million funded capacity building in crime and disorder reduction partnerships. Of the £7 million available this year, £3 million has been committed to funding a community justice centre pilot scheme in Liverpool; £2 million to fund support services for victims of sexual offences in England and Wales; and £2 million to fund new and existing projects to tackle gun crime in England and Wales.

On 24 February I announced a new police incentivisation scheme to be introduced in 2004–05 that will enable police forces in England and Wales, and the Police Service of Northern Ireland, to receive a share of the criminal assets they recover locally, in the following year. Separate arrangements exist in Scotland. The scheme has the full support of the Association of Chief Police Officers in England and Wales. Police forces will benefit by receiving a third of all the recovered assets above £40 million in 2004–05, increasing to half for 2005–06. The maximum benefit available to the police will be £43 million in 2004–05 rising to £65 million in 2005–06. The Government will be using the first £40 million to help fund existing commitments in the asset recovery field.

There will be no restrictions on how the police should spend this money so there may be scope in the future for them to devote some of the funds to community-based projects aimed at crime reduction. We are currently considering how we might be able to extend the scheme to 2006–07 and beyond.

Racial Equality Councils

Dr. Iddon: To ask the Secretary of State for the Home Department which *(a)* racial equality councils and *(b)* other organisations have received Commission for Racial Equality section 44 funding for 2004–05; and what amounts have been allocated to each organisation. [172863]

Fiona Mactaggart: The table lists all the organisations, which successfully bid for funding in 2004–05, and how much they have been allocated.

[1] Organisation funded for the first time.

Sexual Offences

Sandra Gidley: To ask the Secretary of State for the Home Department what assessment he has made of the efficacy of products used to detect the presence of date rape drugs in drinks; and if he will make a statement. [171022]

Caroline Flint: None. Commercial products such as these are not licensed or endorsed by the Home Office.

Heroin

Paul Flynn: To ask the Secretary of State for the Home Department what changes have been recorded in the price of street heroin since October 2001. [166872]

Caroline Flint: The UK average price of street heroin (per gram) reported to NCIS since October 2001 for inclusion in the National Drug Price Guide (NDPG) has been as follows:

	Price (£)
December 2001	63
April 2002	60
August 2002	61
December 2002	61
April 2003	61
August 2003	61
December 2003	62
April 2004	59

Sustainable Development

Mr. Oaten: To ask the Secretary of State for the Home Department if he will list the meetings at which his Department has been represented regarding the delivery of sustainable development across Government as co-ordinated by the Ministerial Sub-Committee of Green Ministers. [172309]

Fiona Mactaggart: I am a member of the Ministerial Sub-Committee of Green Ministers. However, it has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees. This practice is now formalised by Exemption 2 of Part II of the Code of Practice on Access to Government Information.

Together Action Line

Mr. Jenkins: To ask the Secretary of State for the Home Department how many calls the Together Action Line has received since its inception. [172500]

Ms Blears: From 3 March 2004 to 3 May 2004 the Together Action Line has dealt with 1,531 calls and 261 emails. Within this number there have been some notable successes:

In March, the ASB coordinator from Portsmouth attended a Together Academy event and learnt about new crack house, closure powers. The following day she called the Action Line for some advice on procedure. Within hours, they had their first closure order

In April, Swansea Safer Partnership contacted the Action Line about the procedure for obtaining a closure order on a property which was causing serious nuisance. This included intimidation and harassment of residents, drug paraphernalia and other dangerous items lying around, as well as high numbers of people entering and leaving the premises. CCTV footage showed up to 100 visitors in a 24-hour period. The ActionLine advised Swansea on the process and sent through a detailed example of how a similar problem had been tackled elsewhere. Safer Swansea Partnership secured a closure order—the first one in Wales.

INTERNATIONAL DEVELOPMENT

Climate Change

Mr. Chaytor: To ask the Secretary of State for International Development what discussions he has had with his counterparts in developing countries concerning the allocation of greenhouse gas emissions rights on an equal per capita basis, as proposed by the Africa Group of countries in 1997 and the Indian Prime Minister at the 9th UN Framework Convention on Climate Change in December 2002. [171231]

Hilary Benn: Tackling global climate change is a high priority for the Government and for the Department for International Development.

The Government are working hard to ensure that the Kyoto Protocol enters into force and is effective. The Government's focus has been on securing full compliance with the obligations under the Protocol's first commitment period; these do not of course apply to developing countries. However, DFID is also considering how the UK should engage in a future debate about wider commitments. This includes looking at ways in which developing countries can become more engaged in the debate on global greenhouse gas mitigation on terms that will allow them to follow clean development paths whilst meeting their development and poverty reduction objectives. The Department for International Development will be working closely with our partners in tackling these issues.

Colombia

Angus Robertson: To ask the Secretary of State for International Development (1) how much *(a)* money and *(b)* aid in kind the UK has (i) pledged and (ii) delivered to date to the (A) International Organisation for Migration and (B) the UN Development Fund for Women within the framework of the UN Consolidated Inter-Agency Appeal for Columbia 2003; and if he will make a statement; [173442]

(2) how much *(a)* money and *(b)* aid in kind the UK has (i) pledged and (ii) delivered to date to the Food and Agriculture Organisation within the framework of the UN Consolidated Inter-Agency Appeal for Colombia 2003; and if he will make a statement. [173449]

Mr. Gareth Thomas: The UK did not directly respond to the UN Consolidated Inter-Agency Appeal for Colombia in 2003 (Humanitarian Assistance Plan, HAP), nor did it contribute funds or provide aid in kind to the Food and Agriculture Organisation, International Organisation for Migration or the UN Development Fund for Women within that framework. DFID's support took the form of its 18 per cent. share of the European Commission Humanitarian Aid Office (ECHO) commitment of €8.6 million to Colombia in 2003 through it's own Global Plan 2003, for internally displaced people and people affected by internal conflict in Colombia.

Angus Robertson: To ask the Secretary of State for International Development what programmes aimed at *(a)* aiding internally displaced people and *(b)* aiding indigenous tribes his Department (i) has established since 2000, (ii) runs, (iii) helps to run, (iv) finances and (v) helps finance in Colombia; how many people each has (A) housed and (B) fed per annum since 2000; and if he will make a statement. [173444]

Mr. Gareth Thomas: DFID has provided support for internally displaced people (IDPs) through UK non-governmental organisations (NGOs) and its 18 per cent. share of the European Commission's (EC) humanitarian assistance programme.

DFID supported Oxfam's Communities for Peace initiative in northern Colombia (1999–2000) by contributing £107,000. This strengthened local capacity to protect and realise the human rights of community members through community based support to health, food security, income generation, education and social inclusion.

DFID funded £150,000 for a Save the Children Fund project (1999–2000) where they worked with three local NGOs (Dos Mundos, Asoda and Benposta) in Colombia to meet the social and emotional needs of children and adolescents who had been internally displaced by conflict.

The EC's commitment to IDPs is shown in the following table. The European Commission Humanitarian Aid Office's (ECHO) Global Plan focuses on four specific objectives: short-term humanitarian assistance and protection to IDPs, post-emergency assistance to IDPs and vulnerable groups, co-ordination to increase the exchange of information among humanitarian organisations, and technical assistance.

EC Commitment for IDPs

€ *million*

	ECHO	*Assistance for up-rooted people*
2000	6.5	—
2001	10	—
2002	9.2	1.5
2003	8.6	10.55

The latest figures available for numbers benefiting are for the EC's 2002 commitment. These show that 195,000 new IDPs received emergency assistance, 85,000 people had their living conditions considerably improved, and 25,000 people were given access to basic health care assistance.

DFID has not supported programmes that specifically work on Colombian indigenous communities either directly or through the EC since 2000.

Gambia

Angus Robertson: To ask the Secretary of State for International Development how much aid his Department has provided to the Gambia in each year since 1997. [173445]

Hilary Benn: DFID has provided the following amounts of direct assistance to The Gambia since 1997:

Fiscal year	Total amount (£000)
1996–97	1,862
1997–98	1,311
1998–99	976
1999–2000	1,370
2000–01	1,748
2001–02	2,043
2002–03	894
2003–04 (Provisional)	429

Following a review of the Programme in 2002 DFID decided to remain engaged in The Gambia with a modest programme of support focused on the education sector, governance reform and public financial management. These proposals are at various stages of development.

HMG also provides a considerable amount of assistance to The Gambia through the UK's contributions to multilateral organisations. The UK's imputed multilateral shares since 1997 are as follows:

	European Commission	Other	United Nations	World Bank	Total (£ million)
1997	0.1	0.1	0.3	0.3	0.9
1998	0.9	0.2	0.3	0.1	1.4
1999	0.3	0.1	0.2	0.0	0.6
2000	0.9	0.3	0.3	0.3	1.8
2001	0.5	1.2	0.3	0.6	2.6

Angus Robertson: To ask the Secretary of State for International Development what educational programmes aimed at children between the ages of six and 16 his Department *(a)* has established since 1997, *(b)* runs, *(c)* helps run, *(d)* finances and *(e)* helps finance in the Gambia. [173446]

Hilary Benn: DFID has recently approved a £2.9 million project aimed at enhancing the capacity of the Department of State for Education (DoSE) to implement the Gambia's poverty reduction strategy in the education sector.

Previously, from 2000–02, DFID provided £655,000 to DoSE through an education management project concentrating on the establishment of an education management information system (EMIS) and staff appraisal system.

Angus Robertson: To ask the Secretary of State for International Development what sexual education programmes his Department *(a)* has established since 1997, *(b)* runs, *(c)* helps run, *(d)* finances and *(e)* helps finance in the Gambia. [173447]

Hilary Benn: DFID has not provided direct funding or been involved in any sexual education programmes in The Gambia since 1997. Indirectly, DFID supports and contributes globally to the activities of many organisations involved in promoting sex education and tackling HIV/AIDS. These include the Joint United Nations Programme on HIV/AIDS (UNAIDS), the United Nations Development Programme (UNDP), UNICEF, the World Health Programme (WHO) and the HIV/AIDS Rapid Response Programme (HARRP) funded by the World Bank.

In The Gambia, activities include the HIV/AIDS Rapid Response Project (HARRP) of approximately US $15 million, which supports the Gambian National AIDS strategy and addresses a wide range of prevention activities. In addition The Global Fund to fight AIDS, Tuberculosis and Malaria (GFATM), to which DFID also contributes, is considering providing US $14.5 million over 5 years for the treatment, care and support for people living with HIV/AIDS.

Angus Robertson: To ask the Secretary of State for International Development if he will list the international initiatives in the Gambia that his Department has participated in *(a)* financially and *(b)* logistically since 1997; and if he will make a statement. [173448]

Hilary Benn: The UK makes multilateral contributions to a number of international organisations active in The Gambia. Since 1997 the UK's imputed share of multilateral contributions is as follows:

	European Commission	Other	United Nations	World Bank	Total (£ million)
1997	0.1	0.1	0.3	0.3	0.9
1998	0.9	0.2	0.3	0.1	1.4
1999	0.3	0.1	0.2	0.0	0.6
2000	0.9	0.3	0.3	0.3	1.8
2001	0.5	1.2	0.3	0.6	2.6

(b) DFID works closely with the Gambian Government and other donors in building a co-ordinated approach to the implementation of the Gambia's Poverty Reduction Strategy Paper (PRSP). Initiatives coordinated with other donors include support to Public Expenditure Reviews in 2002 and 2004, and a Country Financial Accountability Assessment in 2003.

Ministerial Visits

Matthew Taylor: To ask the Secretary of State for International Development if he will list visits made by each Minister in the Department between December 2003 and April 2004, broken down by *(a)* date, *(b)* constituency visited and *(c)* cost. [171565]

Hilary Benn: I visited the City of York on 17 March for departmental business. This visit cost £226.

Gareth Thomas travelled to East Kilbride (DFID's second Headquarters) on 4 December 2003 at a cost of £163.10. On Thursday 18 December 2003 Gareth Thomas travelled to Gateshead, East and Tynemouth at a cost of £254.00. These visits were undertaken as part of the Parliamentary Under-Secretary of State's departmental business.

For details of overseas visits the Government publishes on an annual basis the total costs of all ministerial overseas travel and a list of all visits by Cabinet Ministers costing in excess of £500. Information for 2003–04 is currently being collected and will be published as soon as it is ready.

Occupied Palestinian Territories

Tony Baldry: To ask the Secretary of State for International Development pursuant to the Statement of 29 April 2004, *Official Report*, column 372WH, on the Occupied Palestinian Territories, on which issues the Government has made representations to the Government of Israel. [172080]

Mr. Rammell: I have been asked to reply.

My right hon. Friend the Foreign Secretary and my noble Friend the Baroness Symons of Vernham Dean regularly make representations to the Israeli Government about all aspects of the humanitarian situation in the Occupied Territories, including access for humanitarian organisations, as well as settlements and the route of the barrier.

In addition, we have recently made representations about the deaths of British Nationals in the Occupied Territories, extra judicial killings and Israeli public statements implying that Yasser Arafat might be a target.

FOREIGN AND COMMONWEALTH AFFAIRS

EU Chemicals Legislation

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations have been received from the US Administration in respect of the proposed REACH legislation in the EU. [171512]

Mr. Rammell: In early 2003, during their regular meetings with officials from the British Embassy in Washington, officials from the United States Trade Representative raised their concern about the impact of the proposed Registration, Evaluation and Authorisation of Chemicals (REACH) legislation on the US chemicals industry and its trade with the EU.

Officials from the US Embassy in London have also requested general information regarding the proposed REACH legislation.

The UK Government are a strong supporter of the overall objectives of REACH. We want to see a rapid, efficient system for collecting the necessary information on chemicals and for tackling those of most concern, while minimising animal testing and maintaining the competitiveness of the chemical industry.

Colombia

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports his Department has received concerning the plight of Colombian refugees *(a)* seeking to enter and *(b)* who have already entered Panama; what assistance his Department has offered to the Government of Panama better to deal with the influx of refugees from Colombia; and if he will make a statement. [173437]

Mr. Rammell: Our Embassies in Panama and Colombia provide reporting on movements of people between Colombia and Panama, although it can be difficult to obtain very accurate information. We are also in contact with the recently opened office in Panama City of the United Nations High Commissioner for Refugees and other EU missions. We have not provided any assistance to the Panamanian Government on dealing with Colombian refugees and illegal immigrants. The Panamanian authorities work closely with their Colombian counterparts on the border and on repatriation of Colombian nationals. They also work with some international NGOs providing assistance to Colombian refugees.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of *(a)* the numbers and *(b)* the (i) economic and (ii) security implications of the internally displaced persons currently within Colombia; how this situation has developed over the last three years; and if he will make a statement. [173460]

Mr. Rammell: Our Embassy in Bogota reports regularly on internally displaced people (IDPs) in Colombia, and discusses the situation with the Colombian authorities and NGOs. Given the nature of the issue, it is very difficult to put a completely accurate figure on the number of IDPs in recent years. Colombian government provided and unofficial statistics differ slightly. According to government statistics 327,606 were displaced in 2001 and 379,289 in 2002. The economic and security implications are loss of income through unemployment, lack of access to education and health care and increased vulnerability. This terrible situation has arisen as a direct result of the armed conflict in Colombia. 2003 showed a marked decline in numbers as the security forces made some headway against the illegally armed groups; according to government statistics 172,851 were displaced in 2003. But the situation is still critical and more needs to be done to address the issue.

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK personnel operating at the British embassy, Bogota, are absent from the diplomatic list; for what reason they are absent; what their activities and roles are; and if he will make a statement. [173236]

Mr. Rammell: There are two lists covering the embassy staff in Bogota, one produced by the Colombian authorities and one produced by the Foreign and Commonwealth Office (FCO). All our staff at the embassy are accredited to the Colombian Government through the Ministry of Foreign Affairs and appear in the Ministry's list as and when it is updated. Regarding the FCO list, only four substantive members of the embassy's staff do not appear in the Diplomatic Service Overseas List. All are junior civilian members of Government Departments undertaking secretarial, administrative or technical duties. It is not our practice to include in the list these categories of staff at our posts.

Computer File Formats

Mr. Allan: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is in respect of the computer file formats used for the *(a)* distribution and *(b)* archiving of publicly available documents. [173352]

Mr. Rammell: The Department's documents generally available to the public electronically are provided through the Department's website: www.fco.gov.uk.

These are usually available in HTML or PDF formats. Previously published documents are archived in the same way at www.fco.gov.uk/directory. Public documents that pre-date the Foreign and Commonwealth Office (FCO) website are available on request from the FCO Library: library.enquiries@fco.gov.uk.

Gambia

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his counterpart from the Gambia concerning child prostitution and sex tourism; and if he will make a statement. [173458]

Mr. Mullin: The issue of child prostitution and sex tourism in The Gambia is a matter of increasing concern. Our High Commissioner has discussed the problem with the Ministers of Tourism and the Interior, and maintains close contact with senior police and immigration officials on these issues.

He is also in close contact with UNICEF locally. With the active participation of the Government of The Gambia. UNICEF launched a report on 5 May 2004 on the sexual abuse of children. This made several recommendations including the need to raise public awareness and make legislative reform. UNICEF is working with the authorities and local Non Governmental Organisations to draw up an action plan to take forward these recommendations.

Our High Commission in Banjul actively supports the Child Protection Alliance in The Gambia by funding several projects.

Iraq

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs how many British nominees are serving in the Iraq Survey Group. [173427]

Mr. MacShane *[holding answer 17 May 2004]:* As at 13 May, there were 49 British personnel (both military and civilian) serving with the Iraq Survey Group.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make available to *(a)* the United States Administration and *(b)* Mr. Paul Bremer a copy of the report prepared for his Department entitled "A Human Rights Approach to Prison Management" launched on 20 November 2002. [173862]

Glenda Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has provided a copy of the handbook, "A Human Rights Approach to Prison Management", launched by him on 11 November 2002 to the Coaliton Provisional Authority. [174331]

Mr. Rammell: Copies of "A Human Rights Approach to Prison Management" were sent to the US Federal Bureau of Prisons, the National Institute of Corrections. Commissioners of the Department of Corrections in every state and the American Correctional Association by the International Centre for Prison Studies who produced the handbook. A copy has not been passed directly to Paul Bremer. However a senior prison governor who has been seconded to CPA(South) from the UK Prisons Service to advise and mentor the Iraqis on running their penal system was given copies of the handbook in Arabic. We hope that the handbook will be used as a basic training tool in the future Iraqi prison service.

Julie Ward

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* discussions concerning and *(b)* involvement in the further inquiries that are to take place into the Julie Ward murder in Kenya his Department plans; with whom discussions are to take place; and if he will make a statement. [173292]

Mr. Mullin: I discussed the Julie Ward murder case with the Kenyan Minister for Justice and Constitutional Affairs, Kiraitu Murungi, during his visit to London on 29 April. Mr. Murungi assured me that the Kenyan Government would take all necessary steps to ensure that justice is done if new evidence relating to the murder came to light. During a meeting with our Acting High Commissioner in Nairobi on 7 May, Mr. Murungi further confirmed that any new information relating to the case should be passed to the Kenyan Director of Public Prosecutions.

The Foreign and Commonwealth Office is ready to offer assistance, if requested, but has not been asked by Julie Ward's family to take action relating to any further inquiry.

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* he and *(b)* other Ministers from his Department (i) have met and (ii) intend to meet Mr. John Ward to discuss the murder of his daughter, Julie Ward, in Kenya; and if he will make a statement. [173293]

Mr. Mullin: Mr. Ward met my right hon. Friend the then Minister of State at the Foreign and Commonwealth Office (FCO) (Mr. Hain) in 2000. FCO Ministers would be happy to meet Mr. Ward again, should he request a meeting.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he raised *(a)* the issue of the search for peace in Darfur, *(b)* human rights abuses and the implementation of sharia law and *(c)* the future of Dr. al-Tarubi in discussions with the Foreign Minister of the Sudan, during his recent visit to London. [173785]

Mr. Mullin *[holding answer 17 May 2004]:* My right hon. Friends the Foreign Secretary and the Secretary of State for International Development, and I registered strongly our concerns about the situation in Darfur during our meetings with the Sudanese Foreign Minister on 11 May. He accepted that progress was now needed. I also raised our concerns about human rights and the implementation of sharia law. We did not discuss Dr. al-Turabi.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) whether the Government have addressed the concerns of the UN Human Rights Commission following its recent session

on the Sudan; and what work he is undertaking with the EU to highlight human rights abuses *(a)* in Darfur and *(b)* elsewhere in the Sudan; [173786]

(2) whether the report of the United Nations Human Rights Commission following its recent session in Sudan was available to the meeting of the UN session on the human rights situation in Sudan. [173907]

Mr. Mullin *[holding answer 17 May 2004]:* We are in close contact with the UN Office of the High Commissioner for Human Rights (OHCHR) about the situation in Darfur. We are working to ensure that the Independent Expert, mandated by the 23 April UN Commission on Human Rights decision on Sudan, is appointed as soon as possible.

The advance version of the report of the recent OHCHR mission to Sudan was only issued on 10 May, so it was not available for consideration during the recent UN Commission on Human Rights.

We raise the human rights situation in Sudan on a regular basis, both bilaterally and as part of the EU-Sudan dialogue. The humanitarian and human rights situation in Darfur was discussed at the General Affairs and External Relations Council on 26 April, and in the Political and Security Council on 27, 30 April and 11 May.

Thailand

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many United Kingdom citizens have been arrested while on holiday in Thailand in each year since 1997; if he will list the five most common charges United Kingdom citizens were arrested for; how many United Kingdom citizens were sentenced in each year since 1997; and if he will make a statement. [173457]

Mr. Mullin: The information requested is in the form of a table.

UK citizens arrested in Thailand per annum since 1997

	Number
1997–98	251
1998–99	113
1999–2000	165
2000–01	430
2001–02	161
2002–03	185
2003–04	315

These figures include British nationals both resident and on holiday in Thailand. We do not hold figures for the number of British nationals sentenced in Thailand. The most common charges, listed in order, are for visa and work permit irregularities, drugs, motoring offences, assault, and theft.

Zimbabwe

Mr. Rosindell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on human rights abuses committed by the Government of Zimbabwe. [173411]

Mr. Mullin: The Government of Zimbabwe continues to commit serious human rights abuses. It has repeatedly harassed, intimidated and attacked the opposition, independent media and wider civil society. We and the rest of the international community have made our condemnation clear. With our partners we are helping to provide help for those who have suffered and support to human rights lawyers and others working to end these abuses.

CABINET OFFICE

e-Government

23. **Mr. Tom Harris:** To ask the Minister for the Cabinet Office how the United Kingdom compares with other OECD member countries in the provision of internet access to Government services. [173516]

Mr. Woolas: The OECD has not conducted its own e-Government benchmarking study. Other reports indicate that the UK is closely behind Scandinavia and among the other leading countries worldwide in the delivery of e-Government services.

Directgov, the new one-stop internet and DTV service for citizens, is a world-leading service which is attracting significant interest from other OECD governments.

Better Regulation

24. **Andrew George:** To ask the Minister for the Cabinet Office what recent progress has been achieved towards better regulation. [173517]

Mr. Woolas: The UK remains well-placed in international comparisons of regulatory burdens and regulatory reform.

Recent progress on better regulation includes delivery of over 300 of the measures in the Regulatory Reform Action Plan. 23 Regulatory Reform Orders have been laid before Parliament. Compliance with the Regulatory Impact Assessment process measured at 100 per cent. in November 2003. A revised Code of Practice on Consultation was issued in January 2004.

Civil Service (Disabled People)

25. **Mrs. Humble:** To ask the Minister for the Cabinet Office what action is being taken to ensure that people with disabilities are represented throughout the civil service. [173518]

Mr. Woolas: The Government remain committed to increased representation of disabled people in the civil service. Current figures show that 4.3 per cent. of civil servants have declared a disability, including 1.7 per cent. of those at senior civil service level. We have set a target of 3.0 per cent. for disabled staff at senior civil service level by April 2005.

Action to increase representation of disabled people includes a bursary scheme for disabled staff with high potential and a summer placement scheme to encourage disabled applicants to the graduate fast stream.

Ombudsmen

26. **Mr. Clifton-Brown:** To ask the Minister for the Cabinet Office what plans he has to co-ordinate the activities of the Ombudsmen to ensure that they act in a consistent manner. [173519]

Mr. Woolas: The Government's response to the Public Administration Select Committee's Third Report of Session 2002–03 on Ombudsman issues made clear that we are working closely with the parliamentary Ombudsman and others in the Ombudsmen community to promote joint working and ensure that Ombudsmen arrangements are fit for purpose.

Better Regulation Taskforce

Mr. Bellingham: To ask the Minister for the Cabinet Office when he next expects to meet the Better Regulation Taskforce to discuss its plans for 2004–05. [173520]

Mr. Alexander: I have regular meetings with the Chairman of the Better Regulation Task Force to discuss all aspects of the better regulation agenda.

The Task Force are currently scoping ideas for their work programme for 2004–05 and they have not taken any decisions as yet. However, they are, as always, open to ideas.

PRIME MINISTER

Ministerial Code

Norman Baker: To ask the Prime Minister whether section 6 of the Ministerial Code permits individuals other than special advisers to use Government property to undertake manifesto preparation work for New Labour. [174083]

The Prime Minister: The use of Government property is undertaken in accordance with the requirements of the Ministerial Code, the Civil Service Code and the Code of Conduct for Special Advisers.

Norman Baker: To ask the Prime Minister on how many occasions in each year since 1 May 1997 spouses or partners of Ministers travelled *(a)* within the United Kingdom and *(b)* overseas at public expense under the provisions of section 87 of the Ministerial Code; and what the total cost of such expenses was in each year. [174084]

The Prime Minister: The information requested is not held centrally. The cost of spouses or partners accompanying Ministers on overseas visits is included in the overall cost of Minister's visits overseas which is published on an annual basis. The cost of visits from 1 April 2003 to 31 March 2004 is currently being collated and will be published in the normal way before the summer recess. Copies for previous years are available in the Library of the House.

Norman Baker: To ask the Prime Minister whether the Secretary of State for Environment, Food and Rural Affairs sought his approval for her recent absences overseas in accordance with section 7, paragraph 73 of the Ministerial Code; and if he will make a statement. [174085]

The Prime Minister: Ministerial travel complies with the requirements of the Ministerial Code and Travel by Ministers.

Norman Baker: To ask the Prime Minister how he plans to apply section 90 of the Ministerial Code of Conduct to the recent offer by the US authorities of a decoration. [174086]

The Prime Minister: As I made clear to the hon. Member on 10 July 2003, *Official Report*, columns 933–34W, the Ministerial Code is a code of conduct and guidance on procedures for Ministers. Any offer of a decoration from a foreign state is considered in light of this guidance.

WORK AND PENSIONS

Bereavement Allowance

Mr. Willetts: To ask the Secretary of State for Work and Pensions whether his Department plans to lower the age at which the bereavement allowance is paid to widows. [172002]

Mr. Pond: Bereavement benefits were introduced on 9 April 2001, and for the first time extended support to both widows and widowers following the death of a spouse. These new benefits concentrate the help available where it is most needed; on immediate needs and on families with children.

The bereavement payment is a lump sum payment of £2,000 payable immediately to help with costs arising on bereavement. Widowed parent's allowance is a weekly benefit payable to widowed parents who satisfy the qualifying conditions. In addition bereavement allowance is a weekly benefit payable, for 52 weeks following widowhood, to widows and widowers aged 45 and over without dependant children.

We have no plans to change these arrangements.

Jobcentre Plus

Mr. Pike: To ask the Secretary of State for Work and Pensions when he expects the new Jobcentre Plus office in Burnley to open; and if he will make a statement. [174041]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to my hon. Friend.

Letter from David Anderson to Mr. Peter Pike, dated 18 May 2004:

The Secretary of State has asked me to reply to your question concerning when the new Jobcentre Plus office in Burnley will open. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus has been established to deliver a radical change in the way that benefits and employment services are provided to people of working age. By 2006, we plan to introduce a network of around 1,000 fully integrated Jobcentre Plus offices.

Through the development of these new modern offices, Jobcentre Plus will provide an integrated, work-focused service to all people of working age. The introduction of work-focused interviews is extending the opportunity to more people to take advantage of the help, guidance and support we can provide to assist them to move into sustainable employment. We are also

introducing new services for employers, which will help them fill vacancies more quickly with well-prepared and motivated employees.

I am pleased to tell you that the Jobcentre Plus Investment Board met on 12 May and funding has been secured for the new Jobcentre Plus office in Burnley. Subject to planning permission for the new office and intrusive site survey results being satisfactory, we expect to proceed with a new building on the Town Hall car park site and have completion by Spring 2006, assuming there are no unforeseen technical problems. This office will deliver all the Jobcentre Plus face to face services and we will retain the Social Security office at Brun House as a Benefit Processing Centre.

I have asked the Jobcentre Plus District Manager for East Lancashire to keep you informed of developments.

I hope this is helpful.

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions for what reason 960 business square metres is sought for a new Shanklin Jobcentre Plus office; and what the area is in business square metres of Ryde and Newport Jobcentre Plus office. [174341]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Andrew Turner, dated 18 May 2004:

The Secretary of State for Work and Pensions has asked me to reply direct to your question concerning the business square metres sought for the new Jobcentre Plus office in Shanklin and the number of business square metres of the Jobcentre Plus offices in Ryde and Newport. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

To maximise the possibility of maintaining an office in Shanklin two options were examined. An initial search was made for 960 square metres of business space to accommodate other business together with a Jobcentre Plus outlet. This was subsequently reviewed and 450 square metres sought for an outlet only.

Ryde Jobcentre Plus outlet is 351 business square metres. Newport Jobcentre Plus outlet is co located with other parts of our business on a large site. The area used for the Jobcentre Plus is approximately 850 business square metres.

I hope this is helpful.

Pensioner Poverty

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many pensioners his Department estimates have been living in persistent poverty in each of the last seven years. [172005]

Mr. Pond: The Department for Work and Pension's strategy report 'Opportunity for all' (OFA) reports on persistent poverty, and provides results for individuals with an equivalised income below 60 per cent. of the median for at least three out of four successive years. A time series showing the proportion of pensioners in persistent poverty using this definition is presented in the following table:

Proportion below 60 per cent. of median income in at least 3 out of 4 years

	Percentage of pensioners
1992 to 1995	16
1993 to 1996	16
1994 to 1997	17
1995 to 1998	17
1996 to 1999	18
1997 to 2000	17
1998 to 2001	18

Notes:

1. *Source:* British Household Panel Survey (BHPS), which is carried out by the Institute for Social and Economic Research (ISER) UK Longitudinal Studies Centre at the University of Essex.
2. The latest date for which BHPS data are available is the calendar year 2001. Figures for the calendar year 2002 will be published in the second half of 2004.
3. Persistent poverty using this definition is measured over four-year periods. The table presents figures for the most recent seven four-year periods.
4. Estimates are for Great Britain.
5. The definition used in the answer is used in the Government's Opportunity for all report (Cm 5956), which is available in the Library. This gives indicators of persistent low income for children, working age adults and older people using both 60 and 70 per cent. of overall median income as the thresholds for low income.
6. Using four-year windows to estimate the proportion in persistent low income, and the way in which response patterns vary within each of the survey years, has meant that it is not possible to present robust estimates of the numbers in persistent poverty using the BHPS survey. For this reason, proportions have been presented.

Sure Start

Mr. Pickthall: To ask the Secretary of State for Work and Pensions how many mothers in West Lancashire have taken up the Sure Start maternity grant. [171724]

Mr. Pond: The information is not available in the format requested, the available information is in the tables.

Sure Start maternity grants for South West Lancashire Social Fund District

	Applications	*Awards*
2000–01	1,184	1,071
2001–02	1,259	1,143
2002–03	1,592	1,320
2003 April	126	86

Sure Start maternity grants for the area covered by Lancashire West Jobcentre Plus District

	2003 May to March
Applications	4,866
Awards	3,710

Notes:

1. In May 2003, part of South West Lancashire Social Fund District was combined with Blackpool and Preston Social Fund Districts and part of Lancaster and South Cumbria Social Fund District to form Lancashire West Jobcentre Plus District. West Lancashire Parliamentary Constituency is now in Lancashire West Jobcentre Plus District. The two areas for which data is given in the table are thus different, and the data is not comparable.
2. There were no cases for 1999–2000.
3. Data is given for all applications and awards, irrespective of whether the application was made by the mother or her partner.

Source:

DWP Social Fund Policy, Budget and Management Information System.

Mr. Gordon Marsden: To ask the Secretary of State for Work and Pensions how many mothers in Blackpool, South have received the Sure Start maternity grant. [173061]

Mr. Pond: The information is not available in the format requested. The available information is in the tables.

Sure Start maternity grants for Blackpool Social Fund District

	Applications	*Awards*
2000–01	1,269	1,027
2001–02	1,359	1,173
2002–03	1,650	1,391
2003 April	143	109

Sure Start maternity grants for area covered by Lancashire West Jobcentre Plus District

	Applications	*Awards*
2003 May to March	4,866	3,710
2004 April	402	294

Notes:
1. Data are not available by parliamentary constituency.
2. Blackpool South parliamentary constituency used to be part of Blackpool Social Fund District. This District was involved in a very complex interlocking set of boundary changes affecting an area from North Cumbria to Norfolk, which took place from September 2002 to June 2003. In May 2003, Blackpool Social Fund District was combined with Preston Social Fund District and parts of South West Lancashire, and Lancaster and South Cumbria Social Fund Districts to form Lancashire West Jobcentre Plus District. The two areas for which data are given in the table are thus different, so the data is not comparable.
3. Sure Start maternity grants were introduced on 27 March 2000. The very small number of cases for 1999–2000 has been excluded for data protection reasons.
4. Data is given for all applications and awards, irrespective of whether the application was made by the mother or her partner.
Source:
DWP Social Fund Policy, Budget and Management Information System.

Verification Framework

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will place in the Library a list of the local authorities *(a)* not complying, *(b)* partially complying and *(c)* fully complying with the verification framework for the most recent year available. [172981]

Mr. Pond *[holding answer 13 May 2004]:* The information has been placed in the Library.

MINISTER FOR WOMEN

Breastfeeding

Mr. Kidney: To ask the Minister for Women what entitlement there is for women in work to take breaks for breastfeeding; and if she will make a statement. [173955]

Ms Hewitt: The law requires employers to give breastfeeding women a place to rest and every employer must ensure that when an employee notifies that she is breastfeeding she or her child are not exposed to any risks from the work activity as long as she continues to breastfeed. HSE publishes comprehensive guidance on how employers can meet their legal requirements on their website: www.hse.gov.uk/mothers.

The Government believes that arrangements for when breaks should be taken for breastfeeding should be a matter for agreement between employers and employees as it would be difficult to design a regulatory provision that would be workable across different sectors. We would always encourage employers and employees to work together to find arrangements which will best balance the needs of the mother and the business.

TREASURY

Death Certificates

Albert Owen: To ask the Chancellor of the Exchequer whether it is a requirement that the cause of death be printed on death certificates in England and Wales. [174072]

Ruth Kelly: The information requested falls within the responsibility of the General Registrar for England and Wales, who has been asked to reply.

Letter from Len Cook to Mr. Albert Owen, dated 18 May 2004:

As National Statistician and Registrar General for England and Wales, I have been asked to reply to your recent question concerning whether it is now a requirement for the cause of death to be printed on death certificates in England and Wales. (174072)

Currently a certified copy of an entry in a death register must contain all the information in the entry, including the cause of death.

However, in January 2002 the Government published a White Paper "Civil Registration: Vital Change" (Cm 5355) containing proposals for the reform of the civil registration service in England and Wales. One of the proposals is in addition to providing a full death certificate, to make available a shortened form that omits the cause of death. It is intended that the White Paper proposals are taken forward by means of an order under the Regulatory Reform Act 2001. A draft order is currently being prepared for laying before Parliament.

Birth Registrations

Harry Cohen: To ask the Chancellor of the Exchequer what reports he has received on delays, for administrative reasons, in the registration of births; what the latest average time *(a)* in London and *(b)* in the UK for a birth being registered is; and if he will make a statement. [174181]

Ruth Kelly: The information requested falls within the responsibility of the Registrar General, who has been asked to reply.

Letter from Len Cook to Mr. Harry Cohen, dated 18 May 2004:

As National Statistician and Registrar General for England and Wales, I have been asked to reply to your recent question concerning the average time taken in *(a)* London and *(b)* the UK to register a birth. (174181)

The General Register Office does not routinely collect information on administrative delays to birth registration. Responsibility for delivering the civil registration service in England and Wales is split between each of the 172 local authorities and the Registrar General for England and Wales.

Complaints about administrative delays would be referred to the Proper Officer for Registration Matters appointed by each local authority with responsibility for delivery of registration services.

The length of the interval between birth and registration may be influenced by parental choice or circumstances. For example, the interval may be longer than it would otherwise have been if the father is not immediately available to attend the register office along with the mother, or if the parents are undecided on the child's name. If parents express concern about a delay in the registration because of non-availability of a registrar, that concern would be addressed by the local authority.

A fundamental review of civil registration is being undertaken currently which, if the necessary changes in law are implemented, will extend the means available to the public for registering events. In addition to the existing face-to-face interview with the registrar, it is proposed to introduce the facility for telephone and internet registration. Reforms are being introduced by means of an Order under the Regulatory Reform Act. An Order is due to be presented later this session.

The average interval between occurrence and registration of births to women usually resident in London was 24.1 days in 2003. The equivalent figure for England and Wales was 17.9 days. Civil registration is a devolved matter in Northern Ireland and Scotland, and further information is available from the General Register Offices of these countries.

Budget Information (Costs)

Mr. Jenkin: To ask the Chancellor of the Exchequer if he will list the *(a)* design costs, *(b)* production costs, *(c)* distribution costs, *(d)* number of staff involved in production and distribution and *(e)* total number produced of the 'What Budget 2004 means for' leaflets for each of the regions and nations of the United Kingdom. [174273]

Ruth Kelly: The 'What Budget 2004 means for . . .' leaflets were produced as part of the wider Budget process within normal staffing duties. The costs of design, production and distribution were met within Departmental Expenditure Limits and amounted to approximately £3,930. 1,500 leaflets were produced for each of the regions and nations of the United Kingdom, that is 18,000 in total.

Budget Report

Mr. Jenkin: To ask the Chancellor of the Exchequer if he will estimate the amount raised by each of the revenue categories listed in Table C8 of Chapter C in the 2004 Financial Statement and Budget Report in each of the English regions in each year since 1997. [174274]

Dawn Primarolo: A regional breakdown of all the revenue categories listed in Table C8 of Chapter C in the 2004 Financial Statement and Budget Report is not available. However, estimates of income tax liabilities and stamp duty from residential property transactions by region are available on the Inland Revenue website at http://www.inlandrevenue.gov.uk/stats/income_distribution/menu-by-year.htm#313 and http://www.inlandrevenue.gov.uk/stats/stamp_duty/03IR152.pdf respectively.

Child Benefit

Mr. Frank Field: To ask the Chancellor of the Exchequer how long he requires that it takes to transfer child benefit from parents to grandparents when they become the main carer and beneficiary. [172327]

Dawn Primarolo: Our published target for clearance of all claims for child benefit for 2004–05 was 93 per cent. within 36 working days.

Child Tax Credit

Mr. Burstow: To ask the Chancellor of the Exchequer how many child tax credit calculations have resulted in underpayment as a result of computer problems which lead to an incorrect assessment of income; how many people have been affected by such errors; how much has been underpaid as a result; and what steps have been taken to *(a)* explain and *(b)* apologise to those affected. [164616]

Dawn Primarolo: The Inland Revenue is not aware of any such issues causing underpayment of child tax credit. The income element of the entitlement calculation is based on figures supplied by the claimant rather than an assessment by the Inland Revenue. The Inland Revenue will be pleased to look into any individual cases where people consider that they have been underpaid tax credits in such circumstances.

Computer File Formats

Mr. Allan: To ask the Chancellor of the Exchequer what his Department's policy is in respect of the computer file formats used for the *(a)* distribution and *(b)* archiving of publicly available documents. [173363]

Ruth Kelly: The information is as follows:

(a) Distribution

The use of PDF is common to all the main Chancellor's Departments (Office of National Statistics, HM Treasury, HM Customs and Excise and Inland Revenue), along with Microsoft Office applications (typically Word or Excel) though these formats can vary depending on the content of the file. ONS differs from the others in that its internal document management is based on the use of the IBM/Lotus Notes e- mail and collaboration suite and also the Microsoft Office suite. The Departments' individual websites all use HTML, although other applications are also used.

(b) Archiving

There is no common policy for archiving documents among the four Departments, although each has its own system in place to ensure information is captured. ONS uses an approved Electronic Records Management System; HMCE currently archives material in PDF format but for the future is looking at the use of XML; IR use a Content Management System to archive its internet published documents and the Treasury uses a records management system to store documents.

Council Tax

Peter Bottomley: To ask the Chancellor of the Exchequer how many households headed by a person of pensionable age were estimated to be paying more in council tax than income tax in *(a)* 1997 and *(b)* the most recent year for which figures are available. [171712]

Ruth Kelly: Recent figures show that there were 5.2 million households in 2002–03 who paid more net council tax than income tax; in 1997–98 there were 4.8 million. The majority of these are pensioner

households 65 per cent. of whom pay no income tax or only pay income tax at 10 per cent., and all of whom benefit from higher age related income tax allowances. The Government have increased the aged personal allowances by at least 7.7 per cent. in real terms since 1997. No pensioner aged 65 or over will pay income tax on income of less that £131 a week in 2004–05.

Council tax benefit (CTB) exists to help those on low incomes with their council tax bills. However, many of those eligible for CTB do not claim their entitlement. The Government have therefore been running a campaign alongside local councils to boost take-up. A tailored claim form has been introduced for pensioners; the restriction on the amount of CTB for those people living in Band F, G or H properties was removed in April 2004.

Council tax consumes a greater proportion of the incomes of older pensioners—who have little or no opportunity to increase their incomes—than it does for other households. Alongside CTB the Government believe it is right to help older pensioners with their council tax so that pensioner households with someone aged over 70 will this year receive a £100 payment to help with their council tax bills. This is in addition to the winter fuel payment of £200 for all over 60s households, £300 for over 80s households. Furthermore the Government have introduced the pension credit, increased the basic state pension by the higher of 2.5 per cent. or price inflation, introduced free TV licences for households with someone aged over 75 or over—and the free eye test, free prescriptions and concessionary travel for those aged over 60.

Economic Inactivity

Mr. Cousins: To ask the Chancellor of the Exchequer pursuant to the answer to the hon. Member for Havant (Mr. Willetts) of 26 April 2004, *Official Report*, column 746W, if he will break down the figures by region, giving *(a)* total numbers and *(b)* percentages of the total in each case. [173310]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Jim Cousins, dated 18 May 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (173310)

I am placing in the House of Commons Library a table giving estimates of the number and the percentage of men aged 50 to 64 years and women aged 50 to 59 years not in employment for each region. This table covers the three month periods ending February each year from 1998 to 2004, the most recent year for which this information is available.

Estimates are taken from the Office for National Statistics' Labour Force Survey (LFS). As with any statistical sample survey, estimates from the LFS are subject to sampling variability.

Financial Services Authority

Mr. Drew: To ask the Chancellor of the Exchequer what charges the Financial Services Authority will *(a)* incur and *(b)* charge following the introduction of the Insurance Mediation Directive. [173761]

Ruth Kelly: The Financial Services and Markets Act 2000 requires the FSA to publish a cost-benefit analysis of its proposed rules and guidance, which includes the direct costs to the FSA incurred as a result of introducing and implementing the proposals. The FSA has published a cost-benefit analysis in each of its consultation papers, which are available from the website, www.fsa.gov.uk.

The fees charged are a matter for the FSA. Application fees for insurance intermediaries have been set following consultation with the industry and are based on the volume of business undertaken. Up to 50 per cent. discount is offered for an early application together with further discount if the application is made electronically. Smaller intermediaries seeking authorisation could pay a fee of only £500 if they take advantage of the early application deadline of 31 May 2004. If a firm is already authorised by the FSA for other regulated activities, the application fee it would pay for IMD activities is halved. The periodic annual fee which will be charged by the FSA for ongoing supervision of authorised intermediaries following the commencement of regulation has not yet been set and will be the subject of a forthcoming consultation this summer, but the FSA has indicated that the minimum periodic fee for a full year of mortgage/general insurance regulation will be in the region of £750.

ICT Training

Mr. Simon: To ask the Chancellor of the Exchequer what his targets are for improving the information and communication technology (ICT) skills base of staff within *(a)* his Department and *(b)* its agencies; and what method he uses to certify the competence levels achieved by staff receiving training in ICT. [173714]

Ruth Kelly: In the departments and agencies responsible to the Chancellor of the Exchequer each individual's ICT expertise is developed in accordance with the role requirement. This is assessed by each organisation's performance management process and personal targets are set and monitored.

Income Tax

Harry Cohen: To ask the Chancellor of the Exchequer how many senior citizens in *(a)* Leyton and Wanstead constituency, *(b)* the London borough of Redbridge area and *(c)* the London borough of Waltham Forest area qualified for the 10p rate of income tax in each year since its introduction. [174187]

Dawn Primarolo: The requested information is given in the following table.

Number of pensioner taxpayers

Number: Thousand

	2000–01	*2001–02*
(a) Leyton and Wanstead constituency	—	4
(b) London Borough of Redbridge	15	19
(c) London Borough of Waltham Forest	14	12

All income taxpayers benefit from the 10p starting rate. In the Survey of Personal Incomes the sample size of pensioners living in Leyton and Wanstead

constituency is relatively small compared to other constituencies so a reliable estimate cannot be given for 2000–01. All estimates should be treated with caution because of sampling variation. Estimates are based on the 2000–01 and 2001–02 Survey of Personal Incomes. Figures for 1999–2000 are currently not available.

Iraq

Mr. Dobson: To ask the Chancellor of the Exchequer what the cost was of *(a)* preparations for the invasion of Iraq, *(b)* the invasion itself and *(c)* the subsequent occupation in (i) 2002–03 and (ii) 2003–04; and what the estimate of costs is for (A) this financial year and (B) each subsequent financial year. [174156]

Tom Cox: To ask the Chancellor of the Exchequer what the cost of the United Kingdom's involvement in Iraq has been since the commencement of military operations. [174352]

Mr. Boateng: The Chancellor set aside £3 billion in Budget 2003 as a Special Reserve to cover the cost of operations in Iraq, £1 billion was drawn down by the Ministry of Defence in the Spring Supplementary Estimate for 2002–03.

The remaining £2 billion of this Special Reserve was carried forward to 2003–04. The Ministry of Defence drew down £1,539 million in the 2003–04 Winter and Spring Supplementary Estimates.

In the PER 2003 the Chancellor announced a further £500 million for the Special Reserve in the financial year 2003–04 and a further £300 million for 2004–05 as a prudent allowance to cover Iraq and our continuing international commitment to the war on terrorism.

Labour Statistics (London)

Simon Hughes: To ask the Chancellor of the Exchequer (1) what the *(a)* change and *(b)* percentage change was in full-time permanent jobs in Greater London, broken down by borough, from 1997 to 31 December 2003; [173248]

(2) how many new jobs have been created in London, broken down by borough, since 1997. [173249]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Colin Mowl to Mr. Simon Hughes, dated May 2004:

The National Statistician has been asked to reply to your Parliamentary Questions about full-time jobs and jobs created in Greater London. I am replying in his absence. (173248,173249)

While statistics of jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes in numbers of jobs from year to year.

The attached table shows the information requested, relating to all jobs and full-time jobs in Greater London, by borough, for 1997 and 2002, which is the latest year for which figures are available.

Information is not available about whether the jobs were permanent.

Total number of employee jobs [1] and net change in employee jobs for 1997 and 2002
Greater London, by borough

Thousand

	1997		2002

[1] Employee jobs only, not self-employed jobs.
Sources:
1997: Annual Employment Survey (rescaled).
2002: Annual Business Inquiry (ABI)

Local Education Partnerships

Mr. Hoban: To ask the Chancellor of the Exchequer what the VAT status is of supplies made to local education partnerships. [173138]

John Healey: The VAT status of the supplies made to local education partnerships will depend on the nature of those supplies of goods and services, which may be standard-rated, reduced-rated, zero-rated or exempt for VAT purposes.

The Government are currently consulting on the precise structure of local education partnerships but, to the extent that they undertake business activities, they will, in the normal way, be able to recover any VAT they incur on purchases that relate to their taxable business activities.

Oil Prices

Dr. Cable: To ask the Chancellor of the Exchequer what estimate he has made of the impact on the economy of an increase in the price of oil of $10 a barrel above base case assumptions lasting for a year with particular reference to *(a)* GDP growth, *(b)* export growth, *(c)* inflation, *(d)* unemployment and *(e)* the fiscal deficit. [174109]

Ruth Kelly: Such effects were discussed in Box A3 of pre-Budget report 2000 (page 153, Cm 4917).

Private Finance Initiative

Mr. Reed: To ask the Chancellor of the Exchequer what assessment he has made of the effects of *(a)* lowering the minimum threshold for private finance initiatives (PFI) projects below £20 million in the case of sport and leisure facilities and *(b)* increasing PFI credits to the Department for Culture, Media and Sport in order to enable more PFI projects for sport and leisure facilities. [174053]

Mr. Boateng: The Treasury is currently in consultation with the Department for Culture, Media and Sport regarding the allocation of PFI credits and the establishment of an appropriate minimum threshold for PFI projects. Final decisions will be made as part of the Spending Review 2004 process.

Population Growth

Tony Wright: To ask the Chancellor of the Exchequer what the latest projection of UK population growth up to 2050 is. [174350]

Ruth Kelly: The estimated population of the United Kingdom at the middle of 2002 (the latest date available) is 59.232 million. According to the Government Actuary's 2002-based projections, it is projected to increase to 65.454 million by 2050, an increase of 6.2 million (10.5 per cent).

Sealskin

Mr. Hancock: To ask the Chancellor of the Exchequer how many instances of the *(a)* import and *(b)* export of (i) whitecoat and (ii) blueback sealskin and sealskin apparel, in contravention of the EU trade embargo have been discovered in each of the last three years in (A) the UK and (B) the remainder of the EU. [173213]

John Healey: I refer the hon. Gentleman to the answer I gave him on 4 May 2004, *Official Report*, column 484W.

HM Customs and Excise have not made any seizures relating to the import or export of whitecoat or blueback sealskin or apparel in contravention of EU Directive 83/129 in the last three years. Customs' central records do not include information about other member states' imports or exports.

Tax Credits

Mr. Webb: To ask the Chancellor of the Exchequer (1) how many child and working tax credit appeals against awards have been *(a)* lodged and *(b)* heard; and how many of the appeals were found in (i) favour of the appellant and (ii) against the appellant in each of the last 12 months; [172949]

(2) what the average waiting time was from receipt of the appeal, for a child and working tax credit appeal to be heard, in each of the last 12 months. [172950]

Dawn Primarolo: Up to the end of April 2004 Inland Revenue submitted to the Appeals Service about 1,300 written appeals against tax credit decisions.

I understand from the Appeals Service that about 265 appeals had been heard by a tribunal by the end of March 2003. Others appeals were settled without a tribunal hearing, were withdrawn, struck out, not accepted as duly made or were outstanding.

The number of appeals heard by tribunals in each month to March 2004 are as follows:

Month	*Number of appeals heard by tribunals*[1]
June 2003	5
July 2003	15
August 2003	15
September 2003	15
October 2003	15

Month	Number of appeals heard by tribunals[1]
November 2003	15
December 2003	15
January 2004	35
February 2004	60
March 2004	75
Total to March 2004	265

[1] Rounded to the nearest 5 cases.

About 10 of these cases were found in favour of the appellant.

For cases going to tribunal hearing, the estimated average time between submission to the Appeals Service and the hearing is about 11 weeks.

Unemployment (Oldham, West and Royton)

Mr. Meacher: To ask the Chancellor of the Exchequer what the level of unemployment was in Oldham and West Royton in each year since 1997. [170902]

Ruth Kelly: I refer my right hon. Friend to the answer I gave to him on 6 May 2004, *Official Report*, column 1737W.

TRADE AND INDUSTRY

Community Radio Stations

Mr. Wyatt: To ask the Secretary of State for Trade and Industry for what reason community radio stations have to pay for music rights for both a radio and a restricted services licence. [171382]

Ms Hewitt: Copyright provides creators and producers of music and sound recordings with a range of rights to control exploitation of their material. This may include any communication to the public, such as in radio broadcasts delivered to any audience, either as a restricted service or otherwise; and by any technical means. The rights granted to copyright owners encourage and reward creativity and investment in the production of more copyright material for the benefit of us all. They are, moreover, necessary to comply with EC law, and are also generally required by international conventions under which UK copyright material is protected in other countries.

Advisers/Consultants

Bob Spink: To ask the Secretary of State for Trade and Industry how much her Department and its agencies and non-departmental public bodies spent on external consultants and advisers in each of the last three years. [171875]

Ms Hewitt: The record expenditure for the Department, including the Small Business Service, on consultancy was as follows.

	£ million
2001–02	55
2002–03	52

Due to a change in the Department's accounting system during 2003–04, consistent information for that year could be obtained only at disproportionate cost, as would information on our many NDPBs.

I have asked the Chief Executive of the Executive agencies to respond directly to the hon. Member.

Letter from Roger Heathcote to Bob Spink, dated 18 May 2004:

You asked the Secretary of State for Trade and Industry, how much her Department and its agencies and non-departmental public bodies spent on external consultants and advisers in each of the last three years. I have been asked to reply on behalf of the Employment Tribunals Service.

The Employment Tribunals Service has spent the following amounts on external consultants and advisers in each of the last three years:

	£
2001–02	119,255
2002–03	457,757
2003–04	441,838

Letter from Claire Clancy to Bob Spink, dated 18 May 2004:

I am responding to your recent Parliamentary Question to the Secretary of State for Trade and Industry on behalf of Companies House, which is an Executive Agency of the DTI.

Expenditure on external consultants and advisers in each of the last three years was as follows:

	£
2001–02	2,496,317
2002–03	3,700,207
2003–04	3,609,492

Letter from Desmond Flynn to Bob Spink, dated 18 May 2004:

The Secretary of State for Trade and Industry has asked me to reply directly on behalf of The Insolvency Service in respect to your question (2003/2900) asking how much money has been spent on external consultants and advisers in each of the last three years.

The Insolvency Service Executive Agency of the Department of Trade and Industry spent the following amounts on external consultants and advisors in the last three years:

	£
2001–02	Nil
2002–03	Nil
2003–04	34

The £34,000 spent in 2003/04 was broken down to £18,000 on a Race Equality Impact Study and £16,000 on our Help Line.

Letter from Dr. J W Llewellyn to Bob Spink, dated 18 May 2004:

The Secretary of State for Trade & Industry has asked me to reply on behalf of the National Weights & Measures Laboratory (NWML) to your question regarding the total amounts spent on external Consultants and Advisers in each of the last three years.

Please see the total amount spent per year as listed below:

	£
2001–02	80,290
2002–03	71,010
2003–04	68,119

Letter from Ron Marchant to Bob Spink, dated 18 May 2004:

I am replying to this parliamentary question, tabled on 6 May 2004, concerning how much the Department and its agencies and non-departmental public bodies spent on external consultants and advisers in each of the last three years.

The Patent Office response is:

	£
2001–02	53,000
2002–03	69,000
2003–04	32,000

Animal Rights Activists

Michael Fabricant: To ask the Secretary of State for Trade and Industry when she last met the Home Secretary to discuss the effect on inward investment in the pharmaceutical research industry of the activities of animal rights activists; and if she will make a statement. [168983]

Ms Hewitt: Government is determined that companies and other organisations should not be prevented from carrying out their legitimate activities by intimidation and harassment from animal rights extremists. Ministers and officials from the DTI have frequent meetings with colleagues in the Home Office, and in other Government Departments, to discuss the impact of animal rights extremism on biomedical research in the UK, including the pharmaceutical industry.

We have made a number of changes to strengthen the law to deal with extremists. The Anti-Social Behaviour Act 2003 strengthened police powers to deal with smaller, intimidatory protests and office occupations by extremists. Government has funded a new police unit to provide tactical guidance on policing extremists. A National Forum on policing and prosecution of animal rights cases has been set up to work on improving both operational policing and legislative measures. We are also considering as a matter of urgency what further legislation may be necessary.

Miners' Compensation

Huw Irranca-Davies: To ask the Secretary of State for Trade and Industry what estimate she has made of the total deductions made from chronic obstructive pulmonary disease compensation payments by *(a)* solicitors, *(b)* call farming agents and *(c)* the National Association of Colliery Overmen, Deputies and Shotfirers South Wales. [173026]

Nigel Griffiths *[holding answer 13 May 2004]:* I regret that such information is not required to be submitted by claimants' representatives to Government.

Huw Irranca-Davies: To ask the Secretary of State for Trade and Industry what level of compliance with the recent Law Society guidance on repayment of deductions from chronic obstructive pulmonary disease compensation payments has been achieved. [173028]

John Mann: To ask the Secretary of State for Trade and Industry how many instances have been *(a)* notified to the Department and *(b)* identified by the Department of claims under the Coalminers Compensation Scheme whch have required additional costs outwith those paid by the Department under the claims handling agreement. [172983]

Nigel Griffiths *[holding answer 13 May 2004]:* The Department has been advised by the Law Society that they have received 182 complaints in relation to claims by former miners and their families. Of these 98 have now been closed resulting in nearly £14,000 being repaid to claimants.

John Mann: To ask the Secretary of State for Trade and Industry how many claims handling agreements there are under the Coalminers Compensation Scheme; on what dates they were signed; and by whom. [172982]

Nigel Griffiths *[holding answer 13 May 2004]:* I refer my hon. Friend to the reply I gave him on 10 May, *Official Report*, column 77W.

Combined Heat and Power

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry when she last visited a combined heat and power station. [171032]

Ms Hewitt *[holding answer 5 May 2004]:* Government Ministers and officials meet regularly with the Combined Heat and Power Association and members of the industry, and have visited a number of CHP schemes.

Employment Agencies

Mr. Carmichael: To ask the Secretary of State for Trade and Industry what plans her Department has to *(a)* license UK employment agencies and *(b)* implement the EU Temporary Agency Workers Directive. [172442]

Mr. Sutcliffe: *(a)* The DTI has no plans to reintroduce licensing arrangements for the private recruitment industry and there is no general support for such a proposal. Licensing schemes, particularly those where a fee is demanded, are burdensome for business and that burden falls especially heavily on small enterprises: The licensing arrangements required by the Employment Agencies Act 1973, which were repealed in 1995 proved not to be effective and were replaced by a new power, introduced under the 1973 Act, to prohibit unsuitable persons from running employment agencies and employment businesses for up to 10 years. The Government does not hesitate to make use of this power where this is warranted.

(b) The proposed Temporary Agency Worker Directive is still under negotiation in the Council of Ministers, though no formal discussions have taken place since the June 2003 Employment Council. From the point where final agreement is achieved on the proposal, implementation is likely to take two to three years.

Mr. Carmichael: To ask the Secretary of State for Trade and Industry what steps her Department is taking to prevent employment agencies from levying upfront charges for finding work for clients. [172446]

Mr. Sutcliffe: The Government recently introduced the Conduct of Employment Agencies and Employment Businesses Regulations 2003. These include a new requirement that an employment agency can only charge a fee, for providing work-finding services for people in certain occupations in the entertainment, modelling and sports sectors, out of the work-seekers' earnings in any such employment that the agency has found for them. This requirement has outlawed the practice of unscrupulous agencies, which took money from workers in the entertainment and modelling sectors but offered little or no work.

In addition, the DTI's Employment Agency Standards Inspectorate follows up every complaint it receives concerning breaches of the Employment Agencies legislation by visiting the agencies' premises to inspect their records. On top of this, the Inspectorate undertakes proactive spot checks and follows up evidence passed to it by other enforcement bodies.

Employment Rights

Malcolm Bruce: To ask the Secretary of State for Trade and Industry pursuant to her answer of 5 May 2004, *Official Report*, column 1635W, on employment rights advice booklets, which organisations were present at the practitioner group meeting of 19 June 2003. [172913]

Mr. Sutcliffe: The following organisations attended:

Commission for Racial Equality

British Retail Consortium

Maternity Alliance

Engineering Employers Federation

Equal Opportunities Commission

Advice, Conciliation and Arbitration Service (Acas)

Pattinson Brewer

West Midlands Employment and Low Pay Unit

Small Business Service

European Research Council

Bob Spink: To ask the Secretary of State for Trade and Industry (1) what the aims and objectives are of the proposed European Research Council; and what areas of competence it will have; [173640]

(2) from which budget the costs of the proposed European Research Council (ERC) will be met; and to what purpose those funds would be put were the ERC not to be established; [173641]

(3) what the proposed *(a)* reporting structures and *(b)* organisational controls are for the proposed European Research Council; [173642]

(4) when she expects a decision to be made on *(a)* the creation of a European Research Council (ERC) and *(b)* the UK participation in the ERC; and if she will make a statement; [173643]

(5) what the *(a)* total cost and *(b)* UK contribution to the proposed European Research Council will be; [173644]

(6) which *(a)* people and *(b)* organisations are involved in assessing the implications of the UK's membership of the European Research Council; [173645]

(7) what co-ordination is envisaged between the UK research councils and the proposed European Research Council; [173646]

(8) in what areas of research the European Research Council will be involved. [173885]

Ms Hewitt: The possible establishment of a European Research Council is still at an early stage, and no proposal has yet been made by the European Commission. The Government are currently consulting about the matter as part of their overall consultation on Framework Programme 7. A copy has been placed in the Libraries of the House.

Export Licensing

Llew Smith: To ask the Secretary of State for Trade and Industry if she will make a statement on the operation of the *(a)* Joined-up and more Efficient Working on Export Licensing (JEWEL) and *(b)* SCOPE programmes. [170988]

Nigel Griffiths: The JEWEL review was completed at the end of 2003. The recommendations of the review, now being implemented, included, among other things:

a joint mission statement "promoting global security through strategic export controls, facilitating responsible exports", together with guiding principles which focus on transparency and customer service, securing a common agenda across all Government Departments;

a series of measures to improve the guidance and training for exporters in completing licence applications;

a new published performance target to process 95 per cent. of all standard-type licence applications within 60 working days. This will sit alongside the current target of processing 70 per cent. of applications within 20 working days. The average time taken to process licences which have taken more than 20 days will be published;

a new joint-working procedure across Government Departments; and as far as is practicable, common IT systems between the Departments involved in the licensing process.

As regards *(b)*, the operation of SCOPE, lead responsibility for this project rests with my hon. Friend, the Minister for the Cabinet Office.

National Minimum Wage

Mr. Wareing: To ask the Secretary of State for Trade and Industry how many workers in Liverpool, West Derby have benefited from the national minimum wage. [173663]

Mr. Sutcliffe: It is not possible to provide estimates specifically for the constituency of Liverpool, West Derby. However, based on the Office for National Statistics Low Pay data released in 2003, the DTI estimates that around 140,000 people in the north west stood to benefit from the introduction of the national minimum wage in April 1999. Between 130,000 and 160,000 people were expected to have benefited from the October 2003 uprating of the national minimum wage.

Mr. Gordon Marsden: To ask the Secretary of State for Trade and Industry how many workers in Blackpool, South have benefited from the national minimum wage. [173064]

Mr. Sutcliffe: It is not possible to provide estimates specifically for the constituency of Blackpool South. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the National Minimum Wage in April 1999. Between 130,000 and 160,000 people were expected to have benefited from the October 2003 uprating of the National Minimum Wage.

Science Funding

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what the *(a)* mechanism and *(b)* criteria are for the allocation of the departmental science programme funds; and who in the Department is responsible for allocating the funds. [172096]

Ms Hewitt: Details of the allocation of the department's present Science Budget are set out in the publication "Science Budget 2003–04 to 2005–06" published in December 2002, a copy of which is available in the Libraries of the House.

The publication sets out the objectives of the Science Budget and the drivers for the allocation of funds.

Allocations are approved by me on the advice of the Director General of the Research Councils.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry if she will break down by budget heading the expenditure of the departmental science programmes in *(a)* 2002–03 and *(b)* 2003–04. [172098]

Ms Hewitt: The information is as follows.

(a) Actual expenditure for 2002–03 from the Science Budget was as follows:

£000

	2002–03 Resource	*Capital*	*Total*
MRC[1]	340,867	19,589	360,456
BBSRC[2]	249,953	2,676	252,629
NERC[3]	224,006	17,907	241,913
EPSRC[4]	507,019	3,407	510,426
PPARC[5]	246,231	2,755	248,986

CCLRC[7]	23,168	19,414	42,582
Research Councils Pension Scheme	28,450	—	28,450
Royal Society	28,783	—	28,783
Royal Academy of Engineering	4,770	—	4,770
SRIF[8]	190,402	—	190,402
Diamond Synchrotron	489	14,366	14,855
Higher Education Innovation Fund	22,791	—	22,791
PSRE Fund[9]	4,977	—	4,977
CMI	10,705	—	10,705
Other[10]	34,455	—	34,455
Total	1,994,802	80,296	2,075,098

[1] Medical Research Council
[2] Biotechnology and Biological Sciences Research Council
[3] National Environmental Research Council
[4] Engineering and Physical Sciences Research Council
[5] Particle Physics and Astronomy Research Council
[6] Economic and Social Science Research Council
[7] Council for the Central Laboratory of the Research Councils
[8] Science Research Investment Fund
[9] Public Sector Research Establishment
[10] Includes expenditure on nuclear fusion and residual expenditure on closed schemes.

Notes:
1. Expenditure includes funding brought forward from previous years, under "End-year Flexibility" arrangements. In addition, some Research Councils were given transfers from central budgets.
2. Abbreviations used are as follows.

(b) The actual expenditure figures for 2003–04 are yet to be finalised and audited.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what the resource budget for the departmental science programmes *(a)* was for each year since 1995 and *(b)* is for 2004–05; and if she will make a statement. [172099]

Ms Hewitt: Resource budgets were first introduced in 2001–02, and information on a comparable basis is not available prior to that date. The budgets for 2001–02 to 2004–05 are as follows:

£000

	2001–02	*2002–03*	*2003–04*	*2004–05*
MRC[1]	389,887	416,097	429,875	458,080

[1] Includes unallocated provision and contingency
Notes:
1. Figures include resource and capital budgets.
2. Abbreviations used are as follows.

Workers' Rights (South Ribble)

Mr. Borrow: To ask the Secretary of State for Trade and Industry if she will make a statement on the benefits of the EU Social Chapter for the residents of South Ribble. [172137]

Mr. Sutcliffe: The residents of South Ribble have benefited from the EU Social Chapter by having their employment rights extended to include:

the right to Parental Leave which gives parents the right to 13 weeks unpaid leave at the birth or adoption of a child;

the entitlement of part-time workers to the same pro-rata terms and conditions of employment as full time workers, thereby removing any discrimination and improving the quality of part-time jobs;

the provision that once a prima facie case has been made in an employment tribunal claim, the burden of proof is placed on the defendant (usually the employer), who will need to demonstrate that sex discrimination has not occurred;

rights under the Fixed Term Work Directive that provide equal treatment and prevent abuse of fixed term contracts;

rights under the European Works Council Directive which requires companies with at least 1,000 employees in total and at least 150 workers in each of the two member states, to establish structures for consulting workers on issues that affect them and;

in addition, the Information and Consultation of Employees Directive to be implemented in the UK by March 2005, establishes a right to new minimum standards for work force communication and involvement in large firms.

CONSTITUTIONAL AFFAIRS

Departmental Annual Report

Norman Lamb: To ask the Parliamentary Secretary, Department for Constitutional Affairs how much the production of the Lord Chancellor's Departments' 2003 annual report cost; how many copies were printed; how many copies of it were sold at its cover price; to whom copies of the report have been provided free of charge; and how many copies were provided free of charge. [171149]

Mr. Leslie: The Annual Report 2003 for the Lord Chancellor's Department (LCD) cost the Department £32,519. This was divided between The Stationery Office Ltd (TSO) and the Central Office of Information. The LCD received 615 copies of the Report under the terms of its contract with TSO. These were distributed free of charge within the Department, its agencies and Non Departmental Public Bodies, and to stakeholders. I understand that TSO have sold 428 copies of the Report. The Report can be read free of charge on the Department for Constitutional Affairs' website. Web visits to the Report since May 2003 number at approximately 2,300.

Fine Enforcement

John McDonnell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to employ additional trained staff to assist defendants with completing means inquiry forms. [173121]

Mr. Leslie: One of the key measures in the Courts Act 2003 is the introduction of Fines Officers who will lead on collecting and enforcing financial penalties. Among other things they and their teams will help defendants complete means enquiry forms. The Fines Officer role is currently being piloted at six Magistrates' Courts Committees, namely Cambridgeshire, Cheshire, Cumbria, Devon and Cornwall, Gloucestershire and South Yorkshire.

John McDonnell: To ask the Parliamentary Secretary, Department for Constitutional Affairs in what circumstances a fine imposed by a magistrates' court in England and Wales is written off. [173122]

Mr. Leslie: Fines will no longer be written off. They will be pursued until they are paid. The new policy to deliver this was introduced on 5 January 2004. There are very limited circumstances for the administrative cancellation of a fine, for example, if the defendant has died or has been sent to a mental health institution for more than 12 months.

John McDonnell: To ask the Parliamentary Secretary, Department for Constitutional Affairs at what percentage of courts in England and Wales it is possible to make regular cash payments to court staff following the imposition of a fine. [173123]

Mr. Leslie: Data on the percentage of courts in England and Wales where it is possible to make regular cash payments is not held centrally. Magistrates' Courts Committees provide a range of convenient payment methods to offenders including cheque, credit card, debit card, postal order, cash deposit boxes, 'Paypoint' and 'Girobank' but not all have cash offices in every court. Maintenance of cash desks can be expensive and a balance needs to be struck between the need to secure prompt payment and the cost effectiveness of the method chosen.

John McDonnell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the average annual salary of a Magistrates' Court Enforcement Officer is in *(a)* Greater London and *(b)* the rest of England and Wales. [173124]

Mr. Leslie: Information obtained from Greater London Magistrates' Courts Authority indicates that the current average salary for Civilian Enforcement Officers is around £19,000 and a sample survey of 29 Magistrates' Courts Committees (excluding Greater London) indicates that the current salary for Civilian Enforcement Officers is around £15,000.

Magistrates Courts

John McDonnell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what discussions he has had with the police about the provision of verifiable information in respect of summonses of individuals to appear at magistrates' courts in England and Wales. [173125]

Mr. Leslie: My officials have met representatives of the Association of Chief Police Officers, and other prosecuting agencies, to find ways of improving the information available to the courts in relation to summonses. I am now looking to put in place a national minimum standard.

Mr. Hoyle: To ask the Parliamentary Secretary, Department for Constitutional Affairs what funding the Government makes available to *(a)* improve holding cells and *(b)* build new cells at magistrates' courts in Lancashire. [173770]

Mr. Leslie: My Department does not have direct control over the works to be carried out at each Magistrates' Court. Each Magistrates' Courts Committee bids annually for 80 per cent. of funding from the Department for works which they have assessed as being a priority, they also have to seek approval from their local authority for the remaining 20 per cent.

During the last financial year Lancashire Magistrates' Courts Committee submitted one bid to refurbish the custody area at Blackburn Magistrates' Court. This was approved at a cost of £45,000.

In the current financial year, three further bids in respect of custody area improvements were submitted from the Magistrates' Courts Committee, all three bids have been approved. At Preston Magistrates Court, security improvements will be undertaken and interview facilities provided at a cost of £21,840. At Blackburn Magistrates' Court, as part of a general upgrade costing £138,400 the cell area will be refurbished. At Accrington, Chorley and Fleetwood Magistrates' Courts, the custody areas will be refurbished at a cost of £13,440.

Voting Rights (Expatriates)

Bob Spink: To ask the Parliamentary Secretary, Department for Constitutional Affairs what representations he has received on voting rights for expatriates; and what plans he has to change them. [173081]

Mr. Leslie: The Government has no plans to change current arrangements given that they were considered folly and relatively recently in debate during the passage of the Political Parties, Elections and Referendums Act 2000 when the decision was made to reduce the period of voters' eligibility. Since that time my predecessor and I have received 12 letters from MPs and two Parliamentary Questions on this subject.

EDUCATION AND SKILLS

Adult Education

Mr. Swire: To ask the Secretary of State for Education and Skills (1) when he will announce his decision on the funding arrangements and provision for non-accredited learning programmes under the Adult and Community Learning scheme; [174035]

(2) what the timescale is for making a decision on the funding mechanisms for adult and community learning provision for non-accredited learning programmes. [173928]

Mr. Ivan Lewis: We have agreed with the Learning and Skills Council (LSC), the national budget for adult and community learning for 2004–05, of £207.4 million, up from £206 million in 2003–04. This fulfils the commitment to safeguard opportunities for lifelong learning not leading to qualifications, set out in the Skills White Paper "21st Century Skills: Realising Our Potential".

In the summer we and the LSC intend to consult on proposals to integrate adult and community learning more fully into post-16 learning and skills provision, including, where appropriate, funding such provision through the LSC's funding formula. Decisions will be made in the autumn, with initial allocations of budgets to local LSCs in December 2004.

Clive Efford: To ask the Secretary of State for Education and Skills if he will reform financial support for adults to encourage learning. [173894]

Alan Johnson: In July 2003, we announced in our Skills Strategy White Paper "21st Century Skills" an increase in the financial support to help adults in further education with the costs of learning through a new adult learning grant. The grant is available on a pilot basis in 10 local Learning and Skills Council areas. We plan to double the size of the current pilot from September by making the adult learning grant available across the South-East and North-East regions. We are also considering how other existing funds for supporting adult learners in further education and training can best support the priorities of the Skills Strategy.

Proposals for improving the package of financial support for undergraduates were announced in January at Commons Second Reading of the Higher Education Bill. This includes introduction of a non-repayable grant of up to £2,700 each year for students from lower income backgrounds. We are improving the package of support for part-time students, many of whom are mature. In 2004–05 part time students on low incomes will be able to get a grant of up to £575 for fees and a grant of up to £250 for course costs. We will continue to provide additional, targeted financial support for vulnerable students, through Higher Education institutions, to ensure that more of them are able to access and remain in higher education.

Adult Literacy and Numeracy

Mr. Ben Chapman: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Wirral, South in each of the last five years. [173623]

Mr. Ivan Lewis: The estimated total spend on "Skills For Life" (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Greater Merseyside

Learning and Skills Council (LSC) area is set out in the table:

	Basic skills	*Key skills*
April 2001 to July 2001[1]	3,803	1,094
August 2001 to July 2002	6,575	1,564
August 2002 to July 2003	10,677	1,755

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

Note:

Figures in £ thousands

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before.

Apprenticeships

Mr. Simmonds: To ask the Secretary of State for Education and Skills if he will make a statement on the Government's targets for the take up of *(a)* young apprenticeships, *(b)* apprenticeships and *(c)* advanced apprenticeships over the next three years. [173747]

Mr. Ivan Lewis: Currently the Government have a PSA target for first time entry of 28 per cent. of 16 to 21-year-olds to apprenticeships and advanced apprenticeship to be met in 2004/05. At present we are on course to meet the target. Targets for the next Spending Review period from 2004, if they are to apply, are under discussion and will be published in a White Paper in July.

Mr. Simmonds: To ask the Secretary of State for Education and Skills how prospective *(a)* young apprenticeship, *(b)* apprenticeship and *(c)* advanced apprenticeship trainees will be matched up with appropriate employes. [173750]

Mr. Ivan Lewis: For Young Apprenticeships, local Partnerships, involving schools, colleges and businesses will be responsible for the decision on matching pupils with employers. In doing so, they will take account of: the needs and maturity of the pupils; the demands of the programme of study; and the availability and suitability of placements with employers. Local Partnerships will be assisted in their search by relevant bodies such as the Sector Skills Councils and will make available to pupils access to local advice and guidance services.

For apprenticeships post 16 local Learning and Skills Councils will work closely with Connexions Partnerships to match young people with suitable employers and vice versa. To support the current national Apprenticeship marketing campaign the LSC has introduced a lead co-ordinating system across England for Apprenticeships, currently working with over 800 local and national learning organisations who are responsible for managing the interest from employers and in turn, matching this with potential young people.

In the longer term we will set up a clearing house system run by the LSC to match young people with employers more effectively.

Mr. Simmonds: To ask the Secretary of State for Education and Skills if he will make a statement on the new apprenticeship schemes in the context of the recommendations of the Tomlinson report. [173751]

Mr. Ivan Lewis: The 14–19 Working Group, chaired by Mike Tomlinson, has established an Apprenticeship Sub-Group, with the key objective to examine the relationship between Apprenticeships and the overall diploma framework. It is important to have a clear fit between the two.

The Apprenticeship Sub-Group, whose membership is drawn from Sector Skills Councils, learning providers and employers, the Adult Learning Inspectorate, Qualifications and Curriculum Authority, the Learning and Skills Council and the Department for Education and Skills, will make recommendations to the main Working Group for inclusion in the Final Report due in the Autumn 2004.

Mr. Simmonds: To ask the Secretary of State for Education and Skills what minimum criteria will be required to start *(a)* young apprenticeships, *(b)* apprenticeships and *(c)* advanced apprenticeships. [173752]

Mr. Ivan Lewis: For Young Apprenticeships the minimum entry criteria will be: good SATs in English, Mathematics and Science; good attendance and behaviour; and a demonstrable interest in the vocational area. Parents and guardians will also be asked to give their approval.

For Apprenticeships post 16 Sector Skills Councils will suggest minimum entry criteria related to the needs of their sector and the requirements of particular apprenticeship frameworks. As most apprentices are employed it will continue to be for employers to recruit according to their own entry criteria taking into account guidance from the relevant SSC.

Mr. Simmonds: To ask the Secretary of State for Education and Skills how much his Department has spent on advertising the new apprenticeships scheme; and how much it intends to spend in each of the next three years. [173753]

Mr. Ivan Lewis: This is a matter for the Learning and Skills Council. Mark Haysom, the Council's Chief Executive, will write to the hon. Gentleman with this information and a copy of his reply will be placed in the Library.

Mr. Simmonds: To ask the Secretary of State for Education and Skills what estimate his Department has made of the cost of re-naming and re-branding *(a)* foundation modern apprenticeships to apprenticeships and *(b)* advanced modern apprenticeships to advanced apprenticeships. [173754]

Mr. Ivan Lewis: This is a matter for the Learning and Skills Council. Mark Haysom, the Council's Chief Executive, will write to the hon. Gentleman with this information and a copy of his reply will be placed in the Library.

Mr. Simmonds: To ask the Secretary of State for Education and Skills if he will make a statement on the funding streams available before the age of 16 for young apprenticeships students moving on to post-16 apprenticeships. [173755]

Mr. Ivan Lewis: The Department will make available up to £3.5 million for the Young.

Mr. Simmonds: To ask the Secretary of State for Education and Skills what estimate his Department has made of the number of over 25s that will register for *(a)* apprenticeships and *(b)* advanced apprenticeships in each of the next three years. [173756]

Mr. Ivan Lewis: Our Skills Strategy committed us to develop apprenticeships for adults to meet skills needs in response to employer demand. We are working with Sector Skills Councils that are either already licensed or expected to be so in the near future to trial appropriate provision. The overall number of participants will be subject to demand but we estimate that around 1,300 adults would be involved in initial sector trials in 2004/05. Sector agreements will determine numbers in the following two years.

Bootle Schools

Mr. Benton: To ask the Secretary of State for Education and Skills (1) how much public funding was spent per pupil in Bootle in each of the last seven years; [172021]

(2) how much public funding was spent per pupil in Bootle in each of the last seven years. [172784]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. Bootle is a district of Sefton local education authority. The information for Sefton LEA is as follows:

Net Current Expenditure per pupil

	Pre-Primary Education	*Primary Education*	*Pre-primary and Primary*	*Secondary Education*	*Special*
1996–97	n/a	n/a	1,880	2,640	19,520
1997–98	n/a	n/a	1,890	2,630	20,190
1998–99	n/a	n/a	2,010	2,690	19,950
1999–2000	4,690	2,170	2,180	2,780	23,920
2000–01	16,780	2,330	2,410	3,010	26,120
2001–02	30,560	2,570	2,740	3,430	27,410
2002–03		2,840		3,640	

Notes:

1. The financial data are taken from Sefton LEAs' Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–2000. 1999–2000 figures reflect the return of GM schools to local authority maintenance.

2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data is subject to change by the LEA. Figures are rounded to the nearest 10.

3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA.

4. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector maintained primary schools to the total number of financial year and pupils who are educated in the maintained nursery and primary schools sector.

5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.

6. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.

7. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Career Development Loans

Mr. Sheerman: To ask the Secretary of State for Education and Skills which banks administer career development loans. [173825]

Mr. Ivan Lewis: The banks presently involved in administering career development loans (CDLs) are, Barclays Bank plc, the Co-operative Bank plc and the Royal Bank of Scotland plc. Clydesdale Bank plc also administered CDLs until 15 October 2002.

Mr. Sheerman: To ask the Secretary of State for Education and Skills what criteria are used to decide whether an application for a career development loan should be accepted. [173826]

Mr. Ivan Lewis: The main criteria used by the participating banks to decide whether an application for a Career Development Loan (CDL) is accepted are as follows:

The CDL must be for vocational learning or education that lasts no longer that two years, or three years if it includes one year's practical experience.

Applicants must be aged 18 or over and live or intend to learn in Great Britain (i.e. England, Scotland or Wales).

Applicants who are not EU nationals or who are not permanent UK residents do not qualify for a CDL if there are any restrictions on their stay in the UK.

Applicants must intend to work in the United Kingdom (UK), the European Union (EU) or in Iceland, Norway or Liechtenstein, which are part of the European Economic Area (EEA), on completion of their course.

An employee of a CDL registered learning provider is not eligible for a CDL to support a course with that learning provider.

Applicants must satisfy the normal checks carried out by the banks as part of their lending decision process. This includes identity checks to prevent money laundering, and credit rating checks.

Mr. Sheerman: To ask the Secretary of State for Education and Skills how many people have applied for career development loans in each year since their introduction; and how many of those applications were successful. [173849]

Mr. Ivan Lewis: My Department carries out periodic checks to monitor the rejection rates of Career Development Loan (CDL) applications by the banks. However, the banks do not retain a historic record of the number of applications. The latest figures from the checks by DfES show that the rejection rate is 30.6 per

cent. The attached table shows the number of people whose CDL applications were successful.

Number of career development loans made since their introduction

Calendar year	*Number of loans given*	*Comments*
1988	1,503	From start of programme in July 1988
1989	5,441	—
1990	7,833	—
1991	9,933	—
1992	10,739	—
1993	12,481	—
1994	15,148	—

2003	16,845	—
2004	4,870	As at 13 May 2004

Mr. Sheerman: To ask the Secretary of State for Education and Skills what the average value of a career development loan was in each year since their introduction. [173850]

Mr. Ivan Lewis: The following table shows the average loan value for career development loans for each year since their introduction.

Career development loans average loan value since their introduction

Calendar year	*Average loan value (£)*
1988[1]	2,519
1989	2,409
1990	2,496
1991	2,658
1992	2,742
1993	2,889
1994	3,481
1995	3,635
1996	3,596
1997	3,851
1998	3,948
1999	3,863
2000	3,773
2001	4,012
2002	4,344
2003	4,292
2004[2]	3,843

[1] From start of programme in July 1988
[2] As at 13 May 2004

Careers Guidance

Charles Hendry: To ask the Secretary of State for Education and Skills when he will announce the findings of his Department's end-to-end review of careers guidance; and if he will present these findings in person to the House. [172648]

Margaret Hodge: I expect the review to conclude at the end of June. Guidance from the Office of Public Sector Service Reform and the Treasury on such reviews does not require reports to be laid before Parliament; and I do not expect to do so in this case.

Climate Change Awareness

Mr. Chaytor: To ask the Secretary of State for Education and Skills what steps he will take during 2004 in respect of schools, colleges and universities *(a)* to increase awareness of the dangers of global climate change and *(b)* to promote education about ways to reach the Government's target of cutting greenhouse gas emissions. [171257]

Mr. Miliband: The Department will continue to fund the Met Office's educational programme which provides information to schools about the science of climate change and is this year developing a Climate Change Module for key stages 3 and 4.

The Department is funding the Association for Science Education and the Development Education Association to develop "Global Dimension in Science" modules for our new national network of Science Learning Centres, which will train science teachers to teach about climate change from this Autumn.

In the post-16 sector, the Learning and Skills Council produced a toolkit for education for sustainable development in November last year, and is planning to produce a strategy for sustainable development this summer.

In higher education, the Department's sustainable development action plan asked the Higher Education Funding Council for England (HEFCE) to signal to the university.

Connexions

Charles Hendry: To ask the Secretary of State for Education and Skills what the *(a)* role and *(b)* responsibilities of non-executive members of Connexions partnership boards are. [172593]

Margaret Hodge: Specific roles and responsibilities for non-executive members are determined by the board of each Connexions partnership. In general, the role of non executive board members is to represent their sectors (for example local authorities). They are responsible for monitoring Connexions Services as it affects their locality, and they contribute towards the development of the strategy for the partnership.

Charles Hendry: To ask the Secretary of State for Education and Skills for what reasons his Department did not inform Parliament of its decision to launch an end-to-end review of the provision of careers services within Connexions. [172594]

Margaret Hodge: The end to end review of careers education and guidance is one of a series of reviews commissioned by the Department for Education and Skills. They form part of the regular business of the Department and as such would not routinely be reported to Parliament.

Charles Hendry: To ask the Secretary of State for Education and Skills how much has been spent by Connexions partnerships on seeking legal advice since the Department opted to reduce the amount it would offset against partnerships' VAT costs. [172595]

Margaret Hodge: This information is not collected centrally.

Charles Hendry: To ask the Secretary of State for Education and Skills what conclusions his Department drew from the Connexions VAT guidance workshop held on 20 April; and if he will make a statement. [172649]

Margaret Hodge: The workshop confirmed that many Connexions partnerships are considering their current structures and would find further guidance on the VAT implications of different delivery models helpful. This is being produced jointly with HM Customs and Excise and will be issued to partnerships shortly.

Charles Hendry: To ask the Secretary of State for Education and Skills what steps his Department is taking to ensure best value reviews are carried out by Connexions partnerships before implementing structural changes. [172651]

Margaret Hodge: All partnerships, are required to apply Best Value principles to inform judgments on the effectiveness, efficiency and economy of when employing contractors or when taking decisions on structural changes. Comprehensive guidance on the application of Best Value to Connexions services was issued to partnerships in the autumn of 2003. The guidance was supported by as a series of regional training seminars. More recently, the Director of the Supporting Children and Young People Group has written to Chief Executives underlining the importance of transparent and robust decisions on cost-effectiveness informing any decisions to make structural changes.

Charles Hendry: To ask the Secretary of State for Education and Skills what assessment he has made of the implications of a Connexions partnership adopting a dual lead body model for private providers of the service. [172658]

Margaret Hodge *[holding answer 12 May 2004]:* The adoption of lead body arrangements is one option for Connexions Partnerships in looking to become more tax efficient. While we do not envisage any legal/structural problems with a dual or multiple lead body structure, we have advised Partnerships considering this option that there would need to be clear agreements about roles and responsibilities. We would also wish to be reassured that this would not result in greater overall spend on core administration costs and/or possible duplication of head office functions. We have advised Government Offices to assess individual Partnership plans on their own local merits. Guidance on the different delivery models is being produced jointly with HM Customs and Excise and will be issued to Partnerships shortly.

Charles Hendry: To ask the Secretary of State for Education and Skills what recent guidance has been issued by his Department to the Kent and Medway Connexions partnership board. [172659]

Margaret Hodge *[holding answer 12 May 2004]:* Officials have provided both verbal and written advice to the Senior Management and Board of Kent and Medway Connexions partnership on the various options they might consider for becoming more tax efficient. In addition, the Director of the Supporting Children and Young People Group has recently written to the Chief Executive, copied to the Chair of the Board, underlining the importance of transparent and robust decisions on cost-effectiveness informing any decisions on structural changes.

Charles Hendry: To ask the Secretary of State for Education and Skills whether his Department has issued guidance to Connexions partnership boards concerning adopting dual lead body models. [172660]

Margaret Hodge *[holding answer 12 May 2004]:* Guidance on the different delivery models is being produced jointly with HM Customs and Excise and will be issued to partnerships shortly.

Charles Hendry: To ask the Secretary of State for Education and Skills whether his Department has issued guidance on the use of consortium models to Connexions partnerships. [172662]

Margaret Hodge *[holding answer 12 May 2004]:* Guidance on the different delivery models, including consortia, is being produced jointly with HM Customs and Excise and will be issued to Partnerships shortly.

Charles Hendry: To ask the Secretary of State for Education and Skills for what reasons his Department decided to reduce the amount it would offset against Connexions partnerships' VAT costs; and where the money saved will be spent. [172668]

Margaret Hodge: The additional funding that had been set aside to help partnerships meet their transitional VAT costs was reduced in order to provide a vital contribution to the successful implementation of "Every Child Matters". The funding will help to fund improved services for children and young people, including through the creation of a Children's Commissioner and establishing a Safeguarding Children's Board in each local authority.

Charles Hendry: To ask the Secretary of State for Education and Skills whether his Department undertook research into the possible effects upon private providers before making the decision to reduce the amount it would offset against Connexions' VAT costs; and if he will make a statement. [172669]

Margaret Hodge *[holding answer 11 May 2004]:* The Department sought advice from Her Majesty's Customs and Excise (HMCE). We are not directing Connexions partnerships to choose one delivery model over another. The decision about what tax efficiency means for each partnership, is the responsibility of individual boards. Establishing a tax efficient delivery model will not of itself affect the relationship with private sector companies. The Department remains in discussion with representatives from Connexions service providers and HMCE and will continue to consider any issues that they bring forward.

Charles Hendry: To ask the Secretary of State for Education and Skills what action his Department intends to take to safeguard the future of the private sector in the provision of Connexions services to young people. [172670]

Margaret Hodge: Connexions partnerships are private companies with obligations to their individual boards. As such the Department is unable to become directly involved in individual decisions. However, as partnerships consider their future structures we are providing guidance and support about the most tax

efficient model and highlighting a need to carry out cost-effectiveness reviews for changed structures. A change in structure need have no impact on the use of private providers as sub- contractors. An increasing number of partnerships are moving to a 'lead body' model leaving private sector careers contracts in place.

Charles Hendry: To ask the Secretary of State for Education and Skills whether it is his Department's policy to phase out the sub-contracting model of the Connexions partnership. [172672]

Margaret Hodge: The Department does not have a policy to phase out the sub-contracting model.

Charles Hendry: To ask the Secretary of State for Education and Skills what impact his Department's decision to reduce the amount it will offset against Connexions partnership's VAT costs has had on preparations for the setting up of children's trusts; and if he will make a statement. [172674]

Margaret Hodge: The £25 million reduction in subsidy for VAT support of Connexions partnerships will be used to implement aspects of the Green Paper 'Every Child Matters'. The funding will support, among other services, the establishment of a Children's Commissioner and the development of Local Safeguarding Children Boards. These are significant elements in the strategy for providing better outcomes for children, young people and their families. They will work with Childrens Trust as they emerge.

Charles Hendry: To ask the Secretary of State for Education and Skills how many of the Connexions partnerships which have opted to move to direct delivery since the commencement of the financial year 2004–05 undertook best value assessments of alternative operational models before reaching their decision. [172677]

Margaret Hodge: All three Connexions partnerships that have opted to move to direct delivery since the start of this financial year have undertaken best value assessments.

Charles Hendry: To ask the Secretary of State for Education and Skills to whom Connexions partnerships are accountable. [172849]

Margaret Hodge *[holding answer 13 May 2004]:* All Connexions partnerships are accountable to the Secretary of State for Education and Skills. Performance is monitored and supported through Ofsted inspections, Government Office reviews and Management information provided to Supporting Children and Young People's Group in the DfES.

Early Years Education

Mrs. Brooke: To ask the Secretary of State for Education and Skills what plans he has to introduce requirements for qualifications for those working in early years settings; and if he will make a statement. [172344]

Margaret Hodge: The national standards for under 8s day care and childminding require that the manager in a registered early years setting, and all supervisors where full day care is provided, have at least a level 3 qualification appropriate to the post. In addition, at least half of all other childcare staff should hold a level 2 qualification appropriate for the care or development of children. There are currently no plans to change these requirements.

Education Finance

Mr. Kaufman: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in Manchester, Gorton in each of the last seven years. [167449]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. Manchester Gorton is a district of Manchester local education authority. The information for Manchester LEA is as follows:

Net current expenditure per pupil

	Pre-primary education	*Primary education*	*Pre-primary and primary*	*Secondary education*	*Special*
1996–97	n/a	n/a	1,970	2,950	15,370
1997–98	n/a	n/a	1,970	2,870	14,920
1998–99	n/a	n/a	2,120	3,060	16,590
1999–2000	10,230	2,250	2,280	3,220	17,630
2000–01	16,430	2,540	2,580	3,520	19,370
2001–02	15,320	2,950	2,980	4,000	21,000
2002–03	—	3,100	—	4,190	—

Notes:

1. The financial data are taken from Manchester LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–2000. 1999–2000 figures reflect the return of GM schools to local authority maintenance.

2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data is subject to change by the LEA. Figures are rounded to the nearest £10.

3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA.

4. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.

5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.

6. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.

7. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Education Maintenance Allowance

Mr. Steen: To ask the Secretary of State for Education and Skills what the eligibility criteria are for the education maintenance allowance (EMA) to be introduced in September; whether students aged under 16 years studying academic or vocational courses in further education for more than 12 hours of guided learning per week will be eligible for the EMA; and whether 15 to 17 year olds in further education are eligible for any other financial assistance. [172041]

Mr. Ivan Lewis *[holding answer 11 May 2004]:* A young person will be entitled to receive EMA under the national scheme if they:

are a UK citizen; or

a citizen of an EEA country with at least three years' continued residence in the UK; or

have been granted Refugee status or Indefinite Leave to remain or Temporary Protection in the UK;

reach the age of 16 between 31 August 2003 and 1 September 2004 and enter full time education in the 2004–05 academic year in September 2004;

live in a household with an annual income of £30,000 or less; and

undertake at least 12 hours of guided learning on further education courses at, or provided by, a recognised educational institution in England (for example, school sixth forms, a sixth form college or FE college. The chosen course can be either academic or vocational.

Young people who have skipped a year and are 15 when taking up further education are not eligible on the grounds of age. EMA is not based on the academic level a pupil reaches: it is targeted at those who have reached the end of their compulsory school education.

Young people in further education aged 16 and over who are not eligible for EMA may be eligible for other financial assistance. This includes the Learner Support Fund, Connexions Card, Dance and Drama Awards, Care to Learn and other discretionary support made through colleges and schools. Young people aged 15 but in further education may receive support from their local authority.

Colin Burgon: To ask the Secretary of State for Education and Skills what estimate he has made of the uptake of the educational maintenance allowance in *(a)* Leeds and *(b)* Elmet constituency. [173393]

Mr. Ivan Lewis *[holding answer 14 May 2004]:* Leeds is an EMA pilot area and at present there are 4,764 students in receipt of EMA. We estimate that the number of recipients will be broadly similar after the launch of the national scheme in September. Across Yorkshire and Humberside as a whole, around 24,000 16-year-olds will be eligible for EMA.

We are unable to provide forecasts for numbers down to constituency level.

Education Services

Mr. Benton: To ask the Secretary of State for Education and Skills how many children in Bootle have benefited from the National Childcare Strategy. [172681]

Margaret Hodge: I refer my hon. Friend to the replies given on 29 April 2004, *Official Report*, column 1265W and on 11 May 2004, *Official Report*, column 291W.

Mr. Hurst: To ask the Secretary of State for Education and Skills how many passes at A-Level were achieved by students in *(a)* the County of Essex in each year from 1980 to 1997 and *(b)* the County of Essex and the unitary authorities of Southend-on-Sea and Thurrock in each year from 1998 to 2003. [173328]

Mr. Miliband: The following table shows the number of A level (or equivalent) passes achieved by 16 to 18 year old A level (or equivalent) candidates in the years 1992 to 2003.

	Essex			*Southend*			*Thurrock*		
	Candidates	*Passes*	*Average*	*Candidates*	*Passes*	*Average*	*Candidates*	*Passes*	*Average*
1992	6,657	13,773	2.1	—	—	—	—	—	—
1993	6,656	15,513	2.3	—	—	—	—	—	—
1994	6,601	15,716	2.4	—	—	—	—	—	—
1995	6,368	16,040	2.5	—	—	—	—	—	—
1996	6,213	15,977	2.6	—	—	—	—	—	—
1997	6,691	17,635	2.6	—	—	—	—	—	—
1998	6,419	17,107	2.7	898	2,441	2.7	640	1,410	2.2
1999	6,418	17,194	2.7	1,098	3,086	2.8	617	1,364	2.2
2000	6,497	17,702	2.7	982	2,841	2.9	659	1,393	2.1
2001	6,369	17,796	2.8	1,038	2,967	2.9	651	1,451	2.2
2002	6,271	19,556	3.1	1,039	3,418	3.3	804	1,841	2.3
2003	6,428	20,783	3.2	1,197	3,673	3.1	698	1,834	2.6

Notes:
1. Age is at the beginning of academic year.
2. The table includes A level candidates in maintained schools and Further Education Sector colleges. Candidates in independent schools are not included.
3. We do not have comparable information at Local Education Authority level for years earlier than 1992.

Simon Hughes: To ask the Secretary of State for Education and Skills how many primary school closures there were in Greater London, broken down by local education authority, in each year since 1997. [173254]

Mr. Miliband: The numbers of primary school closures in Greater London during the calendar years 1997 to 2003 are shown in the table. The figures include schools that closed as a result of the amalgamation or merger of two or more schools; schools that have closed but re-opened as voluntary schools with a religious character; and schools that have closed in local education authorities that have moved from a three-tier to a two-tier system.

Primary school closures in Greater London by calendar year

Local education authority	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*

DfES

Simon Hughes: To ask the Secretary of State for Education and Skills (1) how many *(a)* Pakistani, *(b)* black African, *(c)* Bangladeshi, *(d)* white, *(e)* Indian, *(f)* Chinese and *(g)* black Caribbean (i) males and (ii) females achieved (A) level 2 or above at Key Stage 1, (B) level 5 or above at Key Stage 3 and (C) level 4 or above at Key Stage 2 in (1) English, (2) mathematics and (3) science in each year since 1994 in Greater London, broken down by borough; [173256]

(2) how many *(a)* black Caribbean, *(b)* Pakistani, *(c)* black African, *(d)* Bangladeshi, *(e)* white, *(f)* Indian and *(g)* Chinese (i) males and (ii) females achieved five A*–C grades at GCSE in each year since 1994 in Greater London, broken down by borough. [173255]

Mr. Miliband: I will answer these questions together.

Prior to 2002 national level analyses by pupil characteristic were not possible. In January 2002 the Annual Schools' Census (ASC) introduced a major change in that maintained primary, secondary and special schools reported data at an individual pupil level for the first time. The introduction of the Pupil Level Annual School Census (PLASC) in 2002 meant that for the first time pupil characteristic information could be matched to pupil attainment data, allowing comparisons of the performance of different groups of pupils.

The information requested has been placed in the Library.

Simon Hughes: To ask the Secretary of State for Education and Skills what the staying-on rate at 16 years was for Greater London, broken down by local education authority, in each year since 1997. [173258]

Mr. Ivan Lewis: Participation estimates of education and training by 16-year-olds for the academic year 2001/02 (the latest available) are shown in Table A for local education authorities (LEAs) in Greater London.

For Inner London, participation in education and training is only shown as a total because participation estimates for individual Inner London LEAs cannot be estimated reliably. This is due to considerable numbers of pupils who attend independent schools in an LEA other than the one in which they reside.

The figures in the table are produced using post-Census population estimates. Historic population estimates are not available on a comparable basis; and correspondingly, these estimates cannot be compared with those published previously.

Table A: Participation in education and training by 16 year olds in Greater London by LEA for the academic year 2001/02

	Full-time education	*Total education and training*[1]
Greater London	74	82
Inner London	73	81
Outer London	75	82
Barking and Dagenham	56	63
Barnet	76	82
Bexley	68	78

Table A: Participation in education and training by 16 year olds in Greater London by LEA for the academic year 2001/02

	Full-time education	*Total education and training*[1]
Brent	77	82
Bromley	77	82
Croydon	77	83
Ealing	76	81
Enfield	75	83
Greenwich	68	79
Harrow	85	90
Havering	71	80

Source:
DfES Statistical Bulletin 01/2004, published 26 February 2004.

Mr. Jenkins: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Tamworth constituency in the last 10 years. [173284]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Staffordshire Learning and Skills Council (LSC) area is set out in the following table.

£ thousands

April 2001 to July 2001[1]		*August 2001 to July 2002*		*August 2002 to July 2003*	
Basic skills	*Key skills*	*Basic skills*	*Key skills*	*Basic skills*	*Key skills*
2,341	786	3,123	1,006	4,899	2,063

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Education/Employment Statistics (Bootle)

Mr. Benton: To ask the Secretary of State for Education and Skills how many residents of Bootle have undertaken apprenticeships in each of the last five years. [172782]

Alan Johnson: The information requested is not available at parliamentary constituency level. Nor is the information available on a consistent geographical basis over the last five years. However, the table shows the number of starts on Advanced Modern Apprenticeships and Foundation Modern Apprenticeships in Greater Merseyside Learning and Skills Council (LSC) area between April 2001 and the end of July 2003, as well as the number of starts from April 98 to March 2001 in the four TECs that amalgamated to become Greater Merseyside LSC.

Time period—TEC/LSC	*Advanced MAs*	*Foundation MAs*
April 1998 to March 1999		
CEWTEC *	1,400	300
Merseyside	2,400	1,200
St. Helens CCTE	300	100
North and Mid Cheshire *	1,200	200
April 1999 to March 2000		
CEWTEC *	1,000	900
Merseyside	2,600	3,500
St. Helens CCTE	300	400

Failing Schools

Mr. Ben Chapman: To ask the Secretary of State for Education and Skills how many schools in Wirral, South deemed to be failing since 1997 have since reached satisfactory standards. [173630]

Mr. Miliband: No schools in Wirral, South have been found to be failing since 1997.

FE Colleges

Clive Efford: To ask the Secretary of State for Education and Skills what steps he is taking to assist *(a)* recruitment and *(b)* retention of staff in further education colleges. [173896]

Alan Johnson: Further education colleges are independent corporations which set their own pay and recruitment arrangements. However, we are increasing the total funding for FE by £1.2 billion between 2002–03 and 2005–06 (19 per cent. in real terms) and increasing flexibility in the use of this money. This will give colleges more scope to meet local recruitment and retention needs.

We also support colleges through the following specific recruitment and retention initiatives:

In designated shortage subject areas: Golden Hellos (one-off payments) to new teachers (1,961 individuals benefited to date) and Repayment of Teacher Loans over 10 years (233 benefited to date).

A pilot Training Bursary Scheme of £6,000 is in place to attract new staff into the profession (6,655 benefited to date and 2,000 allocated for 2004–05).

The newly launched Key Worker Living programme provides eligible FE teachers with equity loans to help with high housing costs in London, the South East, and Eastern regions.

Through the new Centre for Excellence in Leadership, the Leadership Development Framework, and the Work Shadowing Scheme, development opportunities are being extended, to ensure that talented staff are able to advance their careers.

Further Education Colleges (Salford)

Ian Stewart: To ask the Secretary of State for Education and Skills how many people in the Eccles constituency he expects to stay in education as a result of the introduction of education maintenance allowances;

and if he will provide additional funding to further education colleges in the City of Salford to support additional students. [173132]

Mr. Ivan Lewis: The DfES does not hold information on student numbers for individual constituencies. However, we estimate that there will be about 3,900 extra sixteen year olds in the North West Region in further education this September who would not be participating without EMA. Salford is an EMA pilot area and at present there are 1,200 students in receipt of EMA.

The 2002 Spending review settlement allows for an expansion in the numbers of young people in FE. The additional funding takes account of the impact of EMA in further education colleges.

Higher Education (North West)

Helen Jones: To ask the Secretary of State for Education and Skills what recent discussions he has had on the links between industry and higher education which relate to the development of the Omega site in Warrington; and if he will make a statement. [171015]

Mr. Ivan Lewis: The Secretary of State has not been involved in any discussions on this issue. The Learning and Skills Council and Warrington Borough Council have been chairing a working group looking at skills needs in relation to the site (the Omega Skills Challenge Group). The group includes representatives of local higher education institutions. This is a prudent measure, and does not pre-empt any decision on the planning application to develop the site.

Housing Costs

Clive Efford: To ask the Secretary of State for Education and Skills what assistance is given to schools in areas where the cost of housing has been identified as a barrier to recruiting staff, with particular reference to *(a)* newly qualified teachers, *(b)* experienced staff and *(c)* senior managers. [173897]

Mr. Miliband: The overall school and LEA funding system recognises the higher costs of recruiting and retaining staff in some areas by giving these LEAs, including inner London LEAs like Greenwich, additional resource through an Area Cost Adjustment.

Teachers in London, the South East and Eastern regions will now be potentially eligible for assistance with housing costs through the new Key Worker Living Scheme.

Teachers are able to apply for this new scheme which builds on the foundations laid by the Starter Homes Initiative which since September 2001 has been helping key workers to buy homes in areas where high house prices undermine recruitment and retention.

We have identified the need to assist those potential future leaders who wish to remain in London but may have otherwise chosen to leave as a result of prohibitive housing costs. Over the next two years we will be aiming to assist 1,000 of these teachers by offering equity loans of up to £100,000 to help them purchase property within travelling distance of their schools. In addition, there will also be another strand to the scheme which will make available equity loans of up to £50,000 to qualifying experienced teachers. Finally, newly qualified teachers will not be excluded and will be eligible to receive support through the Shared Ownership and Intermediate Renting strands of the new scheme.

The statutory pay arrangements for teachers give significant discretion to schools to award recruitment and retention incentives and benefits to any grade of teacher where they consider the circumstance justify it.

Liverpool Schools

Mr. Wareing: To ask the Secretary of State for Education and Skills (1) how many *(a)* new local authority schools and *(b)* school extensions and modernisations in Liverpool have been sanctioned by his Department since 1997; and at what cost; [173664]

(2) what the total amount of financial aid provided to Liverpool City Council by his Department in terms of grants and the funding of capital projects was in each year since 1997. [173661]

Mr. Miliband: We do not hold information on details of investment in school buildings. The majority of capital funding is now allocated to local authorities and schools by needs-related formulae. Investment decisions are made locally in line with priorities agreed in the authority's asset management plan. Information on details of investment may be held locally. The following table shows capital allocations in total and by programme given by the Government to Liverpool local education authority since 1997–98.

Capital allocations to Liverpool LEA

[1] More allocations to be made.

LSC-funded Provision

Mr. Swire: To ask the Secretary of State for Education and Skills what monitoring of *(a)* geographical distribution of funding and *(b)* equal opportunity the Learning and Skills Council (LSC) carries out in order to ensure that it provides potential students with equal and fair access to LSC-funded provision. [174034]

Mr. Ivan Lewis: The Department allocates funds for education and training in the post-16 learning and skills sector to the Learning and Skills Council (LSC). The LSC decides on allocations at individual college and regional level. Information about these allocations is not collected by the Department. This is a matter for the LSC. Mark Haysom, the Council's Chief Executive, will write to the hon. Gentleman with this information and a copy of his reply will be placed in the House Library.

The LSC's equal opportunities remit was established by the Learning and Skills Act 2000. The Council is required to publish an annual report on the arrangements it has made during the year, how effective they were and the plans for the following year. A copy of the report must be sent to the Secretary of State. The last such report was published in November 2003 and a copy of the Department's response is available via the Department's website.

Maths and English Tests

Mr. Ben Chapman: To ask the Secretary of State for Education and Skills how many and what percentage of 11-year-old pupils in Wirral, South reached level four in *(a)* mathematics and *(b)* English in each of the last seven years. [173631]

Mr. Miliband: I refer my hon. Friend to the answer given on 10 May 2004, *Official Report*, column 34W.

Modern Apprenticeships

Rob Marris: To ask the Secretary of State for Education and Skills what targets he has set for the number of small and medium-sized enterprises engaged with the Modern Apprenticeship scheme in *(a)* 2003–04 and *(b)* 2004–05; what measures he has developed for assessing employer engagement in Modern Apprenticeships; and if he will make a statement. [169470]

Mr. Ivan Lewis *[holding answer 14 May 2004]:* We have not set any targets for the number of SMEs to be engaged in Apprenticeships. The "Learning and Training at Work" survey assesses employer involvement in apprenticeships by firm size and sector. The last survey in 2002 revealed that 5 per cent. of employers were involved in Advanced Modern Apprenticeships and 4 per cent. were involved in Foundation Modern Apprenticeships. This equates to around 36,000 employers of which two-thirds are SMEs. The Department and Learning and Skills Council are considering the most effective way to collect data on employer involvement in the future.

It is crucial, however, to the success of Apprenticeships and in meeting the high demand from young people, that more employers, including SMEs, are involved. Therefore on 10 May 2004, a television advertising campaign started directed at engaging with more employers and there will be direct marketing to employers of all sizes. The Modern Apprenticeship Task Force, chaired by Sir Roy Gardner, has increasing employer engagement as its primary function and good progress is being made. The taskforce is due to report in autumn 2004.

New Deal for Schools

Mr. Ben Chapman: To ask the Secretary of State for Education and Skills (1) how much funding each school in Wirral, South has received from the New Deal for Schools; [173628]

(2) how much public funding has been spent on repairing schools in Wirral, South in each year since 1997. [173626]

Mr. Miliband: Table A shows the schools in the Wirral, South constituency which benefited from investment through the New Deal for Schools programme, which ran between 1997–98 and 2000–01.

The majority of capital support is now allocated to schools and local education authorities by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have complete information about capital investment at constituency level; this should be held at local authority level.

Table B sets out the capital support provided by the to the Wirral local education authority and its schools since 1997–98, in total and by programme (including all allocations through NDS listed in table A).

Table A: NDS Allocations to schools in the Wirral, South constituency

	School	*Project*	*Package*	*Funding (£)*
1997/98	Barnston Primary School	Continuation of roofing and structural repairs	LEA-wide grant	[1]375,000
	Bebington High School	Continuation of roofing and structural repairs	LEA-wide grant	[1]375,000
1998/99	Church Drive Primary School	Chimney stack repairs, bay window repairs/replace		28,600
	Wirral Grammar School for Girls	Replacement of fume cupboards etc, external guttering, structural repairs to two room, fire precautions		104,500
	Barnston Primary School	Remove lagging (asbestos) boiler house		2,200
	Brookhurst Primary School	Frame renewal and repair		66,000
	Millfields Primary School	Frame renewal, boundary fence provision		66,000
1999/2000	Higher Bebington Junior School	Heating boiler plant repairs	Project including 13 schools	[2]340,900
	Higher Bebington Junior School	Repair element structure	Project including 15 schools	[2]1,289,200
	Grove Street Primary School	Repair element roofing	Project including 17 schools	[2]950,300

Table A: NDS Allocations to schools in the Wirral, South constituency

	School	Project	Package	Funding (£)
	Grove Street Primary School	Repair element structure	Project including 15 schools	[2]1,289,200
	Mendell Primary School	Repair element roofing	Project including 17 schools	[2]950,300
	Raeburn Primary School	Repair element structure	Project including 15 schools	[2]1,289,200
	South Wirral High School	Repair element roofing	Project including 17 schools	[2]950,300
2000/01	Mendell Primary School	Temporary mobile accommodation to be replaced by permanent new build	Project including nine schools	[2]1,955,856
	Raeburn Primary School	Temporary mobile accommodation to be replaced by permanent new build	Project including nine schools	[2]1,955,856
	Barnston Primary School	Temporary mobile accommodation to be replaced by permanent new build	Project including nine schools	[2]1,955,856

[1] NDS one grant was allocated for Wirral LEA wide projects, part of which was used for work at each of two schools in the Wirral, South constituency. The LEA will be able to say how much was allocated to each school.
[2] Allocations shown are the totals for packages of projects within Wirral LEA which included the schools shown that are in the Wirral, South constituency. The LEA will be able to say how much was allocated to each school.

Table B: Capital allocations: Wirral LEA

Prison Education

Mr. Oaten: To ask the Secretary of State for Education and Skills which contract holders for prison education have advised his Department that they do not wish to provide services beyond the lifetime of the current contract. [172422]

Mr. Ivan Lewis: To date neither HM Prison Service nor DfES has received any communication from existing contractors to advise of their intention not to an accept offer to extend their contract(s).

School Expulsions

Sarah Teather: To ask the Secretary of State for Education and Skills how many pupils have been expelled from *(a)* primary schools and *(b)* secondary schools in each year since 1997. [172810]

Mr. Ivan Lewis: The information requested is given in the table which shows data up to 2001/02, the latest available.

Number of permanent exclusions in primary and secondary schools England: 1997/98–2001/02[1]

	1997/98	1998/99	1999/2000	2000/01[1]	2001/02
Primary schools[2]					
Number of permanent exclusions	1,539	1,366	1,226	1,436	1,451
Percentage of permanent exclusions[3]	13	13	15	16	15
Percentage of school population[4]	0.03	0.03	0.03	0.03	0.03
Secondary schools[2]					
Number of permanent exclusions	10,187	8,636	6,713	7,305	7,741
Percentage of permanent exclusions[3]	83	83	81	80	81
Percentage of school population[4]	0.33	0.28	0.21	0.23	0.24

[1] Permanent exclusions for 2000/01 are estimated as a number of local education authorities have not confirmed the data for their schools.
[2] Includes middle schools as deemed.
[3] The number of permanent exclusions expressed as a percentage of the total number in primary, secondary and special schools. The figures for special schools are not given in the table.
[4] The number of permanent exclusions expressed as a percentage of the number (headcount) of all pupils (excluding dually registered pupils in special schools) in January each year.

Annual Schools Census

School Inspections

Sir Nicholas Winterton: To ask the Secretary of State for Education and Skills (1) if he will make a statement on the model of inspection proposed by HM Chief Inspector of Schools in his recent letter to all primary schools in England; and what assessment he has made of the accordance of that model with his Department's guidelines on earned autonomy and staged intervention in schools; [173683]

(2) what plans he has to instruct Ofsted to use a range of electronic and other performance indicators to undertake a distance review of a school before deciding on the most appropriate way to carry out inspection; and if he will make a statement; [173684]

(3) what plans he has to instruct Ofsted to send single inspectors to validate *(a)* schools clearly demonstrating success in a range of existing performance indicators, *(b)* school self-evaluation systems and *(c)* the evaluation of other processes; [173685]

(4) what plans he has to introduce the principle of minimum notice to the school inspections process; what assessment he has made of its efficacy in the day-to-day performance of schools; and if he will make a statement; [173687]

(5) what plans he has to introduce a two-tier system of reporting on schools to provide for professional confidentiality and staff anonymity; and if he will make a statement. [173688]

Mr. Miliband: HM Chief Inspector, David Bell, recently conducted a consultation on proposals for changing the arrangements for school inspections. He has now submitted his proposals for change to the Secretary of State for consideration. We will publish our intentions shortly.

Schools (South Ribble)

Mr. Borrow: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in South Ribble in each of the last seven years. [171655]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. South Ribble is a district of Lancashire Local Education Authority. The information for Lancashire LEA is as follows:

Net current expenditure per pupil

	Pre-Primary	Education	Primary	Education	Pre-primary and Primary Secondary Education
1996–97	n/a	n/a	1,800	2,590	15,990
1997–98	n/a	n/a	1,820	2,630	17,320
1998–99	n/a	n/a	2,000	2,700	17,770
1999–2000	7,130	2,110	2,170	2,760	18,490
2000–01	11,030	2,330	2,440	2,910	18,770
2001–02	16,390	2,630	2,800	3,230	20,600
2002–03	—	2,900	—	3,400	—

Notes:

1. The financial data are taken from Lancashire LEA's Section 52 Outturn Statement submitted to the DfES from 1999–00 onwards and the ODPM's RO1 statement previously. Figures up to and including 1997–98 figures are for Lancashire LEA prior to local government reorganisation. From 1998–99 onwards parts of Lancashire LEA became Blackpool and Blackburn LEAs. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–00. 1999–00 figures reflect the return of GM schools to local authority maintenance.

2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data is subject to change by the LEA. Figures are rounded to the nearest 10.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA.
4. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
6. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.
7. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Secure Children's Homes

Charles Hendry: To ask the Secretary of State for Education and Skills (1) what plans there are to change the number of beds in local authority secure children's homes; and if he will make a statement; [172850]

(2) if he will list the secure children's homes in England; [172851]

(3) if he will make a statement on the future of secure children's homes in England. [172852]

Margaret Hodge *[holding answer 13 May 2004]:* Officials have been working closely, both with the Youth Justice Board and the Association of Directors of Social Services, to consider the implications for local authority secure children's homes of the results of the Youth Justice Board's re-tendering exercise to determine the extent to which these homes will be used by the Youth Justice Board over the next two to five years for the placement of children through the youth justice system.

We understand that a few secure children's homes will now close on the basis that they will no longer be viable.

Officials are looking very closely at the demand, including any unmet need, for welfare placements in order to ensure that there are sufficient beds across the country for children who need to be placed in secure accommodation for welfare reasons.

Our aim is to achieve the best quality service for vulnerable children who, for whatever reason, need to be placed in secure accommodation.

The secure children's homes in England are as follows:

Stamford House
Orchard Lodge
Beechfield
Lansdowne
Leverton
Thornbury
Atkinson
Vinney Green
Swanwick Lodge
Clare Lodge
St. Johns
Earlswood
Lincolnshire
Sutton Place
Aldine House
Brunei
Watling House
Clayfields
Aycliffe
Kyloe House
Eastmoor
Barton Moss
Dyson Hall
Redbank
Redsands
Dales House
St. Catherines

Sure Start

Simon Hughes: To ask the Secretary of State for Education and Skills how many mothers in each Greater London borough *(a)* are eligible for and *(b)* have taken up the Sure Start maternity grant. [173332]

Mr. Pond: I have been asked to reply.

The information is not available.

Note:

Social Fund data are held on the Social Fund Policy, Budget and Management Information System (PBMIS). PBMIS does not hold data broken down by borough or for the Greater London area.

Truancy (Tamworth)

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many children in the Tamworth constituency played truant from school in each of the last 10 years. [173286]

Mr. Ivan Lewis: The information requested has been placed in the House of Commons Library.

Vocational Training

Mr. Simmonds: To ask the Secretary of State for Education and Skills what steps the Government is taking to improve *(a)* vocational training courses and *(b)* work-based learning in the public sector. [172626]

Mr. Ivan Lewis: The Government supports a range of high quality learning opportunities to meet skills needs in the public sector. Sector Skills Councils (SSCs) in the public sector will ensure that publicly-funded learning meets the needs of the economy. As part of that, Apprenticeships will play a major role in providing the skills needed in the workforce. To complement this, the employer-led Apprenticeship Task Force, chaired by Sir

Roy Gardner, is making good progress in increasing employer engagement, including in the public sector, and is due to report in Autumn 2004.

NORTHERN IRELAND

Accountancy Services

Mr. Cousins: To ask the Secretary of State for Northern Ireland what the *(a)* nature and *(b)* value was of all contracts, consultancies or other services placed with the accountancy firms (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01 by the Department and its agencies. [166088]

Mr. Pearson: The nature and value of all contracts, consultancies or other services placed with the four firms listed since 2000–01 for the Northern Ireland Administration (including the Northern Ireland Office itself, but excluding non-departmental public bodies) was as follows:

Nature	*Value (£)*
Deloitte & Touche	
Management Advisory	3,347,476.35
Financial Advisory	1,789,127.00
Assurance	142,492.30
Human Resources	15,093.43
Internal Audit[1]	386,076.00
Research	583,110.18
Marketing	0.00

Total[4]	11,813,868.82

[1] Some of these contracts were let by DRD to procure services on behalf of other Departments.

[2] The value of all contracts awarded to Deloitte & Touche by DSD in 2000–01 was £79,789.57.
DOE awarded Deloitte & Touche £75,450 in IT projects.
These amounts were not categorised but are included in the Deloitte & Touche total.

[3] The value of all contracts awarded to KPMG by DSD in 2000–01 was £1,233.75.
This amount was not categorised but is included in the KPMG total.

[4] The value of all contracts awarded to Pricewaterhouse Coopers by DSD in 2000–01 was £179,731.70.
DOE awarded Pricewaterhouse Coopers £303,035.00 in IT projects.
These amounts were not categorised but are included in the Pricewaterhouse Coopers total.

Deloitte & Touche Miscellaneous—contracts which were not categorised as follows:

Young people—work in relation to religion and morals today;

Security Consultation;

Training;

Redesign of processes and acquisition of new IT system and related work;

Provision of technical advice about the development of improved IT services;

Provision of technical advice on the development of cross-cutting IT services to the six Criminal Justice Organisations (CJOs);

Review of Qualifications for Probation Officers; and

IT.

Pricewaterhouse Coopers Miscellaneous—contracts which were not categorised as follows:

Provision of work study practitioners;

Training; and

PFI course tailored specifically to Health Estates.

Age Weighted Pupil Unit

Mr. Beggs: To ask the Secretary of State for Northern Ireland by what percentage funding for the Age Weighted Pupil Unit changed this year. [173203]

Mr. Gardiner: Funding under the Age Weighted Pupil Unit Factor within the Local Management of Schools funding formulae increased by 1.9 per cent. between 2003–04 and 2004–05. The amount of resources available for distribution under this factor reflects a drop in pupil numbers, the age profile of pupils, the resources required to fund other factors within the formulae and a 0.85 percentage point reduction in the level of Employers' Superannuation contributions for teachers, leading to lower costs in schools.

Allied Health Professionals

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps are being taken to facilitate allied health professionals in continuing professional development and training in Northern Ireland. [173585]

Angela Smith: The Department recognises the need for Health Care Professionals to update and maintain their professional competence through access to continuing professional development. In August 2002, the Department established a Centre for Professional Development for Allied Health Professionals. This centre provides a wide range of programmes, both profession specific and on a multi-professional basis, and representatives of relevant professions are involved in identifying priorities for training. The centre is in its early stages of development and the position will be kept under review.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland which local health trusts have formally implemented the 1996 Enabling Agreement with regard to allied health professions. [173595]

Angela Smith: The following HSS Trusts have formally implemented the 1996 Enabling Agreement:

Altnagelvin HSS Trust
Belfast City Hospital HSS Trust
Causeway HSS Trust
Craigavon Area Hospital HSS Trust
Greenpark Healthcare HSS Trust
Mater Infirmorum Hospital HSS Trust
Newry and Mourne HSS Trust
North and West Belfast HSS Trust
South and East Belfast HSS Trust
United Hospitals HSS Trust.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* consultants and *(b)* clinical specialists he estimates will be appointed within the allied health professions in the next (i) 12 months and (ii) 12 to 24 months. [173618]

Angela Smith: Staffing is a matter for individual Health and Social Services Trusts taking into account factors such as service needs and available resources. Information is not held centrally on projected appointments to specific grades.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* clinical specialists and *(b)* consultants there are within the allied health professions. [173619]

Angela Smith: The information requested is as follows.

Number of clinical specialists employed within allied health professions in Health and Social Services (HSS) Trusts as at 31 March 2004
Figures are given as headcount unless otherwise indicated

HSS[1] Trusts	Physiotherapy	Occupational Therapy	Speech and Language Therapy	Radiography

[1] Health and Social Services
[2] Whole-time Equivalent

There are no allied health profession consultants employed within any of the Health and Social Services Trusts.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what input frontline allied health professionals have in influencing departmental health policy locally. [173620]

Angela Smith: The Central Advisory Committee for the Allied Health Professions provides the formal mechanism for frontline allied health professionals to input consolidated advice to influence departmental health policy locally.

The present membership of the committee comprises of physiotherapists, occupational therapists, chiropodists/ podiatrists, dieticians, speech and language therapists,

radiographers, orthoptists, arts therapists, prosthetists and orthotists.

Alzheimer's Disease

Lady Hermon: To ask the Secretary of State for Northern Ireland (1) what percentage of his Department's health budget has been allocated to genetic research into the causes of Alzheimer's in each year since 2000; [173267]

(2) what plans he has to increase his Department's health budget allocation to genetic research into the causes of Alzheimer's in the current financial year. [173302]

Angela Smith: The Department of Health, Social Services and Public Safety has not allocated and is not currently planning to allocate any funding for research specifically into the potential genetic causes of Alzheimer's over the period in question. However, it is currently supporting a neurological research programme which is not classed as genetic research. The total budget for this five-year programme is £366,814, including initial funding of £21,913 in 2002–03, £52,570 in 2003–04 and there is a budget provision of £65,679 this year.

Lady Hermon: To ask the Secretary of State for Northern Ireland what percentage of his Department's health budget was spent on the development of treatment and care for Alzheimer's sufferers in each of the past three years; and if he will make a statement on the provision for those with Alzheimer's in Northern Ireland. [173273]

Angela Smith: The information requested is not available.

The Department recognises that, as people live longer, there will be a corresponding increase in the numbers who suffer from Alzheimer's disease and other dementia-related conditions. The needs of people with these conditions are currently being considered as part of the on-going Review of Mental Health and Learning Disability.

Arthritis

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what criteria are used to prioritise patients to receive new anti-TNF drugs for rheumatoid arthritis; and if he will make a statement. [173612]

Angela Smith: Priority is given to those patients who, having been assessed as suitable for treatment with anti-TNF drugs, have been on the waiting list for the longest time.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what obstacles prevent all rheumatoid arthritis sufferers deemed suitable for new anti-TNF drugs by their consultants from receiving them; and if he will make a statement. [173613]

Angela Smith: The decision on the appropriate treatment for an individual patient is a matter for the clinician concerned, in consultation with the patient. Ideally, all rheumatoid arthritis sufferers deemed suitable for anti-TNF drug treatment by their consultants should receive these medicines. However, rising demand, the high costs of these medicines and the infrastructure required to prepare and administer them, and limited health service resources result in some patients having to wait for this form of treatment. In the meantime they continue to receive conventional treatment for their condition.

Autism Services

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what funding has been provided for autism services in each of the past five years in the *(a)* Northern Board area and *(b)* rest of Northern Ireland. [173614]

Angela Smith: The information requested is not available centrally.

Bail

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many times defendants charged with murder in Northern Ireland have been released on bail in each year since 2000. [166440]

Mr. Leslie *[pursuant to his reply, 20 April 2004, Official Report, column 441W]:* I have been asked to reply.

The information contained in my previous answer was inaccurate. I apologise for this error, which was due to related charges of attempted murder and manslaughter being included in the annualised totals.

In 2001, 10 defendants on murder charges were released on bail.

In 2002, 11 defendants on murder charges were released on bail.

In 2003, 10 defendants on murder charges were released on bail.

Body Piercing and Tattooing

Lady Hermon: To ask the Secretary of State for Northern Ireland with what frequency inspections are carried out on body piercing and tattooing establishments in Northern Ireland; what the nature of such inspections is; and by whom they are carried out. [173811]

Angela Smith: Inspections of body piercing and tattooing establishments are in general carried out by Environmental Health Officers employed by district councils. The frequency of such inspections is a matter for each council and information on this is not held centrally.

Under Part V of the Local Government (Miscellaneous Provisions) (Northern Ireland) Order 1985, district councils may control tattooing and ear-piercing practices in their districts. Inspections of these establishments are carried out to ensure the cleanliness and hygiene of the premises, the practitioners and the equipment used; inspections of establishments engaged in body piercing (other than ear piercing) are carried out to ensure compliance with the requirements of health and safety at work legislation.

Civil Partnerships

Mr. Swayne: To ask the Secretary of State for Northern Ireland how many respondents were *(a)* in favour of and *(b)* against the Government's proposals

set out in the consultation document Civil Partnerships: A Legal Status for Committed Same Sex Couples in Northern Ireland. [170719]

Mr. Pearson: A report analysing the responses, containing statistical information and outlining the Government's approach to the issues raised by respondents to the consultation is being compiled and will be published within the next few weeks.

Departmental Expenditure (Entertainment)

Mr. Laws: To ask the Secretary of State for Northern Ireland what his latest estimate is of the amount spent by his Department on entertainment in each year from 1996–97 to 2004–05. [169005]

Mr. Pearson: The estimated total spend by the 11 departments of the Northern Ireland Administration and the Northern Ireland Office on all forms of entertainment in each financial year from 1996–97 to 2004–05 is set out in the following table:

	Total (£)
1996–97	681,358
1997–98	668,280
1998–99	803,170
1999–2000	813,959
2000–01	841,778
2001–02	756,189
2002–03	865,859
2003–04[1]	852,548
2004–05[2]	908,622

[1] Provisional outturn
[2] Estimated outturn

Departmental Procurement

Michael Fabricant: To ask the Secretary of State for Northern Ireland what percentage of the *(a)* crockery, *(b)* cutlery and *(c)* glassware procured by his Department over the last five years is of British or Northern Ireland manufacture. [170805]

Mr. Pearson: As there is no requirement on departments to hold records on the country of origin of crockery, cutlery or glassware the information requested could be obtained only at disproportionate cost.

Early Retirement

Bob Spink: To ask the Secretary of State for Northern Ireland how many employees in his Department took early retirement in the last financial year; and at what total cost. [171728]

Mr. Pearson: The number of employees, covered by the Principal Civil Service Pension Scheme (Northern Ireland) who took early retirement in the financial year ending 31 March 2004 totalled 307 at a cost of £9,746,601.87. Of these, 226 retired early on grounds of ill health at a cost of £5,527,899.53.

The figures reflect the amounts actually paid out during the financial year 2003–04. The total cost of enhancements to pension benefits and the additional compensation amounts paid in advance of normal age of retirement is only available at disproportionate cost.

The figures include those applicable to Next Steps Agencies and NDPB's, which are also members of the Scheme.

Education Department Budget

Mr. Beggs: To ask the Secretary of State for Northern Ireland by what percentage the Department of Education's budget changed this year. [173204]

Mr. Gardiner: The Department of Education's budget is 7.9 per cent. higher than in 2003–04, reflecting a 43.2 per cent. increase in provision for schools infrastructure and an overall 4.2 per cent. increase on other budgets.

Emergency Cases

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what studies he has commissioned into speeding up the flow of emergency cases through local hospitals. [173604]

Angela Smith: Significant work is under way to improve the efficiency and effectiveness of processes for managing flows of emergency patients through hospitals. The Eastern Health and Social Services Board initiated the Improving the Flow of Emergency Admissions project at the Ulster Hospital in January 2003. Building on the lessons learned from this project, and the expertise and work of similar initiatives both in Northern Ireland and Great Britain, senior officials within my Department are progressing a Regional Programme to improve the flow of emergency admissions, ensuring that recognised best practice is implemented across all hospitals in Northern Ireland.

European Working Time Directive

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what action will be taken against health trusts that fail to meet the European Working Time Directive targets by August. [173592]

Angela Smith: Further to my reply of 11 February 2004, *Official Report*, column 1519W, I can confirm that proposed action against employers who do not comply with the European Working Time Directive (EWTD), has not been indicated by the European Commission (EC) at this stage. The EC are currently considering responses to their public consultation on the implications of the Working Time Directive and subsequent legal rulings and action on failure to comply will only be determined after this.

However, the Department recognises the problems that will arise with the application of the full requirements of the EWTD and is working with HPSS employers and the BMA to ensure compliance.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland which health trusts are compliant with the European Working Time Directive. [173593]

Angela Smith: Trusts are currently undertaking a monitoring exercise, which is looking at junior doctors working patterns and rest requirements for both New Deal and European Working Time Directive (EWTD). Responses are due with the Department by early June and a clearer picture will emerge at that stage.

However, the previous monitoring data indicated that 91 per cent. of junior doctors overall were already working and being trained in less than 56 hours per week, and so were meeting the EWTD requirements for August 2004 in terms of average weekly number of hours worked.

Front-Line Nurses

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what is being done to increase the involvement of front-line nurses in departmental policy formulation. [173601]

Angela Smith: Front-line nurses have a range of opportunities to contribute to Departmental policy including membership of The Central Nursing Advisory Committee, secondments to the Department's Nursing and Advisory Group, participation in professional forums established by Nursing Officers and Midwifery Advisors from the Nursing and Midwifery Advisory Group and through established consultation procedures.

Infant Deliveries

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the *(a)* mortality and *(b)* morbidity rates were for (i) normal vaginal deliveries, (ii) caesarean sections and (iii) other deliveries in Northern Ireland in each of the last five years. [173584]

Angela Smith: The small numbers of maternal deaths in Northern Ireland preclude any robust statistical analysis of maternal death by mode of delivery. Wider literature from within the United Kingdom does indicate that whilst mortality rates for mothers are low no matter how delivered, caesarean section does carry a slightly increased relative risk compared to that for all deliveries.

Mortality and morbidity sequela are difficult to separate from the primary reasons for performing the caesarean section and detailed information about this is not routinely available.

With regard to mortality and morbidity in infants, without differentiating the underlying reasons for sections (emergency or planned), it is impossible to establish any direct correlation between mode of delivery and the nature of the subsequent morbidity. The maturity of the infant at the time of the caesarean section is the most important element of its survival and development.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* normal vaginal, *(b)* caesarean section and *(c)* other deliveries there have been in each of the last 10 years. [173610]

Angela Smith: The information requested is contained in the table.

	Mode of delivery				
Year of birth	*(a) Normal vaginal*	*(b) Caesarean section*	*(c) Other*	*Not known*	*Total births (live and still)*
1994	—	—	—	—	—
1995	16,775	3,971	2,924	283	23,953
1996	17,055	4,167	2,988	294	24,504
1997	16,345	4,655	2,957	196	24,153
1998	15,656	4,991	3,088	126	23,861
1999	14,773	5,312	2,943	150	23,178
2000	14,706	5,786	2,974	111	23,577
2001	13,662	5,410	2,737	95	21,904
2002	13,251	5,568	2,700	48	21,567
2003	13,375	5,726	2,625	132	21,858

Note:
Figures for 1994 are unavailable.

Irish Language/Culture

Lady Hermon: To ask the Secretary of State for Northern Ireland how much funding his Department allocated to support for *(a)* the Ulster Scots culture and language and *(b)* the Irish culture and language in each of the last three years, expressed on a per capita basis of those who claim to identify with each. [171925]

Angela Smith: This information is not available in the format requested.

The Department of Culture, Arts and Leisure jointly funds the Ulster-Scots Agency and the Irish Language Agency. The Ulster-Scots Agency has a statutory remit to promote Ulster-Scots language and culture. The Irish Language Agency has a statutory remit to promote the Irish language.

Funding is also available from departmental mainstream programmes for projects which may have an Irish or Ulster-Scots language or culture dimension which cannot be separated from the primary funding objectives.

Jurisdiction of the Visitor Scheme

Mr. Beggs: To ask the Secretary of State for Northern Ireland what representations he has received from *(a)* students and *(b)* higher education institutions regarding the (i) introduction of an independent adjudicator to hear student complaints and (ii) ending of the Jurisdiction of the Visitor Scheme. [173210]

Mr. Gardiner: On 8 April 2004, the Department for Employment and Learning launched its consultation on proposals to introduce variable deferred fees, access agreements and a review of the student complaints

system. The closing date for response is 30 June 2004 and, to date, no responses have been received from students or higher education institutions regarding the introduction of an independent adjudicator to hear student complaints or ending the jurisdiction of the Visitor Scheme.

Language Public Bodies

Mr. Dodds: To ask the Secretary of State for Northern Ireland what the budget for the *(a)* North/South Language Body and *(b)* Ulster Scots Agency was in each year since its formation. [172762]

Angela Smith: The budget for the North/South Language Body and the Ulster-Scots Agency for each year since its formation is as follows:

£ million

	North/South Language Body	*Ulster-Scots Agency*
2000	7.879	0.667
2001	11.41	1.29
2002	11.97	1.42
2003	12.95	1.54
2004	14.603	1.704

Lough Erne

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will introduce bye-laws to control jet skis and powerboats in Lough Erne. [173270]

Angela Smith: Waterways Ireland has responsibility for the management, maintenance, development and restoration of the inland navigable waterways of Ireland principally for recreational purposes. The waterways under the remit of the body are the Barrow Navigation, the Erne System, the Grand Canal, the Lower Bann, the Royal Canal, the Shannon-Erne Waterways and the Shannon Navigation.

Bye-laws for the regulation of the navigations already exists for Lough Erne under statute law Lough Erne (Navigation) Bye-laws (Northern Ireland) 1978 and Lough Erne (Navigation) (Amended) Bye-laws (Northern Ireland) 1986.

Waterways Ireland is currently in the process of revising the bye-laws for all their waterways including introducing bye-laws for the Lower Bann. The process will address all aspects of the navigations including jet skis and powerboats and it is hoped to go to public consultation towards the end of 2004.

Love for Life

Lady Hermon: To ask the Secretary of State for Northern Ireland when the outcome of Love for Life's central funding bid to *(a)* the Department for Education and *(b)* the Department of Health, Social Services and Public Safety will be announced. [173274]

Mr. Gardiner: The Department of Education will not be providing central funding for the Love for Life programme. The Chief Executive of Love for Life was advised in writing of this decision on 11 May.

The Department of Health, Social Services and Public Safety is not providing central funding to Love for Life. The Department is presently considering an application for project funding from Love for Life for a project on parent/child communication and the organisation has been asked for clarification on a number of points before a decision can be made.

Mental Health

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what guidelines are followed by health trusts wishing to purchase private houses in residential areas for the sole purpose of integrating people suffering from mental health problems; what facility is made for residents in the area to enable them to express their views on the proposals; and if he will make a statement. [173599]

Angela Smith: There is no specific guidance issued to Trusts regarding the purchase of private houses in residential areas for the sole purpose of integrating people suffering from mental health problems. However, the Department's Land Transactions Handbook gives practical advice to HSS Trusts regarding conducting land and property transactions.

Also, there is no specific advice issued to Trusts on what facility is made for residents in the area to enable them to express their views on the proposals. However, HSS Trusts are bound by planning law where facilities have more than six residents. In these cases, the Planning Service applies procedures for public consultation, when Trusts change the use of property or land, or develop new or existing premises.

Midwives

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many full-time midwives were employed in the NHS in Northern Ireland *(a)* in 1999, *(b)* in 1994 and *(c)* on 1 May. [173602]

Angela Smith: Figures for the number of full-time midwives employed within Health and Social Services (HSS) Trusts are given in the following table. The latest figures held are as at 31 March 2004. Figures have therefore been supplied as at 31 March 1994, 31 March 1999 and 31 March 2004.

Number of full-time midwives employed within HSS[1] Trusts as at 31 March 1994, 31 March 1999 and 31 March 2004

	Number
31 March 1994	666
31 March 1999	547
31 March 2004	492

[1] Health and Social Services.

In addition, as at 31 March 1994 there were 594 part-time midwives (WTE 369.82). As at 31 March 1999 there were 656 part-time midwives (WTE 432.10). As at 31 March 2004 there were 773 part-time midwives (WTE 502.86).

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps he is taking to increase the number of midwives in *(a)* hospitals and *(b)* the community. [173603]

Angela Smith: Recruitment of midwives is a matter for individual employers on the basis of service need.

The Department introduced direct entry midwifery training in September 2003 with the first intake of 15 students and continues to provide opportunities for entry to an 18 month shortened programme for qualified nurses—40 nurses commenced a programme in November 2003.

The number of commissioned training places is reviewed annually.

Overseas Nurses

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many nurses from overseas were working for the NHS in Northern Ireland on the latest date for which figures are available. [173742]

Angela Smith: Overseas nurses are employed both within the private sector and the HPSS in Northern Ireland but information is only held in respect of HPSS employees. As at 31 March 2004, the total number of overseas nurses employed within health and social services trusts in Northern Ireland was 779. Figures are detailed by trust in the following table.

HSS[1] trust	*Number*
Altnagelvin Group HSS Trust	30
Armagh and Dungannon HSS Trust	0
Belfast City Hospital HSS Trust	59
Causeway HSS Trust	14
Craigavon and Banbridge Community HSS Trust	0
Craigavon Area Hospital HSS Trust	50
Down Lisburn HSS Trust	55
Foyle Community HSS Trust	1
Greenpark Healthcare HSS Trust	67
Homefirst Community HSS Trust	20
Mater Infirmorum Hospital HSS Trust	54
Newry and Mourne HSS Trust	4
North and West Belfast HSS Trust	0
Royal Group of Hospitals HSS Trust	228
South and East Belfast HSS Trust	0
Sperrin Lakeland HSS Trust	38
Ulster Community and Hospitals Group HSS Trust	114
United Hospitals Group HSS Trust	45
Total	779

[1] Health and Social Services.

Paramilitaries (Drugs Trading)

David Burnside: To ask the Secretary of State for Northern Ireland what estimate he has made of revenues received by *(a)* the Provisional IRA, *(b)* the official IRA, *(c)* the Irish National Liberation Army, *(d)* the Ulster Defence Association, *(e)* the Ulster Volunteer Force and *(f)* the Loyalist Volunteer Force from illegal dealing and trading in drugs in the last five years. [173480]

Mr. Pearson: The involvement of paramilitary organisations in organised crime, including trafficking and supply of drugs, has been documented by the Independent Monitoring Commission in its report of 20 April and by the Organised Crime Task Force in its "Threat Assessment and Strategy" which was published on 11 May 2004.

It is not possible, however, to estimate with any precision how much revenue paramilitary groups generate from dealing and trading in illegal drugs.

Queen's University

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many students began courses at Queen's University's Armagh campus in each year since its establishment. [173598]

Mr. Gardiner: The details of the numbers of students registered at Queens University Armagh campus each year between 1995–96 and 2203–04 is as follows:

	Credit Bearing Course	*Extra Mural Course (P/T)*
1995–96	63	n/a
1996–97	137	n/a
1997–98	219	n/a
1998–99	184	n/a
1999–2000	235	94
2000–01	227	193
2001–02	271	146
2002–03	285	28
2003–04	235	64

The credit-bearing course totals cover a range of largely part-time programmes including BA part-time, Master, diploma and certificate courses.

School Building

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what penalties will be imposed on contracts to build schools awarded through public private partnership if handover dates are not realised; and if he will make a statement. [171027]

Mr. Gardiner: The terms and conditions under which a private sector contractor delivers services to a school authority through public private partnership, are detailed in the contractual arrangements negotiated between the parties. A PPP contractor normally borrows from banks or other financial institutions in order to pay for the construction of school facilities. The penalty for a contractor failing to deliver school facilities by the target date, which is specified in the contract, is therefore the servicing of a substantial loan while receiving no payment from the school authority. A school authority could seek additional protection in the contract though this would most likely increase the project cost.

Should a delay be caused by a school authority, compensation may be payable to the contractor.

Schools Funding

Mr. Beggs: To ask the Secretary of State for Northern Ireland if he will provide *(a)* each primary school head teacher with a direct payment of £55,000 and *(b)* each secondary school head teacher with a direct payment of £180,000 to spend on school priorities in 2005–06; and if he will make a statement. [170144]

Mr. Gardiner: In his Budget Statement, the Chancellor announced allocations for English schools in 2005–06 (£55,000 for a typical primary school and £180,000 for a typical secondary school). These are not additional allocations but represent the continuation, at 2005–06 levels, of allocations being made available to English schools in 2004–05.

As in England, Northern Ireland schools benefit each year from an additional budget allocation over and above their Local Management of Schools (LMS) delegated budgets. There is on-going provision for this in my Department's baseline for 2005–06. As the 2005–06 allocations for English schools do not represent additions to planned allocations, the question of additional allocations for either English or Northern Ireland schools does not arise.

Speech Therapy

Mr. Hume: To ask the Secretary of State for Northern Ireland what the average expenditure on speech therapy services per head of population in the primary and pre-primary school age group in each of the health trust areas in Northern Ireland was in the latest period for which figures are available. [173879]

Angela Smith: The information requested is not available.

Mr. Hume: To ask the Secretary of State for Northern Ireland what the average waiting time for speech therapy services for children in the primary and pre-primary school age group in each of the health trust areas in Northern Ireland was in the latest period for which figures are available. [173880]

Angela Smith: Information on average waiting times for speech therapy services for children is not collected centrally.

Mr. Hume: To ask the Secretary of State for Northern Ireland how many primary and pre-primary school children are awaiting speech therapy services in each of the health trust areas in Northern Ireland. [173881]

Angela Smith: Information on the number of children awaiting speech therapy services is not collected centrally.

Mr. Hume: To ask the Secretary of State for Northern Ireland what the per capita expenditure on speech therapy services in special schools in each of the health trust areas in Northern Ireland was in the latest period for which figures are available. [173882]

Angela Smith: The information is not available and could be provided only at disproportionate cost.

Mr. Hume: To ask the Secretary of State for Northern Ireland what the average speech therapy provision was in terms of time per child in special schools in each of the health trust areas in Northern Ireland in the latest period for which figures are available. [173883]

Angela Smith: The information is not available and could be provided only at disproportionate cost.

Mr. Hume: To ask the Secretary of State for Northern Ireland if he will make a statement on the ability of the health trusts in Northern Ireland to recruit and retain speech therapists. [173884]

Angela Smith: In a survey of speech and language therapists conducted by the Department, at 30 September 2003 there was only one long-term vacancy. However, the Department has completed a workforce planning report on the speech and language therapy workforce and its findings indicate that there is a projected shortfall over the next five years. The Department is considering how best to deal with this shortfall, including initiatives to address recruitment and retention issues. As an interim measure, additional funding was provided to increase by 10 the number of student places for speech and language therapy with effect from the 2001/02 academic year and by a further five places from 2002/03. These increased intake levels are being maintained and there are 140 students in training during the current academic year.

Sporting Venues

Lady Hermon: To ask the Secretary of State for Northern Ireland what steps are being taken by the Police Service for Northern Ireland to ensure that Windsor Park is maintained as a neutral sporting venue free from sectarian and racist activities. [172284]

Mr. Pearson: The primary responsibility for ensuring Windsor Park is maintained as a neutral sporting venue free from sectarian and racist activities rests with Linfield Football Club in regard to local matches and the Irish Football Association for international games. The Police Service of Northern Ireland work closely these organisations in developing a safe environment for all spectators.

Operationally, the PSNI role focuses on crime and disorder outside the ground, and on occasions the deployment of officers if crowd violence occurs.

It is pleasing to note that the atmosphere during recent international matches has been good with an absence of sectarian and racist chanting. The PSNI believe that this is, in no small part, due to the excellent work carried out by Community Relations officials attached to the Irish Football Association.

Teachers' Pay Dispute

Mr. Beggs: To ask the Secretary of State for Northern Ireland what advice has been given to school principals regarding their legal rights and responsibilities in relation to employees who go on strike. [173206]

Mr. Gardiner: Industrial action short of a strike commenced on 5 January by four of the five teachers' unions. At that stage Employing Authorities issued advice to schools in relation to issues likely to arise from such industrial action.

To date the teachers' unions have stopped short of strike action. Consequently the Employing Authorities have not issued advice in this regard. Should the teachers' unions give notification of their intention to commence a campaign of strike action, the Employing Authorities will, in advance of this, issue appropriate guidance to their schools.

Mr. Beggs: To ask the Secretary of State for Northern Ireland what progress has been made towards settling the teachers' pay dispute; and if he will make a statement. [173207]

Mr. Gardiner: I recently held separate meetings with the employers and union representatives. At these meetings I made it clear to both sides that the Department has the money in its budget at present to enable backdating to September 2003, providing early agreement is reached to an SDPM Scheme. This is in line with the recommendations of the Independent Inquiry

on teachers' pay and would give the 12,500 teachers who are already on the first point of the Upper Pay Scale an extra £1,062 each a year. I also stressed that movement on the Upper Pay Scale has to be accompanied by a performance management scheme, as has been the case in England and Wales since 2000.I also made it quite clear that the money is not available for backdating beyond the Inquiry's recommendations.

The teacher unions and the employers have been in talks with the Labour Relations Agency, and they are keen to reach an early and realistic resolution. At the most recent LRA meeting the teachers' unions agreed to work together with Management Side to consider and agree a School Development and Performance Management Scheme which is acceptable to both sides.

Waiting Times

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many individuals are awaiting an initial appointment with a hospital consultant. [173617]

Angela Smith: The latest available waiting list figures show the position at 31 December 2003, when there were 146,180 people awaiting a first outpatient appointment (including cancellations and deferrals) in Northern Ireland.

This information is published in the "Northern Ireland Waiting List Quarterly Information Release" on the first Thursday in March, June, September and December. A copy of this publication is placed in the House of Commons Library or can be obtained from the DHSSPS website, internet address: www.dhsspsni.gov.uk/publications/index.html

HEALTH

Drug Action Teams

Mr. Laws: To ask the Secretary of State for Health what the real terms percentage change in the budget for each drug action team in England was in each year from 1996–97 to 2003–04; what the percentage change will be from 2003–04 to 2004–05; and if he will make a statement. [163883]

Miss Melanie Johnson: The Department does not have information centrally on individual drug action team (DAT) budgets for the time period 1996–2004.

This is the first Government to make substantial funding available for drug treatment. The pooled drug treatment budget totalled £129 million in 2001–02. In 2002–03, the total budget was £195.7 million and this increased to £243.6 million in 2003–04. This additional funding means that all DATs received a minimum increase of 30 per cent. in 2002–03, with a further average increase of 24 per cent. in 2003–04.

Drug Treatment

Mr. Hendrick: To ask the Secretary of State for Health how many people in Preston are receiving drug treatment. [169695]

Miss Melanie Johnson: In 2000–01, there were a total of 2,874 people receiving drug treatment in the area covered by the drug action team for Lancashire. This is the latest available data. Data broken down by drug action team for 2001–02 and 2002–03 has not yet been finalised and published.

Source:
DH Statistics

Pregnancy/Sexual Health Statistics

Mr. McNamara: To ask the Secretary of State for Health how many teenage pregnancies were recorded over the past five years; and how many cases of sexually transmitted diseases were recorded in the same period. [169256]

Miss Melanie Johnson: Conceptions in women aged under 18, in England, for the years 1998 to 2002 are shown in the table:

	Conceptions
1998	41,089
1999	39,247
2000	38,699
2001	38,439
2002	39,286

Source:
Office of National Statistics

The total number of teenagers (patients who were under 20 years of age) treated for the principle sexually transmitted infections[1] in genitourinary medicine (GUM) clinics in England from 1998 to 2002 are shown in the table.

[1] Infectious syphilis, uncomplicated gonorrhoea, uncomplicated chlamydial infection, genital herpes (first attack) and genital warts (first attack).

Sex description	*1998*	*1999*	*2000*	*2001*	*2002*
Female	20,979	23,018	25,225	27,346	29,795
Male	6,530	7,768	9,116	9,694	11,026
Total	27,509	30,786	34,341	37,040	40,821

Source:
Health Protection Agency, KC60 statutory returns from GUM clinics.

Blackout Clinics/Nurses

Mr. Maples: To ask the Secretary of State for Health what plans he has to make available provision for blackout *(a)* clinics and *(b)* nurses. [169269]

Miss Melanie Johnson: On 12 March 2004, the Government announced that a new national service framework chapter on arrhythmias and sudden cardiac death would be published within one year.

An expert group will be formed to take this work forward and they will consider any issues relevant to blackouts as part of their work.

Body Piercing/Tattooing

Lady Hermon: To ask the Secretary of State for Health with what frequency inspections are carried out on body piercing and tattooing establishments; what the nature of such inspections is; and by whom they are carried out. [173810]

Miss Melanie Johnson: Local authorities inspect body piercing and tattooing businesses in relation to the hygiene and cleanliness of premises, practitioners and equipment, and health and safety at work issues. The frequency of such inspections is a matter for local determination and we do not collect information on this centrally.

Lady Hermon: To ask the Secretary of State for Health what regulations are in place to prevent children aged under 16 years obtaining body piercings and tattoos without their parents' consent; and if he will make a statement. [172043]

Miss Melanie Johnson *[holding answer 12 May 2004]:* There is no statutory age of consent for body piercing. Minors are able to give valid consent themselves if they are capable of understanding the nature of the act to be done. A statutory minimum age of consent for tattooing (18 years of age) is specified in the Tattooing of Minors Act 1969.

The Government have no current plans to introduce legislation to provide for a statutory age of consent for body piercing as this might lead to minors piercing themselves or each other in an unhygienic manner, or to go into disreputable businesses. We keep the position under review.

The Health and Safety Executive has produced guidelines for local authorities on the enforcement of skin piercing activities. These contain useful advice for local authorities in working with businesses to promote a reasonable approach to age of consent issues.

Care Homes

Charles Hendry: To ask the Secretary of State for Health what representations he has received regarding a reduction in the number of inspections required each year by care homes. [162376]

Dr. Ladyman *[pursuant to his reply, 22 March 2004, Official Report, c. 590W]:* I regret my previous reply was incorrect, it should read as follows:

My right hon. Friend the Secretary of State has received one representation regarding a reduction in the number of inspections required each year by care homes.

Childhood Immunisation

Keith Vaz: To ask the Secretary of State for Health what progress has been made on the inclusion of Prevenar in the UK childhood immunisation programme. [173180]

Miss Melanie Johnson: New studies have been taken forward by the Health Protection Agency for the inclusion of pneumococcal conjugate vaccine (Prevenar) into the United Kingdom childhood immunisation programme and a decision will be taken at the end of these studies. The timing is dependent on the rate of recruitment of children to these studies.

Children (Chronic Illness)

Tim Loughton: To ask the Secretary of State for Health what proportion of children with chronic illness suffer from *(a)* asthma, *(b)* eczema and *(c)* respiratory conditions. [169483]

Dr. Ladyman: This information is not collected in the form requested. The latest hospital episode statistics for children aged 0–16 years with these conditions are shown in the table. Admissions may relate to more than one episode for the same child.

Primary Diagnosis: Asthma (ICD-10 diagnosis codes J45, J46), Eczema (L20-L30, B00.0), (Respiratory conditions (J00-J99). Age on admission 0–16 years. Count of finished admission episodes—NHS Hospitals England 2002–03

Diagnosis grouping	*Finished admission episodes*
Respiratory conditions	179,357
Of which:	
Asthma	25,166
Eczema	3,876

Notes:

Finished admission episodes

A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Diagnosis (Primary Diagnosis)

The primary diagnosis is the first of up to 14 (7 prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.

Ungrossed Data

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed). *Source:*

Hospital Episode Statistics (HES), Department of Health.

Children's Diet

Tim Loughton: To ask the Secretary of State for Health what estimate he has made of the percentage of school-age children who eat five portions of fruit and vegetables per day. [165577]

Miss Melanie Johnson: The latest Health Survey for England (2002) provides data on the percentage of children who eat five or more portions of fruit and vegetables a day. The tables show the percentages for each age, which for children aged five to 15 average 11 per cent. of boys and 12 per cent. of girls.

In a National Opinion Poll survey in October 2003 regarding the impact of the National School Fruit Scheme, over a quarter of parents reported that their children and families ate more fruit at home after their child's school joined the scheme; and nearly half of all parents thought the scheme has made them more aware of the importance of fruit for a healthy diet.

Percentage of children aged between five and 15 years who consume five or more portions of fruit and vegetables per day—England, 2001–02

Age	*Males*	*Females*
5	11	10
6	10	8
7	9	11
8	9	11
9	10	9

Total	11	12

Percentage of young people aged 16 to 19 years who consume five or more portions of fruit and vegetables per day

Age	Males	Females
16	13	14
17	15	16
18	13	16
19	13	18
Total	15	18

Note:
The figures are based on combined data from 2001 and 2002.
Sources:
National Centre for Social Research (NatCen) Health Survey for England 2002, the Department of Epidemiology and Public Health and the Royal Free and University College Medical School: Volume 1—The Health of Children and Young People.

Contraception

Tim Loughton: To ask the Secretary of State for Health (1) what assessment he has made of the reasons for the change in the number of contraceptive injections given to school-aged girls in the last five years; [171067]

(2) what protocols apply to the giving of the contraceptive injection to school-aged girls; [171068]

(3) what the primary method of contraception was of teenage girls *(a)* below the age of 16 years and *(b)* over the age of 16 years in each of the last five years; [171069]

(4) for what reasons implants were not used as the primary method of contraception for school aged girls between 1997–98 and 1999–2000; [171221]

(5) what factors influence the decision to give a contraceptive injection rather than the contraceptive pill to school-aged girls. [172311]

Miss Melanie Johnson: There has been an increase in the use of contraceptive injections administered in family planning clinics among girls aged under 16, in the last five years. There is currently very low uptake of non-user dependent methods of contraception in women of all ages. Increasing and improving access to all methods of contraception are aims of both the teenage pregnancy strategy and the sexual health and HIV strategy, to reduce rates of unintended pregnancies.

Decisions about the most suitable type of contraception are for individuals to make in consultation with health professionals. Health professionals can provide contraception to young people under 16, working within an established legal framework, provided they are satisfied that the young person is competent to fully understand the implications of any treatment and to make a choice of the treatment involved.

The data requested on methods of contraception used by teenage girls, are published in table 2 of the statistical bulletin "NHS Contraceptive Services, England: 2002–03" and in the equivalent table in earlier bulletins, available in the Library and at:

www.publications.doh.gov.uk/public/sb0315.htm

www.publications.doh.gov.uk/public/sb0220.htm

www.publications.doh.gov.uk/public/sb0127.htm

www.publications.doh.gov.uk/public/sb0027.htm

www.publications.doh.gov.uk/public/sb9930.htm

Note that these data are available for family planning clinics only. Data from general practitioners are not available by age.

The first and only available contraceptive implant product was withdrawn from use by the licence holder in 1998–99, before being replaced by another product which was licensed in 1999, hence low usage in women of all ages at that time.

Correspondence

Mr. Amess: To ask the Secretary of State for Health when he intends to reply to the hon. Member for Southend, West's letters of *(a)* 13 October 2003 and *(b)* 26 January 2004. [164392]

Miss Melanie Johnson *[holding answer 30 March 2004]:* A reply was sent to the hon. Member on 13 May.

Dentistry

Mr. Hepburn: To ask the Secretary of State for Health how much was spent per capita on NHS dentistry in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997; and what spending is projected for 2004. [162837]

Miss Melanie Johnson: Gross fees paid to dentists per capita on general dental service (GDS) dentistry in South Tyneside Primary Care Trust (PCT), the North-East and for England in each year since 1997 is shown in the table. Jarrow constituency is covered by South Tyneside PCT. Figures for 2002–03 are split between the previous health authorities for the first six months and the new PCT (for South Tyneside) and strategic health authorities (for the North-East) for the later six months. To ensure comparability, these are expressed as an annual rate.

Expenditure figures for 2003–04 are not yet available. Under current arrangements, local budgets are not required, or calculated, for 2004. The GDS budget for 2004–05 is a non-discretionary budget, which is held centrally, and expenditure is determined by dental activity.

Gross fees cover payments for patient registrations and treatments and exclude additional payments such as superannuation contributions. Gross fees include patient charges.

These expenditure figures do not cover expenditure in other national health service dental services; the personal dental service, community dental service and hospital dental service.

Gross fees per capita on GDS dentistry for each financial year from 1997–98

Financial year	South Tyneside[1]	North East	England
1997–98	27.64	27.21	26.12
1998–99	29.88	29.36	27.68
1999–2000	30.45	30.28	28.02
2000–01	31.74	30.83	29.07
2001–02	33.20	32.17	30.55
2002–03 (April to September)[1]	33.12	31.53	30.79
2002–03 (October to March)[1]	34.84	34.91	31.76

[1] For 1997–98 to 2002–03 (Apr to Sept.) figures cover Gateshead and South Tyneside Health Authority (HA) area. From 2002–03 the figures cover South Tyneside PCT.

[2] Between 1997–98 and 2002–03 (April to September) the North-East includes the following HAs: County Durham and Darlington, Gateshead and South Tyneside, Newcastle and North Tyneside, Northumberland, Sunderland and Tees. From 2002–03 (October to March), it includes Northumberland, Tyne and Wear Strategic Health Authority (SHA) and County Durham and Tees Valley SHA.

[3] Figures for 2002–03 are split between the previous HAs for the first six months and the new PCT (for South Tyneside) and SHAs (for the North-East) for the later six months. To ensure comparability, these are expressed as an annual rate. Figures have been expressed at an annual rate by multiplying half-year figures by two.

Miss McIntosh: To ask the Secretary of State for Health what plans he has to increase the number of dentists offering NHS dental treatment in the Vale of York. [173031]

Miss Melanie Johnson: Selby and York Primary Care Trust is working closely with local dentists and the North and East Yorkshire and North Lincolnshire Strategic Health Authority to identify opportunities for investment in local dental practices in order to improve access to national health service dentistry.

Mr. Cummings: To ask the Secretary of State for Health how many *(a)* private dentists and *(b)* NHS dentists there are in the Easington constituency. [170117]

Miss Melanie Johnson: The Department does not collect information on the number of private dentists, as this is a matter for individual contractors. There were 14 national health service dentists in Easington in December 2003.

Departmental Staff

Matthew Taylor: To ask the Secretary of State for Health how many staff were employed in the Department to work in the communications field, and what the total expenditure on communications for the Department was, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others, in (A) 1994–95, (B) 1996–97, (C) 1997–98 and (D) 2001–02. [168678]

Ms Rosie Winterton: The number of staff that were employed in the Department's communications field and what expenditure on communications for the Department broken down by Government information and communication service staff and other staff for the financial years 1994 to 2002 can be provided only at disproportionate costs.

Information on numbers and costs of press officers from 1994 to 2002 is shown in the table.

	Number	*Cost (£ million)*
1994–95	14	[1]—
1995–96	17	[1]—
1996–97	17	[1]—
1997–98	15	[2]1,062
1998–99	15	[2]1,239
1999–2000	16	[2]1,253
2000–01	19	[2]1,233
2001–02	22	[2]1,279

[1] The Department's staffing cost information for press and publicity division for 1994–97 does not separately identify the cost of the press office or individual press officers. This level of detail has only been available since 1997–98.

[2] These figure are for the total staff costs in the Departments media centre. Press officer costs cannot be identified separately.

Note:

The increased costs reflect increased/new activity.

The special advisers' code of conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity. Details of the costs of special advisers are issued on an annual basis.

John Mann: To ask the Secretary of State for Health what principles govern workplace drug abuse agreements with trade unions in his Department. [171629]

Ms Rosie Winterton: The agreed policy is part of the Department's health and safety policy statement.

The relevant section reads:

"Alcohol and drugs. Recreational drugs are not allowed on the premises. Drugs prescribed by a doctor or over the counter medication should be kept secure."

If a member of staff were found in possession of recreational drugs on the Department's premises, they would face disciplinary action as well as appropriate police action.

Diagnostic and Treatment Centres

Mr. Pike: To ask the Secretary of State for Health whether there is a diagnostic and treatment centre located in Burnley. [167948]

Miss Melanie Johnson: There is no diagnosis and treatment centre located in Burnley. However a treatment centre is located in Manchester.

Mr. Hendrick: To ask the Secretary of State for Health whether there is a diagnostic and treatment centre located in Preston. [168106]

Miss Melanie Johnson: There is no diagnosis and treatment centre in Preston. However, a treatment centre is located in Ormskirk.

Tony Cunningham: To ask the Secretary of State for Health whether there is a diagnostic and treatment centre located in Workington constituency. [170714]

Miss Melanie Johnson: There is no diagnosis and treatment centre located in Workington.

Disability Discrimination Act

David Taylor: To ask the Secretary of State for Health what measures are in place to ensure that the NHS will be in full compliance with the relevant provisions of the Disability Discrimination Act 1995 by October. [170968]

Dr. Ladyman: National health service organisations are responsible for their own compliance with the new, and existing, provisions of the Disability Discrimination Act. The Department is, however, working in partnership with the Disability Rights Commission on a range of measures to support the NHS in assessing and improving progress on disability access. These measures include, for example, ensuring that core practical guidance is readily available to the NHS and

contributing to the development of health sector-specific guidance being produced by the Disability Rights Commission.

Drug Research Data Publication

Mr. Watson: To ask the Secretary of State for Health what plans he has to give the National Institute for Clinical Excellence powers to compel pharmaceutical companies to provide unpublished drug research data. [171235]

Ms Rosie Winterton: We have no plans to do so.

Erectile Dysfunction

Dr. Gibson: To ask the Secretary of State for Health pursuant to his answer of 5 May 2004, *Official Report*, column 1613W, on erectile dysfunction, if he will ask primary care trusts to collate information on recorded instances of erectile dysfunction, broken down by age group. [172790]

Miss Melanie Johnson: We have no plans to do so.

Dr. Gibson: To ask the Secretary of State for Health pursuant to his answer of 6 May 2004, *Official Report*, column 1793W, on erectile dysfunction, if he will redraft Health Service Circular 1999/177 to include guidance on what constitutes severe distress for the purposes of the treatment of erectile dysfunction. [172791]

Miss Melanie Johnson: Health Service Circular (HSC) 1999/177, issued on 6 August 1999, contains guidance to general practitioners on criteria for determining whether a patient is suffering from severe distress as a result of erectile dysfunction.

We have no plans to issue further guidance.

Eye Tests (Manchester, Blackley)

Mr. Stringer: To ask the Secretary of State for Health how many residents in Manchester, Blackley aged over 60 years have benefited from the abolition of charges for eye tests. [172886]

Miss Melanie Johnson: Data for the number of sight tests by constituency or by the number of senior citizens is not collected centrally.

In 2002–03, the total number of national health service sight tests paid for by the Greater Manchester Strategic Health Authority for patients aged 60 and over was 189,900. The total number eligible for a free sight test for those aged 60 and over was 493,100. Sight tests cannot be equated to the numbers of patients.

Food Additives

Mr. Roger Williams: To ask the Secretary of State for Health (1) what quantities of *(a)* aspartame, *(b)* monosodium glutamate and *(c)* saccharine were used in foods processed in the UK in each year since 1989; [172349]

(2) what estimate he has made of the *(a)* average daily and *(b)* annual per capita consumption of (i) aspartame, (ii) saccharine and (iii) monosodium glutamate in each year since 1989. [172363]

Miss Melanie Johnson *[holding answers 11 May 2004]:* I am advised by the Food Standards Agency (FSA) that when additives are authorised for use maximum use levels are set to ensure the acceptable daily intake (ADI) is not exceeded. The ADI is defined as the amount of a food additive, expressed as mg/kg body weight, that can be ingested daily over a lifetime without incurring any appreciable health risk.

The ADIs for aspartame and saccharin are 40 and 5 mg per kilogram of body weight per day respectively. An 'ADI not specified' was set for monosodium glutamate reflecting the fact that glutamate is a component of animal and plant protein and represents some 20 per cent. of ingested protein of the normal diet.

Surveys of additive intake are not conducted on an annual basis, however the following intake data are available from studies conducted between 1991 and 2003.

In 1991 mean intakes of monosodium glutamate were assessed to be 600 mg per person per day and 1,300 mg per person per day for the general population and school children respectively.

In 1993 the per capita intake of aspartame, saccharin and monosodium glutamate was assessed to be:

	Per capita intake
Aspartame	19.6 mg/person/day (13 per cent. of ADI)
Saccharin	12.2 mg/person/day (8.2 per cent. of ADI)
Monosodium glutamate	264.2 mg/person/day (ADI not specified)

The mean intake of aspartame and saccharin by United Kingdom consumers was assessed in 1999 to be:

	Adult	*Children*
Aspartame	5.30 mg/kg bw/day 13 per cent. of ADI	15.91 mg/kg bw/day 40 per cent. of ADI
Saccharin	0.92 mg/kg bw/day 18 per cent. of ADI	2.56 mg/kg bw/day 51 per cent. of ADI

In May 2003, a survey by the FSA reported the intake of intense sweeteners from soft drinks by young children. The mean intake by young children was assessed to be:

	Mean intake
Aspartame	3.38 mg/kg bw/day 8 per cent. of ADI
Saccharin	1.16 mg/kg bw/day 23 per cent. of ADI

Figures are not collected on the total quantity of additives used in foods processed in the UK.

Mr. Roger Williams: To ask the Secretary of State for Health what regulations cover the labelling of foods containing *(a)* aspartame, *(b)* monosodium glutamate and *(c)* saccharine, (i) produced in this country and (ii) imported. [172350]

Miss Melanie Johnson *[holding answer 11 May 2004]:* The labelling of foods containing additives, including aspartame, monosodium glutamate and saccharin, are covered in the United Kingdom by the Food Labelling

Regulations 1996. These implement the Food Labelling Directive 2000/13 EC. Foods imported into the UK and sold here would also have to comply with this legislation.

Free Eye Tests

Mr. Cummings: To ask the Secretary of State for Health how many senior citizens took advantage of free eye tests in the area covered by the Easington Primary Care Trust in *(a)* 2002 and *(b)* 2003. [170120]

Miss Melanie Johnson: Figures for the number of sight tests by primary care trust (PCT) are not available for the years 2002 and 2003. PCTs took over the responsibilities of health authorities in England from October 2002. Data are collected by eligibility as opposed to numbers of senior citizens.

In 2002–03 the total number of national health service sight tests paid for patients aged 60 and over in the Co. Durham and Tees Valley Strategic Health Authority (SHA) for the year 2002–03 was 92,430. The total eligible for a free sight test for those aged 60 and over was 243,770. The total number of NHS sight tests paid for by the SHA in 2002–03 was 225,350

Sight tests can not be equated to the numbers of patients.

Health Expenditure (Lancashire)

Mr. Pike: To ask the Secretary of State for Health how much public funding has been spent on health in Burnley in each of the last seven years. [167958]

Miss Melanie Johnson: The information is not available in the format requested. Expenditure per weighted head in the Cumbria and Lancashire Strategic Health Authority (SHA) area, which includes the constituency of Burnley, has increased from £600.03 in 1997–98 to £1,173.57 in 2002–03 (the latest year available). This does not represent the total expenditure per head as an element of health expenditure cannot be identified by SHA area.

Mr. Hendrick: To ask the Secretary of State for Health how much public funding has been spent on health in Preston in each of the last seven years. [168100]

Miss Melanie Johnson: The information is not available in the format requested. Expenditure per weighted head in the Cumbria and Lancashire Strategic Health Authority (SHA) area, which includes the constituency of Preston, has increased from £600.03 in 1997–98 to £1,173.57 in 2002–03 (the latest year available). This does not represent the total expenditure per head as an element of health expenditure cannot be identified by SHA area.

Health Services (West Lancashire)

Mr. Pickthall: To ask the Secretary of State for Health how many NHS *(a)* doctors and *(b)* nurses there were in West Lancashire in each of the last seven years. [171548]

Miss Melanie Johnson *[holding answer 10 May 2004]:* The information requested is shown in the following tables.

NHS doctors within specified organisations for West Lancashire 1997 to 2003

Hearing-impaired Patients

David Taylor: To ask the Secretary of State for Health (1) what steps he is taking to address the problems experienced by deaf or hard of hearing patients who miss NHS appointments due to poor communication; [170969]

(2) what plans there are to introduce *(a)* loop systems for hearing aid users and *(b)* visual displays in (i) reception areas and (ii) consulting rooms in general practitioner surgeries. [170970]

Dr. Ladyman: I refer my hon. Friend to the reply I gave my hon. Friend the Member for Warrington, North (Helen Jones) on 10 May 2004, *Official Report*, column 163W.

Heart Surgery (Manchester, Blackley)

Mr. Stringer: To ask the Secretary of State for Health how many people in Manchester, Blackley awaiting heart surgery have had the option of choosing an alternative hospital for quicker treatment in the last 12 months. [172887]

Miss Melanie Johnson: The information requested is not collected centrally.

HIV/AIDS

Mr. Jim Cunningham: To ask the Secretary of State for Health how many people were suffering from HIV/Aids on the latest date for which figures are available, broken down by age group. [173479]

Miss Melanie Johnson *[holding answer 17 May 2004]*: The latest information on numbers of diagnosed HIV-infected individuals seen for care by the national health service, including breakdown by age, is available from the Health Protection Agency's website at http://www.hpa.org.uk/infections/topics_az/hiv_and_sti/publications/sophid2002.pdf.

Immigrant Medical Inspections

Mr. Randall: To ask the Secretary of State for Health what reports have been *(a)* commissioned and *(b)* received by his Department since 1997 on the usefulness of screening immigrants for TB by X-ray at the ports of entry; and if he will publish them. [156844]

Miss Melanie Johnson: A four-month pilot study of the medical inspection function was conducted at Heathrow airport in 1997 which tested an approach whereby immigrants who were high risk for Tuberculosis were screened by the health control unit only if they had no valid United Kingdom address; in other cases the unit simply forwarded their contact details to the districts concerned to arrange screening. The report was distributed to those involved in the study, including Hillingdon health authority. Copies have been placed in the Library.

Immunisation

Mr. Burstow: To ask the Secretary of State for Health what representations he has received on the availability of appropriate treatment for children with brain damage caused by immunisations. [166823]

Miss Melanie Johnson: I have not received representations on the availability of appropriate treatment for children with brain damage caused by immunisations.

Implantable Cardiac Defibrillators

Mr. Maples: To ask the Secretary of State for Health what guidance he has given to NHS trusts on the criteria to be used in prioritising patients for implantable cardiac defibrillator procedures. [172900]

Miss Melanie Johnson: The National Institute of Clinical Excellence (NICE) undertook a technology appraisal and published guidance on the use of implantable cardiac defibrillators (ICD) for arrhythmias in 2000. It was circulated to all national health service trusts and it detailed which patients should be considered for the use of ICDs.

This is currently being reviewed by NICE and further guidance is expected to be published in July 2004.

A copy of the current guidance has been placed in the Library and can be found on the NICE website at: http://www.nice.org.uk/pdf/nice + defibrillator + + guidance.pdf

Medical Staff (Manchester, Blackley)

Mr. Stringer: To ask the Secretary of State for Health how many NHS *(a)* doctors and *(b)* nurses there were in Manchester, Blackley in each of the last seven years. [172885]

Miss Melanie Johnson: The information requested has been placed in the Library.

Mid-Essex Hospital Trust

Mr. Burns: To ask the Secretary of State for Health how many patients are waiting for inpatient treatment in the Mid-Essex Hospital Trust area. [172209]

Dr. Ladyman *[holding answer 12 May 2004]*: The information requested is shown in the table. These are the latest data available.

Number of people waiting for in-patient treatment (including day cases)

March 2004	*Number*
Total	7,331
9–11 months	0
12 plus months	0

Source:
Department of Health statistics division—KH07 returns.

Obese Children

Mr. Crausby: To ask the Secretary of State for Health what proportion of children were registered as obese in *(a)* Bolton North East, *(b)* Greater Manchester and *(c)* England in the last year for which figures are available. [172599]

Miss Melanie Johnson: The available information is shown in the table. The figures are taken from the Health Survey for England for 2002, the latest year for which figures are available. No figures are available for Bolton North East or Greater Manchester.

Obesity prevalence among English children—Aged 2 to 15 with a valid Body Mass Index (BMI) measurement

	Boys	Girls	All persons
BMI status			
Obese[1]	16.0%	15.9%	16.0%
Bases	4,740	4,672	9,412

[1] Equal to or greater than 95th BMI percentile

Source:

Health Survey for England 2002

Obesity

Mr. Jim Cunningham: To ask the Secretary of State for Health what steps he is taking to reduce levels of obesity, with particular reference to young people. [171891]

Miss Melanie Johnson *[holding answer 12 May 2004]:* The Government takes the issue of tackling obesity in children very seriously. Prevention is the best long-term approach, by improving diet and promoting physical activity. A variety of initiatives are in place, including the promotion of breastfeeding; reform of the welfare food scheme; action within schools, such as the food in schools programme; the 5 A DAY programme including the national school fruit scheme and action to address sugar, fat and salt levels in the diet. Significant investment is being made to transform physical education, school sport and club links over the next three years.

Strategies are being developed through the Choosing Health? Choosing a better diet and the Choosing Health? Choosing Activity consultations. Both these consultations will inform the forthcoming White Paper which will include tackling obesity in children.

Osteoporosis

Mr. Key: To ask the Secretary of State for Health what steps his Department is taking to improve services for osteoporosis patients while the National Institute for Clinical Excellence is developing guidance on osteoporosis. [172200]

Dr. Ladyman: Services to identify, treat and offer preventative advice are readily available on the national health service. Significant progress has been made in highlighting the importance of preventing the development of osteoporosis and resulting fractures.

Mr. Key: To ask the Secretary of State for Health (1) what *(a)* support and *(b)* resources are available to strategic health authorities to ensure implementation of (i) osteoporosis and (ii) falls strategies; [172202]

(2) what support is available to primary care trusts for establishing osteoporosis *(a)* strategies and *(b)* services. [172203]

Dr. Ladyman: A range of national actions have been taken to support the implementation of integrated falls service required by the national service framework for older people. As outlined in the framework this should include appropriate links to osteoporosis prevention, treatment and care. National support has included asking the National Institute for Clinical Excellence to develop clinical guidelines on the prevention of falls, and on osteoporosis prevention; the publication of supporting documents "How can we help older people not fall again? Implementing the Older People's NSF Falls Standard—Support for commissioning good falls services" in September 2003, including cascade training events on the use of the document; and developing and sharing practice through the National Falls Collaborative and Healthy Communities Collaborative on falls. We are continuing to work closely with and support Help the Aged's slips and trips campaign.

Mrs. Dean: To ask the Secretary of State for Health what steps he plans to take to ensure that the National Institute for Clinical Excellence's technology appraisal on osteoporosis is implemented. [172558]

Dr. Ladyman: National health service bodies are under a statutory obligation to fund treatments recommended in National Institute for Clinical Excellence technology appraisals. We expect primary care trusts (PCTs) to meet their statutory obligations, and strategic health authorities to follow up any allegations of non-compliance. We last reminded PCTs of these obligations in guidance published in January 2003.

Dr. Naysmith: To ask the Secretary of State for Health what assessment he has made of what features are required in a fully integrated falls and osteoporosis service. [173542]

Dr. Ladyman: The national service framework for older people, published in March 2001, set out an evidence based service model detailing the essential features of an integrated falls service, this included appropriate links to osteoporosis. A copy of the publication is available in the Library.

Two evidence based supporting documents have been published: "How can we help older people not fall again? Implementing the Older People's NSF Falls Standard—Support for commissioning good falls services"; September 2003 and "Making the case for investing in falls and fractures prevention—A workbook of ideas", February 2004. Copies are available in the Library. Cascaded training of their use was offered to all local health and social care communities.

The Department asked the National Institute for Clinical Excellence to develop separate but linked clinical guidelines on the prevention of falls and the prevention of osteoporosis. These are due for publication in September 2004 and 2005 respectively.

Parliamentary Questions

Mr. Amess: To ask the Secretary of State for Health when he will answer parliamentary question, ref. 164392 tabled by the hon. Member for Southend, West. [172573]

Miss Melanie Johnson *[holding answer 12 May 2004]:* I replied to the hon. Member today.

Primary Care Trusts

Mr. Hoban: To ask the Secretary of State for Health what guidance has been issued concerning the *(a)* number of and *(b)* population covered by primary care trusts. [173099]

Mr. Hutton *[holding answer 14 May 2004]:* "The New NHS", published in 1997 set out a vision for the national health service and for primary care trusts (PCTs) as a key driver to improve health and make the NHS modern and dependable.

This was followed by two key guidance documents. The first document, issued in April 1999, "Primary Care Trusts Establishing Better Services", sought to address questions about how PCTs would be established and the principles for coverage and size. This was followed up with "Primary Care Trusts: Establishment, the preparatory period and their Function", which provided additional guidance on PCT boundaries.

Neither document specified numbers of, or population to be covered by PCTs. The function of PCTs is to meet local health care needs by making local decisions that respond to the community. PCTs were encouraged to centre around natural communities and to seek coterminosity with other bodies where appropriate. However, the overriding principle for determining a PCT boundary is a coherent and cogent focus on meeting the needs of all people living within that community.

Prostate Cancer

Bob Spink: To ask the Secretary of State for Health what progress has been made in removing regional variations in the *(a)* diagnosis and treatment and *(b)* outcomes for prostate cancer. [173086]

Miss Melanie Johnson: The National Institute for Clinical Excellence (NICE) 'Improving Outcomes in Urological Cancers' manual was published in September 2002. It aims to ensure that all patients have access to a uniformly high quality of care in the community or hospital no matter where they live. Cancer networks across England are currently drawing up action plans to implement the guidance. Progress in implementing the guidance will be assessed during the next round of peer review due to start later this year.

In addition, as part of the prostate cancer risk management programme (PCRMP), all general practitioners in England have been sent an evidence-based resource pack to help them counsel men worried about prostate cancer. The PCRMP is reducing geographical variation across England by: standardising guidelines for GPs; standardising information for patients; and providing explicit quality standards for prostate cancer testing.

Public Appointments (Political Affiliations)

Mr. Brady: To ask the Secretary of State for Health (1) how many appointees to the boards of *(a)* strategic health authorities and *(b)* primary care trusts have declared political activity for (i) the Labour Party, (ii) the Conservative Party, (iii) the Liberal Democrats and (iv) other political parties; and in each case what percentage this represents of the total number of appointments made; [159626]

(2) how many councillors have been appointed as *(a)* chairman and *(b)* non-executive directors of (i) strategic health authorities and (ii) primary care trusts; and how many declared a political affiliation to (A) the Labour Party, (B) the Conservative Party, (C) the Liberal Democrats and (D) other political parties; [159629]

(3) how many board members of NHS trusts have been re-appointed to their posts in each of the last five years for which records are available; of those re-appointed, how many have declared political activity for *(a)* the Labour Party, *(b)* the Conservative Party, *(c)* the Liberal Democrat Party and *(d)* other political parties; and what percentage each category constitutes of the total number of re-appointments; [159630]

(4) how many appointees to the boards of NHS trusts in each of the last five years have declared political activity for *(a)* the Labour Party, *(b)* the Conservative Party, *(c)* the Liberal Democrats and *(d)* other political parties; and in each case what percentage this represents of the total number of appointments made; [159627]

(5) how many councillors have been appointed as *(a)* chairman and *(b)* non-executive directors of NHS trusts in each of the last five years; and how many declared a political affiliation to (i) the Labour Party, (ii) the Conservative Party, (iii) the Liberal Democrats and (iv) other political parties; [159628]

(6) how many members of primary care trusts have been re-appointed to their posts; how many of those who have been re-appointed have declared political activity for *(a)* the Labour Party, *(b)* the Conservative Party, *(c)* the Liberal Democrat Party and *(d)* other political parties; and what percentage each category constitutes of the total number of re-appointments. [159631]

Ms Rosie Winterton: The information is shown in the tables.

Political activity of all current chair and non-executive appointments to the boards of strategic health authorities and primary care trusts

	Strategic health authorities		*Primary care trusts*	
	Number	*Percentage*	*Number*	*Percentage*

In November 2002, the National Health Service Appointments Commission (the body responsible for making appointments to NHS boards) instructed the Nuffield Centre at Leeds University to carry out an analysis of the candidates appointed by the Commission and their political activity. The research found that the higher number of Labour activists appointed largely reflected the higher proportion of Labour activists that applied; and did not suggest any systematic preference for one political party over another.

Mr. Brady: To ask the Secretary of State for Health how much was paid in fees to *(a)* members of primary care trusts, *(b)* members of strategic health authorities and *(c)* board members of NHS trusts who have declared political activity for (i) the Labour Party, (ii) the Conservative Party, (iii) the Liberal Democrat Party and (iv) other political parties in each of the last five years for which records are available. [159632]

Ms Rosie Winterton: This information is not held centrally.

Some members refuse to accept any payment, so it would not be possible to calculate the figure that trusts, primary care trusts and strategic health authorities actually pay out to their board members without going to all the individual bodies for the information. Therefore, the information could be obtained only at disproportionate cost.

Public Bodies

Mr. Burstow: To ask the Secretary of State for Health what the cost of *(a)* the Commission for Patient and Public Involvement in Health and *(b)* patients forums will be for each of the next three years. [171261]

Ms Rosie Winterton: The funding allocation for 2004–05 is £33.3 million and, subject to the outcomes of the review of arms length bodies, the planning assumptions for the next three years are that it should remain static.

It is the Commission's responsibility to ensure that within that settlement, forums are adequately funded to deliver their functions.

Mr. Burstow: To ask the Secretary of State for Health if he will make a statement on *(a)* PHorum and *(b)* the Stakeholder Network, including their (i) remits, (ii) budget, (iii) administration budget, including payroll, (iv) number of staff and (v) capital assets. [163514]

Miss Melanie Johnson: The National Forum of Non-Governmental Public Health Organisations (NGO Forum) was established by the Department following the publication of the White Paper, 'Saving Lives: Our Healthier Nation' (1999). After a review in 2002, it was renamed the 'National NGO PHorum'.

The PHorum's remit is:

to provide Government with expertise and advice in developing, implementing and delivering its public health policies for England;

to facilitate an ongoing dialogue and discussion between the Government and the non-government sector, and

to consider the effective involvement of NGOs in action to improve health and tackle health inequalities.

It does not have a separate budget. It has no capital assets. It is managed by the Health Development Agency (HDA) from within the HDA's allocation, on behalf of the Department of Health. The HDA has one member of staff with specific responsibility for administrative work in support of the PHorum.

The Department is currently looking at the best way of relating to principal stakeholders as part of its overall change programme.

Rituximab

Mrs. Iris Robinson: To ask the Secretary of State for Health if he will make a statement on the availability of Rituximab for treating rheumatoid arthritis. [173582]

Dr. Ladyman: Rituximab is not licensed in the United Kingdom for the treatment of rheumatoid arthritis.

Solvent Abuse

Mr. Amess: To ask the Secretary of State for Health if he will meet a delegation from Re-Solv, the Society for the Prevention of Solvent and Volatile Substance Abuse. [172585]

Miss Melanie Johnson *[holding answer 11 May 2004]:* I am happy to accept the invitation from the hon. Member for Southend, West, to meet with members of Re-Solv, the Society for the Prevention of Solvent and Volatile Substance Misuse.

Waiting Lists/Times

Mr. Hendrick: To ask the Secretary of State for Health what changes there have been to NHS waiting list time in the last seven years for the residents of Preston. [168101]

Miss Melanie Johnson: The information requested is not collected on a constituency basis. The information shown in the table relates to the national health service organisations serving the Preston area.

Written Answers to Questions

Wednesday 19 May 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bovine TB

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department uses the Bovigam gamma interferon test in field trials. [172529]

Mr. Bradshaw: The Bovigam test is being used in Defra's gamma-interferon field pilot.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many farms in Gloucestershire are under movement restrictions due to bovine TB, broken down by constituency; what the figures were in each of the last five years; what action she proposes to take to reduce these figures; and if she will make a statement. [173693]

Mr. Bradshaw: The information requested is not available on a constituency basis. TB data is held by county or Animal Health Divisional Office level.

At 31 March 2004, 201 herds were under TB movement restrictions in Gloucestershire. The information requested for the previous five years for Gloucestershire is given in the following table.

	Herds under TB movement restrictions
1999	277
2000	330
2001[1]	180
2002[2]	394
2003[2]	474

[1] In 2001, the TB testing and control programme was largely suspended due to the foot and mouth disease (FMD) outbreak. Since testing resumed in 2002, resources have been concentrated on herds with overdue TB tests which would have had a longer period in which to contract the disease. Also the proportion of high risk herds being tested post-FMD is greater than that prior to the outbreak. As a result since 2002 the statistical data is not comparable to that of previous years.

[2] Includes restrictions imposed for other reasons, such as a TB test being overdue.

Note:

Data downloaded from the State Veterinary Service database on 13 May 2004.

This is provisional data, which is subject to change, as more data becomes available. The TB strategy is under review. We issued a consultation document 'Preparing for a new GB strategy on bovine TB' in February 2004. This constitutes the first stage in the development of a long-term strategy for TB, which applies the principles in the overarching Animal and Welfare Strategy.

The consultation also includes proposals for short-term cattle based-measures designed to restrict the geographical spread of the disease. These include such measures as pre- and post-movement testing, reviewing testing frequencies and improving the delivery of the testing and control programme.

We have carried out a number regional workshops in support of the review of the bovine TB strategy including one in Bristol on 16 April 2004, and a national workshop held in London on 12 May.

Agricultural Census

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has for the future administration of the annual June agricultural census. [166447]

Alun Michael: The annual June Agricultural and Horticultural Census is an important survey. We continue to develop it with a view to reducing the burden on both respondents and the taxpayer. Following a review with our statistical advisers, we have concluded the sample sizes can be reduced in 2004, 2006, 2008 and 2009 when we do not need to run such large surveys for EU purposes. The sample size for 2004 is being reduced from 75,000 holdings to about 50,000. While this will reduces the precision at the local levels, this will be minimised by the use of available administrative sources. Increasing numbers of farmers and growers are now completing survey forms electronically and we will be developing our electronic data collection as part of the Whole Farm Approach initiative.

Carbon Dioxide Emissions

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs what target was most recently set by the Government for the reduction of carbon dioxide emissions by 2020. [171522]

Margaret Beckett: The Government have set a domestic goal to move towards a reduction in carbon dioxide emissions by 20 per cent. below 1990 levels by 2010, and is putting itself on a path to cut the UK's carbon dioxide emissions by some 60 per cent. by about 2050, with real progress by 2020.

A target for 2020 has not been set, however, the 2003 Energy White Paper said that by 2020, on the basis of existing policies including the full effect of our climate change programme, we would expect UK carbon dioxide emissions of some 135 millions tonnes of carbon (MtC) in 2020. To be consistent with demonstrating leadership in the international process, we expect to aim for cuts in carbon of 15–25 MtC below that by 2020.

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs when the Government expects to achieve a 60 per cent. reduction in carbon dioxide emissions. [171523]

Margaret Beckett: In the 2003 Energy White Paper we accepted the Royal Commission on Environmental Pollution's recommendation, in their June 2000 report "Energy—The Changing Climate", that the Government should adopt a strategy to put the UK on a path to reducing carbon dioxide emissions by some 60 per cent. from current levels by about 2050.

As the Royal Commission on Environmental Pollution's recommendation implies, absolute precision five decades before 2050 is not possible. However, the Energy White Paper uses around 65 million tonnes of carbon (MtC) to describe the level of carbon emissions which a 60 per cent. cut would deliver by 2050.

Analysis for the Energy White Paper showed that on the basis of existing policies, including the full effect of our climate change programme, we would expect UK carbon dioxide emissions of some 135 MtC in 2020. We expect to aim for additional cuts in carbon of 15–25 MtC below that by 2020 to put us on course to reduce our carbon dioxide emissions by some 60 per cent. by about 2050.

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs when the Government first used the term some 60 per cent. by 2050 to define the target for reducing carbon dioxide emissions. [171524]

Margaret Beckett: The Royal Commission on Environmental Pollution recommended in their June 2000 report, "Energy—The Changing Climate", that the Government should adopt a strategy to put the UK on a path to reducing carbon dioxide emissions by some 60 per cent. from current levels by about 2050.

Following analysis and public consultation, the Government accepted this recommendation and first defined it as a goal in the Energy White Paper, which was published on 24 February 2003.

Dairy Farming

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effect of decoupling on co-operative dairy farmers; and if she will make a statement. [173690]

Alun Michael: Decoupling will provide the basis for all farmers to improve the market orientation of their business and will free them from many of the bureaucratic rules associated with production linked subsidies. Decoupling has the potential to bring considerable benefits to agriculture as a whole.

The scope for dairy farmers to realise these benefits as members of co-operatives is not inherently different from those that supply milk direct to processors.

Departmental Conferences

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs how many conferences have been organised by her Department in the last three years for which figures are available; how much was spent on them; how many were cancelled; and what costs were incurred in respect of cancelled conferences. [160776]

Alun Michael: Conferences organised by the Communications Directorate of Defra in the last three years for which figures are available are as follows. Records of all conferences carried out by the Department are not held centrally and could only be obtained at a disproportionate cost.

Conference	£
Farm Business Recovery—July 2001, Scotch Corner	13,920

Science & Innovation Open Meeting—2003	8,971
Total	679,801

No conferences were cancelled.

The costs do not include the cost of Departmental staff, details of which are not recorded against each conference.

Farm Income

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what research she is undertaking into the implications of the use of the milk quota and other quota arrangements as a means of access to the single farm payment. [169648]

Alun Michael: The use of milk quota to generate "historic" entitlements would tend to favour larger, more intensive, producers compared to the flat rate area based entitlements that are being adopted in England over an eight year transition period. It also increases the value of milk quota prior to decoupling. The issue was considered in the report by David Colman and David Harvey on "The Future of UK Dairy Farming", which

was commissioned by the Dairy Supply Chain Forum and we are not undertaking any further research on the matter.

Farm Medicine

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on proposals to examine the rules in relation to prescription-only farm medicines and the cost of administering them. [173878]

Mr. Bradshaw: The rules in relation to prescription-only farm medicines have been the subject of three reviews. In the UK, the Independent Review of Dispensing by Veterinary Surgeons of Prescription Only Medicines (the Marsh Report) in 2001 and the 2003 Competition Commission Inquiry into the Cost of Prescription only Medicines both recognised the benefits of retaining the UK's distribution system for veterinary medicinal products while recommending changes to its detailed operation. This was, therefore the Government's aim during negotiations on the Review of European medicines legislation.

The Review of European medicines legislation has been completed and an amending Directive 2004/28/EC was published in the Official Journal on 30 April 2004. We are now able to implement the changes agreed in the three reviews. In taking forward the provisions for veterinary POMs we expect to establish a system that will retain the key elements of the current distribution arrangements.

We will consult widely on these proposals and on their cost. Officials from the Veterinary Medicines Directorate are already carrying out informal discussions with interested organisations. We intend to carry out a formal consultation exercise, when our proposals are developed further, at the beginning of next year so as to meet the deadline for implementation of the changes to the legislation of 30 October 2005.

Glaciers

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what net change in the percentage of *(a)* area and *(b)* volume of glacier there has been in each of the last 10 years. [171510]

Mr. Morley: Yearly information on glaciers is not available as very few of them are monitored in detail. However, it is possible to infer how glacier volume is changing from measurements of sea level rise. By using values given in the "Third Assessment Report of the Intergovernmental Panel on Climate Change", and estimates of sea level rise of 0.4 mm per year during the 1990s, it is estimated that glacier volume decreased by approximately 0.2 per cent. per year during the 1990s.

GM Crop Trials

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* acres and *(b)* hectares of land have been used for GM crop trials in each of the last five years for which records are available (i) as part of the Government's farm scale evaluation, (ii) for other experimental purposes and (iii) for other purposes. [173017]

Mr. Morley *[holding answer 13 May 2004]:* The available information is as follows.

(a) Farm-scale evaluations—approximate areas

	Area (acres)	*Area (hectares)*
2000 and 2001	2,433	985
2002	1,171	474
2003	249	101
Total	3,853	1,560

(b) Research and development trials

Accurate information is not available on the areas of research and development trials. Under the legislation the notifier is only required to give the size of the release site which is usually larger than the area used for growing GM crops. However, most of these releases are very small, in the region of 0.1–0.2 ha.

(c) National List trials—each site on average less than 0.1 ha

	Area (acres)	*Area (hectares)*
1999	3.7	1.5
2000	4.0	1.6
2001	1.2	0.5
2002	1.5	0.6
2003	<0.1	<0.1
Total	10.4	4.2

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs on how many sites GM crops have been grown in the UK in the last five years for which records are available; and how many were *(a)* part of the Government's farm scale evaluation and *(b)* for other purposes. [173018]

Mr. Morley *[holding answer 13 May 2004]:* In the five years to the end of 2003, there were 565 releases of GM crops for research purposes. Of these 273 were used in the farm-scale evaluations on 264 sites, as nine maize sowings were on fields reused from the previous year. The remaining 292 releases were for National List trials or other research work and in many cases several different releases were located at the same site.

IACS

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implications for farmers of the time scale for distribution of Integrated Administration and Control System forms to farm businesses this year. [173016]

Alun Michael: The Rural Payments Agency (RPA) is responsible for the distribution of Integrated Administration and Control System (IACS) forms. The RPA is aware that 1,255 applicants, 1.85 per cent. of the total number of IACS applicants, had not received their forms by 19 April. It apologises for the late arrival of these forms.

The RPA acknowledges that this will have reduced the time for some applicants to ensure forms are correctly completed and received by the RPA by the regulatory deadline of 17 May 2004. The deadline is set by EC Regulation and the RPA has no authority to change it.

As soon as the RPA became aware of concern from a small percentage of IACS applicants that they had not received their IACS forms it issued a statement on its website advising them to contact their RPA Processing Site.

The News Release that the RPA issued on 17 March announcing the 2004 IACS arrangements had already advised that any producer who had not received his form by 15 April to contact the RPA. The need to contact the RPA where IACS forms had not been received was further enforced in advertisements placed in editions of *Farmers Weekly* and *The Grower* at the end of March.

Milk

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs on what dates the Dairy Supply Chain Forum met in the last year to discuss farmgate milk prices; what representations she has received regarding the price of milk received by farmers; what steps she is taking to increase the percentage that farmers receive; and if she will make a statement. [172988]

Alun Michael: The Dairy Supply Chain Forum, which is chaired by my noble Friend, the Lord Whitty, provides a framework in which all links in the dairy supply chain can come together to discuss the challenges facing the sector and develop collaborative solutions to improve the efficiency and promote the sustainable development of the sector. It does not discuss price negotiations, which are a private commercial matter between farmers and purchasers. However, the work of the Forum and its various subgroups should help address some of the underlying causes of low farmgate prices. In the last year the main Forum met on 7 July, 20 October and 28 January. In addition, its sub-groups meet frequently to take forward individual work streams.

As well as participating in the Forum and its subgroups, Defra has made a grant of £0.5 million to the Food Chain Centre to undertake a value chain analysis in the dairy sector. This will examine a number of different supply chains to find ways in which efficiency can be increased, improving the returns to all participants in those chains.

Milk Processing (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what powers she has to ensure that competition exists in milk processing in Lancashire. [173309]

Alun Michael: None. Responsibility for the administration of competition law rests with the competition authorities.

Over-30 Month Scheme

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs when she will make an announcement on the ending of the over-30 month scheme. [172457]

Mr. Bradshaw: The ending of the over-30 month (OTM) scheme is linked to a change to the OTM rule. The Food Standards Agency has recommended to Ministers that the OTM rule could be replaced with a system of testing OTM animals for the food chain. UK Health Ministers are currently considering the agency's advice. Rural Affairs Ministers have decided that, for practical reasons, animals born before August 1996 will not be allowed back into the food chain.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with *(a)* her colleagues in the Department of Health and *(b)* the Food Standards Agency on the future of the over-30 month scheme. [172458]

Mr. Bradshaw: The Food Standards Agency (FSA) recommended to Health Ministers in July 2003 that the over-30 month (OTM) rule could be replaced with a system of testing. Defra Ministers and officials have been in regular contact with colleagues in both the Department of Health and the Food Standards Agency on issues arising from that recommendation.

Pedestrian Crossings (Railways)

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance she gives to local authorities on re-routing public rights of way in order to make pedestrian crossings at rail lines safer. [173084]

Alun Michael: Guidance on rail crossing orders affecting rights of way is provided in paragraph 32 and Annex C of Department of the Environment Circular 2/1993.

Sewage Sludge

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons sludge sewage has been exempted from requiring a waste management licence for treatment in agriculture; and what research has been undertaken to assess the potential health risks posed by sewage sludge seeping into water supplies. [173428]

Mr. Morley *[holding answer 18 May 2004]:* Article 2 of the Waste Framework Directive exempts sewage sludge from waste management licensing requirements if it is used in accordance with the separate Directive on use of sludge in agriculture. This Directive, which is implemented by the Sludge (Use in Agriculture) Regulations 1989, as amended, requires sludge to be used in such a way that the quality of the surface and ground water is not impaired. In addition, there are statutory requirements to ensure that only treated water may enter the public drinking water supply, to comply with European and national standards.

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs what research has been undertaken to assess the potential risks to health posed by the spreading of sewage sludge on agricultural fields situated close to residential homes. [173429]

Mr. Morley *[holding answer 18 May 2004]:* A study carried out in the USA has examined the evidence for Staphylococcus aureus (SA) in sewage sludge applied to land and whether a route existed by which populations living in proximity to sludge spreading could be infected. The result of this work was that no SA were detected in any background aerosol or sludge aerosol sample.

Proposals to amend the Sludge (Use in Agriculture) Regulations 1989, as amended, will further strengthen the controls applying to the recycling of sewage sludge in England and Wales by making statutory the water industry's voluntary ban on the use of untreated sewage sludge on agricultural land.

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs what steps have been taken to amend the Sludge (Use in Agriculture) Regulations 1989 to incorporate a safe barrier between agricultural fields treated with sewage sludge and residential homes; and if she will make a statement. [173432]

Mr. Morley *[holding answer 18 May 2004]:* The Sludge (Use in Agriculture) Regulations 1989, as amended, ensure that recycling sludge to agricultural land is carried out in a way that protects human and animal health and the environment. Proposed revisions to the regulations will introduce additional requirements to protect further against the entry of pathogens into the food chain. These requirements are already being followed on a voluntary basis by the water industry.

The non-statutory Code of Practice for Agriculture Use of Sewage Sludge, which is also under revision, includes recommendations on environmental protection relating to odour control and proximity to properties.

Single Farm Payments

Mr. Reed: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of the single farm payment scheme on farmers in *(a)* Loughborough and *(b)* Leicestershire. [174050]

Alun Michael: Farmers in Loughborough and Leicestershire, like all others, will benefit from decoupling of subsidies from production.

Defra will publish shortly an analysis of the economic impact on the English farming industry of the decoupling of CAP direct payment and the way in which the scheme will be operated in England.

Sudden Oak Death

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs how many instances of sudden oak death have been detected in the South East of England; and at what locations. [174193]

Mr. Bradshaw: The following table outlines the total number of instances of phytophthora ramorum in the South East of England since the first finding in April 2002.

Region/county	*Total*	*Retail and nurseries*	*Established gardens, woods and other wild planting areas*
Berkshire	4	4	—
Buckinghamshire	6	6	—
East Sussex	10	10	—
Hampshire	18	15	3
Isle of Wight	2	2	—
Kent	9	9	—
London	10	10	—
Oxfordshire	2	2	—
Surrey	32	31	1
West Sussex	33	26	7

Sugar

Norman Lamb: To ask the Secretary of State for Environment, Food and Rural Affairs when she will make a statement on the consultation carried out by her Department on reform of the sugar regime. [173487]

Alun Michael: We are still considering the wide range of views received and hope to produce a summary soon.

In the meantime the responses themselves are available for public inspection in the Defra library.

Swill Feeding

Mr. Boris Johnson: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of the replies received by the Department by *(a)* 26 April 2001 and *(b)* 1 May 2001 in response to the consultation document that preceded the ban on swill feeding *(a)* were against the ban, *(b)* were in favour of the ban and *(c)* expressed no preference. [166754]

Mr. Bradshaw: The answer I gave the hon. Member on 30 March, *Official Report*, column 1305W, on swill feeding incorrectly stated that we had received 357 responses. The correct number is 330. The previous response included some duplicated responses. As a result the percentage of responses supporting a ban was also incorrect in the answer of 30 March for which I apologise.

The date of receipt of the responses (other than those by e-mail) is not recorded. It is not possible therefore to give the figures with the degree of accuracy that you seek. I have, however, had the responses reviewed and recounted. Respondents replied to a consultation document that asked a series of questions. The questions were:

"(a) Should swill feeding of catering waste containing animal by-products be banned?

(b) If yes, should (i) fish and poultry animal by-products fed on-farm be included in the ban, and (ii) non-meat containing catering waste be included in the ban? [It was explained that a ban on all catering waste would include non-meat containing catering waste e.g. bread, brewers waste.]

(c) Should a three-four week transitional period apply?

(d) any other comments, including on whether or not it would be practicable to place obligations on the producers of catering waste e.g. restaurants to ensure that it is not fed to animals; and [comments] on the enclosed draft Order."

Some respondents tailored their responses to five options set out in the Regulatory Impact Assessment. Those were:

"(a) Do nothing, i.e. permit the feeding of swill under current controls.

(b) Tighten up current controls.

(c) Ban the feeding of catering waste (waste from kitchens, restaurants and some food factories) and processed poultry and fish waste as swill.

(d) Ban the feeding of catering waste and poultry as swill.

(e) Ban the feeding of swill and all catering waste (including that which does not contain meat or meat products e.g. biscuits, yoghurts, brewers grain, vegetable waste, etc)."

In view of the detailed questions asked by the consultation document it is not surprising that the replies were often equally diverse and detailed. But the responses have been re-read as objectively as possible to place them in the categories you seek.

There were 303 responses dated by the sender on or before 26 April.

Those against the ban on the swill feeding of catering waste that contains animal by-products totalled 77 (26 per cent.).

Those that were in favour of a ban on swill feeding of catering waste that contains meat or meat products totalled 105 (35 per cent.). There was an additional 35 (12 per cent) that favoured a complete ban on swill feeding of all catering waste including non-meat waste. The combined figures of these respondents total 140 (46 per cent.) in favour.

There were 31 (10 per cent) respondents where no particular preference was stated.

An additional 55 (18 per cent.) respondents were against a ban being extended to non-meat waste foods, e.g. from millers, vegetable producers, brewers, etc.

Between 27 April and 1 May there were three additional responses (one against, one in favour of a ban on swill feeding meat waste, and one no preference). One further response was received after 1 May which was against a ban.

There were also an additional 23 undated responses. 11 were against a ban, three favoured a ban on all catering waste (i.e. including non-meat waste), eight favoured a ban on swill feeding meat waste and one was against an extended ban to non-meat waste.

In total therefore, of all responses received, 208 (63 per cent.) respondees supported a ban on swill feeding of catering waste containing meat. There were 90 (27 per cent) against a ban and 32 (10 per cent) where no preference was expressed.

I believe the House can be reassured therefore that not only was there a numerical majority in favour of a ban but also that it was widely supported when account is taken of the support expressed from associations that represented large memberships (including the NFU, Tenant Farmers Association, the British Pig Association, the Royal Association of British Dairy Farmers, the National Beef Association, the National Consumer Council, the Meat and Livestock Commission and qualified support from the National Pig Association).

All the responses were placed in the library after the consultation period, which was in accordance with normal procedures, and the responses continue to be available for others to scrutinise.

Tobacco Exports

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs to which countries EU-grown tobacco is exported. [173189]

Alun Michael: The main destinations for EU grown tobacco in its raw state are Russia, the United States, Egypt, Poland, Algeria, the Ukraine and Switzerland. A table showing the quantities exported to these and other important destinations is as follows:

EU 15 Exports of raw tobacco and tobacco refuse in 2002

	Tonnes
Russia	44,190
USA	18,690
Egypt	12,948
Poland	11,149
Algeria	10,710
Ukraine	9,465
Switzerland	7,178
Turkey	5,091
Romania	5,025
Japan	4,830
Singapore	3,243
Uruguay	3,139
Serbia Montenegro	2,791
Tunisia	2,772
Ivory Coast	2,408
Other destinations	45,482
Total	189,111

Eurostat Comext database 12/2002

TRADE AND INDUSTRY

Miners' Compensation Scheme

Chris Ruane: To ask the Secretary of State for Trade and Industry how many miners have been compensated and how much has been paid in compensation under the miners' compensation scheme, broken down by constituency, listed in descending order by region. [172951]

Nigel Griffiths: I refer the hon. Member to the Department's website www.dti.gov.uk/coalhealth/ for constituency figures.

The constituencies are listed alphabetically and the information is compiled in the middle of the month and shows the figures for the end of the previous month.

John Mann: To ask the Secretary of State for Trade and Industry how many medical assessments and offers have been disputed by Raleys solicitors under the Coalminers Compensation claim for chronic pulmonary obstructive disease and vibration white

finger which have required additional expenditure outwith the costs covered by the Department under the claims handling agreement. [172984]

Nigel Griffiths *[holding answer 13 May 2004]:* None.

Huw Irranca-Davies: To ask the Secretary of State for Trade and Industry whether DMH *(a)* has been removed at any time and *(b)* is currently removed from the list of approved solicitors dealing with chronic obstructive pulmonary disease compensation claims. [173027]

Nigel Griffiths *[holding answer 13 May 2004]:* I can confirm that I wrote to DMH solicitors requesting they confirm that they had not double charged and, if they had, that they repay any deductions. According to the Department's records. I did not receive a reply to this correspondence and subsequently DMH were removed from the list of solicitors on the Department's website.

Combined Heat and Power

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry what steps she is taking to meet the Energy White Paper target of 10GWe of combined heat and power by 2010; and what progress has been made towards the target. [171033]

Mr. Morley *[holding answer 5 May 2004]:* I have been asked to reply.

The package of support for CHP is set out in the Government's Strategy for CHP to 2010, which we published on 26 April. This support will significantly help the industry. At the end of 2002, installed CHP capacity stood at 4,742MWe. More up to date data will become available when the annual Digest of UK Energy Statistics (DUKES) is published in the summer by DTI.

Company Liquidations

Mr. Sheerman: To ask the Secretary of State for Trade and Industry whether administrators who take over a company following its liquidation are subject to the same redundancy regulations as other companies. [173851]

Mr. Sutcliffe: Yes. The provisions in the Employment Rights Act 1996 apply to all redundancies. The provisions in the Trade Union and Labour Relations (Consolidation) Act 1992 apply in all cases where there are proposals to dismiss 20 or more employees at one establishment within a 90-day period.

Mr. Sheerman: To ask the Secretary of State for Trade and Industry if she will take steps to ensure that employees made redundant by administrators following a company's liquidation have the same rights as those made redundant by companies. [173852]

Mr. Sutcliffe: Under the current redundancy provisions, employees have redress against an employer's failure to comply with any of the requirements by making a complaint to an employment tribunal. This applies irrespective of the solvency of the employer.

Product Safety

Malcolm Bruce: To ask the Secretary of State for Trade and Industry pursuant to the answer of 5 May 2004, *Official Report*, column 1645W, on product recalls/safety, when she intends to implement the General Product Safety Directive. [173958]

Mr. Sutcliffe *[holding answer 18 May 2004]:* We expect to carry out a formal public consultation on the draft regulations implementing the General Product Safety Directive in the summer and to lay the regulations at the turn of the year.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry pursuant to the answer of 5 May 2004, *Official Report*, column 1645W, on product recalls/safety, if she will place in the Library correspondence between the Government and the European Commission on the General Product Safety Directive. [173959]

Mr. Sutcliffe *[holding answer 18 May 2004]:* It is not the practice under exemption 2 Internal Advice and Discussion of the Code of Practice on Access to Government information to release details of correspondence between Her Majesty's Government and the European Commission.

Small Businesses (Blackpool, South)

Mr. Gordon Marsden: To ask the Secretary of State for Trade and Industry what steps the Government has taken to help small businesses in Blackpool, South since 1997. [173063]

Nigel Griffiths: The Business Link Operator for North and West Lancashire has provided assistance to 1,647 enterprises in the Blackpool constituencies since 2001. (Statistics are not available specifically for Blackpool South). The Small Business Service was set up as an agency of the Department of Trade and Industry in April 2000. Contracts were exchanged with a national network of 45 Business Link Operators (seven in the North West) to provide Business Support to small and medium sized enterprises from April 2001. Before this date Government Support to business was provided through training and Enterprise Councils and the SBS does not have access to this data.

243 of the 1,647 companies who received assistance were pre start-ups. The type of assistance provided include IT support, Investors in People, International, and Business support.

Under the Research and Development Scheme (R&D) six companies have received offers of grant with a total value of £335,128 since 1997.

Under the Enterprise Grant Scheme (EGS) eight companies have received offers of grant with a total value of £261,950.

Small Mines Claims

Ms Walley: To ask the Secretary of State for Trade and Industry when the operational arrangements to allow full and final payments to be made in respect of the 23 February agreement on small mines claims will come into effect. [172738]

Nigel Griffiths: Agreement in principle on the accession of the small mines to the respiratory disease Claims Handling Agreement was reached on 23 February. The Department is in the process of finalising a Memorandum on Heads of Agreement with the claimants' solicitors and the small mines, and agreeing with them the necessary amendments to the dust model to enable final compensation payments to be calculated. It is hoped that the testing of the computer models will be completed and operational arrangements for the bulk of cases finalised by the end of July.

UK Trade and Investment

Mr. McNamara: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact of UK Trade and Investment in the last financial year. [169739]

Mr. Mike O'Brien *[holding answer 4 May 2004]:* UK Trade and Investment has played a key role in helping to deliver the Government's agenda of increasing competitiveness, innovation and prosperity for all. Details, in quantifiable terms, of what UK Trade and Investment has achieved are contained in its 2003 Autumn Performance Report, and in its latest Departmental Report. Copies of both reports are laid in the Libraries of the House.

Working Time Regulations

Mr. Pickthall: To ask the Secretary of State for Trade and Industry how many residents of West Lancashire have benefited from a reduction of the compulsory working week to 48 hours. [171727]

Mr. Sutcliffe: The Working Time Regulations provide workers with the right to refuse to work more than 48 hours on average, if they do not want to. Numbers for West Lancashire are not available, however it has been estimated that around 300,000 workers resident in the north-west stood to benefit from the introduction of the weekly working time limits in 1998.

Work-Life Balance

Mr. Denham: To ask the Secretary of State for Trade and Industry what schemes and initiatives her Department is undertaking in each constituency in Hampshire to promote a better work-life balance. [171644]

Mr. Sutcliffe *[holding answer 17 May 2004]:* The national Work-life Balance (WLB) campaign was launched by the Prime Minister in 2000. Using case studies, a body of research evidence, and a dedicated website the campaign seeks to demonstrate to employers and employees the case for adopting flexible working practices, and highlight the business benefits that can accrue to companies who have considered, and then implemented, alternative ways of working. The campaign has historically provided practical help in implementing Work-life Balance initiatives through the DTI Challenge Fund.

At present only one Challenge fund project, from the fifth and final round, is operating in Hampshire. New DTI arrangements to support best practice in business, and other employer organisations, are now in place. These arrangements will be the means by which work-life balance, and the DTI financial support to promote the take-up and growth of flexible working opportunities, will be delivered.

Financial assistance to implement best practice in work-life balance and flexible working (and a range of other best practice areas) will be accessible via Business Link offices. Advisers in these offices, in Hampshire and the rest of the country, will provide local points of access for this support. Further details on these arrangements are available on the DTI website at www.dti.gov.uk.

TREASURY

Aviation Tax

Mr. Meacher: To ask the Chancellor of the Exchequer what estimate he has made of the additional revenue that would be raised, assuming no change in the level of sales, if duty free concessions on alcohol, tobacco and VAT were abolished at UK airports. [171364]

John Healey: No estimate of the additional revenue that would be raised if duty free concessions on alcohol, tobacco and VAT were abolished at UK airports is available.

Climate Change Levy

Norman Baker: To ask the Chancellor of the Exchequer what revenue he received from the Climate Change Levy in *(a)* 2002–03 and *(b)* 2003–04; and what proportion of that sum in each year was received from those companies receiving 80 per cent. discounts as part of sectoral climate change agreements. [173463]

John Healey: Table 2.1D in the ONS publication "Financial Statistics" (April 2004) shows cash receipts from the Climate Change Levy to be £829 million in 2002–03. A provisional figure for 2003–04 receipts of £831 million is also available on the ONS website.

It is not possible to determine the proportion of levy receipts the Exchequer received during 2002–03 or 2003–04 from those companies covered by negotiated climate change agreements.

Construction Industry

Miss McIntosh: To ask the Chancellor of the Exchequer what assessment he has made of the impact of the climate change levy on the construction industry. [174252]

John Healey: Climate Change Levy (CCL) revenue receipts and forecast revenues are provided for the UK as a whole and are not available by individual industry sector. The CCL is broadly revenue neutral for business as a whole. CCL revenues are recycled back to business by means of a 0.3 percentage point reduction in employers' national insurance contributions, introduced at the same time as the levy in April 2001, and by support for energy efficiency and low carbon technologies. CCL has not led to any net gain to the public finances.

Monitoring of the climate change levy takes the form of a rolling programme of research and analysis of data as they become available, encompassing all sectors of industry. It takes account of data from specific research as well as information from business organisations, individual companies, environment groups and site visits by officials.

Credit Derivatives

Mr. Cousins: To ask the Chancellor of the Exchequer whether the review of the Financial Services and Markets Act 2000 covers the regulation of credit derivatives. [173263]

Ruth Kelly: The regulatory treatment of credit derivatives does not specifically fall under the remit of the two-year review of the Financial Services and Markets Act 2000. However, the FSA is participating in a review of trading book activity by the Basel Committee and the International Organisation of Securities Commission (IOSCO), including the prudential treatment of credit derivatives.

Debt Cancellation

Colin Burgon: To ask the Chancellor of the Exchequer what his policy is on the cancellation of debt in the world's poorest countries. [173930]

John Healey: The UK fully supports the cancellation of debt of the world's poorest countries through the Heavily Indebted Poor Countries (HIPC) Initiative. We were instrumental in securing international agreement to enhance the original Initiative in 1999, to ensure that as much debt relief as possible is granted to as many countries as possible. The UK continues to be a champion of the HIPC Initiative. We have provided commitments of £2.3 billion of debt relief to eligible countries and have pledged a total of US$474 million through multilateral institutions to support the Initiative further. The UK goes even further than is required under the Initiative, and is committed to providing 100 per cent. debt relief to eligible HIPC countries.

The HIPC Initiative is delivering real benefits to participating countries. It is providing over $70 billion of debt relief to the 27 counties that have reached Decision Point. We are committed to maintaining the momentum of the HIPC Initiative and continue to ensure that it is fully implemented. Ethiopia and Niger's exits from the Initiative in April mean that five countries have now reached Completion Point since September 2003 (Ethiopia, Guyana, Nicaragua, Niger and Senegal), bringing the total number to 13.

The HIPC Initiative is also helping increase annual social expenditures in countries receiving debt relief. Total social spending has increased by around $4 billion since 1999—equivalent to 2.7 per cent. of GDP. On average, health and education spending account for 65 per cent. of the use of HIPC debt relief.

However, debt relief alone is not sufficient. All HIPC countries will need additional aid to meet the Millennium Development Goals (MDGs). This is why the UK has proposed an International Finance Facility (IFF), which could provide the much-needed substantial increase in aid—in the form of grants, concessional loans, or further debt relief—needed to attain the MDGs without threatening the long-term debt sustainability of the world's poorest countries.

European Council of Finance Ministers

Mr. Hood: To ask the Chancellor of the Exchequer what the outcome was of the ECOFIN Council held on 11 May; what the Government's stance was on the issues discussed, including its voting record; and if he will make a statement. [173080]

Mr. Gordon Brown: I attended the ECOFIN meeting on 11 May. This was the first ECOFIN attended by the accession countries as full members of the European Union.

ECOFIN had an orientation discussion of the draft Broad Economic Policy Guidelines (BEPGs). The Council took note of the Commission's recommendations for this year's update and requested that the Economic and Financial Committee and the Economic Policy Committee take work forward so as to enable the Council to adopt a report to the European Council on the BEPGs in its meeting on 2 June.

An EPC report on Potential Output and Output gaps was adopted. Discussion noted the transitional problems of Spain, Austria and Germany in moving to an estimation method based solely on the production function.

The Council took stock of the situation regarding the adoption of the European Investment Bank's external lending mandates.

The Council adopted a Decision abrogating Decision 2002/923/EC on the existence of an excessive budget deficit in Portugal, noting that it had complied with the terms of the Recommendation adopted by the Council with a view to bringing that deficit situation to an end.

The Council took stock of progress made in negotiations on savings tax agreements. It welcomed progress made with Andorra on a savings tax agreement and the prospect of monetary agreement, and adopted a Decision on the position to be taken. I provided an update on the Crown Dependencies and Caribbean Overseas Territories. The Council reaffirmed its determination for the various savings tax

Following global compromises agreed with the European Parliament in March, political agreement was reached on two draft Directives on financial services as amended by the European Parliament—Transparency Directive and Committee Structure Directive. Formal adoption, without further discussion, will follow later in the year.

The Council took note of the presentation by the Commission of the EU's preliminary draft budget for 2005. A brief exchange of views was held. It was requested that the Permanent Representatives Committee (Coreper) examine the text and prepare a package enabling the Council to adopt the 2005 Draft Budget at the July 16th Budget ECOFIN.

The Council was briefed by the Presidency on the work by the Permanent Representatives Committee (Coreper) on the EU's financial perspective for 2007–2013, and held an exchange of views. I stated the need for a budget of 1 per cent. of ED GNI based on clear priorities: —subsidiarity, EU valued added, and budget discipline. The Presidency will prepare a report in advance of the European Council on 17 and 18 June, to provide guidance for the next phase of work.

The Council took note of the situation regarding excise duty rates on alcohol and of concerns expressed by the Swedish delegation regarding delay in the presentation by the Commission of a report on this subject. The Commission said that the report was currently being finalised and would be adopted as soon as practical within the coming weeks. The presidency concluded that all Member States would want to consider the report carefully when it was released.

ICT Training

Mr. Simon: To ask the Chancellor of the Exchequer what his budget is for staff training in information and communication technology in this financial year. [173715]

Ruth Kelly: The information requested is not readily available and would be available only at a disproportionate cost.

Lambert Review

John Austin: To ask the Chancellor of the Exchequer what plans he has to implement Recommendation 6.2 of the Lambert Review of Business University collaboration; and if he will make a statement. [174184]

John Healey: The final report of the Lambert Review, an independent review of business-university collaboration, was published in December 2003 and made a series of recommendations aimed at improving the links between the UK's strong science base and the business community. The Government are strongly supportive of the analysis in the report and recognise the importance of this policy agenda.

The Government believe that Regional Development Agencies (RDAs) are well-placed to promote business-university collaboration but recognise that they need capacity and links to national programmes to do this effectively. The RDAs also have a role to play in facilitating cross-regional collaborative activity.

The Government intend to develop the main policy reforms put forward in the Lambert Review in the context of the 10-year investment framework on science and innovation. The Government's final response to the Lambert Review will be published this summer as part of this 10-year investment framework.

Museums

Miss Kirkbride: To ask the Chancellor of the Exchequer what plans he has to give the same VAT tax privileges to university museums as those that apply to other museums [174335]

John Healey: Under normal VAT rules, VAT incurred on goods and services relating to non-business activities cannot be recovered. Free admission of persons to premises is a non-business activity for VAT purposes, therefore museums which do not charge for admission cannot recover the VAT they incur on related purchases. These principles apply irrespective of the source of the funding used to make the purchases.

In September 2001, the Government introduced a VAT refund scheme that allows the main national museums and galleries which do not charge admission to recover VAT they incur on related purchases. This scheme is designed to remove the obstacle VAT was creating to the delivery of the Government's 1997 manifesto commitment that there should be free access to the main national museums and galleries.

As the Chancellor announced in his Budget statement this year the commitment to achieve free access has been an outstanding success. Building on that success, and in light of the Goodison Review, the Government are considering in the context of the forthcoming spending review the issue of extending the free access commitment for the main national museums and galleries, and the VAT refund scheme that has helped to deliver it, to university museums.

Overseas Aid

Mr. Hoyle: To ask the Chancellor of the Exchequer how much funding he has made available for overseas aid in each year since 2000. [173857]

John Healey: Since 2000 the following amounts have been made available each year by the Government for the UK's official development assistance:

UK Official Development Assistance (oda)

	£ billion
2000–01	3.0
2001–02	3.2
2002–03	3.3
2003–04	3.8

Source:
OECD Development Assistance Committee (DAC) and Statistics on International Development 1998–99 to 2002–03.

Sport Utility Vehicles

Norman Baker: To ask the Chancellor of the Exchequer if he will examine the recent steps taken by the German states to increase the tax on sport utility vehicles to assess the potential environmental effects of similar provisions in the United Kingdom. [173144]

John Healey *[holding answer 14 May 2004]:* The Government keep all taxation policy under review. Any changes to taxation policy are announced by the Chancellor in the context of his annual Budget statement.

TRANSPORT

Dibden Bay

Mr. Hancock: To ask the Secretary of State for Transport what plans the Government Office for the South East has to initiate discussions with appropriate authorities to determine the future *(a)* investment and *(b)* infrastructure needs of the Port of Southampton following the decision on Dibden Bay; and if he will make a statement. [173214]

Mr. Jamieson: It is for the Port of Southampton to determine their own future investment and infrastructure needs in discussion with the appropriate authorities, as they see fit. The Government Office for the South East would be pleased to discuss any proposals for the Port with those responsible for its development.

British Transport Police

Mr. Damian Green: To ask the Secretary of State for Transport from how many police stations the British Transport Police operate; and what the manning levels were at each station in each year since 1997. [171900]

Mr. McNulty: The British Transport Police (BTP) have provided the following information:

Police station profile

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*

Note:
Midland and South Western Areas were merged to form Western Area in 2003–04.

Mr. Damian Green: To ask the Secretary of State for Transport how many British Transport Police officers in London are *(a)* trained and *(b)* equipped to handle major terrorist biological attacks. [171903]

Mr. McNulty: For security reasons actual numbers of trained and equipped officers cannot be revealed. However, the BTP is currently in excess of double the target number set by the Home Office for all forces regarding numbers of officers to be trained for a chemical, biological, nuclear or radiological attack both in terms of forcewide and in London.

Bus Lanes

Jane Griffiths: To ask the Secretary of State for Transport when he will issue regulations to allow camera enforcement of bus lanes outside London; and if he will make a statement. [173803]

Mr. McNulty: We will make the regulations as soon as possible.

Concessionary Bus Fares

Brian White: To ask the Secretary of State for Transport what assessment he has made of the use of concessionary bus fares for older people in England and Wales; and what plans he has for future changes. [173262]

Mr. McNulty: The National Travel Survey provides the following information on the use of concessionary bus fares for women aged 60 or over and men aged 65 or over in England and Wales.

	Take-up rate of those with scheme available [1] (Percentage)	*Trips per person per year, where main mode is bus, using concessionary fares* [2]
1991–93	58	69
1996–98	50	53
1999–2001	47	42
2002	57	61

[1] The percentage of older people taking up their entitlement to a travel pass allowing them to claim concessionary fares

[2] In the National Travel Survey, a trip is a one-way course of travel having a single main purpose.

We have no plans to change the present arrangements for concessionary travel for older people. The current statutory minimum requirement for concessionary travel in England introduced in 2001 ensures half fares for older and disabled people on local buses, with no charge for the pass. From April 2003, we have extended concessionary travel schemes to men aged 60–64, bringing them into line with women of the same age. Local authorities may make more generous provision, including free travel, at their discretion.

Driving Standards Agency (Conferences)

Mr. Damian Green: To ask the Secretary of State for Transport how many conferences for attendees other than Driving Standards Agency employees the DSA has organised each year since 1997; and how much each conference cost. [174166]

Mr. Jamieson: Since 1997, the Driving Standards Agency has organised three conferences for external audiences:

	Conference title and venue	*Cost (£)*
1998	Safe driving for life—Birmingham	24,000
1999	Safe driving for life—Birmingham	32,500
2003	CIECA(Commission Internationale des Examens de Conduite Automobile)—Edinburgh	57,600

Light Rail

Mr. Gordon Marsden: To ask the Secretary of State for Transport (1) what assessment his Department has made of the National Audit Office report, "Improving Public Transport in England through Light Rail"; [173915]

(2) what assessment his Department has made of its *(a)* bidding process for and *(b)* evaluation of light rail proposals since publication of the National Audit Office report, "Improving Public Transport in England through Light Rail." [173916]

Mr. McNulty: The Department is currently considering the findings of the report published on 23 April, including those conclusions relating to the bidding process and the evaluation of light rail projects.

Mr. Gordon Marsden: To ask the Secretary of State for Transport what discussions his Department has had with organisations representing the disabled about the inclusion of access criteria in the assessment of the Blackpool light rail bid. [173917]

Mr. McNulty: The impact on accessibility is one of Department's criteria used for assessing the value for money of all transport projects. The Department has no direct discussion with organisations representing the disabled regarding accessibility issues on the Blackpool tramway; this would be for the promoters when developing their bid.

Light Rapid Transit

Mr. Damian Green: To ask the Secretary of State for Transport (1) how much central Government investment was promised by his Department when funding approval was first given to the South Hampshire Rapid Transit scheme; and what subsequent change in funding has been agreed by his Department; [171958]

(2) how much central Government investment was promised by his Department when funding approval was first given to the Leeds Supertram; and what subsequent change in funding has been agreed by his Department; [171959]

(3) how much central Government investment was promised by his Department when funding approval was first given to the Liverpool Merseytram; and what subsequent change in funding has been agreed by his Department. [171960]

Mr. McNulty: In March 2001 the Department agreed to contribute up to £170 million (in present value) towards the South Hampshire Rapid Transit scheme and up to £355 million (in present value) towards Leeds Supertram. In December 2002 the Department provisionally agreed to contribute a maximum of £165 million towards Merseytram Line 1 subject to all the necessary statutory powers being obtained. In all cases, final funding is dependent on the scheme still offering value for money against the Department's appraisal criteria to ensure value for money. No change in funding has been agreed.

Radioactive Materials

Norman Baker: To ask the Secretary of State for Transport what steps his Department is taking to minimise the movement of radioactive material. [173477]

Mr. Jamieson *[holding answer 17 May 2004]:* We are not aware of any shipments of radioactive materials having taken place without a justifiable reason.

In the UK and worldwide the overwhelming majority of radioactive material movements are associated with medical care. These materials often have a very short shelf life, and may be delivered in response to individual patient needs. Other requirements, such as the need for secure storage, also influence the number of shipments of radioactive material.

Rail and Bus Services

Mr. Truswell: To ask the Secretary of State for Transport (1) what assessment he has made of the socio-economic make up of rail users *(a)* outside London, *(b)* in London and *(c)* in the South East; [173468]

(2) what assessment he has made of the socio-economic breakdown of bus users outside London. [173724]

Mr. McNulty: The National Travel Survey provides the information for people aged 16 and over in Great Britain for the period 1998–2000, according to their area of residence.

The table shows the percentage of users in each socio-economic group.

Percentage

Socio-economic group (SEG)	*All persons aged 16 and over*	*Rail users* [1]			*Bus users* [2]
		Outside London	*London*	*South East*	*Outside London*
Professional/managerial	14	21	24	25	8
Intermediate non-manual	10	14	16	14	8
Junior non-manual	12	14	14	17	13
Skilled manual	12	8	9	7	8
Other manual/other SEGs	14	13	9	11	17
Retired	26	19	16	18	30
Other economically inactive	12	11	14	8	15
All persons	100	100	100	100	100

[1] Use surface rail more than twice a year (31 per cent. of all persons aged 16 and over).
[2] Use a local bus more than twice a year (47 per cent. of all persons aged 16 and over).

Mr. Truswell: To ask the Secretary of State for Transport what progress has been made towards the targets for bus services agreed between his Department and the Confederation for Passenger Transport announced on 30 April 2002 *(a)* in London and *(b)* outside London; and what further action he proposes to take to ensure that those targets are achieved. [173469]

Mr. McNulty: Progress towards the four bus service targets agreed between the Department and the Confederation of Passenger Transport (CPT) in 2002 is monitored regularly through surveys.

With regard to reliability, the results for the quarter year October to December 2003 showed that 98.5 per cent. of scheduled local bus mileage was operated in England, using seasonally adjusted data. The figure for London was 97.5 per cent. and that for the rest of England 98.8 per cent. In the baseline year, 2000–01, 98.2 per cent. of scheduled local bus mileage was operated. The target is for operators to run 99.5 per cent. of all scheduled mileage.

On bus fleet age, the most recent results from CPT for the age of their members' full size bus fleet showed an average age of 7.5 years at 1 July 2002. The target is to maintain an average fleet age of no more than eight years. Data for 1 July 2003 should be available shortly. Separate figures for London as compared to the rest of the country are not available.

On accessibility, results from the Department's annual survey of bus operators showed that, at 31 March 2003, 29.3 per cent. of full size buses in Great Britain were of low floor design, allowing wheelchair access. This has increased from 22.0 per cent. at 31 March 2001. The target is for half of all full size buses to be wheelchair accessible by 2010. A separate survey undertaken by Transport for London showed that 82 per cent. of the capital's full sized bus fleet is fully accessible.

Survey results for the quarter year October to December 2003 showed that bus passenger satisfaction with information at bus stops was rated at 66 out of 100, for England, using seasonally adjusted data. This is up from 61 in 2000–01 and 63 in 2002–03. The figure for London was 73 out of 100 as against 60 out of 100 for the rest of England. The target is to improve the rating year on year.

The Government and the CPT remain committed to achieving these targets, underlining the good working relationship that we have with the bus industry, as well as demonstrating the industry's continuing commitment to delivering improved services.

Mr. Truswell: To ask the Secretary of State for Transport how much capital expenditure has been invested by local authorities on measures designed to improve the quality and reliability of bus services outside London in the last five years for which data is available. [173723]

Mr. McNulty: We do not hold figures for local authority transport capital expenditure broken down by mode for the years preceding the introduction of the local transport plan system.

In the first two years of the LTP programme (2001–02 and 2002–03) local authorities informed us that they spent £97 million and £165 million respectively on bus infrastructure schemes, including major schemes. They forecast further spend of £233 million in 2003–04.

Mrs. May: To ask the Secretary of State for Transport how many hourly bus services were operating in rural areas in each of the last five years for which figures are available. [173729]

Mr. McNulty: Information is not available in the form requested. The Department collects information each year on the number of rural bus services it supports through rural bus subsidy grant but the survey does not measure the frequency of services.

John McDonnell: To ask the Secretary of State for Transport which train operating companies are run on *(a)* management contracts and *(b)* a cost plus basis; and when each contract began. [171212]

Mr. McNulty: Virgin West Coast, Virgin Cross Country, First North Western and Arriva Trains Northern are operating on management contracts. The new arrangements came into place in July 2002 for the Virgin franchises, March 2001 for First North Western, and February 2001 for Arriva Trains Northern. Of these, only First North Western is on a cost plus basis. The others are operated on the basis of annual budgets (so the operator is at risk within the year).

Railways

Albert Owen: To ask the Secretary of State for Transport if he will ask Network Rail to launch an urgent inquiry into track quality between Holyhead and Chester. [174069]

Mr. McNulty: This is an operational matter for Network Rail. However, Network Rail advises me that it is already undertaking a comprehensive programme to manage and monitor the track quality in this area and, at the same time, is investing to upgrade the track.

Rural Buses

Mr. Damian Green: To ask the Secretary of State for Transport how much of the £263 million cited in paragraph 5.14 on page 52 of his Department's Annual Report 2004 comes through the Rural Bus Subsidy Grant and Rural and Urban Bus Challenge. [174167]

Mr. McNulty: In 2002–03, this Department paid a total of £74.7 million to local authorities under its three bus grant schemes. This consisted of £47.3 million under the Rural Bus Subsidy Grant, £18.2 million under the Rural Bus Challenge and £9.2 million under the Urban Bus Challenge.

Speed Cameras

David Davis: To ask the Secretary of State for Transport what plans there are to increase the number of speed cameras in the Humberside area. [171774]

Dr. Howells: Approval has been given to the request by the Humberside Safety Camera Partnership to place four additional fixed camera sites and 13 additional mobile camera sites in the 2004–05 financial year.

Mr. Damian Green: To ask the Secretary of State for Transport if he will estimate the *(a)* installation costs and *(b)* annual maintenance and running costs of a speed camera. [171894]

Mr. Jamieson: The estimated cost of installing a camera site is around £7,000. The estimated cost of a speed or traffic light enforcement camera, which may be used at a site continuously or from time to time, is around £38,000.

Average running costs are estimated at around £5,000 per annum per camera site.

Transport Direct

John Thurso: To ask the Secretary of State for Transport what progress has been made towards delivering the targets relating to Transport Direct set out in the 10- year plan; and when he expects remaining components to be operational. [170867]

Dr. Howells: Transport Direct has overseen the implementation of 19 local authority schemes, which have resulted in approximately 40 per cent. of the English bus fleet having real-time capability. Also, real-time operating information for the whole rail network has been put in place.

The development of the internet portal was completed in November 2003. The portal will allow the user to plan multi-modal journeys, book long-distance tickets and consult internet maps. It will be first available to the public in summer 2004, as opposed to the 10-year plan target of 2003.

The portal is currently integrated with 12 remote journey planners, three retailers and several real-time travel information providers. The prime cause of delay in launching the portal has been the need to fully integrate all these services with the portal and to test the resultant outputs.

HEALTH

Abortion

Mr. Amess: To ask the Secretary of State for Health (1) what the cost was of performing abortions in NHS hospitals in each of the last three years for which figures are available; [165975]

(2) how many abortions have been performed under the Abortion Act 1967; and how many were performed to save the life of the mother. [165976]

Miss Melanie Johnson: The number of abortions performed in England and Wales on residents of England and Wales in the years 1968 to 2002 was 4.73 million. Of these 39,757 were performed under Sections 1(1)*(c)* and 1(4) of the Abortion Act 1967. These are cases where the continuance of the pregnancy would involve risk to the life of the pregnant woman, greater than if the pregnancy were terminated, or where the termination is immediately necessary to save the life or to prevent grave permanent injury to the physical or mental health of the pregnant woman.

The cost of performing abortions in national health service hospitals in England was £32.7 million in 2000–01, £35.7 million in 2001–02 and £38.2 million in 2002–03.

Agency Fees

Sarah Teather: To ask the Secretary of State for Health pursuant to the answer of 26 March 2004, *Official Report*, column 1127W, on agency fees, what definition has been used of non-NHS staff. [172813]

Mr. Hutton: The figures for non-national health service staff include all expenditure on agency staff and any other temporary staff not directly employed by NHS trusts, primary care trusts and strategic health authorities. Separate information on agency staff is not collected.

Allied Health Professions

Mrs. Iris Robinson: To ask the Secretary of State for Health (1) how many *(a)* consultants and *(b)* clinical specialists he estimates will be appointed within the allied health professions in the next (i) 12 months and (ii) 12 to 24 months; [173722]

(2) if he will make a statement on progress towards meeting targets for the number of consultants within the allied health professions; [173725]

(3) how many *(a)* clinical specialists and *(b)* consultants there are within the allied health professions. [173733]

Mr. Hutton: Information on numbers of clinical specialists in the allied health professions in England is not collected centrally. The Department's non-medical workforce census records that there were 20 allied health professions consultants in England on 30 September 2003. In neither case have we made estimates of numbers for future periods.

Ambulances (Speeding)

Mr. Wareing: To ask the Secretary of State for Health how many ambulance drivers have been recorded as speeding by speed cameras while answering 999 calls in *(a)* 2001, *(b)* 2002 and *(c)* 2003; what the total cost has been to ambulance trusts; and if he will make a statement. [173021]

Ms Rosie Winterton *[holding answer 17 May 2004]:* The information requested is not collected centrally.

However, the Department is aware that speeding tickets issued to ambulances on emergency journeys are creating extra administration costs in some areas. Officials have already had useful discussions with the Home Office and are working closely with them to provide a solution.

Mr. Wareing: To ask the Secretary of State for Health what representations he has received in respect of ambulance drivers recorded as speeding by speed cameras when answering 999 calls; and if he will make a statement. [173022]

Ms Rosie Winterton *[holding answer 17 May 2004]:* The Department is aware that speeding tickets issued to ambulances on emergency journeys are creating extra administration costs in some areas. Officials have already had useful discussions with the Home Office and are working closely with them to provide a solution.

The issue of speeding tickets has been raised with the Department in a Lord's starred question, in questions from hon. and right hon. Members and by the Ambulance Service Association.

Barbecued Food

Mr. Burstow: To ask the Secretary of State for Health how many food poisoning incidents relating to barbecued food were recorded in each year since 1997; and if he will make a statement. [172702]

Miss Melanie Johnson: The Health Protection Agency receives reports of outbreaks of infectious intestinal disease (IID) in England and Wales. A summary of the outbreaks from 1997 to 2003 that were reported as being associated with barbecues or with barbecued food is shown in the table.

However, outbreaks account for only a small proportion of laboratory-confirmed cases of IID (probably around 5 per cent.). The majority of cases are sporadic and in such cases, it is usually impossible to determine the source of infection. Laboratory confirmed cases of IID themselves represent only a fraction of all cases.

Foodborne outbreaks of infectious intestinal disease (IID) associated with barbecues: 1997 to 2003[1]

	Pathogen	Location	Number ill	Month of onset	Comment
1997	*Salmonella* Virchow PT8	Restaurant	3	April	Chicken (BBQ)
1998	*Escherichia coli* 0157	School	2	May	Sausages at BBQ
2000	Campylobacter	BBQ at Residential institution	21	May	BBQ held for residents and staff
2001	*Salmonella* Enteritidis PT6	BBQ at Private House	22	Sept	Tiramisu

[1] Provisional for 2003.

Note:

There were no outbreaks of IID associated with barbecues in 1999, 2002 and 2003.

Source:

Communicable Disease Surveillance Centre, Gastrointestinal Diseases Department, Health Protection Agency.

Barnet and Chase Farm NHS Trust

Mr. Dismore: To ask the Secretary of State for Health if he will provide key statistical performance indicators for Barnet and Chase Farm NHS Trust, disaggregated between Barnet and Chase Farm hospitals, for each of the last three financial years; and if he will make a statement. [169799]

Mr. Hutton: Disaggregated statistical information on performance indicators used to calculate star ratings for national health service trusts are not held centrally.

Statistical information on the trusts' results are available on the star ratings website which is http://www.chi.nhs.uk/Ratings/Reports/SummaryReportCore.asp?TrustCode=RVL

Cancelled Operations

Sarah Teather: To ask the Secretary of State for Health how many operations have been cancelled for non-clinical reasons in each strategic health authority in England in each year since 1997. [172823]

Mr. Hutton: Quarterly data for England are collected on the number of operations cancelled by the hospital for non-clinical reasons at the last minute (for example, on the day patients are due to arrive, or after arrival in hospital, or on the day of their operation), and the number of patients not admitted within 28 days of a "last minute" cancellation as part of the NHS Plan cancelled operations guarantee.

Cancelled operations data by national health service trust and by strategic health authority are available in the Library and on the Department's website at http://www.performance.doh.gov.uk/hospitalactivity.

Dentistry

Sarah Teather: To ask the Secretary of State for Health what percentage of the population in each primary care trust in London is registered with an NHS dentist. [172798]

Mr. Hutton: At 31 March, 2.9 million people were registered with a general dental service (GDS) dentist in London, representing, 40.7 per cent. of the population. The information in the table shows the percentage of population registered with a dentist in each primary care trust area in London at 31 March.

Registrations are recorded in the dentist's primary care trust (PCT) area. Patients attending a dentist in their home PCT area are recorded in the PCT area of their dentist. Registration rates for individual PCTs can be significantly affected by some patients receiving dental treatment in a different PCT area from the one in which they live.

Registrations lapse if patients do not return to their dentist within 15 months and so the registration figures exclude patients who have not been to their GDS dentist within the past 15 months. Also excluded from the figures are patients who receive dental treatment from other national health service dental services including dental access centres.

Number of General Dental Service registration as a percentage of the population at 31 March 2004—London

Primary care trust	Registration rates
London Region	40.7
North Central London	41.3
Barnet	33.3

Sutton and Merton	42.6

[1] Combined rates for Redbridge and Waltham Forest.

Mr. Burstow: To ask the Secretary of State for Health how much money has been allocated to dentistry *(a)* in each year since 1997 and *(b)* for each of the next three years; and how that money has been spent. [169706]

Ms Rosie Winterton: Funding for hospital and community dental services is included in primary care trusts' (PCTs) unified budget allocations and is not identified separately; PCTs decide what level of spend is appropriate for local circumstances from their unified budget allocations.

Funding for general dental services (GDS) is currently managed on a national basis as a non-discretionary budget, and expenditure is determined by the number of patients and the treatments provided. Actual net spend since 1997–98 to 2002–03 are shown in the table.

	Expenditure (£ million)
1997–98	959
1998–99	1,022
1999–2000	1,058
2000–01	1,130
2001–02	1,202
2002–03	1,263

Expenditure figures represent the net spend on the GDS after taking account of the contribution from dental charges paid by patients. Figures from 1997–98 to 1999–2000 are cash based. Figures for 2001–02 onwards are resource based. Figures from 1998–99 include expenditure on new personal dental service (PDS) pilot schemes.

In addition to the non-discretionary expenditure shown in the table, £4 million in 2000–01 and £41 million in 2001–02 was allocated to special schemes to help dentists modernise their practices and extend access to more national health service patients.

Expenditure figures for 2003–04 are not yet available. As in previous years, the GDS budget for 2004–05 is a central non-discretionary budget and expenditure will be determined by dental activity. We have not yet made allocations for 2005–06 and 2006–07. These will be notified to Parliament in due course. However, we have already announced further supplementary investment totalling £90 million to support dentistry through to 2005–06. £59 million will support access, and strategic health authorities have been advised of their shares and are working with their primary care trusts to address access issues. £30 million is to support information technology and the balance of £1 million will support organisational development locally.

The funding has been spent in paying fees to dentists for the provision of dental services through the GDS and the PDS and includes increases in fees in line with the Doctors and Dentists Review Body recommendations, as well as the introduction of schemes such as rewarding NHS commitment. Over this period, the number of adult courses of treatment in the general dental service increased from 25.3 million in 1997–98 to 26.7 million in 2002–03, which includes 0.4 million courses in the personal dental service.

Mr. Alan Campbell: To ask the Secretary of State for Health what action he is taking to recruit more NHS dentists. [170415]

Ms Rosie Winterton: We are developing a comprehensive plan to increase dental workforce capacity. The plan will address the short, medium and long term. It will include international recruitment and increases in the amount of national health service dentistry provided by United Kingdom dentists.

Diagnostic Testing

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 5 May 2004, *Official Report*, column 1612W, on diagnostic testing, of what types of diagnostic testing his Department is committed to extending the provision within *(a)* general practitioner surgeries and *(b)* community pharmacies; and what costs this will incur. [172915]

Mr. Hutton: The Department is committed to improving access to diagnostic services in primary and community settings to prevent inappropriate hospital visits.

However it is the responsibility of local strategic health authorities and primary care trusts, determined by local needs, to decide which diagnostic services GP surgeries and community pharmacies might provide, and the costs incurred by such services.

Drugs Expenditure

Mr. Burstow: To ask the Secretary of State for Health what the total expenditure on drugs in the NHS was in *(a)* England, *(b)* each NHS region and *(c)* each strategic health authority in each of the last 10 years for which figures are available. [169707]

Mr. Hutton: The information requested has been placed in the Library.

Failed Appointments

Mr. Burstow: To ask the Secretary of State for Health how many and what percentage of patients failed to attend NHS appointments in *(a)* England, *(b)* each region and *(c)* each strategic health authority in each year since 1997. [172708]

Mr. Hutton: The information is shown in the tables.

England: out-patient non-attendance rates

	Number of patients who did not attend	*Percentage of patients who did not attend*
1997–98	5,629,429	11.9
1998–99	5,648,971	11.8

Strategic Health Authorities did not exist prior to 2001–02.

Fertility Treatment

Mr. Amess: To ask the Secretary of State for Health how many licensed clinics providing fertility treatment have obtained licences for embryonic stem cell research. [173381]

Miss Melanie Johnson: Seven clinics licensed to provide fertility treatment have obtained licences for embryonic stem cell research.

Mr. Amess: To ask the Secretary of State for Health if he will make a statement on the application to the Human Fertilisation Embryology Authority by Professor Alison Murdoch for a licence to create human embryonic stem cell lives using nuclear transfer and parthenogenically activated oocytes. [173434]

Miss Melanie Johnson: Embryo research in the United Kingdom can only be carried out under licence from the Human Fertilisation and Embryology Authority (HFEA).

Consideration of the application by Professor Alison Murdoch for a licence to create human embryonic stem cell lines using nuclear transfer and parthenogenically activated oocytes is for the Human Fertilisation and Embryology Authority to determine under the provisions of the Human Fertilisation and Embryology Act 1990.

Professor Murdoch is on the HFEA's panel of external inspectors for in-vitro fertilisation clinics. The HFEA have procedures in place to avoid using individual external inspectors in circumstances where they could have a conflict of interest.

Foundation Trusts

Mr. Burstow: To ask the Secretary of State for Health how many *(a)* staff and *(b)* community electors each foundation trust had at the time of the election for governors; and how many electors took part in each election. [170999]

Mr. Hutton: This is a matter for the Office of the Independent Regulator of NHS Foundation Trusts. The chairman will write to the hon. Member, and a copy of his reply will be placed in the Library.

Mr. Burstow: To ask the Secretary of State for Health how many positions were available on the board of governors for each NHS foundation trust for patients and staff; how many people stood for each position; how many positions were uncontested; and how many positions remain unfilled. [171263]

Mr. Hutton: This is a matter for the Office of the Independent Regulator of NHS Foundation Trusts. The Chairman will write to the hon. Member, and a copy of his reply will be placed in the Library.

Gamete Donation

Mr. Amess: To ask the Secretary of State for Health (1) how much money the Government intends to invest to promote gamete donation; [173379]

(2) what protocols are in place to ensure that no coercive practices are involved in the targeting of gamete donation. [173380]

Miss Melanie Johnson: We announced in January that we are to support the transition to identifiable gamete donors, subject to Parliament's approval of the regulations, by increasing public awareness of the importance of such donors. The investment that we are making in the promotion of gamete donation involves time and effort as well as the provision of funding.

We are working with a range of organisations including the Donor Conception Network, the National Gamete Donation Trust and the Human Fertilisation and Embryology Authority (HFEA) on collaborative arrangements to encourage the recruitment of identifiable donors. We will be supporting the National Gamete Donation Trust (NGDT) to make contact with fertility clinics about current recruitment arrangements and the dissemination of good practice. The NGDT will also run an improved helpline for people interested in being gamete donors on 0845 226 9193. To date we have decided to provide the NGDT with some £100,000 for this work and are currently in discussion with them about further funding for 2004–05 and 2005–06.

Raising awareness of the value and importance of identifiable gamete donors will also take place in other ways. The HFEA will, for instance, include it as part of their inspections of clinics. We will also be promoting public awareness of gamete donation with other organisations and with the media in preparation for the introduction of identifiable donors from April 2005.

The donation of sperm, eggs or embryos is entirely voluntary. The code of practice issued by the HFEA makes clear that gamete donors must be paid no more than £15 for each donation plus reasonable expenses. It also makes clear that where a person is undergoing a treatment cycle, there must be no pressure or undue influence on a patient to donate supernumerary gametes or embryos.

General Practice in England

Mr. Burstow: To ask the Secretary of State for Health what steps his Department has taken to act on the findings and recommendations of the Audit Commission report "A Focus on General Practice in England". [172734]

Mr. Hutton: "A Focus on General Practice in England" did not make recommendations. The findings of this baseline study of general practice undertaken during the negotiations between the NHS Confederation and the general practitioners committee of the British Medical Association for a new contract for general medical services did, however, inform those negotiations. The new contract that came into effect on 1 April will make sure that the money going into general practice matches the needs of patients, enable general practitioners to control their work load while incentivising high quality care; and the new quality and outcomes framework will ensure that all patients can benefit from the same high quality care.

General Practitioners

Sarah Teather: To ask the Secretary of State for Health how many general practitioners there are per head in each primary care trust in England. [172828]

Mr. Hutton: Information on the number of general practitioners per 100,000 patients in each primary care trust in England, as at September 2003, has been placed in the Library.

Mr. Hurst: To ask the Secretary of State for Health what the average waiting time for NHS patients to be given a first appointment with a general practitioner was in each year from 1974 to 2003. [173634]

Mr. Hutton: These data are not collected centrally. However, available information shows that in March 2004 some 97 per cent. of the population could be seen by a general practitioner within two working days. This compares with about 75 per cent. in March 2002, which was the first year in which these data were collected.

Sarah Teather: To ask the Secretary of State for Health how many general practitioners there have been per head in Brent, East in each year since 1997. [172822]

Mr. Hutton: General practitioner services for people living in Brent are currently provided by Brent Primary Care Trust, part of North West London strategic health authority. Prior to 2001, these services were provided by Brent and Harrow health authority.

The table shows the number of general practitioners there have been in the Brent area since 1997.

Department of Health Non-medical Workforce Census.

Healthy Eating

Mr. Rosindell: To ask the Secretary of State for Health what steps the Department is taking to encourage the production and sale of healthier foods. [160697]

Miss Melanie Johnson *[holding answer 11 March 2004]:* We are working closely with the food industry and other stakeholders to encourage the production and sale of healthier foods. Our 5 A DAY programme is promoting the sale of fruit and vegetables.

We are currently consulting stakeholders and the public as part of the Choosing Health? consultation through the consultation document, "Choosing Health? Choosing a Better Diet". This will enable a wide range

of stakeholders to contribute to the debate on healthier food. The Government will draw up a White Paper in the light of consultation.

Healthy Living Centres

Mr. Alan Campbell: To ask the Secretary of State for Health what assessment he has made of the impact of healthy living centres. [170417]

Miss Melanie Johnson: Healthy living centres (HLCs) have a key role to play in reducing inequalities and supporting the work of other statutory and voluntary organisations locally.

The New Opportunities Fund has commissioned the Bridge Consortium to carry out a four-year evaluation of the programme which will focus on health impact monitoring and issues of sustainability, partnership and social exclusion.

The Department has commissioned its own evaluation of the HLC programme through the Tavistock Institute against key health priorities, such as cancer and coronary heart disease prevention. The institute will be encouraged to publish its findings and the Health Development Agency will incorporate the findings into evidence and practice reviews.

Interim findings from the New Opportunities Fund's evaluation are already available on the New Opportunities Fund website at www.nof.org.uk.

Hearing-impaired Patients

David Taylor: To ask the Secretary of State for Health what plans there are to introduce deaf and disability awareness training for front-line NHS staff. [170967]

Mr. Hutton: NHSU, the organisation set up by the Department to establish a university for the national health service, is leading the development and delivery of disability equality and awareness training tools and resources as part of a wider disability learning and development strategy. An initial prototype learning programme, aimed at providing staff with a broad overview of disability awareness, will be ready for consultation in the autumn.

There are no plans for centrally funded training programmes that deal specifically with deaf awareness.

Hospital Services/Investment

Shona McIsaac: To ask the Secretary of State for Health if he will list the major investments at *(a)* Diana, Princess of Wales Hospital, Grimsby and *(b)* Scunthorpe Hospital since 1997, and the value of those investments. [172338]

Miss Melanie Johnson: The information requested is shown in the table.

Major capital schemes at Northern Lincolnshire and Goole hospitals national health service trust since 1997

Year started	*Description*	*£000*
1998–99	C7 Enabling—DPOW	606

Hospitals (Internet Access)

Malcolm Bruce: To ask the Secretary of State for Health if he will list the hospitals which *(a)* have and *(b)* do not have access to broadband-enabled internet, broken down by (i) London boroughs, (ii) metropolitan boroughs, (iii) shire districts, (iv) unitary authorities, (v) shire counties and (vi) other local authorities; and if he will make a statement on the benefits of broadband connectivity to (A) patients and (B) hospital staff. [173097]

Mr. Hutton *[holding answer 14 May 2004]:* All acute trusts in England have broadband connections to the national health service national network. Information about the type of local authority organisation within which the trust is based is not collected.

A major part of the infrastructure programme is the implementation of the NHS national broadband network. This will provide the NHS with world class networking services, including secure broadband connectivity, for the future. The substantially enhanced bandwidth, intelligent network services and new network technologies will meet increasing demand and offer a range of new opportunities. It will enhance services and allow for the further development of remote centres, with increased access to specialist support.

The broadband network will provide access to the patient record in the various care locations, support on-site procedures and allow consistent access to knowledge for all clinicians. Care will be provided using telemedicine and telecare techniques in a wide range of locations, for example, minor injuries units, enhanced general practices and diagnostic and treatment centres. This will relieve acute trusts and accident and emergency departments by taking on investigations, treatment for minor injuries and procedures such as some day-case surgeries.

Improving Chronic Disease Programme

Andy King: To ask the Secretary of State for Health when the details of the Improving Chronic Disease Programme will be published. [171935]

Mr. Hutton: "Improving Chronic Disease Management" was published by the Department on 4 March, and signalled the start of an evolving programme to engage the national health service in adopting a more systematic approach to helping people with chronic conditions. More details were given to chief executives of strategic health authorities in a letter on 6 May, and this was followed by a conference on 18 May, and a series of regional workshops in June.

Internet Medicine Sales

Mr. Burstow: To ask the Secretary of State for Health how many representations have been made by *(a)* the Medicines and Healthcare Regulatory Agency between April 2003 and 2004 and *(b)* the Medicines Control Agency for each year between 1997 and 2003 to internet service providers regarding websites (i) in breach of the law on the sale of unlicensed medicines via the internet and (ii) providing medicines without adequate patient consultations; and if he will list the websites in each case. [167806]

Ms Rosie Winterton: During the period 2003 to 2004, the Medicines and Healthcare products Regulatory Agency (MHRA) made one representation to an internet service provider (ISP) involving the supply of unlicensed medicines via the internet without a United Kingdom registered medical practitioner's prescription. Initially compliance was achieved. However, the site is once again operating and is the subject of a new criminal investigation. Disclosure of the name of the site during the investigation could be prejudicial to any future prosecution action, and exemption four of the open government code of practice therefore applies.

During the period 1997 to 2003, the Medicines Control Agency (MCA) made six representations to ISPs involving the supply of both licensed and unlicensed medicines via the internet. All six representations related to a study (by the MCA enforcement unit) in 1999. The specific details of individual sites have not been retained following their closure.

Investing in General Practice Initiative

Mrs. Curtis-Thomas: To ask the Secretary of State for Health how the £85,000 allocated to South Sefton Primary Care Trust to support the Investing in General Practice commitments will be spent. [170525]

Miss Melanie Johnson: The information is not collected centrally. Following the introduction of the new general medical services contract, future decisions on how to prioritise health centre developments are the responsibility of local primary care trusts.

Mrs. Curtis-Thomas: To ask the Secretary of State for Health how the £86,000 allocated to Southport and Formby Primary Care Trust to support the Investing in General Practice commitments will be spent. [170526]

Miss Melanie Johnson: The information requested is not held centrally.

Following the introduction of the new general medical services contract, future decisions on how to prioritise health centre developments are the responsibility of local primary care trusts.

Maternity Services

Mrs. Iris Robinson: To ask the Secretary of State for Health what action he is taking to increase the number of midwives employed in *(a)* hospitals and *(b)* the community. [173580]

Mr. Hutton: The Government are implementing a range of measures to recruit more midwives, both in primary and secondary care. These include improving pay and conditions, encouraging the national health service to become a better, more flexible and diverse employer, increasing training, investing in child care and continuing professional development, attracting back returners and running national and local recruitment campaigns. As a result of these initiatives, there are more than 1,500 more midwives working in the NHS in England than in 1997.

NHS (Translation Costs)

Mr. Viggers: To ask the Secretary of State for Health what translation costs were incurred within the National Health Service in 2003–04. [172374]

Mr. Hutton *[holding answer given 13 May 2004]* This information is not held centrally.

NHS Land Sales

Vera Baird: To ask the Secretary of State for Health who will receive the profits of sale of NHS land for housing where a foundation trust is not in existence. [169763]

Mr. Hutton *[holding answer 30 April 2004]:* The receipts from the proposed transfer surplus National Health Service land to the Office of the Deputy Prime Minister will be added to normal capital allocations and passed out to the benefit of the entire NHS.

Vera Baird: To ask the Secretary of State for Health what the anticipated profits of sale of surplus NHS land for housing are expected to be; and how much front line service expansion this profit is expected to fund. [169816]

Mr. Hutton *[holding answer 30 April 2004]:* Until negotiations on the precise terms of the transfer of the land to the Office of the Deputy Prime Minister have been agreed, it will not be possible to say how much will be received for the surplus National Health Service land.

All of the receipts, once to hand, will be re-invested in the NHS.

NHS Staff

John Mann: To ask the Secretary of State for Health how many of those classified as *(a)* senior managers, *(b)* managers, *(c)* clerical and *(d)* administrative staff within the NHS (i) have medical training and (ii) do not have medical training. [171290]

Mr. Hutton: The information requested is not collected centrally.

North Bristol NHS Trust

Mr. Webb: To ask the Secretary of State for Health what assessment he has made of the costs of *(a)* elective acute activity and *(b)* non-elective acute activity at North Bristol NHS Trust; how these compare with the tariff payments that he proposes to make for such services; what the effect on the money available to North Bristol NHS Trust would be if the payment by results policy was implemented immediately; and if he will make a statement on his plans for transition to the new arrangements. [169013]

Mr. Hutton *[holding answer 27 April 2004]:* The Department annually collects retrospective cost and activity data from all English national health service trusts, including collections of elective in-patient, non-elective in-patient, and day case activity. The national tariff for 2004–05 includes some 550 or so healthcare resource groups (HRGs) covering activity in these categories. HRGs are groups of procedures and treatments that are clinically similar and involve similar use of resources.

Though the tariff is based on national average reported costs (Reference Costs), it is not meaningful to make direct comparisons between the two because of the prospective nature of the tariff. For example, the latest reference costs refer to 2002–03, and the tariff to 2005–06. However a realistic guide to the relative cost efficiency of a NHS Trust is given by the National Reference Cost Index (RCI). The RCI gives a single figure for each NHS trust which compares the actual cost of its activity with the same activity at national average cost. The 2002–03 RCI score for North Bristol NHS Trust indicates that across the board its activity costs are 26 per cent. above the national average. This reflects the significant extra unplanned expenditure incurred by the trust in that year.

Payment by results began in a small way in 2003–04, is extended in 2004–05, and becomes fully operational in 2005–06. There will be a further three-year transition period to full impact of the new system until 2008, during which the effect of the tariff will be phased to allow trusts to adjust local costs so as to be able to live within the tariff.

We anticipate there may be some NHS trusts that will not be able to reduce costs to the extent necessary. The numbers in this position are likely to be very few as new and better costing and HRG definitions are introduced, and when the system has been fine-tuned to take account of exceptionally expensive patients not well covered by the tariff. We also recognise that where organisations are recovering an accumulated deficit, recovery plans will need to be revisited in the light of transition.

Latest thinking on how these and a number of other operational issues might be resolved in practice is described in the Department's formal response to the latest round of consultation on payment by results, which will be published shortly. Final guidance will be issued later this year in time to inform the normal planning and contracting processes for 2005–06.

Obesity

David Davis: To ask the Secretary of State for Health what the obesity rate is for *(a)* all people, *(b)* under-25s and *(c)* over-25s in (i) the East Riding of Yorkshire and (ii) England. [171786]

Miss Melanie Johnson: The prevalence of obesity in children and adults, based on data from the Health Survey for England 2000–02, are shown in the table. No figures are available for the East Riding of Yorkshire.

Prevalence of obesity in children and adults

Age (years)	Total: England Prevalence (percentage)	Bases
2–15	16.0	9,412
16–24	10.3	3,270
25+	24.2	5,835
16+	19.2	9,105

Source:
Health Survey for England.

Organ Transplants

Mr. Burstow: To ask the Secretary of State for Health how many transplant operations took place on average in each year since 2001, broken down by type of organ. [164866]

Ms Rosie Winterton: The table shows data on organ transplants in the United Kingdom, April 2001 to March 2004, by financial year, organ and donor type with average over the three years.

Organ	2001–02 Cadaveric	Living	Total	2002–03 Cadaveric	Living	Total

Pensions Agency

Mr. Laurence Robertson: To ask the Secretary of State for Health pursuant to the answer of 2 March 2004, *Official Report*, column 865W, on pension schemes, on what grounds the NHS Pensions Agency may refuse to accept a pension transfer into their scheme; and if he will make a statement. [173906]

Mr. Hutton *[holding answer 17 May 2004]:* The National Health Service Pensions Agency may refuse to accept a transfer of pension rights into the NHS pension scheme ("the Scheme") if:

the transferring scheme is not tax approved

the transferring scheme is not an occupational pension scheme, a personal pension scheme, a buy-out policy or a retirement annuity other than a retirement annuity approved under section 620 (formerly section 226) of the Income and Corporation Taxes Act 1988

the application to transfer is made on or after age 60

the application to transfer is made more than 12 months after joining the NHS scheme (there is discretion to extend this time limit)

the transfer payment offered does not meet the scheme's liability to provide a guaranteed minimum pension

the transferring scheme will not provide a signed declaration confirming that the payment offered represents benefits that have been equalised from 17 May 1990 and that they will make good any deficiency in the amount paid should it later prove that the equalisation was inadequate.

Personal Injury Cases

Mr. Dismore: To ask the Secretary of State for Health how many personal injury cases have resulted in repayment of NHS costs to the NHS in each of the last five years; what the total amount recovered was; what the categories of cases are from which recovery is expected; what the maximum amounts recoverable for each kind of treatment are; and if he will make a statement on *(a)* the trend in recovery of NHS costs and *(b)* his future plans for the recoupment scheme. [R][173562]

Ms Rosie Winterton *[holding answer 17 May 2004]:* Under the provisions of the Road Traffic (NHS Charges) Act 1999, national health service hospital treatment costs can be recovered in cases where a person injured in a road traffic accident makes a successful claim for personal injury compensation. The costs are recovered from insurers, not the injured person. The charges are calculated using a tariff, which is currently set at £473 for treatment without admission, a daily rate fee of £582 for treatment with admission and there is a ceiling of charges which is set at £34,800.

The table shows the number of settled claims for personal injury compensation following a road traffic accident that resulted in a payment to the NHS and the total amounts paid to NHS hospitals in England, Scotland and Wales for each of the last five years.

	Number of cases resulting in repayment of NHS costs	Amounts recovered and paid to NHS hospitals (£ million)
1999–2000	67,466	30.05
2000–01	148,249	75.9
2001–02	182,006	98.3
2002–03	195,643	105.03
2003–04	185,533	105.7

Provisions contained in the Health and Social Care (Community Health and Standards) Act 2003 allow the current system of recovery of NHS costs to be expanded so that NHS hospital treatment costs and NHS ambulance service costs will be recoverable in all cases where personal injury compensation is paid. This will in the main include employer and public liability claims, in addition to road traffic accident claims. The new scheme is due to commence on 1 April 2005. It is estimated that the expanded scheme will recover an additional £150 million per year when its full impact is realised in several years' time.

Pharmaceutical Research

Mr. Hancock: To ask the Secretary of State for Health if he will make it his policy to ensure that the results of pharmaceutical research indicating negative results are made available to *(a)* the National Institute for Clinical Excellence and *(b)* the public. [171854]

Miss Melanie Johnson: Pharmaceutical companies must submit all research data to the Medicines and Healthcare products Regulatory Agency in support of any application for a marketing authorisation of a medicinal product. We have no plans to compel pharmaceutical companies or others to provide unpublished research data to the National Institute for Clinical Excellence.

It is for the company or the research author(s) to decide whether they wish to publish their data.

Practitioners with a Special Interest

Dr. Cable: To ask the Secretary of State for Health (1) what estimate he has made for each of the last five years of the number of referrals to practitioners with a special interest, broken down by *(a)* primary care trust and *(b)* strategic health authority area; [168863]

(2) what estimate he has made of the cost savings expected in the current financial year as a result of referrals to practitioners with a special interest rather than to hospitals; and what projection he has made of future cost savings from this programme. [168864]

Mr. Hutton: The practitioner with special interest role is intended to offer opportunities for professional development to general practitioners and others, and to offer primary care trusts (PCTs) new flexibilities in delivering services.

In line with "Shifting the Balance of Power", PCTs are responsible for developing practitioners with special interest services. Most are now doing so, but information on referrals to practitioners with a special interest is not collected centrally. Overall, however, in 2001–02 some 600,000 procedures previously only done in hospitals were carried out in primary care. By 2002–03, this had increased to 700,000 and further increases are expected in future years. This initiative has not been introduced to save money and no central estimates of potential or actual savings to the national health service in 2004–05 have been made.

Mr. Burstow: To ask the Secretary of State for Health how many professions allied to medicine have been appointed as practitioners with a specialist interest in each year since the scheme started; and from which discipline they came. [172706]

Mr. Hutton: There is no central scheme for the appointment of allied health professionals with a special interest, and information on any such appointments made locally is not collected centrally.

Professional Groups (Vacancies)

Sarah Teather: To ask the Secretary of State for Health what the vacancy rate was for each professional group in the North West London Strategic Health Authority in each year since 1997. [172819]

Mr. Hutton: General practitioner vacancy rates are not collected by strategic health authority.

Vacancy rates for other professional groups are only collected centrally for:

Qualified nursing, midwifery and health visiting staff.

Allied health professionals.

Other qualified scientific, therapeutic and technical staff.

Ambulance staff.

Consultants.

However, this data has only been collected since 1999. The figures are shown in the table.

[1] Figures where sum of staff in post and vacancies is less than 10.
Notes:
1. Three-month vacancies are as at 31 March each year.
2. Three-month vacancies are vacancies which Trusts are actively trying to fill, which had lasted for three months or more (whole-time equivalents).
3. Three month Vacancy Rates are three month vacancies expressed as a percentage of three-month vacancies plus staff in post.
4. For 1999–2001, three-month vacancy rates are calculated using staff in post from the previous September's Workforce Census.
5. For 2002–03, three-month vacancy rates are calculated using staff in post from the March Vacancy Survey.

Department of Health Vacancies Survey.
Department of Health Non-Medical Workforce Census.

Sarah Teather: To ask the Secretary of State for Health what the vacancy rate is for each health professional group in each strategic health authority in England; and what the average figures are for *(a)* London and *(b)* England. [172820]

Mr. Hutton: The three-month vacancy rate and number for specified non-medical professional groups and consultants in each strategic health authority (SHA) as at March 2003 is shown in the table. The average three-month vacancy rate and number for London and England as at March 2003 has also been provided.

The estimated three-month general practitioner vacancy rate for England in 2003 was 3.4 per cent. It is not possible to produce reliable estimates of the vacancy rate for GPs at SHA level.

Notes:

1. Three-month vacancy information is as at 31 March 2003.
2. Three-month vacancies are vacancies which trusts are actively trying to fill, which had lasted for three months or more (whole time equivalents).
3. Three-month vacancy rates are three month vacancies expressed as a percentage of three-month vacancies plus staff in post.
4. Three month vacancy rates are calculated using staff in post from the Vacancy Survey, March 2003, or from March 2003 consultant Mini Census.
5. London is based on the five London Strategic Health Authorities and London Ambulance Service NHS Trust.

Public Health Action Plan

Mr. Burstow: To ask the Secretary of State for Health what the timetable is for *(a)* publishing and *(b)* implementing the Public Health Action Plan proposed in Choosing Health. [172521]

Miss Melanie Johnson: The Secretary of State for Health launched "Choosing Health? A consultation on action to improve people's health" on 3 March 2004. The formal consultation period runs until 28 May 2004. The consultation will feed into a White Paper to be published this summer. The White Paper will set out the Government's plans to improve health, including the timetable for implementation.

Skin Diseases

Mr. Burstow: To ask the Secretary of State for Health what plans his Department has to extend chronic disease management clinics to cover skin diseases; and if he will make a statement. [169713]

Mr. Hutton: Primary care trusts, in partnership with local stakeholders, have the responsibility for deciding what services to provide for their populations including those with skin conditions. They are best placed to understand local health needs and commission services to meet them.

St. George's Hospital

Tom Cox: To ask the Secretary of State for Health what development projects are proposed for St. George's Hospital, Tooting within the next three years; and what the estimated cost is of each. [173079]

Mr. Hutton: St. George's Healthcare NHS Trust is projecting a capital spend of £16.4 million in 2004–05 on a number of small capital projects including an endoscopy unit, modernisation of the pharmacy facilities, upgrading of intermediate care facilities and a new maxillofacial laboratory. Delivery of this capital programme is dependent on the trust and South West London Strategic Health Authority working together to identify the funding streams.

The capital programme beyond 2004–05 has yet to be agreed.

Staff Turnover

Sarah Teather: To ask the Secretary of State for Health (1) how much was spent on staff turnover *(a)* at North West London Hospitals Trust and *(b)* in the North West London Strategic Health Authority in each year since 1997; [172799]

(2) what the percentage turnover of nursing staff was at North West London NHS Trust in the latest period for which figures are available. [172800]

Mr. Hutton: Information on the percentage turnover of nursing staff or on how much is spent on staff turnover is not collected centrally.

Teenage Sexual Health

Sir Nicholas Winterton: To ask the Secretary of State for Health what the rate of incidence of each sexually transmitted disease was in teenagers in each of the last 10 years for which figures are available. [167395]

Miss Melanie Johnson: Rates of diagnoses of each of the five most common sexually transmitted infections among teenagers from 1995 to 2002 are shown in the tables.

Rates (per 100,000) of diagnoses of selected STIs in 13–19 year olds, England: 1995–2002

Waiting Lists/Times

Mr. Pike: To ask the Secretary of State for Health if he will make a statement on NHS waiting times for heart surgery in Burnley. [167944]

Miss Melanie Johnson: There were eight patients waiting more than nine months for heart surgery in the Burnley, Pendle and Rossendale Primary Care Trust area at 30 June 2002. As at 30 March 2004, there were no patients waiting more than six months.

Mr. Hendrick: To ask the Secretary of State for Health how many and what percentage of suspected cancer patients in Preston saw an NHS consultant within two weeks in each of the last seven years. [168110]

Miss Melanie Johnson: The information requested is not collected on a constituency basis. The information shown in the table relates to the national health service organisations serving the Preston area.

Waiting times for first consultant out-patient appointment for suspected cancer following urgent GP referral

	NHS trust	Seen within 2 weeks: Percentage	Seen within 2 weeks: Number
2000-01	Chorley and South Ribble NHS Trust	98.8	320
2000-01	Preston Acute Hospitals NHS Trust	100.0	158
2001-02	Chorley and South Ribble NHS Trust	100.0	406
2001-02	Preston Acute Hospitals NHS Trust	100.0	291
2002-03	Lancashire Teaching Hospitals NHS Trust	100.0	783
2003-04	Lancashire Teaching Hospitals NHS Trust	100.0	990

Note:

Lancashire Teaching Hospitals was established on 1 August 2002 from the acute services of Chorley and South Ribble NHS Trust and Preston Acute Hospitals NHS Trust.

Source:

DH form QMCW.

Mr. Hendrick: To ask the Secretary of State for Health if he will make a statement on NHS waiting times for heart surgery in Preston. [168111]

Miss Melanie Johnson: There were three patients waiting more than nine months for heart surgery in the Preston Primary Care Trust area at 30 June 2002. As at 30 March 2004, there were no patients waiting more than six months.

Dr. Richard Taylor: To ask the Secretary of State for Health whether his target of 17 weeks' wait for a national health service out-patient referral starts from *(a)* the date of the consultation with the referring general practitioner and *(b)* the date that the patient is given the appointment date to attend the hospital or clinic. [172843]

Mr. Hutton: The target of 17 weeks wait for a national health service first out-patient appointment with a consultant following a general practitioner referral starts from the date on which the provider received the written referral request from the GP (or the date of the verbal request which was later confirmed), to the date when the first out-patient attendance with a consultant takes place.

HOME DEPARTMENT

Car Theft

Mr. Evans: To ask the Secretary of State for the Home Department how many cars were stolen in *(a)* Lancashire, *(b)* Yorkshire, *(c)* Cheshire, *(d)* Derbyshire and *(e)* Wales in 2003; and how many were subsequently recovered in each case. [R] [172698]

Ms Blears: The available information relates to 2002–03 and is given in the table. Information relating to the recovery of vehicles is no longer collected centrally.

Police force area	Theft and unauthorised taking of motor vehicle
Lancashire	5,585
North Yorkshire	2,642
South Yorkshire	10,241
West Yorkshire	22,867
Cheshire	4,503
Derbyshire	4,062
Wales	17,814

Counter-terrorism

Llew Smith: To ask the Secretary of State for the Home Department what assessment his Department has made, in respect of counter-terrorist planning, of the work done by the Health and Safety Executive for the International Atomic Energy Agency on public protection from high-activity sealed sources. [172314]

Mr. Blunkett: The United Kingdom has been prominent in negotiations to revise the International Atomic Energy Authority's Code of Conduct on the Safety and Security of Radioactive Sources which was agreed in September 2003. The UK was among the first to express an intention to implement the code and encourage all other countries to do the same. The UK was also prominent in negotiating action plans within G8 and the European Union , and in December 2003 the EU Council Directive on High Activity Sealed Sources (HASS) was adopted. The UK is now in the process of implementation and this work is being taken forward by a number of Government Departments and agencies, including the Health and Safety Executive.

Crime (Stalybridge and Hyde)

James Purnell: To ask the Secretary of State for the Home Department what the percentage change in *(a)* overall recorded crime, *(b)* overall recorded violent crime, *(c)* burglaries and *(d)* vehicle thefts has been in Stalybridge and Hyde since 1997. [168736]

Ms Blears: The information requested is not available centrally.

Stalybridge and Hyde is within the Tameside Crime and Disorder Reduction Partnership (CDRP) area. Data at CDRP level have only been published from 1999–2000 onwards. Detailed statistics at CDRP level are available for 2002–03 on the new Home Office website: http://www.crimestatistics.org.uk.

Criminal Records Bureau

Tim Loughton: To ask the Secretary of State for the Home Department how many Criminal Records Bureau checks were carried out free for charities in each of the last 12 months; and at what cost to his Department. [169026]

Ms Blears: Information is not available to determine how many Criminal Records Bureau checks have been carried out for charities during the last 12 months. However, between April 2003 and March 2004, the Bureau carried out 396,549 checks for volunteer applicants at a cost of £9,634,430 to the Department. The breakdown of the above figures on a monthly basis is shown in the table.

Month	*Number of enhanced disclosures issued free of charge for volunteers*	*Cost (£)*	*Number of standard disclosures issued free of charge for volunteers*	*Cost (£)*	*Overall cost (£)*
April 2003	28,096	337,152	4,733	56,796	393,948
May 2003	26,220	314,640	3,853	46,236	360,876
June 2003	30,863	346,812	4,855	58,260	405,072
July 2003	30,863	895,027	5,031	120,744	1,015,771
August 2003	21285	617,265	2,911	69,864	687,129
September 2003	23,703	687,387	4,141	99,384	786,771
October 2003	35,853	1,039,737	6,590	158,160	1,197,897
November 2003	29,323	850,367	6,209	149,016	999,383
December 2003	25,214	731,206	4,734	113,616	844,822
January 2004	26,524	769,196	4,750	114,000	883,196
February 2004	32,975	956,275	5,671	136,104	1,092,379
March 2004	29,690	861,010	4,424	106,176	967,186
Overall total					9,634,430

Custodial Sentences

Mr. Carmichael: To ask the Secretary of State for the Home Department how many adult males given a custodial sentence by courts were assessed as requiring *(a)* category A, *(b)* category B, *(c)* category C and *(d)* category D security conditions in London in each month since January 2003. [168638]

Paul Goggins: The original security category of adult males received under sentence in London prisons as *(a)* category A, *(b)* category B, *(c)* category C and *(d)* category D prisoners in each month since January 2003 is given in the table.

Original security category of adult males received under sentence into London prison

	A	*B*	*C*	*D*	*Other codes*[1]
January 2003-	4	33	488	123	143
February 2003	0	30	450	118	127
March 2003	0	20	496	101	155
April 2003	0	21	445	98	162
May 2003	0	26	494	111	169

[1] Other codes includes those awaiting categorisation and where the code has not yet been entered

Identity Cards

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment he has made of whether *(a)* convicted and *(b)* suspected terrorists in the United Kingdom are using (i) multiple and (ii) false identities. [170344]

Mr. Blunkett: We are aware that the use of false and multiple identities is a well established practice used by those who wish to disguise and facilitate involvement in serious crime, including terrorism. We know that at least 35 per cent. of terrorists use false or multiple identities.

An identity cards scheme which made it far more difficult to establish multiple identities will help to disrupt terrorist support networks. That is why the Government are introducing such a scheme.

Mini-cab Drivers

Miss McIntosh: To ask the Secretary of State for the Home Department (1) what the reasons are for the exclusion of other EU citizens from criminal record checks when applying to work as mini-cab drivers; [167981]

(2) for what reason British and EU mini-cab drivers are not treated equally with regard to requirements for criminal record checks when applying to work as mini-cab drivers. [167982]

Ms Blears: The Criminal Records Bureau (CRB) will accept a Disclosure application from any individual who is resident, or is seeking a post, in England and Wales, meets the eligibility criteria and makes an application in the prescribed form which includes providing the documentation required to authenticate the applicant. But Part 5 of the Police Act 1997, under which the CRB operates, does not empower the CRB to search data sources outside the United Kingdom for conviction and other information shown on its Disclosures. The value of a CRB Disclosure may therefore be limited if the applicant has been resident in the UK for no more than a short time.

Some other countries, including most in the EU, have arrangements in place which allow their citizens to obtain certificates of good conduct or extracts from the criminal record to show to prospective employers. The CRB has developed an Overseas Information Service for the benefit of employers. This supplies advice and

information about arrangements and contact points in a number of other countries in order that the employer can make inquiries or ask the employee to do so. At present, this covers 16 countries, including nine in Europe, and work is in hand to extend the service to a further 15 countries, including 14 in Europe. The CRB advises that Disclosures should complement and not replace other checks and inquiries under good recruitment practice. It is for employers (or regulatory bodies) to determine the arrangements that are to apply.

Ministerial Visits

Matthew Taylor: To ask the Secretary of State for the Home Department if he will list visits made by each Minister in the Department between December 2003 and April 2004, broken down by *(a)* date, *(b)* constituency visited and *(c)* cost. [171568]

Mr. Blunkett: The Government publish on an annual basis the total costs of all ministerial overseas travel and a list of all visits by Cabinet Ministers costing in excess of £500. Information for 2003–04 is currently being collected and will be published in due course.

Detailed information for all Ministers in respect of UK travel is not held centrally and could be provided only at disproportionate cost.

All travel is undertaken fully in accordance with the rules set out in the Ministerial Code and Travel by Ministers, copies of which are in the Library.

Neighbourhood Watch

Mr. Hoyle: To ask the Secretary of State for the Home Department if he will make a statement on the future of the National Association for Neighbourhood Watch. [173420]

Ms Blears *[holding answer 14 May 2004]:* The National Neighbourhood Watch Association is an independent organisation and its future is a matter for the association itself.

Mr. Hoyle: To ask the Secretary of State for the Home Department what support and assistance he provides to Neighbourhood Watch districts merging into regional bodies. [173422]

Ms Blears *[holding answer 14 May 2004]:* None. I am not aware of proposals for such mergers. I will consider any proposals if they are put to me. The Home Office and a number of Police forces provide considerable support to local neighbourhood watch schemes.

Operation Cohort

Dr. Gibson: To ask the Secretary of State for the Home Department whether Operation Cohort in the National Crime Squad is to close. [167401]

Caroline Flint: It would not be appropriate to comment on ongoing operational matters.

Police

Mr. Wyatt: To ask the Secretary of State for the Home Department what the percentage change in the number of full-time police officers in Sittingbourne and Sheppey has been since 1997. [170287]

Ms Blears: Sittingbourne and Sheppey constituency is part of the Swale Basic Command Unit (BCU). Information on strength at BCU level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002.

Between March 2002 and March 2003 police strength for the Swale BCU increased by 10.3 per cent. (from 213 to 235). The deployment of officers to BCUs is a matter for the Chief Constable (Michael Fuller) and within the Swale BCU deployment of officers is a matter for the Divisional Commander.

The number of police officers in Kent County Constabulary has increased by 292 since March 1997 to a record 3,552 officers in December 2003.

Simon Hughes: To ask the Secretary of State for the Home Department by how much in *(a)* percentage and *(b)* cash terms the Metropolitan police grant has changed in each year since 1997. [170493]

Ms Blears: The information is set out in the table.

	General government grants[1] *£ million*	*Annual percentage change in general government grants Percentage*	*Specific grants and capital provision*[2] *£ million*	*Total £ million*	*Annual percentage change in all government grants Percentage*
1997–98	1,549	—	39	1,588	—
1998–99	1,572	1.5	35	1,607	1.2
1999–2000	1,594	1.4	35	1,629	1.4
2000–01	1,586	-0.5	61	1,647	1.1
2001–02	1,666	5.0	125	1,791	8.7
2001–02[3]	1,647	—	125	1,772	—
2002–03	1,677	1.8	259	1,936	9.3
2003–04	1,764	5.2	290	2,054	6.1
2004–05	1,822	3.3	309	2,131	3.7

[1] General government grants comprise Home Office police grant, ODPM Revenue Support Grant and National Non-Domestic Rates. It also includes SSA Reduction Grant (£42.3 million in 1997–98, £32.1 million in 1998–99, £24.9 million in 1999–2000 and £10.4 million in 2000–01).

[2] Includes funding from the Crime Fighting Fund, Basic Command Unit funding, Street Crime Initiative, Community Support Officer funding, Special Priority Payments, the DNA Expansion Programme, London Allowance, Free Travel, Capital grant, Airwave, Premises Improvement Fund, C3i and Counter Terrorism funding. The total for specific grants in 2004–05 is an estimate.

[3] Figures for 2001–02 are not directly comparable with 2002–03 due to the change in funding arrangements for NCS and NCIS. Adjusted figures for 2001–02 are included to allow direct comparison with 2002–03.

Mr. Amess: To ask the Secretary of State for the Home Department what measures he has taken to promote the use of bicycles by patrolling police officers. [172570]

Ms Blears: The Home Office encourages forces to use a variety of means to increase the accessibility and visibility of officers with their local communities, as part of a wider commitment to engage with communities on a routine and in depth basis to identify their needs and act on them. It is the role of chief constables, however, to decide whether the use of patrol by bicycle would best meet the identified needs of their communities.

Mr. Paice: To ask the Secretary of State for the Home Department how many civilians were employed by each police force in England and Wales in the last year for which figures are available; and in what roles they were employed. [173570]

Ms Blears: Published information on police staff strength by police forcearea is available in total but not by function. The latest available figures for police staff are those for 31 March 2003. For Community Support Officers the latest available is for 31 March 2004. The data are set out in the table.

Police staff as at 31 March 2003 and Community Support Officers as at 31 March 2004 by police force England and Wales

Police force	*Police Staff as at 31 March 2003*	*Community Support Officers as at 31 March 2004*
Avon and Somerset	1,785	46
Bedfordshire	595	11

Police staff as at 31 March 2003 and Community Support Officers as at 31 March 2004 by police force England and Wales

Police force	*Police Staff as at 31 March 2003*	*Community Support Officers as at 31 March 2004*
Total of 43 forces	62,581	3,459
NCS	524	[2]—
NCIS	[1]—	[2]—
British Transport Poll	624	[2]—
Total other services	1,148	[2]—
Total police service	63,729	3,459
Total police service (excluding BTP)	63,105	3,459

[1] Have not supplied figures
[2] Not applicable
Note
All figures are full time equivalents.

Mr. Paice: To ask the Secretary of State for the Home Department how many hours were spent by police officers *(a)* on patrol, *(b)* on reactive policing, *(c)* in offices and *(d)* attending court for each police force in England and Wales in the last year for which figures are available. [173569]

Ms Blears *[holding answer 17 May 2004]:* This information is not available. Later in the year, the Government intends to publish the proportion of time spent by police officers on front line duties in each force.

Dr. Kumar: To ask the Secretary of State for the Home Department what use is being made of geographic information systems to match police project funding to area-specific problems *(a)* in Middlesbrough South and East Cleveland, *(b)* by Government Office of the Regions area and *(c)* in England. [141860]

Ms Blears: I understand that Cleveland Police use North East Regional Information Sharing System (NERISS) for crime mapping and data sharing. Cleveland also use Intergraph public safety mapping for command and control and Mapinfo for crime analysis and to inform tasking and co-ordination meetings and patrol patterns.

The Chief Constable of Cleveland Police informs me that resources are distributed locally according to an allocation model that is in part based on levels of deprivation. The force is in the process of adjusting its method of allocation to recognise, for example, the policing environment, in Middlesborough. The adjustment is informed by ongoing analysis of crime and disorder in the force area.

Comprehensive information on a national basis is not available but we are aware of police and local authorities using Geographic Information Systems (GIS) in some instances to target funding and other resources.

Mr. Goodman: To ask the Secretary of State for the Home Department in what circumstances the police are entitled to enter private property without a warrant. [172857]

Ms Blears *[holding answer 13 May 2004]:* The main powers of entry available to police officers are set out in the Police and Criminal Evidence Act 1984 (PACE). Circumstances in which the police may enter private property without a warrant are:

to arrest someone for an arrestable offence;

to arrest someone for whom an arrest warrant has been issued;

to search the premises of someone who has been arrested for an arrestable offence and where the police have reasonable grounds to believe that they will find evidence relating to that offence or of some similar or connected arrestable offence;

to search the premises in which an arrested person was immediately prior to his arrest, if the officer believes that evidence relating to that offence may be found there;

to recapture a person who is unlawfully at large;

to prevent or stop a breach of the peace;

in order to save life or limb; and to prevent serious damage to property.

A police officer may also enter private property without a warrant where the owner consents to such entry.

Mr. Swire: To ask the Secretary of State for the Home Department how many British-manufactured *(a)* vehicles and *(b)* motorcycles are employed by police forces. [172381]

Ms Blears: This information is not held centrally.

Mr. Swire: To ask the Secretary of State for the Home Department what guidelines his Department offers on buying British-built or manufactured vehicles for police forces. [172382]

Ms Blears: Since 1992 the Police Information Technology Organisation, with the support of the National Association of Police Fleet Managers, has put in place a number of national frameworks for the purchase of vehicles by the police service.

Under EC rules references in procurements to national origin are specifically prohibited as this contravenes the principles of the Treaty of Rome, of a single European Community internal market open to all.

Mr. Swire: To ask the Secretary of State for the Home Department how many foreign-made vehicles are used by police forces. [172414]

Ms Blears: This information is not held centrally.

Solvent Abuse

Tim Loughton: To ask the Secretary of State for the Home Department what training is provided to police on dealing with children engaging in solvent abuse. [169064]

Ms Blears: Nationally, all probationer police officers are provided with training material on how to deal with persons, including children, engaging in solvent abuse.

Individual forces are responsible for determining any further training required by their officers.

Tim Loughton: To ask the Secretary of State for the Home Department what voluntary sector agencies are used by police authorities for training in solvent abuse among children. [169066]

Ms Blears: We do not hold data on this specific issue centrally. However, we actively encourage police forces to seek opportunities to work in partnership with other agencies, including the voluntary sector, in developing and delivering training for the police.

Drug Addiction

Simon Hughes: To ask the Secretary of State for the Home Department if he will estimate how many people there are in Greater London, who are addicted to drugs, broken down by borough. [173252]

Caroline Flint: The Home Office does not collect specific information on the number of people in Greater London who are addicted to drugs.

Simon Hughes: To ask the Secretary of State for the Home Department if he will estimate what proportion of crime in Greater London was connected to drug addiction in each year since 1997, broken down by borough. [173253]

Ms Blears: Recorded crime figures, which are used to measure trends in crime, include statistics on drugs offences, such as possession, and on property crimes, such as burglary, do not record whether the latter are related to an offender's drug habits. There are therefore no figures currently available for the proportion of crime in Greater London, by borough, which was connected to drug addiction.

The Home Office sponsored New English and Welsh Arrestee Drug Abuse Monitoring (NEW-ADAM) survey, which involves interviewing and drug testing those arrested by the police, provides an insight into the proportion of crimes that are drug related. However, this survey does not provide sub-national data and is also not nationally representative.

A comparison of the survey's findings from eight sites across the country (including custody suites in Bethnal Green and Hammersmith) visited in 1999 and 2002, indicate that there was no change in the proportion of arrestees testing positive for one or more of six illicit drugs. Nearly two-thirds (65 per cent.) of arrestees in each year tested positive for any drug.

Timber

Ms Walley: To ask the Secretary of State for the Home Department whether his Department plans to contribute financially to the establishment of the second phase of the central point of expertise on timber. [167630]

Fiona Mactaggart: The Department has no plans to contribute financially to the development of a central point of expertise in timber (CPET). It has not been approached to do so.

Under-age Drinking

Mr. Lyons: To ask the Secretary of State for the Home Department what plans he has to tackle under-age drinking. [171433]

Ms Blears *[holding answer 10 May 2004]:* The Licensing Act 2003 strengthens the law on selling to under-18s, and increases the penalties for doing so. The Alcohol Harm Reduction Strategy for England, published on 15 March 2004 sets out the Government's plans to build on this through greater enforcement of existing laws against selling alcohol to minors.

We announced on 29 April 2004 that this summer, the Police Standards Unit, working with the Association of Chief Police Officers, will lead a robust enforcement

campaign in towns and cities across England and Wales to target those who encourage under-age and binge drinking.

In taking forward the Strategy recommendations, we will also look at improving the information about the dangers of alcohol misuse available to young people and encouraging the provision of more alternative activities for young people.

DEPUTY PRIME MINISTER

Local Authority Services

8. **Judy Mallaber:** To ask the Deputy Prime Minister what rewards are being given to local authorities with a record of delivering excellent services to the community. [173986]

Phil Hope: Local authorities that score as "excellent" in their comprehensive performance assessments receive more freedoms and flexibilities than those with lower scores. These include a significant reduction in ring-fencing, a 90 per cent. reduction in inspections, the freedom to trade, complete freedom over the use of income received from fines and fewer requirements to produce service plans.

Better Government for Older People

9. **Sandra Gidley:** To ask the Deputy Prime Minister if he will make a statement on his Department's contribution to Better Government for Older People. [173988]

Yvette Cooper: The Office of the Deputy Prime Minister is playing a key role in relation to improving services for older people, ensuring that they can live full independent lives and contribute fully to society. We are closely involved in the cross-Government drive to develop better quality and more co-ordinated services for older people, an aim which is vital to the Office of the Deputy Prime Minister's remit of creating sustainable communities.

Travelling Showmen

10. **Miss McIntosh:** To ask the Deputy Prime Minister what Government policy is on location of winter quarters for travelling showmen. [173989]

Yvette Cooper: The Government's advice to local planning authorities is contained in Circular 22/91, 'Travelling Showpeople'. This recognises the need for showpeople's winter quarters and describes the particular character of showpeople's sites. It puts emphasis on early discussion between local planning authorities and showpeople whenever local development plans are being prepared in order to help ensure suitable sites are available for purchase. It also advises early discussion between local planning authorities and showpeople before land is purchased for the setting up of winter quarters. Where plans do not contain a policy relating to the provision of showpeople's quarters, applications should be determined on their merits.

New Deal for Communities

11. **Dr. Desmond Turner:** To ask the Deputy Prime Minister if he will make a statement on the progress of the new deal for communities. [173990]

Yvette Cooper: I refer my hon. Friend to the answer given to the hon. Member for Brecon and Radnorshire today.

Regional Government

12. **Mr. Grogan:** To ask the Deputy Prime Minister what assessment he has made of the potential benefits to the Yorkshire and Humber economy of regional government. [173991]

Mr. Raynsford: Improving the economic performance of the region will be at the heart of the objectives of an elected regional assembly in Yorkshire and Humber. An elected assembly will be expected to agree with Central Government a target for improving its region's economic performance.

Mr. Jenkin: To ask the Deputy Prime Minister if he will list the companies to which he has awarded contracts in relation to the Your Say information campaign on elected regional assemblies; and, what the value was of each component of the contract for each. [172753]

Mr. Raynsford: For the Robson Brown contract I refer the hon. Member to the answer given on the 5 May 2004, *Official Report*, columns 1603–04W.

A self employed copy-writer has been appointed to write for the website and printed materials.

(a) Printed material—£3,100

The following companies have been appointed for individual printing jobs.

	£
(a) Impress	
Printing of calendars	835
(b) Sterling	
Printing of leaflets and fact sheets	59,364
(b) Taurus	
Printing of letterhead, fact sheets, folders	3,199
(c) CW print	
Printing of fact sheets	1,230

Two further companies have been appointed contracts (to date no costs have been paid).

(a) The company Reading Room has been appointed to design and build the website an improved Office of the Deputy Prime Minister about regional governance.

(b) The company Carat is the Office's media buyer and has been appointed to buy the media.

Mr. Jenkin: To ask the Deputy Prime Minister what the annual funding for 2004–05 is for *(a)* regional chambers, *(b)* the English Regions Network and *(c)* the Regional Co-ordination Unit; what the total funding has been for each year since their creation; and what the predicted budget is for the next financial year, broken down by (i) region and (ii) specific grant. [172754]

Mr. Raynsford: The Office of the Deputy Prime Minister makes a grant to the regional chambers and the English Regions Network to support their work. Details of the grant they have been allocated since they were designated by my right Hon. Friend the Deputy Prime Minister are detailed in the following table:

Table 1.

Chamber and Year	*Strengthening Regional Accountability Grant*	*Regional Planning Body Grant*	*Planning Delivery Grant*	*Total*
East				
2001–2002	500,000	—	—	500,000
2002–2003	600,000	—	—	600,000
2003–2004	600,000	758,000	516,000	1,874,000

2003–2004	600,000	730,000	325,000	1,655,000
2004–2005	600,000	730,000	593,000	1,923,000
English Regions Network				
2001–2002	1,000,000	—	—	1,000,000
2002–2003	200,000	—	—	200,000
2003–2004	200,000	—	—	200,000
2004–2005	200,000	—	—	200,000
All-Total				
2001–2002	5,000,000	—	—	5,000,000
2002–2003	5,000,000	—	—	5,000,000
2003–2004	5,000,000	6,000,000	3,075,000	14,075,000
2004–2005	5,000,000	6,000,000	6,987,000	17,987,000

Grant allocations for future years have not yet been agreed.

The Regional Co-ordination Unit was created in April 2001. Its annual funding is:

	£
2001–2002	9,623,600.00
2002–2003	7,496,130.00
2003–2004	14,506,530.00
2004–2005	10,535,730.00

The Unit's funding consists of the running costs for the organisation itself and budgets that it holds centrally on behalf of the Government Office network as a whole which includes staff from 10 Central Government departments. The running costs of the organisation in 2004–05 are £4,522,000.00 The centrally held budgets will be used to fund Government Office activities across the nine English Regions, but they are managed within the Unit and are not split by region.

Mr. Jenkin: To ask the Deputy Prime Minister pursuant to his Answer of 19 April 2004, *Official Report*, column 366W, on regional assemblies, what proportion of each of those costs will be spent in *(a)* the North East, *(b)* the North West and *(c)* Yorkshire and the Humber. [172914]

Mr. Raynsford: The £5 million budget allocation for the "Your Say" information campaign is not broken down by individual region. The information campaign operates across all three regions.

Local Government Finance

13. **Paddy Tipping:** To ask the Deputy Prime Minister what proportion of local authority spending in the current financial year is *(a)* provided centrally and *(b)* raised locally. [173992]

Mr. Raynsford: In 2003–04, 74 per cent. of local government revenue expenditure was funded centrally and 26 per cent. locally. Figures are not yet available for the current financial year.

Gypsies/Travellers

14. **Julie Morgan:** To ask the Deputy Prime Minister what plans he has to help gypsies and travelling people living on unauthorised sites. [173993]

Yvette Cooper: In England, the Office of the Deputy Prime Minister is conducting a review of Gypsy and Traveller policy, which will be concluded this summer. The Welsh Assembly are considering a report on service provision for Gypsies and Travellers and consulting on draft guidance on the management of Welsh unauthorised encampments.

Decent Homes Standard

Mr. Austin Mitchell: To ask the Deputy Prime Minister how many houses have been brought up to the Government's Decent Homes Standards by *(a)* registered social landlords, *(b)* arm's length management organisations, *(c)* councils and *(d)* the Public Finance Initiative since targets were fixed; and what proportion these numbers constitute of each sector's stock. [173669]

Keith Hill: The data collected for each of the sectors shows reduction in non-decent homes not numbers of homes made decent. The data from local authorities and registered social landlords (RSL) returns based on 2003 out-turn and plans to March 2004 show that:

(a) RSLs have reduced the number of non-decent homes by 20,000 since April 2001. This includes the impact of the transfer on non-decent homes from local authorities.

(b) Arm's length management organisations (ALMOs) have reduced the number by 30,000. This covers the 19 ALMOs that have received their additional resources. The first ALMOs that passed inspection started operations in November 2002.

(c) Non-decent stock in local authority management between 2001 and 2004 has reduced by 350,000.

(d) Work under the first Public Finance Initiative (PFI) schemes only started in July 2003. Data are not yet available on progress.

Disabled Children

Gregory Barker: To ask the Deputy Prime Minister (1) what percentage of families with disabled children received assistance from statutory agencies in order to address their housing needs in the latest period for which figures are available; [172870]

(2) which Government agency has lead responsibility for assessing the housing needs of disabled children; [172871]

(3) what plans are in place to improve the provision of housing to families with disabled children; [172872]

(4) what plans he has to abolish the disabled facilities grant means test for children; [172873]

(5) if he will make a statement on the fairness of the disabled facilities grant means test, The Test of Resources for children; [172909]

(6) what assessment he has made of whether the current Test of Resources for disabled children encourages parents to work; [172910]

(7) what progress the Government has made in reviewing the disabled facilities grant programmes and its means test. [172911]

Yvette Cooper: Statistics on the percentage of families with disabled children who received assistance from statutory agencies to address their housing needs are not collected centrally, and could be provided only at disproportionate cost.

Local housing authorities in consultation with social service departments have the leading role in assessing the housing needs of disabled children.

The Government have a number of policy initiatives designed to increase the supply of accessible housing including the provision of suitable housing to families with a disabled child. All newly built homes are required to comply with "Part M" of the building regulations. These provisions are expected to enable occupants to cope better with reduced mobility. The Office of the Deputy Prime Minister announced earlier this year that we will carry out a further review of Part M, with the aim of incorporating Lifetime Home standards for accessibility into the Building Regulations.

Furthermore, in relation to new social housing, the Government requires that all schemes funded through the Housing Corporation comply not only with the Building Regulations, but also with additional criteria for accessibility and internal environments set out in the Corporation's scheme development standards. Reforms of the planning system are also seeking to address issues of access and inclusion. The Planning and Compulsory Purchase Bill introduces a statutory requirement for those responsible for preparing regional spatial strategies and local development documents in England to undertake these functions with the objective of contributing to the achievement of sustainable development. Our consultation draft of Planning Policy Statement 1 (PPS1) makes it crystal clear that development plans should contain clear and comprehensive inclusive access policies.

The Office of the Deputy Prime Minister is not only taking action to improve accessibility in relation to new developments. We have also substantially increased Government resources available to the Disabled Facilities Grant (DFG) scheme to help with adaptations to the existing housing stock to meet the needs of disabled people. Since 1997, Government funding for DFGs has nearly doubled, rising to £100 million a year. This year, over 33,000 homes will be adapted to meet the needs of disabled people through the programme—a 50 per cent. increase on 1997–98. The 1996 report into the Evaluation of the DFG system published by the Department of the Environment showed that 5 per cent. of all successful DFG applicants were parents with a disabled child.

The Government announced a review of the operation of the DFG programme on 5 January 2004. In answer to a Parliamentary Question from Baroness Wilkins, Lord Rooker in the House of Lords said that the Office of the Deputy Prime Minister, jointly with the Department of Health will be reviewing the disabled facilities grant programme, including the operation of the means test, in the context of the Spending Review 2004.

This Review is now under way and will include an assessment of the equity of the DFG means test as it affects applications from families with a disabled child and any disincentive effect of the test on a parent's decision to work. The conclusions of this review will be announced by the end of 2004.

Disabled Facilities Grant

Mr. Drew: To ask the Deputy Prime Minister (1) whether the disabled facilities grant is subject to a review; and if he will make a statement; [173864]

(2) what plans he has to abolish means testing of the disabled facilities grant; [173865]

(3) if he will raise the level of the maximum grant in order to compensate for any loss incurred through the operation of the means test for the disabled facilities grant. [173866]

Yvette Cooper: The Government announced a review of the operation of the disabled facilities grant programme on 5 January 2004. In answer to a parliamentary question from my noble Friend Baroness Wilkins, my right hon. Friend Lord Rooker in the Other Place said that the Office of the Deputy Prime Minister, jointly with the Department of Health will be reviewing the disabled facilities grant programme, in the context of the Spending Review 2004, *House of Lords, Official Report*, columns 1–4. A number of financial and policy issues affecting the programme, including the operation of the means test and the maximum grant limit will be evaluated.

This review is now under way, and its conclusions will be announced in due course.

Emergency Calls (Speed Cameras)

Mr. Hancock: To ask the Deputy Prime Minister what recent representations he has received from fire and rescue authorities concerning the administrative costs of dealing with the paperwork generated by the contravention by their vehicles on emergency calls of speed limits captured on speed cameras. [173808]

Mr. Raynsford: None.

Housing

Mr. Drew: To ask the Deputy Prime Minister whether the Government achieved its target of reducing the council house repairs backlog by at least 900,000 properties by April; and what the estimated number of council house properties suffering from a backlog of repair was on 1 April. [173419]

Keith Hill: Progress against this target is monitored using the English House Condition Survey. The first results from the continuous survey are due to be published later this year, with the assessment of the stock at April 2004 due to be published in 2005.

Progress against this target is closely linked to progress against the Office of the Deputy Prime Minister's decent homes Public Service Agreement (PSA) target. Local authority returns on decent homes indicate that we may achieve this target later in 2004, rather than the original date of April 2004

Mr. Austin Mitchell: To ask the Deputy Prime Minister when local authorities were allowed to raise resources against their assets and the income stream to improve the quality of their housing. [174602]

Keith Hill: From 1 April this year, local authorities have been free to borrow for capital projects, such as housing improvement, without Government consent, provided that they can afford to service the debt from their revenue resources. They remain prohibited from offering their assets as security for loans.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what the total cost is of the dowry funding allocated to housing transfers under the Estates Renewal Challenge Fund. [174654]

Keith Hill: Estates Renewal Challenge Fund dowry funding between 1996–97 to 1999–2000 was £488.173 million which generated over £860 million in private finance for investment in the schemes.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what the role and mission statement are of his Community Housing Task Force. [174656]

Keith Hill: The current role of the Community Housing Task Force (CHTF) is to lead the Office of the Deputy Prime Minister's work on options appraisal. The CHTF offers free, 'hands-on' advice to local authorities who are going through the process, and this advice continues when an authority decides on, and progresses with, any one or more of the options available to them. The Task Force advisers check proposals at key stages, assist with the development and sharing of good practice, and offer support to allow tenants and other key stakeholders to make informed decisions on the future of their housing stock.

The CHTF has never had a formalised mission statement. However, on the front of all CHTF publications there is a quote from the Head of CHTF, which adequately describes the main ethos and aims of the division. This reads as follows:

> "The CHTF is dedicated to ensuring that the Decent Homes target is met. We will work closely with local authorities and tenants from the beginning of the Option Appraisal process to develop the most appropriate option for them. The end result must be sustainable communities where people want to live."

Mr. Mitchell: To ask the Deputy Prime Minister what his estimate is of the total amount of debt write-off *(a)* involved in housing transfers in 2004–05 and *(b)* actually paid out in 2003–04; how this is to be funded; and by what Department this is to be funded. [173523]

Keith Hill: It is estimated that if all housing transfers currently estimated to transfer in 2004–05 secure a positive ballot and transfer this financial year then the 2004–05 Office provision for making overhanging debt payments of £616 million would be used in full. £90.9 million was paid to the Public Works Loans Board in 2003–04. The resources used to make overhanging debt payments are part of the Office's Annually Managed Expenditure (AME) and are outside the Departmental Expenditure Limit (DEL). The payment reflects the continuing liability the Office would otherwise have to pay subsidy on a local authority's housing attributable debt. It is not possible to use this resource for capital purposes.

Mr. Austin Mitchell: To ask the Deputy Prime Minister (1) whether his officials vet the promises made by housing associations on transfer proposals; whether offer documents are standardised; and how his officials ensure delivery of the promises; [174100]

(2) whether the Community Housing Task Force supplies *(a)* templates and *(b)* drafts of offer documents to housing associations; and how they advise councils on housing privatisation proposals. [174146]

Keith Hill: It is for Authorities and Registered Social Landlords to develop any transfer proposal with tenants and other stakeholders. The Office of the Deputy Prime Minister will ensure that these comply with the Housing Transfer Programme criteria.

The Housing Transfer Manual 2003 Programme gives guidance on how to prepare the formal consultation document. It advises authorities to take into account specific local circumstances. The Community Housing Task Force discuss the developments of the proposal and the engagement of all stakeholders. They neither supply a template for nor draft the offer document.

Both transferring authorities and receiving Registered Social Landlords (RSLs) will be required to fulfil annual performance monitoring and evaluation requirements by the Office of the Deputy Prime Minister and the Housing Corporation. The exact set of indicators that authorities and RSLs will be asked to

provide will be finalised after a piloting exercise has been undertaken. Authorities and RSLs will be provided with information and support to assist them in completing their returns. This framework applies to all transfers from the 2001 programme onwards.

Mr. Austin Mitchell: To ask the Deputy Prime Minister whether civil servants in his Department are allowed to *(a)* campaign for large scale voluntary transfer proposals and *(b)* advise councils on how to win tenant support in ballots. [174101]

Keith Hill: Officials in the Office's Community Housing Task Force are there to provide advice and support to all stakeholders in the transfer process so they can develop housing transfer proposals that maximise the potential benefits in conjunction with the policy guidance contained in the Housing Transfer Manual 2003 Programme.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what percentage of tenants eligible to vote, voted *(a)* for and *(b)* against transfer in this year's ballots on (i) large-scale voluntary transfers and (ii) arm's length management organisations. [174102]

Keith Hill: The information requested is as follows.

Large-scale voluntary transfers (LSVT) ballots since January 2004

Local authority	Potential votes	Turnout (%)	In favour (%)	Not in favour (%)
Middlesborough	13,983	59.84	77.16	22.84
Trafford	11,101	63.56	72.91	27.09
Manchester (Woodhouse Park)	2,741	78.5	92.7	7.3
Wirral	16,636	60.63	77.36	22.64
Wakefield	39,282	65.1	73.6	26.4
North East Lincolnshire	9,735	64.87	67.26	32.74

Arm's length management organisations (ALMO) ballots since January 2004

Local authority	Potential votes	Turnout (%)	In favour (%)	Not in favour (%)
Almo Round 3				
Camden	25,300	30	23	77
Harrow	7,783	32	73	27
SS				
Bassetlaw	7,406	58	88	12
Sheffield: Hillsborough, Nether Thorpe	5,606	45	87	13
Sheffield: Parson Cross, Foxhill, Longley	10,854	38	94	6
Sheffield: Westfield, Hackenthorpe	7,851	43	89	11

Local Authority Leisure Services

Mr. Reed: To ask the Deputy Prime Minister what assessment he made of adjusting planning guidance on sports and leisure facilities to take account of the Government's targets to raise participation. [174054]

Keith Hill: National planning guidance for Open Space, Sport and Recreation (PPG17), published in July 2002, already provides the framework for raising participation. It includes an objective for the planning process to promote healthy living and prevent illness. The guidance requires local authorities to assess the future as well as the existing needs of their communities for sports and recreational facilities. Authorities are expected to keep these assessments up-to-date and to use them to set standards for inclusion in their plans.

Tree Preservation Orders

Mr. Kidney: To ask the Deputy Prime Minister if he will take steps to amend Tree Preservation Order legislation so that dying and dead ancient trees are eligible for protection. [173957]

Keith Hill: Local planning authorities currently have powers to use tree preservation orders for the protection of selected trees in the interests of amenity. The Office of the Deputy Prime Minister has no plans at the present time to amend the legislation for this specific purpose.

EDUCATION AND SKILLS

Child Employment

Mrs. Brooke: To ask the Secretary of State for Education and Skills when he will publish his response to the Better Regulation Task Force report on the regulation of child employment. [172449]

Margaret Hodge: I will be replying to the Chairman of the Better Regulation Task Force shortly and will place a copy of my reply in the Library of the House.

Mrs. Brooke: To ask the Secretary of State for Education and Skills what assessment his Department has made of the recommendations made in the Better Regulation Task Force report on the regulation of child employment; and if he will make a statement. [173389]

Margaret Hodge *[holding answer 14 May 2004]:* The report by the Better Regulation Task Force on the regulation of child employment contains five recommendations, which I have considered carefully. I hope to make a positive response to the report shortly. A consultation process, as recommended in the report, will be undertaken to ensure that any changes in child employment legislation to be introduced will meet the needs of those subject to it. Before any new legislation is introduced, a full regulatory impact assessment will be carried out.

Mrs. Brooke: To ask the Secretary of State for Education and Skills what plans he has to ensure that existing guidelines and codes of practice regarding the employment of children are enforced at local authority level. [173390]

Margaret Hodge *[holding answer 14 May 2004]:* Local authorities are currently responsible for determining that child employment legislation is

complied with and it is for local authorities to ensure that any guidelines and codes of practice that they may have are enforced at a local level.

Mrs. Brooke: To ask the Secretary of State for Education and Skills what plans he has to propose new clauses to the Children's Bill relating to the regulation of child employment in England and Wales. [173391]

Margaret Hodge *[holding answer 14 May 2004]:* There are no plans to introduce clauses into the Children Bill relating to the regulation of child employment in England and Wales. Any changes to child employment legislation are likely to be introduced by way of a Regulatory Reform Order, as recommended by the Better Regulation Task Force report on the regulation of child employment.

Computers Within Reach Programme

Mr. Kaufman: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* families in Manchester, Gorton have benefited from the Computers Within Reach programme. [167443]

Mr. Charles Clarke: The Computers Within Reach scheme closed on 31 October 2001 having delivered over 24,000 recycled computers to people in 22 pilot areas, at a cost of £7.1 million over two years. Those eligible were in receipt of certain working age benefits or a state pension with minimum income guarantee.

At the same time as funding was made available for the Computers within Reach scheme, funding was also provided for the Computers for Teachers programme. For teachers who met certain criteria, this programme subsidised the cost of a computer. It was subsequently replaced by the current Laptops for Teachers scheme which dispensed with subsidies, and through which sufficient funding will be provided to enable two thirds of teachers to receive a laptop by March 2006.

Of the 24,000 computers delivered through the Computers within Reach scheme, approximately 2,200 were for people in the Manchester area, including those in and around Gorton.

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many families in Tamworth constituency have benefited from the Computers Within Reach programme; and how many teachers have benefited from the Computers for Teachers programme. [173283]

Mr. Charles Clarke: The Computers Within Reach (CWR) scheme closed on 31 October 2001 having delivered over 24,000 recycled computers to people in 22 pilot areas, at a cost of £7.1 million over two years. Those eligible were in receipt of certain working age benefits or a state pension with minimum income guarantee.

At the same time as funding was made available for the Computers within Reach scheme, funding was also provided for the Computers for Teachers programme. For teachers who met certain criteria, this programme subsidised the cost of a computer. It was subsequently replaced by the current Laptops for Teachers scheme which dispensed with subsidies, and through which sufficient funding will be provided to enable two thirds of teachers to receive a laptop by March 2006.

Tamworth was not one of the pilot areas for the CWR scheme.

Early Retirement

Bob Spink: To ask the Secretary of State for Education and Skills how many employees in his Department took early retirement, and at what total cost, in the last financial year. [172175]

Mr. Charles Clarke: In the 2003–04 financial year, 28 employees in my Department took early release packages at a total cost of £2,775.639.

The various categories of early retirement and severance, and details of the various schemes, are set out in sections 11.5 to 11.10 of the Civil Service Management Code and can be found at: http://www.cabinet-office.gov.uk/civilservice/managementcode/.

Education Act Powers

Mr. Hoban: To ask the Secretary of State for Education and Skills how many times he has exercised his powers under section 58 of the Education Act 2002 to appoint interim executive members to a specially constituted governing body. [173782]

Mr. Miliband *[holding answer 17 May 2004]:* No interim executive members have been appointed by the Secretary of State to a specially constituted governing under section 58 of the Education Act 2002. However, local education authorities have used their powers under section 57 to establish interim executive boards in weak and failing schools in 11 cases, with the consent of the Secretary of State.

Mr. Hoban: To ask the Secretary of State for Education and Skills how many times he has exercised his powers under section 56 of the Education Act 2002 to *(a)* close schools and *(b)* appoint additional governors. [173781]

Mr. Miliband *[holding answer 17 May 2004]:* No school closure has been directed under Section 56 of the Education Act 2002.

The power of the Secretary of State to appoint additional governors to a school requiring special measures or which has serious weaknesses is available under section 18 of the School Standards and Framework Act 1998 (SSFA); no appointments have been made under this provision.

However, under section 16 of the SSFA, as amended by Schedule 5 of the Education Act 2002, local education authorities have appointed additional governors to schools causing concern on a number of occasions.

Education Funding

Mr. Meacher: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in Oldham West and Royton in each of the last seven years. [170911]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. Oldham West and Royton is a district of Oldham local education authority. The information for Oldham LEA is as follows:

Net current expenditure per pupil

	Pre-Primary Education	*Primary Education*	*Pre-primary and Primary*	*Secondary Education*	*Special*
1996–97	n/a	n/a	1,890	2,510	11,540
1997–98	n/a	n/a	1,910	2,530	12,150
1998–99	n/a	n/a	2,080	2,730	14,130
1999–2000	0	2,260	2,330	2,820	16,470
2000–01	0	2,400	2,500	3,050	17,630
2001–02	0	2,690	2,840	3,430	19,210
2002–03	—	2,940	—	3,780	—

Notes:

1. The financial data are taken from Oldham LEA'S Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–2000. 1999–2000 figures reflect the return of GM schools to local authority maintenance.
2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data is subject to change by the LEA. Figures are rounded to the nearest £10.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA.
4. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
6. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.
7. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Mr. Djanogly: To ask the Secretary of State for Education and Skills how much public funding was spent, per pupil, in the Huntingdon constituency in each of the last seven years. [170838]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. Huntingdon is a district of Cambridgeshire local education authority. The information for Cambridgeshire LEA is as follows:

Net current expenditure per pupil

	Pre-primary education	*Primary education*	*Pre-primary and primary*	*Secondary education*	*Special*
1996–97	n/a	n/a	1,940	2,740	14,080
1997–98	n/a	n/a	1,910	2,740	15,210
1998–99	n/a	n/a	2,040	2,750	16,680
1999–2000	14,360	2,080	2,160	2,720	17,240
2000–01	20,900	2,290	2,400	2,930	18,850
2001–02	21,020	2,490	2,600	3,150	20,430
2002–03	—	2,850	—	3,500	—

Notes.

1. The financial data are taken from Cambridgeshire LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously. Figures up to and including 1997–98 are for Cambridgeshire LEA prior to local government reorganisation. From 1998–99 part of Cambridgeshire LEA became Peterborough LEA. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 Outturn Statement in 1999–2000. 1999–2000 figures reflect the return of GM schools to local authority maintenance.
2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data is subject to change by the LEA. Figures are rounded to the nearest £10.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA.
4. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
6. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.
7. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Mr. Pickthall: To ask the Secretary of State for Education and Skills how much public money was spent per pupil in West Lancashire in each of the last seven years. [171490]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. West Lancashire is a district of Lancashire local education authority. The information for Lancashire LEA is as follows:

Net current expenditure per pupil

	Pre-primary education	*Primary education*	*Pre-primary and primary*	*Secondary education*	*Special*
1996–97	n/a	n/a	1,800	2,590	15,990
1997–98	n/a	n/a	1,820	2,630	17,320
1998–99	n/a	n/a	2,000	2,700	17,770
1999–2000	7,130	2,110	2,170	2,760	18,490
2000–01	11,030	2,330	2,440	2,910	18,770
2001–02	16,390	2,630	2,800	3,230	20,600
2002–03	—	2,900	—	3,400	—

Notes:
1. The financial data are taken from Lancashire LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously. Figures up to and including 1997–98 figures are for Lancashire LEA prior to local government reorganisation. From 1998–99 onwards parts of Lancashire LEA became Blackpool and Blackburn LEAs. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 Outturn Statement in 1999–2000. 1999–2000 figures reflect the return of GM schools to local authority maintenance.
2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data is subject to change by the LEA. Figures are rounded to the nearest £10.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA.
4. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
6. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.
7. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Educational Achievement (Essex)

Mr. Hurst: To ask the Secretary of State for Education and Skills how many passes in GCSE at grades A*-C or equivalent were achieved by students in *(a)* the County of Essex in each year from 1980 to 1997 and *(b)* the County of Essex and the unitary authorities of Southend-on-Sea and Thurrock in each year from 1998 to 2003. [173327]

Mr. Miliband: The table below shows the number of GCSE grades A*-C (or equivalent) passes achieved by school leavers/15-year-old pupils in maintained schools from 1980 to 2003.

	Essex			*Southend-on-Sea*			*Thurrock*		
	15-year-old pupils[1]	*Number of A*-C passes*	*Percentage achieving 5 A*-C*	*15-year-old pupils*[1]	*Number of A*-C passes*	*Percentage achieving 5 A*-C*	*15-year-old pupils*[1]	*Number of A*-C passes*	*Percentage achieving 5 A*-C*
1980	21,580	50,060	22.9	—	—	—	—	—	—
1981	20,790	47,680	22.8	—	—	—	—	—	—
1982	23,480	56,990	24.7	—	—	—	—	—	—
1983	24,540	58,730	23.4	—	—	—	—	—	—
1984	22,760	59,180	26.7	—	—	—	—	—	—

Notes:
1. Age is at the beginning of academic year.
2. The figures for 1979–80 to 1987–88 are estimated from the School Leavers Survey and cover school leavers of any age. For 1988–89 to 1990–91 the figures are estimated from the School Examinations Survey but cover leavers of any age. The figures relate to maintained schools excluding special schools.
3. The figures from 1991–92 onwards are taken from the database on School Performance Tables and are based on 15-year-old pupils in all maintained schools including maintained special schools and CTCs.
4. "Passes" include achievements at GCE O level grades A-C and CSE grade 1 up to1986–87, GCSE grades A*-C from 1988 (grade A* was introduced in 1993–94) to 2003 and GNVQ equivalencies from 1996–97 to 2002–03.

Excellence in Cities

Mr. Ben Chapman: To ask the Secretary of State for Education and Skills how many children in Wirral, South have benefited from the Excellence in Cities programme; and what the per pupil spending was in each year since the programme's inception. [173629]

Mr. Miliband: The following table shows the number of children in Wirral, South benefiting from EiC, and the annual spend per pupil for the years in question.

	Number of children	*Total EiC expenditure*[1] *(£)*	*Spend per pupil (£)*
2000–01	5,349	473,473	88.52
2001–02	5,376	473,473	88.07
2002–03	5,443	507,764	93.29
2003–04	5,566	1,182,257	212.41

[1] All funding figures supplied by Wirral Excellence in Cities Team.

The increase in the rate of EiC funding in 2002–03 was to pay for extra learning mentors and the increase in 2003–04 was due to the introduction of the Leadership Incentive Grant and the Behaviour Improvement Programme

Further Education Colleges (Salford)

Ian Stewart: To ask the Secretary of State for Education and Skills if he will provide funding to help further education colleges in the City of Salford to refurbish and rebuild their estates. [173127]

Alan Johnson: All of the Departments post-16 learning and skills sector capital investment is allocated to the Learning and Skills Council (LSC). The Department does not provide a specific budget to the LSC for rebuilding and refurbishing property in further education colleges at either the local or regional levels. It is for the LSC to determine for itself the right level of capital investment in further education colleges. Mr. Haysom, the Council's Chief Executive, will write to the hon. Member on this matter. A copy of his reply will be placed in the House Library.

Higher Education (North-West)

Helen Jones: To ask the Secretary of State for Education and Skills if he will make a statement on his recent discussions with the North West Regional Development Agency on the links between industry and higher education in the north west. [171014]

Alan Johnson: I have had no recent discussions with North West Development Agency on the links between industry and higher education in the north-west.

History Teaching

Mr. Hurst: To ask the Secretary of State for Education and Skills what plans he has to promote the *(a)* teaching of history and *(b)* testing of historical knowledge in primary schools. [173331]

Mr. Charles Clarke: History is a statutory subject in the National Curriculum for all primary age pupils, which requires that pupils are taught knowledge, skills and understanding through various areas of study. At Key Stage 2 these include studies of local, British, European and world history. Within that framework, schools have considerable flexibility over the detailed content of their history courses as long as the statutory requirements are met. The full Programmes of Study for History can be viewed at www.nc.uk.net.

All primary schools have received copies of the DfES/ Qualifications and Curriculum Authority (QCA) scheme of work for primary history. This was specifically developed to help teachers plan courses aimed at developing children's historical knowledge and skills in a coherent and rigorous way. This is widely used and Ofsted has found that it is having a positive impact on standards in many primary schools. The Department is also funding the Qualifications and Curriculum Authority to produce an "Innovating with History" website which will provide further support for primary and secondary history teachers encouraging them to explore more innovative and creative approaches to planning in history.

Assessment of historical knowledge is carried out through teacher assessment. Teacher assessment is carried out as part of teaching and learning in the classroom and forms an integral part of the assessment and reporting procedures.

The National Assembly for Wales is responsible for the curriculum and the teaching of history in schools in Wales.

Infant Class Sizes

Mr. Hepburn: To ask the Secretary of State for Education and Skills what the average teacher-to-pupil ratio in infant classes was in *(a)* the Jarrow constituency, *(b)* the north-east and *(c)* England in each year since 1997. [173383]

Mr. Miliband: The information requested is not available centrally.

Maintained Schools

Mr. Chaytor: To ask the Secretary of State for Education and Skills how many pupils there were in each of the last six years aged 11 to 15 in maintained

secondary schools in England; and how many and what percentage of pupils in the same period were aged 11 to 15 in maintained grammar schools in England. [172380]

Mr. Miliband: The data requested is shown in the table.

Maintained secondary schools and grammar schools[1]: Number of pupils aged 11 to 15 1998–2004[2]—Position in January each year—England

	Maintained secondary schools	*Of which: Grammar school*	
	Number of pupils aged 11 to 15	*Number of pupils aged 11 to15*	*Percentage of pupils aged 11 to 15*
1998	2,686,788	95,511	3.6
1999	2,734,535	104,260	3.8
2000	2,795,415	107,473	3.8
2001	2,846,084	108,232	3.8
2002	2,878,800	109,604	3.8
2003	2,916,582	110,715	3.8
2004[2]	2,917,400	111,500	3.8

[1] Grammar schools were designated by Order in 1999; prior to that schools designated themselves in returns to the Department.
[2] 2004 is provisional data, rounded to nearest 100.

Annual Schools Census

Marriage and Relationship Support Programme

Andrew Selous: To ask the Secretary of State for Education and Skills pursuant to the answer of 5 May 2004, *Official Report*, column 1583W, on Marriage and Relationship Support, if he will list the pilot projects being funded through the Marriage and Relationship Support Grant programme. [173433]

Margaret Hodge: The Marriage and Relationship Support Grant supports the adult couple relationship, helping to prevent or eliminate problems and consequently help improve outcomes for any children in the family. Details of the 41 projects that will receive funding totalling £4.9 million for 2004–05 (as detailed in a press notice issued on Monday 10 May 2004) are:

Sustained Core funding

Total			576

National Childcare Strategy

Mr. Ben Chapman: To ask the Secretary of State for Education and Skills if he will make a statement on the number of children in Wirral, South who have gained from the National Childcare Strategy. [173625]

Margaret Hodge: The Department is unable to provide details of child care places for Wirral, South.

However, from April 1999 to March 2004, Wirral local authority created 5,763 new child care places, helping some 10,480 children. This shows an increase in the stock of child care places, taking into account turnover, of 3,358, helping some 6,213 children.

Postgraduate Students

Mrs. Lawrence: To ask the Secretary of State for Education and Skills what the average level of tuition fees charged for a taught postgraduate degree was in the UK last year; and what level of Government funded assistance was offered to students undertaking postgraduate degrees in the UK last year. [174135]

Alan Johnson: Students on Postgraduate Certificate in Education (PGCE) courses were liable for a fee contribution of up to £1,100 in the 2002/03 academic year. The Department does not regulate the level of fees for any other postgraduate courses. It is a matter for higher education institutions to determine the level of fees they charge.

Full tuition fee remission and bursaries of £6,000 are available to eligible post graduate students on PGCE courses. Other postgraduate courses are not eligible for fee remission. Eligible postgraduates with a disability will have been able to receive assistance for e.g. specialist equipment, additional travel and non medical help costs through disabled students allowances (DSAs), up to a maximum of £5,245.

Students on all post graduate courses were able to apply to their institution for help from the discretionary Access and Hardship Funds. The total amount awarded from this fund to post graduate students in 2002/03 was £6.5 million. Awards were subject to income assessment and could cover additional course or living costs.

School Inspections

Sir Nicholas Winterton: To ask the Secretary of State for Education and Skills (1) if he will instruct Ofsted to make positive accreditation awards to schools following Her Majesty's Inspectorate or team validation visits; [173686]

(2) what assessment he has made of *(a)* the level of understanding by school staff of Ofsted's use of the term "satisfactory" in its reports and *(b)* the term's effect on staff morale; and if he will make a statement. [173689]

Mr. Miliband: These matters are for Ofsted. HM Chief Inspector, David Bell, will write to the hon. Member and place a copy of his letter in the Library.

School Sports

Mr. Reed: To ask the Secretary of State for Education and Skills (1) what criteria Ofsted applies with regard to inspecting school sports and physical activities; [174062]

(2) what remit Ofsted has to inspect the quality and quantity of school sports and physical activities. [174063]

Mr. Miliband: These are matters for Ofsted. HM Chief Inspector, David Bell, will write to my hon. Friend and place a copy of his letter in the Library.

Mr. Benton: To ask the Secretary of State for Education and Skills how much has been invested in developing school sports facilities in Bootle since 1997. [173185]

Mr. Stephen Twigg: I refer my hon. Friend to the answer I gave on 10 May 2004, *Official Report*, column 45W.

School Transport (Norfolk)

Mr. Bacon: To ask the Secretary of State for Education and Skills if he will make a statement on the cost of school transport in Norfolk in each month for the last four years. [171746]

Mr. Charles Clarke *[holding answer 10 May 2004]:* The information requested is not available on a monthly basis. However, the cost of expenditure on transport in Norfolk in each year for the last four years is shown in the following table:

Cost of home to school/college transport in Norfolk

£ million

	Total transport expenditure	*Transport related income*	*Net current expenditure on transport*
1999–2000	14.50	0.79	13.71
2000–01	15.27	0.71	14.56
2001–02	18.19	0.82	17.37
2002–03	19.71	0.82	18.89

Notes:

1. The financial data are as reported by Norfolk LEA on their Section 52 Outturn Statements submitted to the DfES. 2002–03 data is subject to change by the LEA.

2. The cost of home to school/college transport includes the cost of public transport, contract hire or the use of authority vehicles in transporting pupils/students to school/college under section 509 of the Education Act 1996.
3. Figures include all expenditure by the local authority on transport. This includes the pre-primary, school, education out of school and continuing education sectors.

Trafficked Children

Mr. Dawson: To ask the Secretary of State for Education and Skills what *(a)* advice and *(b)* information he has issued to local authorities about the use of the trafficked children's resource operated by Integrated Care. [173796]

Margaret Hodge: I am aware that a new independent safehouse, run by Integrated Care Ltd., opened in April 2004. I understand it is open to referrals from local authorities throughout the UK. We have not issued any guidance about this resource.

It is for local authorities to decide how best to provide support and services for children in need in its area, including those who are the victims of trafficking. When a child enters the country alone and claims asylum or there are concerns that he or she may have been trafficked, the immigration service should immediately refer the child to the relevant local authority's social services department. The social services department will undertake a needs assessment and will provide services in the light of the outcome of that assessment. These services should be tailored to the individual needs of the child, just as they should be for any child in need.

CULTURE, MEDIA AND SPORT

Children's Diet

Ms Shipley: To ask the Secretary of State for Culture, Media and Sport whether her assessment of the effect of food promotion on children's health takes into account the *(a)* quantity, *(b)* frequency and *(c)* scheduling of food and drink advertisements in addition to their content. [173745]

Estelle Morris: The Department for Culture, Media and Sport has a responsibility only in relation to broadcast advertising. My right hon. Friend the Secretary of State has made no separate assessment of the effect of food promotion on children's health but the Department continues to participate in the consultation being undertaken by the Food Standards Agency on the possible impact of broadcast advertising on childhood obesity.

The Secretary of State has also asked Ofcom to examine the adequacy of its codes regulating broadcast advertising of food to children and Ofcom has indicated that it will make its own assessment of the evidence.

Ms Shipley: To ask the Secretary of State for Culture, Media and Sport whether she has accepted the conclusions of the Food Standards Agency research, "Does Food Promotion Influence Children? A Systematic Review of the Evidence", conducted by the University of Strathclyde. [173801]

Estelle Morris: The University of Strathclyde review was prepared for the Food Standards Agency (FSA). It is an important contribution to the debate and has therefore informed the FSA's development of its recommendations to Government and others about the promotion of food to children, on which the FSA is currently consulting. It is those recommendations which will be considered by Government and other stakeholders in the context of our commitment to reduce levels of obesity.

Local Authority Leisure Facilities

Mr. Reed: To ask the Secretary of State for Culture, Media and Sport what discussions her Department has had with representatives of the private sector on the contribution it can make to investing in local authority leisure facilities. [174055]

Mr. Caborn: The Department continues to explore ways to increase investment in our sports facilities working with partners in the voluntary, public and private sectors.

One of the key routes for DCMS to invest in the delivery of local authority leisure facilities is through the Private Finance Initiative (PFI). This is one of a range of Government policies designed to increase private sector involvement in the provision of public services. DCMS is currently supporting 21 local authority PFI projects nationwide, 12 of which include the provision of new or refurbished sports and leisure facilities.

DCMS has participated in various cross-government initiatives aimed at informing both the public and private sector about the PFI process. However, DCMS does not directly enter into discussions with the private sector on individual PFI projects since it is a matter for local authorities to negotiate the specific terms by which they might contribute to the provision of their leisure facilities.

Mr. Reed: To ask the Secretary of State for Culture, Media and Sport what her Department's assessment is of the impact of trusts on provision of local authority leisure facilities; and if she will make a statement. [174058]

Mr. Caborn: The Department for Culture, Media and Sport has not made a formal assessment of the impact of trusts on the provision of local authority leisure facilities. The Department is, however, aware that there are a significant number of trusts operating sports and leisure facilities in partnership with local authorities and will monitor their development.

Mr. Reed: To ask the Secretary of State for Culture, Media and Sport what her Department's policy is on ensuring that operators of public sector leisure facilities which have been contracted out invest in the long-term future of the facility. [174059]

Mr. Caborn: Whilst the provision of public leisure facilities is not a statutory duty, local authorities do have a duty to ensure that public services are responsive to the needs of their citizens, efficient and of high quality. Under the Local Government Acts (1999 and 2000) all services purchased or provided by local authorities are subject to the duty of best value which

requires them to improve services year on year. Depending on the length of the contract, this would include long-term investments.

Mr. Reed: To ask the Secretary of State for Culture, Media and Sport what standards the Government set for the acceptable standard of sports and leisure facilities offered by a local authority. [174060]

Mr. Caborn: The provision of sports and leisure facilities is not a statutory duty for local authorities and therefore there are no mandatory standards. However, my Department and its non-departmental public bodies offer extensive and detailed advice on standards; for instance, Sport England offers guidance notes, technical advice and standards for the design and development of sports facilities and Quest, a national quality accreditation scheme for sports facilities and sports development. By December 2003, 430 sports and leisure facilities had achieved a pass or higher in the Quest facility management scheme. The Department is also working with Sport England and other partners to develop "Towards an Excellent Service", a performance management framework for sport.

Mr. Reed: To ask the Secretary of State for Culture, Media and Sport what assessment her Department has made of the cost of bringing local authority leisure facilities up to what Sport England considers *(a)* a good and *(b)* an acceptable standard. [174061]

Mr. Caborn: The most comprehensive picture of the condition of the existing stock of public sector sports facilities available to the Department is Sport England's report "Condition and Refurbishment of Public Sector Sports Facilities", published January 2003. The report estimates that it would cost £550 million over five years to bring sports centres owned by local authorities in England up to a safe and acceptable standard. The capital cost of maintaining the stock thereafter is estimated at between £144 million and £151 million per annum. These costs are at mid-2002 prices and exclude VAT.

New Opportunities Fund

Albert Owen: To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund was allocated to Ynys Môn in each year since 1997. [174071]

Estelle Morris: The New Opportunities Fund began making grants in 1999. The awards to Ynys Môn are shown in the table.

Financial Year	*Amount (£)*
1999–2000	0
2000–01	34,336
2001–02	616,125
2002–03	137,704
2003–04	295,923

The information is freely available from the Department's searchable Lottery award database at: www.lottery.culture.gsi.gov.uk which uses information supplied by the Lottery distributors.

Physical Activity

Mr. Reed: To ask the Secretary of State for Culture, Media and Sport what discussions her Department has had with the private sector on the contribution it can make to raising participation in sport and physical activity to 70 per cent. [174056]

Mr. Caborn: The Department has had a number of discussions with the private, public and voluntary sectors on the role they can play in increasing participation in sport and physical activity across the population. The Government are also keen to engage employers, including the private sector, in encouraging physical activity in the workplace.

Mr. Reed: To ask the Secretary of State for Culture, Media and Sport what proportion of the target increase in participation in sport and physical activity between now and 2020 is expected to come through membership of private gym facilities. [174057]

Mr. Caborn: It is not known what proportion of the target increase in participation in sport and physical activity will be met through the use of private gym facilities. The Chief Medical Officer's recommendation of at least 30 minutes of moderate physical activity a day on five days of the week can be achieved through both lifestyle activity and/or structured exercise or sport.

Public Bodies (Funding)

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much grant in aid funding was given to the regional cultural consortiums and what the administration costs were, in 2002–03, broken down by region. [173706]

Mr. Caborn: The eight regional cultural consortiums are currently advisory non-departmental public bodies. Their remit is to lead the development and implementation of regional cultural strategies, to promote cross-sectoral initiatives and to help develop and support partnership working. In 2002–03, the consortiums were funded as part of the Department's core programme business and all of their costs, including administration costs, were included as part of the 'Administration and Research' heading of the Department's main estimate. Figures for each consortium's administration costs are not available and could be provided only at disproportionate cost. The consortiums did not receive any grant in aid funding in 2002–03.

DEFENCE

Afghanistan

Mr. Keetch: To ask the Secretary of State for Defence if he will make a statement on the action taken in the case of the two soldiers implicated in the killing of a 20-year-old Afghan on 16 February 2002. [172945]

Mr. Caplin: A full investigation has been conducted by the Special Investigation Branch, following which the case was considered by the Army Prosecuting Authority (APA). The APA judged that there was insufficient evidence to proceed against any of the individuals reported in connection with the incident.

Defence Logistics Organisations

Mr. Nicholas Brown: To ask the Secretary of State for Defence what items make up the Defence Logistics Organisation-sponsored Support Solutions Envelope. [173702]

Mr. Ingram: The Support Solutions Envelope (SSE) contains guidance to Integrated Project Teams on the current methodology for delivering logistic support, i.e. the current 'envelope' of acceptable support solutions. The guidance is divided into a number of Key Support Areas (chapters) covering: logistic sustainability, engineering and asset management, materiel flow, information knowledge management, contractors on operations and people and training. Each Key Support Area contains several Guiding Principles on specific topics.

The SSE is also available on the internet at http://www.ams.mod.uk/ams/content/docs/sse/default.htm.

Departmental Records Office

John McDonnell: To ask the Secretary of State for Defence (1) what the process is for the security clearance of *(a)* agency and *(b)* other staff working for TNT at the Departmental Records Office at Bourne Avenue, Hayes; [173656]

(2) how many staff including agency staff employed by TNT at the Departmental Records Office, Bourne Avenue, Hayes have sought security clearance; at what level they have been security cleared; how many have had clearance declined; and what the average length of time taken to obtain security clearance has been. [173657]

Mr. Caplin: Agency staff and staff employed by TNT at the Departmental Records Office are subject to the processes for security clearance in accordance with the Government's vetting policy as announced to the House on 15 December 1994, *Official Report*, columns 764–66W. Personnel are normally to hold a Security Check (SC) clearance, but individuals with a Basic Check (BC) may be employed provided they are escorted and supervised at all times by a member of staff who is SC cleared.

As at 13 May 2004, 272 TNT Records Office staff had completed the security clearance processes. 188 held an SC clearance and 84 held a BC. Two of the SC clearances were subject to restrictions. One individual had had a clearance at the SC level declined.

The average length of time to complete a BC is two weeks, and for an SC clearance 12 weeks.

John McDonnell: To ask the Secretary of State for Defence how many complaints have been lodged against the performance of TNT in its handling of records based at the Hayes Departmental Records Office at Bourne Avenue, Hayes. [173658]

Mr. Caplin: The Ministry of Defence has set-up a Contract Management Team (CMT) whose role it is to monitor the services provided by TNT to all the Departments involved. Between 18 December 2003 and 13 May 2004 the CMT was advised of 46 mostly minor complaints about the performance of TNT. This number of complaints is regarded as very small.

Falklands War

Mr. Hoyle: To ask the Secretary of State for Defence what plans will be put in place to commemorate in the UK the 25th anniversary of the Falklands War. [173787]

Mr. Caplin *[holding answer 17 May 2004]:* Preliminary discussions have taken place with the principal veterans association, SAMA82 about this important anniversary. These will continue in order to develop ideas and when there is agreement I will ensure that an appropriate announcement is made to the House.

Mr. Hoyle: To ask the Secretary of State for Defence whether funding will be provided for a visit in 2007 to commemorate the 25th anniversary of the Falklands War as it was for the 2002 Pilgrimage to the Falkland Islands by the South Atlantic Association. [173789]

Mr. Caplin *[holding answer 17 May 2004]:* At this early stage, we have yet to decide the detail of our plans for the 25th anniversary of the Falklands Conflict. However, we will be consulting key stakeholders for their views and will give careful consideration to these.

Mine Clearance

Brian White: To ask the Secretary of State for Defence how many British service personnel are involved in mine clearance and explosive ordnance disposal; and in which countries such personnel are working. [164326]

Mr. Ingram: There are approximately 170 British service personnel involved in mine clearance and explosive ordnance disposal on overseas operations and exercises. They are deployed to Iraq, Kosovo, Bosnia, the Falklands, Afghanistan, Kenya and Canada. There are approximately 200 held at high readiness for EOD tasks within the United Kingdom.

Nuclear Safety

Llew Smith: To ask the Secretary of State for Defence pursuant to his answer of 27 April 2004, *Official Report*, column 873W, on Nuclear Installations (Aircraft Incidents), what reviews have taken place of the flight paths taken by RAF planes in United Kingdom airspace following the infringements he listed. [171647]

Mr. Ingram: There are no fixed flight paths in the United Kingdom Military Low Flying System. All low flying sorties are planned individually in order to spread the distribution of low flying across the UK as much as possible and provide maximum training value by ensuring that a variety of terrain is overflown.

The increases to restricted areas around nuclear facilities from one to two nautical miles up to 2,000 ft, effective from November 2001, are considered sufficient to preserve the safety and integrity of the sites.

Paper Recycling

Mr. Breed: To ask the Secretary of State for Defence (1) when his Department expects to implement in full the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that *(a)* all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post consumer waste content and *(b)* all paper for

printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post consumer waste; [171820]

(2) what percentage of paper for printed publications used by the Department in 2002–03 was from recycled sources; and how much post consumer waste this paper contained; [171818]

(3) what measures he has put in place to ensure that his Department meets the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that *(a)* all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post consumer waste content and *(b)* all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post consumer waste; [171819]

(4) what percentage of copying paper used by the Department in 2002–03 was from recycled sources; and how much post consumer waste this paper contained. [171817]

Mr. Caplin: The number of suppliers of paper across the Ministry of Defence means that the information requested is not readily available. It is likely to take some time to collate and this work is now under way. I will write to the hon. Member when I can and place a copy of my letter in the Library of the House.

RAF Gibraltar

Mr. Hoyle: To ask the Secretary of State for Defence how many Royal Air Force aircraft used RAF Gibraltar in *(a)* 2003 and *(b)* 2004 broken down by type; how many other air forces used Gibraltar in each year; and how many aircraft were involved in each case. [173775]

Mr. Ingram: The number and type of military aircraft that used RAF Gibraltar in 2003 and up to 30 April 2004 is as follows:

Royal air forceaircraft type	*2003*	*2004*[1]
C130	135	56
Hawk	76	—
Tornado F3	60	32
Tornado GR4	199	—
Nimrod	222	30
HS125	4	2
CH47	12	—
Puma	10	—
Merlin	2	—
Jaguar	14	—
C17	6	2

Royal navy aircraft type	*2003*	*2004*[1]
Falcon DA50	99	18
Hawk	140	30
Sea Harrier	40	—
Jetstream	4	2
Lynx	228	28
Sea King	82	2

Other forces	*2003*	*2004*[1]
USA-C130	2	—
USA-C26	8	—
USA-Learjet	6	4
Canadian-C130	2	—
Canadian-Sea King	78	—
Canadian-CL60	2	—
Morrocan-C560	2	—
Morrocan-CN35	4	4
New Zealand-P3	—	2

1 Until 30 April.

Warship Support Agency

Mr. Nicholas Brown: To ask the Secretary of State for Defence what criteria are used by the Warship Support Agency's Maritime Support Strategy element to assess support through life for major future naval equipment. [173701]

Mr. Ingram: The Maritime Support Strategy (MSS) is an integral part of the broader Defence Logistics Organisation's Support Solution Envelope. This stipulates the following principles, tailored for each project, against which through life support is assessed:

coherence with wider defence strategies, structures, policies, plans and initiatives;

coherence with related support programmes, existing and planned;

demonstration of achievable, flexible and adaptable operational and through-life sustainability; and

a cost-effective means of delivering optimised military capability or business benefits that offers value for money through life.

The MSS provides further detailed information for the application of these principles within the maritime environment. In addition, the support proposal must be comprehensive, with a demonstrably acceptable level of risk.

Wreck Management

Mr. Dalyell: To ask the Secretary of State for Defence pursuant to the Under-Secretary of State's letter reference D/US of S/IC 1295/04/A of 5 April 2004, what action he is taking to resolve the legal principle in international law of the ownership of wrecks; and what lessons have been learned in wreck management for his Department's work on HMS Royal Oak in Scapa Flow. [166925]

Mr. Caplin: The Ministry of Defence is consulting with other Government Departments, including the Foreign and Commonwealth Office, as to the most appropriate means of resolving the legal principle in international law of the ownership of wrecks.

As to HMS Royal Oak, every opportunity has been taken during the wreck remediation work on this vessel to further our understanding of the technical and environmental issues associated with the management of such wrecks. Our investment in Royal Oak has highlighted that detailed risk and environmental assessment is key to remediation work; that removal of oil, rather than containment, may be the best solution in certain circumstances; that it is important to work closely with industry to identify non-intrusive technological solutions to meet the challenging conditions on similar wrecks; and that there is a need for clear and concise mapping of a wreck and the surrounding site before the start of remediation work.

INTERNATIONAL DEVELOPMENT

Aid (Africa)

Angus Robertson: To ask the Secretary of State for International Development what projects his Department has *(a)* run, *(b)* directly and solely financed and *(c)* directly financed with other contributors in (i) Uganda, (ii) Rwanda, (iii) Burundi and (iv) the Democratic Republic of Congo in each year since 1997; and if he will make a statement. [173813]

Hilary Benn: The following table lists those projects with a commitment of £1 million or more funded by DFID in Uganda, Rwanda and the Democratic Republic of Congo since 1997, along with details of when they were started, their total value and whether they are solely financed or financed in partnership with other donors. There were no such projects funded by DFID in Burundi. I have not listed the projects below this level in view of the number of activities that would involve.

DFID acknowledges the importance of working collaboratively within the wider donor community, rather than operating independently. In all of the countries listed DFID is working actively to promote donor collaboration and harmonisation, both to improve the coherence of donor support and to cut down the transaction costs faced by recipient governments. Whenever solely financed projects are supported (e.g. in response to requests from humanitarian agencies) DFID seeks to do so in full knowledge of the support being provided in that field by other contributors.

Project Title / Country	*Spending Code Created*	*Commitment*	*Financed by*
Uganda			
Deregulation project preparation	14 January 1997	1,915,818	Solely funded by DFID
Uganda Prog Aid	28 February 1997	20,000,000	Harmonised with other donors
Forest Sector Pol & Strat	4 March 1997	6,963,000	Co-financed by GOU, NORAD, EU, GTZ, UNDP
Commodities Support to the HIV/AIDS, STI and TB Programmes	5 March 1997	2,395,000	Solely funded by DFID

Colombia

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment his Department has made of the UN Under-Secretary-General for Humanitarian Affairs and Emergency Relief Co-ordinators' comments on 10 May 2004 concerning the humanitarian situation in Colombia; and if he will make a statement; [173368]

(2) what *(a)* aid and *(b)* relief plans are in place for a possible humanitarian crisis in Colombia; what the predicted roll-out times are; and if he will make a statement. [173369]

Mr. Gareth Thomas: DFID notes that the Under-Secretary General for Humanitarian Affairs and Emergency Relief Coordinator, Jan Egeland, indicated that the Office for the Coordination of Humanitarian Affairs (OCHA), together with the Government of Colombia and Non-Governmental Organisations, intend to launch a new humanitarian plan of action next month focused on the internally displaced. DFID will consider it carefully and discuss the details with OCHA once it is launched.

DFID stands ready to provide appropriate humanitarian assistance in response to humanitarian crises wherever they occur and seeks to respond as quickly as possible against an assessment of priority needs. The extent and nature of any UK response is determined by the magnitude of need and as part of a coordinated international response.

The European Community Humanitarian Office (ECHO) has already committed €8 million of humanitarian assistance for 2004, of which the United Kingdom's share is some €1.44 million.

Angus Robertson: To ask the Secretary of State for International Development how many people his Department estimates to be *(a)* internally displaced in Colombia, *(b)* displaced from Colombia to Panama and *(c)* displaced from Colombia to Venezuela; how these figures have changed since 2000; and if he will make a statement. [173443]

Mr. Gareth Thomas: No universally accepted figures of displaced Colombians exist. In his statement of 10 May 2004, the Under-Secretary General for Humanitarian Affairs and Emergency Relief Coordinator, Jan Egeland, stated that 2 million people had become displaced in Colombia in the past 15 years. According to CODHES, a Colombian NGO, about 3,090,000 people were internally displaced from 1984–2003, of which 1,247,000 were over the period 2000–03. The Colombian Government figures estimates a figure of 1,148,000 over the latter period.

The United Nations High Commissioner for Refugees estimates that there are 2,430 Colombian 'persons of concern' in Panama and around 8,860 in Venezuela. However, these figures are generally considered to represent only a proportion of displaced people to these countries, particularly in Venezuela given the effect the Venezuelan Government's concern about the influx of displaced Colombians is having on Colombians' desire to register.

Departmental Projects

Mr. Bercow: To ask the Secretary of State for International Development when he will publish his strategy referred to on page 190 of the 2004 Departmental Report for improving project scoring of the Department's low-risk bilateral projects. [174119]

Hilary Benn: DFID will outline in both the Autumn Performance Report 2004, and the Departmental Report 2005, the range of measures put in place to improve project scoring. These are likely to centre upon strengthening guidance and lesson learning within DFID as key to improving programme delivery.

Iraq

Bob Spink: To ask the Secretary of State for International Development what new measures he plans to ensure the safety of British civilians who are helping to deliver aid and reconstruction in Iraq. [173648]

Hilary Benn: Extensive measures are taken to protect all DFID staff and contractors. All DFID staff and consultants employed individually are provided with body armour, safety and communications equipment, security training, briefing and armed protection. Contractors are responsible for the security arrangements of their staff but the costs are covered by the UK Government. Non-governmental organisations (NGOs) in receipt of DFID support are also responsible for their own security. DFID maintains a regular dialogue with them on security issues and will fund their security needs where appropriate. All of these security arrangements are kept under constant review.

Primary Education

Mr. Bercow: To ask the Secretary of State for International Development what percentage of children are in primary education in the top 30 UK development partner countries. [171691]

Mr. Gareth Thomas: The percentage of children that are in primary education, as measured by primary school net enrolment rates, in the UK's top 30 development partner countries is as follows:

Country	*Primary school enrolment (Percentage net)*[1]
Angola	37
Bangladesh	89
Cambodia	95
China	93
Cote d'Ivoire	64
Egypt, Arab Republic	93
Ethiopia	47
Ghana	58
India	1,021
Indonesia	92
Jordan	94
Kenya	69
Malawi	101
Morocco	78
Mozambique	54
Nepal	72
Pakistan	66
Philippines	93
Poland	98
Romania	93
Russian Federation	93
Sierra Leone	No Data
South Africa	89
Sri Lanka	97
Tanzania	47
Uganda	109
Vietnam	95
West Bank and Gaza	No Data
Zambia	66
Zimbabwe	80

[1] Percentage gross enrolment figure used as no net figure available.

Note:
The 30 countries in the table are those used to measure the universal primary education (UPE) target included in the PSA 2001–04.

Source:
World Development Indicators 2003 CD rom.

Net enrolment ratio is the ratio of the number of children of official school age (as defined by the national education system) who are enrolled in school to the population of the corresponding official school age. Enrolment ratios, while a useful measure of participation in education, also have significant limitations, which can result, on occasion, on an figure in excess of 100 per cent. for enrolments rates in a year, primarily due to errors in estimates of school age populations. School administrators may also report exaggerated enrolments, especially if there is a financial incentive to do so, overage or underage enrolments frequently occur for cultural or economic reasons and there can be a lack of distinction between new entrants and repeaters. The data for some countries, including Uganda, may be revised as a result of the factors in the table.

Mr. Bercow: To ask the Secretary of State for International Development what percentage of children are enrolled in primary school in each of the 16 countries in sub-Saharan Africa for which the Millennium Development Goal on enrolment has been set. [171680]

Mr. Gareth Thomas: The percentage of children who are enrolled in primary school in each of the 16 countries in sub-Saharan Africa for which the MDG on enrolment has been set is as follows:

Country	*Primary school enrolment (Percentage net)*
Congo, Democratic Republic	33
Ethiopia	47
Ghana	58
Kenya	69
Lesotho	78
Malawi	101
Mozambique	54
Nigeria	No data
Rwanda	97
Sierra Leone	No data
South Africa	89
Sudan	46
Tanzania	47
Uganda	109
Zambia	66
Zimbabwe	80

Net enrolment ratio is the ratio of the number of children of official school age (as defined by the national education system) who are enrolled in school to the population of the corresponding official school age. Enrolment ratios, while a useful measure of participation in education, also have significant limitations, which can result, on occasion, on a figure in excess of 100 per cent. for enrolments rates in a year, primarily due to errors in estimates of school age populations. School administrators may also report exaggerated enrolments, especially if there is a financial incentive to do so, overage or underage enrolments frequently occur for cultural or economic reasons and there can be a lack of distinction between new entrants and repeaters. The data for some countries, including Uganda, may be revised as a result of the above factors.

World Bank

Angus Robertson: To ask the Secretary of State for International Development what programmes his Department *(a)* (i) runs and (ii) finances through the Inter-American Development Bank and *(b)* finances

through the World Bank aimed at solving the social and economic problems of the native tribes in South America; which (A) countries and (B) tribes are included in each programme; when each was established; and what contribution his Department has made in each year of the programme. [173819]

Mr. Gareth Thomas: 10 per cent. of the Latin American population is indigenous, ranging from less than 1 per cent. in countries such as Brazil and Venezuela, to over 50 per cent. in Bolivia and Guatemala. Most of DFID's programmes in Latin America address the issue of inclusion of various excluded populations, including indigenous people. This includes its support through the World Bank and Inter-American Development Bank (IDB).

While both the IDB and the World Bank have a number of projects, or components of projects, specifically targeted at indigenous people, other projects, not so targeted, often have a similar or greater impact. This is particularly the case in countries where indigenous people represent a significant proportion of the population.

DFID is specifically working with the IDB to contribute to its efforts to ensure appropriate account is taken of indigenous people's issues in its policies and their implementation. DFID is providing US$203,500 contribution to the consultation process in the IDE's preparation of an updated strategic framework on indigenous development. At present, DFID does not have any specific programmes targeted at indigenous people in Latin America with the World Bank.

Yemen

Keith Vaz: To ask the Secretary of State for International Development when he next plans to visit Yemen. [R] [173779]

Hilary Benn: I have no plans at present to visit Yemen. I will consider a visit when the DFID programme there is further developed.

CABINET OFFICE

Magistrates

Mr. Hoyle: To ask the Minister for the Cabinet Office how many magistrates are aged *(a)* 25 to 30, *(b)* 30 to 40, *(c)* 40 to 50, *(d)* 50 to 60, *(e)* 60 to 65 and *(f)* 65 to 70 in (i) Lancashire and (ii) Chorley magistrates' courts, broken down by sex. [173768]

Mr. Alexander: At 31 March 2004 the available figures show that there were 616 men and 526 women serving as Active Magistrates in the Lancashire Commission Area. Of this number, the Chorley Bench comprises of 37 men and 36 women. These statistics are broken down into age categories as shown in the following table.

	Chorley		*Lancashire*	
Age	*Male*	*Female*	*Male*	*Female*
Under 30	0	0	1	2
30–40	0	1	12	17
40–50	3	3	91	89
50–60	16	21	244	249
60–65	17	8	188	118
66–70	1	3	80	51

Mr. Hoyle: To ask the Minister for the Cabinet Office who is responsible for selecting new magistrates in Lancashire; and what process is used. [173769]

Mr. Alexander: As Chancellor of the Duchy of Lancashire, I have the responsibility for the appointment of magistrates in Lancashire, Greater Manchester and Merseyside.

In the Lancashire area, I am aided by the Lancashire Advisory Committee and its five Sub-Committees, who interview and then recommend to me those found suitable for appointment as magistrates. These Sub-Committees generally comprise of six magistrate members and three individuals who are not magistrates.

Throughout the selection process, the Advisory Committees adhere to the guidance set out in the Directions for Advisory Committees. The guidance offered in these Directions is identical to that issued by the Lord Chancellor to his Advisory Committees in the remainder of England and Wales.

Generally, candidates must demonstrate six key qualities to be found suitable for appointment:

Good character

Understanding and communication

Social awareness

Maturity and sound temperament

Sound judgement

Commitment and reliability

These qualities are tested during a two-stage interview process by a panel of a Committee or Sub-Committee comprising of two magistrate and one non-magistrate members.

Departmental Annual Report

Norman Lamb: To ask the Minister for the Cabinet Office how much the production of the Cabinet Office's latest annual report cost; how many copies were printed; how many copies of it were sold at its cover price; to whom copies of the report have been provided free of charge; and how many copies were provided free of charge. [171142]

Mr. Alexander: The Stationery Office Ltd. (TSO) produced the latest Cabinet Office Departmental Report (Cm 6226) . TSO determines the number of copies printed for retail sale and meets the costs of printing and publication. TSO does not charge these costs to departments. Since its publication on 28 April, TSO has sold 306 copies of the 2004 Cabinet Office Departmental Report and has provided the Cabinet Office with 150 copies. The cost to the Cabinet Office is £5,905, covering the design, typesetting, production and printing of this year's Report, as well as for the 150 copies received. The Cabinet Office copies were mainly distributed within the Department and to some other Government Departments. The Report can be

downloaded free of charge from the Cabinet Office website at http://www.cabinet-office.gov.uk/reports/annualreport/dept-report.asp.

Emergency Communications Network

Patrick Mercer: To ask the Minister for the Cabinet Office how much has been spent in each of the last three years on maintaining and utilising the Emergency Communications Network. [172749]

Mr. Alexander: In each of the last three years the Emergency Communications Network budget has been £5.2 million. This sum is accounted for in the costs of system maintenance, provision of private line connections and location moves required by the users.

FOREIGN AND COMMONWEALTH AFFAIRS

Cyprus

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to ensure that any new plan for the Cyprus problem will not impose a financial burden on the Greek Cypriots that they find unacceptable. [174137]

Mr. MacShane: The Government, EU, UN and international donor community have worked hard to ensure that fears of financial insecurity may not reasonably be adduced as grounds for opposing a comprehensive settlement to the Cyprus problem.

At the European Commission's international donors' conference for Cyprus on 15 April 2004, the international community and the international financial institutions signalled their strong support for the UN Secretary-General's plan. The IMF explained that much of its advice on fiscal and other economic matters had been reflected in the plan, which it would help the parties implement with technical assistance, and—if necessary—balance of payments support. The IMF's considered view was that the Annan Plan was "economically and financially viable", and would deliver a higher rate of growth for the United Cyprus Republic than was likely to be achieved under the status quo. The World Bank also signalled its intention to support implementation of the plan, including to help address income disparities. The EIB and the Council of Europe Development Bank supported this analysis. Representatives from many countries, with the UK to the fore, made financial and political commitments to support the UNSG's proposals.

European Convention on Human Rights

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the implications of the Loizidou case, concerning Turkey's acts in Northern Cyprus, in relation to the applicability of the European Convention on Human Rights to the actions of UK personnel in Iraq. [171556]

Mr. Straw *[holding answer 17 May 2004]:* The applicability of the European Convention on Human Rights (ECHR) to the actions of UK personnel in Iraq is a matter which is in issue in the current cases before the High Court brought by the families of 13 Iraqi civilians. The Government's position in those cases is that ECHR rights have no application in Iraq. The citizens of Cyprus, prior to invasion by Turkey, were the beneficiaries of rights under the ECHR, by virtue of Cyprus' membership of the Council of Europe. The decision of the European Court of Human Rights in Loizidou was to the effect that they did not lose those rights when Turkey assumed sole effective control of part of the territory of Cyprus. The position in Iraq, of course, is critically different. The citizens of Iraq had no rights at all under the ECHR prior to military action by the coalition forces; furthermore, the UK does not exercise the same degree of control over Iraq as existed in relation to the Turkish occupation of northern Cyprus.

Indonesia

Andy King: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Indonesian authorities concerning the recent resurgence of violence in Ambon, with particular reference to *(a)* the steps needed to stop the violence, *(b)* the need for the security forces to act in an impartial and professional manner and *(c)* the process by which the perpetrators of the violence will be brought to justice. [173760]

Mr. Mike O'Brien: We have consistently made clear to the Indonesian authorities our view that long-term solutions to regional conflicts can only be achieved through negotiation and consultation. While we have not made any representations to the Indonesian Government about the recent violence in Ambon, our embassy has kept in close contact with the UN and NGOs in Ambon and is continuing to monitor the situation there. On 29 April the Acting Coordinating Minister for Politics and Security, Hari Sabarno, visited Ambon with the National Police Chief, Da'i Bachtiar and agreed to increase security personnel there in order to restore order. Additional personnel have since arrived in Ambon.

We fully support the Malino Peace Agreement for Sulawesi and Maluku, which brought an end to large-scale inter-communal violence.

Iraq

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the US Central Intelligence Agency comments on the 10 September 2002 draft of the UK Government's Dossier, Iraq's Weapons of Mass Destruction, included comments on the claim that Iraq sought to procure uranium from Africa. [167278]

Mr. Rammell: The US Central Intelligence Agency did offer a comment, just before the September dossier was finalised, noting that they had concerns about the credibility of the reference to the supply of uranium from Africa. But they provided no explanation for their concerns. UK officials were confident that the statement in the dossier was based on reliable intelligence. A judgment was therefore made to retain the reference.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 30 January 2004, *Official Report*, column 581W, on Iraq, whether the source upon which it based its claim in the September 2002 dossier, that Iraq sought to procure uranium from Africa, is the same information that it understands was discussed with the International Atomic Energy Authority before 7 March 2003. [173387]

Mr. MacShane: I refer my hon. Friend to the answers given by my right hon. Friend the Foreign Secretary on 6 May 2004, *Official Report*, columns 1733–1734W.

Minority Languages (Europe)

Mr. MacDonald: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the Council of Europe's recent report on implementation of the European Charter on minority and lesser-used languages; and whether the Government will be publishing a response. [174186]

Mr. MacShane: The Government welcomed the Council of Europe's report of 24 March 2004 on the implementation of the Charter for Regional or Minority Languages. The report praises the UK in setting up official bodies for Welsh, Irish and Ulster-Scots. It also applauds the UK for the development of a semi-official body for Scottish Gaelic. The report commends the UK's dynamic approach to the instrument of ratification in recognising Manx and Cornish. It also noted the same approach regarding the ratification for Welsh.

The UK Government have already made a response to the report, and this is included in the full report published by the Council of Europe.

Russia

Mr. David Atkinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance has been given to Russia through the Individual Partnership Programme under NATO's Partnership for Peace Programme; what the results have been; whether he expects further assistance to be given to ensure democratic control of the armed forces in Russia; and if he will make a statement. [164649]

Mr. MacShane: I apologise for the late response which was due to an administration error.

Whilst Russia is a member of the Euro-Atlantic Partnership Council and the Partnership for Peace (PfP) initiative, it does not have an Individual Partnership Plan. It has a presence at the PfP's Partnership Co-ordination Cell, and participates in a small number of PfP exercises.

Russia also engages with NATO through the NATO-Russia Council (NRC), which was founded in 2002. NATO's role is not to assist Russia. Rather, the NRC is a forum to facilitate co-operation. The NRC's work plan addresses a broad defence reform agenda that strengthens democratic control of the armed forces. Other areas of joint work include: the struggle against terrorism; crisis management; non-proliferation of weapons of mass destruction; arms control and confidence-building measures; Theatre Missile Defence; search and rescue at sea; military-to-military co-operation; and civil emergencies.

Through the NRC's Ad Hoc Working Group on Defence Reform, NATO countries and Russia have come together in seminars and other events to share expertise with the aim of enhancing the performance of all involved. The coming year will see a broad range of work, including the development of measures to enhance transparency in defence planning.

Turkey

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Turkish Government on political prisoners being held in Turkish prisons; which individual cases were discussed; and if he will make a statement. [173536]

Mr. MacShane: We are in constant dialogue with the Turkish Government on human rights issues, which includes prisoners' rights. We also raise individual cases, such as that of Leyla Zana and the three other Kurdish Democracy Party MPs. I discussed the case with Leyla Zana's lawyer during my trip to Turkey in January, before raising it with the authorities. The outcome of the retrial is extremely disappointing and at odds with the reform process to which the Turkish Government are clearly committed. My right hon. Friend the Prime Minister raised human rights issues with the Turkish Prime Minister during his visit to Turkey as part of the first ever UK-Turkey Prime Ministerial summit.

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Turkish Government on the *(a)* health and *(b)* prison conditions under which Mr. Abdullah Ocalan is being held by the Turkish authorities. [173996]

Mr. MacShane: I refer my hon. Friend to the answer I gave to my hon. Friend the Member for Hayes and Harlington (John McDonnell) on 8 March 2004, *Official Report*, column 1323W.

We note that the Turkish authorities have been in dialogue with the Centre for Prevention of Torture on Ocalan's prison conditions and have agreed to undertake a number of measures in light of recommendations made by the centre.

WORK AND PENSIONS

Civil Service

Mr. Letwin: To ask the Secretary of State for Work and Pensions pursuant to his answer of 1 April 2004, *Official Report*, column 1638W, on staff reduction, (1) what discussions he has had with trade unions regarding plans for a net reduction of 30,000 civil servants in his Department; [171423]

(2) by what date he intends to have reduced civil servant jobs in his Department by 30,000; [171424]

(3) whether the intended net reduction of 30,000 civil servants in his Department will include the reduction of 18,000 for which plans have been in development since 2002; [171425]

(4) what the baseline figure is for the intended net reduction of 30,000 civil servants in his Department; [171426]

(5) if he will break down the net reduction of 30,000 civil servants in his Department by reductions made through *(a)* the new business model being rolled out in Jobcentre Plus, *(b)* the Pensions Transformation Programme and reductions in staffing in the Pension Service, *(c)* the introduction of child support reform and *(d)* savings in back office functions. [171427]

Maria Eagle: The 30,000 reductions are part of a four year programme to 2008 which we are discussing with our unions and include the 18,000 reductions previously outlined in 2002. We met with our Trade Unions on 6 April and 13 May and have a further meeting planned in May.

It is too early to define how the reductions will be profiled across each part of the Department and its businesses. We are using our current staffing level of around 130,000 as the baseline for the reductions.

Departmental Contracts

Mr. Cousins: To ask the Secretary of State for Work and Pensions what the *(a)* nature and *(b)* value was of all contracts, consultancies or other services placed with the accountancy firms (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01 by the Department and its agencies. [166087]

Jane Kennedy: DWP was established in June 2001. The information is not available in the form requested and could be obtained only at disproportionate cost. However, we are able to provide total spend by this Department with these accountancy firms, which is as follows:

£ million

	2001–02[1]	*2002–03*
Deloitte & Touche	8.1	4.2
Ernst & Young	[2]2.3	3.5
KPMG	1.1	2.6
PricewaterhouseCoopers	0.5	1.4

[1] Estimate.

[2] Cap Gemini Ernst & Young.

The figures for 2001–02 figures are for the complete year and are estimates of the spend for the legacy organisations. Also, 2003–04 figures will be available in June and July 2004.

Pensions

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his answer of 23 April 2004, *Official Report*, column 709W, on pension forecasts, how many combined pension forecasts have been issued in each month since their introduction; and how frequently they are reissued to individuals. [171103]

Malcolm Wicks: DWP does not hold information on the number of combined pension forecasts that are issued by employers and providers each month. However, the figures in the following table show the number of state pension forecasts that DWP has supplied to an employer or pension provider for inclusion in a combined pension forecast. This information is supplied for each month since the introduction of combined pension forecasts.

All the employers and providers currently delivering combined pension forecasts issue them annually to their scheme members.

Date	*Volume*
Pilot year 1	19,291
Pilot year 2	15,543

2004	
January	150,202
February	77,700
March	72,095
Total	1,120,048

Mr. Laws: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of people who claimed the state pension but lived outside the United Kingdom in each year from 1990–91 to 2003–04; and if he will make a statement. [173908]

Malcolm Wicks: The information requested is in the table.

September	*Number of people*
1990	575,800
1991	609,900
1992	632,000
1993	630,100
1994	674,300
1995	712,800
1996	741,700
1997	770,200
1998	797,300
1999	834,100

September	*Number of people*
2000	857,600
2001	887,700
2002	913,300
2003	952,400

Notes:

1. The figures are for cases outside Great Britain and are rounded to the nearest hundred.
2. Figures for September 1990, 1991, 1992, and 1993 do not include people receiving only additional pension or graduated retirement benefit.

Sources:

1. Figures for September 1990 to September 1994 were taken from the Social Security Statistics publication 1995.
2. Figures for September 1996 and September 1997 were taken from the Social Security Statistics publication 1999.
3. Figures from September 1997 to date were taken from the 5 per cent. samples from the Pensions Strategy Computer System taken on 30 September of each year.

PRIME MINISTER

Iraq

Mrs. Calton: To ask the Prime Minister (1) what *(a)* instruction and *(b)* guidance (i) his officials and (ii) Ministers were following prior to the decision not to make the February International Committee of the Red Cross report available to him as soon as it became available to his office; [173573]

(2) what *(a)* written and *(b)* oral briefing was provided by officials in his office to inform him of the contents of the International Committee of the Red Cross report and actions taken (i) as a result of officials having read the report and (ii) prior to the full report being made available to him. [173574]

The Prime Minister: I refer the hon. Member to the answers I gave to the right hon. Member for Folkestone and Hythe (Mr. Howard) at Prime Minister's questions on 12 May 2004, *Official Report*, columns 347–49.

CONSTITUTIONAL AFFAIRS

Community Legal Services Partnerships

Mr. Kidney: To ask the Parliamentary Secretary, Department for Constitutional Affairs what representation community legal services partnerships have on local strategic partnerships; and if he will liaise with appropriate ministerial colleagues to promote such representation. [173953]

Mr. Lammy: Working relationships between Community Legal Service Partnerships (CLSPs) and Local Strategic Partnerships (LSPs) are active in all areas. CLSPs are represented in a number of LSPs throughout England (there are no LSPs in Wales). There are variations to the extent to which CLSPs are joining up with LSPs, and to the form of representation, due to the varying nature and structure of each LSP. Ongoing work to develop relationships between CLSPs and LSPs is being actively pursued throughout the English regions.

Mr. Kidney: To ask the Parliamentary Secretary, Department for Constitutional Affairs what recent assessment he has made of the workings of community legal services partnerships, with particular reference to *(a)* research into patterns of need, supply and capacity, *(b)* priorities for service development and the deployment of resources, *(c)* disseminating good and best practice and *(d)* publicising services which are available. [173954]

Mr. Lammy: The Independent Review of the Community Legal Service (CLS), which was published on 28 April 2004, provides a detailed assessment of the workings of CLS Partnerships. The Review recommends that CLS Partnerships have their activities re-focused in the short-term, and are placed on a statutory footing in the longer term. My Department is currently seeking views on the Review's recommendations, as part of a process of consultation. We will be considering the best way in which to build on the success of the CLS in the light of the Review's recommendations and the comments we receive. In addition, we have announced a fundamental legal aid review, which will look at the long-term future of the legal aid system, focusing on how best to provide publicly funded legal services to those who need them.

Timber

Ms Walley: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the Department plans to contribute financially to the establishment of the second phase of the Central Point of Expertise on Timber. [167624]

Mr. Lammy: I refer the hon. Member to the answer given by my hon. Friend the Minister of State for Environment, Food and Rural Affairs on 10 May 2004, *Official Report*, column 31W.

NORTHERN IRELAND

Criminal Justice

Mr. Lidington: To ask the Secretary of State for Northern Ireland if he will make a statement on the progress made on the Attorney General's examination of police powers, bail arrangements and other criminal justice matters announced by the right hon. Member for Hamilton, North and Belshill (Dr. Reid) on 24 July 2002; and if he will publish the Attorney General's conclusions. [172155]

Mr. Pearson: On 29 August 2002 the Attorney-General delivered to the then Secretary of State a paper outlining measures which might be taken to improve the possibilities of successful prosecution for acts of terrorism, violence and organised crime. The paper recommended that policy consideration be given to the introduction of an ASBO regime for Northern Ireland, that consideration be given to the use of section 108 of the Terrorism Act, that the DPP and Police should give further consideration on how co-operation could be improved, and that policy consideration be given to introducing pre-charge bail conditions. In September 2002, the Northern Ireland Law and Order Action Group was established and it has since considered ASBOs and bail in detail.

Following a public consultation on measures to tackle anti-social behaviour in Northern Ireland, a further consultation of legislative proposals to introduce anti-social behaviour orders is under way.

Cases are proceeding through the courts in which section 108 statements have been made.

The two pilot schemes for the new Public Prosecution Service have introduced co-location working practices in which police officers operate from Prosecution Service offices, thus allowing the police immediate access to prosecution lawyers for advice on prosecutorial issues. Co-location will provide a firm basis on which to build closer co-operation.

The introduction of pre-charge bail conditions will be taken forward as part of a review of Police and Criminal Evidence (PACE) in Northern Ireland announced by the then Minister of State in a written ministerial statement on 26 February 2004.

Alzheimer's Disease

Lady Hermon: To ask the Secretary of State for Northern Ireland what future funding has been allocated specifically in relation to the development of treatment and care for Alzheimer's sufferers. [173272]

Angela Smith: The Department of Health, Social Services and Public Safety is not planning to allocate funds specifically for the development of treatment and care of Alzheimer's sufferers. Allocations are made on the basis of Programmes of Care for different classes of patients and clients, rather than specific conditions. Decisions about funding for treatment and care are made by Health and Social Services Boards in light of local priorities and available resources.

Bill of Rights

Mr. Swayne: To ask the Secretary of State for Northern Ireland whether it is his intention to bring forward a Bill of Rights for Northern Ireland; and if he will make a statement. [172876]

Mr. Spellar: The Government remains committed to facilitating the work of the Northern Ireland Human Rights Commission for Northern Ireland on proposals for a Bill of Rights. However, it remains our position that it would not be appropriate for the Government to comment until we receive the final advice from the Commission. We have therefore not reached any policy conclusions.

In addition the Government remains committed to establishing a broadly based forum on the Bill of Rights. We will engage the political parties in a renewed effort to build consensus to this end.

Chief Inspector of Criminal Justice

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will list the dates on which he has had meetings with the Chief Inspector of Criminal Justice since his appointment. [173303]

Mr. Paul Murphy: While my colleague, John Spellar, met Kit Chivers on his appointment to the post of Chief Inspector of Criminal Justice in Northern Ireland in June last year, I have not yet had occasion to meet him. However, I have corresponded with him on the preparations he is making for the formal establishment of his inspectorate in the autumn and I recently endorsed his work programme along with his corporate and business plans for the period up to March 2006.

Lady Hermon: To ask the Secretary of State for Northern Ireland what discussions he has had with the Chief Inspector of Criminal Justice in relation to an inspection of the Office of the Police Ombudsman for Northern Ireland. [173305]

Mr. Paul Murphy: I have not had discussions with the Chief Inspector of Criminal Justice in relation to an inspection of the Office of the Police Ombudsman for Northern Ireland. However, I have noted the proposed timing of an inspection of that office within the Inspectorate's work programme for the first 18 months of operation.

Criminal Justice Inspectorate

Lady Hermon: To ask the Secretary of State for Northern Ireland how many members of staff are employed within the Northern Ireland Criminal Justice Inspectorate; and if he will make a statement on recruitment to the Inspectorate. [173304]

Mr. Paul Murphy: Within recent months the Chief Inspector of Criminal Justice in Northern Ireland has been engaged in recruiting and appointing staff. A deputy Chief Inspector and Head of Research and Communications have been appointed. The process of recruiting inspectors is progressing as planned. The first of these should be in post by July, trained and ready to start the programme of inspections in the autumn. Senior support staff have also been identified and will be in post by that time.

Crown Employment (Nationality) Bill

Mr. Dismore: To ask the Secretary of State for Northern Ireland what discussions took place at the recent Anglo-Irish summit concerning the Crown Employment (Nationality) Bill and the need for legislation; and if he will make a statement. [171537]

Mr. Pearson: The Joint Communique issued after the British-Irish Intergovernmental Conference on 21 April 2004 confirms that this issue was raised; I have placed a copy in the Library.

However, it would be inappropriate to disclose details of the discussions beyond those contained in the communique in accordance with Part II, Paragraph 1 of the Code of Practice on Access to Government Information (defence, security and international relations: information whose disclosure would harm the conduct of international relations or affairs).

Departmental Annual Report

Norman Lamb: To ask the Secretary of State for Northern Ireland how much the production of his Department's latest annual report cost; how many copies were printed; how many copies of it were sold at its cover price; to whom copies of the report have been provided free of charge; and how many copies were provided free of charge. [171150]

Mr. Paul Murphy: The Northern Ireland Office Departmental Report 2004 was only completed on 30 April 2004 and made available to purchase on 7 May 2004, details of sales and final costs are not yet available. However, the details for the annual report for 2003 which I expect to be very similar to those for 2004, are as follows:

The Northern Ireland Office Departmental Report 2003 was produced by The Stationary Office (TSO). Costs of printing and publication are met directly by TSO and do not fall to Government. The Department was invoiced for the 180 copies that it requested. 856 copies were printed and TSO's records show that eight copies have been sold at its cover price of £30, and an additional 597 copies were sold at a reduced charge. The NIO supplied copies of the report free of charge to 159 parties. A list of those interested parties is set out in the following table.

The 2004 report is available in the Libraries of the House and to the public free of charge on the NIO website at http://www.nio.gov.uk/pdf/deptreport2004.pdf.

Language Public Bodies

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much the Department for Culture, Arts and Leisure has contributed towards the costs of the production and staging of the Ulster Scots Production "On Eagle's Wing". [172763]

Angela Smith: The Department of Culture, Arts and Leisure has made no direct contribution to the production and staging of "On Eagle's Wing". However, bodies funded by the Department have offered financial support totalling £175,000 of which £162,500 has been drawn down by the promoter, On Eagle's Wing Ltd.

Ministerial Visits

Matthew Taylor: To ask the Secretary of State for Northern Ireland if he will list visits made by each Minister in the Department between December 2003 and April 2004, broken down by *(a)* date, *(b)* constituency visited and *(c)* cost. [171564]

Mr. Paul Murphy: The information requested by the hon. Member in relation to dates and constituencies visited is set out below. Information in relation to the cost of visits is not held centrally and could be provided only at disproportionate cost.

	Constituency visited by right hon. Paul Murphy MP
2 December 2003	Belfast South

MS Treatment

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what funding has been provided to make beta interferon and glatiramer available to multiple sclerosis sufferers; and if he will make a statement. [173606]

Angela Smith: A total of £3.6 million was spent on these disease-modifying therapies for multiple sclerosis sufferers in 2002–03, increasing to £4.1 million in 2003–04. The Health and Social Services Boards have provisionally allocated £4.5 million to cover the cost of these medicines for patients in the current financial year. This represents a 23 per cent. increase in funding since 2002–03.

A further £100,000 (recurrent and uplifted for inflation) has been provided since 2002–03 to enhance the infrastructure required for the delivery of these medicines.

Pressure Ulcers

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what actions are being taken to limit costs resulting from pressure ulcers. [173608]

Angela Smith: The Department of Health, Social Services and Public Safety, in conjunction with the Northern Ireland Practice Education Council (NIPEC), is taking forward an Essence of Care Project aimed at improving fundamental aspects of patient care across all care settings. A number of areas of care will be examined, including the prevention, care and treatment of pressure ulcers. The Project will test benchmark

standards, support measures to improve quality, and help practitioners take a structured approach to sharing and improving practice, as well as identifying and remedying poor practice that result in unnecessary costs and poor outcomes.

Pupil Numbers (Secondary Schools)

Mr. Chaytor: To ask the Secretary of State for Northern Ireland how many pupils aged 11 to 15 there were in each of the last six years in maintained secondary schools in Northern Ireland; and how many and what percentage of pupils in the same period were aged 11 to 15 in maintained grammar schools in Northern Ireland. [172379]

Mr. Gardiner: The enrolment figures for 11 to 15-year-olds in grant aided schools in Northern Ireland for the last six years are as follows:

	Secondary (non-grammar) schools	*Grammar schools*	*Total*
1998–99	85,418	46,263	131,681
1999–2000	85,851	46,479	132,330
2000–01	85,996	46,359	132,355
2001–02	85,247	46,483	131,730
2002–03	84,249	46,453	130,702
2003–04	82,880	46,268	129,148

The percentages for 11 to 15-year-old enrolments in grant aided schools in Northern Ireland for the last six years are as follows:

	Secondary (non-grammar) schools	*Grammar schools*
1998–99	64.9	35.1
1999–2000	64.9	35.1
2000–01	65.0	35.0
2001–02	64.7	35.3
2002–03	64.5	35.5
2003–04	64.2	35.8

Student Nurses

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many nursing students have *(a)* withdrawn and *(b)* been forced to withdraw from their course in each of the past five years at universities in the Province. [173611]

Angela Smith: Information on the number of students who withdrew from their course is only readily available for the last four financial years and is as follows.

Financial year	*Number of permanent withdrawals*
1 April 2000—31 March 2001	50
1 April 2001—31 March 2002	64
1 April 2002—31 March 2003	100
1 April 2003—31 March 2004	70

There are currently in excess of 2,200 students actively pursuing their training.

Students may be asked to permanently withdraw from their course in the event of examination failure, breaches of discipline or continued poor performance while on practice placement.

Other reasons cited for withdrawal include personal reasons, domestic responsibilities and financial difficulties. The Universities can offer an option of a temporary withdrawal, as a possible solution to difficulties a student is experiencing.

SCOTLAND

Advisers/Consultants

Bob Spink: To ask the Secretary of State for Scotland how much the Department and its agencies and non-departmental public bodies spent on external consultants and advisers in each of the last three years. [172549]

Mrs. McGuire: Spending on external consultants and advisers was as follows:

	£000
2001–2002	17,864
2002–2003	4,620
2003–2004 (est)	10,044

Departmental Annual Report

Norman Lamb: To ask the Secretary of State for Scotland how much the production of his Department's latest annual report cost; how many copies were printed; how many copies of it were sold at its cover price; to whom copies of the report have been provided free of charge; and how many copies were provided free of charge. [171152]

Mrs. McGuire: The cost to the Scotland Office of producing the 2004 Annual Report was £4,119. The number of copies printed for the Office was 150 and the report is also available on the Scotland Office website. Copies of the report were provided to the Scottish Affairs Committee, other Government Departments and for use within the Office.

Other costs of printing and publication were met directly by the publisher, The Stationery Office Limited (TSO), and did not fall to the Government. TSO recoups these costs through sales and uses its commercial judgment as to the number of copies printed. TSO printed 550 copies of the report for their own use. As the report has only recently been published, TSO are not yet able to provide figures on sales.

Departmental Procurement

Michael Fabricant: To ask the Secretary of State for Scotland what percentage of the *(a)* crockery, *(b)* cutlery and *(c)* glassware procured by his Department over the last five years is of British manufacture. [170807]

Mrs. McGuire: The Scotland Office has no responsibility for any catering outlets and purchases of crockery, cutlery and glassware have been minimal. Details about the manufacture of such items are not available.

Holyrood (Transport Competences)

Mr. Gordon Prentice: To ask the Secretary of State for Scotland what representations he has received from the Scottish Executive concerning the transfer of additional competences to Holyrood on transport matters. [174049]

Mrs. McGuire: No such representations have been received.

Productivity

Bob Spink: To ask the Secretary of State for Scotland what his policy is for *(a)* increasing the productivity and *(b)* cutting the costs of his Department. [172173]

Mrs. McGuire: I refer the hon. Member to the reply given by my hon. Friend, the Financial Secretary to the Treasury, on 10 May 2004, *Official Report*, column 149W.

Written Answers to Questions

Thursday 20 May 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Fruit Farming

19. **Hugh Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on Government support for fruit farming. [174422]

Mr. Bradshaw: Defra funds a substantial research and development programme of benefit to fruit farmers. Growers are also eligible for assistance under the England Rural Development Programme, for the first time, soft fruit will attract support as a result of CAP reform.

Fisheries

20. **Mr. MacDougall:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on Government measures to protect fish stocks in UK waters. [174423]

Mr. Bradshaw: There are a range of national and EU measures to protect stocks in our waters. The Prime Minister's Strategy Unit has made far-reaching recommendations for further measures. We are studying the report and will respond fully by the end of the year.

Egg Regulations

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received from small-scale egg producers about recent changes to regulations, including those about egg stamping; and if she will make a statement. [174414]

Mr. Bradshaw: Defra has received an estimated 3,150 inquiries on the Registration of Laying Flocks Order and the Egg Marketing Regulations—by far the majority of these inquiries were from producers wanting to know how to comply with the changes.

Air Quality

Tom Brake: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on *(a)* urban and *(b)* rural air quality in 2003. [174406]

Margaret Beckett: The Government's annual Air Quality Headline Indicator, published on 28 April 2004, estimates:

(a) In urban areas in 2003, air pollution was recorded as moderate or higher on 50 days on average per site, compared with 20 days in 2002.

(b) In rural areas, the figure for 2003 was 61 days on average per site, compared with 30 in 2002.

Avian Flu

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the safety of imported chickens from South East Asia since the recent outbreaks of avian influenza; and if she will make a statement. [173681]

Mr. Bradshaw: Under EU rules, imports of live poultry are not permitted from any of the countries in Asia where highly pathogenic avian influenza has been confirmed. This was the case even before the disease outbreaks, as none of these countries had been approved by the European Commission to export live poultry to the EU. Similarly, with the exception of Thailand, imports of meat from the affected countries are not authorised.

The risk of the avian influenza virus spreading to other birds through meat is low. Nevertheless, as a precautionary measure, the European Commission took action on 23 January to ban imports from Thailand of fresh and frozen poultry meat unless accompanied by certification confirming that it was from birds slaughtered before 1 January 2004. In addition, cooked poultry meat that had not been heat treated to at least 70°C, was also banned. The UK took immediate action to implement these measures in domestic law.

The Food Standards Agency advice is that eating chicken is not considered a risk to consumers. This is because the risk to people from Avian Influenza arises from close contact with live chickens that have the disease, and not through eating chicken.

Beef Exports

Sir Archy Kirkwood: To ask the Secretary of State for Environment, Food and Rural Affairs what further steps she will take to promote the export of beef. [174421]

Mr. Bradshaw: Beef exports are currently limited by the requirements of the Date Based Export Scheme. In the light of last week's positive opinions from the European Food Safety Authority, and taking account of any decision to replace the UK's over-30 months rule by testing, we will continue to work with the EU Commission to ensure that controls on UK beef exports are eased as far as possible.

Beekeeping

Mr. Todd: To ask the Secretary of State for Environment, Food and Rural Affairs what representations her Department has received on the hazards that can be caused by beekeeping. [173089]

Alun Michael: The Department has received no such representations.

Bioremediation

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what research has been conducted by or for her Department on bioremediation using genetically modified organisms. [173118]

Mr. Morley: The Department has recently published research that specifically examines the potential use of genetically modified organisms in bioremediation (final report available at http://www.defra.gov.uk/environment/gm/research/epg-1-5-142.htm). The report concludes that genetic modification offers some possible benefits in this area, but that, as with all GMOs, a thorough evaluation of the potential risks is required. This evaluation needs to be carried out in the context of the contaminated environment in which bioremediation is applied and the possible alternative approaches to bioremediation.

We have also commissioned research on bioremediation in general, some of which has considered the use of genetically modified organisms (for a full list see http://www.defra.gov.uk/research/Project_Data/projects.asp?M=KWS&V=bioremediation&SCOPE=0).

Bovine TB

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effect of repeated intradermal skin tests on the ability of the test to detect bovine TB infection in individual cattle. [172530]

Mr. Bradshaw: There is often a trade-off between test sensitivity and specificity. The skin test used in GB has been fine tuned to optimise specificity (i.e. keep false positives to a minimum) while retaining a good sensitivity (i.e. probability of identifying infected herds). However, because of the dynamics of *Mycobacterium bovis* (*M. bovis*—the causative organism for bovine tuberculosis) transmission and the time it takes to mount a detectable immune response to the intradermal injection of tuberculin, the skin test cannot be relied upon to detect every animal infected with *M. bovis* at the time of the disclosing test. This phenomenon is not unique to the tuberculin test and, in fact, this is quite normal for any immunological test.

For these reasons, it is well accepted that the tuberculin tests are more suited to the detection of infected herds rather than the detection of infected individual cattle, i.e. a small proportion of infected animals in reactor herds may escape detection when the herd is first tested (false negatives). In order to increase the sensitivity of the skin test and detect any animals in the early stages of infection, reactor herds are re-tested at 60 day intervals until no further reactor animals are found and restrictions can be lifted. Reactor herds are then re-tested 6 and 18 months after the lifting of restrictions. Additionally, if infection has been confirmed in the herd by post mortem examination or culture, a more severe interpretation of test readings is applied. This further enhances the ability of the test to detect any residual infection after the initial screening. In other words, the imperfect sensitivity of the skin test is compensated for by the application of short-interval testing and severe interpretation.

Defra has also sponsored experimental work at the Institute of Animal Health (Compton), to look into the effects of repeat skin testing. The main finding of this experiment was that repeat testing at 56-day intervals before experimental infection of calves with *M. bovis* had no effect on the animals' ability to respond to an intradermal test carried out seven weeks post-infection. Therefore, no matter how often an animal is skin tested before it contracts TB, the sensitivity of the skin test after infection will not be compromised.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what research she has evaluated on the specificity and sensitivity of the Bovigam gamma interferon test; and what conclusions she has drawn. [172550]

Mr. Bradshaw: The Veterinary Laboratories Agency (VLA) has reviewed 13 papers reporting gamma-interferon (γ-IFN) field trials in Australia, New Zealand, Northern Ireland, Republic of Ireland, Brazil, Italy, Spain and USA. Eight papers gave 20 estimates of sensitivity (80 per cent. were in the range 71–94 per cent.) and 8 papers gave 22 estimates of specificity (80 per cent. were in the range 89–99 per cent.). These estimates for sensitivity are similar to those for the skin test as practiced in the UK, but the estimates for specificity are lower. If the γ-IFN test were used at the same time or shortly after the skin test and animals positive to either test were removed, the combined tests would have a greater sensitivity than the skin test alone. If used with the defined, more specific, antigens developed by VLA, the gamma interferon test can in certain circumstances identify uninfected animals that are positive to the skin test.

The γ-IFN assay is widely considered to be at least as sensitive as the skin tests and, in addition, will detect a proportion of infected cattle that fail to react to the skin tests. This is thought to be because the γ-IFN test detects infection at an earlier stage than the skin test does, although there is also evidence that the two tests detect slightly different populations of tuberculous cattle. However, the γ-IFN test is hardly ever used for mass TB screening on its own. This is because the test is relatively expensive, it does not detect all skin test-positive infected animals, it tends to be less specific than the SICCT (the single intradermal comparative cervical test, which is the version of the skin test used in the UK and Ireland) and, like the SICCT, it is unlikely to detect infected animals that are negative to the tuberculin test due to a depressed immune response to tuberculin (this can occur in cattle with advanced TB). The need to process samples within 24–30 hours of collection also poses some logistical problems for mass screening.

In contrast, it has been postulated that the use of the γ-IFN test in tandem with the skin test could allow the removal of more (but not necessarily all) infected cattle from particular breakdown herds than the skin test alone. If this is correct, use of the two tests in quick succession should speed up the elimination of infection from infected herds. Under this premise, the European Commission approved the γ-IFN test in 2002 for use as an ancillary test in animals that fail to respond to the skin test and it now complements the skin tests in cattle herds with intractable, confirmed infection in many EU member states. It is worth noting that most of these member states use a version of the skin test different to that used in the UK and Ireland.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what level of specificity and sensitivity she has concluded might be applied to control bovine TB in cattle herds which

(a) are subject to repeated and persistent bovine TB breakdowns, *(b)* are subject to a first TB breakdown and which are also in a TB hotspot, *(c)* are subject to a first TB breakdown and which are not in a TB hotspot, *(d)* have not been subject to TB breakdowns and which are in a TB hotspot and *(e)* have not been subject to TB breakdowns and which are not in a TB hotspot. [172551]

Mr. Bradshaw: Sensitivity and specificity of tests for bovine TB in cattle have relative rather than absolute meanings as it is not possible to conclusively demonstrate that an animal with no sign of TB is not in the early stages of infection. In addition, it is possible to increase the sensitivity and decrease the specificity by lowering the reading above which the test is declared positive (as occurs with standard and severe interpretations of the skin test).

The Divisional Veterinary Managers (DVMs) have the discretion to remove cattle from herds that are not skin test positive—they are generally termed Dangerous Contacts. The DVMs use their epidemiological judgment to vary the criteria used to remove animals in cases *(a)* to *(e)* in the question.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment her Department has made of the predictive models used in other countries to assess the feasibility of controlling bovine TB using the Bovigam gamma interferon test. [172552]

Mr. Bradshaw: Other countries with a bovine TB problem comparable to Great Britain's—New Zealand, Republic of Ireland, Northern Ireland—have used the gamma interferon test, but there are no published predictive models for its use.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what the maximum *(a)* specificity and *(b)* sensitivity achieved by the Bovigam gammas interferon test in experiments conducted in the UK is; and under what conditions these results were achieved. [172553]

Mr. Bradshaw: Specificity and sensitivity must be quoted together as they are inversely related, and they suffer from the lack of an absolute measure of whether an animal is infected. In the UK, the gamma interferon (γ-IFN) test has been used without the skin test only in laboratory studies.

No large-scale validation of the γ-IFN test has been carried out in GB. The ongoing field trial sponsored by Defra and the Welsh Assembly Government in Wales and the Midlands aims to measure the cost effectiveness of using the γ-IFN in infected herds in conjunction with the single intradermal comparative cervical test (SICCT) and provide some data on the γ-IFN test sensitivity under GB conditions. There are also plans in train to assess the specificity of the γ-IFN test in areas of GB with little or no incidence of TB.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* maximum and *(b)* minimum (i) sensitivity and (ii) specificity is of the comparative intradermal tuberculin test in the UK. [172554]

Mr. Bradshaw: There is often a trade-off between sensitivity and specificity of a diagnostic test and no test is 100 per cent. sensitive and 100 per cent. specific. When used as a routine screening test in GB, the single intradermal comparative cervical test (SICCT) is designed to maximise specificity while retaining a good sensitivity.

Statistical analysis of TB testing data suggests that the maximum sensitivity of disclosing tests is 90 per cent. and the maximum sensitivity of subsequent (short-interval) tests is 70 per cent. The average specificity of the disclosing test in low-incidence districts of Great Britain is between 99.98 per cent. and 99.99 per cent.

When used in herds with confirmed TB, the cut off point of the test is shifted to increase sensitivity at the expense of specificity.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs how many studies the Government have funded in the last 15 years into the specificity and sensitivity of the Bovigam gamma interferon test; which research establishments conducted each study; what the conclusions of each study were, with reference to specificity and sensitivity; when the results of each study were drawn to the attention of *(a)* the chief veterinary officers and *(b)* Ministers; and where and when the results were published. [172556]

Mr. Bradshaw: The Bovigam test became commercially available around 1991. Since then, field research in a number of countries, including Britain, has confirmed the test to be a valuable ancillary test to the skin test. We have not conducted studies designed to look particularly at the specificity and sensitivity of the Bovigam test in the UK. However, there are nine current research projects which are looking at the development of more *Mycobacterium bovis* specific gamma interferon antigens or on the validation of the ones already trialled.

Further details of these can be found in Annex 2 of the paper presented to the TB Forum on Gamma Interferon (TBF62) available on line at www.defra.gov.uk/animalh/tb/forum/papers/tbf62.htm.

Work is continuing in the form of the policy pilot field trial. In addition, a number of peer-reviewed papers have been published in academic journals.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of combinations of specificity and sensitivity applied in countries which have a bovine TB problem, in their use of the Bovigam gamma interferon test. [172565]

Mr. Bradshaw: The performance of the gamma interferon (γ-IFN) test (Bovigam) has been assessed by many authors in trials carried out in several countries with bovine tuberculosis (TB) problems. This research has been carefully evaluated by Defra and scientists from the Veterinary Laboratories Agency.

In these trials, the sensitivity of the test has ranged between 55.4 and 100 per cent. and the specificity between 70.0 and 99.6 per cent. However, these results are influenced by the characteristics of the cattle populations in which the studies were carried out, the prevalence of cross-reacting organisms, the cut-off point

used to interpret the γ-IFN test and the criteria used to establish the *M. bovis* infection status of the trial animals (often known as the "gold standard"). It is not, therefore, straight forward to extrapolate specificity and sensitivity estimates directly from one country to another. Ideally, the performance of a diagnostic test for TB should be evaluated under the conditions and in the geographical area in which the test will be used.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department has undertaken a cost and benefit analysis of the use of the Bovigam gamma interferon test. [172568]

Mr. Bradshaw: No large-scale validation of the gamma interferon (γ-IFN) test has been carried out in GB. Although the γ-IFN test is now used in several countries, experimental data is lacking on the cost-effectiveness of using γ-IFN in infected herds in conjunction with the single intradermal comparative cervical test . Desk studies have estimated that significant savings will need to accrue from the use of the γ-IFN before it becomes cost-effective in GB. The on-going field trial sponsored by Defra and the Welsh Assembly Government in Wales and the Midlands aims to resolve this question.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what advice the Central Scientific Laboratory has provided to her Department on the *(a)* specificity and *(b)* sensitivity of the Bovigam gamma interferon test; and what advice it has provided on the applicability of the test as a bovine TB control measure; [172999]

(2) what recent discussions her Department and its agencies have had with Central Science Laboratory on the practical application of its Bovigam gamma interferon test for bovine TB in cattle. [172555]

Mr. Bradshaw: No discussions have taken place with the Central Science Laboratory on the subject of the Bovigam gamma interferon test. The Bovigam test was developed by Commonwealth Serological Laboratories Veterinary Ltd., Australia.

British Produce

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the procurement of British-produced food by public bodies. [173682]

Alun Michael: A key objective of the Government's public sector food procurement initiative is to increase the amount of locally produced food purchased by public sector bodies. This cannot be done by restricting business to UK suppliers because the European Treaty prohibits discrimination on the basis of nationality. However, the legal and policy framework for procurement does allow public bodies to create a competitive environment that will encourage more UK producers to bid for public sector business.

Public bodies are being advised to structure contract requirements so that small and local suppliers have the capacity and opportunity to compete and a realistic chance of being successful. One example is to specify more fresh seasonal produce. We are also asking food service companies to develop opportunities for local producers to become part of their supply chains.

The scope for applying these measures will vary depending on the size and particular requirements of each public sector contract. Public bodies have an overarching duty to secure value for money and so will have to ensure that the measures they adopt to encourage more supplies of local food are proportionate and justified. Nevertheless, the Government are confident that more local produce could be supplied to the public sector through the intelligent application of procurement practice.

More information on this initiative is given on Defra's website at http://www.defra.gov.uk/farm/sustain/procurement/index.htm.

Coastal Defence Strategy

Mr. Gibb: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the Coastal Defence Strategy. [174417]

Mr. Morley: Assuming the question is about the River Arun to Pagham Harbour Coastal Defence Strategy, the Department anticipates receiving submission of the Executive Summary some time in June this year. A complete submission of all documentation is anticipated within the next three months. Defra would anticipate making a response within about three months if the documentation is complete.

Common Agricultural Policy

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs when she will publish the final draft of the mid-term review of the Common Agricultural Policy; how long farmers will have to comply with the requirements of the mid-term review from the date of publication; and if she will make a statement. [174271]

Alun Michael: On 26 June 2003, *Official Report*, column 1220, my right hon. Friend reported to the House on the political agreement that had been reached that morning on the Commission's proposals for reform of the Common Agricultural Policy. That agreement was subsequently given legal effect in Council Regulations 1782/2003, 1783/2003, 1784/2003, 1785/2003, 1786/2003, 1787/2003, and 1788/2003. Member states and individual farmers, where applicable, will have to comply with the requirements of those Regulations until such time as the Regulations are amended or repealed. Some provisions are already in place, for example those relating to the new Dairy Premium Scheme, but most will apply from 1 January 2005, when the new Single Payment Scheme (SPS) is introduced, and some, for example, on the Farm Advisory System, will not apply until later years. Details on these provisions appear on the Department's website (www.defra.gov.uk) and further information will be sent to farmers over the coming months in the lead up to the first application period for the SPS.

Departmental Expenditure (Entertainment)

Mr. Laws: To ask the Secretary of State for Environment, Food and Rural Affairs what her latest estimate is of the amount spent by her Department on official entertainment in each year from 1996–97 to 2004–05. [169004]

Alun Michael: The information for Defra is as follows:

	£
2001–02	[1]239,000
2002–03	[1]450,000
2003–04	[2]428,000

[1] Outturn.
[2] Provisional outturn.

It should be noted that Defra only came into being in 2001. An estimate is not provided for 2004–05 since specific budgets are not set for this type of expenditure.

The figures include expenditure on official entertainment made in accordance with the principles set out in "Government Accounting" and can range from tea and biscuits to catering for major events at which the Department—at official or ministerial level—discusses a range of issues from high-level policy issues to highly technical, legal and scientific issues. All such expenditure is made in accordance with published departmental guidance on financial procedures and propriety.

Animal Welfare

Mr. Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs how much Government funding was allocated to the protection and welfare of animals in 2003–04, broken down by budget heading. [169945]

Mr. Bradshaw: In 2003–04 a total of £9.2 million was spent on the protection and welfare of animals. This can be broken down as follows:

	Amount
Research (£ million)	3.6
Enforcement (£ million)	[1]2.5
Administration (£ million)	2.2
Scheme (£000)	[2]900

[1] This does not include the cost of enforcement by local authorities.
[2] This figure includes items such as contracts with the Veterinary Laboratories Agency (VLA) and the Agricultural Development and Advisory Service (ADAS) to support and promote animal welfare.

Fallen Stock

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the contribution made by hunt kennels to the disposal of farm animal carcases. [174206]

Mr. Bradshaw: No formal assessment has been made. Hunt kennels play a useful role in disposal of fallen stock in some areas. However, overall the quantity of material collected is relatively low, and the type of material collected limited, when compared to that collected by the fallen stock collection and disposal industry as a whole.

Milk

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs how many litres of liquid milk were imported into the UK from EU countries in each of the last five years, broken down by country of origin. [172935]

Alun Michael: The following table shows UK imports of liquid milk from the EU 15 member states in each of the last five years to 2003, broken down by country of despatch.

UK imports of liquid milk from EU 15 countries, 1999–2003

Thousand litres

Country	*1999*	*2000*	*2001*	*2002*	*2003*	*Grand total*
Irish Republic	60,342	60,199	54,835	26,233	135,719	337,328
Denmark	30,334	25,166	9,421	795	425	66,140

CULTURE, MEDIA AND SPORT

Fitness Initiatives

Mr. Flight: To ask the Secretary of State for Culture, Media and Sport how much has been *(a)* allocated to and *(b)* spent on advertising fitness and exercise initiatives in each year since 1997. [174593]

Mr. Caborn: The Department has not allocated any specific funding to advertising fitness and exercise initiatives since 1997. However, Sport England has earmarked £250,000 from their budget this financial year to test a campaign in the North East region aimed at changing people's attitude to physical activity. The campaign will be launched on 11 June.

National Lottery Disbursements

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport how much lottery money has been distributed in each year from 1997 to date to the *(a)* Arts Council England, *(b)* Arts Council of Northern Ireland, *(c)* Arts Council of Wales, *(d)* Award for All (England) Joint Scheme, *(e)* Community Fund, *(f)* Heritage Lottery Fund, *(g)* Millennium Commission, *(h)* New Opportunities Fund, *(i)* Scottish Arts Council, *(j)* Scottish Screen, *(k)* Sport England, *(l)* Sport Scotland, *(m)* Sports

Council for Northern Ireland, *(n)* Sports Council for Wales, *(o)* UK Film Council and *(p)* UK Sport.
[174342]

Estelle Morris: The information is shown in the following tables.

£

	1997–98	1998–99	1999–2000
Arts Council of England	297,674,958.58	234,629,859.32	201,058,663.29

UK Sport	24,010,153.18	25,614,739.83	21,461,040.01	19,985,883.40
Sports Council for Wales	13,910,716.32	14, 171,442.54	12,585,730.80	10,521,925.89
Scottish Screen	5,577,636.68	3,368,609.38	2,845,832.59	2,563,477.41

The figures are the income to each distributor in each year as derived from the lottery games and the income accrued on balances held.

Awards for All (England) is a joint scheme under which Sport England, Arts Council England, Heritage Lottery Fund, Community Fund and New Opportunities Fund contribute money to single joint pot. The Awards for All (England) budget is, as such, part of the figures in the table, not additional.

The Awards for All budget in each year was as in the following table.

	£ million
2000–01	39.872
2001–02	40.787
2002–03	45.026
2003–04	43.282

Public Bodies (Funding)

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much grant in aid funding was given to the *(a)* Advisory Committee on Historic Wreck Sites, *(b)* Advisory Committee on the Government Art Collection, *(c)* Advisory Council on Libraries, *(d)* Reviewing Committee on the Export of Works of Art, *(e)* Spoliation Advisory Panel, *(f)* Treasure Valuation Committee, *(g)* Working Group on Human Remains, *(h)* Advisory Group on Illicit Trade, *(i)* Live Music Forum, *(j)* Review of BBC's Digital Television Services and *(k)* Review of BBC's Digital Radio Services in 2002–03; what the administration costs of each were in that year; and what the projected grant in aid (i) is for each in 2003–04 and (ii) will be for each in (A) 2004–05 and (B) 2005–06.
[173705]

Mr. Caborn: English Heritage administers the Advisory Committee on Historic Wreck Sites out of its core grant in aid. The role of the secretariat passed from the Department for Culture, Media and Sport (DCMS) with the successful passage of the National Heritage Act 2002 and has not formed part of the Department for Culture, Media and Sport's administration costs since then.

The actual and forecast cost of support to the Committee, which includes travel and subsistence and expenses for board members, is as follows:

(a) Advisory Committee on Historic Wreck Sites

	£000
2002–03	<1
2003–04	5
2004–05	1
2005–06	1

The other Advisory Committees, Groups and Reviews *(b-k)* form part of the Administration and Research budget of DCMS; they are not recipients of grant in aid. Their administration costs are borne by the DCMS whose staff provide secretariat support, accommodation and legal advice. These costs are centrally budgeted and could be disaggregated only at disproportionate cost. Details of the Department's administration costs are published in the DCMS Annual Report 2004, Vol. 1 (CM 6220). Copies may be obtained from the Library of the House.

Other support to the committees *(b-i)*, which includes travel and subsistence, expenses for board members and publications, did not exceed £100,000 in total in both years 2002–03 and 2003–04. Forecast total budgets for 2004–05 and 2005–06 are not expected to exceed £100,000 in either year.

There was no expenditure relating the Review of the BBC's Digital Television and Radio services *(j-k)* in 2002–03 and 2003–04. The combined budget for these reviews in 2004–05 will not exceed £200,000.

TRANSPORT

Civil Contingencies Bill

Patrick Mercer: To ask the Secretary of State for Transport whether *(a)* port facility security officers and *(b)* airport security officers would be counted as category 2 responders under the Civil Contingencies Bill. [170069]

Mr. Jamieson: The Bill provides that a harbour authority within the meaning of section 46(1) of the Aviation and Maritime Security Act 1990 and an airport operator within the meaning of section 82(1) of the Airports Act 1986 would be considered as category 2 responders. It will be for them to decide on how they carry out their requirements subject to any guidance issued under the provisions of the Bill.

Departmental Officials

Mr. Damian Green: To ask the Secretary of State for Transport how many officials in his Department and associated agencies have initially withheld their salaries from official departmental and parliamentary publications and subsequently disclosed this information in each year since 1997. [172085]

Mr. McNulty: Since the Department was formed in May 2002 there have been no officials who have initially withheld their salaries from official departmental and parliamentary publications and subsequently disclosed this information.

Driving Standards Agency

Mr. Damian Green: To ask the Secretary of State for Transport how many overseas visits have been made by management at the Driving Standards Agency in each year since 1997; and what the total cost of these visits is. [174182]

Mr. Jamieson: In April 2003, the Driving Standards Agency introduced an electronic system for the payment of staff travel and subsistence. This shows that during 2003–04, members of the agency's corporate management team made 28 overseas visits, at a cost of some £30,000.

Before April 2003, travel expense claims were dealt with as paper transactions and it is not possible for the agency to identify the information easily.

Electronic Vehicle Licensing Channels

Mr. Damian Green: To ask the Secretary of State for Transport what assessment he has made of the potential effects on Post Offices of setting up electronic vehicle licensing channels. [174173]

Mr. Jamieson: It is estimated that up to 30 per cent. of the eligible population will migrate from re-licensing at Post Office branches to electronic vehicle licensing channels by 2006–07, with this figure increasing to 35 per cent. by 2010–11. This equates to approximately 13 million fewer relicensing transactions at Post Offices in 2006–07.

Network Rail

Mrs. May: To ask the Secretary of State for Transport (1) what the average period of the maintenance and renewals contracts let by Network Rail is; [173726]

(2) what criteria are used by Network Rail to determine whether maintenance and renewals work should be undertaken in-house; [173727]

(3) how much was spent by Network Rail on maintenance and renewals work *(a)* by external contractors and *(b)* in-house in 2003. [173728]

Mr. Darling: These are operational matters for Network Rail. Details of contracts issued by Network Rail are commercially confidential.

Railways

Mrs. May: To ask the Secretary of State for Transport if he will list the rail projects which have involved the establishment of enhanced Companies (EnCos) since the publication of the Strategic Rail Authority's Strategic Plan. [171402]

Mr. Darling: None, because Enhancement Companies (EnCos) proved to be an unnecessarily complex method of involving the private sector. The preferred method now is by means of Special Purpose Vehicles (SPVs), specially formed to take forward an infrastructure upgrade. A number of SPVs are currently under development, including that for the Chiltern Line upgrade.

Mrs. May: To ask the Secretary of State for Transport what assessment his Department has made of the impact on his target to increase passenger volumes on the railway of the policy adopted by the Government and the Strategic Rail Authority's to thin rail services. [174073]

Mr. Darling: No specific assessment has been made by the Department in this area. However, the SRA's Capacity Utilisation Policy aims to make the best use of capacity on the rail network. In some instances this involves taking lightly used services out of the timetable in order to increase the resilience and reliability of the network and the services that use it. A reliable rail service is a key factor that people consider when deciding whether or not to travel by rail.

Mrs. May: To ask the Secretary of State for Transport what assessment his Department has made of the economic impact of *(a)* regular commuter journeys on the railways and *(b)* long-distance non-commuter journeys. [174078]

Mr. Darling: Advice from the Strategic Rail Authority on the value for money case for investment to enhance passenger rail services includes assessment of the economic impact of the proposal on all rail passengers.

Road Traffic Accidents

Mr. Paul Marsden: To ask the Secretary of State for Transport how many road traffic accidents took place in bus lanes in the last year for which figures are available. [175086]

Mr. Jamieson: The following table shows the numbers of accidents that took place in bus lanes in 2002, the latest year for which data are available.

	Number
Fatal	6
Serious	142
Slight	864
Total	1,012

Speed Cameras

Mr. Damian Green: To ask the Secretary of State for Transport how many legacy cameras have been removed in each year since 2001. [171922]

Mr. Jamieson: Safety Camera Partnerships are asked to review their sites on a regular basis and will take decisions on which sites should be taken out of operation on either a temporary or permanent basis.

PRIME MINISTER

Appointments

Mr. Michael Jabez Foster: To ask the Prime Minister if he will make an announcement about the re-appointment of His Honour Viscount Colville of Culross QC, His Honour Colin Kolbert and His Honour John Jeremy Fordham as assistant surveillance commissioners, under section 63 of the Regulation of Investigatory Powers Act 2000. [175341]

The Prime Minister: In accordance with Section 63 of the Regulation of Investigatory Powers Act 2000, I have agreed to re-appoint His Honour Viscount Colville of Culross QC, His Honour Colin Kolbert and His Honour John Jeremy Fordham as Assistant Surveillance Commissioners from 1 May 2004 until 30 April 2007 to assist the Chief Surveillance Commissioner in his duties. The remit of each Assistant Surveillance Commissioner covers the whole of the United Kingdom so that any Assistant Surveillance Commissioner can act in jurisdictions other than his or her own.

His Honour Viscount Colville of Culross QC, His Honour Colin Kolbert and His Honour John Jeremy Fordham have served as Assistant Surveillance Commissioners since 1 May 2001.

Assistant Surveillance Commissioners are appointed under Section 63 of the Regulation of Investigatory Powers Act 2000. Since the authorisation of intrusive surveillance operations forms a key component of the Government's response to serious and organised crime, I attach considerable importance to these appointments, and I am delighted that they have accepted their re-appointment. In conjunction with Sir Andrew Leggatt, their substantial judicial experience, particularly of the criminal justice system, will provide independent oversight of surveillance operations, which although operationally important, must also be subject to stringent safeguards.

Climate Change

Mr. Chaytor: To ask the Prime Minister (1) if he will use the British Presidency of the UN Security Council in October to ensure that the Security Council has a detailed discussion on climate change as a global security issue, using the full diplomatic resources of the UK to increase the urgency and effectiveness of global action to combat dangerous climate change; and if he will make a statement; [173306]

(2) if he will make it his policy to include global climate change on the agenda of the next Commonwealth Heads of Government meeting in 2005, in Malta; [173307]

(3) if he will make it his policy to include climate change on the agenda for the British Presidency of the EU in 2005. [173311]

The Prime Minister: As I said in my speech at the launch of the Climate Group on 27 April, climate change is the most important long-term challenge the world faces. We will therefore pursue every opportunity to raise this issue with other nations through the UN Framework Convention on Climate Change process, during the UK Presidency of the EU and in other fora where this can help to further effective international action on climate change.

TRADE AND INDUSTRY

Correspondence

Sir Michael Spicer: To ask the Secretary of State for Trade and Industry when the hon. Member for West Worcestershire will receive a response to his letter of 31 March. [174746]

Ms Hewitt: My right hon. Friend the Minister for Industry and the Regions and Deputy Minister for Women and Equality replied on 13 May 2004.

End of Life Vehicles Directive

Mr. Luff: To ask the Secretary of State for Trade and Industry if she will make a statement on the progress of the consultation on the implementation of the End of Life Vehicles Directive. [174407]

Mr. Timms: Public consultation on the draft End-of-Life Vehicles (Producer Responsibility) Regulations 2004, to transpose the remaining provisions (Articles 5 and 7) of the End-of-Life Vehicles Directive, closed on 30 March. 65 responses were received and are being assessed. The Regulations will be presented to Parliament shortly.

Exports (Gambia)

Angus Robertson: To ask the Secretary of State for Trade and Industry what assessment her Department has made of the number and types of UK companies *(a)* exporting goods to, *(b)* exporting services to and *(c)* investing capital in The Gambia since 1997; and if she will make a statement. [173441]

Mr. Mike O'Brien: The total number of UK companies exporting goods, services and investing capital in The Gambia since 1997 is difficult to determine because of the poor records held and maintained by the Gambian authorities, including the Registrar General of Companies, the Department for Trade, Customs and Excise and the Gambian Chamber of Commerce and Industry. Nevertheless, from enquiries made by and records held at the British High Commission in Banjul, the number of known such companies is 29. However, UK companies are not required to notify the High Commission or UK Trade and Investment that they are doing business in or with The Gambia, and consequently the list cannot be considered to be exhaustive or complete. The majority on the list are small companies operating in the service industry but also include multinationals such as British American Tobacco and Shell. Furthermore, many UK individuals, as opposed to companies, have businesses in The Gambia such as bars and restaurants.

An indication of the volume of trade between the UK and The Gambia is shown in the following import/export statistics:

£ million

	UK export	*UK import*
1997	19.2	3.1
1998	14.4	2.9
1999	16.7	2.8
2000	14.4	3.5
2001	18.5	7.7
2002	16.4	4.0
2003	18.96	2.77

Identity Theft

Brian White: To ask the Secretary of State for Trade and Industry what steps the Post Office is taking to minimise identity thefts within its areas of responsibility. [173054]

Mr. Timms: Royal Mail has a duty under condition 8 of its licence issued by the postal services regulator Postcomm to protect the integrity of mail. Security issues are taken very seriously and Royal Mail's security team is dedicated to maintaining standards through specific procedures, practices and investigations. To divulge the details of these security activities would inevitably compromise their effectiveness.

Oil Reserves

Dr. Cable: To ask the Secretary of State for Trade and Industry what the current strategic reserve of *(a)* crude oil and *(b)* oil products is in the UK. [174108]

Mr. Timms: The UK does not have a strategic reserve. It meets its international stocking obligations by imposing compulsory oil stocking obligations on commercial companies. These amount to 67½ days of average daily consumption for refiners and 48½ days of average daily consumption for non-refiners. As at the end of February 2004, the UK held stocks of crude oil and petroleum products equivalent to almost 76 days of average daily consumption.

Dr. Cable: To ask the Secretary of State for Trade and Industry if she will make a statement on the current position on UK stocks of *(a)* crude oil and *(b)* main oil products in relation to average daily consumption. [174111]

Mr. Timms: As at the end of February 2004, the UK held stocks of crude oil and petroleum products equivalent to almost 76 days of average daily consumption. This is some eight days in excess of our EU stockholding obligations of 67½ days worth of average daily consumption.

UK Trade and Investment

Mr. McNamara: To ask the Secretary of State for Trade and Industry what commercial training or experience is required for each grade of staff of UK Trade and Investment. [172113]

Mr. Mike O'Brien *[holding answer 13 May 2004]:* Commercial training or experience is not a specific requirement for UK Trade and Investment staff prior to recruitment. However, the organisation is committed to offering its staff a career structure in which continuous training and development opportunities are offered to enhance professionalism. All staff undertake induction courses and relevant training to enable them to meet business objectives.

UK Trade and Investment's international trade advisers (based in Business Links) and locally engaged staff overseas also undertake associated commercial training to gain the knowledge and skills relevant to their role. Many international trade advisers and locally engaged staff have practical business experience. Staff are encouraged to take advantage of opportunities to work in the private sector and in our commercial posts overseas. Those within the organisation who are from the public sector also benefit from the knowledge, skills and expertise of the private sector business experts working alongside them.

VAT Registrations

Albert Owen: To ask the Secretary of State for Trade and Industry how many registered businesses were registered for VAT in *(a)* the UK, *(b)* Wales, *(c)* Scotland, *(d)* Northern Ireland and *(e)* England in each year since 1996–97. [174067]

Nigel Griffiths: Barclays Bank's latest survey of business creation includes non-VAT registered firms and shows that there were 115,000 business start-ups in England and Wales in the last quarter of 2003. The latest yearly figures show 465,000 business start-ups in England and Wales in 2003. This represents a 19 per cent. increase on the year before.

The following table records Barclays business creation data for England and Wales in each year since 1996:

	Business start-ups
1996	406,000
1997	415,700
1998	412,200
1999	374,400
2000	356,400
2001	324,800
2002	390,700
2003	465,100

Source:
Barclays Small Business Survey.

The stock of businesses registered for VAT in the UK, Wales, Scotland, Northern Ireland and England at the start of each year 1996–2003, are as follows:

Stocks	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
UK	1,629,165	1,645,540	1,681,335	1,715,395	1,736,360	1,754,915	1,762,355	1,762,110
England	1,377,300	1,393,070	1,426,265	1,458,720	1,479,900	1,498,425	1,505,575	1,505,495
Wales	77,545	77,170	77,390	77,345	76,905	76,955	76,990	76,310
Scotland	120,225	120,670	122,260	123,355	123,565	123,800	123,980	124,200
Northern Ireland	54,090	54,635	55,420	55,980	55,990	55,735	55,810	56,100

Source:
Business Start-ups and Closures: VAT Stocks 1994–2002, Small Business Service, available from www.sbs.gov.uk/statistics/vatstats.php

VAT stocks do not capture all business activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has risen in each year since 1997. Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 3.8 million enterprises were registered for VAT at the start of 2002.

Wind Turbines

Mr. Heathcoat-Amory: To ask the Secretary of State for Trade and Industry what assessment has been made of the effect on bird life of additional wind turbines under construction and planned. [174405]

Mr. Timms: Over the years, there have been a large number of studies carried out in the UK of the impact of wind farms on wildlife and in particular birds. Those studies suggest that there is a small risk of bird strikes from the operation of wind turbines, as long as they are properly sited.

Work related to the study of birds is continuing, with DTI funded studies being carried out by the RSPB (Royal Society for the Protection of Birds) and JNCC (Joint Nature Conservation Committee) to look at the distribution and main flight paths of seabirds including migratory, feeding/roosting patterns and their behavioural response to wind farms.

In addition, no wind farm development can be undertaken without securing the necessary permissions and consents under the normal planning regime or Section 36 of the Electricity Act 1989. This process places a requirement on developers to consider all environmental aspects of a project, including any effects a particular development may have on the bird life in that location, and produce an Environmental Impact Assessment. These assessments are available to the public.

INTERNATIONAL DEVELOPMENT

Aid (Africa)

Angus Robertson: To ask the Secretary of State for International Development how much *(a)* financial aid and *(b)* aid in kind his Department has delivered to (i) Africa, (ii) Central Africa, (iii) Uganda, (iv) Rwanda, (v) Burundi and (vi) the Democratic Republic of Congo in each year since 1997; and if he will make a statement. [173812]

Hilary Benn: The amount of bilateral development assistance DFID has given to Africa and the other specified region/countries is given in the following table. Financial aid (excluding the Aid and Trade Provision) comprises all expenditure in columns 1 and 2, and Aid in Kind forms part of the expenditure in column 5.

£000

Note:
Comprises expenditure for Angola, Burundi, DRC, Entrea and Somalia,

The Government's total aid budget has doubled since 1997–98—from £2 billion to £4 billion. As the table shows, assistance to Africa has more than doubled. In the current (2004–05) financial year my Department's bilateral programme in Africa stands at £864 million and in 2005–06 we plan to spend £1.1 billion. These figures demonstrate our real and growing commitment to Africa. But it is not only the quantity of assistance that matters; quality too is vital. In order to improve the quality of aid and hence its impact we are working increasingly closely with other donors to reduce the number of individual and uncoordinated initiatives, and to ensure we use our aid to strengthen—not undermine—national planning and implementation capacity.

Departmental Projects

Mr. Bercow: To ask the Secretary of State for International Development if he will list the Department's high-risk bilateral projects, referred to on page 189 of the 2004 Departmental Report, which are evaluated as *(a)* successful and *(b)* unsuccessful.
[174113]

Hilary Benn: The high-risk projects referred to on page 189 of DFID's Departmental Report are listed on the tables below. Each DFID project is given a score ranging from 1 to 5 based on the likelihood of achieving their intended objectives. Table *(a)* relates to projects scored 1 and 2, table *(b)* relates to projects scored 3 to 5.

We judge projects receiving a score of 1 or 2 to be successful. Projects receiving a lower score will have achieved some of their objectives

Table A
All high risk projects with a commitment value of £ million or over evaluated as successful during 2003

£

Mr. Bercow: To ask the Secretary of State for International Development when he will publish his assessment of the reasons for the decline referred to on page 190 of the 2004 Departmental Report on the number of low-risk departmental projects evaluated as successful. [174118]

Hilary Benn: The number of low risk projects judged as likely to be successful was reported as 75 per cent. in DFID's Departmental Report, against a baseline of 81 per cent. This increased to 78 per cent. in the first quarter figures for 2004.

The figure gives a forecast of success for projects of £1 million or more that have been in operation for at least two years. It fluctuates on a quarterly basis because it is recording work in progress and is a 12-month snapshot view on a particular date reflecting those projects that meet the above criteria. The decline was caused by a small number of successful projects ending and therefore graduating from the scoring system.

We will continue to report both the underlying data, and our assessment of it, in our Autumn Performance Report and in the annual Departmental Report.

Efficiency Reviews

Mr. Bercow: To ask the Secretary of State for International Development when he will publish the outcome of the rolling programme of efficiency reviews referred to on page 190 of the Departmental Report 2004. [174112]

Hilary Benn: In addition to the information in DFID's Departmental Report, DFID will make a report covering all aspects of DFID's efficiency programmes available on our public website in the autumn. This will incorporate plans under development in response to the Government's Efficiency Review.

Electronic Applications

Mr. Bercow: To ask the Secretary of State for International Development for what reasons the Service Delivery Agreement target to provide 100 per cent. capacity to receive and process electronic applications from UK offices by 2003 has not been met. [174139]

Mr. Gareth Thomas: As indicated in Annex 3 of DFID's 2004 Departmental Report, the introduction of a Human Resource (HR) Integrated Management System in DFID has initially focused on the payroll and data base elements. Now that these modules have been successfully introduced complimentary e-recruitment systems will be considered and introduced in 2004. The facility to receive full details of vacancies and return application forms on line already exists through the civil service recruitment gateway and DFID websites.

Iraq

Llew Smith: To ask the Secretary of State for International Development what assessment he has made of the trauma caused to children in Iraq from *(a)* the coalition invasion and *(b)* the continuing violence; and what assistance his Department is providing to mitigate trauma in Iraqi children. [174374]

Hilary Benn: DFID's support for the health sector in Iraq, including psychosocial support, is being channelled through the multi-donor Trust Fund managed by the United Nations. The work of the UN in this area will focus on the provision of technical assistance for the development of mental health and psychosocial support services at the primary level. DFID has made an initial contribution of £30 million to the UN Trust Fund.

DFID has not undertaken an assessment of the levels of trauma suffered by children in Iraq, but such an evaluation is planned by the UN as part of the World Health Organisation's mental health plans.

Trade Negotiations

Mr. Bercow: To ask the Secretary of State for International Development when he will publish the evidence base referred to on page 189 of the 2004 Departmental Report that aims to underpin pro-poor UK/EU trade negotiating positions. [174114]

Hilary Benn: The evidence based referred to is not a single document but includes the numerous pieces of research already published, commissioned or in the pipeline. DFID is putting together a research matrix detailing issue specific research projects funded by the Department to inform the development of pro-poor trade policies, and I will write to the hon. Gentleman very shortly with more details.

Yemen

Keith Vaz: To ask the Secretary of State for International Development how much aid was given to Yemen in each of the last five years; and what plans he has to increase such aid. [R] [173746]

Hilary Benn: Total aid from all donors to Yemen in each of the last five years for which OECD DAC figures are available was:

$ million

	Amount
1998	370
1999	458
2000	265
2001	461
2002	584

DFID has provided the following aid to Yemen in each of the last five financial years:

£ million

Financial year	*Amount*
1999–2000	1.49
2000–01	2.73
2001–02	2.58
2002–03	5.44
2003–04	[1]6.55

[1] Estimate

The amount for 2000–01 includes a one off payment of £1.52 million for pensions, and for 2002–03 a one off payment of £3.16 million for Paris Club debt relief.

DFID's share of European Community (EC) spending in Yemen from 1997–2001 was around £7 million; we have also contributed through the World Bank and the United Nations (UN).

The aid framework for DFID's programme in Yemen is increasing to £5.9 million for 2004–05 and £9.9 million for 2005–06. I will be considering allocations for future years in the light of the Government's Spending Review later this year, and progress with the Yemeni Government's use of our existing aid. The UK is also arguing for an increase in EC spending in Yemen, as the only low income country in the region.

HOME DEPARTMENT

Emergency Services' Communication Systems

Mr. Clifton-Brown: To ask the Secretary of State for the Home Department how far advanced Government plans are to ensure that police, ambulance and fire services communications systems are able to be used underground. [174679]

Ms Blears: The fire service and the British Transport Police already have radio communication facilities in the London Underground. Work commissioned by the Home Office has confirmed the feasibility of extending the new Airwave radio system to the London Underground. The implementation phase is currently under discussion. The new underground system is scoped to accommodate police, ambulance and fire requirements.

Speed Cameras

Mrs. May: To ask the Secretary of State for the Home Department how much money was raised from speed cameras located at motorway construction and repair sites during 2002–03. [169940]

Caroline Flint: Information on the amount of revenue generated by speed cameras or camera location is not collected centrally.

Mr. Hancock: To ask the Secretary of State for the Home Department what recent representations he has received from *(a)* police authorities, *(b)* fire and rescue authorities and *(c)* health service trusts concerning the administrative costs of dealing with the paperwork generated by the contravention by their vehicles on emergency calls of speed limits captured on speed cameras. [173809]

Caroline Flint: None.

We are, however, aware of the difficulties which may arise. Home Office officials have already had very useful discussions with the Department of Health and the Association of Chief Police Officers (ACPO) with the aim of minimising the level of bureaucracy involved.

Animal Research

Mr. Djanogly: To ask the Secretary of State for the Home Department what information his Department collects on assaults on those working in animal research during the course of their work. [170857]

Caroline Flint: It is not possible from the information collected centrally by the Home Office to identify whether a victim of crime works in animal research. However, from regular discussions from the police and industry, we are aware that one individual who works in animal research was physically assaulted in 2001. The Government are working closely with the police and other criminal justice agencies to ensure a proper response to harassment of people working in this area.

Animal Rights Protesters

Mr. Djanogly: To ask the Secretary of State for the Home Department what plans he has to meet the members of Victims of Animal Rights Extremism. [172623]

Caroline Flint: I have not been invited to meet members of the Victims of Animal Rights Extremism, but I would be happy to meet them to discuss their concerns.

Mr. Djanogly: To ask the Secretary of State for the Home Department what plans there are to establish a specific police unit for dealing with criminal activity connected to animal rights protesters. [172624]

Caroline Flint: The Home Office is funding a new unit which has recently been set up to provide a tactical coordinating role for the policing of extremist protests.

Mr. Djanogly: To ask the Secretary of State for the Home Department (1) how many *(a)* arrests and *(b)* convictions there have been for criminal activity connected to animal rights protesters in each year since 1999; [172636]

(2) how many animal rights protesters who have been convicted of criminal activity have been given a custodial sentence in each year since 1999. [172641]

Caroline Flint: It is not possible from the information collected centrally by the Home Office to identify whether a defendant is an animal rights protestor. However, we understand from the police that there were 117 arrests of animal rights activists during the first four months of 2004 compared with 15 arrests during the same period in 2003. The Home Office is working with the police and other agencies to improve availability of information in this area.

Mr. Djanogly: To ask the Secretary of State for the Home Department if he will list visits made by each Minister in the Department to animal rights groups since 1997. [172640]

Caroline Flint: Home Office Ministers have not made any visits to extremist groups involved in the harassment and intimidation of individuals or companies licensed under the Animals (Scientific Procedures) Act 1986.

Home Office Ministers are, however, willing to meet groups prepared to engage in reasoned debate and discussion about the use of animals in scientific procedures, whatever their point of view, provided they do not support extremist activity. Ministers have, therefore, met groups involved with the protection of animals, such as the RSPCA, as well as groups opposed to animal experimentation, such as the British Union for the Abolition of Vivisection, the National Anti-Vivisection Society, People for the Ethical Treatment of Animals, Uncaged Campaigns, Animal Aid and Naturewatch, and organisations seeking humane alternatives to animal experiments, such as the Fund for the Replacement of Animals in Medical Experiments.

Similarly, Ministers have met a wide variety of industry and science groups with an interest in the use of animals in scientific procedures, including Amicus MSF, the Association of the British Pharmaceutical Industry, the Association of Medical Research Charities, the BioIndustry Association, the BioSciences Federation, the Biotechnology and Biological Sciences Research Council, the Institute of Animal Technicians, the Japanese Pharmaceutical Group, the Laboratory Animals Breeders Association, the Laboratory Animals Science Association, the Laboratory Animals Veterinary Association, the Medical Research Council and the Research Defence Society.

Mr. Djanogly: To ask the Secretary of State for the Home Department (1) what plans there are to make *(a)* harassment, *(b)* intimidation and *(c)* terrorism against companies, or conspiracy to carry out these acts, specific offences; [172642]

(2) what plans there are to change the law relating to harassment, with particular reference to harassment by animal rights protesters. [172643]

Caroline Flint: It is a key part of the Government's strategy in tackling animal rights extremism to identify new legislative powers where needed. Police must have the right powers to do the job, but legislation needs to be accompanied by robust enforcement.

There is a range of legislation currently available to deal with extremism. We recently made changes to strengthen police powers to deal with intimidatory protests and office occupations in Anti Social Behaviour Act.

We are looking carefully at what further changes might be made to strengthen police powers to deal with protests outside someone's home and protecting companies from harassment.

Mr. Djanogly: To ask the Secretary of State for the Home Department what plans there are to provide funds for the protection of businesses targeted by animal rights protesters. [172644]

Caroline Flint: The Home Office has provided the police with additional funding to assist with additional costs arising from animal rights protests. The Home Office is also funding a new unit to co-ordinate the tactical response to extremism.

Burglary

Simon Hughes: To ask the Secretary of State for the Home Department how many burglaries per 1,000 households there have been in the Metropolitan Police Authority area in each year since 1999; and what the detection rate each year was for domestic burglaries. [170491]

Ms Blears: The available information is given in the table:

Recorded offences of burglary in a dwelling in the Metropolitan Police District

	Number of burglaries per 1,000 households	*Detection rate (%)*
1999–2000	28.6	9.4
2000–01	25.2	9.9
2001–02	26.6	9.3
2002–03	24.0	14.8

Note:
Figures for 2002–03 will have been affected by the introduction of the National Crime Recording Standard on 1 April 2002.

CCTV

Mr. Gordon Marsden: To ask the Secretary of State for the Home Department how much public funding has been spent on CCTV cameras in Blackpool, South since 1997. [173062]

Caroline Flint: Since 1997, the Home Office has provided £737,350 to Blackpool for CCTV schemes.

Allocation of that funding locally, is a matter for Blackpool Borough Council and Lancashire Constabulary. The information is not held centrally.

Counter-terrorism

Llew Smith: To ask the Secretary of State for the Home Department what role officials from *(a)* his Department, *(b)* the Home Security Services and *(c)* members of the Joint Terrorism Control Unit played in the simulation exercise to counter nuclear-armed terrorists carried out at the NATO headquarters

on 4 May; and what assessment he has made of its applicability to situations in the United Kingdom. [172313]

Mr. MacShane: I have been asked to reply.

Officials from the Cabinet Office represented the UK Government at a seminar hosted by the Center for Strategic and International Studies in Brussels on 3 May. In total, over 55 officials and experts from 15 countries and half a dozen international bodies were present at the event.

The seminar addressed issues associated with the terrorist use of weapons of mass destruction in Europe, and focussed on the means by which terrorists might be prevented from acquiring and using such weapons.

The Government already has an extensive programme to develop our ability to manage threats posed by terrorism. This includes regularly-reviewed preparations to deal with the consequences of a Chemical/Biological/Radiological/Nuclear (CBRN) attack. The Government also takes seriously the threat posed by poorly secured CBRN material, and has worked with others to improve security in countries holding such material.

Crime (Manchester)

Tony Lloyd: To ask the Secretary of State for the Home Department what the percentage change in *(a)* overall recorded crime, *(b)* recorded violent crime, *(c)* burglaries and *(d)* vehicle thefts in Manchester, Central has been since 1997. [174277]

Ms Blears: The information requested is not available centrally.

Manchester, Central is a Crime and Disorder Reduction Partnership (CDRP) area. Data at CDRP level has only been published from 1999–2000 onwards. Detailed statistics at CDRP level are available for 2002–03 on the new Home Office website: http://www.crimestatistics.org.uk

Mr. Stringer: To ask the Secretary of State for the Home Department what the percentage change in *(a)* overall recorded crime, *(b)* recorded violent crime, *(c)* burglaries and *(d)* vehicle thefts in Manchester, Blackley has been since 1997. [172891]

Ms Blears: The information requested is not available centrally.

Blackley comes within the Crime and Disorder Reduction Partnership's (CDRP) in the Greater Manchester area. Data at CDRP level has only been published from 1999–2000 onwards. Detailed statistics at CDRP level are available for 2002–03 on the new Home Office website: http://www.crimestatistics.org.uk

Crime Statistics

Mr. Wyatt: To ask the Secretary of State for the Home Department what the percentage change in *(a)* overall recorded crime, *(b)* recorded violent crime, *(c)* burglaries and *(d)* vehicle thefts in Sittingbourne and Sheppey has been since 1997. [170288]

Ms Blears: The information requested is not available centrally.

Sittingbourne and Sheppey lies within the Swale Crime and Disorder Reduction Partnership (CDRP) area. Data at CDRP level has only been published from 1999–2000 onwards. Detailed statistics at CDRP level are available for 2002–03 on the new Home Office website: http://www.crimestatistics.org.uk

Cyclists

Mr. Redwood: To ask the Secretary of State for the Home Department what advice the Government offers *(a)* the police and *(b)* transport authorities about cyclists cycling on pavements. [165964]

Caroline Flint: Chief officers of police are best placed to assess the nature and cause of cycling offences locally.

To help the police with enforcement we have made it possible for Community Support Officers (CSOs) appointed under the Police Reform Act 2002 to issue £30 fixed penalty notices for cycling inconsiderately or irresponsibly on pavements.

The cycling infrastructure and environment are currently under improvement as a result of our National Cycling Strategy. We expect this improvement to reduce the incentive to cycle on the pavement.

Dangerous Driving

Tim Loughton: To ask the Secretary of State for the Home Department what plans he has to require drivers to display *(a)* insurance and *(b)* MOT documentation on their car windscreens; and if he will make a statement. [169069]

Caroline Flint: We have no current plans to require drivers to display insurance or MOT documentation.

Driving without insurance or MOT are, however, serious offences and we are determined that they should be tackled effectively.

We appointed Professor David Greenaway of the University of Nottingham to carry out an independent review of motor insurance arrangements in the UK and to advise on how to improve its effectiveness and reduce uninsured driving. Professor Greenaway has just presented his report and we shall be studying it carefully with a view to appropriate action as soon as possible.

The Vehicle and Operator Services Agency are intending to establish in 2004–05 an MOT database. This will enable the police to query MOT status details immediately from the roadside and make enforcement easier.

Diesel Spillages

Vera Baird: To ask the Secretary of State for the Home Department how many drivers of diesel vehicles have been prosecuted for overfilling fuel tanks not fitted with non-spill fuel caps, which then caused dangerous diesel spillages, in each of the past three years. [168626]

Caroline Flint: Available information held centrally on prosecutions does not include the circumstances of the offence so that offences involving fuel spillages cannot be distinguished from other offences within the Road Vehicles (Construction and Use) Regulations 1986 group of offences.

Driving Licences

Mr. Gibb: To ask the Secretary of State for the Home Department pursuant to his answers of 4 May 2004, *Official Report*, column 1398W, and 12 May 2004, *Official Report*, columns 351–52W, on driving licences, if he will obtain from the Driving and Vehicle Licensing Agency an estimate of the number of people who have five points or more on their driving licence. [173995]

Caroline Flint: I understand from DVLA that such an estimate could be obtained only at disproportionate cost.

Mr. Gibb: To ask the Secretary of State for the Home Department pursuant to his answer of 10 May, reference 169445, how many people lost their driving licence under section 35 of the Road Traffic Offenders Act 1988 (penalty points system) in each year since 1990. [174120]

Caroline Flint: Information, taken from the Home Office Court Proceedings Database, is given in the table.

Number of persons disqualified[1] under section 35 of the Road Traffic Offenders Act 1988 (penalty points system) by type of court, England and Wales, 1990–2002

	Type of court		
	Magistrates court	Crown court	Total all courts
1990	33,017	275	33,292
1991	26,705	146	26,851
1992	29,194	121	29,315
1993	31,824	43	31,867
1994	33,128	21	33,149
1995	31,652	262	31,914
1996	31,006	427	31,433
1997	30,939	181	31,120
1998	23,695	170	23,865
1999	34,146	64	34,210
2000	33,497	57	33,554
2001	30,004	75	30,079
2002	30,336	162	30,498

[1] The Home Office Court Proceedings Database does not identify the individual offence under which the disqualification on reaching 12 points within three years was ordered by the courts.

Drug Testing

Mrs. Gillan: To ask the Secretary of State for the Home Department pursuant to his statement of 14 January 2004, *Official Report*, column 279WH, on drug testing, which organisation trained the Drug Action Team (DAT) nominated trainers; what the cost was to the Home Office; what the lengths and the dates were of the training courses which the DAT nominated trainers undertook; who accredited the courses; for how many companies the DAT nominated trainers have helped to write drug policies; how the trainers have advertised their availability to train companies; what budget has been allocated to this advertising; and how the Home Office is evaluating the effectiveness of the new DAT nominated trainers. [161186]

Caroline Flint: 188 nominated Drug Action Team (DAT) business trainers from 149 DATS have been trained by an independent training company chosen by the Home Office Business Engagement Team and Hertfordshire DAT. In total, 15 training days took place across the country and the overall cost of training, plus the production of a 'Drugs in the Workplace Training Pack' has been approximately £270,000. This came from confiscated asset fund monies that were successfully bid by Kent and Hertfordshire DAT. The training courses so far have not been accredited but plans are being considered for the training to be accredited by the accrediting body City and Guilds.

In total 74 workplace policies have been introduced into companies by DAT business trainers. The way the DAT business trainers have advertised their service varies from DAT to DAT and region to region. As a first approach, DAT business trainers are encouraged to use their network and approach safety critical companies in their area. Other ways of targeting include direct marketing and organising business breakfasts, lunches and seminars to highlight to employers the importance of a drug and alcohol workplace policy. To date there has not been a budget allocated to DATs to promote the workplace policy service however, for those DATs that need additional funding there are a number of funding programmes that Government Office Drugs Teams facilitate. The Home Office as part of Phase 3 (March-December 2004) of the National Workplace Initiative plans to evaluate each of the 74 companies workplace policies. This evaluation will in principle be qualitative and focused on improving services and understanding the usefulness of the policy in the workplace. After this, evaluations at a local level will be down to each DAT.

Heroin

Mr. Clapham: To ask the Secretary of State for the Home Department what assessment he has made of the impact on the UK heroin market of changes in poppy production in Afghanistan over the past two years; and if he will make a statement. [168724]

Caroline Flint: According to the annual UN surveys the poppy crops in Afghanistan in 2002 and 2003 were 74,000 and 80,000 hectares. The change does not appear to have had any appreciable effect on the market in the UK.

Emergency Services (Insurance Cover)

Vera Baird: To ask the Secretary of State for the Home Department what insurance cover is provided, and by whom, for members of the emergency services who are called out to terrorist incidents. [173514]

Ms Blears *[holding answer 18 May 2004]:* Emergency service employers make provision for their employees and their dependants in the event of death or injury on duty. The details of such provision are a matter for employers.

Firearms

Mr. Salter: To ask the Secretary of State for the Home Department pursuant to the answer of 22 March 2004, *Official Report*, column 531W, on firearms legislation, when his Department intends to publish the review of firearms legislation. [170093]

Caroline Flint: The consultation paper was published on 12 May.

Internet Auction Sites

Sue Doughty: To ask the Secretary of State for the Home Department whether the National Hi Tech Crime Unit will investigate cases of fraud associated with internet auction sites. [166356]

Caroline Flint: The National Hi Tech Crime Unit (NHTCU) investigates serious and organised computer-enabled criminality at national and international levels within or which impacts upon the UK. Individual cases of fraud associated with internet auction sites do not fall within their remit, and such investigations remain the responsibility of local police forces.

Mobile Phones

Mr. Amess: To ask the Secretary of State for the Home Department what change he has made in the police grant to take account of the enforcement of the ban on using mobile phones while driving. [173557]

Ms Blears: No additional government grant has been made available specifically for this policing activity, which is less demanding on police resources than previous arrangements.

We have put significant extra resources into the police service in England and Wales over the last few years. Since 2000–01 total provision for policing to be supported by grant or spent centrally on services for the police has risen by over 30 per cent. or £2.3 billion.

North London Mosque

Mr. Dismore: To ask the Secretary of State for the Home Department what the cost has been of policing the meetings outside the North London Mosque on Fridays *(a)* on average per meeting and *(b)* in total. [169780]

Ms Blears: The Commissioner of Police for the Metropolis informs me that in general no additional policing costs have been incurred in routine policing of the meetings. The officers used to police the meetings have been drawn from non-operational staff in police support roles. This approach has ensured that there has been no reduction in the number of officers on Response Teams.

On a few occasions, demonstrations opposed to the meetings have required additional police resources. The Metropolitan Police Authority would be expected to meet any extra costs from its £2.3 billion budget.

Mr. Dismore: To ask the Secretary of State for the Home Department what assessment he has made of whether the Friday meetings outside the North London mosque are *(a)* political demonstrations and *(b)* religious services; and if he will make a statement. [169792]

Caroline Flint: The Commissioner of Police for the Metropolis tells me that prayers take place during the Friday meetings outside the North London mosque and it is policed accordingly.

Police National Computer

Mr. Drew: To ask the Secretary of State for the Home Department what the target time period is for entering records on the police national computer in relation to *(a)* arrests and summonses and *(b)* outcome of court proceedings. [173776]

Ms Blears: At present, police forces in England and Wales operate to standards set by the Association of Chief Police Officers, as follows:

arrest/summons reports—90 per cent. within 24 hours of the event.

court results—100 per cent. within 72 hours of receipt from the courts.

Performance standards have been under review, and a code of practice under the Police Reform Act 2002 has been drafted and circulated for comments. The final code will be published in the near future.

Policing (North Wales)

Albert Owen: To ask the Secretary of State for the Home Department how many community support officers are operating in the North Wales police force. [174066]

Ms Blears: On 30 April 2004, eight Community Support Officers were employed by North Wales Police.

Positive Futures Initiative

Charles Hendry: To ask the Secretary of State for the Home Department what assessment has been made of the effectiveness of the Positive Futures initiative in *(a)* reducing the number of young people not in education, employment or training and *(b)* reducing substance misuse among participants. [172825]

Caroline Flint: Positive Futures has an ongoing national monitoring and evaluation strategy that aims to identify and establish the value that both the national programme and individual projects have for participants and the communities in which they live.

(a) Reducing the number of young people not in education, employment or training.

Approximately 20,000 young people are engaged with the 107 projects at present. Of these, in the previous six months:

over 2,400 have made some kind of educational achievement (e.g. returned to education, doing better in school, improved school attendance);

nearly 600 have secured a job or are now looking for a job[1];

over 1,500 project participants have achieved some form of training or award (e.g. sports/leadership awards, Duke of Edinburgh, drugs education)[2].

Source:

[1] MORI (figures from a minimum base of 83 projects)

[2] MORI

(b) Reducing substance misuse among participants.

As a sport and activity based social inclusion programme, Positive Futures creates opportunities to address the multiple issues associated with problematic substance misuse. It is targeted at marginalised young people in the 10–19 age range living in the most deprived communities, who are at increased risk of involvement in problem drug use and crime.

Substance misuse prevention work offered by Positive Futures projects includes:

drop-in surgeries, often with specialist advisors on hand;

one-to-one sessions;

leaflets/literature;

informal advice through sport, e.g. staff will adapt sessions to focus on fitness and healthy lifestyles. This creates opportunities to address drugs and alcohol issues.

During March 2004 around 200 front-line Positive Futures staff across the country received comprehensive substance misuse training as part of the programme's Workforce Quality Initiative.

Charles Hendry: To ask the Secretary of State for the Home Department what the cost of the Positive Futures initiative has been in each year since its launch. [172826]

Caroline Flint: The table shows the total amount of government funding allocated by the Positive Futures programme to local projects for each financial year, since its launch in 2000.

Financial year	*Total government funded project grants (£)*
2000–01	545,000
2001–02	2,915,000
2002–03	2,295,000
2003–04	6,085,000
2004–05	5,200,000

Notes:

1. For 2000 and 2003 the figures include funds from the Home Office, Sport England, the Communities Against Drugs fund and the Recovered Assets Fund. From 2003–04 onwards the Home Office funded the total cost of project grants.
2. 2000 to 2003—these figures have been approximated to financial years as Sport England originally allocated funding in variable 'project years'.
3. From 2003–04 onwards there was:
An extension of the programme to include 17 to 19-year-olds, with a focus on links to education, training and employment.
Additional funding to projects in the top 30 high crime Basic Command Unit areas (BCU).
4. From 2004–05 onwards there was a reduction in the core grant to established projects from 100 per cent. to 60 per cent. while support was given to identifying and negotiating gap funding. The programme has secured support from a range of local and national organisations, including £1 million per annum from the Football Foundation for new projects. Local projects have individually secured additional partnership funding ranging from £10,000 to £150,000.
5. In addition to the project grant costs shown in the table, the programme also incurs some central costs associated principally with monitoring and evaluation, communications and the training and development of project staff. Estimates of these costs are not available for all the years shown in the table. However, for 2004–05 the total central costs are expected to be approximately £0.5 million.

Charles Hendry: To ask the Secretary of State for the Home Department how much funding has been provided to voluntary youth organisations through the Positive Futures initiative in each year since its launch. [172827]

Caroline Flint: Records held about Positive Futures projects classify their lead delivery agency as either statutory or non-statutory. 55 per cent. of 107 Positive Futures projects currently operating have a non-statutory lead delivery agency.

The table shows the amount of government funding that has been allocated to non-statutory agencies for Positive Futures projects since the programme began in 2000.

	Funding (£)
2000 to 2003[1]	2,350,000
2003–04	965,000
2004–05	2,565,000

[1] Figures for 2000 to 2003 have been amalgamated because during this period Sport England allocated funding in variable 'project years'.

Sexual Offences

Sandra Gidley: To ask the Secretary of State for the Home Department what plans he has to repeat the Spiked initiative. [171026]

Caroline Flint: The Spiked campaign is an educational film which raises awareness of drink and drug related sexual assault. It is not a Home Office initiative, and no direct funding has been made available by the Home Office. Funding totalling £9,275 was provided to support the project from the Drugscope Millennium Awards Scheme. It was initiated by an independent film maker based in Hertfordshire and there has been some take up in other local areas, but this has not been organised by the Home Office.

Solvent Abuse

Tim Loughton: To ask the Secretary of State for the Home Department what research his Department has commissioned into the extent of solvent abuse by children. [169063]

Caroline Flint: I refer the hon. Member to the answer given by my right hon. Friend the Minister for Children, on 29 April 2004, *Official Report*, column 1273W.

Terrorism

Patrick Mercer: To ask the Secretary of State for the Home Department who would be responsible for meeting the cost of temporary mortuaries in the event of a large-scale terrorist attack. [170067]

Mr. Blunkett: Section 198 of the Public Health Act 1936 states that local authorities may or shall, if directed to do so by the Minister, provide a public mortuary. Additionally, Section 27 of the Coroners Act 1988 sets out that county councils and lead boroughs in metropolitan areas are responsible for providing support to coroners.

However, we recognise that a large-scale terrorist attack could have the potential to overwhelm existing local or regional mortuary capacity.

We are issuing national guidance shortly on dealing with fatalities in emergencies. Following publication, we will be working with the regions, devolved administrations, local responders and specialists to review existing levels of national capacity and to consider a framework for a national response. The guidance will be updated in light of this work.

Patrick Mercer: To ask the Secretary of State for the Home Department if he will make it his policy, in the event of a large-scale terrorist attack that affected several counties, to establish a helpline for concerned family members to gain information about relatives. [170068]

Mr. Blunkett: In the event of a terrorist incident affecting several counties the Metropolitan Police Service would respond to any request from the Association of Chief Police Officers, the Home Office or from other UK Police Forces, to open the Central Casualty Bureau.

Each UK Police Force will have a Casualty Bureau but in the event that several counties were affected by a major terrorist incident, obviously it would be expected that the Central Casualty Bureau would be opened.

The Casualty Bureau provides a central contact point and is set up to deal specifically with missing persons, survivors, evacuees and witnesses involved in the incident. It is designed to receive and collate information relating to the incident.

If approached, the Central Casualty Bureau may also be opened for foreign events involving British subjects, as it has previously.

CONSTITUTIONAL AFFAIRS

Fine Collection

Mr. Hammond: To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps his Department is taking to improve collection rates of fines. [174010]

Mr. Leslie: Driving up performance in the collection of fines is a key priority in increasing confidence in the Criminal Justice System. That is why I announced last June my action plan to deliver significant improvements. A wide range of initiatives have been delivered or are planned. These include:

The piloting of new enforcement tools and measures included in the Courts Act 2003

the introduction earlier this year of a policy of no longer writing off fines;

the introduction from April 2004 of a new incentives package for enforcement teams;

direct support for poorer performing magistrates courts committees (MCCs) through targeted intervention;

"Operation Payback", a national blitz on outstanding warrants which raised £630,000 during the week commencing 22 March and will be repeated later in the year; and

improving the information available to MCCs when offenders are difficult to trace.

Mr. Hammond: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will set targets for percentage collection rates of fines imposed by the courts for *(a)* the current year and *(b)* each of the next two years. [174011]

Mr. Leslie: As a result of the progress made in 2003–04, with the payment rate in the final quarter at 76 per cent. against the target of 75 per cent., I have set a new national payment rate target for 2004–05 at 78 per cent. This will sustain the performance improvement achieved to date and build on it.

Performance during 2004–05 will inform decisions to be taken on targets for future years.

SCOTLAND

Scottish Development International

David Burnside: To ask the Secretary of State for Scotland what the annual running costs of Scottish Development International were over the last three years; and how much inward investment has been attracted and how many new jobs have been created over this period. [174721]

Mrs. McGuire: As this is a devolved matter for the Scottish Executive, the Scotland Office does not hold any information on the financial or operational performance of Scottish Development International.

Information relating to Scottish Development International is also available on their website, at www.scottishdevelopmentinternational.com.

DEPUTY PRIME MINISTER

Community Housing Task Force

Mr. Austin Mitchell: To ask the Deputy Prime Minister how many people work in his Community Housing Task Force; what their average salary is; and how many are *(a)* civil servants and *(b)* consultants. [174099]

Keith Hill: There are a total of 16 people working in the Community Housing Task Force. The average salaries for the twelve senior advisers who support local authorities, tenants and other stakeholders across the country is £44,032; salaries for the head of the task force is £79,288 pa and the average salaries for three support staff is £26,497. There are 13 civil servants and three advisers on secondments arrangements from local authorities and the National Housing Federation. There are no consultants working in the task force.

Mobile Homes

Jim Knight: To ask the Deputy Prime Minister if he will review the way in which the Valuation Office Agency assesses mobile homes for council tax purposes. [174971]

Mr. Raynsford: Mobile homes are not in themselves subject to council tax, but liability may arise in respect of the land on which the mobile home stands. Most mobile homes pitches which are subject to council tax are rated at band A. The 2001 White Paper "Strong Local Leadership—Quality Public Services" recognised that council tax bands are not fine grained enough to reflect differences in value at the bottom end of the property market and noted the concerns of mobile home owners about this. This issue has been further considered by his Balance of Funding Review. The Government have

announced that work on a council tax revaluation will start in 2005, with council tax bills based on updated property values issuing in 2007.

Ahead of revaluation the Government will listen to the views of taxpayers and local authorities about council tax bands to help inform the Office of the Deputy Prime Minister's decisions on future band structure.

Housing (North-east Lincolnshire)

Mr. Austin Mitchell: To ask the Deputy Prime Minister how much public money per council property has been allocated to *(a)* Hull and *(b)* Grimsby in each year since 2000–01; and what the projected total is for 2004–05. [174634]

Keith Hill: The table shows the expenditure allowances within Housing Revenue Account Subsidy for north east Lincolnshire and Kingston upon Hull for 2000–01 to 2004–05.

The allowances include the funding provided to meet the costs of past and new borrowing carried out to finance renovation and improvement work. It is also open to authorities to fund such work from their own resources, for example from capital receipts. Decisions on this are for individual authorities to take in the light of local priorities.

	2000–01	*2001–02*	*2002–03*	*2003–04*	*2004–05*
North East Lincolnshire

Sources:
Claim Forms 0004, 0104, 0204, 0302, 0401

Mr. Austin Mitchell: To ask the Deputy Prime Minister what common design, lay-out and publicity services were provided by his Department for the literature, the formal consultation document and the videos distributed to tenants in different recent large scale voluntary transfer campaigns were so similar to each other. [174635]

Keith Hill: Annex O of the Housing Transfer Manual 2003 Programme contains good practice guidance on producing consultation material which is based on feedback from tenants who have gone through the transfer process. Authorities should take into account specific local circumstances in their consultation material but as they are all consulting on transferring stock there will inevitably be similarities in presentation.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what assessment he has made of the fact that 44 per cent. of eligible tenants have voted to give away the council housing stock of north-east Lincolnshire is a sufficient mandate for transfer. [174660]

Keith Hill: My right hon. Friend the Deputy Prime Minister cannot grant consent to a housing stock transfer if it appears that the majority of tenants are opposed to it. 64.98 per cent. of tenants in north-east Lincolnshire participated in the ballot and 67.3 per cent. of those who voted were in favour of the transfer. The Office of the Deputy Prime Minister considers that a simple majority of those voting being in favour is sufficient to indicate tenant support for a transfer.

Renewal Areas (Physical Activity)

Mr. Don Foster: To ask the Deputy Prime Minister what progress his Department's Neighbourhood Renewal Unit has made on developing a toolkit for delivering sport and physical activity in renewal areas; and if he will make a statement. [173707]

Yvette Cooper: The Office of the Deputy Prime Minister intends to launch a multi-agency toolkit showing how best to deliver sport and physical activity in renewal areas on its good practice website, renewal.net. in summer 2004.

Mr. Don Foster: To ask the Deputy Prime Minister how much his Department's Neighbourhood Renewal Unit has spent on sport and physical activity, and who has received grants from that spending, broken down by *(a)* year and *(b)* region. [173709]

Yvette Cooper: The Office of the Deputy Prime Minister is unable to provide a breakdown of how much its Neighbourhood Renewal Unit has spent on sport and physical activity.

The NRU does not allocate funding specifically for sport and physical activity, but funding can be used in this way to meet local priorities in delivering the National Strategy for Neighbourhood Renewal.

Stamp Duty

Mr. Watson: To ask the Deputy Prime Minister how many people live in areas that are exempt from stamp duty on properties up to the value of £150,000, broken down by local authorities in England. [174464]

Keith Hill: The selection of areas eligible for stamp duty exemption was based on the 15 per cent. most deprived wards in England as determined by the Index of Multiple Deprivation 2000 (IMD 2000). This index was based on ward boundaries in existence in April 1998. Using the IMD 2000 there are just over 11 million people living in these wards. A table with the breakdown of this population by local authority district has been made available in the Library of the House.

Thames Gateway

Mr. Edward Davey: To ask the Deputy Prime Minister what progress has been made by the Thames Gateway Strategic Executive with the Environment Agency on the production of working maps of environmental and flooding constraints for the zones of change in the Thames Gateway; and when he expects these maps to be published. [174360]

Keith Hill: In the Thames Gateway and elsewhere, the Environment Agency provides local planning authorities with information on flood risk for use in local planning processes. In summer 2004 the Environment Agency will be issuing local planning authorities with flood zone maps, which show the different zones of flood risk as set out in Planning Policy Guidance Note 25 on 'Development and Flood Risk'. These flood zone maps will be incorporated into the Flood Map on the Agency's website in the autumn. Updates to the Flood Map (which also includes information on flood defences) will be provided to local planning authorities every three months.

The Office of the Deputy Prime Minister is working closely with the Environment Agency on the management of flood risk in the Thames Gateway. As elsewhere, new development is expected to comply with guidance on flood risk as set out in Planning Policy Guidance Note 25. In addition, all Office of the Deputy Prime Minister's funded local delivery vehicles in the Thames Gateway zones of change are required to ensure the production of flood risk assessments for their area so that the appropriate siting and design of development is considered. Where we are funding individual projects in the Thames Gateway this will also be conditional on an appropriate flood risk assessment being carried out.

CABINET OFFICE

Emergency Communications Network

Patrick Mercer: To ask the Minister for the Cabinet Office what plans he has *(a)* to upgrade and *(b)* to modernise the Emergency Communications Network. [172750]

Mr. Alexander: Departmental officials are currently exploring options for modernising Emergency Communications.

EU Regulations

Mr. Alan Duncan: To ask the Minister for the Cabinet Office if he will list the EU regulations which have taken effect in the UK since May 1997; and which such regulations have subsequently been *(a)* revised and *(b)* repealed. [171440]

Mr. MacShane: I have been asked to reply.

Based on the records in the *Official Journal* of the European Union (copies available in the Library of the House) we assess that the number of EC, ECSC and Euratom Regulations made was as follows:

	Number
1997	2,339
1998	2,852
1999	2,802
2000	2,882
2001	2,600
2002	2,125
2003	2,176

We also assess that the number of EU directives issued was as follows:

	Number
1997	85
1998	109
1999	100
2000	91
2001	83
2002	159
2003	134

All the data covers the period from December (of the preceding year) to November of that year inclusive.

The number of regulations subsequently revised and repealed is not held centrally and it would incur disproportionate costs to supply such a figure.

WALES

Early Retirement

Bob Spink: To ask the Secretary of State for Wales how many staff in his Department took early retirement, and at what total cost, in the last financial year. [171866]

Mr. Touhig: None.

Education Maintenance Allowance

Mr. Jon Owen Jones: To ask the Secretary of State for Wales if he will discuss with the National Assembly for Wales the procedure for applying for Education Maintenance Allowance. [173110]

Mr. Touhig: The National Assembly Wales are currently collaborating with the Northern Ireland Office on a single delivery system for Education Maintenance Allowance (EMA) for both countries.

The introduction of EMAs in Wales is following the success of the pilot schemes in England and Scotland over the last three years. Wales and Northern Ireland will now join the scheme on a common basis for the UK. The criteria and eligibility for young people throughout the UK wishing to apply for the EMA is already available on the DfES website, and is outlined in the Assembly Minister for Education and Lifelong Learning's press notice of 27 April.

Although full details of the workings of the Welsh system are not yet available, they will be in place in time for young people aged 16 starting full-time education in September this year.

Mr. Jon Owen Jones: To ask the Secretary of State for Wales if he will discuss with the National Assembly for Wales the timetable for enabling people in Wales to apply for Education Maintenance Allowance. [173111]

Mr. Touhig: The Assembly Minister for Education and Lifelong Learning announced on 27 April the introduction of the Education Maintenance Allowance (EMA) in Wales for the academic year starting in 2004.

The Assembly is currently working on their system for the delivery of EMAs for young people in Wales aged 16–19 and aims to have detailed information on their website as soon as possible. Young people will be able to apply when they return to their chosen education path in the new academic year in September.

Welsh Development Agency

David Burnside: To ask the Secretary of State for Wales what the annual running costs of the Welsh Development Agency were over the last three years; and how much inward investment has been attracted and how many new jobs have been created over this period. [174722]

Mr. Hain: The Welsh Development Agency provides this information in its latest annual report. A copy of which can be found on its website at www.wda.co.uk.

DEFENCE

Falklands War

Mr. Hoyle: To ask the Secretary of State for Defence whether veterans of the Falklands War will be eligible for grants under the 'Hero's Return' scheme to enable them to return to the Falkland Islands to commemorate the 25th anniversary of the War. [173788]

Mr. Caplin *[holding answer 17 May 2004]:* The 'Heroes Return' scheme is part of a special lottery programme called Veterans Reunited, set up to commemorate the 60th anniversary of the events that led to the end of the Second World War. For this reason, only veterans of the Second World War and their widows are eligible. It is too early to say whether there will be similar programmes in the future to commemorate other conflicts.

Geneva Convention

Mr. Gordon Prentice: To ask the Secretary of State for Defence what steps are taken to make service personnel aware of the provisions of the Geneva Convention. [173007]

Mr. Hoon: All Service personnel are made aware during their initial training of the provisions of the Geneva Conventions in respect of the treatment of Protected Persons (including Prisoners of War). This training is reinforced during specialist and career courses.

Before deployment on operations the Permanent Joint Headquarters directs that any capability offered by the three Services must meet the pre deployment training standards laid down in the relevant mounting instruction. This requires all personnel to undergo training in the Law of Armed Conflict; and applies equally to regular and non-regular Service personnel.

In view of the particular nature of the Army's operational role it is mandatory for its personnel to receive Law of Armed Conflict training annually. Since August 2003, the Army has implemented additional cultural training to enable commanders and units to understand the cultural and social differences of other countries. From October 2003 combat units in the Army were mandated to provide eight to 10 Senior Non Commissioned Officers trained in Prisoner of War handling, thereby providing a trained pool of instructors and specialist supervision. Those specialist elements of the Army (such as the Military Provost Staff) who are responsible for carrying out routine handling of detainees conduct further specialist training covering such aspects of their role.

MOD Land

Angus Robertson: To ask the Secretary of State for Defence how the Department acquired rights over land and foreshore not owned by, or leased to the

Department in Scotland in the period of *(a)* 1980 to 1990, *(b)* 1990 to 2000 and *(c)* 2000 to the present; and if he will make a statement. [173440]

Mr. Caplin: The Ministry of Defence has consistently utilised the expertise of professional Estates Advisors who work within Defence Estates to undertake negotiations with land owners to secure rights over land and foreshore where there has been an operational military requirement to do so. These rights are formalised in legal agreements usually known as "Minutes of Agreement" or similar.

Special Investigation Branch

Mr. Keetch: To ask the Secretary of State for Defence how many Special Investigation Branch files recommendations for proceedings have not been acted upon in the past year. [172867]

Mr. Ingram: The Royal Military Police (Special Investigations Branch) do not make recommendations for proceedings. At the conclusion of any Royal Military Police investigation a report, together with supporting evidence, is submitted to the appropriate Commanding Officer and to the Army Legal Services.

Territorial Army

Mr. Soames: To ask the Secretary of State for Defence (1) what the latest strength against establishment of the Territorial Army is, broken down by *(a)* unit and *(b)* location; [174590]

(2) what the size of the Territorial Army was in each of the last five years; and what his estimate for each of the next three years is. [174591]

Mr. Caplin: Figures for the strength and establishment of the Territorial Army (TA) by unit and location are not held centrally and could be provided only at disproportionate cost. The current strength of the TA, as at 1 March 2004, is 36,900 (including 2,760 mobilised reservists) against an establishment of 41,900.

For historical information on the strength of the TA, I refer the hon. Member to Tri-Service Publication 7 (TSP 7), which is available from the House of Commons Library, or through the Ministry of Defence website. Forecasts of projected strength are not available.

Iraq

Harry Cohen: To ask the Secretary of State for Defence what assessment he has made of whether the activities of *(a)* UK and *(b)* Coalition forces in Iraq fully comply with the Geneva conventions; and if he will make a statement. [171635]

Mr. Ingram: The provisions of the Geneva conventions underpin the missions and activities carried out by the United Kingdom and their Coalition partners in Iraq. Any credible suggestions that the UK forces have not observed the provisions of the conventions are investigated and appropriate action is taken.

Adam Price: To ask the Secretary of State for Defence how many women *(a)* have been detained by the UK military since the occupation of Iraq began and *(b)* are being detained by the UK military in Iraq. [172699]

Mr. Hoon: Since the occupation of Iraq began, UK Armed Forces have interned one woman in Iraq who posed or was likely to pose a threat to Coalition Forces. As of 16 May 2004, no women were being detained by UK Armed Forces.

Adam Price: To ask the Secretary of State for Defence what arrangements are in place for *(a)* the Red Cross and *(b)* other aid agencies to visit Iraqi detainees held by United Kingdom military forces. [172904]

Mr. Hoon: The International Committee of the Red Cross (ICRC) has unrestricted access to the UK detention facility in Shaibah. The ICRC are the recognised international authority for visiting and checking on conditions of detainees, internees, prisoners of war and any other persons held.

Mr. Redwood: To ask the Secretary of State for Defence when ministers first read the International Committee of the Red Cross draft report on Iraqi prisoners delivered in February. [172995]

Mr. Hoon: Defence Ministers first read the International Committee of the Red Cross's (ICRC) report of the Treatment by the Coalition Forces of Prisoners of War and other Protected Persons by the Geneva Conventions in Iraq during Arrest, Internment and Interrogation, dated 10 February 2004, over the weekend of 8/9 May.

Tom Cox: To ask the Secretary of State for Defence what the age of the *(a)* youngest and *(b)* oldest Iraqi (i) man and (ii) woman being held in United Kingdom-run prisons in Iraq is. [173999]

Mr. Hoon: Of internees held by United Kingdom forces in Iraq, as at May 15, the oldest was 68 and the youngest 18 years old. There were no female internees.

Norman Lamb: To ask the Secretary of State for Defence pursuant to the answer of 31 March 2004, *Official Report*, columns 1480–81W, on Iraq, what the total cost was of all surveys conducted over the last 12 months; what further surveys have been conducted since those disclosed to the hon. Member for North Norfolk subsequent to the answer; and if he will place copies of each in the Library. [174334]

Mr. Caplin: Information on the totality of quantitative and qualitative surveys carried out by the Ministry of Defence and its agencies and non-departmental public bodies is not held centrally and could be provided only at disproportionate cost. However, in the Financial Year 2003–04 the total cost of external corporate-level public opinion surveys undertaken by Ministry of Defence was £86,450.62 (including VAT). This includes expenditure on survey work carried out in late 2002–03 but not paid for until Financial Year 2003–04. This figure is provisional and subject to final audit.

No further surveys have been conducted subsequent to my answer of 31 March 2004, *Official Report*, columns 1480–81W.

EDUCATION AND SKILLS

College Funding

Clive Efford: To ask the Secretary of State for Education and Skills whether it is his policy that funding for 16 to 18-year-olds in colleges should match that provided to schools. [173895]

Alan Johnson: I refer my hon. Friend to the reply given to my hon. Friend Member for Wolverhampton, South-West (Rob Marris) on 14 May 2004, *Official Report*, column 623W.

Adult Community Learning

Mr. Brady: To ask the Secretary of State for Education and Skills pursuant to his answer of 4 May 2004, *Official Report*, column 1414W, on the adult community learning budget, when he will write to the hon. Member for Altrincham and Sale, West giving the details of the adult and community learning budget for each English local authority area. [175077]

Mr. Ivan Lewis: Further to my reply of 4 May 2004, *Official Report*, column 1414W, I have written to the hon. Member separately, as promised, to provide him with the details of the adult and community budget for each English local authority area expressed *(a)* in cash terms and *(b)* per head of population.

Apprenticeships

Mr. Simmonds: To ask the Secretary of State for Education and Skills what estimate his Department has made of the number of 14 to 16-year-olds that will register for young apprenticeships in each of the next three years. [173748]

Mr. Ivan Lewis: We estimate that 1,000 pupils will participate in the Young Apprenticeship programme from September 2004. It is our intention to rapidly accelerate the number of places in year two.

Mr. Simmonds: To ask the Secretary of State for Education and Skills what steps his Department will take to ensure the *(a)* young apprenticeship, *(b)* apprenticeship and *(c)* advanced apprenticeship schemes are successful in recruiting and retaining trainees. [173749]

Mr. Ivan Lewis: For young apprenticeships, the strategy is to set high quality standards, offer attractive learning opportunities alongside the statutory curriculum and ensure that recruits have good means of support for the duration of the programme. First, we have set demanding entry criteria for both the candidates and the partnerships that want to participate in the programme. Second, recruits will have every incentive to complete the programme as they will gain worthwhile skills, experience and qualifications as well as more training opportunities. Third, the programme will provide generous funding as well as comprehensive advice and support from partners such as the Sector Skills Councils. Finally, we believe the programme will meet an unmet need and will therefore prove itself popular among the recruits.

For apprenticeships post 16 accurate initial assessment by the Learning and Skills Council working with the Connexions Service will ensure that young employees are placed on the programme most appropriate to their training need. In addition the LSC published its 'Quality Improvement Strategy to 2006' in February 2004. This sets out how the LSC will set out to improve training provider performance including the setting minimum performance levels. Where these are not met the LSC will withdraw contracts from providers. We are looking to SSCs to work with the LSC to raise levels of employer engagement in apprenticeship programmes.

Mr. Simmonds: To ask the Secretary of State for Education and Skills what financial incentives will be available to *(a)* apprentices and *(b)* employers providing (i) young apprenticeships, (ii) apprenticeships and (iii) advanced apprenticeships; what the cost to the public purse will be of incentives to (A) apprentices and (B) employers in the next three years; and whether those costs will be met from his Department's existing budgets. [174037]

Mr. Ivan Lewis: As we announced on 10 May 2004, financial incentives for apprentices and employers are being reviewed as part of a range of reforms to ensure apprenticeships are fit for purpose and meet employers' needs. Decisions are subject to subject to post-Spending Review allocations and announcements will be made when appropriate.

Attitude Surveys

Norman Lamb: To ask the Secretary of State for Education and Skills what surveys of public perceptions of *(a)* his Department, *(b)* schools and other education institutions and *(c)* teaching unions have taken place over the last 12 months; what the (i) title and (ii) nature of these surveys was; what the findings of each survey were; where these findings have been published; what the cost of all such surveys was; and if he will place copies of the surveys in the Library. [174339]

Mr. Stephen Twigg *[holding answer 18 May 2004]:* In the past 12 months my Department has contributed to the British Social Attitudes Survey and commissioned a survey of public perceptions of education.

The British Social Attitudes Survey is an annual independent survey on a range of issues which is managed by the National Centre for Social Research. The Department contributes to a module of questions around education and skills issues. The Department's contribution to the survey in 2003 cost £62,700. Findings are published by the National Centre for Social Research in hardcopy and on their website and results for 2003 are due to be published in November 2004.

The Public Perception of Education Survey is an annual survey commissioned by the Department that asks the public's view of the education service nationally. It was last carried out in November 2003 and cost £51,140. The findings will be published on the Department's internet site in June 2004 and a copy will be placed in the Library.

Timber

Ms Walley: To ask the Secretary of State for Education and Skills whether his Department plans to contribute financially to the establishment of the second phase of the Central Point of Expertise on Timber. [167627]

Mr. Stephen Twigg: I refer my hon. Friend to the answer given by my hon. Friend the Minister for the Environment and Agri-environment on 10 May 2004, *Official Report*, column 31W. The Department for Environment, Food and Rural Affairs are the lead Department for the central point of expertise on timber procurement and will be consulting with my Department to determine objectives and resources required.

Class Sizes

John Mann: To ask the Secretary of State for Education and Skills how average class sizes have varied in the last 20 years in England. [171314]

Mr. Miliband: A table showing how class sizes have changed over the last 20 years has been placed in the House of Commons Library. This shows an overall rise in the size of primary school classes between 1984, when the average class contained 25 pupils, to a peak in 1998 of 27.8. Primary class sizes have fallen steadily from 1999 to 2004, with the average class now containing 26.3 pupils.

The average secondary class contained 20.9 pupils in 1984, peaking in 2000 at 22.2, and falling to 21.8 in 2004.

Mr. Ben Chapman: To ask the Secretary of State for Education and Skills how many children in Wirral, South were taught in classes of more than 30 pupils on the latest date for which figures are available. [173627]

Mr. Miliband *[holding answer 14 May 2004]:* Tables giving the requested class size information for all parliamentary constituencies have been placed in the House of Commons Library. Final figures for 2003 and the latest provisional figures for 2004 have been provided. Further details on the 2004 provisional figures on class sizes by local education authority can be found on http://www.dfes.gov.uk/rsgateway/DB/SFR/s000457/index.shtml.

Dentistry

Mr. Amess: To ask the Secretary of State for Education and Skills how many undergraduate dentists started university degrees in each year since 2001, broken down by university. [157357]

Alan Johnson: The available information is given in the table.

Intakes to English dental schools, 2001/02 to 2003/04

University Dental Schools	Academic Year 2001/02	2002/03	2003/04[1]
Birmingham	73	77	76
Bristol	55	58	60
King's College London	150	168	151
Leeds	61	65	59
Liverpool	57	56	66
Manchester	79	87	90
Newcastle	70	70	72
QMW (Barts & The London)	68	61	78
Sheffield	59	69	72
Total England	672	711	724

[1] Provisional until November 2004 when a finalised figure will be declared.

Source:
Higher Education Funding Council for England.

Figures do not include intakes to Scottish, Welsh or Northern Irish Dental schools, which are the responsibility of the devolved administrations, although students from these institutions will be eligible to work in England.

Ms Dari Taylor: To ask the Secretary of State for Education and Skills how many children in Stockton South were taught in classes of more than 30 on the latest date for which figures are available. [171478]

Mr. Miliband: Tables giving the requested class size information for all parliamentary constituencies have been placed in the House of Commons Library. Final figures for 2003 and the latest provisional figures for 2004 have been provided. Further details on the 2004 provisional figures on class sizes by local education authority can be found on http://www.dfes.gov.uk/rsgateway/DB/SFR/s000457/index.shtml

Education Funding

Mr. Meacher: To ask the Secretary of State for Education and Skills how many children in Oldham, West and Royton were taught in classes of more than 30 on the latest date for which figures are available. [170917]

Mr. Miliband: Tables giving the requested class size information for all parliamentary constituencies have been placed in the House of Commons Library. Final figures for 2003 and the latest provisional figures for 2004 have been provided. Further details on the 2004 provisional figures on class sizes by local education authority can be found on http://www.dfes.gov.uk/rsgateway/DB/SFR/s000457/index.shtml.

Education Services

Mr. Gordon Marsden: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Blackpool, South *(a)* in each of the last seven years and *(b)* on the latest date for which figures are available. [173068]

Mr. Miliband: The following table gives the numbers of full-time equivalent teaching assistants in maintained schools in Blackpool, South constituency in January of each year between 1997 and 2003, the latest year for which data are available.

	Teaching assistants
1997	130
1998	150
1999	160
2000	180

	Teaching assistants
2001	240
2002	140
2003	290

Source:
Annual Schools Census.

Mr. Benton: To ask the Secretary of State for Education and Skills how many children in Bootle were taught in classes of more than 30 on the latest date for which figures are available. [172679]

Mr. Miliband: Tables giving the requested class size information for all parliamentary constituencies have been placed in the House of Commons Library. Final figures for 2003 and the latest provisional figures for 2004 have been provided. Further details on the 2004 provisional figures on class sizes by local education authority can be found on http://www.dfes.gov.uk/rsgateway/DB/SFR/s000457/index.shtml

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many *(a)* primary school teachers, *(b)* secondary school teachers and *(c)* education support staff there were in Tamworth constituency in each of the last 10 years. [173280]

Mr. Miliband: The following table gives the full time equivalent number of teachers and support staff in maintained primary and secondary schools in Tamworth constituency in each year between 1997 and 2003, the latest year for which constituency level data are available. Information is not available prior to 1997.

	Teachers	Support staff
Primary		
1997	370	120
1998	360	140
1999	370	150
2000	360	160
2001	360	190
2002	370	190
2003	360	220
Secondary		
1997	360	60
1998	360	70
1999	350	80
2000	360	80
2001	360	90
2002	370	100
2003	380	100

Source:
Annual School Census.

Mr. Jenkins: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Tamworth constituency *(a)* in each of the last seven years and *(b)* on the latest date for which figures are available. [173282]

Mr. Miliband: The following table gives the numbers of full-time equivalent teaching assistants in maintained schools in Tamworth constituency in January of each year between 1997 and 2003, the latest year for which data are available.

	Teaching assistants
1997	110
1998	120
1999	140
2000	140
2001	170
2002	150
2003	210

Annual School Census.

Education Statistics

Mr. Rosindell: To ask the Secretary of State for Education and Skills what the cost per pupil of education in *(a)* primary school, *(b)* secondary school and *(c)* sixth form in the Borough of Havering was in the last academic year for which figures are available. [169948]

Mr. Miliband: My Department collects financial data according to the financial year. The available information is provided in the following table for the financial year 2002–03:

Net current expenditure per pupil—2002–03

	£
Primary education	2,740
Secondary education	3,810

Notes:

1. The financial data are taken from Havering LEA's section 52 Outturn Statement submitted to the DfES. Section 52 is collected on a financial year basis and not an academic year basis. 2002–03 data are subject to change by the LEA. Figures are rounded to the nearest £10.
2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA.
4. The NCE per pupil figures for primary relate the net current expenditure (after recharges) in maintained primary schools to the total number of financial year pupils who are educated in the maintained primary schools sector.
5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector and includes those secondary schools with sixth forms. Separate figures cannot be calculated for costs of sixth forms.
6. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Sarah Teather: To ask the Secretary of State for Education and Skills how many teaching assistant posts there have been in *(a)* primary and *(b)* secondary schools in Brent in each year since 1997; and what the average figures for (i) English borough councils and (ii) London boroughs were in each year. [172812]

Mr. Miliband: Teacher assistants are not available at borough council level. The following table gives the numbers of full-time equivalent teaching assistants in maintained schools in Brent local LEA, the average

number in London LEAs and in all LEAs in England. The figures are as at January of each year between 1997 and 2003, the latest year for which data are available.

	Brent	London average	England average
Nursery and Primary			
1997	160	170	270
1998	200	180	280
1999	230	200	300
2000	250	240	340
2001	300	310	420
2002	330	320	460
2003	350	370	530
Secondary			
1997	10	20	50
1998	10	20	60
1999	30	20	70
2000	30	30	80
2001	40	50	100
2002	60	60	130
2003	60	70	150

Source:
Annual School Census.

Medical Students

Mr. Steen: To ask the Secretary of State for Education and Skills what the estimated intake in medical schools in Great Britain is in each of the next three years. [173430]

Alan Johnson *[holding answer 18 May 2004]:* The available figures from the Higher Education Funding Council for England (HEFCE) are given in the table. Data are given for English medical schools only. Allocation of places for Scottish, Welsh and Northern Irish medical schools is the responsibility of the devolved administrations.

Target[1] medical school intakes to English institutions, 2004–06

Academic year	Target intake
2004/05	5,777
2005/06	5,894
2006/07	5,894

Target figures cover UK and overseas domiciled students.
Source:
HEFCE

Postgraduate Students

Mrs. Lawrence: To ask the Secretary of State for Education and Skills what the average expenditure per postgraduate student was in *(a)* the UK, *(b)* the US and *(c)* the OECD in the last year for which figures are available. [174132]

Alan Johnson: International comparisons of expenditure on higher education cover all 'tertiary' education which includes both under and postgraduate study. The OECD's "Education at a Glance 2003" gives figures for the year 2000, the latest year for which comparable figures are available. It shows expenditure per higher education student per year in the UK was US $9,657, above the OECD average (US $9,571). Expenditure per student was highest in the USA (US $20,538). At current rates of exchange, equivalent figures in sterling are: UK £5,461, OCED £5,413 and USA £11,615.

Prison Education

Mr. Oaten: To ask the Secretary of State for Education and Skills why the Offenders' Learning and Skills Unit cancelled the re-tendering exercise for prison education contracts due to take place this year; what the cost of this exercise was; and when the unit will next be seeking bids for prison education contracts. [172424]

Mr. Ivan Lewis: Ministers took the decision to cancel the re-tendering exercise on the basis that it was no longer the most appropriate method of delivering provision. This decision was based on a number of key changes in the offender learning and skills environment:

The creation of the National Offender Management Service (NOMS) and the introduction of new sentencing arrangements which offer an important opportunity to refocus work in this field and to improve coherence of offender learning across the custodial system and into the community;

Central Government initiatives to free resources for front line delivery and to reallocate operational responsibilities between government and partners; and

The need to reap the skills and workforce benefits of closer partnerships between key agencies such as Jobcentre Plus and the Learning and Skills Council, and the desire to bring offender learning and skills into the mainstream of post-16 provision.

The Offenders' Learning and Skills Unit is now working with these partners towards a phased introduction of a new integrated service by developing prototypes in up to three regions or areas. These prototypes will inform the development of comprehensive proposals for a national delivery framework for offender learning and skills, so that from the summer of 2005 we can move towards a new delivery partnership led by the LSC.

In the meantime, officials are negotiating extensions to existing contracts from September 2004 as we develop the new service, with minimal changes to avoid disruption.

The total cost to my Department of the re-tendering and re-contracting project up until the change in policy was £346,000. The majority of this would have been spent anyway in conducting policy development and administration, but it also includes professional, legal and technical advice specific to the project. Money spent on the latter has not been wasted as there will still be improvements to the delivery of prisons education, just not via a tendering exercise. Indeed, the main output of this project was a detailed specification for the new future service delivery; this was a valuable investment, as with some tailoring, this will form the key input to our new approach.

Pupil Funding (Preston)

Mr. Hendrick: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in Preston in each of the last seven years. [168134]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an

area. Preston is a district of Lancashire local education authority. The information for Lancashire LEA is as follows:

Net current expenditure per pupil

	Pre-Primary Education	*Primary Education*	*Pre-primary and Primary*	*Secondary Education*	*Special*
1996–97	n/a	n/a	1,800	2,590	15,990
1997–98	n/a	n/a	1,820	2,630	17,320
1998–99	n/a	n/a	2,000	2,700	17,770
1999–00	7,130	2,110	2,170	2,760	18,490
2000–01	11,030	2,330	2,440	2,910	18,770
2001–02	16,390	2,630	2,800	3,230	20,600
2002–03	—	2,900	—	3,400	—

Notes:

1. The financial data are taken from Lancashire LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously. Figures up to and including1997–98 figures are for Lancashire LEA prior to local government reorganisation. From 1998–99 onwards parts of Lancashire LEA became Blackpool and Blackburn LEAs. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section52 outturn statement in 1999–2000. 1999–2000 figures reflect the return of GM schools to local authority maintenance.
2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data is subject to change by the LEA. Figures are rounded to the nearest 10.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA.
4. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
6. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.
7. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Regional Assemblies

Mr. Jenkin: To ask the Secretary of State for Education and Skills which functions and responsibilities would be transferred from his Department to elected regional assemblies where they are established. [172755]

Mr. Ivan Lewis: The aim of elected assemblies is to ensure that regional functions are carried out effectively and better reflect the needs of the region. Assemblies will also play an important role in supporting delivery of the Department's skills agenda, specifically in three key areas: (i) the assembly will appoint two members to the Boards of each local Learning and Skills Council (LSC) in its region, one of whom will have a business background, and will be consulted on other appointments; (ii) the national LSC will be under a statutory duty to consult assemblies on its guidance to the local LSC; and (iii) local LSCs will be obliged to have regard to the strategies of the ERA; and will be under a statutory duty to consult the assembly on their plans for the local area, in the same way that RDAs are consulted now (a statutory requirement under the Learning and Skills Act 2000).

Schools (South Ribble)

Mr. Borrow: To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary school children in South Ribble were taught in classes of more than 30 on the latest date for which figures are available. [171664]

Mr. Miliband: Tables giving the requested class size information for all parliamentary constituencies have been placed in the House of Commons Library. Final figures for 2003 and the latest provisional figures for 2004 have been provided. Further details on the 2004 provisional figures on class sizes by local education authority can be found on http://www.dfes.gov.uk/rsgateway/DB/SFR/s000457/index.shtml

Selective Admissions

Mr. Chaytor: To ask the Secretary of State for Education and Skills how many and what percentage of pupils there were in years seven to 11 in *(a)* grammar, *(b)* modern and *(c)* comprehensive schools in each local authority retaining a selective admissions system in each of the last four years. [172377]

Mr. Miliband *[holding answer 19 May 2004]:* The information requested has been placed in the House of Commons Library.

Mr. Chaytor: To ask the Secretary of State for Education and Skills how many and what percentage of pupils in maintained *(a)* grammar and *(b)* non-selective schools in each local authority retaining a selective admissions system were (i) eligible for free school meals, (ii) statemented and (iii) from ethnic minorities in each of the last four years. [172378]

Mr. Miliband *[holding answer 19 May 2004]:* The information requested has been placed in the House of Commons Library.

Social Sciences

Mrs. Lawrence: To ask the Secretary of State for Education and Skills what *(a)* financial assistance and *(b)* grants his Department offers students undertaking postgraduate degrees in social sciences. [174131]

Alan Johnson: Research awards to postgraduate students in the social sciences are awarded on a competitive basis by the Economic and Social Research Council, funded by the Office of Science and Technology. Research council awards include increased tax free stipends (from £9,000 for 2004–05 to £12,000 by 2005–06) to cover living expenses.

Post graduate students, regardless of discipline, are not eligible for student loans and grants. They are free to apply for a Career Development Loan, a scheme which is administered by my Department. Postgraduates with a disability are able to receive assistance for specialist equipment, for example, as well as additional travel and non medical help costs through

Disabled Students Allowances (DSAs), up to a maximum of £5,370 in academic year 2003/04 and £5,500 in 2004/05.

Mrs. Lawrence: To ask the Secretary of State for Education and Skills what action he is taking to widen participation in postgraduate study of social sciences. [174133]

Alan Johnson: The Government are investing significant sums in widening access to higher education. This will have the additional benefit of increasing the supply of potential postgraduate students, including students in the social sciences. The increased funding available for science and research, (up £1.25 million by 2005/06 compared to 2003/04) will also expand the opportunities for research across all disciplines. Financial support for postgraduate study is available through the Career Development Loan Scheme which is administered by my Department.

Surplus School Places

Mr. Hoban: To ask the Secretary of State for Education and Skills under what powers local education authorities may be required to reduce the number of surplus places in schools. [173100]

Mr. Miliband *[holding answer 14 May 2004]:* Under Schedule 7 to the Schools Standards and Framework Act 1998, the Secretary of State may direct a local education authority (LEA) to bring forward statutory proposals where there is, or is likely to be, an excess of school places. If the LEA does not publish proposals or if the proposals are time expired, Schedule 7 allows the Secretary of State to publish his own proposals. Both types of proposal fall to be considered by the School Organisation Committee (SOC) or schools adjudicator if the SOC cannot reach a unanimous decision. The powers granted to the Secretary of State under Schedule 7 of the School Standards and Framework Act 1998 have never been used.

Teachers

Mr. Willis: To ask the Secretary of State for Education and Skills (1) if he will make a statement on the methods used to allocate initial teacher training places to each subject; [174563]

(2) if he will make a statement on the number of initial teacher training places allocated to religious education. [174564]

Mr. Miliband *[holding answer 20 May 2004]:* The allocation of undergraduate and postgraduate teacher training places in England by phase and subject is informed by the outputs of the Teacher Supply Model. Details of how the model works may be found in the paper "Teacher Supply and Demand Modelling: A Technical Description", a copy of which has been placed in the Library.

On 27 December last year, I announced that, for 2004/05, 730 training places would be available for religious education, 30 more than in the current year. These do not include places on employment-based training programmes.

Teaching Assistants

Colin Burgon: To ask the Secretary of State for Education and Skills how many teaching assistants were employed in schools in *(a)* Leeds and *(b)* Elmet constituency for each year since 1996. [173392]

Mr. Miliband *[holding answer 14 May 2004]:* The following table shows the full-time equivalent number of teaching assistants employed in all maintained schools including non-maintained special schools in Leeds local education authority for each January since 1996 and for Elmet constituency in each January since 1997. Information is not available at constituency level prior to 1996.

	Leeds LEA	*Elmet*
1996	1,470	—
1997	1,570	180
1998	1,680	190
1999	1,670	190
2000	1,790	220
2001	1,950	220
2002	2,390	260
2003	2,480	290

Source:
Annual Schools Census

Transport Workers (Centres of Excellence)

Mr. Flight: To ask the Secretary of State for Education and Skills how many centres of excellence for transport workers have been established since 1997. [174155]

Mr. Ivan Lewis *[holding answer 18 May 2004]:* Since 1997 20 Centres of Vocational Excellence have been established covering the transport sector and associated engineering sectors. These include logistics, automotive engineering and rail industry engineering.

Truancy

Mr. Collins: To ask the Secretary of State for Education and Skills how many children played truant at least once from *(a)* primary and *(b)* secondary schools in each year since 1997, broken down by parliamentary constituency. [167565]

Mr. Ivan Lewis: The information requested has been placed in the Library.

Universities

Mr. Wills: To ask the Secretary of State for Education and Skills what assessment he has made of the rate of return on each subject studied at each university. [172109]

Alan Johnson: The Department does not conduct a formal cost-benefit assessment, or rate of return, to university qualifications by subject or by institution.

However, the Department has commissioned research to estimate the earnings benefits of different degree subjects. Table 1 shows the estimated percentage wage premium by subject over and above someone with A levels alone.

Table 1: Wage benefits to HE by subject[1]

Percentage

Subject	*Women*	*Men*
Languages	20	4
Health	24	23
Nursing	12	10
Science	7	11
Maths	19	22
Engineering	11	18
Architecture	21	10
Economics	20	23
Law	24	23
Education	2	-3
Social science	4	6
Arts	-2	-8
Combined	5	11

[1] *Source:*
Analysis provided by Ian Walker and Yu Zhu, from data used in their research: "The Returns to Education: Evidence from the Labour Force Surveys—DfES research report No.313.

Recent research evidence has also found up to 44 percentage point differences in average graduate earnings depending on the institution attended.[1]

[1] Conlon and Chevalier (2000) Financial Returns to Undergraduates and Tuition Fees, CIHE.

Vocational Qualifications

Mr. Willis: To ask the Secretary of State for Education and Skills how many adults achieved an NVQ level 2 or equivalent qualification in each year since 1997; and if he will make a statement. [172977]

Mr. Ivan Lewis *[holding answer 13 May 2004]:* Table 1 shows the number of NVQs (National Vocational Qualifications) and OVQs (Other Vocational Qualifications), at level 2, achieved by adults in each year since 1997/98. Data are for England and are taken from the National Information System for Vocational Qualifications (NISVQ).

Table 1: The number of level 2 qualifications[1] *achieved by adults*[2]*, in England, 1997/98 to 2001/02*

Thousand

	NVQs	*OVQs*	*Total level 2 awards*
1997/98	171	58	229
1998/99	161	65	226
1999/2000	167	76	243
2000/01	152	96	247
2001/02	139	79	218

[1] NVQ figures are based on information relating to all awarding bodies that award NVQs. OVQ data are for City and Guilds, OCR and Edexcel only.
[2] Adults are defined as those who are academic age 18 or over. Academic age is age of the person at the start of the academic year e.g. in 2001/02 age would be calculated against 31 August 2001.
Source:
NISVQ

Youth Education

Lynne Jones: To ask the Secretary of State for Education and Skills pursuant to his answer of 13 May 2004, ref 171718, if he will make it his policy to publish data for 16 to 18-year-olds participating in education, training and employment by ethnic group. [174336]

Mr. Ivan Lewis: Annual population estimates are not available by ethnic group and hence the published participation rates for 16 to 18-year-olds in education, training and employment cannot be broken down by ethnic group, as they use population estimates as the denominator to calculate the percentages.

However, each of the separate sources used to produce the numbers of 16 to 18-year-olds in education and LSC funded work based learning (WBL) do publish information by ethnic group, though not specifically for the 16–18 ages. These are available on the departmental website for those in schools; in HE institutions; and in LSC funded further education and work based learning.

Information on the labour market status of young people comes from the Labour Force Survey (LFS), which also supplies the numbers in non-college based employer funded training (EFT) and other education and training (OET). Due to sample sizes, LFS numbers cannot be broken down by ethnic group for single years of age.

Some information is also available on the Departmental website from the Youth Cohort Study, for single years of age. This is a sample survey of school pupils monitoring their transition from school to further (then higher) education or to the labour market and is not directly comparable with the participation rates.

FOREIGN AND COMMONWEALTH AFFAIRS

Bribery

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 3 February 2004, *Official Report*, column 837W, on bribery, how many reports of concerns of bribery registered by UK companies about foreign competitors have been made by his Department to foreign governments since February 2002. [174267]

Mr. MacShane: The Foreign and Commonwealth Office has no record of having received any approaches since February 2002 as a result of concerns registered by UK companies about foreign competitors; and has not therefore had any reports to pass to foreign governments.

British Prisoners Overseas

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs on behalf of how many British citizens in prison outside the United Kingdom he has discussed their cases since 1 January; and if he will make a statement. [174121]

Mr. Rammell: Ministers frequently raise cases of British nationals detained overseas, with foreign governments, where it is appropriate to do so. However, such statistics are not held centrally and could be provided only at disproportionate costs.

Conventional Forces in Europe Treaty

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 22 March 2004, *Official Report*, column 541W, on the Conventional Forces in Europe Treaty,

what representations he has received from Russia about the Adaptated Conventional Forces in Europe (CFE) Treaty; for what reasons the enlargement of NATO went ahead without an agreement for the continuance of a CFE Treaty; whether the new NATO states were required to give a commitment to join a CFE Treaty; whether they have given such a commitment; what commitments on *(a)* restraint on troop numbers and *(b)* build-ups NATO has given in the absence of an agreed CFE Treaty; and if he will make a statement. [173386]

Mr. MacShane: My hon. Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Bill Rammell) discussed CFE issues with Russian Deputy Foreign Minister Vladimir Chizov during their meeting in Moscow on 6 April 2004.

The Adapted CFE Treaty (ACFE) cannot come into force until it has been ratified by all States Party. To date only three States have done so: Belarus, Ukraine and Kazakhstan. Ratification by NATO Allies is delayed by continued Russian failure to meet the political commitments entered into at the 1999 OSCE Istanbul Summit, in relation to their presence in Georgia and Moldova. Until the ACFE is ratified, the 1990 CFE Treaty remains in force.

There is no link between NATO Enlargement and accession to the CFE Regime. However we welcome the stated intention of all the new Allies involved to seek accession to the ACFE once the Treaty has entered into force.

Investigations in Foreign Jurisdictions

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs on what dates in the last two years *(a)* his Department and *(b)* UK diplomatic posts abroad have given advice to law enforcement agencies about pursuing investigations in foreign jurisdictions; and which jurisdictions that advice concerned. [174006]

Mr. Rammell: Staff in many departments within the Foreign and Commonwealth Office have frequent contact with UK law enforcement agencies on a range of issues and covering different foreign jurisdictions. In addition there are over 140 Law Enforcement Liaison Officers based in UK diplomatic missions overseas. These officers are in daily contact with UK law enforcement agencies in the course of their work which includes giving advice about investigations. To list all such contacts for the last two years would incur disproportionate costs.

Iran

Andy King: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Iranian authorities concerning human rights, with particular reference to religious liberty. [173759]

Mr. Rammell: My right hon. Friend the Foreign Secretary frequently raises our grave concerns about Iran's human rights record, including restrictions on religious freedom, with the Iranian authorities, including the Iranian Foreign Minister. The EU as a whole has raised cases of religious persecution in Iran through an EU Human Rights dialogue with Iran.

Iraq

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs what status of forces agreement is proposed for Iraq following the proposed transfer of sovereignty; whether it will be different from that currently pertaining; whether the private security forces and other quasi-military personnel contracted to Coalition forces operating in Iraq will *(a)* be covered by it and *(b)* be subject to any form of control by the proposed new Iraqi administration; what plans he has for a new United Nations resolution which would cover the status of forces including private and quasi-military contractors; and if he will make a statement. [172281]

Mr. Rammell: The precise new arrangements for the Multinational Force and private security companies operating in Iraq after the transfer of sovereignty are being discussed. We expect a new United Nations Security Council Resolution to endorse the future role of the Multinational Force.

Middle East Peace Plan

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs how the international community will ensure that the future Palestinian Government installs democratic institutions as part of the Middle East Peace Plan. [173243]

Mr. Rammell: The UK has long supported the development of more effective and accountable Palestinian institutions in preparation for Palestinian statehood. The Palestinian Authority has made progress on developing better accountability and a transparent legal environment. The international community is supporting the Palestinian Authority in their efforts. Encouraging free and fair elections, at all levels, is one part of the process. We hope that the Palestinian Authority will hold elections as soon as possible as called for in the roadmap.

As a priority, the Palestinians need to take the necessary steps to finalise their election laws, and to complete the work, funded by the EU, on voter registration. We also recognise that free and fair elections cannot take place while Israeli restrictions on the freedom of movement remain in place.

Overseas Posts (Costs)

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what the running costs were for the UK high commissions in *(a)* Australia, *(b)* Canada, *(c)* India and *(d)* Pakistan, and how many staff were employed in each of these embassies, in the last year for which figures are available. [173647]

Mr. Rammell: The information is as follows.

Total operating costs for financial year 2002–03 are:

	£ million
Canberra	1.3
Ottawa	3.32
New Delhi	14.34
Islamabad	11.46

These costs include an element in respect of support incurred in the UK.

Staff numbers for financial year 2003–04 are:

Post	FCO UK	OGD[1] UK	FCO LE[2]
Canberra	18	6	80
Ottawa	19	10	75
New Delhi	61	42	490
Islamabad	79	15	333

[1] Other Government Department
[2] Locally employed

The figures reflect the total number of full-time equivalents.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what the running cost was of the UK embassy in *(a)* Japan and *(b)* China in 2003–04; and how many staff were employed in each of these embassies. [173886]

Mr. Rammell: The Foreign and Commonwealth Office account for 2003–04 has not yet been finalised.

However, total operating costs for financial year 2002–03 were:

	£ million
Tokyo	19.45
Beijing	11.92

These costs include an element in respect of support incurred in the UK.

Staff numbers for financial year 2003–04 are:

	Post	
	Tokyo	Beijing
FCO UK	40	68
OGD[1] UK	20	10
FCO LE[2]	135	166

[1] Other Government Department
[2] Locally employed

The figures reflect the total number of full-time equivalents.

Saudi Arabia

Andy King: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Kingdom of Saudi Arabia to encourage Saudi accession to the International Covenant on Civil and Political Rights and the International Covenant on Economic, Cultural and Social Rights. [173757]

Mr. Rammell: We continue to have wide-ranging concerns about human rights in Saudi Arabia including aspects of the judicial system; corporal and capital punishment; restrictions on the freedoms of religion, expression and assembly; and discrimination against women and Non-Muslims.

The UK Government is committed to encouraging Saudi Arabia to improve its human rights record. We discuss our concerns about human rights with the Saudi authorities at working, ambassadorial and ministerial level.

In bilateral discussions with Saudi Arabia we have not recently specifically discussed accession to the ICCPR or ICESCR.

Andy King: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Saudi authorities regarding the rights of members of minority faiths in Saudi Arabia; [173758]

Mr. Rammell: We continue to have wide-ranging concerns about human rights in Saudi Arabia including aspects of the judicial system; corporal and capital punishment; restrictions on the freedoms of religion, expression and assembly; and discrimination against women and Non-Muslims. The UK Government is committed to encouraging Saudi Arabia to improve its human rights record. We discuss our concerns about human rights with the Saudi authorities at working, ambassadorial and ministerial level.

Seal Culling

Miss Widdecombe: To ask the Secretary of State for Foreign and Commonwealth Affairs if the Government will support a pan-European ban on the clubbing of baby seals. [173406]

Mr. Bradshaw *[holding answer 14 May 2004]:* I have been asked to reply.

The Department is not aware of any such proposed agreement. In the event that one was forthcoming, we would consider such a proposal carefully.

Sudan

John McDonnell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress being made in securing the rights of the Nuba people in the peace talks concerning the Sudan. [173653]

Mr. Mullin: The arrangements for the administration of the Nuba Mountains Region of Sudan is currently under discussion at the peace talks in Naivasha, Kenya. We hope that agreement will be reached on this and the other outstanding issues soon.

UK Personnel

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the countries where UK personnel are involved in providing training in interrogation techniques; whether the hooding of those being interrogated forms part of the training; and if he will make a statement. [173238]

Mr. MacShane: The Government does not offer training in interrogation techniques to overseas governments. Our training on interviewing techniques for police, military and intelligence agencies complies with UK and international law. This training does not involve the use of hooding.

Venezuela

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* other United Kingdom representatives have (i) had and (ii) sought with (A) members and (B) representatives of the Government of Venezuela concerning the arrest of the Venezuelan National Guard Colonel Orlando Castro; and if he will make a statement. [173814]

Mr. Rammell: We have neither had nor sought discussions with members or representatives of the Venezuelan Government about this issue.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* other United Kingdom representatives have (i) had and (ii) sought with (A) members and (B) representatives of the (1) Government of and (2) the opposition in Venezuela concerning the arrest of 80 Colombian nationals on 9 May; what these individuals are being charged with; and if he will make a statement. [173815]

Mr. Rammell: We have neither had nor sought discussions with members or representatives of the Venezuelan Government or Opposition about this issue. To date, we are not aware of any charges having been brought against these individuals.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the possibility of a referendum in Venezuela this year. [173816]

Mr. Rammell: The Venezuelan constitution allows for the possibility of a recall referendum against elected officials, including the President, provided certain conditions are met. It is not yet clear whether these conditions will be met, and therefore not possible to determine if a referendum will take place at this stage.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last discussed Venezuela with his United States counterpart. [173817]

Mr. Rammell: My right hon. Friend the Foreign Secretary has regular discussions with Secretary Powell on a wide range of issues, including Venezuela.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the claims of cross-border activity by the United Self-Defence Forces of Colombia in Venezuela; when this assessment was last revised; and if he will make a statement. [173818]

Mr. Rammell: Alleged cross-border activities by the United Self-Defence Forces of Colombia and other illegally armed groups are a matter for the Governments of Venezuela and Colombia. The border between the two countries covers more than 2,200 km. It is porous and difficult to secure completely with the resources available. British diplomatic staff in Bogota and Caracas periodically visit the border region.

Websites

Mr. Heald: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total annual cost of his Department's websites, including those of its agencies, was in the most recent year for which figures are available. [159518]

Mr. Rammell: For the past three years the Foreign and Commonwealth Office (FCO) has been implementing a major ICT infrastructure project to co-ordinate and host its global web presence. This includes a secure platform for launching and maintaining multiple websites: FCO website (www.fco.gov.uk), a new UK Visas website (www.ukVisas.gov.uk), separate websites for over 100 British missions worldwide, and a new portal site about the UK (www.i-uk.com). It will also host the UK G8 Presidency website next year. The total cost of the project is £10 million funded by the Treasury's Capital Modernisation Fund.

The Wilton Park Executive Agency (www.wiltonpark.org.uk) spent £26,720 on their website in 2003–4.

Simon Mann

Peter Bottomley: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what information he has assessed on the treatment of Mr. Simon Mann in Zimbabwe; [173548]

(2) whether the authorities in Zimbabwe have indicated that they consider Mr. Simon Mann to be British; [173549]

(3) what representations he has made about the treatment of Mr. Simon Mann and his condition. [173550]

Mr. Rammell: Mr. Simon Mann is a dual British/South African national who requested our consular assistance on 23 April. Our rules on consular confidentiality mean that we cannot discuss the specific details of his case. However, the Zimbabwean authorities recognised his nationality status by allowing our Consul to visit him on 7 May, where we were able to discuss his welfare and treatment. We welcomed the Zimbabwean court's decision on 7 May to remove handcuffs and manacles from all of the accused while they are detained in Chikurubi Prison, Harare. We will continue to be guided by Mr. Mann about his treatment and are in regular contact with his lawyers and family.

WORK AND PENSIONS

Benefit Claimants (Over-50s)

Paul Holmes: To ask the Secretary of State for Work and Pensions what proportion of incapacity benefit claimants aged between 50 and state pension age have claimed for *(a)* more than one year, *(b)* more than five years and *(c)* more than 10 years, broken down by gender; and if he will make a statement. [172541]

Maria Eagle: The information is in the table.

Number of incapacity benefit (IB) and severe disablement allowance (SDA) claimants between the ages of 50 and state pension age, by gender and claim duration as at November 2003

Thousand

	Men		Women	
Duration of claim	*Aged 50 to 64*	*Percentage*	*Aged 50 to 59*	*Percentage*
All	804.1	100	451.7	100
Up to 1 year	86.9	11	50.0	11
From 1 to 5 years	235.6	29	135.3	30
From 5 to 10 years	353.6	44	196	43
Over 10 years	128.0	16	70.4	16

Notes:

1. Numbers are rounded to the nearest hundred and are expressed in thousands.
2. Totals may not sum due to rounding.
3. Numbers are based on a 5 per cent. sample, and are therefore subject to a degree of sampling variation.

Source:

IAD Information Centre 5 per cent. sample.

Paul Holmes: To ask the Secretary of State for Work and Pensions how many and what proportion of people between the age of 50 and state pension age claimed *(a)* sickness and *(b)* disability benefits in each year since 1997, broken down by gender; and if he will make a statement. [172542]

Maria Eagle: The information has been placed in the Library.

Child Support Agency

Tony Lloyd: To ask the Secretary of State for Work and Pensions when existing Child Support Agency cases will be transferred to the new scheme; and if he will make a statement. [174279]

Mr. Pond: I refer my hon. Friend to the written answer I gave the hon. Member for Castle Point (Bob Spink) on 18 December 2003, *Official Report*, column 1092W.

Council Housing

Mr. Austin Mitchell: To ask the Secretary of State for Work and Pensions what the cumulative extra cost to the social security budget of the transfer of council housing to registered social landlords has been in each year since 1997. [172275]

Mr. Pond: The information is not available. To determine such a figure would require detailed assumptions about the rents each authority might theoretically have charged had it retained the stock. However, the potential impact on housing benefit where stock is transferred to registered social landlords is considered as part of the overall value-for-money assessment of transfers.

Departmental Annual Report

Mr. Willetts: To ask the Secretary of State for Work and Pensions what the cost of his Department's annual report has been in each of the last seven years. [172918]

Maria Eagle: The Department for Work and Pensions has published three Departmental Reports since it was established in June 2001. The costs falling directly to the Department for production of these reports are shown in the table.

Other costs of printing and publication are met directly by the publisher, TSO (The Stationery Office) and do not fall to government.

Date of publication	*Cost to Department for Work and Pensions (£)*
May 2002	94,940
May 2003	73,089
April 2004	38,897

Departmental Policies (Sustainable Development)

Paul Holmes: To ask the Secretary of State for Work and Pensions (1) what work his Department's Green Minister has undertaken in his capacity in the last three months; [165665]

(2) what meetings his Department's Green Minister has attended in his capacity in the last 12 months; [165668]

(3) if he will list the meetings at which a representative of his Department had been present regarding the delivery of sustainable development across Government as co-ordinated by the Ministerial Sub-committee of Green Ministers. [165667]

Mr. Pond: The Green Minister for the Department for Work and Pensions is my noble Friend Baroness Hollis of Heigham, but it has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees. This practice is now formalised by Exemption 2 of Part II of the Code of Practice on Access to Government Information. Additionally, officials regularly attend the working groups which report directly to ENV(G), particularly related to the Development of the Framework for Sustainable Development on the Government Estate.

Departmental Procurement

Michael Fabricant: To ask the Secretary of State for Work and Pensions what percentage of the *(a)* crockery, *(b)* cutlery and *(c)* glassware procured by his Department over the last five years is of British manufacture. [170808]

Jane Kennedy: This Department does not procure the items specified for its staff canteens or catering facilities because these services are delivered by our contractor for the provision of estate and property services. Information on the country of manufacture of these items procured for other purposes is not collected centrally.

Employers' Insurance

Mr. Best: To ask the Secretary of State for Work and Pensions what assessment he has made of representations from the Association of British Insurers

on matters relating to employers' liability compulsory insurance; and whether he has taken steps to confirm their accuracy. [169401]

Jane Kennedy: The Association of British Insurers (ABI) represents many of the major underwriters of employers' liability compulsory insurance (ELCI) and the Department worked closely with the association in the recent review of ELCI. However, we draw information from a wide range of other sources, such as Lloyd's of London, and Datamonitor, and work closely with a range of other key representative organisations such as the Association of Personal Injury Lawyers (APIL), the British Insurance Brokers' Association (BIBA), the Confederation of British Industry (CBI), the Engineering Employers' Federation (EEF), the Federation of Small Businesses (FSB) and the Trades Union Congress (TUC).

The formal response of the ABI to the review of ELCI was one of 86 received by the review team.

John Thurso: To ask the Secretary of State for Work and Pensions how many personal injury claims were made to general insurers in specific relation to employers' liability in each of the last five years, broken down by region; and what the total value of all costs and claims in relation to such claims was, broken down by region. [174048]

Jane Kennedy: Figures for the number of personal injury claims in relation to Employers' Liability for 1999–2000 are not available. Figures for the number of personal injury claims in relation to Employers' Liability for 2001 to 2003 are in the table.

	Number
2001	219,183
2002	170,554
2003	183,342

Source:
Compensation Recovery Unit.

A regional breakdown of the figures would be available only at disproportionate cost. Separate figures for just the total value of costs and just the total value of settlements are not available. However the total value of costs and claims combined for 1999–2002 are shown in the table.

	£ million
1999	468
2000	427
2001	639
2002	926

Note:
Figures are not yet available for 2003.
A regional breakdown of the figures is not available.
Source:
Association of British Insurers.

It is important to note that because of the long tail nature of certain claims, settlements may accrue for many years to come. The figures in the table only relate to the value of claims thus far settled in each of those years.

Pensioner Income

Mr. Edward Davey: To ask the Secretary of State for Work and Pensions how many pensioners entitled to council tax benefit were non-recipients in the financial years *(a)* 2002–03 and *(b)* 2003–04; and how much the unclaimed benefit amounted to in each year. [172883]

Mr. Pond: The information requested is not available.

Latest estimates of the number of pensioners who are entitled to but not receiving council tax benefit and the amount of benefit unclaimed relate to financial year 2001–02. These are published in the DWP report: "Income Related Benefits Estimates of Take-Up in 2001/2002"; copies of the publication can be found in the Library. DWP statisticians will announce the publication date of the next set of statistics in 'Updates'—the bulletin of National Statistics releases.

Local authorities have a statutory duty to promote awareness of council tax benefit. To support them in this I launched a national campaign on 1 March 2004 to particularly encourage pensioners to claim council tax benefit.

Pensioners' Benefits

Mr. Willetts: To ask the Secretary of State for Work and Pensions pursuant to the answer of 20 April 2004, *Official Report*, column 447W, on pensioners' benefits, how many people are projected to be on *(a)* disability and *(b)* carer's benefits in the years shown in the answer. [172948]

Maria Eagle: The information requested is in the table.

Number of pensioners (historical and projected) in receipt of disability and carer's benefits for selected years

Thousand

	Disability benefits [1]	*Carer's benefits* [2]
1997–98	1,738	19
2002–03	2,026	19
2010–11	2,487	46
2020–21	2,967	54
2030–31	3,561	62
2040–41	3,879	66
2050–51	4,022	68

[1] Disability living allowance and attendance allowance.
[2] Invalid care allowance/ carer's allowance.
Notes:
1. Numbers are based on estimates from the 5 per cent. Quarterly Statistical Enquiry and therefore subject to some sampling variation.
2. Projected numbers are consistent with the long term projections of benefit expenditure as published in the HM Treasury publication "Long-Term Public Finance Report: Fiscal Sustainability with an ageing population" at the pre-Budget report 2003.
3. Numbers are rounded to the nearest thousand.

Poverty (Greater London)

Simon Hughes: To ask the Secretary of State for Work and Pensions what proportion of *(a)* men, *(b)* women and *(c)* children in each ethnic group are living in poverty, defined as below 60 per cent. of median income (i) before and (ii) after housing costs, in each Greater London borough. [173333]

Mr. Pond: The information requested is not available due to insufficient sample size.

Productivity

Bob Spink: To ask the Secretary of State for Work and Pensions what his policy is for *(a)* increasing the productivity and *(b)* cutting the costs of (i) his Department and (ii) its agencies and non-departmental public bodies. [172188]

Maria Eagle: I refer the hon. Member to the reply given by the Financial Secretary to the Treasury, on 10 May 2004, *Official Report*, columns 148–49W.

Timber

Ms Walley: To ask the Secretary of State for Work and Pensions whether his Department plans to contribute financially to the establishment of the second phase of the Central Point of Expertise on Timber. [167622]

Jane Kennedy: The Department is keen to ensure that all its timber is procured from legal and sustainable sources, and is developing a supply chain mechanism to track these sources and their levels of certification. DEFRA will set out the current position regarding the CPET in their reply on behalf of Her Majesty's Government.

Labour Statistics

Paul Holmes: To ask the Secretary of State for Work and Pensions (1) what percentage of single non-working people between the age of 50 and state pension age are in each decile of overall income distribution, broken down by gender; and if he will make a statement; [172537]

(2) how many and what proportion of people between the age of 50 and state pension age, who are not working, are in each decile of overall income distribution, broken down by gender; and if he will make a statement. [172539]

Mr. Pond: The Government are committed to tackling age discrimination in employment, extending opportunities for older workers. From Spring 1997 to Spring 2003 the employment rate for those aged 50 to State Pension Age has increased from 64.5 per cent. to 70.1 per cent. We are committed to further increasing the employment rate for the over 50s by 2006.

Through Age Positive, we are promoting the business benefits of an age diverse workforce by encouraging employers to adopt the voluntary Code of Practice: Age Diversity at Work, A Practical Guide For Business, which was first developed in 1998 and updated in 2002. The Budget 2004 announced a new high profile national guidance campaign to raise employers' awareness of, and ability to adopt, flexible employment and retirement opportunities in order to increase the recruitment, training and retention of older workers.

The information is in the tables.

Percentage of non-working single people between age 50 and state pension age by each decile group of income distribution

	Decile								
	1	*2*	*3*	*4*	*5*	*6*	*7*	*8*	*9&10*
Before housing costs									
Male	24	16	16	14	9	9	6	3	3
Female	25	21	16	11	10	7	6	3	3
After housing costs									
Male	27	18	15	10	10	6	6	3	5
Female	28	23	9	13	5	8	5	5	4

Number of non-working people between age 50 and state pension age by decile of income distribution

Thousand

	1	*2*	*3*	*4*	*5*	*6*	*7*	*8*	*9*	*10*
Before housing costs										
Male	390	240	240	190	170	130	120	80	80	50
Female	250	180	170	140	140	120	110	80	80	80
After housing costs										
Male	370	260	200	220	160	130	120	90	100	50
Female	240	180	130	180	120	130	110	100	80	100

Proportion of non-working people between age 50 and state pension age by each decile of income distribution

	Decile									
	1	*2*	*3*	*4*	*5*	*6*	*7*	*8*	*9*	*10*
Before housing costs										
Male	23	14	14	11	10	8	7	5	5	3
Female	18	13	12	11	10	9	8	6	6	6

Proportion of non-working people between age 50 and state pension age by each decile of income distribution

	Decile									
	1	*2*	*3*	*4*	*5*	*6*	*7*	*8*	*9*	*10*
After housing costs										
Male	22	15	12	13	9	7	7	5	6	3
Female	18	13	9	13	9	9	8	7	6	7

Notes:

1. Figures are for 2002–03, the latest date for which data are available.
2. Estimates are for Great Britain. Numbers are rounded to the nearest 10,000, and proportions to the nearest per cent. Decile 1 is the lowest income decile.
3. Estimates relate to the status of individuals at the time they were interviewed for the FRS.
4. FRS-based estimates for both the number of people aged between 50 and state pension age, and the number of workless in this group exceed estimates sourced from the Labour Force Survey, the main source for employment statistics. The estimate of percentages should therefore be considered more robust than the estimate of numbers in this group.
5. The estimates are based on sample counts, which have been adjusted for non-response. Estimates are subject both to sampling error and to variability in non-response.
6. The income measure used is weekly net (disposable) equivalised household income (income that is adjusted to reflect the composition of the household).
7. The Households Below Average Income series presents analysis of income of two bases: Before Housing Costs (BHC) and After Housing Costs (AHC). This is principally to take into account variations in housing costs that themselves do not correspond to comparable variations in the quality of housing.
8. The Households Below Average Income series assumes that both partners in a couple receive the same income. Therefore any differences in the above between genders can be driven only by differences from single adults, which will themselves be diluted by the figures for couples.
9. Deciles nine and 10 of the tables relating to non-working single people have been combined as individually, these deciles contained too few households to provide robust estimates.

Source:

Family Resources Survey (FRS).

HEALTH

A and E/Paediatric Departments

Mr. Goodman: To ask the Secretary of State for Health how many hospitals have an accident and emergency department and a paediatric department which is not open for 24 hours a day. [174562]

Ms Rosie Winterton: The information is not available in the form requested.

Alzheimer's Disease

Lady Hermon: To ask the Secretary of State for Health (1) what percentage of his Department's budget was spent on the development of treatment and care for Alzheimer's sufferers in each of the past three years; and if he will make a statement on the provision for those with Alzheimer's; [173269]

(2) what future funding has been allocated specifically in relation to the development of treatment and care for Alzheimer's sufferers. [173271]

Dr. Ladyman: Funding for the development of treatment and care for people with Alzheimer's disease is not identified separately, but is part of general allocations to local health and social care organisations. It is for local primary care trusts, in partnership with other local national health service and social care organisations, to assess the needs of the local population and meet them from general funding allocations.

The Government are committed to improving standards of health and social care and people with Alzheimer's disease will benefit from the new investment that is being made available to support this commitment. For the NHS there is an annual average funding increase of 7.5 per cent. above inflation over the five years 2003–04 to 2007–08. This is now the largest ever sustained increase in NHS funding. There have also been substantial increases in the level of funding provided for social services in recent years. Social services resources will increase by an annual average of 6 per cent., in real terms from 2003–04 to 2005–06. These significant funding increases will help provide new and better health and social care services for people with Alzheimer's disease.

Asthma

Mr. Laxton: To ask the Secretary of State for Health what plans he has to require health care professionals to establish a policy to reduce the number of deaths from severe asthma. [173739]

Dr. Ladyman: The chronic disease management programme, introduced in July 1993, provides arrangements for health promotion under the general practitioner (GP) contract. Participating GPs, around 94 per cent. of the total, receive a fixed annual payment for running organised programmes of care for patients with asthma.

The new general medical services contract, launched in February 2003, includes a specific quality indicator for treatment and care of people with asthma. This builds on the chronic disease management programme.

People with asthma will benefit from the expert patients programme (EPP), currently being piloted in primary care trusts around the country. The EPP is providing national health service based training in self-management skills for people with long-term chronic illness.

Bowel Cancer

Mr. Lansley: To ask the Secretary of State for Health (1) what steps he will take to tackle increases in workload for NHS staff working in *(a)* pathology, *(b)* radiology, *(c)* oncology and *(d)* surgery arising from the bowel cancer screening programme; [173829]

(2) what plans his Department has to introduce a targeted and tailored national recruitment programme to increase participation in social groups in whom colonoscopy uptake is particularly low; [173830]

(3) what estimate he has made of the cost to the NHS of introducing the national bowel cancer screening programme; [173831]

(4) what type of diagnostic test will be used in the national bowel cancer screening programme; and if he will make a statement; [173832]

(5) when the national bowel cancer screening programme will become fully operational; and if he will make a statement; [173833]

(6) what plans he has to change the *(a)* lower and *(b)* upper age limit for bowel cancer screening. [173834]

Miss Melanie Johnson: The methodology for a national bowel cancer screening programme is not clear cut. Following the publication of the results of a pilot using faecal occult blood (FOB) testing in May 2003, and early signs of the potential of flexible sigmoidoscopy, the Government re-affirmed their commitment to introducing bowel screening and to improving symptomatic services. The Department is addressing these difficult issues with the assistance of key stakeholders from the voluntary sector, patient and professional groups, and the national health service through the NHS bowel cancer programme and the bowel cancer advisory group.

The first phase of the pilot study of FOB testing showed that the performance of the original research can be replicated in a routine NHS setting. We have commissioned a second phase of the pilot at a cost of £1 million per annum to enable us to monitor the acceptability and effectiveness of repeat screening and to try and investigate service improvements, including

encouraging hard to reach social groups to accept their screening invitations. We are also considering a potential pilot of screening using flexible sigmoidoscopy.

NHS cancer screening programmes have commissioned a formal options appraisal of bowel cancer screening from the School of Health and Related Research in Sheffield. The options appraisal is due to report in the autumn, and will consider all the issues associated with bowel cancer screening, including the age range at which men and women will be invited for screening.

In addition, as part of the NHS bowel cancer programme, we are investing in the expansion, training and modernisation of the bowel cancer workforce, streamlining services for patients with bowel cancer symptoms, and considering communications issues for the general public and health professionals.

In order to gather evidence on screening methodology and to ensure symptomatic services are expanded and modernised to take on the extra work required, it is unlikely that a national screening programme will start before 2006–07. It is currently estimated that a national bowel cancer screening programme will cost around £80 million a year to run.

Care Provision

Mr. Evans: To ask the Secretary of State for Health how many referrals to care homes there have been in each of the last five years in *(a)* the Ribble Valley, *(b)* Milton Keynes, *(c)* the Isle of Wight and *(d)* Eastbourne. [173473]

Dr. Ladyman: Information on the number of referrals to care homes is not available centrally.

The table shows the number of admissions to care homes, for adults aged 18 and over, financially supported by Lancashire, Milton Keynes, Isle of Wight and East Sussex Councils with social services responsibilities (CSSRs), for the years 1998–99 to 2002–03. As data are collected by CSSR, separate figures for Ribble Valley and Eastbourne are not available. Figures for the CSSR in which Ribble Valley (Lancashire) and Eastbourne (East Sussex) are located have been provided.

Number of supported admissions[1] to care homes, 1998–99 to 2002–03

rounded numbers

CSSR	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03[2]*
Lancashire	10,885	10,315	10,595	11,250	12,225
Milton Keynes	745	850	1,030	905	865
Isle of Wight	3,030	2,265	2,480	2,400	2,765
East Sussex	4,115	4,940	4,095	3,960	5,175

[1] The table refers to the number of admissions into care homes, not the number of people. It is possible for a person to have more than one admission to a care home during the year.
[2] Includes those clients formally in receipt of preserved rights.
Source:
SR1, Tables 5a, 5b and 6.

Mr. Evans: To ask the Secretary of State for Health how many people in Lancashire received more than £400 a week in domiciliary care packages in each of the last five years. [173474]

Dr. Ladyman: The information requested is not collected centrally.

Mr. Evans: To ask the Secretary of State for Health how many people received care in care homes in the Ribble Valley in each of the last five years. [173475]

Dr. Ladyman: Information on the number of people receiving care in care homes in the Ribble Valley is not centrally available.

The table shows the number of care home places in Lancashire, as at 31 March for the years 1999 to 2001.

Figures for later years have been collected by the National Care Standards Commission but comparable details broken down by council are not available.

Number of care home places[1] in Lancashire[2], 1999 to 2001

Rounded numbers

At 31 March	*Number of places*
1999	18,900
2000	18,700
2001	17,800

[1] Nursing data includes places in general nursing homes, mental nursing homes and private hospitals and clinics.
[2] Residential data refers to Lancashire CSSR. Nursing data refers to South Lancashire, East Lancashire and North West Lancashire health authorities.
Source:
RA and RH(N) form A

Correspondence

Mr. Kaufman: To ask the Secretary of State for Health if, pursuant to his letter dated 3 April to the right hon. Member for Manchester, Gorton with regard to Mrs. B. Preston, he will obtain for the right hon. Member the letter from the Chief Executive of the Greater Manchester Strategic Health Authority promised in that letter. [172260]

Ms Rosie Winterton: A reply from the Chief Executive of the Greater Manchester Strategic Health Authority was sent to the right hon. Member on 12 May 2004.

Departmental Staff (Drugs)

John Mann: To ask the Secretary of State for Health how many of his Department's employees have been dismissed for drug abuse misconduct in the last five years. [171627]

Ms Rosie Winterton: None according to our records.

Diabetes Mellitus

Mrs. Iris Robinson: To ask the Secretary of State for Health what percentage of his Department's expenditure was allocated to diabetes mellitus in *(a)* 1984, *(b)* 1989, *(c)* 1994, *(d)* 1999 and *(e)* the latest date for which figures are available. [173735]

Ms Rosie Winterton: Information is not collected centrally on how much is spent on the treatment of diabetes. However, it has been estimated that around five per cent. of total national health service resources are used for the care of people with diabetes.

In his 2002 Budget, my right hon. Friend, the Chancellor of the Exchequer, announced an historic five-year settlement for the national health service, which provides a sustained high level of growth in funding across the whole period. These plans mean that,

for the period 2003–04 to 2007–08, expenditure on the NHS in England will increase on average by 7.3 per cent. a year over and above inflation, a total increase over the period of 42 per cent. in real terms. However, in keeping with the philosophy of "Shifting the Balance of Power", primary care trusts are free to decide the allocation of resources locally.

Disposable Surgical Instruments

Keith Vaz: To ask the Secretary of State for Health (1) how frequently and for what type of surgeries disposable instruments are used in NHS hospitals; [173177]

(2) what research he has commissioned on the possible risk of haemorrhages when using disposable instruments during operations; [173178]

(3) what action he would take in response to research which showed a correlation between using disposable instruments and increased risk of haemorrhages. [173179]

Ms Rosie Winterton: Single-use instruments are used in a range of surgical procedures. The Department does not collect data on the frequency and the type of procedures where single-use instruments are used.

The Department has not commissioned any research on the possible risk of haemorrhaging when single-use instruments are used. The national prospective tonsillectomy audit is looking at different techniques used in tonsillectomies, including the use of single-use instruments.

The Chief Medical Officer has asked the National Institute for Clinical Excellence (NICE) to issue guidance on the safety of single-use instruments in tonsillectomies following the initial findings of the national prospective tonsillectomy audit. NICE issued interim guidance on the use of diathermy on 24 March and definitive guidance will be issued after it has conducted a full review.

Eating Disorders

Brian Cotter: To ask the Secretary of State for Health what the total cost was of formulating the National Institute for Clinical Excellence guidelines on the treatment of eating disorders. [172476]

Ms Rosie Winterton: The estimated cost of formulating the National Institute for Clinical Excellence's guidance on eating disorders was about £240,000.

Fossetts Farm

Mr. Amess: To ask the Secretary of State for Health when work on Fossetts Farm for the new NHS treatment centre will begin; and if he will make a statement. [174149]

Dr. Ladyman: Southend Primary Care Trust has lodged a planning application with Southend borough council for the new treatment centre at Fossetts Farm.

Health Services

Mr. Laxton: To ask the Secretary of State for Health how many people aged over 60 in Derby, North have benefited from the abolition of charges for eye tests; and what percentage this represents of over 60-years-olds in Derby, North. [173741]

Dr. Ladyman: Figures for the number of sight tests by constituency, or senior citizens are not collected centrally.

In 2002–03, the total number of national health service sight tests paid for patients aged 60 and over in Trent Strategic Health Authority was 231,650. The total number eligible for free sight test for those aged 60 and over was 584,620.

Sight tests can not be equated to the numbers of patients. Although most people do not come back for a sight test within the year, some patients suffering from medical conditions are advised to have re-examinations sooner.

Mr. Meale: To ask the Secretary of State for Health how many NHS doctors were working within Nottinghamshire health authority areas in each year since 1997. [173524]

Dr. Ladyman: The information requested is shown in the tables.

Hospital, Public Health Medicine and Community Health Services (HCHS) Doctors[1] and General Medical Practitioners (excluding retainers)[2] for Trent Strategic Health Authority and selected organisations—as at 30 September

Mr. Flook: To ask the Secretary of State for Health if he will make a statement on NHS waiting times for patients needing heart surgery in Taunton. [172015]

Ms Rosie Winterton: The latest available data for March 2004 shows that there were no patients waiting nine months or more in the Dorset and Somerset Strategic Health Authority area, which includes Taunton.

Mr. Flook: To ask the Secretary of State for Health how many NHS *(a)* doctors and *(b)* nurses there were in Taunton in each of the last three years. [172018]

Ms Rosie Winterton: Requested information on the number of national health service doctors and nurses in Taunton, in each of the last three years is shown in the tables.

All NHS doctors within specified organisations as at 30 September each year

number (headcount)

Mr. Neil Turner: To ask the Secretary of State for Health what changes there have been to NHS waiting list times in the last seven years for the residents of Wigan. [169347]

Miss Melanie Johnson: The information requested is not collected on a constituency basis. The information relating to the national health service organisation serving the Wigan area has been placed in the Library.

Honours

Brian White: To ask the Secretary of State for Health how much time his Department spent dealing with honours in the last year for which figures are available, broken down by civil service grade. [173040]

Ms Rosie Winterton: The Department, during the last financial year, had four full time staff (36 hours per week) working on honours. The grades are:

One administrative officer (IP1 upper),

Two executive officers (IP2 upper),

One senior executive officer (IP3 upper).

Data is not kept on time spent by other members of staff in the Department who occasionally deal with honours.

Midland Health Consultancy Network

Paul Farrelly: To ask the Secretary of State for Health if the Department will place in the Library a copy of the report by the Midland Health Consultancy Network, compiled at the time of the Griffiths Review into the research framework in north Staffordshire. [174739]

Dr. Ladyman: The Midland Health Consultancy Network Ltd. (MHCN), acting under contract to the former West Midlands Regional Office of the NHS Executive, provided secretariat support to the panel conducting the review of the research framework in North Staffordshire Hospital National Health Service Trust. MHCN did not produce a separate report.

The full report can be found on the Department's website at www.dh.gov.uk/assetRoot/04/01/45/42/04014542.pdf.

Midwives/Nurses

Mr. Hurst: To ask the Secretary of State for Health how many nurses were employed by the national health service in *(a)* the county of Essex in each year from 1990 to 1997 and *(b)* the county of Essex and the unitary authorities of Southend-on-Sea and Thurrock in each year from 1998 to 2003. [173639]

Dr. Ladyman: The information requested is shown in the tables. The figures have not been provided for 1990–94 as they are incomparable with later years because of the way data was collected.

National health service hospital and community health services: Qualified nursing, midwifery and health visiting staff including practice nurses employed by unrestricted principals and equivalents (UPEs)[1] in each specified health authority as at 30 September[2] each specified year

Headcount

		1995	1996
Total specified health authorities		8,152	7,879
QAX	North Essex HA	4,872	4,625
QAY	South Essex HA	3,280	3,254

[1] UPEs include QMS unrestricted principals, PMS contracted GPs and PMS salaried GPs.
[2] Practice nurse data is estimated at 1 October.

Mobile Dental Surgeries

Annabelle Ewing: To ask the Secretary of State for Health how many mobile dental surgeries operate in England, broken down by trust area. [172031]

Ms Rosie Winterton: National health service mobile dental clinics are used in mostly rural areas to improve access to dental services. The mobile clinics operate under the community dental service (CDS) and the personal dental service (PDS).

Information is not collected centrally on CDS mobile dental services. Currently, there are two PDS pilots that operate solely from mobile units and a further 13 which use mobile units as an outreach service. Details of these are shown in the table.

Mobile PDS pilots	*Commissioning primary care trust (PCT)*
County Durham Mobile Clinic	Derwentside PCT
Salford and Trafford Mobile Clinic	Salford PCT
PDS pilots which use mobile outreach clinics	
Bedfordshire Dental Access Centre	Bedfordshire Heartlands PCT
Birmingham Personal Dental Service	Eastern Birmingham PCT
East Lancashire Personal Dental Service	Burnley Pendle and Rossendale PCT

Mobile PDS pilots	Commissioning primary care trust (PCT)
Hull and East Riding Personal Dental Service	Eastern Hull PCT
North and East Devon Personal Dental Service	Mid Devon PCT
Northamptonshire Dental Access Centre	Northamptonshire Heartlands PCT
Plymouth Personal Dental Service	Plymouth PCT
Shropshire Personal Dental Service	Shropshire County PCT
Solihull Personal Dental Service	Solihull PCT
Southampton and South West Hampshire PDS	Southampton City PCT
Swindon and Wiltshire Dental Access Centre	Kennet and North Wiltshire PCT
Vauxhall Personal Dental Service	North Liverpool PCT
Worcestershire Dental Access Centre	South Worcestershire PCT

Nursing and Residential Homes

Adam Price: To ask the Secretary of State for Health what the cost to each local authority in England of nursing and residential home placements was in the latest period for which figures are available. [173937]

Dr. Ladyman: Information on the average gross weekly expenditure per person on supporting adults in residential and nursing care by each council responsible for social services in England for 2002–03, the latest financial year for which data are available, has been placed in the Library.

Adam Price: To ask the Secretary of State for Health how many individuals were placed in nursing and residential homes by each local authority in England in each of the last six years. [173938]

Dr. Ladyman: The number of individuals placed in care homes by each council in England is not available centrally.

Information on the number of admissions to care homes, for adults aged 18 and over, financially supported by councils with social services responsibilities, for the years 1997–98 to 2002–03 has been placed in the Library.

Data on admissions to care homes of adults whose fees are paid fully by income support, private means or any combination of these are not collected centrally.

Adam Price: To ask the Secretary of State for Health how many individuals are in nursing and residential placements in each local authority in England. [173939]

Dr. Ladyman: Information on the number of people in care homes is not centrally available.

Information on the number of residential care home places in England by council with social services responsibilities (CSSR) and nursing home places by health authority for people aged 18 and over as at 31 March 2001 has been placed in the Library.

Figures for later years have been collected by the National Care Standards Commission but comparable details broken down by CSSR and health authority are not available.

Organ Donation

Dr. Naysmith: To ask the Secretary of State for Health (1) what assessment his Department has made of how a mandatory choice scheme for organ donation *(a)* would operate in the UK and *(b)* would be enforced; [171653]

(2) what assessment his Department has made of the impact on organ donation rates of a mandatory choice scheme, under which people would be obliged to register their intention whether or not to donate. [171654]

Ms Rosie Winterton: The Government's policy on organ donation and transplantation is set out in "Saving Lives, Valuing Donors—A Transplant Framework of England", which was published in July 2003. This draws on the evidence of those factors that are effective in increasing organ donation. There is no evidence to suggest that a mandatory choice system would affect organ donation rates.

Residential Care/Nursing Beds

Mr. David Atkinson: To ask the Secretary of State for Health what the change in numbers of *(a)* residential care beds and *(b)* nursing beds has been in (i) Dorset health authority area and (ii) Bournemouth since 1997. [173622]

Dr. Ladyman: The table shows the number of residential and nursing home places in Dorset and Bournemouth, as at 31 March for the years 1997 to 2001.

Figures for later years have been collected by the National Care Standards Commission but comparable details broken down by council are not available.

Number of residential and nursing places in Dorset and Bournemouth: 1997 to 2001

Rounded numbers

At 31 March	Residential places[1]	Nursing places[2,3]
Dorset		
1997[4]	—	3,660
1998	3,430	3,690
1999	3,140	3,410
2000	3,110	3,130
2001	3,070	3,090
Bournemouth		
1997	—	—
1998	3,340	—
1999	3,040	—
2000	2,660	—
2001	2,520	—

[1] Covers Dorset and Bournemouth councils with Social Services responsibility.
[2] Dorset health authority includes Bournemouth.
[3] Nursing data includes places in general nursing homes, mental nursing homes and private hospitals and clinics.
[4] Comparable data not available. In 1997 Dorset county council included Poole and Bournemouth councils.

RA and RH(N) form A

Parliamentary Questions

Mr. Brady: To ask the Secretary of State for Health when he will reply to the Written Questions tabled by the hon. Member for Altrincham and Sale, West on 5 March. [173579]

Ms Rosie Winterton: I replied to the hon. Member on Tuesday 18 May 2004.

Professional Executive Committees

Tom Brake: To ask the Secretary of State for Health what reviews of *(a)* professional executive committees (PECs) and *(b)* the role patients' forum representatives play on PECs has been conducted by the Government. [171349]

Ms Rosie Winterton: There has been no national review of the role of patients' forums and professional executive committees (PECs).

Primary care trusts (PCTs) have developed their PEC membership in many diverse ways to reflect and meet the needs of their local health community.

Forums are encouraged by the Commission for Patient and Public Involvement in Health to work closely with PCTs, their boards and professional executive committees to enable them to carry out their functions.

Radiography Services (Berkshire)

Mrs. May: To ask the Secretary of State for Health (1) what the average waiting time for radiotherapy treatment is in *(a)* East Berkshire, *(b)* the Royal Berkshire Hospital and *(c)* Wexham Park Hospital; [173731]

(2) how many people were waiting for radiotherapy treatment in east Berkshire in each of the last five years. [173732]

Ms Rosie Winterton: The Department does not collect data on waiting times for radiotherapy.

TREASURY

Abortion

Mr. Amess: To ask the Chancellor of the Exchequer how many conceptions resulted in abortions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years in each year since 2000, broken down by strategic health authority; and if he will make a statement. [174525]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. David Amess, dated 20 May 2004:

As National Statistician I have been asked to reply to your recent question asking for the number of conceptions leading to an abortion for women aged between 11 and 19 for each year since 2000. (174525)

The number of conceptions leading to an abortion, at ages under 14 and by single year for ages 14 to 19, are shown in the attached tables. The information is provided for all strategic health authorities in England, for the years 2000 and 2001. This is the most recent year for which figures are available.

In order to protect the confidentiality of individuals, ONS does not publish these figures by single year of age below age 14, given the small number of cases.

Note:
To protect confidentiality, figures for certain strategic health authorities are not shown

E-Government

Mr. Prisk: To ask the Chancellor of the Exchequer when a decision was made to proceed with the Inland Revenue's e-Government programme; and what consultation took place before the decision to proceed with the programme. [174027]

Dawn Primarolo: The Inland Revenue started to develop 'e' channels in March 1999 in response to the Modernising Government White Paper and the Chancellor's Budget announcement that internet filing of tax returns for individuals was to be developed. The 'e' services Programme was more formally established in April 2001.

Export Subsidies

Miss McIntosh: To ask the Chancellor of the Exchequer (1) what discussions he has had with his French counterpart on EU negotiations with the World Trade Organisation on the removal of export subsidies; and if he will make a statement; [174268]

(2) what discussions he has had with his French counterpart regarding export subsidies in connection with World Trade Organisation trade requirements in the context of the Doha Round. [174801]

Mr. Gordon Brown: I refer the hon. Member to the answer I gave to the hon. Member for Bristol, North-West (Dr. Naysmith) on 13 May 2004, *Official Report*, columns 460–62.

Income Tax

John Mann: To ask the Chancellor of the Exchequer what estimate he has made of the cost implication to the Treasury of all pensioners being exempt from income tax for the first £10,000 of their earnings; and how many pensioner households this would affect. [171641]

Dawn Primarolo *[holding answer 10 May 2004]:* The cost of exempting the first £10,000 of income from income tax for all pensioners would be £2.2 billion in 2004–05. This measure would affect approximately 3.0 million pensioner households. This estimate is based on the 2001–02 Family Resources Survey, and excludes any behavioural response to the change. Well over half the cost is accounted for by the top 20 per cent. of pensioner households.

Plastic Bags

Phil Sawford: To ask the Chancellor of the Exchequer what plans he has to introduce a tax on plastic bags. [174974]

John Healey: The Chancellor continues to keep all taxes under review. The Government currently have no plans for a plastic bag tax.

Prescription Drugs (Import Controls)

Bob Spink: To ask the Chancellor of the Exchequer what controls are available to prevent individuals importing drugs that are available in the UK by prescription only. [174472]

John Healey: HM Customs and Excise are responsible for detecting and preventing the illegal import of drugs controlled under section 3(1) of the Misuse of Drugs Act, 1971. There are no import prohibitions on prescription-only medicines unless they contain drugs that are controlled under the Misuse of Drugs Act, such as Valium. A Home Office drugs licence must accompany such drugs if they are to be imported legally. When Customs detect such drugs illegally imported, either in the post or at ports or airports, they seize them and prosecute the importers where appropriate.

Sports Facilities

Mr. Reed: To ask the Chancellor of the Exchequer what assessment he has made of the effects of granting mandatory rate relief to all sports and leisure facilities in line with that granted to community amateur sports clubs. [174051]

Mr. Raynsford: I have been asked to reply. There was never any intention to grant mandatory rate relief to all sports and leisure facilities. The relief is targeted at community based sporting activities. Many premises defined on the rating list as "sports clubs" and "leisure facilities" are commercial profit-making companies. There would be no reason to offer relief to commercial companies to be funded by the general taxpayer.

Teenage Pregnancies

Mr. Amess: To ask the Chancellor of the Exchequer (1) how many conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 there were in each year since 2000, broken down by strategic health authority; and if he will make a statement; [174522]

(2) what the rate of conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 was in each year since 2000, broken down by strategic health authority; and if he will make a statement. [174523]

John Healey: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. David Amess, dated 20 May 2004:

As National Statistician I have been asked to reply to your recent questions asking for conception numbers and conception rates for women aged between 11 and 19 for each year since 2000. (174522, 174523)

Numbers of conceptions are estimated from registrations of births and notifications of abortions. Miscarriages before the 24th week of gestation are not included.

Numbers and rates of conceptions at ages under 14, and by single year for ages 14 to 19, are shown in the tables. The information is provided for all strategic health authorities in England, for the years 2000 to, 2002. The figures for 2002 are provisional estimates, since complete abortions data is not yet available. Information on the number of conceptions at age 19 is not available for 2002, and information on conceptions at age 18 is only available at national level for this year.

In order to protect the confidentiality of individuals, ONS does not publish these figures by single year of age below age 14, given the small number of cases.

Conceptions: Numbers and rates[1] for women under 20 by age

[1] Rates for women aged under 14 are per 1,000 females aged 13 and rates by single year of age are per 1,000 females of the same age
[2] Provisional estimates based on incomplete abortion data.
[3] Processing of abortion data for women aged 18 and over is incomplete and therefore figures are not yet available. An early provisional national estimate has been made of conceptions at age 18, but not at other ages or subnationally.

Unemployment

Mr. Wareing: To ask the Chancellor of the Exchequer what the level of unemployment was in Liverpool, West Derby constituency in each year since 1989. — [173672]

Ruth Kelly *[holding answer 17 May 2004]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Robert Wareing, dated 20 May 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about unemployment in the Liverpool, West Derby constituency. (173672)

Table 1 gives levels of unemployment in the Liverpool West Derby Parliamentary Constituency covering the twelve months ending February of 1997, 2000, 2001, 2002, and 2003. Estimates for the 12 month periods ending in February of all other years since 1989 are unavailable.

Estimates are taken from the Office for National Statistics' Labour Force Survey (LFS). As with any statistical sample survey, estimates for the LFS are subject to sampling variability.

ONS also compiles statistics of those claiming Jobseeker's Allowance (ISA) for local areas including Parliamentary Constituencies. Table 2 gives the annual average number of ISA claimants for the Liverpool, West Derby constituency in each year since 1989.

Table 1
Number of unemployed people in Liverpool West Derby Parliamentary constituency 12 month periods ending in February on 1997, 2000, 2001, 2002 and 2003

Year	Number unemployed
1997	8
2000	5
2001	4
2002	[1]
2003	5

NORTHERN IRELAND

Airports

David Burnside: To ask the Secretary of State for Northern Ireland what public funding supported capital infrastructure improvements were carried out at each of the Northern Ireland airports during the last five years. [174378]

Mr. Spellar: The information requested is set out in the table.

£

	1999–2000	2000–01	2001–02	2002–03	2003–04
Belfast International Airport	Nil	Nil	Nil	Nil	Nil
Belfast City Airport	Nil	Nil	Nil	Nil	Nil
City of Derry Airport	1.4 million	Nil	Nil	Nil	Nil
St. Angelo Airport	973,583	26,417	Nil	Nil	Nil

"Capital infrastructure" is interpreted as being infrastructure that is necessary to the operation of an airport business.

Bilingual Policy

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland by whom, by what authority, and when the decision was taken to continue the Department of Health, Social Services and Public Safety's bilingual policy following the suspension of the Northern Ireland Assembly in October 2002. [170053]

Angela Smith: During devolution Northern Ireland Executive Ministers decided policy on the language to be used by each Department for letterheads and public advertisements, including the use of Irish and Ulster Scots. At an early stage during the current period of suspension, my right hon. Friend the Secretary of State for Northern Ireland, decided that the position within each Northern Ireland Department, including the Department of Health, Social Services and Public Safety, should remain unchanged. This remains his current assessment.

Bus Station (Lisburn)

Mr. Donaldson: To ask the Secretary of State for Northern Ireland whether the Department for Regional Development has received the economic appraisal for a new bus station in Lisburn; and when a decision will be made. [173195]

Mr. Spellar: The Department for Regional Development has not yet received an economic appraisal for a new bus station in Lisburn.

Civil Service

Lady Hermon: To ask the Secretary of State for Northern Ireland how many staff were employed, by grade, in the Northern Ireland Civil Service in financial years *(a)* 2002–03 and *(b)* 2003–04; and if he will list the (i) total salary bill, (ii) average salary and (iii) change in average salary for staff within each grade during these two periods. [170032]

Mr. Pearson: The information in the following tables gives the total salary costs and average salary costs for staff in post at March 2003 and March 2004. These figures do not include non-salary payments such as allowances or non-consolidated bonuses. The figures given do not allow for the consequences of staff movements in to or out of grades on promotion during the financial year or other personnel changes within grades such as recruitment, retirement and wastage.

For these reasons the increase in average salary between 2002–03 and 2003–04 is different to the cost of the 2003–04 pay award which was 3.67 per cent.

2003	Full-time equivalent staff numbers[1]	Salary total (£)	Average salary (£)
SCS	215.95	13,970,622.01	64,693.78
Grade 6	215.59	10,276,104.13	47,665.03
Grade 7	910.39	36,061,567.23	39,611.12
Deputy Principal	1,730.25	54,065,540.27	31,247.24
Staff Officer	2,684.37	63,845,361.83	23,784.11
Executive Officer I	3,392.37	69,435,134.15	20,468.03
Executive Officer II	3,529.13	58,057,105.87	16,450.83
Administrative Officer	7,164.03	96,120,522.87	13,417.10
Administrative Assistant	2,618.97	28,905,560.18	11,037.00
Total	22,461.05	430,737,518.54	19,177.09

2004	Full-time equivalent staff numbers[1]	Salary total (£)	Average salary (£)	Increase in average salary between 2003 and 2004 (percentage)
SCS	215.15	14,325,435.64	66,583.48	2.92
Grade 6	220.82	10,593,469.32	47,973.32	0.65
Grade 7	974.17	38,707,644.96	39,733.97	0.31
Deputy Principal	2,011.51	61,897,910.12	30,771.86	-1.52
Staff Officer	2,868.46	68,553,759.99	23,899.15	0.48
Executive Officer I	3,429.82	70,677,467.27	20,606.76	0.68
Executive Officer II	3,888.25	64,285,384.40	16,533.24	0.50

2004	Full-time equivalent staff numbers[1]	Salary total (£)	Average salary (£)	Increase in average salary between 2003 and 2004 (percentage)
Administrative Officer	7,291.42	98,431,257.28	13,499.60	0.61
Administrative Assistant	2,779.99	32,065,042.11	11,534.23	4.51
Total	23,679.59	459,537,371.11	19,406.47	1.20

[1] These figures refer to permanent NICS non-industrial staff-in-post in the 11 Northern Ireland Departments (excluding NIO).

Class Sizes

Mr. Beggs: To ask the Secretary of State for Northern Ireland (1) what discretion is available to principals and governors in applying the guidance on class sizes in practical subjects in post-primary schools contained in Circular 2004/05; [173202]

(2) whether *(a)* choir and *(b)* orchestra are considered practical subjects for the purposes of restricting class sizes in post-primary schools as outlined in Circular 2004/5; [173208]

(3) whether the limitation on class sizes in music lessons is affected by *(a)* the types of instruments being used and *(b)* the number of pupils using instruments; [173209]

(4) for what reason the decision was taken by the Department of Education, outlined in Point 15 of Circular 2004/5, to supersede the exception previously granted to class sizes in music by Circular 2001/14 and the Department's letter dated 19 December 2001. [173211]

Mr. Gardiner: The Department considers that in general health and safety hazards are such that adequate and safe supervision of pupils is not possible if more than 20 pupils are present in a class and involved in practical activities. This applies to music classes but not choirs or orchestras which are not classified as classes for the purposes of the Department's Circular on Class Sizes in Practical Subjects. This Circular supersedes an earlier Circular which temporarily removed the 20 pupils class size limit. This occurred because of representations which were made at the time that schools required more notice before implementing the policy in relation to class sizes in music.

In meeting the Circular's requirements schools should consider the effective use of timetable strategies to reduce class sizes. Should any other issues arise for specific schools with regard to meeting the maximum class size requirement of 20 pupils for music, schools can seek advice from the Department on an appropriate way forward.

Diabetes

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what percentage of health funding was spent on diabetes mellitus in *(a)* the last year for which figures are available, *(b)* 1985, *(c)* 1990, *(d)* 1995 and *(e)* 2000. [173586]

Angela Smith: This information is not available.

Integrated Development Fund

Mr. Hume: To ask the Secretary of State for Northern Ireland if he will make a statement on the quality of engagement between Government Departments and local agents in Derry on the marker bid under the Integrated Development Fund. [165343]

Mr. Pearson: On the 12 August 2003,1 formally invited bids from the Integrated Development Fund (IDF) in the context of the completion of integrated development plans for the North West, West Belfast and Greater Shankill and the South Down fishing villages.

The Ilex Urban Regeneration Company was responsible for preparing an interim bid for the North West to the IDF, working in partnership with relevant Government Departments and other public bodies. Ilex submitted the interim bid to the Office of the First and Deputy First Minister, for consideration on 5 April. I have been assured by Ilex that Government Departments and other relevant agencies worked constructively and effectively with them on this matter in providing the necessary information and support, and helping to ensure that plans are consistent with existing Government strategies.

Invest Northern Ireland

David Burnside: To ask the Secretary of State for Northern Ireland what the annual running costs of Invest Northern Ireland were over the last three years; and how much inward investment has been attracted and how many new jobs have been created over this period. [174720]

Mr. Gardiner: Invest NI was established on 1 April 2002. The running costs were £26.61 million for 2002–03 and £27.47 million (provisional) for 2003–04. Over the period, Invest NI has attracted 46 inward investment projects with the promise of £298.02 million of investment and 3,086 jobs.

Official Vehicles

John Barrett: To ask the Secretary of State for Northern Ireland what percentage of official vehicles used by his Department are run on *(a)* petrol, *(b)* diesel, *(c)* liquid petroleum gas and *(d)* compressed natural gas. [172773]

Mr. Pearson: The Northern Ireland Office and Northern Ireland Departments run a total of 248 vehicles. The percentage of each type of fuel used is outlined in the table.

Type of fuel	Percentage
Petrol	12
Diesel	87
Liquid petroleum gas	1
Compressed natural gas	0

In addition to the vehicles summarised above, the Department of the Environment has a fleet of 252 mopeds which are used to train pupils undertaking Road Traffic Studies at school, of which 251 are run on petrol and one on diesel.

Older People

Mr. Webb: To ask the Secretary of State for Northern Ireland for what *(a)* initiatives, *(b)* campaigns and *(c)* advisory bodies relating to older people his Department (i) is responsible and (ii) has provided funding since 2001; and what the cost in each year was for each one. [166242]

Mr. Spellar: The Office of the First Minister and Deputy First Minister is currently developing an older people's strategy entitled Ageing in an Inclusive Society within the context of the Promoting Social Inclusion element of the New Targeting Social Need policy, which is due to be published for public consultation shortly.

Set out as follows is available information on departmental initiatives, campaigns and advisory bodies relating to older people, and corresponding costs for each financial year from 2001–02:

Initiatives, Campaigns and Advisory bodies relating to Older People in NI from 2001

(a) Initiatives

		Costs (£)		
Department	*Initiative*	*2001–02*	*2002–03*	*2003–04*
DCAL/Fisheries Conservancy Board	Concessionary Permit Fee for fishing Public Angling Estate for over 60 year olds + Concessionary Angling Licence Fee for over 60 year olds	—	—	[1]44,000
DEL	New Deal 50+	1,435,000	1,151,000	854,000
DHSSPS	"Keep Warm, Keep Well"	13,686	No grant made	12,550
DRD	Concessionary Fares Scheme for over 65 year olds	[2]2,918,000	[2]6,682,644	[2]6,853,750
DSD	Warm Homes and Warm Homes Plus	[3]4,300,000	[3]7,952,000	[3]10,650,000
DSD	Locks for the Elderly Scheme	—	—	150,000

	Age Concern	21,600	22,300	23,000
	University for the Third Age	—	8,700	6,200
DSD	Making Belfast Work:			
	Engage with Age	342,000	74,000	117,000
NIO	Be Sure Be Secure	—	60,614	—
NIO	Lock Out Crime Scheme	—	—	152,795
	Drama School	—	—	1,000
	Competition	—	—	705

[1] Estimate.
[2] Includes costs for public bus travel only.
[3] Includes people under 50 years receiving benefits under Warm Homes scheme.

(b) Campaigns

		Costs (£)		
Department	*Campaigns*	*2001–02*	*2002–03*	*2003–04*
DETI	Age Positive	—	—	Launched January 2004[1]
DRD	Promotion of Free Travel for Older People	120,000	—	—
DSD—Social Security Agency	Pension Credit Advertising Campaign[2]	—	—	Not available[2]
NIO	Stay Safe Secure	—	—	111,540

[1] Costs of Age Positive campaign in financial year 2004–05 expected to be £70,000.
[2] In addition to the Pension Credit Advertising Campaign, from 2001 DSD Social Security Agency has been engaged in a range of initiatives and campaigns to promote awareness of benefits for older people, which has incurred an overall cost of over £1 million.

(c) Advisory Bodies

		Costs (£)		
Department	*Advisory Body*	*2001–02*	*2002–03*	*2003–04*
DHSSPS	Age Concern (NI)	151,377	155,161	161,305
DHSSPS	Help the Aged (NI)	42,000	43,050	44,755

In addition, there are a number of general initiatives carried out by Departments which will inevitably impact on older people. For example, DARD carry out programmes and initiatives for farmers, 42 per cent. of whom in NI are over 50 years; and DEL's New Deal 25+ programme includes participants aged 25–64 years.

Also, DRD is developing an Accessible Transport Strategy to improve access to the transport system for older people and people with disabilities, which is currently under public consultation.

Psychiatry Services

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on child and adolescent psychiatry services in the Northern Board area, including provision of social workers. [173615]

Angela Smith: Recognising that up to 20 per cent. of young people experience mental health problems at some stage in childhood, Child and Adolescent Mental Health Services (CAMHS) are a key priority in the Northern Health and Social Services Board. The

number of staff in the specialist CAMHS team, which includes three Senior Social Work Practitioners, has increased from 11 to 20 over the last three years. Waiting lists for the specialist CAMHS team have reduced from 18–24 months to 3–9 months. In the last year up to 30 multidisciplinary professional workers working with young people outside of the specialist CAMHS team have received training and support.

Specialist community-based CAMHS teams strive to support young people in the community wherever appropriate rather than have recourse to in-patient services.

Public Sector Housing

Mr. Beggs: To ask the Secretary of State for Northern Ireland when the decision was taken by the Northern Ireland Housing Executive to develop two separate integrated sites for public sector housing; what criteria were used; whether further sites have been identified by the Northern Ireland Housing Executive for integrated communities; and if he will make a statement. [174093]

Mr. Spellar: Applicants for social housing have a choice of where they wish to live and there are a number of people who would prefer to live in an integrated housing environment. With less than 10 per cent. of social housing integrated, the choice of where to live for those people who prefer integration is greatly reduced compared to those living in segregated communities.

The Housing Executive Board, at its meeting in September 2003, agreed that proposals should be brought forward for two integrated housing pilot projects which would enable the Housing Executive, and others, to test the policy and procedural implications of integrated housing.

The proposals are at an early stage and locations for the pilot projects have still to be identified. There are no proposals for further pilots.

The criteria to be used for developing the two pilot projects will facilitate and encourage integrated housing as far as this is practicable, desirable and safe. It will take into consideration local letting policies, sustainability of the schemes, plans to involve stakeholders and strategic and operational structures.

The proposals reflect the Housing Executive's and other public bodies' responsibilities under Section 75 of the Northern Ireland Act 1998 which deal with the promotion of equality of opportunity and good relations.

Strategic Investment Board

Mr. McNamara: To ask the Secretary of State for Northern Ireland what conflict of interest procedures are in place for board members and officials of the Strategic Investment Board. [164942]

Mr. Pearson: Board members of the Strategic Investment Board are required to comply fully with procedures to deal with potential conflicts of interest that follow "Company Law and the Guidance on Codes of Practice for Board Members of Public Bodies", produced by the Cabinet Office, a copy of which is available in the Library.

Officials of the Strategic Investment Board are required to provide conflict of interest declarations in the same format as board members and in line with the relevant public sector guidance.

Under these requirements, the Strategic Investment Board keeps an up-to-date conflict of interests register, details of which will be made publicly available.

Teachers (Sick Leave)

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many teachers took long-term sick leave during each of the last five academic years. [173205]

Mr. Gardiner: It will take some time to collate this information. I will write to the hon. Gentleman with details as soon as possible and place a copy of my response in the Library.

Tourism (Motor Cycling)

David Burnside: To ask the Secretary of State for Northern Ireland what estimate he has made of the tourism revenue spent in Northern Ireland as a result of the North West 200 motorcycle races this year. [R][174597]

Mr. Gardiner: The Northern Ireland Events Company (NIEC) provides financial support towards the North West 200. Based on information from the event organisers the NIEC will draw up a post evaluation report. This information will include bed revenue and tourist spend and will be required from the organisers within eight weeks of the date of the event.

Based on figures for previous years provided by Coleraine borough council (CBC) it is estimated that the North West 200 will generate approximately £5.6 million tourism revenue in 2004.

Visitor Centres

Mr. McNamara: To ask the Secretary of State for Northern Ireland if he will list the visitor centres in receipt of grant aid since 1990; what the nature and level were of grant-aid sums paid; what visitor numbers were originally predicted for each centre; and what the most recent visitor numbers recorded at the centres are. [164945]

Mr. Gardiner: A list of visitor centres assisted by the Northern Ireland Tourist Board, the Department of Agriculture and Regional Development and Department for Culture, Arts and Leisure since 1990, has been placed in the Library.

Recent actual visitor numbers have been provided where possible. However, it has not been possible to provide originally predicted visitor numbers for each visitor centre as this information could be provided only at disproportionate cost.

Waiting Lists/Times

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many patients are awaiting *(a)* admission and *(b)* out-patient assessment at each hospital in the province; and how many have been waiting six months or longer. [175172]

Angela Smith: Waiting list statistics are collected for each HSS trust. The most recent waiting list data available show the position at 31 December 2003.

Number of people waiting for in-patient admission to hospital[1]

Provider	*Total number waiting*	*Number waiting six months or longer*
Altnagelvin Hospitals HSS Trust	4,405	1,153
Belfast City Hospital HSS Trust	6,699	2,811
Causeway HSS Trust	1,477	442
Craigavon Area Hospital Group HSS Trust	7,610	3,379
Down and Lisburn HSS Trust	1,145	245
Green Park HSS Trust	5,381	2,772
Mater Infirmorum Hospital HSS Trust	1,755	278
Newry and Mourne HSS Trust	892	223
Royal Group of Hospitals HSS Trust	11,025	4,920
Sperrin Lakeland HSS Trust	1,801	319
Ulster Community and Hospitals HSS Trust	5,369	2,011
United Hospitals Group HSS Trust	5,047	1,715
Northern Ireland total	52,606	20,268

[1] Includes normal in-patient and day cases.

Number of people waiting for a first out-patient appointment[1]

Provider	*Total number waiting*	*Number waiting six months or longer*
Altnagelvin Hospitals HSS Trust	18,498	6,874
Armagh and Dungannon HSS Trust	1,649	497
Belfast City Hospital HSS Trust	10,728	2,284
Causeway HSS Trust	4,643	1,858
Craigavon and Banbridge Community HSS Trust	432	103
Craigavon Area Hospital Group HSS Trust	13,122	5,302
Down and Lisburn HSS Trust	5,683	1,931
Foyle HSS Trust	44	6
Green Park HSS Trust	8,640	4,244
Homefirst Community HSS Trust	762	88
Mater Infirmorum Hospital HSS Trust	4,731	1,238

Ulster Community and Hospitals HSS Trust	22,412	10,841
United Hospitals Group HSS Trust	16,212	7,028
Northern Ireland total	146,180	56,951

[1] Includes cancellations and referrals.

Written Answers to Questions

Friday 21 May 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Abandoned Vehicles

Sir Sydney Chapman: To ask the Secretary of State for Environment, Food and Rural Affairs how many abandoned vehicles were removed by local authorities in England in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04. [173407]

Mr. Morley *[holding answer 18 May 2004]:* The number of abandoned vehicles removed by local authorities in England was as follows:

	Number of vehicles recovered by local authorities
2001–02	284,400
2002–03	298,900

Note:
Figures for 2003–2004 will be available in early 2005

Disposable Nappies

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 6 May, *Official Report*, column 1658W, on disposable nappies, whether the Waste Implementation Programme Manager met representatives of the Nappy Alliance at Ashdown House on 23rd March; and if she will make a statement on the outcome of the meeting. [174743]

Mr. Morley *[holding answer 20 May 2004]:* I can confirm that the Waste Implementation Programme (WIP) Manager met with representatives of the Nappy Alliance on 23rd March. The meeting was a useful opportunity to discuss the work WIP is already taking forward through the Waste and Resources Action Programme (WRAP) to promote re-usable nappies. This work stream forms an essential part of Government's renewed drive to minimise the amount of household waste generated in England.

One of the issues raised in the course of the meeting was the need to ensure that this element of Defra's waste strategy has full support across Government. In particular, this means working closely with the Department of Health to ensure that hospitals are in a position to encourage the supply of re-usable nappies, and that healthcare professionals give new parents the facts they need to make their own informed choice. Following the meeting on 23 March and the subsequent publication of the Women's Environmental Network's report 'Nappies and the NHS: Waste Prevention and a Fair Choice for Parents', I have written to the Under-Secretary at the Department of Health to make the case for a strong lead from hospitals and health trusts on this important initiative.

Farm Income

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the *(a)* crops, *(b)* vegetables, *(c)* fruit and *(d)* plants the growing of which will not qualify for single farm payment. [166026]

Alun Michael: Under the Single Payments Scheme, farmers will be allocated 'entitlements' against which they may make an annual claim for payment. Such claims must be supported by an equivalent number of hectares of agricultural area, except those used for forestry, permanent crops (eg fruit trees) or used for non-agricultural activities.

In addition, the amount of land used in support of a claim on which horticultural crops (those referred to in Article 1(2) of Regulation (EC) No. 2200/96 and Article 1(2) of Regulation (EC) No. 2201/96 and potatoes other than those intended for manufacture of potato starch) are grown will be limited by authorisations allocated to individual growers.

Flooding

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received regarding the recent increased assessment of flood risk in the South East; and if she will make a statement. [170837]

Mr. Morley: The Government welcome the report "Foresight Future Flooding" by Professor Sir David King published through the Office of Science and Technology on 22 April.

Currently nearly two million properties are at risk of flooding in the UK from rivers and the sea and a further 80,000 are at risk from heavy downpours that overwhelm drains in urban areas. Under future scenarios in the report and assuming our approval to flood risk management does not change then annual damages could rise substantially by the 2080s. The areas at greatest risk include the South East Coast. We therefore face major challenges in managing these potential risks and associated costs.

The Government are considering the implications of the report and we intend to address the findings in an initial response through a consultation document for a new flood and coastal defence strategy that I hope to publish in the summer.

Each major stakeholder is committed to delivering a number of actions and my Department will oversee progress.

Greenhouse Gases

Mr. Chaytor: To ask the Secretary of State for Environment, Food and Rural Affairs if she will request the UN Framework Convention on Climate Change Subsidiary Bodies to undertake an exploratory study of contraction and convergence as a potential basis for the second commitment period of the Kyoto Protocol. [171229]

Mr. Morley *[holding answer 17 May 2004]:* The UK, as part of the EU, sought to open a technical dialogue on possible approaches to long-term action to tackle climate

change at the UN climate change negotiations in Milan last December. The aim was to begin technical discussions on different methodologies, including contraction and convergence, to promote better understanding of the challenge facing the international community.

We achieved recognition of better access to data and analytical tools relevant to implementing commitments under the Convention and the Kyoto Protocol, plus a scoping phase to develop a shared data interface to help with this, and a process to exchange further views on these issues in July 2004. The UK will continue to press for technical discussions relevant to the assessment of different methodologies.

Negotiations on climate change action beyond the end of the first Kyoto Protocol commitment period in 2012 are due to commence in 2005. In the meantime, we will continue to exchange views informally with other countries on how to promote further action.

Hazardous Waste

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to use BSE and foot and mouth disposal facilities for the handling of hazardous waste. [171287]

Mr. Morley *[holding answer 10 May 2004]:* We have no plans to use such facilities for the handling of hazardous waste. Sites for handling hazardous waste would have to have the appropriate authorisations under the Waste Framework Directive and the Landfill Directive. The disposal by burial of animal carcases during the FMD epidemic was subject to control under the Animal Waste Directive which has now been superseded by the EU Animal By-Products Regulation. BSE infected carcases are disposed of by incineration in approved incinerators.

Household Waste

Mr. Malins: To ask the Secretary of State for Environment, Food and Rural Affairs if she will impose a statutory obligation on local authorities to ensure weekly collections of household waste. [174088]

Mr. Morley *[holding answer 18 May 2004]:* We have no plans to require local authorities to collect household waste on a weekly basis.

Decisions on the frequency of collection are a matter for each local authority, which needs to have in place a collection regime which enables it to meet its statutory duties in a way which is consistent with Best Value and takes full account of local circumstances.

Hunting

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what research the Department is undertaking into the impact of land used for hunting under the single farm payment; [169742]

(2) what discussions she has had with the *(a)* Countryside Alliance and *(b)* Master of Foxhounds on the impact of the single farm payment on hunting; and whether this will qualify as an activity which will derive payments under the new scheme. [169743]

Alun Michael: I am not aware of any research or discussions with any organisations on an inter-relationship between hunting and the new Single Payment Scheme. Hunting is not an activity that would attract payment under the Scheme, but agricultural land on which hunting takes place may be used by a farmer in support of a Single Payment claim if that activity does not lead to a breach any of the Scheme's conditions, including the obligation on the farmer to maintain the land in good agricultural and environmental condition.

Insects

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs in what ways she proposes that agri-environment schemes will contribute to maintaining the UK's biodiversity, with particular reference to insects. [165305]

Mr. Morley: We regularly monitor our existing Environmentally Sensitive Areas (ESAs) and Countryside Stewardship (CS) schemes to assess their environmental benefits. This has demonstrated substantial benefits for many Biodiversity Action Plan priority habitats and species, including mammals, birds, plants and insects.

Recent Defra-sponsored research has shown that simple measures such as planting a seed mix of flowers in field margins to provide pollen and nectar can attract huge numbers of insects (bumble bees, butterflies, and others) relative to the in-field crop. Full details are available at http://www.f-e-c.co.uk/Buzz/index.htm.

Defra has also sponsored specific research on butterflies. This has shown that ESAs and CS schemes are slowing, and in some cases reversing, the long-term decline in numbers of England's rarer butterflies. Further details are available at http://www.defra.gov.uk/news/2002/020806a.htm.

Recent Defra-funded reports on 'Managing priority habitats for invertebrates' will help inform targeting and formulating of future agri-environment agreements. 'Environmental Stewardship' (ES) will rationalise and replace ESAs and CS in 2005. ES will be divided into two levels: an Entry Level (ELS) and a Higher Level (HLS). ELS should include measures beneficial for biodiversity, including insects, in the wider countryside. The HLS Scheme will continue the work of ESAs and CS by targeting management on the most valuable and vulnerable farmland habitats. The options available under these new schemes will also have the advantage of having greater generic benefits for insects. Further details of these schemes can be found at http://www.defra.gov.uk/erdp/reviews/agrienv/entrylevel.htm and http://www.defra.gov.uk/erdp/reviews/agrienv/higherlevel.htm.

Methyl Bromide

Alan Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what the policy of Her Majesty's Government is on the use of methyl bromide in farm and food production. [166574]

Mr. Morley: Methyl bromide is an ozone depleting substance and its production and supply are controlled under the Montreal Protocol. Its production is due to be phased out in developed countries after 31 December 2004, except for quarantine and pre-shipment purposes.

In addition, under the Protocol and the equivalent EC legislation, methyl bromide can be authorised for "critical uses" after 2004, including use in relation to farming and food production.

The Government's view is that methyl bromide is being phased out by the Protocol and should not be phased back in by excessive critical uses. Every effort should be made therefore to identify possible alternatives to methyl bromide use in relation to farm and food production.

Oil Care Campaign

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the progress of the Oil Care Campaign in halving the number of oil pollution incidents in the United Kingdom by 2005. [166052]

Mr. Morley: The Oil Care Campaign is a voluntary initiative which brings together the oil industry, regulators, local authorities and other stakeholders with an interest in reducing the number and severity of oil pollution incidents affecting inland waters in the UK. It does not have any specific target for the reduction in incidents.

In relation to oil pollution incidents in England and Wales, figures for the last three years provided by the Environment Agency were deposited in the House of Commons Library in January 2004.

Radioactive Waste

David Wright: To ask the Secretary of State for Environment, Food and Rural Affairs which *(a)* Government Departments and *(b)* external organisations are responsible for the long-term management of high-level radioactive waste. [159026]

Mr. Morley: High-level waste (HLW) is held and managed by British Nuclear Fuels plc (BNFL) at its Sellafield site and by the United Kingdom Atomic Energy Authority (UKAEA) at its Dounreay site. Responsibility for this HLW is due to be taken over by the new Nuclear Decommissioning Authority (NDA) when it comes into being in April 2005. Government sponsorship of both the nuclear industry and the NDA is the responsibility of the Department of Trade and Industry (DTI). Radioactive waste management policy is the joint responsibility of The Department for Environment, Food and Rural Affairs (Defra), and the devolved Administrations for Scotland, Wales and Northern Ireland. The main nuclear site regulators are the Health and Safety Executive (HSE), the environment agencies (the Environment Agency (EA) in England and Wales and the Scottish Environment Protection Agency (SEPA) in Scotland) and the Office for Civil Nuclear Security (OCNS).

Refrigerants

Tim Loughton: To ask the Secretary of State for Environment, Food and Rural Affairs what quantity of *(a)* chlorofluorocarbons, *(b)* hydrochlorofluorocarbons and *(c)* hydrofluorocarbons have been recovered from equipment other than domestic refrigerators in each year since 1995. [169582]

Mr. Morley: The information requested is not available, as the data on the recovery of these substances do not distinguish the equipment from which they were recovered.

Single Farm Payments

Mr. Curry: To ask the Secretary of State for Environment, Food and Rural Affairs on what basis the single farm payment will be established for farmers who were in the dairy sector prior to the foot and mouth disease outbreak whose flocks were slaughtered because of the outbreak of foot and mouth disease and who restocked with *(a)* dairy cows and *(b)* beef and sheep. [169465]

Alun Michael: Dairy farmers whose flocks were slaughtered because of the outbreak of foot and mouth disease, and who restocked with:

(a) dairy cows will be able to claim entitlements whose initial value will be based on the milk quota available on their holding on 31 March 2005.

(b) beef and sheep before 29 September 2003 will be able to claim entitlements from the National Reserve.

Sustainable Development

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what definition of sustainable development has been agreed for application across Government; and what mechanism is in place to ensure that the term is applied and claimed appropriately. [169856]

Mr. Morley *[holding answer 30 April 2004]:* The UK Government's current sustainable development strategy "A better quality of life", launched in May 1999, describes sustainable development as 'ensuring a better quality of life for everyone, now and for generations to come'. It also refers to a widely used international definition, from the Brundtland Report of the 1987 World Commission on Environment and Development, of

'development which meets the need of the present without compromising the ability of future generations to meet their own needs'.

Government publications usually refer to the 'better quality of life' description as given in our 1999 Strategy. Examples would include the departmental sustainable development strategies for the Department of Health, the Department for Trade and Industry and the Department for Culture, Media and Sport, and HM Treasury's 2002 Spending Review Report.

We are currently consulting, in partnership with the Scottish Executive, the Welsh Assembly Government and Northern Ireland, to develop new sustainable strategy for the UK. As part of this we are reviewing our explanation of what sustainable development means.

Two Tree Island

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list *(a)* the works and *(b)* the cost of works on (i) Canvey Island's sea defences and (ii) Two Tree Island which are envisaged; and if she will make a statement. [170826]

Mr. Morley: Decisions on which projects are promoted and their timing rests with the operating authorities.

(i) Canvey Island's Sea Defences

Defra is not aware of any proposals for works to Canvey Island's tidal defences. The tidal flood defences around the Island are regularly monitored by the Environment Agency.

(ii) Two Tree Island

Southend borough council has recently secured planning permission for coast protection works around the south and northeast sides of the Island. The works are estimated to cost around £1 million and are due to be submitted for Defra grant aid consideration under the Coast Protection Act.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the increased risk of flooding to Canvey Island; and what *(a)* research and *(b)* action she plans to take in the light of the increased assessment of flooding risk. [170827]

Mr. Morley: Decisions on which projects are promoted and their timing rests with the operating authorities.

The Environment Agency has been researching the need for capital renewal of the internal flood defences on Canvey Island and a draft Project Appraisal Report is due to be presented to the Agency's National Review Group during this summer.

Works will include the upgrading of all 12 land-drainage pumping stations on the Island. The works programme will take approx. 3 years and cost up to £6 million.

Since the 1980s the Department has provided guidance to operating authorities to make allowance for climate change in the planning and appraisal of new and replacement flood and coastal defence works. This guidance has been regularly reviewed in the light of the latest research findings and supplementary guidance was most recently issued in 2003. The aim is to take a suitably precautionary approach while not diverting funds unnecessarily from the solution of problems that affect people today. The approach and guidance will be further reviewed for the new Strategy for Flood and Coastal Erosion Risk Management.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs whether she has assessed the case for closing beaches in the vicinity of Two Tree Island as a result of the pollution from the old waste dump. [170828]

Mr. Morley: The closure of beaches is a matter for local authorities. Local authorities are advised by the Environment Agency on prevailing water quality levels. The nearest designated bathing beach is at Leigh Bell Wharf which met the EU guideline standards in 2003 and is classed as 'excellent' quality.

Warm Zones

Mr. Goodman: To ask the Secretary of State for Environment, Food and Rural Affairs what funding has been allocated in *(a)* 2004–05, *(b)* 2005–06 and *(c)* in total to Warm Zones. [163648]

Mr. Morley: The Government provided £1 million funding for the pilot programme of five Warm Zones to run from 2001–04.

An independent evaluation of the pilots is being carried out by the Energy Saving Trust on behalf of the Department to assess the effectiveness of Warm Zones.

No additional funding has been allocated to Warm Zones by the Government.

World Oceans Day

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs what action her Department will be taking to mark World Oceans day on 8 June. [168469]

Mr. Morley: Around the time of World Oceans day Defra plans to publish an updated delivery plan setting out the steps that the Government are taking to achieve the conservation and sustainable management of marine and coastal biodiversity and to promote better oceans governance and partnership initiatives, in line with the commitments made at the World Summit on Sustainable Development.

To help progress this delivery plan the UK, together with EU partners, will be calling for the United Nations to take urgent action to protect vulnerable marine biodiversity in areas beyond the limits of national jurisdiction at the forthcoming meeting of the United Nations Informal Consultative Process on Oceans and the Law of the Sea. World Oceans day coincides with this meeting.

HOME DEPARTMENT

Department Branding

Mr. Laws: To ask the Secretary of State for the Home Department how much his Department spent on branding the Department between 1997–98 and 2003–04, broken down by *(a)* consultancy fees, *(b)* design and orders for new stationery, *(c)* website design and *(d)* other material featuring new logos. [154064]

Fiona Mactaggart: The Home Office logo has not been subject to redesign in 2003–04, but in the previous years you refer to, work was undertaken. The logo was redesigned to ensure the Home Office work was clear to the public and stakeholders.

Costs involved were as follows:

(a) and *(b)* research, project management and design and orders for new stationery—£147,505.06.

(c) website design—£18,024.50.

(d) The logo element of 'other material featuring new logos between 1997–98 and 2003–04' would be covered in individual project/publication/media initiatives and were not funded by or attributed to the corporate logo change initiative.

No costs were written off due to lack of use or destruction of materials featuring previous logos, as the low levels of old stock continued to be used.

Departmental Response Times

David Davis: To ask the Secretary of State for the Home Department what the average length of time was

for a substantive response by his Department to *(a)* written questions, *(b)* hon. Members' written correspondence and *(c)* public correspondence in 2003–04. [170529]

Mr. Blunkett: The last published performance figures for the Home Office showed that 37 per cent. of all parliamentary questions and 56 per cent. of Members written correspondence were answered within parliamentary deadlines. I have been very clear this is not acceptable and needs to be substantially improved.

As a result, last year the Department introduced a new correspondence tracking system and in the last few months our performance in meeting the targets for answering Members written correspondence to Ministers increased substantially. In relation to parliamentary questions, we are currently in the process of introducing a new system, the electronic Parliamentary Questions System (ePQS) to better monitor and manage the Department's performance.

In relation to public correspondence, we are currently looking at how to improve the tracking and monitoring of performance across the Department. Figures are not currently available except at disproportionate cost.

Immigration Appeals

Mr. Dismore: To ask the Secretary of State for the Home Department if he will make a statement on the consequences of delays in dealing with cases of appeals against withdrawal of United Kingdom nationality before the Special Immigration Appeals Commission. [169803]

Mr. Browne: To date only one appeal against withdrawal of United Kingdom nationality has been lodged with the Special Immigration Appeals Commission. The administrative process for such appeals is subject to continuous review to ensure compatibility with both the public interest and the independent appeals process.

Mr. Dismore: To ask the Secretary of State for the Home Department pursuant to his answer of 10 May to Question reference 169812, what the reasons are for the delay in making progress with appeals over the exercise of his powers concerning removal of nationality and indefinite leave to remain. [174144]

Mr. Lammy: I have been asked to reply.

The Special Immigration Appeals Commission (SIAC) has one appeal before it in relation to Deprivation of Citizenship proceedings. Such cases involve significant and complex evidence and require due consideration of public funding applications. Importantly, as with any appeal, parties need to be available and prepared to proceed. The timetable for the resolution of cases is necessarily a function of all these factors The administrative processes for appeals against Deprivation of Citizenship proceedings are subject to ongoing review to ensure compatibility with both the public interest and the independence of the judicial process.

TRANSPORT

Railways

Mrs. May: To ask the Secretary of State for Transport pursuant to the Answer of 22 April 2004, *Official Report*, column 651W, how many of the Department of Transport's PFI projects listed on the Treasury website met the criteria for special purpose vehicles set out in the Strategic Rail Authority's strategic plan. [171521]

Mr. McNulty: None of the Department for Transport projects listed on the Treasury website falls within the remit of the Strategic Rail Authority. The Highways Agency is responsible for the strategic roads, Vehicle and Operator Services Agency for the MOT privatisation, Transport for London for London Underground and the Docklands Light Rail projects and the relevant local authority for the other light rail, local roads and street lighting PFI projects.

The selection criteria used to assess special purpose vehicles tendering for transport projects varies to take account of the nature of the work, the project size and duration.

The legal, economic, financial and technical information required is set out in the contract advert in the Official Journal of the European Union. The information requested complies with Office of Government Commerce advice, departmental procedures and Treasury guidance on Private Finance Initiative practice.

Mrs. May: To ask the Secretary of State for Transport what assessment his Department has made of the effectiveness of the Network Rail Volume Incentive; and if he will make a statement. [174075]

Mr. Darling: The 'Volume Incentive' was first introduced by the Rail Regulator in his Access Charges Review 2000. The SRA set out its views on the continuing effectiveness of a Volume Incentive for Network Rail as part of its response to the Initial Consultation Paper of the Access Charge Review 2003. The SRA's view was that for a number of reasons, the Volume Incentive would no longer be cost effective or appropriate given the changes to the industry since it was first introduced. The Rail Regulator considered this view and the supporting reasons, along with the views of other consultees, in the course of the Access Charge Review 2003. His view was that the Volume Incentive would continue to be an effective way of encouraging Network Rail to make efficient use of a constrained network so that additional traffic could be accommodated. He therefore retained the Volume Incentive, with a number of modifications (including only rewarding Network Rail for growth above a certain threshold level) in the Final Conclusions to the Access Charge Review published in December 2003. This decision is entirely for the Rail Regulator, taking into account his statutory duties as set out in the Railways Act .1993.

Mrs. May: To ask the Secretary of State for Transport if he will place in the Library a copy of the *(a)* Strategic Rail Authority's submission to the rail regulator in December 2002 that the Network Rail Volume Incentive be removed and *(b)* the Rail Regulators' response. [174076]

Mr. Darling: The documents referred to are available from the Office of the Rail Regulator's website at the following address:

(a) http://www.rail-reg.gov.uk/upload/pdf/ir2-sra.pdf

(b) http://www.rail-reg.gov.uk/upload/pdf/162.pdf

The Final Conclusions from the Access Charge Review 2003 and other related documents are also available from this website.

Mrs. May: To ask the Secretary of State for Transport pursuant to his answer of 12 May 2004, *Official Report*, column 410W, on railways, what operational performance trajectory was set for the train operating companies between December 2003 and November 2004; and what the current performance is against that target. [174239]

Mr. Darling: The performance trajectory, developed by the National Task Force on behalf of the rail industry, consists of Network Rail's performance forecasts and Train Operating Companies (TOC) performance plans. The trajectory is the industry's own internal performance monitoring process and will be reviewed in October 2004.

TOC performance statistics are published quarterly by the Strategic Rail Authority (SRA) in "National Rail Trends", the most recent edition of which was published in March 2004. Copies of "National Rail Trends" are placed in the House of Commons Library and published on the SRA's web site.

Lawrie Quinn: To ask the Secretary of State for Transport what international models of railway safety he has considered in the context of the Rail Review. [174815]

Mr. McNulty: The rail review is considering several international models of railway safety in the course of its work.

Mr. Clapham: To ask the Secretary of State for Transport what criteria his Department is using to evaluate options for reorganising the structure of the railways as part of the Rail Review. [173798]

Mr. McNulty: As my right hon. Friend the Secretary of State for Transport said in his statement to the House on 19 January2004, the principles for the review are that railways must operate in the public interest, maintain commitment to public and private partnership and maintain commitment to independent economic regulation.

Mr. Clapham: To ask the Secretary of State for Transport how he will ensure that rail safety continues to improve following changes arising from the Rail Review. [173799]

Mr. McNulty: The European Railway Safety Directive requires that member states ensure that railway safety is generally maintained and, where reasonably practicable, continuously improved.

Mr. Clapham: To ask the Secretary of State for Transport if he will ensure that the recommendations from Lord Cullen's public inquiry following the Ladbroke Grove rail accident are fully delivered following changes arising from the Rail Review. [173800]

Mr. McNulty: Lord Cullen recommended that the Health and Safety Commission (HSC) should review compliance with his public inquiry recommendations and publish the outcome of such reviews. The safety regulator will be expected to continue to review compliance following the rail review.

Blackpool Tram System

Mr. Gordon Marsden: To ask the Secretary of State for Transport what assessment his Department has made of the regeneration effects of *(a)* proceeding and *(b)* not proceeding with the proposed upgrade of the Blackpool tram system. [173914]

Mr. McNulty: The regeneration impacts of proceeding and not proceeding with the tramway upgrade were assessed in an Economic Impact Report provided by the promoters. The Department has not made its own assessment.

Bristol Airport

Mr. Paul Marsden: To ask the Secretary of State for Transport if he will make a statement on proposals to expand the capacity of Bristol airport. [175098]

Mr. McNulty: The Air Transport White Paper stated that the main potential for growth in the South West would be at Bristol Airport. We support the Airport's development to around 12 million passengers per annum to include a runway extension and new terminal south of the existing runway, when these are required, having due regard to the environmental impacts that would accompany its expansion.

Bus Users (London)

Mr. Truswell: To ask the Secretary of State for Transport what assessment he has made of the socio-economic breakdown of bus users in London. [174715]

Mr. McNulty: The National Travel Survey provides the information for people aged 16 and over living in households in Great Britain for the period 1998–2000, according to their area of residence.

The table shows the percentage of users in each socio-economic group, both inside and outside London. Note that tourists are not included in this breakdown:

	All persons aged 16 and over		*Bus users*[1]	
Socio-economic group (SEG)	*Inside London*	*Outside London*	*Inside London*	*Outside London*
Professional/managerial	18	14	16	8
Intermediate non-manual	12	9	12	8
Junior non-manual	13	12	13	13
Skilled manual	10	12	8	8
Other manual/other SEGs	11	14	12	17
Retired	21	27	23	30
Other economically inactive	15	12	16	15
All persons	100	100	100	100

[1] Use a local bus more than twice a year (in London this is 72 per cent. of all persons aged 16 and over and outside London it is 43 per cent.).

Car-Sharing

Mr. Paul Marsden: To ask the Secretary of State for Transport what research his Department has undertaken into the *(a)* growth and *(b)* popularity of formal car-sharing through online systems. [173314]

Mr. McNulty: I refer the hon. Member to my answer of 13 May 2004, *Official Report*, column 490W.

Channel Tunnel Rail Link

Mr. Whittingdale: To ask the Secretary of State for Transport how much clay will be produced as a result of excavations to build the new Channel Tunnel link station at Stratford; and how it is proposed to dispose of it. [175030]

Mr. McNulty: About 270,000 cubic metres of clay have been excavated to form the station box at Stratford. The clay was deposited on the Stratford Lands, where the surface is being raised by about 6 m for the redevelopment of the lands.

Civil Servants

Mr. Damian Green: To ask the Secretary of State for Transport how many civil servants were employed by communication division in his Department on the last date for which figures are available. [174326]

Mr. McNulty: As at 1 May 2004, the number of staff employed in the Department's Communication Directorate was 73.1 (full time equivalents). This figure breaks down as follows:

	Number
Director	1
Press Officers	15
Publications (print, publishing and external websites)	12
Publicity (campaigns)	10.8
Strategic Communications	8.8
Internal Communications	9.5
Business Management (finance, procurement, human resources, IT, business and secretarial support)	16
Total	73.1

Consultants and Advisers

Bob Spink: To ask the Secretary of State for Transport how much his Department and its agencies and non-departmental public bodies spent on external consultants and advisers in each of the last three years. [172434]

Mr. McNulty: Details of spend on external consultants and advisers by the central Department, agencies and non-departmental public bodies is shown in the following table.

£ million

	2001-02	*2002-03*	*2003-04*
Central Department	[1]—	122.2	58.5
Highways Agency	179.8	157.5	169.7
Driver and Vehicle Licensing Agency	3.3	4.0	3.4
Driving Standards Agency	1.2	4.2	4.0
Vehicle and Operator Services Agency	2.8	3.3	3.0
Vehicle Certification Agency	0.1	0.1	0.1
Marine and Coastguard Agency	1.5	1.2	0.8
Strategic Rail Authority	32.0	54.1	53.0
Trinity House Lighthouse Service	0.3	0.5	1.0
The Northern Lighthouse Service	0.1	0.1	0.1
Total	221.1	347.2	293.6

[1] The Department was formed in May 2002. Figures for the central Department are not available for 2001-02 or prior years.

Light Rail

Mr. Damian Green: To ask the Secretary of State for Transport (1) what assessment he has made of the levels of private sector investment in *(a)* commercial and *(b)* housing property along the lines of light rail routes in each year since 1997; [171947]

(2) what assessment he has made of the effect that light rail systems have had on urban regeneration since 1997; and if he will make a statement. [171948]

Mr. McNulty: The Department makes no annual assessment of the levels of private investment along light rail routes. The Department part funded a programme of research on the regeneration impacts of Sheffield Supertram which concluded in 1997. This showed little effect, however the tram only became fully operational in 1995 and any significant changes would be more gradual.

Rolling Stock Companies

Mr. Truswell: To ask the Secretary of State for Transport what the *(a)* annual capital lease charge and *(b)* annual heavy maintenance charge made by rolling stock companies to train operators are for (i) a two carriage class 142 Pacer train, (ii) a two carriage class 143 Pacer train, (iii) a two carriage class 156 Sprinter train, (iv) a two carriage class 150 Sprinter train and (v) a four car class 333 train. [173467]

Mr. McNulty: The rate to be paid for a particular type of rolling stock for use on a particular franchise is a commercial matter between the rolling stock owner and the train operator.

EDUCATION AND SKILLS

Education Funding

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much public money was spent on education in Chorley in each year between 1992 and 1997. [164183]

Mr. Miliband: The information requested is submitted according to local education authority areas rather than districts within an area. Chorley is a district of Lancashire Local Education Authority. The information for Lancashire LEA is as follows:

£000

	Total net current expenditure
1992–93	649,469
1993–94	594,252
1994–95	596,785
1995–96	583,921
1996–97	590,313
1997–98	600,316

Notes:

1. The financial data are taken from Lancashire LEA's RO1 statement submitted to the Department of Environment, Transport and the Regions.
2. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA.
3. In 1992–93 Net Current Expenditure after recharges was not collected on RO1. In this year Net Recurrent Expenditure is used and consequently figures for this year may not be strictly comparable with those for future years.
4. Figures are for Lancashire LEA prior to the local government reorganisation in 1998–99.

Jim Dobbin: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in Heywood and Middleton in each of the last seven years. [168580]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. Heywood and Middleton is a district of Rochdale local education authority. The information for Rochdale LEA is as follows:

Net current expenditure per pupil

£

	Pre-Primary Education	*Primary Education*	*Pre-Primary and Primary Education*	*Secondary Education*	*Special Schools*
1996–97	n/a	n/a	1,800	2,605	12,959
1997–98	n/a	n/a	1,841	2,658	13,211
1998–99	n/a	n/a	1,952	2,685	13,276
1999–2000	5,105	2,100	2,161	2,804	13,438
2000–01	12,322	2,315	2,509	3,070	15,180
2001–02	21,017	2,551	2,747	3,381	16,007
2002–03	—	—	2,793	—	3,690

Notes:

1. The financial data are taken from Rochdale LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–2000. 1999–2000 figures reflect the return of GM schools to local authority maintenance.
2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data is subject to change by the LEA. Figures are rounded to the nearest £10.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA.
4. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
6. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.
7. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

James Purnell: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in Stalybridge and Hyde in each of the last seven years. [168759]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. Stalybridge and Hyde is a district of Tameside local education authority. The information for Tameside LEA is as follows:

Net current expenditure per pupil

£

	Pre-Primary Education	*Primary Education*	*Pre-Primary and Primary Education*	*Secondary Education*	*Special Schools*
1996–97	n/a	n/a	1,743	2,304	12,097
1997–98	n/a	n/a	1,779	2,449	12,876
1998–99	n/a	n/a	1,929	2,528	13,371
1999–2000	11,672	2,065	2,116	2,579	22,081
2000–01	21,005	2,237	2,334	2,860	24,175
2001–02	25,103	2,690	2,794	3,221	21,455
2002–03	—	2,786	—	3,260	—

Notes:

1. The financial data are taken from Tameside LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's R01 statement previously. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–2000. 1999–2000 figures reflect the return of GM schools to local authority maintenance.
2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data is subject to change by the LEA. Figures are adjusted to 2002–03 prices using the March 2004 GDP deflators.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEAs.
4. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
6. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.
7. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Mr. McLoughlin: To ask the Secretary of State for Education and Skills how much public money was spent on education in the constituency of West Derbyshire between *(a)* 1992 and 1997, *(b)* 1997 and 2001 and *(c)* 2001 and 2004. [163736]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area West Derbyshire is a district of Derbyshire Local Education Authority. The latest information for Derbyshire LEA is contained in the following table. Information on the current year 2004–05 will not be available until the end of 2005.

Net Current Expenditure

	£
1992–93 to 1996–97	1,740,789
1997–98 to 2000–01	1,104,187
2001–02 to 2002–03	728,225

Notes:

1. The financial data are taken from Derbyshire LEA's Section 52 Outturn Statement submitted to the DfES from 1999–00 onwards and the ODPM's RO1 statement previously. Figures up to and including 1996–97 are for Derbyshire LEA prior to local government reorganisation. From 1997–98 onwards Derbyshire LEA was split into Derbyshire and Derby LEAs. 1999–00 figures reflect the return of GM schools to local authority maintenance.
2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data is subject to change by the LEA. Figures are rounded to the nearest £10.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA.
4. In 1992–93 Net Current Expenditure after recharges was not collected on RO1. In this year Net Recurrent Expenditure is used and consequently figures for this year may not be strictly comparable with those for future years.

Mr. Frank Field: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in Birkenhead in each of the last seven years. [166300]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. Birkenhead is a district of Wirral local education authority. The information for Wirral LEA is as follows:

Net current expenditure per pupil

	Pre-primary education	*Primary education*	*Pre-primary and primary education*	*Secondary education*	*Special schools*
1996–97	n/a	n/a	1,830	2,570	12,350
1997–98	n/a	n/a	1,780	2,570	13,350
1998–99	n/a	n/a	2,020	2,690	13,450
1999–2000	20,060	2,120	2,220	2,850	15,100
2000–01	28,700	2,360	2,510	3,060	16,180
2001–02	34,050	2,680	2,850	3,420	18,400
2002–03	—	2,980	—	3,760	—

Notes:

1. The financial data are taken from Wirral LEA's section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the section 52 outturn statement in 1999–2000. 1999–2000 figures reflect the return of GM schools to local authority maintenance.
2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data are subject to change by the LEA. All figures are rounded to the nearest £10.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEAs.
4. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
6. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.
7. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Mr. Ben Chapman: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in Wirral, South in each of the last seven years. [166624]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. Wirral, South is a district of Wirral local education authority. The information for Wirral LEA is as follows:

Net current expenditure per pupil

	Pre-primary education	*Primary education*	*Pre-primary and primary education*	*Secondary education*	*Special schools*
1996–97	n/a	n/a	1,830	2,570	12,350
1997–98	n/a	n/a	1,780	2,570	13,350
1998–99	n/a	n/a	2,020	2,690	13,450
1999–2000	20,060	2,120	2,220	2,850	15,100
2000–01	28,700	2,360	2,510	3,060	16,180
2001–02	34,050	2,680	2,850	3,420	18,400
2002–03	—	2,980	—	3,760	—

Notes:

1. The financial data are taken from Wirral LEA's section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the section 52 outturn statement in 1999–2000. 1999–2000 figures reflect the return of GM schools to local authority maintenance.
2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data are subject to change by the LEA. All figures are rounded to the nearest £10.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEAs.
4. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
6. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.
7. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Mr. Wyatt: To ask the Secretary of State for Education and Skills how much public money was spent on education in the constituency of Sittingbourne and Sheppey between *(a)* 1992 and 1997, *(b)* 1997 and 2001 and *(c)* 2001 and 2004. [159487]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. Sittingbourne and Sheppey is a district of Kent local education authority. The latest information available for Kent LEA is as follows.

Net current expenditure

	£000
1992–93 to 1996–97	2,514,790
1997–98 to 2000–01	2,138,194
2001–02 to 2002–03	1,411,520

Notes:

1. The financial data are taken from Kent LEA's Section 52 Outturn Statements submitted to the DfES from 1999–2000 onwards and the ODPM's R01 statement prior to then. 1999–2000 figures reflect the return of GM schools to local authority maintenance. Figures up to and including 1997–98 are for Kent LEA prior to local government re-organisation. From 1998–99 onwards parts of Kent LEA became Rochester and Gillingham LEA.

2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data is subject to change by the LEA. Figures are rounded to the nearest 10.

3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA.

4. In 1992–93 NCE after recharges was not collected on R01. In this year Net Recurrent Expenditure is used and consequently figures for this year may not be strictly comparable with those for future years.

Mr. Pike: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in Burnley in each of the last seven years. [167917]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. Burnley is a district of Lancashire local education authority. The information for Lancashire LEA is as follows:

Net current expenditure per pupil

£

	Pre-Primary Education	*Primary Education*	*Pre-Primary and Primary Education*	*Secondary Education*	*Special Schools*
1996–97	n/a	n/a	1,805	2,594	15,988
1997–98	n/a	n/a	1,824	2,631	17,315
1998–99	n/a	n/a	2,002	2,701	17,768
1999–00	7,130	2,108	2,173	2,763	18,487
2000–01	11,033	2,326	2,437	2,914	18,768
2001–02	16,391	2,629	2,797	3,230	20,597
2002–03	—	2,898	—	3,399	—

Notes:

1. The financial data are taken from Lancashire LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–2000. 1999–2000 figures reflect the return of GM schools to local authority maintenance. Up to 1997–98 figures are for Lancashire LEA prior to local government reorganisation. From 1998–99 onwards parts of Lancashire LEA became Blackpool and Blackburn LEAs.

2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers. 2002–03 data are subject to change by the LEA. Figures are rounded to the nearest £10.

3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEAs.

4. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.

5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.

6. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.

7. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Mr. Evans: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in the Lancashire Local Education Authority in each year since 1997. [165541]

Mr. Miliband: The information requested is contained in the following table:

Net Current Expenditure per pupil

	Pre-primary Education	*Primary Education*	*Pre-Primary and Primary Education*	*Secondary Education*	*Special Schools*
1997–98	[1]—	[1]—	1,824	2,631	17,315
1998–99	[1]—	[1]—	2,002	2,701	17,768
1999–2000	7,130	2,108	2,173	2,763	18,487
2000–01	11,030	2,326	2,437	2,914	18,768
2001–02	16,391	2,629	2,797	3,230	20,597
2002–03	—	3,399	—	—	—

[1] Non Applicable

Notes:

1. The financial data are taken from Lancashire LEA's section 52 Outturn Statement submitted to the DfES from 1999–00 onwards and the ODPM's RO1 statement previously. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–00. 1999–00 figures reflect the return of GM schools to local authority maintenance. Up to 1997–98 figures are for Lancashire LEA prior to local government reorganisation. From 1998–99 onwards parts of Lancashire LEA became Blackpool and Blackburn LEAs.

2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of

LEA expenditure based on pupil numbers. 2002–03 data is subject to change by the LEA. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEAs.
4. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
6. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.

Education Services (Essex)

Mr. Hurst: To ask the Secretary of State for Education and Skills how many teachers were employed in state schools in *(a)* the County of Essex in each year from 1980 to 1997 and *(b)* the County of Essex and the unitary authorities of Southend-on-Sea and Thurrock in each year from 1998 to 2003. [173323]

Mr. Miliband: The information is shown in the following tables. The first table shows the number of full-time equivalent (FTE) regular teachers in maintained schools in Essex LEA in each January between 1980 and 1998[1]. Data for 1987 are not available. The second table shows the number of FTE regular teachers in Essex, Southend-on-Sea and Thurrock LEAs after local government re-organisation in April 1998, in each January between 1999 and 2003.

Essex	
1980	13,080
1981	13,040
1982	12,820
1983	12,640
1984	12,440
1985	12,620
1986	12,000
1987	—
1988	12,390
1989	12,190
1990	12,360
1991[2]	12,320
1992	12,390
1993	12,050
1994	11,980
1995	12,040
1996	12,370
1997	12,580
1998	12,560

[1] Sixth form colleges are included up to 1992
[2] Estimated

	Essex	*Southend-on-Sea*	*Thurrock*	*Total*
1999	10,580	1,270	1,060	12,910
2000	10,400	1,380	1,110	12,890
2001	10,520	1,410	1,180	13,100
2002	10,920	1,520	1,210	13,650
2003	10,890	1,560	1,230	13,670

Annual survey of teachers in service and teacher vacancies.

Essex Schools

Mr. Amess: To ask the Secretary of State for Education and Skills how much it cost to educate a pupil in *(a)* primary and *(b)* secondary schools in Essex in 2003–04. [172462]

Mr. Miliband: The latest date for which this information is available is 2002–03 and is given in the table. The information requested for 2003–04 will not be collected by the Department until October 2004 but I will write to the hon. Member when it is available.

Net Current Expenditure per pupil

	Primary Education	*Secondary Education*
2002–03	2,950	3,600

Notes:
1. The financial data are taken from Essex LEA's Section 52 Outturn Statement submitted to the DfES. 2002–03 data is subject to change by the LEA. Figures are rounded to the nearest 10.
2. The outturn 2002–03 tables captured the data in a fundamentally different way to the previous years. Categories were aligned with the Consistent Financial Reporting framework and the spending by LEAs was no longer split by school sector. Consequently the unit costs per pupil in 2002–03 are not strictly comparable with earlier years as they include an apportionment of LEA expenditure based on pupil numbers.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEA.
4. The NCE per pupil figures for primary relate the net current expenditure (after recharges) in the maintained primary schools to the total number of financial year pupils who are educated in the maintained primary schools sector.
5. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
6. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Further Education

Mr. Spring: To ask the Secretary of State for Education and Skills (1) what his projection is of funding for adult learning and skills provision by colleges of further education in rural areas; [175372]

(2) what funding provision is made for further education colleges in rural areas; and if he will make a statement. [175373]

Alan Johnson: The Department allocates funds to the Learning and Skills Council (LSC) for the provision of education and training in the post-16 learning and skills sector. The Department does not provide a specific budget to the LSC for further education colleges in rural areas. The LSC decides on allocations at individual college and regional levels from the funds allocated to it for learning participation. Information about these allocations is not collected by the Department. This is a matter for the LSC. Mark Haysom, the Council's Chief Executive, will write to the Honourable Gentleman on this matter. A copy of his reply will be placed in the House Library. The Government have set out its investment plans for 2003–04 to 2005–06 which should enable the Learning and Skills Council (LSC) to increase funding for further education significantly.

Pre-schools

Mr. Amess: To ask the Secretary of State for Education and Skills pursuant to his answer of 17 May 2004, *Official Report*, column 705W, on pre-schools, what plans he has to make a degree qualification essential for teaching under-8s; and if he will make a statement. [175173]

Mr. Miliband: All qualified teachers in maintained primary schools or non-maintained special schools will hold a first degree or equivalent qualification. Adults who are not qualified teachers and who do not necessarily have a degree qualification may also teach in such schools in specific circumstances set out in the Education (Specified Work and Registration) (England) Regulations 2003.

School Funding

Helen Jones: To ask the Secretary of State for Education and Skills how much capital money has been allocated to schools in Warrington, North in each year since 1997. [174659]

Mr. Miliband: Since 2001 the majority of capital support has been allocated to schools and local education authorities by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have complete information about capital investment at constituency level. This should be held at local authority level. Table A sets out the capital support made by the Department to Warrington local education authority (LEA) and its schools since 1998–99, in total and by programme.

Table A: Capital allocations: Warrington local education authority.

All figures in £000

	1998–99	*1999–2000*	*2000–01*	*2001–02*	*2002–03*

Total	3,272	4,222	8,041	8,061	8,646

So far Warrington LEA has also been allocated £10.2 million over the two years 2004–05 and 2005–06.

School/College Funding

Peter Bottomley: To ask the Secretary of State for Education and Skills what plans he has to equalise funding between schools and colleges for 16 to 19-year-olds in the Worthing area. [175448]

Alan Johnson: I refer the hon. Member to the reply given to my hon. Friend the Member for Wolverhampton, South-West (Rob Marris) on 14 May 2004, *Official Report*, column 623W.

Specialist Schools

Mr. Key: To ask the Secretary of State for Education and Skills if he will list the schools in England that have a specialist status in primary musical education. [175428]

Mr. Miliband: Specialist school status is available for secondary (but not primary) maintained schools in England. Of the 259 secondary schools designated as specialist Arts Colleges, 181 are Performing Arts Colleges, providing an enhanced curriculum in music, dance and drama. Following the launch of the new Music specialism last year, the first two specialist Music Colleges (one of which is a combined Music and Mathematics and Computing College) will become operational in September 2004.

Specialist schools must spend at least a third of their specialist school funding on delivering community development plans. These plans require schools to work in close partnership and to share enhanced facilities and curriculum expertise with a minimum of five other local schools—including feeder primary schools.

In a separate initiative, in 2002, 42 primary schools were included in pilots, with subsequent evaluation by Ofsted, of models to widen opportunities for primary pupils to learn musical instruments. Earlier this year, I announced an extra £1.5 million for music services to help all authorities to develop their own models in this area.

Targeted Capital Fund

Paul Farrelly: To ask the Secretary of State for Education and Skills if he will list the 23 voluntary-aided projects which were successful in their bids to the 2004–05 Targeted Capital Fund. [174735]

Mr. Miliband: The details are as follows:

£

School Name	LEA	Amount of BID (net cost)	Purpose of Bid
The Nottingham Bluecoat School	Nottingham	1,728,100	New Accommodation
Holy Trinity CE VA Primary School	Calderdale	937,067	Replacement School
Akiva School	Barnet	6,758,100	New VA School
Our Lady of the Visitation RC Primary School	Ealing	1,012,712	Replacement Accommodation
The Avenue School	Brent	3,420,000	New VA School
Hemingfield Ellis CE Primary School	Barnsley	1,602,400	Replacement School
Richard Challoner School	Kingston upon Thames	4,306,781	Remodelling of School
Holy Trinity School	West Sussex	3,000,000	Expansion of School
Montesorri School	Brighton and Hove	3,736,000	New VA School
St. Mary of the Angels Catholic Primary School	Cheshire	1,828,444	Replacement School
Four schools—reorganisation	Devon	13,236,880	Reorganisation of four Schools
St. Andrew CE Primary School	Devon	1,812,000	Replacement School
Larmenier and Sacred Heart RC Primary School	Hammersmith and Fulham	5,285,345	Replacement School
St. Gregory's Catholic Primary School	Stoke-on-Trent	1,551,518	Extension to School
Alderman Cogan's School	Kingston upon Hull	1,015,120	Alterations to Existing School
St. Bede's RC School	North Lincolnshire	700,019	Independent Learning Centre
Bethany Junior School	Bournemouth	1,261,171	Remodelling and Improvements
Notre Dame High School	Norfolk	3,984,632	14–19 Excellence Centre
St. George's School	Hertfordshire	4,124,876	Growth in Pupil Numbers
Sacred Heart RC Primary School	Hillingdon	4,993,469	Growth in Pupil Numbers
Ashlands Ecumenical Primary School	North Somerset	2,072,171	Growth in Pupil Numbers
St. George's Primary School	North Somerset	2,072,171	Growth in Pupil Numbers
Holy Trinity Catholic School	Cornwall	2,790,000	Growth in Pupil Numbers

Teacher Training

Mr. Dhanda: To ask the Secretary of State for Education and Skills what support his Department gives to UK citizens living abroad who would like to return to the UK in order to undertake teacher training. [174992]

Mr. Miliband: Eligibility for support from public funds in respect of Bachelor of Education and Postgraduate Certificate in Education courses in England normally depends on whether or not a person is ordinarily resident in this country or the wider European Economic Area (EEA). Employment-based teacher training schemes, the largest of which is the Graduate Teacher Programme, offer an alternative route to Qualified Teacher Status which allows candidates to be employed in schools as unqualified teachers and paid accordingly while they train. Candidates who are not ordinarily resident in EEA country can take part in these programmes on exactly the same basis as those who are.

Teachers

Mr. Watts: To ask the Secretary of State for Education and Skills what estimate the Government has made of the likely increase in salary costs of requiring all teachers to work up to the age of 60 years. [174846]

Mr. Miliband: There is no existing or proposed requirement on teachers to work to the age of 60.

Vocational Training

Mr. Simmonds: To ask the Secretary of State for Education and Skills what proportion of the cohort of *(a)* 16, *(b)* 17, *(c)* 18, *(d)* 19, *(e)* 20 and *(f)* 21-year-olds (i) commenced and (ii) completed (A) NVQ level 3 courses and (B) modern apprenticeships in each year since 1992. [172625]

Alan Johnson: The proportions of 16 to 21-year-olds to have commenced either a NVQ level 3 in Learning and Skills Council (LSC) funded further education, an advanced apprenticeship or an apprenticeship in 2001/02 and 2002/03 are shown in the following table.

Commencement rates of 16 to 21-year-olds on NVQ level 3 courses in LSC funded further education and on apprenticeships by programme and age—England: 2001/02 and 2002/03

Percentage

Programme/Age at 31 August	2001/02	2002/03
NVQ 3 in LSC funded FE		
16	0.2	0.1
17	0.6	0.6
18	0.7	0.8
19	0.4	0.5

18	1.8	1.9
19	1.8	2.1
20	1.4	1.6
21	1.0	1.2
All 16 to 21-year-olds	1.2	1.4

'—' = less than 0.05 per cent.
Notes to tables:
[1] Advanced apprenticeships were until recently known as advanced modern apprenticeships.
[2] Apprenticeships were until recently known as foundation modern apprenticeships.
[3] 2002/03 outcomes data for LSC funded further education are not yet available. 2002/03 outcomes data for apprenticeships are provisional.
Sources:
LSC Individualised Learner Record
LSC Individualised Student Record
Office for National Statistics

Please note that direct comparisons should not be made between the proportions in the two tables as individual learners will have their programmes of learning delivered over different years. For example, some of the 17-year-olds to have commenced an NVQ 3 course in 2001/02 will finish as 17-year-olds in 2001/02, others will finish in 2002/03 as 18-year-olds, while others will finish the year after as 19-year-olds.

The percentages in both these tables are produced using post-census population estimates. However we are currently unable to provide a historical series on a comparable population basis. Further information can be found in the Department's Statistical First Release, "Participation in Education, Training and Employment by 16–18 Year Olds in England: 2001 and 2002" available online at: http://www.dfes.gov.uk/rsgateway/DB/SFR/s000426/index.shtml.

Watford Grammar School for Boys

Mr. Gibb: To ask the Secretary of State for Education and Skills what proportion of students at Watford Grammar School for Boys are selected by aptitude or ability. [175426]

Mr. Miliband: This information is not collected centrally by the Department.

INTERNATIONAL DEVELOPMENT

Iraq

Harry Cohen: To ask the Secretary of State for International Development pursuant to the answer of 9 December 2003, *Official Report*, column 422W, on Iraq, whether the complete review of missing drugs and supplies has finished; what the findings were; whether new drug supply systems are now fully operational; whether supply accounting and reporting systems are in place; what the new national drug formulary comprises; whether shortages of medicine in Iraq are continuing; when he expects full medical supplies will get through to the Iraqi people; and if he will make a statement. [173385]

Hilary Benn: The World Health Organisation (WHO) recently presented a report to the Iraqi Ministry of Health (IMOH) assessing the national drug and supply system, which is currently being considered. In parallel, the IMOH have also been provided with essential drug policy and quality guidance and support to the assessment of the national drug regulations and registration systems. Plans for strengthening the IMOH National Drug Regulatory Authority have been agreed and guidelines for good storage practices are being prepared. Additional strategies for upgrading the Drug

Information Centre have been finalised and procurement of equipment is under way. A new National Formulary, comprising over 1,000 medicines has been produced and is available from the IMOH.

New procurement and distribution management teams have been set up by the IMOH, replacing the previous system under the corrupt, state-owned Kimadia Company. Procurement of essential medical supplies has been initiated and a delivery is expected in the next few days. Further shipments, including critical medical supplies for the Governorates, are on order.

Significant progress has been made to improve national drugs supplies and systems: The WHO report that stocks of 23 drugs for chronic diseases out of the 32 commonly used, are in sufficient supply to meet patient demand. The IMOH, WHO and the CPA continue to work to further improve both drug supplies and systems in Iraq.

Colin Burgon: To ask the Secretary of State for International Development what aid and assistance his Department is giving to the Iraqi people. [173932]

Hilary Benn: DFID has committed over £278 million for humanitarian and reconstruction assistance to Iraq since March 2003, of which £70 million has been channelled through the International Reconstruction Fund Facility for Iraq (IRFFI). DFID has also provided a number of staff, filling a range of posts, to the Iraqi ministries and the Coalition Provincial Authority (CPA).

On 19 February, I published DFID's plans to contribute to the reconstruction of Iraq over the next two years in our interim Country Assistance Plan. It has been placed in the House of Commons Library and can be found on the DFID website: www.dfid.gov.uk

Liberia

Angus Robertson: To ask the Secretary of State for International Development what assistance his Department has *(a)* pledged and *(b)* delivered to assist Liberian refugees to (i) return to and (ii) re-integrate into society in Liberia; and if he will make a statement. [175475]

Hilary Benn: DFID's relief and reconstruction strategy for Liberia, in 2003 and 2004, has concentrated on helping to relieve the humanitarian crisis, provide security, and restore basic services so that both refugees and internally displaced persons can return to their places of origin. Over this period, DFID has committed a total of £10.6 million for these purposes and has so far disbursed £3.6 million for humanitarian programmes, £0.4 million in support of the UN security coordination agency and interim care centres for children, and £2.7 million for rehabilitation of basic services. For 2004, DFID is discussing with various agencies proposals totalling £1.7 million for humanitarian support, and £2.2 million for reactivation of health care, water supplies, and agricultural livelihoods.

In addition, DFID has pledged a total of £6 million to support Disarmament, Demobilisation and Reintegration programmes over 2003–05, of which we have so far disbursed £1 million. These funds are intended to assist the re-integration into their communities of ex-combatants and others affected by war.

Staff with Disabilities

Mr. Bercow: To ask the Secretary of State for International Development for what reasons the Service Delivery Agreement target to have 3.3 per cent. of senior Civil Service posts filled with staff with disabilities has not been met. [174140]

Mr. Gareth Thomas: DFID is an equal opportunities employer. We value diversity. DFID's policy on recruitment is to stimulate and encourage applications from all sections of the community specifically including candidates with disabilities. We word our advertisements accordingly. Final selection, however, is on merit, and the composition of the Senior Civil Service group is a reflection of appointments made on this basis, through open competition or internal promotion.

There are currently 79 members of the Senior Civil Service in DFID, so performance against the target is very sensitive to small changes in the actual number of staff with disabilities in post.

In general, DFID is aware that there are more disabled people in the Department than declare their impairment and is actively pursuing a number of measures to develop a more open culture on disability. However, it will remain the individual's choice to define themselves as disabled or not.

WORK AND PENSIONS

Child Maintenance

Mr. Sheerman: To ask the Secretary of State for Work and Pensions how many British citizens avoid paying child maintenance because they have left the country; and how many of these reside in the EU. [166728]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Barry Sheerman, dated 21 May 2004:

In replying to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions how many British citizens avoid paying child maintenance because they have left the country; and how many of these reside in the EU.

I do not have the information you seek. I can however say at 30 November 2003 there were around 300 cases where further action was suspended because the non-resident parent was living abroad. I am unable to determine how many of those cases reside in the EU.

Child Support

Bob Spink: To ask the Secretary of State for Work and Pensions when the new Child Support Agency formula will be applied to all absent parents, irrespective of the date of claim; and if he will make a statement. [170823]

Mr. Pond: I refer the hon. Member to the written answer I gave him on 18 December 2003, *Official Report*, column 1092W.

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his Written Statement of 21 April, *Official Report*, columns 19–21WS on child support, for what reasons some new cases were unable to be progressed on the new system. [171098]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Steve Webb, dated 21 May 2004:

In reply to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, pursuant to his Written Statement of 21st April, Official Report, columns 19–21WS on child support, for what reasons some new cases were unable to be progressed on the new system.

Some cases were unable to be progressed on the new system because of problems within the computer service provided to the Child Support Agency by EDS. The Agency is working closely with EDS to remedy those problems and as it does so it will become possible to progress those cases.

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his Written Statement of 21 April 2004, *Official Report*, columns 19–21WS on the child support scheme, when he estimates that reliable figures on *(a)* compliance and *(b)* throughput will be available. [171099]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Steve Webb, dated 21 May 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, pursuant to his Written Statement of 21st April, Official Report, columns 19–21WS on the child support scheme, when he estimates that reliable figures on *(a)* compliance and *(b)* throughput will be available.

Whilst EDS have made significant progress in relation to correcting defects within their computer service we are still working through with them how these can be applied retrospectively to provide the type of information you seek. We do not yet have detailed plans for this work and I am therefore unable to provide the estimate requested.

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his written statement of 21 April 2004, *Official Report*, columns 19–21WS, for what reasons his Department has increased the amount retained from the monthly payments to EDS from 15 per cent. to 15 to 20 per cent. [171288]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Steve Webb, dated 21 May 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, pursuant to his Written Statement of 21st April, Official Report, columns 19–21WS, for what reasons his Department has increased the amount retained from the monthly payments to EDS from 15 per cent, to 15 to 20 per cent.

In the last quarter the Department has retained between 15% and 20% of the monies that would otherwise be due to EDS. The amount of the retention actually made each month reflects the service levels achieved by EDS in the provision of their contracted service to the Agency.

Child Support Agency

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his Oral Statement of 11 February 2004 to the Work and Pensions Select Committee on the Child Support Agency reforms, when the IT recovery programme *(a)* began and *(b)* will be completed; and if he will make a statement. [169399]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Steve Webb, dated 21 May 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, pursuant to his Oral Statement of 11th February, to the Work and Pensions Select Committee on the Child Support Agency reforms, when the IT recovery programme *(a)* began and *(b)* will be completed; and if he will make a statement.

Since November 2003 we have been involved with EDS to agree the scope, design and development schedule for their programme to remedy issues associated with their provision of a computer service to support the Child Support Reform programme. This has led to enhancements to the main system in January and March and to the work management and telephony system (again in January and March). They have currently planned a further major software release in June. We are still discussing the final content and delivery timetable of subsequent enhancements.

CABINET OFFICE

Obesity Initiative

Jeff Ennis: To ask the Minister for the Cabinet Office for what reason the Government discounts to private health club membership for firemen, nurses, police and ambulance workers as part of its initiative to cut obesity have not been extended to all categories of Civil Servants. [173321]

Mr. Alexander: The Government are committed to looking after the occupational health of Civil Servants. Having pro-active occupational health policies not only benefits employees but can also assist the organisation by helping to reduce levels of sickness absence.

As part of programmes to raise awareness of health issues, Government Departments and agencies are free to negotiate membership discounts on behalf of their staff with private health club providers, or provide their own fitness facilities.

DEFENCE

Aircraft Carrier Programme

Mr. Sarwar: To ask the Secretary of State for Defence if he will make a statement on the progress of the new aircraft carrier programme. [173703]

Mr. Ingram: The Future Carrier (CVF) programme remains in the Assessment Phase. Ministers are currently considering proposals on the overall CVF programme, the alliance strategy and on when to proceed to the Demonstration and Manufacture phases. We expect to make an announcement when these deliberations are complete.

Mr. Nicholas Brown: To ask the Secretary of State for Defence when he expects to make an announcement concerning the Future Carrier Programme, the Alliance Strategy and the timetable for the demonstration and manufacture phases; and if he will make a statement. [173704]

Mr. Ingram: Ministers are currently considering proposals on the overall CVF programme, the alliance strategy and on when to proceed to the Demonstration and Manufacture phases. We expect to make an announcement when these deliberations are complete.

AWE Aldermaston

Llew Smith: To ask the Secretary of State for Defence whether his Department's policy in respect of the proposal to build a high-powered laser facility at AWE Aldermaston has changed since 5 July 1999. [173861]

Mr. Ingram: The Ministry of Defence is currently considering a new proposal for a laser facility at AWE to replace the existing HELEN laser. In 2001, because of time and cost overruns on the United States National Ignition Facility, it was decided not to continue with plans, announced on 5 July 1999, *Official Report*, column 341W, to build a United Kingdom target chamber attached to that facility.

Eurofighter

Mr. Hoyle: To ask the Secretary of State for Defence if he will promote the benefit of Eurofighter to the Singapore Government. [173771]

Mr. Ingram: This Government are actively involved in promoting Eurofighter Typhoon to the Government of Singapore through the work of the Defence Export Services Organisation. The aircraft has been included on the shortlist to be evaluated for the Singaporean next Fighter Replacement Programme, and a decision is expected early in 2005.

International Committee of the Red Cross

Glenda Jackson: To ask the Secretary of State for Defence whether, when the administration of Camp Bucca was handed back to the British Armed Forces, they began to investigate the allegations of ill-treatment detailed to the International Committee of the Red Cross by detainees. [173455]

Mr. Hoon: No. The United Kingdom took over the running of Camp Bucca from the United States on 25 September 2003, and continued to run the facility until the opening of the Divisional Temporary Detention Facility at Shaibah on 15 December 2003.

The two incidents concerning prisoners at Camp Bucca, detailed in the ICRC's report on the Treatment by the Coalition Forces of Prisoners of War and other Protected Persons by the Geneva Conventions in Iraq during Arrest, internment and Interrogations, both allegedly occurred while the facility was run by the US. These are matters for the US.

Adam Price: To ask the Secretary of State for Defence whether the death mentioned at paragraph 44 of the International Committee of the Red Cross Report on the Treatment by the Coalition Forces of Prisoners of War and other protected persons in Iraq said to have occurred on 22 September 2003 was the result of actions by British armed forces. [173020]

Mr. Hoon *[holding answer 13 May 2004]:* The United Kingdom took over the running of Camp Bucca from the United States on 25 September 2003. The incident referred to in Paragraph 45 of the ICRC Report on the Treatment by the Coalition Forces of Prisoners of War and other Protected Persons by the Geneva Conventions in Iraq during Arrest, Internment and Interrogations, occurred before the UK took over the facility, therefore was not the result of action by British Armed Forces.

Investigation Techniques

Llew Smith: To ask the Secretary of State for Defence what assistance has been provided by the British Special Air Services to the United States military forces in investigation techniques of military personnel since 1984. [175139]

Mr. Ingram: I am withholding details under Exemption 1 of the Code of Practice on Access to Government Information.

IT Outsourcing

Mr. Hancock: To ask the Secretary of State for Defence (1) what the schedule is for the plan to outsource IT support and provision across his Department; [168293]

(2) what the projected budget is for the *(a)* outsourced support and provision of IT services for his Department and *(b)* cost of terminating existing contracts; [168291]

(3) what weighting will be given to the previous track records in other areas of the civil and public sector of the consortia that are bidding for the support and provision of IT services in his Department; [168290]

(4) what his contingency plan is for the possibility that an outside contractor wins the contract for the support and provision of IT in his Department and then fails during the term of that contract. [168289]

Mr. Ingram: These questions have been answered with respect to the Defence Information Infrastructure (DII) programme. The Ministry of Defence is in negotiations with two potential commercial Delivery

Partners (DP) for the provision of Information Systems services. The DII programme is currently in the Assessment Phase of the Smart Procurement cycle.

In terms of cost, the MOD currently spends over £450 million per annum on its information infrastructure. It is anticipated that the DII Public/ Private Partnership contract will cost in the region of £4 billion over 10 years.

Track record is one of a number of factors included in the evaluation of bids. The Department's Supplier Relations Group has conducted research of bidding consortium members' performance both in Defence and across Government. In addition, the project has taken up references, by telephone and through visits, from existing customers of the key companies in the bidding consortia. Further reference visits will be conducted during the final phase of the procurement, targeting customers in receipt of a similar volume and range of services.

10 major legacy contracts for IT infrastructure have been identified and these will be subsumed within, or superseded by, the DII contract. The majority of these contracts are due to expire naturally over the next 18 months. An options appraisal has been conducted for each contract and an appropriate scenario agreed for each during subsequent mitigation planning. Where the risks, liabilities or known termination charges are unacceptably high, the preferred option is to allow a contract to run to expiry and then assimilate the activity within DII. Any contracts that currently lie beyond the next three years, which in the main are PFI contracts, will be subsumed on expiry. Residual liabilities will be assessed more fully following negotiations with bidders in the later stages of procurement but generally we would expect to be in no worse a position than now and would seek to be in a better position through negotiation.

Support to deployed operations will continue to be supplied by Service personnel. For all other elements of IT infrastructure provision and support the MOD will mitigate the risk of supplier failure by contracting with a consortium which will provide the services through a range of service providers. This will ensure that in the event that one member of the consortium fails, there is capacity available for another consortium member to pick up the service provision. In addition, the MOD will retain rights to step in and use its own staff or other third party contractors to remedy major service failures. Ultimately, the MOD will have rights to terminate the contract for material breaches in performance, with options to take services back in-house or contract with another commercial provider for their delivery.

King's Regiment

Mr. McNamara: To ask the Secretary of State for Defence what the postings were of the 1st Battalion, The King's Regiment for the last two years; and what postings are planned in the next year. [174740]

Mr. Ingram: 1st Battalion, The King's Regiment has been based at Catterick since March 2001. The Regiment deployed to Iraq from June to October 2003. One Company has since deployed to Kosovo, where they remain. During the period the unit has exercised in Canada (in the summer of 2002) and was involved in Operation Fresco (towards the end of 2002 and the start of 2003).

It is currently planned that a Company from the unit will deploy to the Falkland Islands later this year. The remainder of the unit is scheduled to undertake a number of routine tasks in support of the training of other units.

Missiles

Mr. Hancock: To ask the Secretary of State for Defence what armaments are to be fitted to the Future Surface Combatant. [171862]

Mr. Ingram: The Future Surface Combatant is currently in its concept stage. As such, no decisions have yet been taken on specific armaments. However, it is envisaged that its roles will include Anti-Surface Warfare, Anti-Submarine Warfare, Anti-Air Warfare and Land Attack, and the ships will be equipped accordingly.

Overseas Bribery

Mr. Simon Thomas: To ask the Secretary of State for Defence how many allegations of overseas bribery involving UK companies his Department has received from the US Administration since February 1999; on what dates these allegations were received; and what action his Department took on each allegation. [151401]

Mr. Ingram: I refer the hon. Member to the answer given to him by my right hon. Friend the Minister for Europe on 3 February 2004, *Official Report*, column 844W.

Procurement

Mr. Keetch: To ask the Secretary of State for Defence if he will place in the Library a copy of the long-term costings for the equipment programme. [172741]

Mr. Ingram: The detailed financial data and planning assumptions about the proposed content and timing of the future equipment programme form part of internal advice to Ministers on the overall affordability of the defence programme and of individual projects at the time they come forward for approval. This information therefore anticipates decisions still to be taken by Ministers. In parts it also contains information which is commercially sensitive. I am therefore withholding such information under Exemptions 2 and 13 of the Code of Practice on Access to Government Information.

Information is, however, routinely made available on a range of major equipment projects, which together form the substantial part of the Department's forward equipment programme, for example in support of the PAC's annual Major Projects Report and the HCDC's annual inquiry into defence procurement. This detail is set in broader context by the publication every two years of the Department's overarching Defence Investment Strategy.

Refuelling Tanker Aircraft

Mr. Keetch: To ask the Secretary of State for Defence whether the Government plan to work jointly with the French Government in the CVF programme; and if he will make a statement. [170352]

Mr. Ingram: We are continuing to explore opportunities with the French for potential Carrier co-operation. We believe there could be potential political, military and economic benefits to be gained through such co-operation, but we must ensure that the United Kingdom's CVF programme is not disrupted.

Type 45 Destroyer

Miss McIntosh: To ask the Secretary of State for Defence if he will make a statement on progress on the Type 45 destroyer programme. [174251]

Mr. Ingram: The Type 45 will be the biggest and most capable class of air defence destroyers ever built for the Royal Navy, and will be equipped to carry out a range of tasks. Six ships are on order with the prime contractor BAE Systems, providing stability for the shipbuilding work force on the Clyde, and at the new VT facility at Portsmouth, for the remainder of the decade. The programme is in full production against a mature design, a first for a UK warship project at this stage of its development.

UN Operations

Llew Smith: To ask the Secretary of State for Defence if he will place in the Library transcripts of the media interviews he gave on 10 May 2004 on the situation in Iraq and investigations into alleged abuse of detainees in British custody in Iraq. [173344]

Mr. Hoon: The Ministry of Defence does not routinely hold full transcripts of interviews given by Ministers on radio or television programmes.

Llew Smith: To ask the Secretary of State for Defence how many vehicles have been transported to Iraq for use by British armed forces, broken down by type. [173860]

Mr. Ingram: This information would require extensive manual retrieval and could be provided only at disproportionate cost.

Tom Cox: To ask the Secretary of State for Defence what length of deployment UK military personnel are required to serve in Iraq. [174353]

Mr. Ingram: I refer my hon. Friend to the answer I gave on 19 April 2004, *Official Report*, column 11W, to the hon. Member for Romford (Mr. Rosindell).

Llew Smith: To ask the Secretary of State for Defence how many of each of the *(a)* Blu-97B, *(b)* 20 mm Phalanx Sea-to-Air, *(c)* 25 mm M791, *(d)* 30 mm PGU-14/B, *(e)* 120 mm MV Charm, *(f)* Tow 2 A/B A/tank, *(g)* AGM-65 G Maverick, *(h)* Hellfire II/Brimstone, *(i)* AGM-84 SLAM-ER, *(j)* AGM-154C JSOW, *(k)* AGM-158 JASSM, *(l)* BGM-109 Tactical Tomahawk, *(m)* Storm Shadow/Scalper, *(n)* GBU-15, *(o)* GBU-24, *(p)* GBU-27, *(q)* GBU-28B/B, *(r)* GBU-31JDAM, *(s)* GBU-37 B/B, *(t)* GBU-118/B and *(u)* SSB weapon types were used in Iraq; and which were used against targets in urban areas. [174375]

Mr. Ingram: The numbers of each weapon type used by British forces during Op. Telic are as follows:

Weapon type	*Total used*
20 mm Phalanx	0
120 mm CHARM	850
TOW (I and FI variants)	83
AGM-65 G Maverick	38
Storm Shadow	27
GBU-27	9

In respect to the numbers of *(l)* BGM-109 Tactical Tomahawk, and; in relation to the breakdown of numbers used against urban targets, I am withholding this information in accordance with Exemption 1a of the Code of Practice on Access to Government Information which relates to defence, security and international relations.

With the exception of the Tactical Tomahawk, those weapon types included in the question but not listed in the table above are not in UK service.

Vaccination

Mr. Hancock: To ask the Secretary of State for Defence (1) when the practice of informed consent for the administering of vaccines became standard practice; [174191]

(2) pursuant to the letter from the Under-Secretary of State of 1 December 2003, under what guidelines vaccines were administered that did not have a product licence at that time. [174197]

Mr. Caplin: We are currently assembling the information but it is taking time. I will therefore write to the hon. Member and place a copy of my letter in the Library of the House.

HEALTH

Chronic Disease

Mr. Burstow: To ask the Secretary of State for Health what expenditure has been allocated by his Department to projects to improve chronic disease management over the next three years. [171233]

Mr. Hutton: The management of chronic conditions and the provision of treatment and support to people with such conditions consume substantial national health service resources within primary care trusts' existing allocations. Our recently announced initiative, improving chronic disease management, is intended to make better use of those resources and offer better care to people with chronic conditions. The Department of Health has, however, allocated a total of £5 million in funding to nine primary care trusts participating in the Evercare pilot scheme to test potential ways in which these improvements might be achieved.

Clinical Advisers (IT Forum)

Mr. Lansley: To ask the Secretary of State for Health what the reasons are for the disbandment of the NHS IT forum for clinicians; and if he will make a statement. [173093]

Mr. Hutton: The national health service's national programme for information technology is currently considering options to strengthen the arrangements for providing advice from clinicians and patients' representatives to inform its work. Members of the National Clinical Advisory Board are fully involved in discussions about its future role. The National Clinical Advisory Board has not been disbanded.

Dental Treatment

Tom Cox: To ask the Secretary of State for Health how many dentists working within the London borough of Wandsworth provide national health service dental treatment within their practice; and if he will make a statement. [173077]

Mr. Hutton: Data for number of dentists are not collected by London borough area. The number of national health service dentists in Wandsworth Primary Care Trust (PCT) at 30 September 2003 is shown in the table.

National health service: Number of dentists in Wandsworth PCT area—30 September 2003

Primary care trust	*Wandsworth PCT*
General dental service (GDS)	121
Community dental service (CDS)	27
Salaried	4
Total	152

Dentists can work in more than one PCT area. GDS dentists numbers are for those whose main dental work is in the Wandsworth PCT area. Therefore, dentists who do some work in this area but more in another PCT have not been included.

Dentists in the GDS include principals, assistants and vocational dental practitioners. These figures are on a headcount basis rather than whole-time equivalent basis and therefore take no account of part-time working.

Dentists

Mr. Crausby: To ask the Secretary of State for Health what proportion of adults in *(a)* Bolton, *(b)* Greater Manchester and *(c)* England were registered with an NHS dentist in each of the last seven years. [172598]

Ms Rosie Winterton: The information available is for general dental service (GDS) dentist registration rates for adults in the Wigan and Bolton Health Authority at 30 September 1997 to 2001, and for Bolton Primary Care Trust (PCT), which is part of the Greater Manchester Strategic Health Authority (SHA) for 30 September 2002 and 30 September 2003. Figures for the Greater Manchester SHA area are also shown.

Registrations cover patients who have been to a general dental service dentist within the past 15 months. These will exclude patients who choose to attend occasionally who have not been to a dentist during that period. Registrations are included in the area of the dentist. Patients may choose to have their dental services in a different PCT area from the one in which they live. The registration period was changed for new registrations and registrations extending from September 1996. Previously the period for adults was 24 months while children's registration lapsed at the end of the following calendar year. This caused registration numbers to fall between November 1997 and August 1998.

National health service dental services are also provided by the community dental service, personal dental service, the salaried service of the GDS and hospital dental service. These services do not require the patient to be registered with a dentist before treatment.

Adult dental registrations as a percentage of the population at 30 September for each year

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Wigan and Bolton HA	[1]59.6	54.0	52.0	51.4	51.0	n/a	n/a
Bolton PCT	n/a	n/a	n/a	n/a	n/a	45.6	45.7
Greater Manchester SHA area	[1]60.3	53.9	52.2	52.3	51.9	50.6	49.7
England	51.0	43.8	43.3	43.4	43.4	44.2	44.0

n/a = not available.
[1] Registration figures are not on the same basis as those for later years because of the change in registration period.

Patients wishing to register with a NHS dentist can obtain details of dentists accepting new patients in their area by accessing www.nhs.uk, contacting NHS Direct or contacting their local PCT. Currently 93 per cent. of callers to NHS Direct are being directed to sources of NHS dental treatment within locally agreed distance standards.

Mr. Crausby: To ask the Secretary of State for Health how many dentists in *(a)* Bolton, *(b)* Greater Manchester and *(c)* England treated NHS patients in the past seven years; and how many treated only private patients in each year. [172621]

Ms Rosie Winterton: The table shows the number of dentists in the general, personal, community, and hospital dental services.

The figures given are for 30 September for each year. Before 2002 Bolton was part of the Wigan and Bolton Health Authority. In 2002 health authorities (HAs) were replaced by primary care trusts (PCTs).

Figures for the number of dentists who treat private patients only are not available. Few dentists are purely private. The Office of Fair Trading report "The private dentistry market" in the UK stated that only 210 practices are totally private in the United Kingdom out of 11,000 practices in total.

Figures are also given for England.

Number of dentists at 30 September of each year

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Wigan and Bolton HA	205	210	211	219	207	n/a	n/a
Bolton PCT	n/a	n/a	n/a	n/a	n/a	85	84
Greater Manchester Strategic Health Authority area	1,115	1,127	1,162	1,155	1,150	1,161	1,203
England	20,483	21,041	21,556	21,902	22,438	23,051	23,490

n/a = not available

Dialysis

Mr. Burstow: To ask the Secretary of State for Health if he will list the *(a)* average and *(b)* maximum waiting time for vascular access surgery for dialysis patients for (i) England, (ii) each region and (iii) each strategic health authority in each year since 1996. [159780]

Mr. Hutton: Information on waiting times for vascular access surgery is not centrally available. Waiting times for consultant led in-patient elective admissions and consultant led first out-patient appointments following general practitioner referral are collected on the consultant's main specialty not by procedure.

Diets

Mr. Watson: To ask the Secretary of State for Health what evaluation he has made of studies into long-term calorific restriction diets and their effectiveness in reducing the risk of *(a)* cancer, *(b)* coronary heart disease, *(c)* diabetes and *(d)* strokes. [169236]

Miss Melanie Johnson: The Department has not specifically evaluated the long-term effects of calorie restricted diets, but animal research has consistently shown that calorie restriction can increase lifespan by about 30 per cent. and protect against cancer. The long-term effect of calorie restriction in humans has yet to be established.

Obesity increases the risk of developing coronary heart disease, diabetes, some cancers and hypertension. Evidence indicates that maintaining a healthy weight is a key element in the prevention of these conditions.

Food Standards Agency

Andrew George: To ask the Secretary of State for Health how many *(a)* Parliamentary Questions, *(b)* adjournment debates and *(c)* urgent Questions on the work of the Food Standards Agency (FSA) the Department has answered since it was established; and if he will make a statement on the accountability of the FSA to Parliament. [171860]

Miss Melanie Johnson *[holding answer 11 May 2004]:* Ministers have answered 1,281 Parliamentary Questions, two adjournment debates and no urgent questions on the work of the Food Standards Agency (FSA) since it was established. There has been one Opposition Day debate, eight European Scrutiny Debates in European Standing Committee C, one debate on a prayer against a Statutory Instrument in the House of Commons and one in the House of Lords, seven Select Committees where both oral and written evidence was provided and six Select Committees where written memoranda only were provided. FSA policy areas have not been debated in Westminster Hall. Health Ministers have not taken Primary Legislation through Parliament on behalf of FSA.

The FSA is a United Kingdom non-Ministerial department established by the Food Standards Act 1999. It is accountable to the Westminster Parliament through the Secretary of State for Health and to the administrations of Scotland, Wales and Northern Ireland through the relevant Health Ministers. Under the 1999 Act, the FSA's expenditure is paid out of money provided by Parliament and the administrations of Scotland, Wales and Northern Ireland. Its Annual Report and Accounts is laid before the Westminster Parliament, the Scottish Parliament, the National Assembly for Wales and the Northern Ireland Assembly. Its Chief Executive is the FSA Principal Accounting Officer.

Correspondence to Health Ministers from hon. and right hon. Members about issues for which the FSA is responsible normally receives a reply from the relevant Minister. The Chairman and Chief Executive of FSA reply to correspondence addressed directly to them.

The Meat Hygiene Service (MHS) is an executive agency of the FSA. It is responsible for enforcement of meat hygiene and BSE-related legislation in licensed meat plants in Great Britain. It also carries out certain functions on behalf of the Environment and Rural Affairs Departments.

Health Service

Mr. Benton: To ask the Secretary of State for Health how many and what percentage of women in Bootle with suspected breast cancer saw a specialist within two weeks in each of the last five years. [171481]

Miss Melanie Johnson: The information requested is not collected on a constituency basis. The information in the table relates to national health service organisations serving the Bootle constituency.

Waiting times for patients referred urgently by their GP with suspected breast cancer to 1st outpatient appointment: NHS Trusts in Crosby

	Quarter	NHS Trust	Percentage of patients seen in two weeks	Total patients seen	Patients seen in two weeks
1999–2000	1	Aintree Hospitals NHS Trust	76.2	101	77
		Royal Liverpool & Broadgreen University Hospitals NHS Trust	80.4	97	78
1999–2000	2	Aintree Hospitals NHS Trust	88.2	102	90
		Royal Liverpool & Broadgreen University Hospitals NHS Trust	100.0	166	166
1999–2000	3	Aintree Hospitals NHS Trust	95.0	120	114
		Royal Liverpool & Broadgreen University Hospitals NHS Trust	99.5	210	209
1999–2000	4	Aintree Hospitals NHS Trust	100.0	118	118
		Royal Liverpool & Broadgreen University Hospitals NHS Trust	99.5	209	208
2000–01	1	Aintree Hospitals NHS Trust	98.0	102	100
		Royal Liverpool Children's NHS Trust	92.6	190	176
2000–01	2	Aintree Hospitals NHS Trust	100.0	155	155
		Royal Liverpool & Broadgreen University Hospitals NHS Trust	100.0	295	295
2000–01	3	Aintree Hospitals NHS Trust	100.0	155	155
		Royal Liverpool & Broadgreen University Hospitals NHS Trust	100.0	270	270
2000–01	4	Aintree Hospitals NHS Trust	100.0	143	143
		Royal Liverpool & Broadgreen University Hospitals NHS Trust	96.8	250	242
2001–02	1	Aintree Hospitals NHS Trust	99.4	157	156

Mr. Borrow: To ask the Secretary of State for Health if he will make a statement on the levels of elective admission to the NHS in South Ribble in the past five years. [171269]

Miss Melanie Johnson: The information requested is shown in the table.

Count of in-year elective (waiting time, booked, planned) admissions—PCT of responsibility5F5 Chorley and South Ribble Primary Care Trust—NHS Hospitals, England 1998–99 to 2002–03. Excluding regular attenders.

PCT of responsibility	5F2 Chorley and South Ribble
1998–99	30,440
1999–2000	32,827
2000–01	34,386
2001–02	24,687
2002–03	32,671

Notes:

1. An in-year admission is the first period of in-patient care under one consultant within one health care provider, excluding admissions beginning before 1 April at the start of the data year. Periods of care on-going at the end of the data year (unfinished admission episodes) are included. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

2. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

3. PCT and strategic health authority (SHA) data was added to historic data-years in the HES database using 2002–03 boundaries, as a one-off exercise in 2004. The quality of the data on PCT of Treatment and SHA of Treatment is poor in 1996–97, 1997–98 and 1998–99, with over a third of all finished episodes having missing values in these years. Data quality of PCT of general practitioner practice and SHA of GP practice in 1997–98 and 1998–99 is also poor, with a high proportion missing values where practices changed or ceased to exist. There is less change in completeness of the residence-based fields over time, where the majority of unknown values are due to missing postcodes on birth episodes. Users of time series analysis including these years need to be aware of these issues in their interpretation of the data.

Hospital Episode Statistics (HES), Department of Health.

Tony Cunningham: To ask the Secretary of State for Health how many rapid access chest pain clinics there are in Workington constituency. [170713]

Miss Melanie Johnson: There are no rapid access chest pain clinics based in Workington. However, there is a clinic in Whitehaven.

Health Tourism

Mr. Yeo: To ask the Secretary of State for Health what assessment his Department has made of the scale of health tourism; and if he will make a statement. [160665]

Mr. Hutton: The national health service has never been required to provide statistics on the number of overseas visitors treated under the provisions of the National Health Service (Charges to Overseas Visitors) Regulations 1989. It is therefore not possible to give a definitive assessment of the scale of this matter. Nevertheless, NHS staff operating the charging regime have told us that there are significant issues in some areas, which we are taking action to deal with. We are taking forward a study of 12 NHS trusts across England, the results of which will, over time, help to give us a better understanding of the level of inappropriate use of the NHS by overseas visitors.

In addition, on 14 May I launched a public consultation on proposals to exclude overseas visitors from eligibility for free NHS primary medical services. We are also commissioning a study of the use of these services by overseas visitors which will inform our consideration of the responses to the consultation.

Heart Bypass Operations

Mr. Burstow: To ask the Secretary of State for Health how many heart bypass operations there were per million population in *(a)* England and *(b)* each strategic health authority in each year since 1997. [172700]

Miss Melanie Johnson: The information requested is shown in the table.

Heart bypass operations have increased in number over the past six years. However, angioplasty is increasingly being used to treat patients who would have undergone bypass surgery in the past and the procedures performed in national health service hospitals in England have increased from 17,291 in 1997–98 to 34,986 in 2002–03.

All operations (ICD-10 K40-K46) Coronary Artery Bypass Grafts (CABGs). Count of Finished Consultant Episodes by Strategic Health Authority (SHA) of Residence. NHS Hospitals, England 1997–98 to 2002–03

Notes:
1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).
3. All operations count of episodes—these figures represent a count of all FCE's where the procedure was mentioned in any of the 12 (four prior to 2002–03) operation fields in a HES record. A record is only included once in each count, even if an operation is mentioned in more than one operation field of the record. Population figures are not available so only operation counts can be provided.
4. Strategic Health Authority (SHA) Data Quality—SHA data were added to historic data-years in the HES database using 2002–03 boundaries, as a one-off exercise in 2004. The quality of the data on SHA of treatment is poor in 1998–99, with over a third of all finished episodes having missing values in these years. Users of time series analysis including 1998–99 need to be aware of these issues in their interpretation of the data.

Hepatitis C

Chris Grayling: To ask the Secretary of State for Health when he expects to finalise compensation arrangements for those who contracted hepatitis C from blood transfusions. [173232]

Andrew Selous: To ask the Secretary of State for Health if he will make a further statement on the payment of compensation to patients who were infected with hepatitis C as a result of NHS treatment. [173377]

Miss Melanie Johnson: Work is progressing to finalise the arrangements, to begin making ex-gratia payments. The company that will disburse payments, the Skipton Fund, was incorporated on 25 March. The four United Kingdom health departments expect the Skipton Fund to be operational shortly.

Medical Negligence

Mr. Randall: To ask the Secretary of State for Health what code of practice is in place to prevent conflicts of interest concerning solicitors whose practices undertake medical negligence cases who are a *(a)* board member and *(b)* chairman of a health trust. [173308]

Mr. Hutton: The codes of conduct and code accountability for national health service boards require that all board members should declare any conflict of interest that arises in the course of conducting NHS business. The codes also requires that board members should declare any business interests in the field of health and social care which should be formally recorded in the minutes of the board and entered into a register which is available to the public. When a conflict of interest is established, the board member involved is also required to withdraw from any related board discussion and not play any part in the relevant discussion or decision. All NHS board members are required on appointment to sign an undertaking that they will comply with the provisions of the codes. A copy of the codes is available in the Library.

NHS Information Technology

Mr. Norman: To ask the Secretary of State for Health how many *(a)* clinical and *(b)* non-clinical NHS staff had access to e-mail and web browsing by (i) March 2003 and (ii) March 2004. [R] [171825]

Mr. Hutton: Numbers of national health service staff with email and web browsing access are shown in the table.

	March 2003	*March 2004*
Clinical staff	715,888	874,813
Total NHS staff	1,022,488	1,048,485

NHS Staff (Wirral, South)

Mr. Ben Chapman: To ask the Secretary of State for Health if he will make a statement on the levels of elective admissions to the NHS in Wirral South in the past five years. [172690]

Miss Melanie Johnson: I refer my hon. Friend to the response I gave on 10 May 2004, *Official Report*, columns 162–63W.

Nurse Training

Mr. Burstow: To ask the Secretary of State for Health how many whole-time equivalent *(a)* health visitors, *(b)* school nurses, *(c)* district nurses and *(d)* community psychiatric nurses were in training in each region in September of each year since 1997, broken down by (i) gender and (ii) ethnic origin. [172707]

Mr. Hutton: Information on the number of whole-time equivalent health visitors, school nurses, district nurses and community psychiatric nurses in training in each national health service region as constituted until 31 March 1998 is shown in Table 1, for each national health service region as constituted between 1 April 1998 and 31 March 2001 is shown in Table 2, and for each Government office region between 1 April 2001 and 31 March 2002 is shown in Table 3.

Information on the gender and ethnic origin of health visitors, school nurses, district nurses and community psychiatric nurses, in training is not available.

Statins (Warrington, North)

Helen Jones: To ask the Secretary of State for Health how many people in Warrington North are being treated with statins. [172846]

Miss Melanie Johnson: The information requested is not collected on a constituency basis and neither is the number of people currently being prescribed statins. However, the number of statins prescribed for Warrington Primary Care Trust is shown in the table.

Total number of statins prescribed by general practitioner practices in the community, in England, for the year beginning January 2003.

Region/type of region	Prescription items	Prescription items per 1,000 population
Warrington (PCT)	99,462	522
Cheshire and Merseyside (SHA)	1,363,439	582
England Total[1]	21,606,624	441

[1] The England total includes a small number of prescription items, prescribed by GPs, that the PPA have been unable to allocate to a PCT or SHA.

Notes:

1. The information, by PCT and strategic health authority (SHA), was obtained from the Prescribing Analysis and Cost (PACT) system, which covers prescriptions prescribed by general practitioner practices and dispensed in the community. Prescriptions written within a GP practice but dispensed outside the PCT or SHA will be included in the PCT or SHA in which, respectively, the GP practice is based. Prescriptions written in England but dispensed outside England are included. Prescriptions written in Wales, Scotland, Northern Ireland and the Isle of Man but dispensed in England are excluded.
2. Prescriptions are written on a prescription form. Each single item written on the form is counted as a prescription item.
3. The figures for Statins represent data on the following chemical entities: atorvastatin; cerivastatin; fluvastatin sodium; lovastatin; pravastatin sodium; rosuvastatin calcium; simvastatin.

Waiting Lists/Times

Mr. Pike: To ask the Secretary of State for Health what changes there have been to NHS waiting list times in the last seven years for the residents of Burnley. [167953]

Miss Melanie Johnson: Information on national health service waiting list times is not gathered on a constituency basis. The tables show information based on NHS organisations serving the Burnley area.

In-patient waiting list by provider for the Burnley area (1996–2004)

			Months waiting to be seen				
	Unit name	*Total*	*0–2*	*3–5*	*6–8*	*9–11*	*12–14*	*15–17*

Source:
Department of Health QM08

Tom Cox: To ask the Secretary of State for Health for what medical treatment there is the longest waiting time for *(a)* consultation and *(b)* treatment at NHS hospitals within the Greater London area. [173078]

Mr. Hutton: The treatment area with the longest wait to receive a first out-patient appointment with a consultant within the five London strategic health authorities (SHAs) is clinical immunology and allergy.

Of a selection of common, elective, surgical operations, the one with the longest average wait to receive admitted treatment within the five London SHAs is knee replacement.

PRIME MINISTER

Iraq

Glenda Jackson: To ask the Prime Minister if he will estimate how many Iraqi *(a)* women, *(b)* children and *(c)* civilians have been (i) killed and (ii) injured in the recent siege of Fallujah. [171976]

The Prime Minister: The Coalition always take great care to minimise the risks to civilians in all areas of Iraq. It is not always possible to confirm whether casualties have occurred, as Coalition forces are not always able to enter the areas from which they are being fired on. There are further difficulties in estimating numbers of deaths when those deaths have been caused by terrorist attacks.

Glenda Jackson: To ask the Prime Minister (1) pursuant to his answer of 12 May 2004, *Official Report*, column 385W, on Iraq, whether the three UK military personnel were working in the military intelligence section of Abu Ghraib prison; [174330]

(2) whether the three UK military personnel who worked in Abu Ghraib prison between January and April were under the command of *(a)* British and *(b)* US authorities during that time; and to which authority they reported. [174328]

The Prime Minister: Yes. The three military personnel were under British Command at all times, reporting to the Senior British Military Representative in Baghdad. They assisted in gathering information important to the Coalition's aim of establishing stability in Iraq through interviewing detainees.

TRADE AND INDUSTRY

Chapelcross

Llew Smith: To ask the Secretary of State for Trade and Industry pursuant to the answer on Chapelcross, of 13 May 2004, *Official Report*, column 489, whether a breach of the air exclusion zone around Chapelcross took place in 2003; and if she will make a statement. [175147]

Mr. Timms: No breach of the air exclusion zone at the Chapelcross nuclear power station took place in 2003.

Mail Services (Northern Ireland)

Mrs. Iris Robinson: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of mail items which were not delivered in Northern Ireland in the last 12 months. [173591]

Mr. Timms: Delivery services are the operational concern of Royal Mail Group and I have therefore asked the Chief Executive to reply direct to the hon. Member.

Research Assessment Exercise

John Austin: To ask the Secretary of State for Trade and Industry if she will take steps to bridge the funding gap for research projects consequent on implementation of the 2001 Research Assessment Exercise. [174183]

Ms Hewitt: The 2002 Spending Review announced the largest sustained growth in science for a decade, providing an additional £1.25 billion a year by 2005 06, including:

a dedicated stream of capital for Higher Education Institutions to develop their science research infrastructure;

substantial new resources to Research Councils to enable them to make a higher contribution to the full costs of the research they sponsor;

increased funding for the Higher Education Funding Council for England for the research component of HEI block grants, to underpin project funding.

Alongside this, changes are being implemented, following consultation, to make explicit the responsibility of HEIs for ensuring the long-term sustainability of their research enterprises and to enable them to cost and price research projects more effectively, whether publicly or privately funded. Taken together these measures will, over time, make a substantial impact on the quality and sustainability of the research base.

The Government will set out its future priorities for science and innovation in a 10-year Investment Framework for Science and Innovation, to be published in the summer.

Advantage West Midlands

Mr. Andrew Mitchell: To ask the Secretary of State for Trade and Industry what the cost was of *(a)* developing and *(b)* maintaining (i) the Advantage West Midlands website and (ii) each regional development agency's website in each financial year since 1999. [172372]

Mr. John Smith *[holding answer 13 May 2004]:* The information requested is set out in the following table.

Note:
A breakdown is not available as the services were contracted out.

Mr. Andrew Mitchell: To ask the Secretary of State for Trade and Industry what the salary bill was of *(a)* Advantage West Midlands and *(b)* each regional development agency for staff employed in a press office or public relations capacity in each financial year since 1999; and what the average salary was for staff employed in a press office or public relations capacity in each case in each year. [172373]

Ms Hewitt: *[holding answer 13 May 2004]:* The information requested is set out in the following table:

RDA	*Total salary of relevant RDA staff*	*Average salary of relevant RDA staff*
Advantage West Midlands	1999–2000: N/a	N/a
	2000–01: N/a	N/a

Disconnections

Mr. Caton: To ask the Secretary of State for Trade and Industry (1) if she will make a statement on actions being taken by *(a)* Ofgem and *(b)* industry to minimise disconnections made in error; [174361]

(2) what assessment she has made of the impact of energy disconnections for debt; [174362]

(3) how many household *(a)* gas and *(b)* electricity disconnections were made in each year from 2000; and how many were made in error in each case in each year. [174363]

Mr. Timms: Disconnection remains an appropriate action of last resort where a customer has repeatedly failed to respond to efforts to secure payment or to make specific repayment arrangements. However, this power must be subject to appropriate safeguards. I welcome the arrangements proposed by Ofgem and energy suppliers in April to improve those safeguards to protect vulnerable customers. The total number of disconnections for debt between 2000 and 2003 was:

	Gas	*Electricity*	*Total*
2000	16,500	300	16,800
2001	26,088	375	26,463
2002	21,780	995	22,775
2003	15,973	1,361	17,334

Ofgem does not collect data about disconnections made in error. Such disconnections are plainly unacceptable. If the hon. Member or other have information about such cases, they should provide the evidence to Energywatch, which is responsible for

investigating complaints against gas and electricity suppliers. Energywatch may provide evidence to, and recommend regulatory action by, Ofgem.

European Research Council

Bob Spink: To ask the Secretary of State for Trade and Industry how close to the market the research is in which the European Research Council will be involved. [174130]

Ms Hewitt: The possible establishment of a European Research Council is still at an early stage, and no proposal has yet been made by the European Commission, but it should not detract from the more directly industry-oriented research, historically funded by the Framework Programme. The Government are currently consulting about the matter as part of its overall consultation on Framework Programme 7, a copy has been placed in the Libraries of the House.

Fireworks Ban

Shona McIsaac: To ask the Secretary of State for Trade and Industry if she will make a statement on her proposals to ban category 4 fireworks from consumer sale. [174382]

Mr. Sutcliffe *[holding answer 19 May 2004]:* The supply of category 4 fireworks to the general public was banned in 1997 with the coming into force of the Fireworks (Safety) Regulations. Only fireworks professionals may purchase this type of firework.

Additionally, under these Regulations only fireworks that comply with the British Standard—BS 7114—are to be supplied to ordinary consumers.

Insolvency

Mr. Cousins: To ask the Secretary of State for Trade and Industry how many cases have been handled by the Insolvency Service Protracted Realisations Unit in each year since 1998; what the *(a)* gross and *(b)* net flow of cases was in each year; and what the average professional fee charged by an insolvency practitioner handling a protracted realisations unit case during that time was. [173277]

Mr. Sutcliffe: The Protracted Realisations Unit was created in October 1999, the figures in the table list how many cases had been handled in each year by the Unit from October 1999 to 31 March 2004.

Year to 31 March	*B/fwd*	*Input*	*Sent to IPs*	*Closings*	*C/fwd*
1999	None	—	—	—	—
September 1999 to 31 March 2000	33,027	1,355	519	1,724	32,139
2001	32,139	4,727	1,382	3,205	32,279
2002	32,279	3,816	1,926	3,303	30,866
2003	30,866	3,816	2,762	5,078	26,842
2004	26,842	1,566	3,876	3,200	21,332
Total	—	15,280	10,465	16,510	—

The Insolvency Service does not hold details of the average Insolvency Practitioner fee for handling a protracted realisations unit case. The fees are charged by the Insolvency Practitioner which may vary on a case-by-case basis.

International Thermonuclear Experimental Reactor

Bob Spink: To ask the Secretary of State for Trade and Industry if she will make a statement on *(a)* the siting and *(b)* cost sharing of the International Thermonuclear Experimental Reactor. [174579]

Mr. Timms: The international partners are trying to reach a compromise on the two proposed locations for ITER that will be acceptable to the whole ITER partnership. Currently the €4.5 billion budget for the construction of the ITER facility is to be shared as follows:

	Percentage	€
Europe or Japan as host	48	2.2 billion
Europe or Japan as non-host	12	540 million
US	10	450 million
China	10	450 million
Russia	10	450 million
South Korea	10	450 million

This is likely to change if more countries join the ITER partnership.

Bob Spink: To ask the Secretary of State for Trade and Industry what level of fusion research funding she will make available after the decision on the International Thermonuclear Experimental Reactor has been taken; and if she will make a statement. [174580]

Mr. Timms: Funding for the UK's national fusion programme is determined by the Engineering and Physical Sciences Research Council, which took over this function in April 2003. It is currently in the region of £16 million per year. Europe's participation in ITER will be funded through the Framework Programme.

Mail Services

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what discussions her Department has had with *(a)* Royal Mail and *(b)* Postwatch on the disappearance of mail. [174530]

Mr. Timms: DTI Ministers and officials meet representatives from the Royal Mail and Postwatch on a regular basis to discuss a wide range of issues, including quality of service and lost mail.

Nuclear Installations

Llew Smith: To ask the Secretary of State for Trade and Industry if she will make a statement on the operation to date of the Sellafield MOX plant. [173347]

Mr. Timms: The Sellafield Mox Plant (SMP) is currently undergoing plutonium commissioning prior to meeting its first overseas orders. I understand from BNFL that various technical challenges, which are not unduly surprising in such a sophisticated plant, are being addressed by the company.

Post Office

Mr. Bill O'Brien: To ask the Secretary of State for Trade and Industry when she last discussed the question of deprived wards with reference to the application of the

urban reinvention programme by Post Office Ltd.; and what interpretation the Post Office uses of the term deprived ward; and if she will make a statement. [173919]

Mr. Timms: In accordance with the recommendations of the Performance and Innovation Unit's year 2000 report 'Counter Revolution—Modernising the Post Office Network', the Government have provided support for post offices in deprived urban areas of England in the form of the Deprived Urban Post Office Fund administered by the Neighbourhood Renewal Unit of the Office of the Deputy Prime Minister. Similar schemes are administered by the devolved Administrations of Scotland and Wales while the merits of such a scheme are being considered in Northern Ireland. I announced on 5 February details of changes agreed by Post Office Ltd. and Postwatch to the current programme to restructure the post office network in urban areas which includes clarification of criteria to define exceptional circumstances under which Post Office Ltd. might propose to close a post office branch in a deprived urban area without an alternative within a half a mile. I understand that the Post Office uses the Indices of Deprivation 2000 to define its interpretation of an urban deprive ward.

Sellafield

Norman Baker: To ask the Secretary of State for Trade and Industry what timescale is being applied to the decommissioning of the B30 ponds at Sellafield. [173462]

Mr. Timms: HSE's Nuclear Installations Inspectorate (NII) has issued a number of Specifications for remediation activities at Sellafield.

A Specification issued by NII in 2000, requires BNFL to retrieve at least 90 per cent. of the potentially mobile intermediate level radioactive waste sludge from the B30 ponds and bays by 2010.

BNFL is continuing work to develop detailed plans necessary to meet that deadline.

Winkleigh Biomass Project

Mr. Burnett: To ask the Secretary of State for Trade and Industry how much direct or indirect expenditure by *(a)* central Government and *(b)* regional development agencies (i) has been incurred and (ii) is planned in connection with the proposed Winkleigh Biomass Project; and on what the expenditure was or will be incurred. [169461]

Jacqui Smith *[holding answer 29 April 2004]:* In relation to payments by the Department and the South West of England Regional Development Agency (SWRDA), the information requested was set out in the answer provided by my hon. Friend the Minister for State for Energy, E-Commerce and Postal Services on 11 March 2004, *Official Report*, column 1674W.

The grant undertaking awarded under the Bioenergy Capital Grants Scheme will provide £11.05 million conditional on successful construction and commissioning of the plant.

The funding approved by the South West of England Regional Development Agency (SWRDA) is to support the costs of feasibility studies (an Environmental Impact Assessment, a Biomass Study and an Economic Impact Assessment) and associated technical studies. These do not commit the Agency to any further expenditure. In addition SWRDA has bought land which, if the project were to go ahead, could be resold to the project at open market value.

I am not aware that any other Regional Development Agency or Department has made any payments to this project or has any plans to do so.

DEPUTY PRIME MINISTER

Council Tax

Mr. Edward Davey: To ask the Deputy Prime Minister what the cost to *(a)* the Valuation Office Agency, *(b)* the Valuation Tribunals and *(c)* central Government of administering (i) council tax and (ii) council tax benefit was in financial year 2001–02. [174359]

Mr. Raynsford: The information is as follows:

(a) (i) The Valuation Office Agency (VGA) budget for council tax costs in 2001–02 was £13.3 million,

(ii) The VGA does not deal with council tax benefit cases.

(b) The cost of Valuation Tribunals administering council tax is not separately identified. The overall expenditure of the valuation tribunal in 2001–02 was £9.31 million.

(c) The Government are responsible for the policy and legislation rather than the administration of council tax and council tax benefit.

Council Tax Revaluation

Mr. Edward Davey: To ask the Deputy Prime Minister what the estimated cost to *(a)* his Department, *(b)* the Valuation Office Agency and *(c)* other Government agencies and bodies was of council tax revaluation for financial years (i) 2003–04, (ii) 2005–06 and (iii) 2006–07. [174358]

Mr. Raynsford: The information is as follows:

(a) The cost of council tax revaluation for the Office of the Deputy Prime Minister is not separately identified.

(b) The Valuation Office Agency estimated council tax revaluation costs are:

(i) 2003–04 is £7.6 million;

(ii) 2005–06 is £50.2 million, and

(iii) 2006–07 is £50.5 million.

(c) The cost of council tax revaluation for the Valuation Tribunal Service is not significant for these years. Some preparation work will be required in 2005–06 and 2006–07 but this is not separately identified.

Departmental Officials

Mr. Cousins: To ask the Deputy Prime Minister which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG. [156901]

Yvette Cooper: The Office of the Deputy Prime Minister was created on 29 May 2002. Since that date there have been no requests from former officials seeking permission to join PricewaterhouseCoopers, Deloitte & Touche, Ernst & Young and KPMG.

Mr. Cousins: To ask the Deputy Prime Minister what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG has made to his Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Department have been made to those firms; and for what (A) periods and (B) tasks. [156930]

Yvette Cooper: The Office of the Deputy Prime Minister was created on 29 May 2002. Since that date there has been one inward secondment from PricewaterhouseCoopers, and none from the other organisations specified. The inward secondee, working in Local Government Efficiency Unit, started work in September 2001 and their secondment ended on 31 March 2004.

No staff from the Office of the Deputy Prime Minister have been seconded to any of the organisations specified.

Secondments are part of the Interchange Initiative which promotes the exchange of people and good practice between the civil service and other organisations. Before an Interchange can occur all parties must be satisfied that no conflict of interests arises.

Employment Agencies

Matthew Taylor: To ask the Deputy Prime Minister if he will list the employment agencies which his Department and its predecessors have used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163807]

Yvette Cooper: The Office of the Deputy Prime Minister was created on 29 May 2002. The Office has contracts for the supply of temporary staff with three recruitment agencies: Adecco, Brook Street and Reed. These contracts were awarded as a result of an invitation to tender by the Office.

Fire Service

Mr. Clifton-Brown: To ask the Deputy Prime Minister what plans the Government have for inter-brigade co-operation in the Fire Service in the event of a serious emergency. [174674]

Mr. Raynsford: The Government are keen to ensure a co-ordinated response from the fire and rescue service in the event of a major emergency. That is why all fire and rescue authorities have been invited to sign a Mutual Aid Agreement, which will enable individual fire and rescue authorities to ask for assistance from another authority in the event of a serious emergency.

The development of the Mutual Aid Agreement forms part of the Government's commitment to improving resilience and the fire and rescue service's response to a major incident. The Fire and Rescue Services Bill, currently progressing through Parliament, should make such an agreement easier to establish in future as it will extend authorities' ability to enter into mutual reinforcement schemes to include new duties such as responding to the increased terrorist threat.

The Government have also established the New Dimension programme, which will help to ensure a co-ordinated response to any terrorist incidents on a national scale by providing suitable equipment and training to deal with such incidents. A national co-ordination centre is being established in order to provide central command and control when the New Dimension equipment is utilised. This will remain in place until such time as the regional control rooms are operational, when they will direct resources on a regional basis.

Housing

Mr. Austin Mitchell: To ask the Deputy Prime Minister whether his Community Housing Task Force has yet been integrated within the Government office network; how many of its staff are *(a)* civil servants and *(b)* consultants; and what services they provide to local authorities whose tenants have voted to reject the Government's three options for council house privatisation. [174661]

Keith Hill: From 1 June, the Task Force advisers will be allocated to their respective Government office regions and will fall under the line management of their respective Government office housing directors. The practical arrangements are being agreed and formalised.

There are 13 civil servants on fixed term contracts and three on secondments arrangements from local authorities and the National Housing Federation. There are no consultants working in the task force.

Where tenants have rejected the options to deliver the decent homes target, the Community Housing Task Force will continue to support local authorities and its tenants to investigate other options within the decent home policy framework to achieve decent homes by 2010.

Mr. Austin Mitchell: To ask the Deputy Prime Minister (1) for what reasons North East Lincolnshire was not granted the full sum for gap funding for its housing transfer for which it had applied; what assessment he has made of the effect this has on the business plans for the new housing association; and what plans he has to make supplementary gap funding available to North East Lincolnshire under the new arrangements for gap funding for areas of negative equity; [174500]

(2) whether the supplementary gap funding he announced in the week beginning 10 May for housing transfers in areas with negative equity will be made available to North East Lincolnshire. [174663]

Keith Hill: North East Lincolnshire sought £6 million, £2 million annually for three years, from the Yorkshire and Humber Regional Housing Board transitional commissioning as gap funding to cover the negative valuation of its stock to enable its Large Scale Voluntary Transfer (LSVT) proposal to proceed. The Board has agreed in principle to such a level of funding, with years two and three subject to the outcome of the Comprehensive Spending Review. It has invited the Council to submit a final proposal by 4 June 2004 with

a view to the Board making its final decision on 14 July 2004. Discussions will take place with the Board as to whether there is merit for their commitment to be absorbed within the central gap funding arrangements.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what councils, how many houses and how much land have been admitted to the Stock Transfer programme for each year since 2002–03; how many applied for inclusion; and what assessment he has made of what this means for future financing of councils which submit proposals by his deadline of July 2005. [174655]

Keith Hill: The following lists and tables show those councils which have applied for and/or been granted places on the Large Scale Voluntary Transfer (LSVT) programmes since 2002 and also the number of dwellings involved.

The Office of the Deputy Prime Minister does not hold information on how much land has been involved in stock transfer.

Local authorities transferring their housing stock under the LSVT programmes will have no impact on the future financing of social housing in other local authorities.

Number of dwellings applying for places on LSVT programmes since 2002

Programme	*Number*
2002	180,794
2003	125,806
2004	115,063

Mr. Austin Mitchell: To ask the Deputy Prime Minister what *(a)* support, *(b)* advice and *(c)* guidance his officials have provided to North East Lincolnshire in connection with its campaign for the large-scale voluntary transfer of its housing stock; what estimate he has made of the cost of (i) staff time, (ii) travel and (iii) other expenditure in connection with such support, advice and guidance; and how much of that cost is payable by North East Lincolnshire. [174549]

Keith Hill: As with any local authority on the Office of the Deputy Prime Minister's Disposals Programme, North East Lincolnshire council have discussed their stock transfer proposals with officials of the Office of the Deputy Prime Minister at each stage of the process, including seeking advice and guidance on all public consultation material. We make no specific estimate of the cost of staff time, travel or other expenditure in connection with the giving of support, advice or guidance to any particular local authority. No payment has been made by the council for any advice or support.

Land Developers

Mr. Watson: To ask the Deputy Prime Minister what advice is given to local authorities on how best to assess whether developers have sought brownfield site alternatives before proposing back land development. [174462]

Keith Hill: Planning Policy Guidance Note 3: "Housing" (PPG3) says that the country's housing needs should be met in the most sustainable way possible, giving priority to re-using suitable brownfield land in preference to the development of greenfield sites. PPG3 advises local planning authorities, in preparing their local plans, to adopt a systematic approach to assessing the development potential of sites and the redevelopment of existing buildings, deciding which are most suitable for housing development and the sequence in which development should take place. It is for local planning authorities to consider whether proposals for back land development are in principle consistent with the local plan (or where this is not up-to-date, the relevant criteria set out in PPG3) and are well-designed.

Local Authorities Complaints Fees

Bob Spink: To ask the Deputy Prime Minister (1) if he will restrict the maximum fee which a local authority can charge persons who make a complaint against a nuisance hedge grower to £100; [174581]

(2) when he will report on his consultation on the maximum fee which a local authority can charge persons who wish to make a complaint against a nuisance hedge grower. [174582]

Yvette Cooper: The Office of the Deputy Prime Minister will not be deciding the maximum fee which local authorities will be able to charge people making a complaint about a nuisance high hedge until we have analysed the responses to the current public consultation on implementing Part 8 of the Anti-social Behaviour Act 2003. The consultation period runs until 30 June. The Office of the Deputy Prime Minister expects to report the results of the consultation and to bring the legislation into operation towards the end of 2004.

Local Authority Leisure Services

Mr. Reed: To ask the Deputy Prime Minister what estimate he has made of the saving to local authorities of contracting out leisure services to the private sector. [174052]

Phil Hope: The information requested is not held centrally, and could be provided only at disproportionate cost.

Press Officers

Mr. Laws: To ask the Deputy Prime Minister how many press officers were employed in his Department in each year from 1990–91 to 2003–04; what the total cost was in each year; and if he will make a statement. [162851]

Yvette Cooper: The Office of the Deputy Prime Minister was created on 29 May 2002.

On 1 April 2003, ODPM*(c)* employed 21.8 full-time equivalent press officers. Salary costs for the period 1 June 2002 to 31 March 2003 were £0.86 million.

On 1 March 2004, 23 full-time equivalent press officers were employed. Salary costs for the period 1 April 2003 to 29 February 2004 were £0.96 million.

Regional Government

Mr. Jenkin: To ask the Deputy Prime Minister what the total cost to his Department was of the event on elected regional assemblies held in Barrow on 5 May 2004; how many staff from his Department were involved; how many staff from Government Office North West were involved; and if he will place in the Library a copy of the speech delivered by the Minister for Local and Regional Government. [172756]

Mr. Raynsford: The Office of the Deputy Prime Minister estimates that the Barrow hearing cost £3,900. This includes costs associated with venue hire and catering. Four members of the Office of the Deputy Prime Minister and three members of the Government office for the north-west were involved.

As on previous occasions, I spoke extempore, rather than from a prepared text.

Register of Interests

Bob Spink: To ask the Deputy Prime Minister what the requirements are on officials in his Department to declare current interests; and what register of interests is kept for his departmental officials. [164707]

Yvette Cooper: The Civil Service Management Code sets out the general principles and rules governing the conduct of civil servants declaring any conflict of interest. The Office of the Deputy Prime Minister's Staff Handbook states that staff are required to seek permission from the Office of the Deputy Prime Minister before undertaking any activity that might result in a conflict of interest and all applications are kept on file.

Timber Purchases

Mr. Gardiner: To ask the Deputy Prime Minister how *(a)* the Office of the Deputy Prime Minister, *(b)* its regional offices, *(c)* the Fire Service College, *(d)* the Ordnance Survey, *(e)* the Planning Inspectorate, *(f)* the Queen Elizabeth II Conference Centre and *(g)* the Rent Service monitor and audit purchases of timber and timber products to ensure that they meet the Department's stated commitment to being obtained from legal and sustainable sources. [164676]

Yvette Cooper: The Office of the Deputy Prime Minister, its regional offices and its agencies are committed to the Government Policy on the purchase of Legal and Sustainable forested wood and this is fully supported in our Greening Operations Policy Statement.

Contracts where the use of timber and timber based products is anticipated, contain clauses that require the supplier to actively seek legally sourced and sustainable timber and to supply physical evidence that supports this. The Office of the Deputy Prime Minister has the use of framework contracts for the purchase of furniture, which are subject to supply chain audit by officials.

Timber and timber based products have been adopted within the certificated and independently audited Environmental Management Systems which the Office of the Deputy Prime Minister has developed to manage our response to the "Framework for Sustainable Development on the Government Estate".

It is expected that Government targets associated with Timber Procurement will be published in the coming months and officials in the Office of the Deputy Prime Minister will be incorporating this into our procurement processes.

Although the Office of the Deputy Prime Minister has overall responsibility for the buildings occupied by Government Offices, they carry out functions on behalf of 10 Departments.

Written Answers to Questions

Monday 24 May 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Ancient Trees

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs what action her Department *(a)* has taken and *(b)* proposes to take to allow the EU's Natura 2000 designation to be extended to include sites with ancient trees. [173956]

Mr. Bradshaw: Ancient trees can and do occur in candidate Special Areas of Conservation, which together with Special Protection Areas for birds form the Natura 2000 network. However, they are not included specifically either as a habitat type in Annex I, or a species in Annex II, of the Habitats Directive for which sites can be selected.

The purpose of Natura 2000 designation is to conserve areas containing habitats and species of Community interest of high ecological and bio-diversity value, rather than their cultural or historical value. Where ancient trees are included within sites, their cultural value as well as their contribution to the biodiversity of the area is provided for.

Apiculture

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will make a statement on the grounds for the ban on the import of queen bees from Hawaii; [174128]

(2) what evaluation her Department has made of the *(a)* health, *(b)* disease and *(c)* animal welfare grounds for restricting the import of queen bees from (i) Hawaii and (ii) Australia; and if she will make a statement. [174129]

Alun Michael: New European Community legislation strengthening the animal health controls and certification requirements for the importation of bees from third countries came into effect across the Community on 27 December 2003. Its aim, in particular, is to protect the EU bee population from exotic pests and diseases.

The new import controls include the requirement that consignments of queen honey bees will only be allowed into the Community from those third countries that have demonstrated the veterinary competence to certify bees for export, and provided that the notifiable diseases of bees in the EU—American foul brood, the small hive beetle and tropilaelaps mite—are also confirmed as notifiable throughout the exporting country. The specified third countries are listed in Part 1 to the Annex of Council Decision 79/542 and include the USA and Australia.

To date, only Australia, New Zealand and Argentina have demonstrated to us that they are able to comply with the conditions provided in the legislation, and imports of queens from these countries are permitted. However, in the case of Hawaii, while it is our opinion that it does have a high bee health status, and, indeed, we have until recently permitted imports of queen bees from there, it is nevertheless a territory of the USA. The EU legislation is clear in its intention, and it is our understanding that the three notifiable diseases mentioned above are not yet notifiable throughout the USA as a whole. The Commission has stated that it is not prepared to treat Hawaii as separate from the rest of the USA for this purpose. We are therefore not free to authorise the importation of queens bees from Hawaii until the USA has demonstrated equivalence with the EU.

Batteries Directive

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what representations her Department has made to the European Commission regarding the impact on users of hearing aids of the proposed Batteries Directive; [171353]

(2) what representations she has received from *(a)* organisations representing the hard of hearing and *(b)* manufacturers of batteries regarding the impact on hearing aid users of the proposed Batteries Directive. [171354]

Mr. Morley: The UK Government have made no representation to the European Commission about the impact of the proposed batteries Directive on batteries used in hearing aids. This is because proposals issued by the Commission for a new batteries Directive do not contain any requirement prohibiting the sale of batteries used in hearing aids.

However, Members of the European Parliament (MEPs) voted during their first reading of the proposal on 20 April in favour of an amendment, setting limit values for prohibiting the sale of all batteries that contain more than 5ppm of mercury by weight. The Government understand that because hearing aid batteries may contain more than 5ppm of mercury and 40ppm of lead, by weight, in a zinc air hearing aid battery, there is now concern as to a possible ban. However, the Government have not, as yet, heard from any organisations or manufacturers that may be affected, nor have they heard the reaction of the European Commission to the amendment

It should also be noted that the European Parliament also voted on an amendment to exclude from the controls of the new Directive, batteries and accumulators placed in medical devices; namely, those designed to maintain vital functions, where uninterrupted functioning is essential and the batteries and accumulators can be removed only by qualified personnel. If this amendment were accepted, it would not be clear whether those hearing aid batteries containing more than 5ppm of mercury and 40ppm of lead would be excluded.

HMG believes that the inconsistency between these two amendments is likely to be addressed by the European Parliament in its second reading. If the threshold limits proposed remained in the Directive and

led to the prohibition of batteries contained in hearing aids, or indeed batteries contained in other medical devices, this would be opposed by the UK and, we believe, by other member states also.

Mr. Weir: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received from manufacturers of batteries regarding the proposed European Batteries Directive. [171356]

Mr. Morley: We have received representation from the British Battery Manufacturers Association (BBMA) and the European Portable Batteries Association (EPBA) who represent all major manufacturers of portable batteries. Also, we have held discussions with Collect Nicad who represent the manufacturers of nickel cadmium batteries.

We expect to have further meetings with battery companies and other stakeholders now that the batteries consultation paper has been issued.

Beak Trimming

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs if the Government will extend the 2010 deadline for the ban on beak trimming if no solution to the problem of cannabalism is found. [174200]

Mr. Bradshaw: The Government are committed to banning the practice of beak trimming by the end of 2010. A beak trimming action group has been set up to carry forward an action plan to enable Defra to introduce this ban without compromising bird welfare. However, some form of review process prior to the 2010 ban is not unreasonable.

Chicken Incinerators

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the regulations governing incinerators used for on-farm disposal of chickens, with particular reference to *(a)* how often they will be inspected and *(b)* the cost to farmers of carrying out inspections. [174203]

Mr. Bradshaw: On-farm incinerators which only burn animal carcases such as chickens, must comply with the relevant requirements of Regulation (EC) No. 1774/2002 and must also be approved in accordance with this Regulation.

This regulation is enforced in England by the Animal By-Products Regulations 2003 (SI 2003/1482) (the ABPR).

Under the ABPR, the State Veterinary Service is responsible for inspecting and approving incinerator plants in accordance with Regulation 1774/2002. Visits to non-SRM incinerators (such as those incinerating only poultry) will, in general, be carried out on a quarterly basis. However, additional inspections may be carried out should they be necessary.

At present there is no cost for either the inspection or the approval of such plants.

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received from small-scale producers of chickens requesting their exemption from the ban on on-farm disposal; and if she will make a statement. [174204]

Mr. Bradshaw: The Department has received a number of such representations. However, the only exceptions from the ban on the routine on-farm burial or burning of animal by-products, in the UK, would be for remote areas (parts of the Highlands and Islands of Scotland, the Scilly Isles and Lundy Island) and during outbreaks of notifiable disease if there were a lack of capacity at rendering plants and incinerators, or if transport of the carcases would spread disease.

Dairy Industry

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to ensure that the difference in systems being adopted for single farm payments in England, Scotland and Wales does not lead to excessive trading in milk quotas and a reduction in dairy output in England; and if she will make a statement. [174136]

Alun Michael: We are aware that some milk quota is moving out of England, since it will generate larger payments under the Single Payment Scheme in other regions of the UK but we are monitoring the situation. On the basis of current evidence, the scale of the movement does not seem to be great enough to justify any action.

Energy Efficiency

Mr. Benton: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Bootle have benefited from the Warm Front and Home Energy Efficiency Schemes. [171484]

Mr. Morley: The Home Energy Efficiency Scheme is now marketed as Warm Front. Between the launch of the scheme in June 2000 and the end of March 2004, approximately 4,700 households in Bootle received assistance from the Scheme.

Mr. Pickthall: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in West Lancashire have benefited from the Warm Front and Home Energy Efficiency Schemes. [171496]

Mr. Morley: The Home Energy Efficiency Scheme is now marketed as Warm Front. Between the launch of the scheme in June 2000 and the end of March 2004, approximately 2,400 households in West Lancashire received assistance from the Scheme.

Farming

Nick Harvey: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* assessment and *(b)* economic analyses have been conducted of the economic impact on English farmers of differing farm payment schemes under common agricultural policy reform in England, Wales and Scotland; and if she will make a statement. [174080]

Alun Michael: Defra will publish shortly an analysis of the economic impact on the English farming industry of the single farm payment and the way in which the scheme will be operated in England.

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs how many people were employed, in full time equivalents, in the United Kingdom farming industry in each of the last three years; and what contribution was made by the farming industry to the United Kingdom economy as a percentage of GDP in that period. [174192]

Alun Michael: The information requested is given in the table.

Calendar years	*2001*	*2002*	*2003*[1]
Annual work unit (thousands)[2]	333	320	306
Agriculture's Gross Value Added (GVA) as a percentage of national GVA (current prices)	0.8	0.8	0.8

[1] Provisional.
[2] An annual work unit represents the equivalent of an average full-time person engaged in agriculture. Includes farmers, partners, directors and hired workers.

Flood and Coastal Defences

Mr. Dalyell: To ask the Secretary of State for Environment, Food and Rural Affairs what action she has taken as a result of the Foresight Programme on Flood and Coastal Defences. [167001]

Mr. Morley: The Foresight Programme on Flood and Coastal Defence was initiated by the Office of Science and Technology to provide a shared understanding of the challenges faced by a wide range of stakeholders and to assist in the development of a long-term policy response. Stakeholders have contributed to an action plan in response to the Foresight Report which seeks to build upon this shared understanding and provide a channel through which actions across and outside Government can be co-ordinated. I have agreed that the group of key stakeholders which I chair will meet in one year to monitor progress and consider the need for other actions.

In order for this action plan to be effective, it must be responsive to change in circumstances and will require regular review. The initial plan focuses on immediate actions, the findings of which will influence longer-term activities. A key mechanism for responding to the challenges within the report will be Defra's new strategy for flood and coastal erosion risk management, which is expected to be finalised early next year.

Landfill Sites

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what constitutes a moderate risk of release of leachate from a landfill site into a surrounding sea or land area. [171526]

Mr. Morley: The Landfill Directive requires that a landfill must be situated and designed so as to meet the necessary conditions for preventing pollution of the soil, groundwater or surface water and ensuring efficient collection of leachate as and when required. In addition, the Groundwater Directive requires Member States to prevent the introduction of certain substances and to limit the introduction of certain other substances into groundwater so as to avoid pollution.

The legislation in England that implements both these Directives is regulated by the Environment Agency and it is the Agency that would determine whether a likely release of leachate constituted an unacceptable risk, given the planned location of the landfill, using risk assessment techniques.

For closed landfills that are controlled by a waste management licence, a risk based approach is also adopted by the Environment Agency. Monitoring of leachate, ground and surface waters is required to provide, amongst other things, that leachate controls are preventing pollution of the environment and, where unacceptable risks are identified, the need for measures to prevent, reduce or remove potential leachate pollution are assessed.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what fines have been issued by courts following successful prosecutions for release of pollution from landfill sites in each of the last five years. [171533]

Mr. Morley: The Environment Agency has provided the following details of total levels of fines issued by the courts following successful prosecutions for release of pollution from landfill sites.

Data are available for the calendar years 2000–03 as these are the years for which complete data is present on the database. As the database is not specifically searchable for offences at landfill sites, these figures have been generated by selecting records where the word "landfill" appears in the address of the site of an event.

	£
2000	183,000
2001	91,500
2002	127,750
2003	51,000

[1] Total fines for year

Packaging

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what action she is taking to promote the minimising of packaging and the prevention of waste creation by *(a)* producers, *(b)* distributors and retailers and *(c)* consumers; and if she will make a statement. [174232]

Mr. Morley: There are currently two sets of Regulations that cover packaging in the UK, both of which encourage producers (including retailers) to minimise packaging. The Producer Responsibility Obligations (Packaging Waste) Regulations 1997 (as amended) are intended to increase the recovery and recycling of packaging waste. The amount of packaging waste producers have to recover and recycle is determined, in part, by the amount of packaging they handle. Therefore, businesses can save money if they reduce the amount of packaging they handle. The Packaging (Essential Requirements) Regulations 2003 place a number of requirements on all packaging placed on the market in the UK, including a requirement

that packaging should be manufactured so that the packaging volume and weight are limited to the minimum adequate amount to maintain the necessary level of safety, hygiene and acceptance for the packed product and for the consumer.

Both Regulations have actually led to decreases in packaging used around products. For example, less material is used now to make a plastic container than was used a few years ago. However, more still needs to be done to reduce the amount of packaging that is actually produced in the first place. I have asked the Advisory Committee on Packaging to work with industry to find solutions to this problem and to let me have recommendations for ways of encouraging businesses to further reduce the amount of packaging they use.

Although legislation is a way of reducing packaging and increasing recycling, we would also encourage consumers to play a part. For example, if consumers made a point of choosing goods that are not heavily packaged, or bought 'loose' food rather than pre-packaged, or used their own shopping bags or boxes, manufacturers would be more inclined to reduce the quantity of packaging on their products.

Pollution Licensing Regime

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department has taken to ensure that the Environment Agency does not use the integrated pollution prevention and control licensing regime as a revenue stream. [174089]

Mr. Morley: The Environment Agency has powers under Section 41 of the Environment Act 1995 to charge for environmental licences, including pollution prevention and control permits. Charging schemes must be approved by the Secretary of State with the consent of the Treasury. Charging schemes have to be limited to the recovery of the amounts needed, taking one year with another, to recover the Environment Agency's costs of carrying out its regulatory functions.

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to ensure that charges for integrated pollution prevention and control licences are set at a reasonable level; and if she will make a statement. [174095]

Mr. Morley: The Environment Agency's Environmental Protection Operator and Pollution Risk Appraisal (EP OPRA) charging scheme is a risk based assessment system, which closely links regulatory effort to environmental risk. EP OPRA was approved by the Government after consultation with industry and is based on four elements: emissions, location, complexity and operator performance. The scheme allows the Agency to recover the costs of carrying out its statutory responsibilities under the Pollution Prevention and Control regime. In line with the "polluter pays principle", well run companies with low potential risk to the environment are charged less than poorly run ones with a high potential to pollute. The Agency must adhere to the Treasury's Fees and Charges Guide, which describes how charges for statutory services should be calculated. The Agency is due to publish a 'transparency document' shortly, which will provide more detail on the Agency's costs; this document will be subject to the approval of the Environment Protection Charges Review Group, which includes industry representatives.

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received about the proposed integrated pollution prevention and control licences governing ammonia levels and odour; and if she will make a statement. [174096]

Mr. Morley: Permits issued under the integrated pollution prevention and control (IPPC) system each relate to a specified industrial installation and must contain emission limits and other permit conditions in respect of any pollutant likely to be emitted in significant quantities from that installation. Both Defra and the Environment Agency are in regular contact with all the industry sectors covered by IPPC and with other stakeholders.

One industry sector in which ammonia and odour emissions will be significant is the intensive rearing of pigs and poultry. IPPC permits for that sector may incorporate "Standard Farming Installation Rules", based on the application of Best Available Techniques which are described in a reference document published by the European Commission and in national guidance.

The Environment Agency began a public consultation on an updated version of the Standard Farming Installation Rules on 12 May 2004. The responses to the consultation are due by 16 August 2004. The consultation document is available on the Environment Agency's website at: http://www.environment-agency.gov.uk/yourenv/consultations/775300/7versi

Recycling

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what waste recycling levels were achieved by each European Union country in the last year for which records exist for each country. [174231]

Mr. Morley: Estimates for municipal recycling and composting rates for each available European Union country are listed in the table.

Municipal waste 2001

	Percentage recycled or composted
Austria	32.5
Belgium	57.7
Denmark	31.7
Finland	25.0
France	24.6
Germany	53.0
Greece	8.6
Ireland	12.9
Italy	24.4
Luxembourg	35.8
Netherlands	59.4
Portugal	4.2
Spain	28.4
Sweden	39.4
United Kingdom	12.7

These results are published on the Department's website. The full results can be found at: www.defra.gov.uk/environment/statistics/waste/wrkf08.htm

There may be some differences in definitions between countries.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs which local authorities *(a)* met and *(b)* failed to meet the local authority recycling target. [174233]

Mr. Morley: Individual local authorities are required to meet Statutory Performance Standards for the recycling and composting of household waste in 2003–04 and 2005–06 only. The most recent data available, for 2002–03, show that 83 local authorities have already met or exceeded their 2003–04 target and six have met or exceeded their 2005–06 target.

The names of these local authorities have been placed in the Library of the House. We will not know whether the remaining local authorities have succeeded or failed against their 2003–04 targets until later this year.

Local authorities which met or exceeded their Statutory Performance Standards for 2003–04 or 2005–06 in 2002–03

Local authorities which met or exceeded their 2005–06 targets in 2002–03

East Hampshire District Council

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what action *(a)* has been taken and *(b)* is being considered against local authorities that fail to reach the waste recycling targets. [174234]

Mr. Morley: The Government have always said that they will take seriously any failures by local authorities to achieve their Statutory Performance Standards for recycling and composting for 2003–04 and 2005–06.

However our primary aim is to support local authorities in achieving the targets, and we have set up the Waste Implementation Programme in Defra to do exactly that.

We will not know whether local authorities have succeeded or failed against their 2003–04 targets until later this year. Once that information is available, and where an authority has missed its target and demonstrates no commitment to improving its performance, the Government will consider using their formal intervention powers to drive improvement.

I refer the hon. Member to the answer given on 29 March 2004, *Official Report*, column 7205w, for further information on what action might be taken under my right hon. Friend the Secretary of State's formal powers of intervention.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs which local authorities bid for funds under the waste management recycling challenge in each round; and which have been successful. [174235]

Mr. Morley: The lists of local authorities that bid for funds under the National Waste Minimisation and Recycling Fund in rounds 1 and 2, which cover in 2002–03 and 2003–04 respectively, have been placed in the Library of the House. The lists for round 3, covering 2004–05, will be placed in the Library of the House shortly.

Successful bids in all three rounds are also published on the Defra website and can be accessed via the following links:

Successful bids in round 1: http://www.defra.gov.uk/news/2002/020625a.htm

Successful bids in round 2: http://www.defra.gov.uk/news/2002/021204a.htm

Successful bids in round 3: http://www.defra.gov.uk/environment/waste/localauth/funding/wastefund/index.htm

Sluice Gates (Queenborough)

Mr. Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs who owns the sluice gates that lead into the tidal pond at the bottom of Borough Road, Queenborough, Isle of Sheppey. [171383]

Mr. Morley: I understand that Swale borough council are currently in the process of establishing the ownership of the land on which the sluice gates are located. These investigations will enable the council to establish, among other things, who is responsible for their maintenance. The council expect to conclude their investigations within a few weeks and I have asked them to inform my hon. Friend of the outcome.

Supermarkets

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is on the regulation of prices paid to farmers by supermarkets. [174208]

Alun Michael: The price that supermarkets pay for their supplies, including those purchased direct from farmers, is a commercial matter. We have no plans to regulate this.

Two Tree Island

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received from English Nature regarding *(a)* contaminated materials on Two Tree Island and *(b)* the management of the site. [171534]

Mr. Morley: No representation have been made by English Nature to the Secretary of State in respect of Two Tree Island landfill site. Since 2001, English Nature, as a statutory consultee on planning applications, has attended meetings about proposed developments to repair sea wall defences at two locations (NE corner & south) within the perimeter of Two Tree Island. English Nature has made formal representations to a planning application by Southend-On-Sea Borough Council in respect of the NE corner in 2004. No formal planning application has yet been received for the areas within Castle Point Borough Council.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs on how many occasions the Water Resources Act 1991 has been breached by release of contaminated material from Two Tree Island. [171535]

Mr. Morley: Since 1991, The Environment Agency and its predecessor body (The National Rivers Authority) have only had one report (12 October 1993 Councillor Peter Wexham, Borough of Southend-On-Sea) of a suspected breakout of landfill leachate in the area of Two Tree Island. The investigating officer at the time of the incident indicates in the file note, that he was unable to substantiate the report, as he could not pin point the exact location of the suspected leachate breakout.

The Agency does not routinely monitor Two Tree Island, but would investigate reports and concerns from external bodies including members of the public, as it normally does.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs on what basis she relies for refusing to answer questions relating to the responsibilities of the Environment Agency in respect to *(a)* public safety and *(b)* contamination from reaching the closed Two Tree Island landfill site into the Thames estuary; and if she will make a statement. [174127]

Mr. Morley: The licence for the disposal of waste on Two Tree Island was held by Essex county council until 1994 when the licence was rescinded. The land was owned by, and continues to be owned by, Southend-on-Sea borough council, who is also responsible for monitoring emissions from the site.

As land-owner, the council has public safety responsibilities and must ensure that contamination does not leave the site.

The Environment Agency is not responsible for monitoring the site, but would wish to liaise with the land-owner if pollution was identified.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* short-term and *(b)* long-term solutions she plans to protect the (i) public and (ii) environment from leachate from the closed Two Tree Island landfill site. [174228]

Mr. Morley: As noted in the response I gave on 12 May 2004, *Official Report*, column 344W, Southend-on-Sea borough council and Castle Point district council are responsible for the Two Tree Island landfill site. I understand, however, that the local authorities are planning to implement the recommendations contained in the report prepared by Halcrow Fox.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish the results of the Environment Agency investigations into leachate from the closed Two Tree Island landfill site. [174229]

Mr. Morley: Detailed results of the Environment Agency's investigations into leachate from the closed Two Tree Island landfill site are already publicly available on the Agency's public register that is held at Swift House, Frimley Business Park, Camberley, Surrey, GU16 5SQ.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs when the landfill site on Two Tree Island was closed. [174236]

Mr. Morley: The Two Tree Island waste disposal site was used for landfill operations, reportedly from the 1930s until the 1980s. The licence for the activity was rescinded in 1994.

LEADER OF THE HOUSE

Statutory Instruments

Norman Baker: To ask the Leader of the House if he will propose a change to the standing orders of the House to make provision for statutory instruments to be amended; and if he will make a statement. [175551]

Mr. Hain: A change to the standing orders of the House would not be sufficient to allow amendment of statutory instruments: an amendment of each enabling power would be needed.

In its 1996 report on Delegated Legislation, the Procedure Committee considered whether statutory instruments should be made amendable and recommended against, on the grounds that it would involve excessive complication, run directly counter to the past intentions of Parliament, and would frustrate the very purpose for which delegated powers were given.

Very little legislation currently in force allows for secondary legislation to be amended. An exception is proposed to be made in respect of emergency regulations under the current Civil Contingencies Bill. This reflects the exceptionally broad scope of the delegated powers conferred by the Bill and the circumstances in which those powers are likely to be exercised. A similar exception is made in the Emergency Powers Act 1920, which the Bill supersedes.

TRANSPORT

Speed Cameras

Tim Loughton: To ask the Secretary of State for Transport how much money raised in fines from speed cameras during the last year for which records are available was spent in *(a)* West Sussex and *(b)* the East Worthing and Shoreham constituency. [175039]

Mr. Jamieson: The Sussex Safety Camera partnership joined the cost recovery scheme in October 2002. Details of partnership operations for 2002–2003 will be published shortly.

Blackpool Light Rail

Mr. Gordon Marsden: To ask the Secretary of State for Transport what assessment his Department has made of the impact of *(a)* Blackpool borough council's previous relations with light rail contractors and *(b)* the lack of need to divert utilities as part of the proposed Blackpool light rail upgrade on the overall risk assessment of the Blackpool light rail bid in the light of the conclusions of the National Audit Office report, "Improving public transport in England through light rail", on cases of cost overruns in light rail schemes. [175504]

Mr. McNulty: The Department will be taking both of these factors into account in its assessment of the level of 'optimism bias' to apply to the estimated capital costs of the project, to reflect possible cost overruns.

Capital and Revenue Expenditure

Mr. Paul Marsden: To ask the Secretary of State for Transport what research his Department has undertaken to assess the relative costs and benefits of capital expenditure and revenue expenditure on transport. [173313]

Mr. McNulty: The Secretary of State assesses each scheme on its merits, capital or revenue, against a range of appraisal criteria under the New Approach to Appraisal before taking individual investment decisions. Decisions must be consistent with the Government's overall spending allocations determined as part of the budgetary process. The Government meet their golden fiscal rule, so over the economic cycle, we only borrow to invest.

Car Clubs

Mr. Paul Marsden: To ask the Secretary of State for Transport what financial support his Department gives to promote car clubs. [174867]

Mr. McNulty: I refer the hon. Member to my answer of 12 May 2004 *Official Report*, column 399W.

Mr. Paul Marsden: To ask the Secretary of State for Transport what research his Department has undertaken into the reduction in car journeys attributable to car clubs. [174869]

Mr. McNulty: Last year the Department commissioned research into the influence of soft factors on travel demand. The final report, which will include a chapter on car clubs, is expected to be completed shortly.

Mr. Paul Marsden: To ask the Secretary of State for Transport if he will list the local authorities which support car clubs. [174870]

Mr. McNulty: The Department does not collect this information centrally.

Departmental Officials

Mr. Damian Green: To ask the Secretary of State for Transport how many officials in his Department and associated agencies have withheld details of their salaries and performance related pay in each year since 1997. [172086]

Mr. McNulty: Since the Department was formed in May 2002, there have been seven officials, out of a possible total of 42, who have withheld details of salaries.

Highway Code

Mr. Paul Marsden: To ask the Secretary of State for Transport when he intends to review the stopping distances of cars shown in The Highway Code. [175079]

Mr. Jamieson: The stopping distances shown in The Highway Code will be reviewed as part of the major revision of the code which will start later this year, including full consultation with all stakeholders with an interest in The Highway Code and road safety matters.

Journey Times

Mrs. May: To ask the Secretary of State for Transport what assessment his Department has made of the impact of increasing time taken by commuter rail journeys into London on modal shift. [174074]

Mr. Darling: Minor timetable changes are regularly made to ensure timetables are robust and provide more reliable journey times for passengers. Where major timetable changes are proposed—for instance to address capacity problems—they invariably involve consultation with local or regional stakeholders.

Motoring Costs

Mr. Paul Marsden: To ask the Secretary of State for Transport what the cost of motoring has been in each year since 1997, expressed at today's prices. [175075]

Mr. Jamieson: The following table shows how the cost of motoring[1], as measured by the Retail Prices Index, has changed in real terms each year since 1997. The cost of motoring,decreased by 4.8 per cent. between 1997 and 2003.

[1] "All motoring" includes the cost of purchase, maintenance, fuel, tax and insurance.

	Index (2003 = 100)
1997	105.0
1998	104.7
1999	105.6
2000	106.6
2001	104.1
2002	101.6
2003	100.0

Consumer Prices and Inflation Division, Office for National Statistics

MOTs

John McDonnell: To ask the Secretary of State for Transport what the total expenditure of the MOT computerisation project from its start was, broken down by *(a)* staff salaries, *(b)* office accommodation, *(c)* travel and subsistence and detached duty expenses and *(d)* fees to consultants. [173889]

Mr. Jamieson: The total costs incurred by the Vehicle and Operator Services Agency (VOSA) on the MOT Computerisation project from its start are £13,362,000. Of this staff salaries account for £3,816,000; office accommodation £2,950,000; travel and subsistence and detached duty expenses £817,000; fees to consultants £3,615,000; and other costs £2,164,000.

Railways

Lawrie Quinn: To ask the Secretary of State for Transport what assessment he has made of the effect upon costs in the rail industry of regulations prepared by the Health and Safety Commission concerning rail safety. [174813]

Mr. Darling: In accordance with Cabinet Office guidance first issued in 1999, all the railway safety regulations prepared by the Health and Safety Commission since then have been accompanied by Regulatory Impact Assessments (RIAs). Copies of all the RIAs were laid in the Houses of Parliament Libraries with the regulations.

Mr. Paul Marsden: To ask the Secretary of State for Transport if he will make a statement on the Freight on Track campaign. [174999]

Mr. McNulty: The Government are committed to developing a competitive and efficient freight distribution system that supports economic growth while protecting the environment and recognise the economic importance and environmental benefits of rail freight to the UK.

Mr. Paul Marsden: To ask the Secretary of State for Transport how many containers and what tonnage of freight was carried by freight trains in each year since 1997. [175002]

Mr. McNulty: The tonnage for freight carried by freight trains on a yearly basis is contained in the Strategic Rail Authority's publication National Rail Trends, which has been placed in the Library of the House. The number of containers moved is not reported in the publication as that information is commercially sensitive.

Roads (Derby)

Mr. Todd: To ask the Secretary of State for Transport what assessment has been made of the means of completing the road linking the A50 at the A514 junction at Chellaston with Wilmore Road in Derby. [174826]

Mr. Jamieson: The proposed link-road in question is a local road and as such is the responsibility of Derby city council. I understand that the scheme is to be appraised by the city council as part of a major transport study, currently under way, for the Derby Joint Local Transport Plan Area.

School Buses

Mr. Paul Marsden: To ask the Secretary of State for Transport what percentage of school buses in each local authority are fitted with seat belts. [175099]

Mr. Jamieson: The Department does not collect this information.

Sea ports (Transport Links)

Mrs. Dunwoody: To ask the Secretary of State for Transport what his policy is on providing rail and road links to ports. [175093]

Mr. Darling: We recognise the importance of good road and rail connections to ports and further improving access to them is an important objective of our 10-Year Transport Plan as well as being a significant issue for the regional planning process. Access to ports featured in several of the recent multi-modal studies and a number of the transport projects now being taken forward as a result of these studies will benefit ports related as well as domestic traffic.

Ship and Port Security

Patrick Mercer: To ask the Secretary of State for Transport what level of training is required for a ship security officer to be compliant with the International Ship and Port Facility Security Code. [174608]

Mr. Jamieson: The International Ship and Port Facility Security Code requires the ship security officer to have received training in accordance with the guidance given in Part B of the Code. The guidance lists 25 training topics.

Ship security officers on UK registered ships are required to attend a training course that the Maritime and Coastguard Agency has approved as meeting the Merchant Navy Training Board specification. 35 training providers have been approved to run ship security officer courses.

Mr. Carmichael: To ask the Secretary of State for Transport pursuant to his answer of 26 April 2004, *Official Report*, column 782W, on shipping, how control measures for ships that do not provide evidence of having an International Security Ship Plan will be enforced. [171293]

Mr. Jamieson: The Department for Transport's Transport Security Directorate (TRANSEC), in conjunction with the Maritime and Coastguard Agency (MCA), are developing appropriate response procedures to deal with ships that fail to provide evidence of an International Ship Security Certificate when seeking entry into a UK port. Consultation is on-going with a number of Departments and agencies including the MOD, Police, and Customs.

Tachographs

Mr. Stringer: To ask the Secretary of State for Transport when he expects digital tachographs to be introduced. [175402]

Mr. Jamieson: We do not expect the first digital tachograph to be type-approved until the end of this month at the earliest. Therefore, the first vehicles fitted with digital tachographs are unlikely to be on sale before the end of the year. This means that the current date of 5 August 2004 for mandatory fitting to all relevant new vehicles cannot be met. On 8 March, I announced that we would not enforce the August 2004 deadline in the UK. Since that announcement, the European Commission has proposed an EU-wide moratorium in the enforcement of mandatory fitting by member states until August 2005. We will continue to monitor developments and will make further announcements as and when appropriate.

Traffic Accidents (Bootle)

Mr. Joe Benton: To ask the Secretary of State for Transport what the percentage change has been in the number of *(a)* deaths and *(b)* serious injuries on the roads of Bootle since 1997. [175490]

Mr. Jamieson: The available information relates to local authority areas. In the Sefton local authority area there were 10 deaths in road accidents in 1997 and 10 deaths in 2002, the latest year for which information is available. The number of serious injuries fell by 12 percent from 100 in 1997 to 88 in 2002. Estimates on the basis of parliamentary constituencies will become available in the summer, where I shall write to my hon Friend with figures for Bootle and place a copy of my letter in the Libraries of the House.

Traffic Congestion

Mr. Paul Marsden: To ask the Secretary of State for Transport what the level of congestion on the M54 was in each year since 1997. [175076]

Mr. Jamieson: The Highways Agency does not currently take regular measurements of congestion levels on the M54. Once the agency's National Traffic Control Centre is fully operational by March 2005, information on journey times and speeds will become widely available.

INTERNATIONAL DEVELOPMENT

Colombia

Angus Robertson: To ask the Secretary of State for International Development (1) how much *(a)* money and *(b)* aid in kind the UK has (i) pledged and (ii) delivered to date to (A) UNICEF and (B) the UN Industrial Development Organisation within the

framework of the UN Consolidated Inter-Agency Appeal for Colombia (HAP) 2003; and if he will make a statement; [174638]

(2) how much *(a)* money and *(b)* aid in kind the United Kingdom (i) pledged and (ii) delivered to date to (A) the United Nations Population Fund and (B) the UN High Commission for Refugees within the framework of the UN Consolidated Inter-Agency Appeal for Colombia 2003; and if he will make a statement. [175182]

Hilary Benn: The UK did not contribute funds or provide aid in kind to the United Nations Children Fund, UN Industrial Development Organisation, UN Population Fund, or UN High Commission for Refugees within the framework of the UN's 2003 Appeal for Colombia. I refer the hon. Member for Moray to the reply I gave him on the 18 May 2004, *Official Report*, column 867–68W, for details of the nature of DFID's response to this appeal.

Departmental Projects

Mr. Bercow: To ask the Secretary of State for International Development if he will list the Department's medium-risk bilateral projects referred to on page 190 of the 2004 Departmental Report which have been evaluated as successful. [174116]

Hilary Benn: The medium risk projects, referred to on page 190 of DFID's Departmental Report, are listed on a table I have deposited in the Library called "DFID Medium Risk Projects: Written Question 174116". Each project is given a score ranging from one to five based on the likelihood of achieving their intended objectives. These scores are a forecast of success for projects of £1 million or more that have been in operation for at least two years. It records work in progress and is a twelve-month snapshot view on a particular date reflecting those projects that meet the above criteria. The table lists those projects that have a score of one or two.

Mr. Bercow: To ask the Secretary of State for International Development if he will list the Department's low-risk bilateral projects referred to on page 190 of the 2004 Departmental Report that have not been evaluated as successful. [174117]

Hilary Benn: The low risk projects, referred to on page 190 of DFID's Departmental Report, are listed on the table below. Each project is given a score ranging from one to five based on the likelihood of achieving their intended objectives. These scores are a forecast of success for projects of £1 million or more that have been in operation for at least two years. It records work in progress and is a twelve-month snapshot view on a particular date reflecting those projects that meet the above criteria. The table lists those projects receiving a score in the range of three to five which means they will achieve only some of their objectives.

All low risk projects with a commitment value of £1 million or over only partly achieving their output purpose during 2003

Liberia

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the *(a)* number and *(b)* location of Liberian refugees; and if he will make a statement. [175476]

Hilary Benn: In February 2004 the United Nations High Commissioner for Refugees (UNHCR) estimated a total of 324,000 Liberian refugees in neighbouring countries; 147,000 in Guinea, 68,000 in Sierra Leone, 67,000 in Ivory Coast, and 42,000 in Ghana. It has since been estimated that up to 17,000 refugees have returned spontaneously to Liberia from these countries. With improved conditions, services and stability inside Liberia, UNHCR expects up to 100,000 of the remaining refugees to return by the end of 2004, and the remainder in 2005. DFID has assisted with the provision of services and support to refugees and internally displaced persons by providing £10.6m in humanitarian support in 2003 and 2004. DFID has committed a further £6m for Disarmament, Demobilisation and Reintegration, as an additional contribution to post-conflict recovery and the creation of conditions for a return to peace and stability.

Occupied Palestinian Territories

Mr. Hancock: To ask the Secretary of State for International Development (1) how much expenditure is planned by his Department in the next three years for projects to work with young people in the Occupied Palestinian Territories; [174555]

(2) if he will make a statement on the projects his Department is supporting in the Occupied Palestinian Territories specifically aimed at giving young people an alternative to violence and extremism; and at what cost in 2003–04. [174554]

Hilary Benn: The best way of giving young people an alternative to violence and extremism is to ensure they have a full and effective education with good prospects of future employment. DFID's support to the United Nations Relief Works Agency (UNRWA) for which planned expenditure over the next three years is about £15 million per calendar year, provides substantial support to education and emergency employment creation. Over two thirds of UNRWA's annual budget is allocated for the education needs of Palestinian children in the West Bank, Gaza Strip, Lebanon, Syria and Jordan. DFID provides project funding for UNRWA to help improve the school management by involving the local community. Planned funding is about £500,000 per year for the next two years.

DFID recently agreed a £7 million contribution to the World Bank's Public Financial Management Reform Trust Fund to support the Palestinian Authority. This will have an indirect impact on supporting young people, as the money will help maintain public services including education and keep PA employees at work by paying salaries.

Mr. Hancock: To ask the Secretary of State for International Development what research he has *(a)* commissioned and *(b)* evaluated on the level of disruption to the schooling and vocational education of young people in the Occupied Palestinian Territories over the last five years. [174556]

Hilary Benn: DFID has not commissioned any such research but monitors the level of disruption to education through regular contact with our Palestinian and international partners including the Palestinian Authority Ministry of Education, United Nations Relief Works Agency and Non Governmental Organisations. Many pupils and teachers now face difficulty in getting to school, which in effect reduces the number of full school days. There is also a reduction in the financial resources

available for education as a result of the severe downturn of the Palestinian economy. The high priority given to education by Palestinian communities means that there has been no increase in the very low dropout rate, and only a small reduction in the high rate of enrolment of pupils in schools. The disruptions and violence nevertheless have a high psychological impact on students and on student achievement.

South Africa

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the statement released by South Africa's Deputy President Jacob Zuma's office on 11 May 2004; what his Department's assessment is of the scale of the problem highlighted by Mr. Zuma; and if he will make a statement. [174640]

Hilary Benn: The statement by South Africa's Deputy President Zuma's office, highlighted the extent of food insecurity and vulnerability in the Southern African region. At the 15 May Southern African Development Community Summit on Agriculture and Food Security in Dar es Salaam the South African government announced a contribution of R 100 million (approximately £8 million) to help meet these needs. DFID welcomes this and believe that South Africa has an important role to play in improving food security in the region, including as a major food producer and grain market.

Food security is a continuing challenge in Southern Africa. At the peak of the recent humanitarian crisis, the United Nations assessed that 15.2 million people (26 per cent. of the population) were in need of food aid. DFID spent over £88 million in 2002–03 in response to the Southern African food crisis (in Malawi, Zambia, Zimbabwe, Mozambique, Swaziland and Lesotho). Acute needs appear to be lessening now as a result of improved harvests in many but not all countries, However, chronic poverty appears to have increased and more communities are now likely to become destitute as a result of variable rainfall or other shocks such as illness or loss of work.

The impact of HIV/AIDS has placed a major burden on households and increased their vulnerability. Increasing food production is necessary but not sufficient, since many people do not grow their own food, and lack resources to buy food even if it is available. Increasing employment, land reform, better infrastructure and access to markets, and more private sector investment are also required.

Angus Robertson: To ask the Secretary of State for International Development whether the Department had observers at the 2004 Southern African Development Community Heads of State and Government Summit on Agriculture and Food Security held on 15 May 2004 in Dar es Salaam; what reports of the *(a)* proceedings and *(b)* conditions of this summit he has received; and if he will make a statement. [174639]

Hilary Benn: The British High Commissioner in Tanzania attended the opening ceremony of the Southern African Development Community (SADC) Summit on 15 May. The Summit launched an action plan to address the food security problems in the region. It emphasised the extent and depth of vulnerability in the region and the need for concerted international action on a wide range of issues. Member states re-endorsed their commitment to increase their financing to agriculture to 10 per cent. of national budgets within five years.

The official communiqué sets out the agreed action and priority areas for short and longer-term support. DFID, in collaboration with partners, is supporting a number of programmes to address the issues discussed at the Summit. DFID's collaboration emphasises access to food, as well as increasing production; monitoring vulnerability and targeting vulnerable groups; and the important role of the private sector and regional trade. DFID welcomes SADC's renewed commitment to food security as a development priority.

Sudan

Mr. Bercow: To ask the Secretary of State for International Development (1) what assistance his Department is providing with demobilisation disarmament and the reintegration of combatants in Sudan; [174774]

(2) what is the nature of the support being provided by his Department to assist reintegration in the Sudan. [174773]

Hilary Benn: Full demobilisation, disarmament and reintegration (DDR) of combatants will only take place in Sudan after a peace agreement has been signed between the Government of Sudan and Sudan People's Liberation Movement. However, as part of the international effort to promote successful DDR, DFID is currently supporting both the preparation and planning for full-scale demobilisation and the demobilisation of Child Soldiers.

DFID has provided about £505,000 of assistance to UNICEF for child soldier disarmament and demobilisation, as well as the return, reunification and reintegration of vulnerable children. We have also provided about £312,000 of assistance to the United Nations Development Programme (UNDP) for three DDR field advisers under their preparatory support for reintegration for former combatants and community based weapons reduction. In addition we are also providing a DDR adviser to act as a resource person to the Inter Governmental Authority on Development (IGAD) in the IGAD-led peace talks, and to the international community through the UN Resident Coordinator for Sudan.

Both DFID and the Foreign and Commonwealth Office are also pressing the UN at the highest levels to ensure that DDR is given the utmost priority, and is fully supported during coming peacekeeping missions.

Mr. Bercow: To ask the Secretary of State for International Development what action his Department is taking to support the development of effective governance in Sudan. [174775]

Hilary Benn: DFID hopes that a framework peace agreement will emerge from the Sudan peace talks soon. DFID sees a sustainable and just peace as key to effective governance in Sudan so the United Kingdom has committed itself to supporting Sudan in implementing the peace agreement.

One of DFID's objectives for the programme in Sudan is the development of effective public administration, security and judicial systems. To this end we are supporting policy development, for example, by helping the Sudan People's Liberation Movement (SPLM) to develop good governance principles for the new Government of South Sudan. DFID is also working on plans to support capacity building on safety, security and accessible justice; on local government; and on public financial management. In addition we have financed a consultancy report on the development of policing in Sudan, and are considering support for security sector reform.

Zimbabwe

Angus Robertson: To ask the Secretary of State for International Development what discussions *(a)* he, *(b)* members of his Department and *(c)* other members and representatives of the Government have had with (i) representatives of the World Food Programme (WFP) and Food and Agriculture Organisation (FAO), (ii) members and representatives of the Government of Zimbabwe and (iii) members and representatives of the Government of South Africa concerning the WFP and FAO's crop assessment missions recently cancelled by Zimbabwe officials; what assessment his Department has made of this incident; and if he will make a statement. [174641]

Hilary Benn: The Government of Zimbabwe's recent decision to cancel the crop assessment mission has been discussed extensively in numerous meetings in Harare involving DFID Zimbabwe, the British embassy, United Nations agencies, and other donors. Officials from DFID and the embassy, as well as the UN, have expressed concerns to the Zimbabwean Government. DFID and embassy officials have also discussed this issue with South African officials.

The Government of Zimbabwe's cancellation of the mission means that there is no internationally accepted estimate of Zimbabwe's harvest, and their decision not to request international food aid means that normal advance planning processes will not take place. The Zimbabwean claim that they have produced 2.4 million metric tonnes (MT) of maize this year is simply not credible. The actual harvest is probably below 1.2 million MT, compared to a requirement of about 1.8 million MT. Given the significant shortage of foreign exchange in Zimbabwe, it will be difficult for the Government to import enough grain to fill this gap. Many poor and vulnerable people may therefore go very hungry, if not worse, as a result of these decisions.

DFID Zimbabwe, in collaboration with other major donors and the UN system, will monitor the humanitarian situation in Zimbabwe closely, while continuing to provide targeted food assistance and other humanitarian support to the most vulnerable sections of Zimbabwe society through NGO programmes which DFID is able to fund directly. DFID will press the Government of Zimbabwe to recognize the humanitarian need within the country and to collaborate with the international community to provide an apolitical and co-ordinated response.

Mr. Bercow: To ask the Secretary of State for International Development what assessment he has made of the continuing need for international food aid to Zimbabwe. [174776]

Hilary Benn: The Government of Zimbabwe have decided to cancel the joint crop assessment mission with the UN which had started in late April. This means that there is no internationally accepted estimate of Zimbabwe's harvest. Their separate decision not to request international food aid means that normal advance planning processes for delivery of food aid will not take place. The Zimbabwean claim that they have produced 2.4 million metric tonnes (MT) of maize this year is simply not credible. The actual harvest is probably below 1.2 million MT, compared to a requirement of about 1.8 million MT. Given the significant shortage of foreign exchange in Zimbabwe, it will be difficult for the Government to import enough grain to fill this gap. Many poor and vulnerable people may therefore go very hungry, if not worse, as a result of these decisions.

The UN and donors, including the UK, have expressed our concern to the Zimbabwean Government about their handling of the humanitarian situation. DFID, in collaboration with other major donors and the UN system, will monitor the position in Zimbabwe closely, while continuing to provide targeted food assistance and other humanitarian support to the most vulnerable sections of Zimbabwe society through NGO programmes which we are able to fund directly. DFID will press the Government of Zimbabwe to recognize the humanitarian need within the country and to collaborate with the international community to provide an apolitical and coordinated response.

CHURCH COMMISSIONERS

VAT

26. **Claire Ward:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners what response he has received from churches to the announcement by the Chancellor of the Exchequer of the extension of VAT for listed places of worship. [174918]

Sir Stuart Bell: I and my colleagues in the Churches receive many indications of appreciation from parishes for the Chancellor's extension of the Listed Places of Worship Grant Scheme to repay the full amount of VAT paid on repairs to listed church buildings after 1 April 2004.

CULTURE, MEDIA AND SPORT

Museums and Galleries Month

10. **Linda Perham:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on activities and events that have taken place and are taking place in museums and galleries month. [174900]

Estelle Morris: Museums and Galleries Month comprises more than 1,100 special events that will attract an estimated 10 million people during May. The month shows that museums and galleries are becoming ever more interesting and accessible to all sections of society, and I congratulate the organisers and all those taking part.

Cinema

11. **Mr. Rendel**: To ask the Secretary of State for Culture, Media and Sport what plans she has to improve access to the cinema for small towns and rural communities. [174901]

Estelle Morris: The UK Film Council, the Government's strategic agency for film, oversees several strategies to improve access to cinema, including in small towns and rural areas.

These include the establishment of a Digital Screen Network; the installation of audio-descriptive captioning in 78 cinemas to enhance the cinema-going experience of visually impaired people; continued funding for film societies; and a fund to help film clubs, societies and community groups to buy digital projection equipment.

Amateur Sports Clubs

12. **Tony Cunningham**: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the take-up of rate relief support for amateur sports clubs. [174902]

Tessa Jowell: I refer my hon. Friend to the answer I gave earlier today to my hon. Friend the Member for Gloucester (Parmjit Dhanda), *Official Report*, column 1293.

Landmark Buildings

13. **Bob Spink**: To ask the Secretary of State for Culture, Media and Sport what assistance is available for the preservation of landmark buildings within small communities. [174903]

Estelle Morris: English Heritage and the Heritage Lottery Fund run a number of grant schemes which provide assistance for the preservation of listed buildings of historic or architectural importance in both large and small communities. Additionally, English Heritage and local authorities provide advice on practical measures with preservation.

Ofcom (Television Access)

14. **Tom Levitt**: To ask the Secretary of State for Culture, Media and Sport when she expects Ofcom to publish its code on television access services for people with hearing or sight difficulties. [174904]

Tessa Jowell: I understand from OFCOM that they expect to publish the code in the summer.

Olympics 2012

15. **Sir Sydney Chapman**: To ask the Secretary of State for Culture, Media and Sport if she will report progress on London's bid for the 2012 Olympics. [174905]

19. **Miss McIntosh:** To ask the Secretary of State for Culture, Media and Sport if she will make a statement on progress on the Olympics bid for 2012. [174910]

Tessa Jowell: On 18 May the International Olympic Committee announced that London had been accepted as a Candidate City for the 2012 Olympic and Paralympic Games, together with Paris, Madrid, New York and Moscow.

London 2012 is now working on the completion of the Candidate files, which will be submitted to the IOC by 15 November 2004.

Paul Flynn: To ask the Secretary of State for Culture, Media and Sport what plans there are to hold Olympic events in Wales. [174907]

Tessa Jowell: The bidding company, London 2012 announced the venues for the bid to host the Olympic and Paralympic Games on 16 January. The Olympic football competition will be held in stadia in Cardiff, Belfast, Birmingham, Glasgow, Manchester, Newcastle and London. There will be opportunities for sporting facilities across the UK to be used by national teams for training camps.

In addition the Cultural Olympiad will take place across the UK over the four years up to and including 2012 and the 2012 Olympic Torch Relay is likely to involve every major city and town throughout the UK over several months.

Community Radio

16. **Ian Lucas**: To ask the Secretary of State for Culture, Media and Sport when she will announce the funding arrangements for community radio. [174906]

Estelle Morris: My right hon. Friend the Secretary of State announced on 5 March 2004 that £0.5 million pounds has been made available for community radio for each of the next two financial years. OFCOM will administer the fund.

Athletics

17. **Mr. Amess**: to ask the Secretary of State for Culture, Media and Sport what steps her Department is taking to promote participation in athletics; and if she will make a statement. [174908]

Mr. Caborn: Athletics is benefiting from the Government's investment of £10 million into Club Links, which aims to increase the percentage of young people moving between School Sport Partnerships and governing body accredited clubs. This will build new, and strengthen existing, links between schools and clubs and increase participation opportunities.

King Edward VII Convalescent Home

18. **Mr. Andrew Turner**: to ask the Secretary of State for Culture, Media and Sport if she will make a statement on the future of the former King Edward VII convalescent home for officers, Osborne. [174909]

Tessa Jowell: English Heritage has considered a range of options. A recent study suggests that the most feasible would be to convert the former convalescent home at Osborne House into a high quality hotel.

Audio-description Technology

Mr. Boswell: To ask the Secretary of State for Culture, Media and Sport what proportion of British live theatres are *(a)* equipped for and *(b)* operating equipment for audio-description of live performances; and if she will make a statement. [175015]

Estelle Morris: Arts Council England estimates that of the 283 theatres they fund in England, 53 (about 19 per cent.) are equipped with and operate their own audio description equipment. 11 additional theatres have their own equipment and use Vocaleyes, an Arts Council England funded organisation, to provide audio description. In the last 12 months, 12 additional theatres have used Vocaleyes for both their equipment and audio description service.

Arts Council England has committed £165,000 to the core funding of Vocaleyes in 2005–06, an increase of 68 per cent. since 2003–04.

Licensing Act

Mr. Luff: To ask the Secretary of State for Culture, Media and Sport what account she has taken of representations from the circus industry in developing the draft guidance under section 182 of the Licensing Act 2003. [175556]

Mr. Caborn: We considered carefully the views expressed to us by, and on behalf of, the circus industry when drawing up the draft Guidance to licensing authorities which was laid before Parliament on 23 March. We have, in so far as possible, made the draft Guidance clearer in relation to circuses. We did not accept their case for exemption during the passage of the Licensing Bill, nor for amending the arrangements for temporary events. Further, it is not possible to create exemptions to the Licensing Act 2003 through the Guidance, as it cannot amend the Act.

Mr. Luff: To ask the Secretary of State for Culture, Media and Sport if she will delay further parliamentary consideration of the draft guidance issued under section 182 of the Licensing Act 2003 until further representations from the circus industry due to be received on 27 May have been considered. [175557]

Mr. Caborn: We want to see the Licensing Act 2003 implemented as soon as possible so that consumers, industry and local communities can benefit from the reforms. We do not, therefore, wish to delay Parliament's consideration of the draft Guidance to licensing authorities which was laid on 23 March. I do, however, understand the concerns of circuses and I look forward to meeting the hon. Member and circus industry representatives on 27 May to consider how to assist this important and popular part of our cultural heritage to adjust to the requirements of the new regime in a way that is as smooth and manageable as possible.

ELECTORAL COMMISSION

Electoral Registration

28. **Mr. Barnes:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what information the Electoral Commission holds on the shortfall in electoral registration. [174920]

Mr. Viggers: Last year, the Electoral Commission published research assessing the impact on levels of registration of new registration arrangements in Northern Ireland. I understand that the Commission does not currently hold up-to-date information relating to registration shortfalls in England, Scotland and Wales. However, the Commission is currently establishing a research project to identify the extent and nature of under-registration in Great Britain, as well as reviewing the operation and impact of rolling registration since 2001.

All-postal Voting

29. **Bob Russell:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what arrangements the Electoral Commission has made for spot checks on households in all-postal voting areas. [174917]

Mr. Viggers: While the Electoral Commission has a statutory duty to evaluate the pilot schemes in June, it has no operational role in the conduct of the elections. The Commission has advised Returning Officers of the post-election checks they might use to provide assurance of the security of postal voting, but has no plans to undertake any checks itself during the course of the election period as this could interfere with the conduct of the ballot.

SOLICITOR-GENERAL

Crown Prosecutors

Mr. Garnier: To ask the Solicitor-General what the annual leave allowance is for each grade of Crown Prosecutor. [167303]

The Solicitor-General: The annual leave allowance for all grades of crown prosecutor below the Senior Civil Service grade (SCS) is 25 days per year on entry to the department, and 30 days upon completion of 10 years' service. Crown prosecutors in the SCS and the Chief Crown Prosecutor grades, are entitled to 30 days' annual leave on entry to the department.

Discontinued Cases (Merseyside)

Mr. Mark Field: To ask the Solicitor-General how many cases in the Merseyside area were referred to *(a)* the Crown court and *(b)* a magistrates court in each year since 1997; and how many of those cases were subsequently discontinued. [173129]

The Solicitor-General: The following tables show the number of cases received by CPS Merseyside in the magistrates courts and in the Crown court in each year

since 1997. Magistrates courts receipts include cases referred to the Crown Prosecution Service by the police for pre-charge advice and non-criminal proceedings, as well as cases referred to the Service for prosecution. Crown court receipts include appeals and committals for sentence, as well as cases committed for trial.

The tables show the outcome of cases prosecuted, both in numerical terms and as a proportion of completed cases. The number and percentage of cases discontinued in the magistrates courts, and the number and percentage resulting in a judge ordered acquittal in the Crown court, are included for each year.

EDUCATION AND SKILLS

Joint Custody

Mr. Amess: To ask the Secretary of State for Education and Skills how many separated parents have joint custody of their children; and if he will make a statement. [173556]

Margaret Hodge: Since the Children Act 1989 was implemented in 1991, "custody" of a child has ceased to be a concept in the law of England and Wales. Under Section 8 of the Children Act 1989 a court has the power to make a residence order, being

"an order settling the arrangements to be made as to the person with whom a child is to live".

Section 1(5) of the Children Act provides that a court cannot make an order unless it considers that doing so would be better for the child than making no order at all ("the no order principle"). It follows that, if parents are agreed on the arrangements for their child, then it may be that the matter never comes before a court, or that, if it is before a court, the court considers that it is better for the child that no order be made. In other cases, such as those where there is no agreement between the parents, it is open to the court to make a residence order, if it considers that it is in the best interests of the child to do so. Such an order might be a "shared residence" order (so that the child lives with both parents, at different times, usually spending around half his time with each). The following table shows the latest available judicial statistics (2002). During 2002 a total of 103,191 section 8 orders were made in private law.

Disposal of selected applicants in private law in all tiers of court, 2002

Nature of application	*Applications withdrawn*	*Orders refused*	*Orders of no order*	*Orders made*
Parental responsibility	773	290	132	8,240
Section 8				
Residence	1,536	158	431	30,006
Contact	2,373	518	945	61,356
Prohibited steps	300	40	77	8,889

Connexions

Charles Hendry: To ask the Secretary of State for Education and Skills what assessment he has made of the effects on the private sector of his Department's decision to reduce the amount it will offset against Connexions partnerships' VAT costs. [172650]

Margaret Hodge: We have recommended that partnerships look to improve their tax efficiency. It does not automatically follow that this will have any effect on sub-contracting to private providers. The Department is monitoring how partnerships are dealing with the reduction in VAT transitional funding and we have made it clear that we expect them to continue to involve the private sector. We know that the lead body model is the most tax efficient and an increasing number of areas are adopting this, leaving private sector careers contracts in place.

Charles Hendry: To ask the Secretary of State for Education and Skills what representations he has received from private providers of Connexions services concerning his Department's decision to reduce the amount it will offset against partnership's VAT costs. [172671]

Margaret Hodge: In total my Department has received 12 representations from private providers about the decision to reduce the amount of transitional support to Connexions partnerships.

Charles Hendry: To ask the Secretary of State for Education and Skills whether it is his Department's policy to ensure that Connexions partnerships commit themselves to maintaining the pension benefits of private providers' staff if a partnership opts to shift from a sub-contracting operational model to a system of direct delivery and to incorporate the private providers' staff. [172676]

Margaret Hodge: Connexions Partnerships are private companies with obligations to their individual boards. As such the Department is unable to become involved in individual decisions about pension benefits for Connexions staff. This includes where a partnership opts to shift from a sub-contracting operational model to a system of direct delivery and to incorporate the private providers' staff. We would however expect Connexions partnerships to give due regard to any incoming staff and to make every effort to ensure that they are not disadvantaged in any way.

Departmental Annual Report

Norman Lamb: To ask the Secretary of State for Education and Skills how much the production of his Department's latest annual report cost; how many copies were printed; how many copies of it were sold at its cover price; to whom copies of the report have been provided free of charge; and how many copies were provided free of charge. [171137]

Mr. Stephen Twigg: While the Department pays for some production costs of its annual report, these only cover the design and typesetting. The costs of printing are met directly by the publisher, The Stationery Office (TSO) and do not fall to the Department. The Department buys in copies from the TSO to distribute internally and to our partners.

The costs for the Department for Education and Skills 2004 Report was:

	£
Typesetting and design	17,500
Buying in copies from TSO	12,000
Total	29,500

Other costs of printing and publication are met directly by the publisher, The Stationery Office Limited (TSO), and do not fall to Government. It is also for TSO to decide how many are printed. As the report was published on 30 April, there is no meaningful information yet available on numbers of copies sold by TSO.

The number of copies distributed free of charge was:

	Number of copies
Vote Office	150
Paper Office	50
HMT	10
Ofsted	15
DfES internal	
Parliamentary Office	22
Library	20
Press Office	25
Labour Attachés	50
SoS, Ministers, Special Advisers	9
Board, DGs, Directors	32
DMs and policy contributors	125
Total	508

The report is also available on the departmental website free of charge at http://www.dfes.gov.uk/deptreport2004/.

Disabled Children

Paul Holmes: To ask the Secretary of State for Education and Skills how many families of disabled children have been provided with short breaks through the Quality Protects programme; what proportion that represents as a total of such families; and if he will make a statement. [170610]

Margaret Hodge: £60 million was earmarked for services for disabled children and their families for the years 2001–04 through the Quality Protects programme. This funding was mainstreamed into local authority budgets from 2004–05. We do not count the number of additional children supported by the Quality Protects grant. The Children in Need Census 2003, collected information of any disabled child receiving resources from the Local Authority Social Services Department within the Census week, and identified a total of 4,560 disabled children as receiving short term breaks from a total of 29,700 receiving a service. There are approximately 320,000 disabled children in England, including 110,000 severely disabled children.

Education Services (Essex)

Mr. Hurst: To ask the Secretary of State for Education and Skills what the average class size in state primary schools was in *(a)* the County of Essex in each year from 1980 to 1997 and *(b)* the County of Essex and the unitary authorities of Southend-on-Sea and Thurrock in each year from 1998 to 2003. [173326]

Mr. Stephen Twigg: The requested information is given in the table.

Maintained primary schools[1]: average class size[2]—position in January each year 1980 to 2003

	Average size of one teacher classes		
	Essex LEA[3]	*Southend-on-Sea[4]*	*Thurrock[4]*
1980	27.1	[5]—	[5]—
1981	26.8	[5]—	[5]—

School Meals

Sarah Teather: To ask the Secretary of State for Education and Skills how many children in *(a)* Brent East and *(b)* each London borough claim free school meals; and what estimate he has made of those eligible to claim free school meals in each case. [172817]

Mr. Stephen Twigg: Available information relates to (i) the number of pupils who are known to be eligible for and claim a free school meal, and (ii) the number of pupils who took a free school meal.

Figures for Brent East are given in the table. The same information for local education authorities in London has been placed in the House of Commons Library.

Maintained primary and secondary schools[1]: School meal arrangements as at January 2004 (provisional)[2]—Brent East Parliamentary Constituency

	Number of pupils on roll[3]	*Pupils who are known to be eligible for and claim free school meals*		*Pupils who have a free school meal*[4]	
		Number	*Percentage*[5]	*Number*	*Percentage*[5]
Primary schools	7,590	2,340	30.9	1,910	25.2
Secondary schools	2,730	930	34.0	780	28.7

[1] Includes middle schools as deemed.
[2] Figures have been rounded to the nearest 10
[3] Includes pupils with single and dual registration.
[4] The number of pupils who took a free school meal on the day of the census.
[5] Pupils expressed as a percentage of total pupils on roll.

Head Lice

Mr. Ben Chapman: To ask the Secretary of State for Education and Skills what assessment he has made of the prevalence of head lice in schools. [175279]

Margaret Hodge: The Department does not keep records of the incidence of head lice in schools and has not made an assessment. To help schools combat this problem the Department of Health have produced a leaflet, "The prevention and treatment of head lice". The local primary care trust can also provide information which teachers can pass on to children and parents as part of an overall health education policy.

Inter-country Adoption

Mr. David Stewart: To ask the Secretary of State for Education and Skills what steps he is taking to facilitate inter-country adoption with all signatories of the 1993 Hague Convention. [172218]

Margaret Hodge *[holding answer 19 May 2004]:* The UK ratified the 1993 Hague Convention on Protection of Children and Co-operation in relation to inter-country adoption on 1 June 2003. My Department, which under the Convention acts as the central authority for the UK, is working closely with other signatories to remove any obstacles to the successful operation of the Convention.

Mr. David Stewart: To ask the Secretary of State for Education and Skills how many signatories of the 1993 Hague Convention have suspended inter-country adoption with the UK. [172215]

Margaret Hodge *[holding answer 19 May 2004]:* Romania has introduced a suspension on all inter-country adoptions, not just with the UK. No other signatories to the Convention have suspended work on inter-country adoption with the UK.

Mr. David Stewart: To ask the Secretary of State for Education and Skills what research he has commissioned into the impact of the arrangements for inter-country adoption which came into effect on 1 June 2003. [172217]

Margaret Hodge *[holding answer 19 May 2004]:* My Department launched a full public consultation on arrangements for intercountry adoption on 31 January 2004. This will bring intercountry adoption within the framework of the Adoption and Children Act 2002.

The consultation document specifically asked for comments and feedback on the implementation of the current arrangements for intercountry adoption, which came into effect on 1 June 2003. The consultation closed on 30 April. My Department also held consultation meetings with frontline staff and other stakeholders to discuss the impact of the 1 June 2003 changes.

All of the feedback received on the changes made on 1 June 2003 will be taken into account before the new arrangements to be made under the Adoption and Children Act 2002 are finalised.

Mr. David Stewart: To ask the Secretary of State for Education and Skills what discussions he has had with Belarus regarding intercountry adoption. [172219]

Margaret Hodge *[holding answer 19 May 2004]:* My Department has opened a dialogue with the Central Authority in Belarus regarding the procedures for intercountry adoption following Belarus' ratification of the 1993 Hague Convention on Protection of Children and Co-operation in respect of Intercountry Adoption.

International Baccalaureate

Mr. Gibb: To ask the Secretary of State for Education and Skills how many *(a)* state secondary schools and *(b)* sixth form colleges offer the International Baccalaureate as an alternative to A-levels. [174860]

Mr. Miliband: There are 18 maintained secondary schools that offer the International Baccalaureate. Of these, nine submitted results for 16 to 18-year-olds for publication in the 2004 Performance Tables.

There are two Sixth Form Colleges that offer the International Baccalaureate. Neither of these submitted results for 16 to 18-year-olds for publication in the 2004 Performance Tables.

Local Network and Children's Funds

Mr. Nicholas Brown: To ask the Secretary of State for Education and Skills how much money has been allocated through the *(a)* Local Network Fund and *(b)* Children's Fund to the North East of England; what criteria his Department has laid down for the allocation of this money; and how the arrangements are audited. [173699]

Margaret Hodge: The total allocation for the Local Network Fund for Children and Young People and the Children's Fund, in the North East, since May 2001 when the programmes were launched is as follows.

	£
Local Network Fund for Children and Young People	7,215,152
Children's Fund:	38,122,961

Criteria

The Local Network Fund and Children's Fund are key elements of the Government's agenda to improve outcomes and opportunities for disadvantaged children and young people. The two programmes have different criteria and delivery arrangements:

The Children's Fund targets 5 to 13-year-olds and aims to develop local preventive strategies for children and young people at risk from social exclusion. The Fund contributes to the development of the wider Local Preventative Strategy which the Government have asked each local authority to develop for 0 to 19-year-olds. Local Children's Fund partnership boards, covering unitary authorities, decide local priorities for preventive services and allocate funds through direct commissioning or by inviting applications.

The Local Network Fund targets 0 to 19-year-olds and is delivered through the voluntary sector. Grants up to £7,000 and capacity building support are available to small community groups working with children and young people facing disadvantage. Applicants can bid for funding under one of four themes: economic disadvantage, isolation and access, aspirations and experiences and children's voices. Decisions on funding are taken by panels of local people with experience of the issues faced by young people in their area.

Audit

The Children's Fund, in the North East is administered through 12 programmes each with their own partnership board, lead agency and accountable body. Partnership boards comprise voluntary organisations, statutory agencies as well as members of the local community. The lead agency is responsible for the operational direction of the programme while the accountable body ensures the financial probity of the Fund.

The Local Network Fund is delivered through a network of 57 local Funds run by voluntary organisations with grant-making and community development experience. Local Funds report, quarterly, to DFES on financial and service performance. DFES also undertakes regular monitoring visits to Funds to assess and improve performance and undertakes an annual financial and performance audit of the Fund.

Mr. Nicholas Brown: To ask the Secretary of State for Education and Skills how much money from *(a)* the Children's Fund and *(b)* the Local Network Fund has been allocated to projects serving Newcastle East and Wallsend parliamentary constituency. [173700]

Margaret Hodge: Information on both the Local Network Fund and Children's Fund is not collected on a parliamentary constituency basis.

Newcastle East and Wallsend is covered by the Tyne and Wear Local Network Fund which has a total allocation since 2001 of £3,146,297.

Newcastle East constituency is within the Newcastle Children's Fund which has a total allocation since 2001 of £4,965,059.

Wallsend is within the North Tyneside Children's Fund which has a total allocation since 2001 of £2,080,433.

Allocations for both programmes are based on indices of child poverty.

Panjabi

Dr. Tonge: To ask the Secretary of State for Education and Skills what plans he has for the teaching of Panjabi in schools. [175047]

Mr. Stephen Twigg: The Department encourages schools to offer a wide range of languages, including community languages. Under current national curriculum requirements, schools are free to offer any modern foreign language, including Panjabi, as long as the offer includes at least one of the working languages of the European Union.

Learners of Panjabi will be able to have their language skills recognised by the Languages Ladder—the National Recognition Scheme—which will be rolled out nationally from September 2005.

Prison Education

Mr. Oaten: To ask the Secretary of State for Education and Skills what the budget was in each of the last five years for prisoners undertaking *(a)* distance learning courses, *(b)* Open University or other degree courses, *(c)* basic skills qualifications, *(d)* GCSE qualifications and *(e)* A-level qualifications. [172423]

Mr. Ivan Lewis: Funding for the Offenders' Learning and Skills Unit is ring-fenced and administered jointly by DfES and the Home Office. Prisons are allocated a total education budget and have flexibility to use this to purchase education to meet their learners' needs.

Budgets are not disaggregated by level of course or qualification. Core funding for prisoners' education for the last five years is:

£ millions

Financial year	Education expenditure
1999–2000	40.9
2000–01	41.9
2001–02	52.6
2002–03	59.4
2003–04	70.9

Mr. Oaten: To ask the Secretary of State for Education and Skills how many prisoners in each of the last five years successfully completed *(a)* distance learning courses, *(b)* Open University or other degree courses, *(c)* basic skills qualifications, *(d)* GCSE qualifications and *(e)* A-level qualifications. [172425]

Mr. Ivan Lewis: The table as follows shows all prisoner achievements in Open University courses over the past five years.

	Completed	Passed
1998–99	185	160
1999–00	220	189
2000–01	245	211
2001–02	250	213
2002–03	343	307

We do not hold information on the completion of Distance Learning courses and current data collection systems do not allow us to report on awards gained across the prison estate at GCSE and A level.

The table as follows shows prisoner achievement in basic skills against national targets over the past four years. In 2000–01 and 2001–02 targets were set at level 2 because qualifications at this level are considered key to enhancing individual employability.

We widened targets from 2002–03 to cover all levels to enable prison establishments to be more responsive to the range of learning needs among their population.

	Target	Achievement (percentage)
2000–01	[1]14,500	12,500 (86)
2001–02	[1]18,000	16,000 (88)
2002–03	[2]28,800	41,518 (144)
2003–04[3] (provisional)	[2]36,631	46,597 (127)

[1] Level 2
[2] All levels
[3] Provisional

Recycling

Mr. Dhanda: To ask the Secretary of State for Education and Skills if he will introduce measures to promote recycling in schools. [173198]

Mr. Stephen Twigg: The Citizenship curriculum includes teaching pupils about issues that impact on the society and the environment. Pupils should learn about what improves and harms their local environment and about the importance of recycling. This is part of Education for Sustainable Development which is a statutory requirement in the Science, Geography, Design and Technology and Citizenship curricula.

School Councils

Mr. Hurst: To ask the Secretary of State for Education and Skills what plans he has to promote school councils in primary schools. [173330]

Mr. Stephen Twigg: To support schools to introduce a school or class council, the Department has funded School Councils UK to produce a primary schools toolkit to help teachers and pupils to set up effective councils. The primary toolkit was made available to schools in September 2000. The Department has just issued statutory guidance to LEAs and school governing bodies ("Working Together: giving children and young people a say") on pupil participation, which promotes the value of school councils in actively engaging pupils in decision making processes.

The National Assembly for Wales which has responsibility for Education there has decided to make school councils mandatory in all Welsh schools.

School Governors

Mr. Hoyle: To ask the Secretary of State for Education and Skills what plans he has to give special recognition to school governors with 25 years' service. [175430]

Mr. Miliband: The Department is currently examining ways in which the profile of school governors can be raised and their efforts celebrated and better recognised. A project board has been established and will hold its first meeting early in June. The board's representatives are drawn from the National Governors' Council, the National Association of Governors and Managers, the National Co-ordinators of Governor Services, the Trades Union Congress, the Confederation of British Industry, HSBC Bank, The Rayne Foundation, The Education Network and the School Governors' One-Stop Shop. Long-service awards are being considered as part of this initiative.

School Nurses

Mrs. Brooke: To ask the Secretary of State for Education and Skills what guidance he issues to *(a)* primary care trusts and *(b)* local education authorities on the employment of school nurses. [170372]

Mr. Miliband: The Department for Education and Skills has not issued specific guidance to primary care trusts or local education authorities on the employment of school nurses, as school nurses come within the remit of the Secretary of State for Health. We do, however, recognise that school nurses play an important role in offering health and nursing advice and support to schools, such as in advising and training staff on managing pupils' medical conditions. This is acknowledged in the joint DfES and Department of Health good practice guide 'Supporting pupils with medical needs'.

Schools (Capital Investment)

Mr. Hoban: To ask the Secretary of State for Education and Skills pursuant to the answer of 17 May, *Official Report*, column 709W, on schools (capital investment), what priority will be given in subsequent waves to schools excluded from a wave one bid which did not cover all schools in a local education authority. [175235]

Mr. Miliband: Schools in a local authority that have been successful in wave 1 of Building Schools for the Future which are not in its wave 1 project will not be given any special priority in subsequent waves of investment. Decisions on prioritisation of all groups of schools submitted by local authorities for the next waves of investment will be taken on the basis of the published criteria.

Schools (South Ribble)

Mr. Borrow: To ask the Secretary of State for Education and Skills if he will make a statement on the effects on schools of changes since 1997 in the level of investment in schools in South Ribble. [171673]

Mr. Miliband: Details of investment in education initiatives in schools in the South Ribble constituency have been placed in the Library.

Secondary Transfer (Barnet)

Mr. Dismore: To ask the Secretary of State for Education and Skills if he will make a statement on secondary transfer in Barnet, with reference to children whose birthdays fall close to 31 August. [173927]

Mr. Stephen Twigg: I am aware that in Barnet some parents are encountering problems in transferring their child to secondary school because the child has been educated below its chronological year group. My officials have written to the Local Education Authority to ask it to work with its schools to broker a solution. We understand that an established Working Party, set up by the Admissions Forum, has agreed to look into the issue, and to consider strategies for dealing with the current situation.

All admission authorities have a duty to consider applications for places at their schools in accordance with their published admission arrangements. Where places are sought for children who are out of their normal year groups, the School Admissions Code of Practice advises admission authorities to consider such requests fully and to make decisions on the basis of the circumstances of each case, even if it is not their general practice to educate children out of year group.

Sure Start

Mr. Jenkins: To ask the Secretary of State for Education and Skills what plans he has further to develop Sure Start programmes in Tamworth constituency, with particular reference to rural areas. [173279]

Margaret Hodge: Children's centres represent the next stage of the Government's plans to expand high quality integrated service provision for young children. By March 2008 we aim to have children's centres services available to all under-fives and their families living in the 20 per cent. most disadvantaged wards, which include Glascote in Tamworth.

As a first step to achieving this, local authorities have been allocated funding and targets to enable them to reach 65 per cent. of under-fives and their families through children's centres by March 2006. We expect them to build on their existing Sure Start local programmes, Early Excellence Centres and Neighbourhood Nurseries. Additional funding has also been made available to cover the extra costs of providing children's centre services in rural areas. It is the local authority's responsibility to determine how to allocate these resources to best serve the needs of families.

Targeted Capital Fund

Paul Farrelly: To ask the Secretary of State for Education and Skills if he will list the bids he received from Staffordshire Local Education Authority for the 2004–05 Targeted Capital Fund by *(a)* name of school, *(b)* type of school, *(c)* location of school, *(d)* purpose of bid, *(e)* amount of bid and *(f)* whether the bid was successful. [174732]

Mr. Miliband: Staffordshire local education authority (LEA) submitted three bids to the Targeted Capital Fund (TCF) for 2004–05. One was for a project at LEA schools and two were for projects at voluntary aided (VA) schools. These are in the following table:

Bid A—Rugeley reorganisation

Schools included	*Type of school*	*Location of school*	*Purpose*	*Amount of bid*	*Successful (yes or no)*
Chancel Infants	Community	All Rugeley	To rationalise the schools, provide additional early years places, community and special Education need (SEN) facilities and remove 520 surplus places.	3,531,000	Yes
Churchfield C of E (C) Junior	Voluntary controlled				
Flaxley Primary	Community				
Hob Hill C of E/Methodist Primary	Voluntary controlled				
Nursery Fields Primary	Community				
Pear Tree Community Primary	Community				
Ravenhill Primary	Community				
Western Springs Primary	Community				

Bid C—Extension/alterations to St. John Fisher Catholic School

Schools included	Type of school	Location of school	Purpose	Amount of bid (£)	Successful (yes or no)
St. John Fisher Catholic High School	VA	Newcastle	To raise standards, by expanding opportunity and flexibility of provision especially at 14–19: extending provision for SEN and the wider inclusion agenda providing for worksorce reform.	3,329,054	No

Bid D—St John the Evangelist Catholic School Amalgamation

Schools included	Type of school	Location of school	Purpose	Amount of bid (£)	Successful (yes or no)
St. John the Evangelist Catholic Primary	VA	Stoke on Trent	To amalgamate St. John the Evangelist Catholic split site primary school onto the upper site in Gloucester Road.	1,875,465	No

Paul Farrelly: To ask the Secretary of State for Education and Skills (1) what the purpose is of the 2004–05 Targeted Capital Fund; [174736]

(2) if he will list the criteria by which bids for the 2004–05 Targeted Capital Fund were judged; [174737]

(3) what plans the Department has to invite bids for a further Targeted Capital Fund; [174729]

(4) how many bids for the 2004–05 Targeted Capital Fund were made by *(a)* state schools and *(b)* voluntary-aided schools; [174731]

(5) if he will list the 68 projects which were successful in making bids of £186 million to the 2004–05 Targeted Capital Fund; [174734]

(6) how many bids for the 2004–05 Targeted Capital Fund were made by schools in the West Midlands region; and how many were successful. [174730]

Mr. Miliband: The Targeted Capital Fund (TCF) is a relatively limited programme and is intended to support projects which contribute directly to meeting the Government's educational priorities, and which might not otherwise be supported through formulaic allocations to local education authorities (LEAs) and schools.

The key criteria for 2004–05 TCF bids focused on schools causing concern, curriculum improvements, expansion of popular and successful schools, surplus place removal, improved special education needs provision and innovative use of buildings. Full details of the bid criteria for 2004–05 are listed in the guidance, a copy of which can be found in the Library. Bids for TCF projects are made to the Department by LEAs on behalf of their schools.

We hope to announce shortly the arrangements for the TCF for 2005–06. For the 2004–05 TCF round, we received 202 LEA bids covering 373 schools in total, and 199 voluntary aided school bids covering 223 schools. For the West Midlands region, 39 bids were made, nine of which were successful.

The following table shows the 68 successful 2004–05 TCF bids:

2004–05 TCF projects

LEA	Project	Net cost (£)
Hackney	Replacement and expansion of primary school	4,803,120
Hammersmith and Fulham	Establishment of centralised single-site pupil referral unit	507,500
Islington	Physical and Sensory SEN Service Area Development—school co-location	3,896,000
Tower Hamlets	To raise standards by improving premises	681,264
Croydon	Autistic resource at special school	960,000
Ealing	Replacement SEN School with new centre of excellence	4,520,000
Enfield	Wilbury Primary School, new build and remodelling to replace huts	3,868,000
Kingston-upon-Thames	Regeneration of primary school	2,694,268
Kingston-upon-Thames	To provide a learning centre based on the City Learning Centre model	1,862,436
Merton	Improvement of SMART centres to meet pupils medical educational needs	692,000
Coventry	New replacement 1.5 FE community primary school and nursery	3,000,000
Sandwell	New build primary school and children's centre, Tipton	3,019,753
Walsall	To open a two FE primary with a 26 FTE nursery class	2,550,818
Wolverhampton	Primary rationalisation	3,506,090
Liverpool	New building for amalgamated school	3,157,472
Wirral	Rationalisation of science accommodation	644,010
Wirral	Construction of sports hall	1,540,887
Bury	A new high school for Radcliffe	5,000,000
Manchester	Development and expansion of two successful and popular primary schools	4,960,000
Rochdale	Transformation in Central Heywood primary schools	3,391,635
Stockport	Inclusive space to raise standards and to deliver the Workplace Reform	1,772,290
Trafford	Replace school with significant defects and remove surplus places	3,999,163
Bradford	Specialist provision for pupils with emotional and behavioural needs	4,106,500
Cornwall	Improve primary and SEN provision in Penzance	1,415,248
Tameside	To replace one primary school with a 1.5 FE building	2,125,000
Wigan	New primary school in Platt Bridge	2,405,601
Sheffield	Woodthorpe	3,100,000
Calderdale	New sixth form and community facility	4,786,444

2004-05 TCF projects

LEA	*Project*	*Net cost (£)*
Kirklees	Refurbishment and remodelling of two schools in special measures	2,492,000
Leeds	Establishment of a new school in the Holbeck area	3,507,930
South Gloucestershire	King Edmund Target Capital Fund bid	2,471,930
Stockton-on-Tees	Replacement of faculty of science and technology to enhance curriculum	1,569,500
North Lincolnshire	Establishment of new school to replace existing school	3,375,804
York	Performing arts and community education centre	2,600,000
Milton Keynes	Successful school expansion to be enhanced by ICT Infrastructure	4,970,000
Derbyshire	New library, ICT and music block	1,640,800
Derbyshire	Learning resource centre	2,590,049
Derby	Establish accommodation for a pupil referral unit for KS3	1,849,600
Durham	21st century community school—Gurney Valley	2,714,856
Brighton and Hove	Provision of post-16 places for young people with special needs	3,028,800
Leicestershire	Project to support inclusion and develop SEN expertise in the area	3,526,264
Leicester	Braunstone Primary Reorganisation 2	1,649,032
Leicester	Braunstone Primary Reorganisation 1	2,996,125
Staffordshire	Rugeley Reorganisation	3,531,000
Stoke-on-Trent	Proposed Woodhouse primary school	2,064,000
Wiltshire	Integrated provision for ASD pupils in Key Stages 3 and 4	862,420
Swindon	Autistic spectrum disorder—centre of excellence	1,600,000
Bracknell Forest	Raising performance at Brakenhale Campus through the provision of an OLC	2,400,000
Wokingham	The Wokingham Special School of the Future	5,000,000
Cambridgeshire	Residential provision for children with special educational needs	435,115
Devon	Raising standards in Exeter	3,621,501
Devon	14 to 19 Learning Centre to increase participation in rural community	741,407
Plymouth	Modernisation and refurbishment of special school	2,711,035
Torbay	Brixham primary re-organisation	1,475,840
Southend-on-Sea	Improvement of sport, PE and performing arts infrastructure	2,464,236
Southend-on-Sea	Remodelling special schools as centres of excellence	2,101,791

Hertfordshire	Design technology replacement and additional accommodation	1,869,040
Norfolk	South Lynn—new school and relocation of nursery	3,066,431
Northamptonshire	Transfer of Raeburn Special School to Tiffield	4,576,000
Northumberland	First school replacement	1,604,000
Suffolk	Primary school—regeneration	5,000,000

Paul Farrelly: To ask the Secretary of State for Education and Skills if he will list the projects which made successful bids to the Targeted Capital Fund by *(a)* name of school, *(b)* location of school, *(c)* type of school, *(d)* name of local education authority, *(e)* purpose of bid and *(f)* amount of money awarded. [174738]

Mr. Miliband: The information requested has been placed in the Libraries.

Trafficked Children

Mr. Dawson: To ask the Secretary of State for Education and Skills what conclusions he has reached about services for trafficked children following Operation Paladin. [173797]

Margaret Hodge *[holding answer 19 May 2004]:* I welcome the findings of the Paladin report which was published on Monday. Operation Paladin has been a valuable exercise in determining the nature of child migration to the UK. We will work with the Home Office and other organisations in considering the report and its recommendations.

It is of course for local authorities to decide how best to provide support and services for children in need in its area, including those who are the victims of trafficking. When a child enters the country alone and claims asylum or there are concerns that he or she may have been trafficked, the immigration service should immediately refer the child to the relevant local authority's social services department. The social services department will undertake a needs assessment and will provide services in the light of the outcome of that assessment. These services should be tailored to the individual needs of the child, just as they should be for any child in need.

NORTHERN IRELAND

Airports (Aid)

Mr. Beggs: To ask the Secretary of State for Northern Ireland which airports in Northern Ireland receive financial aid from *(a)* Her Majesty's Government, *(b)* the European Union and *(c)* other public sources; what the total cost of that support was during the most recent financial year for which information is available; and how much that support represented per passenger. [174199]

Mr. Spellar: During the most recent financial year for which information is available, April 2003 to March 2004, no financial aid was provided from Her Majesty's Government, the European Union or other public sources, for which the Government have responsibility, to airports in Northern Ireland.

Armagh College

Mr. Mallon: To ask the Secretary of State for Northern Ireland how many *(a)* A5 and *(b)* A2 students were enrolled by Armagh College of Further and Higher Education to study (i) French, (ii) chemistry, (iii) art, (iv) physics and (v) economics in (A) 2001–02, (B) 2002–03 and (C) 2003–04. [174044]

Mr. Gardiner: The following table contains the requested information.

AS/A2 level enrolments at Armagh college 2001–02 to 2003–04

	2001–02		2002–03		2003–04	
Subject area	*AS*	*A2*	*AS*	*A2*	*AS*	*A2*
French	15	8	12	10	9	2
Chemistry	25	21	30	23	23	22
Art	23	5	15	8	13	3
Physics	31	11	18	22	4	12
Economics	27	21	10	14	1	11
Total	121	66	85	77	50	50

Armagh College (data are provisional).

Arts Funding

Mr. Dodds: To ask the Secretary of State for Northern Ireland what conditions of *(a)* copyright and *(b)* royalty payments are attached to grant aid awarded by the (i) Arts Council of Northern Ireland, (ii) Department of Culture, Arts and Leisure and (iii) Ulster-Scots Agency. [173188]

Angela Smith: The Arts Council of Northern Ireland does not attach conditions relating to *(a)* copyright or *(b)* royalty payments to any award. The Department of Culture, Arts and Leisure does not award grant aid for the publication of creative writing in Ulster-Scots. Government support for the arts in Northern Ireland is disbursed chiefly through the Arts Council of Northern Ireland.

The Ulster-Scots Agency has stipulated conditions relating to copyright and "royalty" payments in the letters of offer it issues on grant applications. With regard to copyright the Agency has attempted to ensure that it can use material it has grant aided, for example in promotions or on the Agency website. With regard to royalty payments the Agency has attempted to ensure that grants it has made which have a commercial aspect (such as to publishers who will sell books printed with Agency assistance) contain a 'claw back' clause, whereby a percentage of the income from such sales is returned to the Agency. Both of these practices are currently under review.

Corporation Tax

Mr. Beggs: To ask the Secretary of State for Northern Ireland what assessment he has made of the impact the low corporation tax rates in operation in the Republic of Ireland has on manufacturing industries in Northern Ireland. [174198]

Mr. Gardiner: No formal assessment has been made as to the impact that the low corporation tax rate in operation in the Republic of Ireland (RoI) has had on manufacturing industries in Northern Ireland.

Although the RoI can offer a lower rate of corporation tax, in recent years, Invest NI has successfully secured new investment from the RoI by promoting Northern Ireland as a region where companies can reap the benefits of the greater competitiveness of the Northern Ireland economy. In practice, it has been found that the more competitive cost base in Northern Ireland often outweighs the corporate taxation differential between Northern Ireland and the RoI.

Indeed, a recent report, commissioned by the Office of the First Minister and Deputy First Minister, into the cost of operating business in Northern Ireland concluded that lower labour and property costs, which represent a significant component of the cost base of many firms, places Northern Ireland businesses at a competitive advantage vis-a-vis Great Britain and the Republic of Ireland.

Creative Writing

Mr. Dodds: To ask the Secretary of State for Northern Ireland what the total amount of public money granted by the *(a)* Arts Council of Northern Ireland, *(b)* Department of Culture, Arts and Leisure and *(c)* Ulster-Scots Agency was towards the publication of creative writing in the Ulster-Scots language in Northern Ireland in each year since 1999. [173187]

Angela Smith: The Arts Council of Northern Ireland has not made funding available specifically for the publication of writing in the Ulster-Scots language. However, in the 1998–99 financial year, the Arts Council made a grant of £7,500 to the Ulster-Scots Language Society for the publication of a book by Philip Robinson. Since then the Arts Council has received no applications for publications in the Ulster-Scots language.

The Department of Culture, Arts and Leisure's funds in support of the arts in Northern Ireland are disbursed chiefly through the Arts Council of Northern Ireland and the Department has not made any funding directly available for the publication of creative writing in the Ulster-Scots language.

The amount of funding granted by the Ulster-Scots Agency towards the publication of creative writing in the Ulster-Scots language in Northern Ireland since 1999 is detailed in the following table.

	Amount (£)
1999	—
2000	—
2001	—
2002	6,280.00
2003	—
2004	[1]21,855.00

[1] Projected.

Electricity Tariffs

Mr. Dodds: To ask the Secretary of State for Northern Ireland what progress has been made in the application to the European Commission for clearance for a scheme to reduce electricity tariffs in Northern Ireland. [173409]

Mr. Gardiner: A paper has been submitted to the European Commission outlining the Government's proposal to make an intervention aimed at bringing about a 10 per cent. decrease in electricity prices for non-domestic consumers below the level they would otherwise have been.

It is hoped that a meeting to discuss the matter with Commission officials will be held shortly.

Government Investment

David Burnside: To ask the Secretary of State for Northern Ireland what percentage of financial support to business from *(a)* the Industrial Development Board for Northern Ireland, *(b)* the Local Enterprise Development Unit and *(c)* Invest Northern Ireland was represented by (i) capital grants, (ii) grants for research and development, (iii) grants for training, (iv) grants for marketing, (v) loans and (vi) investment in equity in each of the last five years. [173651]

Mr. Gardiner: The following table shows the percentage of financial support to business by category in each of the last five years offered by Invest NI and its predecessors. Although the question does not specifically mention the Industrial Research and Technology Unit, as this agency was responsible for providing research and development support prior to Invest NI being set up, it has also been included in the table. Information relating to training support under the Company Development Programme (CDP) as administered by the Business Support Division of DETI has also been incorporated, as this function is now included within Invest NI's remit. In all cases the figures shown relate to offers of assistance made by the organisations concerned.

It has not been possible to provide detailed information on levels of marketing support as a marketing grant is a form of revenue grant and cannot easily be separated from other revenue grants.

Percentage of Assistance Offered By Assistance Category (1999–2000 to 2003–04)

Percentage

	1999–2000	*2000–01*	*2001–02*	*2002–03*	*2003–04 (Provisional)*
Capital Grant	28	15	19	11	9
Research and Development	8	9	13	29	18
Training (CDP)	7	13	10	6	12
Loans	0	0	2	4	3
Equity	1	2	4	6	6
Revenue Grant[1]	43	47	37	28	33
Other Assistance[2]	13	14	15	16	19
Total	100	100	100	100	100

[1] Revenue Grants include a range of grants such as marketing grant, employment grant, management salary grant and operating grant.
[2] Other Assistance includes consultancy grants, incentive grants, quality grants, trade missions, business improvement services, tourism development as well as assistance to third party organisations.

Housing (Central Heating)

David Burnside: To ask the Secretary of State for Northern Ireland how many and what percentage of Northern Ireland Housing Executive homes have had *(a)* oil and *(b)* gas-fired central heating installed, broken down by Housing Executive District Office Area. [174376]

Mr. Spellar: The information is as follows:

	Oil		*Gas*	
NIHE District Office	*Number*	*Percentage*	*Number*	*Percentage*
Belfast 1	310	13.4	1,066	45.9
Belfast 2	883	22.5	1,645	42.0

Note:
Properties where no central heating is recorded include redevelopment properties, properties due for demolition, and properties not within the Rent Scheme.

Marching Season

Mr. Beggs: To ask the Secretary of State for Northern Ireland if he will make a statement on the role played by local community activists during the 2003 marching season; and what plans he has to provide support for local community activists during the 2004 marching season. [174091]

Mr. Pearson: During 2003, a wide range of people in the community played an important role in easing tensions and resolving problems around parading and I am most grateful for that. In preparing for the forthcoming marching season, the Secretary of State and I intend to hold a series of meetings similar to last year, which will include all those who have the ability to help ensure that 2004 passes off as peacefully as 2003.

Mr. Beggs: To ask the Secretary of State for Northern Ireland what his assessment is of the Police Service of Northern Ireland security assessment relating to Portadown recently received by the Parades Commission; and if he will make a statement on his assessment of security over the forthcoming marching season. [174094]

Mr. Pearson: The Parades Commission is independent of Government and the Secretary of State does not see PSNI advice to the Commission. There is currently no information which would suggest this marching season will be significantly different from 2003. However, with regard to the forthcoming marching season, the Secretary of State and I intend to hold a series of meetings similar to last year, which will include all those who have the ability to help ensure that 2004 passes off as peacefully as 2003.

PPP Contracts

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether a company which successfully bids for inclusion in an education-related public private partnership scheme retains the right *(a)* to put the contract on the market at any stage, *(b)* to sell the contract at a profit and *(c)* to keep the profit from the sale of the contract without a requirement to provide guarantees that the scheme will be completed to the specifications to which they initially signed up; and whether revenue generated through weekend and evening openings of buildings constructed under such a scheme is required to be invested in the school or its pupils. [174008]

Mr. Gardiner: *(a)* A PPP contractor, which successfully bids for inclusion in an education related PPP project, may put the contract on the market at any time during the life of the contract. The prior written consent of the school authority is required and this can be withheld at its discretion.

(b) Provided the prior written consent of the school authority has been obtained, a PPP contractor may sell a PPP contract at a profit.

(c) A PPP contract specifies the level of service which an authority can expect to receive in return for payment of the unitary charge. If a contractor were to sell, or otherwise dispose of a PPP contract, it would retain any profit accruing and the service requirements and obligations would transfer to the new contractor. The new contractor would be expected to deliver the full range of services as if there had been no change in ownership.

The net income from any third party usage of a school that has been procured under PPP is shared between the school authority and the contractor on the basis agreed in the contract.

Public Administration Review

Mr. Trimble: To ask the Secretary of State for Northern Ireland what the total cost incurred by the Review of Public Administration has been since the beginning of financial year 2001–02. [170438]

Mr. Pearson: In May 2002, the Northern Ireland Executive agreed an overall budget of £3 million for the Review of Public Administration. To date a total expenditure of £1.71 million has been incurred by the Review.

Racial Attacks

Harry Cohen: To ask the Secretary of State for Northern Ireland what information he has received about the extent and trend of racial attacks in Northern Ireland; what action is being taken with regard to them; and if he will make a statement. [174188]

Mr. Spellar: The following table sets out the number of racial incidents reported to the police in Northern Ireland since 2001.

The Government have frequently put on record their abhorrence of all forms of intolerance and racism. They are committed to eradicating such manifestations of hatred, whether based on racism or on sectarianism and are developing a co-ordinated response to the problem in Northern Ireland.

I will shortly bring forward an Order in Council to enable courts to deal more severely with crimes motivated by racist, sectarian and homophobic hatred.

The proposals will require sentencers to treat racial and religious aggravation as aggravating factors, where proven, when sentencing and to extend this legislation to offences motivated by hatred of sexual orientation.

The proposals also increase maximum sentences available for certain specified, mainly violent, offences including where racial, religious or sexual aggravation is proven.

The Community Safety Unit (CSU) is leading the development of a Hate Crime recording and monitoring system for Northern Ireland. The minority ethnic communities are represented and fully participating on the Working Group. Integral to the development of the System will be the engagement with the various minority ethnic communities to establish protective and preventive security schemes, and the carrying out of research into racially motivated crime. The CSU has provided funding to a number of counter-racism/sectarian projects under the Challenge Competition—seven at a total cost of £384,000.

The final version of the Race Equality Strategy (which takes account of extensive consultation with all sections of NI society) will be published by the Office of the First Minister and Deputy First Minister this summer and specific actions will be included in a detailed implementation plan developed in line with the strategy.

These measures will send out a clear message that racism has no place in our society.

Number of racial incidents reported to the police in Northern Ireland 1998–2004

	Total number of racial incidents
1998–99	93
1999–2000	237
2000–01	260
2001–02	185
2002–03	226
2003–04	453

Republican Intelligence Operation (Stormont)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the cost was of personal security measures introduced for individuals following the discovery of a Republican intelligence operation at Stormont in October 2002. [173743]

Mr. Pearson: Since 1 January 2000, the Government have committed £12.2 million to provide physical security measures at the homes of those whose personal details were compromised.

Residents Parking Schemes

Mr. Beggs: To ask the Secretary of State for Northern Ireland if he will provide resources to introduce pilot residents parking permit schemes in Northern Ireland. [174090]

Mr. Spellar: The Chief Executive of Roads Service (Dr. Malcolm McKibbin) has written to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin to Mr. Roy Beggs, dated 20 May 2004:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question asking if he will provide resources to introduce pilot residents' parking permit schemes in Northern Ireland. I have been asked to reply as the issue raised falls within my responsibility as Chief Executive of Roads Service.

Roads Service has been examining the case for introduction of a limited number of residents' parking schemes and has identified potential pilot schemes in the south Belfast area. These pilot

schemes would take at least 12 months to implement and Roads Service is willing to allocate the necessary resources. We are in discussions with the PSNI regarding enforcement.

I hope this information is helpful.

Water Cannon Vehicles

Mr. McNamara: To ask the Secretary of State for Northern Ireland on what date he received the request from the Irish Government for the loan of two water cannon vehicles used by the Gardai for dispersing anti-globalisation protestors on 1 May 2004; what the duration of the loan was; how many Police Service of Northern Ireland and other personnel *(a)* accompanied the vehicles and *(b)* were involved in their operation; what the cost was of the loan arrangement; and what charge has been levied upon the Irish authorities. [174535]

Mr. Pearson: I am advised that on 23 March 2004 the Police Service of Northern Ireland received a written request from the Commissioner of An Garda Siochana to provide two water cannon vehicles for the period 18 April to 4 May inclusive. This was to facilitate the training of Garda officers to work in the use of water cannon and cover the period of potential protests from 1 to 3 May. The request was made direct from one police service to another and not from the Irish Government. A service level agreement was drawn up between the two services to cover this arrangement.

I am given to understand that no PSNI officers accompanied the vehicles to the Republic of Ireland nor were PSNI officers involved in their operation in Dublin. On this occasion no charge was levied for the provision of the vehicles in the spirit of joint co-operation between An Garda Siochana and PSNI, as set out in chapter 18 of the report of the Independent Commission on policing in Northern Ireland.

Mr. McNamara: To ask the Secretary of State for Northern Ireland what requests for loans of water cannon vehicles have been received from the Irish authorities for days during *(a)* June and *(b)* July. [174536]

Mr. Pearson: I have been advised that PSNI has received no requests from either An Garda Siochana or the Irish Government for the provision of PSNI water cannon during June or July 2004.

Mr. McNamara: To ask the Secretary of State for Northern Ireland what training in the use of water cannons has been provided for non-UK personnel; how many persons were trained over what period; what the cost was of training provided; and what charge has been levied upon the beneficiary states. [174537]

Mr. Pearson: The Police Service of Northern Ireland has advised me that the service provided water cannon training for 21 non United Kingdom personnel. Eighteen officers from An Garda Siochana were trained in the operation of water cannons over a period of six days and three Senior Officers received training in command and control issues relating to the deployment and use of water cannon. No charge was levied for this training on the basis of furthering co-operation with other police services, as recommended in the report of the Independent Commission on policing in Northern Ireland.

Mr. McNamara: To ask the Secretary of State for Northern Ireland what reports have been received from the Irish authorities concerning the effectiveness and safety of water cannon weaponry on loan from the Police Service of Northern Ireland for the period covering 1 May; what weight of water was discharged; and whether any persons were injured by the use of this equipment. [174538]

Mr. Pearson: I have been advised by PSNI that they have not received any written reports concerning the use of water cannon on this occasion. PSNI would therefore not have specific information such as the weight of water used or whether there were injuries resulting from the use of water cannon. However, they have indicated that An Garda Siochana contacts have advised that the water cannons were judged to be an effective tactical option.

DEFENCE

A400M

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the delivery of the A400M. [173371]

Mr. Ingram: As previously stated to my hon. Friend on 5 March 2004, *Official Report*, column 1151W, the in-service date of the A400M (defined as acceptance into service of the seventh aircraft) is 2011. We expect delivery of the final (twenty fifth) aircraft to be in 2015.

Al Yamamah Contracts

Norman Lamb: To ask the Secretary of State for Defence when he met Prince Turki bin Nasser during 2000; where the meeting took place; what the purpose of the meeting was; and what was discussed. [171751]

Mr. Hoon: I met His Highness Prince Turki Bin Nasser in my office on 12 October 2000. Prince Turki introduced his successor as Head of the Al Yamamah Project within the Royal Saudi Air Force. Amongst other matters, there was also some general discussion of events in the Middle East and I was able to take the opportunity to thank Prince Turki for his work in support of the Al Yamamah programme, which has brought benefits for both nations over many years.

Norman Lamb: To ask the Secretary of State for Defence whether he intends to conduct further internal investigations into the role of his officials in alleged corruption involving the Al Yamamah arms contracts. [171752]

Mr. Hoon: Any evidence of improper behaviour by officials will be fully investigated. This includes any evidence uncovered during the current enquiries into allegations against a retired official formerly associated with the Al Yamamah programme.

Eurofighter

Norman Lamb: To ask the Secretary of State for Defence what discussions have taken place on the possibility of selling Eurofighter Typhoon aircraft

ordered for the Royal Air Force to other countries without being delivered to the RAF; and if he will make a statement. [172420]

Mr. Ingram: Some consideration has been given to the scope to provide for early export of Eurofighter Typhoon to potential overseas customers. If pursued, a sale might be accomplished by adjusting the delivery profile to the RAF. The RAF remains, however, the primary customer for these aircraft and any decision made will take full account of its requirements.

Gunnery Capability

Mr. Gray: To ask the Secretary of State for Defence whether the saluting battery capability in the Tower of London could be provided by a regiment with no gunnery training or capability. [174443]

Mr. Ingram: Only personnel with the appropriate gunnery training could provide the saluting battery capability in the Tower of London

Mr. Gray: To ask the Secretary of State for Defence (1) what plans he has for the Gun Troops, Honourable Artillery Company; [174444]

(2) whether the Honourable Artillery Company will maintain a gunner role. [174445]

Mr. Ingram: Plans for future Army structures continue to evolve, but there are currently no plans to change the role of the Gun Troop, Honourable Artillery Company.

Mr. Gray: To ask the Secretary of State for Defence for how long the Honourable Artillery Company has performed a gunner role. [174446]

Mr. Ingram: The Honourable Artillery Company's gunner lineage dates from the early 1780s, when the City Corporation of London presented the Company with two Brass Field Pieces.

Helicopters

Mr. Gerald Howarth: To ask the Secretary of State for Defence how many Battlefield helicopters are deployed on operations; in which theatres they are deployed; and with which units they are in service. [174543]

Mr. Ingram: A total of 68 Battlefield helicopters are deployed in operational areas, in Bosnia, Afghanistan, Northern Ireland and Iraq. I am withholding details of the specific units with which these assets are deployed under Exemption 1 of the Code of Practice on Access to Government Information as this would give a clear indication of their operational capability.

Andrew George: To ask the Secretary of State for Defence (1) how many Royal Navy *(a)* Merlin helicopters and *(b)* squadrons of Merlin helicopters are (i) fully operational and (ii) preparing to become fully operational; [174883]

(2) when all of the Royal Navy Merlin helicopters and squadrons are expected to be fully operational. [174881]

Mr. Ingram *[holding answer 21 May 2004]:* The Royal Navy currently has four commissioned squadrons of Merlin helicopters. A further squadron is planned to be commissioned in October 2004. At present, all RN Merlin helicopters have been grounded as a precautionary measure pending the investigation into the crash of a Merlin helicopter on 30 March 2004. It is too early to say when flying will be resumed.

Andrew George: To ask the Secretary of State for Defence what the *(a)* budget and *(b)* cost of running, maintenance, training and other non capital costs was for the Royal Naval Merlin helicopter squadron in each year since the aircraft was first acquired. [174885]

Mr. Ingram *[holding answer 21 May 2004]:* This information is not held centrally and could only be provided at disproportionate cost.

HMS Turbulent

Mr. Hancock: To ask the Secretary of State for Defence whether there are sufficient stocks of *(a)* foul-weather suits and *(b)* jumpers on board HMS Turbulent to avoid crew members coming on watch while the boat is on the surface having to wear the kit of those coming off watch. [175061]

Mr. Ingram: HMS Turbulent has a full allowance of 40 sets of Mk IV Foul Weather Clothing, which is an increase of 16 over the previous scale for the Mk III Foul Weather Clothing.

Submariner's jerseys are issued to individuals on a personal basis and ample stocks were available before HMS Turbulent deployed.

Iraq

Llew Smith: To ask the Secretary of State for Defence how many members of the Iraq Survey Group are still in the field in Iraq; how many are United Kingdom citizens; and if he will make a statement on each of the tasks carried out by the group since 1 January. [175083]

Mr. Hoon: On 13 May 2004, there were 1,270 people employed in the Iraq Survey Group of which 54 were UK citizens. The Iraq Survey Group's primary task is assessing the extent of Iraq's Weapons of Mass Destruction and associated programmes. The Iraq Survey Group has produced two interim reports, in October 2003 and March 2004, and a further report is expected later this year. Posted testimony for both reports can be found on the CIA website www.cia.gov.

Andrew Mackinlay: To ask the Secretary of State for Defence pursuant to the answer of 18 May, *Official Report*, column 873W, on Iraq, from which Vote each of the 49 British personnel serving with the Iraq Survey Group is paid; who in the United Kingdom has line management responsibility for each; to whom they report in the United Kingdom in respect of their work with the Iraq Survey Group; and if he will make a statement. [175101]

Mr. Hoon: I refer my hon. Friend to the answer I gave to my hon. Friend for Leyton and Wanstead (Mr. Cohen) on 12 February 2004 *Official Report*, column 1637W on Iraq Survey Group costs.

Line Management responsibility for the British personnel with the Iraq Survey Group rests with the Deputy Commander Iraq Survey Group, who is a United Kingdom Officer with the rank of Brigadier.

Light Guns

Mr. Gray: To ask the Secretary of State for Defence (1) how many light guns are on issue to the British Army; and to which units they have been issued; [174448]

(2) how many Territorial Army batteries have a full complement of the light gun; [174449]

(3) how many automatic positioning systems for the light gun have been issued; and to which batteries; [174450]

(4) how many *(a)* Regular and *(b)* Territorial Army batteries have a full complement of automatic positioning systems allocated to their light guns; and how many are using dial sights. [174451]

Mr. Ingram: 136 guns have been issued to those units designated Light Gun Units, as shown in the table.

Three TA units, 103 Regiment, 100 Regiment and the Honourable Artillery Company (HAC) are issued with guns fitted with the Automatic Pointing System. HAC have their full complement of four guns. 103 Regiment have 12 guns, but are established for 18, and therefore operate with 3x4 gun batteries. 100 Regiment have 14 guns, but are established for 18, and therefore operate with 2x5 gun batteries and 1x4 gun battery. The number of guns issued is determined by the number of Automatic Pointing Systems (APS) available. However, although 100 Regiment and 103 Regiment are short of the establishment, the compliment is considered sufficient to meet their requirements. Other TA Units, listed at Serials 14 to 17 in the table, hold Saluting Guns only. Saluting Guns do not require sights to be fitted.

The APS has been fitted to 112 guns as shown in the table. Those guns without APS fitted are used either for classroom purposes or for saluting only. Dial sights are no longer in service.

Missiles

Mr. Hancock: To ask the Secretary of State for Defence if he will make it his policy to arm Type-45 destroyers with *(a)* TacTom land attack cruise missiles and *(b)* the Mark 41 launcher; and if he will make a statement. [171861]

Mr. Ingram: There is currently no requirement to fit Tomahawk Land Attack Missiles to Type 45 destroyers. However, should such a requirement arise, these could be fitted in the future. The Mark 41 launcher would be one option for launching these missiles.

Royal Navy Visits

Mr. Rosindell: To ask the Secretary of State for Defence if he will list the Royal Navy's ship visits to *(a)* Spanish ports and *(b)* Gibraltar in the last 12 months. [173376]

Mr. Ingram: Details of ship visits to Spanish ports in the 12 months up to 12 May 2004 are as follows:

Port	*Ship*	*Start*	*End*
Algeciras	Orangeleaf	13 August 2003	14 August 2003
Alicante	Northumberland	2 June 2003	3 June 2003
		3 June 2003	5 June 2003
		5 June 2003	9 June 2003
Barcelona	Chatham	25 July 2003	29 July 2003

Territorial Army

Mr. Gray: To ask the Secretary of State for Defence if he will make a statement on the Territorial Army's role in the Royal Artillery. [174447]

Mr. Caplin: The Territorial Army undertakes a variety of roles in supporting the Royal Artillery, which include Surveillance and Target Acquisition, Reinforcement, and provision of Multi Launch Rocket Systems and Javelin Air Defence capabilities.

UK Defence Industry

Mr. Gerald Howarth: To ask the Secretary of State for Defence what areas are considered by his Department to be key industrial capabilities which the UK defence industry must maintain. [170744]

Mr. Ingram: The Government's Defence Industrial Policy, published in October 2002, is aimed at enhancing the competitiveness and sustainability of the UK Defence industry, while continuing to provide the armed force with high quality equipment at best value for money. There are a very small number of capabilities which for national security reasons we place a high priority on retaining within the United Kingdom industrial base. Examples exist in the fields of nuclear technology, defence against biological, chemical and radiological warfare, and some counter-terrorist capabilities.

UN Operations

Mr. Gerald Howarth: To ask the Secretary of State for Defence what the relationship between British Armed Forces and the Iraqi Government will be following the handover of power on 30 June 2004. [169381]

Mr. Hoon: The relationship between British Armed Forces and the Iraqi Government following the assumption of authority on 30 June will be determined primarily by the United Nations Security Council Resolution which we expect to see concluded before 30 June. We envisage that the Resolution will cover amongst other issues the mandate of the Multi-National Force currently authorised by UNSCR1511.

Mr. Gerald Howarth: To ask the Secretary of State for Defence (1) what military role British troops will play following the handover of power in Iraq on 30 June 2004; [169384]

(2) what role British troops will play in the new phase of economic, military and political co-operation between the United States of America, the Coalition and the Iraqi civilian government following the handover of power on 30 June 2004. [169383]

Mr. Hoon: Following the assumption of authority by the Interim Iraqi Government on 30 June, British troops will contribute to the Multi-National Force in support of the Iraqi Government. We expect that the mandate for the Multi-National Force, which is currently authorised by United Nations Security Council Resolution 1511, will be set out in a further United Nations Security Council Resolution in due course.

Mr. Keetch: To ask the Secretary of State for Defence if he will make a statement on the progress of investigations in the case of Gary Bartlam of the 1st Battalion, Royal Regiment of Fusiliers; what action has been taken; and what recommendations have been made as a result. [172944]

Mr. Ingram: The case involving Fusilier Gary Paul Bartlam has been referred to the Army Prosecuting Authority for consideration. I am withholding details under Exemption 12 of the Code of Practice on Access to Government Information.

Mr. Maples: To ask the Secretary of State for Defence what representations he has made to his US counterpart regarding the International Committee of the Red Cross report on the treatment by the Coalition forces of prisoners of war in Iraq. [173405]

Mr. Soames: To ask the Secretary of State for Defence what representations he has made to the US Administration regarding the International Committee of the Red Cross report on the treatment by Coalition forces of prisoners of war in Iraq; and if he will make a statement. [173401]

Mr. Hoon *[holding answer 14 May 2004]*: I have had a recent discussion with Mr Rumsfeld, as part of my regular contact with him. Since before the report came to my attention the US Government has made it clear that allegations of abuse of prisoners are being rigorously investigated and that anyone found to have acted wrongly will be dealt with appropriately.

Tom Cox: To ask the Secretary of State for Defence at how many UK run prisons in Iraq Iraqi prisoners are being held; and where each prison is located. [174354]

Mr. Ingram: The United Kingdom's only detention facility is in Shaibah.

Llew Smith: To ask the Secretary of State for Defence if he will list each of the weapons containing uranium used in Operation Telic. [174372]

Mr. Ingram: Depleted uranium was contained in 120mm Armour Piercing CHARM 3 rounds fired by the British Challenger II tanks, during Operation Telic. Additionally, 20mm rounds used by the Royal Navy's Close-in Weapons System known as PHALANX, contain depleted uranium. These rounds were fired for calibration purposes only, prior to hostilities.

FOREIGN AND COMMONWEALTH AFFAIRS

Arms Trade

Mr. Cousins: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is his policy to seek a legally binding international arms trade treaty. [173278]

Mr. MacShane: The Government's objective is to work through the Transfer Controls Initiative to achieve an international agreement on transfers of small arms and light weapons.

UN Peacekeeping

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* numbers, *(b)* efficiency and *(c)* effectiveness of the UN administrative staff in New York charged with planning, launching and overseeing UN peacekeeping missions; and if he will make a statement. [175122]

Mr. Rammell: At the request of the United Nations General Assembly, the UN Secretary-General requested the Office of Internal Oversight Services (OIOS) to evaluate the impact of the recent restructuring of the Department of Peacekeeping Operations. Their report (A/58/746) was issued on 25 March 2004, and is available on the UN website (www.un.org).

Following the recommendations in the Brahimi report of 2000 on peacekeeping reform, an additional number of posts were agreed for the UN Department of Peacekeeping Operations. The Civilian Police Division was granted the greatest increase, followed by the military division and then the civilian departments. Nearly all of the new posts are now filled. OIOS believe that the quality of personnel recruited has been satisfactory, and argue that reform has enhanced the UN's capacity to tackle complex, multidimensional peacekeeping missions.

We have no reason to disagree with OIOS's assessment. However, in the light of the current surge in demand for UN peacekeeping, we are closely monitoring the UN's evolving capacity to meet new and existing challenges.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recommendations his Department has made for the reform of the planning and administrative structure of UN peacekeeping missions; when these recommendations were last revised; what response he has received from *(a)* UN officials and *(b)* officials of other member states; and if he will make a statement. [175181]

Mr. Rammell: We have been at the forefront of the push for the prompt implementation of the recommendations contained in the Brahimi report of July 2000 on peacekeeping reform. My right hon. Friend the Prime Minister underlined our commitment at the Millennium Summit 2000. Under the Global Conflict Prevention Pool, run jointly by the FCO, MOD and DfID, we have developed a programme of co-operation and assistance designed to enhance the peacekeeping and peace-building capacity of the UN, and to strengthen the capacity and effectiveness of countries contributing troops and civilian police to UN peacekeeping missions. In addition to bilateral work with the UN and other interested parties, the Government are working multilaterally in the UN and the EU to maintain peacekeeping reform on the international agenda. The Secretary-General's High Level Panel on threats, challenges and change, which we have welcomed, may recommend changes to the peacekeeping structures within the UN. The Panel's report will be published later this year.

World War Two Medals

Mr. Caton: To ask the Secretary of State for Foreign and Commonwealth Affairs if the Government will make an exception to the rule preventing UK citizens accepting campaign medals from other countries to enable the British people who served on the Arctic convoy during World War Two to receive the Defence of the Soviet Arctic Region Medal. [170126]

Mr. Straw: The Government are currently considering the possibility of an exception to the rules governing the acceptance and wearing of foreign awards, to enable British veterans who served on Arctic convoys during the Second World War to receive the Russian Defence of the Soviet Arctic Region medal.

Abdullah Ocalan

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs which human rights organisations have been allowed to visit Abdullah Ocalan to see what prison conditions he is being held under; what his general state of health is; and if he will make a statement. [174357]

Mr. MacShane: The Council of Europe's Committee for Prevention of Torture has regularly visited Abdullah Ocalan and published its most recent report in February 2004. There have been a number of press reports on Ocalan's health, some of which have been confirmed in our Embassy's contact with Ocalan's lawyers. We note that Ocalan has daily basic health checks from the civilian doctors who attend him. There is also a military doctor on site at all times.

Annan Plan

Mr. Jim Cunningham: To ask the Secretary of State for Foreign and Commonwealth Affairs what communications his Department is undertaking with the Greek Cypriots to seek an alternative to the Annan Plan. [174503]

Mr. MacShane: The Government's position continues to be one of support for the UN Secretary General's Plan. We believe that this offers the best possible basis for a settlement. Now is not the time to seek an alternative to the Annan Plan.

We look forward to the UN Secretary General's report on his Good Offices Mission and his thinking on next steps.

Burma

Jane Griffiths: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Burmese Government regarding Thet Win Aung, who is sentenced to 60 years imprisonment. [174390]

Mr. Mike O'Brien: Thet Win Aung is among a large number of political prisoners in Burma. Amnesty International estimate that there are 1,300 to 1,400, many of them prisoners of conscience.

We have repeatedly called on the Burmese regime to release fully all political prisoners and to allow them to play an active role in national reconciliation in Burma. We shall continue to do so. Their plight was most recently raised in April's UK co-sponsored UN Commission on Human Rights resolution.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Burmese regime over the military offensives in *(a)* northern Karen and *(b)* Karenni state; and if he will make a statement. [174558]

Mr. Mike O'Brien: We have not made recent representations on this subject because contacts with the Burmese regime are irregular. However, human rights violations have been highlighted by successive highly critical UK and EU co-sponsored UN Resolutions, most recently at the UN Commission on Human Rights on 21 April 2004. This referred to the violations of human rights suffered in particular by persons belonging to ethnic minorities, women and children, especially in non-ceasefire areas and the situation of the large number of internally displaced persons as well as the flow of refugees to neighbouring countries. It emphasised the obligations of Burma under international law to pursue through dialogue and peaceful means the immediate suspension and permanent end of conflict with all ethnic groups in the country and to conclude a ceasefire agreement with the Karen National Union (KNU). The Burmese regime knows how critical we are of their Human Rights abuses.

We are, however, encouraged by the recent verbal ceasefire agreement between the regime and the KNU and hope that this will lead to a lasting peace settlement.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to urge the European Union to strengthen sanctions against Burma in response to the atrocities against the Karen, Karenni and Shan peoples by the Burmese military. [174559]

Mr. Mike O'Brien: The UK and its European partners follow events in Burma closely. We remain willing to support a genuine process of national reconciliation, leading to the restoration of democracy and full respect for human rights in Burma.

We share the view of a number of international partners that the best interests of all the people of Burma continue to be served by targeted measures against those responsible for the obstruction of reform and progress, together with humanitarian support to ensure that the ordinary people of Burma do not suffer as a result of the damaging policies of their government.

EU Foreign Ministers agreed on 26 April 2004 to maintain the Common Position on Burma for a further 12 months. We believe that this will maintain pressure on the regime. We are closely monitoring the National Convention process and stand ready to respond proportionately to future developments in Burma, positive or negative.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to recognise the actions taken by the Burmese military against the *(a)* Karen, *(b)* Karenni and *(c)* Shan peoples as (i) war crimes and (ii) crimes against humanity. [174560]

Mr. Mike O'Brien: The British Government is one of the strongest critics of the Burmese regime's abuses of human rights. We are aware of a consistent pattern of serious violations over many years, particularly against the ethnic groups. These have been highlighted in successive EU co-sponsored resolutions on Burma in the United Nations General Assembly and UK co-sponsored resolutions in the United Nations Commission on Human Rights. But we do not consider that the atrocities constitute "war crimes" and "crimes against humanity", which have specific definitions under international law. Nor does the United Nations Special Rapporteur for Human Rights in Burma. Professor Sergio Pinheiro, who has regular access to Burma, used these terms to describe the situation there.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to raise the Burmese military actions against the Karen, Karenni and Shan peoples at the UN Security Council. [174561]

Mr. Mike O'Brien: We have raised our concerns about the security situation in Burma and the resulting human rights violations with our Security Council Partners. However, there is no consensus at present to bring Burma before the Security Council.

Atrocities against ethnic groups in Burma have been highlighted in successive EU co-sponsored UN Resolutions on Burma, most recently at the UN Commission on Human Rights on 21 April 2004.

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on relationships with the military Government in Burma; and if he will make a statement. [175171]

Mr. Mike O'Brien: We have full diplomatic relations with Burma and continue to press the military regime to enter into a substantive and genuine dialogue with all political parties and ethnic groups in Burma leading to national reconciliation, democratisation and full respect for human rights. We fully respect the decision of the National League for Democracy (NLD) not to participate in the constitutional convention which opened in Rangoon on 17 May 2004 and urge the regime to reconsider the NLD's reasonable requests. We have repeatedly called on the regime to release Daw Aung San Suu Kyi and the NLD's Vice Chairman U Tin Oo from house arrest, to release all political prisoners, and to re-open all NLD offices in Burma.

Departmental Staff

Matthew Taylor: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff were employed in the Department to work in the communications field, and what the total expenditure on communications for the Department was, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others, in (A) 1994–95, (B) 1996–97, (C) 1997–98 and (D) 2001–02. [168674]

Mr. Rammell: Figures for staff with Government Information and Communications Service qualifications are not available prior to 2003–04 without incurring disproportionate costs.

For details of Press Office staff between 1997 and 2002, I refer the hon. Member to the answer the then Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office, my hon. Friend the Member for Exeter (Mr. Bradshaw), gave to the hon. Member for the Isle of Wight (Mr. Turner) on 10 April 2002, *Official Report*, column 63W. For details of Press Office staff in 2003, I also refer the hon. Member to the answer I gave to my hon. Friend the Member for Leicester East (Keith Vaz) on 2 July 2003, *Official Report*, column 310W. For details of special advisers costs and staff numbers, I refer the hon. Member to the answer my hon. Friend the then Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Mike O'Brien) gave to the hon. Member for Yeovil (Mr. Laws) on 23 January 2003, *Official Report*, column 467W.

For details of other staff in the communications field (Information Department) between 1997 and 2002, I refer the hon. Member to the answer the then Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office, my hon. Friend the Member for Exeter (Mr. Bradshaw), gave to the hon. Member for the Isle of Wight (Mr. Turner) on 10 April 2002, *Official Report*, column 63W.

The salary costs of Information Directorate, including employee contributions for 2001–02 was £9.6 million of which the Press Office (News Department) was £1.1 million and Information Department was £2.3 million. For 2002–03 the figures are £4.6 million, £1.3 million and £2.2 million respectively. Figures for previous years are not readily available and obtaining them would incur disproportionate costs.

Emergency Planning

Mr. Clifton-Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what intra EU arrangements are in place for co-ordination between hospitals and emergency services in the event of a major civil emergency. [174684]

Mr. MacShane: A community mechanism to facilitate reinforced co-operation in civil protection assistance interventions was established by a council decision of 23 October 2001 (2001/792/EC, Euroatom). The community mechanism enables a stricken nation to request all forms of civil protection assistance it requires from participating States.

In the event of a major civil emergency the EU Commission would facilitate close co-ordination and co-operation between the stricken state and states participating in the community mechanism, through the monitoring and Information Centre (MIC) established by the council decision.

EU Constitution

Mr. Austin Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will list the changes made in the text of the proposed EU Constitution since it was published by Her Majesty's Government in Cm 5897; and whether the Government *(a)* was consulted on and *(b)* approves of each change; [174936]

(2) whether unanimity is required for changes to the draft Constitutional Treaty; [174947]

(3) which EU member states have *(a)* submitted formal amendments to the official draft of the proposed constitution of the European Union published in August 2003 and *(b)* have given notice that they are likely to do so; by what dates such amendments have to be tabled prior to the meeting of the European Council on 17 to 18th June 2004; and what arrangements he is making for their consideration by Parliament. [175107]

Mr. MacShane: The draft EU Constitutional Treaty proposed by the Convention on the Future of Europe has no legal status. The European Council decided in June last year that it was a good basis for starting negotiations in the Intergovernmental Conference. The Italian and subsequently Irish Presidencies of the EU have proposed changes to the EU Constititonal Treaty as drafted by the Convention, after consulting with all Member States. Their proposals (summarised in the most recent Irish papers CIG 70/04, 73/04, 75/04, 76/04 and 77/04) have been deposited in the Library of the House and are available from the Presidency website (www.eu2004.ie). They are the subject of discussion in the Intergovernmental Conference. The Government has taken part fully in these discussions. Nothing is finally agreed until everything is agreed. The EU Constitutional Treaty, like any new EU Treaty, can only be agreed by the common "accord of all Member States.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list in full the Government's red lines on the Treaty establishing a Constitution for Europe; and if he will make a statement. [174995]

Mr. Straw: The Government's policy towards the negotiations on the EU Constitutional Treaty remains as set out in the White Paper on the Intergovernmental Conference (Cm 5934), presented to Parliament on 9 September 2003.

Honduras

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the Government of Honduras' recent crackdown on the Mara Salvatrucha street gang. [175114]

Mr. Rammell: The Government of Honduras has acknowledged publicly that it has a serious problem with gang-related lawlessness. Our embassy in Guatemala, responsible for our relations with Honduras, and officials in London have been monitoring the measures taken by the Honduran Government to tackle this problem, including legislation prohibiting gang membership. Since the introduction of this new law, there has been a reported reduction in gang violence. But concern has been expressed by some NGOs and members of civil society that the new legislation, which resulted in mass arrests of gang members and those suspected of being gang members, infringed human rights. The Government of Honduras has responded to this criticism by undertaking to provide training and rehabilitation schemes for those either in prison or wishing to leave the gangs. We have made clear to the Government of Honduras, bilaterally and in the company of our EU partners, the importance we attach to respect for human rights. I raised human rights, particularly those in respect of children, with Honduran Security Minister Oscar Alvarez, during his recent visit to the UK.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received concerning the fire of 17 May at the prison in San Pedro Sula in Honduras; what assessment his Department has made of conditions at *(a)* that prison and *(b)* other prisons in Honduras; and if he will make a statement. [175115]

Mr. Rammell: The San Pedro Sula incident has been widely reported in the UK and local media. 104 prisoners, all gang members are reported to have died and only a few injured. Our embassy in Guatemala, responsible for our relations with Honduras, is watching developments closely and the DFID representative in Tegucigalpa attended a briefing on 18 May given by the Honduran Government.

Our non-resident ambassador, who was visiting Honduras at the time, has raised this incident with members of the Honduran Government.

The Government of Honduras has ordered an inquiry that will include investigating claims that: prison wardens refused to open cell doors; the fire services arrived late: and the fire was started by wardens.

We have made no specific assessment of the conditions at the San Pedro Sula Prison or that of other prisons in Honduras but we are aware of the problem of serious overcrowding. We continue to discuss human rights concerns with the Honduran authorities, particularly those relating to children.

Iraq

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the costs deducted from oil revenues by *(a)* the Coalition Provisional Authority, *(b)* Iraqi Government

institutions and *(c)* other parties before the oil receipts are deposited in the Development Fund for Iraq accounts; and if he will make a statement. [173910]

Mr. Straw: United Nations Security Council Resolution (UNSCR) 1483 of 22 May 2003 decided that all proceeds from the export sale of Iraq's oil should be deposited into the Development Fund for Iraq (DFI). The only exception to this is that 5 per cent. of proceeds from oil should be deposited into the United Nations Compensation Fund for Kuwait established in accordance with UNSCR 687 of 1991 and subsequent relevant resolutions. As outlined in UNSCR 1483, this latter requirement will be binding on an internationally recognised sovereign government of Iraq unless that government and the Governing Council of the United Nations Compensation Commission decide otherwise. Neither the Coalition Provisional Authority (CPA), Iraqi Government institutions, nor any other parties deduct costs from oil revenues. The CPA meets its own costs from coalition funding, and Iraqi Government Departments and agencies are funded through the Iraqi budget.

Hugh Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment his Department has made of the effectiveness of the UN Oil for Food programme in Iraq. [175409]

Mr. Rammell: Figures from the World Health Organisation (WHO), the UN Children's Fund (UNICEF) and the UN, confirm that the Oil for Food programme (OFF):

reduced the incidence of chronic malnutrition in children under five from 32 per cent. in 1996 to 25 per cent. in 2002 (WHO);

reduced the mortality rate of children under five in northern Iraq from 80 per 1,000 in 1989 (i.e. before UN sanctions were imposed) to 72 in 1999 (UNICEF);

increased the Iraqi ration (first introduced during the Iran-Iraq war) from 1,300 kCal to 2,215 kCal per day (UN); and

reduced the incidence of tuberculosis from 78.5 cases per 100,000 in 1989 (i.e. before UN sanctions were imposed) to 43.3 cases per 100,000 in 2001 (UN).

Hugh Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department has seen the list of names discovered by the Iraqi Governing Council in respect of the UN Oil for Food programme in Iraq. [175410]

Mr. Rammell: The Government have received copies of documents alleging corruption in the Oil for Food programme. These documents include a list of names. The documents have been passed to the appropriate investigative authority.

Hugh Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what action his Department has taken in respect of the Iraqi Governing Council's demand for an inquiry into the UN Oil for Food programme in Iraq. [175411]

Mr. Rammell: The UK supports both the UN and Iraqi inquiries into the allegations of corruption of the Oil for Food programme. The Secretary of State for International Development and Foreign and Commonwealth Office officials met Paul Volcker, head of the independent UN inquiry, on 6 and 7 May. Ernst and Young have won the contract to carry out the Iraqi investigation on behalf of the Iraqi Board of Supreme Audit. We will co-operate fully with both investigations.

Hugh Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs when his Department first received *(a)* representations on and *(b)* reports of concerns about the conduct of the UN Oil for Food programme in Iraq. [175412]

Mr. Rammell: Over the life of the Oil for Food programme, we and other UN member states became aware of attempts to breach the Iraq sanctions regime. The Government took action in response in a range of ways according to the circumstances. These included approaches to other Governments and the UN Secretariat, and action through the United Nations Security Council to counter attempted corruption.

Hugh Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the number of *(a)* countries and *(b)* individuals involved in alleged corrupt practices in the UN oil-for-food programme in Iraq. [175413]

Mr. Rammell: The Government have received copies of documents alleging corruption in the oil-for-food programme. These documents include a list of names. The documents have been passed to the appropriate investigative authority.

Middle East

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to discuss suspension of the EU/Israeli trade agreement with his partners in the EU. [175041]

Mr. MacShane: The Government do not believe that suspension of the EU/Israel Association Agreement would bring the parties any nearer to a peaceful resolution of their differences.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of Israel's compliance with the human rights clauses in the EU/Israeli trade agreement. [175043]

Mr. MacShane: Along with our EU partners, we have followed a policy of constructive engagement with Israel on humanitarian and human rights issues. We have raised our concerns on human rights violations both bilaterally, most recently with Prime Minister Sharon's advisers on 18 May, and through the institutions established by the EU/Israel Association Agreement. In this respect, at the last EU/Israel Association Council in November 2003, the EU called on Israel to abstain from any punitive measures that are not in accordance with international law.

Russian Nuclear Submarines

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has held with the Russian Government on the decommissioning of Russian nuclear submarines; and what estimate has been made of the number of such submarines. [175161]

Mr. Rammell: The Department of Trade and Industry (DTI) is responsible for the UK's programme of assistance to Russia for the dismantling of nuclear submarines. The Parliamentary Under Secretary of State at the DTI, my hon. Friend the Member for Edinburgh, South (Nigel Griffiths) visited Russia in February, this year to view the progress of the UK programme.

Currently, two Oscar-1 class submarines are being dismantled as part of this programme at a shipyard near Archangel and discussions are underway for further projects. The Russian Government has informed us that there are approximately 60 decommissioned nuclear submarines in North West Russia awaiting dismantling and a further 30 in the Russian Far East.

Co-operation in this area continues to feature in regular bilateral discussions between officials. Further detail on the UK's programme of support for the G8 Global Partnership against weapons and materials of mass destruction can be found in the Department for Trade and Industry's First Annual Report on the Former Soviet Union Nuclear Legacy Programme at http://www.dti.gov.uk/energy/nuclear/fsu/news/First_annual_report.pdf.

Sudan

Sir John Stanley: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the British Government voted in favour of Sudan becoming a member of the UN Human Rights Commission; and if he will make a statement. [174595]

Mr. Rammell *[holding answer 20 May 2004]*: Sudan's membership of the UN Commission on Human Rights was agreed by the African Group, who put them forward as part of an agreed regional nomination. There was, therefore, no vote on the matter. The Government believe members of the Commission on Human Rights should meet certain minimum standards of behaviour regarding the implementation of human rights in their own countries. We are working with others to identify ways to improve the quality of membership.

UN Civilian Police

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many UK citizens are serving as civilian police for the UN; what operations they are involved with; where they are stationed; and how many were serving in each of the last seven years. [175188]

Mr. Rammell: A total of 127 UK citizens (serving and retired police officers) are currently serving as civilian police in UN peacekeeping missions. Four are serving in UNMISET (East Timor), 113 in UNMIK (Kosovo) and 10 in UNAMSIL (Sierra Leone).

The following table sets out the average numbers of UK police officers who served in UN missions in each year from 2001–03. This information can also be accessed through the UN peacekeeping website: http://www.un.org/Depts/dpko/dpko/contributors/)

Figures before April 2001 are not held centrally and could be provided only at disproportionate costs.

	UN Transitional Administration in East Timor (1999-May 2002)	*UN Mission of Support in East Timor (established May 2002)*	*UN Interim Administration Mission in Kosovo (established 1999)*	*UN Mission in Sierra Leone (established 1999)*	*UN Mission in Bosnia and Herzegovina (1995–2002)*
2003	0	9 (range 0–10)	116 (range 79–1 33)	6 (range 5–10)	0
2002	7 (range 0–15)	7 (range 0–12)	158 (range 135–166)	0	60 (range 0–76)
2001 (Figures from April-December only)	14 (range 13–15)	0	142 (range 135–168)	0	77 (range 76–80)

Victor Bout

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has held with the *(a)* US authorities, *(b)* French authorities and *(c)* UN about Victor Bout. [174782]

Mr. Rammell: The Foreign and Commonwealth Office has, over many years, had many discussions with international partners including the US and France, bilaterally and in the United Nations about Victor Bout. The UK has supported international efforts to end Bout's illegal activities. For example, we co-sponsored Security Council Resolution 1521 (2003) on Liberia, which imposed a travel ban on him. UK Ministers have publicly welcomed action taken against his sanctions-busting activities.

PRIME MINISTER

Correspondence

Dr. Tonge: To ask the Prime Minister when he will reply to the letter of 19 April from the hon. Member for Richmond Park. [174391]

The Prime Minister: I have replied to the hon. Member today.

India

Mr. Jim Cunningham: To ask the Prime Minister if he will make a statement on the Indian Congress Party's electoral win. [174842]

The Prime Minister: I have spoken and written to the new Prime Minister of India, Manmohan Singh, to congratulate him on his appointment. We have strong relations with India and look forward to developing them further with the incoming Government.

Iraq

Glenda Jackson: To ask the Prime Minister pursuant to his answer of 12 May 2004, *Official Report*, column 385W, on Iraq, what inquiries are made by the Coalition Provisional Authority into methods employed by Coalition forces in gathering information important to the CPA's aim. [174327]

The Prime Minister: None. Under the Geneva Conventions, responsibility for the methods employed by Coalition forces in gathering information lies with the states supplying the military forces concerned.

Glenda Jackson: To ask the Prime Minister if he will instruct the British representative of the Coalition Provisional Authority to require the Coalition forces to conduct an inquiry into the attack upon Mukaradeeb in western Iraq in which it is reported 40 civilians were killed. [175777]

The Prime Minister: The attack referred to in Mukaradeeb involved US forces. We understand that the US authorities are undertaking a formal investigation.

Glenda Jackson: To ask the Prime Minister if he will institute a debate in Government time before 30 June, on the situation in Iraq. [175778]

The Prime Minister: I refer my hon. Friend to the answer my right hon. Friend the Leader of the House gave to the hon. Member for North-East Hertfordshire (Mr. Heald) at business questions on 13 May 2004, *Official Report*, column 473.

Secondments

Bob Spink: To ask the Prime Minister how many staff in his Office were seconded from the *(a)* private and *(b)* academic sector in each of the last three years. [174816]

The Prime Minister: There were no secondments to my Office from the private or academic sectors in 2001 and 2002. In 2003, one member of staff was seconded to my Office from the academic sector.

Tibet

Harry Cohen: To ask the Prime Minister if he will make a statement on discussions he had on Tibet with Chinese Premier Wen Jiabao and other Chinese official representatives during their recent visit to the UK. [174831]

The Prime Minister: I discussed a wide range of issues with Chinese Premier Wen Jiabao, including the issue of Tibet. The Government support another visit to China by representatives of the Dalai Lama and believe a peaceful resolution is best achieved through meaningful dialogue without pre-conditions.

CONSTITUTIONAL AFFAIRS

Child Maintenance Payments

Mr. Sheerman: To ask the Parliamentary Secretary, Department for Constitutional Affairs how much child maintenance has not been paid in each of the last 10 years; and how much of this is due to one of the parents moving *(a)* abroad and *(b)* to another EU member state. [166729]

Mr. Pond: I have been asked to reply. The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to my hon. Friend with the information requested.

Letter from Doug Smith to Mr. Barry Sheerman, dated 24 May 2004:

In replying to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions how much child maintenance has not been paid in each of the last 10 years; and how much of this is due to one of the parents moving *(a)* abroad and *(b)* to another EU member state.

As at 31 March 2003 the reported cumulative debt figure on full maintenance assessments was £664 million (page 86 para 6.1 of the Child Support Agency Annual Report and Accounts 2002/03.) I have no information to determine how much of this is due to parents residing either abroad or in the EU.

Fine Enforcement

John McDonnell: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many persons were fined by magistrates courts in England and Wales in each of the last three financial years; and what percentage of the fines were collected in each year. [173119]

Mr. Leslie: Information on the number of offenders is not available from magistrates courts systems. The latest Home Office statistics available, for the 2002 calendar year, showed that 970,400 offenders were fined by magistrates courts.

A national payment rate of 76 per cent. was achieved in the last quarter of 2003–04. The full year outturn stood at 74 per cent. The payment rate in 2001–02 was 59 per cent. and 55 per cent. in 2002–03. These figures are not comparable with the 2003–04 data due to collection and calculation changes. In 2003–04 the payment rate was revised so that it focused clearly on fines and excluded confiscation orders, civil and family moneys and cancelled fines.

Public Bodies

Mr. Tyler: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many staff are employed by *(a)* the Public Guardianship Office, *(b)* the Civil Justice Council, *(c)* the Strategic Investment Board, *(d)* the Information Tribunal, *(e)* the Advisory Group on Implementation of the Freedom of Information Act, *(f)* the Advisory Group on the Delivery of Enforcement Services, *(g)* the Review of Procedures Consequent on the Decision to Transfer or Commit Fraud Trials and *(h)* the Office of the Public Trustee; and what their annual budgets are in 2004–05. [174665]

Mr. Lammy: The information requested is set out in the following table.

		Number of staff employed	*Annual budgets in 2004–05 (£ million)*
(a)	Public Guardianship Office	291	5.081
(b)	The Civil Justice Council	4	0.214
(c)	The Strategic Investment Board	0	0.13
(d)	The Information Tribunal	0	0.6
(e)	The Advisory Group on Implementation of the Freedom of Information Act	—	—
(f)	The Advisory Group on the Delivery of Enforcement Services	—	—
(g)	The Review of Procedures Consequent on the Decision to Transfer or Commit Fraud Trials	—	—
(h)	The Office of the Public Trustee	58	1.7
	Total	353	7.725

The Strategic Investment Board does not employ staff as such. It has a Chairman and five Appointed Members (one vacancy at present) who are all non-executive, but in receipt of fees. Both the Information Tribunal and the Advisory Group on Implementation of the Freedom of Information Act do not directly employ any staff. The Advisory Group on the Delivery of Enforcement Services was formally dissolved during the last financial year. The Review of Procedures Consequent on the Decision to Transfer or Commit Fraud Trials ceased to exist about eight years ago.

Unified Court Boundaries

John McDonnell: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the unified court boundaries to be introduced next year will be coterminous with *(a)* probation and *(b)* prison service boundaries. [173126]

Mr. Leslie: The unified courts agency will be established in April 2005 and will have 42 local management areas. These areas will directly align with the local boundaries of the National Probation Service. Her Majesty's Prison Service has a 12-region structure that is coterminous with the boundaries of the 42 management areas.

The local management areas of the unified courts agency will be contained within seven regions. The boundaries of these regions are coterminous with the regional Prison Service boundaries with the exception of Cheshire and Hampshire and the Isle of Wight, which for the way court business is currently organised, will link with Wales and the South West respectively. The Government will review this position in 2006–07.

The Government announced in January 2004 the creation of the National Offender Management Service (NOMS), which will oversee the management of probation and public sector prisons. The proposed structure of the NOMS is still being considered.

HEALTH

Ambulance Services

Dr. Murrison: To ask the Secretary of State for Health whether there is a national standard for clinical performance in ambulance services. [174098]

Ms Rosie Winterton: Ambulance services have been set response time targets by the Government that include the target that, immediately life-threatening emergency calls (Category A) should be responded to 75 per cent. of the time within eight minutes, irrespective of location.

The national service framework (NSF) for coronary heart disease emphasises the importance of ambulance services providing advanced life support to patients with suspected heart attack or cardiac arrest, within eight minutes, to maximise the benefits of resuscitation should it be necessary.

The latest information about ambulance performance is contained in the Department of Health Statistical Bulletin, "Ambulance Services, England 2002–03". A copy of the bulletin is available in the Library and on the Department's website at www.publications.doh.gov.uk/public/sb0313.htm.

Asthma

Mr. Hoyle: To ask the Secretary of State for Health how many people in *(a)* Lancashire and *(b)* Chorley suffer from asthma. [173763]

Miss Melanie Johnson: The information is not available in the format requested.

In 2002–03, there were 1,549 finished admission episodes with a primary diagnosis of asthma for Lancashire area, of which 286 were for the area covered by Chorley and South Ribble Primary Care Trust.

Notes:
1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the Hospital Episode Statistics data set and provides the main reason why the patient was in hospital.
3. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed)

Source:
Hospital Episode Statistics, Department of Health.

Asylum Seekers

Dr. Murrison: To ask the Secretary of State for Health (1) whether a failed asylum seeker is entitled to free NHS prophylactic bronchodilators from a general practitioner; [171044]

(2) how a doctor who has treated a failed asylum seeker may demonstrate to a funding primary care trust that the person's treatment was immediately necessary; [171046]

(3) which ailments will entitle failed asylum seekers requiring NHS treatment to free treatment in *(a)* primary care and *(b)* secondary care. [171047]

Mr. Hutton: Each primary care trust (PCT) has a duty to meet all reasonable requirements to provide or secure national health service primary medical services in its area. For their part, general practitioner practices have discretion to accept a failed asylum seeker as a registered NHS patient. However, since the NHS is intended for those living lawfully in the United Kingdom, existing guidance discourages GP practices from accepting failed asylum seekers as patients.

On 14 May, I issued a consultation document setting out proposals to clarify eligibility and introduce charges for those overseas visitors, including failed asylum seekers, who would then be ineligible for free routine NHS primary medical treatment.

Under these proposals, practices would continue to be required to provide treatment, including potentially for asthma, which they regard as emergency or immediately necessary to anyone who needs it. Where a practice provides such treatment to an individual not registered at the practice, it notifies the PCT in writing of the clinical care given.

In secondary care, if an asylum seeker has been in the UK for more than 12 months when their asylum claim is finally rejected, any course of treatment already under way at the time of the final rejection remains free of charge. Furthermore, certain secondary care services are exempt from charges for everyone, irrespective of their immigration status. This includes treatment provided solely in an accident and emergency department, treatment of certain specified communicable diseases and compulsory mental health treatment. In the case of services which relate to HIV/AIDS only the initial test and counselling is free. Influenza immunisations are given to those who are in at risk categories. These categories include anyone over six months with respiratory disease (including asthma), chronic heart disease, renal disease, diabetes and immunosuppressant or staying or living in long stay facilities, or who at the GP's discretion needs to have a flu jab on the basis of clinical need.

Blood Transfusion Service (Edgware Hospital)

Mr. Dismore: To ask the Secretary of State for Health if he will make a statement on progress concerning the relocation of the blood transfusion service at Edgware hospital. [173528]

Mr. Hutton: I understand arrangements are in place between Barnet Primary Care Trust and the National Blood Service to relocate the blood transfusion clinic on the Edgware Site in June 2004.

Breastfeeding

Ms Drown: To ask the Secretary of State for Health if he will commission an economic analysis of the benefits of breastfeeding to *(a)* the NHS and *(b)* the UK economy. [173946]

Miss Melanie Johnson: The Department remains fully committed to promoting breastfeeding but has no current plans to commission an economic analysis its benefits.

Ms Drown: To ask the Secretary of State for Health if he will make recommendations in support of World Health Organisation findings that infants should continue to be breastfed up to two years of age and beyond. [173947]

Miss Melanie Johnson: The Government support the World Health Organisation's global recommendation that infants should continue to breastfed up to two years of age. The Department recommends exclusive breastfeeding for the first six months of life, then continuing breastfeeding with appropriate types and amounts of weaning foods until the end of the first year of life or longer.

Cardiac Deaths

Mrs. Iris Robinson: To ask the Secretary of State for Health how many sudden cardiac deaths there were in each of the last five years, broken down by age range; and if he will make a statement. [175164]

Ruth Kelly: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mrs. Iris Robinson, dated 24 May 2004:

The National Statistician has been asked to reply to your recent question asking how many sudden cardiac deaths there were in each of the last five years broken down by age range. I am replying in his absence. (175164)

It is not possible to give an exact number of cardiac deaths which occurred suddenly, as information on whether or not a death was sudden is not currently recorded at death registration. We have therefore provided figures for all heart diseases, sudden cardiac death (so described), acute ischaemic heart disease and cardiac arrhythmias.

The latest year for which data are available is 2002. Figures are shown in the attached table for each year from 1998 to 2002.

Number of deaths from (a) all heart diseases, (b) sudden cardiac death, so described, (c) acute ischaemic heart disease and (d) cardiac arrhythmias[1], by age England and Wales, 1998 to 2002[2]

Cause of death	Age 0–14	15–44	45–64	65–84	85+
(a) All heart diseases					
1998	101	1,775	17,332	86,487	41,719
1999	104	1,748	16,470	82,090	41,169
2000	89	1,702	15,756	76,195	39,822
2001[3]	96	1,680	14,952	73,047	40,906
2002[3]	81	1,712	14,355	70,775	41,194
(b) Sudden cardiac death, so described					
1998	[4]	[4]	[4]	[4]	[4]
1999	[4]	[4]	[4]	[4]	[4]
2000	[4]	[4]	[4]	[4]	[4]
2001[3]	0	6	4	1	1
2002[3]	0	4	1	5	0
(c) Acute ischaemic heart disease					
1998	4	621	8,017	38,395	13,597
1999	3	579	7,435	34,899	12,917
2000	1	555	6,694	31,470	12,292
2001[3]	4	552	6,184	28,879	11,306
2002[3]	1	553	5,928	27,875	11,453
(d) Cardiac arrhythmias					
1998	13	46	90	1,526	1,405
1999	6	49	110	1,528	1,546
2000	5	50	133	1,409	1,554
2001[3]	10	50	84	1,348	1,625
2002[3]	5	40	75	1,365	1,764

[1] The cause of death was defined using the ICD-9 for the years 1998 to 2000, and ICD-10 for 2001 and 2002. The codes used are listed below:

All heart diseases ICD-10 120–151, ICD-9 410–429

Sudden cardiac death, so described ICD-10 I46.1, ICD-9 no equivalent code

Acute ischaemic heart disease ICD-10 I21, I24, ICD-9 410–411

Cardiac arrhythmias ICD-10 I44–I49, ICD-9 426–427.

[2] Figures are based on deaths occurring in each calendar year.

[3] The introduction of ICD-10 for coding cause of death in 2001 means that data for heart diseases are not completely comparable between ICD-9 and ICD-10. In particular there is no equivalent code for I46.1—Sudden cardiac death (so described). Any sudden changes in the above figures in 2001 should therefore be interpreted with caution. An article describing the changes to circulatory diseases in more detail is due to be published in Health Statistics Quarterly on May 27. (Griffiths C, Brock A and Rooney C (2004) The effect of the introduction of ICD-10 on mortality from circulatory diseases in England and Wales. Health Statistics Quarterly 22, in press.

[4] Figures only available from 2001, after the introduction of the International Classification of Diseases, Tenth Revision (ICD-10) for coding cause of death.

Community Care (Ribble Valley)

Mr. Evans: To ask the Secretary of State for Health how many people have received care packages to enable them to stay in their homes in the Ribble Valley in each of the last five years. [173471]

Dr. Ladyman: The table shows the number of clients aged 18 and over who received community based services following a community care assessment in Lancashire councils with social services responsibilities for the years 2000–01 to 2002–03. Data for previous years are not available.

Information on the number of clients who received community based services in the Ribble Valley is not centrally available.

Number of clients receiving community based services[1] in Lancashire, 2000–01 to 2002–03

	Lancashire
2000–01[2]	35,100
2001–02	28,200
2002–03	29,400

[1] Community based services include services such as day care, meals, respite care, direct payments, professional support, transport and equipment as well as home care.

[2] Care should be taken when comparing data across the years, as levels of completion and quality may have changed.

Source:
RAP form P1.

Advisers/Consultants

Mr. Lansley: To ask the Secretary of State for Health how many consultants had signed the new consultant contract by the end of April. [173842]

Mr. Hutton: Data collected on the take up of the consultant contract as at 30 April 2004 shows that nearly two thirds of those consultants who had expressed an interest before 31 October 2003 in moving onto the new contract had either moved onto the new contract or received a final job plan offer.

Bob Spink: To ask the Secretary of State for Health how much his Department and its agencies and non-departmental public bodies spent on external consultants and advisers in each of the last three years; [171713]

Ms Rosie Winterton: The expenditure by the Department and its agencies and non-departmental public bodies is shown in the table.

All those units that could provide details without incurring disproportionate costs have been included.

	Total (£)
2001–02	9,078,407
2002–03	10,508,410
2002–04	13,153,386

Dentistry

Miss McIntosh: To ask the Secretary of State for Health what percentage of *(a)* adults and *(b)* children in the United Kingdom were registered with a NHS dentist at the end of February. [173030]

Ms Rosie Winterton: At the end of February 2004, 44.3 per cent. of adults and 60.7 per cent. of children in the United Kingdom were registered with a general dental service (GDS) dentist.

However, patients do not necessarily have to be registered with a dentist to receive national health service treatment. The community dental service, personal dental service, the salaried service of the GDS and the hospital dental service are all services which do not require the patient to be registered with a dentist before treatment.

Miss McIntosh: To ask the Secretary of State for Health how many dentists per 10,000 population there are in England. [173032]

Ms Rosie Winterton: There are 4.7 dentists per 10,000 of the population in England.

Mr. Quentin Davies: To ask the Secretary of State for Health how many dentists in England are accepting new adult patients to be treated on the NHS; and what the equivalent number was 10 years ago. [173821]

Ms Rosie Winterton: On 17 May, 2,716 surgeries in England were registering new charge paying adults to be treated on the national health service; 3,049 surgeries were registering new charge exempt adults to be treated on the NHS and 1,583 surgeries were offering occasional treatment to non-registered patients. Personal dental services pilots, including dental access centres, provide NHS dental care to patients without registration.

Comparable information is not available for 10 years ago.

Mr. Quentin Davies: To ask the Secretary of State for Health how many NHS dentists are practising in *(a)* Lincolnshire and *(b)* England. [173822]

Ms Rosie Winterton: The number of national health service dentists practising in both Lincolnshire and England as a whole as at 30 September 2003 is shown in the table.

	England	*Lincolnshire*
General dental service (GDS)	18,536	243
Personal dental services	802	13
Community dental services	1,518	10
Hospital dental services	2,245	36
Salaried service of GDS	128	1
Total	23,229	303

Mr. Quentin Davies: To ask the Secretary of State for Health how many registered dentists in Lincolnshire are accepting new adult patients to be treated on the NHS. [173823]

Dr. Ladyman: There are four primary care trusts (PCTs) in the Lincolnshire area: North East Lincolnshire PCT, West Lincolnshire PCT, Lincolnshire South-West Teaching PCT and North Lincolnshire PCT.

Information on the number of dental surgeries accepting new national health service patients in these PCT areas, as at 17 May 2004, is shown in the table.

Dental surgeries in Lincolnshire accepting new NHS patients by type of patient

PCT	*Charge paying adults*	*Charge exempt adults*	*Occasional non-registered patients*
North East Lincolnshire	—	—	1
West Lincolnshire	1	—	—
Lincolnshire South West Teaching	1	2	—
North Lincolnshire	1	—	—

Source:
www.nhs.uk.

Tim Loughton: To ask the Secretary of State for Health what the average number of patients on an NHS dental surgery list was in each of the last five years. [170632]

Ms Rosie Winterton: The information in the table shows the number of registered patients, number of general dental service (GDS) principals and the average dentist list size at September each year between 1999 to 2003.

Registrations cover patients seen in the last 15 months who are registered with the dentist. Many people choose not to register with a GDS dentist and only visit the dentist when they require treatment.

GDS: Average dentist list size at September each year in England

	Number of patients registered per million	*Number of GDS principals*	*Average list size*
1999	23.47	16,089	1,459
2000	23.66	16,276	1,454
2001	23.58	16,451	1,433
2002	23.47	16,445	1,427
2003	23.32	16,648	1,401

Tim Loughton: To ask the Secretary of State for Health how many times on average an NHS dental patient visited an NHS dentist in each of the last five years. [170633]

Ms Rosie Winterton: The information is not collected in the requested format.

The total number of courses of treatment for adults in the general dental service has risen from 25.9 million in 1999–2000 to 26.6 million in 2003–04.

£ million

Period	*Adult courses of treatment in GDS—England*
1996–97	24.6
1997–98	25.3
1998–99	26.2
1999–2000	25.9
2000–01	26.4
2001–02	26.3
2002–03	26.3
2003–04	26.6

Tim Loughton: To ask the Secretary of State for Health how many people joined private practice dental surgeries in 2003–04 in *(a)* Worthing and *(b)* England. [170631]

Ms Rosie Winterton: Information on the number of people joining private dental surgeries is not collected centrally. The Office of Fair Trading report, "The Private Dentistry Market in the UK", published in 2003, stated that some 210 practices are totally private in the United Kingdom out of 11,000 practices in total. This equates to less than two per cent..

Dermatology

Mrs. Gillan: To ask the Secretary of State for Health what action he is taking to encourage more practice nurses to undertake dermatology training. [173926]

Mr. Hutton: This is a matter for the national health service locally. Post registration training for NHS staff is determined against local NHS priorities, through appraisal processes and training needs analyses. Training needs analyses are informed by local delivery plans and the needs of the service.

The Department published an "Action on Dermatology" good practice guide in January 2003, drawing on the experiences of 15 Action on Dermatology pilot sites. The guide suggested the development of a structure of specialist clinics, as well as a comprehensive nurse-led service.

Dr. Gibson: To ask the Secretary of State for Health what the impact on waiting times for secondary dermatology care is of treating actinic keratosis in secondary rather than primary care. [174126]

Mr. Hutton: The information requested is not collected centrally. No assessments have been made of the impact of waiting times based on the setting where a treatment is provided.

Doctor Vacancies

Sarah Teather: To ask the Secretary of State for Health how many doctor vacancies there were in *(a)* North West London Hospitals NHS Trust, *(b)* Brent Primary Care Trust and *(c)* each strategic health authority in England in each year since 1997; and what the average figures for strategic health authorities in (i) London and (ii) England were in each year. [172818]

Mr. Hutton: The Department's doctor vacancy survey started in 1999. It collects all hospital and community health service three-month vacancies, excluding the house officer, senior house officer and registrar staff groups.

The Department's annual general practitioner (GP) recruitment and retention vacancy survey started in 2000. This is a count of all GP vacancies that have occurred during each year. It will include existing posts that doctors have left and also new posts created to increase the workforce, even where they were filled very quickly.

The average doctor three-month vacancy rate and number for strategic health authorities (SHAs) in London and England since 1999 has been placed in the Library. Data are provided from 2000 for North West London Hospitals National Health Service Trust. Data are not collected for the Brent Primary Care Trust (PCT) area.

The number of GP vacancies in Brent PCT for the year April 2002 to March 2003, the first year data was collected at PCT level, was 16. The number of GP vacancies for each SHA since 2000 has been placed in the Library.

Drug Treatment (Manchester)

Tony Lloyd: To ask the Secretary of State for Health how many people in Manchester, Central are receiving drug treatment. [174365]

Miss Melanie Johnson: In 2000–01, there were 3,652 people receiving drug treatment in Manchester. This is the latest available data. Data broken down by drug action team for 2001–02 and 2002–03 has not yet been finalised and published.

Eating Disorders

Brian Cotter: To ask the Secretary of State for Health how many people are on a waiting list to receive treatment at each of the specialist eating disorders units; and what the average waiting time to receive treatment is. [172472]

Ms Rosie Winterton: Information is not available in the requested format.

The finished admission episodes, mean and median time waited in days for treatment for eating disorders on the national health service are shown in the table.

Primary diagnosis (ICD-10 F50) eating disorders. Method of admission—elective (waiting list and booked) cases. Count of finished admission episodes, mean and median time waited—NHS hospitals, England 2002–03

	Number
Mean time waited	38 days
Median time waited	8 days
Count of finished admission episodes	226

Notes:
1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the hospital episodes statistics (HES) data set and provides the main reason why the patient was in hospital.
3. Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).
4. Time waited statistics from HES are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.

Source:
HES, Department of Health.

Brian Cotter: To ask the Secretary of State for Health how many people in the UK have been admitted as inpatients for the treatment of eating disorders in each of the last five years; and how many of these in-patients were admitted to general psychiatric wards. [172473]

Ms Rosie Winterton: Information is not available in the requested format.

The number of finished admission episodes in national health service hospitals with a primary diagnosis of eating disorder in each of the last five years is shown in the table.

Finished admission episodes, NHS hospitals in England, 1998–99 to 2002–03

	Anorexia nervosa	*Bulimia nervosa*
1998–99	1,022	170
1999–2000	1,148	137
2000–01	1,061	136
2001–02	1,139	137
2002–03	1,156	123

Notes:

1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. These figures do not represent all people with an eating disorder, as many do not require admission to hospital.
3. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the hospital episode statistics (HES) data set and provides the main reason why the patient was in hospital.
4. Diagnostic criteria for Anorexia nervosa is based on ICD-10 (F50.0 and F50.1); Bulimia nervosa is based on ICD-10 (F50.2 and F50.3).
5. Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).

Source:

HES, Department of Health.

Brian Cotter: To ask the Secretary of State for Health how many people have been diagnosed as suffering from *(a)* Anorexia nervosa and *(b)* Bulimia nervosa, in each of the last five years. [172475]

Ms Rosie Winterton: Information is not available in the requested format.

The number of finished consultant episodes in national health service hospitals with a primary diagnosis of eating disorder in each of the last five years is shown in the table.

Finished consultant episodes, NHS hospitals in England, 1998–99 to 2002–03

	Anorexia nervosa	*Bulimia nervosa*
1998–99	1,157	189
1999–2000	1,264	157
2000–01	1,193	151
2001–02	1,273	160
2002–03	1,315	131

Notes:

1. Finished consultant episodes—a count of the number of hospital episode statistics (HES) records submitted on behalf of English national health service hospital providers that relate to episodes of in-patient care which ended during the HES year. These figures do not represent the number of patients, as a person may have more than one episode of care within the year.
2. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the HES data set and provides the main reason why the patient was in hospital.
3. Diagnostic criteria for Anorexia nervosa is based on ICD-10 (F50.0 and F50.1); Bulimia nervosa is based on ICD-10 (F50.2 and F50.3).
4. Figures have not been adjusted for shortfalls in data (ie the data are ungrossed).

HES, Department of Health.

Emergency Planning

Mr. Clifton-Brown: To ask the Secretary of State for Health how closely co-ordinated health authorities are with those bodies that would provide airlift relief in the event of a serious emergency. [174682]

Mr. Hutton: In addition to its own helicopter air ambulances, the National Health Service has long-standing arrangements to seek additional support, if required, from the armed forces. Further support is available, as and when required, through arrangements made at the local level.

Mr. Clifton-Brown: To ask the Secretary of State for Health how well advanced Government plans are for the co-ordination of NHS casualty units and co-ordination between hospitals in the event of a serious emergency. [174683]

Mr. Hutton: National health service organisations have well developed major incident plans, including mutual aid, and national guidance to NHS organisations requires that all major incident plans be reviewed and tested on a regular basis. The NHS has been conducting major incident training exercises for many years, often in conjunction with local emergency partners.

Initially, the ambulance service will co-ordinate the NHS response; deploy vehicles to the scene; and put hospitals on stand-by to take casualties. If the incident continues, local health services will take on further co-ordination of the response.

The NHS is an integral part of the integrated approach across government to protect the public and maintain essential services.

Departmental Staff

Mr. Lansley: To ask the Secretary of State for Health how many of his Department's staff work in each of the English Government Office regions. [173839]

Ms Rosie Winterton: The information requested can be found in Table D (page 40–41) in the publication, "Civil Service Statistics 2002". This is the latest published information available. Copies are available in the Library and also at www.civil-service.gov.uk/statistics/css.

Epsom and St. Helier Trust

Chris Grayling: To ask the Secretary of State for Health what study has been carried out by the East Elmbridge and Mid-Surrey Primary Care Trust on the viability of demerging the Epsom and St. Helier Trust. [173233]

Mr. Hutton: The South West London and Surrey and Sussex Strategic Health Authorities advise me that there are currently no plans to demerge Epsom and St. Helier University Hospitals National Health Service Trust.

Chris Grayling: To ask the Secretary of State for Health if he will make a statement on the representation by East Elmbridge and Mid-Surrey Primary Care Trust to the Chief Executive of the South West London

Strategic Health Authority during the recent arbitration hearing about the possibility of demerging the Epsom and St. Helier NHS Trust. [173234]

Mr. Hutton: No plans exist within Epsom and St. Helier National Health Service Trust or South West London Strategic Health Authority for the demerger of Epsom and St. Helier. East Elmbridge and Mid-Surrey Primary Care Trust raised the matter during an arbitration hearing, but it has not been explored further.

Chris Grayling: To ask the Secretary of State for Health what changes would be required to maintain accident and emergency services at Epsom hospital following a demerger of the Epsom and St. Helier NHS Trust. [173230]

Mr. Hutton: This is a matter for the local national health service. Epsom and St. Helier NHS Trust has not undertaken any detailed studies on the effect of demerger of Epsom and St. Helier hospitals.

Chris Grayling: To ask the Secretary of State for Health what capital charges are payable on the Epsom hospital site. [173231]

Mr. Hutton: The total capital charges for Epsom Hospital for 2003–04 were £3.295 million.

Foundation Hospitals

Dr. Murrison: To ask the Secretary of State for Health how many places on the boards of governors of the first wave of foundation hospitals which *(a)* are vacant and *(b)* were filled unopposed. [168067]

Mr. Hutton: This is a matter for the office of the independent regulator of National Health Service foundation trusts. The chairman will write to the hon. Member and a copy of his reply will be placed in the Library.

GP Contracts

Mrs. Gillan: To ask the Secretary of State for Health what plans he has to introduce quality measures for dermatology into the general practitioner contract. [173924]

Mr. Hutton: Changes to the quality and outcomes framework (QOF) of the new general medical services contract will be negotiated between the NHS Confederation and the British Medical Association, following recommendations from an independent, United Kingdom-wide review group. The independent review group will decide which disease areas to consider for addition to the QOF.

Health Services (Derby, North)

Mr. Laxton: To ask the Secretary of State for Health how many and what percentage of patients with suspected cancer in Derby, North saw an NHS consultant within two weeks in each year between 1997 and 2003. [173740]

Dr. Ladyman: The information requested is not available in the format requested. However, information from 1999 onwards for the organisations that service the Derby, North constituency is shown in the table.

All Cancer waiting times, Southern Derbyshire Acute Hospitals NHS Trust Urgent referrals received within 24 hours

	Total referrals seen during the year	*Number of patients seen during the year by a specialist within 14 days of the decision to refer by their general practitioner*	*Number of patients seen during the year by a specialist after 14 days of the decision to refer by their general practitioner*	*Percentage compliance with the two week standard*
1999–2000	470	461	9	98.1
2000–01	1,336	1,306	30	97.8
2001–02	4,185	4,019	166	96.0
2002–03	5,300	5,212	88	98.3
2003–04[1]	4,338	4,300	38	99.1

Note:
[1] Only three quarters data is available for 2003–04. Date for quarter ended March 2004 will be published on 4 June 2004.

Department of Health form QMCW

Health Services (Nottinghamshire)

Mr. Meale: To ask the Secretary of State for Health how many NHS *(a)* nurses, *(b)* midwives and *(c)* health visitors were working within Nottinghamshire health authority areas in each year since 1997. [173525]

Dr. Ladyman: The information requested has been placed in the Library.

Mr. Meale: To ask the Secretary of State for Health how many prescriptions were issued to NHS patients within Nottinghamshire health authority areas in each year since 1997. [173552]

Dr. Ladyman: The information requested is not available in the format requested. However, information for the years that are available is shown in the following table.

Number of prescription items prescribed in general practitioner practices in Trent Strategic Health Authority (SHA) at primary care trust (PCT) level and total number of prescription items prescribed in general practitioner (GP) practices in England that were dispensed in the community—for 2001–02, 2002–03 and 2003–04

PCT/SHA where prescriptions prescribed PCTs	*Financial Years*		
	2001–02	*2002–03*	*2003–04*
Mansfield District	1,250,648	1,319,701	1,380,595
Newark and Sherwood	1,528,463	1,601,288	1,676,492
Gedling	1,038,381	1,087,665	1,132,335
Nottingham City	3,282,767	3,433,254	3,623,316
Bassetlaw	1,405,639	1,492,650	1,547,934
Broxtowe and Hucknall	1,505,645	1,603,861	1,645,517
Ashfield	1,086,997	1,145,424	1,194,587
Rushcliffe	1,253,255	1,314,968	1,383,004

Notes:
1. This information was obtained from the prescribing analysis and cost (PACT) system, which covers prescriptions prescribed by GP practices in England and dispensed in the community. Prescriptions written within a GP practice but dispensed outside the PCT will be included in the PCT in which the GP practice is based. Prescriptions written in England but dispensed outside England are included. Prescriptions written in hospitals/clinics that are dispensed in the community, prescriptions dispensed in hospitals and private prescriptions are not included in PACT data.
2. Prescriptions are written on a prescription form. Each single item written on the form is counted as a prescription item.
3. With effect from October 2002, the prescription pricing analysis (PPA) information systems were changed to reflect Shifting the Balance of Power. Shifting the Balance of Power saw the creation

of SHAs and PCTs, which shifted the balance of power within the national health services away from Whitehall and towards front line clinical staff and their patients. Due to Shifting the Balance of Power, from the October 2002 release of ePACT.net, PCT data reflects the organisational structures in place on 1 October 2002. This was true for all 36 months historic data on ePACT.net, so data on ePACT.net prior to October 2002 was also amended retrospectively so that it was in line with Shifting the Balance of Power.

Health Services (Wigan)

Mr. Neil Turner: To ask the Secretary of State for Health how many NHS beds were available in Wigan in each year since 1997; and if he will make a statement. [169350]

Miss Melanie Johnson: The information requested is shown in the table.

Wigan and Leigh Health Services NHS Trust 1996–97 to 2000–01

Average daily number of available beds, by sector

Year	All specialties (excluding day only)	General and Acute	Acute	Geriatric	Mental illness	Learning disability	Maternity	Day only

Source:
Department of Health form KHO3

Heroin

Tom Cox: To ask the Secretary of State for Health what the latest figures are for heroin addiction within the Greater London area. [174485]

Mr. Hutton: This information is not collected centrally.

ICT Training

Mr. Simon: To ask the Secretary of State for Health what his targets are for improving the information and communication technology (ICT) skills base of staff within *(a)* his Department and *(b)* its agencies; and what method he uses to certify the competence levels achieved by staff receiving training in ICT. [173719]

Ms Rosie Winterton: Neither the Department nor its executive agencies have targets for improving the information and communication technology (ICT) skills base of staff.

Staff are encouraged to improve their ICT skills and every major corporate application implementation or upgrade of desktop software packages is accompanied by training opportunities. The Department offers a range of training options: classroom training, at-desk training, computer based training, short seminars and

workshops. Staff are also able to undertake the European computer driving licence, leading to formally recognised qualifications in ICT.

The Department and its agencies are very heavily reliant on ICT for the conduct of their business and, while there is no formal, corporate process for validating staff competence in ICT, staff are assessed, as part of the performance appraisal process, on their ability to undertake their roles effectively. This may include ICT related tasks.

Dr. Murrison: To ask the Secretary of State for Health what funds will be made available to *(a)* strategic health authorities and *(b)* primary care trusts to cover the costs of (i) training clinical staff to use new IT systems as part of the National Programme for IT rollout and (ii) covering for clinical staff while they are training. [174104]

Mr. Hutton: Training plans to support the national programme for information technology in the national health service in England (NPfIT) are still evolving, as is to be expected when approaching a phased programme of implementation and roll out of new applications, systems and services.

General IT skills are now an everyday element for any public service and service based organisation, including the NHS, and provision for this will form part of the normal continuing professional and personal development for all NHS staff within existing budgets and training plans. The European computer driving licence is helping to improve general skills across the NHS. The move to e-learning and development and the NHS university will both create more demand for computer and online skills and provide more channels and solutions to bring training to people.

As we complete the more detailed plans for each geographical cluster and local service provider contract we will map out the extent of IT support for clinical practice and patient care to support the implementation of the NPfIT. This will generate clearer training requirements and will enable us to consider the most appropriate ways of providing training and development and produce firmer costs. The bids submitted by the service suppliers for the NPfIT include an element for supporting the delivery of training within the NHS.

Infleximab/Remicade

Mr. Cameron: To ask the Secretary of State for Health (1) what steps he is proposing to take to ensure that Infleximab/Remicade is made available on the NHS for all patients requiring this treatment; [174141]

(2) what steps he is taking to ensure that *(a)* Cherwell Vale Primary Care Trust and *(b)* other primary care trusts are operating in line with the National Institute for Clinical Excellence guidelines on the prescription by consultant rheumatologists of Infleximab/Remicade. [174142]

Ms Rosie Winterton: National health service bodies are under a statutory obligation to fund treatments recommended in National Institute for Clinical Excellence (NICE) technology appraisals. We expect primary care trusts to meet their statutory obligations and strategic health authorities to follow up any allegations of non-compliance.

However, clinicians may depart from the NICE guidance if, in their view, the circumstances of the individual patient justify doing so. But they will be held accountable, through clinical governance arrangements, for their clinical decisions.

Maternity Services

Mrs. Iris Robinson: To ask the Secretary of State for Health how many full-time midwives are employed in the NHS; and how many were employed *(a)* five years ago and *(b)* 10 years ago. [173581]

Mr. Hutton: The information requested is shown in the following table.

NHS hospital and community health services: registered midwives by nature of contract in England as at 30 September each year

Headcount

	Total	*Full-time*	*Part-time*	*Blank/ Unknown*
2003	23,941	10,462	11,796	1,683
1998	22,841	11,638	9,511	1,692
1993	23,353	12,205	7,185	3,963

Notes:
1. A new classification of the non-medical workforce was introduced in 1995.
2. Information based on this classification is not directly comparable with earlier years.

Source:
Department of Health Non-Medical Workforce Census.

Mrs. Iris Robinson: To ask the Secretary of State for Health what assessment he has made of the merits of permitting people to commence midwifery training without having to undergo prior training as a nurse. [173738]

Mr. Hutton: Entry requirements, content or structure of pre-registration nursing and midwifery training programmes are matters which are the responsibility of the Nursing and Midwifery Council as the regulatory body for these professions. The arrangements for direct entry midwifery training leading to professional qualifications and the right to practice have proved successful over the last decade and have the support of the professional bodies and higher education institutions.

NHS Direct

Mr. Lansley: To ask the Secretary of State for Health how many calls were made to NHS Direct in 2003–04. [173844]

Ms Rosie Winterton: Between 1 April 2003 and 31 March 2004, NHS Direct answered 6,427,321 calls.

Mr. Lansley: To ask the Secretary of State for Health what the cost of NHS Direct was in 2003–04. [173845]

Ms Rosie Winterton: The total budgeted cost for the NHS Direct telephone service, NHS Direct Online and other related services for 2003–04 is £124 million.

NHS Recruitment

Mr. Baron: To ask the Secretary of State for Health how many and what percentage of healthcare workers from overseas who have been granted work permits were employed by *(a)* the NHS and *(b)* the private

health sector for their first job on entering the United Kingdom in each of the last five years for which figures are available. [170665]

Mr. Browne *[holding answer 4 May 2004]*: I have been asked to reply.

The structure of the Work Permits (UK) database and record storage facilities does not allow for a breakdown of the number of work permits awarded to healthcare workers by employer type, i.e. in NHS or private healthcare sector. This information therefore can only be obtained at disproportionate cost.

Midwives/Nurses

Mr. Hurst: To ask the Secretary of State for Health how many midwives were employed in the national health service in each year from 1974 to 2003. [173637]

Mr. Hutton: The information requested is shown in the table.

NHS Hospital and Community Health Services (HCHS): Registered midwives in England as at 30 September each year

	Whole-time equivalent	*Headcount*
2003	18,444	23,941
2002	18,119	23,249
2001	18,048	23,075
2000	17,662	22,572
1999	17,876	22,799
1998	18,168	22,841
1997	18,053	22,385
1996	18,262	22,595
1995[1]	18,034	22,022
1994	19,291	23,050
1993	19,554	23,353
1992	20,283	24,020
1991	19,685	23,368
1990	19,897	23,143
1989	19,213	22,391
1988	19,290	22,319
1987	19,312	22,117
1986	18,850	21,549
1985	18,431	21,067
1984	17,820	20,438
1983	17,309	19,814
1982[2]	16,268	18,439
1981	12,743	14,763
1980	13,056	15,209
1979	12,525	14,617
1978	12,115	14,078
1977	12,277	14,192
1976	12,248	14,144
1975	11,380	13,311
1974	10,562	12,300

[1] A new system of occupation coding for NHS non-medical staff was introduced in 1995. The new codes classify staff according to what they do rather than the terms and conditions under which they are employed i.e. national pay scales. Figures based on new occupation codes are not directly comparable with those based on the old pay scale classification. Therefore figures since 1995 are not comparable with earlier years.

[2] From 1982 onwards data are taken from the Department of Health Non-Medical Workforce Census. Prior to 1982 data are taken from the Health and Personal Social Services Statistics for England (HPSSS). Data from HPSSS contains hospital-based staff only and is therefore not directly comparable with later years.

Notes:
Figures are rounded to the nearest whole number.
All figures exclude learners and agency staff.

Sources:
Department of Health Non-Medical Workforce Census.
Health and Personal Social Services Statistics for England (HPSSS).

Dr. Murrison: To ask the Secretary of State for Health how many nurses have *(a)* entered and *(b)* completed training since 1997; and how many of those have (i) been recruited into the national health service and (ii) are still working in the national health service. [174105]

Mr. Hutton: Information on the number of nurses and midwives entering training each year since 1997 is shown in the table.

Pre-registration nursing and midwifery training commissions

	Headcount
1996–97	14,984
1997–98	16,539
1998–99	17,689
1999–2000	18,707
2000–01	20,021
2001–02	21,770
2002–03	22,956

Source:
Quarterly Monitoring Reports.

Information on the number of nurses who complete training each year was collected by the English National Board for Nursing, until its abolition in March 2002 with the creation of the Nursing and Midwifery Council (NMC). The latest complete information is only available for the 1997–98 cohort of nursing and midwifery students, of whom 72 per cent. had completed training by October 2001.

Information is not collected centrally on the number of nurses completing training recruited into the national health service or still working in the NHS. The NMC holds information on the number of nurses and midwives initially entering the register, a pre-requisite for employment in the NHS and other sectors in the United Kingdom. This information can be found on the NMC website at www.nmc-uk.org.

Between 1997 and 2003, there has been a net increase of 67,503 qualified nurses employed in the NHS.

Mrs. Iris Robinson: To ask the Secretary of State for Health what action is being taken to increase the input of front-line nurses into departmental policy formation. [173737]

Ms Rosie Winterton: Frontline nurses contribute directly to policy development as individual members of working groups, policy boards and clinical advisory networks. They also contribute though their national health service trusts, modernisation programmes and professional organisations which meet regularly with the Chief Nursing Officer (CNO). The contribution of frontline nurses to policy is being increased by engaging the new strategic health authority lead nurses, greater use of electronic communication, visits to the NHS by Ministers and officials and linking modernisation programmes to policy work.

Mrs. Iris Robinson: To ask the Secretary of State for Health what percentage of nursing students withdrew from university courses in each of the past five years. [173766]

Mr. Hutton: Information for England on the percentage of pre-registration student nurses who have left their university course is shown in the following table. The recently received attrition data for the

2002–03 academic year administered by the Higher Education Statistics Agency is in the process of being analysed.

	Percentage withdrawn
1996–1997	20.38
1997–1998	20.16
1998–1999	18.16
1999–2000	13.44
2000–2001	6.21

Note:
This data is based on a snapshot in time of a particular cohort(s) and therefore each year there will still be students who have yet to complete their course.

Obesity

Tim Loughton: To ask the Secretary of State for Health (1) how many children have undergone stomach stapling operations for obesity related problems in each of the last five years; [172587]

(2) how many adults have undergone stomach stapling operations in each of the last five years. [172589]

Mr. Hutton *[holding answer 11 May 2004]:* The table shows the number of finished admission episodes for stomach stapling operations performed on adults over the last five years. No children had stomach stapling operations in relation to obesity during the time period.

	Children: 0–18 years	Adults: 19 years and over
1998–99	0	4
1999–2000	0	12
2000–01	0	14
2001–02	0	10
2002–03	0	6

Source:
Department of Health, Hospital Episode Statistics.

Opticians

Dr. Murrison: To ask the Secretary of State for Health whether his Department plans to offer financial support to the compulsory continued education and training programmes for *(a)* opticians and *(b)* dispensing opticians. [171045]

Ms Rosie Winterton: As part of a three-year agreement on fees for sight-tests under the general ophthalmic services (GOS), the Department has agreed to make a financial contribution towards the costs of continuing education and training. These arrangements cover optometrists who are obliged to undertake continuing education to maintain their registration with the General Optical Council and also those ophthalmic medical practitioners who undertake no professional work other than conducting sight tests and who are also obliged to undertake continuing education as part of the registration requirements of the General Medical Council.

Under the terms of the three-year sight-test fee agreement, the financial support towards continuing education has been set at £270 for the year 2004–05 and £425 for the year 2005–06.

Dispensing opticians are not contracted to provide GOS and are therefore outside of these national health service arrangements and were not part of the pay agreement reached with contractors.

The Department is due shortly to begin a review of the GOS and the position of dispensing opticians within the NHS will be considered as part of that review.

Mr. Burstow: To ask the Secretary of State for Health for what reasons dispensing opticians are not recognised by his Department as healthcare professionals. [172703]

Ms Rosie Winterton: Dispensing opticians are recognised as health care professionals and are regulated under the Opticians Act. Under legislative changes introduced in 1986, dispensing was deregulated and became a private transaction. Dispensing opticians are therefore not included on primary care trust lists.

Cancer

Tom Cox: To ask the Secretary of State for Health how many *(a)* men and *(b)* women are being treated for cancer in the Greater London area. [174496]

Mr. Hutton: Information on treatment for cancer is not available in the format requested. Information on the number of finished admission episodes with a primary diagnosis of neoplasms for the five London strategic health authorities for 2002–03 is shown in the table.

Primary Diagnosis (ICD-10 C00-D48)—Neoplasms: Count of finished admission episodes for London Strategic Health Authorities (SHAs) of treatment NHS hospitals, England 2002–03

	SHA of treatment	Female	Male	Not known	Not specified	Total
Q04	North West London HA	22,179	18,842	6	—	41,027
Q05	North Central London HA	18,975	17,048	1	—	36,024
Q06	North East London HA	18,519	17,883	—	—	36,402
Q07	South East London HA	13,369	12,714	—	4	26,087
Q08	South West London HA	22,057	19,705	2	—	41,764
	London SHAs	95,099	86,192	9	4	181,304

Finished admission episodes
A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider.
Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
Diagnosis (Primary Diagnosis)
The primary diagnosis is the first of up to 14 (7 prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.
Ungrossed Data
Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
Source:
Hospital Episode Statistics (HES), Department of Health.

Patient Statistics (Wandsworth)

Tom Cox: To ask the Secretary of State for Health how many patients there were per general practitioner within the London borough of Wandsworth at the most recent recorded date. [174494]

Mr. Hutton: The information requested is collected by primary care trust (PCT) rather than London borough. Information for Wandsworth PCT is shown in the table.

Patients of unrestricted principals and equivalents (UPEs)[1] for Wandsworth PCT

	Wandsworth PCT
UPEs	174
Patients of UPEs	302,798
Average list size	1,740

[1] UPEs include general medical service unrestricted principals, personal medical services contracted general practitioners and personal medical service salaried GPs. Data as at 30 September 2003.

Source:
Department of Health general and personal medical services statistics.

PFI Schemes

Mr. Lansley: To ask the Secretary of State for Health what the aggregate annual revenue payments from 2004–05 onwards are in respect of NHS private finance initiative schemes which have reached financial close. [173841]

Mr. Hutton: The annual aggregate revenue payments for all national health service private finance initiative (PFI) schemes with a capital value of £10 million or over which have reached financial close are in the table.

	Payment (£ million)
2004–05	389.2
2005–06	477.7
2006–07	567.9
2007–08	599.0
2008–09	641.3
2009–10	641.5
2010–11	641.1
2011–12	642.2
2012–13	642.5
2013–14	642.8
2014–15	643.6
2015–16	643.5
2016–17	642.1
2017–18	641.0
2018–19	640.4
2019–20	640.7
2020–21	640.8
2021–22	640.4
2022–23	639.8
2023–24	637.1
2024–25	634.2
2025–26	631.9
2026–27	613.5
2027–28	613.9
2028–29	613.4
2029–30	609.3

These figures are submitted bi-annually to Her Majesty's Treasury. Table C19 of the Budget report contains an aggregate figure for the revenue payments from all Government Departments and they appear in Treasury Ministers' autumn report to Parliament.

Statistics are not collected centrally for schemes with a value less than £10 million.

Prescription Charges

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the cost to his Department of freezing prescription charges at their current price over the next five years. [173184]

Ms Rosie Winterton: The level of the prescription charge is considered annually and no forecast is made of future charge levels. It is therefore not possible to estimate the cost of freezing the current charge.

Prostate Cancer

Mr. Hoyle: To ask the Secretary of State for Health how many men are being treated for prostate cancer in *(a)* Lancashire and *(b)* Chorley. [173762]

Miss Melanie Johnson: The information is not available in the format requested.

In 2002–03, there were 1,263 finished admission episodes with a primary diagnosis of prostate cancer for Lancashire area, of which 189 were for the area covered by Chorley and South Ribble Primary Care Trust.

Notes:
1. A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HRS) data set and provides the main reason why the patient was in hospital.
3. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Source:
Hospital Episode Statistics, Department of Health.

Psychiatrists

David Taylor: To ask the Secretary of State for Health (1) by what percentage the number of NHS psychiatrists has changed since 1997; [175036]

(2) how many consultant psychiatrists are employed by the NHS in *(a)* Leicestershire and *(b)* England. [175037]

Mr. Hutton: The number of staff within the psychiatry group in England increased by 21.8 per cent. between September 1997 and September 2003. The number of consultants within the psychiatry group in England increased by 35.1 per cent. between September 1997 and December 2003.

The table shows the number of consultants within the psychiatry group, broken down by psychiatry specialties, in England and Leicestershire, Northamptonshire and Rutland Strategic Health Authority as at December 2003.

Hospital, Public Health Medicine and Community Health Services (HCHS): Consultants within the psychiatry group in England and Leicestershire, Northamptonshire and Rutland Strategic Health Authority by organisation: as at 30 December 2003

Source:
Department of Health medical and dental workforce census

David Taylor: To ask the Secretary of State for Health what measures are planned to increase the recruitment and retention of psychiatrists in the NHS. [175038]

Ms Rosie Winterton: The Government's agenda to improve the recruitment and retention of psychiatrists is being taken forward by the National Institute for Mental Health in England national workforce programme.

The Department and the Royal College of Psychiatrists have issued a joint action plan providing recommendations to increase the recruitment and overall numbers and the retention of consultant psychiatrists in January. The recommended actions cover the whole career pathway from initial recruitment of medical graduates into psychiatry through to the timing of retirement and improving international recruitment.

The national workforce programme is currently producing an analysis of demand and supply of staff to influence the commissioning of funding for education and training by the workforce development confederations by way of the national workforce numbers advisory board.

The programme is also exploring proposals to create more flexibility between specialist registrar and senior house officer posts with a view to reducing potential difficulties in filling them.

Radiography Services (Berkshire)

Mrs. May: To ask the Secretary of State for Health how many qualified radiographers have been employed at the Royal Berkshire Hospital in each of the last five years. [173730]

Ms Rosie Winterton: Requested information on number of qualified radiographers is provided in the table.

NHS hospital and community health services: Qualified radiography staff in the Royal Berkshire and Battle Hospitals NHS Trust by area as at 30 September each specified year.

headcount

	1998	*1999*	*2000*	*2001*	*2002*	*2003*
Total qualified radiographers	94	74	90	91	90	95
of which:						
Diagnostic radiographers	75	58	70	73	74	76
Therapeutic radiographers	19	16	20	18	16	19

Department of Health Non-Medical Workforce Census

Rubber Ferrules

Mr. Flight: To ask the Secretary of State for Health what the expenditure was on the acquisition of rubber ferrules in each year since 1997. [174158]

Ms Rosie Winterton *[holding answer 20 May 2004]:* Ferrules are supplied to the national health service as part of the NHS Purchasing and Supply Agency's national agreement for the supply of walking aids. The Department holds information on ferrules bought since 1998–99. The contract is not mandatory, and therefore some NHS bodies may buy ferrules from other sources.

The expenditure on the contract was as follows:

	£
1998–99	96,670.37
1999–2000	103,094.37
2000–01	87,739.36
2001–02	96,896.97
2002–03	101,855.81
2003–04	106,347.92

Note:
All figures include Value Added Tax.

Radiology

Andy King: To ask the Secretary of State for Health how many interventional radiologists practise in the NHS; and if he will make a statement. [174967]

Mr. Hutton: Interventional radiology is the use of imaging guidance for the purpose of treating patients.

There is no certificate of completion of specialist training in interventional radiology. Therefore, the Department does not collect data on the numbers of interventional radiologists practising in the national

health service. Many clinical radiologists undertake interventional radiological procedures and most of them combine diagnosis and intervention in their practice.

Sick Leave

Mr. Lansley: To ask the Secretary of State for Health what proportion of the staff of his Department were absent from work due to sickness as a proportion of the staff time available in each year since 2000. [173838]

Ms Rosie Winterton: Information on sickness absence in the Department is available in the publication, "Analysis of Sickness Absence in the Civil Service". Copies of "Analysis of Sickness Absence in the Civil Service" are available in the Library and at www.cabinet-office.gov.uk/civilservice/publications/sickness/index.htm. The website also contains reports for the previous three years.

Information on the number of staff employed by the Department can be found in the publication, "Civil Service Statistics".

Copies of "Civil Service Statistics" are available in the Library and at www.civil-service.gov.uk/Statistics/css/htm. The website contains publications since the financial year 1970.

Skin Cancer

Dr. Gibson: To ask the Secretary of State for Health what assessment he has made of the effect of the two week wait rule on the management of suspected skin cancers. [174124]

Miss Melanie Johnson: A two-week outpatient waiting time standard was introduced for urgently referred cases of suspected skin cancer from October 2000. In the last quarter (October to December 2003), 99.5 per cent., of urgently referred patients with suspected skin cancer were seen within two weeks of urgent referral. We have issued general practitioner cancer referral guidelines to assist GPs in determining those patients who need to be referred urgently to see a specialist within two weeks, those patients that can be referred for a routine appointment and those who can be safely watched at a primary care level. The referral guidelines are currently being reviewed by the National Institute for Clinical Excellence.

Smoking

Julie Morgan: To ask the Secretary of State for Health what consultation he has undertaken on a possible ban on the smoking of tobacco in public places. [174383]

Miss Melanie Johnson: On 3 March, the Government launched "Choosing Health?", a consultation on action to improve people's health. This sets out a range of questions on which the Government are seeking views.

Questions regarding smoking of tobacco in public places are:

Should the Government pass a law to make all enclosed workplaces/public places smoke-free?

What about restaurants?

What about pubs and bars?

Would local authorities be better placed than central Government to introduce laws?

Apart from bans how else could local towns and cities respond to calls for more smoke-free public places?

The consultation continues until 28 May.

Social Care

Mr. Kidney: To ask the Secretary of State for Health what assessment he has made of the effectiveness of the recent TV advertising campaign in respect of social care careers. [173952]

Dr. Ladyman: During the five weeks of the campaign, the social care careers helpline received more than 66,000 calls against a forecast of 23,000, with the majority of the calls generated by television. This is a very high response and indicates that for many people, social care is a viable career option.

The website, www.socialcarecareers.co.uk, attracted more than 23,000 unique visitors and to support those interested in jobs, links were established to local authority job pages and to Jobcentre Plus.

St. George's Hospital

Tom Cox: To ask the Secretary of State for Health how many assaults there were on members of staff during the last 12 months at St. George's Hospital, Tooting. [174495]

Mr. Hutton: During 2002–03, there were 60 violent incidents[1] on directly employed staff at the St. George's Healthcare National Health Service Trust.

[1] Violent incidents are counted as any incident where staff are abused, threatened or assaulted in circumstances related to their work, involving an explicit or implicit challenge to their safety, well being or health.

Notes:
1. Data at individual hospitals are not available centrally as information is collected at NHS trust or primary care trust level.
2. Data are collected on a financial year basis.

Source:
Department of Health Violence, Accidents and Harassment Survey 2002–2003.

Tom Cox: To ask the Secretary of State for Health how many nurses are employed at St. George's Hospital, Tooting; and how many are *(a)* agency nurses and *(b)* recruited from overseas countries. [174498]

Mr. Hutton: Information on the number of nurses at St George's Healthcare National Health Service Trust is shown in the table. Information is not available centrally on the number agency nurses or the number of nurses recruited from overseas countries by the trust.

NHS hospital and community health services: Qualified nursing, midwifery and health visiting staff in the St. George's Healthcare NHS Trust as at 30 September 2003

Supporting People Scheme

Mr. Drew: To ask the Secretary of State for Health what guidelines he is putting in place for health agencies

on the effects on the provision of *(a)* learning disability and *(b)* mental health services of changes in the Supporting People budgets. [167857]

Ms Rosie Winterton: No guidelines are being issued with regard to any changes in the Supporting People budgets.

Waiting Lists/Times

Mr. Burns: To ask the Secretary of State for Health what the average waiting time is for a patient to get an appointment to be seen at a genito-urinary medicine clinic in each strategic health authority area in England. [174038]

Mr. Hutton *[holding answer 18 May 2004]:* Data on average waiting times are shown in the table.

Estimated average out-patient wait for those seen under the genito-urinary medicine specialty for March 2004 by Strategic Health Authority (SHA)

SHA name	Median (weeks)
Norfolk, Suffolk and Cambridgeshire	2.00
Bedfordshire and Hertfordshire	2.11
Essex	2.25
North West London	—
North Central London	2.07
North East London	2.00
South East London	2.01
South West London	—
Northumberland, Tyne and Wear	2.02

Department of Health form QM08.

Mr. Burstow: To ask the Secretary of State for Health if he will list the *(a)* average and *(b)* maximum waiting time to see (i) an occupational therapist, (ii) a physiotherapist and (iii) a speech and language therapist in (A) England and (B) each strategic health authority; [174479]

Mr. Hutton: Information on waiting times for these services is not collected centrally.

HOME DEPARTMENT

Antisocial Behaviour

Mr. Oaten: To ask the Secretary of State for the Home Department how many places have been designated as areas of persistent antisocial behaviour by the Metropolitan police since the Anti-social Behaviour Act 2003 came into force; how many dispersal orders have been issued in those areas; and how many unsupervised children have been escorted home from those areas. [172402]

Ms Blears: The Commissioner of Police for the Metropolis tells me that the information requested is not currently held centrally and could be obtained only at disproportionate cost.

Asylum

David Davis: To ask the Secretary of State for the Home Department how much money has been spent by the National Asylum Support Service in each year since its inception *(a)* on subsistence only support, *(b)* on NASS accommodation and *(c)* in total. [173399]

Mr. Browne *[holding answer 14 May 2004]:* The information requested on the National Asylum Support Service (NASS) accommodation costs and total NASS expenditure is as follows.

£ million[1]

Financial Year	(a) Subsistence only support[2]	(b) Expenditure on NASS Accommodation	(c) Total NASS Expenditure
2000–01	Not recorded separately	Not recorded separately	783
2001–02	Not recorded separately	439	1,082
2002–03	Not recorded separately	594	1,124
2004–04	Not recorded separately	Not yet available	Not yet available

[1] All figures rounded to the nearest million.
[2] Specific information on the costs of providing subsistence only are not readily available and could be provided only at disproportionate cost.

Tom Cox: To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women from the Ukraine have sought political asylum in the United Kingdom in each of the last five years; and how many applications have been granted. [173539]

Mr. Browne: The tables show asylum application and initial decision data for Ukranian nationals, by gender, for those years for which data are available:

Asylum applications[1] received in the United Kingdom, excluding dependants, and initial decisions[2], on applications, by gender, 2001–03

	Applications	Initial decisions				
	Total applications	Total initial decisions	Grants of asylum	Grants of ELR	Grants of HP/DL	Refusals
Male						
2001[3,4]	315	830	5	15	n/a	810
2002[4]	280	230	*	5	n/a	225
2003[4]	205	230	—	5	*	225

Asylum applications[1] received in the United Kingdom, excluding dependants, and initial decisions[2], on applications, by gender, 2001–03

	Applications	Initial decisions				
	Total applications	*Total initial decisions*	*Grants of asylum*	*Grants of ELR*	*Grants of HP/DL*	*Refusals*
Female						
2001[3, 4]	130	345	*	15	n/a	330
2002[4]	80	80	—	5	n/a	75
2003[4]	90	120	—	*	5	115

n/a = not applicable.
[1] Figures rounded to nearest 5, with * = 1 or 2.
[2] Information is of initial decisions, excluding the outcome of appeals determinations or other subsequent decisions.
[3] Revised figures.
[4] Provisional figures.

Information on asylum applications and initial decisions, by gender, is published in the annual statistical bulletin, "Asylum Statistics United Kingdom". Copies of these publications and others relating to general immigration to the UK are available from the Library and from the Home Office Research Development and Statistics Directorate website at: http://NAAAAw.homeoffice.gov.uk/rds/immigration1.html

Glenda Jackson: To ask the Secretary of State for the Home Department how many citizens of the new EU accession states, previously maintained as asylum seekers, have *(a)* had that maintenance removed, *(b)* lost their housing and *(c)* applied for work registration. [173873]

Mr. Browne: On 5 and 6 April 2004, the National Asylum Support Services (NASS) sent 1,131 letters to nationals from those countries due to join the EU on 1 May (Lithuania, Latvia, Estonia, Slovenia, Czech Republic, Slovakia, Poland, Hungary, Cyprus and Malta). The letters explained that, after 1 May, as EEA nationals, they would no longer be entitled to National Asylum Support Service (NASS) support and that they would have the options of working, and registering under the Worker Registration scheme where appropriate, becoming self sufficient or returning to their country of origin. Support can be provided if it is necessary to avoid a breach of the European Convention on Human Rights (ECHR) and a process has been set up to consider ECHR representations.

Provisional figures indicate that as at 14 May, of the 1,131 cases, 571 were remaining in NASS accommodation and a further 108 were receiving cash only support, pending an individual assessment of their circumstances. These figures are subject to change as cases find work or if they decide to leave the United Kingdom voluntarily.

Figures are not currently available for those supported by local authorities under the interim provisions but local authorities have been advised of the procedures being followed by NASS.

The Immigration and Nationality Directorate is monitoring the impact of accession and will be making information available on the Worker Registration Scheme on a regular basis, when it is meaningful and appropriate to do so.

Mr. Cousins: To ask the Secretary of State for the Home Department how many asylum seekers and their dependants in each parliamentary constituency in the City of Newcastle in December 2003 were supported by the National Asylum Support Service; and how many of those were *(a)* from the EU accession countries and *(b)* potentially covered by amnesty schemes. [170863]

Mr. Browne: The total number of asylum seekers (including dependants), and those from the EU accession countries (including dependants), in each parliamentary constituency in the City of Newcastle as at the end of December 2003 that were supported by the National Asylum Support Service (NASS) are shown in the table:

Parliamentary constituency	*Number of asylum seekers supported by NASS[1] (including dependants)*	*Number of asylum seekers supported by NASS[1] from the EU accession countries (including dependants)*
Newcastle upon Tyne Central	430	20
Newcastle upon Tyne East and Wallsend	475	20
Newcastle upon Tyne North	145	10
Tyne Bridge	515	40
Total	1,565	90

[1] Number of asylum seekers supported by NASS includes those supported in NASS accommodation and those in receipt of subsistence only support.
Figures are rounded to the nearest 5.

Data about how many of the asylum seekers supported by NASS in the City of Newcastle that are potentially covered by amnesty schemes are not available.

An announcement detailing the results of the exercise announced by my right hon. Friend, the Home Secretary in October 2003, including the available statistical information, will be made when the exercise is completed. We would not wish to release figures until all those potentially qualifying applicants have had an opportunity to respond to our queries.

We have made good progress in considering the cases originally identified. The bulk of cases have been processed with the majority, where the applicants have responded to our queries, having been decided. We are reliant on the applicants we contact replying to our queries promptly. Those not doing so are being reminded.

Information on the number of asylum seekers supported by NASS is published quarterly. The next publication covering the first quarter of 2004 (January to March) will be available on 25 May on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Sheerman: To ask the Secretary of State for the Home Department how many asylum seekers in *(a)* the UK, *(b)* West Yorkshire, *(c)* Kirklees and

(d) Huddersfield have exhausted the appeals process and have been refused on asylum and human rights grounds and are unable to be returned to their own country because it is not considered safe. [171374]

Mr. Browne: I regret that the information requested on appeal rights exhausted is not available and could be obtained only at disproportionate cost by examination of individual case files.

Where an asylum seeker has had their claim refused and has exhausted their appeal rights it is considered safe for them to return to their own country.

Statistics on initial asylum decisions, appeals and removals are published quarterly. Copies of the most recent publications are available from the Library of the House or on the Home Office

Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

John Robertson: To ask the Secretary of State for the Home Department what the average time taken is for the removal of asylum seekers whose claims have been unsuccessful following judicial review. [171416]

Mr. Browne: Information on final decisions made on asylum applications, and on the interval between the final refusal of the application—including any appeal—and subsequent removal of the person concerned is not readily available. This could be obtained only by examination of individual case files to obtain information on the outcomes of initial decisions, of subsequent appeals to the Immigration Appellate Authority, the Tribunal and for Judicial Review, and of cases which have been reconsidered, which would incur disproportionate cost.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department which countries' citizens can claim hard case support if their asylum claims are refused on appeal. [171887]

Mr. Browne *[holding answer 12 May 2004]:* Failed asylum seekers of any nationality may seek support under section 4 of the 1999 Act if they are seeking to return but cannot do so immediately, and fulfil the other criteria set out in the National Asylum Support Service Policy Bulletin 71 which was published on 25 March.

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department when failed Iraqi asylum seekers are expected to return home. [171888]

Mr. Browne *[holding answer 12 May 2004]:* All asylum and human rights claims are considered on their individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Should a claim be refused and any appeal before the Independent Immigration Appellate Authority be unsuccessful, it means for that individual it is safe to return. We would expect these individuals to return home.

We have reached agreement with the Coalition Provisional Authority in Iraq to begin enforced returns. Work is currently under way on the practicalities of the returns programme, and returns will begin as soon as these arrangements are finalised.

We are currently facilitating the return of those who wish to go home through the International Organisation for Migration.

Mr. Oaten: To ask the Secretary of State for the Home Department what progress he has made towards setting a target for the proportion of asylum claims, including final appeal, to be determined within six months. [173136]

Mr. Browne: The confirmed target will be published shortly.

Tom Cox: To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women from Russia have sought political asylum in the United Kingdom in each of the last five years; and how many applications have been granted. [173288]

Mr. Browne: The table shows asylum application and initial decision data for Russian nationals, by gender, for those years for which data are available:

Asylum applications[1] received in the United Kingdom, excluding dependants, and initial decisions[2], on applications, 2001–03, Russian males and females

	2001[3,4]		2002[4]		2003[4]	
Applications	*Male*	*Female*	*Male*	*Female*	*Male*	*Female*
Total applications	310	140	170	125	175	110
Initial decisions						
Total initial decisions	610	285	235	120	235	135
Grants of asylum	15	5	10	5	5	5
Grants of ELR	25	10	15	5	5	*
Grants of HP/DL	n/a	n/a	n/a	n/a	5	5
Refusals	570	270	210	110	215	130

n/a Not applicable

[1] Figures rounded to nearest 5, with * = 1 or 2. Figures may not sum to totals due to rounding.

[2] Information is of initial decisions, excluding the outcome of appeals determinations or other subsequent decisions.

[3] Revised figures

[4] Provisional figures.

Information on asylum applications and initial decisions, by gender, is published in the annual statistical bulletin Asylum Statistics United Kingdom. Copies of these publications and others relating to general immigration to the UK are available from the Library and from the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

Sir Sydney Chapman: To ask the Secretary of State for the Home Department how many failed asylum seekers were removed from the UK in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04. [173300]

Mr. Browne: The available information is in the table.

Removals and voluntary departures of asylum applicants[1,2]

	2001–02[3]	2002–03[3]	April–December 2003[3]
Principal applicants	9,630	10,915	9,870
Dependants	1,970	4,065	3,180
Total	11,600	14,975	13,050

[1] Includes persons departing 'voluntarily' after enforcement action had been initiated against them, persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration, and removals on safe third country ground.

[2] Figures rounded to the nearest five, and may not sum due to rounding.

[3] Provisional figures.

Information on asylum seekers who were removed from the UK in the first quarter of 2004 will be published on 25 May on the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Battle: To ask the Secretary of State for the Home Department how many people in the last five years have sought asylum from *(a)* Zimbabwe and *(b)* Afghanistan; how many have been refused; and how many have been returned. [174246]

Mr. Browne: The table shows the number of asylum applications and initial decisions for nationals of Afghanistan and Zimbabwe (excluding dependants), 1999 to 2003 where available. Initial decisions do not necessarily relate to applications received in the same period.

Asylum applications[1] received in the United Kingdom, excluding dependants, and initial decisions[2], on applications, 1999 to 2003, nationals of Afghanistan

Principal applicants

	Applications[3]			Decisions: Cases considered under normal procedures[4]					Backlog clearance exercise

n/a = Not applicable.
[1] Figures rounded to nearest 5, with * = 1 or 2.
[2] Information is of initial determination decisions, excluding the outcome of appeals or other subsequent decisions.
[3] May exclude some cases lodged at Local Enforcement Offices between January and March 2000.
[4] Cases considered under normal procedures may include some cases decided under the backlog criteria.
[5] Cases decided under pragmatic measures aimed at reducing the pre '96 act asylum backlog.
[6] May include a small number of cases where asylum has been granted.
[7] May include a small number of cases where the application has been refused on substantive grounds.
[8] Provisional figures.
[9] Revised figures.

The table shows the available data, for outcomes of adjudicator appeals at the Immigration Appellate Authority (IAA) for nationals of Afghanistan and Zimbabwe, the latest period for which published data are available. Appeals may relate to initial decisions made in earlier periods. Corresponding information on appeals to the Immigration Appellate Tribunal (IAT) relating to Afghan and Zimbabwean nationals (including appeals made by the Secretary of State) is not available and could be produced only at disproportionate cost by examination of individual case files.

Outcome of Appeals[1,2] determined by adjudicators of the Immigration Appellate Authority, excluding dependants, nationals of Afghanistan, 2001 to 2003

Number of principal appellants

	Appeals determined by adjudicators[2]						
		Allowed		Dismissed		Withdrawn	
	Total	Total	As a percentage of Determined	Total	As a percentage of Determined	Total	As a percentage of Determined
2001	595	110	18	260	44	225	38
2002	2,040	230	11	1,235	60	580	28
2003	5,535	710	13	4,420	80	405	7

Outcome of Appeals[1,2] determined by adjudicators of the Immigration Appellate Authority, excluding dependants, nationals of Zimbabwe, 2001 to 2003

Number of principal appellants

	Appeals determined by adjudicators[2]						
		Allowed		*Dismissed*		*Withdrawn*	
	Total	*Total*	*As a percentage of Determined*	*Total*	*As a percentage of Determined*	*Total*	*As a percentage of Determined*
2001	1,115	255	23	815	73	40	4
2002	2,405	925	38	1,370	57	110	5
2003	4,080	1,165	29	2,735	67	180	4

[1] Provisional figures rounded to nearest 5 (except percentages), with * = 1 or 2. Figures may not add up due to independent rounding. Data on appeal outcomes by nationality in this table are derived from electronic sources.
[2] Figures include cases withdrawn by the Home Office, as well as the appellant.

Removal of failed asylum seekers to Zimbabwe was suspended on 15 January 2002; we did not at the time consider that it was unsafe to return them but in view of the rapidly changing circumstances it was appropriate not to enforce returns. The suspension has been maintained since that date and although we still consider it would not be unsafe to return failed asylum seekers there, enforced returns would be inappropriate in the wider context of the Government's position on Zimbabwe. An exception to the suspension policy in cases where a failed asylum seeker has a serious criminal record or their presence in the United Kingdom is not otherwise conducive to the public good was announced on 5 February 2004. In such circumstances enforced return to Zimbabwe would be considered by Ministers on a case-by-case basis.

Removals and voluntary departures[1] of asylum applicants, excluding dependants, Afghan and Zimbabwean nationals, January 1999 to September 2003[2]

Principal applicants

Nationality	*1999[3]*	*2000[3]*	*2001[3,4,5]*	*2002[3,4,5,6]*	*January to September 2003[3,4,5,6]*
Afghanistan	—	—	125	395	460
Zimbabwe	—	—	210	110	45

[1] Includes persons departing 'Voluntarily' after enforcement action had been initiated against them, persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration, and removals on safe third country grounds.
[2] Figures rounded to the nearest five, with * = 1 or 2, and may not sum due to rounding.
[3] Figures may include a small number of dependants leaving under Assisted Voluntary Return Programmes.
[4] Figures exclude dependants of asylum seekers removed. Data on dependants removed have only been collected since April 2001.
[5] Data have been estimated due to data quality issues.
[6] Provisional figures.

Information on asylum applications, initial decisions, appeals and removals are published in quarterly web pages, the next publication covering the first quarter of 2004 will be available on the 25 May 2004, and in the annual statistical bulletin Asylum Statistics United Kingdom. Copies of these publications and others relating to general immigration to the UK are available from the Library and from the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html

Mr. Battle: To ask the Secretary of State for the Home Department what his latest estimate is of the number of asylum seekers who have failed the appeal process and are ineligible for National Asylum Support Service, Government or local authority financial support in *(a)* the UK and *(b)* Leeds. [174248]

Mr. Browne: The information requested is not available and could be obtained only at disproportionate cost.

Information on asylum appeals and the number of asylum seekers supported by NASS are published quarterly; the next publication covering the first quarter of 2004 will be available on the 25 May 2004. Copies of these publications and others relating to general immigration to the UK are available from the Library and from the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1 .html

Mr. Battle: To ask the Secretary of State for the Home Department what instructions and guidance have been given to officials on the number of days asylum seekers who have failed the appeal process must spend on the streets before they qualify for hard case support; and if he will make a statement. [174249]

Mr. Browne: There is nothing to prevent the majority of failed asylum seekers from leaving the country voluntarily and there is no need for them to become homeless or destitute. They can seek assistance with return from either the Immigration Service or the International Organisation for Migration. Those unable to leave immediately who are complying with the process for return may, on application, be provided with accommodation under section 4 of the Immigration and Asylum Act 1999, as amended. There is no need for anyone in this group to become homeless or destitute. They can seek accommodation as soon as they receive the final decision on their asylum claim. In addition, letters sent to failed asylum seekers by the National Asylum Support Service (NASS) notifying them of the termination of support now give advice on the availability of section 4 support. MASS has also now introduced a one-stage application process in order to reduce the time taken to process applications.

Mr. Battle: To ask the Secretary of State for the Home Department how many people in the last five years have sought asylum from Iraq; and how many have been refused. [174337]

Mr. Browne: The tables show applications and initial decisions and appeal decisions for nationals of Iraq, 1999–2003 where available. Initial decisions do not necessarily relate to applications made in the same period, neither do appeal outcomes necessarily relate to decisions made in the same period.

Asylum applications[1] received in the United Kingdom, excluding dependants, and initial decisions[2] on applications, 1999–2003: Nationals of Iraq

Principal applicants

		Allowed		*Dismissed*		*Withdrawn*	
	Total	*Total*	*As percentage of determined*	*Total*	*As percentage of determined*	*Total*	*As percentage of determined*
2001	1,655	445	27	1,065	64	145	9
2002[3]	4,570	1,130	25	2,970	65	470	10
2003[3]	5,400	495	9	4,465	8	445	8

[1] Figures rounded to nearest 5 (except percentages). Figures may not add up due to independent rounding. Data on appeal outcomes by nationality in this table are derived from electronic sources.
[2] Figures include cases withdrawn by the Home Office, as well as the appellant.
[3] Provisional figures

Information on asylum applications, initial decisions and appeals are published in quarterly web pages, the next publication covering the first quarter of 2004 will be available on the 25 May 2004, and in the annual statistical bulletin Asylum Statistics United Kingdom. Copies of these publications and others relating to general immigration to the UK are available from the Library and from the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

Biometric Technology

Mr. Oaten: To ask the Secretary of State for the Home Department what the *(a)* cost to date and *(b)* projected cost is of developing biometric technology for inclusion in passports, broken down by financial year; and whether any portion of the expenditure is included in the identity card set-up costs cited in his statement of 11 November 2003, *Official Report*, column 178. [163325]

Mr. Browne: The cost incurred by the UK Passport Service to develop a facial biometric chip enabled passport is shown in the table.

Year	*(£)*
2003–04	850
2004–05	4,645
2005–06	525

The work being carried out to develop biometric technology for inclusion in passports is necessary to

meet current International Civil Aviation Organisation (IACO) recommended standards for passports and therefore no portion of this expenditure is included in the identity card set-up costs.

Charity Commission

John Mann: To ask the Secretary of State for the Home Department how many receivers and managers were appointed by the Charity Commissioners in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04; what the total cost was to all charities of such appointments in each period; and what the (i) shortest and (ii) longest duration of receiver and manager appointments to a charity have been since April 2001. [172154]

Fiona Mactaggart: These are matters for the Charity Commission as the Government Department responsible for the regulation of charities in England and Wales. The Director of Operations of the Charity Commission will write to my hon. Friend and a copy of his reply will be placed in the Library.

Commission for Racial Equality

Mr. Alan Duncan: To ask the Secretary of State for the Home Department what consultations his Department has undertaken with race relations bodies about the effects of the Commission for Racial Equality Getting Results programme. [174388]

Fiona Mactaggart *[holding answer 20 May 2004]:* It is the responsibility of the Commission for Racial Equality (CRE) to set its own criteria for grant funding under the provisions of section 44 of the Race Relations Act 1976, and then to make decisions on individual applications on the basis of how well they meet those criteria. The CRE consulted widely on its proposals to move away from its previous policy of funding posts in bodies it supports, mainly Race Equality Councils, to funding projects focused on outcomes (ie the Getting Results programme). I understand that its partners welcomed the new approach, as do the Government.

Mr. Alan Duncan: To ask the Secretary of State for the Home Department what assessment he has made of the impact the Commission for Racial Equality's Getting Results programme on the delivery of race equality schemes. [174398]

Fiona Mactaggart *[holding answer 20 May 2004]:* The publication of a race equality scheme is a specific duty placed on certain public bodies under the Race Relations Act 1976 (Statutory Duties) Order 2001. The responsibility for delivering these schemes lies with the bodies listed in the order. Section 44 funding has never been intended to fund the delivery of this particular aspect of the Race Equality Duty. However, the Commission for Racial Equality informs me that one of the specific priorities for Getting Results funding in 2004–05 has been measuring the impact of the Race Equality Duty, and that £193,200 has been awarded to organisations under this priority. This is distinct from the delivery of race equality schemes.

Correspondence

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter from the right hon. Member for Manchester, Gorton dated 1 March, with regard to Ms N. Islam, transferred from the Foreign and Commonwealth Office. [170698]

Mr. Blunkett: I wrote to my right hon. Friend on 6 May 2004.

Criminal Records Bureau

Mr. Oaten: To ask the Secretary of State for the Home Department whether the Criminal Records Bureau is permitted to access Department of Health and Department of Education and Skills List 99 records when checking the suitability of individuals for work with children. [143483]

Ms Blears *[holding answer 10 December 2003]:* Section 115(6) of the Police Act 1997 gives provision for the Secretary of State for the Home Department to access lists held by the Department of Health and the Department for Education and Skills when checking individuals for work with children.

Criminals (New Identity Costs)

Mr. Chope: To ask the Secretary of State for the Home Department if he will make it a policy of the Government to require those convicted of crimes, who are provided with a new identity upon their release, to contribute to the costs involved where they have the means to do so. [163151]

Paul Goggins *[holding answer 23 March 2004]:* Most of the very small number of convicted criminals who need new identities on release from prison do so because, at some point in the criminal proceedings, they have decided to turn Queen's Evidence and appear as witnesses for the prosecution against their former partners in crime. Since in doing this they have helped to convict other (often more serious) offenders, then it is cost-effective for the state to offer to pay for any necessary change to their identity, and any other associated costs. In other cases the state is required to take reasonable steps to fulfil its duty to protect the lives of those threatened by others. Only in the most exceptional circumstances would this include a formal change of identity and only where the threat to life is clearly evidenced and the change of identity considered appropriate by the police.

Departmental Buildings

Mr. Llwyd: To ask the Secretary of State for the Home Department what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by his Department were undertaken in each of the last five years; and what the associated costs were of each. [163954]

Fiona Mactaggart: The Department does not maintain central records of the cost of every building refurbishment project carried out by the Department including its Executive agencies and to provide the information requested would be at disproportionate cost. However, in central London and Croydon, the approximate expenditure on such projects which includes elements of maintenance and alterations to house additional staff, over the last five years, is as follows.

	£ million
1999–2000	6.7
2000–01	[1]35.2
2001–02	11.5
2002–03	9.2
2003–04	4.0

[1] Figures for 2000–01 reflects the refurbishment of Lunar House, Croydon which had a major upgrade that year.

Departmental Contracts

Mrs. Helen Clark: To ask the Secretary of State for the Home Department whether companies that tender for his Department's contracts have to recognise the relevant trade union as a condition of winning that contract. [166592]

Fiona Mactaggart: The Home Office does not ask companies to recognise the relevant trade union as a condition of winning Home Office contracts.

Government policy requires that all procurement must be transparent and non-discriminatory, and that contracts must be awarded on a value for money basis.

Departmental Staffing

John McDonnell: To ask the Secretary of State for the Home Department what the cost to his Department of employing temporary staff through agencies was in each of the last five years. [163632]

Fiona Mactaggart *[holding answer 31 March 2003]:* The employment of temporary staff through employment agencies for the Core Home Office over the last five years is as follows:

	£
1999	6,500,408
2000	11,768,105
2001	20,669,056
2002	41,713,675
2003	54,466,279

The Stage 2 RAB Resource DEL for the Home Office over the same period was:

	£
1999–2000	7,076,102,000
2000–01	8,398,131,000
2001–02	10,261,856,000
2002–03	11,088,502,000
2003–04	11,836,009,000

Expenditure expressed as a percentage of the Home Office total DEL during the last five years was as follows:

	Percentage
1999–2000	0.09
2000–01	0.14
2001–02	0.20
2002–03	0.38
2003–04	0.46

The Immigration and Nationality Directorate accounted for around half of the cost for each financial year.

The use of temporary staff provides the Home Office with cost effective, flexible resources which can be employed at very short notice. Their employment often allows the Department to react quickly to changes in the demands that it faces by deploying appropriately skilled and experienced individuals quickly to those areas of the business where they are most needed.

Deportations/Removals

Tom Cox: To ask the Secretary of State for the Home Department how many people have been *(a)* removed and *(b)* deported from the United Kingdom in each of the last three years. [173289]

Mr. Browne: The available information is in the table.

Persons removed from the United Kingdom, 2000 to 2002[1,2]*: United Kingdom*

Number of persons

	2000	*2001*	*2002*
Total persons removed[3,4]	46,645	50,625	68,630
Of whom: removed as a result of Deportation action[5]	1,280	450	100

[1] Under sections 3(6), 3(7) or 33(1) of the Immigration Act 1971, or under section 10 of the Immigration and Asylum Act 1999.
[2] Including persons departing 'voluntarily' after enforcement action had been initiated against them.
[3] Includes dependants of asylum seekers removed from April 2001 onwards only. This information was not collected prior to this although figures up to March 2001 may include a small number of dependants of port principal asylum applicants removed.
[4] Includes persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration.
[5] Figures for 2001 and 2002 have been estimated. Deportation figures may be under-recorded in 1999 and 2000.

The substantial reduction in the number of persons deported after October 2000 is due to a change in the categories of person liable to deportation. Under section 10 of the Immigration and Asylum Act 1999, overstayers, persons who breach their conditions of stay, and persons who gain leave to remain by deception are administratively removed and deportation is now restricted to more serious cases.

Information on all those removed from the UK in 2003, including the number of deportations, will be published in the Home Office Statistical Bulletin "Control of Immigration Statistics UK 2003" which is due to be published at the end of August, and will be available from the Home Office Research Development and Statistics Directorate web site at http://www.homeoffice.gov.uk/rds/immigration1.html.

Detention Centres

Alistair Burt: To ask the Secretary of State for the Home Department pursuant to the written ministerial statement of 30 April 2004, *Official Report*, columns 63–64WS, on Yarl's Wood Immigration Removal Centre, if he will ensure that the results of the investigation recommended by Mr. Shaw into two further allegations of assault are made public. [173543]

Mr. Browne: Stephen Shaw recommended that Global Solutions Ltd. (GSL) should investigate the allegations referred to and they will. GSL will report the outcome to the Immigration and Nationality Directorate and, for the sake of completeness, Stephen Shaw will be asked to review the investigation. I can confirm that the outcome will be made public.

Alistair Burt: To ask the Secretary of State for the Home Department how many complaints were made in *(a)* 2003 and *(b)* 2004 to date by those detained at Yarl's Wood about the escort service taking them to and from Yarl's Wood; how many are under investigation; and if he will make a statement. [173545]

Mr. Browne: The Monitor responsible for overseeing the contract which covers in-country escorting and holding rooms at ports received three complaints in 2003 and one so far in 2004 to date, from persons detained in Yarl's Wood. All complaints are subject to an investigation by the Monitor, none are currently under investigation.

In the same period, there were no complaints regarding the contractors responsible for escorting persons on scheduled flights overseas, from persons detained at Yarl's Wood.

Alistair Burt: To ask the Secretary of State for the Home Department how many complaints about the activities of those escorting detainees to and from detention centres and detention and removal centres he has received; how many are being investigated; and if he will make a statement. [173547]

Mr. Browne: Since January 2003, there have been over 100,000 escorted movements. In this period there have been 78 complaints to the Monitor from detainees regarding the in-country escorting contract, which is responsible for movements of detainees from any location in the UK and supervision of detainees in the holding rooms at ports. All complaints are subject to investigation by the Monitor, at present 12 complaints are under investigation.

In the same period there have been 22 complaints against the overseas escorting contractor, which has responsibility for escorting people on scheduled flights to their removal destinations.

Dirty Bombs

Michael Fabricant: To ask the Secretary of State for the Home Department (1) what steps he is taking to inform the general public of the precautions they must take to avoid contamination by a dirty bomb explosion; and if he will make a statement; [173710]

(2) what system is in place to alert the general public that a dirty bomb has exploded in an area in which they may become contaminated; and if he will make a statement. [173711]

Mr. Blunkett: In the event of an attack, unless people are under the direction of the emergency services, they should go indoors and tune into the TV or radio for further instructions. The media is the main system through which the Government and the emergency services will alert the public. The message is 'go in, stay in, tune in'.

As part of a deliberate strategy over the last 18 months, I have made sure that we have increased the information available to the public on how to prepare for and respond to emergencies. The Government will continue to do this and we are regularly reviewing the best way to keep the public informed.

The main sources of advice for the general public and our partners are the Home Office, the MI5 and the UK Resilience websites, www.homeoffice.gov.uk/terrorism/, www.ukresilience.info/ and www.mi5.gov.uk/.

Drugs Misuse (Manchester)

Tony Lloyd: To ask the Secretary of State for the Home Department what public funds were spent on tackling drugs misuse in Manchester, Central in *(a)* 1997–98 and *(b)* 2002–03. [174367]

Caroline Flint: Breakdown of financial allocation to local constituencies is not available in the form requested as funding is allocated to Drug Action Team (DAT) area (Manchester DAT).

The period 1997–98 pre-dates National Drug Strategy, during this time the local council and primary care trust allocated funding for tackling drug misuse. Accounting procedures mean that the 1997 figures are no longer available and that 1998 figures are not accessible by the DAT.

In 2002–03 the total drugs allocation was £5,678,000. In order to ensure consistency figures supplied are based on funding streams associated with the National Drug Strategy and are readily verifiable. These funding streams are specifically targeted at tackling the harm caused to individuals, families and communities by the misuse of drugs. Other mainstream funding is made available at a local level, this varies both in amount and origin; as a result it is not possible to provide robust financial information.

(£)

	2002–03
Partnership Capacity	77,000
Adult Pooled Treatment Budget	3,389,000
Pooled Treatment Budget (Young People element)	207,000
Young People's Substance Misuse Planning Grant	80,000
Communities against Drugs	710,000
Street Crime Initiative (Drugs funding)	1,215,000
Total	5,678,000

Early Retirement

Bob Spink: To ask the Secretary of State for the Home Department how many staff in his Department took early retirement, and at what total cost, in the last financial year. [171868]

Fiona Mactaggart: Details of normal early retirements and their costs for the last financial year are shown in table 1. The table also shows the full cost to the Department to age 60.

The Home Office also ran an additional scheme in 2003–04 using funds bid from Her Majesty's Treasury. The costs for that scheme and the staff numbers involved are contained in table 2.

Table 1: Home Office early retirements 2003–04

	£
Number of staff	12
Cost for year 2003–04	116,956
Full cost to Department	621,965.98

Table 2: Home Office early retirements scheme2003–04

	£
Number of staff	67
Cost for year 2003–04	4,638,139.97
Full cost to Department	13,227,687.88

EU Enlargement

Mr. Gale: To ask the Secretary of State for the Home Department how many passports belonging to former asylum seekers, since 1 May EU citizens, are held by the Immigration and Nationality Service; when he expects that these documents will be returned to their owners; and if he will make a statement. [172928]

Mr. Browne *[holding answer 13 May 2004]:* Once a decision has been reached on an asylum seeker's application, their passport or identity card, where one has been submitted, is normally returned to them with the decision letter. An exception to this is when a passport or identity card is found to be a forgery or otherwise to have been tampered with.

The numbers of such documents belonging to former asylum seekers who are now EU citizens is not recorded centrally and could only be obtained, at disproportionate cost, by examination of individual cases.

Keith Vaz: To ask the Secretary of State for the Home Department what change there has been in the number of people claiming benefits since 1 May 2004. [173181]

Mr. Pond: I have been asked to reply.

The information is not available.

Information on the number of people claiming benefits is available each quarter. Data for the quarter ending February 2004 will be published in June. Data for the quarter ending May 2004 will be available later this year.

Guantanamo Bay

Norman Baker: To ask the Secretary of State for the Home Department pursuant to the answer of 22 April 2004, *Official Report*, column 592W, on Guantanamo Bay, whether MI5 officers at Guantanamo Bay raised with *(a)* his Department and *(b)* the US authorities the interrogation methods deployed by the US. [173485]

Mr. Blunkett *[holding answer 17 May 2004]:* As explained in the earlier answer, these interviews were conducted as part of the Government's responsibility to protect national security. The interviews were conducted on a voluntary basis. Officers carrying out the interviews were under an obligation to inform the relevant authorities of any complaints made by the detainees and of any concerns which they had.

Witness Protection

Ms Abbott: To ask the Secretary of State for the Home Department what assessment he has made of protection schemes for witnesses involved in gun crime cases. [175539]

Caroline Flint: The Home Office, in conjunction with the Scottish Executive, the Northern Ireland Office and the Association of Chief Police Officers, has appointed an independent consultant to carry out an assessment of witness protection arrangements nationally. The assessment is covering all cases where witness protection is afforded by UK law enforcement agencies including the police. It will provide us with valuable information about the circumstances in which witness protection is provided, broken down by crime type, including offences where firearms have been used.

The assessment commenced on 2 January; it was announced in the White Paper One Step Ahead—a 21st century strategy to defeat organised crime which I published on 29 March. The assessment is due to be completed over the summer, and a final report will be available in the autumn.

Hazardous Consignments

Mr. Clifton-Brown: To ask the Secretary of State for the Home Department what plans the Government have to give particularly hazardous consignments a police escort in the Central London area. [174678]

Caroline Flint: We have introduced, in consultation with industry and the police, a Code of Practice for the transport security of dangerous goods. The Code is a pre-cursor to formal regulations due to come into effect from July 2005. The Code is supported by a guidance document and training video. These and other helpful materials are available via the Department for Transport's website, at www.dft.gsi.gov.uk.

Decisions on whether a particular consignment should receive a police escort are a matter for chief officers of police, in central London the Metropolitan Police Commissioner. He informs me that a very limited number of particularly hazardous consignments do attract special security arrangements, such as a police escort, when being conveyed by road in the central London area.

Highly Skilled Migrants Programme

Mr. Crausby: To ask the Secretary of State for the Home Department how many dentists have been accepted for entry to Britain *(a)* under the Highly Skilled Migrants Programme and *(b)* through work permits in the past year. [172597]

Mr. Browne: 28 Dentists were approved under the Highly Skilled Migrant Programme and 131 through work permits during 2003.

Mr. Crausby: To ask the Secretary of State for the Home Department how many legal professionals were accepted for entry to Britain *(a)* under the Highly Skilled Migrants Programme and *(b)* through work permits in (i) 1995, (ii) 1998, (iii) 2001, (iv) 2002 and (v) 2003. [172600]

Mr. Browne: For the Highly Skilled Migrant Programme the information is not held centrally.

For work permits, the records are only held centrally for 2001 onwards.

In 2001—971 applications were approved.

In 2002—693 applications were approved

In 2003—619 applications were approved.

Mr. Crausby: To ask the Secretary of State for the Home Department what the average time taken to process *(a)* work permits and *(b)* highly skilled migrant applications for appointments of junior doctors to health authorities was in the last year for which figures are available; what the average time taken was for all work permits; and how many junior doctor applicants were appointed to jobs in *(a)* Bolton North East, *(b)* the Greater Manchester area and *(c)* England. [172622]

Mr. Browne: The information requested on work permits and the Highly Skilled Migrant Programme is not held centrally in relation to occupation and location in the UK.

In 2003 the processing times of work permits were 91 per cent. of all complete applications received were cleared in one day.

Home Office Documents

Mr. Oaten: To ask the Secretary of State for the Home Department what procedures are followed in relation to highly sensitive documents leaving Home Office premises; and what guidance is issued on this matter to Home Office staff. [173949]

Fiona Mactaggart: The Home Office follows the national guidelines laid down in the Manual of Protective Security governing the protective marking of sensitive documents, as well as their storage and handling outside Home Office premises. These are set out in the Departmental Security Unit's Security Guidance, which confirms that all protectively marked documents should be carried securely in a twin-lock brief case, box or pouch and should remain at all times in the immediate possession of the officer concerned.

Identity Cards

Mr. Gibb: To ask the Secretary of State for the Home Department if he will list the members of the Identity Cards Programme Board. [173130]

Mr. Browne: The members of the Identity Cards Programme Board are John Gieve (Permanent Secretary, Home Office and Programme Board Chair), Helen Edwards (Director General of Communities Group, Home Office, and Senior Responsible Owner), Bernard Herdan (United Kingdom Passport Service), Stephen Hickey (Department for Transport), Mark Fisher (Department for Work and Pensions), Bill Jeffrey (Home Office, Immigration and Nationality Directorate), Dennis Roberts (Office for National Statistics), Peter Unwin (Office of the Deputy Prime Minister), John Middleton (Inland Revenue) and Julian Kelly (HM Treasury).

Mr. Gibb: To ask the Secretary of State for the Home Department what assessment he has carried out of the prevalence in other common law countries of compulsory identity cards; and if he will list those countries that have such cards. [169912]

Mr. Browne: The Home Office carried out research into identity cards schemes in other countries. The results are in "Entitlement Cards and Identity Fraud: A Consultation Paper". Within the EU Cyprus is a common law jurisdiction which has identity cards which all Cypriot citizens over the age of 12 have to obtain.

Mr. Gibb: To ask the Secretary of State for the Home Department if he will list the procedures being used to verify the identity of people taking part in the identity card pilot scheme. [170255]

Mr. Browne: The biometric enrolment pilot being run by United Kingdom Passport Service is not an identity cards pilot but rather intended to test the processes around, and user experience of biometric enrolment. Ascertaining the identities of the people taking part in the pilot is therefore much less important than ensuring that the people taking part form a representative cross-section of the UK population.

Mr. Gibb: To ask the Secretary of State for the Home Department if he will list the biometric information that will be collected and stored on the *(a)* National Identity Register and *(b)* identity card. [170256]

Mr. Browne: There has been no firm decision made on the biometric data which will be collected and which biometrics will be stored on the National Identity Register and which will be stored on the identity card.

These decisions will be made in the light of work underway on the feasibility of different technologies and the processes around identity enrolment and verification.

The draft Identity Cards Bill makes provision for the recording of biometric information in the form of a head and shoulders photograph, fingerprints and data about a person's external characteristics including, in particular, the features of an iris or of any other part of the eye.

Mr. Gerald Howarth: To ask the Secretary of State for the Home Department why the iris has been selected as the basis for a biometric identifier. [170553]

Mr. Browne: Both retina and iris recognition were considered by the National Physical Laboratory in their evaluation of biometric technologies. Retina recognition was found to be effective but difficult to use by a large number of people and too physically intrusive to be widely acceptable.

It has not yet been decided that iris recognition will be used in the identity card scheme. The feasibility of using iris recognition for identity cards is under investigation.

Mr. Gibb: To ask the Secretary of State for the Home Department what plans he has for the storage of health information on *(a)* blood group, *(b)* organ donor status and *(c)* HIV condition on the National Identity Register on (i) a voluntary and (ii) a compulsory basis. [171597]

Mr. Browne: Clause 1 of and Schedule 1 to the draft Identity Cards Bill published on 26 April set out what information could be held on the National Identity Register. In general the storage of medical information on the Register would not be allowed by the draft Bill as medical information does not fall within the definition of registerable facts as set out in the draft Bill. However the draft Bill does allow for the storage of voluntary information with the consent of both the person who is registered and the Secretary of State.

Mr. Gibb: To ask the Secretary of State for the Home Department how the subsidy for the price charged for an identity card for those on low incomes will be funded. [171598]

Mr. Browne: The expectation is that when the scheme is established, running costs will be covered by charges for the application and issue of cards and for identity verification services provided by the scheme. Any subsidy for those on low incomes will therefore be funded by fee income.

Mr. Gibb: To ask the Secretary of State for the Home Department pursuant to the answer of 29 April 2004, *Official Report*, columns 1299–300W, on identity cards, if he will list the non-arrestable criminal offences, enforced by a summons, for which the police have powers of arrest where a person refuses to provide evidence of identity. [171916]

Mr. Browne: Where a constable has reasonable grounds for suspecting that any offence which is not an arrestable offence has been committed or attempted, or is being committed or attempted, he may arrest the relevant person if it appears to him that service of a summons is impracticable or inappropriate because any of the general arrest conditions are satisfied.

Two of the general arrest conditions are:

(a) that the name of the relevant person is unknown to, and cannot be readily ascertained by, the constable; and

(b) that the constable has reasonable grounds for doubting whether a name furnished by the relevant person as his name is his real name.

Non-arrestable offences are all those not covered by the categories set out in Section 24 (1) of the Police and Criminal Evidence Act 1984 (PACE) which states:

"The powers of summary arrest conferred by the following sub-sections shall apply :

(a) to offences for which the sentence is fixed by law;

(b) to offences for which a person of 21 years of age or over (not previously convicted) may be sentenced to imprisonment for a term of five years (or might be so sentenced but for the restrictions imposed by S 33 of the Magistrates' Courts Act 1980); and

(c) to the offences listed in Schedule 1A

and in this Act 'arrestable offence' means any such offence."

The offences which are not covered by this section are too numerous to list and could be identified only and listed at disproportionate cost.

Mr. Gibb: To ask the Secretary of State for the Home Department pursuant to the answer of 29 April 2004, *Official Report*, columns 1299–300W, on identity cards, whether the police have powers to require a person to verify their identity other than those set out in his answer. [171917]

Mr. Browne: The Government have made it clear that it will not be a requirement to carry an identity card or to produce a card to a police officer on demand.

Police powers in England and Wales to identify a person arrested for a recordable offence are contained in the Police and Criminal Evidence Act (PACE) 1984. The powers will be unaffected by the introduction of an identity card however the introduction of identity cards will make it much easier and simpler for people to prove their identity when they wish to do so. As at present with existing documents, people will be free to produce an identity card on a voluntary basis (if they have one) to a police officer or to any other official as a means of establishing their identity.

The draft Identity Cards Bill published on 26 April also includes a power in clause 24 for information relating to a biometric to be disclosed if it is not reasonably practical for the person to whom this is disclosed to have obtained this information by other means. This means that if it were not possible to identify an arrested person by other means, for example by checking police records, a check could be made on the person's biometric against the National Identity Register.

In addition to powers under PACE, powers under s 41 (1) Terrorism Act 2000 allow a constable to arrest without a warrant a person whom he reasonably suspects to be a terrorist, which is defined in s 40. In this case, powers under Schedule 8, paragraph 2 permit an authorised person to take any steps which are reasonably necessary for photographing, measuring or identifying a person detained under s 41. Again, these powers will be unaffected by the introduction of an identity card but again a power is available under the draft Identity Cards Bill that would allow a check of a biometric of a person detained under this section if it were not reasonably practical for this information to be obtained by another means.

Mr. Gibb: To ask the Secretary of State for the Home Department whether an individual's unique learner number will be recorded in the National Identity Register under the proposal in the draft Identity Cards Bill. [171918]

Mr. Browne: Schedule 1 to the draft Identity Cards Bill published on 26 April sets out what information may be held on the National Identity Register including the personal reference numbers that may be recorded in any individual's entry. Schedule 1 does not include the unique learner number. Clause 3(4) does allow the Secretary of State to modify Schedule 1 and the information that may be held on the Register. However, any changes must be agreed by Parliament and be consistent with the statutory purposes of the scheme.

Mr. Gibb: To ask the Secretary of State for the Home Department what categories of people resident in the UK for three months or more will not be eligible for the identity card proposed under the draft Identity Cards Bill. [171919]

Mr. Browne: Under Clause 2 of the draft Identity Cards Bill, all individuals over the age of 16 who are residing in the UK for longer than a prescribed period,

proposed to be three months, are eligible to be entered in the National Identity Register and thereby obtain an identity card.

Mr. Gibb: To ask the Secretary of State for the Home Department what information will be *(a)* printed on the face of and *(b)* held but not shown on (i) the identity card proposed under the draft Identity Cards Bill, (ii) the proposed biometric passport and (iii) the proposed biometric driving licence. [171920]

Mr. Browne: The UK Passport Service is planning to implement a facial recognition image biometric in the British passport booklet during 2005. No additional data other than the digital signature which "locks" the data on to the chip will be held but not shown on the bio-data page of the passport.

There has been no firm decision made on the information which will be printed on the face of the identity card and which will be held but not shown on the card. These decisions will be made in the light of work under way on the feasibility of different technologies and analysis with key user groups of the business requirements of the scheme. These arrangements must be approved by Parliament and no information may be held unless it is required for the statutory purposes of the scheme as set out in the primary legislation.

The passport and driving licence may be designated as identity cards under the draft Identity Cards Bill. In which case these documents may require certain additional information to be included in or on the face of the document which reflects the common standards of the identity cards family. However, as set out above no firm decisions have yet been made on what these will be.

Mr. Gibb: To ask the Secretary of State for the Home Department whether the names of people who have not applied for identity cards will be recorded on the National Identity Register *(a)* before and *(b)* after the card becomes compulsory; and whether the names of certain categories of individuals who have not applied for identity cards will be recorded. [172298]

Mr. Browne: The National Identity Register will hold information about those people who have registered and been issued with an identity card. Entries will be created as people apply for identity cards. There is no intention to record on the Register the names of people who have not yet applied for identity cards although the final decision will be made following the detailed design phase.

Clause 2(4) of the draft Identity Cards Bill does provide that in some circumstances, a person who has not applied may be entered into the Register. For example, a failed asylum seeker who has not applied for an identity card but whose information was available may be entered on the Register so that if he applies to stay in the UK again using a different identity, his previous status as a failed asylum seeker will have been recorded.

Mr. Gibb: To ask the Secretary of State for the Home Department which private sector databases will be used to check identities under proposals contained in the draft Identity Card Bill. [172299]

Mr. Browne: Identity Cards: the Next Steps (CM 6020) made clear that applications for one of the family of identity cards will require checks to be made against other databases to help establish that an application for a card is genuine. Data-sharing gateways established for this purpose will be used only when processing applications for cards or related purposes (e.g. when issuing a replacement) and do not confer any general power to share data for wider purposes.

This approach to identity verification follows proposals included in the Cabinet Office study on Identity fraud (published in July 2002) which recommended greater use of biographical checks on applicants for passports and driving licences. The most effective way of confirming this biographical information is to check some of the information provided by applicants with information held on a range of Government and private sector databases. These checks could for example confirm that a person had been known by a certain identity and lived at known addresses for a number of years.

The databases that could be checked would include public sector bodies (such as the National Insurance or Driver and Vehicle Licensing Agency (DVLA) databases) as well as private sector organisations (such as credit reference agencies or banks) but it is at this stage too early to know precisely which databases would be checked.

Information requested would be restricted to that needed to confirm the identity of an individual who has made an application to register. Clause 11 (1) and (2) of the draft Identity Cards Bill published on 26 April places a duty on a person to provide information to the Secretary of State or a designated documents authority for the purposes of verifying an individual's entry to the Register. Clause 11 (4) sets out that the requirement may be imposed on any person specified in an order subject to the affirmative resolution procedure. This means that particular gateways could be established only with the consent of Parliament and for the limited purpose of validating information on the Register.

Mr. Gibb: To ask the Secretary of State for the Home Department if he will list his Department's services which will have access to the National Identity Register without being named on the face of the Draft Identity Cards Bill. [173009]

Mr. Browne: Proposals to permit information held on the National Identity Register to be disclosed without an individual's consent are set out in "Legislation on Identity Cards: A Consultation" [CM6178] published on 26 April.

Clause 20(5) of the draft Identity Cards Bill published on 26 April will permit disclosure of information that does not fall within paragraph 9 of Schedule 1 (access records) if it is made to a prescribed officer of the Secretary of State's department in order to carry out prescribed functions of the Secretary of State. Disclosure of information held in paragraph 9 will be permitted if it is made for purposes connected with the prevention or detection of serious crime and it is authorised under s20 (3) to (6).

Clause 20(5) will allow for disclosure of information held on the National Identity Register to other parts of Government which are the responsibility of a Secretary of State e.g. the Department of Work and Pensions, and will also include disclosure to parts of the Home Office such as the Immigration and Nationality Department (IND), subject to Parliament's consent.

At this stage, it is not possible to list the Home Department's services that may require information from the National Identity Register. In assessing whether a departmental service should be granted disclosure, we will look closely at the justification for this information. Disclosure will only be allowed to specified persons for specified purposes, Parliament's consent will be required and the disclosure arrangements will be subject to proper authorisation procedures with independent oversight.

Brian White: To ask the Secretary of State for the Home Department what research he conducted on the impact of identity theft in countries where identity cards have been introduced. [173049]

Mr. Browne: Home Office officials have had detailed discussions with colleagues involved in the operation of identity card schemes in Italy, Sweden, Germany and the Netherlands and comprehensive information has been supplied by each of the EU member states on the operation of their card schemes. Home Office officials have also liaised with colleagues involved in the operation of card schemes in Singapore and Japan and with officials in countries such as Canada, USA and Australia that do not have card schemes on emerging crime trends.

Many card schemes were developed with specific aims and objectives such as population registration and not specifically implemented for countering identity fraud. As such, many identity cards are issued locally after checking available information, for example, birth certificates and information relating to an applicant's parents. In many countries it is not necessary to give biometric information when applying for an identity card.

"Identity Cards: The Next Steps" (CM 6020) states that applications for one of the family of identity cards will require checks against other databases. These checks would confirm that a person had been known by a certain identity and lived at known addresses for a number of years. This information is more difficult to forge than birth certificates or other similar documents and follows recommendations in "Identity Fraud: A Study" conducted by the Cabinet Office and published in 2002.

Many card schemes in other countries were implemented some time ago and use mainly paper cards, which do not hold biometric data. With the passage of time, there is an increasing risk that fraudsters could obtain access to modern printing technology and use it to produce forged paper cards for the purpose of committing identity fraud. The absence of a central electronic identity register in many countries increases the risks because an identity card (or biometric data) cannot be checked against a centrally held record of that information. Organisations checking a card are therefore able only to make visual checks, for example, to check that the photograph on an identity card looks like the person presenting the card and to check for obvious signs of tampering with the card itself.

In "Identity Cards: The Next Steps" the Government stated that the National Identity Register will link each individual record to a biometric. This will help to prevent multiple identities from being established and allow organisations to check a card at a level appropriate for the service they are providing.

While a modern and effective card scheme would help to combat identity fraud, it does not mean that every card scheme, especially those that have been implemented some time ago, would have a similar or significant effect on countering this type of crime unless they have been regularly updated to stay one step ahead of fraudsters. It is therefore not possible to assess the effect that other card schemes have had on identity fraud.

Mr. Oaten: To ask the Secretary of State for the Home Department what estimate he has made of the number of adults whose details will appear on the National Identity Register by 2013. [172403]

Mr. Browne: We would expect that by 2013, 80 per cent. of the economically active population would be entered on the National Identity Register and therefore have an identity card. The latest figures (relating to December 2003 to February 2004) show that there are currently 29.756 million economically active people aged 16 and over in the United Kingdom, 80 per cent. of which is around 23.8 million people.

Immigration

Mr. Burns: To ask the Secretary of State for the Home Department if he will make a statement on his review into whether all immigrants should be tested for HIV upon entry into the United Kingdom; and when the review will be completed. [174039]

Mr. Browne *[holding answer 18 May 2004]:* I refer the hon. Member to the response given by my hon. Friend the Minister for Public Health on 8 March 2004, *Official Report*, column 1334W.

Mr. Oaten: To ask the Secretary of State for the Home Department how many individuals have been *(a)* refused permission to board and *(b)* arrested by UK authorities for (i) immigration offences and (ii) other offences following checks by French immigration staff on passengers boarding ferries at Dover; and if he will make a statement. [172404]

Mr. Browne: Since the implementation of the juxtaposed controls at Dover and Calais on 1 February 2004 the Police aux Frontieres (French authorities) have operated an immigration control in Dover.

The information requested is not currently published and would therefore not normally be released.

Tom Cox: To ask the Secretary of State for the Home Department what the longest unresolved immigration case being dealt with by his Department is; when the person concerned in this case first arrived in the United Kingdom; and if he will make a statement. [173538]

Mr. Browne: Information on individual decisions, up to and including the outcome of all potential appeals, is not readily available and could be obtained only by examination of individual case files. This would incur disproportionate cost.

David Davis: To ask the Secretary of State for the Home Department how many arrests for immigration offences there were in each of the last five years in each *(a)* police force area and *(b)* local authority, broken down by (i) month and (ii) offence. [167966]

Mr. Browne: Information collected centrally is based on persons arrested for 'notifiable' offences within main offence groups only, and as such it does not separately identify immigration offences in the "Other" offence group within which they fall.

Justice and Home Affairs Council

Mr. Hood: To ask the Secretary of State for the Home Department what the outcome was of the Justice and Home Affairs Council held on 29 to 30 April 2004; what the Government's stance was on the issues discussed, including its voting record; and if he will make a statement. [171291]

Caroline Flint: I represented the United Kingdom at the Justice and Home Affairs Council held in Luxembourg on 29 April 2004. Good progress was made on a number of issues and the Council finished a day early.

Firstly, subject to Member States' parliamentary scrutiny reserves, including the UK's, and completion of the certificate that will accompany the Framework Decision, Ministers reached a general approach on the Framework Decision on the application of the principle of mutual recognition to confiscation orders.

The Eurojust President, Mike Kennedy, then presented the Eurojust Annual Report for 2003 noting, in particular, that there had been a 50 per cent. increase in cases referred to Eurojust compared to the previous year. The Commission indicated that it planned to publish its report on Member States' implementation of the Council Decision establishing Eurojust by the end of June. Ministers then agreed Council conclusions noting the report and requesting the Presidency to report to the Council with recommendations for further enhancing the role of Eurojust.

The Presidency reported on progress in meeting the European Council conclusions on counter terrorism, but acknowledged that much remained to be done. It was therefore preparing a comprehensive roadmap on implementation of the counter terrorism strategy, indicating the body or group responsible for each action and deadlines for completion.

The Commission said that it was preparing Communications on practical measures for the exchange of information and on the interoperability of data in the field of visas and border management. It also wanted to bring forward proposals for allowing Schengen Information System data on lost and stolen passports to be sent to Europol. In order to launch the invitation to tender in September the Commission recommended adoption of the Council Decision establishing the Visa Information System.

I presented an initiative on the retention of telecommunications traffic data and explained why the UK believes that a common EU approach to the retention of this data is essential. I outlined some of our practical experience of investigations and prosecutions which had depended on such data to establish the link between the suspects and offences in question.

The EU counter-terrorism coordinator welcomed the progress made and suggested that work now needed to focus on practical action and implementation of agreed legislation.

The Council was unable to secure the required unanimity on the decision as to who should be appointed as the new Europol Director. The Presidency therefore concluded that the Council would need to return to the issue in June. In the meantime the Europol Management Board would need to consider whether interim arrangements would need to be put in place pending a final decision.

Discussion on the draft Asylum Procedures Directive focussed on the application of the safe third (i.e. non EU) country concept (Articles 27 and 35A).

I made clear that the UK would not accept anything which would prevent us from pursuing the approach in the Asylum and Immigration (treatment of claims etc.) Bill whereby an applicant who has transited a safe third country before coming to the UK may only challenge his removal on ECHR grounds. One other Member State initially felt that consideration should be given to all aspects of an applicant's claim. However, following discussion with them, the Presidency and the Commission, a compromise strengthening the wording on individual consideration and guaranteeing as a minimum that the applicant could bring a challenge on the ECHR elements in his claim was agreed.

It was also agreed, in relation to Article 35A, which sets out what may happen when an asylum applicant enters a Member State from a bordering country designated as safe, that Member States' national lists of these safe third countries would expire once a common EU list was in place.

All other reservations, apart from four parliamentary scrutiny reservations, including the UK's, were lifted from the text and the Council reached a General Approach, pending submission of the draft Directive to the European Parliament for re-consultation. This is a good result for the UK as the draft Directive will allow us to maintain all significant elements of our domestic asylum procedures.

It was also agreed, in relation to Article 35A, which sets out what may happen when an asylum applicant enters a Member State from a bordering country designated as safe, that Member States' national lists of these safe third countries would expire once a common EU list was in place.

All other reservations, apart from four parliamentary scrutiny reservations, including the UK's, were lifted from the text and the Council reached a General Approach, pending submission of the draft Directive to the European Parliament for re-consultation. This is a good result for the UK as the draft Directive will allow us to maintain all significant elements of our domestic asylum procedures.

The Council also agreed a Minutes Statement, placing Bulgaria and Romania on a common minimum EU list of safe countries of origin and committing the Council to complete work on the definitive list of such countries prior to re-consulting the European Parliament.

Under Any Other Business the Commission confirmed that it had been in discussions with key third countries about visa requirements for the new Member States and that it would be presenting a proposal to facilitate the procedures relating to short stay visas in relation to EU and Russian citizens.

Finally, I have placed in the Libraries of both Houses a copy of the list of "A" points which, with the exception of item 25, were approved (see documents 8847/04 PTS A 19 and ADD 1). This included item 20 on the Obligation of Carriers to Communicate Passenger Data. The UK believes that this will be a useful tool in helping to tackle terrorism and organised crime and we therefore supported the European Council Declaration on Terrorism calling for its adoption. However, as a Member State initiative, it would have fallen if not agreed before 1 May 2004 and, regrettably, I therefore felt unable to block its adoption despite it being held under scrutiny in the House of Lords.

Marsham Street

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department for what reasons additional funding is necessary for works on Marsham Street; and how this money will be used. [165877]

Fiona Mactaggart: When the contract between the Home Office and Anne's Gate Property (AGP) for 2 Marsham street was signed, it was recognised that changes to the original specification were likely to be required during the contract period—in particular for security, information communication technology (ICT) cabling and external design. It was not at the time possible to determine precisely what those changes might be, and the contract therefore made provision for a further £11 million to be raised via a Variation Bond.

The final scope of the changes, and their cost, is still being determined. They will, however, include security and business continuity enhancements to provide greater protection and resilience; enhancements to the design to support the Government's Better Public Buildings initiative; compliance with the latest standard of ICT cabling; internal changes to better meet business requirements; and some spend to save investments in energy efficiency, internal communications services and the provision of electronic rather than manual IT switching. The Home Office has made provision for a contribution of £2 million towards the cost of the additional works.

Bernice Wiarimu Kamau

Mr. Malins: To ask the Secretary of State for the Home Department what the total cost was of removing Ms Bernice Wairimu Kamau to Nairobi, broken down by each itemised cost associated with the removal. [172795]

Mr. Browne *[holding answer 13 May 2004]:* Information held by the Immigration and Nationality Directorate (IND) relating to individuals is confidential and it is not our policy to disclose it.

Any attempt to calculate the cost of removal on individual cases would need to take into account a large number of factors and this could only be done at disproportionate cost.

Neighbourhood Watch

Mr. Hoyle: To ask the Secretary of State for the Home Department if he will ensure that public liability cover for local neighbourhood watch districts will be guaranteed if the National Neighbourhood Watch organisation goes into liquidation. [173421]

Ms Blears *[holding answer 14 May 2004]:* Neighbourhood Watch Schemes are important partnerships between communities, the police and local authorities, and they will continue to have our support.

If the need arises we will take steps to safeguard existing arrangements for local organisations.

Parliamentary Questions

Mr. Clappison: To ask the Secretary of State for the Home Department when he will reply to the question tabled by the hon. Member for Hertsmere on 23 April 2004, reference 168914. [172361]

Mr. Browne *[holding answer 11 May 2004]*: I replied to the hon. Member on 10 May 2004.

Hugh Robertson: To ask the Secretary of State for the Home Department when he will provide a substantive reply to the question tabled by the hon. Member for Faversham and Mid Kent, ref 168371, on processing of seasonal agricultural workers scheme visas from Romania and Bulgaria. [172926]

Mr. Browne *[holding answer 13 May 2004]:* I replied to the hon. Member on 30 April 2004. The PQ reference number relating to the processing of seasonal agricultural workers scheme visas from Romania and Bulgaria is 168377 and not 168371 as shown above.

Passports

Mr. Oaten: To ask the Secretary of State for the Home Department which *(a)* private companies and *(b)* Government Departments have taken part in the UK Passport Service's Personal Identification Project; which databases were used in the exercise; and how the scheme is being evaluated. [173175]

Mr. Browne: Two private companies have been involved in the trials. These are Experian in 2001 and Equifax from 2002 to date. The databases used are:

Electoral roll

County court data within the public domain

Linked addresses (Equifax)

Date of birth validation (Equifax)

Previous searches (Equifax)

INSIGHT for ID verification (Equifax)

Thompson Data (Business telephone directory)

Companies House data

BAGS

BT 192 Database.

Three Government Departments are working with the UK Passport Service in this project:

DVLA to verify driving licence details submitted against current records held on the drivers record;

DWP to verify national insurance numbers submitted against current DWP records;

IND to verify Naturalisation Certificates submitted against lists of valid certificates.

No data is returned from these systems, only confirmation of the accuracy of data supplied.

The current trials are assessing the potential benefits to applicants and UKPS in terms of customer service against security of identity. Statistics are being gathered to show the impact in both these areas.

Mr. Wareing: To ask the Secretary of State for the Home Department how many passports have been lost or mislaid by the Immigration and Nationality Directorate since 31 January; and if he will make a statement. [173023]

Mr. Browne *[holding answer 17 May 2004]:* For the period 1 February 2004 to 30 April 2004, a total of 169 letters have been issued for passports reported lost or mislaid in the Immigration and Nationality Directorate. For the same period last year, 185 letters were issued. This represents a drop of 9 per cent..

People Trafficking

Mr. Jenkins: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions have taken place with European Union countries regarding the issue of people trafficking into Europe. [172508]

Mr. Browne: The UK is working with EU partners and countries beyond the borders of the EU to combat the trafficking of people.

The UK participated fully in the drafting of the EU framework decision on trafficking and has been involved in discussions at EU level on provisions within this and the Protocol to Prevent, Suppress and Punish Trafficking in Persons which supplements the United Nations Convention against Trans-National Organised Crime. We are currently involved with, and in discussion with EU partners about, the drafting of a Council of Europe Convention on trafficking.

Through Reflex, the NCS chaired multi-agency taskforce on organised immigration crime, the UK continues to discuss and work in partnership with other EU countries and organisations such as Europol and Eurojust to take effective enforcement action against trafficking.

Building relationships with international partners is an important element of the UK strategy to combat trafficking. The UK has successfully bid for a twinning project under the EU Phare scheme in the Czech Republic. The aims of the project are to strengthen the fight against trafficking into and through the Czech Republic. This will be run in partnership with the Czech Republic and the Netherlands and is due to be launched in June 2004.

Prisons

Bob Spink: To ask the Secretary of State for the Home Department how many prisoners were held in prisons in England and Wales for drug-related offences in each of the last five years, broken down by class of drug. [163549]

Paul Goggins: On 30 November 2003 there were 11,777 persons held in Prison Service establishments in England and Wales, under sentence or on remand, for drugs offences. Equivalent figures for each of the last five years can be found in tables 1.5 and 2.8 of the publication 'Prison Statistics England and Wales'. A copy of this publication is available in the House of Commons Library.

The number of prisoners held under sentence in Prison Service establishments for drugs offences in 1999 and 2000, broken down by type of drug, is given in the table. Information for later years is not yet available.

Table 3.11 Persons under sentence in Prison Service establishments[1] for drug offences on 30 June: by principal drugs offence[2], type of controlled drug and year, England and Wales

		Estimated number of persons[3] 2000		
Type of drug	*1999*	*Male*	*Female*	*All persons*
Cocaine	1,400	1,000	300	1,350
Crack	250	300	0	350
Heroin	2,750	2,900	400	3,300
LSD	100	50	0	50
Ecstasy-type	650	800	50	900
Methadone	50	50	0	50
Amphetamines	500	300	0	300
Cannabis	1,650	1,200	100	1,300
Other drugs	950	900	50	950
All drugs	8,150	7,500	950	8,450

[1] Excluding persons committed in default of payment of a fine.

[2] In the case of offenders with two or more sentences of immediate custody the offender is shown against the longest one which is the principal drugs offence.

[3] Total number of persons under sentence in prison offences by type of drug offence and average time spent under sentence provided by Prison Statistics. Breakdown by type of drug estimated from drug offenders sentenced to immediate custody by sentence length. Figures rounded to nearest 50.

Mr. Maude: To ask the Secretary of State for the Home Department how many prisons were operating at greater than their certified normal accommodation rate in each of the last 10 years. [166797]

Paul Goggins: I will write to the right hon. Member.

Probation Service

Julie Morgan: To ask the Secretary of State for the Home Department how many of the additional probation staff employed since December 1999 are trainee probation officers; and what their average caseload is. [168392]

Paul Goggins: There have been 3,646 trainee probation officers appointed since 1998, and there are 780 projected trainee officer appointees for 2004.

It is not possible to calculate the average caseload of a trainee because this varies significantly during the two-year programme, according to their stage of training.

Trainee probation officers are classified as supernumerary to the workforce, which means that they do not form part of the establishment for casework purposes. During their training they undertake the amount and type of cases appropriate to their experience and knowledge and identified development needs. Their casework contribution is therefore incidental to meeting their training needs.

The information previously collected and held on starters and leavers to the service is very limited in terms of the analysis that can be performed against it. With this in mind, since 1999, the number of probation staff[1] (senior probation officers, senior practitioners, probation officers, trainee probation officers and probation services officers), employed by the National Probation Service has increased by 3,089 full-time equivalents, which equates to a growth of 31.9 per cent. The proportion of this, which can be broadly attributed to growth among qualified probation staff, is 12.5 per cent. with the remainder being a growth in probation services officers.

[1] These figures exclude staff employed in family Court Welfare in 1999 and 2000, as these were subsequently transferred in 2001.

Commission for Racial Equality

Dr. Iddon: To ask the Secretary of State for the Home Department what involvement his Department has had in the allocation of Commission for Racial Equality section 44 funding for 2004–05. [172864]

Fiona Mactaggart *[holding answer 13 May 2004]:* The responsibility for setting criteria for section 44 funding, assessing applications against those criteria and making final decisions lies with the Commission for Racial Equality (CRE). The Home Office role is to agree the level of funding which the CRE proposes to allocate. We welcome the CRE's policy of using the Getting Results programme to support any innovative project which makes a difference to race equality and good relations within its local community.

Road Safety

Mr. Burns: To ask the Secretary of State for the Home Department (1) how many speeding fines were issued in Essex in *(a)* 2001 and *(b)* 2002; [174723]

(2) how many speeding fines were paid by motorists in Essex in *(a)* 2001 and *(b)* 2002; and how many speeding offences were detected in Essex in (i) 2001 and (ii) 2002. [174724]

Caroline Flint *[holding answer 21 May 2004]:* Available information showing the total number of police disposals and court proceedings for speeding offences within Essex police force area for 2001 and 2002 are given in the tables.

Information on the number of fixed penalties or fines paid for speeding offences is not collected centrally.

Table A: Fines and fixed penalties data for speeding offences[1], Essex, 2001 and 2002

Number of offences

	2001	*2002*
Court proceedings fines issued	9,131	14,570
Fixed penalty notices issued	168,885	199,201

[1] Offences under the Road Traffic Regulation Act 1984 and Motor Vehicles (Speed Limits on Motorways) Regulations 1973.

Table B: Speeding offences[1] detected by type of action, Essex, 2001 and 2002

Number of offences

Type of action	*2001*	*2002*
Court proceedings total findings of guilt	9,208	14,660
Fixed penalty notices issued	168,885	199,201
Written warnings issued	49	—
Total	178,142	213,861

[1] Offences under the Road Traffic Regulation Act 1984 and Motor Vehicles (Speed Limits on Motorways) Regulations 1973.

Sexual Offences

Tom Cox: To ask the Secretary of State for the Home Department (1) how many foreign nationals convicted by courts in the United Kingdom of being involved in the trafficking to and within the United Kingdom of women and children for sexual purposes have been sent to prison and upon their release have been, or will be, deported from the United Kingdom in each of the last five years; [173534]

(2) how many *(a)* male and *(b)* female foreign nationals convicted by courts in the United Kingdom of sexual offences and sent to prison have been deported on their release from prison in each of the last five years. [173535]

Mr. Browne: Information on the nationality of offenders convicted in the UK and on offenders deported following their release from prison is not collected centrally and would be available only at disproportionate cost.

A person convicted of a criminal offence may be recommended for deportation by the court which has the power to sentence him. The Secretary of State also has the power to consider a person for deportation on conducive grounds. However, we would not seek to deport a person who had an outstanding claim for asylum.

Departmental Expenditure (Sittingbourne and Sheppey)

Mr. Wyatt: To ask the Secretary of State for the Home Department what the expenditure of his Department in the constituency of Sittingbourne and Sheppey was between *(a)* 1992 and 1997, *(b)* 1997 and 2001 and *(c)* 2001 and 2004. [159492]

Fiona Mactaggart: The information is as follows:

Funding for Kent police

Grants for policing are not hypothecated to individual areas such as Sittingbourne and Sheppey. Grants are allocated to Kent police as a whole and it is for the Chief Constable to decide how best to deploy the resources across the force area.

Police grant distribution has been formula-based since 1995–96. Prior to that, grant was based on a proportion of forces' net expenditure.

Home Office police grant is one element only of the total general police grant forces received. Revenue Support Grant and National Non Domestic Rates make up the total of the general grant. These have not been included in the answer as they are administered by the Office of the Deputy Prime Minister (ODPM).

In line with all forces in England and Wales, Kent police will receive a general grants increase of 3.25 per cent. next year. Their allocation is £182.6 million. Kent is one of the shire forces who benefit most from this arrangement. If the formula alone had been applied, they would have received £167.9 million. Because a floor of 3.25 per cent. on top of last year's grant was given, they will in fact receive £182.6 million, £14.7 million more.

In addition, funding is provided to forces for a number of specific programmes such as the Crime Fighting Fund, to assist the recruitment of extra police officers, and the Rural Policing Fund, to enhance policing in areas with the most widespread populations.

Active Community Unit grant

For the past three years via our mentoring programme the Home Office has been providing financial support to mentoring organisations throughout England. Home-Start Sittingbourne and Sheppey successfully bid for three years project funding under the Active Community Unit's Mentoring Fund in 2001–02. The project helps those families experiencing difficulties and breakdown. The organisation received revenue grants of £6,219 in 2001–02, £12,715 in 2002–03 and £13,034 in 2003–04. The organisation also received a one-off capital grant of £2,682 in 2002–03 to buy equipment to support the project. Home Office funding has (finished in March 2004) now ceased.

[1] Capital grant figures prior to 2000–01 include an element of grant specifically for major capital schemes under the Priority Planning List scheme. Figures include Premises Improvement Fund allocations (£500,000 in 2002–03 and £1 million in 2003–04). Figures exclude revenue support for capital provided by ODPM and Supplementary Credit Approvals/Supported Capital Expenditure.
[2] Estimated figures for 2004–05. Subject to change.

2. 1995–96 to 2004–05 figures—Police Grant Reports.

Terrorism

Mr. Drew: To ask the Secretary of State for the Home Department what discussions he has had with *(a)* the Department for Environment, Food and Rural Affairs and *(b)* police authorities on a strategy to combat illegal access to fertilisers to prevent use by terrorists. [169328]

Mr. Blunkett: Policy on protective and preventative security measures to counter the threat of terrorism is directed by a ministerial group which I chair. I would also refer to the answer given by my right hon. Friend the Minister for Rural Affairs and Local Environmental Quality on 27 April 2004, *Official Report*, column 857W.

DEPUTY PRIME MINISTER

Advisers/Consultants

Bob Spink: To ask the Deputy Prime Minister how much his Department and its agencies and non-departmental public bodies spent on external consultants and advisers each year since its creation. [172397]

Yvette Cooper: The Office of the Deputy Prime Minister was created in May 2002. In the two years since then the spend on external consultants and advisers for the Office of the Deputy Prime Minister, its agencies and the non-departmental public bodies are as follows:

	£
The Office of the Deputy Prime Minister	
2002–03	76,000,000
2003–04	47,000,000
The Executive agencies and NDPBs	
2002–03	5,356,822
2003–04	6,305,906

The above figures do not include the Audit Commission, as its expenditure is an operational matter. I will ask the Chief Executive to write to the hon. Member.

Antisocial Behaviour

Mr. Goodman: To ask the Deputy Prime Minister what responsibilities housing associations have to *(a)* monitor and *(b)* control antisocial behaviour by tenants in their properties. [175405]

Keith Hill: The Government do not believe that placing a statutory duty on housing associations to act on antisocial behaviour is the best way forward. To do so would risk the danger of landlords being endlessly caught up in long and expensive court cases to establish whether any action taken by the landlord met the statutory requirement. This would not help in tackling the problem.

The Government have amended the Housing Act 1996, through the Anti-social Behaviour Act 2003, to place a duty on all social landlords to publish policies and procedures on tackling antisocial behaviour. The Office of the Deputy Prime Minister is consulting on statutory guidance at the moment; this guidance contains a section on monitoring.

Early Retirement

Bob Spink: To ask the Deputy Prime Minister how many employees in his Department took early retirement in the last financial year; and at what total cost. [171744]

Yvette Cooper: The number of employees who took early retirement from the Office of the Deputy Prime Minister, its agencies and the Government office network in the last financial year was 16, at a cost of £2.8 million.

East of England Regional Assembly

Alistair Burt: To ask the Deputy Prime Minister how many *(a)* letters and *(b)* other representations he has received from individuals in support of an elected East of England Regional Assembly. [175870]

Mr. Raynsford: Between 2 December 2002 and 18 May 2004 the Office of the Deputy Prime Minister has received 79 e-mails and letters from individuals and organisations in connection with the White Paper "Your Region, Your Choice" relating to an elected regional assembly for the Eastern region. One individual and one parish council expressed support for an elected regional assembly for the Eastern region. 43 correspondents opposed the idea. The remainder of the inquirers either did not express a definite opinion or were merely seeking information. In the light of this response, the Office of the Deputy Prime Minister has not proposed a referendum in the Eastern region on an Elected Regional Assembly.

Fire Service

Mr. Caton: To ask the Deputy Prime Minister (1) when he expects personnel in the fire services who respond to emergencies to be provided with insurance cover for terrorist incidents; [171857]

(2) what action he is taking to ensure that personnel in all fire services who respond to emergencies are provided with insurance cover for terrorist incidents. [171858]

Mr. Raynsford: There are provisions within the Firefighters' Pension Scheme and Conditions of Service which provide for awards in the event of death or injury either occurring in, or as a result of, the exercise of duty.

Employer liability insurance is a matter for fire and rescue authorities who have a duty as employers to ensure that the necessary cover is provided.

The Office of the Deputy Prime Minister has had discussions with the Association of British Insurers regarding private insurance arrangements entered into by individual firefighters to determine the extent of any problem about life insurance policies. I understand that in the case of most life insurance policies there are no terrorist exclusions although individuals should check their policies.

Where occupation is a determinant of risk I understand that there should be no increase in premiums.

Housing (North East Lincolnshire)

Mr. Austin Mitchell: To ask the Deputy Prime Minister what residual housing costs will fall on North East Lincolnshire Council's general fund following the transfer of housing stock; and what further public consultation will take place on the effects of the changes. [174583]

Keith Hill: The Office of the Deputy Prime Minister is working with North East Lincolnshire Council to identify and manage the residual housing costs and the actions that the Council will take to manage this. It is usual for such costs to be finalised during the period between ballot and transfer.

The Office of the Deputy Prime Minister understands that the Council intends to embark on a series of newsletters, letters to tenants and probably a formal consultation process specifically around the capital improvement programme.

Local Authority Officers

Mr. Nigel Jones: To ask the Deputy Prime Minister under what circumstances councillors who have made inappropriate appointments of council officers may be surcharged for *(a)* salary costs, *(b)* legal costs and *(c)* medical costs incurred because of the appointments. [174944]

Mr. Raynsford: The Local Government Act 2000, which provided for the establishment of the Standards Board for England and the new regime for handling allegations of misconduct by councillors, repealed the powers to surcharge councillors.

Mr. Nigel Jones: To ask the Deputy Prime Minister whether a local authority has the power to reallocate the duties of a returning officer for local elections when the current returning officer is one of the authority's statutory officers and a designated independent person has been appointed under the Local Authorities (Standing Orders) (England) Regulations 2001 to investigate allegations of misconduct by that statutory officer. [174973]

Mr. Raynsford: Pursuant to section 35(1) of the Representation of the People Act 1983 non- metropolitan county councils have the power to appoint a returning officer for local elections of councillors of the county, and district councils have the power to appoint a returning officer for elections of councillors of the district and a returning officer for elections of councillors of parishes within the district.

The precise terms of the returning officer's appointment are a matter for the local authority.

Local Government Finance

Chris Ruane: To ask the Deputy Prime Minister what the total central funding for local government was in each of the last 25 years, expressed at today's prices. [175003]

Mr. Raynsford: The total central funding for local government for the period 1981–82 to 2003–04, expressed at 2003–04 prices, appears in the table.

Year	*£ million*
1981–82	26,462
1982–83	25,400
1983–84	24,906
1984–85	24,527
1985–86	22,837
1986–87	22,575
1987–88	22,762
1988–89	22,078
1989–90	21,063
1990–91	33,821
1991–92	42,364
1992–93	43,986
1993–94	42,814
1994–95	43,588
1995–96	42,755
1996–97	42,580
1997–98	41,676
1998–99	42,707
1999–2000	44,233
2000–01	47,131
2001–02	49,537
2002–03	50,654
2003–04	53,135

The data are taken from the RS (outturn) forms for all years except 2003–04, when the data are taken from the RA (budget) form. The forms are completed each year by individual local authorities.

For the period 1981–82 to 1989–90 non-domestic rates were collected and retained locally. As such, they are not regarded as a central government grant. However, from 1990–91 onwards non-domestic rates were collected locally, pooled on a national basis and redistributed by central Government to each authority from the non-domestic pool. Consequently, figures for non-domestic rates from 1990–91 have been included above. From 1993–94 onwards the non-domestic rates figure includes City offset.

The figures have been revalued for previous years at 2003–04 prices using the current Her Majesty's Treasury GDP deflators.

Planning (North Devon)

Nick Harvey: To ask the Deputy Prime Minister when he will decide whether to call in planning application no. 31760 (Anchorwood Bank, Barnstaple) to North Devon district council; and in doing so, what account he will take of the area's housing and employment needs. [175768]

Keith Hill: The application was formally referred to the Secretary of State, my right hon. Friend the Deputy Prime Minister by North Devon district council as it represents a Departure from the Development Plan for the area. A decision will be made in due course.

The hon. Member for North Devon can rest assured that all material for planning considerations will be taken into account in the consideration of the application.

Show People

Miss McIntosh: To ask the Deputy Prime Minister, (1) on what basis a site may be ruled inappropriate for locating show people by his Department; [175019]

(2) what definition his Department uses of a realistic assessment of the amount of accommodation required in relation to identifying sites for show people; [175018]

(3) what account of the rights of local residents *(a)* his Department and *(b)* local planning authorities take in identifying appropriate sites for winter quarters for show people; and what weight is attached to the (i) appropriateness of the site, (ii) suitability of the location, (iii) availability and adequacy of vehicular access and (iv) availability of existing locations in taking such decisions. [175017]

Keith Hill: All applications for planning permission are decided on their individual merits with reference to the local authority's development plan for the area and other material considerations including national planning policy guidance. The Government's advice to local planning authorities on travelling showpeople is contained in Circular 22/91 'Travelling Showpeople'.

Social Housing

Mr. Jim Cunningham: To ask the Deputy Prime Minister how many non-decent social homes there are; how many there were in 1997; and what funds he has allocated to reducing the numbers in future years. [174843]

Keith Hill: In 1997 there were 2.13 million non-decent homes in the social sector. The estimate for March 2004 is 1.17 million.

Between April 2004 and 2006 Local Authority plans indicate that they will spend £5.7 billion on their existing stock, the majority of which is allocated by Central Government with some from Local Authorities' own resources. This includes work beyond the decent homes standard and work to prevent dwellings from becoming non-decent as well as work to the existing non-decents. Registered Social Landlords will mainly use their own resources on improving their stock.

TRADE AND INDUSTRY

China (Renewable Energy)

Richard Burden: To ask the Secretary of State for Trade and Industry what steps she is taking to encourage the development of renewable energy in China. [174020]

Mr. Timms: The Department of Trade and Industry maintains close contact with the Chinese authorities with regard to energy matters, and including renewable energy. This contact is managed day-to-day through the Commercial Sections of the British diplomatic posts in China, and export and trade promoters of UK Trade and Investment and of the DTI's New and Renewable Energy Programme.

We are currently working with the Chinese to assist with their design and drafting of regulations to increase their use of renewable energy over the coming years. In close co-operation with the Renewable Energy and Energy Efficiency Partnership (REEEP), we received a delegation of Chinese law makers in March, for a programme of meetings when they were able to discuss the issues involved with UK Government Departments and with UK industry. In May we sent a specialist who works with our Distributed Generation Working Group, and a Trade Promoter of the DTI's New and Renewable Energy Programme, to Beijing to join a working group developing the drafting of these regulations, which are expected to come into force next year.

We will continue to support this initiative, and also to promote contact between companies and industry bodies of our two countries. We have commissioned the development of a website designed specifically to make available information on renewable energy capabilities and opportunities in each country. This website is nearing completion, and can now be viewed on www.ukchinarenewables.co.uk. We understand that a UK specialist wind energy company is once again going to engage in training Chinese companies in the development of wind energy, in June; at least partially as a result of our trade promotional activities. And we are preparing to sponsor a presence by UK industry at a wind energy conference and exhibition in Beijing at the end of October.

Accountancy Standards

Mr. Willetts: To ask the Secretary of State for Trade and Industry what representations the Government has made to the European Commission in respect of *(a)* IAS 39 and *(b)* IAS 32; what assessment she has made of their impact on British (i) insurance companies and (ii) pension schemes; and if she will make a statement. [172916]

Jacqui Smith: The Government have made it clear to the European Commission that the adoption of all standards is essential to the success of the EU's approach to accounting harmonisation. It would be difficult for Europe to maintain international credibility without key standards on financial instruments.

We accept that IAS 32 and 39 are not perfect standards, but experience from countries where similar standards are in use show that concerns about their impact are exaggerated. Discussions with the British insurance industry indicate that companies are primarily concerned now to get the finalised standards in place so they can move forward. IAS 32 and 39 are not expected to have any particular impact on pension schemes.

Fuel Prices

Mr. Redwood: To ask the Secretary of State for Trade and Industry what the total tax payable on the average pump price of a litre of unleaded petrol was on *(a)* 1 May 2003, *(b)* 1 January, *(c)* 17 March and *(d)* 17 May 2004. [174573]

Mr. Timms: Pump prices are not available for the specified dates. The table below gives the average prices for ultra low sulphur petrol on the Monday closest to the date.

Date	*Amount of Duty per litre*	*Amount of VAT per litre*	*Pump Price per litre*
28 April 2003	45.82	11.53	77.42
29 December 2003	47.10	11.31	75.94
15 March 2004	47.10	11.53	77.39
17 May 2004	47.10	12.14	81.49

Source:
DTI

Bribery/Corruption

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many allegations of overseas bribery and corruption were received by her Department since the date that would not incur disproportionate costs. [174004]

Mr. Mike O'Brien: The DTI has received one allegation of overseas bribery. Under the terms of the published memorandum of understanding copy in Libraries of the House, this was passed on to NCIS for investigation.

Civil Servants

Bob Spink: To ask the Secretary of State for Trade and Industry if she will list for each civil service grade within her *(a)* Department and *(b)* Department's executive agencies, the total number of staff employed, broken down by (i) gender, (ii) ethnic group and (iii) age group; and how many are registered disabled. [166396]

Ms Hewitt: Data on staffing levels in the Civil Service is collected by the Cabinet Office and published in Civil Service Statistics. A copy of Civil Service Statistics, 2002 is available in the Libraries of the House and at http://www/civil-service.gov.uk/statistics. The 2003 edition will be published in summer 2004.

Company Liquidations

Mr. Sheerman: To ask the Secretary of State for Trade and Industry how many redundancies have been made by *(a)* companies and *(b)* administrators in each of the last 10 years. [173827]

Mr. Sutcliffe: The following table shows the available statistics. Estimates of the total number of employees made redundant each year are from the Office for National Statistics' Labour Force Survey which is based on a sample of over 61,000 households. The estimates are subject to sampling variability. The statistics of employees made redundant because their employer has become insolvent are from records of claims made to Redundancy Payments Offices. Employees of insolvent employers may claim redundancy payments and other contractual debts such as unpaid wages, notice pay and outstanding holiday pay. Though some qualifying employees may not make a claim, it is thought that almost all do.

Estimates of employees made redundant each year in Great Britain

Thousand

	Total number of employees made redundant: Estimates from the Labour Force Survey	*Number of employees making a claim to a Redundancy Payments Office because of the insolvency of their employer*
1994	[1]	[1]
1995	680	[1]
1996	623	[1]
1997	610	[1]
1998	697	75
1999	686	82
2000	639	91
2001	722	106
2002	700	99
2003	580	91

[1] Not available.

Mr. Sheerman: To ask the Secretary of State for Trade and Industry if she will take steps to ensure that the administration of a company following its liquidation is used as an effective tool to safeguard the interests of shareholders and stakeholders, including employees. [173853]

Mr. Sutcliffe: The Enterprise Act 2002 introduced changes that allow a liquidator to apply to court for an administration order. The court would have to be satisfied that the company would achieve the purpose of administration, the primary objective of which is to rescue the company as a going concern and failing that to achieve a better result for the creditors than on a winding up. If companies and their businesses can be rescued rather than wound up, then the outcome will be better for the company itself, its employees, its creditors, its shareholders and the economy as a whole.

Corporate Identity Theft

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry (1) what action is being taken to deal with the problems of industrial sabotage as a result of corporate identity theft; [174691]

(2) what action is being taken to encourage UK firms to take precautions against corporate identity theft. [174692]

Mr. Sutcliffe: Companies House is considering what steps it can actively take within the scope of the present law to reduce the risk of corporate identity theft. In particular it is considering further enhancing its electronic filing services to provide greater security for companies that feel at risk. Companies House is also an active member of the North East Fraud Forum, which is a unique partnership between the public and private sectors to share knowledge and experience with a view to defeating economic crime.

However, this is also a matter for companies themselves to consider how best to protect themselves against the risk of corporate identity theft. Companies House also offers a service known as "Monitor" which companies can subscribe to which will alert them to the filing of any documents on their public record. Companies can also easily make regular checks of their public record on the Companies House Website (companieshouse.gov.uk) to make sure their records reflect the true position.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many cases of corporate identity theft have been reported in each of the last five years. [174693]

Mr. Sutcliffe: Companies House began to record figures for corporate identity theft as a particular statistic in May 2004. It would be of disproportionate cost to isolate allegations of corporate identity theft from the previous records of all complaints about the false filing of documents.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what assessment has been made of the costs to *(a)* UK consumers and *(b)* UK companies of corporate identity theft in each of the last five years. [174694]

Mr. Sutcliffe: No such assessments have been made.

Democratic Republic of the Congo

Norman Lamb: To ask the Secretary of State for Trade and Industry whether her Department is investigating allegations of breaches of OECD

guidelines by British-based companies and individuals made by the UN Panel of Experts in respect of the Democratic Republic of the Congo. [175511]

Mr. Mike O'Brien: A formal complaint was never lodged against De Beers. However following the final UN Expert Panel report and discussions between De Beers and the U.K. National Contact Point (NCP) for the OECD Guidelines, an NCP Statement was published on 5 May 2004 and is available on the U.K. OECD Guidelines webpage (http://164.36.164.37/ewt/debeers.doc)

The NCP is not an investigatory body. Its role, as defined in the Guidelines, is one of facilitation and mediation between the parties. This presupposes the existence of a complainant.

If the NCP is in receipt of information (e.g. from the UN expert panel) this can be put to the company, but without a complainant the NCP cannot engage in the dialogue process envisaged by the Guidelines.

Following repeated requests for evidence over a six month period, the UN has now agreed to provide copies of their background documentation. This arrived on 17 May 2004 and is currently being examined in detail to see what it adds to the report. A decision can then be taken as to the appropriate way forward on each company concerned.

Norman Lamb: To ask the Secretary of State for Trade and Industry (1) what information her Department has received from the UN and the panel of experts on the Democratic Republic of the Congo in support of allegations against British-based companies or individuals made by the panel of experts; and what steps her Department has taken to investigate such allegations; [175553]

(2) whether her Department requires a complaint to be made in order for an investigation to be pursued in respect of an alleged breach of OECD guidelines; [175554]

(3) whether a complaint was received against De Beers in respect of an alleged breach of OECD guidelines as referred to in the initial UN expert panel report on the illegal exploitation of natural resources in the Democratic Republic of the Congo. [175555]

Mr. Mike O'Brien: A formal complaint was never lodged against De Beers. However following the final UN Expert Panel report and discussions between De Beers and the U.K. National Contact Point (NCP) for the OECD Guidelines, an NCP Statement was published on 5 May 2004 and is available on the U.K. OECD Guidelines webpage (http://164.36.164.37/ewt/debeers.doc)

The NCP is not an investigatory body. Its role, as defined in the Guidelines, is one of facilitation and mediation between the parties. This presupposes the existence of a complainant.

If the NCP is in receipt of information (e.g. from the UN expert panel) this can be put to the company, but without a complainant the NCP cannot engage in the dialogue process envisaged by the Guidelines.

Following repeated requests for evidence over a six month period, the UN has now agreed to provide copies of their background documentation. This arrived on 17 May 2004 and is currently being examined in detail to see what it adds to the report. A decision can then be taken as to the appropriate way forward on each company concerned.

Departmental Staff

Matthew Taylor: To ask the Secretary of State for Trade and Industry how many staff were employed in the Department to work in the communications field, and what the total expenditure on communications for the Department was, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others, in (A) 1994–95, (B) 1996–97, (C) 1997–98 and (D) 2001–02. [168682]

Ms Hewitt: The detailed information requested is not held in the form requested and could be provided only at disproportionate cost. However, I refer the hon. Member to my reply to the hon. Member for Yeovil (Mr. Laws) on 4 February 2003, *Official Report*, column 180W, giving details of the number of press officers and press office costs for 1996–97 and 2001–02.

DVDs/Videos

David Burnside: To ask the Secretary of State for Trade and Industry what regulations are in place on the sale by *(a)* national supermarket chains and *(b)* small independent retailers of DVDs and videos at below-dealer wholesale prices. [174598]

Mr. Sutcliffe *[holding answer 20 May 2004]:* There are no regulations governing the prices at which goods may be sold by retailers relative to the prices at which they were purchased from wholesalers. The main legislation relating to commercial practices and fair competition is the Competition Act 1998 and the Enterprise Act 2002.

Elderly People

Mr. Webb: To ask the Secretary of State for Trade and Industry for what *(a)* initiatives, *(b)* campaigns and *(c)* advisory bodies relating to older people her Department (i) is responsible and (ii) has provided funding since 2001; and what the cost in each year was for each one. [166243]

Ms Hewitt: As part of our commitment to protecting the rights of all consumers, employees and employers, the Department of Trade and Industry is responsible for numerous activities that have particular relevance for older people. Examples include: introducing legislation under the European Employment Directive that will outlaw age discrimination in employment and vocational training from October 2006; the Age Advisory Group, set up in 2001, and Taskforce, set up in 2004, have been advising the Government on matters to do with implementation of the Directive; and establishment of the Commission for Equality and Human Rights (CEHRs), which will provide, for the first time, institutional support for the proposed provisions on age discrimination. In its first few years of operation particular attention will need to be paid to age

issues, including awareness raising among, and support for, those with rights and responsibilities under the age legislation. In addition, the CEHR will be able to act in a broad range of areas and not just those where there is specific legislative protection—for example, encouraging good practice in the provision of goods and services to help prevent unfair treatment of older people.

Further examples include funding for the National Association of Citizens Advice Bureaux and Citizens Advice Scotland to provide support and training to the Citizens Advice Service across the UK. The service deals with in excess of 6 million cases annually, of which over 50 per cent. involve older people; and joint support with DEFRA in 2001 (500,000) for a three-year pilot programme of Warm Zones to assess the merits of a systematic local approach to client identification and assistance: the formal evaluation of this work is expected by the end of 2004.

In April 1999, DTI launched a three-year campaign specifically targeted at older people entitled "Avoiding Slips, Trips and Broken Hips" working with Help the Aged and others. This campaign ended in 2002. However, DTI provided a grant of £50,000 directly to Help the Aged to continue to deliver the existing resources, and at present materials continue to be available for free distribution.

Energy Efficiency

Norman Baker: To ask the Secretary of State for Trade and Industry what steps she is taking to promote the use of more energy efficient electrical motors within industry. [174763]

Mr. Sutcliffe: Proposals to develop more efficient engines and vehicles through the design and application of electric power drives and systems, where they are used in the development of environmentally friendly transport, are being considered under the collaborative research and development arm of the DTI Technology Programme. The Technology Programme seeks to promote innovative technologies to help companies bring products to market. Calls for outline proposals from industry are requested by 21 June.

A further call for proposals is planned for later this year and ideas for new priority areas to be covered are welcomed from business and should be submitted to the, industry led, Technology Strategy Board through the DTI.

Additionally the Enhanced Capital Allowance (EGA) Scheme allows businesses investing in designated energy saving products published in the approved Energy Technology List (ETL) to claim 100 per cent. first-year capital allowances on their investment. Motors and Variable Speed drives were included in the first wave of technologies published in 2001. Currently there are over 2,800 products listed under Motors and Drives section of the approved ETL Product List. The full list of energy saving products eligible for Enhanced Capital Allowances can be found at www.eca.gov.uk.

Fireworks

Chris Ruane: To ask the Secretary of State for Trade and Industry what progress has been made in tackling the issue of noisy night-time fireworks. [174848]

Mr. Sutcliffe: The Department launched a formal consultation on 23 April 2004, which details proposed regulations to be made under the provisions of the Fireworks Act 2003. One of the proposed measures is to create a curfew on the use of fireworks between the hours of 11 pm and 7 am, with the exception of November 5, New Years Eve, Chinese New Year and Diwali.

We expect that the police will enforce this measure—and that the police will have the power to issue Fixed Penalty Notices for infractions of the curfew.

National Minimum Wage

Mr. McNamara: To ask the Secretary of State for Trade and Industry how many young people in Hull, North have benefited from the introduction of the minimum wage for 16 and 17 year olds. [174795]

Mr. Sutcliffe: It is not possible to provide an estimate specifically for the constituency of Hull, North because of small sample size. However, the number of people in the UK who stand to benefit from the new rate for 16 and 17 year olds is likely to be in the low tens of thousands.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry (1) how many people have legitimately not been paid the minimum wage in each year since its introduction; what the reason was in each case; what estimate she has made of the number of people not being paid the minimum wage for illegitimate reasons; and she will make a statement; [170311]

(2) how many employees have been affected by employers not complying with the National Minimum Wage in each year since its introduction. [170464]

Mr. Sutcliffe *[holding answers 4 May 2004]:* The Office for National Statistics publishes an estimate of the number of jobs paying below the National Minimum Wage—See table 1, which reproduces this estimate for the years since the National Minimum Wage was introduced).

Table 1: Number and proportion of jobs paying below the National Minimum Wage

As at spring each year	*Number*	*Percentage*
2000[1]	240,000	1.0
2001[2]	250,000	1.0
2002[3]	330,000	1.3
2003[4]	260,000	1.0

[1] Rate was £3.00 per hour (aged 18–21) or £3.60 per hour (aged 22 and over).
[2] Rate was £3.20 per hour (aged 18–21) or £3.70 per hour (aged 22 and over).
[3] Rate was £3.50 per hour (aged 18–21) or £4.10 per hour (aged 22 and over).
[4] Rate was £3.60 per hour (aged 18–21) or £4.20 per hour (aged 22 and over).
Source:
Office for National Statistics' central estimates of low pay.

However, these figures do not constitute an estimate of non-compliance since there are certain circumstances where the usual minimum wage rates do not apply, in which case it may be legitimate for an employer to pay below National Minimum Wage rates.

There are two main instances when individuals may legitimately earn less than the appropriate minimum wage for their age. Firstly, individuals may be on certain Government training programmes or apprenticeships, in which they are exempt for the first year up to the age of 26. Also, employees aged over 21 who receive accredited training (such as those doing NVQs) may be exempted from receiving the full adult national minimum wage for the first six months of training in a new job with a new employer. Secondly, employees may be exempted if they are receiving accommodation that is tied to their employment. Such employees do not have to be paid all of their minimum wage entitlement in cash terms because employers can legitimately reduce rates to take into account the cost of accommodation provided; from October 2003 this has amounted to a daily offset of £3.50, leading to a maximum weekly offset of £24.50.

Using the Labour Force Survey, the DTI estimates the maximum number of workers whose job characteristics mean they can be paid less than the National Minimum Wage.

Table 2: Maximum number of workers whose job characteristics mean they can legitimately be paid less than the National Minimum Wage

As at spring each year	*Number*
2000	320,000
2001	250,000
2002	260,000
2003	220,000

Source:
Labour Force Survey.

In practice, the number of workers who can legitimately be paid below minimum wage rates is likely to be substantially lower than these figures. This is because a significant proportion of people receiving free accommodation as part of the job, holding apprenticeships or taking part in Government training programmes are likely to be earning in excess of the minimum wage.

Maternity Leave

Mr. Meacher: To ask the Secretary of State for Trade and Industry how many and what percentage of women in Oldham, West and Royton have taken 26 weeks' maternity leave since 1997. [170938]

Mr. Sutcliffe: Data on maternity leave is not available by constituency. However, a DTI survey of working parents in Autumn 2000 showed that of mothers who had taken maternity leave in the previous five years, 51 per cent. had taken 18 weeks or less and 79 per cent. had taken 19 to 29 weeks or less.

Regional Development Agencies

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what proportion of the budget of each of the nine regional development agencies has been spent on administration in each year since their inception. [174697]

Jacqui Smith: I refer the hon. Member to the answer I gave to the hon. Member for Cotswold (Mr. Clifton-Brown) on 11 May 2004, *Official Report*, column 247W.

Regulations

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry for what reasons she rejects the British Chambers of Commerce estimation of the costs to businesses of regulations introduced since 1997. [173260]

Mr. Sutcliffe: The British Chambers of Commerce estimation of the burden does not appear to offset the benefits accrued. Objective measurement of regulation must consider the total impact, taking account of associated benefits.

Scottish Power

Ann Winterton: To ask the Secretary of State for Trade and Industry pursuant to her answer of 12 May to question reference 171781, if she will list the issues discussed at the meeting with representatives of Scottish Power on 11 March. [173696]

Ms Hewitt: The specific issue relating to electricity supply discussed at the meeting was wind farms and their interaction with radar. Also discussed was security of supply.

Software Patents

Sue Doughty: To ask the Secretary of State for Trade and Industry whether the Council of Ministers has received the report from the Council Working Group on Intellectual Property on the draft Directive on the patentability of computer-implemented inventions. [174745]

Ms Hewitt *[holding answer 20 May 2004]*: The Council of Ministers discussed the report of the Working Group at the meeting of the Competitiveness Council on 17 and 18 May 2004, and reached political agreement on a Common Position on the proposed Directive on the patentability of computer-implemented inventions.

Working Time Directive

Mr. Gibb: To ask the Secretary of State for Trade and Industry what the latest position is regarding the opt-out from the 48-hour limit on the working week under the Working Time Directive; and if she will make a statement. [174871]

Mr. Sutcliffe: The Working Time Regulations 1998 (WTR) which implement the provisions of the Working Time Directive in UK law came into force on 1 October 1998. The Regulations currently include an opt-out provision to the weekly working time limit. Under the opt-out, an individual worker may agree to work more than 48 hours a week.

The opt-out was initially granted for a period of 15 years but has since been extended. A review has been carried out and the European Commission have decided to consult more widely over working time changes. The Commission published a consultation communication on 5 January 2004.

The UK response to the Communication (31 March 2004) argued strongly for the retention of the opt-out. While the Government are in favour of providing fair minimum standards of employment protection, they are

also keen to maintain the flexibility our individual labour market requires, and, which many individual workers prefer.

The second stage consultation paper from the European Commission was recently published on 19 May. It presented the following options:

Option 1—Keep the individual opt out with tighter conditions of application.

Option 2—Opt-out only available through collective agreement.

Option 3—Opt out available through collective agreement, but retain the possibility of individual opt out in the absence of such an agreement and for undertakings without worker representation.

Option 4—Phase out the opt out.

Option 1 is the only one to ensure workers have real choice and ensure working hours are tailored to what individual workers want.

The UK and the Commission agree that extending the reference period for working hours, so that these can be averaged over a period of up to 12 months without the need for a collective agreement would increase the flexibility of both employers and workers. This is of particular value in the UK because, as the Commission's Communication notes, collective or workforce agreements are not widespread here.

There is now in a 6-week period of negotiation with the social partners: UNICE, the European employers' federation; ETUC, the European employees organisation; and CEEP, the public sector employers organisation. If the social partners do not agree to negotiate on a workable solution during this time, the Commission will propose legislation by co-decision by the summer 2004.

TREASURY

Conceptions

Ann Winterton: To ask the Chancellor of the Exchequer (1) how many conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years there were in the Cheshire and Merseyside Strategic Health Authority in each year since 2000; [174950]

(2) what the rate of conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years in the Cheshire and Merseyside Strategic Health Authority was in each year since 2000; [174951]

(3) how many conceptions resulted in abortions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years in the Cheshire and Merseyside Strategic Health Authority in each year since 2000. [174953]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Ann Winterton, dated 24 May 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions on conceptions and abortions. (174950,174951 & 174953)

The information you requested on conceptions, and conception rates was given in answer to a recent question from David Amess MP, which appears in the Official Report of Monday 24 May, No. 91, Column 120JW-1208W.

Information on conceptions resulting in abortions was given in answer to another question from David Amess MP, which appears in the same Official Report at Column 1197W-1200W.

Overseas Charity Workers

Alistair Burt: To ask the Chancellor of the Exchequer (1) how many United Kingdom citizens working overseas for charities in the field of overseas development have lived overseas for more than five years; [175830]

(2) how many United Kingdom citizens are employed overseas by United Kingdom based charities involved in international development. [175832]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Alistair Burt, dated 24 May 2004:

The National Statistician has been asked by the Chancellor of the Exchequer to reply to your request for information on *(a)* how many United Kingdom citizens are employed overseas by UK-based charities involved in international development and; *(b)* how many UK citizens working overseas for charities in the field of overseas development have lived overseas for more than five years. I am replying in his absence. (175830,175832)

The information you requested is not available. Migration data are not collected by specific sectors, or specific types, of employment.

Psepho-analysis

Chris Ruane: To ask the Chancellor of the Exchequer which 20 United Kingdom mainland constituencies experienced the greatest fall in electorate between 1997 and 2004 in *(a)* numerical and *(b)* percentage terms, listed in descending order. [175125]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician who has been asked to reply.

Letter from Colin Mowl to Chris Ruane, dated 24 May 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question concerning the 20 United Kingdom mainland constituencies that have experienced the greatest fall in electorate between 1997 and 2004.I am replying in his absence. (175125)

For the purposes of this question, the United Kingdom mainland excludes Northern Ireland. The effect of the introduction of a new system for registering electors in Northern Ireland is explained in an answer to an earlier Parliamentary Question on this subject (*Official Report*, 9 March 2004, Column 1416W).

Two tables are attached. Table 1 shows the 20 constituencies that experienced the greatest decrease in parliamentary electors between 16 February 1997 and 1 December 2003, the latest date for which data are available. Table 2 shows the 20 constituencies who experienced the greatest percentage decrease in parliamentary electors over the same period.

Constituencies experiencing the greatest decrease in electorate between 1997 and 2003, Great Britain.

Constituency	1997 figures	2003 figures	Electorate decrease
Portsmouth South	80,907	66,162	14,745
Brentford and Isleworth	79,644	67,934	11,710
Sheffield Central	68,976	58,708	10,268
Rhondda	57,487	48,332	9,155

Stamp Duty

Mr. Watson: To ask the Chancellor of the Exchequer how much has been saved by housebuyers in stamp duty exempt areas as a result of not having to pay the duty, broken down by local authorities in England. [174463]

Ruth Kelly: The available information cannot be given at this level of detail.

Suicides

Tom Cox: To ask the Chancellor of the Exchequer how many suicides there were in England and Wales in 2002. [174486]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Tom Cox, dated 24 May 2004:

As National Statistician, I have been asked to reply to your recent question how many suicides there were in England and Wales in 2002. (174486)

There were 4,665 deaths with a verdict of suicide or an open verdict[1] in England and Wales in 2002[2].

[1] Data for England and Wales are for deaths occurring in the calendar year.

[2] Causes of death were defined using the International Classification of Diseases, Tenth Revision (ICD-10) codes X60-X84 (suicide verdict) and Y10-Y34 (open verdict) excluding Y33.9 where the Coroner's verdict was pending.

Abortion

Bob Spink: To ask the Chancellor of the Exchequer (1) how many conceptions resulted in abortion among those aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 in each year since 2000; [174459]

(2) what the rate of conceptions for females aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in each year since 2000; [174466]

(3) what the rate of conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in the Essex Strategic Health Authority in each year since 2000; and how many conceptions there were in each age group. [174578]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Bob Spink, dated 24 May 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions on conceptions and abortions. (174459,174466 & 174578)

The information you requested on conceptions, and conception rates was given in answer to a recent question from David Amess MP, which appears in the Official Report of Monday 24 May, No. 91, Column 1201W-1208W.

Information on conceptions resulting in abortions was given in answer to another question from David Amess MP, which appears in the same Official Report at Column 1197W-1200W.

Sir Teddy Taylor: To ask the Chancellor of the Exchequer (1) how many conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years there were in the Essex Strategic Health Authority area in each year since 2000. [174510]

(2) what the rate of conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years there were in the Essex Strategic Health Authority area in each year since 2000; [174511]

(3) how many conceptions resulted in abortions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years in the Essex Strategic Health Authority area in each year since 2000; [174513]

(4) what the rate of conceptions for women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in each year since 2000; [174504]

(5) how many conceptions resulted in abortion among women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years in each year since 2000. [174506]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Sir Teddy Taylor, dated 24 May 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions on conceptions and abortions. (174510,174511, 174513, 174504 & 174506)

The information you requested on conceptions, and conception rates was given in answer to a recent question from David Amess MP, which appears in the Official Report of Monday 24 May, No. 91, Column 1201W-1208W.

Information on conceptions resulting in abortions was given in answer to another question from David Amess MP, which appears in the same Official Report at Column 1197W-1200W.

Mr. Amess: To ask the Chancellor of the Exchequer what the rate of conceptions was for women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 in England and Wales in each year since 2000; and if he will make a statement. [174521]

Ruth Kelly: I refer the hon. Gentleman to the answer my hon. Friend the Economic Secretary gave to him on 20 May 2004, *Official Report*, columns 1197–200W.

Tony Cunningham: To ask the Chancellor of the Exchequer (1) what the rate of conceptions for women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in each year since 2000; [175395]

(2) how many conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 there were in West Cumbria in each year since 2000; [175420]

(3) what the rate of conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 was in West Cumbria Strategic Health Authority area in each year since 2000; [175421]

(4) how many conceptions resulted in abortions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years in West Cumbria Strategic Health Authority in each year since 2000; [175425]

(5) how many conceptions resulted in abortion among women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years in each year since 2000. [175516]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Tony Cunningham, dated 24 May 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions on conceptions and abortions. (175395, 175420, 175421, 175517 & 175516)

The information you requested on conceptions, and conception rates was given in answer to a recent question from David Amess MP, which appears in the Official Report of Monday 24 May, No. 9.1, Column 1201W-1208W.

Information on conceptions resulting in abortions was given in answer to another question from David Amess MP, which appears in the same Official Report at Column 1197W-1200W.

Please note that information for the West Cumbria area is not available. However, information for the Cumbria and Lancashire Strategic Health Authority area is given at both the above references.

Information on conceptions resulting in abortions, broken down by (i) disease and (ii) sex is not available.

Mr. Flook: To ask the Chancellor of the Exchequer (1) what the rate of conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in the Dorset and Somerset Strategic Health Authority area in each year since 2000; [175619]

(2) how many conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years there were in the Dorset and Somerset Strategic Health Authority area in each year since 2000; [175620]

(3) how many conceptions resulted in pregnancy terminations among women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years in the Dorset and Somerset Strategic Health Authority area in each year since 2000. [175625]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Adrian Flook, dated 24 May 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions on conceptions and abortions. (175619,175620 & 175625)

The information you requested on conceptions, and conception rates was given in answer to a recent question from David Amess MP, which appears in the Official Report of Monday 24 May, No. 91, Column 1201W-1208W.

Information on conceptions resulting in abortions was given in answer to another question from David Amess MP, which appears in the same Official Report at Column 1197W-1200W.

Jim Dobbin: To ask the Chancellor of the Exchequer (1) how many conceptions in women of 19 years and under there were in Greater Manchester Strategic Health Authority in each year since 2000, broken down by age; [175782]

(2) what the rate of conceptions in women of 19 years and under was in Greater Manchester Strategic Health Authority since 2000, broken down by age; [175783]

(3) what the rate of conceptions for women of 19 years and under was in each year since 2000, broken down by age; [175786]

(4) how many conceptions resulted in abortion among women of 19 years and under in each year since 2000, broken down by age; [175787]

(5) how many conceptions resulted in abortions in women of 19 years and under in Greater Manchester Strategic Health Authority in each year since 2000, broken down by age. [175763]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Jim Dobbin, dated 24 May 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions on conceptions and abortions. (175763, 175782, 175783, 175786 & 175787)

The information you requested on conceptions, and conception rates was given in answer to a recent question from David Amess MP, which appears in the Official Report of Monday 24 May, No. 91, Column 1201W-1208W.

Information on conceptions resulting in abortions was given in answer to another question from David Amess MP, which appears in the same Official Report at Column 1197W-1200W.

Mr. Goodman: To ask the Chancellor of the Exchequer (1) what the rate of conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in the Thames Valley Strategic Health Authority area in each year since 2000; [175388]

(2) how many conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years there were in the Thames Valley Strategic Health Authority area in each year since 2000; [175391]

(3) how many conceptions resulted in abortions among women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years there were in the Thames Valley Strategic Health Authority area in each year since 2000. [175386]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Paul Goodman, dated 24 May 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions on conceptions and abortions. (175386,175388 & 175391)

The information you requested on conceptions, and conception rates was given in answer to a recent question from David Amess MP, which appears in the Official Report of Monday 24 May, No. 91, Column 1201W-1208W.

Information on conceptions resulting in abortions was given in answer to another question from David Amess MP, which appears in the same Official Report at Column 1197W-1200W.

Child Tax Credit

Mr. McNamara: To ask the Chancellor of the Exchequer how many families in Hull North are eligible for the child tax credit; and what the take-up rate is. [174793]

Dawn Primarolo: For the number of recipient families, I refer my hon. Friend to my answer to my hon. Friend the Member for Burton (Mrs. Dean) on 15 March 2004, *Official Report*, column 98W.

Council Tax

Mr. Edward Davey: To ask the Chancellor of the Exchequer if he will update the information set out in the answer of 17 November 2003, *Official Report*, columns 520–22W, on council tax, to take account of the effects of taxes and benefits on household income in 2002–03. [174862]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Edward Davey, dated 24 May 2004:

As National Statistician, I have been asked to reply to your recent question asking for an update of the information set out in the answer of 17 November 2003, *Official Report*, columns 520–22W, giving how much council tax was paid as a proportion of gross income for households in each income quintile group in each English region. (174862)

Estimates have been produced from the Office for National Statistics' analysis "The effects of taxes and benefits on household income" published on the National Statistics website on 6 May 2004 at http://www.statistics.gov.uk/taxesbenefits. The analysis includes measures of income inequality for the United Kingdom as a whole based on data from the Expenditure and Food Survey. This is a sample survey covering about 7,000 households in the UK and sample sizes for each region are only sufficient to give approximate estimates.

The current analysis presents data for the category 'Council tax and Northern Ireland rates', as opposed to the category 'Local taxes' used in previous analyses. This is because, from this year, charges made by water authorities for water, environmental and sewerage services have been excluded. This treatment conforms to the National Accounts classification and definition of taxes where water rates and related charges are considered a charge for services rather than a tax. They have therefore been excluded from the calculation of disposable income. This reply is based on the new methodology and includes updated 2001–02 figures on this basis for comparison.

The table shows, for 2001–02 and 2002–03, the average net council tax paid for all households in each Government Office Region and for each income quintile group within each region where households are ranked by equivalised disposable income. Equivalisation is a standard methodology that takes into account the size and composition of households and adjusts their incomes to recognise differing demands on resources. The net council tax figures are gross council tax less reported council tax benefits and discounts. The table also shows the boundaries between equivalised disposable income quintiles, which have been calculated separately for households in each Government Office Region. For example, the 1st quintile boundary is the income level below which one fifth of those households are estimated to lie.

Labour Statistics (Eastern Region)

Alistair Burt: To ask the Chancellor of the Exchequer (1) what the change in the number of jobs in the manufacturing sector in the Eastern Region has been in *(a)* the last 12 months for which figures are available and *(b)* in the 24 months prior to this; [174544]

(2) how many people are employed in engineering and engineering related industries in the Eastern region; and how many were employed in these industries in *(a)* 2003, *(b)* 2002 and *(c)* 2001. [174545]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Alistair Burt dated 24 May 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions about employment in the manufacturing industry and engineering sectors in the eastern region. (174544, 174545)

The latest year for which figures are available is 2002. The attached table shows the information requested for the years 2000–2002.

Employee[1] jobs in manufacturing, and in engineering and related industries—Eastern region: 2000–2002

£000

Year[2]	Manufacturing	Change year on year	Engineering	Change year on year
2000	333	—	120	—
2001	328	-5	118	-2
2002	307	-21	109	-9

[1] Employee jobs only, does not include self-employed.
[2] The Annual Business Inquiry is released in December of each year.

Financial Statistics

Mr. Flight: To ask the Chancellor of the Exchequer if he will list *(a)* the Government consumption expenditure deflator and *(b)* the level of public sector inflation for each year since 1997. [174980]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Howard Flight, dated 24 May 2004:

As National Statistician I have been asked to reply to your recent question concerning *(a)* the Government consumption expenditure deflator and *(b)* the level of public sector inflation for each year since 1997. (174980)

The implied annual deflator for general government consumption derived from the national accounts estimates published in March 2004 is presented in the attached table.

Please note that these estimates do not present price measures directly, since with a few exceptions (e.g. passport fees), there are no directly observable prices for the services provided by government. The estimates are therefore derived by comparing the spending on producing government services with measures of the output of those services. As derived statistics, they should not be confused with measures of the price of the inputs such as public sector earnings or prices paid for other purchases.

In calculating the deflator, the quality and reliability of the output measures are crucial. However, public service delivery and management mechanisms have developed and become more complex in recent years, and there is an increasing emphasis on the quality of service for the customer. As a result there are greater demands on, and expectations of, measures of government output. In order to ensure that output measures can respond to these demands, in December 2003 I announced an independent review, led by Sir Tony Atkinson, of the future development of government output and productivity measures, and the associated price indices.

General Government consumption—implied deflator[1] UK, 1997–2003

Year	*Index*
1997	88.8
1998	91.1
1999	95.4
2000	100.0
2001	105.7
2002	113.3
2003	122.7

UK National Accounts, 26 March 2004

Gershon Review

Brian White: To ask the Chancellor of the Exchequer what plans he has to publish the results of the Gershon review. [175431]

Mr. Boateng: Sir Peter Gershon continues to work closely with all Departments to prepare detailed efficiency proposals for consideration in the 2004 Spending Review. A further announcement will be made at the Spending Review.

Holiday Bond Schemes

Mr. Salter: To ask the Chancellor of the Exchequer what plans the Government have to ensure that companies promoting holiday bond schemes make potential investors aware of the financial risks involved. [174533]

Ruth Kelly: Where firms carry on regulated activities relating to specified investments, including holiday bond schemes, firms must be authorised by the Financial Services Authority (FSA). The FSA also regulates promotions of holiday bonds involving controlled investments and activities, which includes checking that promotions are clear, fair and not misleading.

Large Business Office

Mr. Prisk: To ask the Chancellor of the Exchequer what the operating costs have been for the Large Business Office for each year since 1997. [174937]

Dawn Primarolo: The Large Business Office developed during 1997–98 so 1998–99 was the first full year of operation.

The operating costs of the LBO for each year, together with those of the prior year, are set out in their Annual Report. Copies of those for 2000–01 and 2002–03 are held in the House of Commons Library.

Low Sulphur Petrol

John Thurso: To ask the Chancellor of the Exchequer what steps he has taken to ensure the availability of low sulphur petrol after 1 September in the North East of Scotland and the Highlands and Islands; and if he will make a statement. [174481]

John Healey: Following the announcement by the Chancellor that a duty differential of 0.5p/l in favour of sulphur free petrol will apply from 1 September 2004, we anticipate that this will rapidly replace low sulphur petrol. The marketing of sulphur free fuels is a matter for the oil industry, however we do expect that the duty differential will be sufficient to ensure widespread availability across the UK generally. Certainly, early indications from the oil industry are that Scotland will be among the first areas to see the introduction of sulphur-free fuels.

Northern Ireland

Mr. McGrady: To ask the Chancellor of the Exchequer how much public money has been spent in Northern Ireland in each of the last seven years, broken down by main budget heading; and what the general receipts were in each year, broken down by revenue source. [175232]

Mr. Boateng: Identifiable public spending by function, region and country is published annually in Public Expenditure Statistical Analyses. The latest data for Northern Ireland is shown in the tables 8.5,8.6,8.7,8.8 and 8.9 of Public Expenditure Statistical Analyses 2004 (Cm 6201). Information on current receipts is published in Table C8 of the Financial Statement and Budget Report (HC 301). No Northern Ireland-specific figures are available for current receipts.

Public Sector Inflation

Chris Ruane: To ask the Chancellor of the Exchequer if he will list *(a)* the Government consumption expenditure deflator and *(b)* the level of public sector inflation for each year since 1979. [175243]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Chris Ruane, dated 24 May 2004:

The National Statistician has been asked to reply to your recent question concerning *(a)* the Government consumption expenditure deflator and *(b)* the level of public sector inflation for each year since 1979.1 am replying in his absence. (175243)

The implied annual deflator for general government consumption derived from the national accounts estimates published in March 2004 is presented in the attached table.

Please note that these estimates do not present price measures directly, since with a few exceptions (e.g. passport fees), there are no directly observable prices for the services provided by government. The estimates are therefore derived by comparing the spending on producing government services with measures of the output of those services. As derived statistics, they should not be confused with measures of the price of the inputs such as public sector earnings or prices paid for other purchases.

The methodology used in calculation the volume measure of Government consumption was changed from the mid-1990s, therefore comparisons should be made with care.

In calculating the implied deflator, the quality and reliability of the output measures are crucial. However, public service delivery and management mechanisms have developed and become more complex in recent years, and there is an increasing emphasis on the quality of service for the customer. As a result there are greater demands on, and expectations of, measures of government output. In order to ensure that output measures can respond to these demands, in December 2003 the National Statistician announced a review of the future development of government output and productivity measures, and the associated price indices.

General Government consumption—implied deflator[1] UK, 1979–2003

Year	*Index*
1979	27.8
1980	34.4
1981	38.8
1982	42.0
1983	44.7
1984	46.8
1985	49.5
1986	52.4

UK National Accounts, 26 March 2004

Travellers

Andrew Selous: To ask the Chancellor of the Exchequer how many visits income tax and VAT inspectors have made to unauthorised traveller developments to ensure the proper collection of income tax and VAT in the year to 5 April 2004 in *(a)* England and Wales and *(b)* South Bedfordshire. [171777]

John Healey: Both HM Customs and Excise and the Inland Revenue are committed to treating all taxpayers fairly and equally and do not target or classify businesses by demographic or racial group. An approach to managing non-compliance is taken which deploys resources on the basis of risk assessment. It is not therefore possible to quantify the number of visits made to unauthorised traveller developments.

WORK AND PENSIONS

Child Poverty

Gregory Barker: To ask the Secretary of State for Work and Pensions if he will make a statement on the Government's aim to eradicate child poverty in this country by 2020. [172912]

Mr. Pond: I refer the hon. Member to the oral answer given by my right hon. Friend the Secretary of State to my hon. and learned Friend the Member for Redcar (Vera Baird) on 26 April 2004, *Official Report*, column 625–26.

Phil Sawford: To ask the Secretary of State for Work and Pensions using the 1999 Millennium Poverty and Social Exclusion Survey, how many children he estimates lived in families with below 70 per cent. of the before housing costs national median income who also lacked *(a)* one or more and *(b)* two or more of the necessities proposed in the annex of the document Measuring Child Poverty; and how many of those categorised as missing out on (i) one or more and (ii) two or more of the list of necessities did not have before housing cost incomes below 60 per cent. of median income in 1999. [173450]

Mr. Pond: We have not made any estimates using the 1999 Millennium Poverty and Social Exclusion Survey.

The official Government estimates of low income are derived from the Family Resources Survey-based Households Below Average Income dataset. Data for the material deprivation element of the measure outlined in the document Measuring Child Poverty will be collected on the Family Resources Survey from 2004–05, and will be published in 2006.

Copies of the 'Measuring Child Poverty' document are available in the Library.

Council Tax Benefit (Hampshire)

Mr. Hancock: To ask the Secretary of State for Work and Pensions how many people have claimed council tax benefit in *(a)* Portsmouth, *(b)* Southampton and *(c)* the rest of Hampshire in each of the last three years. [174195]

Mr. Pond: The information is in the table.

Council tax benefit recipients in Portsmouth, Southampton, and Hampshire local authorities

Thousand

Local authority	*Council tax benefit recipients*		
	August 2001	*August 2002*	*August 2003*
Portsmouth	14.2	12.8	13.8
Southampton	17.9	18.0	17.3
Basingstoke and Deane	6.3	6.5	6.6
East Hampshire	4.1	4.1	4.2
Eastleigh	4.7	4.8	4.9
Fareham	3.7	3.7	3.6
Gosport	4.7	4.4	4.7
Hart	2.0	1.9	2.1
Havant	8.7	8.0	8.2
New Forest	8.9	8.5	8.5
Rushmoor	3.5	3.4	3.7
Test Valley	4.3	4.3	4.5
Winchester	4.5	4.3	4.4

Notes:

1. The data refers to benefit units, which may be a single person or a couple.
2. The figures have been rounded to the nearest hundred and expressed in thousands.
3. Figures for any non-responding authorities have been estimated.
4. Council tax benefit totals exclude any Second Adult Rebate cases.
5. Totals may not sum due to rounding.

Source:

Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count taken in August 2001, 2002 and 2003.

National Insurance

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many national insurance numbers have been issued in each year since 1992. [172917]

Mr. Pond: The number of National Insurance Numbers (NINOs) created each year since 1992 on the Departmental Central Index (DCI) is in the table.

Year January to December	*NINOs created on DCI*
1992	9,765,000
1993	3,292,000
1994	1,057,000
1995	1,008,000
1996	979,000
1997	1,018,000
1998	1,027,000
1999	1,023,000
2000	996,000
2001	928,000
2002	1,082,000
2003	1,142,000

Advertising and Publicity

Mr. Webb: To ask the Secretary of State for Work and Pensions what the expenditure of his Department on advertising and publicity was in each of the last six years, broken down by campaign; and what the projected expenditure is for 2003–04. [152855]

Maria Eagle: 2003–04 was a major year for advertising and publicity in the Department for Work and Pensions, with a number of big campaigns rising to a peak of activity.

During 2003–04, estimated expenditure on alerting people to their rights, responsibilities and entitlements through information campaigns was £58,179,000. Of this sum, an estimated £40,894,000 was spent on advertising using television, radio, cinema, internet and press media.

Some campaigns, such as pension credit and new deal, have expenditure falling into more than one financial year, depending on requirements and final billing dates. Estimated total expenditure for 2003–04, broken down by campaign, is in the table.

£

2003–04 campaign	*Advertising expenditure*	*Total publicity expenditure*[1]
Future Pensioners/Informed Choice	—	2,700,000
Pensioners' Guide	—	1,250,000
Pension Credit	11,100,000	15,580,000
The Pension Service	570,000	2,650,000
Direct Payment	11,044,000	12,474,000
Direct Payment road show	51,000	480,000
Fraud	8,383,000	9,362,000
Winter Fuel	637,000	938,000
Council Tax Benefit	500,000	652,000
New Deal	5,800,000	7,600,000
Jobcentre Plus awareness	—	531,000
Jobseeker Direct help-line	1,700,000	1,700,000
Jobcentre Plus employer marketing	1,016,000	1,016,000
Age Positive	46,000	946,000
DDA Awareness and Disability Rights	47,000	300,000
Total	40,894,000	58,179,000

[1] The total publicity expenditure column includes the advertising costs shown in the centre column. Final expenditure April 2003–March 2004 may differ from these figures depending on actual activity and billing dates.

Notes:

1. All costs exclude VAT.
2. Figures have been rounded to the nearest £1,000
3. Advertising costs are total media costs excluding all production costs.
4. Information campaigns costing under £250,000 and the details of highly localised publicity activity by the Department's customer-facing businesses have generally not been included as a disproportionate cost would be incurred in compiling these figures.

The Department for Work and Pensions was formed in June 2001. I refer the hon. Member to the answer I gave on 27 January 2004, *Official Report*, column 342W, detailing expenditure for 2001–02 and 2002–03. Information on total advertising and publicity costs by campaign for these years can be found in the Department's annual reports, copies of which are in the Library.

A more detailed breakdown, distinguishing between advertising and other publicity costs, could be provided only at disproportionate cost.

Benefits

John Thurso: To ask the Secretary of State for Work and Pensions how many pensioners in Scotland were in receipt of *(a)* housing benefit and *(b)* council tax benefit in (i) 2000–01 and (ii) 2001–02. [174022]

Mr. Pond: The available information is in the table.

Housing benefit and council tax benefit recipients aged 60 and over in Scotland

As at May	*Housing benefit*	*Council tax benefit*
2000	203,000	275,000
2001	203,000	281,000

Notes:

1. The figures are based on a 1 per cent. sample and are therefore subject to a degree of sampling variation.
2. The data refers to benefit units, which may be a single person or a couple.
3. The figures have been rounded to the nearest thousand.
4. Council tax benefit totals exclude any Second Adult Rebate cases.
5. Housing benefit figures exclude any Extended Payment cases.
6. "Aged 60 and over" refers to cases where the claimant and/or partner are aged 60 or over.

Source:

Housing Benefit and Council Tax Benefit Management Information System, Annual 1 per cent. sample, taken in May 2000 and 2001.

Mr. Jenkins: To ask the Secretary of State for Work and Pensions how many *(a)* state pensioners and *(b)* non-pensioner benefit recipients within the Tamworth constituency receive (i) pensions and (ii) other benefits (A) through an order book, (B) through a Post Office Card Account and (C) paid directly into a bank or building society account. [160057]

Mr. Pond: Information in the following table gives the number of customers in the Tamworth constituency, by benefit, broken down by their method of payment (order book, Post Office Card Account or direct payment) as at 23 January 2004. Child benefit and war pensions information is not included as these are the responsibility of the Inland Revenue and Ministry of Defence respectively.

	Payment by order book	*Payment by Post Office card account*	*Payment direct into a bank or building society account*
(a) State pensioners (women over 60 and men over 65)			
State pension (retirement pension)	5,235	250	6,720
Other benefits[1]	2,835	(1)	1,850
(b) Non-pensioner benefit recipients			
Total of benefits	3,700	455	5,415

[1]Other benefits are attendance allowance, disability living allowance, incapacity benefit, carers' allowance, industrial injuries, pensions credit, severe disablement allowance and widows' benefit.

Notes:

The following special points should be noted :

1. For confidentiality reasons, all figures are rounded to the nearest 50.
2. Figures relate to payload and not caseload therefore if a claimant is receiving more than one benefit e.g. pension credit (PC) and state pension (SP) but only receives one combined payment through the PC system they will only be shown as having a pension credit account and not a state pension account.
3. Payments made into some bank/building society accounts will still allow customers to access their cash at Post Office branches if the account provider has an arrangement with Post Office Limited.
4. Benefits are bereavement benefit, disability living allowance, incapacity benefit, carers' allowance, industrial injuries, income support, jobseekers allowance, pension credit, severe disablement allowance and widows' benefit.

Source:

DWP Information Centre, Information & Analysis Directorate (100 per cent. data).

Martin Linton: To ask the Secretary of State for Work and Pensions how many pensioners in Battersea are receiving at least one benefit that can be collected at the post office. [168855]

Mr. Pond: Based on information available at 21 February 2004, the number of pensioners in Battersea receiving at least one benefit that can be collected at the post office is 5,555.

This figure includes payments made into post office card accounts. It also includes girocheques, which are encashable at either a post office or through a bank or building society account.

There are no data available on the number of benefit payments collected at post offices through the wider range of banking services now available.

This figure does not include child benefit or war pensions accounts, as these are the responsibility of Inland Revenue and the Ministry of Defence respectively.

Mrs. Humble: To ask the Secretary of State for Work and Pensions if he will make a statement on the measures introduced to improve the working conditions of disabled workers in Blackpool, North and Fleetwood over the last seven years. [175892]

Maria Eagle: We have a number of measures in place nationally to help improve conditions for disabled people at work, as well as measures to improve their access to services generally. None of these are specific to Blackpool, North and Fleetwood, but all are available to disabled people who live and work there.

From 1996, the employment provisions of the Disability Discrimination Act required most employers of 20 or more staff not to discriminate against, and to make reasonable adjustments for, disabled job applicants or employees; in December 1998, we reduced this threshold to 15 employees. From October this year, the small employer exemption will be removed and most currently excluded occupations, such as police officers, fire-fighters, and partners in business partnerships will be brought within the scope of the Disability Discrimination Act employment provisions.

Jobcentre Plus runs a number of specialist programmes providing help for disabled people, including New Deal for Disabled People, WORKSTEP, Access to Work, the Job Introduction Scheme, and Work Preparation. All these programmes provide practical advice and support to disabled people and their employers to help overcome work related obstacles resulting from disability. Since 1997–98 there have been year on year increases in both numbers helped and programme spend.

To help people access appropriate help, Jobcentre Plus has established a network of disability service teams. The teams are made up of disability employment

advisers, access to work advisers and occupational psychologists; their services are accessed through local Jobcentres.

Since April 2003, disabled people in work have been receiving financial support through the working tax credit. This is available if a person is working an average of at least 16 hours per week (self-employed or for an employer); and have a disability which puts them at a disadvantage in getting a job. 70,000 families (including over 32,000 adults without children) are benefiting from the disability element within the working tax credit, compared to 38,000 who benefited from the old disabled person's tax credit.

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many pensioners in the Havant constituency have migrated from over the counter benefit payments to automated credit transfer in each of the last 12 months. [167330]

Mr. Pond: The number of pensioner accounts (men over 65 women over 60) in the parliamentary constituency of Havant that have migrated from over the counter benefit payments to Direct Payment in the past 12 months is in the table.

Figures refer to accounts migrating. An individual pensioner paid two benefits separately will be counted as two pensioner accounts.

Statistics are taken from individual scans of benefit databases at a point in time each month. New accounts opened and closed in between scans are not included in the figures. Similarly, if a person changes their method of payment and then reverts back to the old method of payment this change will not be included.

Time period	*Number of accounts migrating*
24 January 2004 to 21 February 2004	285
27 December 2003 to 24 January 2004	305
29 November 2003 to 27December 2003	35
1 November 2003 to 29 November 2003	170
4 October 2003 to 1 November 2003	225
6 September 2003 to 4 October 2003	20
9 August 2003 to 6 September 2003	120
12 July 2003 to 9August 2003	70
14 June 2003 to 12 July 2003	20
17 May 2003 to 14 Jun 2003	65
19 April 2003 to 17 May 2003	45
22 March 2003 to 19 April 2003	5
22 February 2003 to 22 March 2003	30
25 January 2003 to 22 February 2003	40
28 December 2002 to 25 January 2003	5

Carers Allowance

Mr. Gordon Marsden: To ask the Secretary of State for Work and Pensions how many *(a)* claims and *(b)* successful claims for carers allowance were made in each of the last three years for which figures are available to (i) claimants under 65 years and (ii) claimants over 65 years. [173073]

Maria Eagle: The available information is in the table.

	1 December 2001 to 30 November 2002	*1 December 2002 to 31 May 2003*
Claims received		
65 and over	16,695	24,400
Under 65	136,545	68,690
Claims decided		
Successful with entitlement		
65 and over	11,725	22,570
Under 65	120,250	63,675
Successful In Payment		
65and over	840	1,390
Under 65	100,305	51,890

Notes:
Figures are rounded to the nearest 5.
Data on new claims are not currently available for August 2003 and November 2003.
Figures for the number of claims received refer to the number of people making claims and a person may have made more than one claim but they will only be counted once.
Source:
ICA Unit, 100 per cent. sample

Chagossians (Resettlement)

Tim Loughton: To ask the Secretary of State for Work and Pensions if he will meet delegates from West Sussex county council in order to discuss the resettlement of Chagossians in West Sussex. [165573]

Mr. Pond: My right hon. Friend has no plans to do so.

Chagossians arriving in the Great Britain and who are not subject to immigration control, have the same rights as anyone else to seek assistance from the social security system. Generally anyone claiming benefits has to establish a habitual residence in the UK.

Child Benefits/Support

Mr. Willetts: To ask the Secretary of State for Work and Pensions under what powers the child element of jobseeker's allowance and income support will continue to be paid after 1 April 2004. [172892]

Mr. Pond: For families not yet migrated to tax credits, child and family allowances in income support continue to be paid under regulation 17(1)*(b)* and *(c)* of the Income Support (General) Regulations 1987 and child and family allowances in jobseeker's allowance continue to be paid under regulation 83*(b)* and *(c)* of the Jobseeker's Allowance Regulations 1996. The relevant primary powers are sections 124, 135 and 136 of the Social Security Contributions and Benefits Act 1992 and sections 4, 12 and 13 of the Jobseekers Act 1995.

Subsequently, once tax credits have been awarded and put into payment, child and family allowances will be removed from income support and jobseeker's allowance under the provisions in The Social Security (Working Tax Credit and Child Tax Credit) (Consequential Amendments) Regulations 2003 S.I. 2003 No. 455.

Mr. Hepburn: To ask the Secretary of State for Work and Pensions how many parents have been found guilty of avoiding paying the right amount of child support in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK, in each year since 1997. [173245]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to my hon. Friend with the information requested.

Letter from Mr. Doug Smith to Mr. Stephen Hepburn, dated 24 May 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many parents have been found guilty of avoiding paying the rightful amount of child support in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK, in each year since 1997.

I do not have the information in precisely the form requested. I can however indicate the number of liability orders by the Child Support Agency in each year from 1997. Obtaining these orders is a pre-requisite for subsequent enforcement action leading ultimately to potential committal to prison. The figures are:

	Number
1996–97	1,125
1997–98	1,374
1998–99	2,033
1999–2000	2,523
2000–01	1,755
2001–02	1,427
2002–03	2,383
2003–04	3,885

Mr. Hepburn: To ask the Secretary of State for Work and Pensions what action he will take to provide further support to single parents whose former partners are avoiding paying the right contribution to their child's upbringing. [173246]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to my hon. Friend with the information requested.

Letter form Mr. Doug Smith to Mr. Stephen Hepburn, dated 24 May 2004:

In reply to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what action he will take to provide further support to single parents whose former partners are avoiding paying their rightful contribution to their child's upbringing.

The Agency has taken a number of steps to improve its enforcement work. It has taken action to identify and examine barriers to effective enforcement, has benchmarked its services and simplified the process by which debt is referred for enforcement. Additional staff have been deployed in this area. The Agency's Business Plan for the current year identifies enforcement activity as one of its six key priorities.

Mr. Hepburn: To ask the Secretary of State for Work and Pensions what plans he has to introduce further measures to give the Child Support Agency power to take action against parents not paying the right amount of alimony. [173247]

Mr. Pond: None.

The Child Support Agency already has a wide range of powers.

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his statement on CSA Performance, Departmental Report 2004, page 19, what his forecasts were for new scheme *(a)* cases with maintenance calculations, and *(b)* compliance; and what the performance was against those forecasts. [172954]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Mr. Doug Smith to Mr. Steve Webb, dated 24 May 2004:

In reply to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, pursuant to his statement on CSA Performance, Departmental Report 2004, page 19, what his forecasts were for new scheme *(a)* cases with maintenance calculations, and *(b)* compliance; and what the performance was against those forecasts.

The Agency will be publishing its annual report for the year to 31 March 2004 in July. This will indicate the Agency's actual performance in the year against targets set by Ministers.

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his statement on the CSA Delivery Strategy, Departmental Report 2004, page 18, on how many occasions *(a)* cases have stuck in the system, *(b)* cases have disappeared from caseworker screens and *(c)* telephone calls have been routed inappropriately. [172955]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Mr. Doug Smith to Mr. Steve Webb, dated 24 May 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, pursuant to his statement on the CSA Delivery Strategy, Departmental Report 2004, page 18, on how many occasions *(a)* cases have stuck in the system, *(b)* cases have disappeared from caseworker screens and *(c)* telephone calls have been routed inappropriately.

I am unable to provide robust information in the form requested. Ministers have however made regular reports to Parliament on the operation of the new arrangements and these were placed in the library of the House of Commons on 16 July 2003, 18 November 2003, 12 February 2004, and 21 April 2004.

Civil Service Travel

Mr. Willetts: To ask the Secretary of State for Work and Pensions what the cost to his Department of Civil Service travel expenses has been in each of the last seven years. [172919]

Maria Eagle: The available information is in the table. DWP was formed in June 2001 from the former Department of Social Security (DSS) and parts of the former Department for Education and Employment (DfEE). Travel expenditure information is not available for the former DfEE. Expenditure figures up to and including 2000–01 are for the former DSS only.

£

	Travel Expenditure
1997–98	26,443,081
1998–99	27,427,728
1999–2000	29,164,243
2000–01	30,621,828
2001–02	34,431,759
2002–03	30,813,140
2003–04	33,383,959

Source:
Former DSS and DWP payroll systems.

Computer File Formats

Mr. Allan: To ask the Secretary of State for Work and Pensions what his Department's policy is in respect of the computer file formats used for the *(a)* distribution and *(b)* archiving of publicly available documents. [173362]

Jane Kennedy: The Department for Work and Pensions (DWP) publishes material available on its website www.dwp.gov.uk in HTML (hyper text mark-up language) generated via "active server pages" (ASP) or Adobe Acrobat (PDF). The PDF format is mainly used for longer documents that members of the public might want to print out rather than view on screen. Images, where they are used, are provided in standard graphic file formats GIF and JPEG. Information about accessibility, to help users with visual impairments or other disabilities, is given at: www.dwp.gov.uk/accessibility/.

When leaflets, guides, forms and other documents are updated older versions are removed from the website so that members of the public get the most up-to-date information. Electronic copies of archived documents are available via e-mail on request from: www.dwp.gov.uk/publications/orderolditems/orderoldpubs.asp. These documents are provided in Adobe Acrobat (PDF) format.

Further information about the full range of material published by the Department for Work and Pensions (DWP) can be found in our publication scheme at: www.dwp.gov.uk/pub_scheme/.

Departmental Communications

Matthew Taylor: To ask the Secretary of State for Work and Pensions how many staff were employed in the Department to work in the communications field, and what the total expenditure on communications for the Department was, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others, in (A) 1994–95, (B) 1996–97, (C) 1997–98 and (D) 2001–02. [168681]

Maria Eagle: The Department for Work and Pensions was formed in June 2001 from the former Department of Social Security and parts of the former Department for Education and Employment. Information on costs from 1994 to 2000–01 is not held centrally, and for the year 2001–02, is only available for the Department's Communications Directorate. The available information is in the table.

Total expenditure on DWP Communications Directorate staff for the Department for 2001–02

Total staff cost(£)	5,023,218
Of which	
Cost of press office staff (£)	816,725

Total of staff employed in DWP Communications Directorate broken down by (a) Government Information and Communication Service (GICS) staff and (b) other staff, broken down by (i) Press Officers (ii) special advisers and (ii) others in 2001–02

(i) GICS	[1]47
(ii) Other staff	154
Of which	
(iii) Press Officers (numbers)	18
(iv) Special Advisers (numbers)	Nil
(v) Others (numbers)	136

[1] Includes 21 Press Officers

Notes:
1. All costs exclude VAT.
2. Figures have been rounded to the nearest 1,000.
3. Advertising costs are total media costs excluding all production costs.
4. Information campaigns costing under £250,000 and the details of highly localised publicity activity by the Department's customer-facing businesses have generally not been included as a disproportionate cost would be incurred in compiling these figures. Non GIGS Press Officers are Regional Press Officers.
The total publicity expenditure column includes the advertising costs shown. Final expenditure April 2003 to March 2004 may differ from these figures depending on actual activity and billing dates.

The Department for Work and Pensions was formed in June 2001. I refer the hon. Member to the answer I gave on 27 January 2004, *Official Report*, column 342W, detailing expenditure for 2001–02 and 2002–03. Information on total advertising and publicity costs by campaign for these years can be found in the Department's annual reports, copies of which are in the Library.

A more detailed breakdown, distinguishing between advertising and other publicity costs, could be provided only at disproportionate cost.

Ethnic Monitoring

Mr. Cousins: To ask the Secretary of State for Work and Pensions what ethnic monitoring is carried out of staff in his Department including staff on short-term contracts. [175506]

Maria Eagle: The Department for Work and Pensions monitors ethnicity to assess the effectiveness of its policies and procedures in creating a diverse workforce that is representative of the communities that we serve. This includes those staff on fixed-term contracts of employment. We hold ethnicity data on 88 per cent. of the Department's workforce which enables us to obtain robust data for our monitoring activities.

The ethnic profile of our workforce compares favourably with that of the general population and in the labour market. This information is made available within the Department by region and by grade.

The Department collects a wide range of information about the human resources activity of staff and aims, as a minimum, to meet the mandatory requirements in respect of employment duties stipulated in the Race Relations Act 1976, as amended by the Race Relations (Amendment) Act 2000.

Monitoring is undertaken in relation to: job application rates; selection success rates; representation of different ethnic groups in the workforce; training application rates; promotion application and success rates; and performance and development appraisal mark distribution.

In addition we are developing systems to monitor disciplinary action, grievances and unsatisfactory work performance by ethnicity.

Incapacity Benefit

Paul Holmes: To ask the Secretary of State for Work and Pensions what proportion of incapacity benefit claimants aged between 50 years and state pension age worked immediately prior to their claim in each year since 1997 *(a)* in the UK and *(b)* broken down by region; and if he will make a statement. [175283]

Maria Eagle: The information is in the table.

Proportion of those aged 50 to state pension age who were in employment prior to claiming incapacity benefits, broken down by region

Percentage

Region	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*
North East	52	46	42	50	56

Jobcentre Plus

Mr. Simmonds: To ask the Secretary of State for Work and Pensions what steps Jobcentre Plus is taking to match the skills development of the unemployed to employer demands in the workplace. [172631]

Jane Kennedy: Through initiatives like the New Deal and Ambition, Jobcentre Plus provides a range of help to people needing to improve their skills in order to find work and fill vacancies.

Employers have been involved from the start in the design of New Deal to ensure it meets business needs. New Deal is delivered by local partnerships, including training organisations and employers, and is tailored to meet the needs of local economies. Training is procured locally and linked to employer need.

The Ambition initiatives aim to help unemployed and disadvantaged people gain the right skills to meet employer needs in key sectors. The sectors targeted are those with skills shortages and employers are closely involved in the development and design of training.

Jobcentre Plus also works with key economic partners at local and regional level to ensure our activities meet with business and economic priorities for the area. Since October 2002, each English region has had in place a Framework for Regional Employment and Skills Action (FRESAs). FRESAs aim to maintain and improve regional labour markets by co-ordinating a strategy for employment and skills in each region, and ensuring a more efficient and co-ordinated service.

The publication of the 2003 Skills Strategy, "21st Century Skills—Realising Our Potential", has increased the momentum for the skills agenda for those in and out of work. Jobcentre Plus will continue to work with partners at a national, regional and local level to ensure the ambitions of the skills strategy are developed in a way that makes a real difference to individuals and employers, ensuring that employers get employees with the skills they need for their business.

ME

John Robertson: To ask the Secretary of State for Work and Pensions how many ME sufferers appealed after their initial claims for disability living allowance were rejected in the last 12 months; and how many of these were *(a)* successful and *(b)* unsuccessful in their appeals. [171341]

Maria Eagle: This is a matter for Christina Townsend, Chief Executive of the Appeals Service. She will reply to my hon. Friend.

Letter from Christina Townsend to John Robertson, dated 24 May 2004:

The Secretary of State has asked me to reply to your question regarding the number of ME sufferers that appealed after their initial claims for disability living allowance were rejected in the last 12 months; and how many were successful or unsuccessful in their appeals.

The information is not available in the format requested.

I am sorry that I cannot be more helpful.

Leroy Keen

Mr. Steen: To ask the Secretary of State for Work and Pensions if he will investigate why it took two years to conclude that Mr. Leroy Keen of Paignton had been overpaid by £119.55 in income support. [173431]

Mr. Pond *[holding answer 18 May 2004]:* Details of benefit claims are confidential and I will write to the hon. Member.

This is in line with Part 2, paragraph 12 of the Code of Practice on Access to Government Information.

New Deal

David Davis: To ask the Secretary of State for Work and Pensions (1) how many young people in the East Riding of Yorkshire he estimates have gained sustained employment through the New Deal who would not otherwise have done so; [171789]

(2) what the cost of the New Deal in the East Riding of Yorkshire has been since its inception. [171790]

Jane Kennedy: The New Deal for Young People has been successful in helping 2,570 young people in the East Riding Local Authority area into work, 2,090 of which have gained sustained employment.

Information on how many of these young people would not have gained sustained employment without New Deal intervention is not available. However, research by the National Institute for Economic and Social Research (NIESR) found that long term unemployment would have been twice as high without New Deal for Young People and that a large number of young people left unemployment quicker than they would have done without New Deal.

Information on the cost of New Deal in the East Riding of Yorkshire is not available.

State Pension

Mr. George Howarth: To ask the Secretary of State for Work and Pensions what proportion of the average wage the state pension is in the UK; and what the figure is for each member state of the European Union. [155467]

Mr. Pond: The average State Pension payment to all recently retired pensioners is 20 per cent. of average earnings.

The comparable figure is not available for EU member states because most EU countries have earnings related State Pensions schemes. The amount of State Pension will therefore vary according to the individual earnings during their working life.

Notes:
1. State Pension is the maximum rate of basic State Pension plus the average amount of additional pension in payment based on March 2003 data for recently retired pensioners (men 65, women 60).
2. Average earnings is the mean weekly earnings at April 2003 of £475.80.
3. The 20 per cent. figure has been rounded to the nearest percentage point.

Pension Credit

Mr. McNamara: To ask the Secretary of State for Work and Pensions how many pensioners in Hull, North are eligible for pension credit; and what the take-up rate is. [174792]

Malcolm Wicks: The minimum income guarantee (MIG) was replaced by pension credit on 6 October 2003. Those who were receiving MIG immediately prior to that date were transferred automatically to pension credit. Information on the number of people who are eligible for pension credit is not available in respect of individual constituencies. However, we estimate that approximately 350,000 pensioner households in the Yorkshire and Humberside Government office region (rounded to the nearest 50,000) are eligible for pension credit. This estimate is based on data from the Family Resources Survey for 2001–02. A revised estimate, based on data from the Family Resources Survey for 2002–03, will be available early in June.

The number of recipients of MIG and pension credit in Hull, North in October 2003 and April 2004 respectively is shown in the table.

Minimum income guarantee and pension credit recipients, Hull, North, October 2003

	Number
Minimum income guarantee (3 October 2003)	
Households	3,425
Individuals	4,100
Pension credit (30 April 2004)	
Households	4,485
Individuals	5,565

Notes:
1. Figures are rounded to the nearest five.
2. Figures for individuals include a small number of partners under age 60.

Vulnerable Customers (Cheque Payment)

Mr. Berry: To ask the Secretary of State for Work and Pensions pursuant to his written statement of 11 May 2004, *Official Report*, columns 6–7WS, on vulnerable customers (payments by cheque), at what point the *(a)* Pension Service, *(b)* Jobcentre and *(c)* Disability Benefits Office will accept that a vulnerable customer's payment by cheque is late or lost; and whether a vulnerable customer, if they have not received any post on the day payment is due, will be able to contact their Pension Office and receive an emergency payment that day. [174245]

Mr. Pond: We will ensure that people get the money they are entitled to. Where a cheque payment does not arrive by the due payday, the customer should initially contact the office which normally pays their benefit or pension. Arrangements for replacement payments will vary depending upon the individual circumstances and needs of each customer.

Paying by cheque is a well-established method of payment that the Department has used successfully since 1968. We already have procedures in place for dealing with missing payments. We will ensure they continue to meet the needs of those customers paid by cheque.

Written Answers to Questions

Tuesday 25 May 2004

ADVOCATE-GENERAL

Devolution

Mr. Carmichael: To ask the Advocate General what devolution issues have been raised with her since 27 April. [174429]

The Advocate-General for Scotland: I refer the hon. Member to the answer I gave earlier today to the hon. Member for Vale of York (Miss McIntosh).

SCOTLAND

Energy Supplies

8. **Miss McIntosh:** To ask the Secretary of State for Scotland if he will make a statement on the security of energy supplies in Scotland. [174435]

Mrs. McGuire: The Government are committed to maintaining the security and reliability of energy supplies in the UK.

Asylum Seekers

9. **Mr. Sarwar:** To ask the Secretary of State for Scotland what discussions he has had with *(a)* the Scottish Executive and *(b)* Glasgow city council with regard to support for asylum seekers. [174436]

Mrs. McGuire: Scotland Office officials and I have regular contact with the Home Office, the Scottish Executive and also Glasgow city council regarding the support of asylum seekers and refugees in Scotland.

Ferry Subsidies

10. **Mr. Andrew Turner:** To ask the Secretary of State for Scotland when he last discussed with *(a)* representatives of the Scottish Executive and *(b)* ministerial colleagues subsidies to ferry services. [174437]

Mrs. McGuire: Regular discussions are undertaken on a wide range of issues with the Scottish Executive and ministerial colleagues.

Postal Services

12. **Andrew Selous:** To ask the Secretary of State for Scotland how many Post Offices have closed in Scotland over the last three years. [174439]

Mrs. McGuire: I understand from Post Office Ltd. that closure numbers in Scotland, over the last three years for which data are available, are:

	Number
Year ending March 2001	63
Year ending March 2002	26
Year ending March 2003	20

Economic Performance

Mr. Salmond: To ask the Secretary of State for Scotland if he will make a statement on the performance of the Scottish economy. [174438]

Mr. Darling: The recent performance of the Scottish economy offers grounds for encouragement. The labour market continues to improve, with employment at its highest level since records began in 1992[1] and unemployment around its lowest level since the 1970s. Interest rates and inflation are historically low. The Scottish Executive's GDP index, recently revised to better reflect real changes in the economy, shows that growth in Scotland has closely matched that of the UK in recent years. Business surveys are pointing to a continued strengthening of business activity in Scotland in both services and manufacturing and independent forecasters predict that growth will continue to be above-trend in 2004 and 2005. But there is no room for complacency. The Government and Scottish Executive recognise that Scotland's growth has been lower over the long-term than the UK average. They have each taken steps to promote productivity and build a more enterprising, innovative and highly skilled economy.

[1] Data prior to 1992 are not yet consistent with this series, though are scheduled to be available in revised form later this year.

Electoral Systems

John Robertson: To ask the Secretary of State for Scotland when he expects the independent commission on electoral systems in Scotland *(a)* to begin and *(b)* to report on its work. [174426]

Mr. Darling: I am pleased to announce that Professor Sir John Arbuthnott has agreed to be chairman of the Commission on Boundary Differences and Voting Systems. Sir John was Principal and Vice-Chancellor of the University of Strathclyde for nine years until 2000, and is currently chairman of the Greater Glasgow NHS Board. Membership of the Commission will be announced shortly.

The Commission will start work as soon as possible, and will be expected to complete its work in around 18 months.

Public Expenditure

Sir Nicholas Winterton: To ask the Secretary of State for Scotland if he will make a statement on levels of public spending per capita in Scotland. [174432]

Mrs. McGuire: The Treasury published "Public Expenditure Statistical Analyses (PESA) 2004" on 19 April, a copy of which is available in the Library of the House. Tables 8.2 and 8.4 detail total identifiable public expenditure per head for each country and region of the UK.

Regional Air Services

Mr. Carmichael: To ask the Secretary of State for Scotland when he last met the Scottish Executive to discuss the provision of public service obligations on regional air services. [174431]

Mr. Darling: I discuss a wide range of issues with Scottish Executive Ministers. Following on from the White Paper, discussions between the Scottish Executive and the Department for Transport are on-going and have contributed to a consultation paper on interpreting the criteria required for imposing PSOs. This will be published shortly.

Transport

Mr. Weir: To ask the Secretary of State for Scotland what recent representations he has received regarding transport issues in Scotland. [174433]

Mr. Darling: I receive representations on a wide range of Scottish issues.

LEADER OF THE HOUSE

Draft Bills

34. **Hugh Bayley:** To ask the Leader of the House how many Bills have been introduced as draft Bills. [175293]

Mr. Woolas: In the current Session, six draft Bills have been published so far.

Figures for draft Bills for previous Sessions since 1997 are as follows:

	Draft bills	*Sets of draft clauses*
1997–98	3	
1998–99	6	
1999–2000	6	
2000–01	2	
2001–02	6	
2002–03	9	1

Visitors

35. **Mr. Pike:** To ask the Leader of the House what proposals he is putting to the Select Committee on the Modernisation of the House of Commons to help schools outside of London and the South East of England with the costs of parliamentary visits. [175294]

Mr. Woolas: My right hon. Friend's view is that, while assistance with the cost of school visits is an option that the House of Commons Commission might wish to consider, the priority is to make a substantial improvement to the learning resources we provide via the parliamentary website. We have some 7,500 educational visitors a year—a figure which I hope we can increase significantly and a further 36,000 schoolchildren visit on constituency tours; but it will always be a minority of schoolchildren who are able to visit in person.

In contrast to the number of visitors to Parliament, during the 2002–03 financial year the Parliament website had 14.6 million hits. This shows that the number of people who might make use of the website is limitless.

Participation (Debates)

36. **Julie Morgan:** To ask the Leader of the House what plans he has to make proposals to enable more hon. Members to participate in debates. [175295]

Mr. Woolas: In its response to the Procedure Committee's report on Procedures for Debates, Private Members' Bills and the Powers of the Speaker (published last week in the Committee's Second Special Report of this Session, HC 610), the Government has indicated that it supports the Committee's recommendation that, on an experimental basis, there should be an opportunity for an hour, or half-hour, of shorter Back Bench speeches before the wind-up speeches on occasions when the Speaker thinks it appropriate. My right hon. Friend the Leader of the House will table a motion that allows the House to decide, when it debates the Committee's report, whether this experiment should go forward.

Sitting Hours

Sir Nicholas Winterton: To ask the Leader of the House what recent representations he has received on the working hours of the House of Commons. [175288]

Mr. Hain: In addition to the representations I described to the House on 27 April, *Official Report, 27 April 2004, column 749*, Members continue to raise this matter with me, from time to time—and, of course, I have read with interest the results of the Procedure Committee's Sitting Hours Questionnaire which is to be considered by the Modernisation Committee.

CONSTITUTIONAL AFFAIRS

Supreme Court

21. **Mr. George Osborne:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what progress the Secretary of State has made in identifying a site for the proposed Supreme Court. [175301]

Mr. Leslie: Good progress is being made in evaluating a shortlist of potential locations for a new Supreme Court, but at this stage, in order to protect the procurement interests of the taxpayer, it would be unwise to disclose publicly which sites are under consideration.

Legal Services

22. **Dr. Cable:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on proposals for reform of the legal professions. [175302]

Mr. Lammy: The Government have commissioned an independent review of the regulatory framework for legal services, aimed at promoting transparency and

competition in the legal services sector. Sir David Clementi is due to present his report by the end of this year.

Courthouse (Colchester)

23. **Bob Russell:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if the Lord Chancellor will attend the official start of building of the new courthouse in Colchester. [175303]

Mr. Leslie: A new magistrates' courthouse in Colchester is planned to open in 2008. Any decisions on who might attend the start of building works will be made nearer the time, which we expect to be mid 2006.

Justices of the Peace

24. **Mr. Llwyd**: To ask the Parliamentary Secretary Department of Constitutional Affairs how many justices of the peace there are in England and Wales; and what the corresponding figure was for 1990. [175305]

Mr. Leslie: Our records show that, at the beginning of this financial year, there were 28,705 Justices of the Peace in England and Wales. In 1990, there were 28,677 Justices of the Peace in post.

Legal Aid

25. **Hugh Bayley**: To ask the Parliamentary Secretary of State Department for Constitutional Affairs how much was spent on legal aid for immigration and nationality cases in *(a)* 1997–98 and *(b)* 2003–04. [175306]

Mr. Lammy: Immigration and nationality legal help cases cost £35 million in 1997–98 and £203 million in 2003–04. The figure for 2003–04 is still subject to end of year adjustment.

26. **Mr. Jim Cunningham**: To ask the Parliamentary Under-Secretary of State Department for Constitutional Affairs how many people have received legal aid in Greater London in the last seven years; and what the criteria are for eligibility for legal aid. [175307]

Mr. Lammy: It is estimated that the number of acts of assistance, in thousands, in the London region, over the last seven years, was as follows:

	Number
1997–1998	638
1998–1999	614
1999–2000	622
2000–2001	578
2001–2002	507
2002–2003	486
2002–2004	462

Those figures are for acts of assistance and are indicative though not necessarily the same as the number of people receiving legal aid.

Since April 2000 civil cases receive funding on the basis of meeting the financial means and legal merits criteria contained in the Legal Services Commission's Funding Code.

Representation is granted in criminal cases where the court considers it is in the interests of justice. Generally speaking that is where the offence is so serious that the accused could go to prison.

29. **Vera Baird**: To ask the Parliamentary Under Secretary of State Department for Constitutional Affairs if he will make a statement on the availability of legal aid in domestic violence cases. [175310]

Mr. Lammy: Domestic violence proceedings are a priority area for legal aid funding. The Legal Services Commission's Funding Code criteria for funding domestic violence cases are wider than for most other family and non-family areas. At present those who need financial assistance are able to obtain legal aid to go to court.

Freedom of Information Act

Simon Hughes: To ask the Parliamentary under Secretary of State Department for Constitutional Affairs by what date all the provisions of the Freedom of Information Act 2000 will be in force; and if he will make a statement. [175308]

Mr. Lammy: The Act will be fully implemented by January 2005, 11 months before the deadline set out in the Act itself.

House of Lords Reform

28. **Tony Wright**: To ask the Parliamentary under Secretary of State Department for Constitutional Affairs when he expects to bring forward further proposals to reform the second Chamber. [175309]

Mr. Leslie: The Government are determined to proceed with further reform of the House of Lords and intends to develop proposals for its party manifesto.

SOLICITOR-GENERAL

Bribery

Malcolm Bruce: To ask the Solicitor-General pursuant to her answer of 10 May 2004, *Official Report*, column 1W, which were the other two countries referred to in her answer of 2 February 2004, *Official Report*, column 613W, to the hon. Member for Ceredigion (Mr. Thomas). [174241]

The Solicitor-General: The originating countries of these requests were Bosnia and Norway.

Criminal Cases Review (Angela Cannings Judgment)

Vera Baird: To ask the Solicitor-General what arrangements for expedition have been made with the Criminal Cases Review Commission in respect of convictions reviewed following the Angela Cannings case and forwarded to it with a view to a reference to the court of appeal. [172611]

The Solicitor-General: The Attorney-General and the Chairman of the Criminal Cases Review Commission met at an early stage in the review of infant homicide convictions following the Angela Cannings appeal to

discuss the expedition of cases referred to the CCRC. The CCRC has agreed to expedite any cases referred to it as part of the review process.

In those cases where the convicted person is notified that there may be features in the case which warrant further consideration by the Court of Appeal or CCRC a copy of the letter is sent to each of the above bodies so that arrangement can be made for an early consideration of the case. The letter also offers to speed the process of referral by bringing the case to the attention of the CCRC in appropriate cases by forwarding the case papers where the convicted offender is in agreement to that.

Vera Baird: To ask the Solicitor-General how many defendants whose cases are yet to be reviewed following the Angela Cannings case are serving custodial sentences. [172612]

The Solicitor-General: As at 19 May 2004, 176 cases remain to be reviewed. Of those, 16 are shown to be cases where the offender is still serving a custodial sentence, according to Home Office lists. Those cases are being accorded the highest priority in the review process.

Vera Baird: To ask the Solicitor-General when she expects the review process following the Angela Cannings case to be completed. [172616]

The Solicitor-General: I refer the hon. and learned Member to the Attorney-General's statement on 5 May 2004.

Illegal Arms Trade (Nuclear Weapons)

Harry Cohen: To ask the Solicitor-General what progress has been made towards the prosecution of individuals and companies for the offence of assisting or inducing weapons-related acts overseas, in particular for developing, producing or participating in the development or production of a nuclear weapon; and if she will make a statement. [174626]

John Healey: I have been asked to reply.

Investigation and prosecution of offences involving assisting or inducing weapons-related acts overseas is the responsibility of HM Customs and Excise. However, Customs cannot comment on whether a matter is under current investigation; Exemption 4 (Law enforcement and legal proceedings) of the Open Government Code applies.

Customs have an important role in countering the proliferation of weapons of mass destruction. They work closely with other Government Departments and agencies, in the UK and overseas, to ensure that effective action is taken against proliferators.

Any prosecution for such offences require the consent of the Attorney-General.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Energy Efficiency

Brian White: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with local authorities on improving energy efficiency measures pursuant to the Sustainable Energy Act 2003. [173048]

Mr. Morley: No discussions have taken place with local authorities pursuant to the Sustainable Energy Act 2003.

"Energy Efficiency The Government's Plan for Action", published in April 2004, sets out the steps the Government intend to take at the local level. (http://www.official-documents.co.uk/document/cm61/6168/6168.pdf)

Richard Ottaway: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason the target for energy efficiency savings to 2010 from households has been lowered in the energy efficiency saving plan. [171778]

Mr. Morley: In "Energy Efficiency: The Government's Plan for Action" the Government set out their aim to deliver savings in households of 4.2 million tonnes of carbon per annum by 2010. The figure of 5 million tonnes of carbon in the Energy White Paper was an initial indication of what might be delivered. This projection has been revised as the Government have obtained more up-to-date information and completed more detailed analysis on the cost-effectiveness of energy efficiency policies and measures in this sector. The change in carbon savings in households reflects the fact that:

- growth in demand for insulation may be slower than originally envisaged;
- 'comfort taking' (after the installation of measures) may be higher in 2010 than previously thought, and
- future savings from more efficient lighting are expected come more from lower wattage lamps in lower-use fittings.

Latest revisions of projected carbon savings from other sectors more than offset this recalculation. The Action Plan sets out how the Government aim to cut carbon emissions by 12 million tonnes of carbon per annum by 2010 through energy efficiency over the next six years. This is 20 per cent. more than the 10 million tonnes of carbon per annum by 2010 we said we expected to achieve in the Energy White Paper a year ago.

Mr. Stringer: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Manchester have benefited from the Home Energy Efficiency and Warm Front Schemes. [172888]

Mr. Morley: The Home Energy Efficiency Scheme is now marketed as Warm Front. Between the launch of the scheme in June 2000 and the end of March 2004, approximately 10,540 households in Manchester received assistance from the scheme. For each constituency in Manchester, the approximate breakdown of households assisted was:

Constituency	*Number*
Manchester, Blackley	3,400
Manchester, Central	2,900
Manchester, Gorton	3,180
Manchester, Withington	1,060

Mr. Gordon Marsden: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Blackpool, South have benefited from the Home Energy Efficiency and Warm Front Schemes. [173069]

Mr. Morley: The Home Energy Efficiency Scheme is now marketed as Warm Front. Between the launch of the scheme in June 2000 and the end of March 2004, approximately 5,900 households in Blackpool, South received assistance from the scheme.

Mr. Djanogly: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in the constituency of Huntingdon have benefited from the Home Energy Efficiency Scheme. [172639]

Mr. Morley: The Home Energy Efficiency Scheme is now marketed as Warm Front. Between the launch of the scheme in June 2000 and the end of March 2004, approximately 550 households in Huntingdon received assistance from the Scheme.

Bovine TB

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what predictive modelling has been applied to the possible application of the Bovigam gamma interferon test to control bovine TB under different bovine TB scenarios in the UK, using Bovigam's known levels of specificity and sensitivity. [172564]

Mr. Bradshaw: Since 1997, DEFRA has commissioned two studies to evaluate the costs and benefits of using the Bovigam gamma interferon test to control bovine TB under different bovine TB scenarios in Great Britain. In carrying out the two economic assessments, predictive modelling was used to determine the likely outcomes under different bovine TB scenarios. The models used values for the specificity and sensitivity of the gamma interferon test published in the scientific literature from overseas field trials.

Project SE3018 investigated whether it would be cost-effective to use the gamma interferon test in herds with multiple tuberculin reactor animals. As the gamma interferon test is considered more sensitive than the skin test, its use in infected herds could improve the detection of tuberculous cattle. This would hasten the elimination of infection from herds and reduce the spread of infection among herds. However, this benefit has to be weighed against the extra cost that would result from the unnecessary slaughter of more non-tuberculous cattle due to the lower specificity of the gamma interferon test.

Project TD0604 investigated whether it would be cost-effective to use the gamma interferon test to resolve the tuberculosis status of herds in which only inconclusive reactor animals are detected at a routine herd test.

Final reports on these projects were submitted to Defra in April 2002 and November 1998, respectively.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what protocol her Department is using to examine post mortem cattle that are slaughtered in the Bovigam gamma interferon trial; and whether the protocol is the same as those used in other countries. [172566]

Mr. Bradshaw: All animals (including those slaughtered from herds included in the gamma interferon (g-IFN) field trial) undergo standard post-mortem inspection in the slaughterhouse or other suitable facility, by Meat Hygiene Service and/or State Veterinary Service officials, depending upon local arrangements.

I am unaware of the particular post-mortem protocols applied in other countries, but assume standard meat inspections will be carried out on any g-IFN positive animals slaughtered as part of TB control programmes.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what response her Department made to the proposal of the Independent Scientific Group on Cattle TB to undertake a field trial of the Bovigam gamma-interferon test. [172567]

Mr. Bradshaw: We sympathise with the desire of the Independent Scientific Group on Cattle TB (ISG) to maximise the science return of the gamma-interferon field pilot. However, implementing the ISG's proposals would present logistical difficulties, as well as raising complicated ethical and legal issues around identifying disease but not informing the herd owner, and taking samples from animals for experimental purposes rather than for the diagnosis of disease. It would also call for considerable additional resource.

Cattle

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what cost there will be to farmers from the cattle passports scheme; and if she will make a statement. [173679]

Alun Michael: The direct cost of running the cattle tracing system in Great Britain will be in the region of £23 million in 2005–6.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on *(a)* the effectiveness of the British Cattle Movement Service and *(b)* delays in processing records from farmers. [173680]

Alun Michael: The British Cattle Movement Service (BCMS) operates against published service targets and reports against these both to the Bovine Industry Group (made up of farmers' representatives and others in the cattle business) and to the BCMS Management Board (made up of Government Stakeholders).

In the first quarter of this year BCMS issued 100 per cent. of passports followingreceipt of a valid and complete application within five working days.

Recently, the BCMS issued its first transaction statement to keepers that brought in over 68,000 returns allowing over 500,000 queries raised by the BCMS to be resolved.

Climate Change Levy

Ann Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the renegotiation of agreed energy saving

targets contained in the climate change levy; and what assessment she has made of the effects on the future competitiveness of UK salt manufacturers. [172941]

Mr. Morley: The Climate Change Agreements are agreements with energy intensive industry through which participants pay a reduced rate of climate change levy in return for meeting challenging energy efficiency targets between 2002 and 2010. The agreements require that DEFRA review the sector targets in both 2004 and 2008 to ensure that all future milestone targets continue to represent the potential for cost effective energy savings, taking account of any changes in technical or market circumstances.

Targets are to be renegotiated with DEFRA at sector level and each sector association is then responsible for proposing how that sector target variation will be applied to underlying agreements. Negotiations with sector associations are now under way. There has been no assessment of the effects on UK salt manufacturers. Sector associations are able to put forward any information regarding changes to market circumstances in the course of these negotiations, and to take into account issues of competitiveness in proposing the variations to be made to underlying targets.

Coastal Erosion

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had in the last six months with *(a)* the National Farmers Union, *(b)* the Country Land and Business Association and *(c)* the Tenant Farmers' Association on coastal erosion and coastal protection. [163750]

Margaret Beckett: None.

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had in the last six months with *(a)* English Heritage, *(b)* the National Trust and *(c)* the Council for the Care of Churches on the threat to historic buildings from coastal erosion. [163751]

Margaret Beckett: None.

Common Agricultural Policy

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to ensure that the new schemes set up under Common Agricultural Policy reform will be simpler to administer; and if she will make a statement. [173692]

Alun Michael: Under the reform of the Common Agricultural Policy, which the Secretary of State announced on 6 June 2003, some 10 direct support schemes will cease and decoupled payment to farmers will be made under one integrated Single Payment Scheme. This is a significant simplification for farmers and administrators.At the same time, the Rural Payments Agency is implementing a modernisation of its working practices, including replacement of IT systems as part of a co-ordinated Change Programme. This will allow significant benefits to farmers and to the taxpayers as part of a simpler process for handling, validating and paying customers and in streamlining application procedures.

Dredging (Essex)

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs how much sediment has been dredged as a result of licences issued for *(a)* foreshore dredging and *(b)* estuary dredging from the Essex coast and estuaries in each of the last 30 years. [175022]

Mr. Jamieson: This information is not available centrally.

Emissions

Jane Griffiths: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received on behalf of the UK motor industry regarding the energy costs of Government policy on reducing carbon dioxide emissions. [173806]

Mr. Morley: Responses to the 2002 Energy White Paper consultation were received from a broad range of transport sector stakeholders, including vehicle manufacturers and trade associations covering most modes of transport.

More recently, the UK motor industry have been constructively involved in consultation on the National Allocation Plan and in regular contact with the Department throughout the implementation of the EU Emissions Trading Scheme.

Jane Griffiths: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate her Department has made of greenhouse gas emissions from aviation in *(a)* 2008, *(b)* 2012, *(c)* 2020, *(d)* 2030 and *(e)* 2050, assuming no fiscal or emissions policy changes; and what proportion of total UK greenhouse gas emissions it is estimated that these figures would represent. [173807]

Mr. Morley: The following table shows carbon dioxide from aviation for the years 2010 to 2050 as million tonnes carbon per year (MtC/yr) and as a percentage of UK emissions.

Table 1

	MtC/yr	*Percentage*
2010	11	7.5
2020	15	11.5
2030	17.5	15
2050	17.5	21.5

The entries in the table are consistent with the White Paper, "The Future of Air Transport", published in December 2003. They are rounded to the nearest 0.5 MtC/yr and 0.5 per cent. The percentage is expressed relative to the sum of *(i)* UK emissions projected to meet a 60 per cent. reduction in UK carbon dioxide emissions as described in the Energy White Paper published in February 2003 (which includes domestic aviation emissions), and *(ii)* emissions from international aviation associated with departures from UK airports. Aviation emissions are projected to stop rising between 2030 and 2050 due to fuel efficiency improvements anticipated by the Advisory Council for Aeronautical Research in Europe (ACARE) and the Inter-governmental Panel on Climate Change (IPCC).

The projections do not make assumptions about fiscal or emissions policy changes. Data are not available for the years 2008 and 2012.

The total effect of aviation on greenhouse gas emissions is likely to be greater than values projected for CO_2 only, mainly because the majority of emissions take place at altitude, which could increase the impact of aviation emissions by 2.5 times the impact of CO_2 alone. This radiative forcing factor is subject to uncertainty and could be between two and four times. Taking this into account yields the following estimates for aviation as a proportion of total greenhouse gas emissions:

Table 2

	MtCequiv/yr	*Percentage*
2010	27	14.5
2020	37.5	21
2030	44.5	26
2050	43.5	32.5

The figures in the second table are expressed in million tonnes of carbon equivalent per year and are rounded as before. The percentage is expressed in terms of total UK greenhouse gas emissions to 2050 assuming CO_2 meets the Energy White Paper target plus aviation CO_2 emissions from Table 2 multiplied by 2.5.

Environmental Liability Directive

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the steps necessary to comply with the EU Environmental Liability Directive. [174765]

Alun Michael: The directive is required to be implemented by May 2007. It will be necessary to transpose its requirements into UK law, and appropriate administrative and enforcement measures put in place. As part of this process, the Department will consult with stakeholders to assist identification of the critical issues and to ensure that they have an opportunity to influence decisions that will affect them.

Farming

Mr. Djanogly: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the farm income levels for farmers in Cambridgeshire in the last five years. [170854]

Alun Michael: Net farm income for farms in Cambridgeshire, the EU East Region and for England over the last five years are show in the table below.

The fall in incomes for 2002/03 in Cambridgeshire is a reflection of the high proportion of output accounted for by the potato crop on farms in that county compared to the East region in general. In 2002/03 the price of potatoes was low.

Net Farm Income

	1998–99	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
Cambridgeshire	29,964	17,207	24,827	25,758	13,794
EU East Region	13,190	9,604	11,367	11,997	16,894
England	10,359	7,981	9,886	13,558	16,435

Source:
Farm Business Survey

Net farm income is the return to the principal farmer and spouse for their manual and managerial labour and to the tenant-type capital of the business.

Mr. Blizzard: To ask the Secretary of State for Environment, Food and Rural Affairs what research she has commissioned to examine alternatives to the use of plastic sheeting used to cover fields and crops in farm production. [174469]

Alun Michael: A DEFRA-funded research project is under way to examine the feasibility of using innovative types of physical barriers to assist in crop protection against insect pests. If successful this research will allow for a reduction in the use of plastic mulches and sheeting in vegetable crop production.

An exercise has also been recently commissioned to look at types of polythene crop covers and mulches used in horticultural production. This will examine the scope for re-use or replacement with sustainable alternatives such as paper, starch or cellulose, which offer easier routes for disposal.

Chris Ruane: To ask the Secretary of State for Environment, Food and Rural Affairs how much was given in farm subsidies to each region of the United Kingdom in each of the last 10 years. [166677]

Alun Michael: The figures given below are based on the European Agriculture Guidance & Guarantee Fund (EAGGF) financial years, i.e. 16 October to 15 October. Earlier figures are not available.

£

Region	*EAGGF 2000*	*EAGGF 2001*	*EAGGF 2002*	*EAGGF 2003*
North East	40,050,129.43	37,370,886.64	35,483,680.86	64,980,655.45
North West	92,344,812.66	87,942,065.88	82,485,021.47	64,408,879.73
Yorkshire and Humberside	141,359,755.7 0	132,426,384.6 8	121,302,982.7 4	156,415,335.2 3
East Midlands	76,726,571.39	73,270,305.99	70,939,947.40	201,269,620.0 3
West Midlands	144,171,286.3 5	136,276,269.0 4	126,245,295.9 3	118,328,138.8 0
East of England	295,741,837.7 7	322,832,075.2 6	156,649,435.5 5	247,015,083.5 7
London	3,576,189.62	3,475,194.34	2,045,673.95	2,933,818.91
South East	117,465,773.7 4	110,603,194.3 4	98,589,082.77	163,282,273.0 2
South West	466,686,008.3 2	447,496,249.9 4	127,052,633.5 1	204,787,183.3 1

North East

The increased expenditure in EAGGF year 2003 was mainly due to the Cereals, Suckler Cow and Beef Special Premium schemes.

North West

The downturn of expenditure in EAGGF year 2003 relates to the Cereals and Set Aside food schemes.

Yorkshire and The Humber

The upturn in costs for EAGGF year 2003 was mainly in Cereals.

East Midlands

The sizeable increase in EAGGF year 2003 occurred in the Cereals, Oilseeds, Proteins, Set Aside Food and Slaughter Premium schemes.

East of England

For EAGGF year 2003 the increase is in the Cereals scheme.

South East

The increased expenditure in EAGGF year 2003 is in the Cereals, Oilseeds, Proteins and Set Aside Food schemes.

South West

In the EAGGF year 2002 the decrease in expenditure was mainly in Cereals, Oilseeds, Proteins, Set Aside Food, Suckler Cow and Beef Special Premium schemes.

In the EAGGF year 2003 there are increases in Cereals, Set Aside Food,

Suckler Cow, Beef Special Premium and Slaughter Premium schemes.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the rate of take-up of training of farmers at entry level under the modulation scheme. [173877]

Alun Michael: The pilot Entry Level Scheme is an agri-environment scheme that provides payment for good land management. The scheme is being piloted in four areas in England and has proved popular with farmers with a total of 271 agreements that started in August 2003. The Government has announced its intention to roll out the Entry Level Environmental Stewardship Scheme across England, as part of the England Rural Development Programme, using funding generated through modulation.

There is a separate Vocational Training Scheme, which is also part of the England Rural Development Programme. Under current ED rules, it does not involve modulation funding. Under that scheme, DEFRA has funded over 12,500 farmers to undertake training courses, involving over 30,000 training days, up to 31 March 2004. For the whole of the period of the programme (to the end of 2006), DEFRA has so far committed funding to over 7,500 courses, covering 73,000 training days, for participants in the farming and forestry sectors.

Nick Harvey: To ask the Secretary of State for Environment, Food and Rural Affairs what initial consideration the Government are giving to agricultural support and subsidies for farmers beyond 2012; and if she will make a statement. [174081]

Alun Michael: The UK played a pivotal role in securing agreement to major reforms to the EU's Common Agricultural Policy over the past year, which will help farmers focus their production on market demand, reduce environmental damage and reduce the damaging impact of EU subsidies on developing countries.

Over the longer term we want to see this progress towards a sustainable subsidy system completed in line with the objectives set out in our Sustainable Farming and Food Strategy. That means addressing remaining barriers to a market driven industry, such as those that still exist in the dairy sector, seeing a greater proportion of expenditure directed towards environmental and rural development measures, which provide real public benefits, and, at an international level, reducing further the damaging impact of trade-distorting agricultural subsidies, through the World Trade Organisation's Doha Development Agenda.

We also want to see CAP expenditure contained within limits that are consistent with our objectives for controlled EU expenditure as a whole.

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs how many farms in Cumbria will be classified as being in a severely disadvantaged area when the single farm payment is introduced. [169076]

Alun Michael: It is not possible to give a precise answer at the present time as entitlements to subsidy under the new single payment scheme will be allocated on the basis of claims made by farmers in 2005. However based on Integrated Administration and Control System scheme applications in 2003, the latest information currently available, 40 per cent. of holdings registered for IACS in Cumbria, 1,705 out of 4,235 farmers, have the majority of their land within the severely disadvantaged area.

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs what she estimates the difference in average payment in Cumbria would be if the lower rate of subsidy for land currently classed as a severely disadvantaged area (SDA) were applied only to those farms currently in the hill farm allowance scheme instead of the whole SDA. [169094]

Alun Michael: It is not possible to give definitive answers at the present time as entitlements under the new single payment scheme will be allocated on the basis of claims made by farmers in 2005. However from previous claim data, the majority of land claimed in the severely disadvantaged area in Cumbria, also receive hill farm allowance payment.

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of livestock in Cumbria will be classed as being in a severely disadvantaged area from 2005. [169100]

Alun Michael: The proportion of livestock in a severely disadvantaged area in Cumbria in 2005 will depend upon decisions made by farmers in that year. For single payment scheme purposes, the Department will not seek to class animals as being in a particular area in 2005 as that is not relevant to the number or value of entitlements that farmers are allocated. It will be

necessary to determine the value of payments made to farmers under existing CAP livestock schemes in the 2000–02 reference period. But, the allocation of this 'historical' element to entitlements held by farmers in one region or another will not affect the total value of subsidy that those farmers receive.

Fertilisers

Patrick Mercer: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what plans she has to make the regulations for *(a)* the manufacture and *(b)* the supply of ammonium nitrate fertiliser more stringent; [172742]

(2) what measures her Department and its predecessors have taken to control the manufacture, storage and use of ammonium nitrate fertiliser; [172745]

(3) how many tonnes of ammonium nitrate fertiliser was manufactured in the United Kingdom in each year since 2000. [172747]

Alun Michael: The Government have taken a number of measures to control the manufacture, storage and use of Ammonium Nitrate fertiliser in the general climate of heightened security. We need to balance the risks of potential misuse associated with AN against its clear and proven benefits in supporting food output in this country.

The Government have been working with the fertiliser industry to improve controls in the storage and supply chain of AN. We have endorsed industry guidelines which advise producers and sellers of AN fertiliser to:

sell only to known, bone fide customers, in particular those who have a credit account;

refrain from making cash sales;

ask questions to potential buyers of AN fertiliser to establish their knowledge of agriculture;

in the case of suspicious inquiries, to record and notify the police of the purchaser's name and address (verified by documentary proof such as details from a driving licence) and full details of the inquirer's vehicle, including the registration number.

We are continuing our dialogue with industry and have asked them to produce a code of practice to encourage direct deliveries from manufacturers to farmers to shorten supply chains and ensure better traceability. We have also endorsed industry guidance, produced in collaboration with farmers unions and the police, on "Security of Fertiliser Storage on Farm".

To supplement the voluntary measures, DEFRA has introduced regulations to control the supply of both home produced and imported AN. The regulations require AN fertiliser, with a high nitrogen content, including mixtures, to have satisfied a Detonation Resistance Test and all sellers have to maintain records of sales.

The Health and Safety Executive (HSE) has issued a self-help checklist to all those known to be handling or storing significant quantities of AN. The checklist has been distributed widely. It is aimed at spreading good practice and offering HSE as a source of further advice. Additionally, HSE has lowered the notification threshold under the Notification of Installations Handling Hazardous Substances Regulations 1982 from 500 to 150 tonnes and widened the range of products to be included in the notifications.

The regulations governing the manufacture and supply of AN fertilisers are kept under continuous review and further measures will be taken if necessary.

There are only two companies manufacturing AN fertiliser in the UK. It would not be appropriate to release production figures as it would enable each company to identify the manufacturing output of their competitor and would therefore breach commercial confidentiality.

Landfill Tax

Mr. Nicholas Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the revenue from landfill tax as a result of the diversion of catering waste from pig swill to landfill since the ban on swill feed was implemented. [172684]

Mr. Morley: No estimates have been made of the revenue from landfill tax resulting from the diversion of catering waste from pig swill to landfill.

Water Quality Standards

Mr. Lidington: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment the Environment Agency has made of the impact on water quality in Aylesbury of the draft Milton Keynes and South Midlands sub-regional strategy. [172161]

Mr. Morley: The Environment Agency is working with Thames Water to ensure that water quality standards are maintained in Aylesbury in the light of development planned in the draft Milton Keynes and South Midlands sub-regional strategy.

Orchards

Mr. Gordon Prentice: To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department has taken *(a)* to protect orchards and *(b)* to ensure that fruit varieties do not become extinct. [173316]

Alun Michael: The conservation of traditional orchards is funded through the Countryside Stewardship Scheme and fruit varieties are protected in the National Fruit Collection.

Parliamentary Answers

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy not to despatch one page parliamentary answers in large heavy-duty envelopes. [174766]

Alun Michael: I was not aware that officials were despatching one page parliamentary answers in large heavy duty envelopes. I have today asked officials to ensure that the hon. Members one page parliamentary answers are placed in an appropriately sized envelope.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 19 April, *Official Report*, column 152W, on secondees from outside organisations working in her

Department, in which Answers to Parliamentary Questions *(a)* Joanna Enright of Ashursts and *(b)* Nader Bahri of Powergen were involved in the drafting process. [174087]

Alun Michael: The Department has been careful not to involve either Joanna Enright or Dr Nader Bahri in the preparation of PQ answers where there is the potential for a conflict of interest.

Pesticides

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs on what date she expects to make her announcement of pesticide buffer zones. [174764]

Alun Michael: Officials have reported to Ministers and the evidence and the implications of any decision are currently being considered. Our priority is to ensure that the right decision is made and I will make a statement as soon as possible.

PFI Projects

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what role her Department has played in ensuring that private finance initiative projects create the minimum of environmental damage; [173113]

(2) what assessment her Department has made of *(a)* the (i) sustainability and (ii) environmental impacts of private finance initiative (PFI) projects and *(b)* the effectiveness of the PFI process in delivering environmentally sustainable projects; [173114]

(3) what role her Department *(a)* has and *(b)* plans to take to make the private finance initiative process more accountable and transparent in terms of environmental sustainability; [173115]

(4) what action her Department has taken to ensure other Government Departments deliver sustainability within private finance initiative projects. [173116]

Mr. Morley: In line with the Government's overarching commitment, Departments need to consider all aspects of sustainable development when entering into new PFI/PPP contracts. By taking a long term view, PFI/PPPs require an assessment of whole life costs and can promote a more efficient use of resources.

In July 2002, the Department together with ODPM, OGC and DfT jointly issued a guidance note, Green Public Private Partnerships, on how to include environmental considerations within PFI and PPP projects. This added to guidance on PFI projects issued by the Treasury and supports commitments being developed under the Framework for Sustainable Development on the Government Estate.

The biodiversity and energy sections of the Framework, published in August 2003 and February 2004 respectively, commit all Government Departments to include clauses relating to sustainable development issues in relevant contracts, including PPPs and PFIs. It is anticipated that future sections of the framework on waste, estates management and construction, and procurement will include similar provisions. The Framework will be reviewed in 2004–05 and further consideration will be given to how best Departments can take account of sustainable development in future PPPs/PFIs contracts. The Department's officials are working closely with officials from OGC in order to ensure that the Framework is fully coordinated with OGC's Achieving Excellence construction procurement guidance, in particular with Achieving Excellence Guide 11: Sustainability, which is currently under development.

Furthermore, from 1 April 2004 Departments must now explicitly identify any significant environmental and social costs and benefits, as well as economic costs and benefits when carrying out a Regulatory Impact Assessment (RIA). This will cover RIAs carried out on new PFI/PPP projects.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the contracts awarded to W.S. Atkins by *(a)* her Department, *(b)* its agencies and *(c)* its non-departmental public bodies since June 2001, broken down by (i) value of the contract and (ii) nature of the work. [173117]

Alun Michael: Over the three financial years 2001/02; 2002/03 and 2003/04 core-Defra spent £6,679,742 with W.S. Atkins on facilities management, technical and professional services. Information on the nature of individual contracts cannot be provided as it is not held centrally. The Department is in the process of compiling a central list for the future but this will take some time to complete.

Information on the value and nature of individual contracts awarded to W.S. Atkins by the Department's agencies and non-departmental public bodies is not held centrally and can only be provided at disproportionate cost.

Product Recalls

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with EU Ministers on compulsory insurance for product recall costs; and if she will make a statement. [173678]

Alun Michael: The decision to recall a product is usually taken by individual companies in conjunction with advice from the Food Standards Agency (FSA). It is for the companies themselves to decide whether to insure against such an eventuality. I have not been involved in any discussions with EU Ministers on compulsory insurance for such product recall costs.

In relation to animal feed, the Council of Agriculture Ministers has recently adopted an EC Regulation. One of the Articles of this Regulation requires that the European Commission shall prepare a report on the viability of feed business operators having financial guarantees, such as insurance. This would be to provide cover for the total costs for which such operators could

be held liable as a direct consequence of the withdrawal, treatment and/or destruction of feed from the market, or animals and food produced therefrom.

The FSA led the negotiations, so as such, I did not correspond with EU Ministers directly. However, DEFRA was kept fully informed by the FSA of their progress and Defra contributed views to the FSA, including on the issues of financial guarantees.

Rat Control

Harry Cohen: To ask the Secretary of State for Environment, Food and Rural Affairs further to her answer of 5 May 2004, to the hon. Member for Romford (Mr. Rosindell), *Official Report*, column 1497W, on rats, whether a local authority using the enforcement and monitoring powers she refers to may *(a)* require a water authority to (i) carry out a programme of sewer baiting and (ii) improve the sewer infrastructure in its area and *(b)* require a railway authority to (A) maintain embankments to a reasonable standard and (B) clear dumped rubbish and litter on their land on a regular basis, in its area; and if she will make a statement. [173239]

Mr. Morley: In answer to the first part of the question, under the Prevention of Damage by Pests Act 1949, a local authority cannot require a sewerage undertaker to carry out a programme of sewer baiting or improve the sewer infrastructure in its area.

The Prevention of Damage by Pests Act 1949 is used by local authorities to require Network Rail, the owner of operational railway land, to maintain lineside and rail property. Local authorities also have powers under the Environmental Protection Act 1990 Code of Practice on litter and fly tipping to serve litter abatement notices requiring litter or refuse to be cleared and/or prohibiting land from becoming defaced by litter or refuse. Network Rail clears litter in accordance with the timescales and zones given in the Code of Practice.

In both cases, local authorities have powers to enforce the duties of the owner or occupier and can use default powers to take those steps specified in a notice and recover any expenses reasonably incurred in doing so.

Recycling

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of *(a)* domestic, *(b)* commercial and *(c)* industrial refuse was recycled in (i) Brent, (ii) London and (iii) England in the latest year for which figures are available. [172814]

Mr. Morley: The information is as follows.

(a) The most recent year's figures for household waste are found in the Municipal Waste Management Survey for 2002–03.

	Percentage
London Borough of Brent	6.6
London	10.8
England	14.5

(b) and *(c)* . The most recent year's figures for commercial waste and for industrial waste are found in the Strategic Waste Management Assessment 2000, published by the Environment Agency, relating to figures for 1998–99. The survey collected data from a sample of 20,000 businesses across England and Wales.

	Percentage
Commercial waste	
London Borough of Brent	Not collected
West London (including Brent)	25.5
Greater London	30.6
England	22.5
Industrial waste	
London Borough of Brent	Not collected
West London (including Brent)	29.5
Greater London	37.6
England	34

Salt Manufacturers

Ann Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the proposed abolition of the product mix output algorithms in 2008; and what assessment she has made of the effects on the future competitiveness of UK salt manufacturers. [172942]

Mr. Morley: The Climate Change Agreements are agreements with energy intensive industry through which participants pay a reduced rate of climate change levy in return for meeting challenging energy efficiency targets between 2002 and 2010. The agreements provide for an adjustment to the targets up to 2006 to take account of changes in product mix and output which can increase the energy used per unit of output. The concession lasts only until 2006 because we enter into the Kyoto period in 2008, the date of the next target assessment. The Government must deliver on their commitment to make absolute reductions on CO_2 emissions in the Kyoto period, and there must be increased certainty of the contribution to be made from each of the UK's Climate Change Programme policies. Parties to Climate Change Agreements should take the energy use implications of changes in products, and how this will affect their ability to meet their targets, into account when making commercial decisions. The UK Emissions Trading Scheme is available for companies to buy allowances to meet their targets if they wish to produce more energy intensive products. There has been no assessment of the effects on UK salt manufacturers.

Ann Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the publication of the National Allocation Plan in respect of the European Union Emissions

Trading Scheme; and what assessment she has made of its effects on the future competitiveness of UK salt manufacturers. [172943]

Mr. Morley: The UK submitted its National Allocation Plan (NAP) to the European Commission on 30 April and published it for public consultation on 6 May 2004.

There are two salt manufactures listed in the UK NAP and they are covered by the EU Emissions Trading Scheme as a result of the combustion facilities on site. Both are classified in the Food and Drink sector, and one is a member of the Chemicals Industry Association.

The UK NAP acknowledges industry concerns about competitiveness and bases allocations on projected need for sectors open to international competition, including the Food and Drink and Chemicals sectors. Government have involved industry in every stage of the implementation process and have taken concerns over competitiveness on board.

Scottish Power

Ann Winterton: To ask the Secretary of State for Environment, Food and Rural Affairs when she last met representatives of Scottish Power plc; who was present; and what was on the agenda for discussion. [171783]

Mr. Morley: The Secretary of State last met a representative of Scottish Power plc on Thursday 13 May 2004 at a meeting of the Sustainable Development Task Force, of which Scottish Power is a member.

Scottish Power's representative at this meeting was Fred Dinning, who was attending in the place of Ian Russell, the Chief Executive. Other Task Force members present were from a range of UK Government Departments, the devolved Administration, and external stakeholder bodies. The full membership list is available on the Government's sustainable development website (www.sustainable-development.gov.uk).

The agenda for discussion included an update on the sustainable development strategy consultation; education for sustainable development; an update on the outcomes of the Twelfth Session of the UN Commission on Sustainable Development; and papers on breaking down the barriers for renewable energy. Full details and papers will shortly be available on the website, as well as the note of the meeting in due course.

Severely Disadvantaged Areas

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 28 April 2004, to the hon. Member for Salisbury (Mr. Key), *Official Report*, column 1025W, on severely disadvantaged areas, whether she has made representations to the European Commission to ensure that British farmers are not penalised if they are unable to meet the 17 May 2004 deadline. [174781]

Alun Michael: The Rural Payments Agency has not made representation to the European Commission in respect of the 17 May 2004 Integrated Administration and Control System deadline as the circumstances do not justify a derogation to the regulation on this occasion.

Single Farm Payments

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the future profitability of farms following the introduction of the single farm payments scheme. [173691]

Alun Michael: The Single Payment will decouple direct subsidies from the type or level of production. This will encourage farmers to respond to market signals rather than produce according to individual subsidy regimes. Decoupling payments from production is expected to lead to higher farm prices and consequently higher farm incomes. Defra economists estimate that overall, UK farm incomes will increase by around 5 per cent. of the forecast Total Income from Farming for 2003. This is an aggregate figure and the change in farm profitability will vary between different farm types and sizes. Further information can be found in the Economic Position of the Farming Industry report published on the Defra website at http://statistics.defra.gov.uk/esg/reports/repfi.pdf.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to provide more assistance to *(a)* owner-occupiers and *(b)* tenants of small intensive livestock farms after the introduction of single farm payments. [169740]

Alun Michael: We have no plans to differentiate payments to reflect the numbers of livestock kept on individual farms. Basing payments on stocking densities would create an incentive to increase production. By freeing up payments from the volume of production, producers will in future be free to meet market needs.

Supermarkets

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to ensure that the Office of Fair Trading continues to monitor the economic relationships between food producers and supermarkets; and if she will make a statement. [174201]

Alun Michael: We maintain close contact with the Office of Fair Trading (OFT) on issues that have a bearing on the relationship between supermarkets and their suppliers, and in particular on the supermarkets' Code of Practice. As part of the Government's Strategy for Sustainable Farming and Food, the OFT has undertaken to continuously monitor the practices of the supermarkets to which the Code applies.

UK Produce

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of honey produced in the UK was for the UK market in the last year for which figures are available. [173764]

Alun Michael: UK production and supply of honey in 2003 is given in the following table.

UK honey production and supply 2003

	Thousand tonnes
Production	7.5
Imports[1]	22.0
Exports[1]	1.1
Total supply[2]	28.4
UK production for the UK market as percentage[3]	85.9
UK production as percentage of total supply	26.3

[1] Includes artificial honey.
[2] Production plus imports less exports.
[3] Production less exports as a percentage of production.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of *(a)* apples, *(b)* pears, *(c)* strawberries and *(d)* raspberries grown in the UK was for the UK market in the last year for which figures are available. [173765]

Alun Michael: UK production and supply of apples, pears, strawberries and raspberries are given in the following table:

UK production and supplies of selected fruit 2003

Thousand tonnes

	Apples	*Pears*	*Strawberries*	*Raspberries*
Production	123.6	29.6	41.8	8.0
Imports	473.4	116.6	35.9	4.7
Exports	12.5	3.0	0.2	0.0
Total supply[1]	584.5	143.2	77.5	12.7
UK production for the UK market as percentage[2]	89.9	89.9	99.5	99.8
UK production as percentage of total supply	21.1	20.7	53.9	63.1

[1] Production plus imports less exports.
[2] Production lese exports as a percentage of production.

Underground Fuel Storage

Jane Griffiths: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what action has been taken to reduce the *(a)* number and *(b)* severity of pollution incidents from underground tanks at petrol stations; [173802]

(2) what recent risk assessments have been undertaken of potential oil leakage from underground tanks at petrol stations; [173804]

(3) what estimate she has made of the proportion of underground oil tanks at petrol stations which have *(a)* double-skinned tanks and *(b)* remote wetstock monitoring. [173805]

Mr. Morley: The "Groundwater Protection Code: Petrol Stations and Fuel Dispensing Underground Storage Tanks", was published by DEFRA in 2002. It sets out a framework of good practice to help petrol station operators to avoid groundwater pollution and comply with the Groundwater Regulations. The Environment Agency has also developed operating agreements with individual petroleum companies that aim to prioritise capital investment based on a common understanding of environmental risk. The Agency will be reviewing the effectiveness of operating agreements piloted with a number of petroleum licensing authorities, in order to improve notification of spills, with a view to extending their use.

Environmental risk assessments are the responsibility of the operators of petrol stations. The Environment Agency has worked with the UK Petroleum Industry Association to develop a suitable risk assessment technique that is widely available to operators. The Environment Agency has also undertaken a number of pollution prevention visits to high risk petrol stations for the purposes of the Groundwater Regulations.

Information on double-skinned oil tanks, or remote wetstock monitoring, at petrol stations is not collected and held centrally. However, the Environment Agency, in carrying out its duties to prevent pollution from petrol stations, will consider pollution problems on an individual basis according to the particular risk posed.

Water Metering

Richard Ottaway: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the number of pensioners who would reduce their water bills if they switched to a metered supply. [172781]

Mr. Morley: Research was undertaken by Maxwell Stamp consultancy for the Department for Environment, Transport and the Regions and published in July 1998 ("Incidence Effects of Charging for Domestic Water and Sewerage Services").

This research showed that, using the standing charges and volumetric charges at that time, 55 per cent. of pensioners would pay less on measured charges, but 45 per cent. would pay more.

The existence and extent of savings depends on both the quantity of water used and on the alternative unmeasured basis of charging from which the household might change.

The research informed the Government's decision to introduce the free meter option, which has been of benefit, especially to those in small properties and making least use of water services.

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the number of pensioners who would reduce their water bills if they switched to a metered supply in *(a)* Lancashire and *(b)* Chorley. [173856]

Mr. Morley: Research was undertaken by Maxwell Stamp consultancy for the Department for Environment, Transport and the Regions and published in July 1998 ("Incidence Effects of Charging for Domestic Water and Sewerage Services").

This research showed that, using the standing charges and volumetric charges at that time, 55 per cent. of pensioners in England and Wales would pay less on measured charges, but 45 per cent. would pay more.

Information broken down by county or town is not available.

The existence and extent of savings depends on both the quantity of water used and on the alternative unmeasured basis of charging from which the household might change.

The research informed the Government's decision to introduce the free meter option, which has been of benefit, especially to those in small properties and making least use of water services.

DEPUTY PRIME MINISTER

CBRN Substances

Llew Smith: To ask the Deputy Prime Minister what estimate he has made of the costs that may arise from carrying out the decontamination procedures set out in the Strategic National Guidance for the decontamination of buildings and infrastructure exposed to chemical, radiological or nuclear (CBRN) substances or material, issued this month. [175374]

Mr. Raynsford: The cost of carrying out the procedures set out in the guidance would depend upon the circumstances of the incident. Factors involved would include the nature and extent of contamination; the characteristics of the building or infrastructure affected and the systems, equipment and other contents; the CBRN material involved; the type of surfaces affected; and the particular objectives of the decontamination plan drawn up for the premises concerned.

In order to provide help and advice to those dealing with decontamination the Government have set up a team to consider the establishment of a national decontamination and recovery service.

Council Tax

Alistair Burt: To ask the Deputy Prime Minister what representations he has received from *(a)* clergy and *(b)* others whose jobs require them to maintain more than one property in relation to (i) exemption from council tax on second homes and (ii) the amelioration of the effects of council tax; and if he will make a statement. [175871]

Mr. Raynsford: The Council Tax (Prescribed Classes of Dwellings) (England) Regulations 2003 (S.I. 2003/3011), as amended by the Council Tax (Prescribed Classes of Dwellings) (Amendment) (England) Regulations 2004 S.I. (2004/926), set out the circumstances in which the 50 per cent. council tax discount on the second home is retained where a person is required to live in job related accommodation. Records of correspondence received by the Office of the Deputy Prime Minister do not differentiate between the topics requested and other council tax matters. A precise figure could be provided only at disproportionate cost.

Planning

Mr. Laurence Robertson: To ask the Deputy Prime Minister for what valid reason local councils may reject proposals made by Government inspectors, under PPG10 for major housing development sites; and if he will make a statement. [175592]

Keith Hill: Regional Planning Guidance for the south west (RPG10) provides a regional spatial strategy within which development plans, including those in Gloucestershire, should be prepared; it sets out a broad development strategy for the period up to 2016 and beyond; and provides the spatial framework for other strategies and programmes. RPG10 should be taken into account by local authorities preparing Local Plans.

Following a Local Plan Inquiry the inspector makes his/her recommendations to the Local Planning Authority (LPA). It is for the LPA to consider in the first instance whether to make modifications to the plan based on the inspector's recommendations. The LPA is required to prepare a statement of its decision on each recommendation and to give its full reasons if it does not accept any recommendation made by the inspector. Currently, most local authorities accept the majority of an inspector's recommendations, but they are not obliged to do so.

This statement of reasons and any proposed modifications to the Local Plan are published and objections and representations may be made to the council for a period of six weeks.

There is no criterion against which the reasons for rejecting any recommendation are measured. The Government office for the south west, on behalf of the Office of the Deputy Prime Minister, will have the opportunity to consider any modifications to identify whether they are consistent with national and regional policies, and whether there are conflicts which do not appear to be justified by local circumstances.

The general approach of Government is that responsibility for deciding planning matters should be left, as far as possible, to locally accountable planning authorities. This is because local authority councillors are elected to represent the views of local people and, in the main, it is these councillors who are in the best position to make the necessary decisions in respect of their Local Plan.

In the light of this, while powers have been reserved to direct modifications to the plan or to call-in all, or part, of a plan for determination by the Office of the Deputy Prime Minister, these powers are used sparingly and as a last resort.

Mr. Sayeed: To ask the Deputy Prime Minister what plans he has to make developers liable for a greater share of the costs of planning inquiries and tribunals. [175879]

Keith Hill: There are no plans to change the existing longstanding practice where each party is responsible for their own costs at planning inquiries.

Local Government Finance

Hugh Bayley: To ask the Deputy Prime Minister how much *(a)* in revenue support grant and *(b)* in specific grants was provided to City of York in each year since 1997–98. [175274]

Mr. Raynsford: Grants provided to City of York in each year since 1997–98 are tabled as follows:

£ million

	General grants[1]	Specific grants[2]
1997–98	78.0	3.1
1998–99	80.5	4.1
1999–2000	84.5	6.2
2000–01	88.0	11.0
2001–02	90.3	15.0
2002–03	91.1	21.2
2003–04[3]	100.3	16.3
2004–05[3]	102.7	28.2

[1] Includes Revenue Support Grant, Redistributed Non-Domestic Rates, SSA Reduction Grant (1997–98 to 2001–02), Central Support Protection Grant (1999–2000 to 2001–02).

[2] Specific and special grants inside Aggregate External Finance (AEF).

[3] Budgeted figures.

Source:

1997–98 to 2002–03 Revenue Summary forms and 2003–04 to 2004–05 Budget Estimate returns

Hugh Bayley: To ask the Deputy Prime Minister what the value is of each of the specific grants received by City of York in 2004–05. [175275]

Mr. Raynsford: The specific grants[1] that City of York have budgeted to receive in 2004–05[2] are tabled as follows:

	£000
Civil Defence	72
Adoption Support and Special Guardianship	51
Choice Protects	67
Leadership Incentive	364
Safeguarding Children	200
School Standards	2,678
Standards Fund	3,705
Teachers Pay Reform	2,571
Teenage Pregnancy Local Implementation	101
Detrunking	355
Rural Bus Subsidy	123
Access and Systems Capacity	1,463
AIDS Support	19
Carers	363
Child and Adolescent Mental Health Services	167
Delayed Discharges	297
Human Resources Development Strategy	63
Mental Health	493
National Training Strategy	83
Preserved Rights	2,564
Residential Allowance	1,113
Training Support Programme	159
Council Tax Benefit (CTB) Administration	344
Housing Benefit (HB) Administration	390
Additional HB and CTB administration due to Pension Credit	36
Additional HB and CTB administration due to Tax Credits	27
Workstep	224
Asylum Seekers	29
Homelessness Strategies	250
Planning Development	143
Supporting People Administration	236
Supporting People Programme—Housing	8,585
Supporting People Programme—Social Services	664
Other Grants inside AEF	233

[1] Specific and special grants inside Aggregate External Finance (AEF).

[2] Budgeted figures.

2004–05 Budget Estimate RA (SG) form.

TREASURY

Abortion

Mrs. Roe: To ask the Chancellor of the Exchequer (1) how many conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years there were in Bedfordshire and Hertfordshire Strategic Health Authority in each year since 2000; [174877]

(2) what the rate of conceptions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in Bedfordshire and Hertfordshire Strategic Health Authority in each year since 2000; [174879]

(3) how many conceptions resulting in abortions in women aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years there were in Bedfordshire and Hertfordshire Strategic Health Authority in each year since 2000. [174887]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mrs. Marion Roe, dated 25 May 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions on conceptions and abortions. (174877, 174879, 174887)

The information you requested on conceptions, and conception rates was given in answer to a recent question from David Amess MP, which appears in the Official Report of Monday 24 May, No. 91, Column 1201W-1208W.

Information on conceptions resulting in abortions was given in answer to another question from David Amess MP, which appears in the same Official Report at Column 1197-1200W.

EU Budget

Tom Cox: To ask the Chancellor of the Exchequer which of the present member states of the European Union are expected to be *(a)* net contributors to and *(b)* net beneficiaries of the European Union budget in 2004–05. [175155]

Ruth Kelly: As shown in the footnote to Table C11 of the FSBR (HC 301), the Government forecasts that the United Kingdom will continue to be a net contributor to the EC Budget in 2004–05. Publishing forecasts of the net positions of other Member States is a matter for their respective Governments.

Aggregates Tax

Mr. Whittingdale: To ask the Chancellor of the Exchequer how much has been raised in tax and licence revenue from the dredging of aggregates off the East Anglian coast in each of the last 10 years. [175029]

John Healey: The information on the amount of tax raised from the dredging of aggregates off the East Anglian coast is not available. Revenue from this source and region is not separately identified in either aggregates levy or VAT payments.

The royalty income over the period 1993 to 2003 from aggregate dredging licences off the East Anglian coast (east coast region comprising Great Yarmouth/Cross Sands block and Southwold) is given in the following table:

	Royalty income (£ million)
2003	5.06
2002	5.29
2001	5.36
2000	6.16
1999	4.77
1998	4.44
1997	4.71
1996	5.21
1995	4.67
1994	4.18
1993	3.67

Child Tax Credit

Colin Burgon: To ask the Chancellor of the Exchequer how many families in the Elmet constituency are receiving child tax credit. [174876]

Dawn Primarolo: I refer my hon. Friend to my answer to my hon. Friend the Member for Burton (Mrs. Dean) on 15 March 2004, *Official Report*, column 98W.

Mr. Djanogly: To ask the Chancellor of the Exchequer how many families in *(a)* Cambridgeshire and *(b)* the constituency of Huntingdon have received child tax credit. [175252]

Dawn Primarolo: I refer the hon. Member to my answer to my hon. Friend the Member for Burton (Mrs. Dean) on 15 March 2004, *Official Report*, column 98W. Estimates for each local authority also appear in the publication referred to in that answer.

Departmental Buildings

Mr. Flight: To ask the Chancellor of the Exchequer how many buildings in England owned by his Department are used at less than 25 per cent. capacity for more than three months of the year. [175980]

Ruth Kelly: None.

E-Government

Mr. Prisk: To ask the Chancellor of the Exchequer from what date staff were employed by the Inland Revenue's e-Government programme; how many staff are assigned to the programme; and when planning began for the programme. [174019]

Dawn Primarolo: Staff have been employed on the planning and implementation of the Inland Revenue's e-Government programme from 1999. Currently there are 328 Full-time Equivalents (FTEs) assigned permanently to the programme. This includes 253 FTEs that provide support to customers who use the "e" services. (Self Assessment, PAYE, Corporation Tax, New Tax Credits and Stamps.)

Farming

Nick Harvey: To ask the Chancellor of the Exchequer if he will revise the tax treatment of losses made by farmers on holdings of production quotas so as to allow losses to be written off against trading profits rather than capital transaction profits; and if he will make a statement. [173913]

Dawn Primarolo: Production quotas held by unincorporated farmers are treated for tax purposes as chargeable assets and as such any losses are set against current or future chargeable gains. There are no current plans to revise this treatment.

Illegal Meat Imports

Mr. Alan Reid: To ask the Chancellor of the Exchequer (1) what assessment he has made of the effectiveness of x-ray technology in detecting illegal meat imports; [175636]

(2) what use Customs and Excise make of x-ray technology to detect illegal meat imports; and if he will make a statement. [175749]

John Healey: I refer the hon. Gentleman to the answer I gave to my hon. Friend the Member for Brent, North (Mr. Gardiner) on 23 February 2004, *Official Report*, column 116W. HM Customs and Excise use x-ray technology to detect illegal meat and other prohibited and restricted goods being imported into the UK both by passengers and in freight. The effectiveness of current equipment is continually assessed.

Customs continue to work with manufacturers to identify improved technology that would further enhance their detection capabilities.

Large Business Office

Mr. Prisk: To ask the Chancellor of the Exchequer how many hours' training each Large Business Office caseworker has received in tax compliance performance in each year since 1997. [174939]

Dawn Primarolo: These figures are not available. Large Business Office caseworkers all have a Performance Development Plan according to their personal needs and experience. They receive continuous technical training on a variety of topics through formal courses and in-house awareness seminars. These include specific tax compliance knowledge and skills.

Mr. Prisk: To ask the Chancellor of the Exchequer which IT software systems have been procured by the Large Business Office since 1997; and how many hours' training each Large Business Office caseworker has had on those systems in each year since 1997. [174940]

Dawn Primarolo: The Large Business Office main IT system to manage case handling was introduced in April 1998. Training in the use of this system is provided by local support on induction to the LBO.

The main desktop support services are provided departmentally. The LBO has one designated officer in each location to support staff familiarisation with these as required.

Data analysis software products, Win Idea and SPACE, were introduced in 2003–04 for Employer Compliance staff. 20 officers are having 18 days training in their full use, to become local experts, and a further 20 in 2003–04 and 2004–05 will receive support training.

Mr. Prisk: To ask the Chancellor of the Exchequer what the cost has been in each year since 1997 of IT software systems procured by the Large Business Office. [174941]

Dawn Primarolo: I refer the hon. Member to the answer I gave to the hon. Member for North Wiltshire (Mr. Gray) on 12 February 2004, *Official Report*, columns 1555–56W.

The main support IT, such as standard desktop services, audit tools etc. are provided nationally, and not procured by the LBO. The LBO has its own small budget for minor IT software packages and other incidentals, currently £13,000 per annum.

Lone Parents

Chris Ruane: To ask the Chancellor of the Exchequer how many lone parents were employed in each of the last 25 years, broken down by constituency within each region. [175129]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Chris Ruane, dated 25 May 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about lone parents in employment. (175129)

The attached table gives the estimates of the number of lone parents in employment for each region covering the three months ending May each year from 1992 to 2003. Comparable information is not available for earlier or later years. The LFS sample size is too small to give reliable information in each Parliamentary Constituency.

Estimates are taken from the Office for National Statistics's Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to sampling variability.

Lone parents[1] with dependent children in employment by regions—three months ending May, each year from 1992 to 2003

£000

	United Kingdom	*North East*	*North West*	*Yorkshire and Humberside*	*East Midlands*	*West Midlands*	*Eastern*
1992	569	30	72	53	43	47	42
1993	615	29	82	51	34	53	47
1994	669	30	79	54	46	55	61

2003	111	113	69	48	81	25

[1] Refers to people who have dependent children and who are neither married nor cohabiting. Dependent children include all children aged under 16, and 16 to 18 year olds in full-time education.

Source:

ONS: Labour Force Survey, household data.

Pensions

Chris Ruane: To ask the Chancellor of the Exchequer what estimate he has made of the number of mis-sold pensions in each of the last 25 years. [175071]

Ruth Kelly: Neither we nor the Financial Services Authority (the FSA) hold data in this form. The FSA do hold data on the Pensions Review, which covers pensions that were sold between 29 April 1988 and 30 June 1994.

1,618,686 cases of mis-selling were identified under the review, of which 1,118,885 cases involved consumers suffering loss as a result.

The Financial Services Compensation Scheme (the FSCS) have informed the FSA that they have, in addition, offered compensation in 18,746 further cases. The FSCS has also rejected 10,117 claims.

These rejections may include cases where pensions were mis-sold but where claims for compensation were rejected on the grounds that an advisor was solvent and

able to meet a claim directly. Some, but very few, of these rejections will be included already in the figures above.

Mr. Willetts: To ask the Chancellor of the Exchequer what his latest estimate is of the value of the Exchequer's liabilities to *(a)* the basic state pension, *(b)* SERPS and *(c)* the state second pension; and if he will make a statement. [171583]

Malcolm Wicks: I have been asked to reply.

The future cost of basic state pensions and SERFS/State Second Pension over the next 50 years, as a proportion of GDP, is published on the DWP website at: http://www.dwp.gov.uk/asd/asd4/Table3_Long_Term_Projections.xls and shows that expenditure in the United Kingdom on these elements of pension provision is expected to remain in the range 4.1 per cent. to 4.5 per cent. of GDP during the period.

Scrap Aluminium

Mr. Page: To ask the Chancellor of the Exchequer what plans he has to tax export of scrap aluminium to sources outside the EU. [174979]

Dawn Primarolo: None. The legality of an export tax to protect a domestic industry is extremely doubtful under the terms of the General Agreement on Tariffs and Trade (1947).

Transport Taxes

Mr. Martyn Jones: To ask the Chancellor of the Exchequer what assessment he has made of the paper, "Reforming Transport Taxes", published by the European Conference of Ministers of Transport. [150883]

John Healey: The Chancellor notes the contents of this report, which looks at the options for transport taxation in general, and more specifically at the tax treatment of the road haulage industry.

The report will be considered along with other evidence and analysis as the Government takes forward their agenda on lorry road-user charging, and national road-user charging, as outlined in Budget 2004.

Labour Statistics (East Riding)

David Davis: To ask the Chancellor of the Exchequer how many young people in the East Riding of Yorkshire were not working, studying or in training in 2003. [171788]

Ruth Kelly: The Office of National Statistics estimate from the Labour Force Survey, for the twelve months ending in February 2003, that 4,000 young people aged 16 to 24 resident in East Riding of Yorkshire were networking and were not in full-time education or in Government-supported training schemes. This compares to around 4800 young people in 1997.

Since 1997 the Government have introduced a wide range of support for young people who are not working, studying or training. Most young people leave unemployment in under six months. The New Deal for Young People and other support is in place for those aged 18–24 who do not. In Budget 2004 the Chancellor announced reforms to the financial support system for 16–19 year olds to improve the support and incentives available to young people to remain in education and training. These reforms build on the introduction of Education Maintenance Allowances from September 2004 to improve the financial support available to the hardest to reach to stay in education. Young people can also access advice and support on education and training through either the Connexions Service or Job Centre Plus.

INTERNATIONAL DEVELOPMENT

Administration Costs

Tom Brake: To ask the Secretary of State for International Development what targets exist for the achievement of savings in administration costs within his Department; and if he will make a statement. [175769]

Mr. Gareth Thomas: DFID is committed to tight control of Administration Costs. For 2004–05 to 2005–06, the main administration costs target is to hold back office costs to the same cash level as in 2003–04. Between 2002–03 and 2005–06, total administration costs will have fallen from 5.8 per cent. of programme costs to 5.1 per cent. Targets for both back-office costs and total administration costs for 2006–07 and 2007–08 will be agreed as part of the 2004 Spending Review, along with an implementation plan to ensure projected efficiencies are realised.

Chad

Angus Robertson: To ask the Secretary of State for International Development if he will list the programmes aimed at institution building in Chad *(a)* run by his Department, *(b)* fully financed by his Department, *(c)* partially financed by his Department within the framework of EU initiatives, *(d)* partially financed by his Department within the framework of UN initiatives and *(e)* partially financed by his Department within the framework of the World Bank initiatives; when they were initiated; for how long they are planned to continue; and what aspect of institution building is being addressed by each. [175116]

Mr. Gareth Thomas: DFID does not have a direct development assistance programme in Chad and is not involved in running or providing either full or partial funding for any institution building programmes there. DFID's assistance to Chad is mainly channelled through it's contributions to multilateral agencies, including the EC, World Bank and UN Agencies, of which the UK's imputed share was estimated at £7.3 million in 2001.

Angus Robertson: To ask the Secretary of State for International Development what assessment his Department has made of the *(a)* scale and *(b)* nature of corruption within the public institutions of Chad; what measures to fight this problem his Department proposes to provide as part of its development aid to Chad; and if he will make a statement. [175184]

Mr. Gareth Thomas: DFID does not have a direct development assistance programme in Chad. DFID's assistance is mainly channelled through our contributions

to multilateral agencies, including the EC, World Bank and UN Agencies, of which the UK's imputed share was estimated at £7.3 million in 2001.

DFID has not conducted its own assessment of public sector corruption in Chad and is not directly involved in any measures to deal with this problem. However, DFID does support the efforts of the World Bank and the European Commission in helping to tackle corruption, in particular through the monitoring of the revenues from the Chad-Cameroon Petroleum Development and Pipeline project to ensure they are mainly used for poverty reduction.

Far East

Tom Cox: To ask the Secretary of State for International Development what aid projects his Department plans to develop in the Far East during the next three years; and if he will make a statement. [173540]

Mr. Gareth Thomas: The breakdown for our project spend on bilateral programmes in Far East Asia is as follows:

DFID allocation by programme

£000

	2003–04 Estimated Outturns	*2004–05 Plans*	*2005–06 Plans*
China	31,000	45,000	35,000
Vietnam	26,000	40,000	60,000
Total: Far East	57,000	85,000	95,000

For details of our projected spend in the rest of Asia I refer the hon. Member to the written answer of 7 May 2004 to his question on DFID's development plans in Asia, *Official Report*, 10 May 2004, column 57W.

In addition to this bilateral spend, FCO posts administer a DFID funded Small Grants Scheme for poverty reduction, which covers some countries of the Far East. This is allocated on an annual basis. The total grant values for 2002–03 in the Far East were as follows:

Asia: Far East (Small Grant Scheme) 2002–03

£000

China	124
Vietnam	121
Mongolia	97
Total Asia: Far East	342

DFID also provides humanitarian assistance to the Democratic People's Republic of Korea, focusing on water and sanitation and disaster preparedness. This is allocated in response to humanitarian need. In 2003–04, DFID channelled a total of £1,223,000 through the United Nationals Children Fund (UNICEF) and the International Federation of the Red Cross and Red Crescent Societies (IFRC).

Iran

Angus Robertson: To ask the Secretary of State for International Development how much aid his Department has *(a)* pledged and *(b)* delivered to help in the ongoing humanitarian and reconstruction work in Bam, Iran; and if he will make a statement. [175118]

Mr. Gareth Thomas: DFID has committed £3.7 million, including the UK share of the European community contribution, in response to humanitarian needs following the Bam earthquake.

DFID contributed some £950,000 towards immediate support to the emergency phase of the Bam Earthquake. The details of the UK response were provided in my Statement to the House on 5 January 2004, *Official Report*, columns 2–4WS. Thereafter, DFID made an additional commitment of £2 million in support of rehabilitation. This was focused on the restoration of primary health care services in partnership with the World Health Organisation (£0.5 million); the implementation of a mid-term sanitation programme in partnership with the United Nations Children's agency, UNICEF (£0.5 million); the restoration of agricultural based livelihoods, focusing on the rehabilitation of wells and procurement of pumps, livestock restocking and the replacement of agricultural tools in a joint United Nations Development Programme—Food and Agricultural Organisation partnership (£0.25 million) and also through the non-governmental organisation Action Contre La Faim (£0.25 million); and further support (£0.45 million) to the International Federation of the Red Cross's appeal.

All of this support to rehabilitation has been programmed through the agencies mentioned except the £0.45 million committed to the International Federation of the Red Cross. These funds were originally intended for the restocking of relief items, continued provision of emergency medical services and capacity building of the Iranian Red Crescent Society but we have been informed that these elements of the appeal have been sufficiently covered by other contributions. With the aid of the British Red Cross Society an assessment is planned to consider how this allocation might best be utilised in meeting gaps in provision.

DFID Officials will be visiting Bam in July to monitor how effectively the UK contribution has been spent.

Liberia

Angus Robertson: To ask the Secretary of State for International Development when *(a)* he and *(b)* members of his Department last met the UN Secretary-General's special representative for Liberia to discuss (i) the security situation in Liberia, (ii) the humanitarian situation in Liberia and (iii) future plans for the reconstruction of Liberia; and if he will make a statement. [175183]

Hilary Benn: I met the Special Representative, Jacques Klein, on 10 May 2004. We discussed the Disarmament, Demobilisation, Resettlement and Reintegration (DDRR) programme, security and security sector reform, arrangements for next year's elections, and Liberia's future prospects. I confirmed our continued support for humanitarian programmes, to which DFID have committed a total of £10.6m, and for DDRR, for which DFID have provided £6m. DFID officials have also recently met representatives of the National Transitional Government of Liberia,

including Chairman Bryant, and a range of UN and other agencies, to discuss possible support to governance reform, as part of the process of reconstruction.

Nigeria

Angus Robertson: To ask the Secretary of State for International Development what assurances his Department has *(a)* sought and *(b)* received from the Government of Nigeria concerning the effect of unrest in the Plateau region on the announced resumption of polio vaccinations in Kano state; and if he will make a statement. [175117]

Mr. Gareth Thomas: The unrest in Plateau State, which unfortunately spilled over into neighbouring states, especially Kano, is not related to the ongoing polio controversy. It is the view of DFID Nigeria and of the Nigerian Government that this unrest will not have any significant impact on the resumption of polio vaccinations in Kano State. This resumption depends entirely on whether the Kano State scientists are satisfied that there are no contaminants in the vaccines currently being procured from Indonesia.

The DFID team in Nigeria is in regular dialogue with the Government of Nigeria and with other international partners in Nigeria regarding the polio crisis. DFID is one of the principal financiers of the World Health Organization's "Polio Eradication Initiative". DFID is working actively with key stakeholders across northern Nigeria to ensure that immunization programmes, including polio, are implemented effectively in a way that is acceptable to the general public and to their political and religious leaders.

Resource Allocation

Tom Brake: To ask the Secretary of State for International Development if he will make a statement on the switching of resources from corporate service divisions to frontline operational divisions, stating the amounts of resources in each case. [175747]

Mr. Gareth Thomas: DFID recognises the importance of maximising the share of administration resources available for front-line activities. From 2002–03 to 2005–06, the percentage of DFID's administration budget used by corporate service divisions will have fallen from 7.7 per cent. to 6.8 per cent. This will have released an additional £2.2m for front line activities compared with maintaining the same ratio. DFID plans to accelerate achievement of savings beyond 2005–6 as new systems are introduced, reducing further the proportion of administration costs going to service divisions. Specific targets are subject to the outcome of the Spending Review.

Shared Scholarships Scheme

Mr. Dhanda: To ask the Secretary of State for International Development what plans he has to develop the Shared Scholarships Scheme; and if he will introduce support for talented youngsters from developing countries outside the Commonwealth. [174989]

Mr. Gareth Thomas: Following a review in 2000, responsibility for administration of the Shared Scholarships Scheme (SSS) transferred, in 2002, to the Commonwealth Scholarship Commission in the United Kingdom (CSC). This transfer was agreed to enable improved coordination of the SSS with the Commonwealth Scholarship and Fellowship Programme and the development of new forms of funding partnerships. The CSC has subsequently established a sub-committee to review the SSS and to recommend improvements. The SSS, to which DFID contributes £2 million per annum, is an initiative with UK Universities jointly to support scholarships for students from developing Commonwealth countries who would not otherwise be able to study in the UK. There are no plans to extend the SSS to provide support for students from developing countries outside the Commonwealth.

St. Helena

Mr. Nigel Jones: To ask the Secretary of State for International Development whether there is a minimum population of St. Helena below which the Government considers the island to be unsustainable; and if he will make a statement. [174759]

Mr. Gareth Thomas: DFID has no such limit in mind and remain committed to supporting St Helena. However, DFID recognises that population decline has been a problem in recent years and is supporting the island government's efforts to address it.

Mr. Nigel Jones: To ask the Secretary of State for International Development what has been the cost to the UK taxpayer of maintaining St. Helena over the past 25 years for which figures are available. [174761]

Mr. Gareth Thomas: DFID's bilateral spending on St. Helena between 1977 and the end of the UK Financial Year 2002–03 totalled over £233 million. This included some modest support, totalling less than £200,000 annually in recent years, for the St. Helena "dependency" of Tristan Da Cunha. Final figures for 2003–04 are not yet available, but are expected to add a further £11 million approximately to that total. St Helena also receives some assistance from the FCO Good Governance Fund and Economic Diversification Programme, amounting to nearly £1.5 million since 1999. In addition, the UK government share of European Union financial commitments to St. Helena since 1981 is over £500,000. DFID and the FCO departmental administration costs are not broken down by individual Territory.

Mr. Nigel Jones: To ask the Secretary of State for International Development if he will estimate the annual *(a)* saving to the UK and *(b)* benefit to the economy of St. Helena of providing air access for St. Helena. [174762]

Mr. Gareth Thomas: The information on which to base that estimate is not available. DFID should have a better idea, however, when current work to assess and compare future physical access options for St. Helena is completed later this year. I refer the hon. Member to my Written Statement on 19 April 2004, *Official Report*, column 1WS.

Sudan

Angus Robertson: To ask the Secretary of State for International Development what estimates he has made

of the number of refugees from Darfur in Chad; when these figures were last revised; and if he will make a statement. [175084]

Mr. Gareth Thomas: Reliable figures for the number of refugees in Chad are difficult to find because of the inaccessibility of the areas affected. Agencies on the ground are constantly reviewing their estimates. The United Nations High Commissioner for Refugees (UNHCR) press statement on 14 May 2004 estimated that there were 120,000 Darfurian refugees in Chad. Refugees International estimated on 19 May that the number could be nearer 200,000.

The Government are gravely concerned about the serious situation in Darfur. In addition to the refugees in Chad, there are over 1.2 million internally displaced people in Darfur who are in a precarious situation likely to become worse with the onset of rains later this month.

The UK is heavily engaged in the humanitarian response to this crisis. DFID is the second largest donor after the US and so far has committed over £16.5 million to agencies working in Darfur and Eastern Chad. A breakdown of these commitments is given below. In addition, DFID has seconded four humanitarian officers to support United Nations Office for the Co-Ordination of Humanitarian Affairs (OCHA)'s response to the crisis in Darfur and are seconding an additional three for the UN Joint Logistics Centre. DFID is also paying for a despatch of non-food items (22,500 blankets and 15,000 plastic sheets) for distribution by humanitarian agencies.

UK Government-funded humanitarian interventions in Darfur, Sudan

Period	*Agency*	*Description*	*Total cost (£)*
October to December 2003	UNHCR	Supplementary Appeal for Emergency Assistance to Sudanese Refugees in Eastern Chad—2003	1,000,000
October 2003 to September 2004	SC-UK	Emergency Response to Conflict Related Internal Displacement in North Darfur	500,000
November to December 2003	ICRC	Contribution to the ICRC 2003 Emergency Appeal for Sudan	1,000,000
November 2003 to March 2004	WFP	Additional Contribution to 2003 UN Appeal, due to Crisis in Darfur, to Provide Emergency Food Assistance to Sudanese Populations Affected by War and Natural Disasters	2,000,000
January to April 2004	MSF-F	Emergency Assistance to IDPs in Darfur—through increasing access to health care in conflict areas, disease prevention, halting nutritional deterioration and treating malnourished children	491,369
January to December 2004	MSF-H	Darfur Components of Emergency Health Interventions in Northern Sudan Project	650,000
February to December 2004	UNICEF	Emergency Assistance to Humanitarian Crisis in Darfur for Health; Water Supply; Water and Environmental Sanitation; Relief and Shelter Items; and the Protection of Children	1,000,000
February to November 2004	GOAL	Emergency Assistance to Population in Kutum Province, North Darfur—through a combined Health, Nutrition and Shelter Intervention	575,963
March to December 2004	ACF	Emergency Nutrition Programme in North Darfur	250,000
March to December 2004	WFP	Emergency Distribution of Food Aid Commodities to Sudanese Refugees in North East Chad	1,000,000
March 2004 to January 2005	UNHCR	Emergency Assistance to Sudanese Refugees in Eastern Chad	1,000,000
April 2004 to December 2004	OXFAM	Public Health Humanitarian Response Darfur (Water/ Sanitation Programme)	2,193,161
May 2004 to December 2004	WFP	Emergency purchase and distribution of Food Aid for internally displaced Sudanese in Darfur	2,000,000
May 2004 to November 2004	WHO	Emergency primary health care and response to communicable diseases in Darfur; support to measles vaccination programme	1,500,000
May 2004 to December 2004	UNICEF	Additional support to humanitarian assistance for crisis in Darfur; emergency nutrition; emergency health care and the protection of children	1,500,000
May 2004 to July 2004	UNJLC	Support to enable UNJLC to co-ordinate the logistics of an effective humanitarian response in Sudan	250,000
		Total	16,910,493

Zimbabwe

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Zimbabwe about its stockpiling of food in the run-up to national elections. [174777]

Mr. Gareth Thomas: Although the Government of Zimbabwe (GoZ) provides little information about the activities of the parastatal Grain Marketing Board (GMB), donors believe that current GMB stocks are less than 100 thousand metric tonnes (MT), compared with a national food requirement of up to 1.8 million MT. GMB will build up its stocks in coming months as the harvest comes in, which is appropriate. Donors are particularly concerned about the dishonesty of the GoZ in declaring that the current harvest is in the order of 2.4 million MT and that Zimbabwe will be self-sufficient in food for the coming year, as confirmed by Robert Mugabe in a television interview this week.

The GoZ cancelled a Crop and Food Supply Assessment that was recently in progress jointly with the World Food Programme and Food and Agriculture Organisation of the UN, which would have provided an independent figure. Other recent studies suggest the actual harvest to be at or below 1.2 million MT. Donors are concerned that the GoZ is trying to control food supply in the country in the run-up to parliamentary elections next year, pretending that land reform has

been successful. Apart from deceiving its population, the GoZ is putting many of them at great risk of hunger later in the year, while probably needing to divert a substantial amount of its scarce foreign exchange to import grains.

PRIME MINISTER

Sudan

Clare Short: To ask the Prime Minister what action he is taking to *(a)* bring about an end to the killing of the black Muslim Sudanese of Darfur and *(b)* secure access for humanitarian assistance to relieve their suffering. [175840]

The Prime Minister: I am deeply concerned about the humanitarian situation in Darfur. Following the cease-fire agreement of 8 April between the Government of Sudan and the Darfur groups, we are calling on all parties to co-operate fully with the Africa Union-led ceasefire monitoring mission. We are also considering how we can contribute to this.

I wrote to the Sudanese President earlier this year emphasising the Government's concern at the situation in Darfur. We continue to hold discussions with the Sudanese Government on access for humanitarian assistance and my right hon. Friends the Foreign Secretary and the Secretary of State for International Development raised the matter with the Sudanese Foreign Minister during his visit to London on 11 May. The Sudanese Foreign Minister has now announced new measures governing the issue of visas and travel permits to humanitarian workers wishing to travel to Darfur.

We hope that these measures will facilitate the delivery of humanitarian assistance to a population in great need and will be closely monitoring their implementation. We have already committed £16.5 million in response to the crisis and are urging other partners to contribute as well.

Govan Shipyard

Mr. Blunt: To ask the Prime Minister (1) what meetings *(a)* he and *(b)* his officials held with the management of Govan/Kvaerner to discuss the future of the Govan shipyard; [R] [174254]

(2) what role he played in informal and oral approaches made to GEC over the purchase of Govan shipyard; [R] [174256]

(3) on which dates in 1999 he met Mr. George Simpson of GEC; if he will publish minutes of the meetings; and if he will list the attendees at those meetings; [174311]

(4) what communications *(a)* he and *(b)* his representatives and advisers had with GEC in 1999 over (i) the proposed merger of BAE-GEC and (ii) Govan shipyard; and if he will publish the communications; [174312]

(5) what communications *(a)* he and *(b)* his representatives and advisers had with Kvaerner, their representatives and advisers over the proposed closure of the Govan shipyard in 1999; [174313]

(6) what meetings *(a)* he and *(b)* his officials held with Sir Gavin Laird to discuss the future of the Govan shipyard. [174315]

The Prime Minister: My officials and I have meetings and discussions with a wide range of organisations and individuals. As with previous Administrations it is not the Government's practice to provide details of all such meetings, under exemptions 2 and 7 of the Code of Practice on Access to Government Information.

Mr. Blunt: To ask the Prime Minister (1) what *(a)* his and *(b)* his officials' involvement was in the negotiations over the future of Govan shipyard; [R] [174255]

(2) what meetings took place between Mr. Ed Miliband and his officials in 1999 to discuss the *(a)* GEC-BAE merger and *(b)* Govan shipyard; [R] [174259]

(3) what advice he received in 1999 on the GEC interest in the Govan shipyard; [R] [174260]

(4) what advice he received from the Ministry of Defence on the GEC-BAE merger; [R] [174258]

(5) when he was first informed of the GEC interest in the Govan shipyard. [R] [174261]

The Prime Minister: Information relating to internal discussion and advice is exempt from disclosure under exemption 2 of the Code of Practice on Access to Government Information.

Mr. Blunt: To ask the Prime Minister what *(a)* his, *(b)* his officials and *(c)* his advisers involvement was in approving the GEC-BAE merger. [R] [174257]

The Prime Minister: The decision was made by the then Secretary of State for Trade and Industry, the right hon. Member for Tyneside, North (Mr. Byers) in his capacity set out in the Fair Trading Act 1973.

Mr. Blunt: To ask the Prime Minister what the name was of the task force chaired by Sir Gavin Laird set up by the Government to look for potential buyers for the Govan shipyard; who was on the task force; what its terms of reference were; and when it was disbanded. [174314]

The Prime Minister: The Kvaerner Task Force was set up by Lord Macdonald of Tradeston on 13 April 1999 under the Chairmanship of Sir Gavin Laird to identify potential purchasers of the shipyard at Govan, the engineering business in Clydebank, and for any other facilities subsequently identified for sale in Scotland. The other members of the Kvaerner Task Force were Bill Scott, Malcolm Clark and David Smith. The Task Force was wound up on 14 July 1999.

Iraq

Mr. Ancram: To ask the Prime Minister pursuant to his answer of 17 May 2004, *Official Report*, columns 748–49W, on Iraq, prior to the Prime Minister reading the International Committee of the Red Cross report on 10 May, what the first date was on which an official working in No. 10 Downing Street saw the report; and what action was taken concerning the report between it first being received at No. 10 Downing Street and 10 May. [175568]

The Prime Minister: The report was first received in No. 10 Downing Street by an official on the evening of 9 May. Officials investigated what action had been taken and were made aware that action into the allegations of abuse in respect of UK forces was already in hand. As I have already made clear, I first saw the report on 10 May.

People's Peers Road Shows

Mr. Gordon Prentice: To ask the Prime Minister whether the practice of people's peers road shows to solicit applications has been discontinued. [175304]

The Prime Minister: I refer my hon. Friend to the answer I gave him on 13 November 2003, *Official Report*, column 430W.

World Environment Day

Sue Doughty: To ask the Prime Minister if he will take steps to mark World Environment Day on 5 June; and if he will make a statement. [175104]

The Prime Minister: The Government and the Environment Agency are working together on a campaign to mark World Environment Day. This will include asking the public to sign the "Pledge to the Future" to identify ways they can improve their local environment, and a publicity campaign by the Environment Agency on how businesses can make their organisations more sustainable.

TRANSPORT

Flight Security (Northern Ireland)

Mrs. Iris Robinson: To ask the Secretary of State for Transport whether a senior citizen's pass with photographic image is an acceptable form of identity for security purposes when flying between Great Britain and Northern Ireland; and if he will make a statement. [173600]

Mr. McNulty: While passengers on international flights are required to carry appropriate travel documentation in the form of passports, visas etc., there is no requirement for passengers to carry identification on domestic flights. We are aware that a number of carriers have instituted such a rule. This measure, and determination of what types of identification are acceptable, is part of the aircraft operator's own conditions of carriage. They usually provide clear indications to would-be passengers on their websites etc. of such requirements but in case of doubt or dispute, queries should be addressed directly to the airline concerned.

Blue Badges

Mr. Gregory Campbell: To ask the Secretary of State for Transport how many and what percentage of people in Great Britain are in receipt of a Blue Badge for disabled drivers. [175866]

Mr. McNulty: The Blue Badge scheme provides a national arrangement of parking concessions for severely disabled people who travel either as drivers or passengers. Approximately 2.41 million people in Great Britain are currently in receipt of a Blue Badge. This equates to about 4 per cent. of the population.

Civil Servants

Mr. Damian Green: To ask the Secretary of State for Transport how many civil servants in his Department are employed to deal with local transport plans and annual progress reports submitted to his Department by local authorities. [174169]

Mr. McNulty: The Department employs five civil servants to deal with Local Transport Plans and Annual Progress Reports alongside their other duties. As well as the five officials currently employed by DfT, four to six staff in each of the eight regional Government offices also deal with LTPs and APRs alongside their other duties.

Computer File Formats

Mr. Allan: To ask the Secretary of State for Transport what his Department's policy is in respect of the computer file formats used for the *(a)* distribution and *(b)* archiving of publicly available documents. [173364]

Mr. McNulty: The DfT website (http://www.dft.gov.uk) provides access to publicly available documents in a range of formats. The majority of content is made available in Hypertext Mark Up Language (HTML), Portable Document Format (PDF) and Microsoft WORD. All images contained within documents are made available in Graphic Interchange Format (GIF) or Joint Photographic Experts Group (JPEG) formats depending on the complexity of the image. Statistical data tables are provided in Excel, Comma separated values (CSV) and PDF format.

The same formats apply for documents held in archive areas of the website.

Crime (Public Transport)

Mr. Damian Green: To ask the Secretary of State for Transport (1) how many assaults were committed on buses in each year since 1997; [175454]

(2) how many bus drivers were assaulted on duty in each year since 1997. [175455]

Mr. McNulty: The following table shows the number of bus-related assaults reported to this Department by Transport for London and, for outside London, by a panel of PSV operators.

	Total number of assaults on bus crews and passengers in Great Britain	*Total number of assaults on bus crews in Great Britain*
1997	2,556	1,899
1998	2,195	1,594
1999	2,369	1,680
2000[1]	1,988	1,036
2001	n/a	2,592
2002	n/a	2,874

[1] Figures for 2000 exclude assaults on bus crews in London.

The Safer Travel on Buses and Coaches Panel (STOP) has been established to look at ways to combat assaults, anti-social behaviour and vandalism at stops and

stations and on vehicles and property. The panel brings together those involved in dealing with the issue of safety and security, and includes operators, local authorities, police and unions. It is charged with the important task of facilitating the exchange of ideas and spreading best practice and is considering how the collection of accurate bus and coach crime data can be improved.

Mr. Damian Green: To ask the Secretary of State for Transport how many crimes of a sexual nature were committed *(a)* on buses and *(b)* at bus stops in each year since 1997. [175456]

Mr. McNulty: There were 60 sexual assaults on bus passengers in 1997 and 90 in 1998. It is not possible to distinguish between crimes of a sexual nature committed on buses and at bus stops. No data are held centrally for subsequent years.

Mr. Damian Green: To ask the Secretary of State for Transport how many acts of vandalism were committed on buses in each year since 1997. [175458]

Mr. McNulty: No data are held centrally on the number of acts of vandalism committed on buses in each year since 1997. However, it is estimated that the average annual cost per operator outside London resulting from acts of vandalism was £31,459 in 2002.

Ministerial Travel

Mr. Paul Marsden: To ask the Secretary of State for Transport how many coach journeys Ministers have taken on departmental business in each year since 1997. [175072]

Mr. McNulty: The Department for Transport was formed on 29 May 2002. Information about the mode of transport used by Ministers on departmental business is not held centrally. Ministers frequently use a variety of public transport services when undertaking departmental business.

Nuclear Installations (Air Exclusion Zones)

Llew Smith: To ask the Secretary of State for Transport on how many occasions since 2000 the Civil Aviation Authority has investigated alleged breaches of the air exclusion zones around nuclear installations. [175080]

Mr. McNulty: Since 2000, the CAA has received 72 reports of breaches of the air exclusion zones around nuclear installations. 12 formal investigations have been carried out resulting in two prosecutions, one formal caution, three warning letters and two dismissed by the courts for insufficient evidence. The remaining four are in progress and may result in prosecution.

Railways

Mr. Paul Marsden: To ask the Secretary of State for Transport (1) if he will list the level of subsidy *(a)* per rail mile travelled and *(b)* per passenger for each train operator for each year since 1997; [174984]

(2) if he will list the subsidy paid to each train operator in each year since 1997 in descending order. [174985]

Mr. McNulty: Details of subsidy paid to each train operator, in each year since 1997, are set out in Appendix 3 to the Strategic Rail Authority's annual report 2002–03.

Details of subsidy per passenger mile/passenger kilometre travelled, and of numbers of passenger journeys made, with each train operator in each year since 1997, are set out in SRA and OPRAF annual reports for the relevant years.

Copies of all SRA and OPRAF annual reports are available in the Libraries of the House.

Mr. Paul Marsden: To ask the Secretary of State for Transport what percentage of rail journeys were made by freight trains in the last year for which figures are available. [175001]

Mr. McNulty: In 2002–03 approximately 6 per cent. of the total rail journeys were by made by freight trains.

Road Charging

Keith Vaz: To ask the Secretary of State for Transport what plans he has for road charging; whether charges would apply to all roads; whether charges will vary by *(a)* time of day and *(b)* level of traffic; and what the money collected in road charging schemes would be spent on. [175558]

Mr. Jamieson: My right hon. Friend the Secretary of State for Transport made a statement to the House on 9 July 2003 announcing a feasibility study into the potential for road charging in the UK. The study is expected to report this summer.

Sea ports/Airports

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment he has made of the contribution of the *(a)* seaports and *(b)* airports industry to the UK economy. [175088]

Mr. Darling: The economic contribution that the aviation industry makes to UK economy is set out in the Air Transport White Paper, though the economic analysis of additional airport capacity focussed on the direct economic benefits to passengers. The Department is managing a research project to collect information about employment in the UK ports.

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment he has made of the social and economic consequences of constraints on port capacity. [175092]

Mr. Darling: The Government are aware of the potential consequences of the emerging constraints on ports capacity and so we ensure that the planning consent process assesses the social and economic aspects of the case for and against port development.

Speed Cameras

Mr. Paul Marsden: To ask the Secretary of State for Transport whether he has reviewed the suitability of locations of all speed cameras in Shrewsbury and Atcham. [175059]

Mr. Jamieson: The West Mercia Partnership, which covers Shrewsbury and Atcham, has confirmed that they are adhering to the guidance and rules for the operation of safety camera activity. Partnerships are expected on a continuing basis to keep camera sites and enforcement at them under review. My Department will shortly publish an independent report on the operation of the Safety Camera Programme for its first three years, and will also publish details of all safety camera sites in the cost recovery programme.

Miss McIntosh: To ask the Secretary of State for Transport if he will make a statement on his review of the location of speed cameras. [R] [174253]

Mr. Jamieson: Partnerships are expected on a continuing basis to keep camera sites and enforcement at them under review. My Department will shortly publish an independent report on the operation of the Safety Camera Programme for its first three years, and will also publish details of all safety camera sites in the cost recovery programme.

Transport (Bootle)

Mr. Benton: To ask the Secretary of State for Transport how many miles of priority bus lanes have been created in Bootle since 1997. [175492]

Mr. McNulty: A total of 0.6 miles of priority bus lanes have been provided in Bootle since 1997.

Mr. Benton: To ask the Secretary of State for Transport how many miles of new cycle lanes have been provided in Bootle using public funds since 1997. [175489]

Mr. McNulty: A total of 9.85 miles of cycle lanes have been provided in Bootle since 1997.

Mr. Benton: To ask the Secretary of State for Transport what assessment he has made of the effects upon residents of Bootle of investment in railway improvements over the next 10 years. [175491]

Mr. McNulty: Merseyrail, which operates local services in Bootle, is a consistently high performer. Residents of Bootle will benefit from the West Coast Main Line upgrade and the new TransPennine Express franchise to make fast inter-city journeys out of Liverpool. The TransPennine Express franchise, which commenced in February, secures investment of around £260 million, which will include the introduction of a new fleet of 100 mph diesel trains leading to increased capacity, improved service quality and performance across the region.

EDUCATION AND SKILLS

Emergency Planning

Mr. Clifton-Brown: To ask the Secretary of State for Education and Skills what plans there are to provide national guidance for schools and care homes in the case of a serious civil emergency. [174687]

Mr. Ivan Lewis: The Home Office, alongside the emergency services will provide immediate information and advice in the event of a discernible threat or a specific incident. My Department, in its guidance on coping with emergencies (www.teachernet.gov.uk/emergencies), refers schools to Home Office guidance for civil contingencies; and will liaise with the Cabinet Office before writing to chief education officers about the Civil Contingencies Bill due to come into force later this year. We are not currently planning to provide separate national guidance for children's homes in the case of a serious civil emergency. However, we will keep this under review.

Child Care

Chris Ruane: To ask the Secretary of State for Education and Skills how many child care places were created in each of the past 15 years, broken down by constituency within each region. [175128]

Margaret Hodge: The Department is unable to provide details of child care places in the past 15 years. We are also unable to provide details of places within each constituency. Statistics have only been collected by local authorities since 1999 following the introduction of the National Childcare Strategy for England.

A table, which has been placed in the Library, details the number of gross and net places created each year by local authority and region since 1999.

Early Years Education

Mr. Ben Chapman: To ask the Secretary of State for Education and Skills how many *(a)* free nursery and *(b)* pre-school places were available for (i) three and (ii) four-year-olds in Wirral South in each of the last seven years. [173624]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by three and four-year-olds in Wirral local education authority area are shown in the table.

The latest figures on provision for three and four-year-olds in England were published in a Statistical Bulletin "Provision for children under five years of age in England—January 2003" which is available on the Department's website www.dfes.gov.uk/rsgateway/.

From April 2004, six months ahead of our original target, all three-year-olds in England whose parents want one, are eligible for a free, part-time early education place.

Number of free nursery education places[1,2] taken up by three and four-year-old children in maintained nursery and primary schools and private, voluntary and independent providers Wirral local education authority area 1997–2003: Position in January each year

	Three-year-olds	Four-year-olds
2003	3,200	3,500
2002	3,200	3,000
2001	3,100	4,400
2000	2,900	3,900
1999	1,700	3,900
1998	1,700	3,900
1997	1,600	3,800

[1] Part-time equivalent number of free nursery education places taken up by three and four-year-old children.

[2] A free nursery education place comprises five two and a half hour sessions of early years education per week, for thirty-three weeks of the year, usually three terms of eleven weeks.

Education Statistics (London)

Sarah Teather: To ask the Secretary of State for Education and Skills how many instances of truancy there were in *(a)* primary and *(b)* secondary schools in Brent in each year since 1997; and what the average figures for a London borough were in each year. [172809]

Mr. Ivan Lewis: The information requested is as follows:

Number of pupils that missed at least a half day due to unauthorised absence in schools in Brent:

Academic year (September—May)	*Primary Schools (percentage)*	*Secondary Schools (percentage)*
1998	3,585 (0.68)	1,378 (0.83)
1999	3,738 (0.66)	1,373 (0.89)
2000	3,971 (0.60)	1,875 (1.04)
2001	3,198 (0.55)	1,930 (0.89)
1002	3,262 (0.49)	1,874 (0.73)
2003	3,036 (0.41)	2,438 (0.86)

Number of pupils that missed at least a half day due to unauthorised absence in schools in the London Government Office Region:

Academic year (September—May)	*Primary schools (Percentage)*	*Secondary schools (Percentage)*
1998	130,606 (0.92)	74,492 (1.52)
1999	133,433 (0.91)	77,789 (1.48)
2000	137,772 (0.90)	81,088 (1.43)
2001	140,592 (0.91)	89,320 (1.49)
2002	136,781 (0.85)	95,570 (1.45)
2003	135,716 (0.79)	100,843 (1.34)

Further Education

Peter Bottomley: To ask the Secretary of State for Education and Skills how many people in the Worthing area he expects to stay in education as a result of the introduction of education maintenance allowances; and what plans he has to provide extra funding to further education colleges in the Worthing area to support these students. [175447]

Mr. Ivan Lewis: We estimate there will be about 3,600 extra 16-year-olds in the South East Region in further education this September who would not be participating without EMA. We are unable to provide forecasts of the number of EMA students down to constituency level. The 2002 Spending Review settlement allowed for the expected impact of national EMA in further education institutions.

Higher Education

Mr. Boswell: To ask the Secretary of State for Education and Skills what criteria have been applied since 2000 to higher education colleges applying to move from the private sector to Higher Education Funding Council for England direct funding; and what changes there have been since 2000 to these criteria. [175389]

Alan Johnson: I refer the hon. Member to the answer I gave on 10 May 2004, *Official Report*, column 41W. The criteria have been in place since February 2001 and there have been no changes to them.

ICT

Martin Linton: To ask the Secretary of State for Education and Skills how much public money has been spent on information and communications technology in schools in the last five years in the London borough of Wandsworth. [175207]

Mr. Charles Clarke: Over the last five years, schools in the London borough of Wandsworth have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

£

	Allocation to Wandsworth LEA
2000–01	579,974
2001–02	834,881
2002–03	1,188,913
2003–04	1,199,494
2004–05	1,592,626

Information, Advice and Guidance Partnerships

Andrew Selous: To ask the Secretary of State for Education and Skills how many people holding above-level 2 educational attainment contacted information, advice and guidance partnerships for assistance in the year to 31 March. [175260]

Mr. Ivan Lewis: This is an operational matter for the Learning and Skills Council. The Council's Chief Executive will write to the hon. Member with the information requested and a copy of his reply will be placed in the House Libraries.

Maintenance Allowances

Mr. Gale: To ask the Secretary of State for Education and Skills from what date students living in North Thanet will be eligible to receive funding under the Education Maintenance Allowance scheme. [173911]

Mr. Ivan Lewis *[holding reply 19 May 2004]*: We are phasing in the EMA scheme nationally from September 2004, to successive 16 year old year groups. EMA will be available to students in North Thanet who are aged 16 at the start of the 2004/2005 academic year.

Chris Ruane: To ask the Secretary of State for Education and Skills what discussions his Department has had with the Department for Work and Pensions on the impact of education maintenance allowances on benefits. [174856]

Mr. Ivan Lewis: This Department has worked closely with the Department for Work and Pensions in developing the English EMA scheme.

EMA will not affect other family benefits. It is specifically aimed at helping young people from lower income families to overcome barriers to further study caused by the costs of supporting students. EMA is paid

in addition to other support provided by the Government, such as Child Tax Credit and Working Tax Credit. EMA will not affect Child Benefit.

Mr. Willis: To ask the Secretary of State for Education and Skills what evidence *(a)* he and *(b)* the Department of Trade and Industry have collated on the impact of education maintenance allowances on the national minimum wage for 16 year olds; and if he will make a statement. [174942]

Mr. Ivan Lewis: The Government submitted evidence to the Low Pay Commission on the possible introduction of a minimum wage rate for 16 and 17 year olds in December 2003. The evidence provided the Government with an opportunity to assess the interaction between a minimum wage for 16–17 year olds and incentives to participate in education and training, such as EMA.

This evidence can be accessed online at www.dti.gov.uk/er/nmw/index.htm

Mr. Dhanda: To ask the Secretary of State for Education and Skills if he will make education maintenance allowances available to young people whose birthdays do not fall within the defined boundaries solely as a result of their being moved a year ahead at school. [174986]

Mr. Ivan Lewis: Young people who have progressed a year at school and who are 15 when starting their further education are not eligible for EMA. The EMA scheme is targeted at those who reach compulsory school leaving age. To qualify for EMA under the national scheme a young person must reach the age of 16 between 1 September 2003 and 31 August 2004 and enter full time education in the 2004/2005 academic year. In addition young people aged 17 and over who live in the 56 areas that have already piloted EMA will also be able to apply.

Maintenance Allowances

Mr. Dhanda: To ask the Secretary of State for Education and Skills what assessment he made of the Education Maintenance Allowance pilot schemes before rolling them out nationally; and what changes were made to the scheme as a result of his conclusions. [174991]

Mr. Ivan Lewis: An independent evaluation of the education maintenance allowance scheme has been taking place since 1999. The evaluation has tested the effectiveness of the scheme in increasing participation. Evidence from the pilots shows that EMAs have increased the number of eligible young people in full time education in year 12 in pilot areas by 5.9 percentage points compared to the local authority areas without EMAs. EMAs have also increased participation by young people in Year 13 by 4.1 percentage points.

The evaluation has also assessed the comparative impact of different features and this has informed the development of the national scheme. The main changes are: that household income is assessed rather than parental income; that EMA payments are paid at three rates of £10, £20 or £30 dependent on the household income; the bonus payments are linked to retention and progression in learning rather than achievement of qualifications; and, that more young people can benefit from three years of support.

Medical Students

Mr. Clappison: To ask the Secretary of State for Education and Skills pursuant to the answer of 10 May 2004, *Official Report*, columns 37–8W, on medical students, if he will list the factors taken into account in defining a broad range of social and ethnic backgrounds in respect of the criteria for the establishment of new medical schools; if he will break down the widening participation allocation by institution; and if he will make a statement on widening participation and the maintenance of standards of excellence in the medical profession. [175417]

Alan Johnson: The Government are absolutely committed to widening educational opportunities, not just in medicine but in higher education as a whole. We have always made it clear that admission to university must be on merit, based on the applicant's academic achievement and potential. It is important that universities, as autonomous bodies, ensure that their admission decisions are professional, fair and transparent.

In inviting bids to expand medical school places in September 2000, the Department of Health and the Higher Education Funding Council for England (HEFCE) asked institutions to provide data relating to the following factors pertaining to social and ethnic backgrounds: "A" Level grades of successful medical students and, where known, unsuccessful candidates; demographic profile of applicants and students admitted to medical schools over the last two years by race, gender, socio-economic group and proportion of students admitted straight from state school; and for institutions without existing medical students, the same information for related disciplines, especially healthcare students.

As my answer of 10 May explained, the HEFCE allocation for widening participation is broken down by institution in Table 1 of the HEFCE document "Recurrent Grants for 2004–05" (March 2004/12), a copy of which can be found in the House of Commons Library. Alternatively, the document can be accessed at http://www.hefce.ac.uk/Pubs/hefce/2004/04_127/ on the internet.

Post-16 Education/Training

Martin Linton: To ask the Secretary of State for Education and Skills what progress he has made in talks with *(a)* the Learning and Skills Council and *(b)* the Association of Colleges about the respective roles, responsibilities and powers of those organisations and his Department in relation to the (i) provision and (ii) withdrawal of post-16 education and training in local areas. [175248]

Alan Johnson: The working group, which will consider the LSC-college relationship in relation to post-16 education and training, has yet to meet. Its membership will be agreed between the Department for Education and Skills, the Learning and Skills Council and relevant sector bodies. The Learning and Skills

Council is leading on establishing the group and will write to the hon. Member once the membership and remit for the group has been agreed.

School Absences

Mr. Hoban: To ask the Secretary of State for Education and Skills what guidelines he has issued to *(a)* schools and *(b)* local education authorities about levels of (i) authorised and (ii) unauthorised absence. [174717]

Mr. Ivan Lewis *[holding reply 20 May 2004]:* In December 2001, the Department asked all schools with above average levels of unauthorised absence to set themselves targets to reduce the level of unauthorised absence by the end of this school year. In February 2003, I wrote to all local education authorities reminding them of the importance that the Government attaches to improving the levels of school attendance and urging them to work with their schools in reducing both authorised and unauthorised absences. Also in 2003, we provided 56 local education authorities with expert advisers to help them work with schools to improve attendance levels, in particular, to reduce unauthorised absence to a level closer to that of authorities in similar circumstances. The Department also advises authorities and schools on appropriate levels of absence through analysis of targets set, for example, in Education Development Plans, under the Behaviour Improvement Programme or as part of Local Public Service Agreements.

Mr. Hoban: To ask the Secretary of State for Education and Skills what assessment has been made of the causal links between absence from school and attainment at the level of *(a)* individual pupils, *(b)* schools and *(c)* local education authorities. [174718]

Mr. Ivan Lewis *[holding reply 20 May 2004]:* The information is as follows:

(a) The Department has recently commissioned the National Foundation for Educational Research to carry out an analysis of data to identify the links between individual pupils' attendance at school and their attainment in examinations. The report is expected in the summer of 2004.

(b) Analysis of school level data for the 2002/3 academic year indicates that there is a correlation between attendance and attainment. For example, in schools with absence levels of 6.5 per cent. or lower, an average of 74.3 per cent. of pupils achieved five or more A*-C grades in GCSE examinations. However, the average fell to 26.7 per cent. in schools where absence levels exceeded 11 per cent.

(c) The data also reveal a general correlation at local education authority level with attainment dropping as absence levels increase. Most authorities with absence levels of 7.0 per cent. or less have, on average, over 60 per cent. of pupils achieving five or more A*-C grades. In those authorities with absence levels exceeding 10 per cent., on average, less than 45 per cent. of pupils achieve five or more A*-C GCSE grades.

School Budgets (London)

Simon Hughes: To ask the Secretary of State for Education and Skills how many school budgets in Greater London, broken down by local education authority, were in deficit in each of the last seven years. [170498]

Mr. Miliband: The information requested is only available for the last four years and is contained in the following table:

Numbers of schools in Greater London with deficit budgets

LEA name	1999–2000	2000–01	2001–02	2002–03
City of London	0	0	0	0
Camden	4	0	2	6
Greenwich	23	13	21	24
Hackney	21	15	21	13
Hammersmith and Fulham	3	2	5	10
Islington	10	3	2	7
Kensington and Chelsea	4	1	3	2
Lambeth	19	12	13	14
Lewisham	10	11	20	22
Southwark	10	9	21	22
Tower Hamlets	20	17	23	26
Wandsworth	6	5	4	8
Westminster	9	17	12	11
Barking and Dagenham	14	4	6	14
Barnet	5	8	16	5
Bexley	11	5	11	10
Brent	10	10	14	17
Bromley	13	11	8	15
Croydon	7	2	2	9
Ealing	9	7	5	5
Enfield	5	5	4	5
Haringey	32	23	18	11
Harrow	2	2	0	2
Havering	5	6	4	7
Hillingdon	8	11	13	10
Hounslow	9	6	6	13
Kingston-upon-Thames	3	3	3	4
Merton	5	3	4	3
Newham	14	17	20	20
Redbridge	6	4	4	8
Richmond-upon-Thames	3	2	2	6
Sutton	1	2	3	2
Waltham Forest	10	7	12	13

Notes:
1. The data are taken from local education authorities' Section 52 Outturn Statements submitted to the DfES. Financial data used to determine budget is taken to the nearest pound.
2. School level data has only been collected by the DfES since the inception of Section 52 in 1999–2000.
3. For 1999–2000 to 2001–02 the data are taken from the Balance Carried Forward column. In 2002–03 data comes from Other Revenue Balance.
4. 2002–03 data subject to changes by the LEA which may alter the results for that period.

Student Assistance

Mr. Dhanda: To ask the Secretary of State for Education and Skills what assistance his Department offers to students from low income backgrounds who are embarking on further or higher education before their 19th birthday; and if he will extend education maintenance allowances to such students. [174990]

Mr. Ivan Lewis: Young people from lower income households who are aged 16 at the start of the 2004/05 academic year can apply to receive the education maintenance allowance. We are phasing in the scheme

nationally from September 2004 to successive 16 year-old year groups. By 2006 all young people aged 16 to 19 who meet the eligibility requirements will be able to receive EMA. In addition, the Learner Support Fund provides a safety net to students who experience financial hardship. For those students in higher education from lower income backgrounds the £1,000 higher education grant is available from September 2004. This will ensure a continuous system of non-repayable support for tuition for those most in need.

Sure Start Unit

Mr. Goodman: To ask the Secretary of State for Education and Skills how many people the Sure Start Unit employs; and what the Unit's expected budget is in *(a)* 2004–05 and *(b)* 2005–06. [175375]

Mr. Charles Clarke: As at 1 April 2004, the Sure Start Unit employed 299 permanent staff. The expected budget for 2004–05 will be £12.7 million. Budgets are set annually.

University Fees

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many students from *(a)* Chorley and *(b)* Lancashire are attending university; and how many (i) pay no tuition fees and (ii) pay partial tuition fees. [173767]

Alan Johnson: In England and Wales, students on full-time undergraduate courses and their families are expected to make a contribution towards the cost of their tuition only if they can afford to do so.

For entry in 2002, there were 6,792 applicants domiciled in Lancashire LEA who were accepted through UCAS to full-time first degree and HND courses at UK institutions. Data on the number of students from Chorley attending university are not available.

The number and percentages of students in England and Wales in academic year 2002/03 (latest year for which data are available) who have been assessed to make a nil or partial contribution towards the cost of their tuition are shown in the table:

England and Wales: Academic year 2002/03 (provisions)

	Student Support Scheme Student numbers (000s)[1]	*Student Support Scheme Students (Percentage)*[1]
Nil contribution towards the cost of tuition from student/ parents/spouse/partner[2]	330	43
Partial contribution towards the cost of tuition from student/parents/spouse/ partner	116	15

[1] Contributions towards the cost of tuition are assessed by local education authorities in England and Wales for students normally domiciled in their area and studying in the UK.
[2] Includes students on courses where the fee support was not subject to income-assessment (e.g. PGCE courses, and some other ITT courses; and designated courses at private institutions).
National level data are published annually in the Department's Statistical First Releases (SFRs) (SFR 12/2004 for 2002/03).
Source:
F503G survey of local education authorities

Data are collected from the local education authorities (LEAs) to produce national estimates and the data collection exercise does not allow for the production of firm figures below this level. Therefore data by constituency or local education authority are not available.

University Students (Huntingdon)

Mr. Djanogly: To ask the Secretary of State for Education and Skills how many students from *(a)* Cambridgeshire and *(b)* the constituency of Huntingdon are attending university; and how many of these students pay (i) no tuition fee and (ii) a partial tuition fee. [175251]

Alan Johnson: In England and Wales, students on full-time undergraduate courses and their families are expected to make a contribution towards the cost of their tuition only if they can afford to do so.

For entry in 2002, there were 3,025 applicants domiciled in Cambridgeshire LEA who were accepted through UCAS to full-time first degree and HMD courses at UK institutions. Data on the number of students from the constituency of Huntingdon attending university are not available.

The number and percentages of students in England and Wales in academic year 2002/03 (latest year for which data are available) who have been assessed to make a nil or partial contribution towards the cost of their tuition are shown in the table:

England and Wales: Academic year 2002/03[1]

	Student Support Scheme Student numbers[2] *(Thousand)*	*Student Support Scheme Students*[2] *(Percentage)*
Nil contribution towards the cost of tuition from student/ parents/spouse/ partner[3]	330	43
Partial contribution towards the cost of tuition from student/parents/spouse/ partner	116	15

[1] Provisional.
[2] Contributions towards the cost of tuition are assessed by local education authorities in England and Wales for students normally domiciled in their area and studying in the UK.
[3] Includes students on courses where the fee support was not subject to income-assessment (e.g. PGCE courses, and some other ITT courses; and designated courses at private institutions).
Note:
National level data are published annually in the Department's Statistical First Releases (SFRs) (SFR 12/2004 for 2002/03).
Source:
F503G survey of local education authorities

Data are collected from the Local Education Authorities (LEAs) to produce national estimates and the data collection exercise does not allow for the production of firm figures below this level. Therefore data by Constituency or local education authority are not available.

Vocational Qualifications

Mr. Willis: To ask the Secretary of State for Education and Skills what the average cost of *(a)* a GCSE, *(b)* an intermediate GNVQ, *(c)* an AS-level and *(d)* an NVQ

level-2 or equivalent vocational qualification are; and how many people achieved each of these qualifications in 2003. [172978]

Mr. Miliband *[holding answer 13 May 2004]:* The cost of examination entry is set by the independent awarding bodies. The typical cost of entry and the number of people achieving *(a)* GCSEs, *(b)* GNVQs and *(c)* AS levels in 2003 is as follows:

Qualification	Typical cost of entry[1] (£)	Number of candidates achieving qualification[2]
(a) GCSE		
Full	21.00	682,828
Short Course	14.50	275,841
(b) Intermediate GNVQ		48,842
Part 1		
Full	79.00	45,550
(c) GCE AS level	33 (11 per unit)	315,357

[1] Typical cost of entry is based on entry through Edexcel. These figures have been taken from information provided on the Edexcel website.
[2] Information on candidates attempting GCSEs, GNVQs and AS levels in 2003 is taken from information collated for the 2003 Performance Tables.

Using the most recent data available the number of level 2 NVQs (National Vocational Qualifications) and OVQs (Other Vocational Qualifications) achieved in 2002 are shown in the following table.

Qualification	Typical cost of entry[1] (£)	Number of qualifications achieved[2]
(d) NVQ Level 2	84.00	177,115
OVQ Level 2	[3]	98,307

[1] Typical cost of entry is based on entry through Edexcel. These figures have been taken from information provided on the Edexcel website.
[2] Information on candidates attempting GCSEs, GNVQs and AS levels in 2003 is taken from information collated for the 2003 Performance Table
[3] For OVQs the cost is not shown as this would be dependant upon the exact qualification.

CABINET OFFICE

Emergency Communications Network

Patrick Mercer: To ask the Minister for the Cabinet Office how it is planned that senior Government figures will remain in contact in the event of a terrorist attack that eliminated the London telephone network. [172751]

Mr. Alexander: A range of measures are available to maintain contact with senior Government Ministers and officials in the event of degradation of the telephone network. These include the use of managed call preference schemes, secure fixed and mobile facilities, the private Whitehall telephone service and the Government Secure Intranet.

Non-departmental Public Bodies

Mr. Stephen O'Brien: To ask the Minister for the Cabinet Office how many non-departmental public bodies have been *(a)* created and *(b)* abolished since July 2003. [175451]

Mr. Alexander: This information is not currently available centrally.

I refer the hon. Member to my response to the hon. Member for Kingston and Surbiton (Mr. Davey) on 4 May 2004, *Official Report*, column 1444W, when I indicated that later this year we would be launching a Public Bodies database on the internet. This will contain statistics as at 31 March 2004 which can then be compared with figures in the previous annual "Public Bodies" publications.

Official Vehicles

John Barrett: To ask the Minister for the Cabinet Office what percentage of official vehicles used by the Department are run on *(a)* petrol, *(b)* diesel, *(c)* liquid petroleum gas and *(d)* compressed natural gas. [172770]

Mr. Alexander: The responsibility for the provision of ministerial cars and drivers has been delegated under the terms of the Framework Document to the Government Car and Despatch Agency. I have asked its Chief Executive Mr. Nick Matheson to write to the hon. Member. Copies of his letter will be placed in the Libraries of the House.

Public Bodies

Mr. Stephen O'Brien: To ask the Minister for the Cabinet Office (1) how many public bodies sponsored by other Departments have been *(a)* merged and *(b)* abolished since 1997 as a result of a quinquennial review by his Department; and if he will make a statement; [174709]

(2) how many quinquennial reviews of public bodies have been carried out since 1997; on what dates; and for which Departments. [174710]

Mr. Alexander: It is the responsibility of the relevant parent Department to ensure its public bodies are kept under review. Cabinet Office does not carry out such reviews for other Departments. The rigid requirement to review public bodies in accordance with detailed guidelines at least every five years ceased in 2002. Sponsor Departments now have greater flexibility in determining the appropriate timing and format for reviewing a particular public body. Information about the number and timing of reviews of public bodies by Departments is not held centrally by the Cabinet Office.

NORTHERN IRELAND

Beef

David Burnside: To ask the Secretary of State for Northern Ireland if he will make a statement on the amount of imported beef which is processed in local factories and sold in Northern Ireland with a produce of Northern Ireland label under the Farm Quality Assured Scheme. [175915]

Mr. Pearson: Only beef derived from animals from FQAS registered farms and slaughtered in an FQAS registered slaughterhouse may be labelled as FQAS under the Livestock and Meat Commission Assurance

Scheme. The rules pertaining to the FQAS and the EU Beef Labelling Scheme preclude imported beef being sold under a FQAS label.

Broadband

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what estimate he has made of the percentage of households in Northern Ireland who have broadband access. [175863]

Mr. Gardiner: Based on analysis of information obtained from the public domain, industry sources and service providers, it can be estimated that broadband services aimed at residential users are available to approximately 70 per cent. of households across Northern Ireland.

Business Tariffs

Mr. Dodds: To ask the Secretary of State for Northern Ireland what progress has been made in securing European Commission approval for a three year subsidy scheme to reduce tariffs for business customers at 10 per cent. below true costs. [175722]

Mr. Gardiner: A paper has been submitted to the European Commission outlining the Government's proposal to make an intervention aimed at bringing about a 10 per cent. decrease in electricity prices for non-domestic consumers below the level they would otherwise have been.

A meeting to discuss the matter with Commission officials will take place early next month.

Creative Writing Funding

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much public money was granted by *(a)* the Arts Council of Northern Ireland, *(b)* the Department of Culture, Arts and Leisure, *(c)* the Ultach Trust and *(d)* Foras na Gaeilge towards the publication of creative writing in the Irish language in Northern Ireland in each year since 1999. [168560]

Angela Smith: The Arts Council of Northern Ireland has not made funding available specifically for the publication of writing in the Irish language. However, the Arts Council have given £6,000 per annum to "An tUltach", an Irish language literary and cultural magazine, and in 2003–04, £27,200 to an arts supplement published by Lá, an Irish language newspaper. Both these publications include an element of creative writing in Irish.

The Department of Culture, Arts and Leisure's funds in support of the arts in Northern Ireland is disbursed chiefly through the Arts Council of Northern Ireland and the Department has not made any funding directly available for the publication of creative writing in the Irish language.

The Ultach Trust is a registered charitable trust. It is not directly funded by Northern Ireland Departments and the Government are not responsible for the Trust's expenditure.

Foras na Gaeilge has not provided any funding for the publication of creative writing in the Irish language.

Disabled Drivers

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many and what percentage of people in Northern Ireland are in receipt of a blue badge for disabled drivers. [175862]

Mr. Spellar: The Chief Executive of Roads Service (Dr. Malcolm McKibbin) has written to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin to Mr. Gregory Campbell, dated 25 May 2004:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about how many and what percentage of people in Northern Ireland are in receipt of a blue badge for disabled drivers. I have been asked to reply as the issue raised falls within my responsibility as Chief Executive of Roads Service.

I can advise you that the number of persons currently holding a Blue Badge in Northern Ireland is 74,146. Based on the 2001 population census figure of 1,685,267, this represents 4.4 % of the population.

Heart Conditions

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will estimate how many individuals in Northern Ireland have implantable defibrillators; and how many procedures to implant these devices were performed in the Province in each of the last five years. [175160]

Angela Smith: Procedures to perform the implantation of defibrillators are undertaken at the Royal Group of Hospitals HSS Trust and the Belfast City Hospital HSS Trust. Each trust maintains records of their patients who have been fitted with the device. According to the two trusts there are 381 individuals in Northern Ireland who have been fitted with implantable defibrillators since the beginning of the financial year 1999–2000.

The following table provides figures for the number of procedures that were performed to implant these devices over the last five years.

	Number of implantable defibrillators fitted
1999–2000	46
2000–01	66
2001–02	55
2002–03	81
2003–04	133

Homeless Report

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on the 21st Report of the Committee of Public Accounts, Session 2003–04, "Housing the Homeless". [175902]

Mr. Spellar: I welcome the report and will be making a formal response to the Public Accounts Committee in due course.

Iraq (Public Sector Employees)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* doctors, *(b)* nurses,

(c) allied health professionals and *(d)* others employed in the NHS in Northern Ireland are providing assistance in Iraq. [175218]

Angela Smith: The information requested is not available centrally.

Livestock Collection

David Burnside: To ask the Secretary of State for Northern Ireland whether the national collection scheme to assist livestock farmers in disposing of fallen stock will apply to Northern Ireland. [175591]

Mr. Pearson: Yes.

Local Government Finance

David Burnside: To ask the Secretary of State for Northern Ireland if he will list by district council area the *(a)* total amount of debt owed by each of the 26 local authorities and *(b)* the amount of debt per elector in each district. [174379]

Angela Smith: The amount of debt owed by each of the 26 district councils and the amount per elector in each district, at 31 March 2003, is set out in following table.

District council	*Debt (£)*	*Number of electors*	*Debt per elector (£)*
Antrim[1]	5,924,159	29,301	202.18
Ards[1]	17,365,391	48,962	354.67
Armagh	23,116,660	37,030	624.27
Ballymena[1]	23,576,459	40,836	577.34
Ballymoney	5,006,373	18,707	267.62
Banbridge	13,327,993	28,685	464.63
Belfast[1]	23,601,119	155,929	151.36
Carrickfergus[1]	9,718,566	24,470	397.16
Castlereagh	19,030,679	42,679	445.90
Coleraine[1]	22,427,214	35,155	637.95
Cookstown	1,689,565	22,087	76.50
Craigavon[1]	8,614,863	53,040	162.42
Derry	20,256,762	63,434	319.34
Down	8,715,435	41,863	208.19
Dungannon and South Tyrone	1,766,842	33,129	53.33
Fermanagh	2,188,192	40,742	53.71
Larne	5,260,870	20,434	257.46
Limavady	8,999,312	20,086	448.04
Lisburn[1]	26,557,800	66,498	399.38
Magherafelt	78,117	27,551	2.84
Moyle[1]	7,004,403	10,576	662.29
Newry and Mourne	21,973,624	57,365	383.05
Newtownabbey	29,018,716	51,613	562.24
North Down[1]	15,551,195	49,671	313.06
Omagh	9,340,300	31,709	294.56
Strabane	2,725,066	25,388	107.34

[1] Includes borrowings raised for housing, prior to the establishment of the Northern Ireland Housing Executive.

Love for Life Programme

Mr. Dodds: To ask the Secretary of State for Northern Ireland what the reason is for the Department of Education's decision to refuse funding for the Love for Life programme in schools. [175692]

Mr. Gardiner: My Department does not directly fund or prescribe the use of any particular programmes or materials that schools should use. It is entirely a matter for individual schools to select the resources and materials they consider necessary to deliver the curriculum. The Chief Executive of Love for Life was advised of this reason in a letter dated 11 May.

Professional Qualifications Directive

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the proposed European Directive on the mutual recognition of professional qualifications, with particular reference to the impact in Northern Ireland of free movement of health professionals. [175169]

Angela Smith: The proposed European Directive on mutual recognition of professional qualifications aims to consolidate and rationalise existing rules. The Government welcome the simplification of rules and particularly welcomes new provisions for temporary and occasional supply of services. However, free movement must be balanced by a due regard for public health and safety, especially in the field of health. The proposal as it now stands reflects the view, shared by the Commission and the Council, that prior checks are necessary for health professions, before services can be provided on a temporary basis. The rules for prior checking of credentials before permanent practice are unchanged.

Queen's University Belfast

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the costs were of *(a)* setting up and *(b)* maintaining in each year since establishment the (i) Omagh and (ii) Armagh campuses of Queen's University Belfast. [175214]

Mr. Gardiner: Queen's University Belfast, like all other UK universities, is an autonomous institution entirely responsible for its own policies and procedures, including decisions relating to the establishment of outreach campuses in Northern Ireland. The costs of setting up and maintaining the campus at Armagh is a matter internal to Queen's University and I am not able to provide details of these costs.

Queen's University does not have a physical campus at Omagh. However, Queen's and Omagh College have, for many years, collaborated to provide a range of joint academic awards in the Omagh region.

Sean O'Cealleogh

Mr. Dodds: To ask the Secretary of State for Northern Ireland what representations he has made to the US Administration about the decision of a US court not to deport Sean O'Cealleogh. [169927]

Mr. Leslie: I have been asked to reply.

The information sought is not readily available, but is presently being collated, and will be provided as soon as possible.

Smoking

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans he has to ban smoking in public places in Northern Ireland. [175213]

Angela Smith: Substantial progress on the provision of smoke-free facilities can be made through the "Five Year Tobacco Action Plan for Northern Ireland", which was published in June 2003. The plan, which was prepared by an inter-sectoral working group, does not propose an outright ban on smoking in public places;

rather it stresses the importance of building on changes in public attitudes towards tobacco use, if the overall aim of creating a tobacco-free society is to be met. With this in mind, the plan includes a series of actions designed to promote the provision of smoke-free premises and facilities.

A copy of the plan is available in the Library of the House.

Teenage Pregnancies

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many conceptions there were in females aged 11 to 19 years in Northern Ireland in each year since 2000, broken down by age. [175225]

Angela Smith: Information on the number of conceptions is not available. However, information on the number of registered live and still births to mothers in Northern Ireland, by age, for the years 2000–02, is available and is detailed in the table.

Number of live and still births to Northern Ireland resident mothers, 2000 to 2002

	Age of mother					
Registration year	*(a) 14 years and under*	*(b) 15 years*	*(c) 16 years*	*(d) 17 years*	*(e) 18 years*	*(f) 19 years*
2000	11	47	165	312	484	601
2001	5	37	129	280	493	588
2002	5	32	113	304	494	566

Source:
Northern Ireland Statistics and Research Agency.

Teenage Pregnancies

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many attendances at sexual health clinics there were by those aged 11 to 19 years in Northern Ireland in each year since 2000, broken down by *(a)* age and *(b)* sex. [175223]

Angela Smith: Information on the total number of attendances at sexual health clinics is not collected centrally according to age and gender. Information is, however, available on the number of initial contacts with Genito-Urinary Medicine clinics each year, broken down by age and gender, in respect of persons with various sexually transmitted infections. This information is shown for the financial years ending March 2000, March 2001, March 2002 and March 2003 in the following table.

Initial contacts

	Under 15	*15*	*16–19*	*Total*
1 April 1999–31 March 2000				
Male	1	0	169	170
Female	9	16	397	422
Total	10	16	566	592
1 April 2000–31 March 2001				
Male	5	2	219	226
Female	8	15	475	498
Total	13	17	694	724
1 April 2001–31 March 2002				
Male	1	0	201	202
Female	6	15	440	461
Total	7	15	641	663
1 April 2002–31 March 2003				
Male	3	3	195	201
Female	6	21	464	491
Total	9	24	659	692

Note:
Figures refer to the total number of initial contacts in respect of primary and secondary infectious syphilis, uncomplicated gonorrhoea, uncomplicated chlamydial infection, anogenital herpes simplex (first attack), anogenital warts (first attack), and HIV antibody counselling with testing.

Ulster Hospital (Shuttle Bus)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the potential benefits of a shuttle bus service between the Ulster hospital and Belfast city centre. [175210]

Mr. Spellar: There has been no assessment made of the potential benefits of a shuttle bus service from Belfast city centre to the Ulster hospital.

Unmanned Railway Crossings

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what assessment he has made of the safety risks associated with unmanned railway crossings in Northern Ireland since the accident at Woodtown Crossing, Co. Londonderry on 11 May. [175525]

Mr. Spellar: Safety on the Northern Ireland railway network is the responsibility of Northern Ireland Railways. Translink have advised that an inquiry is under way into the cause and circumstances surrounding the tragic accident at Woodtown crossing. Furthermore a review of all accommodation crossings by independent consultants is nearing completion and will result in a re-evaluation of the categorisation of over 200 user worked crossings throughout the network.

CULTURE, MEDIA AND SPORT

Free Television Licences

Colin Burgon: To ask the Secretary of State for Culture, Media and Sport how many pensioner households in the Elmet constituency receive a free TV licence. [174874]

Estelle Morris: TV Licensing, who administer free television licences for people aged 75 or over as agents for the BBC, are not able to provide geographical breakdowns of the number of free licences issued. However, 2001 Census data for parliamentary constituencies identifies 7,131 people aged 75 or over living in the Elmet constituency.

Audio-description Technology

Mr. Boswell: To ask the Secretary of State for Culture, Media and Sport how she is working with interested parties to encourage the development of audio-description technology adapted for *(a)* museum and heritage collections and *(b)* visual arts work. [175016]

Estelle Morris: DCMS and its sponsored bodies have undertaken a range of initiatives aimed at increasing the use of audio description, which, through visual information and interpretive commentary, can greatly enhance appreciation of cultural exhibits and sites by visually-impaired people. Some of the key initiatives are as follows.

Arts Council England (ACE) and the Museums, Libraries and Archives Council (MLA), with support from English Heritage, funded the "Talking Images" project managed by the Royal National Institute for the Blind, which resulted in extensive guidance for museums, galleries and heritage sites on how to provide audio description and venue access, including a technical specification for user-friendly audio-guide equipment.

MLA has produced further guidance on inclusive technology, distributed to more than 3,000 museums, libraries and archives, and is also promoting technical web-accessibility for online cultural collections, so that new services such as audio description can be easily accessed. An example of innovation in this area is the Tate Modern's imap website, which uses audio description and images adapted for the partially-sighted through heightened colour contrast.

English Heritage has audio guides at over 50 of its properties and is looking to increase this number. Many sites also have set tours for the visually-impaired and interactive audio tours. English Heritage has also produced a guide on improving access for blind and partially-sighted people.

Casinos

Mr. Greenway: To ask the Secretary of State for Culture, Media and Sport if she will list the permitted areas where casinos may be established under the Gaming Act 1968; and in which of those areas casinos are not currently operating. [175819]

Mr. Caborn: The areas where casinos are allowed to operate under the Gaming Clubs (Permitted Areas) Regulations 1971 are as follows:

London

That area which is within the area specified in the licensing (Metropolitan Special Hours Area) Order 1961—plus the City of Westminster and the Royal Borough of Kensington and Chelsea.

The rest of England, Wales and Scotland

The areas of the former county boroughs, non-county boroughs and urban districts of:

Aberdeen
Birkenhead
Birmingham
Blackpool
Bolton
Bournemouth
Bradford
Brighton
Bristol
Cardiff
Coventry
Derby
Dudley
Dundee
Edinburgh
Glasgow
Great Yarmouth
Hove
Huddersfield
Kingston upon Hull
Leeds
Leicester
Liverpool
Luton
Lytham St. Annes
Manchester
Margate
Newcastle upon Tyne
Northampton
Nottingham
Plymouth
Portsmouth
Ramsgate
Reading
Ryde
Salford
Sandown/Shanklin
Scarborough
Sheffield
Southampton
Southend-on-Sea
Southport
Stockport
Stoke-on-Trent
Sunderland
Swansea
Teesside/Middlesbrough
Torbay
Walsall
Warley
West Bromwich
Wolverhampton.

There are currently no casinos operating in Ryde, Sandown/Shanklin or Warley.

Cricket Tours

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what discussions her Department has had with the International Cricket Council regarding the rules operated by the ICC in respect of cricket tour cancellations. [175487]

Mr. Caborn: The Government have not discussed the rules about cricket tour cancellations with the International Cricket Council. This is a matter between the ICC and the England and Wales Cricket Board.

Departmental Buildings

Mr. Flight: To ask the Secretary of State for Culture, Media and Sport how many buildings in England owned by her Department are used at less than 25 per cent. capacity for more than three months of the year. [175982]

Mr. Caborn: The Department for Culture, Media and Sport leases four buildings or part buildings in London, none of which, ever fall to an occupancy level as low as 25 per cent.

Electronic Programme Guides

Lembit Öpik: To ask the Secretary of State for Culture, Media and Sport (1) if she will request that Ofcom include a requirement for a periodic review of the ordering of channels on electronic programme guides (EPGs) in its new code of practice for EPG providers; and if she will make a statement; [174670]

(2) what assessment she has made of the impact of television channels' positioning on the electronic programme guides on viewer choice; what steps she intends to take to ensure that EPG providers facilitate a reordering of channels disadvantaged by their EPG listing; and if she will make a statement; [174671]

(3) what discussions she has had with Ofcom about the role of the electronic programme guide in promoting fair competition between the UK 24-hour news sources on digital television; and if she will make a statement; [174672]

(4) what discussions she has had with Ofcom about whether the new electronic programme guide code will include a requirement for a review of channel ordering on the EPG; and if she will make a statement. [174673]

Estelle Morris: The regulation of electronic programme guides is a matter for Ofcom and therefore I have not had any detailed discussions with them on this matter.

Under section 310 of the Communications Act 2003, Ofcom has to draw up a code giving guidance as to the practices to be followed in the provision of electronic programme guides. Ofcom must review and revise this code from time to time.

In their consultation on this issue, Ofcom stated that they "intend to review the code at intervals of no more than two years, or more frequently if circumstances warrant it". They proposed that the code should require "all EPG providers to have an objectively justifiable method of allocating listings" and stressed that "this does not preclude different methods"—for example, objectively justifiable methods could include, "first come first served" listings, alphabetical listings and those based on audience shares.

In their consultation on the regulation of electronic programme guides, Ofcom state that "discriminatory treatment of a channel in terms of listings or presentation would constrain its ability to compete effectively with other channels for audience share and advertising revenue and would thus be prejudicial to fair and effective competition".

Intellectual Property Rights

Mr. Chris Smith: To ask the Secretary of State for Culture, Media and Sport who the members are of the forum on intellectual property rights being established jointly by her right hon. Friends the Minister for the Arts and the Minister for Science and Innovation; what sectors they represent; what the agenda will be for the forum's work; and what timetable it will be working to. [R] [175687]

Estelle Morris: This Department and the Department of Trade and Industry are currently finalising details of the forum. An announcement will be made as soon as possible.

Sports Spectators

Mr. Hoyle: To ask the Secretary of State for Culture, Media and Sport how many people watched professional *(a)* rugby league, *(b)* football, *(c)* rugby union and *(d)* cricket in the last 12 months for which figures are available. [175480]

Mr. Caborn: In 2003, around 1.6 million people attended professional Rugby League matches: 1.4 million at Super League matches; 100,000 at Challenge Cup ties; 100,000 at National League matches.

In the 2003–04 football season, 29 million people attended Premier League and Football League matches: 13.3 million at Premier League games; 16 million at Football League matches (Divisions 1, 2 and 3).

In 2003, around 4.5 million people attended Rugby Union matches in Britain: 3.4 million attending international matches; 1.1 million at Zurich Premiership matches.

In the May to September 2003 cricket season around 1.9 million people attended cricket matches in England: 630,000 attending international games; 1.3 million attending domestic cricket matches.

HOME DEPARTMENT

Speed Cameras (West Sussex)

Tim Loughton: To ask the Secretary of State for the Home Department how much money was raised in fines from speed cameras in the last year for which records are available in *(a)* West Sussex and *(b)* the East Worthing and Shoreham constituency. [175046]

Caroline Flint: Information on the revenue raised from speed offences detected by camera is not available.

Available information on the number of fixed penalties and court fines ordered to be paid within the Sussex police force area for the offence of 'speeding detected by camera' in 2002 is shown in the table. It is not possible from the data collected centrally to identify the county of West Sussex and the constituency of East

Worthing and Shoreham within the geographical area of the Sussex police force.

Not all fines and fixed penalties will have been paid.

Fixed penalty and court proceedings data for speeding offences detected by cameras[1] in the Sussex police force area, 2002

	Rounded 2001
Fixed penalties	
Number of tickets[2]	19,000
Estimated revenue (£)[3]	1,141,000
Court proceedings[4]	
Number of fines	610
Total amount of fine (£)	54,700
Average fine (£)	90

[1] Offences under the Road Traffic Regulation Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.
[2] Paid i.e. no further action.
[3] "Estimate" based on £60 penalty charge.
[4] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.

Correspondence

Ian Lucas: To ask the Secretary of State for the Home Department when he expects the Immigration and Nationality Directorate to reply to the letter from the hon. Member for Wrexham of 23 October 2003 in connection with Mr. Jama Ali Farah (ref. F1036752). [172199]

Mr. Browne: Officials at the Immigration and Nationality Directorate replied on 3 November 2003 to my hon. Friend's letter of 23 October 2003.

Sir Michael Spicer: To ask the Secretary of State for the Home Department when the hon. Member for West Worcestershire will receive a response to his letter of 7 April 2004, reference PO4301/4. [174749]

Mr. Browne *[holding answer 20 May 2004]:* I wrote to the hon. Member's letter on 25 May 2004.

Criminal Justice

David Taylor: To ask the Secretary of State for the Home Department what discussions his Department has had with the Department for Transport on reform of the criminal justice system. [172844]

Paul Goggins: The Home Office is in regular contact with the Department for Transport on criminal justice issues, including sentencing, support for victims of road crash incidents and road traffic policing.

Mr. Drew: To ask the Secretary of State for the Home Department what the budget is for each local criminal justice board in 2004–05; and what the proposed budget is for 2005–06. [172957]

Paul Goggins: The amount of funding from the centre to support the activities of each Local Criminal Justice Board in 2004–05 has yet to be agreed but it is hoped that it will be at least equal to the £40,000 that was provided to each Local Criminal Justice Board in 2003–04. The final sum provided in 2004–05 will be in addition to the salary cost paid by the centre for the support provided by the Performance Officer to each Local Criminal Justice Board area. The proposed budget for 2005–06 will not be known until after the outcome of the 2004 Spending Review has been considered.

Mr. Drew: To ask the Secretary of State for the Home Department if he will list the criminal justice boards where representatives of Victim Support are *(a)* full members of the Board and *(b)* attend board meetings. [172958]

Paul Goggins: The four Criminal Justice Boards where representatives of Victim Support are full members of the Board are Avon and Somerset, Greater Manchester, Lancashire and London.

Attendance at Local Board meetings is a matter for each Board's discretion. However, Boards where the Victim Support representative may, on occasion, attend board meetings as a member of a Victim and Witness sub-group include Cambridgeshire, Cheshire, Cumbria, Devon and Cornwall, Durham, Dyfed Powys, Essex, Greater Manchester, Hampshire, Kent, Norfolk, North Yorkshire, Nottinghamshire, South Yorkshire, Staffordshire, Suffolk, Sussex, Thames Valley, Warwickshire and West Yorkshire. In addition to this, a Victim Support representative is a member of the Merseyside Advisory Group and therefore may possibly attend some of the Board meetings.

Drugs Testing/Treatment

Simon Hughes: To ask the Secretary of State for the Home Department how many drugs testing and treatment orders were issued in *(a)* Greater London and *(b)* each London borough in each year since 1997. [163092]

Paul Goggins *[holding answer 22 March 2004]:* Drug Treatment and Testing Orders (DTTOs) have been available since October 2000 when they were rolled out nationally following an 18-month pilot period in three areas. The London Probation Area is required to submit monthly figures to the National Probation Directorate pertaining to the number of Orders made but is not required to break this down by boroughs. The breakdown by borough shown in Annexes A and B has been obtained from London Probation Area records.

The number of orders made in each year from October 2000 to February 2004 is as follows:

	Number	
October 2000 to March 2001	251	(not available by borough)
April 2001 to March 2002	556	(not available by borough)
April 2002 to March 2003	715	(by borough at Annex A)
April 2003 to February 2004	941	(by borough at Annex B)

Annex A: Drug Treatment and Testing Orders made in London between April 2002 to March 2003 by borough

	Number
Bexley	11
Greenwich	32
Brent	23
Harrow	10
Ealing	33
Hillingdon	7
Hounslow	22
Barnet	16
Enfield	27

Annex A: Drug Treatment and Testing Orders made in London between April 2002 to March 2003 by borough

	Number
Haringey	38
Bromley	18
Croydon	44
Camden	35
Islington	28
Hammersmith and Fulham	16
Kensington and Chelsea	12
Westminster	12
City	0
Hackney	43
Newham	21
Tower Hamlets	22
Lambeth	39
Lewisham	25

Havering	7
Redbridge	17
Waltham Forrest	30
Kingston	7
Merton	15
Richmond	6
Sutton	19
Wandsworth	53
Total	935

Note:
In addition, six orders were made in London on offenders of No Fixed Abode in any borough.

Fines

Mr. Drew: To ask the Secretary of State for the Home Department what percentage of fines was collected by each local criminal justice board in the last year for which figures are available. [173777]

Paul Goggins: Local Criminal Justice Boards (LCJBs) do not directly collect fines. Fine enforcement is the responsibility of local Magistrates' Courts Committees (MCCs). But, given the importance of fine enforcement to public confidence in the Criminal Justice System, LCJBs are encouraged to monitor and to work jointly to improve payment rates within their local areas.

The table shows the payment rate for April 2003 to March 2004 for each of the 42 local MCCs. This represents the total value of fines (excluding confiscation orders) collected as a percentage of the total value of fines imposed over this period. The Department for Constitutional Affairs set MCCs a target of 75 per cent. for the year ending March 2004. Note that it is possible for an area's payment rate to exceed 100 per cent. if a sufficiently high value of fines imposed prior to April 2003 are collected.

	Payment rate (Percentage)

Gun Crime

Ms Abbott: To ask the Secretary of State for the Home Department what guidance has been issued to police regarding the use of informants in cases of gun crime. [175540]

Caroline Flint: The use of informants in cases of gun crime is subject to the standard police operating procedures, which apply generally in relation to the use of informants.

Home Detention Curfew Scheme

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners were recalled for failing to adhere to home detention conditions during January and February in each prison region. [163270]

Paul Goggins *[holding answer 23 March 2004]:* The number of prisoners who were recalled for failing to adhere to the home detention curfew conditions during January and February 2004, by Prison Service management region, is given in the table.

HOC recalls, by Prison Service management area from which the prisoner was discharged

	January 2004	*February 2004*

Illegal Arms Trade (Nuclear Weapons)

Harry Cohen: To ask the Secretary of State for the Home Department whether investigations by the police authorities have been undertaken in respect of individuals and companies for the offence of assisting or inducing weapons-related acts overseas, in particular for developing, producing or participating in the development or production of a nuclear weapon; and if he will make a statement. [174627]

John Healey: I have been asked to reply.

Investigation and prosecution of offences involving assisting or inducing weapons-related acts overseas is the responsibility of HM Customs and Excise. However, Customs' cannot comment on whether a matter is under current investigation; Exemption 4 (Law enforcement and legal proceedings) of the Open Government Code applies.

Customs have an important role in countering the proliferation of weapons of mass destruction. They work closely with other Government Departments and agencies, in the UK and overseas, to ensure that effective action is taken against proliferators.

Any prosecution for such offences require the consent of the Attorney-General.

Immigration Training

Mr. Sarwar: To ask the Secretary of State for the Home Department what funding was provided to the Office of the Immigration Services Commissioner to provide immigration training for voluntary sector workers in *(a)* 2003 and *(b)* 2004. [171792]

Mr. Browne: The Office of the Immigration Services Commissioner (OISC), in its annual business plan, submits its budget proposals to the Home Office for approval. The total budget allocation is then paid, in monthly grant in aid payments, to the OISC, which then has authority to incur the expenditure approved without further reference to the Department.

The OISC community training budgets for the relevant period, which have been approved by the Home Office, were:

	£
2002–03	200,000
2003–04	175,000
2004–05	170,000

National Identity Register

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department in what circumstances the police would be authorised to access data stored on the National Identity Register. [170258]

Mr. Browne: It is incorrect to say that any body or person will have "access" to the register, rather the legislation will permit the Secretary of Sate to disclose information where a person consents or, where a person does not consent, only for specified purposes to specified persons.

People will therefore be free to produce an identity card on a voluntary basis, including to a police officer, as a means of establishing their identity.

There is an exception to the general bar on disclosing information from the register without consent where disclosure to the police is in the interests of national security and for the prevention and investigation of crime, as set out in Clause 20(3) of the draft Identity Cards Bill. Such disclosure may be authorised only where the Secretary of State is satisfied that it was not reasonably practicable for the police to have obtained the information by other means. For example, if fingerprint information is recorded on the register, the police would first have to search their own fingerprint records before resorting to the register. In addition, Clause 24(2) enables the Secretary of State to impose other requirements that must be satisfied before such a disclosure is made.

Correspondence

Mr. Steen: To ask the Secretary of State for the Home Department when he will publish the investigatory report referred to in the letter to the hon. Member for Totnes from the Parliamentary Under-Secretary of State dated 17 March 2004, regarding the treatment of Mr. Torben Vannan and Mr. Calvin John Vannan at Heathrow airport on 15 February 2004. [172761]

Mr. Browne: I apologise for the delay in providing a substantive response to the hon. Member's letter of 3 March.

The investigating officer has now completed his report, and I wrote on 25 May detailing the outcome of the inquiries into the concerns he raised.

Mr. Hancock: To ask the Secretary of State for the Home Department when he will answer the question from the hon. Member for Portsmouth, South of 29 January 2004, reference 152236. [165364]

Paul Goggins: I replied to the hon. Member on 26 April 2004, *Official Report*, column 759W.

Police (Lancashire)

Mr. Hoyle: To ask the Secretary of State for the Home Department whether radios used by Lancashire police work in adjoining police areas; and whether they are compatible with radios used by *(a)* Cumbria, *(b)* Merseyside and *(c)* Greater Manchester police forces. [175495]

Caroline Flint: Operational arrangements are in place to ensure that Lancashire police can communicate with neighbouring forces.

Lancashire police can already communicate seamlessly with Greater Manchester police using the new Airwave system. Airwave will be available in Merseyside and Cumbria by the end of March 2005.

Probation Service

Ross Cranston: To ask the Secretary of State for the Home Department what budget was set for the National Probation Directorate at the commencement of the financial year 2003–04; what the change in gross provision was; and if he will make a statement. [168464]

Paul Goggins: I refer my hon. Friend to the answer I gave on 18 May 2004, *Official Report*, column 860W.

Racial Equality

Dr. Iddon: To ask the Secretary of State for the Home Department what the Commission for Racial Equality's section 44 funding is for 2004–05, broken down by region. [172830]

Fiona Mactaggart: I refer my hon. Friend to the answer I gave on 14 May 2004, *Official Report*, column 862W.

Dr. Iddon: To ask the Secretary of State for the Home Department if he will list the panel members who decided Commission for Racial Equality section 44 funding for 2004–05. [172848]

Fiona Mactaggart: The members of the Communities and Partnerships Committee who made the decisions on Getting Results funding this year were as follows:

Kay Hampton (Committee Chair)

Trevor Phillips

Gloria Mills

Julia Chain

Khurshid Ahmed

Security Cameras

Tony Lloyd: To ask the Secretary of State for the Home Department how much public funding has been spent on CCTV security cameras in Manchester, Central since 1997. [174280]

Ms Blears: Since 1997, the Home Office has provided £3,515,685 to Manchester City Council for Close Circuit Television schemes.

Allocation of that funding locally is a matter for Manchester City Council and Greater Manchester Police. The information is not held centrally.

TRADE AND INDUSTRY

Illegal Websites

Mr. Drew: To ask the Secretary of State for Trade and Industry how many websites regulatory bodies have closed down because of the presence of illegal images and content in each of the last two years. [174833]

Mr. Timms: In the UK the Internet Watch Foundation (IWF) is charged with the responsibility of managing consumer complaints about potentially illegal content online.

The IWF's Internet Hotline deals with reports of potentially illegal Internet content, such as websites, newsgroups and online groups that contain: images of child abuse anywhere in the world; adult material that potentially breaches the Obscene Publications Act in the UK; and criminally racist material in the UK. Statistics taken from the IWF's annual reports show that in 2002, 88 UK websites and in 2003, 34 UK websites were removed due to potentially illegal content. For images of child abuse hosted overseas the information is passed to IWF's counterparts and law enforcement agencies in those countries and there are no statistics on how many of these sites have been closed down.

Advantage West Midlands

Mr. Andrew Mitchell: To ask the Secretary of State for Trade and Industry how many staff were employed in a press office or public relations capacity *(a)* by Advantage West Midlands and *(b)* by each regional development agency in (i) 1999, (ii) 2000, (iii) 2001, (iv) 2002 and (v) 2003. [172371]

Jacqui Smith *[holding answer 13 May 2004]:* The information requested is set out in the following table.

Answers calculated as equivalent full-time posts:

RDA	1999–2000	2000–01	2001–02	2002–03	2003–04
Advantage West Midlands	0	0	1	3	3
East of England Development Agency	2.5	3	3.25	3.25	3.5

Yorkshire Forward	2	3.5	3.5	3.5	3.5

[1] Between these years, emda outsourced to an agency.

Beagle Project

Dr. Gibson: To ask the Secretary of State for Trade and Industry what plans she has to publish the inquiry into the Beagle project. [174853]

Ms Hewitt: The recommendations from the Report of the Inquiry into the Beagle project will be published on 24 May 2004. The Inquiry covered a wide range of important issues of concern to the United Kingdom, the European Space Agency (ESA) and other member states in ESA. Some of these matters are necessarily confidential, or commercially sensitive to firms in the United Kingdom, so the full report cannot be published under Exemption 1—Defence Security and International Relations and Exemption 13 Third Party Commercial Confidence's of the Code of Practice on Access to Government Information. Copies of the recommendations will be placed in the Libraries of House.

Belize

Chris Ruane: To ask the Secretary of State for Trade and Industry what the value was of *(a)* imports and *(b)* exports to Belize in each of the past 25 years in real terms. [175242]

Mr. Mike O'Brien: Information on the UK's trade with Belize in real terms is not available. Data on trade at current prices are given in the following table.

UK trade in goods with Belize 1979–2003

£ million, current prices

	UK Exports	UK Imports
1979	10.4	12.1
1980	9.4	13.2
1981	10.0	15.1
1982	10.4	13.3
1983	8.7	11.6
1984	11.5	15.9
1985	8.3	15.0
1986	8.2	18.0
1987	7.5	22.8
1988	12.1	22.5
1989	11.8	24.3
1990	12.4	22.7
1991	14.6	20.8
1992	11.1	32.2
1993	16.6	37.4
1994	12.8	42.5
1995	14.3	47.0
1996	10.2	47.9
1997	13.6	36.3
1998	11.6	33.6
1999	11.7	43.2
2000	11.5	39.6
2001	13.8	34.9
2002	13.7	31.6
2003	17.4	42.0

Competitiveness Council

Mr. Hood: To ask the Secretary of State for Trade and Industry what the outcome was of the Competitiveness Council of 17 to 18 May; what the Government's stance was on the issues discussed, including its voting record; and if she will make a statement. [174810]

Jacqui Smith: I represented the UK at the Competitiveness Council on 17–18 May 2004.

The Council held a debate on better regulation and on competitiveness and innovation, based on a number of documents covering: industry policy; the strategy for life sciences and biotechnology; proactive competition policy; and the latest state aid scoreboard. Ministers emphasised the need for reduced, simpler regulation the importance of SMEs, innovation, the need for new policies to stimulate private investment in scientific research, and the development of close links between industry and universities. The UK drew attention to the need for economic reform and structural change, and called for the Council to match its broad aspirations with decisions on key dossiers.

Two sets of Council Conclusions on Better Regulation, and on Competitiveness and Innovation were formally agreed.

Ministers exchanged views on the proposed Chemicals Regulation (REACH). The discussion focused on three key areas: registration, manufacturers' duty of care, and the role of the EU Chemicals Agency. Ministers stressed the importance of striking the right balance between ensuring that the EU chemicals industry remains competitive and delivering benefits for human health and the environment.

The UK advocated a system of "One substance-One registration". Most member states expressed support for the principle, but said that the proposal needed further development. The presidency invited the UK to bring forward its proposal as soon as possible, and asked the working group to do further work on the other aspects of registration and the role of the Chemicals Agency.

Commissioner Busquin gave a brief update on the negotiations on the International Thermonuclear Experimental reactor (ITER), with the aim of securing the ITER site in the EU.

The Council discussed the Commission's proposals on the admission of third country nationals to carry out scientific research in the EU. The Council recognised that it was vital for the EU to have more researchers and largely welcomed the proposal.

However, the Council noted that further work was needed to refine the proposal, in particular in relation to the role and responsibilities of the host organisation, whether to differentiate between public and private organisations, and the procedures for family reunification. These messages are to be passed to the President of the Justice and Home Affairs Council.

In the absence of an expected Commission Communication, Commissioner Busquin gave a brief presentation on the Future of European research.

The Council reached agreement on the Unfair Commercial Practices Directive. The UK supported the Directive's aim of harmonising national consumer protection laws against unfair commercial marketing and advertising.

The Presidency confirmed that a first reading agreement had been reached with the European Parliament on the Regulation on Consumer Protection Co-Operation. The aim of the Regulation is to promote co-operation between national authorities on the enforcement of consumer protection legislation.

The Council was unable to reach agreement on a Regulation on Sales Promotion. The proposal aims to create a harmonised regime for sales promotions involving offers of discounts, free gifts, premiums, and promotional games and contests.

Member states were unable to reach agreement on the "Country of Origin" principle, as well as a number of other issues, notably: promotional games, information requirements, and the application of the Regulation to pharmaceuticals.

Discussion on the final outstanding points on the Regulation to establish a Community Patent continued at the Council. Member states could not agree on the legal effect of translations of a patent claim and the length of time for filing such translations. Germany, France, Spain and Portugal all indicated they could not support the Presidency compromise text. The Presidency stated it would bring the matter to the attention of the President of the European Council.

The Council reached political agreement on a common position on a Directive on the Patentability of Computer-Implemented Inventions. The Directive contains provisions in accordance with the practice of the European Patent Organisation on the patentability of such inventions.

The Council also reached political agreement on a common position on the Mutual Recognition of Professional Qualifications Directive. The Directive aims to create a clearer system for the recognition of qualifications in the field of regulated professions by consolidating 15 Directives covering all professions into a single legislative text.

Political agreement on a common position was reached on a Regulation to amend the Community Customs Code, which aims to improve security at EU external frontiers.

The UK voted in favour of all of the legislative measures agreed at the Council.

Computer File Formats

Mr. Allan: To ask the Secretary of State for Trade and Industry what her Department's policy is in respect of the computer file formats used for the *(a)* distribution and *(b)* archiving of publicly available documents. [173365]

Ms Hewitt: Publicly available documents are distributed through the DTI websites predominantly in HTML and PDF to ensure that the information is as widely accessible as possible. On the main DTI website formal publications are available at http://www.dti.gov.uk/publications/.

We are proposing to archive and preserve electronic publications within the Department's electronic record and document management system in the format in which they were published. We will be reviewing this approach in discussion with the National Archives.

Democratic Republic of Congo

Norman Lamb: To ask the Secretary of State for Trade and Industry what action she has taken in response to the report entitled Unanswered Questions, Companies, Conflict, and the Democratic Republic of Congo. [175552]

Mr. Mike O'Brien *[holding answer 24 May 2004]*: This report, which poses questions primarily based on the published UN reports, is being studied with interest. We have contact with Rights and Accountability in Development, the authors of this report.

Departmental Annual Report

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what the reasons were for the increase in the total net administration costs of her Department between 2002–03 and 2003–04 as set out in the Departmental Report 2004, Cm 6216, page 161. [171612]

Ms Hewitt: As is the standard approach, the 2004 Departmental Report provides an-actual outturn figure for 2002–03 and an estimated outturn figure for 2003–04. These two figures are not equivalent and cannot be compared directly. The actual outturn figure for 2003–04 will be published in the 2005 Departmental Report.

The actual outturn figure for 2003–04 was lower than estimated, mainly due to the generation of additional receipts, and some technical accounting adjustments. On an equivalent basis, the net administration cost for 2002–03, was £16 million higher than 2002–03, and this was awarded through Spending Review 2002. The reasons for this were an additional £8 million for front line services in the Employment Tribunals Service, ACAS and The Insolvency Service, £5 million for

electronic Government IT services and an additional £3 million covering a range of activities across the Department.

Departmental Publications

Malcolm Bruce: To ask the Secretary of State for Trade and Industry pursuant to the answer of 10 May 2004, *Official Report*, column 79W, on departmental publications, if she will provide the information her Department holds centrally on the newspapers, magazines and periodicals for which it is responsible. [173962]

Ms Hewitt *[holding answer 18 May 2004]:* I am enclosing a list of serial publications as notified to my Department's Publications Unit. The list is of serial publications (excluding annual publications) that were produced between 1 April 2003 and 31 March 2004 and contains a brief description of each publication's subject matter.

Publication title	*Subject matter*

Updating percentages: adjustments for measured term contracts	Industry—Construction

Discrimination Law

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many proceedings were brought by employees under discrimination law in each year since 1997 concerning *(a)* sexual orientation and *(b)* religious belief; and what estimate she has made of the number of such proceedings in 2004 to 2006. [175149]

Ms Hewitt: The Employment Equality (Sexual Orientation) Regulations 2003 and the Employment Equality (Religion or Belief) Regulations 2003 came into force on 1 and 2 December 2003 respectively. These Regulations give all workers a right to bring Employment Tribunal proceedings about discrimination on the grounds of sexual orientation, or religion or belief, a right which did not in general exist before.

In the period December 2003 to April 2004 there have been 30 Employment Tribunal applications registered by the Employment Tribunals Service relating to sexual orientation and 22 applications relating to religion or belief. These figures will be included with others in the Employment Tribunals Service's Annual Report, which is due to be published and laid before the House in mid-July.

In the Regulatory Impact Assessments prepared for the above Regulations, the DTI estimated that there would be around 1,000 applications a year relating to

sexual orientation and around 1,000 applications a year relating to religion or belief.

Domestic Heating

Mr. Gregory Campbell: To ask the Secretary of State for Trade and Industry what percentage of domestic properties in Great Britain are heated by *(a)* electricity, *(b)* solid fuel and *(c)* natural gas. [175857]

Mr. Timms: Information on the fuels used to heat domestic properties in Great Britain is published by BRE in its Domestic Energy Fact File. The latest available data relate to 2001, and are shown in the table.

		Main form of heating in 2001 (percentage)				
Type of dwelling	*Number of homes*	*Solid fuel heating*	*Electric heating*	*Gas heating*	*Oil heating*	*Other form of heating*
Centrally heated	22,030,000	3.02	10.78	79.79	4.29	2.12
Non-centrally heated	2,392,000	12.76	31.25	53.35	0.00	2.64
All	24,422,000	3.98	12.78	77.20	3.87	2.17

ECGD

Mr. Todd: To ask the Secretary of State for Trade and Industry if she will place research conducted on the competitive environment of the Export Credits Guarantee Department in the Library. [174828]

Mr. Mike O'Brien: In April 2004 ECGD published its International Comparison Report, which compares ECGD with other large export credit agencies. The report is already available on ECGD's website but a copy will be placed in the Libraries of the House.

Mr. Arbuthnot: To ask the Secretary of State for Trade and Industry what assistance is given by the Export Credits Guarantee Department to UK companies wishing to trade with Russia. [174838]

Mr. Mike O'Brien: The Export Credits Guarantee Department can offer medium term cover on individual cases in Russia with a value of up to £80 million although much larger cases can be considered. ECGD is also able to offer Overseas Investment Insurance to protect UK direct investment in Russia against the risks of war, expropriation and restrictions on remittances.

Equality and Human Rights Commission

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what assessment has been made of the costs that will be incurred by businesses in dealing with the guidance of the Equality and Human Rights Commission; and what assessment has been made of the costs that will be incurred by businesses in complying with its codes of practice. [174703]

Ms Hewitt: The Government published the White Paper "Fairness for All: A New Commission for Equality and Human Rights" on Wednesday 12 May 2003. The White Paper sets out our proposals for a new body to meet the challenges we must overcome if we are to end discrimination and promote respect for human rights. The establishment of a single organisation to champion equality, diversity and human rights meets the strong call from the business community for a more joined-up approach to these issues.

An assessment of the costs to businesses due to the creation of the Commission for Equality and Human Rights (CEHR) has been made in the Partial Regulatory Impact Assessment (RIA), which forms part of the White Paper. As the establishment of the CEHR imposes no new regulatory burden on business there will be no costs associated with complying with guidance or codes of practice issued by the CEHR, other than where a business is currently in breach of existing legislation. Guidance and codes of practice issued by the CEHR will make businesses more aware of their legal responsibilities, thus reducing the risk of litigation.

Nevertheless, there may be small costs associated with reading and understanding initial guidance issued by the CEHR, estimated to be around £39 per business. However as this guidance is likely to cover all areas of discrimination and human rights legislation it should offer an overall saving in time and cost spent in reading guidance related to each individual area, as is currently the case.

EU Social Chapter

Mrs. Humble: To ask the Secretary of State for Trade and Industry if she will make a statement on the effects of the EU Social Chapter on the residents of Blackpool North and Fleetwood. [175886]

Mr. Sutcliffe: The residents of Blackpool North and Fleetwood have benefited from the EU Social Chapter by having their employment rights extended to include:

the right to Parental Leave which gives parents the right to 13 weeks unpaid leave at the birth or adoption of a child;

the entitlement of part-time workers to the same pro-rata terms and conditions of employment as full time workers, thereby removing any discrimination and improving the quality of part-time jobs;

the provision that once a prima facie case has been made in an employment tribunal claim, the burden of proof is placed on the defendant (usually the employer), who will need to demonstrate that sex discrimination has not occurred;

rights under the Fixed Term Work Directive that provide equal treatment and prevent abuse of fixed term contracts;

rights under the European Works Council Directive which requires companies with at least 1000 employees in total and at least 150 workers in each of the two Member States, to establish structures for consulting workers on issues that affect them and;

In addition, the Information and Consultation of Employees Directive to be implemented in the UK by March 2005, establishes a right to new minimum standards for workforce communication and involvement in large firms.

Fuel Crisis (Emergency Powers)

Miss McIntosh: To ask the Secretary of State for Trade and Industry what the legal basis is for the use of emergency powers to secure energy supplies during a fuel crisis; and what parliamentary scrutiny there has been of the emergency powers which would be used to secure energy supplies during a fuel crisis. [174637]

Mr. Timms: The Energy Act 1976 allows the regulation or prohibition of the production, supply, acquisition or use of fuel where there is or is imminent an actual or threatened emergency in the UK affecting fuel or electricity supplies or to meet international obligations. The Act provides wide-ranging powers to make Orders of general application (subject to negative parliamentary procedure) and specific directions to particular persons (including companies). An Order would lapse after 28 sitting (parliamentary) days, unless it is revoked earlier or the Order is approved by affirmative resolution of both Houses and which then continues for the rest of the 12- month period, unless revoked earlier. The Act provides that the Order may be continued for 12-month periods more than once, each time after resolution of both Houses.

Invest-UK Activities

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry if she will make a statement on the numbers of jobs that were *(a)* created and *(b)* safeguarded as a result of Invest-UK activities in each year between 2000 and 2003. [174690]

Mr. Mike O'Brien: The following figures are UK Trade and Investment's assisted inward investors' estimates of job creation in the first three years of their investments:

	Jobs created	*Jobs safeguarded*
2000–01	15,857	6,624
2001–02	4,299	1,252
2002–03	5,669	3,048

In addition UKTI provides funding to the Regional Development Agencies (RDAs), and publicises the UK generally as a good destination for inward investors. Inward investors' estimates of the total number of jobs created and safeguarded is as follows:

	Jobs created	*Jobs safeguarded*
2000–01	71,168	52,359
2001–02	35,362	24,069
2002–03	34,850	20,265

Nuclear Industry

Bob Spink: To ask the Secretary of State for Trade and Industry what her policy is for retaining a skill base for the nuclear industry in the UK. [174809]

Mr. Timms: To fulfil the Government's policy commitment to develop and implement a nuclear work force development strategy the Department has been closely involved with the formation of a Sector Skills Council to represent the needs of the nuclear industry. Cogent Sector Skills Council was launched on 2 March, covering nuclear, chemical manufacturing and oil and gas industries. Cogent will take a strategic view of the nuclear sector to ensure that the education and training base can meet the nuclear employers current and future needs.

Patrick Mercer: To ask the Secretary of State for Trade and Industry how many instances of theft of *(a)* nuclear waste and *(b)* spent fuel rods from nuclear plants in the UK were reported to the police in (i) 2001, (ii) 2002 and (iii) 2003. [174611]

Mr. Timms: There were no reported thefts of nuclear waste or spent fuel rods from civil nuclear sites in the years specified.

Petrol Prices

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what recent discussions the Government has had with oil producers on reducing the price of petrol. [174844]

Mr. Timms: International oil prices are one of a number of factors that influence the price of petrol.

Other Ministers, officials and myself meet bilaterally and multilaterally with representatives of oil producing nations on a regular basis as part of our ongoing dialogue with oil and gas producing countries. For example, I led a UK delegation to the International Energy Forum in Amsterdam, 22–24 May 2004, for informal discussions between producing and consuming nations on a wide range of energy issues.

At the recent IMF meeting we joined other countries in expressing our concern at the high level of the oil price as one of the risks to the world recovery. There are a number of factors underlying the current high price but we are urging oil producers to increase production to help reduce the price to a more sustainable level.

Productivity

Bob Spink: To ask the Secretary of State for Trade and Industry what her policy is for *(a)* increasing the productivity and *(b)* cutting the costs of (i) her Department and (ii) its agencies and non-departmental public bodies. [172189]

Ms Hewitt: I refer to the answer given by my hon. Friend the Financial Secretary to the Treasury on 10 May 2004, *Official Report*, columns 148–49W.

Remote Wind Generation

Miss McIntosh: To ask the Secretary of State for Trade and Industry how the Government's energy policy takes account of the cost estimated by Ofgem of reinforcing the transmission grid in order to cope with the scale of wind farm development envisaged. [174804]

Mr. Timms: The Government have already undertaken a significant amount of analysis both prior to and after the 2003 Energy White Paper on the costs associated with incorporating increasing amounts of renewable generation into the electricity network.

We believe the right framework is in place to deliver the reinforcement of the transmission grid needed to support the Government's energy policy objectives. The transmission operators are responding to the increased level of demand for connections to the system from renewable energy generators. The market is regulated by Ofgem to ensure that investment in new transmission

infrastructure is cost efficient and the consumer is protected from the consequences of unnecessary transmission expenditure. In addition, the industry is working to ensure that wind and other renewable generation connection to the system in future will have the characteristics necessary to maintain the integrity of the electricity networks.

Miss McIntosh: To ask the Secretary of State for Trade and Industry how the Government's energy policy for large-scale intermittent wind power generation addresses the diseconomy of part-time operation thereby forced upon the necessary conventional back-up; and how this deterrent to back-up generation will affect the risks to security and stability. [174807]

Mr. Timms: Although wind generation is undoubtedly less predictable and more intermittent than conventional generation, when aggregated nationally, the implications for the operation of the electricity system are significantly mitigated. Work by the National Grid Company indicates that it will be some years before the growth in wind generation has a noticeable impact on overall reserve plant requirements, although there will come a time when additional reserve will be required.

The impact of this in reduced overall efficiency of generation and associated increase in emissions will be negligible compared with the savings in emissions realised by the operation of the wind generation itself. Nevertheless, the Government in conjunction with the electricity industry, is exploring possible means of further mitigating the effects of intermittency and unpredictability.

Renewable Energy (Oldham, West and Royton)

Mr. Meacher: To ask the Secretary of State for Trade and Industry what assessment she has made of the effect of recent trends in investment in renewable energy on residents of Oldham West and Royton. [170879]

Mr. Timms: As I far as I am aware recent trends in investment have not led directly to new renewables capacity in Oldham West and Royton itself.

However, there are a number of proposals for developments in the surrounding area. United Utilities have already submitted a section 36 application for a 26 turbine development at Scout Moor, and an application for a two turbine development at Uglow Moor has also been submitted. There are also a number of solar PV developments (both constructed and under assessment) in nearby Rochdale and Bury.

Software Patents

Sue Doughty: To ask the Secretary of State for Trade and Industry when the Council of Ministers will next discuss the proposed European Directive on the patentability of computer-implemented inventions; and if she will oppose any proposals during the discussions for the extension of software patents. [174744]

Ms Hewitt *[holding answer 20 May 2004]*: The competitiveness council discussed the proposed Directive on the patentability of computer-implemented inventions at its meeting on 17 and 18 May 2004, which my right hon. Friend the Minister for Industry and the Regions attended for the UK. The position of the UK Government has always been to clarify the law on the patentability of computer-implemented inventions, not to change the extent of patentability. Political agreement was reached on a revised text. The UK supported the Directive in the Council and we would oppose any proposal for the extension of software patents.

Trade Shows

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what assessment she has made of the benefits provided by Government-selected sponsors to UK firms that receive grants to help co-ordinate trade shows abroad. [174706]

Mr. Mike O'Brien: Accredited Trade Organisations (formerly known as Sponsors) add value to Government grants by providing support services to exhibitors before, during and after the event. The performance of each ATO is assessed by customer satisfaction scores, compliance with the terms and conditions of the support scheme and contribution to UK Trade and Investment targets on developing new and new-to-market exporters. All ATOs must maintain a basic level of performance to remain accredited, and future budget allocations to ATOs are linked to performance.

Surveys carried out by the University of Reading estimate that 70 per cent. of companies receiving exhibition grants through ATOs register a sustainable improvement in their business performance.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how much money her Department has paid to small firms for help in co-ordinating trade fairs abroad in each of the last five years; and of that money, how much has then been paid to Government-selected sponsors. [174707]

Mr. Mike O'Brien: Figures for grants to small and medium sized enterprises are available only for 2003–04, when 81 per cent. of company grants were given to firms in that category. The following table extrapolates that percentage to cover earlier years, showing total company grants and (in brackets) grants to SMEs. We do not routinely collect information on the total amounts SMEs pay to Accredited Trade Organisations (formerly known as Sponsors) for the services they provide and this could only be established at disproportionate cost.

£ million

	Total company grants	*Grants to SMEs*
1999–2000	14.2	(11.5)
2000–01	16.8	(13.6)
2001–02	16.6	(13.4)
2002–03	18.2	(14.7)
2003–04	16	(14.6)

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry if she will make a statement on the

role of sponsors in helping UK firms co-ordinate trade shows abroad and their cost to *(a)* UK businesses and *(b)* UK public funds. [174858]

Mr. Mike O'Brien: Accredited Trade Organisations (formerly known as Sponsors) provide a range of services, including assessing companies' suitability for specific events, negotiating deals with exhibition organisers on stand space and construction, promoting the UK group at the event, troubleshooting on exhibitors' behalf and processing grant claims. On the costs of this to UK businesses I refer the hon. Member to the PQ No. 174707 answered today. In 2003–04 UK Trade & Investment gave grants totalling £2 million to Accredited Trade Organisations for organising UK groups at 438 exhibitions.

Wind Turbines

Bob Spink: To ask the Secretary of State for Trade and Industry how many wind turbines in Wales have *(a)* been erected and *(b)* not been erected despite being given planning permission. [169755]

Mr. Timms: As far as we are aware, the total number of wind turbines within Wales and with UK grid connection is 394, 30 of these are offshore at North Hoyle.

The total number of wind turbines to be erected for new projects within 2004, within Wales and with UK grid connection is 75.

We have no records of the number of "off-grid" turbines, nor of wind turbines granted permission but not built.

FOREIGN AND COMMONWEALTH AFFAIRS

Middle East

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the government of Israel over the effect of Israeli military action on *(a)* homes, *(b)* water supply systems and *(c)* other infrastructure funded by his Department in the territories governed by the Palestinian Authority. [175141]

Mr. Rammell: The Government are deeply concerned at recent Israeli demolition of Palestinian homes in Rafah. We recognise Israel's need to defend itself within international law, but these actions constituted a form of collective punishment and were contrary both to international law and to Israel's commitments under the Roadmap. The UK made representations to the Israeli Embassy and Prime Minister Sharon's office in Tel Aviv.

We have made clear our concerns to the Government of Israel about damage to water sources and the destruction of Palestinian agricultural land caused by Israeli actions. In April we made representations to the Israeli authorities about the destruction of a HMG funded latrine near Hebron. We will continue to do so when such incidents occur.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his counterpart in the US on Israeli actions in the Gaza Strip. [175040]

Mr. Rammell: My right hon. Friend the Foreign Secretary speaks to his US counterpart frequently on a wide range of issues, including the Middle East Peace Process. It is the longstanding practice of successive Governments not to make public the details of discussions with foreign Governments, under exemption 1 *(b)* of part 2 of the Code of Practice on Access to Government Information.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government concerning current activity in the Gaza Strip. [175042]

Mr. Rammell: Foreign and Commonwealth Office officials made representations to the Israeli Charge in London on 18 May and on 21 May and to the Israeli Prime Minister's Office in Tel Aviv on 18 May, about the impact of the Israel Defence Forces in operations in Rafah. In a press statement on 19 May, my right hon. Friend the Foreign Secretary expressed his profound concern about the deaths of Palestinian civilians demonstrating against house demolitions. Israel must act within international law and refrain from using excessive force and taking actions which amount to collective punishment.

Chad

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the Movement for Democracy and Justice in Chad's claim of having captured the Slafist Group for Preaching and Combat's second-in-command, Amari Saifi; and if he will make a statement. [175085]

Mr. Mullin: We are unable to confirm the capture of Amari Saifi.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* his counterpart in Chad, *(b)* other representatives of the Government of Chad and *(c)* United Kingdom representatives in Chad concerning the army mutiny of the night of 16th to 17th May; and if he will make a statement. [175110]

Mr. Mullin: The Government has had no discussions with the Government of Chad about the incidents in N'Djamena on 16, 17 and 18 May. The UK is not represented in Chad; it is covered as necessary by our High Commission in Yaounde, Cameroon.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* national and *(b)* regional security impact of the army mutiny which took place in Chad on the night of 16 to 17May; and if he will make a statement. [175111]

Mr. Mullin: The facts and causes of the incident in N'Djamena on 16, 17 and 18 May remain unclear, and any assessment of the national and regional security impact would be speculative.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment of the security impact of the army mutiny which took place in Chad on the night of 16 to 17 May he has received from the United Kingdom representatives in *(a)* Niger, *(b)* Nigeria, *(c)* Cameroon, *(d)* Central African Republic and *(e)* Sudan; and if he will make a statement. [175112]

Mr. Mullin: UK representatives in Cameroon, where the UK's Ambassador to Chad resides, are monitoring the situation. The reasons for the incident in N'Djamena on 16, 17 and 18 May remain unclear. We have had no information from UK representatives in Nigeria and Sudan. The UK is not represented in Niger or the Central African Republic.

Correspondence

Sir Michael Spicer: To ask the Secretary of State for Foreign and Commonwealth Affairs when the hon. Member for West Worcestershire will receive a response to his letter of 29 March, reference 175680/04. [174748]

Mr. Straw *[holding answer of 20 May 2004]:* I apologise to the hon. Member for the late reply to his letter. This was the result of an administrative error within the department. I will ensure he receives a reply without further delay.

Cuba

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the United Kingdom's *(a)* policy on and *(b)* relationship with Cuba. [175148]

Mr. Rammell: UK policy towards Cuba is one of constructive engagement and dialogue, as set out by the EU's Common Position on Cuba which was adopted in 1996. The Common Position states that, "The main objective of the European Union in its relations with Cuba is to encourage a process of peaceful transition to pluralistic democracy and respect for human rights and fundamental freedoms, as well as improvement in the living standards of the Cuban people." We do not favour isolating Cuba, and have consistently voted against the US Embargo at the United Nations General Assembly.

Following a crackdown on the peaceful opposition in March 2003, the EU—in line with the Common Position—condemned Cuba's actions and adopted a series of measures that reflected our human rights concerns. The Cuban response to these measures was to reject all EU development aid, and to "freeze" contact with EU Embassies in Havana. Nevertheless the UK continues to maintain close co-operation with Cuba in areas as diverse as child protection, migration and law enforcement, and encourages trade, tourism, education, sport, science and cultural links between the two countries. We remain committed to dialogue.

Darfur

Clare Short: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is in relation to the crisis in Darfur; and if he will make a statement. [175841]

Mr. Mullin: We are seriously concerned about the crisis in Darfur. The humanitarian needs are enormous, and civilian protection is a priority. The UN have reported disturbing patterns of massive human rights violations which may constitute war crimes and/or crimes against humanity. While the UN's report makes no conclusion as to ethnic cleansing, it does note that attacks by Government forces and Janjaweed militia appear to have been largely ethnically based. We, and our EU partners, have made clear that alleged abuses should be thoroughly investigated.

My right hon. Friends, the Foreign Secretary, the Secretary of State for International Development, and I registered strongly our concerns with the Sudanese Foreign Minister when he visited London on 11 May. We are calling on the Government of Sudan and the Darfur groups to implement fully the 8 April ceasefire agreement. In particular the Sudanese Government must act now to rein in the Janjaweed, and all parties should co-operate to enable quick deployment of the African Union-led ceasefire monitoring mission. We expect deployment of this mechanism to have a positive effect on civilian protection, and are currently considering a possible UK contribution to it. We hope that a fully-monitored ceasefire and improved humanitarian access will provide a conducive atmosphere for inclusive political talks on the future of Darfur to begin as soon as possible.

On 20 May the Sudanese Foreign Minister announced new measures governing the issue of visas and travel permits to humanitarian workers wishing to travel to Darfur. We hope that these measures will facilitate the delivery of humanitarian assistance to a population in great need. The Department for International Development have already committed over £16.5 million to UN agencies, the Red Cross and operational NGOs in response to the crisis, making the UK the second biggest bilateral donor in Darfur. We have also provided key personnel to support the UN co-ordination effort.

Eritrea

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Eritrean Government about the Christians imprisoned for their faith. [174553]

Mr. Mullin: I raised this issue with President Isaias on 15 January. Our Embassy in Asmara raises it regularly with the Eritrean Government, most recently on 18 May.

Hutu Militia

Mr. Dhanda: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Government of Rwanda in connection with the gangs of Hutu militia operating in the Congo. [174988]

Mr. Mullin: The presence of armed Rwandan Hutu groups in the Democratic Republic of Congo, dating back to the Rwandan genocide of 1994, is one of the key barriers to lasting peace in the Great Lakes region because of the threat they pose to Rwandan stability.

The UK has consistently pressed all parties in the region, including the Government of Rwanda, to co-operate on disarming these groups and resettling them back in Rwanda.

Iraq

Mr. Kilfoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs with which private security companies the UK has contracts for services in Iraq; how much was paid to each in the financial year to 31 March; and what services they provide. [175094]

Mr. Rammell: The Foreign and Commonwealth Office (FCO) employs private security companies to protect British civilian staff working at the British Office Baghdad or seconded to the FCO to work for the Coalition Provisional Authority. ArmorGroup Services Ltd. provide static guards at an approxmate cost of £1.1 million to 31 March 2004. Control Risks Group provide armed protection teams for mobile security at an approximate cost of £13.1 million to 31 March 2004.

Hugh Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the financial extent of the alleged corruption in the UN oil-for-food programme in Iraq. [175593]

Mr. Rammell: It is not possible to assess the financial extent of the alleged corruption in the UN oil-for-food programme in Iraq, pending completion of the independent UN and Iraqi investigations.

Hugh Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what fee income was earned by the UN Security Council for administering the UN Oil for Food programme in Iraq. [175594]

Mr. Rammell: The United Nations Security Council earned no fee income from the Oil for Food programme (OFF). Administration of the OFF programme was undertaken by the UN Secretariat's Office of the Iraq Programme. UN administrative and operational charges amounted to 2.2 per cent. of the programme's costs.

Hugh Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the amount of money made by Saddam Hussein's regime as a result of the alleged corruption in the UN Oil for Food programme. [175595]

Mr. Rammell: It is not possible to assess the financial extent of the alleged corruption in the UN Oil for Food programme in Iraq, pending completion of the independent UN and Iraqi investigations.

Hugh Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs which banks were used to administer the UN Oil for Food programme in Iraq. [175596]

Mr. Rammell: The UN Treasury administered the banking arrangements of the Oil for Food programme. BNP Paribas was the only bank to issue letters of credit under the programme, and collateral to back those letters of credit was held by BNP Paribas. Funds that were not required to be used as collateral for letters of credit were invested with multiple banks based on competitive bidding.

Hugh Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the Coalition Provisional Authority's response to the Iraqi Governing Council's request for an independent investigation into the UN Oil for Food programme in Iraq. [175597]

Mr. Rammell: The Coalition Provisional Authority (CPA) has authorised the Iraqi Board of Supreme Audit (BSA) to pursue an independent investigation of the Oil for Food programme in Iraq. We welcome this investigation. Following an open tender process, Ernst & Young has won the contract to carry out the investigation on behalf of the BSA. We understand that the CPA will also co-operate fully with the UN's independent inquiry to ensure that investigators have access to the relevant information in Iraq.

Kenya

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs which Ministers of the present government have visited Kenya in an official capacity. [175163]

Mr. Mullin: Since the election of President Mwai Kibaki and the National Rainbow Coalition party in December 2002, the following Ministers have made official visits to Kenya:

Right hon. Clare Short, then Secretary of State for International Development, January 2003:

Right. hon. Baroness Amos, then FCO Minister of State, January 2003

Right. hon. Baroness Amos, then Secretary of State for International Development, July 2003

Hon. Elliott Morley, Minister of State for the Environment and Agri-Environment, September 2003.

I made a four day-long visit to Kenya at the end of October 2003.

Kosovo

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what travel advice his Department is issuing to NGOs and humanitarian organisations about the safety of travel to *(a)* Gmice and *(b)* elsewhere in the region of Kamenia in Kosovo. [175842]

Mr. MacShane: The Foreign and Commonwealth Office travel advice for Kosovo, which applies to the entire province and is targeted at all British citizens, reads as follows:

"Because of continuing tensions, you should avoid non-essential (including holiday) travel to Kosovo and travel within the Presevo and Bujanovac districts of Southern Serbia."

Full travel advice can be found at www.fco.gov.uk and is updated regularly.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the current security situation *(a)* in Gmice and *(b)* elsewhere in the region of Kamenia in Kosovo; which cultural or ethnic group dominates the area; and if he will make a statement. [175843]

Mr. MacShane: According to the information we have received the overall security situation in Gmice and the municipality of Kamenica is currently stable.

The municipality of Kamencia is predominantly Albanian with several Serb villages.

Liberia

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* effectiveness and *(b)* efficiency of the UN disarmament programme in Liberia; and if he will make a statement. [175185]

Mr. Mullin: We welcome the steps taken by the United Nations Mission in Liberia to restart the Disarmament, Demobilisation. Rehabilitation and Reintegration (DDRR) programme in April, and the improved arrangements put in place following the problems that arose in December. 16,981 ex-combatants have been disarmed since the restart of the programme.

It was agreed, at the International Contact Group on Liberia meeting in London on 11 May, that there needed to be increased focus on the Rehabilitation and Reintegration aspects of DDRR and that there should be continuity in the process. We are concerned at the disturbances of 17 May. It is the responsibility of the factions represented in the National Transitional Government of Liberia to ensure there is full co-operation with the DDRR process.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what contributions the UK Government has *(a)* pledged and *(b)* delivered to the UN disarmament programme in Liberia; and if he will make a statement. [175186]

Mr. Mullin: The UK has pledged a total of £6 million to the Disarmament, Demobilisation, Rehabilitation and Reintegration (DDRR) process, £4 million in 2004–05 and £2 million in 2005–06. So far £1 million has been transferred to the UN DDRR fund. We plan soon to decide how we commit the balance of funds for this financial year.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs when *(a)* he and *(b)* members of his Department last met the UN Secretary-General's special representative for Liberia to discuss (i) the UN disarmament programme in Liberia and (ii) the security situation in Liberia; and if he will make a statement. [175187]

Mr. Mullin: I attended the International Contact Group on Liberia meeting in London on 11 May, which was also attended by the Special Representative of the Secretary-General (SRSG), Jaques Klein. SRSG Klein and I discussed a range of issues including the security situation and the disarmament programme.

Nigeria

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Nigerian Government to curb the sectarian violence in *(a)* the city of Kano, *(b)* the town of Yelwa and *(c)* the state of Taraba; and if he will make a statement. [174557]

Mr. Mullin: The British High Commission, together with the EU, has urged all parties to the disputes to exercise restraint, and has urged the Nigerian Government to exercise full respect for human rights and the rule of law in restoring order. The British High Commissioner travelled to Kano and his staff went to Plateau State to see the situation at first hand to make these points. We have offered humanitarian support to the relevant authorities.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate his Department has made of the numbers of people killed in Nigeria as a result of *(a)* political, *(b)* religious and *(c)* ethnic violence in each year since 1999; and if he will make a statement. [175194]

Mr. Mullin: The Nigerian Institute for Peace and Conflict Resolution estimates that the total number of deaths from political, ethnic and religious violence between 1999–2003 is not less than 10,000.

We have expressed concern at the recent conflict in Plateau State in our public statement of 7 May, a copy of which together with the EU's statement on violence in Kano of 13 May, has been placed in the Library of the House. The British High Commission in Nigeria is in close touch with Federal and State authorities to press for a peaceful resolution to existing conflicts and longer-term reconciliation.

Organisation of American States

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the *(a)* environmental and *(b)* economic impact of the proposed free trade pact between the United States of America and Nicaragua, Costa Rica, Guatemala, Honduras and El Salvador, to be signed at the Organisation of American States in Washington DC on 28 May; and if he will make a statement. [175113]

Mr. Rammell: No assessment has been made of the impact of this third-party agreement.

Sri Lanka

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs which areas of Sri Lanka *(a)* the British High Commissioner and *(b)* a member of his staff has visited during the last 12 months; and what action has been taken by his Department following receipt of the reports made by him or his staff. [175165]

Mr. Mike O'Brien: The British High Commissioner has visited the districts of Kilinochchi, Kandy and the Vanni during the past 12 months. Members of the British High Commission have visited the districts of Nuwara Eliya, Badulla, Kegalle, Moneragala, Kandy, Trincomalee, Batticoloa, Ampara, Ratnapura, Kilinochchi, Anuradhapura, Vavuniya, Polonnaruwa. Jaffna. Sigiriya, Puttalam, Dambulla, Moratuwa, Hambantota, Galle, Matara and Diyatalawa. Their reports have been used to inform policy.

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last discussed with the Government of Sri Lanka human rights issues within that country; and if he will make a statement. [175166]

Mr. Mike O'Brien: I have not yet had the opportunity to discuss human rights issues with the new Sri Lankan Government. However I discussed the peace process, including the need to strengthen it with a credible and effective human rights enforcement machinery, last September with GL Peiris, then Minister for Constitutional Affairs, and government spokesman on the peace process. Officials at our High Commission in Colombo, including the High Commissioner, raise this issue with the Sri Lankan authorities on a regular basis.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what role Libya has played in the situation in Darfur, Sudan; and if he will make a statement. [174837]

Mr. Mullin: We have no evidence of Libyan involvement in the situation in Darfur.

Tibet

Peter Bottomley: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Government's policy on *(a)* Tibetan autonomy, *(b)* the level of recognition of Chinese suzerainty over Tibet and *(c)* the Tibetan people's right to independence. [175498]

Mr. Rammell: Successive British Governments have regarded Tibet as autonomous while recognising the special position of the Chinese authorities there. This remains our position.

Turkey (EU Accession)

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the requirements placed upon Turkey for accession to the EU; and if he will make a statement on progress being made by Turkey in that regard. [175153]

Mr. MacShane: The requirements for Turkey's accession to the EU are set out in the Copenhagen criteria of 1993, and are the same as apply to all EU Candidates. To this end, the European Council decided in December 2002 that: "If the European Council in December 2004, on the basis of a report and a recommendation from the Commission, decides that Turkey fulfils the Copenhagen political criteria, the European Union will open accession negotiations with Turkey without delay."

We welcome the adoption by Turkey of wide-ranging constitutional and legislative reforms to meet the Copenhagen political criteria. Seven Packages of Legislative Reform have been passed since 2002, overhauling Turkey's government, penal and legal system, and—in an iterative process with the EU (most recently at the 18 May Association Council)—ensuring that Turkey's domestic reforms converge with EU norms. Eleven constitutional amendments are currently being finalised. These include abolition of the death penalty in all situations, abolition of State Security Courts, and establishment of supremacy of international law over domestic law.

My right hon. Friend the Prime Minister stressed the importance of effective implementation of reforms at the first UK/Turkey Summit on 17 May in Ankara, underlining the UK's strong support for Turkey's EU candidature and our determination to help Turkey comply with the Copenhagen political criteria in advance of December's European Council decision.

Visas

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs how many applications for visas have been refused at British High Commission offices in *(a)* Pakistan, *(b)* Sri Lanka and *(c)* India during the last 12 months. [175159]

Mr. Mullin: The UK visas Central Reference System reports the following statistics for visa applications between 1 May 2003 and 30 April 2004.

	Received	*Issued*	*Refused*	*Other*[1]	*Refused (percentage)*
Pakistan	131,987	97,132	25,725	9,130	19.5
Sri Lanka	30,453	21,032	8,518	903	28.0
India	315,439	246,713	58,479	10,247	18.5

[1] Other includes withdrawn, lapsed and pending applications

HOUSE OF COMMONS COMMISSION

Parliamentary Answers (Envelopes)

Norman Baker: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission if he will make it his policy to stop the practice of despatching one page parliamentary answers to hon. Members in large heavy-duty envelopes. [174767]

Sir Archy Kirkwood: During the present Parliament I have answered 244 parliamentary questions, 24 of which were tabled by my hon. Friend. A copy of each answer is sent to the Member who tabled the question in an A4 brown manila envelope (Banner product 901–5043). This envelope is 100 per cent. recyclable paper and is made from 80–100 per cent. recycled stock, with at least 60–85 per cent. being post-consumer waste. On one occasion, due to a lack of stock, a different A4 manila envelope (Banner product 901–5033), which is made to the same standards, was used to circulate an answer.

I have given instructions that answers should in future be sent in white "wallet" envelopes (Banner product 900–0015), which are 100 per cent. recycled.

WORK AND PENSIONS

Age-Related Payments Bill

Colin Burgon: To ask the Secretary of State for Work and Pensions how many pensioners in the Elmet constituency receive £100 help towards the payment of council tax. [174875]

Malcolm Wicks: The information requested is not available. The latest available data shows 8,270 households in the parliamentary constituency of Elmet with at least one resident aged 70 or over. We therefore expect a similar number to benefit from the one-off 70 plus payment announced by the Chancellor in his recent Budget.

The intention is for the payments to be made automatically with the 2004–05 Winter Fuel Payment, to those who are eligible and who do not need to claim it, before the end of the year. People who do not get a Winter Fuel Payment will need to claim the one-off payment from the Department for Work and Pensions before 31 March 2005.

Notes:

1. Numbers are rounded to the nearest five.

2. Any residence found to have four or more occupants is not included in these figures as it is assumed to be a Residential Care Nursing Home.

Source:

IAD Information Centre, 100 per cent. sample of Winter Fuel Payments data for Winter 2003–04.

Lady Hermon: To ask the Secretary of State for Work and Pensions what discussions he has had with his colleagues in the Northern Ireland Office in relation to the extension of the Age-Related Payments Bill to Northern Ireland. [175144]

Malcolm Wicks: Officials in the Department for Work and Pensions are working closely with officials in the Department for Social Development. The intention is to provide for age-related payments in Northern Ireland by Order in Council.

Pension Credit

Colin Burgon: To ask the Secretary of State for Work and Pensions how many pensioners in the Elmet constituency *(a)* have claimed the minimum income guarantee and *(b)* are claiming pension credit. [174873]

Malcolm Wicks: The information available is given in the following table. The Minimum Income Guarantee (MIG) was replaced by Pension Credit on 6 October 2003. Those who were receiving MIG immediately prior to that date were transferred automatically to Pension Credit.

Minimum Income Guarantee and Pension Credit recipients, Elmet, October 2003 and April 2004

	Number
Minimum Income Guarantee (3 October 2003)	
Households	2,330
Individuals	2,645
Pension Credit (30 April 2004)	
Households	3,255
Individuals	3,865

Notes:

1. Figures are rounded to the nearest five.

2. Figures for individuals include a small number of partners under age 60

Sarah Teather: To ask the Secretary of State for Work and Pensions how many people in *(a)* London and *(b)* Brent have claimed pension credit since it was introduced; and how many people in (i) London and (ii) Brent are entitled to claim pension credit. [172815]

Malcolm Wicks: At 30 April 2004 there were *(a)* 260,510 households (309,275 individuals) in London and *(b)* 10,565 households (12,775 individuals) in Brent receiving Pension Credit. Information on the number of people who are eligible for Pension Credit is not available in respect of individual local authority areas. However, we estimate that approximately 450,000 pensioner households in the London region are eligible for Pension Credit. This estimate is based on data from the Family Resources Survey for 2001–02. A revised estimate, based on data from the Family Resources Survey for 2002–03, will be available later this month.

Notes:

1. Figures are rounded to the nearest five.

2. Individual recipients include a small number of partners under age 60.

Simon Hughes: To ask the Secretary of State for Work and Pensions how many recipients of pension credit are receiving *(a)* less than 10p per week, *(b)* 10p to 19p per week, *(c)* 20p to 29p per week, *(d)* 30p to 39p per week, *(e)* 40p to 49p per week, *(f)* 50p to 59p per week, *(g)* 60p to 69p per week, *(h)* 70p to 79p per week, *(i)* 80p to 89p per week and *(j)* 90p to 99p per week in each Greater London borough. [173334]

Malcolm Wicks: The figures in question for individual London boroughs are too small to be reliable. The information for inner and outer London areas is in the table. An award of pension credit of less than 10p per week is not payable unless the person is receiving another benefit payable with pension credit.

Pension credit awards of less than £1, London Government Office Region (GOR), 30 April 2004

	Less than 10p	10p to 19p	20p to 29p	30p to 39p	40p to 49p	50p to 59p	60p to 69p	70p to 79p	80p to 89p	90p to 99p	Total
London GOR	60	85	85	75	100	115	90	105	120	125	960
Inner London-West	5	15	5	5	15	15	10	10	10	15	105
Inner London-East	10	15	20	15	30	30	25	30	25	30	230
Outer London-East and North East	15	20	35	25	30	20	20	25	40	30	260
Outer London-South	15	20	15	15	10	25	20	20	25	25	190
Outer London-West and North West	15	15	15	15	20	25	20	25	20	25	195

Notes:

1. Figures are rounded to the nearest five.

2. Columns might not sum correctly due to rounding.

Enhanced New Deal

Paul Holmes: To ask the Secretary of State for Work and Pensions how many people have entered the Enhanced New Deal 25 plus *(a)* once, *(b)* twice, *(c)* three times and *(d)* four or more times; and if he will make a statement. [175064]

Jane Kennedy *[holding answer 21 May 2004]:* The information requested is in the table:

People Entering Enhanced New Deal 25 plus[1]

Number of starts on the programme	*Number of people*
1	157,110
2	35,150
3	18,170
4[1] Or more	7,820

[1] Or more

Source:
New Deal Evaluation Database

Through a combination of economic stability and radical labour market reforms, more than 1.9 million more people are in work now than in 1997 and unemployment at its lowest level for nearly 30 years.

Active labour market policies ensure people can take advantage of the many job opportunities coming up all the time. With UK unemployment the lowest for a generation, partly due to programmes like New Deal, the Government is extending help and support to other jobless people, especially lone parents and those with disabilities.

Claimant long term (one year plus) unemployment has been virtually eradicated for young people and has fallen by three-quarters for all adults since 1997. New Deal 25 plus has played an important role in this success, so far helping more than 173,000 people into work.

Notes:

1: Data relates to start of ND25 plus Enhanced Programme in April 2001 to December 2003

Incapacity Benefit

Chris Ruane: To ask the Secretary of State for Work and Pensions how many people were receiving incapacity benefit in each of the last 25 years, broken down by constituency within each region. [175124]

Maria Eagle: The available information has been placed in the Library.

Income Statistics

Mr. Dismore: To ask the Secretary of State for Work and Pensions if he will make a statement on the trend in *(a)* average and *(b)* pensioner incomes as compared with (i) average and (ii) medium earnings, over the last 10 years. [173933]

Malcolm Wicks: Such information as is available is in the following table.

Percentage growth in net equivalised income, both before housing costs have been taken into account (BHC) and after housing costs have been taken into account (AHC):

Change between 1994–1995 and 2002–2003	*Percentage*
Whole population income BHC	24
Whole population income AHC	31
Pensioner income BHC	22
Pensioner income AHC	30

Pensioners' average income has increased at a rate similar to that of the population as a whole since 1994–95.

The figures in the table allow a valid comparison between pensioners and the population as a whole. They relate to household disposable income and cannot be compared directly with average earnings. A closer comparison is given by the mean net Before Housing Costs income received by pensioner units in their own right, which increased by 25 per cent. between 1994–95 and 2002–03. Over the same period, average earnings have seen a growth of 13 per cent.

Notes:

(a) The income growth figures in the table are estimates taken from the Households Below Average Income (HBAI) series. Data is derived from the Family Resources Survey. The latest date for which data is available is 2002–03. The earliest date for which data is available from the Family Resources Survey is 1994–95. For this reason, it has only been possible to present nine years' worth of data.

(b) The income measure used is mean weekly net (disposable) equivalised household income, consistent with HBAI conventions: income is adjusted to reflect the composition of the household, and is net of income tax, National Insurance contributions and Council Tax. Figures are quoted on both a Before Housing Costs and After Housing Costs basis, in line with HBAI conventions.

(c) Income figures in the table show growth in real terms, deflating by the Retail Prices Index all items excluding Council tax. The earnings figure shows growth in real terms, deflating by the Retail Prices Index all items (RPI) series.

(d) The source for earnings values is the Average Earnings Index, which is based on information obtained from the Office for National Statistics' Monthly Wages and Salary Survey. Average earnings are obtained by dividing the total amount paid by the total number of employees paid, including those employees on strike and temporarily absent. This information is then weighted and formed into an index.

(e) Part (ii) of the question has been interpreted as asking for median earnings, which is a figure that is not available from the Average Earnings Index.

(f) Both the Family Resources Survey and the Average Earnings Index cover Great Britain.

Job Seekers

Mr. Dismore: To ask the Secretary of State for Work and Pensions whether clients using Jobseeker Direct services when seeking job-broking advice and assistance by telephone will have access to Language Line if they do not speak English well; and if he will make a statement. [175034]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Andrew Dismore dated 25 May 2004:

The Secretary of State has asked me to reply to your question, concerning clients of Jobseeker Direct having access to the telephone interpreter services provided by Language Line. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

All customers who call Jobseeker Direct or any of our contact centres, and do not speak English, have unrestricted access to the telephone interpreter services provided by Language Line. In addition, Welsh language callers have a specific number to dial and they currently receive a full Welsh language Jobseeker Direct service.

I hope this reply to your question is helpful.

Lung Diseases

Mr. Clapham: To ask the Secretary of State for Work and Pensions how many people were diagnosed to be suffering from *(a)* asbestosis and *(b)* mesothelioma in the last year for which figures are available, broken down by (i) sex and (ii) age. [174796]

Jane Kennedy: Cases of asbestosis identified through the Department for Work and Pensions Industrial Injuries and Disablement Benefit Scheme provide the best indication of the number of asbestosis diagnoses. Provisional figures for Great Britain in 2003 are shown by sex and age group in Table 1.

Table 1: Cases of asbestosis identified thought the industrial Injuries and disablement benefit scheme in Great Britain in 2003 by sex and age group[1]

	Age group					
Sex	*0–44*	*45–54*	*55–64*	*65–74*	*75+*	*Total*
Males	—	20	150	260	210	635
Females	—	—	5	5	5	15
Total	—	20	155	265	215	650

[1] Provisional figures.

Reliable figures for the number of diagnoses of mesothelioma are not available. The disease is rapidly fatal in nearly all cases, and a good indication of the number of diagnoses is given by the annual number of deaths. Numbers of deaths in Great Britain in 2001 (the latest year for which figures are available) are given in table 2.

Table 2: Mesothelioma deaths in Great Britain in 2001 by sex and age group

	Age group					
Sex	*0–44*	*45–54*	*55–64*	*65–74*	*75+*	*Total*
Males	9	100	365	535	570	1,579
Females	5	20	54	70	120	269
Total	14	120	419	605	690	1,848

Mr. Clapham: To ask the Secretary of State for Work and Pensions how many *(a)* teachers and *(b)* office workers were diagnosed to be suffering from *(a)* asbestosis and *(b)* mesothelioma in the last year for which figures are available. [174797]

Jane Kennedy: Substantial exposures to asbestos are required in order for asbestosis to be clinically manifested within the lifetime of an individual. Teachers and office workers are very unlikely to have had such exposures during the course of their work. In 2003, 10 cases of asbestosis were identified by the Department for Work and Pensions Industrial Injuries and Disablement Benefit Scheme among occupational groups most likely to be predominantly office based. The coding of occupations is not of sufficient detail to specifically identify teachers from this data source.

Reliable figures for the number of diagnoses of mesothelioma are not available. The disease is rapidly fatal in nearly all cases, and a good indication of the number of diagnoses is given by the annual number of deaths. In 2001 (the latest year for which figures are available) there were 14 mesothelioma deaths among teachers and 24 among office workers. However, death certificates record only the last occupation of the deceased. The typically long time between asbestos exposure and the onset of mesothelioma means that the occupation recorded may not be the one in which exposure took place.

Mr. Clapham: To ask the Secretary of State for Work and Pensions what forecast his Department has made for the diagnosis of cases of *(a)* asbestosis and *(b)* mesothelioma cases in (i) 2010 and (ii) 2015; and when they are expected to peak. [174798]

Jane Kennedy: Cases of asbestosis identified through the Department for Work and Pensions Industrial Injuries and Disablement Benefit Scheme provide the best indication of the number of asbestosis diagnoses. The number of cases in the year 2010 and 2015 is projected to be less than 1,000 in each year. No estimate of the peak number of cases is available.

Reliable figures for the number of diagnoses of mesothelioma are not available. The disease is rapidly fatal in nearly all cases, and a good indication of the number of diagnoses is given by the annual number of deaths. The number of mesothelioma deaths in Great Britain is forecast to be between 1,950 and 2,025 in the year 2010 and to be between 1,900 and 2,450 in the year 2015. The annual total number of mesothelioma deaths is expected to peak at around 1,950 to 2,450 deaths some time between the years 2011 and 2015.

New Deal

Paul Holmes: To ask the Secretary of State for Work and Pensions what the cost is of each stage of *(a)* the New Deal for Young People and *(b)* the New Deal 25 plus using the unit cost model operational from April; and if he will make a statement. [175190]

Jane Kennedy *[holding answer 21 May 2004]:* The information requested is not available.

A unit cost system has been in place from April 2004. This records information on staffing costs across a broad range of activities, including New Deal administrative costs at a summary level. However, this system does not capture the information requested.

A more sophisticated model will be developed as part of the Department's Resource Management System. The Resource Management System project is currently moving into the design and development stage and will be looking at addressing this requirement.

Online Pension Forecasts

Steve Webb: To ask the Secretary of State for Work and Pensions when he expects the online national insurance retirement pension forecast to be available. [173242]

Malcolm Wicks: It is intended to make the service available in a controlled go-live environment, following six months of intensive testing, in the fourth calendar quarter of 2004, initially to DWP staff. This will allow DWP to study the impact of the registration and enrolment function of the Government Gateway, which is a pre-requisite of using the service. Previous e-services have made this requirement optional. Access to citizens will be made available one month later incorporating the lessons learned.

The service will be called the State Pension Forecast e-Service and will be primarily accessed via the Pensions Service Web site, but will have links from all DWP websites and the Government Gateway site.

Pension Centre Offices

Mr. Pike: To ask the Secretary of State for Work and Pensions what proposals he has for the future of pension centre offices; and if he will make a statement. [174042]

Paul Holmes: To ask the Secretary of State for Work and Pensions if he will make a statement about the future of Burnley Pension Centre. [174159]

Malcolm Wicks *[holding answers 18 May 2004 and 20 May 2004]:* The Pension Service structure, including pension centres, is being reviewed as part of a programme of efficiency measures. The next stage of planning is currently being developed and more information will be available within one month.

The programme will allow us to complete the task we set out to achieve when we introduced The Pension Service and to meet the DWP budget challenge. It also supports our commitment to meeting targets and continuing to introduce new and better ways of working, supported by improved technology and smarter processes.

This will enable us to deliver some very real improvements in our service to customers and in job satisfaction for our people.

Pension Income (Over-50s)

Paul Holmes: To ask the Secretary of State for Work and Pensions how many and what proportion of people between the age of 50 and state pension age live in households without an occupational pension income; what proportion of these are in each decile of overall income distribution; and if he will make a statement. [172538]

Malcolm Wicks: There were 6.8 million people between the age of 50 and state pension age who lived in households without an occupational pension income in the financial year 2002–03. This equated to 73 per cent. of all individuals in this age group.

The proportion of this group located in each decile of the equivalised income distribution, both before and after housing costs have been taken into account, is presented in the table.

	Income before housing costs	*Income after housing costs*
Decile 1	11	11
Decile 2	7	8
Decile 3	8	7
Decile 4	8	9
Decile 5	9	8
Decile 6	10	10
Decile 7	11	10
Decile 8	11	12
Decile 9	12	12
Decile 10	13	14

Notes:

1. Figures are for the financial year 2002–03, the latest date for which data are available.
2. Estimates are for Great Britain.
3. Estimates relate to the status of individuals at the time they were interviewed for the FRS.
4. The estimates are based on sample counts, which have been adjusted for non-response using multipurpose grossing factors that control for tenure, council tax band and a number of other variables. Estimates are subject to sampling error, and to remaining variability in non-response which is not corrected by the grossing regime.
5. The income measure used is weekly net (disposable) equivalised household income (that is to say income that is adjusted to reflect the composition of the household).
6. The Households Below Average Income series presents analysis of income of two bases: Before Housing Costs (BHC) and After Housing Costs (AHC). This is principally to take into account variations in housing costs that themselves do not correspond to comparable variations in the quality of housing.
7. Occupational incomes include income from the following: pension from a previous employer, widow's employee pension and trade union or friendly society pension.

Source:

Family Resources Survey (FRS).

Pensioner Benefits

Mr. Jenkins: To ask the Secretary of State for Work and Pensions what the estimated total income for pensioners from *(a)* benefits and *(b)* private sources is since 1992; and what this figure is as a percentage. [172494]

Mr. Willetts: To ask the Secretary of State for Work and Pensions what his latest estimate is of the proportion of pensioners' income coming from *(a)* state and *(b)* private sources. [175069]

Malcolm Wicks: There is no single data source which covers pensioners' benefit and private incomes between 1992 and the present. The information provided is based on Family Expenditure Survey data between 1992 and 1996–97 and Family Resources Survey data between 1994–95 and 2002–03. Direct comparisons between information from the two surveys should not be made.

The table shows the average weekly income for pensioner units (pensioner couples and single pensioners) in 2002–03 prices and rounded to the

nearest pound. Private sources of income include private pension income, investments, earnings and other types of income.

Both benefit income and private income have increased significantly between 1996–97 and 2002–03, with gross income rising by 20 per cent. in real terms.

	Gross income	Benefit income		Private income	
		£ per week	Percentage of total	£ per week	Percentage of total
Family Expenditure Survey data					
1992	213	107	50	106	50
1993	212	113	53	99	47
1994–95	226	118	52	109	48
1995–96	232	117	51	115	49
1996–97	230	122	53	108	47
Family Resources Survey data					
1994–95	220	117	53	103	47
1995–96	216	118	55	98	45
1996–97	230	121	53	108	47
1997–98	234	123	52	111	48
1998–99	243	124	51	118	49
1999–2000	252	130	52	121	48
2000–01	265	133	50	132	50
2001–02	273	138	51	133	49
2002–03	277	142	51	134	48

Notes:
1. Private and benefit income may not sum to total gross income due to rounding, and because free TV licences for over 75s are included in total income but not in either benefit or private income.
2. Percentages are calculated from unrounded cash figures.
3. Analysis consistent with Pensioners' Incomes 2002–03.
4. Family Expenditure Survey Figures are for the UK, Family Resources Survey Figures are for Great Britain.

Pensioner Income

Mr. Edward Davey: To ask the Secretary of State for Work and Pensions what the average pensioner income was for the financial years *(a)* 2002–03 and *(b)* 2003–04. [172882]

Malcolm Wicks: Information on pensioners' incomes is available from the Family Resources Survey for 2002–3. Figures for 2003–4 are not yet available.

Information on mean and median net income before housing costs for pensioner couples and single pensioners is in the table.

	Mean net income	Median net income
Pensioner couples	327	262
Single pensioners	177	153

Source:
Pensioners' Incomes 2002–3

Notes:
1. Figures are for Great Britain
2. Figures are weekly income in 2002–3 prices
3. Net income is net of income tax and National Insurance Contributions and, local taxes.

Post Office Cards

Norman Lamb: To ask the Secretary of State for Work and Pensions why post office cards have been issued which are then replaced by new cards with identification strips; and how much it is estimated to have cost to issue the first set of cards. [175505]

Mr. Timms *[holding answer 24 May 2004]*: The operation of the Post Office card account is a commercial and operational matter for Post Office Ltd and I have asked the Chief Executive to reply direct to the hon. Member.

Project Funding

Mr. Colman: To ask the Secretary of State for Work and Pensions (1) how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which his Department is responsible have been launched in each region in each of the last 10 years; [160951]

(2) how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which his Department is responsible in each of the last 10 years, broken down by region. [160952]

Maria Eagle: The Department and its predecessor organisations, the former Department of Social Security and the Employment Service, launched no solely state-financed capital investment projects in the period 1993 to 2003.

The Department and its predecessors initiated a very large number of projects between 1993 and 2003. In the main these were funded from running costs but many also have an element of capital spending. Available information on private sector capital investment in public-private partnership (PPP) and private finance initiative (PFI) projects launched during the period is in the tables. Information on the Department's capital spend by project is not held centrally and could be obtained only at disproportionate cost. All DWP PPP and PFI projects are national projects so regional information is not available.

Project title	Year launched	Total Capital Value (£ million)	Capital Spend 1998–99 (£ million)	Capital Spend 1999–2000 (£ million)	Capital Spend 2000–01 (£ million)	Capital Spend 2001–02 (£ million)	Capital Spend 2002–03 (£ million)	Capital Spend 2003–40 (£ million)

Under a 20 yr contract, Land Securities Trillium now provides DWP with fully serviced office accommodation
PRIME EXPANSION	2003	25	22	20		
EDS/IT Partnership Agreement	1998	n/a	n/a	n/a	Operational-Period of contract 1 August 1998 to 31 July 2008	Provision of IT and telephony services to the Employment Service
HR Partnership	1999	n/a	—	—	Operational- Contract commenced 1 April 1999. Due to terminate on 31 March 2005	Integrated Employment Service payroll and Human Resources service awarded to Rebus HR Services and Norwich Systems Accounting
Child Support Reforms	2000	n/a	n/a	n/a	Operational- Contract ends 2010	Awarded under the DSS ACCORD framework for IS and IT services
Strategic Outsourcing	2000	n/a	n/a	n/a	Operational-Period of contract 1 September 2000 to 31 August 2010	ITSA Outsourcing. Awarded under the DSS ACCORD framework for IS and IT services
Network and Office Services	2000	n/a	n/a	n/a	Operational-Period of contract 1 June 2001 to 31 May 2006	Networks and Office Services Project (WAN). Awarded under the DSS ACCORD framework for IS and IT services
New Tax Credits	2002	n/a	n/a	n/a	June 2002 to August2010	DWP NTC project awarded to Affinity (EDS)
Pensions Forecasting System	2002	0	0	0	June 2002 to December 2006	DWP PFS awarded to Affinity (EDS)
Advanced Telephony	2003	3.4	3.5	3.5	March 2003 to March 2008	DWP Advanced Telephony Business Allocation (ATBA) with BT, signed 31 March 2003 to provide 5-year PFI route for Contact Centre Telephony. This is part on and part off balance sheet.

n/a = indicates that a year on year breakdown of expenditure is not available.

Notes:

1. In addition to the above projects there are 3 PPPs, with Affinity (EDS), Arcway (BT) and Working Links, which are strategic partnerships and as such have not in themselves involved capital investment. Any such investment is covered by the specific PFI deals set out above.
2. The PRIME capital spend by year figures do not total the total capital value of the project because the table does not cover the full 20 year period of the contract.

State Pension

Mr. Webb: To ask the Secretary of State for Work and Pensions when he expects to have prepared estimates for the number of people contracted out of second tier state pension provision in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04. [173241]

Malcolm Wicks: We hope to publish estimates of the number of people contracted out of the State Second Pension in the 2001–02 and 2002–03 tax years by the end of 2004. Estimates of the number of people contracted out in the 2003–04 tax year are expected to be published at the end of 2005.

State Pension Statements

Mr. Willetts: To ask the Secretary of State for Work and Pensions if he will list each item of information which may be contained in a state pension statement. [170099]

Malcolm Wicks: State pension forecasts may contain the total weekly state pension earned to date and forecasted to state pension age based on today's rates. The total figure has a breakdown of the basic state pension, including the number of qualifying years, the percentage and amount of basic state pension.

Where appropriate, the total figure will provide a breakdown of any additional state pension due, less any contracted-out deduction.

The forecast may also show:

the date of birth used to calculate the forecast;

current employment status advised by the customer;

the customer's national insurance contribution status;

whether the customer is paying into another pension scheme.

Where appropriate, the forecast will also provide the following:

the number of years for which Home Responsibility Protection has been awarded;

the date of divorce or widowhood.

Where a former or late spouse's national insurance contribution has been used in the forecast calculation, the letter sent with the forecast explains the conditions attached.

Additionally, where appropriate, the customer is advised of deficiencies in their national insurance contributions in the preceding six years and how payments of these may increase their state pension entitlement.

Winter Fuel Payments

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his answer to the hon. Member for North Wiltshire of 30 April 2004, *Official Report*, columns 1370–71W, on winter fuel payments disallowed because of late application, if he will update the table to include late claim disallowances made in respect of winter 2003–04. [172961]

Malcolm Wicks: The figures for previous years given in the table have not changed. So far for this winter 2003–04 we have received 646 claims for a Winter Fuel Payment after the deadline for claiming of 30th March 2004.

Simon Hughes: To ask the Secretary of State for Work and Pensions how many claims for winter fuel payments were disallowed because of late application in *(a)* 2001–02 and *(b)* 2002–03 in each Greater London borough. [173335]

Malcolm Wicks: The information requested is not available as figures are not kept for individual constituencies or boroughs. Overall figures of late claim disallowances for Winter Fuel Payments in Great Britain are in the following table.

	Late Claim Disallowances Made
2001–2002	10,308 in respect of winter 2000–2001
2002–2003	1,745 in respect of winter 2000–2001 4,564 in respect of winter 2001–2002
2003–2004	1,760 in respect of winter 2000–2001 2,204 in respect of winter 2001–2002 3,948 in respect of winter 2002–2003

Simon Hughes: To ask the Secretary of State for Work and Pensions what the deadlines for applications for winter fuel payments were in *(a)* 2001–02 and *(b)* 2002–03. [173336]

Malcolm Wicks: The majority of payments were made automatically without the need to claim. The deadlines for Winter Fuel Payment applications to be received by the Department for winters 2001–02 and 2002–03 were 30 March 2002 and the 30 March 2003 respectively where claims were required.

John Thurso: To ask the Secretary of State for Work and Pensions how many claimants for winter fuel payments in Scotland were disallowed because of late application in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04. [174021]

Malcolm Wicks: The information is not available.

Data about where unsuccessful claimants lived at the time has not been retained.

HEALTH

Additives

Mr. Roger Williams: To ask the Secretary of State for Health (1) what estimate he has made of the average *(a)* daily and *(b)* annual per capita consumption of cyclamates in each year since 1989; [175507]

(2) what research was conducted into the safety of *(a)* aspartame, *(b)* monosodium glutamate and *(c)* cyclamates prior to their introduction onto the British market. [175508]

Miss Melanie Johnson *[holding answer 24 May 2004]*: I am advised by the Food Standards Agency that surveys of additive intake are not conducted on an annual basis, however the following intake data for cyclamate are available from studies conducted in 1999 and 2003.

The mean intake of cyclamate by United Kingdom consumers was assessed in 1999 and 2003 to be:

Milligrams per kilogram of body weight per day

	Adult	*Children*
1999	0.77	8.16
2003	—	4.46

The safety of aspartame, monosodium glutamate and cyclamate was assessed by the European Commission's Scientific Committee for Food (SCF) prior to their introduction onto the European Market. Details of the research conducted into their safety are contained in the SCF reports which are available at:

Aspartame http://europa.eu.int/comm/food/fs/sc/scf/out155_en.pdf

Monosodium glutamate http://europa.eu.int/comm/food/fs/sc/scf/reports/scf_reports_25.pdf

Cyclamate http://europa.eu.int/comm/food/fs/sc/scf/out53_en.pdf

Air Weapons

Bob Spink: To ask the Secretary of State for Health (1) if he will make it his policy to collect statistics on the number of patients treated each year in the NHS for injuries involving air weapons; [174829]

(2) if he will make a statement on the *(a)* age profile of patients treated in hospital for injuries resulting from air guns, *(b)* type of injuries suffered and *(c)* the times of year when these injuries are most frequently suffered. [172445]

Miss Melanie Johnson: It would be disproportionately costly to collect statistics on national health service patients treated for injuries specifically involving air weapons and the Department has no plans to do so.

Capital Funds

Mr. Andrew Lansley: To ask the Secretary of State for Health (1) how much of the £145 million in 2004–05 of capital funds received for other uses is set aside to cover the borrowing freedoms of foundation trusts; [173847]

(2) for what further purposes he has set aside capital funds in 2004–05 which are not allocated direct to NHS organisations. [173848]

Mr. Hutton: The table is an extract from figure 4.2 of the Department of Health Departmental Report 2004. This shows the opening disposition of 2004–05 hospital and community health services capital for allocation to the national health service.

The £82 million for central budgets is for various arms length bodies. The £145 million within programme central budgets for other investments includes up to £104 million for estimated capital spending by national health service foundation trusts. The balance of £41 million is part of an opening unallocated provision set aside to cover in-year pressures and risks on the capital programme overall.

The overall capital spending by NHS trusts and NHS foundation trusts is financed through a mixture of income generated internally, mainly depreciation, plus borrowing. It is not therefore possible to determine what borrowing will be required against one element of their total capital spending.

Disposition of 2004–05 Hospital and Community Health Services Capital Resources—Extract from Figure 4.2 of the Department of Health Departmental Report 2004

		£ million
HCHS capital available for allocation to NHS trusts and PCTs		3,331
To be allocated as follows:		
Central budgets		82
Direct allocations to strategic health authorities, NHS trusts and primary care trusts		
SHA strategic capital	763	
Trust and PCT operational capital	928	
Access fund	100	
Total direct allocations for local prioritisation		1,791
Programme capital budgets		
Delivery of ICT strategy	700	
Junior doctors' working hours	2	
SIFT—Medical and dental undergraduate support	35	
Improving the provision of decontamination services in the NHS	13	
Modernising the hospital manufacture of medicines	24	
Nursing home care strategy	16	
Walk-in centres	10	
Primary care facilities—including NHS LIFT	110	
Audiology	32	
Dangerous severe personality disorder (DSPD)	20	
Other mental health, including TILT security, CAHMS, long-term low secure and womens	40	
Renal	9	
Diabetes	10	
Coronary heart disease	140	
Cancer equipment	95	

Disposition of 2004–05 Hospital and Community Health Services Capital Resources—Extract from Figure 4.2 of the Department of Health Departmental Report 2004

	£ million
Expanding genetics	9
Dental modernisation fund	20
Pathology modernisation	8
PFI batching	20
Other investments	145
Total to NHS trusts/health authorities/primary care trusts	1,458

Children's Hospital (Manchester)

Mr. Stringer: To ask the Secretary of State for Health what his latest estimate is of the completion date of the new children's hospital in Manchester. [175403]

Miss Melanie Johnson *[holding answer 24 May 2004]:* It is estimated that the new children's hospital in Manchester will be completed in April 2009.

Correspondence

Mr. Amess: To ask the Secretary of State for Health when he intends to reply to the hon. Member for Southend West's letters of 26 March and 19 April regarding the Human Tissue Bill. [173378]

Ms Rosie Winterton: A reply was sent to the hon. Member for Southend West on 17 May 2004.

Cross-border Hospital Treatments

Mr. Wiggin: To ask the Secretary of State for Health how many *(a)* English residents were referred for treatment in Welsh hospitals and *(b)* Welsh residents were referred for treatment in English hospitals in each year since 1999. [175535]

Mr. Hutton: Data are not collected centrally for English residents referred for treatment in Welsh hospitals. Available data on Welsh residents referred for treatment in hospitals in England are shown in the table.

Welsh residents in England, count of in-year admission episodes NHS hospitals, England, 1999–2000 to 2002–03

	Number
1999–2000	41,508
2000–01	41,273
2001–02	40,626
2002–03	39,175

Notes:
Data was derived by selecting cases where the strategic health authority (SHA) of residence was given as Wales (that is a Welsh postcode).
In-year admissions
An in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the data year. Periods of care on-going at the end of the data year (unfinished admission episodes) are included. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
Grossing
Figures are grossed for coverage, except for 2001–02 and 2002–03, which are not yet adjusted for shortfalls.
Strategic Health Authority Data Quality
These figures have been derived from the SHA of residence of the patient, which itself is derived from the postcode of the patient. SHA data were added to historic data-years in the HES database using 2002–03 boundaries, as a one-off exercise in 2004. There is some change in completeness of residence-based fields over time, where the majority of unknown values are due to missing postcodes on birth episodes. Users of time series analysis need to be aware of this issue in their interpretation of the data.
Data Quality
HES are compiled from data sent by over 300 NHS trusts and primary care trusts in England. The Department of Health liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

Hospital Episode Statistics (HES), Department of Health.

Departmental Staff (Drugs)

John Mann: To ask the Secretary of State for Health how many shared care schemes for drug misuse include workplace occupational health specialists. [171628]

Miss Melanie Johnson: Information on the number of shared care schemes for drug misuse including occupational health specialists is not available.

Dermatology

Mr. Keith Bradley: To ask the Secretary of State for Health whether he has received reports of regional variations in the incidence of skin cancer in England. [175053]

Ruth Kelly: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Keith Bradley dated 25 May 2004:

As National Statistician, I have been asked to reply to your recent question concerning reports of regional variations in the incidence of skin cancer in England. [175053].

Information on newly diagnosed cases of cancer is collected by nine regional cancer registries in England, and a standard data set based on registrations for residents of their areas is submitted to the Office for National Statistics (ONS). Regional data on the incidence of skin and other cancers is published annually by ONS in the "Cancer Statistics Registrations" series (MB.l). The most recent data available are for the year 2000. Copies are available in the House of Commons Library and on the National Statistics website at: http://w·vw.statistics.gov.uk/StatBase/Product.asp?vlnk = 8843&Pos = &Co!Rank = l&Rank = 240

Elective Admissions

Mr. Burstow: To ask the Secretary of State for Health pursuant to the Chancellor of the Exchequer's oral statement of 17 March 2004, *Official Report*, column 332, on the Financial Statement, how many elective admissions there were for *(a)* MRI scans and *(b)* CT scans in each year since 1997. [174584]

Mr. Hutton: Data outlining how many elective admissions there were for *(a)* magnetic resonance imaging scans and *(b)* computer tomography scans are not collected centrally.

However, a count of imaging and radiodiagnostic examinations or tests by imaging modality is collected on the Department's KH1 2 return. Data on MRI and CT scans is shown in the table.

Total number of imaging and radiodiagnostic examinations or tests, CT and MRI, England, 1995–96 to 2002–03

	[1] CT	[2] MRI
1995–96	1,709,244	347,817
1996–97	1,056,365	394,940
1997–98	1,172,656	473,074
1998–99	1,254,474	522,138
1999–00	1,359,852	585,797
2000–01	1,488,752	632,594
2001–02	1,625,304	705,706
2002–03	1,767,791	786,646

Department of Health form KH12

General Practitioners

Mr. Burstow: To ask the Secretary of State for Health what monitoring is being undertaken by his Department to ensure that general practitioners continue to offer routine appointments beyond 48 hours if the patient chooses them, with particular reference to the GP access target. [174631]

Mr. Hutton: Patients should be able to see a general practitioner within 48 hours if they want. Equally, patients should be able to pre-book appointments further ahead if this suits them. The former does not exclude the other and both options must be features of a modernised and responsive National Health Service.

Arrangements for monitoring progress towards the NHS Plan primary care access target require primary care trusts to check that practices are allowing patients to book ahead. Local centres of the national primary care development team continue to work with primary care trusts and practices to ensure that this is the case.

Head Lice

Mr. Ben Chapman: To ask the Secretary of State for Health if he will make a statement on guidelines regarding the control of head lice in schools. [175280]

Dr. Ladyman: Our policy, which is shared by the Department for Education and Skills, is to encourage a "whole school approach" to the detection and treatment of head lice. This entails encouraging parents to check their children and other family members for head lice as need arises, and arranging treatment—either through a combing regime or insecticides—where necessary with such advice and support from the local primary health care team (general practitioner, health visitor, school nurse or local pharmacist) as they may require. If this exercise is successfully undertaken at the same time by all parents of children within a school, then the spread of head lice can be controlled.

Health Screening

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the cost of *(a)* an electro-cardiogram, *(b)* a blood pressure test, *(c)* an electron beam tomography scan, *(d)* a lung function test, *(e)* a blood test, *(f)* a mammogram, *(g)* bowel cancer screening, *(h)* an X-ray and *(i)* a cervical smear test. [174455]

Mr. Hutton: Current cost data, for the specified tests are detailed, where available. No data are available for blood pressure tests of lung function tests.

(a) Electro-cardiogram or ECG.

for tests undertaken as part of an out-patient consultation, the national average cost is £101.

where the test is undertaken as a direct access test (general practitioner request), the national average cost is £29.48.

(b) Electron beam tomography scan.

No data are available centrally for this specific scan. Data are available for computer tomography scans, of which electron beam tomography is one type.

CT scans, are undertaken in a wide range of specialties.

the national average cost for CT scans undertaken in an outpatient setting range from £164-£209 depending on specialty;

the national average cost of a CT scan undertaken as a direct access test (GP request) is £102.

(c) Blood test.

These are undertaken in a variety of pathology specialties, depending upon the reason for undertaking the test. The national average cost of a blood test undertaken as a direct access test (GP request) is detailed by specialty as follows:

	£
Phlebotomy test	10.63
General pathology test	1.72
Chemical pathology test	2.48
Haematology test	3.32
Histology/Histopathology test	17.87
Immunology test	7.45
Microbiology/Bacteriology test	7.09
Neuropathology test	14.00
Virology test	7.82
Biochemistry test	2.05
Other test	5.43

(d) Mammogram.

The cost of a mammogram undertaken in a direct access setting is £31.67.

(e) Bowel Cancer screening.

A faecal occult blood test (FOB) test for bowel cancer costs £5. 2 per cent. of all tests are positive and require a subsequent diagnostic colonoscopy, at a cost of £127.

At present, the FOB test is being piloted with two sites.

There is currently no national programme for bowel cancer screening.

(f) X-ray.

The national average cost for a direct access test (GP request) is £14.97 for a standard (Band A) X-ray.

(g) Cervical smear test.

The cost of a cervical smear test is £37.50 (uplifted for inflation from data source).

Data sources:

Items *(a, b, c, d, f)*: National Schedule of Reference Costs Appendix 1, Payment by Results Core Tools Publication. The information requested has been placed in the Library.

Item *(e)*: "The Evaluation of the UK Colorectal Cancer Screening Pilot—Final Report, revised May 2003"—a report undertaken for the national screening programme.

Item *(g)*: "The NAO report on the Performance of The NHS Cervical Screening Programme in England", published in 1998, and adjusted for inflation.

Health Services (Nottinghamshire)

Mr. Meale: To ask the Secretary of State for Health how many NHS patients waited for more than 13 weeks for outpatient appointments within Nottinghamshire health authority areas in each year since 1997. [173526]

Dr. Ladyman: The information requested is shown in the table.

Number of outpatients waiting over 13 weeks from a general practitioner referral to consultant appointment, by provider, for the Nottinghamshire area

	National health service trust	*Number*
1996–97	Nottingham City Hospital NHS Trust	757
	Central Nottinghamshire NHS Trust	0
	Queens Medical Centre, Nottingham, University Hospital NHS Trust	7,939
	King's Mill Centre for Health Care Services NHS Trust	0
	Nottingham Healthcare NHS Trust	401
1997–98	Nottingham City Hospital NHS Trust	969
	Central Nottinghamshire NHS Trust	325
	Queens Medical Centre, Nottingham, University Hospital NHS Trust	10,063
	King's Mill Centre for Health Care Services NHS Trust	2,672
	Nottingham Healthcare NHS Trust	88
1998–99	Nottingham City Hospital NHS Trust	1,613
	Central Nottinghamshire Healthcare NHS Trust	104
	Queens Medical Centre, Nottingham, University Hospital NHS Trust	12,361
	King's Mill Centre for Health Care Services NHS Trust	2,986
	Nottingham Healthcare NHS Trust	3
1999–2000	Nottingham City Hospital NHS Trust	1,129
	Central Nottinghamshire NHS Trust	925
	Queens Medical Centre, Nottingham, University Hospital NHS Trust	6,738
	King's Mill Centre for Health Care Services NHS Trust	2,164
	Nottingham Healthcare NHS Trust	0
2000–01	Nottingham City Hospital NHS Trust	577
	Central Nottinghamshire NHS Trust	76
	Queens Medical Centre, Nottingham, University Hospital NHS Trust	4,923
	King's Mill Centre for Health Care Services NHS Trust	1,364
	Nottingham Healthcare NHS Trust	7
2001–02	Nottingham City Hospital NHS Trust	624
	Queens Medical Centre, Nottingham, University Hospital NHS Trust	2,234
	Nottinghamshire Healthcare NHS Trust[1]	23
	Sherwood Forest Hospitals NHS Trust[2]	1,232
2002–03	Nottingham City Hospital NHS Trust	211
	Queens Medical Centre Nottingham University Hospital NHS Trust	928
	Nottinghamshire Healthcare NHS Trust	7
	Sherwood Forest Hospitals NHS Trust	896
2003–04	Nottingham City Hospital NHS Trust	106
	Queens Medical Centre Nottingham University Hospital NHS Trust	284
	Nottinghamshire Healthcare NHS Trust	1
	Sherwood Forest Hospitals NHS Trust	346

[1] In April 2001 Nottingham Healthcare NHS Trust became Nottinghamshire Healthcare NHS Trust.

[2] In March 2001 the Central Nottinghamshire NHS Trust was abolished, and Newark Hospital from the Central Nottinghamshire NHS Trust was combined with the King's Mill Centre for Healthcare Services NHS Trust to form Sherwood Forest Hospitals NHS Trust.

Department of Health QM08

Health Services (Tamworth)

Mr. Jenkins: To ask the Secretary of State for Health what the average waiting time for a hip replacement operation in the Tamworth constituency was in the most recent period for which figures are available. [174546]

Dr. Ladyman: Data are not collected specifically for Tamworth,

The table shows both the mean time waited and the median time waited for a hip operation for the population covered by Burntwood, Lichfield and Tamworth Primary Care Trust during 2002–03.

Count of finished in-year admission episodes, mean and median time waited, national health service hospitals, England 2002–03

	Number
Finished in-year admission episodes	164
Mean time waited	199 days
Median time waited	180 days

Notes:

Main operation: hip replacement

Method of admission: elective

Finished In-Year Admissions

A finished in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the data-year. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Ungrossed Data

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Main Operation

The main operation is the first recorded operation in the HES data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details, e.g. time waited, but the figures for "all operations count of episodes" give a more complete count of episodes with an operation.

Time Waited

Time waited statistics from Hospital Episode Statistics (HES) are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they

have been on the waiting list. Also, HES calculates the time waited, as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.
Source:
Hospital Episode Statistics (HES), Department of Health.

Mr. Jenkins: To ask the Secretary of State for Health how many NHS *(a)* doctors and *(b)* nurses there were in the Tamworth constituency in each of the last 10 years. [174547]

Dr. Ladyman: Data are not collected specifically for Tamworth.

The tables show the number of doctors and the number of nurses for the old South Staffordshire health authority, which covered the Tamworth constituency, from 1994 to 2001, and for Burntwood, Lichfield and Tamworth Primary Care Trust from 2001 to 2003.

Hospitals, public health medicine and community health services (HCHS) doctors[1] and general medical practitioners (excluding retainers)

	South Staffordshire Health Authority	Burntwood, Lichfield and Tamworth Primary Care Trust
1994	642	—
1995	653	—
1996	681	—
1997	709	—
1998	731	—
1999	759	—
2000	713	—
2001	762	82
2002	—	86
2003	—	94

[1] Excludes hospital medical hospital practitioners and hospital medical clinical assistants, most of whom are general practitioners (GPs) working part time in hospitals.
Note:
Data as at 30 September every year except GP as at 1 October 1997–99.

Qualified nursing, midwifery and health visiting staff and practice nurses employed by unrestricted principals and equivalents (UPEs)[1]

	South Staffordshire Health Authority	Burntwood, Lichfield and Tamworth Primary Care Trust
1994	—	—
1995	2,666	—
1996	2,849	—
1997	2,835	—
1998	2,955	—
1999	2,932	—
2000	3,125	—
2001	3,165	171
2002	—	345
2003	—	376

[1] UPEs include general medical service unrestricted principals, personal medical services contracted GPs, and personal medical services salaried GPs.
Notes:
1. Headcount practice nurse figures are estimated for these years.
2. Data as at 30 September every year except practice nurses as at 1 October 1997–99.

Mr. Jenkins: To ask the Secretary of State for Health how many *(a)* general practitioners' surgeries and *(b)* health clinics have been (i) modernised and (ii) removed to other premises in the Tamworth constituency since 1997. [174548]

Dr. Ladyman: The data are not available in the format requested.

The table shows the number of primary care premises replaced and the number refurbished in the following areas since 2000: South Staffordshire Health Authority; North Staffordshire Health Authority; Shropshire Health Authority.

Tamworth was within the former South Staffordshire Health Authority.

These three organisations were replaced by Shropshire and Staffordshire Strategic Health Authority in 2002.

Primary care premises replaced and refurbished

	2000–01		2001–02		2002–03		Third quarter 2003–04

Department of Health LDPR Quarterly Returns

Mobile/Wireless Communications

Mr. Flight: To ask the Secretary of State for Health whether current research being carried out by the mobile telephone health research team at King's College London is examining mobile and wireless communications systems. [174394]

Miss Melanie Johnson: The Link Mobile Telecommunications and Health Research programme is jointly funded by Government and industry. It currently supports about 20 projects under the management of an independent programme committee. One of these projects is being undertaken at the mobile phone research unit at King's College London. It is a study designed to examine whether mobile phone signals cause unpleasant symptoms such as headaches, nausea, dizziness and fatigue. Details of the programme and each project currently funded can be found on the website www.mthr.org.uk

NHS Facilities

Mr. Burstow: To ask the Secretary of State for Health whether new facilities monitored by NHS Estates conform to design guidance with respect to the numbers

of wash-hand basins; and what action his Department has taken to ensure compliance by new facilities that do not meet the requirements of the guidance. [174636]

Mr. Hutton: NHS Estates guidance sets out recommendations concerning the provision of wash hand-basins in a number of differing circumstances.

The exact number of wash-hand basins required in any particular situation will vary according to a variety of factors including the design and configuration of the room.

Trust chief executives are responsible for ensuring that there are effective arrangements in place for infection control.

NHS Land

Charles Hendry: To ask the Secretary of State for Health when the last full inventory of land owned by *(a)* the NHS and *(b)* NHS trusts was carried out; and what steps he is taking to sell off unused excess land. [175838]

Mr. Hutton: An independent valuation of all national health service property assets is undertaken every five years with the 2005 exercise nearing completion. Registers of such assets, including land, are held and continually updated by individual NHS bodies.

Land and property identified as surplus to requirements is sold in accordance with departmental guidance given in "Estatecode".

An agreement in principle has been reached to transfer surplus land in the ownership of the Secretary of State for Health to the Office of the Deputy Prime Minister.

NHS Staff

Dr. Murrison: To ask the Secretary of State for Health pursuant to his answer of 28 April 2004, *Official Report*, column 1092W, on NHS staff, whether locums and those on temporary contracts are included in figures for NHS returnees. [175396]

Mr. Hutton: Locums and those on temporary contracts are not included in the figures for national health service returners.

NHS Staff (Wirral, South)

Mr. Ben Chapman: To ask the Secretary of State for Health how many NHS *(a)* therapists and *(b)* scientists were located in Wirral South in each of the last seven years. [172686]

Miss Melanie Johnson: The information requested is not collected on a constituency basis. The information available is shown in the table and relates to national health service organisations serving the South Wirral constituency.

NHS hospital and community health services: Qualified scientific, therapeutic and technical staff in the specified organisations as at 30 September each specified year.

Department of Health Non-Medical Workforce Census

Mr. Ben Chapman: To ask the Secretary of State for Health how many and what percentage of patients with suspected cancer in Wirral, South saw an NHS consultant within two weeks in each of the last seven years. [172688]

Miss Melanie Johnson: The information requested is not collected on a constituency basis. The earliest information available is shown in the table and relates to national health service organisations serving the South Wirral constituency.

All cancer waiting times, selected NHS Trusts
Urgent referrals received within 24 hours

Nurses Training

Laura Moffatt: To ask the Secretary of State for Health what plans his Department has to ensure that nurse *(a)* training and *(b)* career pathways adequately reflect the need for specialist skills in care of the elderly. [175522]

Mr. Hutton: The curriculum for nurse training is decided by higher education institutions in line with guidance from the regulatory body, the Nursing and Midwifery Council.

Within the adult/general branch of nursing, undergraduate and diploma courses cover the nursing skills needed in the care of the elderly. Once qualified, nurses can undertake further specialist skills training in this area.

We are continuing to implement current policies that support specialist and advanced role in the care of older people. These include the development of nurse consultant posts, nurses with special interests, nurse prescribing and leadership programmes.

Nutritional Supplements

Mr. Hawkins: To ask the Secretary of State for Health what representations he has made to EU officials on behalf of UK businesses in relation to plans for a draft Directive on nutritional supplements for sports competitors; and if he will make a statement. [175282]

Miss Melanie Johnson *[holding answer 24 May 2004]:* A working document for a Directive on foods intended to meet the expenditure of intense muscular effort, especially for sports people, was issued by the European Commission in April 2004 and an expert working group was held on the 10 May 2004. The Food Standards Agency (FSA) represents the United Kingdom for this work and its officials attended the expert working group.

The FSA has already had discussions with the industry about the draft Directive and will continue to do so as the negotiations progress.

Obese Children

Tim Loughton: To ask the Secretary of State for Health what his policy is on promoting stomach stapling as a method for dealing with obesity problems in children. [172588]

Miss Melanie Johnson *[holding answer 11 May 2004]:* The National Institute for Clinical Excellence guidance on surgery for morbid obesity advises that surgery should only be considered when there is evidence that all appropriate and available non-surgical measures have been adequately tried but have failed to maintain weight loss. In July 2002, the NICE published guidance on surgery to aid weight reduction for people with morbid obesity. The guidance recommends that surgery is only performed on people aged 18 and over.

Osteoporosis

Dr. Naysmith: To ask the Secretary of State for Health what advice and treatment is offered to those patients who are identified as being at high risk of developing osteoporosis. [173541]

Dr. Ladyman: Patients identified as being at high risk of developing osteoporosis should be given advice on diet, exercise, avoiding excessive consumption of alcohol and reducing smoking. There are a range of treatment options which aim to provide pain relief, improve mobility and prevent further bone loss.

Palliative Care

Mr. Baron: To ask the Secretary of State for Health (1) what plans he has for progressing the partnership between his Department, Marie Curie Cancer Care and other voluntary organisations in the field of palliative care with particular reference to *(a)* improving services for people who choose to die at home and *(b)* increasing the number of people who are able to die at home; [174395]

(2) what action he is taking to increase the number of terminally ill patients who are able to exercise their choice to die at home; [174396]

(3) what further plans he has for supporting choice in palliative care for cancer patients to meet the commitment given in the recent document, Building the Best: Choice, Responsiveness and Equity in the NHS; [174397]

(4) what assessment he has made of the potential savings to the NHS if more terminally ill people were given the choice of dying at home. [174621]

Miss Melanie Johnson *[holding answer 20 May 2004]:* Building on the Best commits the Department to improve care for people coming to the end of their lives by taking forward training programmes to ensure that all patients, regardless of their diagnosis, will have access to high quality palliative care.

An additional total of £12 million investment over three years was announced by the Secretary of State on 26 December 2003. This additional money will widen the pool of staff who are trained in meeting the needs of people nearing the end of their lives. As a result more patients will be offered appropriate support in the setting of their choice.

The cancer services collaborative is currently working in partnership with Macmillan Cancer Relief, Marie Curie Cancer Care and Lancashire and South Cumbria Cancer Network to support the implementation of specific end of life care tools. These tools, recommended in the National Institute for Clinical Excellence guidance on supportive and palliative care for adults with cancer as examples of good practice, will be adapted to meet the needs of other patient groups.

Over time this investment will result in greater choice for patients in where they wish to live and die and a decrease in the numbers of older people transferred from care homes to a district general hospital in the last week of life and emergency admissions of patients who expressly wish to die at home or care home.

We are also currently identifying pilots to develop an integrated cancer care model for cancer patients shaped by users and involving health and social services and the voluntary sector. These pilots will specifically address issues about caring for patients at home and the possible reduction of costs of hospital services.

Personal Health Care

Adam Price: To ask the Secretary of State for Health (1) what arrangements are in place to review cases to ensure that individuals are not incorrectly charged for personal health care; [173912]

(2) what the criteria are for initiating an investigation into cases of individuals incorrectly charged for personal health care; [173940]

(3) how many cases are being investigated of individuals who may have been incorrectly charged for personal health care in each local authority in England in each of the last six years. [174036]

Dr. Ladyman: The Continuing Care (National Health Service Responsibilities) Directions and the Delayed Discharges (Continuing Care) Directions, both published in February, should ensure appropriate assessments for fully funded national health service continuing care, whether it is prior to hospital discharge or in a community setting. All strategic health authorities have systems in place to review cases where individuals, or their families, feel they were inappropriately denied fully funded NHS continuing care and will investigate all cases brought to their attention. Information on the number of people who were wrongly denied NHS care since 1996 will be available once the data have been validated.

Positron Emission Tomography Scanners

Mr. Baron: To ask the Secretary of State for Health (1) what assessment he has made of the effectiveness of the use of positron emission tomography scanners in the early diagnosis of lung cancer; and if he will make a statement; [175706]

(2) what assessment he has made of the demand for positron emission tomography scans in the NHS; [175707]

(3) what plans he has to increase the number of positron emission tomography scanners in the NHS. [175708]

Miss Melanie Johnson: Positron emission tomography (PET) is still a relatively new technology and there is evidence of its potential benefits in the diagnosis and treatment of a limited number of tumours, including lung cancer.

The Department is currently working with the national health service, the clinical community and research stakeholders to develop a framework for the provision of PET scanners in England. This will set out, from the evidence, which tumour groups would benefit from PET scanning, likely future demand, and consider the optimal configuration and possible location of PET scanners in England. This will be sent out to stakeholders for consultation in early summer.

It will be for local health communities to consider the framework when it is published and decide whether to adopt this technology based on local needs and circumstances.

Primary Care Trusts (Non-Clinical Staff)

Mr. Lansley: To ask the Secretary of State for Health how many non-clinical staff were employed in each primary care trust in England at September 2003, broken down by grade. [173090]

Mr. Hutton: Information on the number of staff employed by primary care trusts in non-clinical roles has been placed in the Library.

Public Bodies

Dr. Murrison: To ask the Secretary of State for Health how many times a year the board of the NHS Information Authority is scheduled to meet; and on what date it last met. [175393]

Mr. Hutton: The NHS Information Authority (NHSIA) is a National Health Service Special Health Authority. Its board meets monthly. The most recent meeting was on 6 May at the NHSIA offices in Birmingham. Board papers are published on the NHSIA website at www.nhsia.nhs.uk.

The next meeting of the board will take place on 3 June 2004 at Grange Holborn Hotel, Southampton Row, London, at 2pm. In accordance with the NHS code of openness, board meetings are open to the public.

Sexually Transmitted Infections

Mr. Burns: To ask the Secretary of State for Health how many people aged *(a)* under 12, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17 and *(h)* 18 years have suffered from each sexually transmitted infection in each of the last three years. [172865]

Mr. Amess: To ask the Secretary of State for Health (1) how many sexually transmitted infections were reported in young people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years in England in each year since 2000, broken down by (i) disease and (ii) sex; and if he will make a statement; [174501]

(2) what the prevalence rate of reported cases of sexually transmitted infections in young people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 in England was in each year since 2000, broken down by (i) disease and (ii) sex; and if he will make a statement; [174502]

(3) how many cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years there were in each year since 2000, broken down by strategic health authority; and if he will make a statement; [174526]

(4) what the prevalence rate of reported cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in each year since 2000, broken down by (i) strategic health authority, (ii) disease and (iii) sex; and if he will make a statement. [174527]

Bob Spink: To ask the Secretary of State for Health (1) how many cases of sexually transmitted infections were reported in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 in each year since 2000, broken down by (i) disease and (ii) sex; [174458]

(2) what the prevalence rate of reported cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 was in each year since 2000, broken down by (i) disease and (ii) sex; [174483]

(3) how many cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years were reported in the Essex Strategic Health Authority in each year since 2000, broken down by (i) disease and (ii) sex; [174576]

(4) what the prevalence rate of reported cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years were in the Essex Strategic Health Authority in each year since 2000, broken down by (i) disease and (ii) sex. [174586]

Sir Teddy Taylor: To ask the Secretary of State for Health (1) how many cases of sexually transmitted infections were reported in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years in each year since 2000, broken down by *(a)* disease and *(b)* sex; [174507]

(2) what the prevalence rate of reported cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in each year since 2000, broken down by *(a)* disease and *(b)* sex; [174508]

(3) ow many cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years were reported in the Essex Strategic Health Authority area in each year since 2000, broken down by *(a)* disease and *(b)* sex; [174514]

(4) what the prevalence rate of reported cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in each year since 2000, broken down by (i) disease and (ii) sex. [174515]

Ann Winterton: To ask the Secretary of State for Health (1) how many cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years were reported in the Cheshire and Merseyside Strategic Health Authority in each year since 2000, broken down by (i) disease and (ii) sex; [174954]

(2) what the prevalence rate of reported cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in the Cheshire and Merseyside Strategic Health Authority in each year since 2000, broken down by (i) disease and (ii) sex. [174955]

Mr. Goodman: To ask the Secretary of State for Health (1) what the prevalence rate of reported cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in the Thames Valley Strategic Health Authority area in each year since 2000, broken down by (i) disease and (ii) sex; [175384]

(2) how many cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years were reported in the Thames Valley Strategic Health Authority area in each year since 2000, broken down by (i) disease and (ii) sex. [175385]

Mr. Flook: To ask the Secretary of State for Health (1) how many cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years were reported in the Dorset and Somerset Strategic Health Authority area in each year since 2000, broken down by (i) disease and (ii) sex; [175626]

(2) what the prevalence rate of reported cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in the Dorset and Somerset Strategic Health Authority area in each year since 2000, broken down by (i) disease and (ii) sex. [175627]

Miss Melanie Johnson *[holding answer 17 May 2004]*: I refer the hon. Members to the reply I gave to my hon. Friends, the Members for Workington (Tony Cunningham) and Heywood and Middleton (Jim Dobbin) today.

Tony Cunningham: To ask the Secretary of State for Health (1) how many cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years were reported in West Cumbria Strategic Health Authority in each year since 2000, broken down by (i) disease and (ii) sex; [175424]

(2) what the prevalence rate of reported cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years were in the West Cumbria Strategic Health Authority in each year since 2000, broken down by (i) disease and (ii) sex; [175518]

(3) how many cases of sexually transmitted infections were reported in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years in each year since 2000, broken down by (i) disease and (ii) sex; [175519]

(4) what the prevalence rate of reported cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in each year since 2000, broken down by (i) disease and (ii) sex. [175520]

Jim Dobbin: To ask the Secretary of State for Health (1) how many cases of sexually transmitted infections in people of 19 years and under were reported in Greater Manchester Strategic Health Authority in each year since 2000, broken down by *(a)* disease, *(b)* sex and *(c)* age; [175764]

(2) what the prevalence rate of reported cases of sexually transmitted infections in people of 19 years and under was in Greater Manchester Strategic Health Authority in each year since 2000, broken down by *(a)* disease, *(b)* sex and *(c)* age; [175765]

(3) how many cases of sexually transmitted infections were reported in people 19 years and under in each year since 2000, broken down by *(a)* disease, *(b)* sex and *(c)* age; [175789]

(4) what the prevalence rate of reported cases of sexually transmitted infections in people 19 years and under was in each year since 2000, broken down by *(a)* disease, *(b)* sex and *(c)* age. [175790]

Miss Melanie Johnson: The available information on rates of sexually transmitted infections in the age groups requested has been placed in the Library.

The national strategy for sexual health and HIV (linking closely to the Government's teenage pregnancy strategy) identifies young people as a priority group for action to improve sexual health. The Government's 'Sex Lottery' and teenage pregnancy, 'Ruthinking' media campaigns are raising awareness among young people of sexually transmitted infections (STIs) and how to avoid them. The Department is also tackling the most common STI through the national chlamydia screening programme, which already covers a quarter, or 84, of primary care trusts in England and is being rolled-out across the rest of the country. Sexual health has also been highlighted as an important area in the "Choosing Health" public health White Paper consultation, launched on 3 March.

Mrs. Roe: To ask the Secretary of State for Health (1) how many cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years were reported in Bedfordshire and Hertfordshire Strategic Health Authority in each year since 2000, broken down by (i) disease and (ii) sex; [174888]

(2) what the prevalence rate of reported cases of sexually transmitted infections in people aged *(a)* 11, *(b)* 12, *(c)* 13, *(d)* 14, *(e)* 15, *(f)* 16, *(g)* 17, *(h)* 18 and *(i)* 19 years was in Bedfordshire and Hertfordshire Strategic Health Authority in each year since 2000, broken down by (i) disease and (ii) sex. [174889]

Miss Melanie Johnson: I refer the hon. Member to the reply I gave to my hon. Friends the Members for Workington (Tony Cunningham) and Heywood and Middleton (Jim Dobbin) today.

Solvent Abuse

Tim Loughton: To ask the Secretary of State for Health how many staff in the NHS specialise in solvent abuse among children. [169030]

Miss Melanie Johnson: The Department does not collect statistics on the number of staff in the national health service who specialise in solvent abuse among children.

Working Time Directive

Mr. Simmonds: To ask the Secretary of State for Health if he will make a statement on the implementation of the Working Time Directive and its effect on *(a)* doctors' hours and *(b)* the availability of doctors within the NHS. [167877]

Mr. Hutton: The working time directive (WTD) is a legal requirement on which implementation is being taken forward locally. From 1 August, doctors in training will be required to work no more than 58 hours per week on average.

Lessons from WTD pilot sites have demonstrated that compliance is best achieved through working differently using multi-disciplinary teams in line with the wider NHS modernisation agenda, rather than simply employing more doctors.

DEFENCE

Emergency Planning

Mr. Clifton-Brown: To ask the Secretary of State for Defence what plans the Government have to provide training for *(a)* helicopter pilots in the armed forces and *(b)* civilian helicopter pilots to assist in an airlift operation in the event of a major emergency. [174675]

Mr. Ingram: In preparation for operational deployments, military helicopter aircrews, both regular and reserve, are fully trained and equipped to meet a wide variety of contingencies. Their skills could be used for airlift operations in the event of a major emergency. The Ministry of Defence has no current plans to train civilian helicopter pilots.

Mr. Clifton-Brown: To ask the Secretary of State for Defence when the Government expect to be able to guarantee that the Civil Contingency Reaction Force communications system is compatible with the communications system used by the emergency services. [174686]

Mr. Ingram: As part of the Government's wider strategy to improve communications in the event of an emergency or crisis, the armed forces have procured communications equipment that is compatible with that used by the emergency services. Use of the system is dependent on availability of the commercially provided network infrastructure. Initial capability is available now with full capability expected in April 2006.

Mr. Clifton-Brown: To ask the Secretary of State for Defence whether an Army standby unit is ready to help the emergency services immediately in the event of a serious national emergency. [174689]

Mr. Ingram: The armed forces do not maintain units on standby specifically to respond immediately to a national emergency. Nonetheless, in the event of an emergency or crisis, and assuming the civil authorities asked for it, the armed forces would be able to provide support drawing on the most appropriate resources available at the time, which could include regular and Civil Contingency Reaction Force assets.

Iraq

Mr. Ancram: To ask the Secretary of State for Defence how many scientists have come forward voluntarily since 16 July 2003 and approached the Iraq Survey Group with evidence of weapons of mass destruction and related programmes in Iraq; and when he next expects to present to Parliament an updated document of collated evidence. [175567]

Mr. Hoon: Some Iraqi civilians, including scientists, have approached the Iraq Survey Group with information. However, the Ministry of Defence does not hold exact figures.

The Iraq Survey Group has produced two interim reports, in October 2003 and March 2004, and a further report is expected later this year.

Adam Price: To ask the Secretary of State for Defence pursuant to his answer of 17 May 2004, *Official Report*, column 663W, on Iraq, what the names are of the two individuals whose deaths have been the subject of reports to the Army Prosecuting Authority. [175751]

Mr. Ingram: Of the two cases in advanced stages of consideration only one relates to a death. The individual concerned is an Iraqi civilian named Hassan Abbad Saied.

Air Near-hit Incident (Gloucestershire)

Llew Smith: To ask the Secretary of State for Defence what disciplinary action has been taken in respect of the aircrew involved in the near-hit incident reported on 4 April 2002 concerning a helicopter and the nuclear installations at Berkeley, Gloucestershire, as recorded in the report of the defence flying complaints investigation team at Henlow, dated 30 May 2002. [174373]

Mr. Caplin: Because the information requested will take a little time to retrieve, I will write to my hon. Friend and a copy of my letter will be placed in the Library of the House.

Al Yamamah Contracts

Norman Lamb: To ask the Secretary of State for Defence when he was first informed of allegations of corruption involving BAE Systems in connection with the Al Yamamah arms contracts which were drawn to the attention of Sir Kevin Tebbit in 2001. [171750]

Mr. Hoon: I first became aware of allegations of fraud against BAE Systems when they were published in the press in September 2003.

Army Barracks Death

Mr. McNamara: To ask the Secretary of State for Defence on what date the Minister of State for the Armed Forces received the Amnesty International Report, "Army Barracks Death: Families Demand Justice" (EUR 45/004/2003); and what his response was. [174742]

Mr. Ingram: Amnesty International's Report, "Army Barracks Death: Families Demand Justice" was received on 18 June 2003. I replied to Halya Gowan of Amnesty International on 2 July 2003.

Army Medal Office (Droitwich)

Mr. Luff: To ask the Secretary of State for Defence (1) what arrangements he has made to ensure the continued efficient operation of the Army Medal Office at Droitwich Spa in the period before its planned closure; [175005]

(2) if he will ensure the Army Medal Office at Droitwich Spa is able to *(a)* purchase equipment and *(b)* recruit staff in the period before the planned closure. [175006]

Mr. Caplin: As I said in my answer of 13 May 2004, *Official Report*, column 556W, the phased closure of the Army Medal Office is part of a risk reduction strategy aimed at minimising disruption to medal service delivery. The work currently in hand to support that strategy includes an analysis of the benefits for service delivery of early equipment purchase and staff recruitment either at Droitwich or at Innsworth. Where such action is cost-effective, to assist in the smooth transfer of responsibilities and reduce the impact on service delivery, it will be done.

Mr. Luff: To ask the Secretary of State for Defence if he will visit the Army Medal Office in Droitwich Spa to discuss its proposed closure with the staff. [175007]

Mr. Caplin: I have no plans to do so at the present time, but will consider the matter further later in the year.

Mr. Luff: To ask the Secretary of State for Defence pursuant to his answer of 13 May 2004, *Official Report*, column 555W, on Defence Medal Offices, over what period the closure of the Army Medal Office will be phased. [175027]

Mr. Caplin: Detailed work on an implementation timetable cannot begin until the staff preference exercise has been concluded at the end of this month. That work will need to take into account the risk reduction strategies that are currently being developed.

It is not expected that a detailed implementation plan will be available until early autumn.

Mr. Luff: To ask the Secretary of State for Defence pursuant to the answer of 12 May 2004, *Official Report*, column 328W, on the Defence Medal Office, when he will place in the Library a copy of the Investment Appraisal for the proposed closure of the Army Medal Office in Droitwich Spa. [175045]

Mr. Caplin: A copy of the Investment Appraisal was placed in the Library on 20 May 2004.

Defence Bases

Miss McIntosh: To ask the Secretary of State for Defence why his Department does not keep figures for the current number of *(a)* service and *(b)* civilian personnel based at (i) RAF Leeming, (ii) RAF Linton on Ouse, (iii) AAC Dishforth and (iv) Alanbrooke Barracks; and whether his Department has figures for the current number of (A) service and (B) civilian personnel at other defence establishments in the United Kingdom. [173935]

Mr. Caplin: Although individual Defence installations may hold some of this information at a local level, location statistics for Service Personnel are produced centrally by the Defence Analytical Services Agency (DASA). This is done by allocating individuals to a unit based on record of service data, and allocating the unit to a location based postal address. DASA are currently reviewing the source data and process by which these statistics are compiled. The target date for the completion of the review is December 2004. The most recently published location statistics are given in the July 2002 TSP10 publication, which is available in the House of Commons Library. New figures will not be available until the review is complete.

Information on civilians is regularly published by DASA at Government Office Region level where it is believed the data are of sufficient quality. Individual defence installations may hold data at a local level, but centralised systems are not able to provide a reliable breakdown to this level of detail. Individual defence

installations do not routinely publish civilian data as different organisations and agencies are responsible for the same location or site.

Emergency Evacuation (Greater London)

Llew Smith: To ask the Secretary of State for Defence how many helicopters are available in the Greater London area for use in emergency evacuation of people who may be injured in a terrorist attack in London. [175137]

Mr. Ingram: No military helicopters are dedicated to the task of evacuating people who might be injured in a terrorist attack in London. However, there are a number of military helicopters based in the vicinity of Greater London that could be made available to assist the civil authorities if necessary.

Joint Strike Fighter

Mr. Hancock: To ask the Secretary of State for Defence if he will make a statement on the Joint Strike Fighter's ability to take off from warships, with particular reference to *(a)* its expected performance in combat, *(b)* the final cost, *(c)* who is liable for the cost of reconfiguring the aircraft, *(d)* the final in service date and *(e)* the reasons for not identifying the take off problems earlier. [174632]

Mr. Ingram: I refer the hon. Member to the answer I gave on 11 May 2004, *Official Report*, column 221W to the hon. Member for Hereford (Mr. Keetch). The weight issue impacts most significantly on the landing and take off characteristics of the aircraft, while its combat performance is currently predicted to meet the original requirements. The potential for weight growth was identified at the time of the decision to select the variant, and this, in conjunction with our intention to maximise the flexibility of use of the future carriers (CVF) over their life, influenced our decision to opt for an 'adaptable' design for CVF.

I also refer the hon. Member to the answer given to him on 11 May 2004, *Official Report*, column 219W, regarding the projected final cost of the System Demonstration and Development phase of JSF. Under the provisions of the Memorandum of Understanding, the non-US partners in the programme are not bound to contribute to cost increases.

The Future Joint Aircraft in service date, based on current planning assumptions, is 2012.

Medals

Mr. Hancock: To ask the Secretary of State for Defence when the case for awarding an Arctic medal was last reviewed; by whom it was done; at whose request; and if he will make a statement. [175062]

Mr. Caplin: A review of the case for the retrospective institution of a new medal specifically to recognise wartime service in Arctic waters was carried out by the Ministry of Defence earlier this year at the request of my right hon. Friend the Prime Minister.

The conclusion of that review remained that there was no case that could or should be put to the HD Committee for an Arctic Convoy Medal and I refer the hon. Member to the answer I gave in the House on 1 March 2004, *Official Report*, column 595W, to my hon. Friend the Member for Nottingham, North (Mr Allen).

Mr. Luff: To ask the Secretary of State for Defence pursuant to his answer of 26 April 2004, *Official Report*, column 728W, to the hon. Member for North Cornwall (Mr. Tyler) on the Suez Medal, what practical constraints limit the issuing of the Suez Canal Zone General Service Medal; and if he will establish a timetable for the completion of distribution to current applicants. [175422]

Mr. Caplin: The constraints are numbers of trained personnel, availability of machinery and funding. It is not practical to establish a timetable for Canal Zone medal applications as each case is unique and it is not possible to say in advance how long it will take to determine each applicant's eligibility for the medal.

Merlin Helicopters

Andrew George: To ask the Secretary of State for Defence how many Merlin helicopters have been *(a)* ordered, *(b)* purchased, *(c)* delivered and *(d)* brought into full service for the Royal Navy since the decision was first made to purchase the Merlin. [174882]

Mr. Ingram *[holding answer 21 May 2004]:* A total of 44 Merlin Mk1 aircraft have been ordered, purchased and delivered to the Ministry of Defence. 39 helicopters have entered service with the Royal Navy, of which two have been subsequently lost as a result of accidents. The remaining five helicopters are currently being used as trials and development aircraft.

Andrew George: To ask the Secretary of State for Defence what the *(a)* original budget was and *(b)* the total cost has been of purchasing and fully commissioning the Merlin helicopter for the Royal Navy, both as (i) a total amount and (ii) an amount per aircraft in service. [174884]

Mr. Ingram *[holding answer 21 May 2004]:* The original budget allocated to the Merlin Mk1 programme was £1.1 billion (VAT inclusive) at 1982 prices. Since that time our requirement has matured and as a result the programme has changed considerably. The final cost of purchasing and commissioning the Merlin Mk1 fleet of 44 aircraft was just over £4.6 billion (VAT inclusive), which equates to approximately £105 million per helicopter.

Missile Defence Interceptor Sites

Alan Simpson: To ask the Secretary of State for Defence what discussions he has had with the US authorities about basing missile defence interceptor sites in the UK. [174567]

Mr. Hoon: The Ministry of Defence continues to discuss with the United States a wide range of ballistic missile defence issues. The Government have not yet decided whether the United Kingdom requires its own missile defence, and these discussions do not therefore involve specific architectures or basing assumptions.

Nuclear Power Stations

Mr. Dhanda: To ask the Secretary of State for Defence what rules govern the rights of *(a)* RAF and

(b) US Air Force aircraft to fly over (i) nuclear power stations and (ii) residential areas; and what breaches of such rules there have been in the past six months in (A) the United Kingdom and (B) Gloucestershire. [173199]

Mr. Ingram: Both Royal Air Force and United States Air Force aircraft operate with the same restrictions in respect of overflights of nuclear installations and residential areas. Nuclear installations are to be avoided by a radius of two nautical miles from a fixed centre-point or a height of 2,000 ft, by all types of aircraft. In respect of "residential areas" we grant avoidances in the United Kingdom military low-flying system to towns with a population of 10,000 or more, as well as everything within certain major avoidance areas. Towns granted avoidances are to be overflown at not less than 1,000 ft by helicopters, and not less than 2,000 ft by fixed wing aircraft. Since the beginning of November 2003 the following breaches of regulations have been established.

Date	*Place*	*Nuclear*	*Town*	*UK*	*Gloucestershire*
17 November 2003	Dungeness, Kent	[1]—		[1]—	
26 November 2003	Berkeley, Gloucestershire	[1]—			[1]—
8 January 2004	Bath		[1]—	[1]—	

[1] Breach

In addition, the following alleged breaches are still under investigation.

Date	*Place*	*Nuclear*	*Town*	*UK*	*Gloucestershire*
21 January 2004	Holmfirth, Lancashire		[1]—	[1]—	
10 February 2004	Swansea		[1]—	[1]—	
18 February 2004	Teignmouth, Devon		[1]—	[1]—	

[1] Alleged breach

Offshore Wind Farms

Mr. Kidney: To ask the Secretary of State for Defence if he will make it his policy to reduce the proportion of applications for planning permission for offshore wind farms to which his Department lodges objections. [174589]

Mr. Caplin: Departmental policy must be to maintain the integrity of operations, safety and the nation's defence systems. Objections are only raised when any proposed development would affect these key criteria. It is the Department's stated aim, wherever possible, to assist developers of wind farms, both on-shore and off-shore, to find solutions that will enable a development to proceed to the satisfaction of all parties.

Operation Telic

Mr. Kidney: To ask the Secretary of State for Defence what improvements have been made to systems for combat identification in the light of experience gained from Operation Telic. [174603]

Mr. Ingram: The Ministry of Defence remains committed to improving combat effectiveness and minimising casualties by improving Combat Identification (ID). We already have a continuing programme to support our Armed Forces' Combat ID capability through investment in equipment, training and the continuous review of tactics, techniques and procedures. Following warfighting operations in Iraq the Department undertook a comprehensive review of Combat ID to identify the scope for improvements that could be made. As they become available, lessons from operations in Iraq will inform our approach to all elements of Combat ID capability.

In addition to our programme of continuous improvement and as a direct result of United Kingdom experience during the warfighting phase of Op. Telic, we have continued to deploy in theatre the United States Blue Force Tracking equipment. We have also provided air and ground platforms with systems that support identification in theatre. In addition, we are working on an agreement with the US for the exchange of information on situational awareness systems. Combat Identification devices for vehicles procured under Urgent Operational Requirement arrangements are also being used in routine training.

Radar Reflection (Aircraft)

Mr. Tam Dalyell: To ask the Secretary of State for Defence what assistance he is offering to manufacturers of windmill blades in overcoming problems of radar reflection on military aircraft. [166940]

Mr. Caplin *[holding answer 20 May 2004]:* The Department of Trade and Industry in association with the Ministry of Defence, the Civil Aviation Authority and British Wind Energy Association, through the Wind Energy, Defence and Civil Aviation Interests Working Group have commissioned Qinetiq to investigate the feasibility of developing wind turbine blades that would be invisible to radar. The Department is also aware, through the same Group, that Sheffield University is investigating the technology for development of similar wind turbine blades. Additionally, the working group hopes to test software technology that can be applied to radar to mitigate some of the effects that are caused by wind turbine blades. MOD expects, in due course, to take a major role in testing this technology. MOD officials are available to meet with any manufacturers of wind turbine blades to discuss radar issues.

Rifleman Miller

Mr. Kevin McNamara: To ask the Secretary of State for Defence what measures have been taken against those responsible for the attack upon Rifleman Miller of the 2nd Battalion the Royal Green Jackets in Ballykinler Barracks, County Down on 10 April. [175196]

Mr. Ingram: The alleged attack upon Rifleman Miller of the 2nd Battalion the Royal Green Jackets at Ballykinler, County Down on 10 April 2004 is still under investigation by the Royal Military Police. Until this investigation is completed and its recommendations considered it would be inappropriate for me to comment on this matter.

Royal Military Police

Mr. McNamara: To ask the Secretary of State for Defence what the internal process is for the Royal Military Police Special Investigations Branch to

evaluate the investigation of cases in order to improve efficiency and effectiveness; and what computer records are kept of conclusions drawn from internal evaluation. [174741]

Mr. Ingram: Headquarters Provost Marshal (Army) (HQ PM (A)) audits investigations to identify lessons learnt to improve the efficiency and effectiveness of investigations, and to improve the awareness of those who conduct, manage or supervise Royal Military Police investigations.

Additionally, Technical Evaluation Inspections are routinely conducted by the HQ PM (A) Inspectorate, to examine investigative processes and procedures and to conduct quality control audits of investigations conducted.

All Audit and Technical Evaluation Inspection reports are held on file at HQ PM (A), some electronically.

Support Vehicles

Mr. Laxton: To ask the Secretary of State for Defence what representations his Department has received from the United States embassy on behalf of US companies for the support vehicles contract; and if he will make a statement. [171576]

Mr. Ingram: We are support vehicle not aware of any representations from the United States embassy regarding the contract.

Typhoon Programme

Mr. Gerald Howarth: To ask the Secretary of State for Defence how much he estimates it will cost the United Kingdom to convert the Typhoon for a ground attack role. [175343]

Mr. Ingram: The Eurofighter Typhoon was planned from the outset to be a multi-role aircraft with an initial ground attack capability, progressively benefiting from enhancement to this and other capabilities as part of an incremental acquisition programme. The cost of these enhancements is currently being discussed as part of the wider, ongoing Tranche 2 negotiations. These negotiations could be prejudiced by the disclosure of cost estimates.

UN Operations

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether British Forces will be subject to Iraqi law following the handover of power on 30 June 2004. [169385]

Mr. Hoon: Following the assumption of authority by the Iraqi Interim Government on 30 June, the intention is that the Multi-National Force including United Kingdom forces will continue to be granted immunity from prosecution under local law. The precise means of achieving this are still under consideration. Members of the Multi-National Force will continue to be subject to the jurisdiction of their sending states.

Tom Cox: To ask the Secretary of State for Defence which branch of the UK military are responsible for the running of prisons in Iraq; who is the head of this branch; and to whom he is responsible for making reports. [174356]

Mr. Ingram: The United Kingdom's only detention facility in Shaibah is currently being run by 1st Regiment Royal Highland Fusiliers, with members of the Military Provost, who report to the Commander Multi-National Division (South East).

Young Service Personnel

Mr. Hoyle: To ask the Secretary of State for Defence how many 16 to 18-year-olds are serving in the *(a)* Army, *(b)* Royal Air Force and *(c)* Royal Navy, broken down by sex. [173773]

Mr. Caplin: I refer my hon. Friend to TSP (Tri Service Publication) 8: Age Distribution of UK Regular Forces at 1 April 2004.

This was published on 19 May 2004 and copies are available in the Library of the House.

Written Answers to Questions

Wednesday 26 May 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agricultural Subsidies

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs what help is given to the Exmoor area to secure the highest possible payments in respect of EU funding for farmers. [161881]

Alun Michael: EU co-financed funds are available under the England Rural Development Programme across England, including the Exmoor area. Schemes under this programme help farmers and foresters to become more competitive, diverse, flexible and environmentally responsible as well as providing help to rural communities to adapt and develop. Exmoor is a designated Environmentally Sensitive Area (ESA) and the Exmoor area was paid a total of £5.4 million under this scheme in 2003, a significant proportion of which was co-financed by the EU.

Anton Dohrn and Rosemary Bank Seamounts

Mr. Dalyell: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to protect the Anton Dohrn and Rosemary Bank Seamounts. [166924]

Mr. Bradshaw *[holding answer 17 May 2004]:* Seamounts are not one of the habitats listed on Annex I to the Habitats Seamounts Directive for which Special Areas of Conservation (SAC) can be designated. However, seamounts can support habitats such as reefs, which are listed on Annex I. At present, there is little biological information about these two areas, and therefore there is insufficient information to be able to assess whether they meet the site selection criteria for SAC.

Seamounts are one of the habitats on the initial list of threatened and/or declining habitats and species agreed by Ministers in June 2003 under OSPAR (The Convention for the Protection of the Marine Environment of the North-East Atlantic) Annex V. Work is progressing during 2004 to identify and agree among contracting parties to OSPAR appropriate management measures (which may include marine protected areas) for a selection of the habitats and species on this list.

Bovine Tuberculosis

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs when the Government will set a timetable for coming to a conclusion about the issue of TB in badgers; and if she will make a statement. [174207]

Mr. Bradshaw: The question of what to do about a wildlife reservoir of bovine tuberculosis is a complex one. The Government are determined to base its future TB policy on sound scientific evidence. The Randomised Badger Culling Trial (RBCT), due to be completed in 2006, should help decide whether culling badgers can form part of a cost-effective, sustainable and practical TB control policy.

On 9 February, Defra launched a consultation on the key principles on which a new long-term strategy for tackling bovine TB will be developed. This consultation asks questions on a wide-range of issues, including how the Government can establish targets, balance costs, benefits and risks, work in partnership with all the key interest groups and how policy can be developed in the light of emerging scientific evidence. That will include evidence from the ongoing RBCT and elsewhere (including the Four Areas badger culling trial in the Republic of Ireland, when published).

On 6 April, Defra announced the publication of a report from an independent scientific panel chaired by Professor Charles Godfray FRS. The report reviewed the progress of the RBCT and associated Defra research, as part of a wider review of Defra's science. The Government are giving careful consideration to the complex recommendations of the report, and the review's conclusions will inform Defra's wider review of TB strategy. Defra has extended the deadline for the public consultation on the TB Strategy review until 4 June, to allow sufficient time for this report to be assimilated and commented on.

Barnet Council

Mr. Dismore: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the decision of Barnet council to terminate its LA21 partnership scheme. [173929]

Mr. Morley: The Government want to see sustainable development become a mainstream issue for local authorities, their partners, and local communities. We believe that the most effective way to achieve this is to build upon the experience of partnership working and community engagement gained through Local Agenda 21 (LA21) and subsume LA21 strategies within statutory community strategies. These are required, by law, to promote sustainable development. Many councils have already done this, and we encourage others to follow suit. It is for authorities to decide whether to have additional plans or a dedicated partnership to support the delivery of sustainable outcomes, but we would expect them to ensure these are in place if LA21 is to end.

Endangered Species

John Mann: To ask the Secretary of State for Environment, Food and Rural Affairs when she plans to bring forward secondary legislation to implement section 307 (Enforcement of Legislation on endangered species) of the Criminal Justice Act 2003. [175236]

Mr. Morley *[holding answer 24 May 2004]:* Securing these Criminal Justice Act provisions was a major step forward. New secondary legislation will give effect to the provisions to strengthen police powers and to provide for tougher penalties.

Last year's public consultation exercise identified a number of complex issues which we need to resolve within Government but we are aiming to circulate a draft of the legislation for consultation in the autumn.

Fallen Stock

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the Fallen Stock Company to be up and running; and if she will make a statement. [174205]

Mr. Bradshaw: The National Fallen Stock Company has been up and running for some months now. It announced its proposals for a National Fallen Stock Scheme to start autumn this year on 13 May. Further details are available on the Defra website at http://www.defra.gov.uk/animalh/by-prods/default.htm

Farm Subsidies

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what EU rules apply to Common Agricultural Policy funds held by member states which choose to *(a)* place a ceiling on payments to larger farm holdings and *(b)* taper support payments to farm holdings degressively according to size; and what constraints this places upon the member state in respect of the impact of the redistribution of funds otherwise withheld. [172485]

Alun Michael: There are no such EU rules.

Greenhouse Gas

Mr. Chaytor: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she will take to ensure that the EU involves developing countries in future allocations of greenhouse gas emissions on an equitable per capita basis. [174043]

Mr. Morley *[holding answer 20 May 2004]:* The UK has had initial discussions on future action with a number of developing countries, both at official and ministerial level. For any future climate regime to be effective, it must be as inclusive as possible, and must certainly cover the main developing countries. We are committed to ensuring that developing countries are included in the early stages of the discussions on future action, not only to ensure that the outcome is acceptable to the largest emitting developing countries and we achieve as near universal acceptance as possible, but also to ensure that equity concerns are addressed.

We will continue to engage with developing countries at all levels, both through the formal channels that exist in the UNFCCC and through informal channels. We are currently considering how to build on this dialogue and stimulate further discussion.

Health and Pesticide Exposure

Mr. Tyler: To ask the Secretary of State for Environment, Food and Rural Affairs when the report on the Survey of Health and Pesticide Exposure, being carried out by the London School of Hygiene and Tropical Medicine and funded by her Department, is due to be published. [174664]

Alun Michael: Last July the Organophosphate Information Network informed Defra of its concerns over the conduct of the clinical phase of the study. The Department took these concerns seriously and decided to commission an independent audit of this phase of the study. On the recommendation of the Association of British Neurologists, Professor Kerry Mills from King's College Hospital London, was asked to carry out the audit. Professor Mills' prior commitments and correspondence between the physicians involved, resulted in the audit being started on 19 April this year. This process may take six months to complete.

During the past few days my Department has asked both the hon. Member for North Cornwall and Mrs. Elizabeth Sigmund, the Chair of the Organophosphate Information Network (OPIN), for their opinions on this matter. Following this consultation, I have decided that an interim report should be published pending the completion of the audit.

Seasonal Fruit Pickers

Colin Burgon: To ask the Secretary of State for Environment, Food and Rural Affairs what monitoring takes place to ensure that seasonal fruit pickers are not paid below the minimum wage. [175442]

Alun Michael: Seasonal fruit pickers are entitled to be paid at least the appropriate Agricultural Minimum Wage set by the Agricultural Wages Board for England and Wales, for each hour they work. Payment of the Agricultural Minimum Wage is enforced by Defra officials of behalf of the Secretary of State. Enforcement activity is complaint led and workers can register a complaint about their pay by telephoning the Defra Agricultural Wages Team on 0845 0000 134.

Pay rates in agriculture are surveyed on a sample basis through the Defra Earnings and Hours Survey. This survey is conducted on a quarterly basis and a summary of results is available on the Defra website (www.defra.gov.uk).

TRANSPORT

Contingency Planning

Llew Smith: To ask the Secretary of State for Transport whether the mobile phones and walkie-talkie communications units issued to emergency personnel who would be called upon to deal with a terrorist incident on the London Underground have the capability to work underground. [175081]

Mr. McNulty: British Transport Police (BTP) are responsible for policing on London Underground and would be amongst the first to respond to a terrorist incident on the Underground network. BTP officers have two hand-held radios, one for below ground and one for above.

Metropolitan Police radios work on two thirds of the London Underground network. In responding to a terrorist incident, or other emergency, on the Underground, the Metropolitan Police would work closely with BTP, and most of its responsibility would be at the surface. In the event that Metropolitan Police

officers were required to operate on the sections of the Underground network where their radios do not work, they would be able to communicate from below ground through BTP's radios. They would also receive communications support from London Underground staff.

London Fire Brigade officers carry hand-held radios that work on the London Underground by means of fixed extension aerials in place in all deep level Underground stations. If required to work underground in environments where such fixed aerials are not installed, London Fire Brigade officers are able to deploy portable cable aerials enabling the radios to operate underground.

All London Ambulance Service command vehicles carry portable cable aerials enabling London Ambulance Service radios to operate on the London Underground and other below ground environments.

Mr. Clifton-Brown: To ask the Secretary of State for Transport what plans there are to provide training for all public transport workers in case of a serious emergency. [174680]

Mr. McNulty: This is primarily a matter for each operator. London Underground, the rail and bus industries have already circulated advice to all front line staff. In addition, the Department requires London Underground to have contingency plans to deal with situations that could effect the security of its operations. These must be accessible at all times to staff at stations, so that they are fully aware of what to do in such situations, and be exercised regularly. We have made similar recommendations to all Train Operating Companies.

Bus Services

Mr. Hancock: To ask the Secretary of State for Transport what his assessment is of the ability of bus operators to maintain current service levels following the increase in the price of oil. [175438]

Mr. McNulty: Fuel costs represent only 6.5 per cent. of total local bus operating costs, after account is taken of support given by means of Bus Service Operators Grant, and it is not expected that recent changes in world oil prices will of themselves have a significant impact on service levels. We will however continue to monitor trends in overall bus industry costs.

Crime (Public Transport)

Mr. Damian Green: To ask the Secretary of State for Transport how many assaults and attacks where knives or firearms were used were committed on London Underground in each year since 1997. [175459]

Mr. McNulty: The British Transport Police (BTP) have advised me that this information is not readily available and could be compiled only at disproportionate cost.

Mr. Damian Green: To ask the Secretary of State for Transport how many crimes involving firearms or knives were committed on *(a)* buses and *(b)* the railways in each year since 1997. [175462]

Mr. McNulty: The British Transport Police (BTP) have advised me that this information is not readily available for crimes committed on the railways and could be compiled only at disproportionate cost. No data is held centrally regarding the number of crimes on buses since 1997 which have involved firearms or knives.

Departmental Staff

Matthew Taylor: To ask the Secretary of State for Transport how many staff were employed in the Department to work in the communications field, and what the total expenditure on communications for the Department was, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisors and (iii) others, in *(A)* 1994–95, *(B)* 1996–97, *(C)* 1997–98 and *(D)* 2001–02. [168677]

Mr. McNulty: *(A)* 17 permanent press officers, all members of the then Government Information Service (GIS), were employed by the former Department of Transport (central)'s Information Division in 1994–95. Further information for this financial year about numbers of other staff and salary costs of these and press officers is not available and could only be provided at disproportionate cost.

(B) Detailed information on the numbers and salary costs of permanent press officers, members of the then GIS, employed in departmental press offices, including the former Department of Transport *(c)* for the financial year 1996–97, was provided in a memorandum dated 16 June 1998 to the Select Committee on Public Administration and published in its report on the Government Information and Communication Service (HC 770) in July 1998 (http://www.publications.parliament.uk/pa/cm199798/cmselect/cmpubadm/770/77002.htm). Copies are in the Libraries of the House. Information for other staff is not available in a comparable format and could only be provided at disproportionate cost. *(C-D)* Information for each of the financial years 1997–98 and 2001–02, when transport policy formed part of the remit of the former Departments of Environment, Transport and the Regions and Transport, Local Government and the Regions (respectively), is not available in a comparable format.

The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This can include communications activity. Details of the costs of Special Advisers are given on an annual basis.

Disabled Parking

Ross Cranston: To ask the Secretary of State for Transport pursuant to the answer of 22 March 2004, *Official Report*, column 513W, on disabled parking, what progress has been made on *(a)* taking forward the Disabled Persons Transport Advisory Committee's new recommendations, *(b)* revised guidance to local authorities, *(c)* research on the feasibility of a national database of Blue Badge holders and *(d)* consultation on secondary legislation for extending the scheme. [176032]

Mr. McNulty: Work is continuing across all the areas of work I outlined in my previous answer in March.

The revised guidance that will be drawn up to explain the changes I described will be produced in draft and will form part of the public consultation that will take place on the draft regulations to extend the scheme to children under two and those with temporary disabilities. That consultation is expected later this year.

The work specification for the research on a national database is being finalised. We plan to go out to tender on that work over the summer.

Ministerial Visits

Matthew Taylor: To ask the Secretary of State for Transport if he will list visits made by each Minister in the Department between December 2003 and April 2004, broken down by *(a)* date, *(b)* constituency visited and *(c)* cost. [171566]

Mr. McNulty: Ministerial visits on official business within the United Kingdom for the period from 1 December 2003 to 30 April 2004 are given in tables 1 to 4. The visits were not made to specific constituencies and a number of visits would involve travelling to or through more than one constituency. Details of the cost of each visit could only be provided at disproportionate cost.

The Government publishes on an annual basis the total costs of all ministerial overseas travel and a list of all visits by Cabinet Ministers costing in excess of £500. Information for 2003–04 is currently being collected and will be published as soon as it is ready.

Table 1: Visits by Secretary of State

Visit	*Date(s) of visit*
Opening of M6 toll road, West Midlands	9 December 2003
Launch of Queen Mary 2, Southampton	8 January 2004
Channel Tunnel Rail Link breakthrough, Kings Cross	27 October 2004
C2C/ Ford centre of excellence, Dagenham	2 February 2004
Opening of train facility, Waterloo	23 February 2004
Nottingham Express Tram	8 March 2004
Rail Seminar, Glasgow	26 March 2004
Regional visit to North East	29 March 2004
Greater Anglia Launch, Liverpool Street	1 April 2004
Rail Seminar, York	23 April 2004
Launch of Highways Agency Traffic Officers, Birmingham	26 April 2004
Rail Seminar, Cardiff	28 April 2004

Table 2: Visits by Kim Howells

Visit	*Date(s) of visit*
Regional visit to North East	2 and 3 December 2003
EWS rail freight performance discussions visit , London	17 December 2003
Christmas rail blockade publicity visit, Clapham Junction	23 December 2003
Regional visit to North West	21 and 22 April 2004
Secure Station award presentation, Hereford	26 January 2004
First Great Western rail performance discussions visit, Reading	4 February 2004
Regional visit to South West	11 February 2004
Trevithick Celebrations—train naming, Cardiff	18 February 2004
Network Rail Scotland performance discussions visit, Edinburgh	7 April 2004
South West Trains—launching digital passenger information screens, Clapham Junction	22 April 2004
Rail Seminar, York	23 April 2004
London Underground power control room visit, central London	27 April 2004
Rail Seminar, Cardiff	28 April 2004

Table 3: Visits by David Jamieson

Visit	*Date(s) of visit*
Visit to Coventry University	4 December 2003
AA:Control Centre visit, Farnborough	8 December 2003
Launch of Queen Mary 2, Southampton	8 January 2004
Visit to Severn View "green refuelling" station, Bristol	22 January 2004
'Sustainable Communities' visit, Redruth	2 February 2004
Visit to Ford Plant, Southampton	26 February 2004
Regional visit, Yorkshire	3 March 2004
Visit to Highway Agency Office and Exeter Airport	25 March 2004
RoSPA Conference, Brighton	29 March 2004
DVLA Campaign, Plymouth	6 March 2004
A249 Kent "sod cutting" and "Greenergy" visit, Maidstone	29 March 2004

Table 4: Visits by Tony McNulty

Visit	*Date(s) of visit*
Visit to Leaside Regeneration Ltd.—Bow Flyover redesign and infrastructure improvements	4 December 2003
Opening Torquay pedestrianisation scheme	8 January 2004
Visit to Thames Gateway—Stratford area in relation to transport and the Olympic bid	7 January 2004
Opening Harrogate bus station and a Bus Challenge project	12 January 2004
Launch of "MAVIS" Rig at Mobility Advice and Vehicle Information centre, Berks and visit to Air Accident Investigation Branch	22 January 2004
Havant—Government Liveability announcement	2 February 2004
Tour of Thames Gateway with South Essex partnership	2 March 2004
Speech to South East Regional Assembly, Woking and visit to Government Office for the South East, Guildford	3 March 2004
Launch of the Solent Travelcard, Portsmouth	4 March 2004
Launch of Urban Bus Challenge project, Corby	15 March 2004
Opening of Surrey's Network Management Information Centre, Leatherhead	24 March 2004
Visit to Com Cab taxi company, Harrow	29 March 2004
Launch of a bus fleet, Hove	2 March 2004
Visit to Rural Bus Challenge scheme, Doncaster	20 March 2004
Opening of public transport interchange scheme, Newcastle	21 March 2004
Opening of British Transport Police mobile custody suite, Stratford, London	22March 2004
Visit to an urban regeneration company and viewing of Local Transport Plan funded projects, Cornwall	28 April 2004

Parliamentary Questions

Mr. Paul Marsden: To ask the Secretary of State for Transport how many Parliamentary Questions to his Department in the last year took *(a)* two to four weeks and *(b)* over four weeks to answer. [174868]

Mr. McNulty: At 21 May 2004, the Department for Transport had answered 3,052 written questions tabled since 18 May 2003. This comprised 2,567 written ordinary questions (98.2 per cent. of which were answered within 10 sitting days) and 485 named day questions (98.8 per cent. of which were answered within 10 sitting days).

Railways

Mr. Burstow: To ask the Secretary of State for Transport (1) what assessment he has made of the performance of train operating companies to date in complying with their duties under the Disability Discrimination Act 1995 section 21(2)*(d)* to take reasonable steps to provide disabled persons with a reasonable alternative method of accessing their services where a physical feature makes it impossible or unreasonably difficult for disabled persons to make use of those services; [175684]

(2) what assessment he has made of the performance of train operating companies to date on revising and implementing new Disabled People's Protection Policies in line with the Strategic Rail Authority's Code of Practice on Train and Station Services for Disabled Passengers and Guidance on Disabled People's Protection Policies; [175685]

(3) what assessment he has made of the performance of train operating companies to date on conducting access audits and making changes to physical features to prepare for the new duties on physical access coming into force under the Disability Discrimination Act 1995 on 1 October. [175686]

Mr. McNulty: It is the responsibility of each train operator to comply with the requirements of Section 21 of the Disability Discrimination Act 1995. All operators have been required by the Strategic Rail Authority (SRA) to review their Disabled People's Protection Policy (DPPP). As part of the review each train operator has undertaken access audits of the facilities it operates. Train operators have a commitment to meet the services, standards and guidance defined in the SRA's Code of Practice when refurbishing rolling stock, providing new or enhanced facilities at stations and for the provision of services at stations and on trains. All train operators either have a revised DPPP approved by the SRA or are seeking such approval. Twenty Train Operating Company Disabled People's Protection Policies have been approved to date. Each revised DPPP places an obligation on the operator to provide a 'reasonable alternative means' of making a journey accessible to disabled passengers where physical barriers preclude them from doing so.

Road Traffic Accidents (A49)

Mr. Paul Marsden: To ask the Secretary of State for Transport how many *(a)* deaths and *(b)* injuries in road traffic accidents there were on the A49 between Shrewsbury and Ludlow in each of the last five years. [174983]

Mr. McNulty: The following information is taken from figures provided by West Mercia Police and incorporates the A49 from Baileys Roundabout to the Herefordshire/Shropshire County boundary.

	Fatal	*Serious*	*Slight*	*Total*
1999	1	8	72	81
2000	3	12	56	71
2001	2	7	59	68
2002	7	16	47	70
2003	1	4	70	75
Total	14	47	304	365

South Hampshire Rapid Transit Project

Mr. Hancock: To ask the Secretary of State for Transport pursuant to his answer of 1 April 2004, *Official Report*, column 1576W, on South Hampshire Rapid Transit Project, if he will ensure that a decision on the future of the project is made before the 23 July deadline for using compulsory purchase powers. [175436]

Mr. McNulty: A decision will be made in due course.

FOREIGN AND COMMONWEALTH AFFAIRS

Abu Ghraib

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the United States Administration, and with whom, on the cases of abuse that have taken place against Iraqi prisoners at the Abu Ghraib prison in Iraq; and if he will make a statement. [173074]

Mr. Straw: I have regular discussions with senior members of the US Administration on a wide variety of issues concerning Iraq. It is not our practice to make public the detail of those discussions under exemption 1*(b)* of Part 2 of the Code of Practice on Access to Government Information.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions the Commander of the United States forces in Iraq has had with *(a)* the current British representative or his predecessor to the Coalition Provisional Authority and *(b)* the Commander of British Forces in Iraq about the allegations made in respect of the abuse of detainees at (i) the Abu Ghraib prison and (ii) other prisons in Iraq; and what the outcome has been of communications on the matter. [173338]

Mr. Straw: By the time UK officials were aware of the specific allegations the US authorities had already begun detailed investigations. We have had a number of discussions with US military and civilian authorities about the need to improve detention procedures. The US authorities have been taking measures to improve those procedures. The US military established a high level military inquiry under General Antonio Taguba in late January.

Afghanistan

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his Belgian counterpart concerning Belgium's decision to double its military commitment to Afghanistan; and if he will make a statement. [175710]

Mr. Mike O'Brien: We warmly welcome the announcement by the Belgian Prime Minister on 20 May that Belgium will double the size of its troop contingent in Afghanistan to around 600. My right hon. Friend the Foreign Secretary has not had the opportunity to discuss this with the Belgian Foreign Minister in the short time since the announcement was made.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his EU counterparts on the number of EU troops stationed in Afghanistan; and if he will make a statement. [175755]

Mr. Mike O'Brien: My right hon. Friend the Foreign Secretary attended the Berlin Conference on Afghanistan in March and the meeting of G8 Foreign Ministers in Washington on 14 May. Military support in Afghanistan was discussed at both these meetings, which were attended by a number of EU Foreign Ministers. Most recently, on 20 May the Foreign Secretary discussed the need to support the NATO mission in Afghanistan with the Spanish Foreign Minister. EU member states provide around three-quarters of the troops in the International Security Assistance Force and this is likely to increase later this year. In addition, the UK and Germany lead Provincial Reconstruction Teams in northern Afghanistan, to which EU partners and other nations contribute personnel. EU Member States also contribute forces individually to combat missions in Afghanistan under Operation Enduring Freedom.

Bribery

Malcolm Bruce: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent guidance he has produced for diplomatic posts on the issue of overseas bribery; and what plans he has to update that guidance. [171395]

Mr. MacShane: The Foreign and Commonwealth Office issued its latest guidance to diplomatic posts on bribery overseas on 5 April 2004. The Foreign and Commonwealth Office plans to update this guidance annually. The update may be brought forward should a change in circumstances warrant it. The Foreign and Commonwealth Office will place a copy of this guidance in the Library of the House. We will also place a copy of the new UK bribery and corruption law leaflet in the Library, as soon as it is republished.

China

Sue Doughty: To ask the Secretary of State for Foreign and Commonwealth Affairs which individual cases were included in the list provided by the EU to the Chinese Government during the EU and China Human Rights dialogue in Dublin on 26 to 27 February. [165265]

Mr. Rammell: The EU considers the list to be confidential. I cannot, therefore, independently put the list into the public domain. There were, however, 76 names on the list.

The individual cases raised with the Chinese in connection with last year's UK China Human Rights dialogue were: Wang Youcai; Li Wangyang; Jampel Changchub; Phuntsog Nyidron; Qin Yongmin; Zhang Shanguang; Gedhun Choekyi Nyima; Tenzin Deleg Rinpoche; Sonam Dondrub; Zhu Ruixiang; Lu Genjun; Xu Zerong; Jiang Shurang; Bishop James Su Zhimin; Shi Enxiang; Huang Qi; Yang Zili; Xu Wei; Zhang Honghai; Jin Haike; Li Jiaqing; Wang Yulan; Li Haihe; Luo Gang; He Ping; Jiang Weiping; Liu Jingsheng; Shan Chengfeng; Yan Peng; Mu Chuanheng; Zhu Baolian; Qi Yanchen; Yao Fuxin; Xiao Yunliang; Chadrel Rinpoche; Namdrol; Jiang Qisheng; Jelil Turdi; Rebiya Kadeer; Abitjan Obulkasim; Nurhahmat Yusup; Tohti Tunyaz; Jelil Turdi; Tursunjan Emet; Ablat Pasar; Iminjan; Abdushukur Abliz (Abdushukur Haji); Ahmed; Rahmatjan; Karim Sadiq; Yasim Kari; Abla Karim; Liu Weifang; Yeshe Gyatso; Liu Di; Yin Lirong; Ning Shuncheng; Zhou Yudan; Zhou Guicheng; Fan Xiaohong; Tang Ren'er; Choi Yong-hun; Rev. Choi Bong-il; Kim Hee-tae; Nima Choedron; Champa Chung-lags; Li Dexian; Wang Zhiwen; Phuntsok Legmon; Jigme Yangchen.

Coalition Provisional Authority

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what arrangements are in place for *(a)* information sharing and *(b)* joint decisions between Paul Bremer and his American staff at the Coalition Provisional Authority (CPA) and the United Kingdom representation in the CPA. [173346]

Mr. Straw: Formally Ambassador Bremer, the Administrator, is responsible for all CPA decisions. There is close daily contact and regular consultation, however, between the American and British staff at the CPA and the Office of the United Kingdom Special Representative.

Colombia

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 18 May 2004, *Official Report*, column 872W, on Colombia, if he will list the projects *(a)* currently run by the Child Protection Alliance in the Gambia and *(b)* run by the Child Protection Alliance in the Gambia in the last three years; what funding was provided by his Department through the High Commission in Banjul in each case; and if he will make a statement. [175524]

Mr. Mullin: Since the Child Protection Alliance (CPA) was founded in 2001 it has undertaken the following projects, some of which are still continuing:

Radio/Television programmes to discuss issues related to Child Protection.

Printing and distributing a quarterly newsletter.

National HIV/AIDS writing competition for children.

An assessment of all member organisations.

A monthly "Bantaba" (Talking/Meeting Point) for relevant organisations/children.

Printing and dissemination of the National Training Manual on Child Protection.

Production of information materials on child protection issues.

Sensitisation workshops on Child Sex Tourism and Commercial Exploitation of Children for stakeholders in the tourism industry.

Training workshops for journalists on developing an ethical code of conduct for reporting issues involving children.

Training workshop on Commercial Sexual Exploitation of Children for managers of hotels, guesthouses and tour operators.

Training workshop on Commercial Sexual Exploitation of Children for front desk staff of hotels etc.

Sensitisation workshop for hotel security guards on HIV/AIDS and Commercial Sexual Exploitation of Children.

Summer camp for children on Child Rights, HIV/AIDS and Life Skills.

National Membership Workshop on Child Rights promotion and protection in The Gambia.

Development of a Resource Centre for CPA member organisations and researchers.

Sensitisation workshop for Health and Social Workers on HIV/AIDS and the Commercial Sexual Exploitation of Children.

Over the last three years the British High Commission in Banjul has provided a total of £3,465 to fund a capacity building project, information campaign on child protection issues, and an assessment of member organisations.

EU Constitution

Mr. Austin Mitchell: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he expects the changes made to the draft Constitutional Treaty to give the Commission strategic control over oil supplies; how he interprets strategic control in this context; and what he estimates the effect will be on the British oil industry. [174948]

Mr. MacShane: The Government was content with the amendments to the Energy Chapter (Article III. 157) put forward by the Italian Presidency in document CIG 60/04 ADD 1 (published on 9 December and placed in the Library of the House). These made it clear that the member states retained the right to choose how to exploit their natural resources and to ensure security of supply during emergencies. The Irish Presidency's latest package of amendments (in document CIG 76/04 published on 13 May and placed in the Library of the House) proposed the deletion of the Energy Chapter and removed energy from the list of shared competences in the draft Constitutional Treaty. The Government are also content with this approach which would reflect the position in the existing Treaties.

Ferry Accident (West Africa)

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what contribution the Government is providing to the search for the ferry stranded off the West African coast since 18 May carrying Liberian refugees from Nigeria and Ghana; and if he will make a statement. [175499]

Mr. Mullin: None. The French navy rescued the stranded ship 'Dona Elvira', 250 kms off the Ivorian coast on 20 May. The ship contained over 300 returning Liberian refugees who are now in the care of the UN High Commission for Refugees.

Guantanamo Bay

Mr. Gordon Prentice: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his counterpart in the United States concerning the disapplication of the Geneva Convention in respect of the detainees held in Guantanamo Bay. [173004]

Mr. Mullin: My right hon. Friend the Foreign Secretary has regular contact with his US counterpart on a wide range of issues, including Guantanamo Bay.

The focus of the Government's discussions with the US authorities about Guantanamo Bay has been on how to resolve the position of the British nationals held there, as well as their welfare.

The Government's position is that the British detainees should either be tried fairly in accordance with international law or they should be returned to the UK. Our hope, however, is that the issues we have raised will be reflected in the treatment of other countries' nationals detained at Guantanamo Bay too.

We have made very clear to the US that the British detainees at Guantanamo Bay are entitled to be treated humanely. British officials have visited Guantanamo Bay on seven occasions to check on the welfare of the British detainees, most recently in March. We have raised any concerns we might have about their welfare with the US authorities.

Iraq

Glenda Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs who within the Iraqi Coalition Provisional Authority has responsibility to monitor and ensure that Geneva Convention requirements are met by coalition forces; how often such monitoring is conducted; and to whom the individual or individuals report their findings. [173451]

Mr. Straw: The Coalition Provisional Authority itself is not responsible for monitoring the application of the Geneva Conventions. Instead, it is coalition military commanders in theatre who are responsible for ensuring that the requirements of the Geneva Conventions are met.

Glenda Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many of the oral and written concerns made by the International Committee of the Red Cross Coalition forces during 2003 were received by his Department; and what action was taken. [173201]

Mr. Straw: Throughout 2003, once it was clear that there was a possibility of UK troops becoming involved in Iraq, there were regular and co-operative discussions between Foreign and Commonwealth Office (FCO) Ministers and officials and the ICRC on Iraq.

During these meetings, the ICRC briefed on the general humanitarian situation in Iraq and reminded us of our international humanitarian law obligations concerning detainees. Our records do not indicate that any specific oral or written concerns about coalition forces were passed to the FCO in 2003. As is standard practice, they would have been passed in the first instance to the authorities directly responsible for the treatment of detainees. I have no reason to doubt that the UK military authorities responsible for detainees in Iraq took appropriate action in response to any ICRC concerns. As my hon. Friend the Minister of State for the Armed Forces (Mr. Ingram) made clear in the House on 13 May, HMG co-operates fully with the ICRC. It is offered full access to the detention facilities that we operate and each concern that it brings to our attention is treated very seriously and investigated fully.

Glenda Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs when he was informed that the International Committee of the Red Cross report of February 2004 had been received by his Department; and when he asked to see it. [173220]

Mr. Straw: As I said in the House on 11 May, I was made aware of the ICRC report during the weekend of 8–9 May 2004.

Glenda Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs what action has been taken by the Coalition Provisional Authority to investigate the allegations of brutality and illegality by Iraqi police, contained in the International Committee of the Red Cross report of February 2004. [173221]

Mr. Straw: As part of its responsibilities the Coalition Provisional Authority created within the Iraqi Ministry of Interior an internal affairs department that is tasked with leading on all such investigations. A team of international police advisers supports and monitors the progress and work of this department.

Glenda Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the United States Secretary of State, Mr.Colin Powell, concerning the International Committee of the Red Cross report of February 2004. [173222]

Mr. Straw: I have regular discussions with Secretary Powell during which a wide variety of issues concerning Iraq are discussed. It is not our practice to make public the detail of those discussions under exemption 1 *(b)* of Part 2 of the Code of Practice on Access to Government information.

Glenda Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions took place, upon receipt of the International Committee of the Red Cross report of February 2004, between British and US officials of the Coalition Provisional Authority. [173244]

Mr. Straw: British officials attended a meeting between Ambassador Bremer and the ICRC on 26 February at which the ICRC report was handed to Ambassador Bremer. Follow-up discussions with US officials confirmed the previous US announcement that the US military investigation had begun as soon as the allegations about mistreatment at Abu Ghraib were brought to light in January.

Glenda Jackson: To ask the Secretary of State for Foreign and Commonwealth Affairs for what reason Sir Jeremy Greenstock's Office did not immediately forward to his Department the International Committee of the Red Cross report of February on receipt. [173264]

Mr. Straw: The ICRC report was formally presented to the Coalition Provisional Authority Administrator in Baghdad by a representative of the ICRC at a meeting on 26 February. UK officials attended. A report of the meeting was sent to London by telegram within 24 hours. A copy of the report had already been passed to Permanent Joint Headquarters. The Office of the UK Special Representative was assured that investigations had already been launched into allegations involving US forces. The office sought and received confirmation that allegations involving misconduct by UK forces were also already under investigation.

Mrs. Calton: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* instruction and *(b)* guidance his (i) officials and (ii) Ministers were following prior to the decision not to make the February International Committee of the Red Cross report available to him as soon as it became available to his Department. [173572]

Mr. Straw *[holding answer 19 May 2004]:* Ministers and officials follow standard procedures to ensure that the UK's obligations under international law are fully respected. As has been made clear, action was already in hand on the allegations concerning UK forces.

Mrs. Calton: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* written and *(b)* oral briefing was provided by officials in his Department to inform (i) him and (ii) his Ministers of the contents of the International Committee of the Red Cross report and actions taken (A) as a result of officials having read the report and (B) prior to the full report being made available to him. [173575]

Mr. Straw *[holding answer 19 May 2004]:* Officials in Baghdad took appropriate action as soon as the report was received in February to pass it back to Permanent Joint Head Quarters for confirmation that action on all those areas concerning UK forces was already in hand. Officials in Baghdad were also assured that investigations had already been launched into allegations involving US forces.

My hon. Friend the Under-Secretary of State for Foreign and Commonwealth Affairs was made aware of the report (though not given a copy) at a meeting in Geneva on 18 March with Dr. Kellenberger, President of the ICRC. On his return to London, Mr. Rammell discussed the concerns raised by Dr. Kellenberger with officials, and was satisfied that action was in hand to deal with the allegations concerning UK troops. I became aware of the ICRC report on the weekend of 8–9 May.

My noble Friend the Baroness Symons of Vernham Dean, Minister of State at the FCO, was briefed in general terms on detainee issues on 27 April in advance of taking a question in the House of Lords on the Amnesty International report "Iraq: One Year On". The ICRC was not covered.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs which member of the Government was first informed of the International Committee of the Red Cross Report on the treatment by coalition forces of prisoners of war in Iraq and its contents; and when this was. [173424]

Mr. Straw *[holding answer 17 May 2004]:* I understand that my right hon. Friend the Minister of State, Ministry of Defence, was the first Minister to be made aware of the report which as he has already made clear was in February. My right hon. Friend had already been aware for some months of two substantive issues raised in respect of UK forces, and of the action taken.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his oral answers of 11 May 2004, on Iraq, when the International Committee of the Red Cross Report was received at the Foreign Office; and what action was taken. [173426]

Mr. Straw *[holding answer 17 May 2004]:* A copy of the ICRC report was obtained by a Foreign and Commonwealth Office official during a visit to Baghdad on 19 March. It was not marked for Ministers' attention as MOD action was already in hand on the allegations concerning UK forces.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his letter placed in the Library on 11 May concerning the handling of the International Committee of the Red Cross report and the telegram sent to London by the office of the UK Special Representative for Iraq on 27 February, which office received the telegram; to which Department and to which Ministers and senior officials the telegram was subsequently distributed; and when the telegram was distributed. [173677]

Mr. Straw *[holding answer 18 May 2004]:* According to records in the Foreign and Commonwealth Office (FCO) Communications Centre the telegram referred to was received on 27 February 2004 in the FCO and other relevant Government Departments. Records indicate that it was distributed at official level to private offices. It was not marked for ministerial attention. Action was already in hand on the allegations concerning UK forces.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* his United States counterpart and *(b)* the United States Secretary of Defence in respect of the use by the Coalition Provisional Authority in Iraq of private contractors to (i) conduct interviews and (ii) otherwise manage detainees. [174013]

Mr. Straw: I refer my hon. Friend to the answer I gave to my hon. Friend the Member for Tooting (Tom Cox) today (UIN 173074).

Mr. David Stewart: To ask the Secretary of State for Foreign and Commonwealth Affairs whether funds generated from oil assets in Iraq are ring-fenced for that country's domestic use; and if he will make a statement. [174018]

Mr. Rammell: United Nations Security Council Resolution (UNSCR) 1483 of 22 May 2003 decided that all proceeds from sale of Iraq's oil should go into the Development Fund for Iraq to meet the needs of the Iraqi people and the costs of economic reconstruction and civilian administration.

UNSCR 1483 also decided that Iraq's oil wealth should be ring-fenced from external attachment and legal proceedings and calls upon member states to take all necessary steps to assure this protection.

The only exception to this is that 5 per cent. of proceeds from oil should be deposited in the United Nations Compensation Fund for Kuwait established in accordance with UNSCR 687 of 1991 and subsequent relevant resolutions. As outlined in UNSCR 1483 this latter requirement will be binding on an internationally recognised sovereign government of Iraq unless that government and the Governing Council of the United Nations Compensation Commission decide otherwise.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 11 May 2004, *Official Report*, column 199W, on Iraq, how many Iraqis are being consulted through the process being led by UN Special Envoy Lakhdar Brahimi; and what the UK Government's policy is on his recommendations on *(a)* the structure and personnel of the Interim Government and *(b)* the best method of selecting delegates to the planned National Conference. [174103]

Mr. Rammell: The UN Secretary General Adviser on Iraq, Lakhdar Brahimi continues to consult a large number of Iraqis in Baghdad and elsewhere in Iraq in his efforts to help forge Iraqi consensus on the formation of the Interim Government. We warmly welcome Brahimi's initial proposals and look forward to Iraqi agreement on the way forward by the end of May.

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs from what source of funds the money for bounties for the capture of wanted individuals in Iraq comes; and if he will make a statement. [174189]

Mr. Rammell: Her Majesty's Government does not offer bounties for the capture of wanted individuals in Iraq.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) between what dates the September 2002 source upon which the Government based its claim that Iraq sought to procure uranium from Africa indicated that the attempted procurement took place; [175478]

(2) whether the documentary evidence reported in June 2002, referred to in Paragraph 89 of the Intelligence and Security Committee report, Cm 5972, upon which the Government did not rely to back up its claim that Iraq sought to procure uranium from Africa, was found to be *(a)* forged and *(b)* the same as any of the documents described as forged by the International Atomic Energy Agency on 7 March 2003; [175493]

(3) whether the Government have established the origin and history of the documents referred to as still under consideration in Paragraph 4 of the Further Supplementary Memorandum from the Foreign and

Commonwealth Office, Iraqi Attempts To Procure Uranium, of July 2003, Written Evidence to the Foreign Affairs Committee, Ninth Report, HC 813-II. [175494]

Mr. MacShane: I refer my hon. Friend to the answer that my right hon. Friend the Foreign Secretary gave on 6 May 2004, *Official Report*, column 1733W.

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Intelligence and Security Committee *(a)* requested and *(b)* saw the intelligence (i) upon which the Government based its claim that Iraq sought to procure uranium from Africa and (ii) considered by the International Atomic Energy Agency to be forged which was released to the Secret Intelligence Service by the third party in question and referred to in paragraph 92 of the ISC report, Cm 5972. [175479]

Mr. MacShane: I have nothing to add to the Intelligence and Security Committee's account of their inquiry into this matter, given in paragraphs 87–93 of their report (Cmnd 5972).

International Cricket

Mr. Don Foster: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with the International Cricket Council regarding the rules operated by the ICC in respect of cricket tour cancellations. [175486]

Mr. Mullin: There have been no such discussions.

Israel

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the report by Amnesty International, "Israel and the Occupied Territories—Under the rubble: House demolition and destruction of land and property", published on 18 May. [175287]

Mr. Straw: We share Amnesty International's concerns about deteriorating housing conditions in the Occupied Territories and the wider human rights and humanitarian consequences of the Israeli-Palestinian conflict. In a press statement on 17 May I expressed my concern at the demolition of Palestinian homes in Rafah. These actions are contrary to Israel's commitments under the roadmap and are unacceptable. And on 19 May, I expressed my profound concern about the deaths of Palestinian civilians demonstrating against house demolitions. Copies of both my statements are available on the Foreign and Commonwealth Office website: www.fco.gov.uk/policy/news/press-releases. Demolitions are provocative, exacerbate tension and undermine ongoing efforts to bring about an end to violence and a return to negotiations. Israel must act within international law and refrain from using excessive force and taking actions which amount to collective punishment. The UK voted for UNSCR 1544 which condemned Israel's actions on 19 May 2004.

Kenya

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has held with the new Kenyan Government since the general election in Kenya in December 2002; and what issues were discussed. [175168]

Mr. Mullin: My right hon. Friend the Foreign Secretary met the Kenyan Foreign Minister, Stephen Kalonzo Musyoka in February 2003. Issues discussed were the priorities for the new Kenyan government, Iraq, Zimbabwe and terrorism.

On 29 April 2004, I met the Minister for Justice and Constitutional Affairs, Kiraitu Murungi, to discuss Constitutional and other reforms, including anti-corruption, and Julie Ward. In June 2003 I met the then Vice-President, Michael Wamalawa, and in October 2003, Foreign Minister Musyoka and a delegation of Kenyan Ministers. In October 2003 I visited Kenya, meeting President Mwai Kibaki and members of his government.

My right hon. Friend the Prime Minister and I met President Kibaki on 9 October 2003.

Victor Bout

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will support the freezing of assets owned by Mr. Victor Bout; and if he will make a statement on the reasons for the UK removing Mr. Bout's name from a list of individuals to be targeted by United Nations sanctions. [175566]

Mr. Straw *[holding answer 25 May 2004]:* The UK has consistently supported international efforts to end Victor Bout's illegal activities, and UK Ministers have publicly welcomed action taken against his sanctions-busting activities. Our commitment to dealing with arms traffickers/sanctions busters is second to none, and a matter of public record.

I am unable to comment on specific nominations under discussion in the United Nations Security Council for the asset freeze imposed by UNSCR 1532. To do so would risk capital flight.

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs what investigations the Department has carried out into the activities of Victor Bout. [174769]

Mr. Rammell: The Foreign and Commonwealth Office (FCO) does not have investigative authority/powers. We pass any information we receive concerning alleged breaches of arms embargoes and sanctions regimes to the appropriate investigative authorities.

FCO Ministers have publicly stated our position on Victor Bout and his sanctions-busting activities. On 7 November 2000 my right hon. Friend the then Minister of State at the FCO said in the House that Victor Bout is "the chief sanctions buster, and is a merchant of death . . . " *Official Report*, column 156. On 2 May 2002, my hon. Friend the then Parliamentary Under-Secretary of State at the FCO said in the House, "I hope that . . . increased international pressure on Bout will finally result in the end of his sanctions-busting activities and that he will be brought to justice. The UK has played a leading role in drawing international attention to Bout's illegal activities . . . " *Official Report*, column 929W.

Qualified Majority Voting

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the occasions when the UK has been outvoted when Qualified Majority Voting in the European Council has applied in every year since 1992, stating in each case the issue concerned; and if he will make a statement. [175286]

Mr. Straw: The European Council does not take decisions by Qualified Majority Voting (QMV), but agrees Presidency conclusions by consensus. The Council of Ministers does take decisions by QMV on legislation where the legal base so provides. Since January 2001, details of voting in the Council of Ministers have been published by the Council Secretariat in its monthly summaries of Council acts. These can be accessed on the Council's internet site at: http://ue.eu.int/cms3_applications/showPage.asp?id = 551&lang = :en&mode = g.

Sudan

Lady Hermon: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions have taken place between the UK Government and the Government of Sudan regarding reports of ethnic cleansing in the Darfur region of Sudan; and if he will make a statement. [175905]

Mr. Mullin: I refer the hon. Member to the reply given to my right hon. Friend the Member for Birmingham Ladywood (Clare Short) on 25 May 2004 (UIN 175841).

Travel Costs

David Davis: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the travel costs incurred *(a)* by his Department and *(b)* by each Minister within his Department, for each of the last 10 years. [175645]

Mr. Straw: I refer the hon. Member to my right hon. Friend the Prime Minister's answer on 16 July 2003 *Official Report*, column 328W. A figure for the financial year 2003–2004 will be published as soon as possible.

In addition, since 1999 the Government has published an annual list of all visits undertaken by Cabinet Ministers costing £500 or more during each financial year. Details for the financial year 2003–2004 will be published as soon as possible. Copies of these lists can be found in the Library of the House.

PRIME MINISTER

Iraq

Glenda Jackson: To ask the Prime Minister pursuant to his answer of 12 May, *Official Report*, column 385W, on Iraq, whether the employment of civilian contractors and interpreters in Abu Ghraib prison was *(a)* known to and *(b)* sanctioned by the Coalition Provisional Authority. [174329]

The Prime Minister: The employment of civilian contractors and interpreters in Abu Ghraib prison is a matter for the US authorities.

Ministerial Visits

David Davis: To ask the Prime Minister (1) if he will list the travel costs incurred by his Office for each of the last 10 years; [175657]

(2) how much his Office spent on ministerial travel by *(a)* car, *(b)* train, *(c)* aeroplane and *(d)* helicopter, in each of the last 10 years. [175660]

The Prime Minister: For travel costs prior to 2002, I refer the right hon. Member to the answer my right hon. Friend, the Minister for the Cabinet Office (Mr. Alexander) gave to the hon. Member for Arundel and South Downs (Mr. Flight) on 13 November 2003, *Official Report*, columns 397–398W.

For information for 2002–03, I refer the right hon. Member to the answer I gave the hon. Member for Warwick and Leamington (Mr. Plaskitt) on 16 July 2003, *Official Report*, columns 327–328W.

Travel costs for 2003–04 are currently being collated and will be published in the normal way before the summer recess. Copies for previous years are available in the Library of the House.

I travel making the most efficient and cost-effective arrangements. My travel arrangements are in accordance with the arrangements for official travel set out in Chapter 7 of the Ministerial Code, and the accompanying guidance document, "Travel by Ministers".

David Davis: To ask the Prime Minister how many journeys he made by helicopter in each of the last 10 years; and what the journey length was in each case. [175739]

The Prime Minister: On average, I have made around twenty trips by helicopter in each year since May 1997, all of varying length.

I travel making the most efficient and cost-effective arrangements. My travel arrangements are in accordance with the arrangements for official travel set out in chapter 7 of the Ministerial Code, and the accompanying guidance document, "Travel by Ministers".

NORTHERN IRELAND

Irish Culture

6. **David Burnside:** To ask the Secretary of State for Northern Ireland if he will make a statement on the amount of public money spent by his Department since 1998 on the promotion of *(a)* Irish culture and language and *(b)* Ulster Scots culture and language. [174926]

Angela Smith: Under the arrangements for North South Bodies the Department of Culture Arts and Leisure is providing £1,277,000 to the Ulster Scots Agency and £3,224,000 to the Irish Language Agency. This does not include additional funding provided from the Department's mainstream programme to projects which may have an Irish or Ulster Scots cultural or language dimension.

Organised Crime

7. **Mr. Savidge:** To ask the Secretary of State for Northern Ireland what steps are being taken to tackle organised crime in Northern Ireland. [174927]

14. **Mr. Ben Chapman:** To ask the Secretary of State for Northern Ireland if he will make a statement on measures to combat organised crime in Northern Ireland. [174935]

Mr. Pearson: The Organised Crime Task Force continues to set the strategic direction for a multi agency approach to tackling organised crime in Northern Ireland. The 4th annual Threat Assessment and Strategy which was published by the Task Force on 11 May describes in detail both the extent of the problem, the successes that the law enforcement agencies have had against organised criminals, and the objectives of the Task Force.

I pay tribute to the PSNI, HM Customs and Excise and the Assets Recovery Agency for their on-going commitment and effectiveness.

People Trafficking

8. **Rev. Martin Smyth:** To ask the Secretary of State for Northern Ireland how many representations he has received since January 2002 concerning the trafficking of people in Northern Ireland. [174928]

Mr. Pearson: I am aware that the hon. Gentleman has shown an interest in this matter. The UK Immigration Service continues to liaise closely with the PSNI and the authorities in the Republic of Ireland with a view to apprehending offenders and prosecuting those who facilitate the entry of immigration offenders.

Prisoners (Early Release)

9. **Mr. Trimble:** To ask the Secretary of State for Northern Ireland what discussions he has had recently with the Irish Government on the provisions of the Belfast agreement on the early release of prisoners. [174929]

Mr. Paul Murphy: I have not discussed the issue in recent weeks with the Irish Government.

Racism

10. **Mr. Gordon Prentice:** To ask the Secretary of State for Northern Ireland what steps he is taking to tackle racism in Northern Ireland. [174930]

Mr. Spellar: The Government have frequently put on record their abhorrence of all forms of intolerance and racism.

We have published draft legislation to give courts stronger sentencing powers for "hate crimes". Enforcement action by the PSNI will be the key to tackling racism alongside our Community Safety Strategy and measures being taken through education, housing, health and social policy.

Peace Process

11. **Dr. Palmer:** To ask the Secretary of State for Northern Ireland if he will make a statement on the peace process. [174931]

Mr. Paul Murphy: I refer my hon. Friend to the answer I gave earlier today to the hon. Member for Bracknell (Mr. Mackay).

Good Friday Agreement

12. **Helen Jones:** To ask the Secretary of State for Northern Ireland if he will make a statement on changes in the Northern Ireland economy since the Good Friday Agreement. [174932]

Mr. Gardiner: Official statistics show that since 1998, when the Good Friday Agreement was signed, the Northern Ireland Economy has performed remarkably well. Employment is at record levels, increasing by 61,540 jobs since March 1998 and the current unemployment rate of 5.2 per cent. is 2.8 percentage points below the EU 15 average. Since 1998 growth in Gross Value Added of 19.1 per cent. makes Northern Ireland one of the fastest growing UK regions.

While these headline figures are encouraging, manufacturing employment has declined and the levels of economic inactivity remains high relative to other UK regions.

Kevin Brennan: To ask the Secretary of State for Northern Ireland what recent discussions he has had with political parties in Northern Ireland on restoring the Good Friday Agreement institutions. [174933]

Mr. Paul Murphy: Discussions with the parties took place on 27 April and 4 May as part of the Review of the Belfast Agreement. There is now a break in formal Review talks for the period of the European election campaign, although informal contacts continue with the parties. Formal Review activity will recommence after 10 June, and we hope to engage soon after in a period of intensive dialogue.

Sinn Fein

13. **Mr. Robathan:** To ask the Secretary of State for Northern Ireland what further action he intends to take against Sinn Féin in the light of the Independent Monitoring Commission's finding that Sinn Fein has responsibility for paramilitary violence. [174934]

Mr. Paul Murphy: We have already taken steps to implement the IMC recommendation in respect of both Sinn Féin and the PUP by suspending their entitlement to block financial assistance for a period of 12 months. Clearly we will wish to see significant progress by the time of the next IMC report in October. If there is not, we shall need to consider what steps might then be appropriate.

Average Earnings

Lady Hermon: To ask the Secretary of State for Northern Ireland what the average earnings in Northern Ireland are; and if he will make a statement. [175639]

Mr. Gardiner: Average gross weekly earnings of all full-time adult employees in Northern Ireland was £404.50 at April 2003.

Beef

David Burnside: To ask the Secretary of State for Northern Ireland what percentage of beef sold in Northern Ireland in 2003 was *(a)* locally produced and *(b)* imported from Great Britain. [175916]

Mr. Pearson: Trade in beef is governed by EU single market principles. Statistical information is therefore not available to distinguish beef sales in NI between locally produced and imported beef. Discussions with the industry, however, have indicated that the majority of such sales would be from locally produced animals, with only a small amount relating to GB imports or imports directly from Third countries.

Cancer Treatment

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the *(a)* average waiting time and *(b)* longest time an individual has been waiting for a mammogram is at each of the Province's cancer units. [175167]

Angela Smith: This information is not collected centrally.

Dentistry

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many dentists commenced practice in the province in each year since 1990; how many were full-time in each case; and if he will make a statement. [175221]

Angela Smith: The information requested is not readily available for historic dental practitioner registrations prior to October 2002 when the dental list database was replaced. For the 2003 calendar year the figure was 58. There is no split available by full-time and part-time for dental practitioners. The figure includes new fully qualified dentists, dentists who have moved/returned to the province from Great Britain/Republic of Ireland and dentists who have returned to work after a career break. The figure excludes assistants who are employed directly by a dentist and work under the dentists' contract.

During a year there are also 24 Vocational Dental Practitioners who serve a year working with an established dental practitioner prior to starting working under their own contract within Northern Ireland.

Diabetes

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland which of the Crest recommendations on diabetes care *(a)* have been implemented and *(b)* will be implemented within the next 12 months. [175215]

Angela Smith: The Crest Taskforce report on the development of services for people with diabetes contains a wide range of recommendations covering the full spectrum of the condition, from screening for people with a higher risk of developing the disease to the prevention and treatment of diabetes. The report acknowledged that implementation of the framework would require a time frame of 5–10 years.

The Department has allocated an additional £1 million for the development of diabetes services in 2004–05. Priorities for Action requires Health and Social Services Boards to take forward the recommendations of the Taskforce, on a prioritised basis, within a framework to be agreed with the Department by the end of May 2004.

Equal Opportunity Complaints

Lady Hermon: To ask the Secretary of State for Northern Ireland how many equal opportunity complaints have been lodged with industrial tribunals in Northern Ireland in the last five years; and how many of these were *(a)* rejected initially, *(b)* settled, *(c)* heard and upheld and *(d)* heard and rejected. [175903]

Mr. Gardiner: This information is not readily available and will take some time to collate. I will write to the hon. Lady with details as soon as possible. A copy of the letter will be placed in the Library.

Fibromyalgia

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what plans he has to fund alternative treatment of fibromyalgia in the national health service in Northern Ireland. [175528]

Angela Smith: There are no specific plans to fund alternative medicine for the treatment of fibromyalgia in the HPSS. Alternative medicine and therapies may be provided within available HPSS resources if the clinician considers that these are the most appropriate treatments for an individual patient.

Private Health Care

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the impact of Agenda for Change on the private sector in health care in Northern Ireland. [175212]

Angela Smith: The new HPSS pay system, Agenda for Change, has been designed around jobs within the NHS across the UK, and when implemented it will only directly be applied to jobs that are within the range of NHS organisations. It is acknowledged however, that any amendment to the terms and conditions of employment of HPSS personnel could have implications for the terms and conditions of staff employed within the private or voluntary health sector.

While the setting of pay rates and defining of terms and conditions for such employees is a matter for the individual independent employers concerned, my Department recognises the financial pressures facing independent sector nursing and residential homes and has made provision for above inflation increases in the regional tariffs over the past three years. This has meant for example an increase of almost 20 per cent. in the weekly fee paid by Trusts for a nursing home place for an elderly person since 2001–02.

The Department has also commissioned PricewaterhouseCoopers to undertake research into the specific costs of providing nursing, residential home and domiciliary care in Northern Ireland. The consultants

are expected to present their final report in June 2004, in time for the research to inform budget decisions from April 2005

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many people on Northern Ireland waiting lists have had medical treatment in other parts of the United Kingdom in each of the last five years. [175532]

Angela Smith: The following table shows the number of patients from Northern Ireland who have received medical treatment in other parts of the United Kingdom, in the years 1999–2000 to 2003–04, as part of waiting list initiatives.

	Number of patients transferred to UK for treatment
1999–2000[1]	90
2000–01	145
2001–02	268
2002–03	269
2003–04	164

[1] Eastern Health and Social Services Board and Northern Health and Social Services Board were unable to provide figures for 1999–2000.

Source:
Health and Social Services Boards.

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many trained nursing staff from outside the United Kingdom are working in Northern Ireland's hospitals. [175533]

Angela Smith: I refer the hon. Gentleman to the answer I gave to the hon. Member for Strangford (Mrs. Robinson) on 18 May 2004, *Official Report*, column 943W, Question Reference 173742.

Maternity Services

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on *(a)* the frequency of epidural use in deliveries in Northern Ireland and *(b)* changes in that frequency in the last 30 years. [175175]

Angela Smith: The information is as follows.

(a) In 2003, the latest year for which figures on pain relief in deliveries are available, there were 5,632 births delivered in Northern Ireland using epidural as a form of pain relief.

(b) In 1994, the earliest year for which data on pain relief in deliveries are available, there were 3,917 births delivered in Northern Ireland using epidural as a form of pain relief.

Over this 10-year period, the proportion of births occurring to Northern Ireland residents in Northern Ireland where epidural was used as a method of pain relief increased from 16 per cent. in 1994 to 26 per cent. in 2003.

The rise in uptake is driven by a number of factors including increased availability and mothers' choice. Mothers are given information antenatally on the forms of pain relief available. Information on epidural is one of the options discussed. Mothers can then make an informed choice as to the method of pain relief they desire during delivery.

Neighbourhood Renewal

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will make a statement on progress on neighbourhood renewal; what the timescale is for each stage of the process; and when money will be released for each stage. [175233]

Mr. Spellar: The Department for Social Development launched the Neighbourhood Renewal Strategy, "People and Place" in June 2003. The Strategy did not specify detailed implementation arrangements, indicating instead that an engagement process would be undertaken to agree implementation arrangements for Belfast, Derry/Londonderry and Regional Towns and Cities. This exercise is now complete and the findings from these consultation exercises will be published in the near future.

In addition, interim funding arrangements have been put in place from 1 April 2004 to ensure the continuation of over 100 community projects, which are deemed important to the implementation of Neighbourhood Renewal.

To support the Strategy a Ministerial Working Group on Neighbourhood Renewal was established to oversee the implementation of the Neighbourhood Renewal Strategy. This group has met on two occasions.

The Ministerial Group has approved the timetable for the establishment of the Neighbourhood Partnership Boards. The Department's aim is to have Neighbourhood Partnership Board, established in the selected areas, by July 2005, with the majority in operation well before this. Funding will be made available to these groups to enable them to develop their Neighbourhood Action Plans. It is the intention of the Department to have all Neighbourhood Action Plans approved by May 2006, again with the majority approved well in advance of this date.

I am also pleased to say that, in March 2004, Department for Social Development launched a scheme under the Neighbourhood Renewal banner, to provide financial assistance to Post Offices in deprived urban areas, which are under the threat of closure.

Recycling

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what progress has been made in Northern Ireland during the last three years to reach Government recycling targets. [175530]

Angela Smith: The Waste Management Strategy for Northern Ireland set targets for the recovery of household waste (25 per cent. by 2005–06) and a reduction in the landfilling of industrial and commercial waste (to 85 per cent. of 1998 levels by 2005).

The household waste recovery rate has increased steadily since 1998–99 when it was 4.9 per cent. The following table shows year on year figures. The 2003 figures are still being collated and will be available in June 2004. These however are expected to show a further improvement. The 2002 survey of industrial and commercial waste arisings indicated a 36.8 per cent. reduction in landfilling of industrial and commercial waste since 1998.

percentage

	Household recovery rate (recycling and composting)
1998–99	4.9
1999–2000	6.6
2001	8.9
2002	9.8
2003	[1]—

[1] Not available until June 2004.

Residential Homes

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on changes in the cost of care at residential homes. [175211]

Angela Smith: Residential homes may charge individual residents different amounts based on the type and extent of care needed and the standard of facilities and accommodation provided. For those residents who are not self-funding, Health and Social Services Trusts will normally pay agreed regional tariffs for the appropriate standard placement for each class of resident. In recognition of the increased pressures faced by the independent care home sector, the Department has made significant additional resources available to provide for increases above inflation. Above inflation increases have been made in each year since 2001–02 and the additional money this year has enabled Health and Social Services Trusts to increase rates paid for an elderly residential home place from £230 in 2001–02 to £273 in 2004–05, an increase of around 16 per cent.

Special Schools

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what estimate he has made of the costs of educating every child currently in a special school in Northern Ireland in a mainstream school. [175222]

Mr. Gardiner: I have not made an estimate of this kind. The forthcoming Special Educational Needs and Disability Order aims to strengthen the right of children with special educational needs to be educated in mainstream schools. Any costs arising from this will be dependent on the nature and extent of the exercise of this right over time, and will depend on the needs of the individual child. Educational provision will continue to be tailored to meet these needs, whether in mainstream schools, special units attached to mainstream schools, or special schools. I anticipate that special schools will continue to play a vital role in supporting pupils with significant and complex needs, in accordance with parental wishes and professional advice, and that they are likely to develop their role further in the future in the provision of specialist advice and support to mainstream schools.

The Government's investment of significant capital funding in the schools estate will continue to improve disabled access. In particular, all new and recently built or refurbished schools will comply with the requirements for physical access contained in the draft Special Educational Needs and Disability Order.

Teenage Pregnancy

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) what plans he has for youth development programmes to reduce teenage pregnancy rates; [175158]

(2) if he will introduce a young people's development programme similar to that launched by the Departments of Health and Education and Skills. [175170]

Angela Smith: A multi-agency Implementation Group is overseeing and driving forward the 21 actions set out in the Teenage Pregnancy and Parenthood Strategy and Action Plan. One of the action points in the plan is the further development, particularly in areas of socio-economic deprivation and rural areas, of community based teenage personal development programmes that incorporate sexual health issues and risk taking behaviour. These programmes are being taken forward by Health and Social Services Boards and Trusts in partnership with the voluntary and community organisations and are tailored to the needs of our population.

The young people's development programme in England is a three year pilot exercise which is the subject of on-going evaluation. The findings are unlikely to be available until April 2007. Officials here will be liaising with colleagues in the Department of Health to monitor developments.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many females aged between 11 and 19 years were fitted with contraceptive implants in Northern Ireland in each year since 2000, broken down by age. [175224]

Angela Smith: The information requested is not available.

Transmitter Masts

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what information he has collated in relation to health risks associated with the provision of transmitter masts in residential areas. [175527]

Angela Smith: The Independent Expert Group on Mobile Phones (IEGMP) published a report on the subject of mobile phone technology in May 2000. It concluded that the balance of evidence indicated that there was no general risk to the health of people living near the base stations on the basis that exposures were expected to be small fractions of the guidelines of the International Commission on Non-Ionizing Radiation Protection (ICNIRP).

This position has been confirmed through the ongoing random audit of base stations being undertaken by the Radiocommunications Agency (now part of the Office of Communications—Ofcom). In the course of this audit programme almost 20 surveys were conducted at sites here in Northern Ireland during 2001 and 2002, mainly at schools and two at hospitals. Measurement of emissions in every case showed these to be hundreds and sometimes thousands of times below the ICNIRP guidelines.

In January 2004 in a report made to the National Radiological Protection Board, the Advisory Group on Non-Ionising Radiation (AGNIR), having reviewed the evidence for health effects especially in work published since the IEGMP Report, concluded that

"exposure levels from living near to mobile phone base stations are extremely low, and the overall evidence indicates that they are unlikely to pose a threat to health."

DEPUTY PRIME MINISTER

Computer File Formats

Mr. Allan: To ask the Deputy Prime Minister what his Department's policy is in respect of the computer file formats used for the *(a)* distribution and *(b)* archiving of publicly available documents. [173360]

Yvette Cooper: All documents published on the Office of the Deputy Prime Minister's website, both current and archived, are in either HTML and/or PDF format, with the exception of some statistical data which are available in Excel spreadsheet format.

Departmental Staff

Matthew Taylor: To ask the Deputy Prime Minister how many staff were employed in the Department to work in the communications field and what the total expenditure on communications for the Department was, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisors and (iii) others, in (A) 1994–95, (B) 1996–97, (C) 1997–98 and (D) 2001–02. [168673]

Yvette Cooper: The Office of the Deputy Prime Minister was created on 29 May 2002. Information for periods prior to this date is not available.

Extra Care Housing

Dr. Whitehead: To ask the Deputy Prime Minister what definition of extra care housing his Department uses in collecting Supporting People mapping data. [175249]

Yvette Cooper: The Office of the Deputy Prime Minister has not issued a specific definition of extra care housing for the purposes of Supporting People mapping data. The relevant guidance does, however, include a definition of very sheltered housing for older people as:

"sheltered accommodation for physically or mentally frail older people, with on-site support and enhanced communal facilities, specialist design features and the capacity to offer a range of care and support services".

Most extra care housing would, in practice, fall within this definition.

High Hedges

Mr. Spring: To ask the Deputy Prime Minister when the findings of the public consultation in England on the measures in the Anti-social Behaviour Act 2003 dealing with high hedges will be published. [175550]

Yvette Cooper: The public consultation on implementing Part 8 of the Anti-social Behaviour Act 2003 runs until 30 June. The Office of the Deputy Prime Minister expects to report the results of the consultation and to bring the legislation into operation towards the end of 2004.

Housing Stock Transfer

Mr. Austin Mitchell: To ask the Deputy Prime Minister how much his Department *(a)* expects to spend in this financial year and *(b)* spend in (i) 2002–03 and (ii) 2003–04 on writing off overhanging debt for local authorities that transfer their housing; and from which budget this sum is allocated. [176275]

Keith Hill: Payments to meet local authorities' overhanging debt are made where the value of the housing stock is less than a local authority's associated housing debt. It is estimated that if all the housing transfers programmed to transfer in 2004–05 secure a positive ballot and transfer this financial year then the 2004–05 provision for making Overhanging Debt payments of £616 million would be used in full. £548.2 million was paid in 2002–03 and £90.9 million in 2003–04. The payment reflects the liability the Office of the Deputy Prime Minister would otherwise have to pay continuing subsidy on a local authority's housing attributable debt. It is not possible to use this resource for capital purposes.

Information and Communication Technology

Mr. Simon: To ask the Deputy Prime Minister what his budget is for staff training in information and communication technology in this financial year. [173720]

Yvette Cooper: Basic information and communication technology (ICT) training is given to all staff of the Office of the Deputy Prime Minister. Specific supplementary courses of training are available depending on the needs of the Office of the Deputy Prime Minister and those of individual members of staff.

Each business unit is responsible for its training budget, and the information technology (IT) element is not identified separately.

Mr. Simon: To ask the Deputy Prime Minister what his targets are for improving the information and communication technology (ICT) skills base of staff within *(a)* his Department and *(b)* its agencies; and what method he uses to certify the competence levels achieved by staff receiving training in ICT. [173721]

Yvette Cooper: To improve specialist skills and capability in information and communication technology (ICT), the Office of the Deputy Prime Minister is establishing an e-Implementers Group to promote and disseminate and develop best practice to staff working on ICT and e-Business projects. We will also start piloting the European Computer Driving Licence in June 2004. This is an internationally recognised qualification that enables people to demonstrate their computer skills.

The improvement of ICT skills forms part of the Office of the Deputy Prime Ministers Development and Training Strategy, providing the skills, knowledge and competencies needed for particular roles. This process is managed and monitored through the Performance Management process.

Local Authority Planning Enforcement Officers

Mr. Sayeed: To ask the Deputy Prime Minister what assessment he has made of whether local authority planning enforcement officers have sufficient *(a)* manpower resources and *(b)* funding adequately to control developers to ensure that the residents of communities are not put at risk by the acts or omissions of developers. [175880]

Keith Hill: The Office of the Deputy Prime Minister has not made such an assessment. We have, however, received a number of responses to our consultation on the review of the Planning Enforcement system expressing the view that local authorities do not put sufficient resources into enforcement. We are making £350 million of additional funding available to local planning authorities through the planning delivery grant. The grant is not ring-fenced and local planning authorities may use it to make staff and financial resources available for planning enforcement.

Rail Freight Sites

Michael Fabricant: To ask the Deputy Prime Minister if he will make a statement on the proposed siting of rail freight interchanges and freight villages in St. Albans and Park Street village green belt areas. [175347]

Keith Hill: The Government have received no firm proposals concerning the siting of a rail freight interchange in St. Albans and Park Street village green belt areas. The Office of the Deputy Prime Minister is aware that a developer is considering putting forward such a proposal, but it would be inappropriate to comment on the proposal at this stage as it may come before the Secretary of State, my right hon. Friend the Deputy Prime Minister for determination. Should such a proposal be brought forward it would need to go through the usual planning procedures relating to green belt areas.

Telecommunications Installations

Colin Burgon: To ask the Deputy Prime Minister when he next intends to meet the Mobile Phone Operators Association to discuss the workings of their voluntary code in relation to the T-Mobile installation at Bardsey in the Elmet constituency. [174943]

Yvette Cooper: It would be inappropriate for any Minister in the Office of the Deputy Prime Minister to discuss an individual planning case in any circumstances because of the appellate function of the First Secretary of State, my right hon. Friend the Deputy Prime Minister.

CULTURE, MEDIA AND SPORT

Departmental Staff

Bob Spink: To ask the Secretary of State for Culture, Media and Sport how many staff in her Department and its agencies were seconded from the *(a)* private and *(b)* academic sector in each of the last three years. [175367]

Mr. Caborn: There have been no secondments to the Department for Culture, Media and Sport or its Agency from the private or academic sectors in the last three years.

Mr. Goodman: To ask the Secretary of State for Culture, Media and Sport how many people have left employment in her Department because of *(a)* anxiety, *(b)* stress, *(c)* depression and *(d)* other mental health reasons in each year since 1997. [175674]

Mr. Caborn: Records are not maintained by DCMS which enable the identification of the reason for leaving the Department to be broken down into anxiety, stress, depression and other mental health reasons.

DCMS has a legal obligation to provide a safe working environment for employees and guidance is available for all staff on how to manage stress effectively.

New Opportunities Fund

Mrs. Humble: To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund was allocated to Blackpool, North and Fleetwood in each year since 1997. [175888]

Estelle Morris: The New Opportunities Fund began making grants in 1999. The awards to Blackpool, North and Fleetwood are shown in the table.

Financial Year	*Amount (£)*
1999–2000	28,577
2000–01	354,326
2001–02	360,495
2002–03	489,523
2003–04	525

The information is freely available from the Department's searchable Lottery award database at: www.lottery.culture.gsi.gov.uk which uses information supplied by the Lottery distributors.

HOME DEPARTMENT

Anti-crime Initiatives (Blackpool, North and Fleetwood)

Mrs. Humble: To ask the Secretary of State for the Home Department what the percentage change in *(a)* overall recorded crime, *(b)* recorded violent crime, *(c)* burglaries and *(d)* vehicle theft in Blackpool, North and Fleetwood has been since 1997. [175884]

Ms Blears: The information requested is not available centrally. Blackpool is a Crime and Disorder Reduction Partnership (CDRP) area. Data at CDRP level has only been published from 1999–2000 onwards. Detailed statistics at CDRP level are available for 2002–03 on the new Home Office website: http://www.crimestatistics.org.uk

Bribery/Corruption

Malcolm Bruce: To ask the Secretary of State for the Home Department whether the National Crime Squad

has *(a)* been involved in investigations and *(b)* conducted investigations of its own into bribery of foreign public officials. [174030]

Caroline Flint: The National Crime Squad (NCS) has not yet been involved in investigations or conducted investigations of its own into bribery of foreign public officials.

The National Crime Squad is one of the agencies that is party to the Memorandum of Understanding on overseas corruption. Under this agreement, the NCS may provide assistance where there is clear need for pro-active policing techniques or where support is needed by local forces.

Car Parking/Clamping

Mr. Damian Green: To ask the Secretary of State for the Home Department whether car park operators are to be licensed by the Security Industry Authority; and if he will make a statement. [174162]

Ms Blears: The Private Security Industry Act (SIA) 2001 sets out details of conduct prohibited without a licence. If the duties of a car park operator include as part of their routine duties any such activity, they will require the relevant SIA licence.

Mr. Damian Green: To ask the Secretary of State for the Home Department (1) whether the Security Industry Authority plans to set up a system *(a)* to license individual wheel clampers and *(b)* to license the land on which they may clamp; [174163]

(2) whether the Security Industry Authority's licensing system for wheel clamping will be backed up by a mandatory code of practice relating to *(a)* size of fines, *(b)* warning signs, *(c)* uniforms and *(d)* methods of payment; [174165]

(3) how many licences for wheel clampers on private land have been issued since 1 April 2003. [174179]

Ms Blears: Vehicle immobilisers will be licensed by the Security Industry Authority (SIA) under the authority of the Private Security Industry Act 2001, from the end of 2004. There are no powers within the Act to license the land on which clamping operations take place. The SIA will shortly publish its competency requirements for licensing purposes. These are likely to include training in requirements as to such matters as the proper use of warning signs, uniforms and methods of payment. The SIA is currently examining what role, if any, a code of practice might play in licensing.

Mr. Damian Green: To ask the Secretary of State for the Home Department whether the towing away of vehicles will be brought into the licensing remit of the Security Industry Authority. [174164]

Ms Blears: In light of the Regulatory Impact Assessment undertaken last year, we have accepted the Security Industry Authority's recommendation that the towing away of vehicles should be a licensable activity and regulations to give effect to this will be introduced in due course.

Correspondence

Mr. Kaufman: To ask the Secretary of State for the Home Department (1) when he intends to reply to the letter from the right hon. Member for Manchester, Gorton, dated 5 April 2004, with regard to Iqbal Hussain; [172257]

(2) when he will reply to the letter to him from the right hon. Member for Manchester, Gorton, dated 5 April 2004, with regard to Iqbal Hussain; [174147]

(3) when he will reply to the letter to him from the right hon. Member for Manchester, Gorton, dated 5 April 2004, with regard to Iqbal Hussain. [175616]

Mr. Blunkett: I wrote to my right hon. Friend on 25 May 2004.

Sir Teddy Taylor: To ask the Secretary of State for the Home Department when he will reply to the hon. Member for Rochford and Southend, East's letter to his Department of 26 September 2003, relating to Mr.Ronald Douglas Hall, ref H1091318/4 and PO 731213; and for what reasons the letter was dealt with in the manner it has been. [173102]

Mr. Browne *[holding answer 17 May 2004]:* I wrote to the hon. Member on 26 May. The delay in responding was partly due to the need to ensure that all avenues had been explored before providing a comprehensive response.

Crime (North Yorkshire)

Miss McIntosh: To ask the Secretary of State for the Home Department what the rates were of *(a)* recorded offences, *(b)* detected offences and *(c)* cases brought to justice for burglaries in North Yorkshire in (i) April 1997, (ii) April 2000 and (iii) April 2003. [173410]

Ms Blears: Monthly recorded crime is not published. The available information is for annual and calendar year data and is given in the table.

North Yorkshire	*All burglary offences recorded*	*Recorded burglaries detected by Police*	*Burglary offences brought to justice*
1997	11,359	2,165	[1]—
2000–01	11,658	976	615
2002–03 [2]	11,511	1,211	[3]683

[1] Not available.
[2] Figures for 2002–03 will have been affected by the introduction of the National Crime Recording Standard on 1 April 2002.
[3] Provisional.

Departmental Computers

Mr. Carmichael: To ask the Secretary of State for the Home Department what his policy is on the disposal of computers formerly used by his Department. [175284]

Fiona Mactaggart *[holding answer 24 May 2004]:* The majority of the computers used within the core Home Office are supplied as part of a managed service by Sirius (the Home Office's IT supplier) and as such are not assets owned by the Authority. Although Sirius are contractually obliged to ensure the erasure of any Home Office data held on their assets, the responsibility for the disposal of obsolete or surplus assets belonging to Sirius lies solely with them.

Those core Home Office assets not covered by the Sirius contract are managed by the Information Management Technology Unit (IMTU) and responsibility for dispersal of assets rests with their Out of Scope Team.

To reduce budget costs, if possible the assets are re-deployed elsewhere within the core Home Office. If not and as Government Accounting rules require Departments to ensure the best possible price is obtained when disposing of surplus IT equipment, a registered GCat supplier for the provision of ethical and environmentally friendly disposal services are asked to dispose of the assets on their behalf.

While the Home Office pays for this service, should the assets be sold on the Home Office receives 75 per cent. of the sale price.

Mr. Carmichael: To ask the Secretary of State for the Home Department if he will make a statement on the role of Fujitsu in providing computer services for the Home Office. [175285]

Fiona Mactaggart *[holding answer 24 May 2004]:* Fujitsu is the main contractor supplying infrastructure and desktop services to the core Home Office including the Immigration and Nationality Directorate (IND) and the Youth Justice Board as a result of being awarded the IT2000 Contract in 2000. IT 2000 is a 10 year Public Finance Intiative contract establishing a private public partnership between the Home Office (excluding agencies and parts of IND covered by the Siemens caseworking service).

These services range from support for software including application management (e.g POEMS) and standard toolsets (e.g. Adobe Acrobat) to hardware devices including desktop and remote access laptops.

They also manage the supply of voice services to the core Home Office (excluding IND) via their sub-contractor Global Crossing.

Departmental Procurement

Michael Fabricant: To ask the Secretary of State for the Home Department what percentage of the *(a)* crockery, *(b)* cutlery and *(c)* glassware procured by his Department over the last five years is of British manufacture. [170802]

Fiona Mactaggart: It is Government policy that all procurement decisions are taken on the grounds of value for money.

The percentage of crockery, cutlery and glassware, which is of British manufacture, procured by the Department in 2002–03 is as follows:

	Percentage
Crockery	65
Cutlery	25
Glassware	7.5

Information on the percentage of crockery, cutlery and glassware procured prior to 2002 and its origin of manufacture is not available and could only be obtained by incurring disproportionate costs.

Early Retirement (Police)

Mr. Paice: To ask the Secretary of State for the Home Department if he will list the costs of early retirement of police officers for each force in England and Wales in 2003–04. [173568]

Ms Blears *[holding answer 13 May 2004]:* The information is not centrally available in the form requested. The cost of early retirement on ill-health grounds is mitigated to an extent by the fact that the retired officer will normally be replaced, either directly or indirectly, by a recruit on a lower salary who can perform all the ordinary duties of a member of the force. A broad indicator of the cost to forces in any year is the aggregate of the cash lump sums they pay to officers retiring on ill health grounds. Based on the estimated number of ill-health retirements for 2003–04 published by the Chartered Institute of Public Finance and Accountancy the Government Actuary's Department estimate that the total cost of ill-health pension lump sums in England and Wales is about £50 million.

Gas Cartridge Weapons

Mr. Todd: To ask the Secretary of State for the Home Department if he will place in the Library the advice he received on the feasibility of converting self-contained gas cartridge weapons to use conventional ammunition. [175482]

Caroline Flint: We do not think it right to do so, thus making more widely available details of the methods of conversion identified so far. The Forensic Science Service identified a number of different ways in which such revolvers and pistols were used with ammunition other than air cartridges. These varied considerably in their effectiveness and ease of conversion and with one exception were not specific to one particular model. Having discussed the problem with the manufacturers of the air cartridge system and an independent engineer it was concluded that the main problem was with the air cartridge system itself which could not be modified to remove the danger.

Ministerial Meetings

Peter Bottomley: To ask the Secretary of State for the Home Department when he next expects to meet representatives of the *(a)* National Black Police Association and *(b)* Police Federation. [175049]

Ms Blears: I meet the National Black Police Association as necessary to discuss particular issues. I have regular bilaterals with the Chairman of the Police Federation.

During the period March 2002 to March 2003 Lancashire Constabulary strength increased by 35 to 3,339. At the end of December 2003 Lancashire had record strength of 3,549—an increase of 210 officers.

Police

Mr. Benton: To ask the Secretary of State for the Home Department what percentage change there has been in the number of full-time police officers in Bootle since 1997. [175488]

Ms Blears: Bootle is part of the Sefton Basic Command Unit (BCU). Information on strength at BCU level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002.

Between March 2002 and March 2003 police strength for the Sefton BCU increased by 0.5 per cent. (from 431 to 433). The deployment of officers to BCUs is a matter for the Chief Constable (Norman Bettison QPM) and within the Sefton BCU deployment of officers is a matter for the Divisional Commander.

Tony Lloyd: To ask the Secretary of State for the Home Department what the percentage change in full-time police officers in Manchester, Central has been since 1997. [174276]

Ms Blears *[holding answer 20 May 2004]:* Information on strength at Basic Command Unit (BCU) level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002.

Manchester, Central constituency is part of the North Manchester (A) Division. Between March 2002 and March 2003 police strength for the Manchester Division increased by 2 per cent. (from 725 to 740). The deployment of officers to BCUs is a matter for the Chief Constable (Michael Todd) and within the North Manchester Division deployment of officers is a matter for the Divisional Commander.

Mr. Paul Marsden: To ask the Secretary of State for the Home Department by what date he expects police radios to work while on the London Underground. [175058]

Ms Blears: The British Transport Police, who are responsible for policing the London Underground, already have radios that work in that environment. Contractual discussions are underway on the extension of Airwave, the new police radio system, to the London Underground. The estimated completion date is 2007.

Mrs. Humble: To ask the Secretary of State for the Home Department what the percentage change in full-time police officers in Blackpool, North and Fleetwood has been since 1997. [175881]

Ms Blears: Information on strength at Basic Command Unit (BCD) level is collected annually and reflects the position at the end of March. Information on BCD strength is only available from 2002.

Blackpool, North and Fleetwood constituency is part of the Western (A) Division. Between March 2002 and March 2003 police strength for the Western Division decreased 1.4 by per cent. (from 501 to 494). The deployment of officers to BCUs is a matter for the Chief Constable (Paul Stephenson QPM) and within the Western Division deployment of officers is a matter for the Divisional Commander.

Ms Stuart: To ask the Secretary of State for the Home Department what the average length of suspension of police officers was in each of the last five years; and what estimate he has made of the average cost of suspensions. [175472]

Ms Blears: Suspension of a senior police officer is a matter for his or her police authority and suspension of other ranks is a matter for the Chief Constable. Information on lengths of suspension of police officers is not held centrally. I have made no estimate of the average cost of suspensions as to do so would require making a request for information from individual forces and therefore would involve a disproportionate cost.

Mr. Paice: To ask the Secretary of State for the Home Department what representations he has made to Customs and Excise regarding the VAT status of Centrex. [168437]

Ms Blears: No representation has been made to Her Majesty's Customs and Excise on behalf of Centrex in respect of their VAT by the Home Office arrangements. This is an internal matter, which has been satisfactorily resolved in discussion between Centrex and Customs and Excise.

Mr. Paice: To ask the Secretary of State for the Home Department how much in grant was paid to National Police Training and the Central Police Training and Development Authority in each year from 1997–98 to 2004–05. [168443]

Ms Blears: Centrex has only been in receipt of grant-in-aid from the Home Office since 2002–03, when it became an executive non-departmental public body. Before that time, as National Police Training, it was a unit of the Home Office.

The grant-in-aid paid to Centrex (millions) is as follows:

£ million

	Capital	*Resource*
2002–03	78.6	14.9
2003–04	87.3	18.7
2004–05	74.8	18.7

Small additional payments were made to fund additional work programmes.

Mr. Paice: To ask the Secretary of State for the Home Department what throughput of police recruits he expects at Stage 2 training during 2004–05; and what throughputs were achieved in each of the last three years. [168444]

Ms Blears: Total bids for Stage 2 places at Centrex for the year 2004–05 stands at 7,184, of which 242 are from non-Home Office forces. This figure excludes the Metropolitan Police Service (MPS) whose probationers are trained in force and those forces currently running trials of the modernised delivery of Stage 2.

During the year 2003–04 Centrex target to have delivered 8,701 Stage 2 places, of which 200 were taken by non-Home Office forces. Again this excludes the MPS and forces which ran Stage 2 trials.

During the year 2002–03 a total of 7,977 Stage 2 places were delivered by Centrex, of which 148 were taken up by non-Home Office forces. This figure excludes the MPS.

During the year 2001–02 a total of 7,578 Stage 2 places were delivered by Centrex, of which 149 were taken up by non-Home Office forces. Again this figure does not include the MPS.

Pre-charge Photographs

Mr. Grieve: To ask the Secretary of State for the Home Department what guidelines he sets for the police on the publication of pre-charge photographs of alleged criminals taken at the time of arrest where the police has facilitated the presence of journalists at the scene of arrest. [175513]

Ms Blears: The Home Office does not issue guidance on these matters. Arrangements for handling the media at police operations are for the senior officer in command, under protocols agreed by the Chief Officer. The general position is set out in advice to all Chief Officers issued by the Association of Chief Police Officers in October 2003. One key consideration is that the publication of any image taken at the time of arrest may interfere with an individual's right to a fair trial under the Human Rights Act 1998.

Public Bodies

Mr. Oaten: To ask the Secretary of State for the Home Department if he will list the *(a)* members, *(b)* reports produced by and *(c)* dates of meetings in 2003 of (i) the National Crime Reduction Task Force, (ii) the Insurance Cover Working Group, (iii) the Advisory Council on the Misuse of Drugs, (iv) the Correctional Services Accreditation Panel, (v) the Animal Procedures Committee, (vi) the Criminal Records Bureau Consultative Panel, (vii) the Police Advisory Board for England and Wales and (viii) the Technical Advisory Board. [174269]

Ms Blears *[holding answer 18 May 2004]:* Advisory Non-Departmental Bodies (NDPBs) provide independent expert advice to ministers on particular topics. Also members of the Board are public appointees and the Board itself is supported by staff from their Sponsoring Department.

(i) Advisory Council on the Misuse of Drugs has the following list of members for 2003.

Re-appointed Members:

Sir Michael Rawlins
Mr. Norman Bettison
Reverend Martin Blakeborough
Mr. Raj Boyjoonauth
Ms Vivienne Evans
Dr. Laurence Gruer
Mr. Russell Hayton
Mr. Peter Housden
Mr. Roger Howard
Mr. Alan Hunter
Professor David Nutt
Mrs Kay Roberts
Mrs Patricia Roberts
Dr. Roy Robertson

Newly appointed members:

Dr. Dima Abdulrahim
Lord Victor Adebowale
Dr. Margaret Birtwistle
Dr. Cecilia Bottomley
Ms Carmel Clancy
Professor Iiana Crome
Ms Robyn Doran
Mr. Robert Eschle
Professor Hugh Edmondson
Professor C Robin Ganellin FRS
Mr. Paul Haves
Mr. Andrew Hayman
His Honor Judge Thomas Joseph
Dr. John Marsden
Mr. Peter Martin
Mr. Richard Pates
Mr. Trevor Pearce
Mr. Arthur Preddy
Dr. Mary Rowlands
Dr. Polly Taylor
Ms. Monique Tomlinson

In June 2003, the Advisory Council published "Hidden Harm—Responding to the needs of children of problem drug users".

The Advisory Council met twice in 2003, on 15 May 2003 and 6 November 2003.

(ii) The Animal Procedures Committee had the following list of members in 2003:

Rev Prof Michael Banner, Chairmen
Prof Robin Dunbar
Mr John Gregory
Prof John Martin
Prof Christopher Atterwill
Prof Donald Broom
Dr. Michael Festing
Dr. Robert Hubrecht
Dr. Tim Morris
Dr. David Clark
Dr. Maggy Jennings
Dr Gill Langley
Prof Grahame Bulfield
Prof Stephen Clark
Prof Alan Holland
Prof Alan McNeilly
Prof Genevra Richardson
Graham Moore

Newly appointed member:

Prof Dawn Oliver (March 2003)

Retired member:

Robert McCracken (August 2003)

In 2003, the Committee produced a report "A Review of Cost-Benefit Assessment in the Use of Animals in Research" and its 2002 Annual Report.

The full Committee met five times in 2003, on 12 February 2003, 9 April 2003, 25 June 2003,8 October 2003 and 19 December 2003. In addition there were many meetings of sub-committees and working groups.

(iii) Correctional Services Accreditation Panel (CSAP) had the following list of members in 2003:

Sir Duncan Nichol (Chair)
Prof Donald Grubin
Prof Michael Gossop
Ms Sylvia Hikins
Mr. David Kennard
Prof Friedrich Lösel

Prof Mike Maguire

Dr. Janice Marques

Dr. Mary McMurran

Dr. William Murphy

Dr. Frank Proporino

Dr. Barbara Rawlings

Prof Peter Raynor

Mr. Colin Roberts

The CSAP produced an Annual Report for 2002–2003.

The full Panel met in 2003 from 24 March 2003 to 28 March 2003 and from 13 October 2003 to 17 October 2003. A sub-group called the Drugs Sub-Panel met from 13 May 2003 to 15 May 2003 and from 4 June 2003 to 6 June 2003. There were also one or two smaller meetings during the course of that year.

(iv) Technical Advisory Board (TAB) consists of six representatives of the communications industry and six representatives of the intercepting agencies. The names of the intercepting agencies are not made public but the names of the Chair and the communications industry representatives for 2003 are as follows:

Liam Strong (Chair)

Derek Cobb

Jim Cottrell

Jessica Hendrie-Liano

Tom Phillips

Mike Short

Robert Temple

In 2003 the TAB had no meetings and did not produce any reports.

(v) The Police Advisory Board for England and Wales has the following as members in 2003. Two representatives of the Association of Chief Police Officers of England and Wales (ACPO) to include the Metropolitan Commissioner, one representative of the Chief Police Officers' Staff Association (CPOSA), two representatives of the Police Superintendents' Association of England and Wales (PSAEW), five representatives of the Police Federation of England and Wales (PFEW) and members nominated by the Home Secretary. There is an Independent Chair, John Randall and a Deputy Chair, Mark Baker.

An Annual Report was produced on the work of the Police Advisory Board by the Independent Chair. This was issued on 16 June 2003.

The Police Advisory Board meets quarterly. In 2003 it met on 30 January 2003, 16April 2003, 28 October 2003 and 23 December 2003.

Task Forces and Ad hoc Advisory groups are essentially Home Office working groups. They have a short-term focus and when their work comes to an end they are disbanded. These groups give expert advice to the Department on a specific issue.

(vi) The National Crime Reduction Task Force has not met since 2000.

(vii) The Insurance Cover Working Group (ICWG) is a Home Office working group. In 2003, the following were members of the ICWG:

Stephen Bourne (Chair and Co-ordinator)

David Tyler

Helen Rice

Ian Egginton-Metters

Tom Flood

Celia Webber

John Stratton

Anne-Marie Piper

Merran Buchanan

Sophie Chapman

Tim Humphreys

Anne Armstrong

Laura Baird

Mark Pratt

Jim Neilson

Paul Lewis

Hilary Dalton

Paula Reynolds

Tony Jeeves

Martin Elliott

Steve Wyler

David Evans

Brain Garcia

John Parker

John Barton

Douglas Ellis

Jim Lugton

Bob Elam

Neil Surman

Anita Varey

Michael Swann

Charlotte Edward

Janet Howe

The following are listed as Observers:

Lucy French

David Bishop

Rebecca Leete

Nick Munn

Vedi Sanjiv

Elaine Warner

Miles Burger

David Sinclair

Anthony Hammill

Claire Crawley

Ilyas Malick

Alex Sienkiewicz

In 2003 the ICWG produced the following reports, "Research into Insurance Cover for the Voluntary and Community Sector in England" in July 2003 and " Report for Ministers" in December 2003.

The ICWG met three times in 2003, that is on 23 January 2003, 10 June 2003 and 8 October 2003.

(viii) The Criminal Records Bureau Consultative Panel (CRBCP) is an Ad hoc Advisory group. The Panel is made up of Customer Groups, Regulatory Authorities,

Government Departments, CRB Stakeholders and CRB Senior Managers. In 2003, the following were members of the CRBCP:

Vince Gaskell
Anita Varey
Mark Favager
Barbara Hockey
Rob McGreal
Bob Wright
Michelle Wise
Steve Boocock
Tim Humphreys
Stephen Adams
Neil Wallace
Neil Bentley
Jean Pugh
Gordon Fleck
James Walsh
Rob Heiser
Clare Smith
Gareth Crossman
Mervyn Barrett
Peter Martin
Sally Nunn
Andy Forster
Irish Davies
Sean Risdale
Ann Russell
Euan Eddie
Chris Atkinson
Debbie Akinfe
Sarah Veale
Nicola Foulds
Roy Haley

The CRBCP does not produce reports. It was designed as a method for the Criminal Records Bureau to communicate and consult with its customer base and for the customer base to raise issues with the Bureau.

The CRBCP meets quarterly. In 2003 the CRBCP met on 12 March 2003, 27 June 2003, 26 September 2003 and December meeting was held over until 14 January 2004.

Mr. Oaten: To ask the Secretary of State for the Home Department what the *(a)* budget and *(b)* administration costs in 2003 were of (i) the National Crime Reduction Task Force, (ii) the Advisory Council on the Misuse of Drugs, (iii) the Correctional Services Accreditation Panel, (iv) the Animal Procedures Committee, (v) the Criminal Records Bureau Consultative Panel and (vi) the Police Advisory Board for England and Wales. [174270]

Ms Blears *[holding answer 18 May 2004]:* Advisory non-departmental public bodies (NDPBs) do not have a separate resource budget. Their secretariat and administration costs are borne directly by the Department.

(i) The Advisory Council on the Misuse of Drugs (ACMD) has no resource budget. The Home Office provides secretariat and administrative support. The ACMD had an expenditure/costs for the Financial Year 2003–04 of £137,793.27.

(ii) The Animal Procedures Committee (APC) consists of 20 members including a Chairman. All Board members are public appointees. The Chairman received £10,000 in remuneration and £28,000 for members' expenses. £280,000 went on research. The total budget of £318,000. APC had an estimated administration cost for the Financial Year 2003–04 of £5,185.

(iii) The Correctional Services Accreditation Panel (CSAP) had a budget for the Financial Year 2003–04 of £195,000 and an estimated administration cost of £60,112.

(iv) The budget allocation for the Police Advisory Board for England and Wales (PABEW) is combined with that of the Police Negotiating Board (PNB). The PABEW and the PNB combined budget figure for the Financial Year 2003–04 was £54,633 and their combined figure for administration costs was £50,582.14.

Task Forces and ad hoc advisory groups are essentially Home Office working groups. They do not have a separate budget or administration costs.

(v) The Criminal Records Bureau Consultative Panel had an estimated budget and administration cost of £5,000.

(vi) The National Crime Reduction Task Force is no longer operating and no meetings or activity occurred in the Financial Year 2003–04.

Royal Society (Decontamination Report)

Patrick Mercer: To ask the Secretary of State for the Home Department what his response is to the recommendations made in the recent Royal Society report on the detection and decontamination of chemical and biological agents. [174617]

Mr. Blunkett: The Government have welcomed the Royal Society's report and has written to the President of the Royal Society setting out its response.

I have today placed in the Library a copy of the Government's response to the Royal Society report, and undertake to send the hon. Member a copy.

Security Industry Authority

Mr. Damian Green: To ask the Secretary of State for the Home Department what the *(a)* budget and *(b)* staffing levels of the Security Industry Authority are. [174177]

Ms Blears: The level of grant funding for the Security Industry Authority (SIA) for 2004–05, as published in the Treasury Main Supply Estimate (HC 466), is £25,700,000. This expenditure will be largely offset by licence fees. The maximum staffing level of the SIA is projected to be 122.

Mr. Damian Green: To ask the Secretary of State for the Home Department if he will make a statement on the work the Security Industry Authority has carried out since 1 April 2003. [174178]

Ms Blears: During this period the Security Industry Authority (SIA) has undertaken a considerable programme of work preparing itself and the security industry for the introduction of regulation. This has included work on licensing, compliance and investigation, communications, strategic development, and corporate services. Full details of the work undertaken by the SIA will be published in their Corporate and Business plan in due course.

SOLICITOR-GENERAL

Crown Prosecutors

Mr. Garnier: To ask the Solicitor-General what the average total cost was of employing each grade of Crown Prosecutor, including pension and holiday provision, and other benefits associated with such employment, in each financial year since 1 May 1997 for which figures are available. [167302]

The Solicitor-General: The average total cost of employing each grade of crown prosecutor in real terms, including pension and holiday provision, and other benefits associated with such employment, in each year since 1997, was as follows:

£

	Chief Crown Prosecutor	*Band E*	*Band D*	*Band C*
1997–98	94	67	58	45
1998–99	95	68	58	46
1999–2000	71	70	60	48
2000–01	91	73	61	49
2001–02	96	77	63	52
2002–03	105	77	64	52
2003–04	120	77	67	51

Mr. Garnier: To ask the Solicitor-General what arrangements are made for each grade of Crown Prosecutor to qualify for high court advocacy rights; and how much time has been spent on average by each qualified Crown Prosecutor on higher courts advocacy during each financial year since 1 May 1997 for which figures are available. [167305]

The Solicitor-General: an opportunity each year to apply for a place on a Higher Court Advocacy programme which is run by the Crown Prosecution Service in partnership with the Nottingham Law School.

The time spent on higher court advocacy by qualified crown prosecutors from 1999 to 2003 is shown in Table A. 1999–2000 was the first full year for which figures were collated.

Table A

Number of sessions average hours per session	*1999–2000*	*2000–2001*	*2001–2002*	*2002–2003*
Number of sessions	2,718	4,075	7,186	6,839
Ave hours per session	5.29	4.84	4.89	5.15

INTERNATIONAL DEVELOPMENT

Bedouins (Negev)

Tom Brake: To ask the Secretary of State for International Development (1) what assistance his Department provides to the Bedouins in the Negev; [175204]

(2) what discussions he has held with the Israeli Government about the situation of the Bedouins in the Negev. [175202]

Mr. Gareth Thomas: The Negev desert is part of Israel. DFID does not work in Israel because it is not a developing country. DFID's mandate for poverty reduction requires us to focus our efforts on development and humanitarian assistance in developing countries. DFID has had no discussions with the Israeli Government about the situation of Bedouins in the Negev.

Belize/Guatemala

Chris Ruane: To ask the Secretary of State for International Development if he will list the projects his Department has supported in Belize over the past 20 years that have been classed as successful. [175239]

Mr. Gareth Thomas: I shall arrange for a copy of a document entitled "Department for International Development/Official Development Assistance in Belize" to be placed in the Libraries of the House.

The list shows all DFID/ODA projects funded in Belize since 1986 (the year to which project records for Belize date back). Performance scoring of projects began in 1992; all listed projects since then have been classed as partially or wholly successful.

Chris Ruane: To ask the Secretary of State for International Development what role the UK Government have played in resolving the border disputes between Belize and Guatemala. [175240]

Mr. Rammell: I have been asked to reply.

The UK continues to support fully the Organisation of American States (OAS)-facilitated process between Belize and Guatemala as the best means to secure a permanent solution to their territorial dispute. I underlined this to both governments when I visited Belize and Guatemala from 14 to 17 January, and I have recently written to Vice-President Stein of Guatemala and Prime Minister Musa of Belize. We have also lobbied both countries to agree a long-term extension to the Confidence Building Measures Agreement, which is due to expire in June, at the next OAS meeting between Belize and Guatemala in Washington in June.

We are also supporting the OAS-sponsored Confidence Building Measures in Belize and Guatemala through the FCO/DFID/MOD Global Conflict

Prevention Pool. £1.5 million has been allocated this financial year. Our projects are aimed at reducing tensions, encouraging co-operation between security agencies and addressing the underlying causes of conflict.

Computer File Formats

Mr. Allan: To ask the Secretary of State for International Development what his Department's policy is in respect of the computer file formats used for the *(a)* distribution and *(b)* archiving of publicly available documents. [173366]

Mr. Gareth Thomas: Material is produced and distributed using a range of industry standard formats: Hypertext Mark-Up Language (html), Portable Document Format (pdf) and Microsoft Word (doc) as recommended in the "Guidelines for UK Government Websites"—as appropriate to the publication. According to the e-Government agenda, DFID is developing an Electronic Documents and Records Management System which will include a policy on the archiving of electronic files.

Darfur

Clare Short: To ask the Secretary of State for International Development what action he has taken to secure access to Darfur for humanitarian relief; and if he will make a statement. [175839]

Hilary Benn *[holding answer 25 May 2004]:* I am gravely concerned about the situation in Darfur and the difficulties of ensuring humanitarian access to a displaced population of over 1 million.

I will be tabling a written ministerial statement on Thursday 27 May 2004.

Gambia

Angus Robertson: To ask the Secretary of State for International Development how much *(a)* monetary aid, *(b)* aid in kind and *(c)* logistical aid his Department has (i) pledged and (ii) delivered to the Child Protection Alliance in The Gambia in each year since 2000; and if he will make a statement. [175477]

Gareth Thomas: DFID has not directly funded or been involved in the activities of the Child Protection Alliance in The Gambia. However through DFID's Small Grants Scheme, which is administered by the British High Commission in Banjul, we have provided £3,465 over the past three years to the Child Protection Alliance. This helped to support a capacity building project, an information campaign on child protection issues, and an assessment of member organisations.

Gaza Strip

Dr. Tonge: To ask the Secretary of State for International Development what recent assessment he has made of the *(a)* nutritional needs of and *(b)* the supply of clean water to residents in the Gaza Strip. [175349]

Mr. Gareth Thomas: A food security assessment conducted by the Food and Agriculture Organisation and World Food Programme during 2003 found that approximately 41 per cent. of the population of the Gaza Strip are "food insecure", with a further 28 per cent. at risk of becoming so. Another nutritional assessment done in 2002 by Johns Hopkins and Al-Quds Universities looked at children six to 59 months, and found that in the Gaza Strip, 13.3 per cent. had acute malnutrition (wasting), and 17.5 per cent. had chronic malnutrition (stunting). The United Nations Relief and Works Agency provides emergency food aid to an estimated 128,000 families.

Palestinians have very low water consumption. Per capita Palestinian water consumption in Gaza is 88 litres/day, compared with a World Health Organisation recommended basic minimum for developing countries of 100 litres/day. The United States Aid to International Development (USAID) is leading a major programme of activities to increase the quantities of water available for water supply in Gaza. This includes protection and management of the coastal aquifer, which is the only local source of freshwater in Gaza. USAID has also agreed to fund the construction of a desalination plant that will purify up to 20 million cubic metres of sea water each year, equivalent to nearly 40 per cent. of Gaza's current municipal consumption. A main water pipeline the length of Gaza will also be constructed to distribute high-quality water throughout the Gaza Strip.

Dr. Tonge: To ask the Secretary of State for International Development what funds are being made available to send aid to Gaza Strip following recent Israeli action. [175350]

Mr. Gareth Thomas: A UN-led needs assessment in Rafah is currently being finalised. DFID will look closely at this when judging if and how we should respond.

Iraq

Mr. Jim Cunningham: To ask the Secretary of State for International Development what changes he has made to international aid budgets since the decision to take military action in Iraq. [175205]

Mr. Gareth Thomas: I refer the my hon. Friend to the answer given by the Secretary of State to the hon. Member for Meriden (Mrs Spelman) on 3 November 2003, *Official Report*, column 493W and the answer that I gave to the hon. Member for Buckingham (Mr. Bercow) on 3 December 2003, *Official Report*, column 50W.

Funding for the reconstruction of Iraq did not affect planned DFID expenditure for other countries during 2003–04. During 2004–05 and 2005–06, funding for the reconstruction of Iraq includes £50 million reallocated from planned programmes, together with DFID contingency funding of £115 million and contributions from other Departments. In addition, in response to the increased amounts needed for Iraq, which is classified as a middle income country, DFID has adjusted forward plans to move a further estimated £50 million from other middle income country programmes to low income country programmes. This is needed to maintain our commitment to our Public Service Agreement target of raising the share of our bilateral programme going to low income countries to 90 per cent. by 2005–06.

Details of the middle income countries affected by these changes can be found in the written statement provided to Parliament by the Secretary of State for International Development on 6 November 2003, *Official Report*, column 42WS. The revised allocations for 2004–05 and 2005–06 are set out in the DFID Departmental Report 2004. DFID will also continue to provide substantial assistance to middle-income countries through multilateral institutions.

These reallocations should be seen in the context of a development assistance budget that will increase by £900 million over the current Spending Review Period 2003–06.

Israel

Mr. Jim Cunningham: To ask the Secretary of State for International Development what steps the Government are taking to provide humanitarian aid to those affected by Israel's demolition policy. [174517]

Mr. Gareth Thomas: A UN-led needs assessment in Rafah is currently being finalised. DFID will look closely at this in judging if and how we should respond.

During the past 18 months DFID has provided a technical management team to oversee the reconstruction and repair of demolished and damaged housing in Jenin Refugee Camp. In addition DFID made a £5 million contribution in March to the United Nations Relief and Works Agency's Emergency Appeal, which provides a range of emergency humanitarian support to Palestinians in the West Bank and Gaza Strip. This includes emergency shelter, food and health services in Rafah.

TRADE AND INDUSTRY

Carbon Dioxide Emissions

Mr. Clifton-Brown: To ask the Secretary of State for Trade and Industry by how much she estimates prices of *(a)* gas and *(b)* electricity for (i) domestic consumers and (ii) industry have changed as a result of Government policy on reducing emissions of carbon dioxide; and what her forecasts are for future price changes. [172528]

Mr. Timms: The Government have put in place a range of measures for reducing emissions of carbon dioxide.

For domestic customers, electricity prices have increased as a result of the introduction of the Non-Fossil Fuel Obligation (NFFO), the Renewables Obligation (RO) and the Energy Efficiency Commitments. The European Emissions Trading Scheme (ETS) will also have an upward impact on domestic electricity prices. Gas prices have been affected by the Energy Efficiency Commitments.

For business consumers, gas and electricity prices have been affected by the introduction of the Climate Change Levy (CCL) in 2001. Electricity prices have been affected by the NFFO and the Renewables Obligation. The introduction of the ETS in 2005 will also have an effect on electricity prices and the costs of using gas for business consumers.

Projecting future price increases is highly uncertain. Such impacts will depend on the operation of markets as well as policy measures. The estimates in the following tables are made on particular assumptions and can be indicative only.

Estimated impacts to date and forecasts for the period to 2010 are shown in the following tables:

Domestic gas prices

Percentage

	Impact to date	*Impact 2004–10*
Energy Efficiency Commitments	1	1
Total	1	1

Industrial gas prices

Percentage

	Impact to date	*Impact 2004–10*
CCL—with Climate Change Agreement (CCA)	4	0
CCL—without CCA	19	0
Emissions Trading	0	8
Total (with CCA)	4	8
Total (without CCA)	19	8

Domestic electricity prices

Percentage

	Impact to date	*Impact 2004–10*
NFFO/Renewables Obligation	2	3
Energy Efficiency Commitments	1	2
Emissions Trading	0	3
Total	3	8

Industrial electricity prices

Percentage

	Impact to date	*Impact 2004–10*
NFFO/Renewables Obligation	3	7
CCL—with Climate Change Agreement (CCA)	3	0
CCL—without CCA	15	0
Emissions Trading	0	6
Total (with CCA)	6	13
Total (without CCA)	18	13

Notes:

1. Impact of Emissions Trading Scheme is on gas costs as users of gas will need to hold emission allowances. Not all business users of gas are covered by the EU ETS and those that are will receive an initial free allocation of allowances that will largely cover their projected emissions.

2. Estimates for renewables include the impact of the Non-Fossil Fuel Obligation, which has already impacted on electricity prices.

3. Average impact from Energy Efficiency Commitments. For those benefiting from energy efficiency measures, bills should fall. It is estimated that the average annual on-going financial gain for consumers benefiting from measures in the 2005–08 period, in lower energy bills or increased comfort, would be around £15 a year for the lifetime of the measures. The annual benefit from cavity wall insulation in a standard three bedroom house is likely to be £80 to £100.

4. Impact of Climate Change Levy estimated for those with a Climate Change Agreement who receive an 80 per cent. reduction in the rate of levy and for those without a CCA who pay the full levy. Impact of emissions trading based on a price of €5 per tonne of carbon dioxide.

Chronic Obstructive Pulmonary Disease

Mr. Clapham: To ask the Secretary of State for Trade and Industry how many chronic obstructive pulmonary disease claimants medically examined so far have also been diagnosed to be suffering with *(a)* pneumoconiosis, *(b)* asbestosis, *(c)* mesothelioma and *(d)* asthma, broken down by (i) age and (ii) coalfield area. [174768]

Nigel Griffiths: Nearly 184,000 medical assessments have been carried out with a resulting fit for purpose Medical Assessment Process (MAP) report. Of this number, over 64,000 MAP reports show a condition other than chronic obstructive pulmonary disease that is impacting on the claimant's respiratory function.

Under the respiratory disease Claims Handling Agreement, ERISC are not required to record these separate co morbid conditions.

Clean Coal

Mr. Kevin Hughes: To ask the Secretary of State for Trade and Industry how much her Department spent on Clean Coal projects in each year since 2000 broken down by project; and what the estimated spending for 2004 is. [175587]

Mr. Timms: Spend on clean coal (R&D) programmes since 2000 is indicated as follows:

	£000 (Accruals)
2000–01	1,889
2001–02	1,702
2002–03	1,979
2003–04	1,090
2004–05 estimated	1,168

The following table shows the breakdown by project.

Projects (R&D)

Cleaner coal R&D programme (cash flow)	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*	*Total*
Pulverised fuel meters—split control	—	—	65,155	—	—	65,155
Advanced materials, modelling and lifting technologies for gas turbine components	188,410	—	211,854	145,210	163,540	709,014
Development of a combustor strategy to cover a wide range of calorific values	—	—	219,365	—	94,140	313,505
Novel gas cleaning/heat recovery system	—	28,560	24,762	—	47,900	101,222
Materials for gasifier heat exchangers	—	9,390	25,275	—	15,290	49,955
Concurrent measurements of temperature and soot concentration of coal fired combustion flames	31,910	—	38,091	—		70,001
Coal mineral transformations—effects on boiler ash	—	99,300	33,100	—	66,200	198,600
Advanced monitoring using imaging for combustion in power station boilers	—	—	68,546	—	45,910	114,456
Advanced coal modelling	—	37,600	—	10,506	—	48,106
Improved materials for advanced PF boilers and steam turbines	—	210,940	536,103	129,957	310,970	1,187,970
Optimisation of furnace design for in-furnace NOx reduction	—	50,590	76,195	—		126,785
Combustion of low volatile coals in wall fired plant	—	97,620	—	—	—	97,620
Optimisation of furnace mixing to enhance combustion efficiency in advanced low NOx systems	—	97,500	—	—	—	97,500
Improvement in combustion efficiency in utility boilers	—	—	239,428	—	201,770	441,198
Advanced optimisation of coal fired power plant operations	3,100	7,347	—	—	20,550	30,997
Techno-economic evaluation of cleaner coal fired plant operability	—	17,280	—	15,030	17,690	50,000
Modelling of particulate and vapour deposition in gas turbines fired on coal derived gases	—	—	19,926	13,653	56,710	90,289
Fabricated turbine rotors for advanced steam turbines	—	27,690	102,364	34,630	—	164,684
Metallic filters for hot gas cleaning	—	—	7,690	—	21,310	29,000
Advanced characterisation property database for Chinese and Indian (and other Asian) coals	—	—	34,722	—	64,670	99,392
Advanced near burner flame diagnostics for ignition and stability studies on full scale pulverised coal flames	—	—	26,584	—	22,000	48,584
UK collaboration with Netherlands and Australian NOx reduction research using overfire air staging	—	—	14,123	—	15,300	29,423
Improving the efficiency and environmental performance of small scale combustion plant for increased export opportunities	—	5,840	23,247	—	20,910	49,997
Application of CFD modelling to mill classifier design	—	—	139,300	31,100	—	170,400
Predictive methods and remedial measures for particle impact erosion and abrasion wear in cleaner coal energy conversion techs	—	—	30,000	70,000	17,500	117,500
Once through the boiler with vertical tube furnace	—	81,710	54,471	45,395	—	181,576
Advanced modelling and testing of thick section welded HCM2S	—	25,810	—	39,650	39,830	105,290
"FOURCRACK" development of advanced coal fired plant steels to avoid premature failure by weld "Type IV" cracking	—	—	13,000	—	122,500	135,500
Carbon burnout—coal fitness effects	—	—	56,400	14,950	27,530	98,880
Development of nitrogen stable isotope ratio measurements to apportion fuel and thermal NOx in coal conversion	—	—	58,750	51,250	—	110,000
Enhanced Efficiency Steam Turbine Blading for Cleaner Coal Plant	—	—	—	19,848	246,460	266,308
Advanced (700C) PF Power Plant	—	—	—	—	81,360	81,360
Virtual Plant Demonstration	—	—	22,990	—	—	22,990
Real time Efficiency Measurements for Utility Boilers	—	—	—	81,632	28,370	110,002
Demonstration of Co-firing Biomass at an Existing Coal Fired Power Station	—	—	—	140,000	—	140,000
Demonstration of Co-firing Biomass at an Existing Coal Fired Power Station	—	—	—	—	755,460	755,460
Assessment of Ash Refiring and Mineral Addition on Plant Performance and Ash Disposal	—	—	—	—	154,000	154,000

Projects (R&D)

Commission for Equality and Human Rights

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what proportion of the Commission for Equality and Human Rights' budget will be spent on financial grants to supporting organisations; and what framework is in place to choose these organisations. [175152]

Ms Hewitt: Funding for the proposed Commission for Equality and Human Rights is still under discussion and is subject to the Government process for financial planning for the next three years.

However, our White Paper, "Fairness for All" has given a commitment to maintain levels of grant funding for local equality work for the foreseeable future.

The Commission will be subject to the same government accounting framework as other non-departmental public bodies, including those processes for making grants.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what measures will be taken to ensure effective liaison between existing advisers to small businesses and the Commission for Equality and Human Rights. [175154]

Ms Hewitt: The Commission for Equality and Human Rights will provide the opportunity to achieve the more joined-up approach to equality and human rights that business, and especially small business, has called for strongly.

The White Paper, "Fairness for All", makes clear that it will be essential for the CEHR to respond to the specific needs of small businesses and liaise effectively with small business advisers. In developing these effective measures, the CEHR will consult and work closely with small business on all key areas of its work to recognise and address their specific needs.

Evidence shows that small businesses' information needs are often different from those of large organisations, which centre on basic information on compliance and legal obligations. Many small businesses prefer to seek this advice from their existing advisers.

The CEHR's services will need to support these advisers and intermediaries and enable the provision of joined-up information that small business wants.

The CEHR will respond to the preferred ways of working of small business. It will be expected to work with and through other existing bodies such as regional development agencies, the Small Business Service, business representative organisations and sector-based professional bodies.

The Government will continue to express their strong commitment to ensuring liaison between existing small business advisers and the CEHR throughout the White Paper consultation period and beyond.

We are especially grateful to Lorraine Gradwell of the Small Business Council for her work as a member of the Commission for Equality and Human Rights Task Force and her support for promoting the interests of small business.

Convenience Market

Jim Dowd: To ask the Secretary of State for Trade and Industry what meetings she has had with independent and small retailers or their representatives to discuss the implications of consolidation in the convenience market. [175762]

Mr. Sutcliffe: My right hon. Friend the Secretary of State is aware of the concerns of independent and small format retailers about consolidation in the convenience sector. However, the independent competition authorities are responsible under the Enterprise Act 2002 for decision-making in merger cases against an explicit competition test, and parties with concerns about the effects of mergers in this sector are encouraged to contact the Office of Fair Trading to put forward their views. Ministers have no role in this process, and my right hon. Friend the Secretary of State has not, therefore, met with those in the convenience sector to discuss any concerns.

Domestic Heating

Mr. Gregory Campbell: To ask the Secretary of State for Trade and Industry what estimate she has made of the annual cost of heating an average domestic property in Great Britain by *(a)* electricity, *(b)* solid fuel and *(c)* natural gas. [175856]

Mr. Timms: Figures on the cost of providing space and water heating in typical dwellings for Great Britain appear in "Salkent's Comparative Heating Costs" publication. The October 2003 edition of this shows costs as indicated in the table.

Typical annual costs of space and water heating for a three bedroom semi-detached house

Fuel type	*Annual cost (£)*
Electricity (Economy 7)	625
Solid fuel (Anthracite grains)	566
Gas (conventional boiler)	463

Liquefied Natural Gas

Mr. Gibb: To ask the Secretary of State for Trade and Industry what reserve storage facilities for liquefied natural gas the Government have for use during emergency interruptions of gas supplies. [174714]

Mr. Timms: National Grid Transco own and operate five LNG storage facilities. These are used, at the commercial judgment of NGT, to meet winter peaks in gas demand. The gas industry has emergency arrangements in place for managing a supply shortfall.

National Minimum Wage

Mrs. Humble: To ask the Secretary of State for Trade and Industry how many workers have benefited from the national minimum wage in Blackpool, North and Fleetwood. [175890]

Mr. Sutcliffe: It is not possible to provide estimates specifically for the constituency of Blackpool, North and Fleetwood. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the national minimum wage in April 1999. Between 130,000 and 160,000 people were expected to have benefited from the October 2003 uprating of the national minimum wage.

Oil and Gas Production

Mr. Dobson: To ask the Secretary of State for Trade and Industry what the quarterly totals of *(a)* oil and *(b)* gas produced in the British sector of the North Sea were in the last 10 years. [175935]

Mr. Timms: Information on production of oil and gas from the UK and UK Continental Shelf over the last 10 years is set out as in the table. The Department publishes information on production on its website. Total quarterly production of oil from 1995 is at www.dti.gov.uk/energy/inform/energy_stats/oil/3_10oilproduction-ettab13.xls and quarterly production of gas from 1996 at www.dti.gov.uk/energy_stats/gas/4_2gasproductionettab11.xls

UK production of oil and gas

	Quarter	*(a) Oil and Natural Gas Liquids (Million tonnes)*	*(b) Gross gas (GWh)*
1994	1	30,187	255,201
1994	2	30,825	155,320
1994	3	31,380	118,951
1994	4	34,150	221,665

Paid Leave

Mrs. Humble: To ask the Secretary of State for Trade and Industry how many residents of Blackpool, North and Fleetwood qualify for paid leave entitlement. [175887]

Mr. Sutcliffe: All workers resident in Blackpool, North and Fleetwood qualify for paid annual leave entitlements; at least four weeks as set out in the Working Time Regulations. While all women are entitled to 26 weeks ordinary maternity leave, only those who meet the eligibility criteria will be able to claim statutory maternity pay for that period.

All employees in Blackpool, North and Fleetwood who are eligible will be entitled to take statutory paternity leave with pay and statutory adoption leave with pay.

Post Office (Election Materials)

Tony Wright: To ask the Secretary of State for Trade and Industry what assessment she has made of the ability of the Post Office to provide a satisfactory service for the delivery of election materials for the elections on 10 June. [175563]

Mr. Timms: Royal Mail is fully aware of the importance of ensuring that it provides a reliable service during the pilot postal elections in June. This could affect just over 14 million people and DTI Ministers

have received assurances from Allan Leighton that Royal Mail will be giving the handling of the ballot papers the highest priority.

The Department of Constitutional Affairs, which is overseeing the elections, has had several meeting with Royal Mail to discuss the development of national and detailed local plans for the all-postal pilot elections. It has ensured that there are robust plans in place for the delivery and return of electoral mail in June.

The Department of Constitutional Affairs project team will monitor Royal Mail's performance in the run up and during the election period and are in regular contact with Royal Mail to ensure that everything runs smoothly.

Public Bodies

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how many people are employed by the *(a)* Commission for Racial Equality, *(b)* Equal Opportunities Commission and *(c)* Disability Rights Commission. [174705]

Ms Hewitt: The full-time equivalent staff complement for the commissions is:

	Number
Commission for Racial Equality	187
Equal Opportunities Commission	139
Disability Rights Commission	192

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what the current annual budget is of the *(a)* Commission for Racial Equality, *(b)* Equal Opportunities Commission and *(c)* Disability Rights Commission. [174702]

Ms Hewitt: The budgets for the commissions for 2004–05 are:

Commission for Racial Equality—£20,085,000

Equal Opportunities Commission—£8,255,000

Disability Rights Commission—£15,497,000.

Regional Development Agencies

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry which of the regional development agencies have established a science council; and what the annual budget for 2004–05 is of each. [174696]

Jacqui Smith: Regional Science Councils—or equivalent bodies—have been established in the North West, the North East, the South East and London. All of the RDAs have agreed to have a council in place by the end of 2004. Although subject to local variations, the Science Councils are generally tasked with exerting influence through the strategic direction of SET funding within their region, rather than holding specific budgets.

Research and Development

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what has been the research and development spending per capita in each UK region in each of the last six years. [174695]

Jacqui Smith: Spending on research and development is tracked regionally through a series of ONS surveys of private business, central Government and higher education establishments. Figures on research and development spending per capita in each UK region in each of the last six years is on the following table.

£s spent on research and development per head of resident population[1]

Region	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*
North East	118	110	112	110	115	105
North West	218	218	224	266	267	281
Yorkshire and the Humber	112	109	113	126	129	134
East Midlands	225	225	239	259	287	297
West Midlands	184	188	201	208	183	177
Eastern	496	540	534	573	622	659
London	245	231	233	255	277	268

Northern Ireland	97	87	89	105	133	141

[1] Population as at mid-year 2002.

Source:

Office for National Statistics.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry how much money *(a)* the Government, *(b)* the private sector and *(c)* higher education establishments has spent on research and development in each region of the UK in each of the last six years. [174699]

Jacqui Smith: Spending on research and development is tracked regionally through a series of ONS surveys of private business, central government and higher education establishments. Figures available for the last six years are provided in Tables 1, 2 and 3.

Note:
2002 statistics are not yet available.

Research and Development Grants

Albert Owen: To ask the Secretary of State for Trade and Industry if she will make a statement on steps she has taken to encourage small businesses to take up research and development grants in the United Kingdom. [174065]

Nigel Griffiths: Following the review of its business support the Department introduced Grant for Research and Development in England in June 2003 to build upon the success of the popular Smart scheme. For each category of grant the maximum amount available was increased in the transition to the new product. In the year April 2003 to March 2004 over 900 individuals and small and medium sized businesses were offered grants to help with the costs of researching and developing new, technologically innovative products and processes. The popularity of the grants has increased in each of the last three.

We have also made it easier for businesses to access all DTI business support. We have replaced the confusing array of schemes with a small suite of products, produced clear marketing brochures including one on succeeding through innovation, put in place the Business Support Directory to help customers identify the most appropriate forms of support and are building the Business Link brand to enhance its position as an easy to use gateway to useful information, analysis, advice and support.

The Scottish Executive, Welsh Development Agency and Invest Northern Ireland are responsible for their own Smart and Spur schemes.

Aluminium

Mr. Page: To ask the Secretary of State for Trade and Industry what the energy consumption is per unit of aluminium produced from *(a)* raw materials and *(b)* scrap. [174976]

Jacqui Smith: According to the Aluminium Federation, primary production in the UK uses about 14,500 kWh/tonne to electrolyse the alumina into molten primary aluminium. Recycling requires approximately 780 kWh/tonne, including all of the energy required to pre-process the low grade scraps prior to melting.

Mr. Page: To ask the Secretary of State for Trade and Industry what the price of scrap aluminium per tonne is; and what the average price was in 1997. [174978]

Jacqui Smith: "Metal Bulletin" quotes low and high prices, representing an evaluation of the market at the time that particular issue of "Metal Bulletin" goes to press. Monthly averages are not published. UK market prices are published for many different categories of aluminium scarp and ingot foundries. Data for three examples are shown below. Prices in 1997 generally exceeded the May 2004 level, except at the very start of the year.

£ per tonne (low and high prices)

Product	*8 January 1997*	*30 December 1997*	*19 May 2004*
Aluminium Scrap and Foundry Ingots:			
United Kingdom market			
Commercial cast	595–605	670–690	635–670
Group 1 Litho (baled)	785–805	875–895	800–830
Mixed alloy/Old Rolled cuttings	575–595	675–695	595–615

Mr. Page: To ask the Secretary of State for Trade and Industry what steps are taken to ensure that scrap aluminium exported from the UK is sent to Integrated Pollution Preventative and Control Directive Approved processing plants. [175427]

Mr. Timms: As a member of the European Community, the United Kingdom is not able to take unilateral action on trade matters. Decisions which impact on or affect the European Community's commercial policy are taken collectively by the European Commission and member states working closely together. There are no plans at present for the Commission to introduce proposals which would restrict the export of aluminium scrap to processing plants that meet certain standards of environmental performance. Any such measures would have to be compatible with WTO rules.

Spending Review 2002 Targets

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry if she will make a statement on the progress her Department has made towards meeting the Spending Review 2002 targets *(a)* to increase the number of people considering going into business and *(b)* to improve the overall productivity of small firms. [174713]

Nigel Griffiths: Barclays Bank's latest survey of business creation includes non-VAT registered firms and shows that there were 115,000 business start-ups in

England and Wales in the last quarter of 2003. The latest yearly figures show 465,000 business start-ups in England and Wales in 2003. This represents a 19 per cent. increase on the year before.

Data from the Office for National Statistics' Annual Business Inquiry shows that during the period 1999 to 2001, the productivity (gross value added per employee) of small firms (those with fewer than 250 employees) has risen at a faster rate every year than the productivity of all firms in the UK. In 1999, SMEs were 93 per cent. as productive as large firms, and by 2001, they were 96 per cent. as productive. The latest figures show that SMEs' productivity increased by 5.9 per cent. (basic prices) between 2000 and 2001, while all firms' productivity increased by 4.5 per cent. (basic prices).

Progress against the targets set in 2002 was published on 28 April 2004 in the 2004 DTI Departmental Report.

Unfair Commercial Practice Directive

Mr. Greenway: To ask the Secretary of State for Trade and Industry what progress was made at the Competitiveness Council held on 17 to 18 May on the Unfair Commercial Practice Directive and the Irish Presidency's proposal to delete the Internal Market Clause. [R] [175821]

Mr. Sutcliffe: The Competitiveness Council on 17 to 18 May reached political agreement to a common position on the Unfair Commercial Practices Directive based on a compromise package from the Irish Presidency, the main element of which was the deletion of Article 4(1) and the "country of origin" principle. The Commission stressed that this was only acceptable in the light of the full harmonisation which the Directive would provide, and tabled a minutes statement to this effect. The United Kingdom, Netherlands, Luxembourg and Estonia also tabled a joint minutes statement expressing their regret at the deletion of Article 4(1) and noting that traders who comply with the laws in the member state where they are established should ordinarily be presumed not to be in breach of the laws in other member states.

The Government welcome the Directive which will be a major enhancement of the UK's consumer protection regime by plugging gaps in the existing legal framework that unscrupulous traders exploit, and by setting standards against which new practices will automatically be judged. It will make an important contribution to achieving my Department's Public Service Agreement Target

"to have a consumer protection regime that is among the best in the world by 2006".

Victor Bout

Tom Brake: To ask the Secretary of State for Trade and Industry what investigations her Department has carried out into the activities of Victor Bout. [175582]

John Healey: I have been asked to reply.

Customs is responsible for investigating any suspected breaches of UN sanctions in the UK, or by UK persons overseas, involving exports or certain brokering activities.

It is not Customs policy to comment on the existence or nature of any such investigations, but Customs notes that recent media reports concerning Mr. Bout do not refer to any matters that would fall to be investigated by them.

Wind Farms

Miss McIntosh: To ask the Secretary of State for Trade and Industry what assessment the Government have made of the *(a)* energy and *(b)* carbon costs of wind farms including (i) the concrete content of foundations, (ii) losses in transmission and (iii) infrastructure such as access roads. [174802]

Mr. Timms: While there are some carbon emissions associated with the construction of wind farms and their associated infrastructure these are very small compared to the carbon emissions saved by the wind farm over its lifetime of operation. Wind Energy Fact Sheet 14, which can be found on the DTI website (www.dti.gov.uk/energy/renewables/publications/pdfs/windfs14.pdf) provides further information on the life cycle emissions from wind farms relative to fossil fuel electricity generating technologies.

In relation to transmission losses, these will affect all forms of electricity generation in a similar manner related to the distance transferred, type of power cable transferred through etc. Overall losses in the England and Wales transmission system are approximately 1.5 per cent. but no estimate has been made of what proportion of this energy loss is attributable to wind energy.

Miss McIntosh: To ask the Secretary of State for Trade and Industry (1) how the Government's energy policy takes account of the problems of grid security and stability caused by large-scale remote wind generation; [174803]

(2) how the Government's energy policy of large-scale wind farm development, particularly in remote parts of the UK, will affect the risks of large-scale electricity blackouts in the UK. [174806]

Mr. Timms: I refer the hon. Member to the answer I gave her on 6 February 2004, *Official Report*, column 1098W.

Large-scale blackouts are very rare events in the UK. For example, in England and Wales, the amount of energy not supplied by NGT due to transmission failures over the last 12 years is an extremely small proportion to total system throughput, averaging less than 0.0001 per cent. This compares very favourably with other transmission network operators.

The Government are working closely with the electricity industry to ensure that all necessary reinforcements required by the integration of renewable generation will be completed expeditiously. In addition, the industry is working to ensure that wind and other renewable generation connection to the system in future will have the characteristics necessary to maintain the integrity of the electricity networks. The Government in conjunction with the electricity industry, are also exploring possible means of further mitigating the effects of intermittency and unpredictability, for example by the application of additional electricity

storage. DTI and Ofgem will continue to monitor electricity security issues through the Joint Electricity Security of Supply working group.

Miss McIntosh: To ask the Secretary of State for Trade and Industry how many miles of new power lines will be needed in *(a)* Yorkshire and *(b)* other parts of England to accommodate the grid development identified by Ofgem as necessary to implement the Government's energy policy for wind farms. [174805]

Mr. Timms: The plan for remodelling the transmission grid to accommodate new renewable energy generation is currently being prepared by National Grid Transco, Scottish Power and Scottish and Southern Electricity.

(a) There are no planned upgrades of the transmission system required in Yorkshire.

(b) For the rest of England there will be a need to upgrade transmission lines but the final plans have not been presented.

Ofgem have now issued their second consultation on how to fund the costs of upgrades and the first of the transmission developments required to facilitate the delivery of our renewables targets, a new transmission line from Beauly to Denny in Scotland, is currently the subject of a pre-statutory consultation by Scottish and Southern. They hope to submit an application for section 37 consent this autumn.

EDUCATION AND SKILLS

Adult Education

Mr. Willis: To ask the Secretary of State for Education and Skills if he will make a statement on the extent to which impartial advice and guidance about learning and work is available to adults over 19 in England. [175846]

Mr. Ivan Lewis: Impartial advice about learning and work is available free of charge to all adults in England aged 20 and over through the learndirect telephone helpline and website, and through the local Information, Advice and Guidance (IAG) Partnerships managed by the Learning and Skills Council. Advice involves helping individuals to access and interpret information taking into account their personal needs and circumstances. Guidance, which involves helping clients to explore their options in greater depth, is not universally available free of charge. However, universities and colleges have careers services offering impartial information, advice and guidance to their students, and there are many private career consultancy firms providing guidance commercially for those people who are able and willing to pay for it.

Mr. Willis: To ask the Secretary of State for Education and Skills how he plans to ensure that in all 47 learning and skills council local areas adults over 19 seeking a career change or a skills update will be able to access impartial advice and guidance informed by the changing labour markets. [175847]

Mr. Ivan Lewis: In December 2003, the Department for Education and Skills published The National Policy Framework and Action Plan for Information, Advice and Guidance (IAG) for Adults. This set out a core range of information and advice services to be made available free of charge to all adults aged 20 and over. They include access for individuals to information and advice informed by labour market trends at national, regional and local levels. Individuals will access these services through an integrated IAG service linking the learndirect telephone helpline and website with the local Information, Advice and Guidance Partnerships. The integrated IAG service will be launched in August 2004.

BACS

Brian White: To ask the Secretary of State for Education and Skills what progress his Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164316]

Mr. Stephen Twigg: The Department for Education and Skills recognise that we must upgrade to BACSTEL-IP well before the December 2005 deadline. We are in the process of upgrading our central finance system, with an expected "go live" date of 5 July 2004. The BACSTEL-IP upgrade was excluded from the scope of that project as we did not want to introduce unnecessary additional risk. It will, however, be taken forward with Barron McCann (our current BACS software provider) as a priority upgrade towards the end of this calendar year.

Education Building Development Conference

Mr. Hoban: To ask the Secretary of State for Education and Skills if he will place in the Library the presentation made by Mr. Robert Osborne at the Conference for the Education Building Development Officer Group in 2003. [173137]

Mr. Miliband *[holding answer 13 May 2004]:* Copies of the presentation made by Mr. Robert Osborne at the Conference for the Education Building Development Officer Group in 2003 have been placed in the House Libraries.

Further Education

Martin Linton: To ask the Secretary of State for Education and Skills how many *(a)* full-time and *(b)* part-time places there were for 16 to 19-year-olds in London further education colleges in each of the past five years. [175208]

Alan Johnson: Information on the number of available places in Greater London further education colleges is not held centrally. Information on learners is held centrally however, though only for 16 and 17-year-olds.

The numbers of 16 and 17-year-old learners in further education colleges, living in London, from end 1997 to end 2001 (the latest available year) are given in Table 1. The numbers shown in the table are snapshot information as at the end of the calendar years.

Table 1

Greater London	*End 1997*	*End 1998*	*End 1999*	*End 2000*	*End 2001*
Full-time education					
Sixth form colleges	12,400	12,500	13,200	13,300	13,600
Other further education colleges[1]	41,200	40,600	40,100	40,700	41,800
Part-time education					
Sixth form colleges	200	200	200	200	300
Other further education colleges	8,000	7,600	7,900	7,800	7,500

[1] These figures include those participating in government supported work-based learning (WBL).

Mr. Flook: To ask the Secretary of State for Education and Skills how many people in *(a)* Taunton and *(b)* Somerset he expects to stay on in education as a result of the introduction of the Education Maintenance Allowance. [175621]

Mr. Ivan Lewis: We estimate there will be about 2,800 extra 16-year-olds in the South West Region in further education this September who would not be participating without EMA. We are unable to provide forecasts of the number of EMA students down to constituency level.

Mr. Greenway: To ask the Secretary of State for Education and Skills what estimate he has made of the number of people in Ryedale that he expects to remain in full-time education as a result of the introduction of the Education Maintenance Allowance. [175817]

Mr. Ivan Lewis: We estimate there will be about 2,800 extra 16-year-olds in the Yorkshire and Humberside Region in further education this September who would not be participating without EMA. We are unable to provide forecasts of the number of EMA students down to constituency level.

Mr. Greenway: To ask the Secretary of State for Education and Skills if he will bring levels of funding for 16 to 19-year-old students at further education colleges in North Yorkshire up to the level of funding for such students at schools in the county. [175815]

Alan Johnson: The Government have set out their investment plans for 2003–04 to 2005–06 to support their Success for All strategy to reform further education and training. These plans enable the Learning and Skills Council to increase funding for further education significantly. For the academic year 2003/04, core funding rates per qualification increased by 3 per cent. for school sixth forms and 4.5 per cent. for further education colleges (setting aside the impact on rates of changes to targeted funds for pay and staff training and teachers' pension funding). Our expenditure plans to 2005–06 should see that trend continue.

Mr. Greenway: To ask the Secretary of State for Education and Skills if he will provide extra funding to further education colleges in North Yorkshire to support increases in student numbers resulting from the introduction of the Education Maintenance Allowance. [175816]

Alan Johnson: The Department allocates funds for education and training in the post-16 learning and skills sector to the Learning and Skills Council (LSC). The LSC decides on allocations at individual college and regional level. Information about these allocations is not collected by the Department. This is a matter for the LSC. Mark Haysom, the Council's Chief Executive, will write to the hon. Gentleman with this information and a copy of his reply will be placed in the House Library.

Mr. Greenway: To ask the Secretary of State for Education and Skills what plans he has to provide funding to further education colleges in North Yorkshire to help them to refurbish and rebuild college buildings. [175818]

Alan Johnson: All of the Department's post-16 learning and skills sector capital investment is allocated to the Learning and Skills Council (LSC). The Department does not provide a specific budget to the LSC for rebuilding and refurbishing property in further education colleges at either the local or regional levels. It is for the LSC to determine for itself the right level of capital investment in further education colleges. Mr. Haysom, the Council's Chief Executive, will write to the hon. Member on this matter. A copy of his reply will be placed in the House Library.

School Access Fund

Mr. Hoban: To ask the Secretary of State for Education and Skills how much of the School Access Fund was spent on improving *(a)* physical access to school buildings and *(b)* access to the curriculum in the most recent year for which figures are available. [175237]

Margaret Hodge *[holding answer 24 May 2004]:* This information is not collected centrally. It is for local education authorities to decide which of the capital projects proposed by their schools should be supported in the light of local needs and circumstances detailed in their Accessibility Strategy.

Local authorities' accessibility strategies and schools plans should cover all three strands of the planning duties they have under part 4 of the Disability Discrimination Act 1995: to improve the physical environment of the school; increase the extent to which disabled pupils can participate in the school curriculum and improve the delivery of information to disabled pupils. Local authorities have a duty to make their strategies available for inspection to interested parties at reasonable times and maintained schools also have a duty to publish their accessibility plans in their governor's report to parents.

When Ofsted inspects schools, they report on how well they include all pupils within the school and how well they carry out their statutory duties, including accessibility planning under the Disability Discrimination Act 1995.

Mr. Hoban: To ask the Secretary of State for Education and Skills what guidance has been issued to *(a)* local education authorities and *(b)* schools on the use of the School Access Fund. [175238]

Margaret Hodge *[holding answer 24 May 2004]:* Guidance has been issued to local education authorities to indicate the scope of the capital projects they should support to improve the accessibility of the mainstream schools for disabled pupils. Information on the Schools Access Initiative, including the guidance, is also available on our website www.teachetnet.gov.uk/accessibleschools.

It is for local education authorities to determine how they will allocate the funding made available to them in the light of local needs and circumstances detailed in their Accessibility Strategy and make that information available to the schools they are responsible for.

As part of the implementation of the SEN Strategy: Removing Barriers to Achievement, the Department is developing a self-review and development tool to help local authorities review their accessibility strategies in partnership with pupils, parents and schools and identify ways of further improving the quality of their planning and significantly increasing access to education for disabled pupils.

Secondary Schools

Mr. Jenkins: To ask the Secretary of State for Education and Skills what his policy is on the most appropriate size of a secondary school to deliver an acceptable level of subject choice to pupils; and what guidance he has issued to local education authorities on this. [174565]

Mr. Miliband: We do not prescribe an appropriate size of secondary school to deliver an acceptable level of subject choice to pupils, and we have not issued any guidance to local education authorities on this. What is important is that secondary schools provide a high quality, broad and balanced curriculum as set out in sections 78 to 96 of the Education Act 2002. Schools can collaborate with other schools and colleges to broaden the range of options available to their pupils.

Student Fees

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills pursuant to his answers of 1 April 2004, *Official Report*, columns 1549–50W, to the hon. Member for the Isle of Wight, if he will list *(a)* for each higher education institution and *(b)* in total (i) the number of students who were UK nationals, (ii) the number of non-EU students and (iii) the number of EU students from countries other than the United Kingdom; if he will list for each total the (A) aggregate fee-income and (B) average fee-income per student; and what the (1) aggregate fee-income foregone and (2) average fee-income per student foregone was *(y)* at cost to the institution and *(z)* at cost to the public purse through treating EU students from outside the UK in the same way as students from the UK. [171206]

Alan Johnson *[holding answer 4 May 2004]:* It is not possible to calculate what the change in income to higher education institutions would be if EU students ceased to be treated in the same way as UK students for fees and funding purposes. This is because the change in income will depend on the courses that these students are following and institutions' decisions about the fee levels for those courses. Fees for non-EU overseas students are not regulated and institutions determine the amount they charge depending, for example, on the costs of the course offered. The Higher Education Funding Council for England (HEFCE) provides funding for EU students but not for non-EU overseas students. The amount paid by HEFCE will also depend on the type of course the student is taking. Information for each HE institution showing student numbers and fee income received is published by the Higher Education Statistics Agency (HESA) in "Students in Higher Education Institutions and Resources of Higher Education Institutions" respectively, copies of which are available from the House Library.

Teachers

Mr. Watts: To ask the Secretary of State for Education and Skills how many teachers have retired over the last four years. [174845]

Mr. Miliband: The information requested has been published in table 40 of the School Workforce in England volume, 2003 edition. A copy of this has been placed in the House of Commons Library. The volume can also be accessed from the following URL: http://www.dfes.gov.uk/rsgateway/DB/VOL/v000443/index.shtml

Test and Examination Costs

Mr. Willis: To ask the Secretary of State for Education and Skills what the initial total cost was, including production, printing, marking and moderation of *(a)* KS1 SATS, *(b)* KS2 SATS, *(c)* KS3 SATS, *(d)* GCSE, *(e)* AS, *(f)* A Level and *(g)* A2 for all schools for 2002–03. [175404]

Mr. Miliband *[holding answer 24 May 2004]:* The breakdown of expenditure for the Key Stage 1, 2 and 3 National Curriculum tests (commonly referred to as SATS) for all schools for 2002–03 are shown in the table.

£ million

Area of work	*KS1*	*KS2*	*KS3*
Test development, pre-testing and level setting	0.6	1.35	1.5
Paper and printing	0.5	0.75	1
Test distribution	0.5	0.6	0.6
Marking	—	9.4	9
Data collection	—	0.9	0.9
Total	1.6	13	13

Notes:
1. Key Stage 1 tests are marked and moderated locally and so the figures are unavailable for that expenditure.
2. Moderation at Key Stage 2 and 3 is involved in the marking costs—it is not possible to disaggregate the figure.
3. The figure for marking at Key Stage 2 is higher than Key Stage 3 as there are approximately 5 per cent. more pupils.
4. The figures relate to the test cycle and not a financial year.

As part of the work to modernise the examinations systems, announced by my right hon. Friend the Secretary of State on 17 November 2003, *Official Report*, column 25WS, we are seeking to improve our understanding of costs of the examinations system. Work to estimate the total costs incurred by the awarding bodies, rather than simply the fees they charge, shows that they spend a total of some £280 million a year on general examinations (principally GCSEs and GCEs) taken by students in schools and colleges in England.

DEFENCE

Air-Sea Rescue Service

Bob Spink: To ask the Secretary of State for Defence what plans he has for the future of the UK Air-Sea Rescue Service. [171736]

Mr. Ingram: The United Kingdom Search and Rescue services will continue to be provided by Royal Navy and Royal Air Force Sea King helicopters (alongside the Maritime Coastguard Agency) until the Support Amphibious Battlefield Rotorcraft Search and Rescue enters service.

Defence Analytical Services Agency

Miss McIntosh: To ask the Secretary of State for Defence if he will make a statement on the role and performance of the Defence Analytical Services Agency. [173936]

Mr. Ingram: The role of the Defence Analytical Services Agency (DASA) is to provide economic and statistical information, analysis and advice to the Ministry of Defence and to provide Parliament, other Government Departments and the public with defence-related statistics and analytical information.

DASA's main products and services are:

defence National Statistics (available at www.dasa.mod.uk);

statistics, analysis and interpretation on a wide range of defence activity for use within MOD (personnel, financial, logistics, commercial, health, and equipment);

forecasting to support the Department's financial and personnel planning appraisal and evaluation policy, scrutiny and advice to support the Department's investment decisions;

and consultancy services, advice and research including modelling, economic and statistical analyses, surveys and problem solving.

More detail about DASA can be found on its website.

In 2003–04 DASA met seven out of its eight key targets. In addition, DASA met the work-life balance standard (a key target carried over from 2002–03) and won the National Council for Work Experience award in the public sector category for the quality of the placements it offers to students. Further information on DASA's performance will be contained in DASA's Annual Report and Accounts which are due to be laid before Parliament before the summer recess.

Defence Scientific and Technology Laboratory

Mr. Gerald Howarth: To ask the Secretary of State for Defence to what extent the Defence Scientific and Technology Laboratory plans to increase its revenue from sources other than Government departments. [169389]

Mr. Ingram: The Defence Scientific and Technology Laboratory (Dstl) currently has no plans for increasing the revenue it receives from sources outside the public sector, except in the area of IPR exploitation, where it generates revenue through the setting up of joint ventures and the licensing of IPR from defence technology. In this role, Dstl, as a Public Sector Research Establishment, complies with the recommendations of the Baker Report in that it takes opportunities to protect, license and otherwise exploit the IPR generated from public funds for the wider benefit of the United Kingdom.

Departmental Executive Agencies

Mr. Soames: To ask the Secretary of State for Defence (1) if he will place in the Library copies of the *(a)* operating cost statement, *(b)* statement of recognised gains and losses, *(c)* balance sheet, *(d)* cash flow statement and *(e)* fixed assets register for financial year 1997–98 for the (i) Defence Dental Agency, (ii) Defence Estate Organisation, (iii) Defence Intelligence and Security Centre, (iv) Defence Vetting Agency and (v) RAF Logistic Support Services; [172119]

(2) if he will place in the Library copies of the *(a)* operating cost statement, *(b)* statement of recognised gains and losses, *(c)* balance sheet, *(d)* cash flow statement and *(e)* fixed assets register for (i) RAF Logistic Support Services for financial year 1999–2000 and (ii) the Defence Clothing and Textiles Agency for the period April to October 2000. [172120]

Mr. Ingram: No accounts were published in financial year 1997–98 by the Defence Estate Organisation, the Defence Intelligence and Security Centre, the Defence Vetting Agency and RAF Logistic Support Services. No accounts were published in financial year 1999–2000 by RAF Logistic Support Services as the organisation ceased to be an agency on 31 March 2000. For that year, no accounts direction was given by HM Treasury and accordingly the agency did not produce a set of annual report and accounts. In respect of the Defence Clothing and Textiles Agency no accounts were produced for the period April to October 2000 or for the year 2000–01 as the organisation ceased to be an agency on 1 October 2000. An operating cost statement, statement of recognised gains and losses, balance sheet and cash flow statement are thus not available.

For the Defence Dental Agency, I refer the hon. Member to the answer given to the hon. Member for Aldershot (Mr. Howarth) on 19 November 2003, *Official Report*, column 961W.

Fixed Asset Registers could be published only at disproportionate cost in view of the substantial volume of MOD assets.

Mr. Soames: To ask the Secretary of State for Defence what the *(a)* resource provision and *(b)* outturn for his Department's executive agencies was for financial years (i) 1999–2000, (ii) 2000–01, (iii) 2001–02 and (iv) 2002–03. [172121]

Mr. Ingram: For financial years 1999–2000 to 2001–02, I refer the hon. Member to the letter I sent to the hon. Member for North Essex (Mr. Jenkin) (reference: D/Min(AF)Al 4656/04C of 30 March 2004) copies of which are available in the Library of the House. This provides the "resource outturn" (net operating cost after interest in the Operating Cost Statement) for all agencies which are also Management Groupings or Top Level Budgets. Agency net operating costs may otherwise be found in the Operating Cost Statement of their Annual Report and Accounts, copies of which are available in the Library of the House. Technical differences in the way in which agency and consolidated departmental accounts must be prepared may result in a variance between the net operating costs figure shown in agency accounts and that shown in the equivalent consolidated departmental breakdown.

I will write to the hon. Member to provide the corresponding information for financial year 2002–03 and place a copy of my letter in the Library of the House.

I am unable to provide resource provision below Top Level Budget. The setting of budgets below this level is for internal management control purposes only as lower-level budgets may be redistributed over the financial year to take account of in-year cost pressures or programme changes.

Interrogation Techniques

Mr. McNamara: To ask the Secretary of State for Defence what steps were taken following the judgment of the European Court of Human Rights in Ireland *v.* United Kingdom (1978) to outlaw the use of the five techniques of interrogation found to be in breach of Article 3 of the European Convention. [174550]

Mr. Ingram: In 1978 the Government's presentation to the European Court of Human Rights set out that the then Prime Minister had declared on 2 March 1972, *Official Report*, columns 743–44, that "the techniques ... will not be used in future as an aid to interrogation" and that directives expressly prohibiting the use of the techniques for interrogation, whether singly or in combination, had been issued in April 1972. The Government also gave the Court an unqualified undertaking that the techniques of hooding, wall standing, sleep deprivation, food deprivation, and white noise would not in an any circumstances be reintroduced as an aid to interrogation.

Given that the necessary directives had been issued in April 1972, no further steps were deemed necessary following the Court's judgment.

Iraq

Llew Smith: To ask the Secretary of State for Defence what role was played by the *(a)* SAS and *(b)* SBS in restoring stability to Fallujah. [175048]

Mr. Ingram: I am withholding details under Exemption 1 of the Code of Practice on Access to Government Information.

Adam Price: To ask the Secretary of State for Defence pursuant to his answer of 17 May 2004, *Official Report*, column 663W, on Iraq, if he will give the cause of death entered on the death certificates of the 16 individuals whose deaths involved alleged ill treatment by members of UK armed forces. [175750]

Mr. Ingram *[holding answer 25 May 2004]:* Of the 16 cases involving alleged ill treatment of Iraqi civilians by United Kingdom armed forces, 10 resulted in the death of a civilian. As the cases are still under investigation, it would not be appropriate for me to comment further.

Llew Smith: To ask the Secretary of State for Defence if he will make a statement on the discovery of a shell filled with sarin nerve agent in Iraq by United States forces. [175200]

Mr. Ingram: On 15 May 2004, an improvised explosive device, discovered by United States forces, was found to be an artillery shell probably containing the nerve agent sarin. Two members of US forces suffered symptoms consistent with nerve agent poisoning and initial tests revealed the presence of sarin. Additional testing will now be performed outside Iraq.

It is not clear whether the maker of the device knew that it contained nerve agent or whether the shell was being used for its explosive properties.

Marchwood Military Port

Mrs. Dunwoody: To ask the Secretary of State for Defence what assessment he has made of the impact on Marchwood Military Port of the decision to reject the proposed new container terminal at Dibden Bay. [175060]

Mr. Ingram: The Sea Mounting Centre, Marchwood Military Port (MMP) is unaffected by the decision to reject the proposed new container terminal at Dibden Bay. It will continue to undertake its essential role in the operational deployment of the Joint Rapid Reaction Force (JRRF) as well as the regular and more routine movements of ammunition.

The Ministry of Defence will continue to consult with Associated British Ports (ABP) and evaluate any future proposals for the development of the Dibden Bay site.

Merlin Helicopters

Andrew George: To ask the Secretary of State for Defence how many Royal Navy Merlin helicopters have been involved in accidents which were *(a)* insufficient and *(b)* sufficient to put them out of service. [174865]

Mr. Ingram: Merlin helicopters have been involved in two accidents, both of which were sufficient to put the aircraft out of service. Merlin flights have been halted pending further investigations.

Andrew George: To ask the Secretary of State for Defence what assessment he has made of the lessons learned from the accident investigations and other inquiries into *(a)* operational failures, *(b)* accidents and *(c)* equipment malfunctions of the Royal Navy Merlin helicopter. [174866]

Mr. Ingram: Following the Merlin accident at RNAS Culdrose on 30 March 2004, a Service Board of Inquiry and a technical investigation by the Royal Navy Flight Safety and Air Accident Investigation Centre have been commissioned. Neither has yet reported. The Military Air Accident Summary for the Merlin crash near the Kyle of Lochalsh on 29 October 2000 was placed in the Library of the House in June 2002.

Non-human Primates

Llew Smith: To ask the Secretary of State for Defence pursuant to his answer of 13 May 2004, *Official Report*, column 539W, on experiments on non-human primates, if he will list the primate type and number of primates used in each experiment; when each experiment was conducted; and what was done with the primates on the completion of each experiment. [175145]

Mr. Ingram: In 2001, Dstl Porton Down used eight Rhesus Macques to help assess the effects and significance of human exposure to nerve agents.

Additionally, other studies that did not involve testing the effects of weapons have been conducted with non-human primates. The following table lists all of the studies undertaken at Dstl Porton Down which have involved the use of non-human primates. These studies form an integral part of the overall research programme to provide the UK and its armed forces with safe and effective protection in the event of chemical or biological weapons being used and are conducted under the terms of the Animals (Scientific Procedures) Act 1986.

Study	*2001*	*2002*	*2003*
Effects and significance of exposure to nerve agents	8 Rhesus	—	—
Gulf War vaccine interactions programme	54 Marmosets	4 Marmosets	—
Development of medical countermeasures	—	12 Rhesus 6 Marmosets	7 Marmosets
Provision of blood/tissue samples for in-vitro studies.	2 Rhesus 4 Marmosets	10 Rhesus 10 Marmosets	11 Rhesus 5 Marmosets

The majority of the animals were killed humanely at the completion of the studies using Schedule 1 procedures in accordance with the Home Office guidelines. The remainder of animals from which only small blood samples had been taken were returned to their respective breeding colonies. The numbers of procedures involving non-human primates are included in the Dstl annual return to the Home Office.

Osama Bin Laden

Mr. Jim Cunningham: To ask the Secretary of State for Defence what information he has received on the whereabouts of Osama bin Laden. [174519]

Mr. MacShane: I have been asked to reply.

We have received a number of reports concerning Osama bin Laden. It is the practice of successive governments not to comment on intelligence matters. The Security and Intelligence Agencies are outside the scope of the Code of Practice on Access to Government Information (Paragraph 6, Part I). However we and our partners in the campaign against international terrorism will continue to use all means at our disposal to bring Osama bin Laden and other Al Qaeda leaders to justice.

Qinetiq

Llew Smith: To ask the Secretary of State for Defence if he will make a statement on the balance of benefits and detriments arising from the sale of QinetiQ. [173858]

Mr. Ingram: In February 2003, the Ministry of Defence sold a minority equity interest in QinetiQ to the Carlyle Group as a first step towards preparing the company for a future flotation on the stock market. QinetiQ's Annual Report and Accounts, due to be published in the next few months, will set out the performance of the company in its first full year under these arrangements. The Ministry of Defence as both owner and principal customer of QinetiQ has benefited from the investment of private sector resource in the company which this public private partnership has enabled.

Sarin Nerve Agent

Llew Smith: To ask the Secretary of State for Defence whether the United Kingdom retains quantities of sarin nerve agent for use in prophylactic research purposes. [175176]

Mr. Ingram: The Chemical Weapons Convention prohibits the use of any toxic chemical except for permitted purposes. The United Kingdom, as a state party to this Convention, is permitted to hold an aggregate of up to one tonne of Schedule 1 chemicals (those that pose the highest risk to the Convention) at any one time, for research, medical, pharmaceutical or protective purposes.

As part of this holding, the UK does possess an amount of the chemical sarin, which is used for protective purposes, namely those purposes directly related to protection against toxic chemicals and to protection against chemical weapons, and for research purposes.

Typhoon Programme

Mr. Gerald Howarth: To ask the Secretary of State for Defence how much has been spent to date by the United Kingdom on the Typhoon programme, including the Experimental Aircraft Programme; and what expenditure is planned in each of the next 10 years, in cash terms. [175342]

Mr. Ingram: The United Kingdom Ministry of Defence spend on Typhoon up to 31 March 2004 is some £9 billion. This excludes expenditure on the Experimental Aircraft Programme (EAP), which was a precursor to the Eurofighter programme. These costs are not readily available and I will therefore write to the hon. Member and place a copy of my letter in the Library of the House.

Funding is allocated for in-year expenditure only. Provision for future years' expenditure is made in the annually revised Equipment Plan. In the case of Typhoon, the allocation for equipment acquisition for 2004–05 is £783 million.

UN Operations

Llew Smith: To ask the Secretary of State for Defence what information he has received on the number of Iraqi civilians killed since the United States coalition forces began their attack on Falluja this month. [167610]

Mr. Ingram: I am aware of a number of organisations who have published their estimates of the numbers of Iraqi civilians killed since coalition operations began.

There is no reliable means of accurately ascertaining numbers of civilian fatalities. It is not always possible to confirm whether fatalities have occurred, as Iraqi injured or dead are sometimes removed from the scene of incidents by their compatriots. The Coalition always

takes great care to minimise the risks to civilians. However, I cannot comment in detail as Fallujah is in the United States' area of operations.

Mr. Gerald Howarth: To ask the Secretary of State for Defence what changes he plans to the number of British Forces in Iraq following the handover of power on 30 June 2004. [169387]

Mr. Hoon: We always keep the size and composition of forces in Iraq under close review. Along with our coalition partners we continue to consider the levels and dispositions of forces that may be appropriate for the period following 30 June. If any decision is taken significantly to alter the British military contribution I will inform the House in the normal way at the earliest opportunity.

Tom Cox: To ask the Secretary of State for Defence how many *(a)* men and *(b)* women Iraqi prisoners were being held by UK military forces in Iraq on 10 May. [174355]

Mr. Ingram: Data on the number of detainees held by UK forces in Iraq is reported to the Permanent Joint Headquarters three times a week. The Ministry of Defence does not have a figure for the number of detainees held on 10 May 2004. We do have a figure for 11 May 2004 when UK forces held 118 internees. All were male.

HEALTH

Alzheimer's Disease

Lady Hermon: To ask the Secretary of State for Health (1) what plans he has to increase his Department's budget allocation to genetic research into the causes of Alzheimer's in the current financial year; [173265]

(2) what percentage of his Department's budget has been allocated to genetic research into the causes of Alzheimer's in each year since 2000. [173268]

Dr. Ladyman: The Medical Research Council (MRC) is the largest public funder of biomedical research in the United Kingdom and receives its grant in aid from the Office of Science and Technology. Available figures since 2000 for MRC spend on research into the genetic causes of Alzheimer's disease are shown in the table.

£ million

	Research into the genetic causes of Alzheimer's disease	*Total expenditure*
2002–03	1.8	430
2001–02	1.6	418
2000–01	0.8	370

Source:
Medical Research Council

The MRC does not allocate funds to particular topics. Research proposals in all areas compete for the funding available and awards are made according to their scientific quality and importance to human health.

Ashford Hospital

Mr. Wilshire: To ask the Secretary of State for Health what the deadline is for concluding contractual negotiations with Capio for the creation of an independent sector treatment centre at Ashford hospital, Middlesex. [175546]

Mr. Hutton: An initial contract was agreed with Capio UK on 13 May for the group of independent sector treatment centres called "the spine chain". However, because of a number of technical issues it was agreed with national health service sponsors and the strategic health authority that, to avoid delay for the majority of the chain, West Surrey would not be included in that contract. It has been agreed that a further period of up to 120 days will be allowed to enable the contract discussions to reach conclusion. We are hopeful of agreement within that period, and that if reached quickly, it shall not have an impact on the opening date of the treatment centre at Ashford, which is still expected to open by April 2005.

Bowel Cancer Screening

Mr. Lansley: To ask the Secretary of State for Health if he will reduce the waiting time from four to two weeks for bowel cancer screening for symptomatic patients, as recommended in the pilot report of the first bowel cancer screening programme. [173835]

Miss Melanie Johnson: The final report of the evaluation of first phase of the United Kingdom colorectal cancer screening pilot, published in May 2003, stated that, ideally, waiting times for symptomatic patients should be reduced to two to four weeks before commencement of screening. This, along with other recommendations of the report, is being taken into account as we develop a national screening programme for bowel cancer and improve symptomatic services as part of the national health service bowel cancer programme.

Breastfeeding

Mr. Kidney: To ask the Secretary of State for Health what plans he has to develop a breastfeeding strategy. [174623]

Miss Melanie Johnson: The Government do not currently have any plans to develop a breastfeeding strategy. We have a commitment in the NHS Plan to increase support for breastfeeding and we have set a target in the Priorities and Planning Framework (2003–06) to increase breastfeeding initiation rates by two percentage points, focusing particularly on women from disadvantaged groups. The Commission for Health Improvement has set an indicator, which will look at progress towards meeting the target.

Bronzefield Prison

Mr. Wilshire: To ask the Secretary of State for Health what the expected cost is to the North Surrey Primary Care Trust of providing health services to Bronzefield Prison, Ashford, Middlesex during 2004–05; and what additional funds are being made available. [175549]

Ms Rosie Winterton: When Her Majesty's Prison Bronzefield opens in June 2004, primary health care will be provided by the contractors, UKDS.

Within the framework set out in the NHS Plan and the "Shifting the Balance of Power" initiative, decisions about funding for local health services are made by primary care trusts in partnership with strategic health authorities and other local stakeholders.

Clinical Trials

Dr. Gibson: To ask the Secretary of State for Health what plans he has to review the parameters used for clinical trials. [172793]

Miss Melanie Johnson: The Government's policy is to foster scientific innovation and strengthen the evidence base for modern health care in partnership with universities, charities and industry. High quality clinical trials are an important means of testing pharmaceutical and other innovations. Through the new clinical research collaboration announced by my right hon. Friend the Secretary of State for Health in March, the Government aim to increase opportunities for people to take part in clinical research. There is now a legal framework across the European Union to ensure that clinical trials with medicines are conducted to internationally agreed principles and standards of safety.

The randomised controlled trial is one of a range of research techniques that generate benefits for patients and users of health and social care. As a research funder the Department takes independent expert advice on the design and methods that are most appropriate for a particular question. Accordingly, research supported by the Department has covered the full range of qualitative and quantitative, randomised and non-randomised research methodologies.

The national health service research and development methodology programme promotes the identification, development and use of appropriate research methods so that health and social care can be built on the best possible evidence base. Publications from this programme have included reports on the following areas of particular relevance to the question:

Evaluating non-randomised intervention studies (2003).

Can randomised trials rely on existing electronic data? A feasibility study to explore the value of routine data in health technology assessment (2003).

Using routine data to complement and enhance the results of randomised controlled trials (2000).

These documents are available from the health technology assessment programme website at www.hta.nhsweb.nhs.uk. Details of the methodology programme are available at www.publichealth.bham.ac.uk/nccrm/index.htm.

Dentistry

Mrs. Iris Robinson: To ask the Secretary of State for Health if he will make a statement on the number of dentists in England. [175220]

Ms Rosie Winterton: There were 23,229 national health service dentists in September 2003, an increase of 3,249 dentists since September 1996. This includes dentists working in the general dental service, personal dental service, community dental service, and the hospital and community dental service.

Mr. John Taylor: To ask the Secretary of State for Health what plans he has to introduce free dental care for persons in receipt of incapacity benefit. [174994]

Ms Rosie Winterton *[holding answer 24 May 2004]:* We have no plans to do so. It is departmental policy to offer help with health costs based on a person's income, for example, to those receiving income support. As incapacity benefit is not income-based, it will not entitle a person to free dental care automatically, but recipients may be entitled to help by making a claim under the national health service low income scheme.

Mr. Amess: To ask the Secretary of State for Health how many dentists ceased providing treatment for patients on the NHS in each year since 1997, broken down by month; and if he will make a statement. [173558]

Ms Rosie Winterton: Information on the number of dentists leaving the general dental service (GDS) or personal dental service (PDS) is shown in the tables for England and Wales in each year since 1997, broken down by month. Leavers count dentists in their first month of absence. The number of entrants is also provided.

The number of dentists in the national health service is increasing; in all years since 1997, there have been more dentists entering the NHS than leaving.

Dentists can leave the NHS for a variety of reasons. These include retirements, short-term absence, leaving for other employment as well as dentists leaving the NHS dental services to practise wholly privately.

Number of dentists leaving and joining the GDS or PDS in England and Wales broken by month

Total	1,597	2,090	1,674	1,901	1,630	1,949	316	323

Notes:
1. The figures will include a large number of dentists who have had very short breaks in contracts as leavers and entrants, perhaps many times over the period.
2. These figures do not cover other NHS dental services, for example, community dental services and hospital dental services, for which information is not collected centrally.

Mr. Burstow: To ask the Secretary of State for Health what plans his Department has to recruit dentists from abroad; and if he will make a statement. [174480]

Ms Rosie Winterton: We are exploring several options for recruitment of dentists from abroad, including building on our established links with European Union countries and we also expect applications from dentists in the new EU accession states. We are developing a comprehensive dental workforce action plan and will be in a position to provide further information in due course.

Drug Rehabilitation

Mr. Hoyle: To ask the Secretary of State for Health what action he is taking to reduce waiting times for drug rehabilitation treatment in Chorley; what the budget is for the drug action team in Chorley; how many people have been seen by the drug action team in each of the last three years; and what his latest estimate is of waiting times for drug rehabilitation treatment in Lancashire. [165394]

Miss Melanie Johnson: The information requested is not available centrally as Chorley is only one of the constituent parts of the Lancashire drug action team (DAT). There were 2,874 people receiving drug treatment in Lancashire in 2000–01. This is the latest available data. Information on waiting times at DAT level is not currently available, but the National Treatment Agency's programme to reduce waiting times has successfully achieved falls in waiting times across the country. The latest average waiting time reported for residential rehabilitation is four weeks.

Mr. Benton: To ask the Secretary of State for Health how many people in Bootle are receiving drug treatment. [175911]

Miss Melanie Johnson: Bootle is part of Sefton drug action team (DAT). There were 396 people receiving drug treatment in Bootle in 2000–01. This is the latest available data. Data broken down by DAT for 2001–02 and 2002–03 has not yet been finalised and published.

Eye Tests (Blackpool, South)

Mr. Gordon Marsden: To ask the Secretary of State for Health how many residents of Blackpool, South aged over 60 years have benefited from the abolition of charges for eye tests. [173071]

Miss Melanie Johnson: Data for the number of sight tests by constituency or by the number of senior citizens is not collected centrally.

The total number of sight tests paid for by Cumbria and Lancashire Strategic Health Authority in the year 2002–03 for those aged 60 and over was 189,100.

The total number of eligible for a free eye test for those aged 60 and over was 429,300. Sight tests cannot be equated to the number of patients.

Department of Health Statistics.

Health Services

Mr. Kilfoyle: To ask the Secretary of State for Health what the average waiting time for eye operations in Liverpool was in *(a)* 1997 and *(b)* 2003. [166948]

Miss Melanie Johnson: The information requested is shown in the table.

In-patients waiting time, waiting list and booked cases combined median waiting time in days for selected primary operations by selected trust in national health service hospitals in England 1997–98 and 2002–03—Eye Operations (C01-C86 OPCS 4R)

	Finished in-year admissions	*Mean*	*Median*
Aintree Hospitals NHS Trust			
1997–98	2,080	38	25
2002–03	2,824	102	68
Royal Liverpool and Broadgreen Hospital NHS Trust			
1997–98	5,156	106	61
2002–03	4,555	137	81

Notes:
1. Time waited statistics from hospital episode statistics (HES) are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period whereas the published waiting list statistics count

those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.

2. The main operation is the first recorded operation in the HES data set and is usually the most resource intensive procedure performed during the episode. It is appropriate to use main operation when looking at admission details e.g. time waited, but the figures for "all operations count of episodes" give a more complete count of episodes with an operation.

Source:
Hospital Episode Statistics (HES), Department of Health.

Mr. Stringer: To ask the Secretary of State for Health what changes there have been in NHS waiting list times for the residents of *(a)* Manchester, Blackley and *(b)* the City of Manchester in the last seven years. [175011]

Miss Melanie Johnson: The information is not collected on a constituency basis but at national health service trust level. Data for the relevant NHS trusts is shown in the table.

Patients waiting for elective in-patient admission

			Patients waiting for admission by months waiting

Source:
DH form KH07 and Monthly Monitoring

Mr. Meale: To ask the Secretary of State for Health (1) how many NHS patients waited for more than six months for operations within Nottinghamshire health authorities areas in each year since 1997; [173522]

(2) how many NHS patients waited more than nine months for operations within Nottinghamshire health authority areas in each year since 1997. [173551]

Dr. Ladyman: The information requested is shown in the table.

Health authorities (HAs) of treatment—North Nottinghamshire HA and Nottingham HA. Method of admission—elective (waiting list and booked cases). Counts of finished in-year admission episodes with and operation by time waited grouping national health service hospitals, England 1998–99 to 2002–03[1]

	North Nottinghamshire HA			*Nottingham HA*		
	0 to 6 months	*6 to 9 months*	*more than 9 months*	*0 to 6 months*	*6 to 9 months*	*more than 9 months*
1997–98	21,356	2,486	2,089	54,469	3,713	6,145
1998–99	22,470	2,320	2,507	56,961	3,573	5,701
1999–2000	21,666	1,871	1,784	54,750	2,630	4,614
2000–01	18,949	1,899	2,008	43,361	2,648	5,202
2001–02	11,094	1,159	2,120	42,490	3,116	4,308
2002–03[1]	10,469	1,298	2,993	42,060	4,524	5,022

[1] 2002–03 figures based on 2001–02 HAs.

Notes:
1. A finished in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the data-year. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
2. All operations count of episodes—these figures represent a count of all finished consultant episodes—a procedure was mentioned in any of the 12 (four prior to 2002–03) operation fields in a HES record. A record is included only once in each count, even if an operation is mentioned in more than one operation field of the record.
3. Time waited statistics from hospital episode statistics (HES) are not the same as the published waiting list statistics. HES provides counts and time waited for all patients admitted to hospital within a given period, whereas the published waiting list statistics count those waiting for treatment on a specific date and how long they have been on the waiting list. Also, HES calculates the time waited as the difference between the admission and decision to admit dates. Unlike published waiting list statistics, this is not adjusted for self-deferrals or periods of medical/social suspension.
4. Figures are grossed for both coverage and missing/invalid clinical data, except for 2001–02 and 2002–03, which are not yet adjusted for shortfalls.
Source:
HES, Department of Health.

Missed Appointments

Mr. Hoyle: To ask the Secretary of State for Health how many patients failed to attend *(a)* hospital appointments and *(b)* general practitioner appointments in Chorley in each year since 2000; and what the estimated cost of missed appointments was in each case in each year. [173854]

Miss Melanie Johnson: Data on the number of missed general practitioner appointments and the estimated cost of missed appointments are not collected by the Department.

The number of consultant out-patient missed appointments for national health service organisations serving the Chorley constituency are shown in the table.

	NHS trust	*Total attendances: seen*	*did not attend*
2000–01	Chorley and South Ribble NHS Trust	102,526	13,656
2000–01	Preston Acute Hospitals NHS Trust	222,707	25,698
2001–02	Lancashire Teaching Hospitals NHS Trust[1]	318,370	38,709

[1] The Chorley and South Ribble NHS Trust was merged with the Preston Acute Hospitals NHS Trust on 1 August 2002 to form the Lancashire Teaching Hospitals NHS Trust.

Department of Health dataset KH09.

National Programme for IT

Mr. Yeo: To ask the Secretary of State for Health what timescale his Department has set for the implementation of the national programme for IT in general practice. [160664]

Mr. Hutton: The concept of national health service national care records service and the national programme is to provide integrated clinical information systems across the whole care continuum. Support for delivery of care by general practitioners and other primary care practitioners is an integral part of the programme.

There are some specific systems relevant to GP practices and the general medical services payments project. They cover payments for practices and primary care information management systems and are currently being tested for conformance to standards and operation with existing GP systems. Once the technical testing has been successfully completed, a programme to roll out the new systems will begin from September 2004, with guidance, training and support being delivered alongside.

As stated in our policy document, "Delivering 21st Century IT Support for the NHS", published in June 2002, the programme will be implemented in phases, with phase one—the national bookings service, the national prescriptions service, and the NHS care record service—to be implemented by the end of 2005. Phase two covers implementation by 2008, to include a richer NHS care record service, with core data and reference links to local electronic patient record systems for full record access.

An additional third phase is planned for implementation between 2008 and 2010 to provide ambulance telemonitoring implemented in all emergency response vehicles, home telemonitoring in all homes requiring it, and a unified health record that includes all appropriate social care information.

There will be full implementation of person-based electronic health records, as set out in "Information for Health", published in 1998. The national programme will be building on this to create substantial additional functionality in the period up to 2010.

NHS Costs

Mrs. Iris Robinson: To ask the Secretary of State for Health what the latest estimated annual costs incurred by the NHS as the result of *(a)* alcohol, *(b)* tobacco and *(c)* other drug use are. [172740]

Miss Melanie Johnson: The estimated annual cost of alcohol misuse to the national health service is around £1.6 billion in England.

The latest figures available indicate that smoking costs the NHS up to £1.7 billion a year in England.

Information on the total cost of drug misuse to the NHS is not available. However, in 2003–04, the Government's pooled budget totalled £243.6 million for the treatment of drug misusers. It is estimated that a further £200 million of mainstream funds was spent on the treatment of drug misuse.

Patient Involvement Activity

Mr. Burstow: To ask the Secretary of State for Health if he will list for each year since 1997 the amount of money spent on *(a)* community health councils, *(b)* the

Commission for Public Patient Involvement, *(c)* patients forums, *(d)* the Independent Complaint and Advocacy services and *(e)* other patient involvement activity. [172701]

Ms Rosie Winterton: The information requested is shown in the table. The data relating to the Commission for Patient and Public Involvement in Health (CPPIH) and patients' forums is shown as a single amount because there is no separate budget for patients' forums and the CPPIH is responsible for allocating funds to them. It is not possible to quantify how much is being spent on other patient involvement activities as these are primarily undertaken by and funded by the national health service locally.

£ million

	Community Health Councils	*CPPIH and patients' forums*	*Independent Complaints Advocacy Services*
1997–98	22.561	n/a	n/a
1998–99	22.561	n/a	n/a
1999–2000	23	n/a	n/a
2000–01	23	n/a	n/a
2001–02	23	n/a	n/a
2002–03	23	3.27	n/a
2003–04	15	30.192	4.4

Public Bodies

Mr. Lansley: To ask the Secretary of State for Health when the Joint Committee on Vaccination and Immunisation intends to republish its Green Book; and whether it will be made available online. [175333]

Miss Melanie Johnson: Work on the new edition of the "Green Book" is being actively undertaken at present and as each chapter is completed and agreed by the joint committee on vaccination and immunisation it will be put on the web. These chapters are water-marked 'Draft', as they will be subject to sub-editorial changes when they are published as a complete volume.

The current work involves a complete re-drafting of all of the contents. When all of the chapters and the final editing is completed, the book will be issued in hard copy form. We are aiming to publish the new edition by the end of the year.

The draft chapters now available can be found on the Department's website at www.dh.gov.uk/greenbook.

Dr. Murrison: To ask the Secretary of State for Health how much was spent on the Patient Information Advisory Group in the last financial year for which figures are available; how many times a year this group is scheduled to meet; and when it last met. [175264]

Ms Rosie Winterton: The patient information advisory group spent £150,000 in 2003–04. The group is scheduled to meet four times a year, but has flexibility to meet more frequently if required. The group last met on 28 April 2004.

Sativex

Mr. Godsiff: To ask the Secretary of State for Health when Sativex will be licensed; and what restrictions will be placed on its prescription. [172788]

Miss Melanie Johnson: The Medicines and Healthcare products Regulatory Agency (MHRA) will grant a licence for Sativex only when satisfactory data have been provided to demonstrate that the product is efficacious, safe and of adequate quality for its intended use.

In accordance with the Government's undertaking given in 1998 to the House of Lords Science and Technology Committee, the Misuse of Drugs Regulations 2001 would be amended to permit Sativex to be prescribed by doctors, if it is successful in gaining a marketing authorisation from the MHRA.

The Advisory Council on the Misuse of Drugs has recommended that if Sativex is authorised, it should be placed in Schedule 4 Part I of these regulations. It would also attract prescription-only-medicine status, but the scheduling would impose no additional restriction upon prescribing. If authorised, manufacturers and wholesalers would be required to be licensed to produce and supply the product, and would have to comply with the regulatory requirements on record keeping and destruction.

TREASURY

Gun Trafficking

Ms Abbott: To ask the Chancellor of the Exchequer what assessment he has made of the level of priority given to gun trafficking by HM Customs. [175542]

John Healey: In the Government's response to the All Party Parliamentary Group's report, "Combating the Threat of Gun Violence", published in March, we said that HM Customs and Excise's prioritisation would be addressed as part of a joint action plan. Customs deploy their resources on the basis of risk assessment driven by intelligence, which maximises their impact in enforcing a range of prohibitions and restrictions, including those relating to firearms. They respond to all specific intelligence on firearms. Strategic threat assessments produced by NCIS and Customs will inform future action. Meanwhile Customs are working with NCIS and other partners in the ACPO Strategic Criminal Use of Firearms Group to improve intelligence gathering and assessment and to contribute to activity under the joint action plan.

Stroke Deaths

Andy King: To ask the Chancellor of the Exchequer (1) how many deaths occurred in the last year due to stroke in *(a)* Rugby and Kenilworth and *(b)* England; [174962]

(2) how many deaths occurred in the last year due to peripheral vascular disease in *(a)* Rugby and Kenilworth and *(b)* England. [174964]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from John Pullinger to Mr. Andy King, dated 26 May 2004:

The National Statistician has been asked to reply to your recent questions concerning the number of deaths due to peripheral vascular disease and stroke in the last year in *(a)* Rugby and Kenilworth and *(b)* England. I am replying in his absence. (174964, 174962)

The latest year for which figures are available is 2002. Figures in the attached table are provided for the local authorities of Rugby and Warwick. The parliamentary constituency of Rugby and Kenilworth contains the whole of Rugby local authority and part of Warwick local authority. To protect against the release of potentially disclosive information, figures have not been provided for the constituency as its electoral ward boundaries are not coterminous with the local authority boundaries.

Cause of death has been defined using the International Classification of Diseases. Within this there is a clearly agreed definition of stroke deaths but not of peripheral vascular disease. Following medical advice, the numbers provided in the table below are for all deaths from diseases of arteries, arterioles and capillaries, excluding thoracic aortic aneurysms.

Deaths from diseases of arteries, arterioles and capillaries, and from stroke[1]: England, and Rugby and Warwick local authorities[2], 2002–03

Number of deaths

Area	*Diseases of arteries, arterioles and capillaries*	*Stroke*
England	11,806	55,239
Rugby	19	88
Warwick	41	152

[1] The cause of death was defined using the International Classification of Diseases, Tenth Revision (ICD-10).
[2] Usual residents of these areas.
[3] Deaths in the calendar year 2002.
The codes used were as follows:
ICD-10 170–178—Diseases of arteries, arterioles and capillaries:
170—Atherosclerosis
171—Aortic aneurysm and dissection, excluding:
171.1—Thoracic aortic aneurysm, ruptured
171.2—Thoracic aortic aneurysm, without mention of rupture
172—Other aneurysm
173—Other peripheral vascular diseases
174—Arterial embolism and thrombosis
177—Other disorders of arteries and arterioles
178—Diseases of capillaries
ICD-10160–169—Cerebrovascular disease (Stroke).

Airport Tax

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer how much airport tax was raised by passengers using Northern Ireland's three main airports in the latest financial year for which figures are available. [175855]

John Healey: The information is not available in the format requested. Revenue figures for air passenger duty are collected for the UK as a whole and are not broken down by devolved country or region. Air passenger duty revenue figures can be found in table 2.1 D of "Financial Statistics", published by the Office for National Statistics.

Bribery

Malcolm Bruce: To ask the Chancellor of the Exchequer what steps the Inland Revenue has taken to identify economic sectors with a high incidence of trading with developing countries in which there would be an increased risk of companies seeking tax relief on illegal payments. [175939]

Dawn Primarolo: The UK does not allow tax relief for bribes. These payments are most likely to be distinguished in the profit and loss account as fees, commissions and entertaining, and therefore, would come to light through local initiatives looking at companies with large fees and commission entries plus evidence of business with countries where bribery can occur.

Malcolm Bruce: To ask the Chancellor of the Exchequer whether overseas bribery is one of the risk factors taken into account when the Inland Revenue considers which tax returns to examine in detail. [175940]

Dawn Primarolo: For obvious reasons, the Inland Revenue does not publicise its risk assessment criteria.

Malcolm Bruce: To ask the Chancellor of the Exchequer what steps the Inland Revenue has taken to ensure that *(a)* UK companies do not claim bribes paid overseas as tax deductible and *(b)* its staff are trained to detect bribes paid overseas in UK company tax returns. [175941]

Dawn Primarolo: The UK does not allow tax relief for bribes. Claims to bribes would be detected as part of our normal risk assessment programme. The legislation covering non-deductibility of illegal payments is at section 577A of the Income and Corporation Taxes Act. Training on detection of bribes paid overseas by UK companies is included in the Inland Revenue's basic training for new tax inspectors and in the programme of technical updates for existing inspectors. In addition, extensive guidance is available in the "Business Income Manual", together with instructions for submitting suspect cases to Revenue Policy, Business Tax for advice.

Malcolm Bruce: To ask the Chancellor of the Exchequer how many instances of overseas bribery the Inland Revenue has detected since February 2002; and what action it has taken. [175942]

Dawn Primarolo: Section 577A of the Income and Corporation Taxes Act 1988 disallows the deduction of any payment, the making of which would constitute the commission of a criminal offence in the UK. If the payment is made outside the UK, it is also disallowed if the same payment made in the UK would have been a criminal offence.

Where a claim for such expenditure is discovered, the amount would be added back in the tax computation and the additional tax would be recovered together with interest and penalties where due.

The Inland Revenue, as with many classes of expenditure, does not keep central records of expenditure disallowed under this provision.

Correspondence

Mr. Salmond: To ask the Chancellor of the Exchequer when he expects a reply to be made to the letter to the Economic Secretary to the Treasury, dated 6 April 2004, from the hon. Member for Banff and Buchan, regarding import tax and antiques. [176135]

John Healey: I replied to the hon. Member on 14 May 2004.

E-Government

Mr. Prisk: To ask the Chancellor of the Exchequer how many management consultants have been employed on the Inland Revenue e-Government programme; from what dates they were employed; and what the cost to the Inland Revenue of the consultants has been to date. [174028]

Dawn Primarolo: Consultants have been employed for varying periods since the formal establishment of the Inland Revenue 'e' services programme in April 2001 to bring in specialist skills in 'e' as well as for the strategic development and management of its programme. There are now 39 consultants employed on either a part-time or full-time basis.

The estimated cost of consultants to date is £13.5million.

Head Teachers

Mr. Swayne: To ask the Chancellor of the Exchequer pursuant to his Budget Statement of 17 March 2004, if he will make a statement regarding the 2005–06 payment to headteachers of secondary schools and its relationship to planned increases in Schools Standard Grant and Devolved Formula. [174628]

Ruth Kelly: In his Budget statement, the Chancellor said that in 2005–06, heads would receive direct payments that sum to £55,000 for a typical primary and £180,000 for a typical secondary school. These totals are the combination of the School Standards Grant and Devolved Formula Capital. The Chancellor also announced that, in the UK, we will be spending on education an additional £8.5 billion in 2007–08 compared to 2005–06.

Income Tax (Pensioners)

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what percentage of pensioners aged over 80 years pay income tax. [175230]

Dawn Primarolo: Around 32 per cent. of pensioners aged over 80 years pay income tax. This estimate is based upon the 2001–02 Survey of Personal Incomes and ONS 2001 and 2002 mid year population estimates.

Museums

Jim Knight: To ask the Chancellor of the Exchequer if he will extend the VAT Refund Scheme to include private museums that hold national designated collections, for the purpose of recovering VAT on expenditure incurred in National Lottery-funded projects. [174972]

John Healey: Like any other business, private museums can recover VAT incurred on buying goods and services providing those purchases relate to their taxable business activities. This would be the case where a museum is providing museum entry where admission charges are taxable at the standard rate of VAT.

Under the normal VAT rules provided for in the European Sixth VAT Directive, VAT incurred on goods and services relating to non-business activities, such as providing free entry to museums, cannot be recovered. This is also the case where VAT is incurred on exempt business activities, such as providing museum entry where no VAT is applied to admission charges under the VAT exemption for cultural bodies. The source of such an organisation's funding cannot be used to determine its VAT position.

However, since September 2001, the Government have provided a refund scheme that allows the main national museums and galleries which do not charge for admission to recover VAT they incur on related purchases. This scheme removes the obstacle VAT was creating to the delivery of our 1997 manifesto commitment that there should be free access to the main national museums and galleries.

That commitment has been an outstanding success. In this year's Budget, the Chancellor announced that, building on that success and on the recommendation of the Goodison Review, we are considering in the context of the forthcoming Spending Review extending the free access commitment for the main national museums and galleries, and the VAT refund scheme that has helped to deliver it, to university museums.

For bodies in receipt of National Lottery funding, irrecoverable VAT can be included as eligible project expenditure for lottery support. By funding this cost, the Heritage Lottery Fund's grant assessment process ensures that lottery-funded projects are not disadvantaged if they incur VAT on their expenditure. Any VAT recovered under a refund scheme should, therefore, be excluded from any grant awarded by the Heritage Lottery Fund.

Payroll Adjustments

Mr. Willetts: To ask the Chancellor of the Exchequer if he will list the *(a)* upward and *(b)* downward payroll adjustments an employer may have to make as a result of the policies of his Department. [175178]

Dawn Primarolo: All employers have to run a payroll to ensure their employees receive the right amount of wages or salary. It might require upwards or downwards adjustment to reflect changes to an employee's Pay As You Earn (PAYE) tax codes, National Insurance Contributions or working tax credit.

Portable Appliance Testing

Mr. Flight: To ask the Chancellor of the Exchequer how often his Department and its associated public bodies undergo portable appliance testing; and what the cost of testing is. [175979]

Ruth Kelly: Portable appliance testing is carried out in my Departments and agencies on the basis of regular programmes in accordance with guidelines issued by the Health and Safety Executive. For HM Treasury, Customs and Excise, Inland Revenue, the Valuation Office and the Office for National Statistics, the costs of testing fall within the building management charges and are not separately available. For the other Departments, the total combined approximate annual cost is £20,000.

Science and Innovation Committee

Dr. Gibson: To ask the Chancellor of the Exchequer what the membership of the cross-departmental committee on the 10-year investment framework on science and innovation is; on what dates it has met; if he will publish the minutes of the meetings; and if he will make a statement. [173554]

John Healey: The development of a 10-year investment framework for science and innovation is overseen by a Ministerial Committee chaired by the Chief Secretary to the

Treasury and attended by Lord Sainsbury, Minister for Science and Innovation, and Alan Johnson, Minister for Higher Education. The Director General of the Research Councils, the Government's Chief Scientific Adviser and senior officials also attend. This group met on 10 March, and is meeting again on 20 May. An official-level group supports the ministerial group and has met on three occasions so far. Representatives at both official and ministerial level on both groups are also members of other committees with overlapping policy interests.

Minutes of the ministerial meeting constitute internal discussion and advice and are therefore not published: Exemption 2 of the Open Government Code applies. However, the conclusions of these meetings will be reflected in the Government's science and innovation investment framework document, which will be published alongside the Spending Review this summer.

Secondments

Bob Spink: To ask the Chancellor of the Exchequer how many staff in his Department and its agencies were seconded from the *(a)* private and *(b)* academic sector in each of the last three years. [174818]

Ruth Kelly: The following table provides the number of people identified through central records that have been seconded into the Chancellor's Department and agencies from the private and academic sectors during each of the last three financial years.

	2001–02		*2002–03*		*2003–04*	
	Private	*Academic*	*Private*	*Academic*	*Private*	*Academic*
HM Treasury	1	1	5	0	8	0
Inland Revenue	11	0	8	0	3	1
Customs and Excise	1	0	1	0	0	0
Royal Mint	0	0	1	0	1	0
Valuation Office	0	0	0	0	0	0
Debt Management Office	0	0	0	0	0	0
National Savings and Investments	3	0	3	0	0	0
Office of National Statistics	[1]—	[1]—	[1]—	[1]—	[1]—	[1]—
Government Actuaries Department	0	0	0	0	0	0
Office of Government Commerce	0	0	2	0	3	0
Office of Government Commerce Buying Solutions	0	0	0	0	1	0

[1] The ONS do not distinguish its inward secondees by private and academic sectors and cannot provide this information.

Sickness Absence

Mr. McNamara: To ask the Chancellor of the Exchequer how many days' sick leave were taken by employees of *(a)* Customs and Excise and *(b)* the Inland Revenue in each year since 2000; and what the estimated cost was in each year. [165423]

Ruth Kelly *[holding answer 20 April 2004]:* The information is as follows:

(a) The number of sickness absence days taken by employees of Customs and Excise since 2000 are:

Calendar year	*Average working days sickness absence per staff year*
2000	9.0
2001	8.7
2002	9.0

(b) The number of sickness absence days taken by employees of the Inland Revenue since 2000 are:

Calendar year	*Average working days sickness absence per staff*
2000	10.9
2001	9.5
2002	10.5

Reliable information on the cost of sickness absence is not available and could be obtained only at disproportionate cost. Statistical information for 2003 has not yet been published. Sickness absence targets for Customs and Excise and the Inland Revenue are reported in the relevant Departmental and Annual Reports. Both Departments are currently reviewing their sickness absence management policies.

Tax Rates

Mr. Salmond: To ask the Chancellor of the Exchequer how much was raised in *(a)* business rates, *(b)* corporation tax and *(c)* taxation from (i) the renewable sector, (ii) the creative arts sector, (iii) the financial sector and (iv) research companies in each of the last five years. [174872]

Dawn Primarolo: The information on business rates and total taxation for the four sectors specified in the question is not available.

Corporation Tax figures for the financial sector are available at www.inlandrevenue.gov.uk/stats/corporate_tax (Table 11.7). Figures for earlier years are published in "Inland Revenue Statistics 2000". The figures include companies classified as banking, finance and insurance.

It is not possible to separately identify the creative arts sector for Corporation Tax purposes. However, figures for 'recreational services', which include certain creative arts companies, are given in the following table.

Recreational services

	Corporation tax payable (£ million)
1997–98	360
1998–99	375
1999–2000	354
2000–01	314
2001–02	317

It is not possible to separately identify companies in the renewable sector nor research companies from central Corporation Tax records.

Teenage Pregnancy

Mr. Drew: To ask the Chancellor of the Exchequer how many conceptions there were for women aged between 11 and 19 years since 2000 in the Gloucestershire, Wiltshire and Avon Strategic Health Authority, broken down by age. [176120]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. David Drew, dated 26 May 2004:

As National Statistician I have been asked to reply to your recent Parliamentary Question on conceptions. (176120)

The information you requested on conceptions was given in answer to a recent question from David Amess MP, which appears in the Official Report of Monday 24 May, No. 91, Column 1201W–1208W.

WORK AND PENSIONS

Adult Disadvantages

Mr. Flight: To ask the Secretary of State for Work and Pensions if he will re-calculate the figures on adult disadvantages set out in the answer of 20 March 2003, *Official Report*, column 911W, to include retirement on 31 December 2003. [174026]

Malcolm Wicks: The information is not currently available. We expect the information to be available in June and when it is, I will arrange for it to be placed in the Library.

Benefits (Blackpool, North and Fleetwood)

Mrs. Humble: To ask the Secretary of State for Work and Pensions how many lone parents in Blackpool, North and Fleetwood have gained work through the New Deal programmes. [175889]

Jane Kennedy: 490 lone parents in Blackpool, North and Fleetwood have gained work through the New Deal for Lone Parents since the start of the programme in October 1998. Figures for lone parents who have gained work through other New Deal Programmes are not available.

Mrs. Humble: To ask the Secretary of State for Work and Pensions how many senior citizens in Blackpool, North and Fleetwood have benefited from the winter fuel allowance since 1997. [175893]

Malcolm Wicks: The number of senior citizens in the Blackpool, North and Walton constituency who received a winter fuel payment in each year since 1999–2000 (including provisional figures for 2003–04) is in the table. Information relating to the 1997–98 and 1998–99 winters is not available.

	Payments made
1999–2000	23,075
2000–01	25,235
2001–02	25,440
2002–03	25,565
2003–04	25,610

Notes:
1. Numbers are rounded to the nearest 5.
2. Please note that the figures for 2003–2004 refer only to the main payment run i.e. they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claim had not been received by Qualifying Week, they are heavily skewed towards men aged 60.

Source:
IAD Information Centre, 100 per cent. samples.

Careers Guidance

Mr. Willis: To ask the Secretary of State for Work and Pensions how he will ensure that adults in *(a)* temporary work and *(b)* work where their skills are under-utilised will be able to access expert advice and guidance in order to improve their employability. [175849]

Mr. Ivan Lewis: I have been asked to reply.

All adults aged 20 and over, including those in temporary work and work where their skills are under utilised, have access to impartial information and advice about learning and work, quality assured to the matrix Standard. In August 2004, the Learning and Skills Council will launch an integrated Information Advice and Guidance (IAG) service giving easy access to a consistent range of national and local information and advice services aimed at helping individuals to improve their employability.

Correspondence

Dr. Iddon: To ask the Secretary of State for Work and Pensions (1) if he will take steps to cease the practice in his Department of sending correspondence without a clearly identifiable signature of the sender; [167189]

(2) what his Department's policy is on the signing of documents, including correspondence, in the name of a person by a third party who does not make his or her position clear. [167190]

Jane Kennedy: Current procedure on correspondence in the Department of Work and Pensions is that our staff are required to use either their full name or their title and surname (with initial if preferred). All details given should be legible.

In some circumstances, so as not to compromise safety, managers may decide that it is appropriate for staff to sign off their letters with the name of their manager and section, or office manager and section. Managers may also approve the use of an office name where they deem it fitting. Such measures are subject to a suitable system being in place to enable the author of the letter to be identified where needed.

We are currently working to improve the general quality of our correspondence in DWP. Much of this correspondence is computer generated, rather than

produced and signed by an individual. The key issue in both cases is that the customer is provided with a contact for further inquiries.

I have asked officials to look at current practice in the Department and to bring guidance to the attention of all staff who write to customers.

Mr. Kaufman: To ask the Secretary of State for Work and Pensions when he will reply to the letter to him from the right hon. Member for Manchester, Gorton dated 21 April with regard to Mr. G. Forde. [175615]

Mr. Andrew Smith: I replied to my right hon. Friend on 18 May.

Health and Safety

Ross Cranston: To ask the Secretary of State for Work and Pensions whether he has received the report of the Health and Safety Commission on the effectiveness of the current strategy to promote directors' responsibility for health and safety, the success of the voluntary approach and the need for further legislation; and if he will make a statement. [174143]

Jane Kennedy: Ministers received the Health and Safety Commission's report in January on the effectiveness of the current strategy to promote directors' responsibility for health and safety, the success of the voluntary approach and the need for further legislation. Ministers accepted the Commission's view that the current voluntary approach is working, that further legislation is not needed at the moment but that this would be kept under review.

Identity Theft

Brian White: To ask the Secretary of State for Work and Pensions what steps he is taking to reduce identity theft in areas within the remit of his Department and its agencies. [173053]

Mr. Pond: Our overall aim is to always establish the correct identity of a person prior to providing a benefit or service. We are committed to ensuring that National Insurance Numbers are issued, used and controlled correctly and we will continue to develop and implement strategies that enable us to achieve this.

We have established a secure system for the allocation of National Insurance Numbers to adults, conducting rigorous checks to ensure that adult National Insurance Numbers are only issued to those who had undergone an evidence of identity interview.

We closely monitor 15 million inactive accounts for deceased persons and any attempt to activate one of these accounts will be investigated.

We are also working with the Home Office ID card project to ensure that full and appropriate use is made of ID cards, when available, in accessing DWP systems.

National Insurance

Mr. Willetts: To ask the Secretary of State for Work and Pensions what his latest estimate is of the expenditure on national insurance rebates for those contracted out of SERPS or the second state pension in each year from 1996–97 to 2005–06. [175108]

Malcolm Wicks: The information is in the table.

Tax year	*Estimated rebate cost (£ billion)*
1996–97	6.9
1997–98	7.6
1998–99	7.8
1999–2000	8.3
2000–01	9.1
2001–02	9.5
2002–03	11.1
2003–04	11.5
2004–05	11.9
2005–06	11.9

Note:
Figures are for Great Britain and are in cash terms except for 2005–06 which is in 2004–05 prices. They are consistent with the long-term Public Expenditure Survey undertaken in February 2004.

Source:
Government Actuary's Department

Pension Credit

Mr. Willetts: To ask the Secretary of State for Work and Pensions what his latest estimate is of the number of *(a)* pensioner households and *(b)* individual pensioners eligible for pension credit (i) this year and (ii) in each of the next 10 years. [175109]

Malcolm Wicks: Estimates of the numbers of people eligible for pension credit, based on data from the Family Resources Survey for 2002–03, will be available early in June. The information will be placed in the Library.

Pensioner Poverty

Chris Ruane: To ask the Secretary of State for Work and Pensions what total Government financial support to the poorest 10 per cent. of pensioners was in each of the last 30 years, expressed at today's prices. [175014]

Malcolm Wicks: The information is not available in the format requested as information on spending on pensioners by decile directly is not recorded.

However latest Households Below Average Income (HBAI) figures show that we have made good progress in tackling pensioner poverty. Two thirds fewer pensioners—1.8 million older people—were in absolute low income in 2002–03 compared with 1996–97.

Our strategy is to seek to maintain and support the major contribution made by the private pension sector in enabling pensioners to share in increased economic well being, and to target state resources on improving the position of the poorest relative to rising national prosperity. Since the introduction of pension credit the poorest third of pensioner households will be £1,750 a year (£33 per week) better off in 2004–05, compared with the 1997 system.

Chris Ruane: To ask the Secretary of State for Work and Pensions how much the poorest third of pensioners received in each year since 1998; and what that sum would have been in each year had the State Pension been linked to earnings. [175131]

Malcolm Wicks: The information is not available in the format requested.

In 1997–98, pensioners in the lowest third of the pensioner income distribution received an average of £102.12 per week in state benefits. In 2002–03 they received an average of £134.38.

Including private income, these pensioners received £104.81 in 1997–98, £139.73 in 2002–03.

If the basic State Pension had been linked to earnings since April 1998, on top of policies introduced since 1997 (including pension credit), these pensioners would have received an extra £2.10 a week overall on average in 2003–04. If the earnings link had been in place instead of the policies that were in fact introduced they would have lost on average £22.90.

All figures are in cash terms.

Seasonal Fruit Pickers

Colin Burgon: To ask the Secretary of State for Work and Pensions what monitoring takes place to ensure the health and safety of seasonal fruit pickers. [175443]

Jane Kennedy *[holding answer 24 May 2004]:* Seasonal fruit pickers may be exposed to a range of hazards at fruit and vegetable production and packing sites including: transport; machinery; manual handling; noise; slips, trips and falls; and dermatitis. These hazards are common to full and part time workers, including casual or seasonal workers. Health and safety law applies equally to all employees.

Inspectors from HSE's Field Operations Directorate monitor health and safety in agriculture in line with HSE's Agriculture Sector Strategic Programme. Informed by local knowledge and intelligence this is discharged in practice by a range of inspection activities including planned, targeted preventive (proactive) inspection, health and safety blitzes, projects targeted at specific sectors or topics, and the investigation of reported accidents and complaints.

Spelthorne Borough Council

Mr. Wilshire: To ask the Secretary of State for Work and Pensions how much administration grant was paid to Spelthorne borough council in 2003–04 to cover the cost of operating the council tax benefit scheme; and what proportion of the council's costs this grant covered. [175547]

Mr. Pond: Spelthorne borough council was paid £144,762 specifically for council tax benefit administration costs in 2003–04. However, this does not include the extra funding for administering this scheme that has arisen due to the increase caseloads following the introduction of the new tax credit and pension credit schemes. The grant is not ring-fenced, but is a targeted grant and represents just one part of Spelthorne's total housing and council tax benefits administration subsidy funding.

The total housing and council tax benefits administration grant paid to Spelthorne borough council for 2003–04 was £509,893; it is for the local authority to decide how much it apportions between the administration of the two benefits.

Spelthorne borough council report that the estimated cost of administering council tax benefit for 2003–04 was £307,000; however, final figures are in the process of being collected.

In addition to the administration grant, a further £56,566 has been paid through the Security Against Fraud and Error (SAFE) scheme. This covers the first three quarters of 2003–04. The final quarter is yet to be finalised; a further payment will be made accordingly.

Winter Fuel Allowance

Lady Hermon: To ask the Secretary of State for Work and Pensions whether the additional £100 being paid to over 70s in Northern Ireland will be included in the winter fuel allowance; and if he will make a statement. [175193]

Malcolm Wicks: The intention is that the one-off 70+ payment to eligible households will be included with the 2004–05 winter fuel payment which is paid automatically to the vast majority of those entitled to it. People in Northern Ireland who do not get a winter fuel payment will need to claim the one-off payment from the Department for Social Development before 31 March 2005.

Written Answers to Questions

Thursday 27 May 2004

TREASURY

Analogue Wave Band

Mr. David Stewart: To ask the Chancellor of the Exchequer what *(a)* estimate he has made and *(b)* research he has (i) commissioned and (ii) evaluated on the value of the sale of the analogue wave band to public funds. [174047]

Ruth Kelly: The terms and method of reallocation of radio spectrum released by digital switchover are a matter for Ofcom. Additionally, the scope of future uses will be dependent on the result of international negotiations commencing in 2006. Hence, the Government are not currently in a position to make an estimate of the likely value of spectrum.

However, the Government have produced an economic cost-benefit analysis of digital switchover. The positive result of this study informed the Government's decision to confirm their support for switchover in September 2003 as it will bring significant benefits to consumers and to broadcasters. A summary of the results can be found at: www.digitaltelevision.gov.uk

Inland Revenue

Mr. Prisk: To ask the Chancellor of the Exchequer (1) when the Inland Revenue Avoidance Intelligence Unit will commence work; and how many staff it will employ; [176258]

(2) what the total costs, including employment, are for the Inland Revenue Avoidance Intelligence Unit for this financial year. [176259]

Dawn Primarolo: The Inland Revenue's Avoidance Intelligence Unit will be operational by the time the tax avoidance disclosure rules come into effect on 1 August 2004. The anticipated initial funding for the Unit is £1.5 million for the first full year. The precise number of staff who will be employed within the Unit is not fixed but will be under constant review and will vary according to the level of work the Unit has to handle.

Civil Registration (Consultation)

Dr. Iddon: To ask the Chancellor of the Exchequer what assessment he has made of the origins of the responses to the document Civil Registration: Delivering Vital Change; and how many were received from *(a)* registration officers, *(b)* genealogists and *(c)* the general public. [176583]

Ruth Kelly: The information requested falls within the responsibility of the General Registrar for England and Wales, who has been asked to reply.

Letter from Len Cook to Dr. Iddon, dated 27 May 2004:

As National Statistician and Registrar General For England and Wales, I have been asked to reply to your recent Parliamentary Question asking what assessment has been made of the origins of the responses to the document Civil Registration: Delivering Vital Change; and how many were received from *(a)* registration officers *(b)* genealogists and *(c)* the general public. (176583)

There were 516 responses from registration officers, 30 from genealogists who explicitly identified themselves as such and 2,310 from the general public. Of the latter group there were many whose main interest appeared to be in family history and genealogy, although a number also commented on other issues such as the propose changes to the system of civil marriage. The large number of responses received will be taken into consideration before proposals are laid before Parliament for scrutiny in the form of a proposed draft Regulatory Reform Order and Explanatory Memorandum.

Indeed, in her Statement to the House of Commons on 29 March the Financial Secretary to the Treasury (Ruth Kelly) explained that she had been pleased to see there had been almost 3,400 responses to the consultation document "Civil Registration: Delivering Vital Change". She added that this indicated a very real interest among a wide range of stakeholders—registration practitioners and managers, the public and other interested organisations—in this area of reform.

Correspondence

Mr. Salmond: To ask the Chancellor of the Exchequer when he expects to reply to the letter of 24 March 2004 from Stewart Stevenson MSP regarding World Vision. [176133]

Mr. Boateng: There is no record of the letter being received. A copy has been requested and will be replied to as soon as possible.

Mr. Salmond: To ask the Chancellor of the Exchequer when he expects to reply to the letter dated 9 March from the hon. Member for Banff and Buchan regarding whisky strip stamps. [176201]

John Healey: I have done so.

Employment (Blackpool, North and Fleetwood)

Mrs. Humble: To ask the Chancellor of the Exchequer how many people were employed in tourism-related jobs in Blackpool, North and Fleetwood on the latest date for which figures are available. [176398]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been has to reply.

Letter from Len Cook to Mrs. Joan Humble, dated 27 May 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about tourism-related jobs in Blackpool, North and Fleetwood. (176398)

The latest available data, from the 2002 Annual Business Inquiry, shows that the total number of jobs in tourism related industries in Blackpool, North and Fleetwood Parliamentary Constituency was 4,400. This total is obtained by combining figures for those working in the following industries, as identified by Standard Industrial Classification 2003:

hotels
restaurants
bars
activities of travel agencies
library, archives, museums etc.
sporting activities
other recreational activities.

Mrs. Humble: To ask the Chancellor of the Exchequer how many new jobs have been created in Blackpool, North and Fleetwood since 1997. [176399]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mrs. Joan Humble, dated 27 May 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about jobs created in Blackpool, North and Fleetwood. (176399)

While statistics of new jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes, in numbers of jobs, from year-to-year.

The attached table shows the information requested relating to jobs Blackpool, North and Fleetwood, for 1997 and the latest year available, 2002.

Total number of employees[1] in Blackpool, North and Fleetwood Parliamentary Constituency: 1997 and 2002

	Number, per cent. Total
Number of employees	
1997	32,000
2002	31,500
Change from 1997 to 2002	
Absolute	-500

[1] Employee jobs only, not self-employed jobs.

Source:

1997: Annual Employment Survey, rescaled 2002: Annual Business Inquiry (ABI).

Employment Statistics

Chris Ruane: To ask the Chancellor of the Exchequer how many people were employed in each year since 1979, broken down by constituency within each region. [175126]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Chris Ruane, dated 27 May 2004:

The National Statistician has been asked to reply to your Parliamentary Question about employment. I am replying in his absence. (175126)

Estimates of the number of people in employment broken down by Parliamentary Constituencies within each region, are only available for the twelve month periods ending February 1997, 2000, 2001, 2002 and 2003. This information has been placed in the House of Commons Library.

Estimates are taken from the Office for National Statistics' Labour Force Survey (LFS). As with any sample survey, estimates from the LFS are subject to sampling variability.

Information for individual constituencies in Northern Ireland is not shown in the table, but is available from the Northern Ireland Statistics and Research Agency.

Football (Taxation)

John Mann: To ask the Chancellor of the Exchequer what the overall liability from the Premier League and football league clubs to the Treasury in unpaid taxes, deferred taxes and business rates is. [176082]

Dawn Primarolo: Individual businesses are monitored by both revenue Departments when they fall into arrears. However information on the debts of particular groups according to the nature of their business is not held centrally in both Departments. The information requested is therefore not readily available.

Fuel Sales (VAT)

Mr. Evans: To ask the Chancellor of the Exchequer how much VAT was raised from fuel sales in April. [175961]

John Healey: Customs and Excise do not collect data on VAT from individual goods and services. VAT from household expenditure on road fuels can be broadly estimated from ONS Consumer Trends data. However, data are published on a quarterly basis only.

Honours

Brian White: To ask the Chancellor of the Exchequer how much time his Department spent dealing with honours in the last year for which figures are available, broken down by Civil Service grade. [173045]

Ruth Kelly: The Treasury has a designated honours secretary at Range D (HEO/SEO) level for whom work in this area takes up around 10 per cent. of working hours.

The Management Board meets twice a year for an hour to consider nominations. Members of the Management Board also spend a very small amount of their time considering honours-related issues, but it is not possible to disaggregate this.

Information is not available on time spent on honours-related work by other staff within the Treasury and across its associated bodies.

Industrial Wages

Mr. Gregory Campbell: To ask the Chancellor of the Exchequer what the average industrial wage in Great Britain is. [175854]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Gregory Campbell, dated 27 May 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking for the average industrial wage in Great Britain. (175854)

Average earnings are estimated from the 2003 New Earnings Survey (NES) and are provided for full-time employees on adult rates of pay whose pay was unaffected by absence during the pay period, by their place of work. This is the standard definition used for NES tables. The NES does not collect data on the self employed and people who do unpaid work.

The 2003 NES estimates that the total average industrial weekly earnings of full-time adult employees in Great Britain was £469.00.

The industrial wage covers all Production, Distribution and Service sectors of the economy. More detailed information on earnings is available in the published tables from the 2003 NES. They are available on the National Statistics website at: http://www.statistics.gov.uk/downloads/theme_labour/NES2003Analyses_By_Industry/NES2003_Analyses_By_Industry.pdf.

The NES, carried out in April of each year, is the most comprehensive source of earnings information in Great Britain. It is a one per cent. sample of all employees who are members of pay-as-you-earn (PAYE) schemes but, because of its sampling frame,

it has difficulty capturing data on people with very low pay. It is therefore likely to under-represent relatively low paid staff earning below the tax threshold.

The New Earnings Survey publication criteria ensures that all estimates are undisclosive and of reliable quality. A number of estimates have been removed from the published tables for these reasons.

International Development

Tom Brake: To ask the Chancellor of the Exchequer how many representations he has received in the past 12 months in relation to the target for spending 0.7 per cent. of gross national income on development, broken down by type of representation. [175793]

John Healey: The Government have received the usual representations on all subjects relating to official development assistance (oda). Data on the numbers and types of representations are not held centrally in the format requested.

Since 1997 the UK's level of oda has increased in real terms by 93 per cent. It reached 0.34 per cent. of Gross National Income (GNI) in 2003–04, and is expected to exceed the EU target of 0.39 per cent. for member states in 2005–06. The UK remains committed to the UN target of 0.7 per cent. oda/GNI and to meeting the Millennium Development Goals.

Tom Brake: To ask the Chancellor of the Exchequer whether, in drawing up spending plans in the 2004 Comprehensive Spending Review, he will treat funds committed through the International Finance Facility as counting towards the target of spending 0.7 per cent. of gross national income on development. [176034]

John Healey: The results of the Spending Review will be made public in due course. The OECD Development Assistance Committee (DAC) rules on the eligibility for official development assistance (oda), and it will be a matter for the DAC to decide what contribution IFF monies would make towards the UK oda/GNI level. The precise arrangements for the operation of the International Finance Facility (IFF) are still the subject of discussions between the UK and other interested governments.

The IFF has been designed to front-load the aid to reach the $50 billion extra per year that it is estimated is needed to achieve the Millennium Development Goals (MDGs). On current trends few of the MDGs will be met by the target date of 2015, and many will remain off-track without increased investment by donor countries. By delivering aid now, when it will have the most impact, the IFF will be able to provide the world's poorest countries with the funds they desperately need.

National Minimum Wage (Manchester)

Tony Lloyd: To ask the Chancellor of the Exchequer how many workers in Manchester, Central have benefited from the national minimum wage. [175716]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Tony Lloyd, dated 27 May 2004:

The National Statistician has been asked to reply to your recent question about the number of workers in Manchester Central who have benefited from the national minimum wage (NMW). I am replying in his absence. (175716)

Estimates for Parliamentary Constituencies are not available.

However, the Office for National Statistics (ONS) calculates estimates of the number of jobs paid less than NMW rates for the United Kingdom and Government Office Regions. A guide to measuring low pay and associated articles and data can be found on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=5837&Pos=1&ColRank=1&Rank=272

Official Vehicles

John Barrett: To ask the Chancellor of the Exchequer what percentage of official vehicles used by his Department are run on *(a)* petrol, *(b)* diesel, *(c)* liquid petroleum gas and *(d)* compressed natural gas. [172768]

Ruth Kelly: HM Treasury's ministerial vehicles are provided by the Government Car Service. Detailed information on the breakdown of the GSC vehicle fleet was provided by the Cabinet Office on 25 May 2004, *Official Report*, column 1538W.

Petrol and Diesel Duty

Mr. Redwood: To ask the Chancellor of the Exchequer (1) what estimate he has made of the revenue which would be raised from petrol and diesel duty if pump prices rose to 90 pence a litre on average in the week beginning 17 May and stayed at that price for the rest of 2004–05; [174568]

(2) what the tax take is from each additional one penny on the litre price of fuel at the pumps; [174569]

(3) what estimate he has made of the amount of tax revenue which the Government would raise from petrol and diesel if pump prices remain at their current level for the rest of the financial year; [174570]

(4) what his latest forecast is for the revenue from all taxes on petrol and diesel for 2004–05; [174571]

(5) what the Budget forecast was for all tax revenues on petrol and diesel for 2004–05. [174572]

John Healey: The forecast revenue from fuel duty is published in table C.8 of the 2004 Financial Statement and Budget Report (HC 301). Estimates of the impact of duty changes were published in "Tax Ready Reckoner and Tax Reliefs", alongside the 2003 pre-Budget report (Cm 6042). Reliable estimates of the impact of changes in prices are not available.

Plastic Carrier Bags

John Mann: To ask the Chancellor of the Exchequer what assessment he has made of the merits of a tax on disposable plastic carrier bags. [175934]

John Healey: The Government currently have no plans to introduce a tax on plastic bags. In the UK plastic bags comprise less than 1 per cent. of the waste stream. Hence a tax on plastic bags, on its own, would be unlikely to have any significant impacts on volumes of waste. Further, the Government have a range of

measures in place to tackle the problem of waste, including the landfill tax which goes some way to maintaining the principle that the polluter pays by internalising the cost of the damage to the environment caused by landfill and encouraging recycling.

An assessment of the Irish tax on plastic bags has been completed and I have placed a copy in the Library of the House.

Regulation

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer (1) whether the impact assessments described in the joint initiative on regulatory reform statement of 26 January will be applied to existing EU legislation; and whether such legislation will be repealed if the costs are found not to justify the benefits; [176346]

(2) whether the impact assessments described in the joint initiative on regulatory reform statement of 26 January will include a requirement to estimate the *(a)* costs and *(b)* benefits of proposed new EU legislation; [176347]

(3) whether the simplification of the Community Acquis referred to in the joint initiative on regulatory reform statement of 26 January will involve *(a)* deregulation and *(b)* the removal of legal texts that are obsolete and outdated without changing their legal status; [176348]

(4) what the implementation timetable is for the *(a)* introduction of impacts assessments and *(b)* simplification of the Community Acquis referred to in the joint initiative on regulatory reform statement of 26 January. [176349]

Ruth Kelly: The Joint Initiative on Regulatory Reform was welcomed by the Spring European Council in March. Following on from this, the Competitiveness Council endorsed an initial work programme at its 17–18 May meeting, including improvements to impact assessment and review of existing legislation. The European Council has committed to return to the issue at its November meeting.

The EU's impact assessment process was introduced as part of its Better Regulation Action Plan and covers both costs and benefits of potential action. The joint initiative contains a number of measures designed to strengthen this analysis, relating to both costs and benefits. In particular, the joint initiative called for better assessment of the impact of proposals on EU competitiveness.

With regard to simplification of existing legislation, the joint initiative builds on the Commission's work under its Better Regulation Action Plan. The scope of this programme includes reform or removal of existing legislation which is in force, as well as of that which is obsolete or no longer in use.

The Government will continue to work with EU partners ahead of the November Council to take forward work in this area.

Retained Firefighters (Tax Relief)

Mr. Oaten: To ask the Chancellor of the Exchequer if he will make it his policy to give tax relief to businesses that employ retained firefighters. [176264]

Dawn Primarolo: The Government keep all taxes under review and any changes will be announced as part of the normal Budget process.

Statutory Paternity Leave

Malcolm Bruce: To ask the Chancellor of the Exchequer what steps his Department has taken to help businesses administer the statutory paid paternity leave introduced on 6 April 2003; what targets have been set for this work; and what budget has been allocated. [176521]

Dawn Primarolo: The Inland Revenue provide extensive assistance and support to employers operating the Statutory Paternity Pay scheme.

As well as paper guidance assistance is available for employers on the Revenue's internet site in a simple question and answer format.

The Revenue also send all employers a CD-ROM which contains guidance and other aids in easily navigable format.

The Revenue's, Business Support teams provide a free workshop for employers on SPP at locations across the UK. Assistance is also available on a one to one basis.

The Revenue's Employer's Helpline offers telephone assistance at hours to suit the employer.

The Inland Revenue are also working on the provision of an internet calculator for SPP.

The Inland Revenue do not set a budget or targets for assistance to employers which can be broken down between different employer obligations.

Malcolm Bruce: To ask the Chancellor of the Exchequer pursuant to the answer of 10 May 2004, *Official Report*, column 150W, on statutory paternity pay, when the statistics will become available. [176441]

Dawn Primarolo: Employers will notify the Inland Revenue of the numbers of employees who have received SPP in their annual returns for the 2003–04 tax year. Those returns were due on 19 May 2004, they are received over several months and the Inland Revenue will not have completed processing them until later in the year. Employers are not required to notify us of all requests for SPP, only of payments made.

Tax Credits

Mr. Willetts: To ask the Chancellor of the Exchequer whether migrants from the EU accession countries are entitled to *(a)* the child tax credit and *(b)* the working tax credit; and on what conditions. [172952]

Dawn Primarolo: I refer the hon. Member to the letter from my hon. Friend the Minister for Citizenship and Immigration sent to all Members of Parliament on 10 May 2004. A copy of the letter can be found in the Library of the House.

Unemployment (Manchester)

Tony Lloyd: To ask the Chancellor of the Exchequer if he will make a statement on the levels of long-term *(a)* adult and *(b)* youth unemployment in Manchester, Central over the last seven years. [175715]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Tony Lloyd, dated 27 May 2004:

The National Statistician has been asked to reply to your Parliamentary Question about unemployment. I am replying in his absence. (175715)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Manchester Central Parliamentary Constituency.

ONS also compiles statistics on those claiming Jobseeker's Allowance (JSA) for local areas including parliamentary constituencies.

The table below gives the total number of people who had been claiming JSA for over 12 months and the number of people aged 18 to 24 who had been claiming JSA for over 12 months, for the Manchester Central constituency. The figures are annual averages for each year since 1997.

Number of people claiming JSA for over 12 months[1]

	All ages	*Aged 18 to 24*
1997	2,403	432
1998	1,691	285
1999	1,445	120
2000	1,199	49
2001	1,117	36
2002	992	49
2003	822	70

[1] Computerised claims only.

Youth Unemployment

Chris Ruane: To ask the Chancellor of the Exchequer how many long-term youth unemployed there were in each year since 1979, broken down by constituency within each region. [175127]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Chris Ruane dated 27 May 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (175127)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions.

Table 1 gives estimated of the numbers of people aged 16 to 24 who were unemployed for 12 months or longer in the twelve months periods ending in February of each year from 2000 to 2003. Comparable information is not available for earlier periods. The LFS sample size is too small to give reliable information for each Parliamentary Constituency. As with any statistical sample survey, estimates for the LFS are subject to sampling variability.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including Parliamentary Constituencies. Table 2 gives the number of people aged 18 to 24 years who had been claiming JSA for over 12 months, by Government Office Regions, for April each of year from 1986 to 2003. The data are not seasonally adjusted. Data at regional level are not available for earlier years.

This information is also available for Parliamentary Constituencies within each Government Office Region from the Nomis (r) database at the House of Commons Library.

Table 1: Number of people aged 16 to 24 years in long-term unemployment[1] *Government Office Regions, twelve months ending February each year from 2000 to 2003*

Number

	United Kingdom	*North East*	*North West*	*Yorkshire and Humberside*	*East Midlands*	*West Midlands*
2000	67	[2]	13	7	6	[2]
2001	66	6	9	5	[2]	7
2002	64	5	9	5	[2]	4
2003	61	4	9	5	[2]	4

Number

	Eastern	*London*	*South East*	*South West*	*Wales*	*Scotland*	*Northern Ireland*
2000	[2]	9	[2]	[2]	[2]	9	[2]
2001	[2]	11	4	4	5	[2]	[2]
2002	[2]	13	[2]	[2]	3	6	[2]
2003	[2]	11	4	[2]	3	7	[2]

[1] Refers to those who are unemployed over 12 months.
[2] Sample size too small for reliable estimates.

PRIME MINISTER

Cabinet Committees

Ms Munn: To ask the Prime Minister when he will next publish the full membership and terms of reference of Cabinet Committees. [176693]

The Prime Minister: I have placed a copy of the current list of Cabinet Committees, their membership and terms of reference in the Libraries of both Houses. Details have also been updated on the Cabinet Office website.

Correspondence

Mr. Allen: To ask the Prime Minister if he will publish the letter reported in *The Times* of 21 May regarding the time taken to reply to letters from hon. Members, peers and MEPs. [176075]

The Prime Minister: I and my Ministerial colleagues attach great importance to dealing with all correspondence quickly and effectively. On 20 May, my hon. Friend the Minister for the Cabinet Office (Mr. Alexander) published a report on the performance of Departments and Agencies in handling correspondence from hon. Members and noble Peers for 2003. Copies are available in the Library of the House.

Czech Republic

Mr. Cousins: To ask the Prime Minister what steps he took to secure the export of Gripen aircraft to the Czech Republic. [176221]

The Prime Minister: I refer my hon. Friend to the answer I gave the hon. Member for Truro and St. Austell (Mr. Taylor) on 9 July 2003, *Official Report*, column 853W.

Hunting Bill

Mr. Gordon Prentice: To ask the Prime Minister what representations he has received about reintroducing the Hunting Bill in this Session; and if he will make a statement. [176292]

The Prime Minister: Since January I have received over 1,600 letters and cards about the issue of hunting. Given the volume of correspondence I receive, over one million letters and cards in the last year covering a broad spectrum of issues, my office records letters by subject rather than by the view expressed.

Lockerbie Bombing

Mr. Dalyell: To ask the Prime Minister if he will make a statement on the outcome of his meeting with the Lockerbie relatives on Monday 24 May. [176998]

The Prime Minister: I had a very constructive meeting with the Lockerbie families on 24 May. It was an opportunity for me to brief them on my visit to Libya in March and to listen to the families' concerns, which we take very seriously.

CULTURE, MEDIA AND SPORT

Athletics

Lembit Öpik: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the financial viability of UK Sport's elite athletes programme; whether she intends to draw more funds from the devolved Governments to increase the finances available to this fund; and if she will make a statement. [176085]

Mr. Caborn: UK Sport recently presented their Business Plan for 2005–09, including details of proposed support to elite athletes, to the Sports Cabinet. The Sports Cabinet considered the proposals in terms of funding need, value for money and affordability and has requested further work be undertaken to ensure that sufficient funds are available for the next Olympic cycle. There is no intention to draw more funds from devolved Governments.

Legal Deposits Libraries Act

Mr. Sheerman: To ask the Secretary of State for Culture, Media and Sport how much funding her Department has allocated for *(a)* the long-term storage of the British Library's newspaper collection and *(b)* the archiving of digital material as required under the Legal Deposits Libraries Act 2003. [175968]

Estelle Morris: DCMS recognises the key storage needs of the British Library, and in SR 2002 set aside an extra amount of capital (£3 million in 2004–05 and £8 million in 2005–06) to help the British Library address this. The Department is aware of the British Library's bid for further resources to accelerate the programme of newspaper microfilm surrogate production and to manage digital materials. This is being considered as part of the 2004 Spending Review. The Legal Deposit Libraries Act 2003 allows for the possibility of archiving digital material; the precise manner in which this is done will be dependent on regulations which will be brought forward incrementally after consideration by an Advisory Panel.

Licensing

Tony Cunningham: To ask the Secretary of State for Culture, Media and Sport when she expects responsibility for licensing to be transferred to local authorities. [176338]

Mr. Caborn: Licensing authorities, who will generally be local authorities, will be able to accept applications for the conversion of existing licences and club registration certificates from the first appointed day. This will be at least six months after my right hon. Friend the Secretary of State issues the Guidance to licensing authorities. The timetable for full implementation of the Licensing Act 2003 is dependent on parliamentary approval of the draft guidance, which was laid before Parliament on 23 March. If Parliament is content, we expect to complete the implementation of the Act around late summer 2005.

Regional Tourist Boards

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport what the membership of each regional tourist board has been in the last three years. [176312]

Mr. Caborn: Regional Tourist Boards are not Government agencies, their board members are not appointed by Ministers and records of their membership are not held centrally.

Mr. Moss: To ask the Secretary of State for Culture, Media and Sport what the expenditure of each regional tourist board has been in the last three years, broken down by main budget heading. [176318]

Mr. Caborn: Regional Tourist Boards (RTBs) are not Government agencies and records of their expenditure are not held centrally. Most of them are private companies limited by guarantee and they have income in addition to Government funding.

Funding via the English Tourism Council in 2001–02 and 2002–03 and via the Regional Development Agencies in 2003–04 totalled £6.5 million, £5.7 million and £3.6 million in these years respectively. Government funding passed to the RTBs in these years for specific tourism projects, delivery of national objectives at a regional level and activities in line with regional strategies. Separately, funding of £1.9 million per annum passed from DCMS to the Greater London Authority who, worked with the London Tourist Board (renamed VisitLondon in 2003), on marketing London overseas and tourism development.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bisham Footpath 9

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs when the Government office for the south-east intends to issue its decision on Bisham footpath 9, following the public inquiry, which was completed on 9 November 2003. [174012]

Margaret Beckett: The Government office for the south-east is considering the Inspector's report and expects to issue a decision next month.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the current status of the gamma interferon trials being conducted by her Department is; what the total cost so far expended on developing this test is; and what the estimated total cost fully to develop this test to the point where it can be used routinely is. [158000]

Mr. Bradshaw: Desk studies have estimated that significant savings will need to accrue from the use of gamma interferon (γ-IFN) before it becomes cost-effective in GB. The field trial of the γ-IFN test taking place in Wales and the Midlands is sponsored by Defra and the Welsh Assembly Government. It aims to assess

the cost-effectiveness of using γ-IFN in infected herds in conjunction with the single intradermal comparative cervical test.

The field pilot began in November 2002, with the intention to recruit 660 herds. Recruitment to the trial has been slow, with 115 herds recruited by 19 May 2004. Approximately one third of herds recruited so far are γ-IFN tested, with the other herds subject to "extra-severe" interpretation of the skin test and a control group (status quo).

From May 2004, newly recruited herds will have a 50 per cent. chance of being allocated the γ-IFN treatment, with 25 per cent. allocated to "extra-severe" and 25 per cent. to "control" groups. It is hoped this will encourage more eligible herd owners to participate.

Since 1999, the Government have spent more than £900,000 on γ-IFN research projects and £8.5 million on other research projects contributing to the development of γ-IFN as a diagnostic test. This is in addition to the £667,000 we expect to spend on the field pilot for the test.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the average number of cattle involved in a herd TB breakdown was over the last five years; what the average was in herds with repeat breakdowns; and what epidemiological significance there is to the number of animals affected in a herd breakdown. [158675]

Mr. Bradshaw: The following table details the average number of reactor cattle slaughtered per TB incident (breakdown) over the last five years:

	Reactors per incident 1
1999	2.5
2000	2.8
2001	3.1
2002	4.7
2003	3.6

[1] Includes all the herd incidents recorded each year (new and ongoing).

Separate figures are not available for herds with recurrent breakdowns as a subgroup of all breakdowns. This data can be obtained only at disproportionate cost.

The number of reactors per incident is a proxy for the severity of a TB breakdown. Severity of a breakdown is in turn determined by the number of cattle in the herd infected at the initial exposure (index animals), the time elapsed between introduction of infection in the herd and the disclosing test (or slaughterhouse case), social interactions between infective and susceptible cattle, herd size, herd management system, susceptibility of the host, the portal of entry into the host and infective dose and, possibly, the strain of "M. bovis" causing the breakdown. Confirmed TB incidents tend to last longer and yield more reactors than unconfirmed incidents.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs in how many herd breakdowns in 2003 only one reactor was detected; and in how many of those herds there had been no cattle movements into the herds in the preceding 60 days. [158678]

Mr. Bradshaw: In 2003 there were 1204[1] breakdowns with one reactor detected. Of these, the number with no cattle movements in the preceding 60 days is not centrally recorded on the State Veterinary Service database and can only be provided at disproportionate cost from other sources.

[1] Provisional data downloaded from the State Veterinary Service database on 4–5 March 2004. Subject to change as more data becomes available.

Note:

For the purposes of this question a reactor has been defined as (i) an animal which reacts positively to the tuberculin test and (ii) an animal which has had an inconclusive reaction to the tuberculin tests on three occasions.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs how many tuberculin positive reactor cattle were slaughtered in the UK in each year from 1999 to 2003 inclusive; and in how many bovine TB infection was not confirmed on culture or examination post mortem in each year. [172557]

Mr. Bradshaw: The information requested is given in the following table for Great Britain.

	Number of TB reactor cattle slaughtered[1]	*Number of unconfirmed cases*[2]
1999	5,910	2,709
2000	7,031	2,629
2001[3]	5,048	2,293
2002	19,903	9,671
2003	20,117	10,180

[1] For the purposes of this question a reactor has been defined as (i) an animal which reacts positively to the tuberculin test or (ii) an animal which has had an inconclusive reaction to the tuberculin tests on three occasions.

[2] Failure to detect visible lesions or culture *Mycobacterium bovis* (*M. bovis*) from samples does not confirm the absence of infection or that the animal has not been exposed to *M. bovis*.

[3] In 2001, the TB testing and control programme was largely suspended due to the Foot and Mouth Disease (FMD) outbreak. Since testing resumed in 2002, resources have been concentrated on herds with overdue TB tests which would have had a longer period in which to contract the disease. Also the proportion of high risk herds being tested post-FMD is greater than that prior to the outbreak. As a result since 2002 the statistical data is not comparable to that of previous years.

Note:

Data downloaded from the State Veterinary Service database on 1 April 2004 (1999–2001) and 8 March 2004 (2002–03). This is provisional data, which is subject to change, as more data becomes available.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what further research she proposes to undertake to investigate TB in wildlife; and if she will make a statement. [173694]

Mr. Bradshaw: Defra is funding the Randomised Badger Culling Trial and associated research (including the Road Traffic Accident survey of badger carcases in seven English counties). A limited survey of wildlife (badgers, and deer with suspicious lesions) killed on the roads in the Furness Peninsula, Cumbria is also under way.

Recently published research highlights that the use of farm buildings and cattle troughs by badgers can constitute a TB risk to cattle. A study of possible badger/cattle interactions and how cattle husbandry methods may limit these is under way.

Defra currently funds two research projects investigating the risk to cattle from wildlife species other than badgers. Both projects are due to be completed during 2004 and their final reports will be studied closely before deciding on future research requirements in this area.

Other work is looking at the "perturbation" effects of removing badgers from an ecosystem, innovative ways of estimating badger numbers and a project to derive economic values associated with changes in badger populations. Another project is devising strategies to diagnose *M. bovis* infection in badgers in the field (such as alternatives to the Brock test with increased sensitivity).

Defra is also part-funding collaborative work on the experimental vaccination of badgers with BCG in the Republic of Ireland through a contract with the Veterinary Laboratories Agency. A recent workshop (April) with the animal pharmaceutical industry discussed possible ways of taking this work forward.

Nick Harvey: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the extra costs, beyond the cost of the test itself, to farmers of using a TB test; and if she will make a statement. [174082]

Mr. Bradshaw: The cost of statutory tuberculin testing by an authorised Veterinary Surgeon is currently paid for by Defra. Cattle keepers are responsible for presenting the animals for testing in a manner in which the test can be performed safely, this includes provision of the necessary cattle handling equipment and labour.

The main cost to farmers incurred for TB testing is labour use. The time spent on testing varies greatly from farm to farm, and will depend on such factors as the size of the herd, the age, breed and sex of the animals, the efficiency of the system employed, the way the cattle are handled, gathering times, preparation and cleaning times and subsequent post-test paperwork.

Some dairy farmers have also reported a reduction in milk yield on testing days.

A full Regulatory Impact Assessment will be required if proposals on pre or post-movement testing outlined in the consultation document "preparing for a new GB strategy on bovine tuberculosis" are taken forward. This will include an assessment of the additional economic burden to farmers.

Carbon Dioxide Emissions

Mr. Clifton-Brown: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received on behalf of the UK *(a)* off-shore oil and gas operators, *(b)* electricity generators and *(c)* coal industry regarding Government policy on reducing emissions of carbon dioxide. [172527]

Mr. Morley: The Secretary of State has received numerous representations from the three industrial sectors described above. All three sectors have been closely involved with the consultations on the EU Emissions Trading Scheme National Allocation Plan and have submitted consultation responses.

Furthermore, operators of installations in the offshore oil and gas industry and the coal industry are direct participants in the UK Emissions Trading Scheme and have considerable ongoing contact with the Department because of this.

Countryside Stewardship Scheme

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs if she will take steps to ensure that the area of traditional apple orchards that is not currently covered by the countryside stewardship scheme is included in 2005. [176313]

Alun Michael: I can confirm that, subject to approval by the European Commission, the new Environmental Stewardship Scheme which we plan to introduce in 2005 will contain measures designed to maintain and restore traditional orchards. These will be similar to the measures we have successfully operated under the Countryside Stewardship Scheme. While we hope for a high level of uptake, we cannot guarantee complete coverage, not least because the scheme is voluntary.

Dairy Calves

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs how many male dairy calves have been *(a)* shot and *(b)* disposed of on UK farms in each of the last three years as being without financial value. [174138]

Alun Michael: Data from the Cattle Tracing System (CTS) on calves of up to 14 days age that either die on farm or are killed at slaughterhouses are tabulated as follows. However, it should be noted that many cattle are not registered under the CTS until they are over 14 days old and these figures are therefore an underestimate.

	Cattle up to 14-days-old that died on farm	*Cattle up to 14-days-old that died at a slaughterhouse*
2001	27,975	66,051
2002	20,784	59,934
2003[1]	15,740	40,437

[1] Data for 2003 only covers the months January to November, inclusive.

Departmental Buildings

Mr. Flight: To ask the Secretary of State for Environment, Food and Rural Affairs how many buildings in England owned by her Department are used at less than 25 per cent. capacity for more than three months of the year. [175978]

Alun Michael: Five buildings on the Defra estate fall within this category. All five have been declared surplus and are awaiting disposal.

The Department does not hold information centrally about properties occupied by non-departmental public bodies but the use of premises by the wider Defra family is currently being reviewed.

Eggs

Mr. Cameron: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received about the impact the cost of egg stamping is likely to have on small-scale egg producers; and if she will make a statement. [174202]

Alun Michael: Defra has received an estimated 3,150 inquiries on the Registration of Laying Flocks Order and the Egg Marketing Regulations—by far the majority of these were from producers wanting to know how to comply with the legal requirements. We have also held meetings with representative bodies, including the National Federation of Women's Institutes; the National Association of Farmers; and the Small Farms Association. For small-scale producers, a stamp and ink (that will last for years) can cost just a few pounds. Most small producers appear to have been satisfied that the costs are reasonable and can be borne comfortably.

Emissions Trading Scheme

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to encourage the European Commission to take a robust line with EU members who produce over-generous national allocation plans under the EU Emissions Trading Scheme to ensure that significant reductions in carbon emissions are achieved. [174783]

Mr. Morley: It is vital that other member states' national allocation plans are robust and ambitious. We welcome the Commission's recent announcement regarding national allocation plans, that clearly demonstrates that they intend to take a firm line in the analysis of these plans.

Government have commissioned consultants to analyse the plans submitted by other member states. The results of this work will be made publicly available and will help inform our discussions with the Commission and other member states.

Environmental Campaigns

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how much she expects the Government to spend on environmental campaigns in *(a)* 2004–05 and *(b)* 2005–06. [168810]

Mr. Morley: Defra provides funding to a number of bodies who will conduct campaigns on environmental issues between 2004–06 as part of their activities. These are shown in the following table. Figures represent overall income. Campaigns will be allocated funds from within these totals.

£ million

	2004–05	*2005–06*
Waste and Resources Action Programme (WRAP)	57.521	75.709
Environment Agency	870.2	944.9
Energy Saving Trust	59	Not yet allocated
Carbon Trust	24	Not yet allocated
ENCAMS	3.542	3.542

Fallen Stock

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when the new Fallen Stock Scheme is expected to commence; and what level of support it has achieved. [174790]

Mr. Bradshaw *[holding answer 21 May 2004]:* As announced by the National Fallen Stock Company on 13 May, the Scheme is expected to commence in the autumn. It has the backing of the major farming unions and livestock organisations, but we will not know the level of support it has among farmers until the Scheme begins.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the oral answer of 20 May 2004, *Official Report*, columns 1079–80, on fallen stock, if she will give guidance to local authorities on how to implement the EU Animal By-Products Regulations with a light touch before the national fallen stock scheme is in operation. [176295]

Mr. Bradshaw: Guidance has already been provided to local authorities and a copy is available in the Library of the House.

Farm Subsidies

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs how many and what proportion of farms in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland which would be eligible for the post-transitional single farm payment would receive payments exceeding (i) 50,000, (ii) 75,000, (iii) 100,000, (iv) 125,000, (v) 150,000, (vi) 175,000, (vii) 200,000, (viii) 250,000 and (ix) 300,000 euros. [172484]

Alun Michael: Payment entitlements under the Single Payment Scheme in England and Northern Ireland will be allocated on the bases of eligible land declared in 2005. It is not possible to provide the information sought until all claims have been received and processed. Payment arrangements for Scotland and Wales are a matter for the devolved Administrations.

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs what the average subsidy payment in Cumbria was in *(a)* 1999, *(b)* 2000, *(c)* 2001 and *(d)* 2002. [169077]

Alun Michael: The following table represents the average subsidy payment to farmers in Cumbria from 1999 to 2002. These are European Agriculture Guidance and Guarantee Fund (EAGGF) financial years which run from 16 October to 15 October.

EAGGF Year	*Average subsidy*	*Number of claimants*	*Value of payments*
1999[1]	6,134.41	4,540	27,850,196.65
2000	12,219.08	5,113	62,476,159.75
2001	12,149.86	5,171	62,826,951.00
2002	9,567.28	5,055	48,362,622.32

[1] The figures quoted for 1999 relate to the period from 1 March of that year when the Rural Payments Agency introduced its new accounting system.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what

(a) discussions she has had and *(b)* assessment she has made of future agricultural support payments in (i) uplands and (ii) severely disadvantaged areas. [166445]

Alun Michael: My right hon. Friend the Secretary of State has had discussions with, and received representations from, a wide range of interests on the subject. As a result she made a written statement to the House on 22 April. Eligible farmers in the uplands and the severely disadvantaged areas will receive the single farm payment, and will continue to be eligible for other schemes such as the Hill Farm Allowance and agri-environment schemes (which are currently being reviewed). The need for assistance to these or other areas will need to be re-examined in the context of the new EU Rural Development Regulation which will come into effect in 2007, and the changing needs of sustainable development in the uplands.

Foot and Mouth

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs when the report on foot and mouth disease at the Waugh's farm by Mr. Jim Dring was *(a)* first received by her Ministers; and *(b)* first received by her. [173994]

Margaret Beckett: My Ministers and I were briefed about and had access to Mr. Dring's statement concerning the Waugh's farm in the week preceding our publication of his statement.

GM Feed

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the labelling requirements for *(a)* milk and *(b)* meat produced from animals fed on genetically modified feed. [173553]

Mr. Morley: Regulation (EC) 1829/2003 on genetically modified (GM) food and feed introduces new rules for the labelling of food and feed containing, consisting of, or produced from genetically modified organisms (GMOs). The Regulation took direct and full effect in Member States from 18 April 2004.

There is no requirement under the new rules to label products such as milk or meat or eggs obtained from animals fed with GM feed as there is no GM material in these products to detect.

Heddon View Farm

Mr. Boris Johnson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will define the extent of the processing premises at Heddon View; [174539]

(2) whether the premises designated for processing at Heddon View Farm were analogous to the premises designated by Mr. Jim Dring as direct contact. [174541]

Mr. Bradshaw: The processing premises were in a self contained roofed building and were therefore compliant with the requirements in Schedule 5 of the Animal By-Products Order 1999. The processing premises at Heddon View were separate from the pig premises referred to as a direct contact by Jim Dring.

IACS Payments

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 28 April 2004, *Official Report*, column 1025W, to the hon. Member for Salisbury (Mr. Key), on Severely Disadvantaged Areas, what assessment she has made of the extent of non-receipt of integrated administration and control system forms; and how many farms have contacted the Rural Payments Agency to request forms. [174371]

Alun Michael: The Rural Payments Agency sent out replacement Integrated Administration and Control System (IACS) forms to some 1,500 applicants approximately 2.2 per cent. of the total number of IACS applicants.

Psittacosis

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the cases of psittacosis confirmed in Sway in Hampshire in each year since 2000 and the actions taken by her Department; and if she will make a statement. [174629]

Mr. Bradshaw: There have been four recorded cases of psittacosis in Swav, Hampshire since 2000:

	Number of cases
2000	0
2001	3
2002	1
2003	0
2004 (to date)	0

The veterinary surgeon submitting the samples was informed of the results of the examination carried out by the Veterinary Laboratories Agency Regional Laboratory and reminded that psittacosis is a zoonosis (infection transmissible between animals and man) and the public health implications for the owner.

The public health authorities were informed and a visit was made to the premises in 2002 by a Veterinary Officer from the local Defra Animal Health Divisional Office to offer advice on the control of the disease.

Swill Feeding

Mr. Boris Johnson: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department carried out risk assessment on the feeding of swill to pigs prior to the outbreak of foot and mouth disease in 2001. [166759]

Mr. Bradshaw: No. No formal risk assessment was carried out prior to the 2001 foot and mouth disease outbreak. Following the outbreak veterinary advice was that there was a risk from domestically produced meat because of the amount of virus in circulation.

Water Technologies

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs how many

products have been approved for inclusion in the Enhanced Capital Allowance Scheme for Water Technologies. [175278]

Margaret Beckett: The Water Technology Product List which lists all products that are eligible for inclusion in the scheme, was launched on 6 November 2003. Since the launch, 115 products have been approved for inclusion in the scheme.

TRADE AND INDUSTRY

Accident Surveillance

Jim Dowd: To ask the Secretary of State for Trade and Industry whether her Department maintains the *(a)* Home Accidents Deaths Database, *(b)* the Home Accident Surveillance System and *(c)* the Leisure Accidents Surveillance System. [175826]

Mr. Sutcliffe: On 2 May 2003, my hon. Friend the Member for Welwyn Hatfield (Miss Johnson), the then Minister for Competition, Consumers and Markets, announced that the DTI will no longer collect statistics on the causes and nature of home and leisure accidents. Following increased pressure on resources and the need to focus on the Department's core priorities, hard decisions had to be made on what to stop. The Home Accident Surveillance System (HASS) and the Leisure Accidents Surveillance System (LASS) did not fit with these priorities.

Data from HASS and LASS for the years 2000, 2001 and 2002 were published in December 2003. These systems are no longer maintained by DTI, and no further data have been collected beyond 2002. An inquiry service on HASS and LASS historic data up to and including 2002 is being provided by the Royal Society for the Prevention of Accidents (RoSPA) for a period of five years with effect from 1 January 2004.

The Home Accidental Deaths Database held data up to and including 1995, and for similar reasons is no longer maintained by the Department. The Office for National Statistics (ONS) collects information about fatal accidents.

Coal Compensation Schemes

John Mann: To ask the Secretary of State for Trade and Industry how many coal compensation scheme claims have resulted in full and final settlements of less than *(a)* £1,000 and *(b)* £500. [176105]

Nigel Griffiths: As of 26 May 2004, the figures are as follows:

	Number of settlements less than £1,000	*Of which number of settlements less than £500*
COPD	26,281	11,867
VWF	2,971	301

John Mann: To ask the Secretary of State for Trade and Industry how many coal compensation scheme claims have resulted in solicitors being paid more than claimants. [176106]

Nigel Griffiths: As of 26 May 2004, the figures are:

	Number of settlements where solicitor costs exceed damages paid to claimant
COPD	46,768
VWF	2,655

John Mann: To ask the Secretary of State for Trade and Industry what representations have been made to her since Easter about the possibility of minimum payments for coal compensation schemes. [176107]

Nigel Griffiths: The Claimants Representative Group advised the judge that they were looking at the possibility of a minimum payment arrangement for respiratory disease claims. The Department has received two letters from the Claimants Representative Group since Easter seeking background information on claims volumes. The subject has also been discussed at the regular Operation and Monitoring meetings between the parties. A formal proposal has not yet been submitted to the Department.

Nutritional Supplements

Mr. Hawkins: To ask the Secretary of State for Trade and Industry what representations to EU Commission officials she has made on behalf of UK businesses in relation to plans for a draft Directive on nutritional supplements for sports competitors; and if she will make a statement. [175281]

Ms Hewitt *[holding answer 24 May 2004]:* I refer the hon. Member to the reply given by my hon. Friend the Parliamentary Under-Secretary of State for Public Health on 25 May 2004, *Official Report*, column 1605W.

Post Office

Richard Burden: To ask the Secretary of State for Trade and Industry what representations she has received in respect of the manner in which Post Office Ltd. is approaching the Urban Network Reinvention programme in Birmingham. [172025]

Mr. Timms: To date, we have received petitions, including those co-ordinated by the Birmingham Evening Mail, opposing all Post Office Ltd.'s proposals for sub post office closures in Birmingham. We have also received representations on the same basis from Birmingham city council. I discussed this with Councillor Albert Bore, the Leader of the Council, on 19 April 2004.

It was inevitable that Post Office Ltd.'s restructuring of its network in urban areas would be controversial. The restructuring is, however, essential for future network viability. The Government regard it as most important that all communities have good access to postal services. At the end of Post Office Ltd.'s restructuring of the urban post office network, at least 95 per cent. of the urban population nationally will still live within one mile of their nearest post office.

Radioactive Waste

Mr. Watson: To ask the Secretary of State for Trade and Industry pursuant to the answer of 12 March 2004, *Official Report*, column 1781W, on radioactive waste, for what reason the review of Nirex is not yet complete. [164802]

Mr. Morley: I have been asked to reply.

The review of Nirex, as announced by my right hon. Friend the Secretary of State on 16 July 2003, *Official Report*, column 318W, has taken longer than anticipated. Officials are continuing to work on this and Ministers will announce a way forward in due course.

Renewable Energy

Mr. Gregory Campbell: To ask the Secretary of State for Trade and Industry (1) what share of the overall energy supply in mainland Great Britain she expects will be supplied by renewable energy sources by the end of 2005; [175858]

(2) what share of the overall energy supply industry in Northern Ireland she expects will be supplied by renewable energy sources by the end of 2005. [175864]

Mr. Timms: The Department has made no such projections.

Retail Industry

Jim Dowd: To ask the Secretary of State for Trade and Industry (1) if she will ask the Competition Commission to reopen its investigation into competition in the retail industry conducted in 2000; [175759]

(2) what research has been undertaken into the practice of below cost selling in the grocery industry since 2000; [175760]

(3) what plans she has to commission research into the impact of below cost selling in the UK retail industry. [175761]

Mr. Sutcliffe: The Competition Commission investigation in 2000 did not look at the retail industry generally. It was a specific investigation into the supply of groceries from multiple stores. The Commission's report found that the practice of below cost selling, when carried out by companies with market power, did operate against the public interest but that remedies would be disproportionate to the adverse effect. The Commission therefore did not recommend any action in this regard.

It is for the competition authorities to decide if a market investigation into the retail industry is now needed or if further research on below cost selling is required.

CABINET OFFICE

EU Regulation

Malcolm Bruce: To ask the Minister for the Cabinet Office pursuant to the answer to the hon. Member for Eddisbury (Mr. O'Brien) on 30 April 2004, *Official Report*, column 1319W, on gold-plating, if he will list cases of unforeseen or undesired over-implementation identified by the Cabinet Office Regulatory Impact Unit, broken down by *(a)* the EU Directive, *(b)* the Department responsible for implementation and *(c)* the option taken that went beyond the minimum necessary to comply with the European Directive. [176100]

Mr. Alexander: The Cabinet Office guidance referred to in the original question states that

"Instances of gold-plating will need to be brought to the attention of the Cabinet Office Regulatory Impact Unit."

In the context of the guidance, it is clear that what is being referred to is consultation during the course of policy development, rather than notification after the event. The Cabinet Office does not hold records of all the policy discussions which have taken place which have dealt with possible gold-plating.

Malcolm Bruce: To ask the Minister for the Cabinet Office pursuant to the answer to the hon. Member for Eddisbury (Mr. O'Brien) of 30 April 2004, *Official Report*, column 1319W, on gold-plating, if he will list the instances of the implementation of EU legislation where, due to exceptional reasons, it has been deemed necessary to over-implement Directives, broken down by *(a)* the EU Directive and *(b)* the Government Department responsible. [176101]

Mr. Alexander: One instance has been identified by the Cabinet Office since November 2001, when the provision of Tranposition Notes to Parliament became mandatory.

The 2001 Money Laundering Directive required the UK to regulate

"auditors, external accountants and tax advisors ... in the exercise of their professional activities."

The UK implementing regulations (Money Laundering Regulations 2003) introduced by Her Majesty's Treasury, after extensive consultation, covered all those carrying out the activities of accountancy (including unaffiliated professionals) in order not to create loopholes for criminal activity.

Iraq

Mr. Soames: To ask the Minister for the Cabinet Office on what date the International Committee of the Red Cross report on the treatment by Coalition forces of prisoners of war and other persons protected by the Geneva conventions during arrest, internment and interrogation in Iraq was received by the Office. [173900]

Mr. Alexander: Neither I nor officials in the Cabinet Office received this report of the International Committee of the Red Cross before it appeared in the public domain.

HOUSE OF COMMONS COMMISSION

Internet Access

Mr. Ancram: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission when the House authorities expect to install wireless internet access on the Parliamentary Estate. [175561]

Sir Archy Kirkwood: The Information Committee makes recommendations on wireless access. I am sure that the Committee would be happy to receive views from hon.

Members. The Parliamentary Communications Directorate is evaluating the technologies involved and assessing security issues.

Security

Mr. Forth: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission who vouched for the person who, from the front of the security screen, threw a substance into the Chamber on 19 May. [175266]

Sir Archy Kirkwood: The person who threw the substance into the Chamber on 19 May was present at the invitation of The Baroness Golding and I refer the right hon. Member to her personal statement of 19 May 2004, *Official Report, House of Lords*, column 777.

Mr. Forth: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what analysis was carried out to ensure the non-toxicity of the substance thrown into the Chamber on 19 May before it was re-opened. [175326]

Sir Archy Kirkwood: The analysis was made by explosives officers of the Metropolitan police using specialist equipment.

Mr. Paul Marsden: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission if he will make a statement on contingency plans for evacuating hon. Members from the House in the event of an emergency. [175397]

Sir Archy Kirkwood: Contingency plans for the evacuation of the Chamber in an emergency are in place and these will be confirmed after the Whitsun recess.

INTERNATIONAL DEVELOPMENT

Namibia

Mr. Jim Cunningham: To ask the Secretary of State for International Development what financial assistance is being given to Namibia by the European Union in 2004–05. [175617]

Mr. Gareth Thomas: The indicative allocation under the 9th replenishment of the European Development Fund amounts to €91 million to be committed over five years from 2002. Firm figures for planned disbursements in 2004–05 are not available.

The focus of European Union assistance in Namibia is on poverty reduction, including rural development, education and HIV/AIDS. The Country Strategy Paper is published on the European Commission website www.europa.eu.int/comm/development

Administration Cost Savings

Tom Brake: To ask the Secretary of State for International Development what administration cost savings were achieved by his Department in each year since 1997, expressed *(a)* in cash terms and *(b)* as a percentage of the departmental budget; and if he will make a statement. [175748]

Mr. Gareth Thomas: Separate figures are not available for past efficiency improvements. DFID has however sought to promote efficiency, for example through internal Service Level Agreements. From financial years 1996–97 to 2002–03, the proportion of the development budget used for administration remained constant at 2.8 per cent. of the total programme, despite a significant widening of DFID's responsibilities in areas that do not entail significant programme spending.

A new definition of administration costs was introduced during 2003–04 in order to manage operating costs more efficiently and increase transparency. This incorporated substantial charges previously paid from the programme budget. Under Resource Accounting, from 2003–04 the administration budget also incorporates capital charges previously accounted for separately. Between 2002–03 and 2005–06, costs under the new definitions will have fallen from 5.8 per cent. (£197 million) to 5.1 per cent. (£236 million) as a proportion of the programme.

Chad

Tom Brake: To ask the Secretary of State for International Development what assistance his Department is providing to *(a)* the Government of Chad and *(b)* non-governmental organisations operating in Chad in relation to the humanitarian response to atrocities in Darfur; and if he will make a statement. [175874]

Mr. Gareth Thomas: DFID does not provide any assistance to the Government of Chad. DFID is gravely concerned about the situation in Darfur. The United Nations High Commissioner for Refugees (UNHCR) estimates that 120,000 refugees have fled to Chad from Darfur, and the UN estimates that over 1 million people are displaced within Darfur. The UK has committed £2 million to UNHCR for emergency assistance to refugees in Chad. DFID also contributes 19 per cent. of the European Community Humanitarian Office (ECHO)'s commitments to NGOs operating in Chad. (ECHO has committed over £4.5 million).

Comprehensive Spending Review

Tom Brake: To ask the Secretary of State for International Development what correspondence he has had in the last three months with the Chancellor of the Exchequer on *(a)* setting a firm timetable for spending 0.7 per cent. of GNI on development and *(b)* making provision for that level of spending in the 2004 Comprehensive Spending Review; what the outcome of those discussions was; and if he will place the correspondence in the Library. [175872]

Mr. Gareth Thomas: I am regularly in discussion with the Chancellor about a range of matters. In line with the Code of Practice on Access to Government Information (part 2, exemption 2) details of such confidential discussions are not normally disclosed.

Secondments

Tom Brake: To ask the Secretary of State for International Development how many secondees there

are from his Department in *(a)* Iraq, *(b)* Afghanistan, *(c)* India and *(d)* Tanzania; and what their (i) host agency and (ii) activity is in each case. [175746]

Mr. Gareth Thomas: In Iraq four DFID staff have been seconded to the Coalition Provisional Authority (CPA) in Southern Iraq, working in the areas of press and public information, essential infrastructure and the environment. In addition, DFID funds 59 secondee posts in CPA offices across Iraq. These posts are being filled on consultancy terms and cover a wide range of reconstruction related issues.

In Afghanistan DFID has seconded one staff member to the World Bank as a governance and institutional development specialist, and in Tanzania one member of staff is working as Environmental Adviser to the United Nations Development Programme (UNDP).

DFID has no staff secondments in India. In line with most of DFID's programmes, we fund a wide range of consultancies at the request of the Government of India and State Governments. Currently there are 10 consultancies working for the Government of India.

St. Helena

Mr. Nigel Jones: To ask the Secretary of State for International Development what policies he intends to pursue to *(a)* halt and *(b)* reverse the decline in population on St. Helena. [174756]

Mr. Gareth Thomas: The decline in the island's population, and the problems associated with it, featured prominently in the recent discussions in St. Helena between the island government and a joint DFID/FCO mission. DFID is working with the St. Helenian authorities to address the causes and impacts. For example, a fiscal review is planned with the aim of stimulating growth in the island's private sector and encouraging inward investment. Measures have been introduced to offer some public service appointments on enhanced terms to encourage St. Helenians to stay in St. Helena or return there. DFID is also reviewing options for future physical access to and from the island.

Mr. Nigel Jones: To ask the Secretary of State for International Development if he will assess the cost of maintaining St. Helena over the next 10 years. [174760]

Mr. Gareth Thomas: DFID cannot make this assessment, as it would depend on a range of factors including major investment decisions, which we expect to address later this year, on future physical access arrangements. The background to this was reported in my written statement on 19 April 2004 *Official Report*, column 1WS. In addition, our assistance to St. Helena is set normally in three-year cycles which are negotiated with the island government in the light of anticipated needs and resources available. Discussions have taken place recently with the St. Helena authorities about our assistance for the island over the period 2004–05—2006–07 inclusive. I expect to report on those discussions shortly.

Sudan

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what financial assistance is being given to Sudan by the European Union in 2004–05. [175157]

Mr. Gareth Thomas: The estimated disbursements from the European Development Fund for Sudan in 2004 is €14.3 million. Subject to a comprehensive peace agreement being signed in 2004 an indicative allocation of a further €150 million may be available over the period to 2007.

In addition further humanitarian assistance will be made available for Sudan through European Humanitarian Office (ECHO).

DFID also understands that the European Community has committed €1.5 million to support the Peace Talks and the Verification Monitoring Team, which is responsible for investigating and reporting on breaches of the Memorandum of Understanding on the cessation of hostilities in southern Sudan. A further €475,000 has been made available in support of the Darfur peace talks.

Tom Brake: To ask the Secretary of State for International Development what measures his Department *(a)* has taken in the past month and *(b)* plans to take in June in relation to the situation in Darfur, Sudan, broken down by type of action; and what funding has been allocated to each action. [175767]

Hilary Benn: In April 2004, I set aside an additional £10 million to be committed to agencies engaged in humanitarian relief in Darfur[1]. In the last month, DFID has committed funding to the following agencies.

Agency	*Type of activity*	*Total commitment (£)*
OXFAM	Public Health Humanitarian Response Darfur (Water/ Sanitation Programme)	2,193,161
WFP	Emergency purchase and distribution of Food Aid for internally displaced Sudanese in Darfur.	2,000,000
WHO	Emergency primary health care and response to communicable diseases in Darfur; support to measles vaccination programme	1,500,000
UNICEF	Additional support to humanitarian assistance for crisis in Darfur; emergency nutrition; emergency health care and the protection of children	1,500,000
UN Joint Logistics Centre	Support to enable UNJLC to co-ordinate the logistics of an effective humanitarian response in Darfur	250,000

In addition to financial commitments in May, the UK has seconded three humanitarian experts to the UN Joint Logistics Centre in Darfur. DFID has also provided in-kind donations of non-food items (22,500 blankets and 15,000 plastic sheets) for distribution by humanitarian agencies.

In June, DFID plans to continue committing the remainder of the £10 million to humanitarian agencies who are operational in Darfur and will continue to monitor the situation and keep the level of our response under review.

In addition to DFID's provision of humanitarian assistance, I have also taken measures to secure access for humanitarian relief. The Foreign Secretary, the Minister for Africa and I all raised this subject with the Sudanese Foreign Minister during his recent visit to the United Kingdom, and the UK Special Representative and our Ambassador in Khartoum had further discussions with the Government on this issue last week. Later, on 20 May, the Sudanese Foreign Minister announced new measures governing the issue of visas and travel permits to humanitarian workers wishing to travel to Darfur.

Since the ceasefire agreement at N'Djamena on 8 April, the UK has been in close contact with the parties and other members of the international community, including the African Union, to try and help set up the Ceasefire Commission Monitoring Mechanism set out in the 8 April agreement. I spoke to Said Djinnit, the Peace and Security Commissioner of the African Union, on 10 May, about the urgent need to get the team in place. DFID will provide swift and significant funding to enable a rapid deployment and are encouraging other donors to do the same.

[1] DFID commitment since October 2003 now total over £17.5 million

Tom Brake: To ask the Secretary of State for International Development what aid his Department is giving to alleviate the situation in *(a)* Sudan and *(b)* Chad. [175770]

Mr. Gareth Thomas: DFID has committed over £16.9 million to humanitarian agencies providing assistance to people affected by the situation in Darfur, Sudan, of which £3 million has been committed to agencies providing relief to the refugees who have fled into Eastern Chad. DFID has also contributed 19 per cent. of the European Community Humanitarian Office (ECHO)'s commitments to NGOs operating in Darfur and Eastern Chad. (ECHO has committed over £4.5 million).

A breakdown of DFID commitments is given as follows.

Period	*Agency*	*Description*	*Total cost (£)*
October to December 2003	UNHCR	Supplementary Appeal for Emergency Assistance to Sudanese Refugees in Eastern Chad—2003	1,000,000
October 2003 to September 2004	SC-UK	Emergency Response to Conflict Related Internal Displacement in North Darfur	500,000
November to December 2003	ICRC	Contribution to the ICRC 2003 Emergency Appeal for Sudan	1,000,000
November 2003 to March 2004	WFP	Additional Contribution to 2003 UN Appeal, due to Crisis in Darfur, to Provide Emergency Food Assistance to Sudanese Populations Affected by War and Natural Disasters	2,000,000
January to April 2004	MSF-F	Emergency Assistance to IDPs in Darfur—through increasing access to health care in conflict areas, disease prevention, halting nutritional deterioration and treating malnourished children	491,369
January to December 2004	MSF-H	Darfur Components of Emergency Health Interventions in Northern Sudan Project	650,000
February to December 2004	UNICEF	Emergency Assistance to Humanitarian Crisis in Darfur for Health; Water Supply; Water and Environmental Sanitation; Relief and Shelter Items; and the Protection of Children	1,000,000
February to November 2004	GOAL	Emergency Assistance to Population in Kutum Province, North Darfur—through a combined Health, Nutrition and Shelter Intervention	575,963
March to December 2004	ACF	Emergency Nutrition Programme in North Darfur	250,000
March to December 2004	WFP	Emergency Distribution of Food Aid Commodities to Sudanese Refugees in North East Chad	1,000,000
March 2004 to January 2005	UNHCR	Emergency Assistance to Sudanese Refugees in Eastern Chad	1,000,000
April 2004 to December 2004	OXFAM	Public Health Humanitarian Response Darfur (Water/Sanitation Programme)	2,193,161
May 2004 to December 2004	WFP	Emergency purchase and distribution of Food Aid for internally displaced Sudanese in Darfur	2,000,000
May 2004 to November 2004	WHO	Emergency primary health care and response to communicable diseases in Darfur; support to measles vaccination programme	1,500,000
May 2004 to December 2004	UNICEF	Additional support to humanitarian assistance for crisis in Darfur; emergency nutrition; emergency health care and the protection of children	1,500,000
May 2004 to July 2004	UN Joint Logistics Centre	Support to enable UN Joiit Logistics Centre to co-ordinate the logistics of an effective humanitarian response in Sudan	250,000
Total			16,910,493

DFID has allocated £35 million for bilateral assistance to Sudan in 2004–05. This will be spent in the following areas:

Life-saving and life-sustaining humanitarian, recovery and reintegration assistance.

Assistance for parties to implement the peace agreement including military/political arrangements and to build the consensus for peace more widely.

Support for the development of an effective public administration, state security and judicial system throughout Sudan.

Support for development and implementation of policies for poverty reduction.

DFID does not have a bilateral programme in Chad.

Clare Short: To ask the Secretary of State for International Development what action he has taken to secure access to Darfur for humanitarian relief; and if he will make a statement. [175839]

Hilary Benn *[holding answer 25 May 2004]:* Pursuant to the response given to UIN 175839 on Wednesday 26 May.

I remain deeply concerned about the grave situation in Darfur, western Sudan. My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs, the Minister for Africa (Chris Mullin) and I all registered our serious concerns about the humanitarian and human rights situation with the Sudanese Foreign Minister, Dr. Mustafa Osman Ismail, when he visited London on 11 May. The UK Special Representative and our Ambassador in Khartoum had further detailed discussions about Darfur with several Government Ministers and senior officials in Khartoum last week.

I spoke to Mr. Ismail again on 20 May and he told me he had announced new measures governing the issue of visas and travel permits to humanitarian workers wishing to travel to Darfur. These new measures came into effect on 24 May and include the following: all visas for NGOs, donors, the ICRC, the UN and other humanitarian workers going to Darfur will be issued by Sudanese Embassies within 48 hours; visas will now last for three months rather than one; the requirement for permits to travel from Khartoum to Darfur has been cancelled—notification of travel plans is now the sole requirement; unrestricted movement in Darfur is permitted, subject to UN security co-ordinating movements; a special customs officer will be appointed to facilitate the smooth movement of humanitarian freight.

We welcomed this announcement, and have been monitoring its implementation closely. Initial indications are that these new procedures are working.

Humanitarian needs in Darfur remain enormous. Over one million people are internally displaced and a further 120,000 have fled across the border into Chad. Their circumstances are precarious and are likely to worsen with the onset of rains in the region. The UK has committed over £17.5 million to humanitarian agencies working in Darfur and eastern Chad (see table). We are the second largest donor in Darfur after the US. Our commitments include £5 million agreed on 11 May to support WFP, WHO and UNICEF, as well as commitments in the last two weeks of £670,000 to MSF-Belgium for emergency health care in North Darfur and £250,000 for the UN Joint Logistics Centre (UNJLC). We have also seconded seven humanitarian experts, four of whom are supporting OCHA in Khartoum and in Darfur and three of whom are working in UNJLC to improve the co-ordination of relief. In addition we have provided 15,000 plastic sheets and 22,500 blankets for distribution by agencies. We also contribute 19 per cent. of the cost of ECHO'S commitment—of £4.5 million—to NGOs working in Darfur and Chad. Despite our efforts, we are concerned that the recent UN appeal remains significantly under funded, and we are urging other donors to increase their contributions.

The Sudanese Government can be in no doubt about the seriousness with which we view the situation. We have made it very clear that we expect the parties to implement fully the 8 April ceasefire agreement, including by ensuring unimpeded humanitarian access. Both parties must to put an end to all violations of human rights and international humanitarian law. The Sudanese Government must act now to rein in the Janjaweed militias who seem to be responsible for some of the worst atrocities.

In terms of improving the security situation in Darfur, our priority remains rapid deployment of the African Union-led Ceasefire Monitoring Commission (CFC). To this end we are in almost daily contact with the AU through our Embassy in Addis Ababa, and with other members of the international community. The AU mission has now returned from its reconnaissance visit, and they are currently putting together an operational plan and outline budget. These will be discussed today by the Sudanese Government and opposition groups in Addis Ababa. We then plan to make a swift and significant contribution to the CFC and are encouraging other donors to do the same.

The Office of the UN High Commissioner for Human Rights (OHCHR) has now issued its report on Darfur and the Security Council has been briefed on its contents. It identifies disturbing patterns of human rights violations in Darfur, including forced displacement, arbitrary killing of civilians, and rape, perpetrated by the Sudanese Government and its proxy militia, many of which may constitute war crimes and/or crimes against humanity. Further urgent discussions are taking place on what action should now be taken in light of the report's recommendations. We, with our EU partners, have also made clear that all alleged attacks should be thoroughly investigated and the perpetrators brought to justice. We are also in close contact with the OHCHR about Darfur, and are working to ensure that the Independent Expert, mandated by the 23 April Commission on Human Rights decision on Sudan, is appointed as soon as possible.

The House will also want to be aware that on 26 May the Protocols on power-sharing and the three areas of

the Nuba Mountains, Southern Blue Nile and Abyei were signed at the Sudan peace talks in Naivasha, Kenya. The UK has played an important role in supporting the parties at the peace talks and was represented at the signing ceremony by our Special Representative for Sudan, Alan Goulty. The signing is a welcome and significant step towards a comprehensive peace agreement that will bring an end to decades of conflict in the south of Sudan.

I will keep the House updated on developments.

[1] *UK government-funded humanitarian support in response to the crisis in Darfur, Sudan*

Period	*Agency*	*Description*	*Total cost (£)*
October to December 2003	UNHCR	Assistance to Sudanese Refugees in Eastern Chad—2003	1,000,000
October 2003 to September 2004	SC-UK	Related Internal Displacement in North Darfur	500,000
November to December 2003	ICRC	Contribution to the ICRC 2003 Emergency Appeal for Sudan	1,000,000
November 2003 to March 2004	WFP	Additional Contribution to 2003 UN Appeal, due to Crisis in Darfur, to Provide Emergency Food Assistance to Sudanese Populations Affected by War and Natural Disasters	2,000,000
January to April 2004	MSF-F	Emergency Assistance to IDPs in Darfur—through increasing access to health care in conflict areas, disease prevention, halting nutritional deterioration and treating malnourished children	491,369
January to December 2004	MSF-H	Darfur Components of Emergency Health Interventions in Northern Sudan Project	650,000
February to December 2004	UNICEF	Emergency Assistance to Humanitarian Crisis in Darfur for Health; Water Supply; Water and Environmental Sanitation; Relief and Shelter Items; and the Protection of Children	1,000,000
February to November 2004	GOAL	Emergency Assistance to Population in Kutum Province, North Darfur—through a combined Health, Nutrition and Shelter Intervention	575,963
March to December 2004	ACF	Emergency Nutrition Programme in North Darfur	250,000

May 2004 to July 2004	UN Joint Logistics Centre	Support to enable UNJLC to co-ordinate the logistics of an effective humanitarian response in Sudan	250,000
May 2004 to October 2004	MSF-Belgium	Emergency Health Care for IDPs in North Darfur	671,300
Total			17,581,793

[1] In addition we have also seconded four humanitarian officers to OCHA and three to the UN Joint Logistics Centre to work on Darfur.

HOME DEPARTMENT

Active Communities Unit

Tim Loughton: To ask the Secretary of State for the Home Department what the total budget for expenditure by the Active Communities Unit on the voluntary sector *(a)* was for 2003–04 and *(b)* is for 2004–05. [171063]

Fiona Mactaggart: Last year, the work of the Active Community Unit was expanded to incorporate a Charities Unit and a Civil Renewal Unit in a new Active Communities Directorate. Through the Active Communities Directorate, the Home Office aims to build strong, thriving communities where everyone, regardless of age, race or social background has a stake in society.

The overall budgets for expenditure on active communities for financial years 2003–04, and planned for 2004–05, rounded to the nearest million pounds, is as follows:

£ million

	SR settlement	*Futurebuilders fund*
2003–04	81	10
2004–05	84	57

The figures show allocations for the Directorate based on the Department's Spending Review 2002 settlement. In addition, the futurebuilders fund is shown, which is being distributed by an independent provider under contract to the Home Office.

Anti-crime Initiatives

Mrs. Humble: To ask the Secretary of State for the Home Department what public funds were spent on tackling drugs misuse in Blackpool, North and Fleetwood in *(a)* 1997–98 and *(b)* 2003–04. [175882]

Caroline Flint: Breakdown of financial allocation to local constituencies is not available to the Home Office. Funding is allocated to Drug Action Team (DAT) areas, in this case Blackpool DAT.

The period 1997–98 pre-dates National Drug Strategy, during this time the primary care trust (PCT) allocated funding for tackling drug misuse. The 1997–98 figure reported to us by Blackpool PCT is £198,776 which covered Blackpool, Fylde and Wyre (all within the health authority boundaries at the time).

In 2003–04 the total drugs allocation for Blackpool was £1,174,983. In order to ensure consistency figures supplied are based on funding streams associated with the National Drug Strategy and are readily verifiable. These funding streams are specifically targeted at tackling the harm caused to individuals, families and communities by the misuse of drugs. Other mainstream funding is made available at a local level, and this varies both in amount and origin so, as a result it is not possible to provide robust financial information.

	2003–04 (£)
Partnership Capacity	66,872
Treatment Pooled Budget	740,000
Through Care After Care Pump Priming	35,000
Building Safer Communities[1]	207,193
Young people	125,918
Total	1,174,983

[1] Contains non-drug elements.

Mr. Benton: To ask the Secretary of State for the Home Department how much public funding has been spent on CCTV security cameras in Bootle since 1997. [175910]

Ms Blears: Since 1997, the Home Office has provided £132,623 to Bootle for CCTV schemes.

Allocation of that funding locally is a matter for Bootle council and Merseyside police. The information is not held centrally.

Mr. Benton: To ask the Secretary of State for the Home Department what public funds were spent on tackling drugs misuse in Bootle in *(a)* 1997–98 and *(b)* 2003–04. [175912]

Caroline Flint: Breakdown of financial allocation to local constituencies is not available in the form requested as funding is allocated to Drug Action Team (DAT) area (Sefton DAT).

1997–98 Sefton drugs allocation was as follows:

	1997–98 (£)
Local Health Authority Block contracts	728,671
JMU Database	20,000
Pharmacy costs	100,000
Social Work team	100,000
Drug Misuse special allocation from DoH	374,000

In 2003–04 the total drugs allocation for Sefton DAT was £2,142,399. In order to ensure consistency figures supplied are based on funding streams associated with the National Drug Strategy and are readily verifiable. These funding streams are specifically targeted at tackling the harm caused to individuals, families and communities by the misuse of drugs. Other mainstream funding is made available at a local level, this varies both in amount and origin so as a result it is not possible to provide robust financial information.

	2003–04 (£)
Partnership Capacity	71,500
Treatment Pooled Budget	1,336,000
Through Care After Care Pump Priming	35,000
Building Safer Communities[1]	484,700
Young People	215,199
Total	2,142,399

[1] Contains non-drug elements.

Anti-social Behaviour Orders

Mr. Hoyle: To ask the Secretary of State for the Home Department (1) how many anti-social behaviour orders have been used in Lancashire, broken down by district; [175496]

(2) how many anti-social behaviour orders are awaiting decisions in Lancashire, broken down by district; [175497]

(3) how many anti-social behaviour orders have resulted in a custodial sentence in Lancashire, broken down by district. [175510]

Ms Blears: Information is given in Table A on the number of applications for anti-social behaviour orders (ASBOs) in Lancashire, by result, and local authority area, up to 31 December 2003 (latest available).

Data are not collected centrally on the status of orders currently being processed.

ASBOs are civil orders introduced under the Crime and Disorder Act 1998, and do not of themselves result in a custodial sentence. Breach of an ASBO is a criminal offence and a custodial sentence may result following conviction. Information on breaches of ASBOs are compiled from data reported on the Home Office Court Proceedings Database. Available information for ASBOs breached in Lancashire is given in Table B.

Table A: The number of ASBOs, as notified to the Home Office by all courts within Lancashire, by local authority area and result, 1 April 1999 to 31 December 2003

Local authority area	*Total issued*	*Total refused*
Lancashire	72	0
of which:		
from 1 April 1999 to 31 May 2000 by pfa	5	0
from 1 June 2000 to 31 December 2003 by local authority area	67	0
Blackburn with Darwen BC	3	0
Blackpool BC	10	0
Burnley BC	17	0
Chorley BC	5	0
Fylde BC	3	0
Hyndburn BC	4	0
Lancaster CC	2	0
Oswaldtwistle	1	0
Pendle BC	3	0
Preston BC	5	0
Ribble Valley BC	1	0
Rossendale BC	9	0
South Ribble BC	1	0
West Lancashire DC	2	0
Wyre BC	1	0

Note:
Between 1 April 1999 to 31 May 2000 data available by police force area (pfa) only.

Table B: ASBOs breached in Lancashire, by type of sentence imposed and period, from 1 June 2000 to 31 December 2002[1], England and Wales

	Type of sentence imposed for breach of ASBO				
		Immediate custody			
Period (by appearance date)	*Unsuspended imprisonment*	*Detention in a young offender institution*	*Detention and training orders*	*Other*	*Total*
1 June to 31 December 2000	—	—	—	—	—
1 January to 31 December 2001	2	1	—	3	6
1 January to 31 December 2002	2	1	2	2	7
Total	4	2	2	5	13

[1] Breach data are compiled from breaches reported on the Home Office Court Proceedings Database. Data for 2003 will be available in the autumn.

Note:
Individuals breaching their ASBO more than once in the same year are counted only once for that year, based on the principal disposal (severest penalty imposed). Individuals breaching more than once, but in different years, are counted separately for each year.

Chris Ruane: To ask the Secretary of State for the Home Department how many children and young people who have broken anti-social behaviour orders are in *(a)* local authority secure units, *(b)* secure training centres and *(c)* young offender institutions; and if he will make a statement. [175465]

Ms Blears: Information on breaches of anti-social behaviour orders (ASBOs) are compiled from data reported on the Home Office Court Proceedings Database. We are unable to tell the number of offenders currently held for breach of an ASBO in local authority secure units or secure training centres. The number of offenders sentenced to a period of detention in young offender institutions for a breach of an ASBO, for the period 1 June 2000 to 31 December 2002, is shown in the table, together with other sentences imposed. Breach data for 2003 will be available in the autumn.

ASBOs breached by persons aged 10 to 20 years, by type of sentence imposed and period, from 1 June 2000 to 31 December 2002[1]

Period (by appearance date)	*Detention in a Young Offender Institution[2]*	*Detention and Training Orders[3]*	*Other*	*Total*
1 June to 31 December 2000	—	4	5	9
1 January to 31 December 2001	13	24	44	81
1 January to 31 December 2002	25	53	103	181
Total	38	81	152	271

[1] Breach data are compiled from breaches reported on the Home Office Court Proceedings Database. Data for 2003 will be available in the autumn.

[2] Persons aged 18 to 20 years.

[3] Persons aged 10 to 17 years. Offenders may be sent to a local authority secure unit, secure training centre or (over 15 years of age), to a young offender institution.

Note:

Individuals breaching their ASBO more than once in the same year are counted only once for that year, based on the principal disposal (severest penalty imposed). Individuals breaching more than once, but in different years, are counted separately for each year.

Bribery/Corruption

Malcolm Bruce: To ask the Secretary of State for the Home Department what *(a)* legislative and *(b)* administrative arrangements need to be made by the United Kingdom Government in order to meet its obligations under the UN Convention Against Corruption; and when the Government intend to ratify the UN Convention. [174003]

Mr. MacShane: I have been asked to reply.

Legislation is required to comply fully with the convention's requirements in Article 52, on prevention and detection of transfers of the proceeds of crime; Article 53, on the confiscation and repatriation of assets; and Article 55, on the forfeiture of the instrumentalities of crime.

Primary legislation is required to comply with Article 55. Secondary legislation, under part 11 of the Proceeds of Crime Act (POCA) 2002, is needed to comply with Article 53.

Secondary legislation will also be required to comply with Article 52. Measures dealing with the requirements of Article 52 are likely to be included in the EU Third Money Laundering Directive. Our current expectation is that negotiations on the directive will be completed by the first part of next year and we would seek to implement it in the UK through secondary legislation, as soon as we reasonably could thereafter.

The Government are also considering what, if any, administrative arrangements need to be made to enable the UK to meet its obligations under the convention.

The Government will seek to implement legislation and other measures at the earliest possible opportunity. We intend to ratify the convention as soon as we are satisfied that the UK can comply fully with its obligations under it.

Correspondence

Mr. Kaufman: To ask the Secretary of State for the Home Department (1) when he intends to reply to the letter from the right hon. Member for Manchester, Gorton, dated 26 January 2004, with regard to Mosamma Meherun Nessa Begum, transferred to him by the Foreign and Commonwealth Office; [166348]

(2) when he intends to reply to the letter from the right hon. Member for Manchester, Gorton, dated 26 January 2004, with regard to Mosamma Meherun Nessa Begum, transferred to him from the Foreign and Commonwealth Office. [172251]

Mr. Blunkett: I wrote to my right hon. Friend on 6 May 2004.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter from the right hon. Member for Manchester, Gorton, dated 29 March 2004, with regard to Henry Morgan Crowe. [170701]

Mr. Blunkett: I wrote to my right hon. Friend on 11 May 2004.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he intends to reply to the letter from the right hon. Member for Manchester, Gorton, dated 5 April 2004, with regard to Alfred Kaland. [172252]

Mr. Blunkett: I wrote to my right hon. Friend on 11 May 2004.

Mr. Kaufman: To ask the Secretary of State for the Home Department when he will reply to the letter to him from the right hon. Member for Manchester, Gorton dated 14 April with regard to Muhammad Rafique. [175614]

Mr. Blunkett: I wrote to my right hon. Friend on 27 May 2004.

Domestic Violence

Tom Cox: To ask the Secretary of State for the Home Department how many reported cases involving domestic violence there were in England and Wales in the last 12 months for which figures are available. [174490]

Ms Blears: Domestic violence is not separately identified in the recorded crime statistics collected by the Home Office nor in the statistics of court proceedings, because the circumstances of the offences are not collected.

However, the British Crime Survey (BCS) routinely collects data on the prevalence and number of incidents of domestic violence in England and Wales from the main "face-to-face" part of the survey. In the 2002–03 BCS there were an estimated 501,000 incidents of domestic violence in England and Wales as a whole. 35 per cent. of these cases were reported to the police.

E-crime

Michael Fabricant: To ask the Secretary of State for the Home Department how much public funding has been spent on the e-crime strategy since it was introduced. [176611]

Caroline Flint: The e-crime strategy will look to provide a framework for Government, law enforcement and industry action in response to e-crime, seeking to outline current legislation, policy and practice, as well as addressing current questions and advancing and informing the debate on longer-term issues.

However the strategy has not been published as yet. Officials continue to work to bring the strategy together and it will be published soon.

EU Enlargement

Keith Vaz: To ask the Secretary of State for the Home Department how many people from EU accession countries arrived at UK international *(a)* airports and *(b)* bus stations on the first week of May. [173182]

Mr. Browne: Since 1 May, members of the EU accession countries are subject to the same immigration controls as citizens of other EU member states. We are therefore not able to say how many passengers arrived from EU accession countries. Data from the International Passenger Survey (IPS), showing the total number of visits by nationals of all the EU accession countries in May, will be available early in July.

Air Guns

Ms Abbott: To ask the Secretary of State for the Home Department what assessment has been made of the level of enforcement of penalties in cases of air gun misuse. [175541]

Caroline Flint: The information given in the table relates to persons who were proceeded against at magistrates courts in 2002 for offences under the Firearms Acts where an air weapon was involved and relates to the principal offence for which they were prosecuted. It is not possible to identify from the statistics of court proceedings collected centrally other offences where an air weapon is used in the commission of a crime. Comparative statistics on court proceedings for 2003 will not be available until the autumn.

Offence description	*Statute*	*Persons proceeded against*	*Persons found guilty*	*Persons sentenced*	*Absolute/ conditional discharge*	*Fine*
Possession of air weapon with intent to endanger life	Firearms Act, 1968 Sec 16	32	3	3	—	—
Using air weapons or imitation air weapons to resist arrest	Firearms Act, 1968 Sec 17(1)	—	—	—	—	—

Leyhill Prison

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his answer of 25 February 2004, *Official Report*, column 435W, if he will make a statement on the conclusions and recommendations of the investigation report; and if he will place a copy in the Library. [160194]

Paul Goggins: I wrote to the hon. Member for Northavon (Mr. Webb) on 8 March 2004 and placed a copy of the letter in the Library.

Neighbourhood Watch Logo

Mr. Hoyle: To ask the Secretary of State for the Home Department who owns the Neighbourhood Watch logo. [176390]

Ms Blears: The neighbourhood watch logo was designed by the Central Office of Information in 1994 on behalf of the Home Office, and is therefore Crown Copyright.

As a result of complaints from local neighbourhood watches it recently came to light that in early 2003 the National Neighbourhood Watch Association (NNWA) registered the Neighbourhood Watch logo as its own trademark. This was done without consulting the Home Office, the Police or neighbourhood watch generally.

We are taking steps to resolve the situation with NNWA and to restore ownership and control of the Neighbourhood Watch trademarks to the Home Office.

Number Plate Recognition Technology

Chris Ruane: To ask the Secretary of State for the Home Department (1) if he will list the 10 prosecutions that have resulted from automatic number plate recognition technology that have led to the highest value of drug seizures; [175244]

(2) how many and what types of prosecution have resulted from cars being stopped by automatic number plate recognition cameras in North Wales since their introduction; [175245]

(3) how many prosecutions have led to prison sentences as a result of the use of automatic number plate recognition technology; [175246]

(4) how many cars were stopped by automatic number plate recognition technology in each police authority area since their introduction. [175247]

Ms Blears: Data listing the 10 prosecutions that resulted from vehicles being stopped by Automatic Name Plate Recognition (ANPR) dedicated police intercept teams that led to the highest value of drug seizures are not held centrally. However, between 1 June 2003 and 16 May 2004, the latest date for which figures are available, the following number of arrests carried out by the 23 police forces involved in ANPR Project Laser Two for drug-related offences, were as follows:

	ANPR drug-related arrests
Number of arrests	1,082
Number of occasions	686
Value of drugs recovered (£)	432,124.00

The table gives a breakdown of the number and type of arrest made as a result of vehicles being stopped by the North Wales police ANPR intercept teams between 1 June 2003 and 16 May 2004:

Arrest breakdown

	Number
Robbery	2
Theft/burglary	75
Driving	249
Drugs	182
S25	112
Auto Crime	51
Warrant	53
Other	57

Details of how many prosecutions led to prison sentences as a result of ANPR are not held centrally.

Data on the number of vehicles stopped by ANPR in each police authority area since its introduction are not held centrally. The number of vehicles stopped in each of the 23 ANPR Project Laser Two police forces between 1 June 2003 and 16 May 2004, the latest date for which figures are available, were as follows:

	Number
Avon and Somerset	5,692
Cambridgeshire	7,818
City of London	4,871
Cleveland	2,317
Greater Manchester police	14,612
Hampshire	5,767
Hertfordshire	4,911
Kent	9,896
Lancashire	10,596
Leicestershire	9,233
Lincolnshire	10,303
Merseyside	6,431
Metropolitan	17,435
Northamptonshire	6,688
Northumbria	3,731
North Wales	10,227
North Yorkshire	4,214
Nottinghamshire	2,532
Staffordshire	5,078
Warwickshire	4,503
West Midlands	7,247
West Yorkshire	8,322

Police Patrols (Bicycles)

Mr. Amess: To ask the Secretary of State for the Home Department pursuant to the answer of 19 May to the hon. Member for Southend, West, reference 172570, which police forces use bicycles while patrolling; and if he will make a statement. [175898]

Ms Blears: Information on the number of police forces who use bicycles while patrolling is not collected centrally. The deployment of officers patrolling on bicycles is an operational matter for the Chief Constable and will vary among each force.

Police Training

Mr. Paice: To ask the Secretary of State for the Home Department what effect the planned reduction of posts at Centrex will have on the provision of Stage 2 probationer training. [168442]

Ms Blears: Delivery of Stage 2 probationer training remains a priority. The reduction in training staff is a consequence of reduced demand for places from police forces: the ratio of trainer to probationer students remains the same. The planned reduction in police support staff numbers will be achieved by a thorough review of administrative processes with a view to making efficiency savings.

All changes have been made in consultation with key stakeholders, who are content that the approach taken will not impact negatively on the quality of Stage 2 probationer training.

SOLICITOR-GENERAL

Crown Prosecution Service

22. **Julie Morgan**: To ask the Solicitor-General what plans she has for the Crown Prosecution Service to improve public awareness of its work. [176012]

The Solicitor-General: Public awareness of the work of the Crown Prosecution Service is being improved by prosecutors talking about their work, for example in local schools and at local community meetings

DEPUTY PRIME MINISTER

Council Tax

Jim Knight: To ask the Deputy Prime Minister pursuant to his answer of 20 May 2004, *Official Report*, columns 1140–41W, on council tax, what public consultation will take place on council tax revaluation, with particular reference to consultation between the Government and mobile home users. [176369]

Mr. Raynsford: The Office of the Deputy Prime Minister has not yet finalised the detailed arrangements for public consultation on the 2007 council tax revaluation.

Mr. Webb: To ask the Deputy Prime Minister what plans he has to introduce council tax for *(a)* static holiday caravans and *(b)* touring caravans. [175944]

Mr. Raynsford: Council tax liability arises only in respect of domestic property and is based upon the identification of a "chargeable dwelling". Caravans are not in themselves subject to council tax, but liability may arise in respect of the land on which the caravan stands. If a caravan remains on private land for a period of at least six months, the listing officer may include an entry in the valuation list for council tax purposes. If the caravan is being used for holiday letting for more than 140 days a year, then it will be subject to non-domestic rates rather than council tax. The Government have no plans to amend legislation on this matter.

Housing Pathfinder Scheme

Mr. Austin Mitchell: To ask the Deputy Prime Minister how much *(a)* in total and *(b)* per council property is to be made available to Hull under his Pathfinder scheme (i) this year and (ii) in each of the next three years; when the money will start to be paid; and whether there has been a delay in payment. [175106]

Keith Hill: Allocation of Housing Market Renewal funding to the Hull and East Riding Market Renewal pathfinder is subject to the pathfinder demonstrating that it has satisfactory arrangements in place to develop a strategic market renewal scheme and to the approval of that scheme once submitted. Following an overhaul by the pathfinder of its governance arrangements and the preparation of a revised work programme, the pathfinder has been informed that the Office of the Deputy Prime Minister is prepared to enter into a grant agreement that will provide funds to facilitate scheme development.

The Pathfinder's target date for submission of its strategic scheme is the end of September 2004. Allocation of Housing Market Renewal funding for the scheme, along with the amount and timing of any allocation and the programme of work supported, will be dependent on submission of the scheme and it's subsequent assessment by the Office of the Deputy Prime Minister and independent scrutiny by the Audit Commission.

Local Government Finance

Mr. Rendel: To ask the Deputy Prime Minister (1) if he will list for *(a)* 2003–04 and *(b)* 2004–05 the local authorities for which a funding (i) ceiling and (ii) floor has been imposed; [176366]

(2) if he will list for each local authority for which a ceiling has been imposed *(a)* the grant calculated by the funding formula and *(b)* the grant actually received in real terms figures for (i) 2003–04 and (ii) 2004–05; and what the difference was in each case, expressed as a percentage of the local authority's council tax intake. [176367]

Mr. Raynsford: Two tables have been made available in the Library of the House showing the floor and ceiling classification of all authorities for 2003–04 and 2004–05 respectively, together with their formula grant before floors and ceilings, their formula grant after floors and ceilings, the difference, their council tax yield and the difference expressed as a percentage of the council tax yield.

It should be noted that ceilings do not fully meet the cost of the floor; therefore a scaling factor was applied to that portion of the grant increase above the level of the floor for all non-floor/non-ceiling authorities.

In 2004–05, there were no effective ceilings for both the shire district and police authority groups; the floors were funded entirely via the scaling factor.

Regional Assemblies

Mr. Jenkin: To ask the Deputy Prime Minister pursuant to his oral answer of 19 May 2004, *Official Report*, columns 968–69, on regional assemblies, what the evidential basis was for the figure given for the cost of answering the hon. Member for North Essex's written questions relating to the Government's information campaign on elected regional assemblies; and what the *(a)* total projected cost and *(b)* the cost to date of that campaign is. [175779]

Mr. Raynsford: Since January 2004 to date, the hon. Member for North Essex (Mr. Jenkin) has asked 60 questions on issues related to elected regional assemblies, including the information campaign. The average cost of answering a parliamentary question, as calculated by Her Majesty's Treasury, is £135. This gives a total of £8,100.

For the total projected cost of the information campaign and its breakdown, I refer the hon. Member to my answer of 19 April 2004, *Official Report*, column 366W. To date, the Government have spent just under £700,000.

Retained Firefighters

Mr. Oaten: To ask the Deputy Prime Minister how many retained firefighters have been in service during each of the last four years. [176261]

Phil Hope: The information requested is as follows.

Retained firefighters in post, England and Wales, 2000–03[1]

	Number
2000	14,698
2001	14,832
2002	14,719
2003	14,776

[1] Data refer to retained workforce as at 31 March of each year

Mr. Oaten: To ask the Deputy Prime Minister what plans he has to help in the recruitment of more retained firefighters. [176262]

Mr. Raynsford: The Office of the Deputy Prime Minister has set up a review team to examine the issues which contribute to the challenges facing the fire and rescue service in the recruitment and retention of retained firefighters. The review team, a partnership between the Office of the Deputy Prime Minister and key service stakeholders, will submit its full report, with recommendations, to the Practitioners' Forum in July 2004.

The Office of the Deputy Prime Minister has also sponsored the production of a public information video, highlighting the role of retained firefighters. This video was distributed to fire and rescue services this month for use as part of their community information programmes and as a recruitment tool.

Additionally, we have produced a new range of recruitment literature which will be launched in the summer for fire and rescue services to use in their retained recruitment campaigns.

Mr. Oaten: To ask the Deputy Prime Minister if he will extend the key worker definition to include *(a)* firefighters and *(b)* retained firefighters for the purposes of the affordable housing initiative. [176263]

Keith Hill: In the Fire Service, the Key Worker Living (KWL) programme is assisting whole-time junior officers and retained firefighters (all grades) to tackle recruitment and retention difficulties linked to housing issues experienced by these groups in London, the South East and Eastern Regions. Based on current evidence, the Office of the Deputy Prime Minister has no plans to extend the assistance to whole-time firefighters.

Rights of Way

Dr. Murrison: To ask the Deputy Prime Minister what assessment he has made of the navigability of rights of way; and what measures he plans to improve it. [175263]

Alun Michael: I have been asked to reply.

The Countryside Agency rights of way condition survey in England in 2000, found between 87 and 89 per cent. of routes "usable" by walkers, cyclists and horse riders. In addition, the statutory "best value" performance management framework requires local highway authorities to measure the ease of use of their rights of way, by carrying out annual surveys and reporting against their rights of way performance indicator.

The Countryside and Rights of Way Act 2000 requires local highway authorities to prepare rights of way improvement plans. These plans encourage highway authorities to take a strategic look at their rights of way network, with a view to accommodating modern patterns of demand and use and providing better for the needs of users. The Government have provided additional funding to enable the preparation of these plans.

TRANSPORT

Transport (Serious Emergency)

Mr. Clifton-Brown: To ask the Secretary of State for Transport how well developed Government plans are to deal with a serious emergency in the London Underground. [174681]

Mr. McNulty: Through the London Resilience partnership, the Government are working closely with London Underground, Transport for London, British Transport Police and the other emergency services to ensure that London's front-line responders are as well prepared as possible to deal with a serious emergency on the underground. This work is building on tried and tested emergency response procedures and practice developed by London Underground and the emergency services through thirty years of coping directly with terrorist alerts and other emergencies on the underground network. Over the past two and a half years, a number of steps have been taken—and continue to be taken—to strengthen further this emergency response capacity. These include the provision of new equipment to the emergency services, ongoing verbal and written briefings to London Underground staff and a continuing programme of training and exercises.

Mr. Clifton-Brown: To ask the Secretary of State for Transport what assessment has been made of whether London Underground lines could be evacuated successfully in the event of a serious disruption to the electricity supply of the London Underground. [174685]

Mr. McNulty: This is an operational matter for London Underground, but during last August's power failure all passengers were safely evacuated following well-established procedures. Although not needed last August, LU has back up generators that provide sufficient power for essential equipment, including tunnel and additional station lights that enable the safe evacuation of trains trapped between stations.

London Underground has well established procedures for investigating any incident and how it was handled. LU published a report in December on the August power failure and has revised its procedures for evacuating trains, as well as improving familiarity with how to restore services following a power failure and has acted to reduce the risk of a similar incident.

British Transport Police

Sarah Teather: To ask the Secretary of State for Transport how many British Transport Police officers there were in each London borough in each year since 1997. [172816]

Mr. McNulty: The British Transport Police (BTP) does not deploy its officers by borough due to the nature of policing the rail network in London. In London and the south east the numbers of police officers were:

	Police	*Specials*	*Total*
1997	1,148	0	1,148
1998	1,125	0	1,125
1999	1,123	1	1,124
2000	1,100	25	1,125
2001	1,125	31	1,156
2002	1,181	50	1,231
2003	1,250	79	1,329
2004	1,315	123	1,438

Bus Services (Cambridgeshire)

Mr. Djanogly: To ask the Secretary of State for Transport whether it is his policy that part of the capital cost of the proposed guided bus scheme should be paid by way of loan money raised by Cambridgeshire county council. [176260]

Mr. McNulty: Yes. The proposed Cambridge to Huntingdon Rapid Transit Guided Busway has been provisionally accepted for funding through Cambridgeshire county council's local transport plan settlement. As is usual with such major schemes (i.e. those costing more than £5 million) the funding will comprise 50 per cent. grant and 50 per cent. supported borrowing.

Car Sharing

Mr. Paul Marsden: To ask the Secretary of State for Transport if he will estimate the total reduction in vehicle kilometres that would result from a *(a)* 10 per cent., *(b)* 20 per cent. and *(c)* 50 per cent. increase in average vehicle occupancy. [172336]

Mr. McNulty: It is estimated that the decrease in vehicle kilometres for cars, taxis and vans as a result of an increase in vehicle occupancy would be as follows:

	Percentage increase in vehicle occupancy		
	10	*20*	*50*
Resultant percentage change in vehicle kilometres	-9	-17	-33
Vehicle kilometres by cars, taxis and vans (billion)			
Current (2002)	447	447	447
Following decrease in occupancy	407	373	298
Change	-41	-75	-149

This assumes that the occupancy increase is a result of increased trip sharing and therefore fewer trips, and not, for example, from a shift of passengers from other modes of transport. It is also assumed that an increase in occupancy does not result in an increase in trip length (i.e. passenger kilometre figures stay fixed).

Child Cyclist Accidents

Mr. Paul Marsden: To ask the Secretary of State for Transport how many children were *(a)* injured and *(b)* killed while riding their bicycles in 2003 in *(a)* Shrewsbury and Atcham and *(b)* England. [175633]

Dr. Howells: The latest year for which information is available is 2002. The numbers of children (0–15) killed or injured in road accidents while riding their pedal cycles in 2002 in *(a)* Shrewsbury and Atcham and *(b)* England, are shown in the following table.

The first release of figures for 2003 will be on 24 June 2004.

	Shrewsbury and Atcham	*England*
Killed	0	21
Injured	19	4,198

Container Ports

Mrs. Dunwoody: To ask the Secretary of State for Transport what factors he takes into account when considering applications for future container port development. [175578]

Mr. Darling: I consider the full range of factors that emerge from the inspector's reports on the public inquiry into each application.

Crossrail

Ann Keen: To ask the Secretary of State for Transport what assessment he has made of the impact of the proposed ventilation duct due to be built at Stamford Brook Common as part of the Crossrail development on *(a)* residents and *(b)* local air quality in Brentford and Isleworth. [176096]

Mr. McNulty: Cross London Rail Links Ltd. (CLRL) is continuing to develop its Crossrail proposals. Assessments of environmental impact form an important part of CLRL's work, and should the section of route affecting Brentford and Isleworth be confirmed, the interests of people living and working there will form part of that assessment.

Ann Keen: To ask the Secretary of State for Transport what recent representations he has received on the Crossrail development. [176097]

Mr. McNulty: The Secretary of State has received representations on Crossrail from a number of stakeholders, including in particular the representatives of London's business interests, who have expressed their continuing support for the proposals. He has also received representations from residents along the route proposed by Cross London Rail Links Ltd.

Departmental Annual Report

Mr. Damian Green: To ask the Secretary of State for Transport (1) how many of the new vehicles that came into service on the railways as described on page 10 of

The Department of Transport Annual Report 2004 have since been withdrawn for periods of more than three weeks; [174170]

(2) how many vehicles that have entered service on the railways have subsequently been withdrawn for periods of three weeks or more in each year since 1997. [174171]

Mr. McNulty: The information is not available in the form requested. There have been cases where faults on individual trains have led to their removal from service for varying periods. Trains may also be taken out of service for periods of three weeks or more to allow for planned heavy maintenance. Among the new trains introduced since 1997, however, there is no case in which an entire fleet, or a significant part of one, has entered passenger service but is currently out of use.

Driving Licences

Charles Hendry: To ask the Secretary of State for Transport how many driving licence applications were returned in 2003 for being incorrectly completed; and what proportion of the total number of applications this represents. [175794]

Mr. McNulty: During the financial year 2003–04, 9.8 per cent. of applications for driving licences were incorrectly completed and returned to customers. 6.6 million driving licences were issued in the same period.

Equal Pay

Mr. Denham: To ask the Secretary of State for Transport what assessment he has made of the pay gap between men and women employed by his Department and its agencies in *(a)* Southampton, *(b)* Eastleigh, *(c)* Winchester and *(d)* Romsey. [171621]

Mr. McNulty: The Central Department for Transport and its Agencies with staff in Southampton and the surrounding area individually carried out equal pay reviews in 2003, which included the pay gap between men and women. Although some pay gaps were identified, these can be explained and are justifiable. Action plans are in place to reduce the gaps even further.

Import/Export Costs

Mrs. Dunwoody: To ask the Secretary of State for Transport what assessment he has made of the annual cost of transhipment of *(a)* consumer goods and raw materials imported into the UK and *(b)* manufactured goods exported from the UK. [175598]

Mr. Darling: None. Data collected in accordance with the EC Maritime Statistics Directive does not enable us to calculate the volumes transhipped via foreign or other UK ports, nor any extra costs to shippers that might arise.

Light Rail (Blackpool)

Mr. Gordon Marsden: To ask the Secretary of State for Transport what assessment he has made of the need for social inclusion benefits in the criteria for assessment of the Blackpool Light Rail bid in the light of the National Audit Office Report, Improving Public Transport in England through light rail. [175509]

Mr. McNulty: Social inclusion benefits are already taken into account in the Department's value for money assessments.

Liquefied Petroleum Gas

Mrs. May: To ask the Secretary of State for Transport how many vehicles his Department estimates will be using liquefied petroleum gas fuel by 2008; and what estimate he has made of the contribution these vehicles will make to a reduction in road transport emissions. [172569]

Mr. Darling: The Government directly support the use of more environmentally friendly fuels through reduced fuel duty rates. These fuels include liquefied petroleum gas (LPG), compressed or liquefied natural gas, biodiesel and low and zero sulphur petrol and diesel.

Further, the Government encourage the use of cleaner vehicles through reduced vehicle excise duty rates based on vehicle emissions (which are zero for electric vehicles) and reduced levels of company car tax for low emission vehicles. Purchase grants are available under the PowerShift programme for hybrid, electric, LPG and natural gas vehicles. In addition, hydrogen vehicles are supported under the New Vehicle Technology Fund and the fitting of emission abatement equipment is incentivised through the CleanUp programme.

According to the LPG Association, there are currently some 107,000 LPG vehicles licensed in the UK—an increase from around 39,000 LPG vehicles in 2000. We expect this number to continue to rise, but we have no firm estimates for vehicle numbers in 2008.

Good quality LPG vehicles can offer a number of environmental advantages, particularly where they are used in place of diesel vehicles in urban areas. The precise nature of these benefits will depend on where the vehicles are used and what type of vehicles they are replacing and as such we have no firm estimates for emissions reductions resulting from the use of LPG vehicles in 2008.

M6

Mr. Evans: To ask the Secretary of State for Transport how many *(a)* cars, *(b)* vans and *(c)* lorries on average use the M6 toll road each day. [175959]

Mr. McNulty: Since the opening of the M6 Toll in December 2003 a monitoring programme has been carried out. An initial report, compiled from surveys carried out on behalf of the Highways Agency, is being prepared and is due to be published in the near future. More comprehensive reports are scheduled for one year and five years after opening.

However, the M6 Toll concessionaire, Midland Expressway Ltd., has published figures showing that the average 24-hour weekday (Monday to Friday) two way traffic flow recorded in April 2004 was 47,247 vehicles per day (vpd). Weekend flows are lower at 39,575 vpd.

Currently, there is no breakdown between cars, vans and lorries available but indications are that traffic flows comprise mainly cars and light vehicles with HGVs continuing to use the original M6 route.

Mr. Evans: To ask the Secretary of State for Transport what the total cost of constructing the M6 toll road was. [175960]

Mr. McNulty: The M6 Toll has been privately financed by Midland Expressway Ltd. (MEL) under a 53 year concession agreement awarded by the Government in 1992. The construction costs awarded by MEL to its contractor at tender stage were £485.5 million. The overall costs are a matter for MEL but I understand that the development cost incurred is in the region of £900 million. This includes cost of land, interest on loans, consultancy, management, and legal fees.

Management Consultants (Railways)

John McDonnell: To ask the Secretary of State for Transport (1) how much has been paid by his Department and its predecessors to management consultants in respect of the national railways in each year since 1997; [171214]

(2) which management consultants have worked for his Department and its predecessors in each year since 1997; and what payments were made to each management consultancy for work in connection with the national rail network in each year. [171215]

Mr. McNulty: The information is shown in the following table.

£ million

Consultant	2001-02	2002-03	2003-04	Total
Mercer Management Consulting	3.928	0.777	0.539	5.244
KPMG LLP	—	—	1.500	1.500
Jacobs Consultancy UK Ltd.	—	—	0.090	0.090
Total	3.928	0.777	2.129	6.834

John McDonnell: To ask the Secretary of State for Transport (1) how much the Strategic Rail Authority (SRA) has paid to management consultants in respect of the national railways in each year since the SRA was created; [171216]

(2) which management consultants have worked for the Strategic Rail Authority (SRA), and what payments have been made to each for work in connection with the national rail network, in each year since the creation of the SRA. [171217]

Mr. McNulty: The SRA was created in January 2001. The information requested is shown, for each year since the SRA's creation, in the following table:

£

Consultant	2001	2002	2003	2004	Total
Frank Robertson Associates	12,727.40	5,623.40	—	—	18,350.80
Hays Management Consultants	—	—	—	159,495.01	159,495.01
KPMG Consulting	—	143,364.80	—	—	143,364.80
Mantix	83,600.00	69,200.00	—	—	152,800.00
Organisation Consulting Partnership	—	—	55,426.76	—	55,426.76
PJR Ltd.	—	29,250.00	—	5,551.88	34,801.88
Parsons Group International Ltd.	24,920.00	—	—	—	24,920.00
Patricia Sloane Associates	—	4,800.00	—	—	4,800.00
Towers Perrin	—	3,899.00	18,020.00	70,865.44	92,784.44
Total	121,247.40	256,137.20	73,446.76	235,912.33	686,743.69

John McDonnell: To ask the Secretary of State for Transport (1) how much Network Rail has paid to management consultants for work in connection with the national railways in each year since its creation; [171218]

(2) what payments have been made for work in connection with the national rail network by Network Rail to each management consultancy which has carried out such work, broken down by year. [171219]

Mr. McNulty: These are operational matters for Network Rail. Details of consultancies let by Network Rail are commercially confidential.

Ministerial Meetings

Lawrie Quinn: To ask the Secretary of State for Transport what meetings he has had with Mr. Alan Osborne over the last 12 months. [174812]

Mr. McNulty: The Secretary of State met with Alan Osbourne on 13 May 2003 when he was an employee of the HSE.

Lawrie Quinn: To ask the Secretary of State for Transport whether he has met Mr. Alan Osborne to discuss the rail review. [174811]

Mr. McNulty: The Secretary of State has not met with Alan Osbourne to discuss the rail review.

Lawrie Quinn: To ask the Secretary of State for Transport whether he has met the Health and Safety Commission to discuss the rail review. [174814]

Mr. McNulty: The Secretary of State has regular discussions with the HSE to discuss a range of issues and will be meeting with them again shortly.

Official Vehicles

John Barrett: To ask the Secretary of State for Transport what percentage of official vehicles used by his Department are run on *(a)* petrol, *(b)* diesel, *(c)* liquid petroleum gas and *(d)* compressed natural gas. [172777]

Mr. McNulty: The Government as a whole have signed up to various targets for improving the performance of its own vehicle fleet, details of which, together with reports on each Department's progress towards these targets, are available at www.sustainable-development.gov.uk.

The Department for Transport Headquarters has very few departmental vehicles. The Government Car Service (GCS) provides our ministerial cars. For detailed information on the breakdown of the GCS vehicle fleet, I refer the hon. Member to the answer given by my hon. Friend the Minister for the Cabinet Office on 25 May 2004, *Official Report*, column 1538W.

Over 1,000 vehicles are currently used by the Department for Transport's various agencies, including a number of specialist vehicles. Precise information is not readily available on the fuels used by all these vehicles, but in 2003 approximately 11 per cent. of the vehicles for which this information was available were LPG vehicles.

Piracy Conference

Patrick Mercer: To ask the Secretary of State for Transport (1) who from his Department will attend the International Maritime Bureau's piracy conference in June; [174607]

(2) what *(a)* meetings he has had and *(b)* correspondence he has exchanged with his counterparts in (i) Malaysia and (ii) elsewhere on tackling piracy in Southern Asia. [174610]

Mr. McNulty: The Department works with other countries in Southern Asia through the IMO on a routine basis to tackle piracy. In the past the Department has raised the topic in bilateral meetings with officials and Ministers from overseas countries (for example Indonesia). The Department's Transport Security Directorate, TRANSEC has in the past participated in and, jointly with the FCO, provided UK financial support for several IMO regional missions and seminars, presenting UK Government actions and chairing working groups and syndicates. These seminars have played an important role in raising awareness of the incidence and impact of piracy and armed robbery at sea. No request for a ministerial meeting has been received, nor has any ministerial correspondence been received.

The Deputy Director of this Department's Transport Security Directorate, will be attending the International Maritime Bureau's piracy conference in Kuala Lumpur, Malaysia on June 29–30. This will be a good opportunity for the UK to discuss piracy with the host country of Malaysia as well as other key states in the fight against piracy such as Indonesia and Singapore.

Railways

Dr. Stoate: To ask the Secretary of State for Transport what funding and subsidy arrangements are available from *(a)* central Government and *(b)* other national and European-based agencies to companies who wish to transport goods *(a)* into the United Kingdom and *(b)* across the United Kingdom by rail. [175429]

Mr. McNulty: The Strategic Rail Authority (SRA) announced a £22 million Company Neutral Revenue Support grant from April to help the movement of domestic intermodal and deep-sea container traffic by rail instead of road where this is justified by environmental benefits.

The SRA also operates the Freight Facilities Grant and the Track Access Grant schemes to support the cost of moving goods by rail instead of road within the UK where this is justified by environmental benefits. The Freight Facilities Grant is currently suspended.

In 2003 the EU agreed a five-year funding programme called "Marco Polo" to encourage intermodal freight transport. Aid may be offered to schemes that involve at least two member states, subject to conditions. The total budget for the five-year period is 75 million euros.

Albert Owen: To ask the Secretary of State for Transport what recent discussions he has had with Network Rail on improving line speeds on the track between Holyhead and Chester. [174070]

Mr. McNulty: None. The SRA is actively considering the issues on the North Wales coast and investigating cost effective line speed increases which may be achievable through modest signal and track works. It must first address deliverability and planning issues. In doing so, it is consulting stakeholders, including the Welsh Assembly, about its proposals as part of the on-going work on the West Coast Strategy. Any commitment to future improvements that may demonstrate value for money will only be given if the project is affordable, and subject to other funding priorities.

Mrs. May: To ask the Secretary of State for Transport what criteria were used by the Strategic Rail Authority in determining its policy of giving priority to long-distance services over local services when letting new railway franchises. [174077]

Mr. Darling: The Strategic Rail Authority does not have a policy of giving priority to long-distance services over local services when letting new railway franchises.

Regional Assemblies Bill

Mrs. Dunwoody: To ask the Secretary of State for Transport whether it is planned that the draft Regional Assemblies Bill should specify the circumstances in which decisions relating to transport and transport infrastructures will be taken at *(a)* regional and *(b)* national level. [175123]

Mr. Darling: The draft Regional Assemblies Bill will specify the proposed statutory provisions required to bring into effect the transport powers of elected regional assemblies set out in the White Paper, "Your Region, Your Choice: Revitalising the English Regions" (CmSSll).

Elected regional assemblies will be responsible for advising Government on funding allocations for local transport, taking over functions currently exercised by regional government offices. They will also be responsible for a regional transport strategy, which is currently prepared by regional planning bodies and issued by the Secretary pf State for planning as part of regional planning guidance.

The powers of the elected regional assemblies in relation to rail will be subject to the outcome of the rail review, which I announced in my statement to the House on 19 January 2004.

Rescue Operations (Morecambe Bay)

Mr. Frank Field: To ask the Secretary of State for Transport how many rescue operations have taken place of people caught in the rising tides in Morecambe Bay since 5 February. [176335]

Mr. McNulty: Since 5 February 2004, Her Majesty's Coastguard has responded to seven incidents where people were caught out by rising tides in Morecambe Bay.

Road Safety

Mr. Dhanda: To ask the Secretary of State for Transport if he will make a statement on the effectiveness of the Safer City Project in reducing *(a)* road accidents and *(b)* road casualties in Gloucester. [176215]

Mr. McNulty: "Gloucester Safer City" was a demonstration project sponsored by the Department for Transport and ran from 1996 to 2001. It was the subject of full monitoring and conditions in Gloucester were compared with five control towns.

Compared with the control towns, the project showed that there was

16.7 per cent. saving in all injury accidents

36.9 per cent. saving in Killed or Seriously Injured accidents

16 per cent. reduction in drivers exceeding speed limits

65 per cent. residents said road safety had improved in the past five years

Full details are given in the Research Report on "Gloucester Safer City" which can be found in the Road Safety section of the Department for Transport website.

Sea Ports/Airports

Mrs. Dunwoody: To ask the Secretary of State for Transport what his policy is towards port developments. [175087]

Mr. Darling: Our policy towards port development is as set out in Modern Ports, our policy paper issued in 2000. We will support sustainable port projects for which there is a clear need, with each looked at in detail on its merits.

Mrs. Dunwoody: To ask the Secretary of State for Transport how his Department is promoting the UK ports industry. [175088]

Mr. Darling: We take appropriate steps necessary to ensure that the ports industry continues to meet the needs of the wider UK economy.

Mrs. Dunwoody: To ask the Secretary of State for Transport under what authority the provision of port facilities elsewhere in Europe may be taken into account when considering whether new or expanded port facilities should be authorised in the UK. [175090]

Mr. Darling: The Habitats Directives provide that, where an Appropriate Assessment concludes that a proposed port development may adversely affect the integrity of a European Site, there is a requirement to consider alternative solutions. In these circumstances European Commission guidance states that alternative solutions may extend to alternatives in other EU regions or countries. However, it is clear that the extent to which options outside the UK are indeed alternatives will depend, amongst other things, on how effectively they can still serve the market in the UK.

Mrs. Dunwoody: To ask the Secretary of State for Transport when he last discussed the impact of the EU Habitats Directive on the ports industry with *(a)* the Department for Environment, Food and Rural Affairs and *(b)* his European counterparts. [175091]

Mr. Darling: Officials have regular discussions with DEFRA on a wide range of environmental port issues, including the impact of the Habitats Directive. We have worked with DEFRA in securing clarification from the Commission on application of the Habitats Directive in port approaches, and we have assisted the Commission's work with my European counterparts to ensure consistency across all Member States.

Speed Cameras

Mr. Chope: To ask the Secretary of State for Transport pursuant to his oral answer of 3 February 2004, *Official Report*, column 616, if he will list the sites where there are cameras in the Christchurch constituency to which he referred; and on what evidential basis he states that there had been an 18 per cent. reduction in people being killed or seriously injured at those sites. [157765]

Mr. McNulty: The Department does not hold statistical information broken down by parliamentary constituency areas, but at the level of partnerships. The hon. Member may wish to contact the Dorset Safety Camera Partnership for this information. A county-wide survey of Dorset found that at fixed camera sites there had been an 18 per cent. reduction in people being killed or seriously injured.

Transport (Borrowings Liability)

Mr. Grieve: To ask the Secretary of State for Transport what liability the Government have in respect of the borrowings of *(a)* Network Rail and *(b)* Transport for London. [175515]

Mr. McNulty: The information is as follows.

(a) The Government, through the Strategic Rail Authority, have provided support up to a maximum of £21 billion principal for Network Rail's borrowing. These arrangements are shown as contingent liabilities in the Department's accounts.

(b) Transport for London is an independent body and the Government have no liability in respect of its borrowings. However the Government do have outstanding contingent liabilities in respect of the London Underground PPP undertaken by London Underground and the Docklands Light Railway Lewisham extension PFI.

Vehicle Activated Signs

Mr. Damian Green: To ask the Secretary of State for Transport what revenues raised from speed cameras can be used for the erection of Vehicle Activated Signs under the terms governing speed camera partnerships. [171898]

Mr. McNulty: Approved traffic signs are allowable costs within the safety camera netting off programme. This includes the funding of Vehicle Activated Signs on a case-by-case basis. This matter is covered by the "Handbook of Rules and Guidelines for the Operation of the National Road Safety Camera Programme for England and Wales", 31 October 2003, copies of which have been placed in the Libraries of the House.

CONSTITUTIONAL AFFAIRS

Anti-social Behaviour Orders

John Mann: To ask the Parliamentary Secretary, Department for Constitutional Affairs what training provision is provided for clerks to magistrates courts in the use and application of anti-social behaviour orders. [176013]

Mr. Leslie: The responsibility for the training of court clerks currently rests locally with the 42 independent Magistrates Courts Committees (MCCs). The Judicial Studies Board (JSB) has issued guidance on the application and use of anti-social behaviour orders (ASBOs) to all magistrates and this is available to court clerks.

The JSB has also issued MCCs with two Criminal Justice Reform updates in March and April 2004 for circulation to both court clerks and magistrates.

In addition, the Justice's Clerks Society has recently finalised a guidance document on ASBOs after consultation with the Home Office, which has been sent to all their members.

Community Legal Service

Nick Harvey: To ask the Parliamentary Secretary, Department for Constitutional Affairs what consultations he has undertaken on *(a)* placing duties on local government to participate in Community Legal Service (CLS) Partnerships and *(b)* including CLS coverage in local authority strategic plans. [174957]

Mr Lammy: Recommendations from the Independent Review of the Community Legal Service (CLS), published on 28 April 2004, suggest changes to CLS Partnerships. CLS Partnerships have enjoyed considerable support from Local Authorities since they were set up in 2000. My Department is currently seeking views on the Review's recommendations, as part of a process of consultation. We will be considering the best way in which to build on the success of the CLS in the light of the Review's recommendations and the comments we receive. Any suggestions for a change in the interaction between Local Authorities and CLS Partnerships will be considered as part of this process.

Nick Harvey: To ask the Parliamentary Secretary, Department for Constitutional Affairs what proposals he has to tackle, through the Community Legal Service, the unmet need and unresolved legal problems amongst low income, vulnerable and socially excluded groups. [174958]

Mr. Lammy: The Community Legal Service (CLS) has already demonstrated that the law assists in tackling social exclusion, particularly in conjunction with other Government programmes (e.g. Jobcentre Plus and the Connexions service). Further details of the achievements of the CLS in this area can be found in my evidence, and that of the Legal Services Commission, to the recent enquiry of the Constitutional Affairs Committee on Access to Legal Aid. My Department is currently seeking views on the recommendations of the Independent Review of the CLS, published on 28 April 2004, as part of a process of consultation. We will be considering the best way in which to build on the success of the CLS in the light of the Review's recommendations and the comments we receive.

Computer File Formats

Mr. Allan: To ask the Parliamentary Secretary, Department for Constitutional Affairs what his Department's policy is in respect of the computer file formats used for the *(a)* distribution and *(b)* archiving of publicly available documents. [173356]

Mr. Leslie: The Department's documents that are generally available to the public electronically are provided through the Department's website (www.dca.gov.uk/publications.htm) These are usually available in Hypertext Markup Language (HTML) and Portable Document format (PDF) formats. Previously published documents are archived in the same formats at: www.dca.gov.uk/pubs/archive.htm

Departmental Logo

Mr. Evans: To ask the Parliamentary Secretary, Department for Constitutional Affairs how much has been spent in *(a)* creating and *(b)* providing name plates for the outside of Government buildings bearing his Department's new logo. [172388]

Mr. Leslie: My Department has incurred costs of *(a)* £655.00 for consultancy and design fees for creating the new nameplates and *(b)* £3,313.92 in providing external name plates for the outside of Government buildings bearing its new logo. The £3,313.92 consists of £2,256.28 for the front sign at Selborne House and £1,057.64 for a sign to the rear of the same building.

Attachment of Earnings Orders

Mr. Willetts: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list the *(a)* upward and *(b)* downward payroll adjustments an employer may have to make as a result of the policies of his Department. [175179]

Mr. Leslie: The Attachment of Earnings Act 1971 allows a court to make Attachment of Earnings Orders for unpaid maintenance, fines and civil judgment debts. Employers may therefore have to make downward payroll adjustments to reflect these court orders which require the deduction of a set sum from the employee's salary.

Departmental Staff

Matthew Taylor: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many staff were employed in the Department to work in the communications field, and what the total expenditure on communications for the Department was, broken down by *(a)* Government Information and Communication Service

staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others, in (A) 1994–95, (B) 1996–97, (C) 1997–98 and (D) 2001–02. [168685]

Mr. Lammy: The Department for Constitutional Affairs (DCA) was created in June 2003, and therefore was not in existence during the periods for which details are required.

Minority Languages

Mr. MacDonald: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the meeting of the British-Irish Council held in November 2003 identified areas for enhanced inter-governmental cooperation in respect of indigenous, minority and lesser-used languages. [174185]

Mr. Leslie: The meeting of the British-Irish Council in November 2003 focused on indigenous, minority and lesser-used languages. It was agreed that members of the BIC should:

jointly consider outcomes of research into intergenerational language transmission;

carry out an assessment of structures supporting indigenous language learning in adult education in each of the BIC administrations;

work together to identify priorities for their respective indigenous languages in relation to information and communication technology development;

consider together the potential benefits of co-operating on the development of language use surveys; and

share information on their experiences of the relationship between planning policy and linguistic considerations.

Mental Incapacity Bill

Dr. Iddon: To ask the Parliamentary Secretary, Department for Constitutional Affairs what protection there is in the draft Mental Incapacity Bill for a person who lacks mental capacity because they have been heavily sedated. [174216]

Mr. Lammy: The draft Mental Incapacity Bill will offer protection to any individual who lacks the capacity to make his or her own decisions. The Bill only permits actions taken or decisions made on behalf of someone who lacks capacity if they are made in their best interests. This process requires the person making the decision to consider whether it is likely that the person lacking capacity will at some time in the future have the capacity in relation to the matter and question, and therefore whether the decision may be postponed.

The use of sedation will only be permitted if the person reasonably believes its use is necessary to prevent harm to the person lacking capacity, and proportionate to the likelihood and seriousness of that harm.

The Government will also be responding shortly to the 40 recommendations of the Health Select Committee following their inquiry into elder abuse. These include recommended safeguards on the use of medication in care homes.

Official Vehicles

John Barrett: To ask the Parliamentary Secretary, Department for Constitutional Affairs what percentage of official vehicles used by the Department are run on *(a)* petrol, *(b)* diesel, *(c)* liquid petroleum gas and *(d)* compressed natural gas. [172772]

Mr. Lammy: The Government as a whole have signed up to various targets for improving the performance of their own vehicle fleet, details of which, together with reports on each Department's progress towards these targets are available at www.sustainable-development.gov.uk

The Government Car Service provides my Departments" ministerial vehicles. Detailed information on the breakdown of GCS vehicle fleet is being provided separately.

The percentage of official vehicles used by my Department that run on the above fuel types are as follows:

2003–04

	Number	*Percentage*
Cars		
Petrol	22	4.09
Diesel	499	92.75
LPG[1]	17	3.16
Natural gas	0	0
Total	538	100
Vans (<3.5t)		
Petrol	0	0
Diesel	1	100
LPG/natural gas[1]	0	0
Total	1	100
Heavy vehicles (<3.5t)		
Petrol	0	0
Diesel	0	0
LPG/natural gas[1]	0	0
Total	0	100

[1] LPG—Dual Fuel (unleaded petrol and liquid petroleum gas) vehicles.

Parliamentary Questions

John Thurso: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) how many *(a)* ordinary written and *(b)* named day questions his Department received in (i) 2002–03 and (ii) this parliamentary session up to the most recent date for which figures are available, broken down by month; [170760]

(2) what proportion of *(a)* ordinary written questions to his Department were answered within five sitting days of tabling and *(b)* questions for a named day received a substantive answer on that day in (i) 2002–03 and (ii) the current parliamentary session up to the most recent date for which figures are available, broken down by month. [170761]

Mr. Lammy: For the 2002–03 parliamentary session, my Department had 696 Commons ordinary written questions of which 383 were answered within five sittings days and 98 named day questions of which 65 were answered on the specified date.

For the current parliamentary session (2003–04) my Department has had 436 Commons ordinary written questions, of which 301 were answered within five sitting days and 70 named day questions of which 34 were answered on the specified date.

Figures are not available for my Department's parliamentary questions broken down by month as our records are not held in this manner.

My Department endeavours to answer all parliamentary questions within the parliamentary deadlines whenever possible. In addition, I refer the hon. Member to the reply given by my right hon. Friend the Leader of the House to the hon. Member for Lewes (Norman Baker) on 3 March 2004, *Official Report*, column 907W.

Nationality, Immigration and Asylum Act

Mr. Gerrard: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many statutory reviews under section 101 of the Nationality, Immigration and Asylum Act 2002 have resulted in the High Court issuing a certificate of no merit under section 101(3)*(d)* in each month since April 2003. [175823]

Mr. Lammy: The Administrative Court Office does not keep a record of the number of cases in which a certificate of no merit is issued. To ascertain this information each court file would have to be individually inspected to check the decision of the judge. These figures could not be obtained without incurring disproportionate costs.

However, I am able to offer information from the Legal Services Commission (LSC). They have received 5 certificates of no merit for statutory review from the Administrative Court under section 101(3)*(d)* since April 2003.

Mr. Gerrard: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many applications to the Legal Services Commission for certificates of public funding for statutory review under section 101 of the Nationality, Immigration and Asylum Act 2002 have been *(a)* granted and *(b)* refused each month since April 2003. [175824]

Mr. Lammy: The Legal Services Commission did not receive any applications for statutory review until July 2003, but the number granted between July 2003 and March 2004 are set out in the following table:

2003	*Month certificates granted*
July	1
August	2
September	23
October	37
November	33
December	30
January	49
February	24
March	64

The Legal Services Commission is unable to provide figures for the number of applications refused because its systems do not record refusal data broken down by category of case.

Mr. Gerrard: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many statutory reviews under section 101 of the Nationality, Immigration and Asylum Act 2002 have been heard by the High Court in each month since April 2003; and how many of these were determined in favour of the applicant. [175825]

Mr. Lammy: The Administrative Court received the first applications for statutory review in May 2003. Statutory reviews under section 101 of the Nationality, Immigration and Asylum Act 2002 are considered on paper only; there are no hearings. The figures from May 2003 until April 2004 of statutory review applications received and granted are as follows:

Month/year	*Applications received*	*Applications granted*
May 2003	2	1
June 2003	3	0
July 2003	2	0
August 2003	9	0
September 2003	65	10
October 2003	84	26
November 2003	95	14
December 2003	117	15
January 2004	118	8
February 2004	130	40
March 2004	203	25
April 2004	116	36
Total	944	175

WORK AND PENSIONS

Jobseeker's Allowance (Liverpool, Walton)

Mr. Kilfoyle: To ask the Secretary of State for Work and Pensions how many people in Liverpool, Walton were receiving jobseeker's allowance in each year from its inception to 2003. [166967]

Mr. Pond: The information is in the table.

Jobseeker's allowance (JSA) claimants in Liverpool, Walton

	Number
1997	5,661
1998	4,863
1999	4,513
2000	4,092
2001	3,730
2002	3,502
2003	3,317
2004	2,983

Notes:
1. Figures given are the claimant count in March for each year.
2. Figures are not seasonally adjusted and do not include clerical cases.
3. Jobseeker's allowance was introduced in October 1996.

Source:
100 per cent. count, Jobcentre Plus computer systems.

Benefit Claims

John Barrett: To ask the Secretary of State for Work and Pensions how many people were claiming key benefits in *(a)* the Edinburgh, West constituency and *(b)* the City of Edinburgh local authority area in each year since 1995. [166671]

Mr. Pond: The information is in the following tables.

Number of claimants of key benefits in Edinburgh West parliamentary constituency by client group

Thousand

As at November	Working Age	Over State Pension Age
1995	6.3	NA
1996	6.0	NA
1997	5.5	NA
1998	5.1	NA
1999	5.3	15.4
2000	4.9	15.7
2001	4.9	15.8
2002	4.6	16.0
2003	5.0	15.8

Number of claimants of key benefits in City of Edinburgh local authority by client group

Thousand

As at November	Working Age	Over State Pension age
1995	47.7	NA
1996	45.9	NA
1997	41.9	NA
1998	41.4	NA
1999	40.4	76.9
2000	38.9	76.2
2001	37.5	76.3
2002	37.2	75.8
2003	37.9	75.7

Notes:
1. Figures are taken from a five per cent sample and are therefore subject to a degree of sampling variation.
2. Figures are in thousands and rounded to the nearest hundred.
3. Working Age Key Benefits are Jobseeker's Allowance, Income Support, Incapacity Benefit, Severe Disablement Benefit and Disability Living Allowance.
4. Pension Age Key Benefits are State Pension, Incapacity Benefit, Attendance Allowance, Disability Living Allowance, Minimum Income Guarantee (MIG) /Pension Credit and Severe Disablement Allowance.
5. Pension Credit replaced MIG from 6 October 2003.
6. Parliamentary constituencies and local authorities have been allocated using the relevant ONS postcode directory.
7. Parliamentary constituency and local authority breakdowns were not available prior to Nov 1999 for claimants over State Pension age.

Benefits

Lynne Jones: To ask the Secretary of State for Work and Pensions pursuant to the answer of 1 April, *Official Report*, column 1633W, on pension payment, what the arrangements will be for cashing the cheques. [175950]

Mr. Pond: Direct Payment is an essential part of our drive against financial and social exclusion, giving our customers access to a wide range of financial services, which some cannot access at present.

The cheque method of payment is only intended for those customers who genuinely cannot use Direct Payment. Customers who will require a cheque payment are likely to have had experience of, and be familiar with, cashing order books and giros at the post office. The cheque solution replicates this process. Cheques can be cashed at post office branches or paid into an account, and they will provide the facility for a third party to cash the cheque on a customer's behalf.

Mr. Cousins: To ask the Secretary of State for Work and Pensions if he will estimate how many and what percentage of those *(a)* of working age and *(b)* not of working age who receive (i) attendance allowance, (ii) each (A) level and (B) component of disability living allowance and (iii) incapacity benefit, broken down by region. [176227]

Maria Eagle: Information on the numbers of benefit recipients as requested has been placed the Library.

Mr. Cousins: To ask the Secretary of State for Work and Pensions if he will estimate how many people in Newcastle upon Tyne, Central constituency receive *(a)* attendance allowance, *(b)* each (i) level and (ii) component of disability living allowance and *(c)* incapacity benefit. [176228]

Maria Eagle: The information required is set out in the tables.

[1] Less than £0.5 million.
Notes:
Figures are consistent with the historical outturn expenditure figures published in the DWP's benefit expenditure which can be found on the Department for Work and Pensions website at: http://www.dwp.gov.uk/asd/asd4/expenditure. asp.
Figures are for IB and SDA recipients only and do not include "credits only" cases or income-related benefits.
Figures do not include costs of administration.
From 6 April 2001, there are no new claims for SDA; from that date people disabled early in life can qualify for IB.
Expenditure has been apportioned using data on conditions of IB and SDA recipients from the IB Quarterly Statistical Enquiry which is based on a 5 per cent. sample and therefore subject to a degree of sampling variation.
Figures are in 2004–05 prices, calculated using the latest GDP deflator.
Figures are rounded to the nearest million pounds.
Totals may not sum due to rounding.
Figures for 2003–04 are estimated outturn.
Source:
DWP—Information and Analysis Directorate, Great Britain estimated expenditure on incapacity benefit (IB) and severe disablement allowance (SDA) by year and selected conditions.

Chris Ruane: To ask the Secretary of State for Work and Pensions how many people who are entitled to *(a)* income support, *(b)* attendance allowance, *(c)* disability living allowance, *(d)* pension credit, *(e)* council tax benefit and *(f)* housing benefit are not claiming it in the Vale of Clwyd. [175026]

Mr. Pond: The information is not available.

National figures of the estimated number of people who are entitled to, but not receiving, income support, council tax benefit and housing benefit can be obtained from the DWP report, "Income Related Benefits Estimates of Take-Up". The latest statistics relate to financial year 2001–02; a copy of the publication is held in the Library.

Mr. Forth: To ask the Secretary of State for Work and Pensions how many people aged from 16 years to 64 years received *(a)* jobseeker's allowance, *(b)* incapacity benefit and *(c)* severe disablement allowance in (i) 1997 and (ii) the latest year for which figures are available; what the costs of each was in each year; and if he will make a statement. [174484]

Mr. Pond: The information is in the table.

	1997–98		*2003–04*	
	Expenditure (£ million)	*Caseload (thousands)*	*Expenditure (£ million)*	*Caseload (thousands)*
Jobseekers allowance (contribution based)	475	201	531	183
Jobseekers allowance (income based)	3,418	1,190	2,027	658
Incapacity benefit	6,640	1,600	6,637	1,497
Severe disablement allowance	909	346	810	286

Notes:
1. Expenditure is shown in cash terms.
2. Expenditure for 2003–04 is estimated outturn.
3. Caseload is for August for both the financial years shown in the table. Figures do not include those receiving national insurance credits only. Some jobseeker's allowance recipients can receive both types of benefit, and these are included in caseload figures for both contribution-based and income-based benefit.
4. Expenditure is rounded to the nearest million. Caseload is rounded to the nearest thousand.

Tim Loughton: To ask the Secretary of State for Work and Pensions what access to benefits British nationals entering this country who are destitute are entitled. [165495]

Mr. Pond: British nationals arriving in the UK from abroad may make an immediate claim for income support, pension credit, housing benefit, council tax benefit and jobseeker's allowance (income-based). In addition to satisfying the normal conditions of entitlement, anyone who claims these benefits within two years of coming to the UK must also demonstrate that they are habitually resident in this country.

Under the National Assistance Act 1948, local authorities may provide accommodation to British passport holders who do not pass the habitual residence test if they are destitute and have a need for care and attention which is not otherwise available. Such accommodation can be provided only as board and lodging and if the local authority considers it appropriate to do so in all the circumstances. Authorities are not obliged under the Act to provide other services or cash payments.

Child Support Agency

Mr. Caton: To ask the Secretary of State for Work and Pensions what prioritisation criteria will be used in the process of transferring existing Child Support Agency cases to the new assessment system. [175560]

Mr. Pond: I refer the hon. Member to the written answer I gave my hon. Friend the Member for Dartford (Dr. Stoate) on 27 January 2004, *Official Report*, column 341W.

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his oral statement of 11 February to the Work and Pensions Select Committee, on the Child Support Agency reforms, if he will list the milestones against which the success of the recovery programme will be judged. [170452]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Steve Webb, dated 27 May 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, pursuant to his Oral Statement of 11th February, to the Work and Pensions Select Committee, on the Child Support Agency reforms, 11th February, if he will list the milestones against which the success of the recovery programme will be judged.

In accordance with our agreed plans EDS made enhancements to their computer service for Child Support Reform on 26 January and 22 March. They made enhancements to their telephony service on 9 and 10 January and 29 March. We have agreed plans in place covering a further upgrade to their service on 7 June 2004. We are aware that EDS currently have plans for further upgrades in August and October. This is in line with their stated intention to complete their remedial work by October 2004. We are still discussing the final content and delivery timetable for their remaining plans and until those are agreed I am unable to provide any further milestones.

Dr. Iddon: To ask the Secretary of State for Work and Pensions for what reason a non-resident father's Child Support Agency payment stops when a child is born to that father in a new relationship. [174588]

Mr. Pond: When a new child is born the non-resident parent's liability will be recalculated to take account of their change in responsibilities.

Under the old scheme, if a non-resident parent had previously been assessed to pay the minimum amount of maintenance (currently £5.60 a week) the birth of a new child would mean that they were exempt from this minimum payment.

Under the new scheme, a flat rate of maintenance (usually £5.00 a week) is payable even if there is a child present in the non-resident parent's household.

Mr. Kidney: To ask the Secretary of State for Work and Pensions what assessment he has made of the effectiveness of the Child Support Agency's powers *(a)* to obtain sufficient information to make an assessment of child support and *(b)* to enforce payment of assessed child support; and what plans he has to alter and extend these powers. [174599]

Mr. Pond: The Child Support Agency has a wide range of powers both to obtain the necessary information and to enforce payments of child maintenance where necessary. I have no plans to change these.

Mr. Kidney: To ask the Secretary of State for Work and Pensions in what circumstances separated parents may *(a)* seek a court order for the assessment of child support and *(b)* register with the Child Support Agency a voluntary agreement for child support as alternatives to seeking an assessment of child support by the Child Support Agency. [174601]

Mr. Pond: Parents who do not already have a court order cannot usually make arrangements for child support through the court unless the court is converting a written maintenance agreement to a consent order.

Parents with care in receipt of Income Support or income-based Jobseeker's Allowance are required by law to co-operate with the Child Support Agency. Any existing form of court order or agreement will be superseded by a maintenance calculation which must be honoured.

The Child Support Agency can only calculate child maintenance in accordance with the legislation. It cannot register a voluntary agreement for child support.

Mr. Kidney: To ask the Secretary of State for Work and Pensions for what reasons of data protection the Child Support Agency may withhold from a client information about a change of circumstances of the person liable to pay child support when such change affects the amount of child support payable. [174604]

Mr. Pond: Regulation 9A of the Information, Evidence and Disclosure Regulations (1992) covers the information which may be disclosed to a third party. This provides that only information which is essential to the understanding of how the maintenance is calculated will be made available to either party.

Mr. Kidney: To ask the Secretary of State for Work and Pensions what recent assessment he has made of the effectiveness of the Child Support Agency's new computer system provided by EDS. [174605]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. David Kidney, dated 27 May 2004:

In reply to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what recent assessment he has made of the effectiveness of the Child Support Agency's new computer system provided by EDS.

The Agency meets with EDS on a regular basis to assess both the effectiveness of their current computer service and their plans for remedying known defects. The service is progressively improving as defects are fixed. Ministers last reported to the House on the operational impacts of this on 21 April 2004.

Mr. Kidney: To ask the Secretary of State for Work and Pensions in what circumstances the income of the household of a person liable to pay child support rather than solely the liable person's income can be taken into account for the purpose of assessing child support. [174625]

Mr. Pond: The income of the partner of a non-resident parent is only taken into account when assessing child support in the old scheme. It is used to calculate the "protected level of income" within the formula. Without this information the Child Support Agency cannot make a final assessment. The non-resident parent might then be asked, in the interim, to pay a higher amount than his or her circumstances would otherwise demand.

Under the new scheme, the maintenance calculation is based only on the income of the non-resident parent, which could however include tax credit paid to another member of their household.

Mr. Kidney: To ask the Secretary of State for Work and Pensions when he intends that child support cases under the old Child Support Agency system will be migrated to the new system. [174633]

Mr. Pond: I refer my hon. Friend to the written answer I gave the hon. Member for Castle Point (Bob Spink) on 18 December 2003, *Official Report*, column 1092W.

Child Tax Credit

Mr. Willetts: To ask the Secretary of State for Work and Pensions (1) if he will make a statement on the proposed timetable for transferring the child elements of jobseeker's allowance and income support to child tax credit payments; [166482]

(2) if he will place in the Library a copy of the agreement reached between the Department and the Inland Revenue ensuring that families do not lose the child element of jobseeker's allowance and income support until child tax payments are guaranteed. [166542]

Mr. Pond: The transfer of income support and jobseeker's allowance cases on to child tax credit began on 6 April 2004 as planned. Families on income support and jobseeker's allowance who were already receiving child tax credit have started to receive support for their children solely through child tax credit. New claimants of income support and jobseeker's allowance are no longer awarded child allowances in those benefits, but receive child tax credit instead.

The automatic phased transfer on to child tax credit of the remaining families with children within income support and jobseeker's allowance is planned to begin from October 2004. Meanwhile, families will continue to receive the same level of support through their benefits as they would from child tax credit.

We have always recognised that it is important to ensure a successful and smooth migration for claimants of income support and income-based jobseeker's allowance on to child tax credit. We have therefore taken steps to ensure that those families will not lose the child element of jobseeker's allowance and income support until we have confirmation that child tax credit has been awarded. The technical design of the income support and jobseeker's allowance computer systems ensure this. The child and family elements will automatically continue to be paid until a confirmation that child tax credit has been awarded is received from Inland Revenue.

In April 2002, The Treasury published "The Child and Working Tax Credits" (HMT 2002), which made it clear that continuity of payment is of particular importance to us.

Compensation Recovery Unit

Mr. Dismore: To ask the Secretary of State for Work and Pensions how many cases *(a)* were registered with the Compensation Recovery Unit and *(b)* resulted in repayment of benefits to the CRU in each of the last 10 years; what the total repaid to the CRU was; and if he will make a statement. [R] [173563]

Mr. Pond *[holding answer 17 May 2004]:* The available information is in the table.

£

	2001–02	*2002–03*	*2003–04*
Total number of claims registered	688,315	706,715	770,243
Total number of benefit recovery cases	35,907	40,258	39,995
Total benefit recovered	139,130,000	166,590,000	171,110,000

Note:
It is not possible to provide the requested information prior to the year 2001–02 as records are only kept for the most recent three years.

Payroll Adjustments

Mr. Willetts: To ask the Secretary of State for Work and Pensions if he will list the *(a)* upward and

(b) downward payroll adjustments an employer may have to make as a result of the policies of his Department. [175180]

Jane Kennedy: There are limited circumstances under which an employer may need to make payroll adjustments as a result of our policies.

Statutory Maternity Pay and Statutory Sick Pay are both paid by employers and may require payroll adjustments. Employers may also need to implement a Deduction from Earnings Order if the Child Support Agency deems this necessary to ensure a non-resident parent fulfils their responsibilities as a parent.

It is also sometimes necessary, where voluntary agreements have failed, for employers to administer an Attachment of Earnings Order in relation to the enforcement of debt recovery through the civil courts.

Departmental Staffing

Mr. Lyons: To ask the Secretary of State for Work and Pensions (1) how many of his Department's employees are working in Strathkelvin and Bearsden; [176469]

(2) how many of his Department's employees are working in Scotland. [176470]

Maria Eagle: As at 31 March 2004, a total of 15,487 Department for Work and Pensions employees were based in Scotland. This figure includes 536 temporary staff. The information is not collected for parliamentary constituencies.

Disabled Workers

Mr. Benton: To ask the Secretary of State for Work and Pensions if he will make a statement on the measures introduced to improve the working conditions of disabled workers in Bootle over the last seven years. [176238]

Maria Eagle: We have a number of measures in place nationally to help improve conditions for disabled people at work, as well as measures to improve their access to services generally. None of these are specific to Bootle, but all are available to disabled people who live and work there.

From 1996, the employment provisions of the Disability Discrimination Act required most employers of 20 or more staff not to discriminate against, and to make reasonable adjustments for, disabled job applicants or employees; in December 1998, we reduced this threshold to 15 employees. From October this year, the small employer exemption will be removed and most currently excluded occupations, such as police officers, firefighters, and partners in business partnerships will be brought within the scope of the Disability Discrimination Act employment provisions.

Jobcentre Plus runs a number of specialist programmes providing help for disabled people, including New Deal for Disabled People, Workstep, Access to Work, the Job Introduction Scheme, and Work Preparation. All these programmes provide practical advice and support to disabled people and their employers to help overcome work related obstacles resulting from disability. Since 1997–98 there have been year on year increases in both numbers helped and programme spend.

To help people access appropriate help, Jobcentre Plus has established a network of Disability Service Teams. The teams are made up of Disability Employment Advisers, Access to Work Advisers and Occupational Psychologists; their services are accessed through local Jobcentres. Since April 2003, disabled people in work have been receiving financial support through the Working Tax Credit. This is available if a person is working an average of at least 16 hours per week (self-employed or for an employer); and have a disability which puts them at a disadvantage in getting a job. 70,000 families (including over 32,000 adults without children) are benefiting from the disability element within the Working Tax Credit, compared with 38,000 who benefited from the old Disabled Person's Tax Credit.

Disability Living Allowance

Mr. Gregory Campbell: To ask the Secretary of State for Work and Pensions how many and what percentage of people in Great Britain are in receipt of disability living allowance. [175865]

Maria Eagle: The response to the question is set out in the following table.

DLA Recipients by Government Office Region against population as at 30 November 2003.

	All (Thousand)	*Percentage of the population*
All	2,558.2	4.4
North East	156.5	6.2
North West	405.7	6.0
Yorkshire and Number	249.7	5.0
East Midlands	184.2	4.4
West Midlands	245.6	4.6
East	180.1	3.3
London	249.3	3.4
South East	222.5	2.8
South West	173.1	3.5
Wales	207.9	7.1
Scotland	283.6	5.6

Notes:

1. Figures taken from a five per cent sample at 30 November 2003.
2. Figures are in thousands and rounded to the nearest hundred.
3. From November 2002, the methodology for producing these figures was changed to allow statistics to be published much sooner. This has resulted in a small increase in the reported caseload. This is because some cases which have actually terminated but have not yet been updated on the computer system are now included.
4. Population figures are from the Office for National Statistics and the General Registrar of Scotland at mid 2002.

Source:

IAD Information Centre.

Early Retirement

Bob Spink: To ask the Secretary of State for Work and Pensions how many employees in his Department took early retirement, and at what total cost, in the last financial year. [172183]

Maria Eagle: 53 staff took early retirement from the Department for Work and Pensions in the financial year 2003–04, at a total cost in that year of £1,154,073.

In addition to costs in the year of early retirement there are subsequent costs until the individual staff reach age 60. Costs in subsequent years for these early retirements are as follows:

£

	Costs
2004–05	470,215
2005–06	345,592
2006–07	286,207
2007–08	221,997
2008–09	69,477
2009–10	50,682
2010–11	47,166
2011–12	15,766
2012–13	2,359

For the same period there were 15o cases of actuarially reduced retirement. Actuarially reduced retirement enables staff aged 50 and over to retire early and receive an immediate payment of an actuarially reduced pension at no extra cost to the Exchequer.

Filestore (Nelson)

Mr. Gordon Prentice: To ask the Secretary of State for Work and Pensions what plans he has for the filestore in Nelson, Lancashire; and if he will make a statement. [163202]

Mr. Pond: Records storage for the Department for Work and Pensions is moving to Capita from 1 July 2004, with migration of services taking place over the following two to three years.

Negotiations regarding the effect of this on individual stores, including that of Nelson, Lancashire, are continuing.

It is not anticipated that the majority of the 44 existing departmental in-house filestores, will continue in operation, however one or two of the larger stores may remain operational although functions may change over time.

Health and Safety Inspectors

Mr. Dismore: To ask the Secretary of State for Work and Pensions how many health and safety inspectors there are, broken down by *(a)* ethnicity and *(b)* languages other than English spoken by inspectors; what methods of communications are available to inspectors when dealing with workers who are not fluent in English; and if he will make a statement. [175423]

Jane Kennedy: The following tables show the number of full time equivalent inspectors broken down by their ethnicity (Table 1) and the languages other than English spoken (Table 2) as at 21 May 2004.

Table 1: Break down of inspectors by ethnicity

Ethnic origin	Number
African	4.65
Any Chinese background not specified	2
Any other ethnic background not specified	8
Any other mixed ethnic background	1
Asian and White	3
Black Caribbean and White	0.55
Caribbean	7
East African Asian	1
Egyptian	1
Indian	19.61
Other Asian background not specified	4
Pakistani	8
Tehran/Iran	1
Other[1]	1,507.8
Total	1,568.61

[1] The information on individual ethnic origins has been provided from the HSE's personnel system and is based on the recently completed survey. However, it should be noted that if the individual declined to respond on the form then the system would automatically default to other.

Table 2: Break down of the languages spoken by inspectors

Language[1]	Number
Arabic	2.0
Bengali	2.0
Cantonese	2.0
Chinese	2.0
Chinese Mandarin	1.0
Czech	1.0
Danish	3.0
Dutch	2.8
Farsi	1.0
Flemish	1.0
French	329.0
Gaelic	3.0
German	89.0
Greek	2.5
Gujarati	2.6
Hindi	7.0
Igbo	0.7
Italian	18.9
Japanese	1.0
Nepali	1.0
Norwegian	3.0
Polish	1.0
Portuguese	2.8
Punjabi	15.0
Pushtu	1.0
Russia	6.0
Sign	1.0
Spanish	40.2
Swahili	1.0
Swedish	2.0
Tamil	2.0
Urdu	8.0
Welsh	20.7
Yoruba	1.0
Total[2]	577.3

[1] Languages other than English.
[2] Some inspectors speak more than one language other than English.

HSE provides two main means of communication for inspectors who are not fluent in the language spoken by workers with whom they are dealing. These are interpreters for verbal communications and translators for provision of written communications.

There is a legal duty on all employers to provide comprehensible and relevant information on the risks to the health and safety of their employees and the measures they have in place to protect them against those risks. This means that those employing workers who are not fluent in English may need to make special arrangements in order to comply with this duty. To help them comply, HSE and its inspectors seeks to provide support to such employers through a range of services including the provision of leaflets containing key health and safety messages translated into a variety of languages and access to a translation service.

Housing Benefit

Mr. Austin Mitchell: To ask the Secretary of State for Work and Pensions what the cumulative additional cost to his Department has been of housing benefit paid where council housing is transferred from councils to registered social landlords in each year from 1999 to 2000. [176267]

Mr. Pond: I refer my hon. Friend to the written answer I gave him on 20 May 2004, *Official Report*, column 1169W.

Income Support

Chris Ruane: To ask the Secretary of State for Work and Pensions how many people were receiving income support in each of the last 25 years, broken down by constituency within each region. [175130]

Mr. Pond: The available information has been placed in the Library.

Industrial Injuries (Appeals)

Tony Lloyd: To ask the Secretary of State for Work and Pensions what the Government's target time is from application to hearing for appeals concerning industrial injuries disablement benefit diseases; and what the average waiting time has been for those whose appeals are currently being heard. [175717]

Mr. Pond: This is a matter for Christina Townsend, Chief Executive of the Appeals Service. She will reply to the hon. Member.

Letter from Christina Townsend to Mr. Tony Lloyd dated 27 May 2004:

The Secretary of State has asked me to reply to your question regarding the target time for hearing appeals concerning Industrial Injuries Disablement Benefit (IIDB) diseases and the average waiting time for those whose appeals are currently being heard.

Our target for the 2003–2004 financial year was to hear appeals within an average of 13 weeks from receipt in our Service. Information on waiting times is not available in the format requested but I can advise you that the average waiting time for Industrial Injuries Disablement Benefit appeals was 15.9 weeks for the 2003–2004 financial year.

I hope that this is helpful.

Information and Communication Technology

Mr. Simon: To ask the Secretary of State for Work and Pensions what his budget is for staff training in information and communication technology in this financial year. [173716]

Maria Eagle: The Department for Work and Pensions and its agencies do not have a specific budget for training staff in Information and Communication Technology (ICT) during the current financial year. Resource is allocated to Learning and Development in general and includes an element in respect of ICT learning.

However, Jobcentre Plus, DWP's largest agency, has committed a budget of £400,000 for non-specialist staff to learn basic IT applications such as Word and Excel. All other ICT learning in the Department will be funded from the general Learning and Development budget.

Mr. Simon: To ask the Secretary of State for Work and Pensions what his targets are for improving the information and communication technology (ICT) skills base of staff within *(a)* his Department and *(b)* its agencies; and what method he uses to certify the competence levels achieved by staff receiving training in ICT. [173717]

Maria Eagle: DWP and its agencies do not have specific targets for improving the Information and Communication Technology (ICT) skills base of staff, but we are committed to ensuring staff have the skills and competence to do their jobs. Learning needs are identified on an individual basis through discussion between jobholders and their line managers. This process will increasingly be assisted by the development of a series of capability matrices which will enable individuals to define their learning needs and to identify the learning solutions by which they can meet them.

The standard Kirkpatrick model is used to evaluate learning and development in the Department, including an assessment of whether individuals have met the learning objectives of the course.

Scottish and National Vocational Qualifications (S/NVQs) in Information Technology are available to staff but these are not mandatory. In the business year 2003–04, 200 staff completed full awards in IT S/NVQ's. Of these, 16 were at level 1, 156 at level 2 and 28 were at level 3. Staff undertaking S/NVQ's are required to produce a portfolio of evidence to demonstrate the required level of competence.

Jobcentre Plus

Mr. Dismore: To ask the Secretary of State for Work and Pensions if he will place in the Library a copy of the assessment made under the provisions of the Race Relations (Amendment) Act 2000 of the proposal to move Jobcentre Plus jobs out of London; and if he will make a statement on the implications of the assessment. [175025]

Jane Kennedy: The draft Impact Assessment forms the basis for further consultation and is currently with London Public and Commercial Services Union (PCS) representatives for their initial comments. Following receipt of their comments the intention is to circulate a further draft to a much wider range of stakeholders including all London MPs, the Greater London Authority, the Commission for Racial Equality, the London Development Agency, the Government Office for London and others.

Once the draft has been agreed, the final version will of course be made available and I will arrange for a copy of this document to be placed in the Library when it is published.

EU Worker Registration

Mr. Dismore: To ask the Secretary of State for Work and Pensions what assessment he has made of the likely impact of the fee for registering under the EU workers registration scheme *(a)* on Jobcentre Plus services and *(b)* on illegal working; and if he will make a statement. [175032]

Jane Kennedy: The UK Government support the free movement of people and workers within the EU—providing our citizens with the opportunity to work elsewhere, as well as allowing our economy to benefit from the productive potential of workers from the new member states.

The UK has one of the most successful and flexible labour markets in the EU with unemployment at its lowest level for 30 years. The UK labour market has upwards of 550,000 vacancies, and around 15 per cent. of UK trend economic growth depends on migration. Indeed studies show that migrants paid £2.5 billion more in taxes in 1999–2000 than they consumed in benefits and services. Hence the UK is well placed to absorb additional workers from accession states.

But just as UK nationals have the responsibility not to abuse our benefit and social protection system, so we would expect our neighbours and partners in the EU not to abuse the system. That is why we have allowed free movement of labour but brought in regulations to prevent exploitation of our benefits.

It costs £50 to register for the first time under the worker registration scheme. The fee has been set at this level to cover some of the administrative costs of running the scheme, in accordance with other charged services. Registration enables those nationals from the eight accession states who were working in the UK without authorisation prior to 1 May to regularise their status and move into the formal economy. We do not believe that a one-off fee of £50 will act as a deterrent to registration by them or by others arriving in the UK. Similarly, we foresee the introduction of this fee having no impact on the services provided by Jobcentre Plus.

Lung Diseases

Malcolm Bruce: To ask the Secretary of State for Work and Pensions what the most recent estimate is of the number of *(a)* deaths from mesothelioma, *(b)* cases of lung cancer attributable to asbestos, *(c)* deaths from asbestosis, *(d)* disablement benefit cases relating to asbestosis and *(e)* cases of disablement benefit for diffuse pleural thickening. [175957]

Jane Kennedy: There were 1, 848 deaths from mesothelioma in 2001 (the latest year for which data are available).

Lung cancers caused by exposure to asbestos cannot be individually distinguished from those due to other causes such as smoking. However, based on research evidence on the relative incidence of mesothelioma and lung cancer in specific occupational groups, it is estimated that there were between approximately 1,750 and 3,500 asbestos related lung cancer deaths in 2001.

There were 73 deaths in 2001 in Great Britain where the underlying cause of death was recorded as asbestosis.

Provisional figures for 2003 indicate that 650 cases of asbestosis and 400 cases of diffuse pleural thickening were identified through the Department for Work and Pensions Industrial Injuries and Disablement Benefit Scheme.

Mr. F.A. Street

Mr. Steen: To ask the Secretary of State for Work and Pensions when the decision of the appeal tribunal on 23 April to pay income support to Mr. F A Street of Kingsbridge, Devon from 31 October 2003 will be implemented; and what the reasons are why payment has not been made. [176216]

Mr. Pond: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Steen, dated 27 May 2004:

The Secretary of State has asked me to reply direct to your question concerning payment of income support for Mr. F A Street, following an appeal tribunal decision. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Details of benefit claims are confidential and I will write to you directly on the matter in question.

This is in line with Part 2, paragraph 12 of the Code of Practice on Access to Government Information.

New Deal

Tony Lloyd: To ask the Secretary of State for Work and Pensions how many lone parents in Manchester, Central have gained work through the New Deal programme. [175714]

Jane Kennedy: 700 lone parents in Manchester, Central have gained work through the New Deal for Lone Parents since the start of the programme in October 1998. Figures for lone parents who have gained work through other New Deal programmes are not available.

Mr. Benton: To ask the Secretary of State for Work and Pensions how many women in Bootle have benefited from *(a)* the New Deal for Lone Parents and *(b)* the New Deal for Partners since 1997; and if he will make a statement. [176235]

Jane Kennedy: Through the New Deal we have introduced a wide range of initiatives to help individuals improve their employment prospects by giving them the skills, support and confidence they need to move into work. From 12 April we enhanced the New Deal for Partners in order to offer partners taking part in that programme the same level of help and support as our successful New Deal for Lone Parents programme. Also from this April we have started to roll out Work Focused Interviews for Partners, offering greater support to partners of benefit recipients.

Some 1,390 women have started New Deal for Lone Parents in Bootle since the beginning of the programme in October 1998, of whom, 800 have gained a job. Information on the number of women who have benefited from the New Deal for Partners is not available.

Mr. Benton: To ask the Secretary of State for Work and Pensions how many lone parents in Bootle have gained work through the New Deal programme. [176236]

Jane Kennedy: 810 lone parents in Bootle have gained work through the New Deal for Lone Parents since the start of the programme in October 1998. Figures for lone parents who have gained work through other New Deal Programmes are not available.

Parental Income

Mr. Jenkins: To ask the Secretary of State for Work and Pensions (1) what the net effect has been of income tax, national insurance and benefits in each year since 1997 on the income of *(a)* two non-working parents with four children under 16 years and *(b)* two working parents with four children under 16 years earning up to (i) £10,000, (ii) £15,000, (iii) £20,000, (iv) £25,000 and (v) £30,000; [172831]

(2) what the net effect has been of income tax, national insurance and benefits in each year since 1997 on the income of *(a)* two non-working parents with three children under 16 years and *(b)* two working parents with three children under 16 years earning up to (i) £10,000, (ii) £15,000, (iii) £20,000, (iv) £25,000 and (v) £30,000; [172832]

(3) what the net effect has been of income tax, national insurance and benefits in each year since 1997 on the income of *(a)* one non-working parent with a child under 16 years and *(b)* one working parent with a child under 16 years earning up to (i) £10,000, (ii) £15,000, (iii) £20,000, (iv) £25,000 and (v) £30,000; [172833]

(4) what the net effect has been of income tax, national insurance and benefits in each year since 1997 on the income of *(a)* one non-working parent with two children under 16 years and *(b)* one working parent with two children under 16 years earning up to (i) £10,000, (ii) £15,000, (iii) £20,000, (iv) £25,000 and (v) £30,000; [172834]

(5) what the net effect has been of income tax, national insurance and benefits in each year since 1997 on the income of *(a)* one non-working parent with three children under 16 years and *(b)* one working parent with three children under 16 years earning up to (i) £10,000, (ii) £15,000, (iii) £20,000, (iv) £25,000 and (v) £30,000. [172835]

(6) what the net effect has been of income tax, national insurance and benefits in each year since 1997 on the income of *(a)* one non-working parent with four children under 16 years and *(b)* one working parent with four children under 16 years earning up to (i) £10,000, (ii) £15,000, (iii) £20,000, (iv) £25,000 and (v) £30,000; [172836]

(7) what the net effect has been of income tax, national insurance and benefits in each year since 1997 on the income of *(a)* two non-working parents with a child under 16 years and *(b)* two working parents with a child under 16 years earning up to (i) £10,000, (ii) £15,000, (iii) £20,000, (iv) £25,000 and (v) £30,000; [172837]

(8) what the net effect has been of income tax, national insurance and benefits in each year since 1997 on the income of *(a)* two non-working parents with two children under 16 years and *(b)* two working parents with two children under 16 years earning up to (i) £10,000, (ii) £15,000, (iii) £20,000, (iv) £25,000 and (v) £30,000. [172838]

Mr. Pond: The information has been placed in the Library.

Parliamentary Questions

Mr. Webb: To ask the Secretary of State for Work and Pensions when he will answer questions *(a)* 152844, *(b)* 152845 and *(c)* 152855, tabled by the hon. Member for Northavon on 30 January. [167392]

Maria Eagle *[holding answer 22 April 2004]:* Replies were given to the hon. Member on 22 April, 12 February and 24 May respectively.

John Thurso: To ask the Secretary of State for Work and Pensions what proportion of *(a)* ordinary written questions to his Department were answered within five sitting days of tabling and *(b)* questions for written answer on a named day received a substantive answer on that day in (i) the 2002–03 parliamentary session and (ii) this parliamentary session, broken down by month. [171194]

Maria Eagle: The information is in the table.

Percentage

	Proportion of ordinary written questions answered within five sitting days	*Proportion of named day written questions answered on that day*
Session 2002–03		
13–30 November	4	20
December	41	41
January	23	55
February	34	52
March	37	60
April	57	46
May	50	62
June	16	53
July	56	73
August	No questions tabled	
September	80	79
October	45	73
1–20 November	74	75

December	62	73
January	39	78
February	48	83
March	52	81
April	85	72

Note:
Figures correct as at 5 May 2004.

Pension Protection Fund

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate the annual cost of running the Pension Protection Fund, broken down by *(a)* direct costs of employing staff, *(b)* costs paid to outside bodies including (i) investment managers and (ii) actuaries and *(c)* the costs of collecting the levy by the New Pension Regulator. [175945]

Malcolm Wicks: Our initial estimates indicate that running costs for the early years of the PPF are between £9–15 million per year. These are order of magnitude figures and are based on a number of assumptions made very early on about the way the PPF might operate. The operating model and the detailed processes underpinning that model are now being refined; this is enabling us to have a much clearer view about not only the potential supply routes, but also the number of people, and necessary skills set, the PPF will need to deliver its business. It is important to note that final decisions relating to operations are very much a matter for the in-coming board. Estimates will be revised once these decisions are firmed up.

With those points in mind, the early numbers show that on the basis of PPF employing around 100 staff—including professionals such as actuaries—the staff costs represent approximately a third of the total. The charges relating to investment managers are not factored into the admin costs, as they are part and parcel of the on-going activity relating to the Fund itself. Assumptions relating to the charges in this area are, at this stage, commercially sensitive. We estimate costs relating to levy collection are in the order of less than half a million pounds.

Pension/Benefit Fraud

Chris Ruane: To ask the Secretary of State for Work and Pensions what measures he has taken to eliminate *(a)* pension and *(b)* housing benefit fraud. [174997]

Mr. Pond: We are committed to driving down levels of fraud and error in the benefits system.

A service delivery agreement was introduced to reduce loss from fraud and error in minimum income guarantee/pension credit by 20 per cent. by March 2006. The latest figures for minimum income guarantee were published in the national statistical report, "Fraud and Error in Income Support and Jobseeker's Allowance from April 2002 to March 2003"; a copy is available in the Library.

The report shows that loss from fraud and error is falling, with a 17 per cent. reduction in fraud and error between April 2002 and March 2003 against the baseline, and a reduction in fraud alone of 45 per cent.

Data-matching with the Inland Revenue on savings and contributions to occupational pension schemes identifies income that may not have been reported; additionally information on other savings products such as individual savings accounts will become available for data matching later this year. These measures are equally applicable to the detection of fraud in relation to pension credit which replaced minimum income guarantee in October 2003.

The Government have set a challenging target to reduce fraud and error in housing benefit for working age people. We are working with local authorities to achieve a 25 per cent. reduction by March 2006, and the total amount available to spend on tackling fraud and error in housing benefit in the three years from 2003 to 2006 is £420 million. The Department published "Fraud and Error in Housing Benefit, April 2002 to March 2003" on 11 December 2003. This report represents the first national headline estimates for the level of fraud and error in housing benefit; a copy is available in the Library.

Latest figures show that, in the last three years, local authorities have increased the number of prosecutions and sanctions for benefit fraud by more than 500 per cent. In 2003–04, local authorities carried out 2,667 prosecutions and issued 6,289 cautions and penalties.

The Verification Framework is intended to detect and prevent fraudulent claims and sets a minimum standard of evidence needed for a claim to be assessed. Of the 348 authorities which have received funds to implement the Verification Framework scheme, 301 are fully compliant, with a further 37 being compliant in at least one of the modules. Verification Framework funding of £224 million has been made available for the three years from April 2003, with an additional £8 million being made available to local authorities to assist them with the change from the current VF scheme to a new regime introduced in April 2004.

From 5 April 2004, the Department is providing local authorities with monthly data-matching and risk based reviews via the Housing Benefit Matching Service (HBMS). This will enable local authorities to identify fraud and error at an earlier stage than in the past, ensuring that any overpayments are kept to a minimum.

Pensioners

Mr. Peter Duncan: To ask the Secretary of State for Work and Pensions how many pensioners in Scotland receive council tax benefit. [176492]

Mr. Pond: As at May 2002, there were 284,000 pensioner households receiving council tax benefit in Scotland, including 340,000 beneficiaries aged 60 or over.

Notes:

1. Pensioner households are defined as benefit units (which may be a single person or a couple) where the claimant and/or partner are aged 60 or over.

2. Beneficiaries are defined as claimants and partners who are aged 60 or over.

3. The figures have been rounded to the nearest thousand.

4. Figures for any non-responding authorities have been estimated.

5. Council tax benefit totals exclude any second adult rebate cases.

Source:

Housing benefit and council tax benefit annual summary statistics, May 2002.

Mr. Flight: To ask the Secretary of State for Work and Pensions what the cost was of over-payments to pensioners in each year since 1997. [175753]

Malcolm Wicks: The information is in the table.

Cost of benefit overpayments to pensioners

	Volume	*Value (£)*
1999–2000	111,599	26,074,886
2000–01	140,795	42,333,932
2001–02	201,260	87,619,329
2002–03	156,189	58,192,614
2003–04	149,554	51,428,186

Notes:
1. Records are not available prior to 1999–2000.
2. Data for 1999–2000 and 2000–01 is based on overpayments of Attendance Allowance and Retirement Pension.
3. From 2001, data includes Income Support paid to claimants over the age of 65.
4. From 2003, overpayments of Pension Credit are included.

Source:
Central Debt Management System

Mr. Flight: To ask the Secretary of State for Work and Pensions what procedures are in place to enable pensioners who have been over-paid to pay sums back to the Department. [175754]

Malcolm Wicks: There are various procedures in place to enable pensioners who have been overpaid to repay sums to the Department. The method of repayment will depend on the particular circumstances of the case; our aim being to recover the money in a cost effective manner without causing unnecessary hardship to the customer.

Customers are notified of an overpayment and given one calendar month to pay the amount in full or to arrange payment by instalment. The notification includes full details of how to repay, how to appeal and how to get further help and advice.

Where the customer is not able to repay the amount in a single lump sum, payment by instalments can be negotiated. As the majority of pensioners receive payments from the Department, the preferred method of recovery by instalments is through direct deduction from their entitlement.

Both lump sum and instalment payments can also be made by Cheque, Postal Order, Girobank, Transcash, Direct Debit, Switch or Delta.

Seasonal Fruit Pickers

Colin Burgon: To ask the Secretary of State for Work and Pensions what standards his Department has in place to cover regimes of temporary accommodation sites housing seasonal fruit pickers. [175444]

Jane Kennedy *[holding answer 24 May 2004]:* The Gas Safety (Installation and Use) Regulations 1998 set specific requirements about the safety of gas systems in accommodation that is provided for an occupant who is not the owner of that accommodation.

The Health and Safety at Work etc. Act 1974 places general requirements on all work activity to be performed in a way that does not jeopardise the health and safety of the workers involved, or people affected by work activity. Those general requirements could apply to work that is done to maintain or repair temporary accommodation and hence offer some further protection to those using this type of accommodation.

Shanklin Jobcentre

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions how much has been spent in the last 12 months, and how much is planned to be spent in the next 12 months, on upgrading premises and equipment at Shanklin Jobcentre. [176365]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Jobcentre Plus.

Letter from David Anderson to Andrew Turner, dated 27 May 2004:

The Secretary of State has asked me to reply direct to your question concerning how much money has been spent on upgrading the premises and equipment at Shanklin Jobcentre in the last 12 months and plans for expenditure in the next 12 months. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Shanklin Jobcentre has not required any works in the last 12 months other than routine maintenance; therefore no monies have been spent on upgrading the building. However, in line with the national programme of upgrading the IT systems in all offices, Shanklin Jobcentre's IT system has been upgraded. We are unable to give the precise cost involved as it was funded from the national programme.

Due to the current roll-out plans of Jobcentre Plus services to the Isle of Wight we have no plans for expenditure over the next 12 months.

I hope this is helpful.

Part-time Workers (State Assistance)

David Taylor: To ask the Secretary of State for Work and Pensions what state assistance is available to people without health impediments or caring responsibilities who only work between 17 and 19 hours a week. [173948]

Mr. Pond: Adults aged 25 or over who usually work 30 hours or more a week may be eligible for working tax credit. It can also be paid to people who work 16 hours or more a week who are aged 16 or over and responsible for at least one child, or are disabled. However people without children or a disability, working between 17 and 19 hours a week would only be eligible for working tax credit if they were aged 50 or over and were returning to work after at least 6 months on one or more of a range of out-of-work benefits.

Housing benefit and council tax benefit run-on is also available to help with the transition to work. This allows certain qualifying claimants of income support and jobseekers allowance to continue to receive housing benefit and council tax benefit for up to four weeks after starting work. In April 2004, a similar provision was announced for those in receipt of incapacity benefits.

Sure Start (Manchester)

Tony Lloyd: To ask the Secretary of State for Work and Pensions how many mothers in Manchester, Central have made use of the Sure Start maternity grant. [175713]

Mr. Pond: The data is not available in the format requested, the available information is in the table.

Sure Start maternity grants

	Applications	*Awards*
For Manchester Central, Manchester South, Manchester Trinity and Oldham Social Fund Districts		
2000–01	5,061	4,147
2001–02	5,719	4,596
2002 to December	5,055	4,013
For area covered by Manchester Jobcentre Plus		
2003 January to March	1,039	889
2003–04	4,708	3,635
2004 April	421	337

Notes:
1. Manchester, Central parliamentary constituency was not included in a single Social Fund District, but used to be part of the area covered by Manchester, Central, Manchester South, Manchester Trinity and Oldham Social Fund Districts. Manchester Central parliamentary constituency is now part of Manchester Jobcentre Plus District. The latter was formed in January 2003 from Manchester Central, Manchester South and Manchester Trinity Social Fund Districts, together with part of Oldham Social Fund District. The two areas for which data are given above are different, therefore the data are not comparable.
2. Sure Start maternity grants were introduced on 27 March 2000. The very small number of cases for 1999–2000 have been excluded for data protection reasons.
3. Data is given for all applications and awards, irrespective of whether the application was made by the mother or her partner.

DWP Social Fund Policy, Budget and Management Information System.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* members and *(b)* representatives of the provisional government of Afghanistan on the (i) security situation and (ii) requirements for increased foreign involvement in Afghanistan in the last 12 months; and if he will make a statement. [175756]

Mr. Mike O'Brien: We regularly discuss these issues with the Afghan Transitional Administration at a range of levels. My right hon. Friend the Foreign Secretary visited Kabul in March this year and discussed issues including security and foreign involvement in Afghanistan with various members and representatives of the Afghan government.

This followed a similar visit in July 2003. The Foreign Secretary also addressed these issues with President Karzai and members of his government during the President's visit to the UK in June 2003. I visited Kabul in October 2003 and also met President Karzai and other members of the Afghan government in Berlin on 1 April 2004. My hon. Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Bill Rammell) visited Kabul on 4–6 May this year and met President Karzai and other Ministers.

The security situation remains a problem, particularly in the South and East. Sporadic attacks continue against both international and Afghan forces, as well as the UN and NGOs. Fighting between Afghan forces also occurs. The international community, including the UK, is responding with increased commitments of troops and resources, including by extending the network of Provincial Reconstruction Teams. In the long-term, Afghanistan must be able to maintain its own security, through an effective national army and police force. Work to recruit and train those has been under way for some time, with the UK's active support and involvement.

On 1 March 2004 DFID announced (an increase of the UK's commitment, from £200 million over five years to at least £500 million over the same period. This funding is to support a range of reconstruction work, support for conflict prevention, and the counter-narcotics effort. A booklet outlining DFID's program in Afghanistan has been placed in the Library of the House. International donors demonstrated their commitment to Afghanistan at the Berlin Conference held on 31 March—1 April 2004 by pledging US$8.2 billion of assistance over the next three years. This represents two thirds of Afghanistan's requirements over this period. We hope that the full requirement will be met through more money becoming available from donors that were only able to make one-year pledges in Berlin.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of developments over the last 12 months of the security situation in *(a)* central, *(b)* northern, *(c)* eastern, *(d)* western and *(e)* southern Afghanistan; what recommendations concerning troop contributions his Department has made; and if he will make a statement. [175757]

Mr. Mike O'Brien: Central Afghanistan, in general, is reasonably secure, assisted by the presence of the New Zealand-led Provincial Reconstruction Team (PRT) based in Bamiyan and the new PRT in Oruzgan Province. Northern Afghanistan is generally stable but is subject to long-standing tensions between the two biggest factions in the region. The UK-led PRT based in Mazar-e Sharif has helped defuse tensions and a second UK-led PRT is now being established in Faryab Province. There tend to be fewer security incidents in the west. A flare-up of fighting in Herat followed the death of the Afghan Minister for Civil Aviation and Tourism in March but units of the Afghan National Army (ANA) calmed the situation.

Security in the south and east is worrying. There have been murders of international and Afghan aid workers. Seven PRTs have been established in the south and east to help improve the security environment. Coalition forces and units of the ANA continue to pursue terrorists, especially along the border with Pakistan. The Pakistani army is playing its part in ensuring that perpetrators of attacks in Afghanistan cannot easily find refuge in Pakistan.

The international community, including the UK, is responding to the need for security with increased commitments of troops and resources. Additional PRTs are the key to expanding the NATO-led International Security Assistance Force (ISAF). The UK has agreed to lead a second PRT and provide a Forward Support Base for all PRTs in the North. But ISAF expansion can only proceed once NATO's statement ofrequirements is fully met. We are pressing other nations to contribute the resources needed to meet remaining shortfalls.

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* members and *(b)* representatives of the provisional Government of Afghanistan concerning the timing of elections; and if he will make a statement. [175758]

Mr. MacShane: We regularly discuss arrangements for the elections with members of the Afghan Transitional Administration (ATA) at all levels; I discussed this subject with President Karzai and other members of the ATA in Berlin on 1 April.

President Karzai announced on 28 March that national elections would be held in September 2004. The Joint Elections Monitoring Board, a joint Afghan Government and UN body, is currently leading preparations while an electoral law is finalised. The UK is committed to supporting the electoral process. Last year we contributed £10.55 million to support election registration, we have pledged a further £0.5 million for voter education and £2.77 million to support preparations for the elections themselves. We are working with the UN, international partners and NATO to consider how the international community can assist and can support the Afghan Government in delivering security for the election process.

Israel

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has held with the Israeli Government about the situation of the Bedouins in the Negev. [175203]

Mr. MacShane: My right hon. Friend the Foreign Secretary has not recently raised this issue with the Israeli Government. In August 2003 our embassy in Tel Aviv raised with the Israeli Ministry of Foreign Affairs the situation of the Bedouin, including plans for development of the Negev, and government action to improve the standard of health among the Bedouin. During her visit to Israel in October 2003, my noble Friend the Baroness Symons of Vernham Dean discussed the plight of the Bedu with representatives of several Israeli human rights groups.

Departmental Buildings

Mr. Flight: To ask the Secretary of State for Foreign and Commonwealth Affairs how many buildings in England owned by his Department are used at less than 25 per cent. capacity for more than three months of the year. [175981]

Mr. MacShane: None.

EU Enlargement (Benefit Restriction)

Lembit Öpik: To ask the Secretary of State for Foreign and Commonwealth Affairs what factors underlay the decision of the Government to restrict benefit opportunities for nationals of EU accession states; and if he will make a statement. [161352]

Mr. Pond: I have been asked to reply

The Government strongly support the accession to the European Union of the new member states. We intend to open our borders to those who genuinely want to come and work here. This will benefit the UK economy, expanding the range of skills and supply of workers available across the UK. People from the accession countries who are legally working in the UK will have the right to reside in the UK while in work.

However, we need to take measures to protect our social security system from possible abuse. Regulations were laid on 30 April 2004 making it a requirement that a person has the right to reside in the UK, as well as being habitually resident, in order to claim income-related benefits. Workers who are legally working in the UK and who are on low income may qualify for housing benefit and council tax benefit as well as child benefit and tax credits.

Iraq

Mr. David Stewart: To ask the Secretary of State for Foreign and Commonwealth Affairs who is responsible for deciding on the use of oil assets in Iraq. [174045]

Mr. Mullin: As agreed in UNSCR 1483, DFI funds are disbursed at the direction of the Coalition Provisional Authority (CPA), in consultation with the Iraqi interim administration, to meet the needs of the Iraqi people. UNSCR 1483 also noted the establishment of an audit oversight body for the DFI—the International Advisory and Monitoring Board (IAMB). The IAMB is charged with ensuring that DFI funds are used in a transparent manner and for the purposes for which they were disbursed.

The Iraqi Ministry of Finance and of Planning and Development Co-operation working with the CPA have published Budgets for 2003 and 2004 which outline the use of oil revenues in public expenditure in Iraq (Budget information can be found on the CPA website at http://www.cpa-iraq.org/budget/). In addition a Programme Review Board (PRB) has been established to enable emergency off-budget expenditure (decisions made by the PRB can be found at http://www.cpa-iraq.org/budget/program_review_board.html).

Mr. David Stewart: To ask the Secretary of State for Foreign and Commonwealth Affairs how many barrels of oil have been exported from Iraq since the fall of Saddam Hussein; what value this represents; and what use has been made of these funds within Iraq. [174046]

Mr. Mullin: All proceeds from the export sale of Iraq's oil are deposited in the Development Fund for Iraq (DFI), as agreed in United Nations Security Council Resolution (UNSCR) 1483. As of 17 May 2004 approximately US$ 9.4 billion had been deposited into the DFI from the export sale of oil since 28 May 2003.

Information on the volume of oil exports from Iraq by month can be found on the US Department of Defense website at http://www.defendamerica.mil/. Average crude oil exports for each month since June 2003 to April 2004 are as follows:

	Monthly average crude oil exports from Iraq—millions of barrels per day
June 2003	0.2
July 2003	0.322
August 2003	0.646
September 2003	0.983
October 2003	1.149

	Monthly average crude oil exports from Iraq—millions of barrels per day
November 2003	1.524
December 2003	1.541
January 2004	1.537
February 2004	1.382
March 2004	1.825
April 2004	1.804

As determined in UNSCR 1483 all DFI funds are to be used in a transparent manner to meet the needs of the Iraqi people. The Iraqi Ministry of Finance and of Planning and Development Co-operation working with the CPA have published Budgets for 2003 and 2004 which outline the use of oil revenues in public expenditure in Iraq (Budget information can be found on the CPA website at http://www.cpa-iraq.org/budget/). Disbursements have included support of food production and distribution programmes, currency exchange programmes, electricity and oil infrastructure programmes, equipment for Iraqi security forces, and Iraqi civil service salaries and ministry budget operations.

Middle East

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has made to the Israeli Government regarding its refusal to register children born in the occupied territories to parents of mixed Israeli/Palestinian origin; [175351]

(2) what representations he has made to the Israeli Government following its decision to prohibit Israelis married to residents of the Occupied Territories to live with their spouses in East Jerusalem. [175352]

Mr. MacShane: My right hon. Friend the Foreign Secretary has not raised these issues with the Israeli Government. During her visit to Israel in October 2003, my noble Friend the Baroness Symons of Vernham Dean discussed the legislation which is behind such discriminatory treatment of Arab Israelis with several human rights groups. Our concerns about the impact of the citizenship law were subsequently raised by British Embassy staff on 7 October 2003 with the Israeli Ministry of the Interior.

Sudan

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs what contribution his Department is making to the monitoring of the ceasefire in southern Sudan. [175719]

Mr. MacShane: The Government have contributed over £460,000 to the Verification Monitoring Team (VMT), which is responsible for investigating and reporting on breaches of the Memorandum of Understanding on the cessation of hostilities in southern Sudan. We are currently considering a further, significant contribution. The Government have provided four members to staff to work for the VMT.

Tom Brake: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will consult other members of the United Nations Security Council with a view to securing an emergency session of the Security Council to address the situation in Darfur, Sudan; [175720]

(2) what diplomatic measures his Department *(a)* has taken in the past month and *(b)* plans to take in relation to the situation in Darfur, Sudan. [175721]

Mr. MacShane: I refer the hon. Member to the reply given by my hon. Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Mr. Mullin) to my right hon. Friend the Member for Birmingham Ladywood (Clare Short) on 25 May 2004, *Official Report*, columns 1571–72W).

Darfur was discussed at the EU General Affairs and External Relations Council on 26 April and 17 May, and the UN Security Council was briefed about the situation on 2 April and 7 May. Since then, our Permanent Representative to the UN in New York has been working closely with other Security Council members, notably the US, France and Germany, to ensure that the Security Council remains focused on the crisis. We will continue to consider with all partners what further we can do to alleviate the situation.

Lady Hermon: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government supported the addition of Sudan to the UN's Human Rights Committee; and if he will make a statement. [175906]

Mr. MacShane: I refer the hon. Member to the reply given by my hon. Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Bill Rammell) to the right hon. Member for Tonbridge and Malling (Sir John Stanley) on 24 May 2004 *Official Report*, columns 1363W—136W.

Ms Keeble: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the attacks on civilians and displacement of communities in the Shilluk Kingdom in Sudan. [176063]

Mr. MacShane: We are very concerned by reports of fighting in the Upper Nile region of Sudan, and, in particular that civilians have been targeted. Estimates suggest that between 70–80,000 people have now been displaced and non-governmental organisations in the area have reported that services in the town are becoming increasingly stretched. Though we understand that fighting has decreased since 3 May, the humanitarian situation is likely to deteriorate further with the onset of seasonal rains.

We are following the situation closely and are in contact with all parties in the area, including the Verification and Monitoring Team which is responsible for investigating and reporting on breaches of the cessation of hostilities. We raised the matter with the Sudanese Foreign Minister during his visit to London on 11 May.

United States

Mr. McNamara: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the United States Supreme Court concerning the Alien Torts Act. [176327]

Mr. MacShane: The Government, together with the Australian and Swiss Governments, filed an amicus brief in the US Supreme Court on 23 January 2004 in the Sosa *v.* Alvarez case which may serve as a test case for the US Alien Tort Statute (ATS). The concern addressed by the Government's amicus brief is the use of the ATS to bring suits for damages brought by non-US nationals or companies in relation to events occurring outside the US. The US Supreme Court is expected to rule on the ATS case at the end of June. A copy of the amicus brief will be placed in the Library of the House.

EDUCATION AND SKILLS

Student Loan Company

13. **Mr. David:** To ask the Secretary of State for Education and Skills if he will alter the rules governing the Student Loan Company Ltd. so that interest on loans is not charged when a former student is engaged in voluntary work. [176002]

Alan Johnson: We have no plans to remove the interest rate on student loans for graduates doing voluntary work. Student loans are already made on exceptionally favourable terms. There is a real terms zero rate of interest on these loans in line with inflation, as defined by the Retail "Prices Index". Currently, graduates involved with voluntary work who are earning less than £10,000 do not have to make repayments. That amount will rise to £15,000 in April 2005.

Further Education

14. **Tony Baldry:** To ask the Secretary of State for Education and Skills if he will make a statement on further education funding. [176003]

Alan Johnson: The Government have set out their investment plans for 2003–04 to 2005–06 to support its Success for All strategy to reform further education and training. These plans enable the Learning and Skills Council to increase funding for further education significantly. For the academic year 2003/04, core funding rates per qualification increased by 3 per cent. for school sixth forms and 4.5 per cent. for further education colleges (setting aside the impact on rates of changes to targeted funds for pay and staff training and teachers' pension funding). Our expenditure plans to 2005–06 should see that trend continue.

Ms Walley: To ask the Secretary of State for Education and Skills which further education colleges are participating in the *(a)* learning communities, *(b)* adult learners' grant and *(c)* employer training pilots; and what plans he has for take-up in North Staffordshire. [175564]

Alan Johnson: Further Education (FE) colleges are key partners in developing Learning Communities. Eleven test bed Learning Communities entered their development phase in April 2004 and a further 15 will be in place by September. Although, none of the test beds are located in North Staffordshire, there are proposals for two learning communities to be developed in Stoke-on-Trent and Newcastle-under-Lyme, and the local FE colleges are closely involved. At this stage in the development of the test beds we do not have information on the FE colleges involved in the local partnerships.

Adult Learning Grant (ALG) pilots are currently being operated in 10 local Learning and Skills Council areas. There are over 75 FE colleges and other providers (as seen in following Table) who have learners in receipt of an ALG in the pilot areas. From September 2004, there are plans to double the size of the current pilot by extending ALG throughout the two lead regions—the South East and North East. There are no ALG pilots in the Staffordshire area and the area does not figure in the lead regions.

There are currently 12 Employer Training Pilots in operation and, by September 2004, there will be 18 covering 20 local LSC areas. The LSC is responsible for managing the pilots, which involves 118 FE colleges (as seen in the following list) providing training and other services to help meet the skills needs of participating employers. At present there are no plans to extend the pilots to North Staffordshire.

Skill-based Qualifications

15. **Ross Cranston:** To ask the Secretary of State for Education and Skills what plans he has to develop flexible skill-based qualifications. [176004]

Mr. Ivan Lewis: Creating an employment-led qualifications system for adults that responds quickly to changing skills needs is a key goal of the Government's Skills Strategy.

The Qualifications and Curriculum Authority is working with the Learning and Skills Council, the Sector Skills Development Agency and partners in Wales, Northern Ireland and Scotland to develop a fully operational credit-based system across all sectors.

Overseas Students

16. **Tom Brake:** To ask the Secretary of State for Education and Skills if he will estimate the annual number of overseas students coming to study in the UK after 2006. [176005]

Alan Johnson: My Department has no plans to estimate the number of overseas students who may come to the UK to study in the future.

Deferred University Entry

17. **Mr. Rendel:** To ask the Secretary of State for Education and Skills how many young people applied for deferred entry to university in 2003–04. [176006]

Alan Johnson: Figures from the Universities and Colleges Admissions (UCAS) show that 18,930, or 12 per cent., of 18-year-olds who obtained a place on a full-time undergraduate course in autumn 2003, chose to defer entry.

Adult Education Spending

Mrs. Humble: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Blackpool North and Fleetwood in each of the last five years. [176146]

Mr. Ivan Lewis: The estimated total spend on "Skills For Life"—the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2—and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Lancashire Learning and Skills Council (LSC) area is set out in the table as follows:

£000

	Basic skills	*Key skills*
April 2001 to July 2001[1]	3,370	1,270
August 2001 to July 2002	6,577	1,857
August 2002 to July 2003	7,815	1,948

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Adult Learning and Skills

Mr. Willis: To ask the Secretary of State for Education and Skills what steps he is taking to ensure that young people and their families are being prepared through the 13 to 19 curriculum for the effects of demographic changes to the workforce over the coming decade and possible skills mismatches. [175845]

Mr. Miliband: The Government set out their strategy for the 14–19 phase of education in their policy document, 14–19: "Opportunity and Excellence". They have asked the Working Group on 14–19 Reform to recommend how there might be greater coherence in vocational learning programmes for all young people in their 14–19 education and on a unified framework of qualifications suitable for all learners. The Group's interim report was published in February and its final report is expected in the Autumn. The Government have already taken action to bring work related and vocational education into the mainstream of the secondary system to help address skills needs. Among other measures: work related learning will become a statutory requirement for all at KS4 from September 2004; qualifications such as the GCSEs in vocational subjects have been introduced to extend the curriculum offer; and programmes such as "Increased Flexibility for 14–16 Year Olds" and "Young Apprenticeships" will provide off-site placements and experience of work for students wanting more applied learning. The Skills Strategy, published in July 2003, set out an over-arching vision for equipping individuals and employers with the

skills they need in order to increase productivity, increase personal returns and close the skills gaps with our international competitors.

Mr. Willis: To ask the Secretary of State for Education and Skills how his Department is *(a)* balancing the targeted social welfare agenda and the skills agenda and *(b)* taking into account (i) the OECD review of career development, (ii) the inquiry by the Education and Skills Select Committee into skills strategy and (iii) changing workforce demography; and if he will make a statement. [175848]

Mr. Ivan Lewis: In response to the hon. Member's first question, the Department is working closely with the Department for Work and Pensions to balance the targeted social welfare agenda and the skills agenda.

The Skills Strategy White Paper—"21st Century Skills: Realising Our Potential", published July 2003—invited the National Employer Panel to look at this specific issue. The Panel reported in February 2004 with a number of recommendations. We are taking these forward these recommendations working with DWP, the LSC and Jobcentre Plus. Building on this report, in the Budget, the Chancellor announced a New Deal for Skills. This will focus on the low skilled who are on benefits—both active and inactive—and help them acquire the skills they need for sustained employment.

In response to his second question, the Education and Skills Select Committee started its inquiry into skills in January focusing initially on 14 to 19 agenda; it is currently on-going and is due to continue after the summer recess. We await the conclusions of the Committee's work with interest.

The OECD report, "Career Guidance and Public Policy: Bridging the Gap" (published March 2004), highlighted some positive activity in the UK in relation to career guidance and good practice. We recognise that services such as the Connexions Service for young people, the work of Jobcentre Plus and the reform of IAG services for adults must take account of the demographic changes in the UK. I recognise that the demographic changes show that there will be an older workforce, and we must look to the integration of the skills and welfare agenda to both re-skill and up-skill older workers, and to support and encourage those people on benefits into work with appropriate training. That is why the New Deal for Skills agenda is so important.

Adult Skills

Mr. Willis: To ask the Secretary of State for Education and Skills if he will estimate the number of economically inactive adults without a level 2 qualification; and if he will make a statement. [174368]

Mr. Ivan Lewis *[holding answer 25 May 2004]:* According to the quarterly Labour Force Survey, in winter 2003/04 there were 2,862,000 economically inactive adults lacking a level 2 qualification (49.2 per cent. of an inactive population of 5,822,000).

As we said in our Skills Strategy White Paper, "21st Century Skills", we will create a new guarantee of free tuition for any adult without a good foundation of employability skills to get the training they need to achieve such a qualification at level 2. We intend that it will apply to those in the workforce or of working age—including the economically inactive who are seeking those employability skills—who do not already have a full level 2 qualification, and who commit to trying to achieve one. The entitlement will be trialled in two regions—the North East and the South East—from September 2004. Subject to experience in the first year, we will roll out the entitlement nationally from September 2005.

In the 2004 Budget the Chancellor announced a New Deal for Skills. This will focus on people with significant skills needs who are on benefits—both active and inactive—and help them acquire the skills they need for sustained employment.

Mr. Willis: To ask the Secretary of State for Education and Skills if he will estimate the number of economically inactive adults with a level 3 qualification; and if he will make a statement. [174369]

Mr. Ivan Lewis *[holding answer 25 May 2004]:* According to the quarterly Labour Force Survey, in Winter 2003/04 there were 1,903,000 economically inactive adults with a level 3 qualification (or higher), representing 32.7 per cent. of an inactive population of 5,822,000.

We want to increase the number of people with level 3 qualifications that will enhance their employability. Working through Regional Skills Partnerships and Sector Skills Councils, priority skills needs will be identified so that learning undertaken at level 3 has greater impact for both individuals and employers as regional and sector skills priorities are addressed.

In the 2004 Budget the Chancellor announced a New Deal for Skills. This will focus on people with significant skills needs who are on benefits—both active and inactive—and help them acquire the skills they need for sustained employment.

Peter Bottomley: To ask the Secretary of State for Education and Skills what plans he has to maintain adult skills provision at *(a)* basic, *(b)* level 2 and *(c)* level 3 in the Worthing area. [175449]

Mr. Ivan Lewis: The Government outlined their commitment to improving adult skills in "21st Century Skills" published in July 2003 and has set challenging PSA targets for skills improvement in basic skills and at level 2.

Sussex Learning and Skills Council (LSC) is responsible for planning and funding adult skills provision in Worthing through the main further education college, Northbrook College, and other learning providers including Worthing College and West Sussex Adult Education Service. Northbrook College, in its three-year development plan, outlined plans to maintain learner numbers at entry level, level 1 and level 3, with an increase in learners at level 2.

Sussex LSC is working closely with local providers and partners, in order to ensure that the strategic area review delivers an improvement in the provision and that the needs of individuals and employers are being met effectively. Sussex LSC is also involved in the

national pilot for level 2 entitlement to deliver free provision and financial support to adults without level 2 qualifications.

In addition, Sussex LSC has established a Skills for Life Development Centre, in partnership with the South East England Development Agency to increase demand for, and improve, basic skills provision.

Asbestos

Malcolm Bruce: To ask the Secretary of State for Education and Skills pursuant to the answer of 11 March 2004, *Official Report*, column 1715W, on asbestos, what monitoring procedures are in place to ensure schools have identified and recorded the position of asbestos; and what information his Department collects centrally on the implementation of the Control of Asbestos at Work Regulations. [175930]

Mr. Miliband: Responsibility for monitoring asbestos under the Control of Asbestos at Work Regulations 2002 rests with the owners of school premises. In the case of community schools, community special schools, voluntary controlled schools, maintained nursery schools and pupil referral units, this is the local education authority. With voluntary aided and foundation schools, it is the governing body. Any monitoring procedures in place would be co-ordinated by the local education authority.

The Department does not collect information centrally on the implementation of these Regulations.

Building Schools for the Future Initiative

Mr. Hoban: To ask the Secretary of State for Education and Skills what the Government's commitment, including private finance initiative credits, is for each successful wave one bid in the Building Schools for the Future initiative for each relevant fiscal year. [176257]

Mr. Miliband: I refer the hon. Member to response I have given him on 17 May 2004, *Official Report*, column 710W.

Bureaucracy

Mr. Willis: To ask the Secretary of State for Education and Skills how many *(a)* consultation documents, *(b)* regulations, *(c)* revised and corrected regulations, *(d)* guidance notes, *(e)* requests for statistical information and *(f)* letters from Ministers have been sent to (i) schools and (ii) local education authorities by his Department in each year from 1997–98 to 2003–04; what the cost to the Department was in each case; and how many required a response from (A) a local education authority, (B) a school and (C) a member of staff. [175918]

Mr. Miliband *[holding answer 25 May 2004]:* We strictly monitor and gate-keep the information that we automatically send to schools. However, we do not have the information segmented in the way requested.

The academic year 2002/03 saw a 50 per cent. reduction on the number of documents sent to all schools compared with the previous 2001/02 year. We will be reporting on the current academic year shortly.

Going forward, we have successfully piloted an on-line ordering system that will enable schools to choose what information they want from the Department and when. This will put schools in control of what they receive.

Careers Advice

Mr. Willis: To ask the Secretary of State for Education and Skills what steps he is taking to ensure that 13 to 19-year-olds in schools, colleges and in the workplace have access to impartial career advice and guidance which is informed by the changing labour markets. [175853]

Mr. Charles Clarke: Every 13 to 19-year-old in England has access to impartial careers advice from their local Connexions Partnership or, on-line, from Connexions Direct. Connexions Partnerships liaise with local employers and conduct labour market studies in order to help young people reach career decisions based on sound information about local and national labour market trends. Connexions also makes available national careers information products, which are developed in close collaboration with Sector Skills Councils to ensure they reflect employment trends and changing occupational requirements.

Mr. Willis: To ask the Secretary of State for Education and Skills who has been invited to serve on the end to end review of careers education and guidance in England; and what the timetable is. [175851]

Margaret Hodge: The review team is made up of officials from the Department. The team has consulted a wide range of individuals and organisations. In total around 350 people will have been consulted by the end of May, including staff and students at several schools and colleges, young people taking part in a Connexions Direct user survey, a spread of Connexions Partnerships and representatives from the following organisations: Aim Higher; Association of Colleges; Association of Learning Providers; Careers England; CBI; CfBT; Construction Industry Training Board; Disability Rights Commission; Equal Opportunities Commission; e-skills UK; Go Skills; Government Offices; Guidance Council; Guidance Enterprises Group; HM Treasury; Institute of Careers Guidance; Learning and Skills Council; Local Government Association; National Association for Gifted and Talented Youth; National Association of Careers and Guidance Teachers; National Confederation of Parent Teacher Associations; National Institute for Careers Education and Counselling; National Union of Teachers; Ofsted; Qualifications and Curriculum Authority; Secondary Heads Association; Sector Skills Development Agency; Selly Oak Hospital; Skill: National Bureau for Students with Disabilities; skillsformedia; Universities for the North East; University of Northumbria I expect the review to conclude at the end of June.

Charles Hendry: To ask the Secretary of State for Education and Skills if he will make a statement on the future of the private sector in providing careers guidance for young people. [172675]

Margaret Hodge: The Department values the contribution made by the private sector in providing careers guidance for young people. However, it is the responsibility of Connexions Partnerships to decide on the most appropriate way to deliver services for young

people in their area. Connexions Partnerships are currently considering the most cost-effective means of delivering the service, and in some cases this may involve a change of structure. This does not necessarily mean that the position on sub-contracting to private providers changes. We have found an increasing number of areas are moving to a "lead body" model leaving private sector careers contracts in place.

Care Workers (Hygiene Training)

John Mann: To ask the Secretary of State for Education and Skills how many care workers working in private sector care homes were trained in basic hygiene through Learning and Skills Council funding in the last year for which figures are available. [175990]

Mr. Ivan Lewis: The information cannot be supplied in the time available. I shall write to my hon. Friend with the answer, in due course and place a copy of my letter in the House Library.

Child Care (Hull)

Mr. McNamara: To ask the Secretary of State for Education and Skills how many child care places have been created in Hull, North since 1997. [174791]

Margaret Hodge *[holding answer 24 May 2004]:* The Department is unable to provide details of child care places for Hull, North. However, from April 1999 to March 2004 Kingston upon Hull local authority created 5,221 new child care places helping some 9,267 children. This shows an increase in the stock of child care places, taking into account turnover, of 3,909 helping some 6,938 children.

Connexions

Mr. Willis: To ask the Secretary of State for Education and Skills what assessment he has made of the level and impact of reductions in the 2004–05 Connexions budget upon each of the Connexions partnerships; what criteria were used in forming the decision to make the reductions; and if he will make a statement. [175850]

Margaret Hodge: It is too soon to assess the precise consequences of the reduction in VAT transitional funding for Connexions Partnerships but early indications are that the impact on the delivery of services to young people will be minimal. The key criterion used in forming this decision was to minimise any adverse impact on the front line services to young people.

Departmental Efficiency

Bob Spink: To ask the Secretary of State for Education and Skills what his policy is for *(a)* increasing the productivity and *(b)* cutting the costs of (i) his Department and (ii) its agencies and non-departmental public bodies. [172191]

Mr. Stephen Twigg: I refer the hon. Member to the answer given by my hon. Friend the Financial Secretary to the Treasury on 10 May 2004, *Official Report*, columns 148–49W.

Education Statistics (London)

Sarah Teather: To ask the Secretary of State for Education and Skills how many pupils there were in *(a)* primary and *(b)* secondary schools in Brent in each year since 1997. [172808]

Mr. Stephen Twigg: A table giving the requested pupil information for all Parliamentary Constituencies have been placed in the House of Commons Library. Further details on the 2004 provisional figures by local education authority can be found on http://www.dfes.gov.uk/rsaatewav/DB/SFR/s000457/index.shtml

Graduates

Phil Sawford: To ask the Secretary of State for Education and Skills what the first destination of first degree graduates was in each year since 1997; and how many and what percentage *(a)* found employment in the UK, *(b)* found employment overseas, *(c)* are undertaking further study, *(d)* are not available for employment, study or training and *(e)* are assumed to be unemployed. [173087]

Alan Johnson: The latest available information is taken from the Higher Education Statistics Agency (HESA) First Destination Supplement and is given in the table. Figures for 2002/03 graduates will be published in August 2004.

UK domiciled, full-time first degree graduates with known first destination

Activity[1]	*Year of graduation* 1997/98	1998/99	1999/2000	2000/01	2001/02
Numbers					
Entering employment in the UK	115,200	116,290	112,250	114,905	114,165
Entering employment overseas	4,340	4,430	4,620	4,450	3,875
Further study/training	32,720	33,860	32,700	32,470	33,000
Not available	8,260	9,820	10,220	11,365	11,040
Seeking employment	12,150	11,805	10,970	13,225	14,295
Total of known first destination	172,660	176,205	170,750	176,415	176,390
Percentages					
Entering employment in the UK	67	66	66	65	65
Entering employment overseas	3	3	3	3	2
Further study/training	19	19	19	18	19
Not available	5	6	6	6	6
Seeking employment	7	7	6	7	8
Total of known first destination	100	100	100	100	100

[1] Based on the destinations of graduates six months after graduation.

Note:
Totals may not sum due to founding.

HESA

Headquarters Staff

Matthew Taylor: To ask the Secretary of State for Education and Skills how many staff were employed in the Department to work in the communications field, and what the total expenditure on communications for the Department was, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others, in (A) 1994–95, (B) 1996–97, (C) 1997–98 and (D) 2001–02. [168684]

Mr. Charles Clarke: Available information is set out in the following table.

	Number	*Cost (£)*
GICs staff excluding press officers		
1994–95	50	—
1996–97	50	—
1997–98	43	—
2001–02	39	1,004,255
GICs press officers		
1994–95	20.5	—
1996–97	19	—
1997–98	20.5	—
2001–02	23	1,265,626

There are no press officers from outside the Government Information and Communications Service (GICs). Figures on the number of other non-GICs communications staff and financial data prior to 2001–02 could be provided only at disproportionate cost.

The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity. Details of the costs of special advisers are given on an annual basis. Information for the financial year 2003–04 will be published in due course.

Healthy Eating Schemes

Mrs. Brooke: To ask the Secretary of State for Education and Skills what *(a)* advice and *(b)* guidance he has issued to local education authorities regarding their implementation of healthy eating schemes. [176317]

Mr. Stephen Twigg: In April 2001 the Department introduced minimum nutritional standards for school lunches that prescribe the types of food to be available and the frequency of their availability.

To assist with the implementation of the standards, the Department has produced complementary guidance for schools and local education authorities entitled "Healthy School Lunches". The guidance provides examples of good catering practice and suggestions to encourage healthy eating.

Level 2 Qualifications

Mr. Willis: To ask the Secretary of State for Education and Skills how many adults in work were studying for their second level 2 qualification in each year since 2001. [175985]

Mr. Ivan Lewis *[holding answer 26 May 2004]:* Data on the number of adults studying for their second level 2 qualification are not available.

Part-time Students

Mr. Willis: To ask the Secretary of State for Education and Skills how many 16 to 19-year-olds were studying part-time in each year since 2001; and if he will make a statement. [175984]

Mr. Ivan Lewis *[holding answer 26 May 2004]:* The numbers of 16 to 18-year-olds participating in part-time education in England for end 2001 and end 2002 (the latest available provisional estimates) are shown in the table. The data shown in the table are snapshot information as at the end of the calendar years.

	Number of part-time students[1]
End 2001	114,600
End 2002[2]	108,000

[1] This comprises of those participating in part-time education as part of Government supported work based learning (WBL), employer funded training (EFT) and other education and training (OET).
[2] Provisional.

Pre-schools

Mr. Amess: To ask the Secretary of State for Education and Skills how many registered pre-schools there are in the UK. [173412]

Margaret Hodge: My Department estimates that there were 10,100 pre-schools or playgroups in England in January 2003.

Information on early years education in Wales, Scotland and Northern Ireland is a matter for the Education Department of the Assembly for Wales, the Scottish Executive and the Department for Education for Northern Ireland respectively.

Provisional national estimates for January 2004 on provision for children under five in England will be published on 27 May in a Statistical Release "Provision for children under five years of age in England—January 2004", a copy of which is available on the Department's website www.dfes.gov.uk/rsgateway/.

Press Officers

Mr. Laws: To ask the Secretary of State for Education and Skills how many press officers were employed in his Department in each year from 1990–91 to 2003–04; what the total cost was in each year; and if he will make a statement. [162856]

Mr. Stephen Twigg: The table as follows sets out number of press officers employed in the Department for Education and Skills and its predecessors. We are unable to provide information on the number of press officers employed by the Department from 1990–91 to 1995–96 without incurring disproportionate cost. Information for 1996–97 to 1998–99 is available from appendix 10 of the Sixth Report from the Select Committee on Public

Administration, entitled Government Information and Communication Service, published on 29 July 1998 (www.publications.parliament.uk).

	Number of Press Officers	Actual salaries spend (£)
1999–2000	28	1,110,589
2000–01	28	1,246,588
2001–02	23	1,265,626
2002–03	23	1,192,645
2003–04	18	1,352,041

School Choice

Mr. Willis: To ask the Secretary of State for Education and Skills how many of the national cohort of students were admitted to their first choice secondary school in the last year for which figures are available, broken down by local education authority. [174864]

Mr. Miliband: The information requested is not collected centrally.

School Meals (Stroud)

Mr. Drew: To ask the Secretary of State for Education and Skills how many children received free school meals in the constituency of Stroud in each year since 1997 for which figures are available. [174835]

Mr. Stephen Twigg: Tables giving requested free school meals information for all parliamentary constituencies have been placed in the House of Commons Library. Further details on the 2004 provisional figures on free school meals by local education authority can be found on http://www.dfes.gov.uk/rsgateway/DB/SFR/s000457/index.shtml.

Schools (Capital Investment)

Mr. Hoban: To ask the Secretary of State for Education and Skills pursuant to the answer of 17 May 2004, *Official Report*, column 710W, on schools (capital investment), whether all wave one plans will need to include provision for a city academy prior to approval by the Department. [175234]

Mr. Miliband *[holding answer 24 May 2004]:* Academies—and new or reformed schools including academy features—should form a key part of Building Schools for the Future (BSF) plans, whether the replacement or improvement of failing or weaker schools, or the creation of new schools. The Government expect local projects to provide a proper evaluation of academy options; such reform is critical to demonstrate the expected impact on educational standards of large-scale capital investment. We also encourage local education authorities to engage directly with potential academy sponsors as part of the BSF preparation and evaluation.

Schools (Computers)

Mrs. Humble: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Blackpool North and Fleetwood in each of the last seven years. [176202]

Mr. Charles Clarke: My Department does not collect information on school spend on computers at constituency level. However, Blackpool North and Fleetwood is in Blackpool LEA and in the last seven years schools in Blackpool have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

	Allocation to Blackpool LEA (£)
1998–99	233,891
1999–2000	376,443
2000–01	471,538
2001–02	531,056
2002–03	750,176
2003–04	774,460
2004–05	1,021,894

Special Educational Needs

Mrs. Brooke: To ask the Secretary of State for Education and Skills pursuant to the answer of 17 May 2004, *Official Report*, column 712W, on special educational needs, what steps he is taking to ensure that teachers who qualified more than five years ago have appropriate training to identify and to respond to the special needs of children in school settings. [174880]

Margaret Hodge *[holding answer 21 May 2004]:* All teachers, irrespective of when they qualified, are expected to identify their developmental needs through performance management arrangements, and to address identified needs, including improving their teaching skills in the area of special educational needs, by undertaking appropriate professional development.

SEN training needs can be identified by using the 'National SEN Specialist Standards' published by the Teacher Training Agency (TTA) in December 1999, which covers the key outcomes, the professional knowledge and understanding, and skills and attributes required, and the key areas of their role and responsibilities. The TTA have also produced a related CD-ROM, 'Identifying your Training Needs for Teaching Pupils with SEN', released in February 2002.

All schools receive a School Development Grant which they are able to use to support improvements in any aspect of teaching and learning. Local authorities may retain a proportion of this grant, under certain conditions, to provide specific training and development for SEN.

How far a school provides for pupils with SEN will be assessed as part of the usual school inspection arrangements made by the Office for Standards in Education.

Mr. Luff: To ask the Secretary of State for Education and Skills if he will make a statement on his policy on the inclusion of pupils with special needs in mainstream schools. [175997]

Mr. Ivan Lewis: We are firmly committed to the principle of inclusion and an increasing proportion of children with special educational needs attend mainstream schools. Special schools will continue to have an important role in meeting need both in their own right and in partnership with local mainstream schools.

Work Permits

Tom Brake: To ask the Secretary of State for Education and Skills what *(a)* representations he has received and *(b)* discussions he has had with representatives from the governments of (i) India, (ii) Jamaica, (iii) China, (iv) Russia, (v) South Africa and (vi) Zimbabwe about the issuing of work permits to workers from those countries to work in the UK education sector; and if he will make a statement. [175718]

Mr. Miliband: I have neither received any representations from, nor had any discussions with, these Governments in connection with work permits.

HEALTH

Care Homes

Mr. Amess: To ask the Secretary of State for Health pursuant to his answer of 13 May 2004, *Official Report*, columns 576–77W, on care homes, how many care homes were closed in *(a)* 2002–03 and *(b)* 2003–04, due to an anonymous complaint; and if he will make a statement. [175174]

Dr. Ladyman: I understand from the chair of the Commission for Social Care Inspection (CSCI) that the information requested is not collected in the form requested. Care homes may close for a number of reasons, including as a result of enforcement action by CSCI or by the provider voluntarily deregistering the service. Complaints may only be one of a number of circumstances which lead to a home closing. It would not therefore be possible or accurate to ascribe reasons for home closure directly to complaints.

Drug Labelling

Mr. Burstow: To ask the Secretary of State for Health what progress has been made since the Drugs and Therapeutics Bulletin report of 2001 to ensure that all new drugs are labelled with a black triangle warning. [174476]

Ms Rosie Winterton: The black triangle scheme is intended to facilitate the intensive monitoring of new medicines for which there is relatively limited safety data available. A black triangle symbol is used in the product information to identify the medicines for which the Committee on Safety of Medicines (CSM) and the Medicines and Healthcare products Regulatory Agency (MHRA) request health professionals to report all suspected adverse reactions rather than serious reactions alone. This is a voluntary scheme and, while use of the symbol is not a legal requirement, it is expected that marketing authorisation holders (MAHs) will use the black triangle symbol where requested to do so by the MHRA.

Following the publication of a survey in Drugs and Therapeutics Bulletin in 2001 entitled, "Failings in treatment advice, SPCs and black triangles", the MHRA formally reviewed the use of the black triangle symbol on product information. Companies were requested to submit summaries of product characteristics (SPCs) and promotional material for their products under intensive monitoring and it was subsequently found that approximately 9 per cent. did not display the symbol on their material. Importantly, the review found that all black triangle products had the symbol routinely displayed in the British National Formulary (BNF) and the monthly index of medical specialities (MIMS). These publications are widely used by health professionals when prescribing medicines. This was due to active liaison between the MHRA and MIMS and the BNF. During the review, the Association of the British Pharmaceutical Industry was also contacted and undertook to inform new companies of the scheme.

As a routine measure, the advertising unit at the MHRA reviews advertisements for new products in a selection of key published journals, and the assessment includes checking to see if the black triangle symbol is displayed. In accordance with published criteria, the unit may also ask a company to submit all promotional material to the MHRA for pre-vetting. Any omission of the black triangle symbol is brought to the immediate attention of the company, who would be asked to re-submit an amended advertisement. In general, companies are found to comply with the scheme for incorporating the black triangle symbol on their promotional material.

Elderly Care Services

Sandra Gidley: To ask the Secretary of State for Health what proportion of recipients of intermediate care services had mental health problems in each year since 1997; and if he will make a statement. [175924]

Dr. Ladyman: This information is not collected centrally.

Health Food Industry

Mr. Dalyell: To ask the Secretary of State for Health for what reasons the Minister of Health responsible for consumer affairs declined the request of the Health Food Manufacturers' Association to meet to discuss issues facing the industry. [165490]

Mr. Flook: To ask the Secretary of State for Health (1) what plans he has to meet representatives of the food supplements industry to discuss progress with the Food Supplements Directive; [171988]

(2) what plans he has to meet Commissioner Byrne to discuss the Food Supplements Directive. [171989]

Mr. Hancock: To ask the Secretary of State for Health (1) what recent discussions he has held on the impact of the European Food Supplements Directive on the food supplements industry; and what the results of the discussions were; [170580]

(2) what plans he has to meet *(a)* Commissioner Byrne and *(b)* food supplements industry representatives to discuss the impact of the Food Supplements Directive on the food supplements industry. [170581]

Mr. Gregory Campbell: To ask the Secretary of State for Health if he will meet representatives of natural health food companies to discuss the Food Supplements Directive. [168456]

Sir Sydney Chapman: To ask the Secretary of State for Health if he or the Minister for his Department will meet representatives of the health food industry on matters relating to the proposed EU Directive on vitamin and mineral supplements. [165466]

Miss Melanie Johnson: Directive 2002/46/EC on food supplements came into force on 12 July 2002. The Food Supplements Regulations England 2003, which implement the Directive in England, were laid before Parliament in June 2003 and the provisions are set to come into force on 1 August 2005. There is parallel legislation in Scotland, Wales and Northern Ireland.

In October 2003, I had a useful meeting with representatives of the health food industry to discuss their concerns over the potential impact of the Directive, particularly relating to the submission of safety dossiers to the European Food Safety Authority (EFSA) and to the future setting of European maximum levels for vitamins and minerals in food supplements.

Since then there has been a constructive meeting, facilitated by the Food Standards Agency (FSA), between industry representatives and representatives of the EFSA to discuss safety dossiers.

In addition, I recently set out the Government's views on the setting of maximum limits to Commissioner David Byrne. The EFSA is continuing work on safe upper limits for intakes of vitamins and minerals begun by the Scientific Committee on Food. It is not expected to complete this work until Summer 2005 at the earliest. The Commission will not publish a proposal on European Union maximum limits until this work is complete. Commissioner Byrne and I agreed to talk again when the EFSA's advice has been published and, if appropriate, meet. In the meantime, officials continue to press the case for safety based maximum limits in all the relevant European forums. They are keeping in close contact with the Commission officials, who will in due course draft the proposal on EU maximum limits. I have asked for progress reports.

I am willing to meet food supplement industry representatives again. However, I have suggested to them that, before such a meeting takes place, it would be useful for industry technical advisors to meet FSA officials to discuss detailed technical issues relating to dossiers and then for the industry to gain experience of submitting such dossiers to the EFSA.

Home Care (Charges)

Mr. Kidney: To ask the Secretary of State for Health what *(a)* monitoring, *(b)* evaluation and *(c)* review of the new system of charges for home care he is carrying out. [173950]

Dr. Ladyman: We plan in due course to monitor and evaluate the impact of the guidance on "Fairer Charging Policies for Home Care".

Mental Health

Mr. Heald: To ask the Secretary of State for Health how many people in England have *(a)* died and *(b)* been injured by hanging themselves from a ligature point in the suspended ceiling of an acute mental health unit between 1 September 2001 and 18 March 2004. [173481]

Ms Rosie Winterton *[holding answer 17 May 2004]:* This information is not collected centrally.

Mr. Lansley: To ask the Secretary of State for Health when he will bring forward proposals setting out a timetable for pre-legislative scrutiny of the draft mental health bill. [175317]

Ms Rosie Winterton: A revised and completed Mental Health Bill will be brought forward for pre-legislative scrutiny in this session.

Ministerial Visits

Matthew Taylor: To ask the Secretary of State for Health if he will list visits made by each Minister in the Department between December 2003 and April 2004, broken down by *(a)* date, *(b)* constituency visited and *(c)* cost. [171567]

Ms Rosie Winterton: Between December 2003 and April 2004 departmental Ministers have undertaken 81 visits. The Department does not have information on constituencies visited or the cost of visits individually.

National Service Framework for Older People

Sandra Gidley: To ask the Secretary of State for Health what sanctions will be taken against strategic health authorities that have not achieved the milestones in the national service framework for older people. [175537]

Dr. Ladyman: Planning for and implementing the majority of the milestones in the national service framework for older people is the direct responsibility of strategic health authorities (SHAs). Information is not collected centrally on progress with these. The milestones on intermediate care, stroke services, falls services and services for older adults with mental health problems, set out in the 2003–06 priorities and planning framework, are reflected in SHAs' local delivery plans (LDPs). The Department performance manages SHA service delivery against the range of agreed LDP targets through its quarterly monitoring process.

NHS Dentistry

Mr. Burstow: To ask the Secretary of State for Health (1) how he plans to measure the impact of the proposals in "Options for Change" for increasing the number of NHS dental registrations; and if he will make a statement; [174452]

(2) how progress on "Options for Change" will be monitored; and if he will make a statement. [174453]

Ms Rosie Winterton: The base contract and permanent personal dental services (PDS) contract will require a new national health service dentistry activity return, which is currently under development. This will provide information on patient numbers and dental activity under the new arrangements and will enable comparisons with previous trends.

Mr. Swayne: To ask the Secretary of State for Health when he will reply to the letter from Mr. Geoffrey Morgan of Milford-on-Sea regarding NHS dentistry of 26 February. [174630]

Ms Rosie Winterton: A reply was sent to Mr. Morgan on 5 April 2004.

Primary Health Care

Mr. Jim Cunningham: To ask the Secretary of State for Health how many primary health care staff work in the Coventry area. [176250]

Dr. Ladyman: The information requested is shown in the following table.

General medical practitioners[1], practice staff[2] employed by unrestricted principals and equivalents (UPEs)[3], and national health service hospital and community health services: primary healthcare nursing for Coventry Primary Care Trust (headcount).

	Number
General medical practitioners[1]	183
Practice staff[2]	611
of which:	
Practice nurses	132
HCHS primary healthcare nursing	492
of which:	
Health visitors	71
District nurses	43
Community psychiatry nurses	84
Community learning disabilities nurses	35
Other community services nurses[4]	259
Total	1,286

Notes:

[1] All practitioners include UPEs, restricted principals, assistants, GP registrars, salaried doctors (para 52 SFA), PMS other, GP retainers, flexible career scheme GPs and GP returners.

[2] Practice staff includes practice nurses, direct patient care, admin and clerical and other.

[3] UPEs include QMS unrestricted principals, PMS contracted GPs and PMS salaried GPs.

[4] Other community services nurses are nurses working in community services other than health visitors and district nurses.

Department of Health General and Personal Medical Services Statistics

Public Bodies

Dr. Murrison: To ask the Secretary of State for Health how many times a year the Board of the National Patient Safety Agency is scheduled to meet; and when it last met. [175346]

Ms Rosie Winterton: The board of the National Patient Safety Agency is scheduled to meet in public every two months. The last meeting took place on 12 May 2004.

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 30 April 2004, *Official Report*, column 1354W, if he will list those bodies which are still in existence. [174534]

Ms Rosie Winterton: The following departmental task forces, ad hoc advisory groups and reviews are still in existence:

Adoption and permanence task force is now sponsored by the Department for Education and Skills.

Cancer task force.

Children's task force.

Coronary heart disease task force.

Mental health task force.

National health service modernisation board.

The scientific committee on tobacco and health/advisory committee on the misuse of drugs working group on cannabis and tobacco smoking.

National users panel of the community equipment services external reference group.

Interagency working group to develop a memorandum of understanding between the Department, the Police and the Health and Safety Executive.

NHS information technology task force.

Patient environment steering group.

Practice learning task force.

Work force task force.

Advisory committee for topic selection.

Advisory group for genetics research.

"Agenda for Change" central negotiating group.

Children's national service framework strategy group.

Expert group on mental health in prisons.

Implementation board for modernising NHS hospital medicines manufacturing.

Mr. Lansley: To ask the Secretary of State for Health how often the British Pharmacopoeia Commission is scheduled to convene; and on what date it last met. [175339]

Ms Rosie Winterton: The British Pharmacopoeia Commission is scheduled to meet four times per year. The date of its last meeting was 15 March 2004.

Public Service Agreements

Mr. Lansley: To ask the Secretary of State for Health how many of his Department's public service agreement targets for *(a)* 2000 and *(b)* 2002 have been superseded. [175311]

Ms Rosie Winterton: It is too early to say what the 2004 public service agreement targets will be. The next set of targets are due to be announced by the Government in the summer.

Stroke

Andy King: To ask the Secretary of State for Health how many people suffered a stroke in the last year in *(a)* Rugby and Kenilworth and *(b)* England. [174961]

Dr. Ladyman: The information requested is shown in the table.

Primary diagnosis (ICD-10 160–169) cerebrovascular diseases. Count of finished admission episodes for selected primary care trusts (PCTs) of residence and England national health service hospitals, 2002–03

Primary diagnosis code	Description	North Warwickshire PCT	Rugby PCT	England
160	Subarachnoid haemorrhage	20	14	
161	Intracerebral haemorrhage	20	17	
162	Other nontraumatic intracranial haemorrhage	23	*	
163	Cerebral infarction	63	71	
164	Stroke, not specified as haemorrhage or infarction	159	34	
165	Occlusion and stenosis of precerebral arteries, not resulting in cerebral infarction	*	8

Notes:

Finished admission episodes

A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Diagnosis (Primary Diagnosis)

The primary diagnosis is the first of up to 14 (7 prior to 2002–03) diagnosis fields in the Hospital Episodes Statistics (HES) data set and provides the main reason why the patient was in hospital

Ungrossed Data

Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Low numbers

Due to reasons of confidentiality, figures between 1 and 5 at PCT level have been suppressed and replaced with * (an asterisk).

DEFENCE

Chagos Islands

Llew Smith: To ask the Secretary of State for Defence whether *(a)* Royal Military Police and *(b)* members of the Adjutant-General's Corps (Military Provost Staff) have been deployed on (i) Diego Garcia and (ii) other Chagos Islands since October 2001. [175481]

Mr. Hoon: There is one established Royal Military Police post within the Chagos Archipelagos on Diego Garcia. No members of the Adjutant General's Corps (Military Provost Staff) are deployed there.

Defence Medical Services

Miss McIntosh: To ask the Secretary of State for Defence what the strength of the Defence Medical Services was in *(a)* 1997, *(b)* 2000 and *(c)* 2003, broken down by (i) service, (ii) rank, (iii) specialisation and (iv) establishment. [169995]

Mr. Caplin: The strength of the Defence Medical Services by Service and specialism for each of the three years is broken down as follows. Figures for the Royal Navy and the RAF were provided by the respective Medical Director's General, and the information for the Army was provided by DASA (Army).

Royal Navy

Category	October 1997	2000	2003
Medical Officers	247	205	230
Nurses:	—	—	—
Officer	48	67	87
Other Ranks	196	197	301
Medical Support Officers	51	53	48
Medical Technicians (including ODPs):			
Officers	0	1	8
Other Ranks	96	97	80
Medical	607	678	594
Assistants/Combat Medical Technicians (other ranks)	—	—	—
Dental Officers	67	55	68
Dental Support Services:			
Officers	0	0	0
Other Ranks	104	102	114
Total	1416	1455	1630

Army

Category	October 1997	2000	2003
Other Officers (including Medical Officers and Medical Support Officers) (See note)	600	600	730
Nurses:			
Officer	250	280	290

Dental Support Services:			
Officers	0	0	3
Other Ranks	218	209	210
Total	1537	1562	1920

Notes:
1. Figures shown are broken down between officers and other ranks.
2. Historical data on the location of personnel is not held centrally, and would be available only at disproportionate cost.
3. The Army manpower data is rounded to the nearest 10. Available figures for 1997 are not broken down between Medical Officers and Medical Support Officers.
4. All figures include both trained and untrained personnel.

Departmental Executive Agencies

Mr. Soames: To ask the Secretary of State for Defence if he will list his Department's *(a)* executive agencies, *(b)* trading funds and *(c)* executive non-departmental public bodies for financial years (i) 2003–04 and (ii) 2004–05. [172122]

Mr. Caplin: In financial year 2003–04, the Ministry of Defence had the following defence agencies, trading funds and executive non-departmental public bodies:

(a) Defence agencies:

Armed Forces Personnel Administration Agency
Army Personnel Centre
Army Training and Recruiting Agency
British Forces Post Office
Defence Analytical Services Agency
Defence Bills Agency
Defence Communication Services Agency
Defence Dental Agency
Defence Estates
Defence Geographic and Imagery Intelligence Agency
Defence Housing Executive
Defence Intelligence and Security Centre
Defence Medical Education and Training Agency
Defence Procurement Agency
Defence Storage and Distribution Agency
Defence Transport and Movements Agency
Defence Vetting Agency
Disposal Services Agency
Duke of York's Royal Military School
Medical Supplies Agency
Ministry of Defence Police
Naval Manning Agency
Naval Recruiting and Training Agency
Pay and Personnel Agency
Queen Victoria School
RAF Personnel Management Agency
RAF Training Group Defence Agency
Service Children's Education
Veterans Agency
Warship Support Agency

(b) Trading Fund agencies:

ABRO
Defence Aviation and Repair Agency
Defence Science and Technology Laboratory
Met Office
United Kingdom Hydrographic Office

(c) Executive non-departmental public bodies:

Fleet Air Arm Museum
National Army Museum
Oil and Pipelines Agency
RAF Museum
Royal Marines Museum
Royal Navy Submarine Museum
Royal Naval Museum

In financial year 2004–05, the Ministry of Defence trading fund and executive non-departmental public bodies remain the same. There has however been a reduction of four in the number of defence agencies. The three single service personnel agencies ceased to have agency status from 1 April 2004, as set out in my written statement of 17 March 2004, *Official Report*, column 24WS. The Defence Housing Executive merged with Defence Estates as set out in my written statement of 30 March 2004, *Official Report*, columns 88–89WS. In addition, the Ministry of Defence Police has been renamed the Ministry of Defence Police and Guarding Agency after taking on the Ministry of Defence Guard Service.

The revised list of defence agencies for 2004–05 is shown as follows.

(a) Defence agencies

Armed Forces Personnel Administration Agency
Army Training and Recruiting Agency
British Forces Post Office
Defence Analytical Services Agency
Defence Bills Agency
Defence Communication Services Agency
Defence Dental Agency
Defence Estates
Defence Geographic and Imagery Intelligence Agency
Defence Intelligence and Security Centre
Defence Medical Education and Training Agency
Defence Procurement Agency
Defence Storage and Distribution Agency
Defence Transport and Movements Agency
Defence Vetting Agency
Disposal Services Agency
Duke of York's Royal Military School
Medical Supplies Agency
Ministry of Defence Police and Guarding Agency
Naval Recruiting and Training Agency
Pay and Personnel Agency
Queen Victoria School
RAF Training Group Defence Agency
Service Children's Education
Veterans Agency
Warship Support Agency.

International Committee of the Red Cross

Mrs. Calton: To ask the Secretary of State for Defence (1) what *(a)* instruction and *(b)* guidance his (i) officials and (ii) Ministers were following prior to the decision

not to make the February International Committee of the Red Cross report available to him as soon as it became available to his Department; [173571]

(2) what *(a)* written and *(b)* oral briefing was provided by officials in his Department to inform (i) him and (ii) his Ministers of the contents of the International Committee of the Red Cross report and actions taken (A) as a result of officials having read the report and (B) prior to the full report being made available to him. [173576]

Mr. Hoon: Ministers were made aware of those issues in the ICRC interim report relating to United Kingdom armed forces five months before they were made aware of the report. Ministers subsequently received an explanation of the handling of the full report over the weekend of 8–9 May 2004. The sequence of events is set out in my reply today to the hon. Member for Mid-Sussex (Mr. Soames).

Land Releases (Hampshire)

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 22 April 2004, *Official Report*, column 662W on land releases (Hampshire), if he will make a statement on the consultation process that will follow announcements about land disposals. [170468]

Mr. Caplin: In Hampshire, as elsewhere, as soon as an opportunity to rationalise the estate emerges, we begin the consultation process with all concerned, including staff and local authorities, to inform identification of options (including alternative defence uses) and to ensure that all relevant factors, including sustainability issues, are taken into account when decisions are made.

In recognition of the high concentration of defence sites in the County, Defence Estates hold twice-yearly liaison meetings involving all the local authorities in Hampshire to discuss all relevant issues. The last meeting was on 18 March 2004.

In the case of disposals, it is our usual policy to work within the planning process led by local authorities. In addition all disposal sites are now put on the Register of Surplus Public Sector Assets, operated by English Partnerships, for 40 working days. Former owner and pre-emption rights are, of course, taken into account where appropriate. Sites are usually sold on the open market with the benefit of planning permission, and this will involve discussion with local planning authorities in regard to local or unitary plans, alternative uses that might be permitted and the views of the community. Listed and environmentally sensitive sites are dealt with under specific guidelines.

Missile Defence

Mr. Gerald Howarth: To ask the Secretary of State for Defence what representations he has *(a)* made to and *(b)* received from the United States on the UK's participation in the development of missile defence in the past six months; and if he will make a statement on British participation. [176373]

Mr. Hoon: I have neither made representations to, nor received any from, the United States on the subject of the United Kingdom participation in US plans for Missile Defence in the last six months. Missile Defence issues have been discussed in contacts with the US Defence Secretary and others. Officials also keep in close touch with the US Administration to monitor developments. On 5 February 2003, the Government announced that it had agreed to a US request for the upgrade of RAF Fylingdales to enable for missile defence purposes.

Iraq

Harry Cohen: To ask the Secretary of State for Defence what reports he has received of Coalition forces in Iraq abusing *(a)* women and *(b)* children; and if he will make a statement. [172940]

Mr. Hoon: Amnesty International's report of 11 May contains an allegation regarding United Kingdom armed forces over the death of an Iraqi child. I am also aware of another allegation recently raised in a letter from Amnesty International, involving a 16-year-old Iraqi boy. The Royal Military Police had already initiated investigations into both these cases, and it would be inappropriate to comment further at this stage.

A report from Women Against Rape received on 17 May 2004 by the Ministry of Defence contains non-specific allegations and photographs of alleged rapes. The photographs have been scrutinised by the Royal Military Police and it has been confirmed that no UK armed forces personnel were involved.

I cannot comment on allegations relating to Coalition partners.

Mr. Soames: To ask the Secretary of State for Defence on how many occasions over the last 12 months the Secretary of State has seen reports by Amnesty International relating to the treatment by the Coalition forces of prisoners of war and other matters in Iraq. [173400]

Mr. Hoon *[holding answer 14 May 2004]:* The Ministry of Defence receives a number of communications from Amnesty International, including letters from different officers and officials, letters received as a result of AI campaigns and reports. Some are dealt with by officials, others by Ministers.

Following a range of correspondence to the Ministry of Defence from Amnesty I wrote to Director Amnesty International United Kingdom on 24 July 2003. I received details of eight incidents relating to UK forces in a letter on 16 April. On 10 May I received a report entitled "Iraq—killings of civilians in Basra and Al-Amara" which included descriptions of the same incidents. I subsequently received a copy of Amnesty's 14 May letter to the Prime Minister which included descriptions of four further incidents.

We take all allegations of wrongdoing against the UK armed forces very seriously. Some of the incidents raised by Amnesty have been identified and are subject to investigation; others require further research. The Minister of State for the Armed Forces has written to Amnesty saying that we will send to them a comprehensive response to the Amnesty reports, when this work is complete.

Mr. Soames: To ask the Secretary of State for Defence on what date the International Committee of the Red Cross report on the treatment by Coalition forces of prisoners of war in Iraq was handed to the Permanent Joint Headquarters (PJHQ); on what date the report was passed from PJHQ to the Department, and to whom; and on what date the report was passed to him. [173402]

Mr. Hoon *[holding answer 14 May 2004]:* The International Committee of the Red Cross's Report on the Treatment by the Coalition Forces of Prisoners of War and other Protected Persons by the Geneva Conventions in Iraq during Arrest, Internment and Interrogation, dated 10 February 2004, was formally passed to Ambassador Bremer and Lt. Gen. Sanchez on 26 February. An advance copy was passed by an official working for the Coalition Provisional Authority to the offices of Sir Jeremy Greenstock and the Senior British Military Representative in Iraq on 12 February. The latter passed a copy of the report to Headquarters Multi-National Division (South East) on 13 February and to the Permanent Joint Headquarters on 16 February, and posted a copy to the Ministry of Defence that arrived on 27 February. A copy of the report was sent to my office on 7 May.

Mr. Soames: To ask the Secretary of State for Defence when the written reply to the International Committee of the Red Cross report on the treatment by Coalition forces of prisoners of war in Iraq was made by his Department; and if he will place a copy in the Library. [173404]

Mr. Hoon *[holding answer 14 May 2004]:* The International Committee of the Red Cross (ICRC) did not mention any requirement for a formal response in presenting their report of February 2004.

The report covered visits that had taken place between three and eleven months earlier and there were no specific cases for the United Kingdom that were new. A new report, specific to the UK, was expected at the time and it was decided to wait until this new report was received before formally responding to the ICRC.

Wind Farms

Mr. Keith Simpson: To ask the Secretary of State for Defence whether he intends to object for operational flying reasons to the erection of a wind turbine at Shipdham in Norfolk. [176125]

Mr. Caplin: We are aware of a wind farm proposal for two wind turbines at Shipdham, Norfolk. The Ministry of Defence has not objected to the development.

NORTHERN IRELAND

Agenda for Change

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what progress has been made towards meeting staffing targets set out in Agenda for Change, with particular reference to *(a)* nurses and *(b)* health visitors. [173587]

Angela Smith: Specific staffing targets are not part of Agenda for Change. Staffing is a matter for individual Health and Social Services Trusts taking into account factors such as service needs and available resources. However, the Department has a role in ensuring that sufficient suitably qualified staff are available to meet the needs of the service and to monitor workforce levels in Trusts. This will be done through workforce planning mechanisms, which provide an analysis of the current workforce and of current and future recruitment and retention issues. These encompass issues such as the number of staff required to meet service demands and address skill-mix options. These workforce plans will inform decisions on future student intake levels

Benefit Recipients

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland how many recipients of *(a)* sickness benefit, *(b)* incapacity benefit and *(c)* disability living allowance there were in Northern Ireland in the last three years for which figures are available. [168012]

Mr. Spellar: The information requested is shown in the following tables.

At 30 November	*Number of recipients*
Disability living allowance	
2001	142,984
2002	148,025
2003	155,295
Incapacity benefit	
2001	70,905
2002	71,771
2003	71,974

Sickness benefit was replaced by incapacity benefit in 1995 and unfortunately the figures requested are no longer available.

Disability Living Allowance

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many and what percentage of people in Northern Ireland are in receipt of disability living allowance. [175859]

Mr. Spellar: As of February 2004 there where 159,911 people in receipt of disability living allowance. This equates to 9.4 per cent. of the population of Northern Ireland and 10.8 per cent. of the population who would be eligible to claim i.e. those under 65.

Heart Transplants

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what the average length of waiting time between diagnosis and assessment of patients requiring heart transplant was in Northern Ireland in 2003. [176254]

Angela Smith: Four out of the seven patients who underwent initial review in Belfast, were listed for transplant and underwent residential assessment in the Freeman Hospital, Newcastle-upon-Tyne. Individually

the time between their review and assessment was two months, less than three months, five months and six months respectively.

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what steps are being taken to reduce the length of time between diagnosis and assessment of patients requiring heart transplants in Northern Ireland. [176255]

Angela Smith: Heart transplants are not performed in Northern Ireland. Local patients travel to the Freeman Hospital in Newcastle-upon-Tyne for this operation. The timing of a cardiac transplant assessment for Northern Ireland patients is dependent upon the patient's clinical need, as determined by the referring consultant cardiologist in consultation with the transplant team from the Freeman Hospital. Non-urgent referrals are normally seen in the transplant assessment outreach clinic in Belfast City Hospital, which is attended by a consultant transplant physician and transplant co-ordinator three or four times a year. Urgent referrals can be assessed in the Freeman Hospital within days, depending upon the patient's clinical need.

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what provision is made for counselling of parents of children under 16 in Northern Ireland who are diagnosed as being in need of a heart transplant. [176256]

Angela Smith: Heart transplants for children under 16 are provided at two centres in the UK—the Freeman Hospital in Newcastle-upon-Tyne and Great Ormond Street hospital in London.

Counselling, support and education are provided at these centres for all children assessed as requiring a heart transplant. These services, which are provided by an experienced multi-disciplinary team of professionals, are also available to parents and carers.

Industrial Wage Rate

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the average industrial wage in Northern Ireland is. [175919]

Mr. Gardiner: In all industries in Northern Ireland, average gross weekly earnings of all full-time adult employees was £404.50 at April 2003. The average gross weekly earnings by industry is as follows:

Industry	*Average gross weekly pay (£)*
Agriculture, hunting and forestry	273.60
Mining and quarrying	350.60
Manufacturing	374.30
Electricity, gas and water supply	596.30
Construction	372.00
Wholesale and retail trade	336.10
Hotels and restaurants	269.60
Transport, storage and communication	386.70
Financial intermediation	507.40
Real estate, renting and business activities	387.60
Public administration and defence, compulsory social security	451.60
Education	507.30
Health and social work	419.90
Other community social and personal activities	370.50
All industries	404.50

Invest Northern Ireland

Mr. Trimble: To ask the Secretary of State for Northern Ireland what the average financial assistance offered by Invest Northern Ireland to *(a)* inward investors and *(b)* indigenous investors was per job created in each of the last five years. [159745]

Mr. Gardiner: Comprehensive and consistent information for job creation over time is not available for the full client company base of Invest Northern Ireland. Data on jobs promoted (expected to be created) is available for projects secured between 1998–99 and 2002–03 together with the financial assistance offered to promote those jobs.

Previous evidence provided by IDB to the Northern Ireland Audit Office showed that approximately 70 per cent. of jobs promoted were created and a similar proportion of grant offered was actually paid.

The information provided in the tables does not reflect all job promotions as a result of Invest NI activity, but is restricted to those generally larger indigenous businesses and inward investors for which historical information on job promotions is currently available. The focus of much of Invest NI's activity is on capability building as opposed to capacity building with the aim of strengthening business competitiveness in Northern Ireland, which in turn will lead to an increase of wealth in the economy.

Jobs promoted by inward investors

Financial year	*Jobs promoted*	*Assistance offered for job promotions (£)*	*Cost per job promoted (£)*
1998–99	4,162	29,261,639	7,031
1999–2000	6,584	65,086,586	9,886
2000–01	5,506	40,305,849	7,320
2001–02	2,526	28,582,770	11,315
2002–03	1,033	8,873,866	8,590
Grand total	19,811	172,110,711	8,688

Jobs promoted by indigenous investors

Financial year	*Jobs promoted*	*Assistance offered for job promotions (£)*	*Cost per job promoted (£)*
1998–9	1,272	15,766,331	12,395
1999–2000	561	4,061,287	7,239
2000–01	2,090	14,851,008	7,106
2001–02	370	1,471,357	3,977
2002–03	1,661	20,340,041	12,246
Grand total	5,954	56,490,024	9,488

National Stadium

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland when a decision is expected to be made on the timing and location of a national stadium for Northern Ireland. [175526]

Angela Smith: I made a announcement on 24 May 2004 outlining how the Stadium issue is to be taken forward. I have arranged for a copy to be sent to the hon. Gentleman and made available in the Library.

Police Ombudsman for Northern Ireland

Lady Hermon: To ask the Secretary of State for Northern Ireland (1) if he will list the dates on which he has had meetings with the Police Ombudsman for Northern Ireland since his appointment as Secretary of State; [173266]

(2) if he will list the dates of meetings he has had with the Police Ombudsman since his appointment. [176962]

Mr. Paul Murphy: Since my appointment as Secretary of State for Northern Ireland, I have met the Police Ombudsman informally on a number of occasions. I have had one formal meeting with her, on 28 May 2003, and intend holding a further one soon.

Police Service

Mr. Swayne: To ask the Secretary of State for Northern Ireland how many full-time police reservists are deployed on *(a)* operational duties and *(b)* in critical support functions in each district command unit. [170551]

Mr. Pearson: The following breakdown shows the current deployment of members of the Full Time Reserve using classifications defined by Her Majesty's Inspectorate of Constabulary, as follows:

	District Command Units	*Headquarters and Regions*
Operational	1,424	47
Operational support	62	28
Organisational support	3	5
Total	1,489	80

A breakdown of the officers within each District Command Unit is illustrated as follows.

The HMIC classifications used are defined as follows:

Operational:

"Any member of staff, including covert staff, whose primary role (i.e. over 50 per cent. of their time) is directly to deliver the overarching aims of the Police Service. To 'directly deliver' the role must involve routine and immediate interface (either face to face or by telephone) with the public including covert operations. Staff in such roles can be considered as frontline service providers";

Operational Support:

"Any member of staff whose primary role is to support the delivery of the overarching aims of the police service".

Organisational Support:

"A member of staff whose primary role is to service the internal needs of the organisation".

DCU	*Operational*	*Operational support*	*Organisational support*	*Total*
Antrim	36	7	1	44
Ards	44	4	—	48
Armagh	65	—	1	66
Banbridge	22	1	—	23
Belfast East	109	4	—	113
Belfast North	66	7	—	73
Belfast South	96	5	—	101
Belfast West	132	6	—	138
Ballymena	27	1	—	28
Ballymoney	12	—	—	12

Total	1,424	62	3	1,489

Sexual Offences

Mr. Dodds: To ask the Secretary of State for Northern Ireland when consultation proposals on sexual offences in Northern Ireland will be issued, following the announcement of a review in October 2003. [175726]

Mr. Spellar: We have not yet completed our consideration of this issue.

Mr. Dodds: To ask the Secretary of State for Northern Ireland what steps are being taken to ensure that children in Northern Ireland are afforded the same protection as those in England and Wales under the Sexual Offences Act 2003. [175693]

Mr. Spellar: The Sexual Offences Act 2003 was implemented on 1 May 2004. Of the 19 offences which extend directly to Northern Ireland in the Act, 9 of these relate specifically to offences against children. For example, the new offence of meeting a child following sexual grooming provides for a vital new level of protection for our children.

We have also taken the opportunity to extend to Northern Ireland the strengthened provisions which protect children, often particularly vulnerable children, who are in relationships of trust with adults.

The Act also creates new offences which specifically criminalise the abuse of children through prostitution and pornography.

The new offence of sexual activity in a public toilet also extends to Northern Ireland, and is an indication that this sort of behaviour, which is clearly inappropriate in a public toilet, will not be tolerated, particularly where children can be present.

These changes represent a significant improvement in the level of protection offered to children in Northern Ireland.

Water Cannon

Mr. McNamara: To ask the Secretary of State for Northern Ireland whether it is his policy that public funds should bear the cost of financial liability for

injuries sustained through use of water cannon loaned by the Police Service of Northern Ireland to the Irish authorities. [176328]

Mr. Pearson: The loan of the water cannon was agreed directly between PSNI and An Garda Siochana. I have been advised by PSNI that the service level agreement between PSNI and An Garda Siochana for the loan of the water cannon includes a specific provision indemnifying PSNI against all proceedings, costs, liabilities and expenses whatsoever in relation to damage, loss, injury or death arising out of the use of water cannons while in the Republic of Ireland.
